END OF CONSENT AGENDA

Council Member Waller made a motion to approve the Consent Agenda, seconded by Council Member Brinkman. The motion carries 5-0.

7. PRESENTATIONS

7.1. Water Conservation Month Proclamation - April 2021

- Water Conservation Month Proclamation - April 2021

Mayor Smith read the proclamation into the record and presented it to Assistant Public Service Director, Mr. Chad Girard.

7.2. National Public Safety Telecommunicators Week - April 11-17, 2021

- Proclamation - Public Safety Telecommunicators Week

Mayor Smith read the proclamation into the record and presented it to Police Chief Tom Ceccarelli. Chief Ceccarelli and the Village Manager gave comments.

7.3. National Library Week in Palm Springs Proclamation

- National Library Week in Palm Springs Proclamation

Mayor Smith read the proclamation into the record and presented it to the Interim Library Services Director, Ms. Jossie Maliska. Mayor Smith commented on the services the library provides to the community.

7.4. National Arbor Day Proclamation - April 30, 2021

- National Arbor Day Proclamation - April 30, 2021

Mayor Smith read the National Arbor Day proclamation into the record and presented it to the Assistant Public Service Director, Chad Girard. She also invited everyone out to the Arbor Day event on April 30th at 10:00 AM.

7.5 Municipal Clerks Week - May 2-8, 2021

- Municipal Clerks Week - May 2-8, 2021

Mayor Smith read the proclamation into the record and presented it to the Village Clerk, Kimberly Wynn.

8. PUBLIC COMMENT *The public shall be limited to three (3) minutes to speak on agenda or non-agenda item(s)*

At this time, Mayor Smith offered the public an opportunity to speak on agenda and non-agenda items. There were no comments from the public.

9. PUBLIC HEARINGS

9.1 Proposed Ordinance No. 2021-03 - Village Code Amendment - Chapter 34 - Law Enforcement and Parks & Recreation Impact Fees (*First Reading*)

- Proposed Ordinance No. 2021-03 - Law Enforcement and Parks & Recreation Impact Fees
- Schedule of Maximum Potential Impact Fee Rates (Proposed) - Law Enforcement and Parks & Recreation
- Impact Fee Study - Tindale Oliver - draft March 18, 2021
- Calculated Percentages of Maximum Potential Impact Fee Rates - Law Enforcement and Parks and Recreation
- Resolution No. 2012-53 - Current Impact Fee Schedule Tindale-Oliver Presentation - Impact Fee Summary

Village Manager Reade read the staff's report into the record. Mrs. Glas-Castro introduced Ms. Nilguin Kamp, a consultant with Tindale-Oliver. Ms. Kamp gave a presentation on Impact Fees. Impact fees were not updated for the Village in a while. She discussed the new law that now placed the burden of proof on the government for impact fees. Ms. Kamp talked about her findings from the study.

The Village of Palm Spring's Law Enforcement impact fees is the second-lowest rate in the jurisdiction compared to other neighboring cities. She briefly discussed the Levels of Service (LOS) in the Parks & Recreation Department. Mayor Smith asked why the numbers were higher for mobile home parks versus multi-family and residential homes. She wanted to know if the most recent data was taken into consideration (2020 Census). Council Member Brinkman asked about waived or reduced fees being offered for Community Redevelopment Agency (CRA) properties. If other incentives could be offered in the future. The Assistant Village Manager, Mrs. Glas-Castro said that incentives can be offered with stipulations.

Ms. Kamp talked about the next steps of the Village.

At this time, Mayor Smith offered the public an opportunity to speak on Ordinance No. 2021-03. There were no public comments.

Village Attorney Torcivia read the title of the caption into the record.

Vice Mayor Ready made a motion to approve Ordinance No. 2021-03, seconded by Council Member Waller. The motion to approve 5-0.

9.2 Ordinance No. 2021-04 - Village of Code Amendment - Chapter 34 – Special Events (*First Reading)*

- Proposed Ordinance No. 2021-04 - Village Code - Chapter 34 - Special Events

Village Manager Reade read the presentation from staff into the record. He said that Ordinance No. 2021-04 is to clarify the definition of a special event. Mayor Smith offered the public and Council an opportunity to speak on Ordinance No. 2021-04. There were no comments from the public.

Council Member Brinkman asked about the noise clause (Section 34.896[10]).

Village Attorney Torcivia read the title of the caption into the record.
Mayor Pro Tem Gunther made a motion to approve Ordinance No. 2021-04, seconded by Council Member Brinkman. The motion carries 5-0.

9.3 Ordinance 2021-02 - Land Use and Rezoning (Small-Scale) Amendments - Fontana Townhomes - 4063 Davis Road & 4090 Coconut Road (Quasi-Judicial Hearing) (*First Reading*)

- Proposed Ordinance No. 2021-02 - Comprehensive Plan (Small Scale) Land Use
- Map & Rezoning Amendment - 4063 Davis Road & 4090 Coconut Road

- Exhibit "A" Staff Report & Conditions of Approval (combined for both applications)
- Applicant's Justification Statements
- Proposed Site Plan, Landscape Plans, Building Elevations (informational Only)
- Color Site Plan and Color Rendering (informational only)
- Aerial, Location, FLU and Zoning Map

Mayor Smith introduced this item. She asked the Council to disclose any ex parte communication - there was none. Village Clerk Wynn stated that Ordinance No. 2021-02 was advertised in the Lake Worth Herald. The Village Clerk swore in the applicants (WGI and Meritage Homes) that may give testimony in this proceeding.

Village Manager Reade presented staff's report into the record.

Mr. Jerrod Bursar with WGI, located at 2035 Vista Parkway, West Palm Beach, gave the applicant's presentation. He talked about the amenities and development of the project and explained the property is fee simple. Council Member Waller asked about the enforcement of the rules. They are going to be enforced by property management.

There was a discussion about some of the rules that would be put in place. Mayor Pro Tem Gunther asked if the roads would be private during the platting process. Mr. Bursar answered the roads would be private. The estimated price (depending on the market) may start at $280,000 and the number of units in the development is fifty-nine (59).

