She presented a PowerPoint presentation (Residential Planned Development). Ms. Miskal talked about the amenities Generation Xer's look for in residential areas include fitness areas, meditation gardens, and dog parks. The proposed complex will have more amenities than most in the area. The number of units was reduced from the original plans submitted. The original plan requested 328 units with additional parking. However, the newly submitted plan removed two (2) buildings and provided additional space and away two buildings with 300 units and spaces giving them more green space.

Mr. Brian Kelly gave an overview of the traffic study. He gave an estimate of the daily trips on 10th Avenue North and Florida Mango Area.

Ms. Miskal expressed her concern with the buffer detail. Council Member Ready asked if commercial vehicles would be banned. Mr. Matthew Randler – provided a brief overview of the parking management study.

Mrs. Glas-Castro discussed the Findings of Necessities (FON) and stated that she requested for the Developers to explore a mixed-use alternative – it could help promote job opportunities. Furthermore, only a few properties were given parking waivers.

Mrs. Glas-Castro stated that the plans presented to the Council were not reviewed by staff. Council Member Gunther asked if the problems with parking had been addressed. He supported this project as a mixed-use instead of another residential. Mayor Pro Tem Waller asked how the traffic in that area would be handled. She complimented the Developer on the aesthetics of the building, but she doubted there was sufficient parking.

Ms. Miskel state that the project had to be financially feasible for the Developer. Site management is going to be available 24/7 on the property to handle problems. Ms. Miskel advised the proposed rent range is \$1,500 for a one (1) bedroom unit to \$2,000 for a three (3) bedroom unit. Council questioned if rents would be lowered if the market is not there and the units are not affordable. There was a discussion regarding the screening process for tenants. There was more discussion on the rules. The Council stated that they want to allow commercial trucks in the development. Mr. Kelly and Mr. Randler continued to discuss the traffic performance standards.

Mayor Smith offered the public an opportunity to speak on this item.

Timothy Devlin, a Member of the YMCA Executive Board, stated that the YMCA Executive Board of Directors favored their project.

Scott Greynolds, a member of the YMCA Executive Board of Directors, is an orthodontist in the community. He supported the opportunity to have the rentals to build a better community.

- Planning and Zoning Board

If approved, the appointment and re-appointment dates for all Board and Committee members shall become effective on May 15th of the year in which their appointment or re-appointment is scheduled.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Public Service

ITEM 6.4: Approve Solar Chloride (Solar Salt) Purchase Agreement - 3rd Amendment - Cooperative Purchasing (Piggyback - Renewal) - Public Service Department (FY 2020 Budget Funded) - Morton Salt, Inc.

SUMMARY:

The Public Service Department has a need throughout the year to purchase solar chloride (solar salt), which is a critical chemical component in the water treatment process for the Village's MIEX water treatment process and assists in the pre-treatment of water by removing organic contaminants; thus, enabling the Village to provide a higher quality of water to our customers. Currently, the Village utilizes Morton Salt to assist with these types of projects/services and the existing piggyback contract (City of Boca Raton) is expected to expire on May 30, 2020.

To ensure the lowest possible price, staff is recommending that the Village renew our ability to purchase Sodium Chloride (Sodium Salt) from Morton Salt, Inc. by continuing to piggyback the City of Boca Raton as the Lead Agency for the Southeast Florida Governmental Purchasing Cooperative Group (Co-Op), which was recently extended automatically for an additional one year period (Notification of automatic extension provided on March 31, 2020). This selection by the City of Boca Raton as Lead Agency for the Co-Op was completed through a competitive selection process - Solar Salt (Bulk), Delivery & Supply (Bid No. 2017-024 – March 7, 2017).

The extended piggyback contract amendment (renewal) would provide the same pricing that the Village is currently receiving {All original bid documents provided during the May 11, 2017, Council Meeting authorizing the initial piggyback purchase with Morton Salt [City of Boca Raton Solar Salt (Bulk) Delivery & Supply (Bid No. 2017-024 - March 7, 2017)] are available in the Village Clerk's Office}.

Note: The proposed piggyback contract was completed as part of The Southeast Florida Governmental Purchasing Cooperative (Co-Op). The intent is to bring member cities together and combine their purchasing needs within the Co-Op (of which the Village is a member) to generally receive the best (lowest) price possible. Approximately fifty-six (56) government entities, including the Village of Palm Springs, participate within the Southeast Florida Governmental Purchasing Cooperative.

If approved, the Village would accept/renew Morton Salt, Inc.'s pricing by amending (renewing) our existing agreement and continuing to piggyback the City of Boca Raton's contract including all terms, conditions and pricing therein. The term of the proposed amended agreement, if approved, would expire on May 30, 2021, and this is the third and final [of three (3) additional one (1) year] renewal options. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The Village's Purchasing Code, Section 58-9. Accessing contracts of other government agencies; provides that the Village may award a contract by piggy-backing or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

The proposed 3rd amendment to the existing agreement has been prepared by the Village Attorney and reviewed by the Public Service Director/Engineer, Assistant Public Service Director, Utilities Superintendent and the Finance Director.

The Village has worked with the proposed vendor and has generally received excellent service and a quality product.

FISCAL IMPACT:

Funding to support purchases under this proposed agreement is available within the FY 2020 Budget - Water & Sewer Enterprise Fund.

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Morton® Solar Salt Water Softening Crystals

PDS 3370
2/14
Rev 1

Description

Morton® Solar Salt Water Softening Crystals are produced from solar evaporated salt at several sites. Salt brine is impounded in shallow ponds where moisture is slowly evaporated by the action of solar heat absorption and wind. The wet harvested salt is then dried and screened. Fractional crystallization and washing voids much of the inorganic contributed by the salt brine. There are no additives.

Solar salt tends to crystallize in a pyramidal aggregate which breaks up in milling to irregular, somewhat rectangular particles, white to crystalline in appearance. Some production may contain traces of off-colored insolubles.

This product meets the specifications of ANSI/AWWA Standard B200 and is certified to ANSI/NSF Standard 60.

Use

Solar Salt Water Softening Crystals can be employed in any type of home or light commercial softener brine tank properly equipped to filter fine insolubles to avoid valve clogging. It should not be used in touch grid plate, hydrosyphon systems designed for pelletized vacuum salt as fine insolubles and undissolved salt will accumulate in the reservoir below the grid, gradually reducing brine volume for resin regeneration.

Chemical Properties

The primary impurity is the completely-soluble gypsum form of calcium sulfate. Other salt impurities consist of traces of calcium chloride, magnesium chloride and sulfate.

Analysis Range

*Sodium Chloride (%)	99.5 Minimum
Other Salts (%)	0.5 Maximum
Water Insolubles (%)	0.1 Maximum
Moisture (Surface) (%)	0.15 Maximum

**By differences of impurities, moisture-free basis (ASTM procedures).*

Particle Size

Solar Salt Water Softening Crystals have a screen tolerance for excessive fines, 5% passing a U.S.S. 12 Mesh sieve, to avoid a tendency to bridge in softener brine tanks.

U.S.S. Mesh	Opening Millimeters*	Percent Retained**
12	1.7	95 Minimum
pan	-	5 Maximum

** On individual screens*

*** 10 millimeters (mm) per centimeter; 25.4 millimeters per inch*

Voids

Initial voids immersed in water are 44 - 52%. Void capacity does not vary significantly over several regeneration cycles in a softener brine tank.

Storage/Coding

Solar Salt Water Softening Crystals are chemically stable and will not support microbial growth. To reduce the incidence of caking, store in a cool, dry area, relatively free of drafts, where the humidity does not regularly cycle through 75% rh. Under these conditions, the shelf life is indefinite. Store indoors or cover with black plastic to protect from wetting or direct sunlight. Packaging can disintegrate upon prolonged exposure to UV radiation. A manufacturing lot code is found on the package.

Producing Plants

Port Canaveral, FL; Perth Amboy, NJ; Glendale, AZ; Grantsville, UT; Long Beach, CA; Newark, CA.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Public Service

ITEM 6.5:

Approve Frost Lake Stormwater Outfall Project Reconciliation (Close Out & Change Order #1) (Task Order #248) – Public Service Department (FY 2020 Budget Funded – Stormwater Enterprise Fund) – TCLM Enterprises, Inc.

SUMMARY:

On January 9, 2020, the Village Council approved the award for the Frost Lake Outfall Improvements project (Task Order #248) to TCLM Enterprises, Inc. in the amount of \$79,562.65. The project involved the replacement of the existing culvert with a new outfall to restore the historical outflow capacity as well as the installation of a culvert to pass flow from Frost Lake north to an existing drainage ditch which outfalls to the L-8 Canal.

Following the Notice to Proceed by the Village, and during the initial site excavation, the contractor notified the Village that they encountered underground utilities within different locations and depths than what was indicated on the engineering drawings. Thus, the Village approved field adjustments to complete the installation of the storm pipe across Lillian Road and minimize impacting local traffic flow. The changes included the removal of additional trees to perform the work, rerouting a water main on Lillian Road that was found to be at a different elevation than indicated on the drawings, extended a previously undiscovered yard drain pipe from the adjacent property to the new storm catch basin on the south side of the road and shortened the outfall pipe that was estimated to be more than what was required in the field (which resulted in a credit).

The project has been completed and inspected on March 26, 2020 (66 days ahead of schedule) and, as a result, the Village's contracted engineer, Engenuity Group, and the Public Service Department are requesting approval of a final reconciliation and change order

(Change Order #1) in the amount of \$7,572.81 and an additional time extension of 2 calendar days.

Note: The awarded original contract provided a \$5,000 Miscellaneous Work Allowance that was utilized for additional sod and pavement due to site constraints that required additional excavating than originally anticipated.

The final reconciliation (close out) amount for the Frost Lake Outfall Improvements project would be as follows:

	Contract Amount	Contract Time
Original Contract Amount	\$79,562.65	150
Add: Change Order No. 1	\$7,572.81	2
Final Revised Contract Amount	\$87,135.46	152

If approved, the revised total cost of the Frost Lake Outfall Improvements project within Task Order #248 will be \$87,135.46 and the total contract time will be 152 days. No additional change orders are anticipated for this project. Construction work is complete and, if approved, the contract will be closed out.

The proposed reconciliation Change Order #1 was prepared by TCLM Enterprises, Inc. and reviewed by the Village's Contracted Engineer, the Public Service Director/Engineer, the Assistant Public Service Director, Public Service Project Manager and the Finance Director.

FISCAL IMPACT:

Funding to support Frost Lake Outfall Improvements project (Task Order No. 248) was provided within the Stormwater Enterprise Fund:

Allocated/Estimated Project Funding

FY 2019 Budget - Stormwater Enterprise Fund:	\$ 80,000.00
FY 2020 Budget - Stormwater Enterprise Fund:	\$ 45,000.00
TOTAL PROJECT FUNDING:	\$125,000.00

Actual Project Costs:

Project Cost - Engineering & Design - Stormwater Fund (TO #248):	\$ 21,960.00
Change Order #1 - Engineering & Design - Stormwater Fund (TO #248)	\$ 1,200.00
Change Order #2 - Engineering & Design - Stormwater Fund (TO #248)	\$ 600.00
Project Cost - Title Search - Stormwater Fund (TO #248)	\$ 880.00
Project Cost - Construction - Stormwater Fund (TO #248):	\$ 79,562.65

Change Order #1 - Construction - Stormwater Fund (TO #248):	\$ 7,572.81
TOTAL REVISED PROJECT COST:	\$111,775.46

Funding to support the final reconciliation cost is/was provided within the Stormwater Enterprise Fund.

Note: Due to a significantly higher project cost and additional engineering costs, this project exceeded the initial budgeted amount. However, if the final reconciliation and close out amount is approved, an internal transfer to support the proposed cost above the budgeted amount.

An internal budget transfer or amendment to support this proposed cost will be completed within the Stormwater Enterprise Fund at a later date, if necessary.

On May 10, 2018, the Village entered into a Grant Agreement with the Florida Division of Emergency Management for the Miller Road Stormwater Hazard Mitigation Grant Program (HMGP) funding to support the stormwater improvements at Miller Road and 2nd Avenue North. This public assistance grant is a result of Hurricane Matthew relief (October 2016) and was only available to projects prioritized on the countywide Local Mitigation Strategy (LMS) list.

On November 14, 2019, the Village Council approved Contract Modification #1, which provided a budget modification due to the lowest bid amount being \$16,031 higher than the original Engineer's Probable Construction Cost of \$54,759 (not including engineering and design costs). This amount was also the basis of the grant award amount issued to the Village.

Note: To ensure the lowest possible price for this project, the Village issued an Invitation to Bid (ITB) on April 11, 2019 for the construction of the Alameda Drive Drainage Improvements/Miller Road Drainage Improvements project. This process was completed through a competitive selection process - Alameda Drive Drainage Improvements/Miller Road Drainage Improvements (ITB #2019B-012 - April 11, 2019).

Since initial modification approval, Village staff was notified by our consulting engineer, Keshavarz & Associates, Inc., that a water line and a fiber optic line within the proposed project area was not accounted for within the design and engineering for this project. Thus, there was a need to revise the original construction plans to move the proposed drainage pipe further to the north to avoid potential utility conflicts. Additionally, an easement was required from an abutting property owner to ensure the proper design and construction of this project.

As a result, the Village submitted a request to modify the project budget, which has been evaluated and approved by the State. Thus, the revised, new total project cost (including pre-award design and engineering service fees) is \$111,152 with a federal award of 75% or \$83,364. The Village's responsibility for this project would be \$27,788 or 25% of the project cost.

Note: The original Mitigation Grant Agreement provided an award of \$50,646 or 75% of the project cost (\$67,528). Thus, the Village's responsibility for this project originally was expected to be \$16,882 or 25% of the project cost.

If approved, hazard mitigation grant funding would be provided to the Village on a reimbursement basis and the project would be required to be completed by September 2020.

Note: The Village's Miller Road Stormwater Improvement Project was ranked 3rd on the LMS project priority list (PPL) in April 2016. The project was first included in the Village's 5-Year Capital Budget Plan in Fiscal Year 2016 and has been included in subsequent capital budgets. This drainage project is identified in the "Stormwater Study for Justification of Interim Fees" that was adopted by the Village Council in July 2015 (Ordinance No. 2015-27).

Support for the project was unanimously provided by the Planning & Zoning Board (previously known as the Land Development Board) during its February 9, 2016 meeting as a component of the public notice and support for the LMS PPL application that was previously submitted.

FISCAL IMPACT:

Funding to support this project is include in the Village's approved FY2020 Budget - Stormwater Fund.

If approved, the Village would be reimbursed 75% (\$83,364) of the total cost (\$111,152.00), with the Village being responsible for the remaining 25% (\$27,788) of the project cost.

The Sub-Recipient, Village of Palm Springs, agrees to administer and complete the project per sealed engineering designs and construction plans as submitted by the Sub-Recipient and subsequently approved by the Division and FEMA. The Sub-Recipient shall complete the work in accordance with all applicable Federal, State and Local Laws, Regulations and Codes.

PROJECT OVERVIEW:

As a Hazard Mitigation Grant Program project, the Sub-Recipient proposes drainage improvements at the intersection of Miller Road & 2nd Avenue North in the Village of Palm Springs, Florida 33461. (Coordinates) Beginning (26.619667, -80.095146), Ending (26.619612, -80.096191).

If condemnation or eminent domain is used to obtain easement rights, FEMA shall not pay for any associated costs or payments to the property owner. Furthermore, FEMA shall not consider it an eligible contribution to the non-Federal cost share requirement and shall not financially participate in that component of a project if land or easements are obtained involuntarily.
- 9) Per FEMA Hazard Mitigation Assistance Guidance Part VI, D.3.4 – Contingency funds are not automatically available for use. Prior to their release, contingency funds must be re-budgeted to another direct cost category and identified. Post-award changes to the budget require prior written approval from the Division (FDEM). THIS AGREEMENT is entered into by the State of Florida, Division of Emergency Management, with headquarters in Tallahassee, Florida (hereinafter referred to as the "Division"), and Village of Palm Springs, (hereinafter referred to as the "Sub-Recipient").

For the purposes of this Agreement, the Division serves as the pass-through entity for a Federal award, and the Sub-Recipient serves as the recipient of a subaward.

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING REPRESENTATIONS:

A. The Sub-Recipient represents that it is fully qualified and eligible to receive these grant funds to provide the services identified herein;

B. The State of Florida received these grant funds from the Federal government, and the Division has the authority to subgrant these funds to the Sub-Recipient upon the terms and conditions outlined below; and,

C. The Division has statutory authority to disburse the funds under this Agreement.

THEREFORE, the Division and the Sub-Recipient agree to the following:

(1) APPLICATION OF STATE LAW TO THIS AGREEMENT

2 C.F.R. §200.302 provides: "Each state must expend and account for the Federal award in accordance with state laws and procedures for expending and accounting for the state's own funds." Therefore, section 215.971, Florida Statutes, entitled "Agreements funded with federal or state assistance", applies to this Agreement.

(2) LAWS, RULES, REGULATIONS AND POLICIES

i. A provision specifying a scope of work that clearly establishes the tasks that the Sub-Recipient is required to perform.

ii. A provision dividing the agreement into quantifiable units of deliverables that must be received and accepted in writing by the Division before payment. Each deliverable must be directly related to the scope of work and specify the required minimum level of service to be performed and the criteria for evaluating the successful completion of each deliverable.

iii. A provision specifying the financial consequences that apply if the Sub-Recipient fails to perform the minimum level of service required by the agreement.

iv. A provision specifying that the Sub-Recipient may expend funds only for allowable costs resulting from obligations incurred during the specified agreement period.

c. In addition to the foregoing, the Sub-Recipient and the Division shall be governed by all applicable State and Federal laws, rules and regulations, including those identified in Attachment B. Any express reference in this Agreement to a particular statute, rule, or regulation in no way implies that no other statute, rule, or regulation applies.

Either party may request modification of the provisions of this Agreement. Changes which are agreed upon shall be valid only when in writing, signed by each of the parties, and attached to the original of this Agreement.

(7) SCOPE OF WORK.

The Sub-Recipient shall perform the work in accordance with the Budget and Scope of Work, Attachment A of this Agreement.

(8) PERIOD OF AGREEMENT.

This Agreement shall begin upon execution by both parties and shall end on March 31, 2020, unless terminated earlier in accordance with the provisions of Paragraph (17) of this Agreement. Consistent with the definition of "period of performance" contained in 2 C.F.R. §200.77, the term "period of agreement" refers to the time during which the Sub-Recipient "may incur new obligations to carry out the work authorized under" this Agreement. In accordance with 2 C.F.R. §200.309, the Sub-Recipient may receive reimbursement under this Agreement only for "allowable costs incurred during the period of performance." In accordance with section 215.971(1)(d), Florida Statutes, the Sub-Recipient may expend funds authorized by this Agreement "only for allowable costs resulting from obligations incurred during" the period of agreement.

(9) FUNDING

a. This is a cost-reimbursement Agreement, subject to the availability of funds.

b. The State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature, and subject to any modification in accordance with either Chapter 216, Florida Statutes, or the Florida Constitution.

c. The Division will reimburse the Sub-Recipient only for allowable costs incurred by the Sub-Recipient in the successful completion of each deliverable. The maximum reimbursement amount for each deliverable is outlined in Attachment A of this Agreement ("Budget and Scope of Work"). The maximum reimbursement amount for the entirety of this Agreement is \$50,646.00.

d. As required by 2 C.F.R. §200.415(a), any request for payment under this Agreement must include a certification, signed by an official who is authorized to legally bind the Sub-Recipient, which reads as follows: "By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal award. I am aware that any

false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).”

e. The Division will review any request for reimbursement by comparing the documentation provided by the Sub-Recipient against a performance measure, outlined in Attachment A, that clearly delineates:

- i. The required minimum acceptable level of service to be performed; and,
- ii. The criteria for evaluating the successful completion of each deliverable.

f. The performance measure required by section 215.971(1)(b), Florida Statutes, remains consistent with the requirement for a “performance goal”, which is defined in 2 C.F.R. §200.76 as “a target level of performance expressed as a tangible, measurable objective, against which actual achievement can be compared.” It also remains consistent with the requirement, contained in 2 C.F.R. §200.301, that the Division and the Sub-Recipient “relate financial data to performance accomplishments of the Federal award.”

g. If authorized by the Federal Awarding Agency, then the Division will reimburse the Sub-Recipient for overtime expenses in accordance with 2 C.F.R. §200.430 (“Compensation—personal services”) and 2 C.F.R. §200.431 (“Compensation—fringe benefits”). If the Sub-Recipient seeks reimbursement for overtime expenses for periods when no work is performed due to vacation, holiday, illness, failure of the employer to provide sufficient work, or other similar cause (see 29 U.S.C. §207(e)(2)), then the Division will treat the expense as a fringe benefit. 2 C.F.R. §200.431(a) defines fringe benefits as “allowances and services provided by employers to their employees as compensation in addition to regular salaries and wages.” Fringe benefits are allowable under this Agreement as long as the benefits are reasonable and are required by law, Sub-Recipient-employee agreement, or an established policy of the Sub-Recipient. 2 C.F.R. §200.431(b) provides that the cost of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, family-related leave, sick leave, holidays, court leave, military leave, administrative leave, and other similar benefits, are allowable if all of the following criteria are met:

- i. They are provided under established written leave policies;
- ii. The costs are equitably allocated to all related activities, including Federal awards; and,
- iii. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the non-Federal entity or specified grouping of employees.

h. If authorized by the Federal Awarding Agency, then the Division will reimburse the Sub-Recipient for travel expenses in accordance with 2 C.F.R. §200.474. As required by the Reference Guide for State Expenditures, reimbursement for travel must be in accordance with section 112.061, Florida Statutes, which includes submission of the claim on the approved state travel voucher. If the Sub-Recipient seeks reimbursement for travel costs that exceed the amounts stated in section 112.061(6)(b),

Florida Statutes (\$6 for breakfast, \$11 for lunch, and \$19 for dinner), then the Sub-Recipient must provide documentation that:

- i. The costs are reasonable and do not exceed charges normally allowed by the Sub-Recipient in its regular operations as a result of the Sub-Recipient's written travel policy; and,
- ii. Participation of the individual in the travel is necessary to the Federal award.
- i. The Division's grant manager, as required by section 215.971(2)(c), Florida Statutes, shall reconcile and verify all funds received against all funds expended during the grant agreement period and produce a final reconciliation report. The final report must identify any funds paid in excess of the expenditures incurred by the Sub-Recipient.
- j. As defined by 2 C.F.R. §200.53, the term "improper payment" means or includes:
 - i. Any payment that should not have been made or that was made in an incorrect amount (including overpayments and underpayments) under statutory, contractual, administrative, or other legally applicable requirements; and,
 - ii. Any payment to an ineligible party, any payment for an ineligible good or service, any duplicate payment, any payment for a good or service not received (except for such payments where authorized by law), any payment that does not account for credit for applicable discounts, and any payment where insufficient or lack of documentation prevents a reviewer from discerning whether a payment was proper.

(10)RECORDS

a. As required by 2 C.F.R. §200.336, the Federal awarding agency, Inspectors General, the Comptroller General of the United States, and the Division, or any of their authorized representatives, shall enjoy the right of access to any documents, papers, or other records of the Sub-Recipient which are pertinent to the Federal award, in order to make audits, examinations, excerpts, and transcripts. The right of access also includes timely and reasonable access to the Sub-Recipient's personnel for the purpose of interview and discussion related to such documents. Finally, the right of access is not limited to the required retention period but lasts as long as the records are retained.

b. As required by 2 C.F.R. §200.331(a)(5), the Division, the Chief Inspector General of the State of Florida, the Florida Auditor General, or any of their authorized representatives, shall enjoy the right of access to any documents, financial statements, papers, or other records of the Sub-Recipient which are pertinent to this Agreement, in order to make audits, examinations, excerpts, and transcripts. The right of access also includes timely and reasonable access to the Sub-Recipient's personnel for the purpose of interview and discussion related to such documents.

c. As required by Florida Department of State's record retention requirements (Chapter 119, Florida Statutes) and by 2 C.F.R. §200.333, the Sub-Recipient shall retain sufficient records to show its compliance with the terms of this Agreement, as well as the compliance of all subcontractors or consultants paid from funds under this Agreement, for a period of five (5) fiscal years from the date of

completion of grant cycle or project. The following are the only exceptions to the five (5) year requirement:

- i. If any litigation, claim, or audit is started before the expiration of the 5-year period, then the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken.
 - ii. When the Division or the Sub-Recipient is notified in writing by the Federal awarding agency, cognizant agency for audit, oversight agency for audit, cognizant agency for indirect costs, or pass-through entity to extend the retention period.
 - iii. Records for real property and equipment acquired with Federal funds must be retained for 5 years after final disposition.
 - iv. When records are transferred to or maintained by the Federal awarding agency or pass-through entity, the 5-year retention requirement is not applicable to the Sub-Recipient.
 - v. Records for program income transactions after the period of performance. In some cases recipients must report program income after the period of performance. Where there is such a requirement, the retention period for the records pertaining to the earning of the program income starts from the end of the non-Federal entity's fiscal year in which the program income is earned.
 - vi. Indirect cost rate proposals and cost allocations plans. This paragraph applies to the following types of documents and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).
- d. In accordance with 2 C.F.R. §200.334, the Federal awarding agency must request transfer of certain records to its custody from the Division or the Sub-Recipient when it determines that the records possess long-term retention value.
- e. In accordance with 2 C.F.R. §200.335, the Division must always provide or accept paper versions of Agreement information to and from the Sub-Recipient upon request. If paper copies are submitted, then the Division must not require more than an original and two copies. When original records are electronic and cannot be altered, there is no need to create and retain paper copies. When original records are paper, electronic versions may be substituted through the use of duplication or other forms of electronic media provided that they are subject to periodic quality control reviews, provide reasonable safeguards against alteration, and remain readable.
- f. As required by 2 C.F.R. §200.303, the Sub-Recipient shall take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or the Division designates as sensitive or the Sub-Recipient considers sensitive consistent with applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.
- g. Florida's Government in the Sunshine Law (Section 286.011, Florida Statutes) provides the citizens of Florida with a right of access to governmental proceedings and mandates three,

basic requirements: (1) meetings of public boards or commissions must be open to the public; (2) reasonable notice of such meetings must be given; and, (3) minutes of the meetings must be taken and promptly recorded. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the open government requirements. However, the Government in the Sunshine Law applies to private entities that provide services to governmental agencies and that act on behalf of those agencies in the agencies' performance of their public duties. If a public agency delegates the performance of its public purpose to a private entity, then, to the extent that private entity is performing that public purpose, the Government in the Sunshine Law applies. For example, if a volunteer fire department provides firefighting services to a governmental entity and uses facilities and equipment purchased with public funds, then the Government in the Sunshine Law applies to board of directors for that volunteer fire department. Thus, to the extent that the Government in the Sunshine Law applies to the Sub-Recipient based upon the funds provided under this Agreement, the meetings of the Sub-Recipient's governing board or the meetings of any subcommittee making recommendations to the governing board may be subject to open government requirements. These meetings shall be publicly noticed, open to the public, and the minutes of all the meetings shall be public records, available to the public in accordance with Chapter 119, Florida Statutes.

h. Florida's Public Records Law provides a right of access to the records of the state and local governments as well as to private entities acting on their behalf. Unless specifically exempted from disclosure by the Legislature, all materials made or received by a governmental agency (or a private entity acting on behalf of such an agency) in conjunction with official business which are used to perpetuate, communicate, or formalize knowledge qualify as public records subject to public inspection. The mere receipt of public funds by a private entity, standing alone, is insufficient to bring that entity within the ambit of the public record requirements. However, when a public entity delegates a public function to a private entity, the records generated by the private entity's performance of that duty become public records. Thus, the nature and scope of the services provided by a private entity determine whether that entity is acting on behalf of a public agency and is therefore subject to the requirements of Florida's Public Records Law.

i. The Sub-Recipient shall maintain all records for the Sub-Recipient and for all subcontractors or consultants to be paid from funds provided under this Agreement, including documentation of all program costs, in a form sufficient to determine compliance with the requirements and objectives of the Budget and Scope of Work - Attachment A - and all other applicable laws and regulations.

(11)AUDITS

a. The Sub-Recipient shall comply with the audit requirements contained in 2 C.F.R. Part 200, Subpart F.

b. In accounting for the receipt and expenditure of funds under this Agreement, the Sub-Recipient shall follow Generally Accepted Accounting Principles ("GAAP"). As defined by 2 C.F.R.

§200.49, GAAP “has the meaning specified in accounting standards issued by the Government Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB).”

c. When conducting an audit of the Sub-Recipient’s performance under this Agreement, the Division shall use Generally Accepted Government Auditing Standards (“GAGAS”). As defined by 2 C.F.R. §200.50, GAGAS, “also known as the Yellow Book, means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits.”

d. If an audit shows that all or any portion of the funds disbursed were not spent in accordance with the conditions of this Agreement, the Sub-Recipient shall be held liable for reimbursement to the Division of all funds not spent in accordance with these applicable regulations and Agreement provisions within thirty days after the Division has notified the Sub-Recipient of such non-compliance.

e. The Sub-Recipient shall have all audits completed by an independent auditor, which is defined in section 215.97(2)(h), Florida Statutes, as “an independent certified public accountant licensed under chapter 473.” The independent auditor shall state that the audit complied with the applicable provisions noted above. The audit must be received by the Division no later than nine months from the end of the Sub-Recipient’s fiscal year.

f. The Sub-Recipient shall send copies of reporting packages for audits conducted in accordance with 2 C.F.R. Part 200, by or on behalf of the Sub-Recipient, to the Division at the following address:

DEMSingle_Audit@em.myflorida.com

OR

Office of the Inspector General
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

g. The Sub-Recipient shall send the Single Audit reporting package and Form SF-SAC to the Federal Audit Clearinghouse by submission online at:

<http://harvester.census.gov/fac/collect/ddeindex.html>

h. The Sub-Recipient shall send any management letter issued by the auditor to the Division at the following address:

DEMSingle_Audit@em.myflorida.com

OR

Office of the Inspector General
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

(12)REPORTS

a. Consistent with 2 C.F.R. §200.328, the Sub-Recipient shall provide the Division with quarterly reports and a close-out report. These reports shall include the current status and progress by the Sub-Recipient and all subcontractors in completing the work described in the Scope of Work and the expenditure of funds under this Agreement, in addition to any other information requested by the Division.

b. Quarterly reports are due to the Division no later than 15 days after the end of each quarter of the program year and shall be sent each quarter until submission of the administrative close-out report. The ending dates for each quarter of the program year are March 31, June 30, September 30 and December 31.

c. The close-out report is due 60 days after termination of this Agreement or 60 days after completion of the activities contained in this Agreement, whichever first occurs.

d. If all required reports and copies are not sent to the Division or are not completed in a manner acceptable to the Division, then the Division may withhold further payments until they are completed or may take other action as stated in Paragraph (16) REMEDIES. "Acceptable to the Division" means that the work product was completed in accordance with the Budget and Scope of Work.

e. The Sub-Recipient shall provide additional program updates or information that may be required by the Division.

f. The Sub-Recipient shall provide additional reports and information identified in Attachment F.

(13)MONITORING.

a. The Sub-Recipient shall monitor its performance under this Agreement, as well as that of its subcontractors and/or consultants who are paid from funds provided under this Agreement, to ensure that time schedules are being met, the Schedule of Deliverables and Scope of Work are being accomplished within the specified time periods, and other performance goals are being achieved. A review shall be done for each function or activity in Attachment A to this Agreement, and reported in the quarterly report.

b. In addition to reviews of audits, monitoring procedures may include, but not be limited to, on-site visits by Division staff, limited scope audits, and/or other procedures. The Sub-Recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Division. In the event that the Division determines that a limited scope audit of the Sub-Recipient is appropriate, the Sub-Recipient agrees to comply with any additional instructions provided by the Division to the Sub-Recipient regarding such audit. The Sub-Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Florida Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Sub-Recipient throughout the contract term to ensure timely completion of all tasks.