At this time, Mayor Smith offered the public an opportunity to speak on Ordinance No. 2021-02. There were no further comments.

Village Attorney Torcivia read the title of the caption into the record.

Council Member Brinkman made a motion to approve Ordinance No. 2021-02, seconded by Vice Mayor Ready. The motion carries 5-0.

10. ACTIONS AND REPORTS

10.1 Temporary Use Permit - Storage Containers and Contractors Trailers - 4280 Lakewood Road

- Proposed Temporary Use Permit Agreement
- Proposed Site Logistics Plan (Exhibit "B" to Agreement) Applicant Proposed Temporary Use Narrative
- Aerial and Location Maps
- Sec. 34- 895 Temporary Land Uses in zoning Districts - Land Development Approved Resolution No. 2018-04 and Site Plan - 4280 Lakewood Road

Village Manager Reade read the staff's report into the record.

Mayor Smith offered the Council an opportunity to speak on this item. Council Member Brinkman asked Mr. Smuts if there were two separate trailers on the site. Mr. Smuts explained there is an Owner Management and Construction Management trailer on site. He said that management likes to keep them separate.

Council Member Waller made a motion to approve a Temporary Use Permit for 4280 Lakewood Road, seconded by Mayor Pro Tem Gunther. The motion carries 5-0.

10.2 Discussion - Village of Palm Springs Police Department Building Expansion Update Options *(STAFF HAS REQUESTED THIS ITEM BE POSTPONED)*

10.3 Discussion - Proposed American Rescue Plan Act of 2021 (ARP) Funding & Options

Village Manager Reade introduced Marianna Ortega to explain this item and how these funds can be used. She explained that approximately $10.5 million were assigned to the Village. Currently, the state does not have a say in how the money is spent. Information is being disseminated periodically. Whatever projects the Village chooses, they have to keep in mind that December 21st is the deadline to spend the ARP funds, and they have to be specific about how the funds are spent. Four areas that can be chosen.

Mayor Pro Tem Gunther commented on the regulations. Ms. Ortega elaborated on the stipulations.

10.4 Discussion - Proposed Res. No. 2021-12 - CPF for Park Connector Pathway

- Proposed Res. No. 2021-12 - Federal Community Project Funding for the Park Connector Pathway System (Revised)
- Resolution No. 2021-12

The Village Manager introduced this item. He talked about the urgency to get approval from Council to qualify for the grant. Vice Mayor Ready asked if the Village was going to apply for this grant with Greenacres. Village Manager Reade said that because the grant is a small amount, the Village is not going to apply with Greenacres.

Village Attorney Torcivia read the caption of the title into the record.

Mayor Pro Tem Gunther made a motion to approve Resolution No. 2021-12, seconded by Vice Mayor Ready. The motion carries 5-0.

Recommend for approval Mayor Pro Tem Gunther made a motion to approve Resolution No. 2021-12, seconded by Vice Mayor Ready. The motion carries 5-0.

The Village Manager introduced this item. He talked about the urgency to get approval from Council to qualify for the grant. Vice Mayor Ready asked if the Village was going to apply for this grant with Greenacres. Mayor Pro Tem Gunther made a motion to approve Resolution No. 2021-12, seconded by Vice Mayor Ready. The motion carries 5-0.

11. VILLAGE MANAGER COMMENTS

Village Manager Reade gave routine comments on staff and daily operations.

12. VILLAGE COUNCIL COMMENTS

Vice Mayor Ready gave a summary of the events he had attended since the last meeting. Mayor Pro Tem Gunther thanked staff and recognized Water Conservation Month. Council Member Brinkman enjoyed the CRA presentation. She also talked about an abundance of garbage in and around a canal. Council Member Waller talked about sidewalk sealant around the Village complex. There is a broken sprinkler head near the tennis courts in the municipal complex. Mayor Smith discussed some of the activities in the Village. She talked about the safety on Lake Worth Road (traffic), especially since they moved the homeless

people out of John Prince Park. She recommended that we contact the Homeless Coalition for assistance. Mayor Smith thanked IT and Finance for getting the facts and keeping the Village safe.

At this time, Mayor Smith invited Tracy Adams from PBCFR to come to say a few words.

Fire Chief Tracy Adams discussed the Annual Report for Palm Beach County. She said there was 433 calls total, and about 80% of those calls were medical-related. Vice-Mayor Ready asked if there was an increase in cost/volume since COVID-19. Fire Chief Adams confirmed the volume increased, but she did not have the financials. She can get Vice Mayor Ready's question to her Finance Department. She left a copy of the annual report for the Council

13. ADJOURNMENT

Hearing no further business, the meeting was adjourned at 8:44 PM

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Library

ITEM 6.3: Approval of Joseph L. Fallon Scholarship Awards - Five (5) Scholarship Awards

SUMMARY:

Each year, the Village of Palm Springs awards scholarships to selected high school seniors who live within the Village. In 1996, the annual Village scholarship was named in memoriam for Palm Springs resident and library volunteer Joseph Fallon, who died suddenly during his senior year at John I. Leonard High School.

This year, the Village Council is expected to present five (5) Joseph L. Fallon Scholarship awards to applicants based financial need, grades, experience and personal appraisal.

The recommended 2021 Fallon Scholarship winners include:

- **Elizabeth Anderson:** Elizabeth is a student at Greenacres Christian Academy and plans to attend Palm Beach State College in Lake Worth, FL. Her major is Elementary Education.
- **Natalya Gertner:** Natalya is a student at G-Star of the Arts and plans to attend Florida Atlantic University in Boca Raton, FL. Her major is English.
- **Natalie Gutierrez:** Natalie is a student at Forest Hill Community High School and plans to attend The University of Miami in Coral Gables, FL or The University of Central Florida in Orlando, FL. Her major is Information Technology/Computer Science.
- **Andre Noble:** Andre is a student at John I. Leonard High School and plans to attend Florida A&M University in Tallahassee, FL. or Palm Beach State in Lake Worth, FL. His major is Emergency Services.