(14)LIABILITY

a. Unless Sub-Recipient is a State agency or subdivision, as defined in section 768.28(2), Florida Statutes, the Sub-Recipient is solely responsible to parties it deals with in carrying out the terms of this Agreement; as authorized by section 768.28(19), Florida Statutes, Sub-Recipient shall hold the Division harmless against all claims of whatever nature by third parties arising from the work performance under this Agreement. For purposes of this Agreement, Sub-Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

b. As required by section 768.28(19), Florida Statutes, any Sub-Recipient which is a state agency or subdivision, as defined in section 768.28(2), Florida Statutes, agrees to be fully responsible for its negligent or tortious acts or omissions which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, Florida Statutes. Nothing herein is intended to serve as a waiver of sovereign immunity by any Sub-Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(15)DEFAULT.

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (16); however, the Division may make payments or partial payments after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment if:

a. Any warranty or representation made by the Sub-Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Sub-Recipient fails to keep or perform any of the obligations, terms or covenants in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;

b. Material adverse changes occur in the financial condition of the Sub-Recipient at any time during the term of this Agreement, and the Sub-Recipient fails to cure this adverse change within thirty days from the date written notice is sent by the Division;

c. Any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information; or,

d. The Sub-Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(16)REMEDIES.

If an Event of Default occurs, then the Division shall, after thirty calendar days written notice to the Sub-Recipient and upon the Sub-Recipient's failure to cure within those thirty days, exercise any one or more of the following remedies, either concurrently or consecutively:

a. Terminate this Agreement, provided that the Sub-Recipient is given at least thirty days prior written notice of the termination. The notice shall be effective when placed in the United States, first class mail, postage prepaid, by registered or certified mail-return receipt requested, to the address in paragraph (3) herein;

b. Begin an appropriate legal or equitable action to enforce performance of this Agreement;

c. Withhold or suspend payment of all or any part of a request for payment;

d. Require that the Sub-Recipient refund to the Division any monies used for ineligible purposes under the laws, rules and regulations governing the use of these funds.

e. Exercise any corrective or remedial actions, to include but not be limited to:

i. Request additional information from the Sub-Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

ii. Issue a written warning to advise that more serious measures may be taken if the situation is not corrected,

iii. Advise the Sub-Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

iv. Require the Sub-Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

f. Exercise any other rights or remedies which may be available under law.

Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Sub-Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Sub-Recipient.

(17)TERMINATION.

a. The Division may terminate this Agreement for cause after thirty days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws and regulations, failure to perform on time, and refusal by the Sub-Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Florida Statutes, as amended.

b. The Division may terminate this Agreement for convenience or when it determines, in its sole discretion that continuing the Agreement would not produce beneficial results in line with the further expenditure of funds, by providing the Sub-Recipient with thirty calendar day's prior written notice.

c. The parties may agree to terminate this Agreement for their mutual convenience through a written amendment of this Agreement. The amendment will state the effective date of the termination and the procedures for proper closeout of the Agreement.

d. In the event that this Agreement is terminated, the Sub-Recipient will not incur new obligations for the terminated portion of the Agreement after the Sub-Recipient has received the

notification of termination. The Sub-Recipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Sub-Recipient shall not be relieved of liability to the Division because of any breach of Agreement by the Sub-Recipient. The Division may, to the extent authorized by law, withhold payments to the Sub-Recipient for the purpose of set-off until the exact amount of damages due the Division from the Sub-Recipient is determined.

(18)PROCUREMENT

a. The Sub-Recipient shall ensure that any procurement involving funds authorized by the Agreement complies with all applicable federal and state laws and regulations, to include 2 C.F.R. §§200.318 through 200.326 as well as Appendix II to 2 C.F.R. Part 200 (entitled "Contract Provisions for Non-Federal Entity Contracts Under Federal Awards").

b. As required by 2 C.F.R. §200.318(b), the Sub-Recipient shall "maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price."

c. As required by 2 C.F.R. §200.318(i), the Sub-Recipient shall "maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders." In order to demonstrate compliance with this requirement, the Sub-Recipient shall document, in its quarterly report to the Division, the progress of any and all subcontractors performing work under this Agreement.

d. Except for procurements by micro-purchases pursuant to 2 C.F.R. §200.320(a) or procurements by small purchase procedures pursuant to 2 C.F.R. §200.320(b), if the Sub-Recipient chooses to subcontract any of the work required under this Agreement, then the Sub-Recipient shall forward to the Division a copy of any solicitation (whether competitive or non-competitive) at least fifteen (15) days prior to the publication or communication of the solicitation. The Division shall review the solicitation and provide comments, if any, to the Sub-Recipient within three (3) business days. Consistent with 2 C.F.R. §200.324, the Division will review the solicitation for compliance with the procurement standards outlined in 2 C.F.R. §§200.318 through 200.326 as well as Appendix II to 2 C.F.R. Part 200. Consistent with 2 C.F.R. §200.318(k), the Division will not substitute its judgment for that of the Sub-Recipient. While the Sub-Recipient does not need the approval of the Division in order to publish a competitive solicitation, this review may allow the Division to identify deficiencies in the vendor requirements or in the commodity or service specifications. The Division's review and comments shall not constitute an approval of the solicitation. Regardless of the Division's review, the Sub-Recipient remains bound by all applicable laws, regulations, and agreement terms. If during its review the Division identifies any deficiencies, then the Division shall communicate those deficiencies to the Sub-Recipient as quickly as possible within the three (3) business day window outlined above. If the Sub-Recipient publishes a competitive solicitation after receiving comments from the Division that the solicitation is deficient, then the Division may:

i. Terminate this Agreement in accordance with the provisions outlined in paragraph (17) above; and,

ii. Refuse to reimburse the Sub-Recipient for any costs associated with that solicitation.

e. Except for procurements by micro-purchases pursuant to 2 C.F.R. §200.320(a) or procurements by small purchase procedures pursuant to 2 C.F.R. §200.320(b), if the Sub-Recipient chooses to subcontract any of the work required under this Agreement, then the Sub-Recipient shall forward to the Division a copy of any contemplated contract prior to contract execution. The Division shall review the unexecuted contract and provide comments, if any, to the Sub-Recipient within three (3) business days. Consistent with 2 C.F.R. §200.324, the Division will review the unexecuted contract for compliance with the procurement standards outlined in 2 C.F.R. §§200.318 through 200.326 as well as Appendix II to 2 C.F.R. Part 200. Consistent with 2 C.F.R. §200.318(k), the Division will not substitute its judgment for that of the Sub-Recipient. While the Sub-Recipient does not need the approval of the Division in order to execute a subcontract, this review may allow the Division to identify deficiencies in the terms and conditions of the subcontract as well as deficiencies in the procurement process that led to the subcontract. The Division's review and comments shall not constitute an approval of the subcontract. Regardless of the Division's review, the Sub-Recipient remains bound by all applicable laws, regulations, and agreement terms. If during its review the Division identifies any deficiencies, then the Division shall communicate those deficiencies to the Sub-Recipient as quickly as possible within the three (3) business day window outlined above. If the Sub-Recipient executes a subcontract after receiving a communication from the Division that the subcontract is non-compliant, then the Division may:

i. Terminate this Agreement in accordance with the provisions outlined in paragraph (17) above; and,

ii. Refuse to reimburse the Sub-Recipient for any costs associated with that subcontract.

f. The Sub-Recipient agrees to include in the subcontract that (i) the subcontractor is bound by the terms of this Agreement, (ii) the subcontractor is bound by all applicable state and federal laws and regulations, and (iii) the subcontractor shall hold the Division and Sub-Recipient harmless against all claims of whatever nature arising out of the subcontractor's performance of work under this Agreement, to the extent allowed and required by law.

g. As required by 2 C.F.R. §200.318(c)(1), the Sub-Recipient shall "maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts."

h. As required by 2 C.F.R. §200.319(a), the Sub-Recipient shall conduct any procurement under this agreement "in a manner providing full and open competition." Accordingly, the Sub-Recipient shall not:

business;

- i. Place unreasonable requirements on firms in order for them to qualify to do business;
- ii. Require unnecessary experience or excessive bonding;
- iii. Use noncompetitive pricing practices between firms or between affiliated companies;
- iv. Execute noncompetitive contracts to consultants that are on retainer contracts;
- v. Authorize, condone, or ignore organizational conflicts of interest;
- vi. Specify only a brand name product without allowing vendors to offer an equivalent;
- vii. Specify a brand name product instead of describing the performance, specifications, or other relevant requirements that pertain to the commodity or service solicited by the procurement;
- viii. Engage in any arbitrary action during the procurement process; or,
- ix. Allow a vendor to bid on a contract if that bidder was involved with developing or drafting the specifications, requirements, statement of work, invitation to bid, or request for proposals.

i. "[E]xcept in those cases where applicable Federal statutes expressly mandate or encourage" otherwise, the Sub-Recipient, as required by 2 C.F.R. §200.319(b), shall not use a geographic preference when procuring commodities or services under this Agreement.

j. The Sub-Recipient shall conduct any procurement involving invitations to bid (i.e. sealed bids) in accordance with 2 C.F.R. §200.320(c) as well as section 287.057(1)(a), Florida Statutes.

k. The Sub-Recipient shall conduct any procurement involving requests for proposals (i.e. competitive proposals) in accordance with 2 C.F.R. §200.320(d) as well as section 287.057(1)(b), Florida Statutes.

l. For each subcontract, the Sub-Recipient shall provide a written statement to the Division as to whether that subcontractor is a minority business enterprise, as defined in Section 288.703, Florida Statutes. Additionally, the Sub-Recipient shall comply with the requirements of 2 C.F.R. §200.321 ("Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms").

(22) MANDATED CONDITIONS

a. The validity of this Agreement is subject to the truth and accuracy of all the information, representations, and materials submitted or provided by the Sub-Recipient in this Agreement, in any later submission or response to a Division request, or in any submission or response to fulfill the requirements of this Agreement. All of said information, representations, and materials are incorporated by reference. The inaccuracy of the submissions or any material changes shall, at the option of the Division and with thirty days written notice to the Sub-Recipient, cause the termination of this Agreement and the release of the Division from all its obligations to the Sub-Recipient.

b. This Agreement shall be construed under the laws of the State of Florida, and venue for any actions arising out of this Agreement shall be in the Circuit Court of Leon County. If any provision of this Agreement is in conflict with any applicable statute or rule, or is unenforceable, then the provision shall be null and void to the extent of the conflict, and shall be severable, but shall not invalidate any other provision of this Agreement.

c. Any power of approval or disapproval granted to the Division under the terms of this Agreement shall survive the term of this Agreement.

d. The Sub-Recipient agrees to comply with the Americans With Disabilities Act (Public Law 101-336, 42 U.S.C. Section 12101 et seq.), which prohibits discrimination by public and private entities on the basis of disability in employment, public accommodations, transportation, State and local government services, and telecommunications.

e. Those who have been placed on the convicted vendor list following a conviction for a public entity crime or on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with a public entity, and may not transact business with any public entity in

excess of \$25,000.00 for a period of 36 months from the date of being placed on the convicted vendor list or on the discriminatory vendor list.

f. Any Sub-Recipient which is not a local government or state agency, and which receives funds under this Agreement from the federal government, certifies, to the best of its knowledge and belief, that it and its principals:

i. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by a federal department or agency;

ii. Have not, within a five-year period preceding this proposal been convicted of or had a civil judgment rendered against them for fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

iii. Are not presently indicted or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any offenses enumerated in paragraph (22) f. ii. of this certification; and,

iv. Have not within a five-year period preceding this Agreement had one or more public transactions (federal, state or local) terminated for cause or default.

g. If the Sub-Recipient is unable to certify to any of the statements in this certification, then the Sub-Recipient shall attach an explanation to this Agreement.

h. In addition, the Sub-Recipient shall send to the Division (by email or by facsimile transmission) the completed "Certification Regarding Debarment, Suspension, Ineligibility And Voluntary Exclusion" (Attachment H) for each intended subcontractor which Sub-Recipient plans to fund under this Agreement. The form must be received by the Division before the Sub-Recipient enters into a contract with any subcontractor.

i. The Division reserves the right to unilaterally cancel this Agreement if the Sub-Recipient refuses to allow public access to all documents, papers, letters or other material subject to the provisions of Chapter 119, Florida Statutes, which the Sub-Recipient created or received under this Agreement.

j. If the Sub-Recipient is allowed to temporarily invest any advances of funds under this Agreement, any interest income shall either be returned to the Division or be applied against the Division's obligation to pay the contract amount.

k. The State of Florida will not intentionally award publicly-funded contracts to any contractor who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324a(e) [Section 274A(e) of the Immigration and Nationality Act ("INA")]. The Division shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the INA. Such violation by the Sub-Recipient of the employment provisions

contained in Section 274A(e) of the INA shall be grounds for unilateral cancellation of this Agreement by the Division.

I. All unmanufactured and manufactured articles, materials and supplies which are acquired for public use under this Agreement must have been produced in the United States as required under 41 U.S.C. 10a, unless it would not be in the public interest or unreasonable in cost.

(23) LOBBYING PROHIBITION

a. 2 C.F.R. §200.450 prohibits reimbursement for costs associated with certain lobbying activities.

b. Section 216.347, Florida Statutes, prohibits "any disbursement of grants and aids appropriations pursuant to a contract or grant to any person or organization unless the terms of the grant or contract prohibit the expenditure of funds for the purpose of lobbying the Legislature, the judicial branch, or a state agency."

c. No funds or other resources received from the Division under this Agreement may be used directly or indirectly to influence legislation or any other official action by the Florida Legislature or any state agency.

d. The Sub-Recipient certifies, by its signature to this Agreement, that to the best of his or her knowledge and belief:

i. No Federal appropriated funds have been paid or will be paid, by or on behalf of the Sub-Recipient, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan or cooperative agreement.

ii. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the Sub-Recipient shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities."

iii. The Sub-Recipient shall require that this certification be included in the award documents for all subawards (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all Sub-Recipients shall certify and disclose.

iv. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

(24) COPYRIGHT, PATENT AND TRADEMARK

EXCEPT AS PROVIDED BELOW, ANY AND ALL PATENT RIGHTS ACCRUING UNDER OR IN CONNECTION WITH THE PERFORMANCE OF THIS AGREEMENT ARE HEREBY RESERVED TO THE STATE OF FLORIDA; AND, ANY AND ALL COPYRIGHTS ACCRUING UNDER OR IN CONNECTION WITH THE PERFORMANCE OF THIS AGREEMENT ARE HEREBY TRANSFERRED BY THE SUB-RECIPIENT TO THE STATE OF FLORIDA.

a. If the Sub-Recipient has a pre-existing patent or copyright, the Sub-Recipient shall retain all rights and entitlements to that pre-existing patent or copyright unless the Agreement provides otherwise.

b. If any discovery or invention is developed in the course of or as a result of work or services performed under this Agreement, or in any way connected with it, the Sub-Recipient shall refer the discovery or invention to the Division for a determination whether the State of Florida will seek patent protection in its name. Any patent rights accruing under or in connection with the performance of this Agreement are reserved to the State of Florida. If any books, manuals, films, or other copyrightable material are produced, the Sub-Recipient shall notify the Division. Any copyrights accruing under or in connection with the performance under this Agreement are transferred by the Sub-Recipient to the State of Florida.

c. Within thirty days of execution of this Agreement, the Sub-Recipient shall disclose all intellectual properties relating to the performance of this Agreement which he or she knows or should know could give rise to a patent or copyright. The Sub-Recipient shall retain all rights and entitlements to any pre-existing intellectual property which is disclosed. Failure to disclose will indicate that no such property exists. The Division shall then, under Paragraph (24) b., have the right to all patents and copyrights which accrue during performance of the Agreement.

d. If the Sub-Recipient qualifies as a state university under Florida law, then, pursuant to section 1004.23, Florida Statutes, any invention conceived exclusively by the employees of the Sub-Recipient shall become the sole property of the Sub-Recipient. In the case of joint inventions, that is inventions made jointly by one or more employees of both parties hereto, each party shall have an equal, undivided interest in and to such joint inventions. The Division shall retain a perpetual, irrevocable, fully-paid, nonexclusive license, for its use and the use of its contractors of any resulting patented, copyrighted or trademarked work products, developed solely by the Sub-Recipient, under this Agreement, for Florida government purposes.

(25) LEGAL AUTHORIZATION.

The Sub-Recipient certifies that it has the legal authority to receive the funds under this Agreement and that its governing body has authorized the execution and acceptance of this Agreement. The Sub-Recipient also certifies that the undersigned person has the authority to legally execute and bind Sub-Recipient to the terms of this Agreement.

(26)EQUAL OPPORTUNITY EMPLOYMENT

a. In accordance with 41 C.F.R. §60-1.4(b), the Sub-Recipient hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

During the performance of this contract, the contractor agrees as follows:

i. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

ii. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

iii. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

iv. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

v. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

vi. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared

ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

vii. The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States.

b. The Sub-Recipient further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: provided, that if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

c. The Sub-Recipient agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

d. The Sub-Recipient further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive order. In addition, the Sub-Recipient agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sub-Recipient under the program with respect to which the failure or refund occurred until satisfactory

assurance of future compliance has been received from such Sub-Recipient; and refer the case to the Department of Justice for appropriate legal proceedings.

(27) COPELAND ANTI-KICKBACK ACT

The Sub-Recipient hereby agrees that, unless exempt under Federal law, it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, the following clause:

- i. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- ii. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.
- iii. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

(28) CONTRACT WORK HOURS AND SAFETY STANDARDS

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract that exceeds \$100,000 and involves the employment of mechanics or laborers, then any such contract must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation.

(29) CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract that exceeds \$150,000, then any such contract must include the following provision:

Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387), and will report violations to FEMA and the Regional Office of the Environmental Protection Agency (EPA).

(30)SUSPENSION AND DEBARMENT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract, then any such contract must include the following provisions:

- i. This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- ii. The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- iii. This certification is a material representation of fact relied upon by the Division. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Division, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- iv. The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

(31)BYRD ANTI-LOBBYING AMENDMENT

If the Sub-Recipient, with the funds authorized by this Agreement, enters into a contract, then any such contract must include the following clause:

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

(32)CONTRACTING WITH SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS

a. If the Sub-Recipient, with the funds authorized by this Agreement, seeks to procure goods or services, then, in accordance with 2 C.F.R. §200.321, the Sub-Recipient shall take the following affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used whenever possible:

- i. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- ii. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- iii. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
- iv. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
- v. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
- vi. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs i. through v. of this subparagraph.

b. The requirement outlined in subparagraph a. above, sometimes referred to as "socioeconomic contracting," does not impose an obligation to set aside either the solicitation or award of a contract to these types of firms. Rather, the requirement only imposes an obligation to carry out and document the six affirmative steps identified above.

c. The "socioeconomic contracting" requirement outlines the affirmative steps that the Sub-Recipient must take; the requirements do not preclude the Sub-Recipient from undertaking additional steps to involve small and minority businesses and women's business enterprises.

d. The requirement to divide total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises, does not authorize the Sub-Recipient to break a single project down into smaller components in order to circumvent the micro-purchase or small purchase thresholds so as to utilize streamlined acquisition procedures (e.g. "project splitting").

(33)ASSURANCES.

The Sub-Recipient shall comply with any Statement of Assurances incorporated as Attachment C.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement.

- (5) The Sub-recipient agrees to notify FEMA and the Division if any project funded under this Agreement will involve ground disturbing activities, including, but not limited to: subsurface disturbance; removal of trees; excavation of footings and foundations, and installation of utilities (such as water, sewer, storm drains, electrical, gas, leach lines and septic tanks) except where these activities are restricted solely to areas previously disturbed by the installation, replacement or maintenance of such utilities. FEMA will request the SHPO's opinion on the potential that archeological properties may be present and be affected by such activities. The SHPO will advise the Sub-recipient on any feasible steps to be accomplished to avoid any National Register eligible archeological property or will make recommendations for the development of a treatment plan for the recovery or archeological data from the property.

If the Sub-recipient is unable to avoid the archeological property, develop, in consultation with SHPO, a treatment plan consistent with the **Guidelines** and take into account the Advisory Council on Historic Preservation (Council) publication "Treatment of Archeological Properties". The Sub-recipient shall forward information regarding the treatment plan to FEMA, the SHPO and the Council for review. If the SHPO and the Council do not object within 15 calendar days of receipt of the treatment plan, FEMA may direct the Sub-recipient to implement the treatment plan. If either the Council or the SHPO object, Sub-recipient shall not proceed with the project until the objection is resolved.

- (6) The Sub-recipient shall notify the Division and FEMA as soon as practicable: (a) of any changes in the approved scope of work for a National Register eligible or listed property; (b) of all changes to a project that may result in a supplemental DSR or modify a HMGP project for a National Register eligible or listed property; (c) if it appears that a project funded under this Agreement will affect a previously unidentified property that may be eligible for inclusion in the National Register or affect a known historic property in an unanticipated manner. The Sub-recipient acknowledges that FEMA may require the Sub-recipient to stop construction in the vicinity of the discovery of a previously unidentified property that may eligible for inclusion in the National Register or upon learning that construction may affect a known historic property in an unanticipated manner. The Sub-recipient further acknowledges that FEMA may require the Sub-recipient to take all

reasonable measures to avoid or minimize harm to such property until FEMA concludes consultation with the SHPO. The Sub-recipient also acknowledges that FEMA will require, and the Sub-recipient shall comply with, modifications to the project scope of work necessary to implement recommendations to address the project and the property.

- (7) The Sub-recipient acknowledges that, unless FEMA specifically stipulates otherwise, it shall not receive funding for projects when, with intent to avoid the requirements of the PA or the NHPA, the Sub-recipient intentionally and significantly adversely affects a historic property, or having the legal power to prevent it, allowed such significant adverse effect to occur.

PURPOSE: The Federal Funding Accountability and Transparency Act (FFATA) was signed on September 26, 2006. The intent of this legislation is to empower every American with the ability to hold the government accountable for each spending decision. The FFATA legislation requires information on federal awards (federal assistance and expenditures) be made available to the public via a single, searchable website, which is <http://www.usaspending.gov/>.

The FFATA Sub-award Reporting System (FSRS) is the reporting tool the Florida Division of Emergency Management ("FDEM" or "Division") must use to capture and report sub-award and executive compensation data regarding first-tier sub-awards that obligate \$25,000 or more in Federal funds (excluding Recovery funds as defined in section 1512(a) (2) of the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5).

Note: This "Instructions and Worksheet" is meant to explain the requirements of the FFATA and give clarity to the FFATA Form distributed to sub-awardees for completion. All pertinent information below should be filled out, signed, and returned to the project manager.

ORGANIZATION AND PROJECT INFORMATION

The following information must be provided to the FDEM prior to the FDEM's issuance of a sub-award (Agreement) that obligates \$25,000 or more in federal funds as described above. Please provide the following information and return the signed form to the Division as requested.

Mandatory Contract Provisions

Provisions:

Any contract or subcontract funded by this Agreement must contain the applicable provisions outlined in Appendix II to 2 C.F.R. Part 200. It is the responsibility of the sub-recipient to include the required provisions. The Division provides the following list of sample provisions that may be required:

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or

materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

(I) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 190.220) must not be made to parties listed on the governmentwide Excluded Parties List System in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 190 that implement Executive Orders 12549 (3 CFR Part 1906 Comp., p. 189) and 12689 (3 CFR Part 1909 Comp., p. 235), "Debarment and Suspension." The Excluded Parties List System in SAM contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(J) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award of \$100,000 or more must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any

other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(K) See § 200.322 Procurement of recovered materials.

APPENDIX III TO PART 200—INDIRECT (F&A) COSTS IDENTIFICATION AND ASSIGNMENT, AND RATE DETERMINATION FOR INSTITUTIONS OF HIGHER EDUCATION (IHEs)

A. GENERAL.

This appendix provides criteria for identifying and computing indirect (or indirect (F&A)) rates at IHEs (institutions). Indirect (F&A) costs are those that are incurred for common or joint objectives and therefore cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. See subsection B.1. Definition of Facilities and Administration, for a discussion of the components of indirect (F&A) costs.

1. Major Functions of an Institution

Refers to instruction, organized research, other sponsored activities and other institutional activities as defined in this section:

a. *Instruction* means the teaching and training activities of an institution. Except for research training as provided in subsection b, this term includes all teaching and training activities, whether they are offered for credits toward a degree or certificate or on a non-credit basis, and whether they are offered through regular academic departments or separate divisions, such as a summer school division or an extension division. Also considered part of this major function are departmental research, and, where agreed to, university research.

(1) *Sponsored instruction and training* means specific instructional or training activity established by grant, contract, or cooperative agreement. For purposes of the cost principles, this activity may be considered a major function even though an institution's accounting treatment may include it in the instruction function.

(2) *Departmental research* means research, development and scholarly activities that are not organized research and, consequently, are not separately budgeted and accounted for. Departmental research, for purposes of this document, is not considered a major function, but as a part of the instruction function of the institution.

b. *Organized research* means all research and development activities of an institution that are separately budgeted and accounted for. It includes:

(1) *Sponsored research* means all research and development activities that are sponsored by Federal and non-Federal agencies and organizations. This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(2) *University research* means all research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds. University research, for purposes of this document, must be combined with sponsored research under the function of organized research.

c. *Other sponsored activities* means programs and projects financed by Federal and non-Federal agencies and organizations which involve the performance of work other than instruction and organized research. Examples of such programs and projects are health service projects and community service programs. However, when any of these activities are undertaken by the institution without outside support, they may be classified as other institutional activities.

d. *Other institutional activities* means all activities of an institution except for instruction, departmental research, organized research, and other sponsored activities, as defined in this section; indirect (F&A) cost activities identified in this Appendix paragraph B, Identification and assignment of indirect (F&A) costs; and specialized services facilities described in § 200.468 Specialized service facilities of this Part.

Examples of other institutional activities include operation of residence halls, dining halls, hospitals and clinics, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar auxiliary enterprises. This definition also includes any other categories of activities, costs of which are "unallowable" to Federal awards, unless otherwise indicated in an award.

2. Criteria for Distribution

a. *Base period.* A base period for distribution of indirect (F&A) costs is the period during which the costs are incurred. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. *Need for cost groupings.* The overall objective of the indirect (F&A) cost allocation process is to distribute the indirect (F&A) costs described in Section B, Identification and assignment of indirect (F&A) costs, to

If condemnation or eminent domain is used to obtain easement rights, FEMA shall not pay for any associated costs or payments to the property owner. Furthermore, FEMA shall not consider it an eligible contribution to the non-Federal cost share requirement and shall not financially participate in that component of a project if land or easements are obtained involuntarily.
- 9) Per FEMA Hazard Mitigation Assistance Guidance Part VI, D.3.4 – Contingency funds are not automatically available for use. Prior to their release, contingency funds must be re-budgeted to another direct cost category and identified. Post-award changes to the budget require prior written approval from the Division (FDEM). Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Public Service

ITEM 6.7: Approve Change Order #2 - Miller Road Drainage Improvements (Task Order # 213) - Public Service Department (FY 2020 Budget Funded - Stormwater Enterprise Fund) - TCLM Enterprises

SUMMARY:

On June 13, 2019, the Village Council approved the award of the construction for the Alameda Drive and the Miller Road Drainage Improvements Projects (two separate drainage projects) to TCLM Enterprise, Inc. in the amount of \$151,149.46.

Note: The awarded original contract was comprised of two (2) projects - Alameda Drive (\$80,359.46) and Miller Road (\$70,790.00) for a total of project cost of \$151,149.46. The Alameda Drive Drainage Improvement Project has been completed and closed out previously [final total cost (engineering/design and construction) - \$105,480.10].

On January 9, 2020, the Village Council approved Change Order No. 1 to the Village's contractor, TCLM Enterprises, to relocate the proposed storm drain structures and lines that conflicted with the existing water main that was not previously identified on the project drawings. Since this project is partially grant-funded through FEMA, the proposed change in contract amount was required to be resubmitted to the State for approval (to increase the total reimbursement back to the Village). This approval was recently obtained from FEMA on April 22, 2020; however, a delay in construction occurred and the existing contract/agreement is being requested to be extended due to the required change in project's design and the additional time that was needed for state review of the proposed plan changes.

Note: Change Order No. 1 was approved by the Village Council in the amount of \$15,262.00 (January 9, 2020) with an additional 160 days added to the contract time.

As a result, the Village's contracted engineer, Keshavarz & Associates, and the Public Service Department is recommending an amendment to the approved Task Order No. 213 (Change Order No. 2) with TCLM Enterprises to extend the project completion date by an additional 115 calendar days (increasing the total contract time from 251 days to 366 days):

	<u>Contract Amount</u>	<u>Contract Time</u>
	<u>(Miller Road)</u>	<u>(Miller Road & Drive)</u>
Original Contract Amount	\$70,790	90 days
Alemeda Drive - Change Order No. 1	-	1 day
Miller Road - Change Order No. 1	\$15,262	160 day
Miller Road - Change Order No. 2	-	115 day
Revised Construction Contract Amount	\$86,052	366 day

If approved, the total cost of construction for the Miller Road Drainage Improvements project within Task Order #213 will not be changed (\$86,052) and the revised total contract time will be increased to 366 days. An internal budget transfer or amendment to support this proposed change order will be completed within the General Fund at a later date, if necessary. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.

If approved, the Miller Road Drainage Improvements project is expected to be completed by mid-August 2020.

The proposed Change Order No. 2 was prepared by TCLM Enterprises and reviewed by the Village's consulting engineer, the Public Service Director/Engineer, the Assistant Public Service Director, the Public Service Project Manager and the Finance Director.

Project: Miller Road Drainage Improvements

Contract Name: Alameda Drive

The Contract is modified as follows upon execution of this Change Order:

Description: During the initial phases of construction, it was discovered that there were existing utilities not located by the design ticket utility coordination and the existing water main was in a different location from the record drawings and in direct conflict with the proposed 24" storm line which is requiring the proposed storm line to be shifted north toward the limit of the right-away. The construction plans have been modified based upon the found locations of the utilities and the contractor has submitted a change order request for the plan modifications. This modification required the need for a drainage easement that should be approved at the January Council meeting and approval from the State for the plan modifications and as such 160 days is being added to the contract.

10.06 Indemnity

- A. The parties recognize that the CONTRACTOR is an independent contractor. The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the VILLAGE, its council members, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, Contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Contract. The CONTRACTOR's liability hereunder shall include all attorney's fees and costs incurred by the VILLAGE in the enforcement of this indemnification provision. This includes claims made by the employees of the CONTRACTOR against the VILLAGE and the CONTRACTOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. The obligations contained in this provision shall survive termination of this Contract and shall not be limited by the amount of any insurance required to be obtained or maintained under this Contract.
- B. Subject to the limitations set forth in this Section, CONTRACTOR shall assume control of the defense of any claim asserted by a third party against the VILLAGE and, in connection with such defense, shall appoint lead counsel, in each case at the CONTRACTOR's expense. The VILLAGE shall have the right, at its option, to participate in the defense of any third party claim, without relieving CONTRACTOR of any of its obligations hereunder. If the CONTRACTOR assumes control of the defense of any third party claim in accordance with this paragraph, the CONTRACTOR shall obtain the prior written consent of the VILLAGE before entering into any settlement of such claim. Notwithstanding anything to the contrary in this Section, the CONTRACTOR shall not assume or maintain control of the defense of any third party claim, but shall pay the fees of counsel retained by the VILLAGE and all expenses, including experts' fees, if (i) an adverse determination with respect to the third party claim would, in the good faith judgment of the VILLAGE, be detrimental in any material respect to the VILLAGE's reputation; (ii) the third party claim seeks an injunction or equitable relief against the VILLAGE; or (iii) the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim. Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such

conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith.

- C. It is the specific intent of the parties hereto that the foregoing indemnification complies with Section 725.06, Florida Statutes, as amended. CONTRACTOR expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statutes. Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the VILLAGE may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

10.07 *Governing Law and Remedies*

- A. The validity of this Agreement and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue for any and all disputes related to or arising from this Agreement shall be in Palm Beach County, Florida.
- B. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

10.08 *Office of the Inspector General*

- A. Palm Beach County has established the Office of the Inspector General, which is authorized and empowered to review past, present, and proposed County programs, contracts, transactions, accounts and records. The Inspector General (IG) has the power to subpoena witnesses, administer oaths, require the production of records, and monitor existing projects and programs.  - 1. Keep and maintain public records required by the VILLAGE to perform the services under this Agreement.
 - 2. Upon request from the VILLAGE's custodian of public records, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this Chapter 119, Florida Statutes, or as otherwise provided by law.
 - 3. Ensure that said public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement, if the CONTRACTOR does not transfer the records to the VILLAGE.
 - 4. Upon the completion of the Agreement, transfer, at no cost, to the VILLAGE all public records in possession of the CONTRACTOR or keep and maintain public records required by the VILLAGE to perform the services. If the CONTRACTOR transfers all public records to the VILLAGE upon completion of the Agreement, the CONTRACTOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the CONTRACTOR keeps and maintains

public records upon completion of the Agreement, the CONTRACTOR shall meet all applicable requirements for retaining public records. Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Administration

ITEM 6.8: Approve Interlocal Agreement - Extension/Amendment #1 - Urban County Qualification Process Program Participation in Community Development Block Grant (CDBG) - FY 2021 to FY 2023 - Palm Beach County

SUMMARY: Village staff is recommending that the Village extend the current Interlocal Agreement with Palm Beach County as part of the Urban County Qualification Process for Fiscal Years 2021-2023. This would provide the Village with annual proportionate federal Community Development Block Grant (CDBG) funding to support various improvements within the Village.