- **Humberto Sigler:** Humberto is a student at Forest Hill Community High School and plans to attend Palm Beach State College in Lake Worth, FL. His major is Psychology.

The Fallon Scholarship Committee met on April 22, 2021, and recommended approval of five (5) scholarship awards to local, Village high school students to assist with their plans to attend college.

If approved by the Village Council, each of the awardees will be presented with a check during the May 13, 2021 Village Council Meeting (Presentations Section).

Note: The Joseph L. Fallon Scholarship Selection Committee includes the following individuals:

- Council Member Patti Waller - Chair
- Village Manager Richard Reade - Vice Chair
- Police Chief Tom Ceccarelli - Committee Member
- Assistant Village Manager - Kim Glas-Castro - Committee Member
- Library Board Member Robin Hughes - Committee Member

FISCAL IMPACT:

Funding to support the proposed awards is available within the FY 2021 Budget - General Fund.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Parks & Recreation

ITEM 6.4:

Approve 4th of July Fireworks Display Vendor - Parks and Recreation Department (FY 2021 Funded - General Fund) - Exposhows, Inc.

SUMMARY:

The Parks and Recreation Department has identified a need to select a vendor to provide the fireworks display for the Village's annual 4th of July Fireworks event that will be held on Sunday, July 4, 2021 at the Village Center Complex. With the ongoing COVID-19 pandemic, staff is attempting to provide a 4th of July event that will help Village residents celebrate this important American holiday, while maintaining CDC requirements for social distancing and limiting large group gatherings.

As a result, the Village requested quotes from various vendors and received the following two (2) proposals:

Exposhows, Inc.	$21,800 for a 18-minute display with a 2-minute grand finale
Zambelli Fireworks Manufacturing Company	$20,000 for a 18 to 19-minute display with a 1-minute grand finale

Staff recommends approval of the proposed agreement with Exposhows in the amount of $21,800 to provide the fireworks display for the Village's 4th of July celebration. This vendor, while submitting a higher quote, is providing a two (2) minute finale and utilizing larger diameter shells. The use of larger diameter shells will allow for a higher reach and thus provide residents the opportunity to see the show from their residences. If approved, a certificate of insurance will be provided prior to the event and the proposed vendor would be

responsible for meeting all Village and County permitting guidelines/requirements.

Note: The Village is working with local businesses to assist in sponsoring the Village's 4th of July fireworks display, which would provide financial assistance in offsetting the cost of the increased fireworks display.

The proposed agreement has been prepared by the Village Attorney and reviewed by the Parks and Recreation Director, Program Supervisor II, the Police Chief, Assistant Police Chief, Assistant Public Works Director and the Finance Director.

The Village contracted with this vendor in 2020 and the feedback from the community was very positive and supportive of the product displayed. In addition, the vendor was well received by the Village's Operations Team for the event (Assistant Police Chief, Parks and Recreation Department and Public Service Department) as well as Palm Beach County Fire Rescue.

FISCAL IMPACT:

Funding to support the 4th of July fireworks display is available within the approved FY 2021 Budget - General Fund.

FY 2021 Budget - General Fund (Special Events):	
FY 2021 Approved Budget - General Fund	$23,975

Expected Event Costs:	
Proposed Event Cost - 4th of July Fireworks - Exposhows	$21,800

Note: The proposed budget for the 4th of July event included funding to support various activities and programs (i.e., giveaways, games, equipment rentals, entertainment, etc.), which will be utilized to support the additional fireworks display cost. These additional activities and programs will be offered on a smaller scale this year due to the COVID-19 restrictions that we are currently facing. Further, the Village Hall Complex and parking lot is expected to be restricted to a limited number of Palm Springs residents only to ensure the safest environment possible during this event.

COMMUNITY FIREWORKS DISPLAY CONTRACT

This Community Fireworks Display Contract ("Contract" hereafter) is entered into between the VILLAGE OF PALM SPRINGS, a Florida municipal corporation ("VILLAGE" hereafter), and EXPOSHOWS, INC., a company authorized to conduct business in the State of Florida, with a mailing address of P.O. Box 5590, Santa Monica, CA 90409 ("VENDOR" hereafter).

RECITALS

WHEREAS, the VILLAGE is in need of a Vendor to provide a community fireworks display for the VILLAGE's 4th of July Fireworks Display (hereinafter the "Services");

WHEREAS, VENDOR submitted a proposal to perform the Services, attached hereto as Exhibit "A" (the "Proposal");

WHEREAS, the VILLAGE desires to accept VENDOR's Proposal in order for VENDOR to render the Services to the VILLAGE as provided herein;

WHEREAS, the VENDOR further warrants that it is experienced and capable of performing the Services hereunder in a professional and competent manner; and,

WHEREAS, the VILLAGE finds approving this Contract with the VENDOR as described herein serves a valid public purpose.

NOW THEREFORE, the VILLAGE hereby engages the Services of the VENDOR, and in consideration of the mutual promises herein contained, the sufficiency of which is hereby acknowledged by both parties, the parties agree as follows:

I. Term of Contract: The term of this Contract shall begin upon approval by both parties and shall terminate upon the conclusion of the fireworks show or termination as set forth below.

II. Scope of Services:
    2.1 The scope of Services to be provided under this Contract is as set forth in the

Contract and the VENDOR's Proposal (see Exhibit "A"). The VILLAGE's cancellation of the Display shall only be effective upon receipt by the VENDOR of a written notice from the VILLAGE's authorized Project Manager. In the event the VILLAGE cancels the Display the VILLAGE shall not be entitled to a refund of its deposit, but the Village shall not be required to pay any further charges.

However, if the Display is cancelled due to inclement weather, as determined in the sole discretion of the VILLAGE, then the Display shall be postponed and fired on the

Postponement Date. Postponement Dates shall be agreed to by the parties. If the VILLAGE wishes to cancel the Display instead of scheduling a Postponement Date, the Display will be cancelled and there will be no refund of the Deposit.

2.2 The VENDOR represents to the VILLAGE that the Services to be performed under this Contract shall be in accordance with accepted and established trade practices and procedures recognized in the VENDOR's trade in general and that the VENDOR's Services shall conform to the highest standards and in accordance with this Contract.

2.3 The VENDOR represents that it is licensed to do business in the State of Florida and holds and will maintain all applicable licenses required for the Services to be completed under this Contract. The VENDOR further warrants its capability and experience to perform the Services provided for herein in a professional and competent manner and consistent with all applicable laws.

III. USE OF AGENTS OR ASSISTANTS: To the extent reasonably necessary to enable the VENDOR to perform its Services hereunder, the VENDOR shall be authorized to engage the services of any agents or assistants which it may deem proper, and may further employ, engage, or retain the services of such other persons or corporations to aid or assist in the proper performance its duties. All costs of the services of, or expenses incurred by, such agents or assistance shall be paid by the VENDOR.

IV. PROJECT MANAGEMENT: Both parties shall appoint a Project Manager who shall meet to coordinate, review and insure performance by the VENDOR under this Contract. The Project Manager appointed by the VILLAGE will oversee the administration of the Services to be performed by the VENDOR under this Contract but is not authorized to modify this Contract.

V. EQUIPMENT: The VENDOR shall provide all equipment necessary to complete the Services to be performed hereunder. In the event VENDOR requires equipment from the VILLAGE, the VENDOR shall meet and confer with the VILLAGE before Services commence. In the event the VILLAGE's equipment is to be utilized, any costs chargeable to the VENDOR shall be agreed upon in advance of the commencement of the Services.

VI. FEE AND ORDERING MECHANISM

6.1 For actual Services performed under this Contract for each year of the Display (including any renewals agreed to by the VILLAGE), the VILLAGE shall pay the VENDOR a fee as follows: Twenty-One Thousand, Five Hundred Dollars ($21,500.00) 50% paid on execution of this Contract, with the remaining amount paid upon conclusion of the event.

6.2 Should the VILLAGE require additional Services not included in this Contract, fees and payment for such additional Services will be set forth in a separate amendment, as authorized in accordance with the VILLAGE's procurement code prior to any such additional Services being performed by the VENDOR.

6.3 The Village's ordering mechanism for all Services performed under this Contract shall be a Village Purchase Order; however, the terms and conditions stated in a Village Purchase Order shall not apply. VENDOR shall not perform Services under this Contract without a Village Purchase Order specifically for this purpose. VENDOR shall not perform work which is out of scope, nor exceed any not to exceed amounts expressed on the Purchase Order. Note that the Village's Fiscal Year ends on September 30th of each calendar year. The Village cannot authorize Services beyond September 30th of each calendar year, prior to the annual budget being approved by the Village Commission. Additionally, the Village must have budgeted appropriate funds for the Services in any subsequent Fiscal Year. If the budget is approved for said Services, the Village will issue a new Purchase Order each Fiscal Year for required and approved Services.

VII. MAXIMUM COSTS: The VENDOR expressly acknowledges and agrees that the total cost to complete all Services is as specified herein and no additional costs shall be authorized without prior written approval from VILLAGE.

VIII. INVOICE: The VENDOR shall submit an invoice to the Project Manager for approval prior to receiving compensation.

IX. DEFAULTS, TERMINATION OF CONTRACT

9.1 If the Project Manager deems that the VENDOR is in default for failure to supply an adequate working force or has failed in any other respect to satisfactorily perform the Services specified in this Contract; or, is in material breach of a term or condition of this Contract, the Project Manager may give written notice to the VENDOR specifying defaults to be remedied within ten (10) days. Such notice shall set forth the basis for any dissatisfaction and suggest corrective measures. If the VENDOR does not remedy defaults within ten (10) days or commence good faith steps to remedy the default to the reasonable satisfaction of the Project Manager, the VILLAGE may take such action to remedy the default and all expenses related thereto shall be borne by the VENDOR including, without limitation, utilization of another Vendor to provide for such Services; and/or, the VILLAGE may withhold any money due or which may become due to the VENDOR for such expense and/or Services related to the claimed default. Alternatively, or in addition to the foregoing, if after ten (10) days the VENDOR has not remedied defaults or commenced good faith steps to remedy defaults to the satisfaction of the Project

Manager, the VILLAGE may elect to terminate this Contract. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Contract under this paragraph 9.1.

9.2 Notwithstanding paragraph 9.1, the VILLAGE reserves the right and may elect to terminate this Contract at any time without cause and for convenience. At such time, the VENDOR would be compensated as set forth above.

X. INSURANCE

10.1 The VENDOR shall, at its own expense, procure and maintain throughout the term of this Contract, with insurers acceptable to the VILLAGE, the types and amounts of insurance conforming to the following requirements:

10.2 The VENDOR shall furnish proof of Workers' Compensation Insurance, General Liability Insurance and Comprehensive Automobile Liability Insurance. The coverage is to remain in force at all times during the Contract period. The following minimum insurance coverage is required. The VILLAGE shall be added as an "additional insured" with relation to General Liability and Automobile Insurance. Any costs for adding the VILLAGE as "additional insured" will be at the VENDOR's expense.

Workers' Compensation and Employers' Liability Insurance
Limits: Workers' Compensation – Statutory Limits
Employers' Liability - $1,000,000.00

Commercial General Liability Insurance

Covering premises-operations, products-completed operations, independent Vendors and Contractual liability as required by the RFP.

Limits: Combined single limit bodily injury/property damage $1,000,000.

This coverage must include:

a. Coverage for the liability assumed by the Vendor under the indemnity provision of the Contract.
b. The VENDOR's coverage is primary and the VILLAGE's coverage is non-contributory.

Automobile Liability Insurance
Covering all owned, hired and non-owned automobile equipment.

Limits: Bodily injury $250,000 each person
$500,000 each occurrence

Property damage	$100,000 each occurrence
Or combined single limit	$1,000,000 (bodily injury and property damage combined)

Certificate holder should be addressed as follows:
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

10.3 It is agreed by and between the VENDOR and the VILLAGE that in the event any person, firm or corporation should sustain damages not covered by the insurance furnished by the VENDOR as herein provided or in excess of the limits of said insurance, then in that event, the VENDOR agrees to indemnify and hold harmless the VILLAGE.