Title 1 of the Federal Housing and Community Development Act of 1974 mandates that Counties and their local municipalities enter into an Interlocal cooperation agreement in order to implement CDBG activities within that municipality. In accordance with Housing and Urban Development (HUD) and CDBG requirements, the Village of Palm Springs has participated within the County's Urban County Qualification Process program and has received funding that is intended to:

Benefits low- and moderate-income persons

- Include a public facility in need of repair or replacement, including ADA and accessibility improvements, and/or
- Aid in the elimination of blight

In April 2014, the Village initially requested to be considered/included as an Entitlement City under Palm Beach County's Urban County Qualification Process program and to receive annual entitlements (funding) within the County's Five-Year Consolidated Plan for Community Development Block Grant, Emergency Solutions Grant and HOME Investment Partnership Program funding. As a result, the Village has participated as an Entitlement City over the past

six (6) years and the Village has received (and or is estimated to receive) \$1,567,881 in CDBG funding. To date, this CDBG funding has supported the completion and/or the on-going design and construction of the following projects:

- . Replacement of Davis Road (L-10 Canal) Pedestrian Road Walking Bridge
- . Development of the Areca Palm Fitness Park
- . Development of the new Foxtail Palm Park
- . Development of the new Park Connector Pathway Project

The Village has actively participated with Palm Beach County for many years, through this Interlocal agreement process, in order to be eligible for any available funds. The current Interlocal Cooperation Agreement (R2014-1167 - August 19, 2014) is expected to expire on September 30, 2021 and, if approved, the proposed extended agreement would renew for an additional three (3) years and would expire at the end of Fiscal Year 2024 (September 30, 2024).

Note: Pursuant to Florida Statutes and the Florida Interlocal Cooperation Act of 1969, local governments are permitted to enter into Interlocal agreements to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities in a manner and pursuant to forms of governmental organization that will accord best with geographic, economic, population, and other factors influencing the needs and development of local communities.

Florida Statutes permit public agencies as defined therein to enter into Interlocal Agreements with each other to exercise jointly any power, privilege, or authority which such agencies share in common and which each might exercise separately.

Thus, in accordance with state law (Florida Interlocal Cooperation Act of 1969), staff is proposing to extend the existing Interlocal Agreement with the County that would enable the Village to participate as an Entitlement City within the County's Urban County Qualification Process program and to receive annual entitlements (funding) for Community Development Block Grant, Emergency Solutions Grant and HOME Investment Partnership Program funding.

Note: The Village is actively meeting with County Staff in order to aggressively pursue any grant funding possible through all available programs, including CDBG (Community Development Block Grant) funding and this continued funding will contribute to enhancing the quality of life within the Village and making our community a better place to live, work and play for residents, businesses and stakeholders.

The proposed Interlocal Agreement was prepared by Palm Beach County and reviewed by the Village Attorney.

FISCAL IMPACT:

Continued federal grant and/or cooperative funding through all programs available through Palm Beach County will provide a direct fiscal impact to the Village and assist with needed infrastructure improvements and will contribute to the Village's economic development efforts and priorities.

RE: Urban County Qualification Process FYs 2021 - 2023

Dear Mr. Reade:

On August 19, 2014, the Board of County Commissioners (BCC) executed an interlocal cooperation agreement (R2014-1167) with the Village of Palm Springs as part of the Urban County Qualification Process for Federal Fiscal Years 2015-2017. Under this Agreement, the Village of Palm Springs agrees to participate with the County in the creation of the Urban County jurisdiction for the receipt of federal community development funds from the U.S. Department of Housing and Urban Development (HUD).

The Agreement states, "*The agreement shall be automatically renewed at the end of the qualification period and at the end of each subsequent qualification period unless either party provides a written notice in which it elects to not participate in a new qualification period.*" The current three year qualifying period will expire on September 30, 2021 and would renew to cover the October 1, 2021 to September 30, 2024 time period.

Please advise of the Village's intent to continue participation in the Urban County jurisdiction during the FY 2021-2023 period, or of the Village's intent to terminate the Agreement. If it is your intent to renew the agreement, please note that HUD has amended one of the clauses in the original agreement to promote adherence to Section 3 of the Housing and Urban Development Act of 1968.

Section 3 seeks to ensure that employment and other economic opportunities generated by HUD financial assistance shall, to the greatest extent feasible, be directed to low- and very low income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low- and very low-income persons. Applicability of Section 3 requirements is limited to activities funded by HUD programs.

If you intend to renew the agreement, please execute the enclosed four (4) copies of the amendment to our interlocal cooperation agreement.

and return them to the Department of Housing and Economic Sustainability (DHES) no later than May 29, 2020.

Please address your response to the Director, PBC Department of Housing and Economic Sustainability, with a copy to HUD's Miami Field Office addressed as follows:

BETWEEN PALM BEACH COUNTY

VILLAGE OF PALM SPRINGS**

COPY

THIS AGREEMENT made and entered into on _____, by and between **Palm Beach County**, a political subdivision of the State of Florida, hereinafter referred to as the "County", and **Village of Palm Springs**, a municipality duly organized and existing by virtue of the laws of the State of Florida, hereinafter referred to as the "Municipality".

WHEREAS, the parties hereto have the common power to perform Community Development Block Grant (CDBG) Program, Emergency Solutions Grant (ESG) Program and Home Investment Partnerships (HOME) Program activities within their jurisdictions, said common powers being pursuant to Section 125.01, Florida Statutes, and Chapter 163, Part III, Florida Statutes; and

WHEREAS, Section 163.01, Florida Statutes, known as the "Florida Interlocal Cooperation Act" authorizes local governments to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities that will harmonize geographic, economic, population and other factors influencing the needs and development of local communities; and

WHEREAS, Title I of the Housing and Community Development Act of 1974, as amended, mandates that a county must enter into interlocal cooperation agreements with municipalities in its jurisdiction for the purposes of implementing CDBG activities within said municipalities; and

WHEREAS, such interlocal cooperation agreements are also required to implement the HOME Program under Title II of the National Affordable Housing Act of 1990, as amended, and the ESG Program under the Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (HEARTH Act); and

WHEREAS, the County desires to join with the Municipality in order to carry out the planning and professional services necessary to implement the CDBG, ESG and HOME Programs during Federal Fiscal Years 2015, 2016 and 2017, and during subsequent Federal Fiscal Years; and

WHEREAS, the County and the Municipality agree to cooperate to undertake or assist in undertaking community renewal and lower income housing assistance activities; and

WHEREAS, the County and Municipality wish to cooperate in the implementation of the goals and objectives of the County's Consolidated Plan, as approved by the U.S. Department of Housing and Urban Development (HUD); and

WHEREAS, the Municipality desires to cooperate with the County for the purpose of implementing the CDBG, ESG and HOME Programs; and

WHEREAS, the governing bodies of the County and the Municipality have each authorized this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants herein contained, it is agreed as follows:

1. This Agreement covers the CDBG, ESG and HOME Programs and pertains to funds that the County is qualified to receive from HUD under said Programs for Federal Fiscal Years 2015, 2016 and 2017 which cover the three-year urban county qualification period beginning on October 1, 2015, and ending on September 30, 2018 (hereinafter the "Qualification Period"). This Agreement shall remain in effect until the CDBG, ESG and HOME funds and program income

received (with respect to activities carried out during the Qualification Period and during any subsequent three-year qualification periods covered by any renewal of this Agreement) are expended and the funded activities are completed. Neither the Municipality nor the County may terminate, or withdraw from, this Agreement while it remains in effect.

2. This Agreement shall be automatically renewed for a three-year qualification period at the end of the Qualification Period and at the end of each subsequent qualification period unless either party provides the other party a written notice in which it elects not to participate in a new qualification period. If such notice be given, the party electing not to participate shall also send a copy of the written notice to the HUD field office with jurisdiction over the County.

The County shall, by the date specified in HUD's Urban County Qualification Notice for the next qualification period, notify the Municipality in writing of its right not to participate, and the County shall provide a copy of such written notice to the HUD field office with jurisdiction over the County by the date specified in the Urban County Qualification Notice.

3. While this Agreement is in full force and effect, during the Qualification Period and during any subsequent three-year qualification periods covered by any renewal of this Agreement, the County and the Municipality agree to amend this Agreement to incorporate any changes necessary to meet the requirements for cooperation agreements as set forth by HUD in its Urban County Qualification Notices applicable to all subsequent three-year qualification periods, and to provide HUD such amendments as provided in the Urban County Qualification Notices. Failure to comply with the aforesaid shall void the automatic renewal of this Agreement.
4. The Municipality, by executing this Agreement, understands that:
 - (a) It may not apply for any grants from appropriations under the State of Florida CDBG Program for fiscal years during the period in which it participates in the County's CDBG Program.
 - (b) It may receive a formula allocation under the HOME Program only through the County. Even if the County does not receive a HOME formula allocation, the Municipality understands that it may not receive HOME Program funds from a HOME consortium with other local governments. This, however, does not preclude the County or the Municipality from applying to the State of Florida for HOME Program funds if the State of Florida so allows.
 - (c) It may receive a formula allocation under the ESG Program only through the County. This, however, does not preclude the County or the Municipality from applying to the State of Florida for ESG Program funds if the State of Florida so allows.
5. This Agreement is contingent upon the County's qualification as an "urban county" under the CDBG Program as determined by HUD, as well as HUD's award of funds under the CDBG, ESG and HOME Programs.
6. The County and the Municipality agree to cooperate to undertake, or assist in undertaking, community renewal and lower income housing assistance activities. The County and the Municipality also agree to cooperate to enable the County to expend CDBG, ESG and HOME Program funds on eligible activities within the Municipality's jurisdiction during the Qualification Period and during any subsequent qualification periods covered by the renewal of this Agreement.
7. The Municipality shall assist and cooperate with the County in the preparation of the HUD required Consolidated Plan for the use of CDBG, ESG, and HOME Program funds. The County shall prepare the Consolidated Plan application and other necessary documents, and shall take full responsibility and assume all obligations as the applicant. The County and the Municipality agree to comply with said Consolidated Plan and implement activities as outlined in the Action Plan approved by HUD for the use of CDBG, ESG, and HOME Program funds. The

County and the Municipality agree that the County is hereby permitted to undertake or assist in undertaking essential community development and housing assistance activities within the Municipality's jurisdiction.

8. The County, through its Department of Economic Sustainability, shall assist the Municipality in undertaking all professional and administrative services necessary for the purposes of implementing activities of the CDBG, ESG and HOME Programs, including preparation of all applications and other necessary documents, planning and other administrative activities, as required.
9. Pursuant to 24 CFR 570.501(b), the Municipality is subject to the same requirements applicable to subrecipients, including the requirements of a written agreement as described in 24 CFR 570.503.
10. The Municipality may not sell, trade, or otherwise transfer all or any portion of CDBG Program funds to another metropolitan city, urban county, unit of general local government, or Indian tribe, or insular area that directly or indirectly receives CDBG Program funds in exchange for any other funds, credits or non-Federal considerations, but must use such CDBG Program funds for activities under Title I of the Housing and Community Development Act of 1974, as amended.
11. The Municipality and the County shall take all actions necessary to assure compliance with the County's certification required by Section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, regarding Title VI of the Civil Rights Act of 1964, the Fair Housing Act, and affirmatively furthering fair housing. The Municipality and the County shall comply with Section 109 of Title I of the Housing and Community Development Act of 1974, which incorporates Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990 and other applicable laws. The County shall not fund any activities in, or in support of, the Municipality should the Municipality not affirmatively further fair housing within its jurisdiction or should the Municipality impede the County's actions to comply with the County's fair housing certification.
12. The Municipality agrees that no person shall on the grounds of race, color, religion, disability, sex, age, national origin, ancestry, marital status, familial status, sexual orientation, gender identity or expression, or genetic information, be excluded from the benefits of, or be subjected to discrimination under, any activity carried out by the performance of this Agreement. Upon receipt of evidence of such discrimination, the County shall have the right to terminate this Agreement.
13. The Municipality has adopted, and is enforcing, a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and the Municipality has adopted, and is enforcing, a policy of enforcing applicable State and local laws against physically barring entrance to, or exit from, a facility or location which is the subject of such non-violent civil rights demonstrations within jurisdictions.
14. Palm Beach County has established the Office of Inspector General in Palm Beach County Code, Section 2-421 - 2-440, as may be amended. The Inspector General's authority includes, but is not limited to, the power to review past, present and proposed County contracts, transactions, accounts and records, to require the production of records, and to audit, investigate, monitor, and inspect the activities of the Municipality, its officers, agents, employees, and lobbyists in order to ensure compliance with contract requirements and detect corruption and fraud. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be in violation of Palm Beach County Code, Section 2-421 to 2-440, and punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

15. No provision of this Agreement is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this Agreement, including but not limited to any citizen or employees of the County and/or the Municipality.
16. Nothing contained herein shall be deemed to authorize the delegation of the constitutional or statutory duties of the state, county or municipal officers.
17. A copy of this Agreement shall be filed with the Clerk and Comptroller in and for Palm Beach County.
18. Any prior agreements or contracts regarding the duties and obligations of the parties enumerated herein are hereby declared to be null and void.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized officials.

Even if the County does not receive a HOME formula allocation, the Municipality understands that it may not receive HOME Program funds from a HOME consortium with other local governments. This, however, does not preclude the County or the Municipality from applying to the State of Florida for HOME Program funds if the State of Florida so allows.
- (c) It may receive a formula allocation under the ESG Program only through the County. This, however, does not preclude the County or the Municipality from applying to the State of Florida for ESG Program funds if the State of Florida so allows.

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Parks & Recreation

ITEM 6.9: Approve Change Order #2 (Task Order #228) - Foxtail Palm Park - Parks and Recreation Department (FY 2020 Budget Funded - General Fund) - Engenuity Group, Inc.

SUMMARY:

On November 9, 2017, the Village Council approved Task Order #228 with Engenuity Group, Inc. for professional engineering services associated with the development of the new Foxtail Palm Park Project in the amount of \$39,246. Further, the Village Council approved Change Order #1 to support the cost to revise the drainage calculations to include future stormwater runoff that may be discharged into the proposed/designed lake due to the potential expansion of Kirk Road (required by PBC). Additionally, the Parks and Recreation Department is requesting an additional change order (Change Order #2) to include the need to re-bid the project, design/provide electrical plan changes as well as the need for additional site visits by the engineering consultant during the construction process (\$5,450).

Specifically, due to the extended bid process, the Village's consulting engineer, Engenuity Group, was required to perform additional services within the scope of work, including additional changes to project specifications and project manual (due to original bids coming in significantly over the Village's project budget); additional construction meetings with the contractor and additional site inspections. As a result, our engineering consultant is requesting an amendment to the approved Task Order #228 (Change Order #2) in the amount of \$5,450 for their additional services that are required to complete the project. These items and their costs are itemized below:

TASK	COST
Additional meetings with Contractor; Additional site inspections; Additional hours due to project re-bidding and review of bid documents	\$4,000.00
Additional funds for JLRD (Electrical Sub-consultant).	\$1,450.00

TOTALS	\$5,450.00
---------------	-------------------

If approved, the revised total cost for professional engineering services within Task Order #228 will be increased to \$55,196.00. No further engineering change orders are anticipated for this project. An internal budget transfer or amendment to support this proposed change order will be completed within the General Fund at a later date, if necessary. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: The Village's FY 2020 Budget - General Fund includes \$730,000 to complete this project; however, the total revised engineering and construction project cost is expected to be \$858,983.77 (which includes the required PBC design, engineering and construction cost/changes). The Village is receiving \$399,900 in Community Development Block Grant (CDBG) funding (Village's 2016/17 annual allocation - \$99,365 (approved April 14, 2016) - and PBC contribution \$300,535 (approved September 27, 2018). Additionally, PBC Engineering and Roadway Production is expected to reimburse the Village \$113,350 for the completion of the additional proposed drainage infrastructure and the Solid Waste Authority provided a grant award in the amount of \$71,865.45. Thus, the Village's total project cost to complete this project (after all grant and appropriation funding), is expected to be \$273,868.32 (total construction cost is \$231,167.32)

The proposed project is expected to be completed by the end of Summer 2020.

The proposed Change Order #2 was prepared by Engenuity Group, Inc. and reviewed by the Parks and Recreation Director, Public Services Director/Engineer, Public Services Project Manager, and the Finance Director.

FISCAL IMPACT:

Executive Brief

AGENDA DATE: March 14, 2019

DEPARTMENT: Parks & Recreation

ITEM #24: Approve Change Order #1 (Task Order #228) - Foxtail Palm Park - Parks & Recreation Department (FY 2019 Budget Funded - General Fund) - Engenuity Group, Inc.

SUMMARY: On November 9, 2017, the Village Council approved Task Order #228 with the Engenuity Group for professional engineering services associated with the development of the new Foxtail Palm Park Project in the amount of \$39,246. However, during the course of the project design, it was determined that additional engineering services were required to revise the drainage calculations to include future drainage that may be discharged into the proposed lake due to the potential expansion of Kirk Road (required by PBC). Additionally, the initial Task Order included a Florida Department of Environmental Protection (FDEP) Stormwater Permit; however, it was determined that a South Florida Water Management District (SFWMD) Environmental Resource Permit (ERP) would be required due to additional design and planning for the park (i.e., drainage, water use and dewatering for the on-site retention pond). As a result, our engineering consultant is requesting an amendment to the approved Task Order #228 (Change Order #1) in the amount of \$10,500.

***Note:** Palm Beach County's Engineering and Roadway Production Department, who is assisting with the funding of this project, is requiring that additional drainage outfall piping infrastructure be included within this project; thus, requiring additional design services as well as revised bid specifications.

The proposed costs included within the proposed Change Order #1 are as follows:

TASK	COST
SFWMD Environmental Resource Permit (ERP)	\$8,000
Additional professional engineering services - Add drainage outfall piping infrastructure	\$2,500
TOTALS	\$10,500

If approved, the revised total cost for professional engineering services within Task Order #228 will be increased to \$49,746. No additional change orders are expected for this project. An internal budget transfer or amendment to support this proposed change order will be completed within the General Fund at a later date, if necessary. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: The Village's FY 2019 Budget - General Fund includes \$498,000 to complete this project;

however, the total revised project cost is expected to be \$609,736 (which includes the proposed design, engineering and construction cost/changes to the project as required by PBC). The Village is expected to receive \$50,000 in Florida Recreation Development Assistance Program (FRDAP) and \$399,900 in Community Development Block Grant (CDBG) funding [Village's 2016/2017 annual allocation - \$99,365 (approved April 14, 2016) - and PBC contribution - \$300,535 (approved September 27, 2018)]. Additionally, PBC Engineering and Roadway Production is expected to reimburse the Village up to \$113,350 for the completion of the additional proposed drainage infrastructure (i.e., design, permitting and construction). This funding will be presented as a separate item for approval by the Village Council during the March 14, 2019 Agenda.

If approved, the proposed construction project is expected to begin May/June/July 2019 and is projected to be completed by the Spring 2020.

Note: Engenuity Group has completed the design and the bidding documents are being reviewed by the County per the CDBG agreement. Approval of the requested Change Order will assist in maintaining an estimated project completion date of December 31, 2019, which is the completion date that is included within the approved CDBG Agreement with PBC. Staff is expecting that the timeline to complete this project will actually extend past the planned December 31st completion date. As a result, a time extension to the Village's CDBG funding agreement with PBC would be required to be completed at a later date.

The proposed Change Order #1 was prepared by Engenuity Group and reviewed by the Parks and Recreation Director, Assistant Public Service Director and the Finance Director.

PROPOSAL

TO: Chad Girard

FIRM: Engenuity Group

PROJECT: Foxtail Palm Park - Palm Springs

RE: Engineering Services – Elect

FROM: Charles Gableman, P.E.

DATE: October 11, 2017

Chad,

Our fee for providing Electrical engineering design services on the above referenced project will be **\$4,350.00**. The scope as we understand it would include the following:

Create a new service including electrical distribution from the local utility to a panelboard on the park site to serve a fountain, well pump, and duplex outlet for a gazebo. The project is as follows:

- Install a rack mounted panelboard (~100A, 120/208V, 3ph, 4W) to serve the following:
 - Fountain – assuming ~10HP at 208V, 3ph. with 4 integral light fixtures.
 - Well pump
 - Convenience receptacles at a Gazebo
- Spare raceways as desired by The Village of Palm Springs.
- Construction Administration: Respond to permit comments, RFIs, shop drawing review, during construction and electronically capture contractor's red-lined marks for as-built documentation.
- Services for shop drawing review, construction observation, and recording in CAD format the contractor's as-built red-lined documents has been requested and therefore is included.
- Project specifications will be provided in drawing format.
- It is assumed as-built documentation will be provided to the engineer for use as the basis of the design.

The above proposal is based upon receipt of existing as-built drawings. If as-built drawings are not available or cannot be provided, the engineer may require the owner to provide selective demolition of concealed conditions, i.e. underground plumbing piping, for coordination of tying new work to existing infrastructure. The engineer shall not be held accountable for unforeseen conditions.

Should we be retained to do the work, I would provide a copy of our standard agreement for a contract between our firms. If you have any questions, please call me.

Sincerely,

A handwritten signature in dark ink, appearing to read "Charles C. Gableman". The signature is fluid and cursive, with a long horizontal stroke at the end.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Parks & Recreation

ITEM 6.10: Approve Village Center Playground Replacement Contract Award (Task Order No. 280) - Cooperative Purchasing (Piggyback) - Parks and Recreation Department (FY 2020 Funded - General Fund) - GameTime

SUMMARY:

The Parks and Recreation Department has a need to purchase playground equipment to be installed at Village Center Playground. The existing Village Center playground has been in place for fifteen (15) years and is recommended to be updated/replaced to ensure the safe and fun play space for the our community.

Note: Although the Village staff has ensured that our current equipment is maintained properly for safety purposes, the equipment it maintains a high amount of discoloring, broken parts and is beginning to show significant rusting. As a result, staff has identified a need to replace the playground equipment within the FY 2020 budget process.

To ensure the lowest possible price, staff is recommending that the Village piggyback off the current Omnia Partners US Communities Governmental Purchasing Cooperative (Co-Op) awarded to the City of Charlotte, North Carolina. This selection by the City of Charlotte, as the Lead Agency for the Co-Op, was completed through a competitive selection process - Playground Equipment, Outdoor Fitness Equipment, Site Accessories, Surfacing and Related Products (RFP #269-2017-028 - January 25, 2017).

Note: The proposed piggyback contract was completed as part of the Omnia Partners US Communities Governmental Purchasing Cooperative (Co-Op). The intent is to bring member cities together and combine their purchasing needs within the Co-Op (which the Village is a member) to generally receive the best (lowest) price possible. Combines the cooperative purchasing power of 87,000 public agencies, including the Village of Palm Springs, participate within the Omnia Partners US Communities Governmental Purchasing Cooperative.

The proposed playground equipment was designed utilizing input from our community and staff to design a playground system that would be "attractive" and provide balance, climbing, education, sliding, sensory, colors and sounds. The proposed playground equipment would be installed within the current playground area and would include climbing options, open tunnels, slides, swings and integrated shade to allow year round use while incorporating multiple individual and group play elements that will help with building self-esteem, physical and social skills. Further, the new equipment will incorporate English and Spanish to assist our children and our community to better communicate and learn about various cultures.

Note: This playground is adjacent to the Village Center Pavilion, which is an ultra popular destination for birthday parties and family functions and this new equipment, if approved, will supplement our water feature that is available with pavilion rentals and help ensure that continued rentals throughout the year.

Through the proposed Omnia Partners Omnia Partners US Communities Governmental Purchasing Cooperative Contract, the Parks and Recreation Department was able to obtain a price of \$159,784.11, which provided for discounts ranging from 3% to 34% from their retail catalog pricing.

Within the FY 2020 Budget - General Fund and the Capital Improvement Plan (CIP) the Village Council approved \$220,000 for the replacement and installation of new playground equipment, safety surfacing and shade coverings within the Village Center's Complex. Staff expects to have sufficient funding to complete this project.

If approved, the Village would accept GameTime's pricing by piggybacking the City of Charlotte, North Carolina's (Omnia Partners US Communities Governmental Purchasing Cooperative) contract, including all terms, conditions and pricing therein. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: If approved, the Village would be making this proposed playground equipment purchase with GameTime; however, this purchase would be through their Florida representative, Dominica Recreation Products, located in Longwood, Florida.

The Village's Purchasing Code, Section 58-9, Accessing contracts of other government agencies, provides that the Village may award a contract by piggybacking or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

If approved, the proposed permitting and installation of the new playground system would be completed within 120 days (August/September 2020) following the Notice to Proceed by the

Village.

The Parks & Recreation Advisory Board considered the proposed Royal Palm Park playground improvement project during their January 22, 2020 meeting and provided input on the proposed design and recommended approval.

The proposed agreement was prepared by the Village Attorney and reviewed by the Parks and Recreation Director, Public Service Director/Engineer, Assistant Public Service Director, the Public Service Project Manager, the Planning, Zoning & Building Director and the Finance Director.

The Village has not worked with the vendor previously, however, we have received positive references from the School District of Palm Beach County for the proposed vendor.

FISCAL IMPACT:

Funding to support this purchase is available within the FY 2020 Budget - General Fund. Village Council approved \$220,000 toward the Village Center Playground Replacement.

<u>Allocated/Estimated Project Funding:</u>	
FY 2020 Approved Budget - General Fund	\$220,000.00

<u>Expected Project Costs:</u>	
Proposed Project Cost - Village Complex Playground Replacement (Task Order #280)	\$159,784.11

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods/services.

Recycled Poured Rubber Surfacing

POURED IN PLACE (PIP) WARRANTY

Playground Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of five (5) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of three (3) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment Only: If aliphatic binder is not used, poured rubber surfacing (PIP) will carry a maximum one-year (1) warranty.

This limited warranty includes GameTime's obligation to only repair and/or replace any defective materials or workmanship in the surface area or surface areas that have failed during the warranty period. A failed area or failed areas include edge raveling, bubbling, delamination, peeling, and loss of integrity as a result of the GT Impax recycled poured rubber degradation. GameTime is under no obligation or responsibility to repair and/or replace the GT Impax recycled poured rubber "PIP" surface if damaged during the curing process (Unless specified in contract), damage by vandalism (including stains, cuts, burns, gouges, etc.), product misuse, abuse or alteration, improper slab or base or sub-base design or construction, improper drainage, improper or lack of specified required maintenance, any foreign residue that may be deposited on the surface, normal wear and tear (including slight color variations, and color fading), damage from sharp objects (high heels, spikes, etc.), problems caused by moisture, alkali, hydrostatic pressure, cracking, shifting, or lifting of the substrate, or acts of God.

All warranty claims shall be made in writing to GameTime within thirty (30) days after the Owner has knowledge thereof, but in no event later than thirty (30) days after expiration of the warranty period. The written notification from the Owner shall include the following: the date of the first notice of the failure, details of the failure, photos of the failed area and a request for a warranty claim meeting with GameTime at the installation site (if applicable). GameTime shall not be responsible for warranty claims for any notices received from the Owner after thirty (30) days of Owner's first knowledge of the failure.

GameTime shall determine the validity of all claims after sufficient evidence has been gathered. GameTime shall then replace, repair or make a refund for any claims validated by it. Any refund, credit or allowance provided to the Owner on a warranty claim is exercisable only if said allowance is used to accommodate replacement with a GT Impax recycled poured rubber surface.

Any dispute as to whether and to what extent there is a GT Impax recycled poured rubber surfacing failure and a subsequent valid warranty claim within the meaning of this warranty shall be initially dealt with by joint investigation and discussion between GameTime and owner in order to achieve a mutually agreeable solution. If such a solution cannot be reached within thirty (30) days, then either the Owner of GameTime shall submit the matter to an arbitrator who is a member of the American Arbitration Association and who shall make a determination in accordance with the rules and regulation of said American Arbitration Association. The decision of said arbitrator shall be binding on both parties.

This limited warranty is exclusive of the underlying material (e.g. existing surface, existing or new asphalt, concrete, base, sub-base or sub-grade). If the underlying material fails for any reason whatsoever (including hydrostatic pressure, cracking, shifting, heaving), then GameTime warranty shall be rendered invalid. If the underlying material is concrete, a "curing agent" is NOT allowed, as it will probably cause delamination of the GT Impax recycled poured rubber. Additionally, there is no warranty against surface cracking along expansion joints and underlying cracks, or separating from an adjacent border, curb or walkway. This limited warranty does not include discoloration as a result of ultraviolet rays, unapproved cleaning materials or vandalism. **WARNING:** Surface temperatures can prove dangerous under warm weather conditions. Shoes and/or socks must be worn during warm weather conditions.

Owner agrees that it will not, under any circumstances, make alterations to the GT Impax recycled poured rubber surface without the written authorization of GameTime. Any unauthorized alteration by the Owner shall result in the immediate termination of all warranties for the GT Impax recycled poured rubber surfacing and shall also give rise to the duty of the Owner to hold harmless, defend and indemnify GameTime from any claim, suit or cause of action, personal injury, death, or property damage arising out of or related to said alteration.

This limited warranty is expressly made in lieu of any other warranties and is exclusive to the original Owner. Owner acknowledges that the limited warranty will be voided if the Owner fails to follow the GameTime Maintenance Guidelines provided by GameTime. Owner agrees that in no event shall GameTime have any liability to Owner for loss of use or loss of profits or any form of consequential damages. **NOTE:** The following chemicals can cause potential damage to the GT Impax recycled poured rubber and should be avoided: disinfectants, concentrated bleach, gasoline, diesel, hydraulic and lubricating oils, weak acids and organic solvents.

If the contract price is not paid in a timely manner as per the terms and conditions of the agreed contract, the limited warranty is automatically voided. Any damages to the surface during the curing period will be repaired or paid for at the Owner's expense. This limited warranty does not lessen or eliminate any other contractual obligation of Owner to GameTime.

	No. 4	35 - 60
	No. 30	10 - 30
	No. 200	2 - 9

Concrete or Asphalt – Concrete should be finished with a medium broom finish. All new concrete slabs must cure for a minimum of seven (7) days prior to installation. Asphalt cure time requires fourteen (14) days. Once the new asphalt has cured, it must be pressured washed prior to the surfacing being installed. The concrete contractor shall be responsible for flooding the pad to insure proper slope and tolerance. Any areas holding enough water to cover a flat nickel shall be patched prior to arrival of turf installation crews.

<u>Depth:</u>	4 inch minimum thickness.
<u>Slope:</u>	Concrete or asphalt shall maintain 1/4" per foot.
<u>Tolerance:</u>	Concrete must maintain a tolerance of 1/8" in 10 ft. to avoid low areas that will hold water under the turf.

PART 4 – SITE PREPARATION AND REQUIREMENTS

Drainage – Having proper drainage at the low end of the concrete slab is of utmost importance. Any brick walls or curbs at the low end of the slab shall have drainage access through weep holes. Concrete curbing weep holes should be level with finish grade of sub-base or a minimum of 1/8" below top of concrete slab, as GT IMPAX turf surfacing is porous and water drains immediately through it. Weep holes shall be 2" high and 3" wide and shall be installed every three (3) feet. If weep holes are smaller than the recommended size, they shall be installed every 18". Floor drains shall be located outside the high impact areas, as the drains may not be covered with GT IMPAX turf surfacing. Recommended locations for drains are under play unit or against low-end wall or curb.

Security & Waste Disposal – Surface installation crew shall be responsible for the protection of surface during the installation process while on site only. Owner or general contractor shall be responsible for the protection of the surface during the curing period upon completion of the installation and overnight during the installation. Owner or general contractor shall be responsible for having a dumpster on site for all waste and debris. Failure to provide security and a dumpster will result in additional cost.