10.4 The VENDOR shall not commence Services until the required insurance is in force and evidence of insurance acceptable to the VILLAGE has been provided to, and approved by, the VILLAGE. Until such insurance is no longer required by this Contract, the VENDOR shall provide the VILLAGE with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

10.5 The insurance provided by the VENDOR shall apply on a primary basis. Any insurance, or self-insurance, maintained by the Village shall be excess of, and shall not contribute with, the insurance provided by the VENDOR. Except as otherwise specified, no deductible or self-insured retention is permitted.

10.6 Compliance with these insurance requirements shall not limit the liability of the VENDOR. Any remedy provided to the VILLAGE by the insurance provided by the VILLAGE shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of the VENDOR) available to the VILLAGE under this Contract or otherwise.

10.7 Neither approval nor failure to disapprove insurance furnished by the VENDOR shall relieve the VENDOR from responsibility to provide insurance as required by this Contract.

10.8 The VENDOR's failure to obtain, pay for, or maintain any required insurance shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Contract. In the event of any termination or suspension, the VILLAGE may use the services of another Vendor without the VILLAGE incurring any liability to the VENDOR.

10.9 At its sole discretion, the VILLAGE may obtain or renew the VENDOR's insurance, and the VILLAGE may pay all or part of the premiums. Upon demand, the VENDOR shall repay the VILLAGE all monies paid to obtain or renew the insurance. The

VILLAGE may offset the cost of the premium against any monies due the VENDOR from the VILLAGE.

XI. WAIVER OF BREACH: The waiver of either parts of any breach of any provision of this Contract shall not operate or be construed as a waiver of any subsequent breach of that same or any other provision.

XII. INDEMNITY:

12.1 The VENDOR shall indemnify, defend and hold harmless, to the maximum extent permitted by law, the VILLAGE and its officers, agents, employees and representatives, from and against any and all liability, suits, actions, proceedings, judgments, claims, losses, liens, damages, injuries (whether in contract or in tort, including personal injury, accidental death or property damage, and regardless, of whether the allegations are false, fraudulent or groundless), costs and expenses (including attorney's fees for all litigation, arbitration, mediation, appeal expenses) ("Claims" hereafter) to the extent arising out of or related to the acts or neglect of its agents, employees, subVendors or by anyone the VENDOR directly or indirectly employed in the performance of the Services.

12.1 The VENDOR's obligation to indemnify, defend and hold harmless shall remain in effect and shall be binding upon the VENDOR whether such injury or damage shall accrue, or may be discovered, before or after termination of this Contract.

12.2 The VENDOR's failure to comply with this section's provisions shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Contract.

XIII. ENTIRE CONTRACT AND ORDER OF PRECEDENCE

13.1 This Contract consists of the terms and conditions provided herein, and, the VENDOR's proposal. To the extent that there exists a conflict between this Contract and the remaining documents, the terms, conditions, covenants, and/or provisions of this Contract shall prevail. Wherever possible, the provisions of such documents shall be construed in such a manner as to avoid conflicts between provisions of the various documents.

13.2 This Contract supersedes any and all other Contracts, either oral or in writing, between the parties hereto with respect to the subject matter hereof, and no other Contract, statement, or promise relating to the subject matter of this Contract which is not contained herein shall be valid or binding.

XIV. ASSIGNMENT

14.1 Nothing under this Contract shall be construed to give any rights or benefits to any party other than the VILLAGE and the VENDOR. All duties and responsibilities under this Contract shall be for the sole and exclusive benefit of the

VILLAGE and the VENDOR and not for the benefit or any other party. The VENDOR shall not assign any right or interest in this Contract, and shall not delegate any duty owned, without the VILLAGE's prior written consent. Any attempted assignment or delegation shall be void and totally ineffective for all purposes, and shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Contract.

14.2 In the event the VILLAGE consents to an assignment or delegation, the assignee, delegate, or its legal representative shall agree in writing to personally assume, perform, and be bound by this Contract's covenants, conditions, obligations and provisions.

XV. SUCCESSORS AND ASSIGNS: Subject to the provision regarding assignment, this Contract shall be binding on the heirs, executors, administrators, successors, and assigns of the respective parties.

XVI. WAIVER OF TRAIL BY JURY: TO ENCOURAGE PROMPT AND EQUITABLE RESOLUTION OF ANY LITIGATION, EACH PARTY HEREBY WAIVES ITS RIGHTS TO A TRIAL BY JURY IN ANY LITIGATION RELATED TO THIS CONTRACT.

XVII. GOVERNING LAW AND REMEDIES:

17.1 The validity of this Contract and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue shall be in Palm Beach County, Florida.

17.2 No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

XVIII. TIME IS OF THE ESSENCE: Time is of the essence in the completion of tasks and services as specified herein.

XIX. NOTICES: All notices hereunder must be in writing and, unless otherwise provided herein, shall be deemed validly given on the date when personally delivered to the address indicated below; or on the third (3rd) business day following deposit, postage prepaid, using certified mail, return receipt requested, in any U.S. postal mailbox or at any U.S. Post Office; or when sent via nationally recognized overnight courier to the address indicated below. Should the VILLAGE or the VENDOR have a change of address, the other party shall immediately be notified in writing of such change, provided, however, that each address for notice must include a street address and not merely a post office

box. All notices, demands or requests from the VENDOR to the VILLAGE shall be given to the VILLAGE address as follows:

Village Manager
Village of Palm Springs
226 Cypress Lane
Palm Springs, Florida 33461

All notices, demands or requests from the VILLAGE to the VENDOR shall be given to the VENDOR address as follows:

Exposhows, Inc.
P.O. Box 5590
Santa Monica, CA 90409

XX. SEVERABILITY: Should any part, term or provision of this Contract or any document required herein to be executed be declared invalid, void or unenforceable, all remaining parts, terms and provisions hereof shall remain in full force and effect and shall in no way be invalidated, impaired or affected thereby.