Utilities & Access – Power and water must be available within 300 feet of installation. Site will require tractor-trailer access. In a case where tractor-trailer access is not possible, owner or general contractor shall be responsible for transporting materials from delivering carrier to the installation site.

PART 5 – INSTALLATION

General: The area to be smooth and graded to allow proper drainage. Refer to grading plan. The overall grade of the playground is not to exceed 3%.

Compacted Aggregate Base: Place 4 inches of aggregate base as leveling layer compacted to 90% of max density per AASHTO T99. Compaction shall be done with mechanical compactors, including vibratory compactors, and/or powered tampers, and rollers. Aggregate size should be 3/4" minus (compactable).

Synthetic Grass: Place turf and cut to fit configuration as shown on Drawings. Splice seams. All seams must be attached with splicing film/fabric and adhesive as approved by the manufacturer for this type of installation of their product.

Infill: Apply layers of synthetic grass infill evenly with a spreader and broom the turf fibers with stiff bristle broom to stand fibers up and allow infill to settle into the bottom. Broom in GT Impax Turf™ infill approximately 3 to 4 pounds per square foot.

**(infill is only required on the 60 oz. Dura Series. 80 oz Ultra Series does require limited to no infill. Manufacturer always recommends at least a pound of infill per sq foot)*

Anchoring/Edging: Edges of turf will be secured to ground with mechanical fasteners, stakes or edging.

PART 6 – WARRANTY

Gametime offers a 5 year limited product warranty on GT Impax Turf from the date of purchase. The product shall be free from defects in material and workmanship resulting in color loss.

Supplier's warranty excludes: any Product defect, damage or failure that is the direct result of Product abuse, misuse or negligent maintenance; and Product damage caused directly or indirectly by acts of third parties, including, without limitation, negligence of owner/operator, vandalism, machinery, animals, flood, chemical reaction, improper sub-surface preparation and/or installation, improper cleaning methods, and acts of God.

1.4 U.S. COMMUNITIES BACKGROUND

U.S. Communities Government Purchasing Alliance (herein “U.S. Communities”) assists Participating Public Agencies to reduce the cost of purchased goods through strategic sourcing that combines the volumes and the purchasing power of public agencies nationwide. This is accomplished through an award of competitively solicited Contracts for high quality Products and Services by large and well recognized public agencies (herein “Lead Public Agencies”). The Contracts are provided for use by not only the respective Lead Public Agency, but also by other Participating Public Agencies.

1.4.1 National Sponsors

U.S. Communities is jointly sponsored by the National Association of Counties (NACo), the National League of Cities (NLC), the Association of School Business Officials International (ASBO), the United States Conference of Mayors (USCM) and the National Governors Association (NGA) (herein “National Sponsors”).

1.4.2 Advisory Board

The U.S. Communities Advisory Board is made up of key government purchasing officials from across the United States.

Each [Advisory Board Member](#) is expected to actively participate in product Proposals and selection, participate in policy direction, and share expertise and purchasing innovations.

1.4.3 Participating Public Agencies

Today more than 55,000 public agencies utilize U.S. Communities Contracts and suppliers to procure over \$2.0 Billion Dollars in Products and Services annually. Each month more than 500 new public agencies register to participate. The continuing rapid growth of public agency participation is fueled by the program's proven track record of providing public agencies unparalleled value.

The Supplier(s) must communicate directly with any Participating Public Agency concerning the placement of orders, issuance of the purchase order, Contractual disputes, invoicing, and payment.

City of Charlotte, North Carolina is acting as "Contracting Agent" for the Participating Public Agencies and shall **not** be held liable for any costs, damages, expenses, fees, liabilities, etc. incurred by any other Participating Public Agency.

Each Participating Public Agency enters into a Master Intergovernmental Cooperative Purchasing Agreement (MICPA) outlining the terms and conditions that allow access to the Lead Public Agencies' Master Agreements. Under the terms of the MICPA, the procurement by the Participating Public Agency shall be construed to be in accordance with, and governed by, the laws of the state in which the Participating Public Agency resides. A copy of the MICPA is attached in Section 8.

1.4.4 Estimated Volume

The estimated dollar volume of Products and Services purchased under the proposed Master Agreement is \$100 Million Dollars annually. This estimate is based on the anticipated volume of the Lead Public Agency, the U.S. Communities Advisory Board members, and current sales within the U.S. Communities program. While there is no minimum quantity of Products required to be purchased under the proposed Master Agreement, City of Charlotte and the U.S. Communities Advisory Board Members are committed

Section 1

U.S. Communities Overview and Requirements

to utilizing the Master Agreement. The Advisory Board members shall determine if the Master Agreement is of value to their agency, and will promote the Master Agreement among other public agencies nationwide and internationally. The Advisory Board in 2015 purchased more than \$160 Million Dollars of Products and Services from existing U.S. Communities Contracts.

1.4.5 Marketing Support

U. S. Communities provides marketing support for each Supplier's Products through the following:

- National Sponsors as referenced above.
- State Associations of Counties, Schools and Municipal Leagues.
- Administrative and marketing personnel that directly promote the U.S. Communities Suppliers to Participating Public Agencies through public agency meetings, direct mail, email, online and print advertising, social media, articles, and exhibiting and presenting at national and local trade shows.
- U.S. Communities provides Suppliers government sales training, and a host of online marketing and sales management tools to effectively increase sales through U.S. Communities.

1.4.6 Multiple Awards

Multiple awards may be issued as a result of the solicitation. Multiple Awards will ensure that any ensuing Master Agreements fulfill current and future requirements of the diverse and large number of Participating Public Agencies. The City of Charlotte reserves the right to award the Contract locally and/or nationally in the aggregate, by section, multiple award, primary, secondary, and tertiary, whichever is in the best interest of the City of Charlotte and Participating Public Agencies as a result of this solicitation.

1.4.7 Evaluation of Proposals

Proposals will be evaluated by the Lead Public Agency in accordance with, and subject to, the relevant statutes, ordinances, rules and regulations that govern its procurement practices.

U.S. Communities Advisory Board members and other Participating Public Agencies will assist the Lead Public Agency in evaluating proposals. The Supplier(s) that respond(s) affirmatively meets the requirements of this Request for Proposal and provides the best overall value will be eligible for a Contract award. U.S. Communities reserves the right to make available or not make available Master Agreements awarded by a Lead Public Agency to Participating Public Agencies.

Section 1

U.S. Communities Overview and Requirements

SUPPLIER QUALIFICATIONS

1.5 SUPPLIERS

1.5.1 Commitments

U.S. Communities views the relationship with an awarded Supplier as an opportunity to provide maximum benefit to both the Participating Public Agencies and to the Supplier.

The successful foundation of the partnership requires commitments from both U.S. Communities and the Supplier. U.S. Communities requires the Supplier to make the four commitments set forth below (Corporate, Pricing, Economy, and Sales) to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies:

(a) **Corporate Commitment.**

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier's primary Contractual offering of Products and Services to Public Agencies. All of Supplier's direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier's primary offering and not just one of Supplier's Contract options.

(ii) Supplier's sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier's senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier's Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating Public Agency registrations and for ensuring timely follow-up by Supplier's staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier's U.S. Communities program and linked to U.S. Communities' website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that

Section 1

U.S. Communities Overview and Requirements

national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with Companywide authority.

(viii) Where Supplier has an existing Contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state's request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

(b) **Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier's pricing shall be evaluated on either an overall project basis or the Public Agency's actual usage for more frequently purchased Products and Services.

(ii) Contracts Offering Lower Prices. If a pre-existing Contract and/or a Public Agency's unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency's purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier's obligation to match the pricing under Supplier's Contracts offering lower prices.

- (A) Supplier holds a state Contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.
- (B) Supplier holds a regional cooperative Contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.
- (C) Supplier holds a Contract with an individual Public Agency. The Public Agency Contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the Contract. Supplier would be required to match the lower pricing under the

Section 1

U.S. Communities Overview and Requirements

Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative Contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

- (A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.
- (B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the Contract, the sales would be reported as sales under the Master Agreement.
- (C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the Contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.
- (D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a Contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

Section 1

U.S. Communities Overview and Requirements

- (E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

- (c) **Economy Commitment.** Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate Proposals and solicitations.

- (d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other Contracts to Public Agencies.

- (i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product listings, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. During the term of the Agreement, the Supplier shall provide U.S. Communities with its logo and the standards to be employed in the use of the logo for purposes of reproducing and using Supplier's name and logo in connection with the advertising, marketing and promotion of the Master Agreement to Public Agencies. Supplier shall assist U.S. Communities by providing camera-ready logos and by participating in related trade shows and conferences. At a minimum, Supplier's sales initiatives shall communicate that (i) the Master Agreement was competitively solicited by the Lead Public Agency, (ii) the Master Agreement provides the Supplier's best overall pricing and value to eligible agencies, (iii) there is no cost to Participating Public Agencies, and (iv) the Master Agreement is a non-exclusive Contract.

Section 1

U.S. Communities Overview and Requirements

- (ii) Branding and Logo Compliance. Supplier shall be responsible for complying with the U.S. Communities branding and logo standards and guidelines. Prior to use by Supplier, all U.S. Communities related marketing material must be submitted to U.S. Communities for review and approval.
- (iii) Sales Force Training. Supplier shall train its national sales force on the Master Agreement and U.S. Communities program. U.S. Communities shall be available to train on a national, regional or local level and generally assist with the education of sales personnel.
- (iv) Participating Public Agency Access. Supplier shall establish the following communication links to facilitate customer access and communication:
 - (A) A dedicated U.S. Communities internet web-based homepage that is accessible from Supplier's homepage or main menu navigation containing:
 - (1) U.S. Communities standard logo with Founding Co-Sponsors logos;
 - (2) Copy of original procurement solicitation;
 - (3) Copy of Master Agreement including any amendments;
 - (4) Summary of Products and Services pricing;

 - (6) Other promotional material as requested by U.S. Communities.
 - (B) A dedicated toll-free national hotline for inquiries regarding U.S. Communities.

- (v) Electronic Registration. Supplier shall be responsible for ensuring that each Public Agency has completed U.S. Communities' online registration process prior to processing the Public Agency's first sales order.
- (vi) Supplier's Performance Review. Upon request by U.S. Communities, Supplier shall participate in a performance review meeting with U.S. Communities to evaluate Supplier's performance of the covenants set forth in this Agreement.
- (vii) Supplier Content. Supplier may, from time to time, provide certain graphics, media, and other content to U.S. Communities (collectively "Supplier Content") for use on U.S. Communities websites and for general marketing and publicity purposes. During the term of the Agreement, Supplier hereby grants to U.S. Communities and its affiliates a non-exclusive, worldwide, free, transferrable, license to reproduce, modify, distribute, publically perform, publically display, and use

Section 1

U.S. Communities Overview and Requirements

Supplier Content in connection with U.S. Communities websites and for general marketing and publicity purposes, with the right to sublicense each and every such right. Supplier warrants that: (a) Supplier is the owner of or otherwise has the unrestricted right to grant the rights in and to Supplier Content as contemplated hereunder; and (b) the use of Supplier Content and any other materials or Services provided to U.S. Communities as contemplated hereunder will not violate, infringe, or misappropriate the intellectual property rights or other rights of any third party.

1.6 U.S. COMMUNITIES ADMINISTRATION AGREEMENT INFORMATION

The Agreement outlines the Supplier's general duties and responsibilities in implementing the U.S. Communities Contract.

ARTICLE III

REPRESENTATIONS AND COVENANTS

3.1 U.S. Communities views the relationship with Supplier as an opportunity to provide benefits to the Lead Public Agency, Public Agencies and Supplier. The successful foundation of the relationship requires certain representations and covenants from both U.S. Communities and Supplier.

3.2 U.S. Communities' Representations and Covenants.

Section 7

Required U.S. Communities Information

(a) Marketing. U.S. Communities shall proactively market the Master Agreement to Public Agencies using resources such as a network of major sponsors including the National League of Cities (NLC), National Association of Counties (NACo), United States Conference of Mayors (USCM), and the Association of School Business Officials (ASBO) (collectively, the “Founding Co-Sponsors”) and individual national, regional and state-level sponsors. In addition, the U.S. Communities staff shall make best efforts to enhance Supplier’s marketing efforts through meetings with Public Agencies, participation in key events and tradeshows and other marketing activity such as advertising, articles and promotional campaigns.

(b) Training and Knowledge Management Support. U.S. Communities shall provide support for the education, training and engagement of Supplier’s sales force as provided herein. Through its staff (each, a “Program Manager” and collectively, the “Program Managers”), U.S. Communities shall, with scheduling assistance from Supplier, conduct training sessions and conduct calls jointly with Supplier to Public Agencies. U.S. Communities shall also provide Supplier with access to U.S. Communities’ private intranet website which provides presentations, documents and information to assist Supplier’s sales force in effectively promoting the Master Agreement.

3.3 Supplier’s Representations and Covenants. Supplier hereby represents and covenants as follows in order to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies (such representations and covenants are sometimes referred to as “Supplier’s Commitments” and are comprised of the Corporate Commitment, Pricing Commitment, Economy Commitment and Sales Commitment):

(a) Corporate Commitment.

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier’s primary contractual offering of Products and Services to Public Agencies. All of Supplier’s direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier’s primary offering and not just one of Supplier’s contract options.

(ii) Supplier’s sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier’s senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier’s Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating

Required U.S. Communities Information

Public Agency registrations and for ensuring timely follow-up by Supplier's staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier's U.S. Communities program and linked to U.S. Communities' website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with companywide authority.

(viii) Where Supplier has an existing contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state's request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

(b) **Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier's pricing shall be evaluated on either an overall project basis or the Public Agency's actual usage for more frequently purchased Products and Services.

(ii) **Contracts Offering Lower Prices.** If a pre-existing contract and/or a Public Agency's unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency's purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier's obligation to match the pricing under Supplier's contracts offering lower prices.

(A) Supplier holds a state contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.

(B) Supplier holds a regional cooperative contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.

(C) Supplier holds a contract with an individual Public Agency. The Public Agency contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the contract. Supplier would be

Section 7

Required U.S. Communities Information

required to match the lower pricing under the Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

(A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.

(B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement.

(C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.

(D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

(E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

(c) Economy Commitment. Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master

Section 7

Required U.S. Communities Information

Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate bids and solicitations.

(d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other contracts to Public Agencies.

(i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product catalogs, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. During the term of the Agreement, the Supplier shall provide U.S. Communities with its logo and the standards to be employed in the use of the logo for purposes of reproducing and using Supplier's name and logo in connection with the advertising, marketing and promotion of the Master Agreement to Public Agencies. Supplier shall assist U.S. Communities by providing camera-ready logos and by participating in related trade shows and conferences. At a minimum, Supplier's sales initiatives shall communicate that (i) the Master Agreement was competitively solicited by the Lead Public Agency, (ii) the Master Agreement provides the Supplier's best overall pricing and value to eligible agencies, (iii) there is no cost to Participating Public Agencies, and (iv) the Master Agreement is a non-exclusive contract.

(ii) **Branding and Logo Compliance.** Supplier shall be responsible for complying with the U.S. Communities branding and logo standards and guidelines. Prior to use by Supplier, all U.S. Communities related marketing material must be submitted to U.S. Communities for review and approval.

(iii) **Sales Force Training.** Supplier shall train its national sales force on the Master Agreement and U.S. Communities program. U.S. Communities shall be available to train on a national, regional or local level and generally assist with the education of sales personnel.

(iv) **Participating Public Agency Access.** Supplier shall establish the following communication links to facilitate customer access and communication:

(A) A dedicated U.S. Communities internet web-based homepage that is accessible from Supplier's homepage or main menu navigation containing:

- (1) U.S. Communities standard logo with Founding Co-Sponsors logos;

(B) A dedicated toll-free national hotline for inquiries regarding U.S. Communities.

(C) A dedicated email address for general inquiries in the following format: uscommunities@(name of supplier).com.

(v) Electronic Registration. Supplier shall be responsible for ensuring that each Public Agency has completed U.S. Communities' online registration process prior to processing the Public Agency's first sales order.

(vi) Supplier's Performance Review. Upon request by U.S. Communities, Supplier shall participate in a performance review meeting with U.S. Communities to evaluate Supplier's performance of the covenants set forth in this Agreement.

(vii) Supplier Content. Supplier may, from time to time, provide certain graphics, media, and other content to U.S. Communities (collectively "Supplier Content") for use on U.S. Communities websites and for general marketing and publicity purposes. During the term of the Agreement, Supplier hereby grants to U.S. Communities and its affiliates a non-exclusive, worldwide, free, transferrable, license to reproduce, modify, distribute, publically perform, publically display, and use Supplier Content in connection with U.S. Communities websites and for general marketing and publicity purposes, with the right to sublicense each and every such right. Supplier warrants that: (a) Supplier is the owner of or otherwise has the unrestricted right to grant the rights in and to Supplier Content as contemplated hereunder; and (b) the use of Supplier Content and any other materials or services provided to U.S. Communities as contemplated hereunder will not violate, infringe, or misappropriate the intellectual property rights or other rights of any third party

3.4 Breach of Supplier's Representations and Covenants. The representations and covenants set forth in this Agreement are the foundation of the relationship between U.S. Communities and Supplier. If Supplier is found to be in violation of, or non-compliance with, one or more of the representations and covenants set forth in this Agreement, Supplier shall have ninety (90) days from the notice of default to cure such violation or non-compliance and, if Supplier fails to cure such violation or non-compliance within such notice period, it shall be deemed a cause for immediate termination of the Master Agreement at Lead Public Agency's sole discretion or this Agreement at U.S. Communities' sole discretion.

3.5 Indemnity. Supplier hereby agrees to indemnify and defend U.S. Communities, and its parent companies, subsidiaries, affiliates, shareholders, member, manager, officers, directors, employees, agents, and representatives from and against any and all claims, costs, proceedings, demands, losses, damages, and expenses (including, without limitation, reasonable

ARTICLE IV

PRICING AUDITS

4.1 Supplier shall, at Supplier's sole expense, maintain an accounting of all purchases made by Lead Public Agency. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. U.S. Communities shall have the authority to conduct random audits of Supplier's pricing that is offered to Participating Public Agencies at U.S. Communities' sole cost and expense. Notwithstanding the foregoing, in the event that U.S. Communities is made aware of any pricing being offered to three (3) or more Participating Public Agencies that is materially inconsistent with the pricing under the Master Agreement, U.S. Communities shall have the ability to conduct a reasonable audit of Supplier's pricing at Supplier's sole cost and expense during regular business hours upon reasonable notice. U.S. Communities may conduct the audit internally or may engage a third-party auditing firm on a non-contingent basis. Supplier shall solely be responsible for the cost of the audit. In the event of an audit, the requested materials shall be provided in the format and at the location where kept in the ordinary course of business by Supplier.

ARTICLE V

Supplier shall pay to U.S. Communities a monthly administrative fee based upon the total sales price of all purchases shipped and billed pursuant to the Master Agreement, excluding taxes, in the amount of two percent (2%) of aggregate purchases made during each calendar month (individually and collectively, "Administrative Fees"). Supplier's annual sales shall be measured on a calendar year basis. All Administrative Fees shall be payable in U.S. Dollars and shall be made by wire to U.S. Communities, or its designee or trustee as may be directed in writing by U.S. Communities. Administrative Fees shall be due and payable within thirty (30) days of the end of each calendar month for purchases shipped and billed during such calendar month. Submitted reports shall be verified by U.S. Communities against its registration database. Any data that is inconsistent with the registration database shall be changed prior to processing. U.S. Communities reserves the right upon reasonable advance notice to Supplier to change the prescribed report format to accommodate the distribution of the Administrative Fees to its program sponsors and state associations.

Section 7

Required U.S. Communities Information

5.3 Exception Reporting/Sales Reports Audits. U.S. Communities or its designee may, at its sole discretion, compare Supplier's Sales Reports with Participating Public Agency records or other sales analysis performed by Participating Public Agencies, sponsors, advisory board members or U.S. Communities staff. If there is a material discrepancy between the Sales Report and such records or sales analysis as determined by U.S. Communities, U.S. Communities shall notify Supplier in writing and Supplier shall have thirty (30) days from the date of such notice to resolve the discrepancy to U.S. Communities' reasonable satisfaction. Upon resolution of the discrepancy, Supplier shall remit payment to U.S. Communities' trustee within fifteen (15) calendar days. Any questions regarding an exception report should be directed to U.S. Communities in writing to reporting@uscommunities.org. This Agreement supersedes any and all other agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereof, and no other agreement, statement, or promise relating to the subject matter of this Agreement which is not contained herein shall be valid or binding.

6.2 Assignment.

(a) Supplier. Neither this Agreement nor any rights or obligations hereunder shall be assignable by Supplier without prior written consent of U.S. Communities, and any assignment without such consent shall be void.

6.3 Notices. All reports, notices or other communications given hereunder shall be delivered by first-class mail, postage prepaid, or overnight delivery requiring signature on receipt to the addresses as set forth below. 6.8 Governing Law; Arbitration. This Agreement will be governed by and interpreted in accordance with the laws of the State of California without regard to any conflict of laws principles. Any dispute, claim, or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this dispute resolution clause, shall be determined by arbitration in Walnut Creek, California, before one (1) arbitrator. The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures. Judgment on the award may be entered in any court having jurisdiction. This clause shall not preclude parties from seeking provisional remedies in aid of arbitration from a court of appropriate jurisdiction. The prevailing party will be entitled to recover its reasonable attorneys' fees and arbitration costs from the other party. The arbitration award shall be final and binding. Each party commits that prior to commencement of arbitration proceedings, the parties shall submit the dispute to JAMS for mediation. The parties will cooperate with JAMS and with one another in selecting a mediator from JAMS panel of neutrals, and in promptly scheduling the mediation proceedings. The parties covenant that they will participate in the mediation in good faith, and that they will share equally in its costs. The mediation will be conducted by each party designating a duly authorized officer or other representative to represent the party with the authority to bind the party, and that the parties agree to exchange informally such information as is reasonably necessary and relevant to the issues being mediated. All offers, promises, conduct, and statements, whether oral or written, made in the course of the mediation by any of the parties, their agents, employees, experts, and attorneys, and by the mediator or any JAMS employees, are confidential, privileged, and inadmissible for any purpose, including impeachment, in any arbitration or other proceeding involving the parties, provided that evidence that is otherwise admissible or discoverable shall not be rendered inadmissible or non-discoverable as a result of its use in the mediation. If the dispute is not resolved within thirty (30) days from the date of the submission of the dispute to mediation (or such later date as the parties may mutually agree in writing), the administration of the arbitration shall proceed. The mediation may continue, if the parties so agree, after the appointment of the arbitrator. Unless otherwise agreed by the parties, the mediator shall be disqualified from serving as arbitrator in the case. The pendency of a mediation shall not preclude a party from seeking provisional remedies in aid of the arbitration from a court of appropriate jurisdiction, and the parties agree not to defend against any application for provisional relief on the ground that a mediation is pending.

6.9 Successors and Assigns. This Agreement shall inure to the benefit of and shall be binding upon U.S. Communities, Supplier and any successor and assign thereto; subject, however, to the limitations contained herein.

Permits are not included in cost, unless specifically listed in pricing. If permits are required Signed/Sealed drawings are usually needed and are also not included unless specifically listed in pricing. Any costs for municipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **120 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the municipality level). It is expected that the **owner will provide approved site plans** of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. The permit process can not begin until the site plans are available. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

Payment Terms: Governmental Purchase Order.

Purchases in excess of \$1,000.00 to be supported by your written purchase order made out to GameTime.

Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.

Multiple Invoices: Invoices will be generated upon services rendered. When equipment ships it will be invoiced separately from installation and/or other services. Terms are Net 30 for each individual invoice.

This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.

Pricing: Firm for 60 days from date of quotation.

Shipment: F.O.B. factory, order shall ship within 45 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.

Installation Terms: Shall be by a Certified Installer. The installer is an independent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

Minimum Order: Our minimum order is US \$50.00.

Order cancellation: Once accepted, orders can be canceled only with the consent of GameTime, and on terms which will indemnify GameTime against loss. Canceled orders will be subject to a restocking fee. Equipment "built-to-order" is non-cancelable.

Loss or damage in transit: GameTime is not responsible for loss or damage in transit. Carefully check all materials received; any shortage, discrepancy or damage must be noted on the delivery receipt and signed by the carriers representative. Village Manager

Village of Palm Springs

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Parks & Recreation

ITEM 6.11: Approve Royal Palm Park Playground Replacement Contract Award (Task Order No. 281) - Cooperative Purchasing (Piggyback) - Parks and Recreation Department (FY 2020 Funded - General Fund) - GameTime

SUMMARY: The Parks and Recreation Department has a need to purchase playground equipment to be installed at Royal Palm Park. The existing Royal Palm Park playground has been in place for over 10 years (moved from Summer Street - Sabal Palm Park - when this park was built approximately 7 years ago) and is recommended to be updated to ensure the safe and fun play space for the our community.

Note: Although the Village staff has ensured that our current equipment is maintained properly for safety purposes, the equipment maintains a high amount of discoloring, broken parts and is beginning to show significant rusting. As a result, staff has identified a need to replace the playground equipment within the FY 2020 budget process. This playground was initially installed at Sabal Palm Park (Summer Street) and was moved to Royal Palm Park when the park was constructed.

To ensure the lowest possible price, staff is recommending that the Village piggyback off the current Omnia Partners US Communities Governmental Purchasing Cooperative (Co-Op) awarded to the City of Charlotte, North Carolina. This selection by the City of Charlotte, as the Lead Agency for the Co-Op, was completed through a competitive selection process - Playground Equipment, Outdoor Fitness Equipment, Site Accessories, Surfacing and Related Products (RFP #269-2017-028 - January 25, 2017).

Note: The proposed piggyback contract was completed as part of the Omnia Partners US Communities Governmental Purchasing Cooperative (Co-Op). The intent is to bring member cities together and combine their purchasing needs within the Co-Op (which the Village is a member) to generally receive the best (lowest) price possible. More than 87,000 governmental

entities, including the Village of Palm Springs, participate within the Omnia Partners US Communities Governmental Purchasing Cooperative.

The proposed playground equipment was designed utilizing input from our community and staff to design a playground system that would be "attractive" and provide balance, climbing, education, sliding, sensory, colors and sounds. The proposed playground equipment would be installed within the current playground area and would include climbing options, open tunnels, slides, swings and would be built within the existing shade structure to allow year round use while incorporating multiple individual and group play elements that will help with building self-esteem, physical and social skills. Further, the new equipment will incorporate English and Spanish to assist our children and our community to better communicate and learn about various cultures.

Through the proposed Omnia Partners Omnia Partners US Communities Governmental Purchasing Cooperative Contract, the Parks and Recreation Department was able to obtain a price of \$64,476.13, which provided for discounts ranging from 3% to 34% from their retail catalog pricing.

Within the FY 2020 Budget - General Fund and the Capital Improvement Plan (CIP) the Village Council approved \$75,000 for the replacement and installation of new playground equipment within the Royal Palm Park. Staff expects to have sufficient funding to complete this project.

If approved, the Village would accept GameTime's pricing by piggybacking the City of Charlotte, North Carolina's (Omnia Partners US Communities Governmental Purchasing Cooperative) contract, including all terms, conditions and pricing therein. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: If approved, the Village would be making this proposed playground equipment purchase with GameTime; however, this purchase would be through their Florida representative, Dominica Recreation Products, located in Longwood, Florida.

The Village's Purchasing Code, Section 58-9, Accessing contracts of other government agencies, provides that the Village may award a contract by piggybacking or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

If approved, the proposed permitting and installation of the new playground system would be completed within 120 days (August/September 2020) following the Notice to Proceed by the Village.

The Parks & Recreation Advisory Board considered the proposed Royal Palm Park playground improvement project during their January 22, 2020 meeting and provided input on the proposed design and recommended approval.

The proposed agreement was prepared by the Village Attorney and reviewed by the Parks and Recreation Director, Public Service Director/Engineer, Assistant Public Service Director, the Public Service Project Manager, the Planning, Zoning & Building Director and the Finance Director.

The Village has not worked with the vendor previously, however, we have received positive references from the School District of Palm Beach County for the proposed vendor.

FISCAL IMPACT:

Funding to support this purchase is available within the FY 2020 Budget - General Fund. Village Council approved \$75,000 toward the Village Center Playground Replacement.

<u>Allocated/Estimated Project Funding:</u>	<u>Amount</u>
FY 2020 Approved Budget - General Fund	\$75,000.00

<u>Expected Project Costs:</u>	<u>Amount</u>
Proposed Project Cost - Royal Palm Park Playground Improvements (Task Order #281)	\$64,476.13

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods/services.

PLAYGROUND EQUIPMENT, OUTDOOR FITNESS EQUIPMENT, SITE ACCESSORIES, SURFACING, AND RELATED PRODUCTS AND SERVICES

RFP # 269-2017-028 Solicitation and Evaluation Summary

Background

On January 25, 2017, the City of Charlotte Procurement Management Division issued a Request for Proposals (RFP) for interested suppliers to provide Playground Equipment, Outdoor Fitness Equipment, Site Accessories, Surfacing, and Related Products and Services to satisfactorily support the City of Charlotte, and other public agencies supported under this contract. The City of Charlotte served as Lead Public Agency on behalf of the U.S. Communities Government Purchasing Alliance through a public agency clause, which provides that any county, city, special district, local government, school district, private K-12 school, technical or vocational school, higher education institution (including community colleges, colleges and universities, both public and private), state, other government agency or nonprofit organization may purchase Products and Services through this contract.

Solicitation Process

1. Request for Proposals (RFP # 269-2017-028) was issued in accordance with NC State Statutes (G.S. 143-129) and the Citywide Procurement Policy (MFS 24) on January 25, 2017. An RFP was issued due to the significant importance of design and installation of playground equipment and for safety requirements. In addition, no two playgrounds are the same and each company manufactures their own unique and exclusive systems so they cannot be compared as “apples to apples” for a low bid tabulation.
2. We advertised the solicitation in the *Charlotte Observer* newspaper (affidavit attached), posted the solicitation on the NC Interactive Purchasing System (NCIPS) website at: www.ips.state.nc.us, City of Charlotte website at: <http://charlottenc.gov> and U.S. Communities website at: www.uscommunities.org. Although not required by law or policy, we also sent a courtesy email notification of the opportunity to bid to 34 vendors that are registered with the City under related NIGP commodity codes 65000 & 93165.
3. A Pre-proposal conference was held on February 7, 2017 to review specifications and allow the suppliers to ask questions pertaining to the proposal process or specifications. (Although law does not require a pre-proposal, it is the City’s practice to conduct pre-proposals.)
4. We received five (5) sealed proposals in response to the RFP that were stamped and stored unopened until March 16, 2017 from the following:
 - Playcore Wisconsin, Inc. d/b/a GameTime
 - Kompan
 - Icon Shelters
 - RCP Shelters
 - Themed Concepts
5. The proposal from Icon Shelters was deemed non-responsive due to not acknowledging all addenda and not signing the MWSBE form.
6. On March 20, 2017 copies of the all proposals received were sent to the Evaluation Team (“Team”) consisting of the following:

Voting Members:

- Genetta Carothers, City of Charlotte - Procurement Management
- Dianne Frederick, City of Charlotte – Engineering & Property Management
- Karen Ewing, City of Charlotte - Procurement Management
- Steve Pierson, Fairfax County, VA

- Bill Thomas, Cobb County, GA
- Andrew Trombley, Onondaga County, NY

Non-Voting Members:

- Alexis Turner, U.S. Communities
- Tyler McCall, U.S. Communities

Please note that U.S. Communities members reviewed the proposals for compliance with U.S. Communities requirements and did not score proposals, and did not have a vote on the final recommendations.

Evaluation of Bids

1. All Team members conducted individual evaluations of each Bid received based on the criteria stated in Section 3.3 of the ITB, and in accordance with, and subject to, all relevant statutes, ordinances, rules and regulations that govern procurement in the state of North Carolina.

The Evaluation Team determined the most comprehensive, competitive, and best value solutions that were most advantageous to the Lead Public Agency and potential Participating Public Agencies, based on the following criteria:

- A. Compliance with all requirements of the RFP;
 - B. Ability to meet the performance requirements of this RFP;
 - C. Experience, Background, Qualifications, Capability, Marketing, (including past performances, administration, management capabilities);
 - D. Products and services offerings (extent of offerings);
 - E. Proposed approach and proposed solution;
 - F. Proposed playgrounds per Section 6 of the RFP, taking into considerations:
 - a. Design
 - b. Quality
 - c. Durability
 - d. Play value
 - e. ADA Accessibility and Inclusivity
 - f. Product warranty
 - G. Cost effectiveness and value;
 - H. Ability to demonstrate products and services that meet or exceed industry standards accepted by governmental and educational agencies nationally;
 - I. Financial Qualifications;
 - J. Company Environmental Initiatives;
 - K. MWSBE factors specified in the RFP; and
 - L. References
2. The Evaluation Team submitted their individually completed evaluation matrix to Karen on or before April 7, 2017.
 3. The City of Charlotte combined scores for first round evaluations of the team.
 4. The Evaluation Team met in Charlotte, North Carolina on April 11-13, 2017.
 5. The Team reviewed the proposals and determined that Kompan and Playcore Wisconsin were the only companies that could meet the requirements of the RFP. The Team made a list of questions as we discussed each proposal.
 6. The Team held conference calls with Kompan and Playcore Wisconsin and asked the list of prepared questions. Kompan and Playcore provided verbal clarifications, and/or acknowledged they would provide the information requested. Karen e-mailed each company the list of questions and requested a written response.

7. The Team re-evaluated their individual scores for each vendor based on the information obtained during the conference calls. The team members verbally provided their individual scores for each criteria, which Karen recorded on the combined scoring matrix (projected on the screen) and the total scores were averaged.
8. Karen provided the Team with the sample playgrounds comparisons required as part of the proposal responses. The comparison included itemized cost and total pricing analysis, number of play components, installation service fees, shipping, and warranties. A copy of the comparison is available upon request. Please contact Karen Ewing at 704-336-2992.
9. All additional information received from Kompan and Playcore Wisconsin was forwarded to each Evaluation Team member for review and comments. No scores were revised as a result of the clarifications to questions.
10. The Evaluation Team unanimously agreed on recommending Kompan and Playcore Wisconsin, Inc. d/b/a GameTime as having the most comprehensive and advantageous proposals and best overall solution for the City of Charlotte and potential participating public agencies nationwide through U.S. Communities.
11. A recommendation was made to the Charlotte City Council for consideration at the regularly scheduled Council meeting on May 8, 2017 to award the contracts as recommended.
12. Charlotte City Council approved the contract with Kompan and Playcore Wisconsin, Inc. d/b/a GameTime (approved consent item attached).
13. The effective date of the contracts and Master Agreements will be July 1, 2017 for the term of five (5) years with the option to renew for two (2) additional two-year terms.

This Contract supersedes all prior agreements, negotiations, representations and proposals, written or oral. Notwithstanding the forgoing, the parties agree that the ITB and the Bid are relevant in resolving any ambiguities that may exist with respect to the language of this Contract
- 45.2 **AMENDMENT.** No amendment or change to this Contract shall be valid unless in writing and signed by the party against whom enforcement is sought. Amendments that involve or increase in the amounts payable by the City may require execution by a Department Director, the City Manager, or an Assistant City Manager; depending on the amount. Some increases may also require approval by City Council.
- 45.3 **GOVERNING LAW AND JURISDICTION.** North Carolina law shall govern the interpretation and enforcement of this Contract, and any other matters relating to this Contract (all without regard to North Carolina conflicts of law principles). All legal actions or other proceedings relating to this Contract shall be brought in a state or federal court sitting in Mecklenburg County, North Carolina. By execution of this Contract, the parties submit to the jurisdiction of such courts and hereby irrevocably waive any and all objections which they may have with respect to venue in any court sitting in Mecklenburg County, North Carolina.

- 45.4 **BINDING NATURE AND ASSIGNMENT.** This Contract shall bind the parties and their successors and permitted assigns. Neither party may assign this Contract without the prior written consent of the other. Any assignment attempted without the written consent of the other party shall be void. For purposes of this Section, a Change in Control, as defined in Section 42.8 constitutes an assignment.
- 45.5 **SEVERABILITY.** The invalidity of one or more of the phrases, sentences, clauses or sections contained in this Contract or the Exhibits shall not affect the validity of the remaining portion of this Contract or Exhibits so long as the material purposes of this Contract can be determined and effectuated. If any provision of this Contract or Exhibit is held to be unenforceable, then both parties shall be relieved of all obligations arising under such provision, but only to the extent that such provision is unenforceable, and this Contract shall be deemed amended by modifying such provision to the extent necessary to make it enforceable while preserving its intent.
- 45.6 **NO PUBLICITY.** No advertising, sales promotion or other materials of the Company or its agents or representations may identify or reference this Contract or the City in any manner without the prior written consent of the City. Notwithstanding the forgoing, the parties agree that the Company may list the City as a reference in responses to requests for proposals, and may identify the City as a customer in presentations to potential customers.
- 45.7 **WAIVER.** No delay or omission by either party to exercise any right or power it has under this Contract shall impair or be construed as a waiver of such right or power. A waiver by either party of any covenant or breach of this Contract shall not constitute or operate as a waiver of any succeeding breach of that covenant or of any other covenant. No waiver of any provision of this Contract shall be effective unless in writing and signed by the party waiving the rights.
- 45.8 **CHANGE IN CONTROL.** In the event of a change in "Control" of the Company (as defined below), the City shall have the option of terminating this Contract by written notice to the Company. The Company shall notify the City within ten days of the occurrence of a change in control. As used in this Contract, the term "Control" shall mean the possession, direct or indirect, of either (i) the ownership of or ability to direct the voting of, as the case may be fifty-one percent (51%) or more of the equity interests, value or voting power in the Company or (ii) the power to direct or cause the direction of the management and policies of the Company whether through the ownership of voting securities, by contract or otherwise.
- 45.9 **NO BRIBERY.** The Company certifies that neither it, any of its affiliates or subcontractors, nor any employees of any of the forgoing has bribed or attempted to bribe an officer or employee of the City in connection with this Contract.
- 45.10 **FAMILIARITY AND COMPLIANCE WITH LAWS AND ORDINANCES.** The Company agrees to make itself aware of and comply with all local, state and federal ordinances, statutes, laws, rules and regulations applicable to the Services. The Company further agrees that it will at all times during the term of this Contract be in compliance with all applicable federal, state and/or local laws regarding employment practices. Such laws will include, but shall not be limited to workers' compensation, the Fair Labor Standards Act (FLSA), the Americans with Disabilities Act (ADA), the Family and Medical Leave Act (FMLA) and all OSHA regulations applicable to the work.

- 45.11 TAXES. The Company shall pay all applicable federal, state and local taxes which may be chargeable against the Products and/or Services.
- 45.12 SURVIVAL OF PROVISIONS: Those Sections of the Contract and the Exhibits, which by their nature would reasonably be expected to continue after the termination of the Contract shall survive the termination of the Contract, including but not limited to the following:
- | | |
|-------------|---|
| Section 3 | “Term” |
| Section 4.3 | “Employment Taxes and Employee Benefits” |
| Section 13 | “General Warranties” |
| Section 14 | “Additional Representations and Warranties” |
| Section 22 | “Guarantee” |
| Section 28 | “Other Remedies” |
| Section 29 | “Termination” |
| Section 33 | “Insurance” |
| Section 34 | “Indemnification” |
| Section 39 | “Notices” |
| Section 42 | “Confidentiality” |
| Section 45 | “Miscellaneous” |
- 45.13 NON-APPROPRIATION OF FUNDS. If City Council does not appropriate the funding needed by the City to make payments under this Contract for a given fiscal year, the City will not be obligated to pay amounts due beyond the end of the last fiscal year for which funds were appropriated. In such event, the City will promptly notify the Company of the non-appropriation and this Contract will be terminated at the end of the last fiscal year for which funds were appropriated. No act or omission by the City, which is attributable to non-appropriation of funds shall constitute a breach of or default under this Contract.
- 45.14 E-VERIFY. Company shall comply with the requirements of Article 2 of Chapter 64 of the North Carolina General Statutes, and shall require each of its subcontractors to do so as well.
- 45.15 IRAN DIVESTMENT ACT. Company certifies that: (i) it is not identified on the Final Divestment List or any other list of prohibited investments created by the NC State Treasurer pursuant to N.C.G.S. 147-86.58; (ii) it will not take any action causing it to appear on any such list during the term of this Contract; and (iii) it will not utilize any subcontractor that is identified on any such list to provide goods or services hereunder.
- 45.16 PRE-AUDIT. No pre-audit certificate is required under N.C. Gen. Stat. 159-28(a) because this Contract is for an indefinite quantity with no minimum purchase requirement. Notwithstanding anything contained herein to the contrary, this Contract does not require the City to purchase a single product or service, and a decision by the City to not make any purchase hereunder will violate neither this Contract nor any implied duty of good faith and fair dealing. The City has no financial obligation under this Contract absent the City’s execution of a valid and binding purchase order or contract addendum containing a pre-audit certificate.”

45.17 UNIFORM ADMINISTRATIVE REQUIREMENTS

By entering into this Contract, the Company agrees to comply with all applicable provisions of *Title 2, Subtitle A, Chapter II, Part 200* – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards contained in *Title 2 C.F. R. § 200 et seq.*

45.18 COUNTERPARTS.

This Contract may be executed in any number of counterparts, all of which taken together shall constitute one single agreement between the parties.

Recycled Poured Rubber Surfacing

POURED IN PLACE (PIP) WARRANTY

Playground Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of five (5) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment

GameTime warrants the GT Impax recycled poured rubber surface (referred to as PIP) installed and maintained in accordance to GameTime specifications, under this contract agreement for a period of three (3) years commencing from the date of substantial completion. This limited warranty shall provide for 100% of the cost for necessary repairs caused by the failure of the GT Impax PIP due to workmanship and materials only, and pertains only to the surfacing material agreed to under this contract.

Water Play Equipment Only: If aliphatic binder is not used, poured rubber surfacing (PIP) will carry a maximum one-year (1) warranty.

This limited warranty includes GameTime's obligation to only repair and/or replace any defective materials or workmanship in the surface area or surface areas that have failed during the warranty period. A failed area or failed areas include edge raveling, bubbling, delamination, peeling, and loss of integrity as a result of the GT Impax recycled poured rubber degradation. GameTime is under no obligation or responsibility to repair and/or replace the GT Impax recycled poured rubber "PIP" surface if damaged during the curing process (Unless specified in contract), damage by vandalism (including stains, cuts, burns, gouges, etc.), product misuse, abuse or alteration, improper slab or base or sub-base design or construction, improper drainage, improper or lack of specified required maintenance, any foreign residue that may be deposited on the surface, normal wear and tear (including slight color variations, and color fading), damage from sharp objects (high heels, spikes, etc.), problems caused by moisture, alkali, hydrostatic pressure, cracking, shifting, or lifting of the substrate, or acts of God.

All warranty claims shall be made in writing to GameTime within thirty (30) days after the Owner has knowledge thereof, but in no event later than thirty (30) days after expiration of the warranty period. The written notification from the Owner shall include the following: the date of the first notice of the failure, details of the failure, photos of the failed area and a request for a warranty claim meeting with GameTime at the installation site (if applicable). GameTime shall not be responsible for warranty claims for any notices received from the Owner after thirty (30) days of Owner's first knowledge of the failure.

GameTime shall determine the validity of all claims after sufficient evidence has been gathered. GameTime shall then replace, repair or make a refund for any claims validated by it. Any refund, credit or allowance provided to the Owner on a warranty claim is exercisable only if said allowance is used to accommodate replacement with a GT Impax recycled poured rubber surface.

Any dispute as to whether and to what extent there is a GT Impax recycled poured rubber surfacing failure and a subsequent valid warranty claim within the meaning of this warranty shall be initially dealt with by joint investigation and discussion between GameTime and owner in order to achieve a mutually agreeable solution. If such a solution cannot be reached within thirty (30) days, then either the Owner of GameTime shall submit the matter to an arbitrator who is a member of the American Arbitration Association and who shall make a determination in accordance with the rules and regulation of said American Arbitration Association. The decision of said arbitrator shall be binding on both parties.

This limited warranty is exclusive of the underlying material (e.g. existing surface, existing or new asphalt, concrete, base, sub-base or sub-grade). If the underlying material fails for any reason whatsoever (including hydrostatic pressure, cracking, shifting, heaving), then GameTime warranty shall be rendered invalid. If the underlying material is concrete, a "curing agent" is NOT allowed, as it will probably cause delamination of the GT Impax recycled poured rubber. Additionally, there is no warranty against surface cracking along expansion joints and underlying cracks, or separating from an adjacent border, curb or walkway. This limited warranty does not include discoloration as a result of ultraviolet rays, unapproved cleaning materials or vandalism. **WARNING:** Surface temperatures can prove dangerous under warm weather conditions. Shoes and/or socks must be worn during warm weather conditions.

Owner agrees that it will not, under any circumstances, make alterations to the GT Impax recycled poured rubber surface without the written authorization of GameTime. Any unauthorized alteration by the Owner shall result in the immediate termination of all warranties for the GT Impax recycled poured rubber surfacing and shall also give rise to the duty of the Owner to hold harmless, defend and indemnify GameTime from any claim, suit or cause of action, personal injury, death, or property damage arising out of or related to said alteration.

This limited warranty is expressly made in lieu of any other warranties and is exclusive to the original Owner. Owner acknowledges that the limited warranty will be voided if the Owner fails to follow the GameTime Maintenance Guidelines provided by GameTime. Owner agrees that in no event shall GameTime have any liability to Owner for loss of use or loss of profits or any form of consequential damages. **NOTE:** The following chemicals can cause potential damage to the GT Impax recycled poured rubber and should be avoided: disinfectants, concentrated bleach, gasoline, diesel, hydraulic and lubricating oils, weak acids and organic solvents.

If the contract price is not paid in a timely manner as per the terms and conditions of the agreed contract, the limited warranty is automatically voided. Any damages to the surface during the curing period will be repaired or paid for at the Owner's expense. This limited warranty does not lessen or eliminate any other contractual obligation of Owner to GameTime.

PART 3 – SUB-BASE TYPES AND DETAILS

Sub-base Requirements - The base shall have the specific minimum slope (2%) and shall vary no more than 1/8” when measured in any direction with a 10’ straight edge.

Stone – The density requirement is 90% to 95% compaction with final condition of stone as level and stable so as not to shift when traveled on or during surface installation process. A compaction test is required and must be submitted to GameTime prior to installation of turf surfacing. Failure to provide proof of compaction test will void 5-year warranty of turf surfacing should signs of sub-base failure occurs.

PART 3 – SUB-BASE TYPES AND DETAILS (Continued)

<u>Depth:</u>	4 inch minimum thickness.
<u>Slope:</u>	Stone elevation shall maintain 1/4" per foot toward low end.
<u>Porosity:</u>	Base course shall maintain porosity for direct drainage.
<u>Enclosure:</u>	Stone base course must be surrounded by a retaining curb.
<u>Drainage:</u>	Subsurface drainage is recommended under and around a stone base. Perforated pipe or similar system is acceptable.
<u>Tolerances:</u>	1/4" in any 10-foot direction and 1/8" in any 3-foot direction.
<u>Stone Selection:</u>	It is critical that different size stones are used so that the base shall be uniformly mixed. The material shall be wetted during mixing operations if necessary for proper blending.

<u>Stone Graduation</u>	<u>U.S. Sieve</u> 1"	<u>Percent Passing</u> 100
	3/4"	90 - 100
	No. 4	35 - 60
	No. 30	10 - 30
	No. 200	2 - 9

Concrete or Asphalt – Concrete should be finished with a medium broom finish. All new concrete slabs must cure for a minimum of seven (7) days prior to installation. Asphalt cure time requires fourteen (14) days. Once the new asphalt has cured, it must be pressured washed prior to the surfacing being installed. The concrete contractor shall be responsible for flooding the pad to insure proper slope and tolerance. Any areas holding enough water to cover a flat nickel shall be patched prior to arrival of turf installation crews.

<u>Depth:</u>	4 inch minimum thickness.
<u>Slope:</u>	Concrete or asphalt shall maintain 1/4" per foot.
<u>Tolerance:</u>	Concrete must maintain a tolerance of 1/8" in 10 ft. to avoid low areas that will hold water under the turf.

PART 4 – SITE PREPARATION AND REQUIREMENTS

Drainage – Having proper drainage at the low end of the concrete slab is of utmost importance. Any brick walls or curbs at the low end of the slab shall have drainage access through weep holes. Concrete curbing weep holes should be level with finish grade of sub-base or a minimum of 1/8" below top of concrete slab, as GT IMPAX turf surfacing is porous and water drains immediately through it. Weep holes shall be 2" high and 3" wide and shall be installed every three (3) feet. If weep holes are smaller than the recommended size, they shall be installed every 18". Floor drains shall be located outside the high impact areas, as the drains may not be covered with GT IMPAX turf surfacing. Recommended locations for drains are under play unit or against low-end wall or curb.

Security & Waste Disposal – Surface installation crew shall be responsible for the protection of surface during the installation process while on site only. Owner or general contractor shall be responsible for the protection of the surface during the curing period upon completion of the installation and overnight during the installation. Owner or general contractor shall be responsible for having a dumpster on site for all waste and debris. Failure to provide security and a dumpster will result in additional cost.

Utilities & Access – Power and water must be available within 300 feet of installation. Site will require tractor-trailer access. In a case where tractor-trailer access is not possible, owner or general contractor shall be responsible for transporting materials from delivering carrier to the installation site.

PART 5 – INSTALLATION

General: The area to be smooth and graded to allow proper drainage. Refer to grading plan. The overall grade of the playground is not to exceed 3%.

Compacted Aggregate Base: Place 4 inches of aggregate base as leveling layer compacted to 90% of max density per AASHTO T99. Compaction shall be done with mechanical compactors, including vibratory compactors, and/or powered tampers, and rollers. Aggregate size should be 3/4" minus (compactable).

Synthetic Grass: Place turf and cut to fit configuration as shown on Drawings. Splice seams. All seams must be attached with splicing film/fabric and adhesive as approved by the manufacturer for this type of installation of their product.

Infill: Apply layers of synthetic grass infill evenly with a spreader and broom the turf fibers with stiff bristle broom to stand fibers up and allow infill to settle into the bottom. Broom in GT Impax Turf™ infill approximately 3 to 4 pounds per square foot.

**(infill is only required on the 60 oz. Dura Series. 80 oz Ultra Series does require limited to no infill. Manufacturer always recommends at least a pound of infill per sq foot)*

Anchoring/Edging: Edges of turf will be secured to ground with mechanical fasteners, stakes or edging.

1.4 U.S. COMMUNITIES BACKGROUND

U.S. Communities Government Purchasing Alliance (herein “U.S. Communities”) assists Participating Public Agencies to reduce the cost of purchased goods through strategic sourcing that combines the volumes and the purchasing power of public agencies nationwide. This is accomplished through an award of competitively solicited Contracts for high quality Products and Services by large and well recognized public agencies (herein “Lead Public Agencies”). The Contracts are provided for use by not only the respective Lead Public Agency, but also by other Participating Public Agencies.

1.4.1 National Sponsors

U.S. Communities is jointly sponsored by the National Association of Counties (NACo), the National League of Cities (NLC), the Association of School Business Officials International (ASBO), the United States Conference of Mayors (USCM) and the National Governors Association (NGA) (herein “National Sponsors”).

1.4.2 Advisory Board

The U.S. Communities Advisory Board is made up of key government purchasing officials from across the United States.

Each [Advisory Board Member](#) is expected to actively participate in product Proposals and selection, participate in policy direction, and share expertise and purchasing innovations.

1.4.3 Participating Public Agencies

Today more than 55,000 public agencies utilize U.S. Communities Contracts and suppliers to procure over \$2.0 Billion Dollars in Products and Services annually. Each month more than 500 new public agencies register to participate. The continuing rapid growth of public agency participation is fueled by the program's proven track record of providing public agencies unparalleled value.

The Supplier(s) must communicate directly with any Participating Public Agency concerning the placement of orders, issuance of the purchase order, Contractual disputes, invoicing, and payment.

City of Charlotte, North Carolina is acting as "Contracting Agent" for the Participating Public Agencies and shall **not** be held liable for any costs, damages, expenses, fees, liabilities, etc. incurred by any other Participating Public Agency.

Each Participating Public Agency enters into a Master Intergovernmental Cooperative Purchasing Agreement (MICPA) outlining the terms and conditions that allow access to the Lead Public Agencies' Master Agreements. Under the terms of the MICPA, the procurement by the Participating Public Agency shall be construed to be in accordance with, and governed by, the laws of the state in which the Participating Public Agency resides. A copy of the MICPA is attached in Section 8.

1.4.4 Estimated Volume

The estimated dollar volume of Products and Services purchased under the proposed Master Agreement is \$100 Million Dollars annually. This estimate is based on the anticipated volume of the Lead Public Agency, the U.S. Communities Advisory Board members, and current sales within the U.S. Communities program. While there is no minimum quantity of Products required to be purchased under the proposed Master Agreement, City of Charlotte and the U.S. Communities Advisory Board Members are committed

Section 1

U.S. Communities Overview and Requirements

to utilizing the Master Agreement. The Advisory Board members shall determine if the Master Agreement is of value to their agency, and will promote the Master Agreement among other public agencies nationwide and internationally. The Advisory Board in 2015 purchased more than \$160 Million Dollars of Products and Services from existing U.S. Communities Contracts.

1.4.5 Marketing Support

U. S. Communities provides marketing support for each Supplier's Products through the following:

- National Sponsors as referenced above.
- State Associations of Counties, Schools and Municipal Leagues.
- Administrative and marketing personnel that directly promote the U.S. Communities Suppliers to Participating Public Agencies through public agency meetings, direct mail, email, online and print advertising, social media, articles, and exhibiting and presenting at national and local trade shows.
- U.S. Communities provides Suppliers government sales training, and a host of online marketing and sales management tools to effectively increase sales through U.S. Communities.

1.4.6 Multiple Awards

Multiple awards may be issued as a result of the solicitation. Multiple Awards will ensure that any ensuing Master Agreements fulfill current and future requirements of the diverse and large number of Participating Public Agencies. The City of Charlotte reserves the right to award the Contract locally and/or nationally in the aggregate, by section, multiple award, primary, secondary, and tertiary, whichever is in the best interest of the City of Charlotte and Participating Public Agencies as a result of this solicitation.

1.4.7 Evaluation of Proposals

Proposals will be evaluated by the Lead Public Agency in accordance with, and subject to, the relevant statutes, ordinances, rules and regulations that govern its procurement practices.

U.S. Communities Advisory Board members and other Participating Public Agencies will assist the Lead Public Agency in evaluating proposals. The Supplier(s) that respond(s) affirmatively meets the requirements of this Request for Proposal and provides the best overall value will be eligible for a Contract award. U.S. Communities reserves the right to make available or not make available Master Agreements awarded by a Lead Public Agency to Participating Public Agencies.

U.S. Communities Overview and Requirements

SUPPLIER QUALIFICATIONS

1.5 SUPPLIERS

1.5.1 Commitments

U.S. Communities views the relationship with an awarded Supplier as an opportunity to provide maximum benefit to both the Participating Public Agencies and to the Supplier.

The successful foundation of the partnership requires commitments from both U.S. Communities and the Supplier. U.S. Communities requires the Supplier to make the four commitments set forth below (Corporate, Pricing, Economy, and Sales) to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies:

(a) **Corporate Commitment.**

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier's primary Contractual offering of Products and Services to Public Agencies. All of Supplier's direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier's primary offering and not just one of Supplier's Contract options.

(ii) Supplier's sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier's senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier's Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating Public Agency registrations and for ensuring timely follow-up by Supplier's staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier's U.S. Communities program and linked to U.S. Communities' website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that

Section 1

U.S. Communities Overview and Requirements

national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with Companywide authority.

(viii) Where Supplier has an existing Contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state's request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

(b) **Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier's pricing shall be evaluated on either an overall project basis or the Public Agency's actual usage for more frequently purchased Products and Services.

(ii) Contracts Offering Lower Prices. If a pre-existing Contract and/or a Public Agency's unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency's purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier's obligation to match the pricing under Supplier's Contracts offering lower prices.

- (A) Supplier holds a state Contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.
- (B) Supplier holds a regional cooperative Contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.
- (C) Supplier holds a Contract with an individual Public Agency. The Public Agency Contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the Contract. Supplier would be required to match the lower pricing under the

Section 1

U.S. Communities Overview and Requirements

Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative Contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

- (A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.
- (B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the Contract, the sales would be reported as sales under the Master Agreement.
- (C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the Contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.
- (D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a Contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

Section 1

U.S. Communities Overview and Requirements

- (E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

- (c) **Economy Commitment.** Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate Proposals and solicitations.

- (d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other Contracts to Public Agencies.

- (i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product listings, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. During the term of the Agreement, the Supplier shall provide U.S. Communities with its logo and the standards to be employed in the use of the logo for purposes of reproducing and using Supplier's name and logo in connection with the advertising, marketing and promotion of the Master Agreement to Public Agencies. Supplier shall assist U.S. Communities by providing camera-ready logos and by participating in related trade shows and conferences. At a minimum, Supplier's sales initiatives shall communicate that (i) the Master Agreement was competitively solicited by the Lead Public Agency, (ii) the Master Agreement provides the Supplier's best overall pricing and value to eligible agencies, (iii) there is no cost to Participating Public Agencies, and (iv) the Master Agreement is a non-exclusive Contract.

Section 1

U.S. Communities Overview and Requirements

- (ii) Branding and Logo Compliance. Supplier shall be responsible for complying with the U.S. Communities branding and logo standards and guidelines. Prior to use by Supplier, all U.S. Communities related marketing material must be submitted to U.S. Communities for review and approval.
- (iii) Sales Force Training. Supplier shall train its national sales force on the Master Agreement and U.S. Communities program. U.S. Communities shall be available to train on a national, regional or local level and generally assist with the education of sales personnel.
- (iv) Participating Public Agency Access. Supplier shall establish the following communication links to facilitate customer access and communication:
 - (A) A dedicated U.S. Communities internet web-based homepage that is accessible from Supplier's homepage or main menu navigation containing:

 - (2) Copy of original procurement solicitation;
 - (3) Copy of Master Agreement including any amendments;
 - (4) Summary of Products and Services pricing;

- (vi) Supplier's Performance Review. Upon request by U.S. Communities, Supplier shall participate in a performance review meeting with U.S. Communities to evaluate Supplier's performance of the covenants set forth in this Agreement.
- (vii) Supplier Content. Supplier may, from time to time, provide certain graphics, media, and other content to U.S. Communities (collectively "Supplier Content") for use on U.S. Communities websites and for general marketing and publicity purposes. During the term of the Agreement, Supplier hereby grants to U.S. Communities and its affiliates a non-exclusive, worldwide, free, transferrable, license to reproduce, modify, distribute, publically perform, publically display, and use

Section 1

U.S. Communities Overview and Requirements

Supplier Content in connection with U.S. Communities websites and for general marketing and publicity purposes, with the right to sublicense each and every such right. Supplier warrants that: (a) Supplier is the owner of or otherwise has the unrestricted right to grant the rights in and to Supplier Content as contemplated hereunder; and (b) the use of Supplier Content and any other materials or Services provided to U.S. Communities as contemplated hereunder will not violate, infringe, or misappropriate the intellectual property rights or other rights of any third party.

ARTICLE III

REPRESENTATIONS AND COVENANTS

3.1 U.S. Communities views the relationship with Supplier as an opportunity to provide benefits to the Lead Public Agency, Public Agencies and Supplier. The successful foundation of the relationship requires certain representations and covenants from both U.S. Communities and Supplier.

3.2 U.S. Communities' Representations and Covenants.

Section 7

Required U.S. Communities Information

(a) Marketing. U.S. Communities shall proactively market the Master Agreement to Public Agencies using resources such as a network of major sponsors including the National League of Cities (NLC), National Association of Counties (NACo), United States Conference of Mayors (USCM), and the Association of School Business Officials (ASBO) (collectively, the “Founding Co-Sponsors”) and individual national, regional and state-level sponsors. In addition, the U.S. Communities staff shall make best efforts to enhance Supplier’s marketing efforts through meetings with Public Agencies, participation in key events and tradeshows and other marketing activity such as advertising, articles and promotional campaigns.

(b) Training and Knowledge Management Support. U.S. Communities shall provide support for the education, training and engagement of Supplier’s sales force as provided herein. Through its staff (each, a “Program Manager” and collectively, the “Program Managers”), U.S. Communities shall, with scheduling assistance from Supplier, conduct training sessions and conduct calls jointly with Supplier to Public Agencies. U.S. Communities shall also provide Supplier with access to U.S. Communities’ private intranet website which provides presentations, documents and information to assist Supplier’s sales force in effectively promoting the Master Agreement.

3.3 Supplier’s Representations and Covenants. Supplier hereby represents and covenants as follows in order to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies (such representations and covenants are sometimes referred to as “Supplier’s Commitments” and are comprised of the Corporate Commitment, Pricing Commitment, Economy Commitment and Sales Commitment):

(a) Corporate Commitment.

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier’s primary contractual offering of Products and Services to Public Agencies. All of Supplier’s direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier’s primary offering and not just one of Supplier’s contract options.

(ii) Supplier’s sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier’s senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier’s Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating

Required U.S. Communities Information

Public Agency registrations and for ensuring timely follow-up by Supplier's staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier's U.S. Communities program and linked to U.S. Communities' website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with companywide authority.

(viii) Where Supplier has an existing contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state's request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

(b) **Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier's pricing shall be evaluated on either an overall project basis or the Public Agency's actual usage for more frequently purchased Products and Services.

(ii) **Contracts Offering Lower Prices.** If a pre-existing contract and/or a Public Agency's unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency's purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier's obligation to match the pricing under Supplier's contracts offering lower prices.

(A) Supplier holds a state contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.

(B) Supplier holds a regional cooperative contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.

(C) Supplier holds a contract with an individual Public Agency. The Public Agency contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the contract. Supplier would be

Section 7

Required U.S. Communities Information

required to match the lower pricing under the Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

(A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.

(B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement.

(C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.

(D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

(E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

(c) Economy Commitment. Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master

Section 7

Required U.S. Communities Information

Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate bids and solicitations.

(d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other contracts to Public Agencies.

(i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product catalogs, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. During the term of the Agreement, the Supplier shall provide U.S. Communities with its logo and the standards to be employed in the use of the logo for purposes of reproducing and using Supplier's name and logo in connection with the advertising, marketing and promotion of the Master Agreement to Public Agencies. Supplier shall assist U.S. Communities by providing camera-ready logos and by participating in related trade shows and conferences. At a minimum, Supplier's sales initiatives shall communicate that (i) the Master Agreement was competitively solicited by the Lead Public Agency, (ii) the Master Agreement provides the Supplier's best overall pricing and value to eligible agencies, (iii) there is no cost to Participating Public Agencies, and (iv) the Master Agreement is a non-exclusive contract.

(ii) **Branding and Logo Compliance.** Supplier shall be responsible for complying with the U.S. Communities branding and logo standards and guidelines. Prior to use by Supplier, all U.S. Communities related marketing material must be submitted to U.S. Communities for review and approval.

(iii) **Sales Force Training.** Supplier shall train its national sales force on the Master Agreement and U.S. Communities program. U.S. Communities shall be available to train on a national, regional or local level and generally assist with the education of sales personnel.

(iv) **Participating Public Agency Access.** Supplier shall establish the following communication links to facilitate customer access and communication:

(A) A dedicated U.S. Communities internet web-based homepage that is accessible from Supplier's homepage or main menu navigation containing:

- (1) U.S. Communities standard logo with Founding Co-Sponsors logos;
- (2) Copy of original procurement solicitation;

(B) A dedicated toll-free national hotline for inquiries regarding U.S. Communities.

(C) A dedicated email address for general inquiries in the following format: uscommunities@(name of supplier).com.

(v) Electronic Registration. Supplier shall be responsible for ensuring that each Public Agency has completed U.S. Communities' online registration process prior to processing the Public Agency's first sales order.