XXI. DELAYS AND FORCES OF NATURE:

21.1 Except as otherwise set forth in this Contract, the VENDOR specifically waives any right to seek any monetary damages or losses for a delay in completion of the Services or the termination of Services, including, but not limited to, waiving any right to seek monetary amounts for lost profits, additional overhead, salaries, lost productivity, efficiency losses, or any other alleged monetary losses which may be allegedly suffered by VENDOR due to a delay in the completion of the Services or a termination of Services.

21.2 The VILLAGE shall not be considered in default in the performance of its obligations hereunder or any of them, if such obligations were prevented or delayed by any cause, existing or future beyond the reasonable control of the VILLAGE which include but are not limited to acts of God, labor disputes or civil unrest.

XXII. COUNTERPARTS: This Contract may be executed in counterparts, each of which shall be an original, but all of which shall constitute one and the same document. Each of the parties shall sign a sufficient number of counterparts, so that each party will receive a fully executed original of this Contract.

XXIII. LIMITATIONS OF LIABILITY: Under no circumstances shall either party be liable to the other for any consequential, incidental, special, punitive, or any other form of indirect or non-compensatory damages.

XXIV. PUBLIC ENTITY CRIMES: VENDOR acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a

public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Vendor, supplier or sub-Vendor under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statues, for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list. VENDOR will advise the VILLAGE immediately if it becomes aware of any violation of this statute.

XXV. PREPARATION: This Contract shall not be construed more strongly against either party regardless of who was more responsible for its preparation.

XXVI. PALM BEACH COUNTY IG: In accordance with Palm Beach County ordinance number 2011-009, the VENDOR acknowledges that this Contract may be subject to investigation and/or audit by the Palm Beach County Inspector General. The VENDOR has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

XXVII. ENFORCEMENT COSTS: All parties shall be responsible for their own attorneys' fees, court costs and expenses if any legal action or other proceeding is brought for any dispute, disagreement, or issue of construction or interpretation arising hereunder whether relating to the Contract's execution, validity, the obligations provided therein, or performance of this Contract, or because of an alleged breach, default or misrepresentation in connection with any provisions of this Contract.

XXVIII. SURVIVABILITY: Any provision of this Contract which is of a continuing nature or imposes an obligation which extends beyond the term of this Contract shall survive its expiration or earlier termination.

XXIX. PUBLIC RECORDS. The VENDOR shall comply with Florida's Public Records Laws, Chapter 119, Florida Statutes, and, if it is acting on behalf of the VILLAGE as provided under section 119.011(2), the VENDOR specifically agrees to:

(i) Keep and maintain public records required by the VILLAGE to perform the services under this Agreement.
(ii) Upon request from the VILLAGE's custodian of public records, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable tie at a cost that does not exceed the cost provided in this Chapter 119, Florida Statutes, or as otherwise provided by law.
(iii) Ensure that said public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement, if the VENDOR does not transfer the records to the VILLAGE. (iv) Upon the

completion of the Agreement, transfer, at no cost, to the VILLAGE all public records in possession of the VENDOR or keep and maintain public records required by the VILLAGE to perform the services. If the VENDOR transfers all public records to the VILLAGE upon completion of the Agreement, the VENDOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the VENDOR keeps and maintains public records upon completion of the Agreement, the VENDOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the VILLAGE, upon request from the VILLAGE's custodian of public records, in a format that is compatible with the information technology systems of the Village.

IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

XXX. SCRUTINIZED COMPANIES

As provided in F.S. 287.135, by entering into any agreement with the Village, or performing any work in furtherance hereof, Vendor certifies that Vendor and Vendor's affiliates, suppliers, subVendors and consultants that will perform hereunder that at the time Vendor submits a bid or proposal for a contract or before Vendor enters into or renews a contract with an agency or local governmental entity for goods or services of $1 million or more, the company must certify that Vendor is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List and that it does not have business operations in Cuba or Syria. Also, at the time a Vendor submits a bid or proposal for a contract or before the Vendor enters into or renews a contract with an agency or local governmental entity for goods or services of any amount, Vendor must certify that it is not participating in a boycott of Israel. If the Village determines, using credible information available to the public, that a false certification has been submitted by Vendor, the Village's Agreement may be terminated and a civil penalty equal to the greater of $2 million or twice the amount of the Agreement shall be imposed, pursuant to Section 287.135, Florida Statutes.

XXXI. E-VERIFY

Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the VENDOR shall:

1. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractor's newly hired employees;
2. Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an "unauthorized alien" as defined in Section 448.095(1)(k), Florida Statutes;
3. Maintain copies of all affidavits for the duration of this Agreement and provide the same to the Owner upon request;
4. Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes;
5. Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and,
6. Be aware that if the VILLAGE terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the VENDOR may not be awarded a contract for at least one (1) year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the VILLAGE as a result of the termination of the Agreement.

IN WITNESS WHEREOF the parties hereto have made and executed this Agreement on the day and year first above written.

The Village of Palm Springs, Florida
2021 July 4th Fireworks Vendor Evaluation Committee
226 Cypress Lane
Palm Springs, FL 33461

Dear Evaluation and Selection Committee,

Greetings! We are excited about the opportunity to be selected as the vendor to operate the 2021 Village of Palm Springs July 4th Fireworks Display. A safe, best ever action-packed show is as important to us as it is to the Village and the community.

All elements of the bid requirements have been reviewed and understood. Exposhows is willing to enter into an agreement under the terms and conditions prescribed by The Village of Palm Springs.

Exposhows is a professional fireworks display company well seasoned in operating public displays. Staffed by veteran professionals with decades of aerial display experience, past events include hundreds of large municipal public displays. No incidents involving any injury or death, property damage or safety violations have ever occurred with our company. Safety remains our number one non-negotiable priority.

Exposhows puts more breaking aerial shells and effects in the air than competitors with breathtaking choreography and precision. For the Village display, over 1,100 breaking aerial shells. A lights-out two minute 400 shell plus finale follows an 18 minute main display that lifts 37 shells per minute.

Project management and team credentials and experience are detailed in our Written Bid response. Our Statement of Qualifications and endorsements reinforce why Exposhows is the best match to bring the safest, biggest, most exciting show ever to the Village. Our value-added services ensure your expectations will be exceeded. Thank you for your consideration.