(vi) Supplier's Performance Review. Upon request by U.S. Communities, Supplier shall participate in a performance review meeting with U.S. Communities to evaluate Supplier's performance of the covenants set forth in this Agreement.

(vii) Supplier Content. Supplier may, from time to time, provide certain graphics, media, and other content to U.S. Communities (collectively "Supplier Content") for use on U.S. Communities websites and for general marketing and publicity purposes. During the term of the Agreement, Supplier hereby grants to U.S. Communities and its affiliates a non-exclusive, worldwide, free, transferrable, license to reproduce, modify, distribute, publically perform, publically display, and use Supplier Content in connection with U.S. Communities websites and for general marketing and publicity purposes, with the right to sublicense each and every such right. Supplier warrants that: (a) Supplier is the owner of or otherwise has the unrestricted right to grant the rights in and to Supplier Content as contemplated hereunder; and (b) the use of Supplier Content and any other materials or services provided to U.S. Communities as contemplated hereunder will not violate, infringe, or misappropriate the intellectual property rights or other rights of any third party

3.4 Breach of Supplier's Representations and Covenants. The representations and covenants set forth in this Agreement are the foundation of the relationship between U.S. Communities and Supplier. If Supplier is found to be in violation of, or non-compliance with, one or more of the representations and covenants set forth in this Agreement, Supplier shall have ninety (90) days from the notice of default to cure such violation or non-compliance and, if Supplier fails to cure such violation or non-compliance within such notice period, it shall be deemed a cause for immediate termination of the Master Agreement at Lead Public Agency's sole discretion or this Agreement at U.S. Communities' sole discretion.

3.5 Indemnity. Supplier hereby agrees to indemnify and defend U.S. Communities, and its parent companies, subsidiaries, affiliates, shareholders, member, manager, officers, directors, employees, agents, and representatives from and against any and all claims, costs, proceedings, demands, losses, damages, and expenses (including, without limitation, reasonable

ARTICLE IV

PRICING AUDITS

4.1 Supplier shall, at Supplier's sole expense, maintain an accounting of all purchases made by Lead Public Agency. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. U.S. Communities shall have the authority to conduct random audits of Supplier's pricing that is offered to Participating Public Agencies at U.S. Communities' sole cost and expense. Notwithstanding the foregoing, in the event that U.S. Communities is made aware of any pricing being offered to three (3) or more Participating Public Agencies that is materially inconsistent with the pricing under the Master Agreement, U.S. Communities shall have the ability to conduct a reasonable audit of Supplier's pricing at Supplier's sole cost and expense during regular business hours upon reasonable notice. U.S. Communities may conduct the audit internally or may engage a third-party auditing firm on a non-contingent basis. Supplier shall solely be responsible for the cost of the audit. In the event of an audit, the requested materials shall be provided in the format and at the location where kept in the ordinary course of business by Supplier.

ARTICLE V

5.1 Administrative Fees. Supplier shall pay to U.S. Communities a monthly administrative fee based upon the total sales price of all purchases shipped and billed pursuant to the Master Agreement, excluding taxes, in the amount of two percent (2%) of aggregate purchases made during each calendar month (individually and collectively, "Administrative Fees"). Supplier's annual sales shall be measured on a calendar year basis. All Administrative Fees shall be payable in U.S. Dollars and shall be made by wire to U.S. Communities, or its designee or trustee as may be directed in writing by U.S. Communities. Administrative Fees shall be due and payable within thirty (30) days of the end of each calendar month for purchases shipped and billed during such calendar month. Required U.S. Communities Information

5.3 Exception Reporting/Sales Reports Audits. U.S. Communities or its designee may, at its sole discretion, compare Supplier's Sales Reports with Participating Public Agency records or other sales analysis performed by Participating Public Agencies, sponsors, advisory board members or U.S. Communities staff. If there is a material discrepancy between the Sales Report and such records or sales analysis as determined by U.S. Communities, U.S. Communities shall notify Supplier in writing and Supplier shall have thirty (30) days from the date of such notice to resolve the discrepancy to U.S. Communities' reasonable satisfaction. Upon resolution of the discrepancy, Supplier shall remit payment to U.S. Communities' trustee within fifteen (15) calendar days. Any questions regarding an exception report should be directed to U.S. Communities in writing to reporting@uscommunities.org. If Supplier does not resolve the discrepancy to U.S. Communities' reasonable satisfaction within thirty (30) days, U.S. Communities shall have the right to engage outside services to conduct an independent audit of Supplier's reports. Supplier shall solely be responsible for the cost of the audit.

5.4 Online Reporting. Within forty-five (45) days of the end of each calendar month, U.S. Communities shall provide online reporting to Supplier containing Supplier's sales reporting for such calendar month. Supplier shall have access to various reports through the U.S. Communities intranet website. Such reports are useful in resolving reporting issues and enabling Supplier to better manage its Master Agreement.

5.5 Usage Reporting. Within thirty (30) days of the end of each contract year, Supplier shall deliver to U.S. Communities an electronic usage report of all sales under the Master Agreement, including:

- (i) Supplier's Product Number
- (ii) Product Description
- (iii) Manufacturer Name
- (iv) Manufacturer Number
- (v) Unit of Measure
- (vi) U.S. Communities Price
- (vii) Number of times ordered
- (viii) Units sold
- (ix) Sales by Manufacturer

5.6 Supplier's Failure to Provide Reports or Pay Administrative Fees. Failure to provide a Sales Report or pay Administrative Fees within the time and in the manner specified herein shall be regarded as a material breach under this Agreement and if not cured within thirty (30) days of written notice to Supplier, shall be deemed a cause for termination of the Master Agreement at Lead Public Agency's sole discretion or this Agreement at U.S. Communities' sole discretion. All Administrative Fees not paid within thirty (30) days of the end of the previous calendar month shall bear interest at the rate of one and one-half percent (1.5%) per month until paid in full.

6.4 Severability. If any provision of this Agreement shall be deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever.

6.5 Waiver. Any failure of a party to enforce, for any period of time, any of the provisions under this Agreement shall not be construed as a waiver of such provisions or of the right of said party thereafter to enforce each and every provision under this Agreement.

6.6 Counterparts. This Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

6.8 Governing Law; Arbitration. This Agreement will be governed by and interpreted in accordance with the laws of the State of California without regard to any conflict of laws principles. Any dispute, claim, or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this dispute resolution clause, shall be determined by arbitration in Walnut Creek, California, before one (1) arbitrator. The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures. Judgment on the award may be entered in any court having jurisdiction. This clause shall not preclude parties from seeking provisional remedies in aid of arbitration from a court of appropriate jurisdiction. The prevailing party will be entitled to recover its reasonable attorneys' fees and arbitration costs from the other party. The arbitration award shall be final and binding. Each party commits that prior to commencement of arbitration proceedings, the parties shall submit the dispute to JAMS for mediation. The parties will cooperate with JAMS and with one another in selecting a mediator from JAMS panel of neutrals, and in promptly scheduling the mediation proceedings. The parties covenant that they will participate in the mediation in good faith, and that they will share equally in its costs. The mediation will be conducted by each party designating a duly authorized officer or other representative to represent the party with the authority to bind the party, and that the parties agree to exchange informally such information as is reasonably necessary and relevant to the issues being mediated. All offers, promises, conduct, and statements, whether oral or written, made in the course of the mediation by any of the parties, their agents, employees, experts, and attorneys, and by the mediator or any JAMS employees, are confidential, privileged, and inadmissible for any purpose, including impeachment, in any arbitration or other proceeding involving the parties, provided that evidence that is otherwise admissible or discoverable shall not be rendered inadmissible or non-discoverable as a result of its use in the mediation. If the dispute is not resolved within thirty (30) days from the date of the submission of the dispute to mediation (or such later date as the parties may mutually agree in writing), the administration of the arbitration shall proceed. The mediation may continue, if the parties so agree, after the appointment of the arbitrator. Unless otherwise agreed by the parties, the mediator shall be disqualified from serving as arbitrator in the case. The pendency of a mediation shall not preclude a party from seeking provisional remedies in aid of the arbitration from a court of appropriate jurisdiction, and the parties agree not to defend against any application for provisional relief on the ground that a mediation is pending.

6.9 Successors and Assigns. This Agreement shall inure to the benefit of and shall be binding upon U.S. Communities, Supplier and any successor and assign thereto; subject, however, to the limitations contained herein.

The Company shall not be relieved of any failure to perform under this Contract by virtue of the City's failure to provide any information, personnel, equipment, facilities or resources: (i) that the Company failed to identify and request in writing from the City pursuant to this Section; or (ii) that the City is not required to provide pursuant to this Contract. In the event the City fails to provide any information, personnel, facility or resource that it is required to provide under this Section, the Company shall notify the City in writing immediately in accordance with the notice provision of this Contract. 10. COMPANY PERSONNEL REMOVAL, REPLACEMENT, PROMOTION, ETC.

The City will have the right to require the removal and replacement of any personnel of the Company or the Company's subcontractors who are assigned to provide Services to the City based on experience, qualifications, performance, conduct, compatibility, and violation of City policy or any other reasonable grounds. As used in this Contract, the "personnel" includes all staff provided by the Company or its subcontractors.

11. BACKGROUND CHECKS.

Prior to starting work under this Contract, the Company is required to conduct a background check on each Company employee assigned to work under this Contract, and shall require its subcontractors (if any) to perform a background check on each of their employees assigned to work under this Contract (collectively, the "Background Checks"). Each Background Check must include: (a) the person's criminal conviction record from the states and counties where the person lives or has lived in the past seven (7) years; and (b) a reference check.

After starting work under this Contract, the Company is required to perform a Background Check for each new Company employee assigned to work under this Contract during that year, and shall require its subcontractors (if any) to do the same for each of their employees. If the Company undertakes a new project under this Contract, then prior to commencing performance of the project the Company shall perform a Background Check for each

Company employee assigned to work on the project, and shall require its subcontractors (if any) to do the same for each of their employees.

If a person's duties under this Contract fall within the categories described below, the Background Checks that the Company will be required to perform (and to have its subcontractors perform) shall also include the following additional investigation:

The Company must follow all State and Federal laws when conducting Background Checks, including but not limited to the Fair Credit Reporting Act requirements, and shall require its subcontractors to do the same.

The Company shall notify the City of any information discovered in the Background Checks that may be of potential concern for any reason.

The City may conduct its own background checks on principals of the Company as the City deems appropriate. By operation of the public records law, background checks conducted by the City are subject to public review upon request.

- 12. ACCEPTANCE OF TASKS AND DELIVERABLES** Within a reasonable time after a particular Deliverable has been completed (or such specific time as may be set forth in Exhibit B), the Company shall submit a written notice to the City's Project Manager stating the Deliverable(s) that have been met. This notice shall include a signature page for sign-off by the City Project Manager indicating acceptance of such Deliverable(s).

If the City Project Manager is not satisfied that the Deliverable(s) has been met, a notice of rejection (a "Rejection Notice") shall be submitted to the Company by the City Project Manager that specifies the nature and scope of the deficiencies that the City wants corrected. Upon receipt of a Rejection Notice, the Company shall: (a) act diligently and promptly to correct all deficiencies identified in the Rejection Notice, and (b) immediately upon completing such corrections give the City a written, dated certification that all deficiencies have been corrected (the "Certification"). In the event the Company fails to correct all deficiencies identified in the Rejection Notice and provide a Certification within thirty- (30) days after receipt of the Rejection Notice, the City shall be entitled to terminate this Contract for default without further obligation to the Company and without obligation to pay for the defective work.

Upon receipt of the corrected Deliverable(s), or a Certification, whichever is later, the above-described Acceptance procedure shall recommence. The City shall not be obligated to allow the Company to recommence curative action with respect to any deficiency previously identified in a Rejection Notice, or more than once for any given Deliverable (and shall be entitled to terminate this Contract for default if the Company does not meet this time frame).

- 13. NON-EXCLUSIVITY.**

Permits are not included in cost, unless specifically listed in pricing. If permits are required Signed/Sealed drawings are usually needed and are also not included unless specifically listed in pricing. Any costs for municipal permits, paid by installer, will be charged back to the owner. Adding permits to any job will increase the length of completion, expect total time to be about **120 days**, after receipt of Site Plan from owner/customer (this is not due to manufacturing but rather the permit process at the municipality level). It is expected that the owner will provide approved site plans of the area for the permit office, and will help and assist in the securing of all required approvals before assembly of equipment can begin. Installer cannot provide site plans. The permit process can not begin until the site plans are available. If additional permitting requirements are needed during the process, those will be added and billed accordingly, i.e. soil density test, formed footers, etc.

Prices: Prices are F.O.B. factory and do not include freight charges. All prices were current at time of publication and quoted in U.S. Funds. Prices are subject to change without notice. Due to the abnormally high cost of fuel and its impact on many of the materials used in our industry, quotations are valid for 30 days only and prices may be subject to material and fuel surcharges at time of shipment.

Freight charges: Freight charges are determined and collected by the carrier unless GameTime is requested and agrees to prepay and add these costs to the invoice.

Taxes: If applicable, taxes will be added to the invoice except when a tax exempt certificate is provided with the purchase order at the time of order entry.

Minimum Order: Our minimum order is US \$50.00.

Order cancellation: Once accepted, orders can be canceled only with the consent of GameTime, and on terms which will indemnify GameTime against loss. Canceled orders will be subject to a restocking fee. Equipment "built-to-order" is non-cancelable.

Loss or damage in transit: GameTime is not responsible for loss or damage in transit. Carefully check all materials received; any shortage, discrepancy or damage must be noted on the delivery receipt and signed by the carriers representative. Failure to note exceptions on the delivery receipt may impair your right to recovery from the carrier.

AGENDA DATE: May 14, 2020

DEPARTMENT: Planning, Zoning & Building

ITEM 9.2: Resolution No. 2020-16 - Final Plat - Barbridge Subdivision - 4424 Barbridge Road (*Quasi-Judicial Hearing*)

SUMMARY:

Mr. Jim Frogner, agent for the property owner, Owner Gonzalez, has filed a final plat to subdivide a single lot, located at 4424 Barbridge Road, into two (2) separate lots. The Village's RS district requires single-family lots to have a minimum lot dimension of 65 feet width by 100 feet depth. The applicant is proposing two (2) buildable single-family residential lots with dimensions of ± 75 feet width by ± 166 feet depth.

The proposed final plat is consistent with the preliminary plat that was approved by the Village Council (Resolution No. 2019-41 - December 12, 2019).

The Village's Surveyor, Engenuity Group, has reviewed the proposed plat and has determined that the proposed plat is in compliance with Chapter 177, F.S.- Platting Regulations.

Note: If approved, the proposed new Lot 'B' is currently developed with a single-family residence. The existing driveway is encroaching into the new, proposed Lot 'A' property and an existing storage shed sits on the proposed (future) property line. Prior to consideration of the final plat, the owner will be required to relocate the existing shed to be setback at least 5 feet from the proposed lot line and the existing driveway would need to be removed to the point where it's setback at least 3 feet from the newly created lot line.

The Planning & Zoning Board considered the preliminary plat during their November 12, 2019 meeting and recommended approval.

If approved, the final plat will be recorded in the public records of Palm Beach County prior to

any sales of a lot and/or prior to issuance of a certificate of occupancy for a new residence.

FISCAL IMPACT:

There is no direct fiscal impact of the proposed plat.

Summary of Request for Lot Subdivision at 4424 Barbridge Rd.

The owner intends to split the lot and construct a single family dwelling on the westerly (split) lot. Currently, the lot has approximately 150' of street frontage with an existing SFD on the eastern portion of the lot. A pre-application meeting was held with Village staff on May 2, 2019 and the following was confirmed by staff:

- According to the Villages Future Land Use map, the site has a Low Density Residential designation and is sited in the RM – Residential Multiple Family zoning district.
- Pursuant to **Section 34-766 (1)-Minimum Lot Area** in the property development regulations, The RS development regulations can be used. That means that the proposed lot split into two (2) separate lots, may use the minimum road frontage of 65' requirement stated in (RS) Section 34-746 (2).
- In order for the lot split to become “legal”, a plat application must be submitted through the Public Works Department and be approved by the Village Commission.

When subdivided into two lots, each lot will have 75.08 feet of frontage, exceeding the 65' required by the RS regulations. Additionally, the conceptual lot layout shows setbacks and open space regulations are met. A building permit will be submitted for the construction of a single family dwelling upon completion and approval by the Village Council.

Staff commented on the northern property line of the lot being the centerline of the Barbridge Road. The owner is willing to dedicate that area to the Village if staff research indicates other lots on the road have done the same.

Based on the above, the applicant respectfully requests approval from the Village of Palm Springs to subdivide the lot.

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Planning, Zoning & Building

ITEM 9.3:

Resolution No. 2020-14 - Final Plat (Re-Plat) - RaceTrac, Tire Kingdom & Vacant Property - 2601 10th Avenue North (*Quasi-Judicial Hearing*)

SUMMARY:

Mr. Charles Millar, agent for the property owner, 10th Avenue Partnership LTD (Applicant), has filed a final plat to re-plat the property located at the northwest corner of 10th Avenue North and Florida Mango Road (former Chase Professional Center) to provide for the development of the recently approved RaceTrac gas station and the Tire Kingdom vehicle repair facility. The proposed re-plat, if approved, would divide the property into three (3) separate parcels to enable the properties to be conveyed to future purchasers as legal lots of record.

The proposed final plat is consistent with the preliminary plat that was approved by the Village Council (Resolution No. 2020-07 - March 12, 2020).

Note: The Village Council approved the commercial planned development master plan and the site plans for the proposed RaceTrac and Tire Kingdom developments on January 9, 2020, to facilitate redevelopment of the property. From a planning and zoning perspective, this property is a single development project with a unified master site plan.

The Village's Surveyor, Engenuity Group, has reviewed the proposed plat and has determined that the proposed plat complies with Chapter 177, F.S.- Platting Regulations.

Note: Prior to consideration of the final plat, a Declaration of Easements, Covenants, and Restrictions document shall be provided to the Village for review and approval, which is expected to address responsibilities for each parcel owner in terms of access, utilities,

parking, maintenance, and drainage. Further, the additional right-of-way dedication, utility easements, common vehicular access easement (including for Chase Bank parcel) would need to be conducted by separate legal instrument (similar to the approved dedications within the recent Master Site Development Plan, RaceTrac Site Plan and Tire Kingdom Site Development Plan approvals - January 9, 2020)

The Planning & Zoning Board considered the preliminary plat during their February 25, 2020 meeting and recommended approval.

If approved, the final plat will be recorded in the public records prior to issuance of any Certificate of Occupancy on any portion of the property.

FISCAL IMPACT:

There is no direct fiscal impact of the proposed plat.

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Planning, Zoning & Building

ITEM 9.4: Resolution No. 2020-13 - Site Development Plan Modification No. 1 (SPR20-05) - Towercom Tower - All Air Conditioned Self Storage - 2745 Lake Worth Road (*Quasi-Judicial Hearing*)

SUMMARY:

Ms. Sherly Blasi, agent for Verizon Wireless, is requesting a site plan amendment (SPR20-05) to permit the installation of a permanent generator within the Towercom ground lease area within the All Air Conditioned Self Storage property, located at 2745 Lake Worth Road. The generator (which has been installed - not connected - prior to receiving Village approval) will provide emergency power to the Verizon antenna that is currently located on the existing communication tower.

Note: The existing 147' tall monopole communication tower was approved to be constructed within the outdoor storage area in May 2018 (Resolution No. 2018-12), with the capacity to host up to four (4) wireless communication provider antennas [T-Mobile and Verizon currently maintains antennas on this tower and AT&T has been issued an antenna permit to co-locate on this tower for a total of three (3) providers].

The Applicant is requesting a Site Plan Amendment to permit the installation of a 35-kilowatt propane generator and a 500-gallon propane tank on a 4' x 10' concrete pad within the existing Verizon leased area on the wireless communication facility. The generator is proposed to be enclosed within a Level 2 Sound Attenuation enclosure that is approximately five (5) feet in height. The wireless communication ground lease area is surrounded by a 12' height wooden fence together with planting of Clusia (hedges) to further screen this mechanical unit from view.

The Planning & Zoning Board did not consider this proposed modification, which normally would be processed administratively; however, a previous condition of approval that required

approval of a generator to be brought back to the Village Council for its consideration during the site plan approval (May 10, 2018) due to potential noise concerns. Since that time, the Village adopted new noise regulations that specifically address generators. The details supplied by the Applicant, however, do not provide sufficient documentation to determine compliance with the Village noise standards.

Note: The Contractor for the Applicant has begun to install the requested generator without permits or inspections. As a result, the applicant is seeking an After-the-Fact permit and penalty fees will be required. The Agent notes that Verizon has since terminated that Contractor.

Staff recommends approval of the proposed site plan modification with five (5) conditions of approval, including compliance with Village noise standards.

FISCAL IMPACT:

There is no direct fiscal impact of the proposed site plan amendment.

Recommendation			
Planning, Zoning & Building Staff recommends conditional approval of the installation of the new generator with the above ground tank as depicted on the proposed site plan, based on consistency with the Village Comprehensive Plan and compatibility with surrounding uses.			

I. Site History

- Ordinance 2014-28: Annexation

The property was voluntarily annexed into the Village of Palm Springs in December 11, 2014 and designated with the Land Development as Commercial General zoning district and Future Land Use category of Commercial.

- Resolution 2018-12: Site Plan and Special Exception Use

On May 8, 2018 the Village Council approved above resolution to allow the installation of a 147' height wireless communication tower, designated as a monopole with capability for four (4) wireless communication providers, and associated 1,406 s.f. equipment compounds.

II. Comprehensive Plan Consistency

The subject property's Future Land Use designation and Zoning are Commercial and Commercial General (CG), respectively. The proposed site plan amendment to install a generator and a propane tank within an existing communication tower facility leased area, is generally consistent with goals, objectives and policies of the Village's Comprehensive Plan.

III. Neighborhood Compatibility

- 1) The proposed project is located on the north side of Lake Worth Road and east of Belle Vue Avenue, within the existing self-storage facility.
- 2) The proposed generator and propane tank is proposed within an enclosed area with no visibility from any right-of-way.
- 3) Properties on the North, East and West are generally commercial use with some light industrial uses.
- 4) The proposed generator and tank should not have a significant impact on the existing use of the property.

IV. Community Outreach/ Notification

- The subject property was posted on March 23, 2020.
- Public Notification letters were mailed to all property owners within 300 feet radius of subject property on March 10, 2020.
- Legal advertisement was published in the paper on March 26, 2020.
- Staff has not received any inquiries or comments as a result of the notices.

V Recommendation

The Planning, Zoning and Building Department received an application in February 2019 to add a Verizon antenna equipment to the existing wireless communication tower facility. The construction plan included a commercial generator that was removed from the plans per zoning comments issued to the permit. The installation of the antenna and the ground equipment's were installed and is pending final inspections by the Planning, Zoning and Building Department. According to the applicant, and the pictures shared, the generator has been placed but it is not connected or hasn't been used. An After-the-Fact Permit is required for the generator.

When the Village Council approved the installation of the wireless communication facility in May 2018, it was conditioned that any future proposal for a generator require subsequent Village Council approval.

At this time, the applicant is requesting a Site Plan Amendment to allow the installation of a 35-kw propane generator and a 500-gallon propane tank on a 4' x 10' concrete pad within the existing Verizon leased area on the wireless communication ground lease area.

The generator is proposed to be enclosed within a Level 2 Sound Attenuation enclosure approximately 5 feet in height. The wireless communication facility is surrounded by a 12' height wooden fence together with planting of Clusia to further screen this mechanical units from view.

Planning, Zoning & Building Staff has conducted a review of the application and found the proposed project to be consistent with goal, objectives and policies of the Village's Comprehensive Plan. The proposed project is generally consistent with the Land Development and zoning regulations and all other portions of the code. The proposed mechanical equipment's does not significantly reduce light and air on adjacent properties and would not be a deterrent to surrounding properties.

Planning, Zoning & Building Staff recommends conditional approval for the installation of the propane generator and the above ground tank subject to the following conditions below:

1. Sound emissions shall comply with Ordinance 2019-09 (Section 34-1382) of the Village Land Development Regulations.
2. Landscape materials surrounding the enclosure shall be maintained all the time.
3. If any noise issues arise, as determined by the Planning, Zoning and Building Director, the Applicant may be required to undertake additional sound attenuation/mitigation measures, which might include, installing a new noise barrier or installing additional landscaping.
4. Provide permits from all applicable permitting agencies, including but not limited to PBC Fire Rescue and Village

of Palm Springs at the time of permitting.

5. Mechanical equipment's and above-ground equipment's shall be maintained screened from view.

Recommendation			
Planning, Zoning & Building Staff recommends conditional approval of the new wireless telecommunication tower as depicted on the proposed site plan, based on consistency with the Village Comprehensive Plan and compatibility with surrounding uses, contingent on Planning & Zoning Board approval of the requested variance.			

I Site History

- Ordinance 2014-28: Annexation

The property was voluntarily annexed into the Village of Palm Springs in December 11, 2014 and designated with the Land Development as Commercial General zoning districts and Future Land Use Commercial.

II Comprehensive Plan Consistency

- The subject property's Zoning and Future Land Use designation are Commercial and Commercial General (CG), respectively. The proposed special exception use to install a wireless communication tower is generally consistent with goals, objectives and policies of the Village's Comprehensive Plan.

III Variances Requested

- The applicant is requesting a Variance (**PSV18-01**) from the Village Regulation Section 34-1296 (b)(4)(a) to allow seventy-nine feet (79') setback from North property line an 82.7' deviation from the Village's Land Development Regulations.

The applicant contends that the proposed location is in the best location on an existing fully developed property, as an intervening screening structure to shield the equipment compound and tower base from Lake Worth Road while still accommodating for the required circulation within the

property. It is not possible to locate the facility further south without negatively impacting the existing internal circulation serving the self-storage use. The applicant's full justification is attached hereto.

Staff supports the applicant's request to allow 79' setback from North property line due to the existing configuration of the storage facility and considers this location acceptable to minimize traffic circulation conflicts.

IV Neighborhood Compatibility

- 1) The proposed project is located on the North side of Lake Worth Road and East of Belle Vue Avenue, within the existing self-storage facility.
- 2) The proposed wireless communication tower is located close to the most easterly border of the Village's limits along Lake Worth Road.
- 3) Properties on the North, East and West are generally commercial use with some light industrial uses.
- 4) The proposed wireless communication tower should not have a significant impact on the existing use of the property.

V Regulatory Issues:

- The site plan conforms to the property development standards of the CG district.
 - 1) Proposed project will not be a hazard to air navigation and does not exceed obstruction standards according to the Federal Aviation Administration (FAA).
 - 2) The project is subject to the licensing authority of the Federal Communications Commission (FCC).
 - 3) An application for a construction permit needs to be filed, as required by the FCC, within 6 months of the date of the determination letter issued by FAA (3/12/2018).
 - 4) Plan generally meets required site development regulation.
 - 5) Permits from all applicable permitting agencies, including Federal Communications Commission, Federal Aviation Administration and The Village of Palm Springs.
 - 6) The proposed location of the cell tower eliminates 5 storage parking spaces.

VI Environmental Issues:

There are no environmental (wetlands, floodplains, etc) issues identified.

VII Community Outreach/ Notification

- The subject property was posted on March 27, 2018.
- Public Notification letters were mailed to all property owners within 300 foot radius of subject property on March 21, 2018.
- Legal advertisement was published in the paper on March 22, 2018.
- Staff has not received any inquiries or comments as a result of the notices.

VIII Proposed Development Plan Details

The petitioner's development plans dated received on December 28, 2018 depicts the following:

- Application for Site Development Plan and Special Exception Use approval for a new 147 feet wireless communication tower and 1,406 square feet associates equipment compound.
 1. Site Plan, dated December 28, 2017 revised and resubmitted on January 19, 2018.
 2. Landscape plans December 28, 2017 revised and resubmitted on January 19, 2018.
 3. Radio Frequency (RF) usage and facility justification report dated January 19, 2018.
 4. Project narrative and justification statement dated December 28, 2017 revised and resubmitted on January 19, 2018.
 5. Tower Structural certified letter dated January 19, 2018.
 6. Owner/landlord consent & no objection letter regarding the proposed new telecommunication tower dated December 28, 2017.
 7. FAA determination of no hazard dated received on March 12, 2018.

IX Recommendation

The Property is currently improved with a self-storage facility known as All Air Conditioned Self Storage. The applicant proposes to construct a 147' tall wireless telecommunication tower and 1,406 square feet related ground equipment within 2,350 square feet of total leased area. The facility is proposed to be constructed west of the main commercial storage building and within an area that is currently comprised of rentable (outdoor) surface parking spaces. The Facility and the related ground equipment will be enclosed within an eight (8') foot wood fence and a locked entry gate. The perimeter of the ground compound area will be heavily landscaped with hedging, shade trees and ground cover. Care has been taken to locate the Facility in such a manner so as to avoid any disruption of the existing circulation and landscape areas serving the Property. Additional landscaping is proposed in adjacent landscape islands to ensure that the ground compound is not visible to the traveling public along Lake Worth Road.

The Facility has been designed in such a manner to allow up to four antenna arrays with related ground equipment within the 1,406 square foot ground compound area. The applicant proposes an antenna enclosure or shroud which will wrap the antenna arrays and which will provide an added architectural element and stealthing to the Facility. The shrouding of the antennas serves a dual purpose. It allows the antennas to be externally mounted which avoids a myriad of operational issues that necessarily result from internally mounted antennas which include limited operational space, compromised efficiency and signal range, and most importantly, the significant issues that result due to the Florida heat for sensitive electronic facilities located within a solid metal structure. The proposed shrouds will effectively screen the antennas and will provide an added architectural element that effectively provides a blank slate for a potential design, while ensuring the optimal functionality of the equipment. At this time, both Verizon Wireless and T-Mobile anticipates placing its equipment on the Facility to enable both companies to provide needed wireless capacity and coverage to the surrounding area, including emergency 911 services.

Planning, Zoning & Building Staff has conducted a review of the application and found the proposed Special Exception use to be generally consistent with goals, objectives and policies of the Village's Comprehensive Plan. The proposed wireless communication tower is generally consistent with the Land Development and zoning regulation and all other portions of the code. The proposed special exception site is located in the Commercial General (CG) zoning district and its design is certified by a state

licensed professional engineer. The proposed site plan indicates the location, type and height of the proposed tower as well as existing on-site and adjacent land uses and zoning district. The proposed special exception use exceeds the minimum separation distance between the proposed wireless communication tower and the nearest residential unit. The proposed project will not be a hazard to air navigation and does not exceed obstruction standards according to the Federal Aviation Administration (FAA). The proposed location of the wireless tower will utilize the existing ingress/egress access of the property and the ancillary equipment cabinet's dimensions are generally consistent with the Land Development Regulations.

The proposed tower will help to improve Verizon and T-Mobile wireless communication services and address coverage deficiencies in their cellular network. Additionally two other providers (for a total of 4 wireless communication providers) will have the opportunity to co-locate their antennas on the proposed tower and improve their service coverage in the area.

Staff notes that the proposed location does not impact Village residences since there are no residential uses adjacent/abutting the property and properties in the vicinity are commercial.

Contingent on the Planning & Zoning Board approval of the requested variance, Staff recommends conditional approval of the Special Exception use and Site Plan for the new 147 feet wireless tower communication subject to the following twenty-four (24) conditions below:

1. Build out date shall be within 18 months of Council approval.
2. The special exception approval for the wireless tower communication shall be implemented within 18 months of Council approval.
3. Improvements to the south landscape islands shall be completed **prior to Certificate of Completion.**
4. The proposed wood fence around the equipment compound and tower base shall be painted to match the buildings.
5. An application for a construction permit needs to be filed, as required by the FCC, within 6 months of the date of the determination letter issued by FAA (3/12/2018) and copy of the permit shall be provided to the Planning, Zoning & Building Department **at time of permitting.**
6. Engineering plans shall be approved by the Village Engineer **at time of permitting.**
7. Future providers shall apply for a building permit with the Land Development department prior to installation of any antennas or ground equipment.
8. The Applicant may be required to undertake additional security measures, based on the number of complaints or calls for service for incidents at the premises, as determined by the Police Chief. Such additional security measures, as approved by the Police Chief, may include provisions of on-site security at the operator's sole expense.
9. Verify utility and easement locations to ensure that there are no conflicts with landscaping, revise at time of permitting, as needed.
10. Landscaped areas shall be irrigated (including but not limited to buffer, islands, planter boxes, etc.). New irrigation systems shall be maintained separately from potable water distribution systems, and shall include rain sensor shut-off mechanisms.
11. A pre-construction meeting shall be scheduled with the Village Land Development Department prior to commencement of any construction activity. Permits are required from the Land Development Department prior to commencing any construction or renovation. The project shall be constructed in accordance with the FBC edition in effect at the time of permitting.
12. All electric shall be underground.

13. A silt barrier shall be installed around the perimeter of the affected area prior to commencement of any site work or construction activity, and a track pad shall be installed at the construction entrance(s), both of which shall remain through substantial completion.
14. The Landscaping shall be certified by the Landscape Architect upon completion and prior to Certificate of Completion.
15. Plants installed shall conform to or exceed the minimum standards for Florida Number 1, as provided in the most current edition of the Grades and standards for Nursery Plants, Part I and II, prepared by the State Department of Agriculture and Consumer Services.
16. Any sidewalk/parking or drive aisle broken or damaged during construction shall be replaced by the contractor prior to CC.
17. The civil engineer of record shall certify the site construction prior to Certificate of Completion.
18. The applicant may be required to provide a resident inspector for structural elements such as concrete pours in accordance with Section 109.1.3 FBC 2010 and F.S. 553.791. Determination shall be made at time of pre-construction conference with Land Development Director.
19. Permits are required from the Land Development Department prior to commencing any construction or renovation.
20. The General Contractor shall be on site during any and all construction activity in accordance with FS 489.1195.
21. The project shall receive approval from all Authorities Having Jurisdiction and submit copies of approvals to the Village of Palm Springs.
22. At the time of CC, the petitioner shall provide the Land Development Department with electronic copies of as-builts.
23. Consistent with Sec. 34-1298, discontinued use of the tower for a six (6) month period shall be deemed abandonment of the facility. In this event, the tower and associated equipment, including the perimeter fence, should be removed from the property within 45 days of receipt of notice from the Village. The property owner is responsible for returning the subject area to its pre-installation condition. Permits are required.
24. The property owner shall register an Agent of Record, prior to issuance of a permit, to establish a contact person responsible for compliance with this Development Order, including site plan/landscape plan details and conditions of approval.

EXHIBIT B

Justification Statement

Holland & Knight LLP, on behalf of TowerCom VIII, LLC (“TowerCom”), submits the attached application seeking approval of a Special Exception, Variance and Site Plan Amendment (“Application”) to allow the construction of a one hundred forty-seven (147’) foot high wireless telecommunications facility with related ground equipment (“Facility”) on the site of All Air Conditioned Self Storage Inc. located at 2745 Lake Worth Road, Palm Springs, FL 33312 (Parcel ID. 70-43-44-20-01-106-0060) (“Property”).

Project Overview

The Property is currently improved with a multi and limited access self-storage facility known as All Air Conditioned Self Storage. TowerCom proposes to construct the Facility west of the main commercial storage building and within an area that is currently comprised of rentable surface parking spaces. The Facility and the related ground equipment will be enclosed within a eight (8’) foot wood fence and a locked entry gate, i.e. the ground compound area, which totals 1,406 square feet. The perimeter of the ground compound area will be heavily landscaped with hedging, shade trees and ground cover. Care has been taken to locate the Facility in such a manner so as to avoid any disruption of the existing circulation and landscape areas serving the Property. After consultation with Village staff, the entry gate has been relocated and additional landscaping proposed in adjacent landscape islands to ensure that the ground compound is not visible to the traveling public along Lake Worth Road.

The Facility has been designed in such a manner to allow up to four antenna arrays with related ground equipment within the 1,406 square foot ground compound area. In connection with the Application, TowerCom proposes an antenna enclosure or shroud which will wrap the antenna arrays and which will provide an added architectural element and stealthing to the Facility. The shrouding of the antennas serves a dual purpose. It allows the antennas to be externally mounted which avoids a myriad of operational issues that necessarily result from internally mounted antennas which include limited operational space, compromised efficiency and signal range, and most importantly, the significant issues that result due to the Florida heat for sensitive electronic facilities located within a solid metal structure. As noted above, the proposed shrouds will effectively screen the antennas and will provide an added architectural element that effectively provides a blank slate for a potential design, while ensuring the optimal functionality of the equipment. At the time of the Application, both Verizon Wireless and T-Mobile anticipates placing its equipment on the Facility to enable both companies to provide needed wireless capacity and coverage to the surrounding area, including emergency 911 services.

The Property is currently zoned in the CG Commercial General District with an underlying land use designation of Commercial. Pursuant to Section 34-1296 of the Village’s Code of Ordinances (“Code”), the proposed Facility is allowed as a special exception use.

Special Exception Criteria

Section 34-606(b) of the Code outlines the criteria and factors to be considered for approval of a Special Exception. The Application satisfies the criteria set out in Section 34-606 of the Code as follows:

1. The proposed special exception is consistent with the goals, objectives, and policies of the Village's comprehensive plan.

The proposed Facility is necessary to provided needed and enhanced wireless coverage and capacity in the surrounding area. Wireless services are no longer a luxury, but an essential part of our communications infrastructure. Aside from personal use, wireless plays a key role in the daily communications of many businesses and local governments to ensure seamless operations. As noted above, the Property is designated Commercial on the Village's Future Land Use Map and zoned CG Commercial General. Furthermore, the Facility is proposed on property that has direct access from Lake Worth Road. As such it is generally consistent with goals, policies and objectives of the Village's Comprehensive Plan by providing the necessary infrastructure needed to maintain seamless wireless coverage for the Village and its residents and businesses.

2. The proposed special exception is consistent with land development regulations and all other portions of the Code.

As noted previously, the Facility is proposed on Property currently designated Commercial and zoned CG Commercial General which, other than PO Public Ownership district, is the only zoning district which allows the proposed use. As demonstrated by this Justification, the proposed Facility meets and otherwise exceeds the criteria for the granting of a special exception.

3. The proposed special exception use is compatible with the character and use (existing and future) of the surrounding properties in its function; hours of operation type and amount of traffic to be generated; building location, mass, height and setback; and other relevant factors peculiar to the proposed special exception use and the surrounding property.

The Facility is proposed on small area of the existing surface parking lot that is presently rented out for large vehicles, such as recreational vehicles, etc. The Property is surrounded by commercial uses and properties with a present and future land use of Commercial. The wireless communications use itself is inherently passive. Access to the Facility is limited to monthly maintenance visits by the individual wireless providers and thus results in less than 10 trips a month. In addition to the landscaping surrounding the ground compound area, the Applicant will also be providing additional landscaping in existing landscape islands to obscure the Facility and ground compound from the traveling public along Lake Worth Road. Finally, there are no known issues relating to the hours of operation nor the amount of traffic to be generated by the Facility.

4. The establishment of the proposed special exception use in the identified location does not create a concentration or proliferation of the same or similar type of special exception use, which may be deemed detrimental to the development or redevelopment of the area in which the special exception use is proposed to be developed.

Approval of the proposed Facility will not create a concentration or proliferation of

wireless facilities in this area.

5. The proposed special exception use does not have a detrimental impact on surrounding properties based on: a) The number of persons anticipated to be using, residing, or working on the property as a result of the special exception use; b) The degree of noise, odor, visual, or other potential nuisance factors generated by the special exception use; and c) The effect on the amount and flow of traffic within the vicinity of the proposed special exception use.

As noted above, the Facility by its nature is inherently passive. Other than technicians for the wireless carriers who typically access the Facility once a month, no other persons will be accessing the Facility. The Facility will not constitute a nuisance to the surrounding properties as it will not emit any odors, loud noises or other potential nuisance factors. To mitigate any visual impact, TowerCom is proposing a monopole facility with an architectural enclosure around each of the antenna arrays. As noted above, the ground compound area will be landscaped with a mixture of ground cover, hedges and trees. Finally, it is anticipated that the maximum number of trips to the Facility will be less than 10 trips per month.

6. That the proposed special exception use: a) Does not significantly reduce light and air to adjacent properties; b) Does not adversely affect property values in adjacent areas; c) Would not be deterrent to the improvement, development or redevelopment of surrounding properties in accord with existing regulations; d) Does not negatively impact adjacent natural systems or public facilities, including parks and open spaces; and e) Provides pedestrian amenities, including, but not limited to, benches, trash receptacles, and/or bicycle parking.

Given the nature of the use, a monopole wireless facility, the Facility will not negatively impact light and air to adjacent properties due to its relatively small footprint. Given the enhanced wireless coverage and capacity that will result from the Facility to the surrounding properties, the Facility will not adversely affect property values, nor will it be a deterrent to the improvement, development or redevelopment of the surrounding properties. No adjacent natural systems or public facilities will be impacted as the Facility is proposed within a surface parking lot of a self-storage facility. Finally, due to the nature of the use, no pedestrian amenities are required.

In addition to the criteria outlined in Section 34-606(b), Section 34-1296 and 34-1297 includes specific criteria outlined below:

1. Section 34-1296(b)(4)(a) - Towers must be set back a distance equal to at least 110 percent of the height of the tower from any adjoining property lot line;

Other than the setback from the north property line, the proposed Facility meet or exceeds the required setbacks. The specific variance request and a response to the criteria for granted a variance provided in Section 34-630 of the Code is set out below.

2. Section 34-1296(b)(5) - The separation distance between towers for which a special exception approval is required shall be applicable for and measured between the proposed tower and preexisting tower and must meet a minimum number of feet.

This proposed Facility is a monopole design with an overall height of 147 feet. Per Table 1 in Section 34-1296(b)(5), a minimum of 1500 feet of horizontal separation from the closest preexisting tower is required. The proposed Facility satisfies this requirement as the closest

preexisting tower, which is located in the Town of Lake Worth is 1,870 feet away.

3. Section 34-1297(a) - The equipment cabinet or structure used in association with antennas shall comply with the following:

- The cabinet or structure shall not contain more than 450 square feet or gross floor area or be more than 12 feet in overall height, assuming at all times that a structural engineer has certified that the structural integrity of the structure or rooftop will not be compromised by the cabinet or structure;

The anticipated sizes of the cabinets associated with the Verizon Wireless individual antenna arrays have the following dimensions: 2.3' in width, 2.3' in depth and 6.5' in height. The associated generator is expected to have the following dimensions: 3.1' in width, 6.3' in length and 8.3' in height on a 4' x 8' concrete pad. Both the cabinets and the generator are well within the limitations imposed by this subsection. The structural engineer certification is not applicable as the cabinets will not be located on a structure or roof, but within the ground compound for the Facility.

- If the equipment structure is located on the roof of a building, the area of the equipment structure and other equipment and structures shall not occupy more than ten percent of the roof area;

Not Applicable.

- The equipment storage buildings or cabinets shall comply with all applicable building codes.

The cabinets will comply with all applicable building codes.

Variance Criteria

As noted above, the Application includes a variance from Section 34-1296(4)(a) of the Code which requires, due to the height of the tower, that the Facility be setback 161.7' from the north property line and where the Application provides a setback of 79' for a total variance of 82.7'. Section 34-630 of the Code outlines the criteria and factors to be considered for approval of a Variance. The Application satisfies the criteria set out in Section 34-630 of the Code as follows:

- That special conditions and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same land development district;

Historically, unmanned wireless telecommunications facilities are sited on properties that have another primary use. This is due in large part to the small footprint required and the fact that these facilities are required to serve areas that are already improved and developed. The existing Property is developed as a multi and limited access self-storage facility. The Facility has been proposed in a central location within the Property, while still providing for maximum

concealment from Lake Worth Road to the south while still accommodating for the required circulation within the Property for the underlying use.

- That the special conditions and circumstances do not result from the actions of the applicant;

As noted above, the Property is an a existing multi and limited access self-storage facility. It is not possible to locate the Facility further south without negatively impacting the existing internal circulation serving the underlying use.

- That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the same land development district;

As noted above, the use itself is unique as it is typically sited on previously improved properties. Given these constraints, the granting of the requested variance will not confer any special privilege; but rather with facilitate and implement the objectives in both state and federal law to provide wireless coverage for the surrounding area.

- That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same land development district under the terms of this chapter and would work unnecessary and undue hardship on the applicant;

There are numerous zoning, site development and supplementary regulations that govern commercial development and wireless communication facilities specifically that must be associated with radio frequency engineering requirements as well as availability. In light of these factors, and particularly the demonstrated need for the facility in the area intended to be served, the setback variance being requested is reasonable and the minimum necessary to provide reliable wireless service to the surrounding areas. Without approval of the setback variance, it would work an unnecessary and undue hardship on the applicant and its committed wireless providers, by not allowing them to construct a facility that will cure the lack of coverage and capacity in the service area shown in the supporting documentation enclosed.

- That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure;

The variance requested is the minimum variance given the existing location of the buildings and internal circulation serving the underlying use.

- That the granting of the variance will be in harmony with the general intent and purpose of this chapter;

The requested setback variance will have no impact on adjacent commercial uses and is in harmony with the general intent and purpose of the commercial character of the nearby properties.

- That such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

Included in the Application is a sealed statement from Cory Blake, P.E. with Bennett & Pless which highlights that the proposed Facility has been designed to meet all local codes and standards and that, should an extreme event occur that causes the facility to collapse, the design of the facility is such that it would effectively fall on itself within a fall zone radius equal to or less than 50 feet. Given the proposed setback, any failure of the facility would occur entirely within the underlying Property. As noted above, the proposed Facility is necessary to provide needed and enhanced wireless coverage and capacity in the surrounding area. Wireless services are no longer a luxury, but an essential part of our communications infrastructure. Aside from personal use, wireless plays a key role in the daily communications of many businesses and local governments to ensure seamless operations, including E-911 service, which is in the best interest of the public safety and welfare.

- Verizon request to place a permanent generator at the Telecom Cell Tower at the Public Storage Property located 2745 Lake Worth Road, Palm Springs, FL 33461.
- Verizon has already permitted the antennas and Cabinets to collocate at this site. The Contractors that installed were under the impression that the Generator was included in the Permit. The Company that was permitting for Verizon's site at the time did not provide the contractors with this information that the generator was not included in the plans that were permitted at the time.
- The Contractor set the generator at the time of setting other cabinets and equipment. The generator was not technically installed. Verizon is now requesting approval to do so. The Village of palm Springs staff kindly requested that Verizon permit the generator separately through a Site Plan Approval Process, and if granted, Verizon will apply for a building permit to get the generator approved.

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Planning, Zoning & Building

ITEM 9.5: Resolution No. 2020-06 - Site Plan (SPR20-03) and Four (4) Waivers - 3922 Park Lane (*Quasi-Judicial Hearing*)

SUMMARY:

Mr. Cory Cross, agent for Mirza Investment Group Inc ("Applicant"), is requesting site plan approval (SPR20-03) for a residential planned development (RPD) that would include the construction of ten (10) multi-family dwelling units within one 3-story townhouse-style building located on a 0.79-acre parcel, located at 3922 Park Lane. Each rental townhouse unit includes a one-car garage, 3 bedrooms, 2 bathrooms, a living room and a kitchen. Additional parking spaces are provided within a common parking lot. The standard lease will restrict all units to 2 vehicles/2 parking spaces per unit (which includes the garage) and would ensure that this proposed project meets Village Code parking requirements (1.3 visitor parking spaces per unit with 39.3% of the parking spaces designated for guests).

Note: The Village Code - Section 34-875(2). Waivers - provides that waivers may be granted by the Village Council following an advisory recommendation by the Planning & Zoning Board. All requests for waivers shall be identified on the site plan and shall accompany an application for site plan approval of a planned development.

The Applicant is requesting four (4) waivers for the proposed RPD site plan:

1. Relief from Sec. 34-1328 - Allow a 24' wide drive aisle rather than the required 26' wide drive aisle for 2-way traffic.
2. Relief from Sec. 34-1064(c) - Allow a residential planned development project with only 0.79 acres of a land area rather than the required 3-acre minimum.
3. Relief from Sec. 34-766(1) - Allow 10 multi-family dwelling units to be constructed on an 0.8-acre parcel rather than the required 1.87-acre minimum lot size.
4. Relief from Sec. 34-1063(a)(1) - Allow one sidewalk along the driveway rather than the

required sidewalks on both sides of the main driveway.

The Planning & Zoning Board considered this proposal during two (2) separate meetings - the Applicant requested a continuance during the February 2020 meeting (until the Board's April 2020 meeting) to make changes to the plans and attempt to alleviate staff's concerns that the proposed common amenity areas did not comply with the objectives of the Village's residential planned development regulations for open space. The revised plans eliminated one dwelling unit and aggregated the proposed common amenities (i.e., playground equipment, playhouse, picnic table and sitting area) within the southeast corner of the proposed property/development.

The Planning & Zoning Board expressed concerns during both the February 2020 and April 2020 meetings about various issues that were not addressed within the applicant's revised plans (See attached staff report), which resulted in the Planning & Zoning Board not supporting Waivers #2 and #3 pertaining to the size of the parcel. The Planning & Zoning Board considered the requested RPD site plan during its regular meeting on April 14, 2020 and recommended denial.

Note: Based on the property standards within the Residential Multi-Family (RM) zoning district (specifically the minimum lot area requirements) outlined in Village Code Section 34-766(1), this proposed 0.79-acre parcel could only support a maximum of five (5) dwelling units rather than the proposed ten (10) by the developer. The applicant is seeking two (2) waivers in order to obtain approval as a Residential Planned Development (RPD) and therefore the ability to maximize density on the property with ten (10) dwelling units.

The Planning, Zoning & Building department does not object to the Residential Planned Development Site Plan with the proposed four (4) waivers and recommends conditional approval of the proposed development subject to the forty-four (44) conditions of approval, along with the voluntary monetary contribution, requested by the School District to mitigate school impacts.

FISCAL IMPACT:

The proposed project would have a fiscal impact to the Village as it is expected to enhance the Village's assessed property valuation. Additionally, this project will require various Village services that will result in increased expenditures to the Village.

Recommendation

At the 1st Planning & Zoning Board hearing on February 11, 2020, the board members expressed the following concerns:

- Concern that the proposed dumpster enclosure location is too close to the residential property to the south- waiver was requested to locate it at 12'-1" rather than 25', plans were revised and need for the waiver was eliminated prior to the 2nd Planning & Zoning hearing 4/14/2020.
- Concern about long-term viability of the proposed vinyl fence along east and west sides - board member recommended concrete wall on both sides.
- Concern that the proposed parking count, even meeting Village code, wasn't going to be enough due to 3-bedroom units, residents will start parking on the swale.
- Concern that ongoing parking issues will create more code enforcement services and police calls.
- Concern that garages will not be used for parking and will be used as storage.
- Concern that traffic generated will create a considerable volume of vehicle along our local roads, specifically Park Lane/Greenbriar Drive consideration this is a two-lane road.
- Concern that proposed density is too high for this small parcel.
- Concern about access for service vehicles (first responders and garbage trucks) and ability to maneuver with an end dead road.

Based on direction received at the hearing, the applicant revised the plans to eliminate one unit and to provide an aggregated common amenity area, and eliminated the need for 2 waivers (dumpster setback and east side building setback).

The project was presented again to the Planning & Zoning Board on April 14, 2020 and the board members expressed some of the same concerns:

- Concern about long-term viability of the proposed vinyl fence along east and west sides - board member recommended concrete wall on both sides.
- Concern that the proposed parking count, even meeting Village code, wasn't going to be enough due to 3-bedroom units, residents will start parking on the swale or in the drive aisle.
- Concern about how the rental property is going to be monitored if there is no onsite manager.
- Concern about access into the private garages and blocking drive aisle since there are no driveways (applicant stated that remote controls will be provided to residents).
- Concern that ongoing parking issues will create more code enforcement services and police calls.
- A lease restriction is needed that provides no boat parking shall be allowed at all in the property.
- Concern that garages will not be used for parking and will be used as storage.
- Concern that traffic generated will create a considerable volume of vehicle along our local roads, specifically Park Lane/Greenbriar Drive consideration this is a two-lane road.
- Concern that proposed density is too high for this small parcel.
- Concern about access for service vehicles (first responders and garbage trucks) and ability to maneuver with an end dead road.
- Board members stated that they did not support Waivers #2 and #3 pertaining to the size of the parcel. Note: As a residential project consistent with the criteria of the Residential Multi-Family (RM) district, the property could only support a maximum of 5 dwelling units pursuant to Village Code Section 34-766(1). The applicant is seeking two waivers in order to obtain approval as a Residential Planned Development and therefore the ability to maximize density on the property with ten dwelling units.

Planning & Zoning Board did not support the project and recommended denial – motion carried 4-1.

Staff does not object to the applicant's proposal and recommends conditional approval of the site development plan based on the applicant intent to maximize the density allowance and their effort to create a safer open space for passive/leisure activities.

I. Site History

- Ordinance 1997-07: Annexation

The property was voluntarily annexed into the Village of Palm Springs on September 13, 2007 and designated with the Residential Multiple-Family zoning district and Future Land Use category of Low Density Residential. On April 26, 1997 the land use designation was subsequently changed as part of a small-scale comprehensive land use amendment under Ordinance No. 2012-12, to High Density Residential. At the time of the annexation the property was developed with a single-family residence, which was demolished between 2017 and 2019 without a permit.

II. Comprehensive Plan Consistency

The subject property Future Land Use designation is High Density Residential with a Residential Multiple-Family (RM) zoning district, respectively. The subject site is ± 0.79 acres, which is small for a high-density lot. Although it does meet the minimum property development regulations for the minimum lot dimensions, the site is a narrow rectangular lot. The small size of the lot affects the ability to comply with all the Land Development Regulations for a residential planned development project, specifically the following land development regulations are not met.

- Minimum lot size for a residential planned development shall be 3 acres, the property is 0.79 acres.

- Interior drive isle with double circulation is 24' instead of 26' required.
- Minimum lot size for a 10 dwelling unit project shall be 1.87 acres. The property is 0.79 acres, and based on the size of the property would limit the maximum development of the site to 5 dwelling units.
- Sidewalks shall be provided on both sides of the main street; the project is proposing a sidewalk on one side only.

III. Waivers Requested

The applicant is seeking the following four (4) waivers from Village Code requirements:

Waiver #1: Requesting a waiver from Sec.34-1328 to allow 24' instead of 26' required for a double vehicular drive isle.

Waiver #2: Requesting a waiver from Sec.34-1064(c) to allow a residential planned development project to be developed on a 0.79-acre property instead of 3 acres minimum required.

Waiver #3: Requesting a waiver from Sec.34-766(1) to allow 10 multi-family dwelling units to be constructed on a 0.8 acres property instead of 1.87 minimum lot size required.

Waiver #4: Requesting a waiver from Sec.34-1063(a)(1) to allow for one sidewalk on a street or primary driveway instead of sidewalks on both sides of the main street.

The Applicant's full justification to the waivers is attached hereto.

- a. The request is in harmony with and is consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code and that such waiver will not be injurious to the area involved or otherwise detrimental to the public health, safety, and welfare.

Waiver 1: The waiver for minimum required vehicular drive isle reduction is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.

Waiver 2: The waiver for minimum acreage requirement reduction for a residential planned development is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.

Waiver 3: The waiver for minimum acreage requirement reduction for a RM district is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.

Waiver 4: The waiver for sidewalk requirement reduction for a residential planned development is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.

- b. The request results from innovative design in which other minimum standards are exceeded.

Waiver 1: The reduction of driveway width will reduce the amount of impervious area. Drivers requiring extra back-up space will be able to use the garage "driveways" for additional room.

Waiver 2: The project utilizes an underdeveloped lot, which is too large for a single-family home, and too small for a conventional multi-family development. The design allows better emergency vehicle access than several single-family lots.

Waiver 3: The project utilizes an underdeveloped lot, which is too large for a single-family home, and too small for a conventional multi-family development. Typical SF lots in this neighborhood are about 0.2 acres, or about ¼ the size of this site.

Waiver 4: The proposed sidewalk provides access to all units and parking areas. A second sidewalk would be unused and result in the loss of landscape area.

- c. The request demonstrates that granting of the waiver will result in preservation of valuable natural resources, including drainage and recharge areas, natural areas, etc.

Waiver 1: The granting of this waiver will have not any detrimental effect on natural resources or natural areas.

Waiver 2: The granting of this waiver will have not any detrimental effect on natural resources or natural areas.

Waiver 3: The granting of this waiver will have not any detrimental effect on natural resources or natural areas.

Waiver 4: The granting of this waiver will have not any detrimental effect on natural resources or natural areas.

- d. The request demonstrates public benefits to be derived, including but not limited to such benefits as dedication of rights-of-way, extensions of pedestrian linkages outside of the project boundaries, preservation of open areas and use of desirable architectural, building, and site design techniques.

Waiver 1: Not applicable to this waiver request

Waiver 2: Not applicable to this waiver request

Waiver 3: Not applicable to this waiver request

Waiver 4: Not applicable to this waiver request

- e. The request provides sufficient screening and buffering to screen adjacent uses from adverse impacts caused by the granting of a waiver.

Waiver 1: Not applicable to this waiver request

Waiver 2: Not applicable to this waiver request

Waiver 3: Not applicable to this waiver request

Waiver 4: Not applicable to this waiver request

- f. Economic issues may not be used to justify waivers.

Waiver 1: There are no economic issues being used to justify this waiver.

Waiver 2: There are no economic issues being used to justify this waiver.

Waiver 3: There are no economic issues being used to justify this waiver.

Waiver 4: There are no economic issues being used to justify this waiver.

- g. The request is compatible with existing and potential land uses adjacent to the development site.

Waiver 1: Not applicable to this waiver request

Waiver 2: Not applicable to this waiver request

Waiver 3: Not applicable to this waiver request

Waiver 4: Not applicable to this waiver request

Staff generally does not object to the applicant's request based on the intent of the applicant to maximize the utilization of the land conforming with the high-density allowance. The applicant eliminated one unit aggregating the common amenities in a safer location and the impervious surface has been reduced by approximately 3% (976 square feet).

IV. Neighborhood Compatibility

- 1) The proposed project is located on the south side of Park Lane.
- 2) A new community park is under construction within 230 feet, on the northeast corner of Kirk Road and Park Lane.
- 3) The Village Center is located within 0.6 miles.
- 4) A mix of different uses like general retails, restaurants, grocery supermarket, gas stations, professional offices, schools, child day cares are located on the proximities within 1-mile radius.
- 5) Surrounding properties are generally residential uses, and existing characteristics are as follow:

Direction	Number of units	Property size	Future Land Use utilization (du/acres)	Future Land Use Designation (du/acres)	Maximum # of units permitted
North	1	0.5	2	5.8	2
South	1	0.5	2.1	19	9
East (3 properties)	3	0.33	6.3	19	6
	3	0.33	6.3	19	6
	3	0.33	6.3	19	6
West	8	0.76	10.8	19	14
This Property	10	0.79	12.6	19	15

Additionally, while the proposed 3-story building is supported by the residential planned development regulations, abutting properties are only 1-story structures. Perimeter compatibility treatment along the east side, specifically 6' privacy vinyl fence and abundant landscaping is proposed as mitigation.

V. Regulatory Issues

- The site plan generally conforms to the property development standards of the Residential Planned Development, except for the four waiver requests.
 - 1) The proposed project plan generally meets required site development regulations.
 - 2) An after-the-fact permit shall be submitted with the Planning, Zoning and Building department for the demolition without permit of the house that was on the property.
 - 3) The applicant is responsible to acquire all applicable permits from all regulatory agencies with jurisdiction over the project site, including but not limited to Palm Beach County and the Village of Palm Springs.
 - 4) Civil/Utility plans shall be approved by the Village's Engineer.
 - 5) Proposed Site Plan meets the Traffic Performance Standards of Palm Beach County.
 - 6) Proposed development will negatively impact the public-school system, a \$12,913.00 contribution is requested by the School District of Palm Beach County.
 - 7) Based on the size of the property, compliance with Sec. 34-766 (1), which is subject of Waiver #3, would limit the maximum development of the site to 5 dwelling units.

VI. Environmental Issues:

There are no environmental (wetlands, floodplains, etc.) issues identified.

IX. Recommendation

The applicant is the Owner of the subject property and is requesting approval of the Site Development Plan to develop the 0.79 acre, Residential Multiple-Family property which is currently vacated and undeveloped lot. The subject property is proposed to be developed with a residential planned development comprised of 10 dwelling units within one 3-story townhome building. Each unit supports one-car garage with additional parking spaces in the common parking lot, 3 bedrooms, 2 bathrooms, living room and a kitchen.

The standard lease will restrict units to 2 vehicle/parking space per unit which results in 1.3 visitor parking available per unit or 39.3% will be designated for guest.

At the 1st Planning & Zoning Board hearing, Staff had concerns that the proposed common amenity areas didn't comply with the objectives of the Village's residential planned development regulations for open space. Common amenities areas were not designed to be enjoyable and didn't promote safety or general welfare of the occupants. Staff highly recommended eliminating a unit to provide an aggregated and sufficient common amenity area in a safer and healthier location.

The applicant decided to postpone the consideration of the Residential Planned Development project to make changes to the plans and attempt to receive support from Staff. The following changes were made to the plans:

1. One unit was deleted
2. 2 parking spaces were deleted
3. Y-turn was rotated
4. All common amenities were aggregated to one location (the croquet lawn was eliminated from the plans)
5. Changed the unit offset to 16" (previously 48")
6. Increased the width of the units by 2"
7. Building elevations changed to reflect the building plan changes
8. Moved the building west so it is setback 20'-1" from the east property line (eliminating waiver)
9. Moved the dumpster so it is setback 25' from the south property line (eliminating waiver)
10. Moved mail kiosk slightly to the north
11. Landscaping plans adjusted accordingly with the revised site plan

Proposed playground equipment, playhouse, picnic table and sitting area were aggregated to one location, providing more comfort, convenience and pleasantness in social relationships maintaining social amenities. The croquet lawn was eliminated from the plans.

Planning, Zoning & Building Staff does not object to the Residential Planned Development Site Plan with 4 waivers and recommends conditional approval of the proposed development, consisting of 10 rental units, subject to the following forty-four (44) conditions, along with the voluntary monetary contribution, requested by the School District to mitigate school impacts:

1. Build out date December 31, 2023.

**Justification Statement
3922 Park Lane Rental Town Homes
Village of Palm Springs, Florida
Site Plan Applications
March 19, 2020**

Introduction

On behalf of the Developer, Park Lane Condominiums LLC (“Owner”), and Cory S. Cross (“Agent”) respectfully requests approval of this application for a Major Site Plan for one (1) property in the Village of Palm Springs. The 0.8044 acre subject property (PCN 70-43-44-18-00-000-7190) is currently a vacant undeveloped lot just west of the intersection of Park Lane and Rio Lane and is located within the limits of the South Florida Water Management District (“subject property”). Access to the site is directly from Park Lane.

The subject property is proposed to be developed with one townhouse building of 10 units. Each unit is three stories and supports a one-car garage with 2.18 additional parking spaces. The proposed site plan indicates a total of 10 rental townhouse units. Based on the acreage and the permissible density the parcel can support up to 15 units based on the maximum allowable units per acre ($19 \times .80 = 15.20$).

The subject is not requesting any change to the zoning designation (RM) or Comprehensive Plan (High Density Residential).

Site Plan

This application consists of a Major Site Plan approval with a Residential Planned Development overlay. The subject application will be utilizing the specific residential planned development standards as indicated below.

According to the Village of Palm Springs Code of Ordinances (Section 34-1064 Residential Planned Developments – Certification Standards), an application for Site Plan approval must take the following standards into consideration:

- A. Minimum setbacks for principal structures:
 - a. Front (Street): 25 feet (25'-1" feet provided),
 - b. Side (Interior): 20 feet (20'-1" feet provided)
 - c. Side (Corner): 25 feet (N/A)
 - d. Rear: 20 feet (65'-7" feet provided);

- B. Minimum lot size of 3 acres (Minimum lot size is 0.8044 acres) - See Waiver Chart below
- C. Maximum lot coverage of 40% (20.99% building coverage provided).
- D. Minimum total open space of 35% of the gross land area of which 20% shall be common amenity area (45.38% open space provided, 20.08% common amenity open space provided).

Compliance with Performance Standards for a planned development (Sec. 34-1063):

- a) Sidewalks on both sides of a street or primary driveway, interconnected with other pedestrian ways and/or providing access to each building.

Response: The applicant is providing a walkway on the east side of the driveway only, since a walkway on the west side would not lead to any building and would not be used. This walkway connects each unit to the street sidewalk.