Sincerely,

David MacCormick CMP
VP Sales
Exposhows Inc.

Company Profile

Exposhows is a professional public fireworks display company, established in 2009 by pyrotechnic professionals to provide city and municipal agences a company specializing in outdoor aerial firework shows for the general public. Our staff has been involved in the production and operation of large outdoor public displays for State, County and City government, theme parks, and stadium operators for thirty years. Our expertise and experience in public firework displays is unmatched.

Explosives and Equipment Storage facilities are located in Jupiter, FL, Mojave and Santa Clarita, CA. In 2016, Exposhows expanded to operate multistate public display productions. Acquisition of a industry competitor in 2019 allowed for a increase in market share on a regional and local level including Florida. We are under contract with several municipal agencies including Cities of Orlando and Tavares in Lake County, FL

Our Admin HQ is in Redondo Beach,CA with an operations base in Stuart, FL All Storage sites are registered and inspected by the BATFE and County Fire Marshal(s). Company personnel and show staffing includes over 25 licensed operators and over 80 qualified and experienced public display pyrotechnicians.

Our public display experience and similar engagements for municipal agencies runs deep, including over 60 public displays with mostly multiyear sponsors in the last 3 years. Recently, in Florida, displays for The Village of Palm Springs and City of Tavares in 2020. All but two of our 34 scheduled July 4 displays last year cancelled due to COVID.

Exposhows is a Federally licensed Explosives licensee authorized to store, transport and use display fireworks by the ATF. As a Hazardous Materials Shipper with USDOT Interstate operating authority, Exposhows is permitted to transport Explosives and Hazardous Materials on public roadways throughout the United States.

Exposhows has never been disqualified from a project and has never been a party to any litigation arising from one of our displays. No incidents involving any injury to any spectators or property damage has ever occurred with Exposhows or with any of our experienced operators and team members.

Safety is always the first priority and non-negotiable with any public event. Spectator audience and staff member safety will never be compromised under any circumstances. Our general liability, workers comp and transportation insurance loss runs have no losses since inception.

Close coordination with Event Staff and municipal public safety departments with clear timely communication are hallmarks that distinguish Exposhows; a detail-oriented display company with logistical expertise and demonstrated leadership qualities that result in production excellence.

Statement of Qualifications

Exposhows incorporated in 2011. Our staff operates outdoor public firework displays,our core business in regional markets. Sponsors and locations of current shows include the States of Florida, California and Montana. Most sponsors are multiple year clients and with a local presence, our local facilities are based in Palm Beach County. FL

Past event and venue highlights of our current and former operating staff include experience with all types of public displays. Landside and marine shows, stadium and arena fireworks, exhibitions, Olympics, MLB, Times Square New Year's Eve, performing artists, arena shows and more. The 2016 Grand Display at the Western Pyrotechnic Association Conference, as well as US Navy Fleet Week from 2016 to present.

Use of digital electronic firing systems and fireworks display software enables Exposhows to do things others cannot. The ability to use the entire sky with a smaller firing field footprint allows pinpoint placement of breaking shells in the sky. Better spectator optics and less restrictive artistic expression, unbound from constraints of analog firing systems.

Experience with production companies have been an additional avenue of growth. With over a decade of proximate, theatrical and special effects displays for theme parks and motion picture studios, Exposhows has integrated that technical pyrotechnic expertise intro our public displays, increasing our diverse skill set. As such, the most qualified candidate to operate your July 4th Fireworks Show.

Exposhows has expanded rapidly in the market to operate hundreds of public display firework shows in the past ten years. As you are well aware, recent events led to a horror show for public event related programs and industries. Most of our recent large scale shows were cancelled. (2020)

Our commitment to using only the highest quality fireworks and newest product available is part of our Best Practices. Exposhows works directly with different US manufacturers of pyrotechnic product. Our shell cost is higher but allows us to select the newest and best product from different sources for your show. If we find a way to add more as a value-added feature, we will make sure to do so to ensure that your expectations are exceeded.

As Exposhows gains more traction in Florida, we are confident our increasing market share here will cement our place as a local resource. Active membership in FPAG, the Florida Pyrotechnic Arts Guild has enabled Exposhows to utilize industry veterans, satisfying our increasing staffing needs to accomodate our growth.

**Key Contacts are State Licensed and Federally cleared Pyrotechnic Operators*

The 2021 Village of Palm Springs July 4th Fireworks Display will be produced by our project management team. On-Site team will be headed by a licensed pyrotechnic operator and a minimum of three additional qualified pyrotechnic team members experienced with all facets of public display firework operations.

Exposhows personnel assigned to set up, operate the Display consists of only experienced staff members and licensed operator(s) for each display. All aspects of the Fireworks Display are conducted by Exposhows staff and are never subcontracted to another agency or any third parties.

All assigned licensed display operators and pyrotechnicans have multiple outdoor show display experience. Federal law requires that pyrotechnicians be US Citizens with no felony convictions. All Exposhows pyrotechnicians are BATFE Employee Possessors that have completed Federal Background Checks and have received Notices of Clearance from FELC/ DOJ.

All staff members are qualified and authorized to work as employee possessors under Exposhows Federal Explosives License as required by Federal Law. With over 80 qualified pyrotechnicians and 25 licensed operators, all staff have multi-show outdoor experience and receive mandatory annual safety and pyrotechnic training.

Safety and Staff Training

Exposhows Inc, is dedicated to safe practices and the advancement of best practices in the fireworks industry. Author of several reports and publications that address best practices with respect to Fireworks Safety, Discharge of Fireworks and Environmental Impact Reports, Exposhows continues to lead the way to make the industry safer and reduce the ecological impact of aerial display fireworks.

Primary focus at Exposhows is always the safety of audience and staff members and will never be compromised under any circumstances. No incidents involving any injury or death to any spectators have ever occured with an Exposhows production or our experienced operators and team members. No incidents involving any property damage or resulting in an emergency response have every occured at any of our shows.

Exposhows equipment exceeds the highest standards of construction and materials. Only HDPE or steel are used for mortar fabrication, no fiberglass or materials that present a possibility of fragmentation. Mortar rack construction exceeds minimum specifications set forth by regulatory agencies. Equipment is inspected before every show to ensure integrity of mortar racks, solid wood mortar base plugs and mortar walls.

Firing site equipment configuration is designed to eliminate any loss of mortar or rack framing integrity in the event of a in-gun detonation or catastrophic event, ensuring safety or audience, staff or any person(s) proximate to the launch site. Always observing safe distances are another key cornerstone to our best practices.

Pre Display Site safety briefings for the on-site team are conducted daily prior to work and again prior to the start of the display

Only trained and experienced pyrotechnicians are assigned to Exposhows Fireworks Displays. All our licensed operators and pyrotechnicians receive mandatory annual explosives and fireworks safety training. Course materials include OSHA High Hazard Injury & Illness training, First Aid and instruction on Industry Safety Protocols

Sponsor Duties

Any professional grade sound system including all necessary equipment, installation of such equipment and trained audio engineers for operation of audio and communication is provided by the sponsor or designated media partner.

Placement of a dumpster for cardboard, debris and non hazardous waste is requested. Proximate open restrooms or portable station for pyrotechnic team comfort is requested.

Provision of a fallout safety zone, in accordance with applicable standards and meeting all requirements of Palm Beach County Fire Dept and NFPA minimum standards throughout the entire time that explosives (show truck) arrives on site on the date of the production until departure following strike and load out of the production.

Any on site labor cost, if any, not provided or performed by Expo personnel, including but not limited to, local union requirements, all proximate security, Police and Fire Dept standby personnel, stagehands, electricians, audio and fire control monitors, carpenters and plumbers

Coordination and cost of any non-pyrotechnical permitting with the local, state or federal government that may hold authority within the production

Industry Leading Best Practices

Safety is always the first priority and non-negotiable with any public event. Our Safety Compliance operates within the scope of Fireworks Best Practices, always maintaining safe distances, using the best equipment, trained staff and vigilant in observing safe pyrotechnic operating protocols and methodology.

Advances in digital, wireless fire control systems and an increase in equipment construction minimum standards have made the pyrotechnic display industry safer for pyrotechnicians and audience members over the past two decades.

Contingency planning is always a hallmark of successful project management. Failure to plan can result in a display cancellation and compromise safety. Exposhows plans for occurences such as inclement weather with standby polyethylene protection for loaded fireworks batteries in the event of a cloudburst or precipition. Protection of electronic firing system components in hardened plastic weaterproof cases. Use of 6mm Visqueen allows the display to be fired even during rainstorms or conditions of high humidity.

The condensed footprint of our firing site configuration allows for additional coverings to be deployed over the entire display that allows staff the ability to continue wiring the display under cover during any constant prolonged downpour of rain.

Exposhows maintains a Best Practices Blueprint that can be forwared to the Evaluation Committee for review on request. It is several pages and beyond the scope of this RFP with regard to content.

Environmental Responsibilities

Aerial Fireworks used for the July 4th Display at the Village Center are comprised of biodegradable cardboard, craft paper, string, tape, glue, black powder, metal salts, (colorants) dextrin and rice. Debris is collected and disposed of in a responsible manner after the display prior to staff departure. Of primary environmental concern is copper electronic ignition wire. Used with every shell, it is secured to each mortar via strain relief. In this manner, e-match stays with the mortar upon launch of the shell to eliminate any environmental impact or discharge of coated copper wire into a marine o park environment. It's collected after the display, an keystone of our Best Practices.

Any proximate theatrical and stage fireworks used are low smoke, eco-friendly, self-consuming devices with no fallout and use cardboard, nitrocellulose and colorants. Our vendor, Ultratec is the world leader in ecofriendly proximate pyrotechnics supplying the Olympics and professional sport venues

MSDS

MSDS are required by DOT in accordance with regulations governing Hazardous Materials Transportation on public roadways in the United States. MSDS for all fireworks that will be on-site are included in the transportation permit package.

IMPLEMENTATION

Successful delivery of an exceptional public display fireworks production requires a structured approach within a clearly defined framework. The project manager and team must utilize every tool and resource to optimize the outcome. The process is built on experience and extensively documented success. It ensures all specific criteria that define the scope and success of the project are met

PROGRAM CONTENT

We are only limited by the extent of our imagination. Proposed show design, program changes, music and display choreography are offered as a starting framework or endpoint. State, stakeholder, sponsor and public input is encouraged in the interest of achieving the same vision. Shared vision leads to a collaborative effort, the best change control option we have in any client vendor relationship.

PROJECT MANAGEMENT STRATEGIES

Use only the very best, most reliable display fireworks available in the world. Fabricate the safest firing equipment possible for the viewing audience and employees. Always keep safety the primary non-negotiable priority. Hire responsible staff and trained, experienced industry veterans. Design the display with new effects and the widest variety and appropriate shell size selection. Design audio and show choreography that excites and engages the viewers and spectators and those who may view it remotely via different media sources.

PROJECT RISK IDENTIFICATION

Identification as well as managing and mitigating the project risks that will occur are central to project success. Equipment, product, transportation, safety, security, logistics, staffing and weather are significant areas of anticipated risk. Contingencies, risk owners and assigned responsibilities are Risk Register items. e.g. (Two operators assigned to the display in the event a sole operator became unavailable due to unforeseen circumstances).

PERFORMANCE

Coordination of people and activities, constant auditing and review are controls that keep Exposhows projects on-track, on-time and within budget. Timelines for completion risks coupled with project strategy have always led to successful product delivery.

Supplier performance measurement, ultimately project health and status are constantly monitored by using Earned Value metrics. Evaluating Trend analysis of Cost and Schedule Performance Index ratios enable dynamic adjustment and change well ahead of the event horizon.

Technical Proposal

Project Summary

The 2021 Village of Palm Springs July 4th Fireworks Display continues a tradition. The one day Independence Celebration is free and open to the public. The fireworks display is fired from a location in the center of the Village Center Athletic