- b) Consolidation of smaller parcels into a larger, unified development project.

Response: Not applicable to this proposed request.

- c) Consolidation of driveways to eliminate curb cuts, with reciprocal easements for access; provision of access from secondary streets and alleys.

Response: There is only one driveway and curb cut. There are no secondary streets or alleys adjacent to the site.

- d) Shared parking arrangements to reduce impervious surfaces and promote efficient use of facilities.

Response: The adjacent properties do not have parking arrangements that would allow for shared parking or cross access.

- e) Provision of sufficient parking to avoid on-street parking, unless designed with on street spaces.

Response: Pursuant to Sec. 34-1329, the parking requirement for multiple family dwellings consists of two and one-half parking spaces per dwelling unit and an additional 25 percent of the total required parking must be dedicated as guest parking spaces. The applicant will limit each tenant to two cars per unit in their lease.

- f) Pedestrian-scale street lighting along sidewalks and pedestrian ways.

Response: The proposed site plan provides pedestrian scale street lighting along the proposed sidewalks and pedestrian ways. Wall mounted lighting is proposed at the front and rear of each of the townhomes.

- g) Aggregation of open space to create common areas of sufficient size for passive/leisure activities.

Response: The proposed site plan has one open space encompassing all the common area for passive/leisure activities.

- h) Continuity of sidewalks and pathways where disconnects occur; and provision of sidewalks to usable open spaces, recreation amenities or public facilities.

Response: The proposed site plan provides continuity of sidewalks and pathways to the usable open spaces.

- i) Residential setbacks that allow for a green, semi-private planting area between the sidewalk and house(s).

Response: The applicant is providing landscape areas and planting between each of the unit's private walkways and driveways.

- j) Promote streetscape where feasible, with maintenance agreements assigning responsibility to adjacent properties.

Response: The streetscape landscape is found on the north side of the site. The project will be under single ownership who will have responsibility for all maintenance.

- k) Create bus waiting areas for safety, for school buses or mass transit, as may be applicable.

Response: Not applicable to this proposed request

- l) Building setbacks or setbacks to respect existing scale and massing of adjacent neighborhoods and promote compatibility.

Response: The proposed development is in compliance with building setbacks on the north, south, east and west sides. The building is physically designed as townhouses, rather than as an apartment building, to attract families. The building height is two stories on the east side and three on the west (interior) side, and stepped back on both the west and east sides. It is further staggered in plan to produce a façade with multiple faces. Variations in wall texture and roof heights further break up the mass

of the building. The building has roof height of 30'-6", which is less than allowed height of 35'.

The site is well buffered with abundant landscaping and a six foot high solid vinyl fence on the west and east sides. There will be a six foot high concrete block wall, with stucco finish, on the south property line. Additional trees have been added on the east side of the building to provide screening for the properties to the east.

- m) Provision of original, self-confident building design, and prohibition of metal buildings.

Response: The proposed development will provide a unique, self-confident building design, and will not have any metal buildings. Please refer to the colored rendering for further information.

- n) Buffers between differing uses to include a masonry wall and landscaping to promote compatibility.

Response: Not applicable to this proposed request as adjacent properties are High Density Residential FLU designation.

- o) Adequate vehicular circulation, traffic maintenance and/or operational measures that does not negatively impact existing roadway conditions, including avoidance of dead-end streets and t-style turnarounds.

Response: The proposed site plan is providing 24' for double vehicular drive aisles and is seeking a waiver to allow for the reduction of two feet in the minimum required double vehicular drive aisle pursuant to Sec. 34-1328. It is anticipated that the proposed development has adequate vehicular circulation and does not negatively impact existing roadway conditions.

Objectives of a planned development include the following (Sec. 34-1062):

- a) To permit the creation of functional and unique residential, commercial and mixed-use developments that do not adversely impact the village's character and "small town feel". – **10 proposed residential townhouse units will not have any adverse impact on the village's character.**
- b) To promote building siting that takes into consideration the context of the development, the location of nearby uses, and the new development's compatibility with existing neighborhoods. – **The proposed development has a High Density Residential FLU designation which is the same as the surrounding properties.**

- c) To enhance landscaped open space and streetscapes – **The applicant is providing extra plant materials in all landscaped areas.**
- d) To bring unique and creative solutions to new development, the following elements should be considered in the context of the specific site, project and/or use:
 - a. Arrangement and spacing of buildings and open spaces; - **Minimum total open space of 35% of the gross land area of which 20% shall be common amenity area (45.38% open space provided, 20.08% amenity open space provided).**
 - b. Ability to aggregate adjacent lots or parcels, and/or eliminate nonconformities – **There is just one property.**
 - c. Location of access drive and sidewalks to promote circulation and access - **Access to the site is directly from Park Lane.**
 - d. Building coverage – **Maximum lot coverage of 40% (20.99% building coverage provided).**
 - e. Sufficient and convenient parking for uses and activities – **Pursuant to Sec. 34-1329, the parking requirement for multiple-family dwellings consists of two and one-half parking spaces per dwelling unit and an additional 25 percent of the total required parking shall be dedicated as guest parking spaces. The project is required to have 32 parking spaces and provides 33 spaces.**
 - f. Landscape buffers and screening mechanisms to enhance aesthetics and promote compatibility - **All mechanical equipment (i.e. 3' x 3' A/C Pad) have been screened from view to enhance aesthetics and promote compatibility**
 - g. Adequate lighting for security and pedestrian/vehicular safety – **Four light poles have been provided along the parking lot and driveway and one light pole has been provided to the south at the Y turn. Wall mounted lighting has been provided to the rear of each of the townhouse units.**
 - h. Development of large employment centers predominately of light industrial or high technology uses in underutilized corridors. The flexibility of design should promote revitalization of the primary commercial areas and an economic stimulus through job creation to the local economy as well – **Not applicable**

Currently, the subject property supports a Future Land Use Map designation of High Density Residential and is within the Residential Multi-Family (RM) zoning district. See attached survey for detail of subject property boundary. Below is a summary of surrounding properties:

The site is also located within the limits of the Village of Palm Springs and the SFWMD C-51 Basin and LWDD.

The property is currently a vacant undeveloped area along Park Lane.

Proposed Conditions

The subject site is proposed to be developed with one (1) two story townhouse building with a total of 10 units with associated infrastructure including paved access, driveways, water, wastewater and storm water management system.

Exfiltration trench and pervious paving are proposed to meet water quality requirements and C-51 compensating storage requirements.

The proposed storm water management system will comply with current governing agencies requirements as dictated by SFWMD, LWDD and PBC Land Development.

Water Quality

Water Quality will be provided for the greater of 1" over the site or 2.5" times the percentage of impervious and will be provided in the proposed exfiltration trench.

Water Quantity

Water Quantity will be provided in accordance with SFWMD criteria in on-site exfiltration trench with positive legal outfall via overland flow through a bubble up structure to Park Lane.

Elevations on site are entirely above SFWMD C-51 Basin flood plain elevation 12.7 NGVD.

Proposed Land Use

Building/Roof Area = 0.17 acres

Pervious Paving = 0.26 acres

Open Space Area = 0.36 acres

Total Area = 0.79 acres

Waiver Standards:

Requests for waivers shall be submitted in writing and shall address the following criteria:

1. *The request is in harmony with and is consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code and that such waiver will not be injurious to the area involved or otherwise detrimental to the public health, safety, and welfare.*
 - a. **Waiver 1: The waiver for minimum required vehicular drive isle reduction is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.**
 - b. **Waiver 2: The waiver for minimum acreage requirement reduction for a RM district is in harmony with and consistent with the purpose and intent of the Village's Comprehensive Plan and Land Development Code, and not injurious to the surrounding area.**

PROJECT COMPATIBILITY WITH THE NEIGHBORHOOD

The proposed project is compatible with the neighborhood in use, massing, and buffering.

Multi-family uses are adjacent to the site on the west and east. A two story townhouse development is to the southwest.

The building is physically designed as townhouses, rather than as an apartment block, to attract families. Each unit has three bedrooms, a single car garage, and a backyard with a patio. The building height is stepped back on both the west and east sides. It is further staggered in plan to produce a façade with multiple faces. Variations in wall texture and roof heights further break up the mass of the building.

The site is well buffered with abundant landscaping and a six foot high solid vinyl fence on the west, south, and east sides. Additional trees have been added on the east side of the building to provide screening for the properties to the east.

1. SCOPE OF WORK

- A. The scope of work includes furnishing all plants, materials, equipment and labor necessary for planting plant materials indicated on the Drawings and/or in the Specifications.

2. QUALITY ASSURANCE

- A. Landscape contractor to be regularly engaged in the installation of living plant material. Labor crews shall be controlled and directed by a landscape foreman well versed in landscape installation, plant materials, reading blueprints and coordination between the job and nursery. The landscape contractor shall carry any necessary insurance and protect the Owner against all liabilities, claims or demands for injuries or damage to any person or property growing out of the performance of the work under this contract and all of his workers shall be covered by Workmen's Compensation Insurance.
- B. The landscape contractor and irrigation contractor must coordinate scheduling and layout prior to commencement of material installation. If necessary, the landscape contractor and irrigation contractor may agree to minor adjustment in sprinkler layout, head type or quantity, in response to specific plant needs. The Landscape Architect must be notified of any such changes.

3. MATERIALS

3.1 PLANT MATERIALS

- A. All plant materials shall be nursery grown unless otherwise noted. Abbreviations on plant list:
- C.W. clear wood
 - G. gallon
 - S.R. spread
 - C.T. clear trunk
 - O.A. overall height
 - O.C. on center
 - H.T. height
 - D. diameter
- B. Quality and Size: Plants shall have a habit of growth that is normal for the species and shall be healthy, vigorous and equal or exceed the measurements specified in the plant list, which are the minimum acceptable sizes. Plants shall be measured before pruning with branches in normal position. Any necessary pruning shall be done at the time of planting. Requirements for measurements, branching, grading, quality, baling and burlapping of plants in the plant list generally follow the code of standards currently recommended by the American Association of Nursery Stock. Plant materials shall be graded Florida No. 1 or better, as outlined under Grades & Standards for nursery plants, state Plant Board of Florida. Plants that meet the requirements specified, but do not have normal balance of height and spread typical for the respective plant, shall not be accepted. All plants shall be free of weeds or any other objectionable vegetation.
- C. Quantities: All quantities indicated on the plant list are intended as a guide for the bidders and does not relieve the bidder of his responsibility to do a comprehensive plant take off. Shall a discrepancy occur between the bidder's take off and the plant list quantity, the Landscape Architect is to be notified for clarification prior to the submission of bid.
- D. Substitution: Plant substitution requests by the contractor will be considered by the Landscape Architect only upon submission of proof that any plant is not obtainable in the type and size specified. The Landscape Architect shall determine the nearest equivalent replacement in an obtainable size and variety. The unit price of the substitute item shall not exceed the bid item replaced, without approval of the Owner.

3.2 COMMERCIAL FERTILIZER

- A. Commercial fertilizer shall be an organic 13-3-13 LESCO fertilizer containing nitrogen phosphoric acid and potash available plant food by weight. Nitrogen shall not be less than 50% from organic source. Inorganic chemical nitrogen shall not be derived from the sodium form of nitrate. Fertilizers shall be delivered to the site unopened in original containers, each bearing the manufacturer's guaranteed analysis. Any fertilizer that becomes caked or otherwise damaged shall not be acceptable.
- B. Planting tablets shall be tightly compressed, long lasting, slow release fertilizer tablets weighing 21 grams, with a potential acidity of not more than 5% by weight and having an analysis of 20:10:5.

3.3 PEAT

- A. Peat shall be horticultural peat composed of not less than 60% decomposed organic matter by weight, dry, oven dried basis. Peat shall be delivered to the site in a workable condition free from lumps.

3.4 PLANTING SOIL

- A. Planting soil shall be sandy loam and shall contain a 25% minimum amount of decomposed organic matter. Planting soil shall be free of clay, stones, plants, roots, and other foreign materials which might be a hindrance to planting operations or be detrimental to good plant growth. Soil shall be delivered in a loose friable condition and applied in accordance with the Planting Specifications.

3.5 MULCH

- A. Mulches shall not contain sticks larger than 1/4 inch in diameter, stones, or other foreign material that will prevent the eventual decay of the mulch necessary for its complete effectiveness.

3.6 WATER

- A. Water for planting will be available at the site and will be provided by the Owner. Landscape Contractor shall not assume that the irrigation system will be operational at the time of planting. It is the responsibility of the Landscape Contractor to provide all the required water necessary to maintain the plant material in a healthy growing condition. The watering may include deep watering of trees and the watering of shrub and ground cover areas. Any plant materials that die or that are not in a healthy growing condition due to lack of water shall be replaced at no additional cost to the Owner.

4. EXECUTION

4.1 PROTECTION OF PLANTS

- A. Root Protection:
1. Balled and Burlapped Plants: Plants designated B & B (balled and burlapped) shall be dug with firm natural balls of earth of sufficient diameter and depth to encompass the fibrous and feeding root systems necessary for full recovery of plant. Balls shall be firmly wrapped with burlap or similar materials and bound with twine, cord, or wire mesh. All collected plants shall be balled and burlapped.
 2. Container Grown Plants: Plants grown in containers will be accepted as B&B, providing that all other specified requirements are met. Container grown plants shall meet plant sizes as specified on the Plant List and on the Drawings, and shall not be governed by container sizes. Minimum root balls of container grown material shall be no more than 25% less proportionately in size than that stated in "Grades and Standards" for nursery plants. These plants shall have been grown in the container for a maximum of two years prior to installation and shall exhibit a fully developed root system when removed from the container.
- B. Protection During Transporting: All plant material shall be protected from possible bark injury or breakage of branches. All plants transported by open trucks shall be adequately covered to prevent windburn, drying or damage to plants.
- C. Protection After Delivery: Plants which cannot be planted immediately on delivery to the site shall be covered with moist soil, mulch, or other protection from the drying of wind and sun. All plants shall be watered as necessary until planted. Storage period shall not exceed forty-eight (48) hours.
- D. Protection of Palms (If Applicable): Only a minimum of fronds shall be removed from the crown of the palm trees to facilitate moving and handling.
- E. Clear trunk shall be as specified after the minimum of fronds have been removed. Cabbage Palms shall have a sufficient ball size for rapid growth and acclimation. Burn marks on trunks shall be removed. Cabbage Palm heads shall be tied with a burlap strip to be left in place until the tree is well established.
- F. Protection During Planting: Trees moved by winch or crane shall be thoroughly protected from chain marks, grinding or bark stripping by means of burlap, wood battens or other approved methods.

4.2 PLANTING OPERATIONS

- A. Layout: Location for plants and outline of areas to be planted are indicated on the Drawings. All plant locations shall be staked in the field by the Contractor, to the satisfaction of the Landscape Architect. Where construction or utilities below ground or overhead are encountered, or where changes have been made in the construction, necessary adjustments will be approved by the Landscape Architect.
- B. Soil Preparation: Apply pre-planting herbicide of Round-up or equal. Soil used shall be as herein before specified under "Planting Soil", thoroughly mixed with peat to produce 25% peat by volume. The soil should be in a relatively dry state and mixed thoroughly by hand or rotary mixer. All planting areas shall be treated with an approved pre-emergent according to the manufacturer's specifications. (Ronstar, Eptam, or equal).
- C. Excavation for Planting: Excavation of plant pits shall be circular in outline and shall blend with the required subgrades as specified hereunder. The minimum depth of plant pits specified below shall be measured from the finish grade. Mass Planting beds shall be stripped of all vegetation prior to planting. Use acceptable excess excavated topsoil to form watering berms (saucers) around plants; Use 20% of excavated material and mix with topsoil for backfill. Remove all excess material to dump site as directed by Owner.
- D. Balled and Burlapped Plants: After final setting, loosen burlap wrapping exposing the top of the rootball, leaving the ball unbroken. Remove excessive amounts of burlap to eliminate voids which may be caused upon decomposition.
- E. Container Grown Plants: Container grown plants shall, when delivered, have sufficient growth to hold their intact form removed from container and shall not be root bound. Plant pits for container materials shall be formed flat on the bottom to avoid air pockets at the bottom of root balls and containers shall be removed carefully to prevent damage to plant or root systems.
- F. Testing for Drainage: Test fill all tree pits with water before planting to assure proper drainage percolation is available. Pits which are found not to be adequately draining shall be excavated to a depth sufficient for drainage and backfilling with gravel or crushed rock. No allowances will be made for lost plants due to improper drainage.
- G. Pit sizes: Minimum diameter (width) and depth of planting pits for balled and burlapped, and container grown plants, shall be as follows:
1. Diameter - Trees: 18" greater than diameter of ball or spread of roots.
 2. Diameter - Shrubs: 6" greater than diameter of ball or spread of roots.
 3. Depth - Trees and Shrubs: 4" greater than depth of ball or roots to provide 4" of topsoil backfill under the rootball. (Large heavy trees and shrubs may sit directly on unexcavated pit bottom if it is determined that undue settlement may occur.)
- Vine Groundcovers: Pits shall conform to accepted nursery practice for the particular species and equal the plant pot depth plus one (1) inch.
4. Depth

4.2 PLANTING OPERATIONS (CONT.)

- H. Backfilling: When the plant pit has been excavated as specified previously and the plant has been set, the pit shall be backfilled with planting soil at the following rates:
- One-quarter cubic yard per tree
 - One cubic yard per 25 7gal (left)
 - One cubic yard 50 shrubs 3 gal.
 - One cubic yard per 100 1 gal. (ground cover)
- I. Setting Trees and Shrubs: Unless otherwise specified, all trees and shrubs shall be planted in pits, centered, and set on four inches (4") of compacted planting soil to such depths that the finished grade level of the plant after settlement shall be the same as that at which the plant was grown. They shall be planted upright and faced to give the best appearance or relationship to adjacent structures. No burlap shall be pulled out from under the balls. Platforms, wire and surplus binding from top and sides of the balls shall be removed. All broken or frosted roots shall be cut off cleanly. Soil shall be placed and compacted thoroughly, avoiding injury and shall be settled by watering. No filling around trunks will be permitted. After the ground settles, additional soil shall be filled in to the level of the finished grade allowing for two inches (2") of mulch. Form a shallow saucer around each plant by placing a ridge of soil along the edge of the plant pit. This ridge shall be one inch (1") high for each one inch (1") caliper of trunk to a maximum of four inches.
- J. Setting Palms: All palms shall be planted in sand, thoroughly washed in during planting operations and with a shallow saucer depression left at the soil line for future watering. Saucer areas shall be top dressed two inches (2") deep with topsoil raked and left in a neat, clear manner.
- K. Fertilizing: When setting trees, palms and shrubs place in each plant hole Planting Tablets, 20-10-5 formula, 21 gram, according to the following:
- 1 gallon can - 2 tablets
 - 2 - 3 gallon can - 4 tablets
 - B & B Shrubs and Trees - 1 tablet for every 20" around circumference of root ball above middle of ball.

Correct placement of Tablets: Position the plant in the hole and backfill no higher than halfway up the root ball. Place the recommended number of tablets evenly around the perimeter of, and immediately adjacent to, the root ball at a depth which is between the middle and the bottom of the rootball. Complete backfilling as described above under setting trees, palms and shrubs.

- L. Pruning: Remove dead and broken branches from all plant material. Prune to retain typical growth habit of individual species with as much height and spread as is practicable. Make all pruning cuts with a sharp instrument flush with trunk or adjacent branch, in such a manner as to ensure elimination of stubs. "Headback" cuts, right angle to line of growth, will not be permitted and trees will not be poled or topped. Plant all cuts 1/2" in diameter and larger with approved waterproof antiseptic free paint and remove trimmings from site.

- M. Guying and Staking: Guy all trees 1-1/2" in caliper and greater in three (3) directions with double strands of No. 12 galvanized wire attached to approved anchors driven below grade. When securing wires to trees, cover any wires which may come in contact with any part of tree with new rubber hose. Place guys not less than 1/3 of the height of tree above finished grade and above substantial limbs one inch (1") in diameter. All hoses shall be interlocked around tree trunk. Place anchors so that guys are equally spaced and at 45 degree angles to horizontal. Keep guys tight until project completion.

1.0 SITE DATA

The subject parcel is located on the south side of Park Lane approximately 400 feet east of Kirk Road in the Village of Palm Springs, Florida and contains approximately 0.80 acres. The Property Control Number (PCN) for the subject parcel is 70-43-44-18-00-000-7190. The existing development consists of one single family dwelling unit. The proposed redevelopment consists of 11 multifamily dwelling units with an anticipated buildout year of 2023. Access is proposed via a full access driveway connection to Park Lane. For additional information concerning site location and layout, please refer to the Site Plan prepared by Cory S. Cross Architect.

2.0 TRAFFIC GENERATION

The Palm Beach County Unified Land Development Code Article 12 requires that for any application for a site specific development order on property on which there are existing/vested uses shall be subject to the Palm Beach County Traffic Performance Standards to the extent the traffic generation projected for the site specific development order exceeds the traffic generation of the vested uses. The generation rates and capture rates of the vested uses shall be updated to current pro forma traffic generation and passer-by rates and shall be used to calculate vested uses/existing traffic.

The traffic currently vested to the parcel has been calculated in accordance with the ITE Trip Generation Manual, 10th Edition and published Palm Beach County Trip Generation Rates as shown in Tables 1, 2 and 3. Table 1 shows the daily traffic generation associated with the existing/vested development in trips per day (tpd). Tables 2 and 3 show the AM and PM peak hour traffic generation rates, respectively, in peak hour trips (pht). The traffic generated by the existing/vested development consisting of one single family dwelling unit may be summarized as follows:

Existing/Vested Development

Daily Traffic Generation	=	10 tpd
AM Peak Hour Traffic Generation (In/Out)	=	1 pht (0 In/1 Out)
PM Peak Hour Traffic Generation (In/Out)	=	1 pht (1 In/0 Out)

The traffic to be generated by the proposed site modifications has also been calculated in accordance with the ITE Trip Generation Manual, 10th Edition and the Palm Beach County Trip Generation Rates as shown in Tables 4, 5 and 6. Table 4 shows the daily traffic generation associated with the proposed plan of development. Tables 5 and 6 show the AM and PM peak hour traffic generation, respectively. The traffic to be generated by the proposed plan of development consisting of 11 multifamily dwelling units may be summarized as follows:

2.0 TRAFFIC GENERATION (CONTINUED)

Proposed Development

Daily Traffic Generation	=	81 tpd
AM Peak Hour Traffic Generation (In/Out)	=	5 pht (1 In/4 Out)
PM Peak Hour Traffic Generation (In/Out)	=	6 pht (4 In/2 Out)

The increase in traffic generation as a result of the proposed site modifications is shown in Table 7 and may be summarized as follows:

Change in Traffic Generation

Daily Traffic Generation	=	71 tpd
AM Peak Hour Traffic Generation (In/Out)	=	4 pht (1 In/3 Out)
PM Peak Hour Traffic Generation (In/Out)	=	5 pht (3 In/2 Out)

3.0 CONCLUSION

As shown in Table 7, the proposed modification will result in an increase of 71 daily trips, an increase of 4 AM peak hour trips, and an increase of 5 PM peak hour trips at project build out of 2023. The change in peak hour trips is negligible and will have an insignificant impact on the surrounding roadways and is therefore approvable with regard to the Palm Beach County Traffic Performance Standards. Based on the findings of this report, the proposed development will generate less than 20 peak hour trips and therefore no additional traffic analysis is required and the project is therefore approvable with regard to the Palm Beach County Traffic Performance Standards.

**RE: 3922 Park Lane
Project #: 190714
Traffic Performance Standards Review (Revised Letter)**

Dear Mr. Kelley:

The Palm Beach County Traffic Division has reviewed the **3922 Park Lane Development** Traffic Impact Statement, dated July 25, 2019, pursuant to the Traffic Performance Standards in Article 12 of the Palm Beach County Unified Land Development Code (ULDC). The project is summarized as follows:

Municipality:	Palm Springs
Location:	South side of Park Lane, about 400 feet east of Kirk Road
PCN:	70-43-44-18-00-000-7190
Access:	One full access driveway connection onto Park Lane (As used in the study and is NOT an approval by the County through this letter)
Existing Uses:	One Single family Home
Proposed Uses:	Replace existing with: Multi-Family Residential = 11 DU
New Daily Trips:	71
New Peak Hour Trips:	4 (1/3) AM; 5 (3/2) PM
Build-out:	December 31, 2023

Based on the review, the Traffic Division has determined that the proposed development meets the Traffic Performance Standards of Palm Beach County. The proposed development does not have significant peak hour traffic impact (as defined in PBC TPS) on the roadway network.

Please note the receipt of a Traffic Performance Standards (TPS) approval letter does not constitute the review and issuance of a Palm Beach County Right-of-Way (R/W) Construction Permit nor does it eliminate any requirements that may be deemed as site related. For work within Palm Beach County R/W, a detailed review of the project will be provided upon submittal for a R/W permit application. The project is required to comply with all Palm Beach County standards and may include R/W dedication.

No building permits are to be issued by the Village after the build-out date specified above. The County traffic concurrency approval is subject to the Project Aggregation Rules set forth in the Traffic Performance Standards Ordinance.

The approval letter shall be valid no longer than one year from date of issuance, unless an application for a Site Specific Development Order has been approved, an application for a Site Specific Development Order has been submitted, or the approval letter has been superseded by another approval letter for the same property.

If you have any questions regarding this determination, please contact me at 561-684-4030 or email QBari@pbcgov.org.

Sincerely,

Executive Brief

AGENDA DATE: May 14, 2020

DEPARTMENT: Planning, Zoning & Building

ITEM 10.1: Temporary Use Permit - Outdoor Vehicle & Equipment Storage - Florida Communication Concepts (FCC) - 1195 South Congress Avenue

SUMMARY:

Mr. Dan and Mike Ivancevic and 1195 South Congress Avenue LLC., applicant/owners, are requesting a temporary use permit to enable their prospective tenant, Florida Communication Concepts (FCC), to utilize the premises located at 1195 South Congress Avenue (former Regency Party Rental facility) for outdoor storage while they are proceeding through the Village's site plan process and until building renovations are completed. Specifically, the applicants are requesting temporary use of the property by FCC's 32 employees to park personal vehicles during the day and park/store FCC's construction vehicles and equipment and materials (i.e., spools of conduit) in the rear of the property when not in use.

Note: The subject property is improved with a 28,000 square foot building, which FCC intends to occupy for a business office and storage of equipment and materials. A portion of the building was previously utilized by Off Lease Only (approximately 5,000 square feet on the first floor) for a "call center" business office use and the remaining 23,000 square feet, including the entire second floor, had been intended for use by JEM Homes for production/assembly. Partial improvements were undertaken from 2017 to 2019 in an effort to separate the building into two (2) separate business spaces; however this project was never completed. If approved, fire sprinkler/fire alarm improvements will be required to be completed prior to FCC being able to utilize the building. Additionally, site plan approval will be required to compliment the change of use from Commercial to Light Industrial that was approved June 13, 2019 (Ordinance No. 2019-05).

The property owner is requesting that the Temporary Use Permit be for a 6-month period, which would permit the prospective tenant to start utilizing the exterior portions of the property to store vehicles and equipment and materials within the rear of the property, on paved

surfaces (no internal use of the building would be permissible until fire prevention, life safety improvements and site improvements (i.e., fire hydrant, dumpster enclosure and parking lot striping) are completed pursuant to a site plan.

Note: Section 34-895 - Village Code - Temporary land uses in zoning districts.- provides that the Village Council may grant approval for temporary, principal uses of land that are not specifically allowed by the zoning district, such as storage. A temporary use permit may not exceed two (2) years and is not renewable.

During this temporary period, the applicant intends on modifying the industrial site plan that had been processed to support JEM Homes' occupancy of the property. The new, proposed site plan would need to consider a single-tenant use, required parking for employees, parking/storage of company vehicles and construction equipment, garbage truck circulation and compatibility buffers with surrounding residential uses.

The proposed use would bring 32 jobs to the Village (FCC has a Ft. Myers location, and east coast employees are temporarily working from their homes) and would allow an underutilized property to be occupied by a business operation within our Palm Springs CRA - Congress Avenue District. As a result, staff recommends approval of the proposed six (6) month Temporary Use Permit to allow outdoor storage as a principal use.

FISCAL IMPACT:

The proposed request does not have a fiscal impact to the Village.

Pursuant to Village Code Section 34-895, upon issuance of a court order from a court of competent jurisdiction awarding attorney's fees and/or costs, such costs shall become a lien on the property, if unpaid after thirty (30) days following the entry of the order.

5. INDEMNIFICATION

5.1 To the fullest extent permitted by laws and regulations, Licensee shall indemnify, defend, save and hold harmless, Village, its officers, agents and employees from any and all claims, damages, losses, liabilities and expenses, pertaining to or arising out of the licensing of the land use of the licensed Property, this License, the use and/or occupancy of the Property by Licensee or any of its subcontractors, agents, officers, employees, independent contractors, invitees or guests. Licensee shall pay all losses, claims, liens, settlements, or judgments of any nature whatsoever in connection with the foregoing indemnification, including but not limited to, reasonable attorney's fees (including appellate attorneys' fees and costs). 5.2 The Licensee's obligation to indemnify, defend, and pay for the defense, or at the Village's option, to participate and associate with the Village in the defense and trial of any claim and related settlement negotiations, shall be triggered by the Village's notice of claim for indemnification to Licensee. Licensee's inability to evaluate liability or its evaluation of liability, shall not excuse the Licensee's duty to defend and indemnify within 7 days after such notice is given by the Village. Only an adjudication or judgment after the highest appeal is exhausted, specifically finding the Village solely negligent, shall excuse performance of this provision by Licensee. Licensee shall pay all costs and fees related to this obligation and its enforcement by the Village. In the event any provision of this License is found to be invalid or unenforceable, such finding shall not affect the validity and enforceability of the remaining provisions of this License. The failure of a Party to insist upon strict performance of any of the terms or conditions of this License or to exercise any of its rights under this License shall not waive such rights and such Party shall have the right to enforce such rights at any time and take such action as may be lawful and authorized under this License, in law or in equity.

7. GOVERNING LAW

7.1 This License and the performance thereof shall be governed, interpreted, construed and regulated by the laws of the State of Florida and venue for any action arising out of this License shall be in Palm Beach County, Florida. **Further, if for any reason a claim, dispute or controversy is not resolved by the parties, the parties irrevocably and voluntarily agree to waive any right to a trial by jury in respect to any such claim, dispute or controversy.**

In the event the Licensee fails to correct the conditions of default, or the default is not remedied to the satisfaction of the Village within said thirty (30) calendar days, the Village shall have all legal remedies available to it, including, but not limited to, the termination of this License, in which case, the Village shall be entitled to recover its attorney's fees and costs, and any and all damages permitted by law arising from the default. A breach of this License by Licensee may be enforced in code enforcement proceedings brought by the Village and the Special Magistrate is hereby authorized to order the immediate cessation of the licensed use, and other code violations and to award the Village all legal and equitable relief to which the Magistrate shall determine is just and appropriate. Notwithstanding the foregoing, this License is a contract, which may also be enforced in a court of law. The Village has no liability for damages or anticipated profits for business losses or other damages caused by the termination of this License Agreement in the event of a default.

- 14.2** The parties hereto agree that the Village's right to terminate this License as stated herein is absolute and shall not result in any inequity to Licensee because of any authorized improvements by Licensee to the Facilities for the use licensed herein. - 14.3** The Licensee acknowledges that the Village and the public will be irreparably damaged if the terms and conditions of this License are not adhered to and specifically enforced. Therefore, in the event of a violation or threatened violation by the Licensee, then the Village shall be entitled to all the rights and remedies, including but not limited to injunctive relief, restraining such violation without being required to show any actual damage, irreparable harm, or to post any bond or other security.

They are looking for a six (6) month Temporary Use Permit of the yard at 1195 S. Congress Ave to park the company work vehicles and conduit while the property owner works with the Village to secure the CO for the property. The hours of operation will be 7:00 am to 5:00 pm. In the morning, the workers will arrive in their personal vehicles and take FCC's vehicles to work site. The workers will park their personal vehicles in the work truck spaces. Once a week FCC will get a delivery of new conduit. After the employees leave with the work vehicles there will be little activity on the property until they return at the end of the day to return the trucks and pick up their personal vehicles.
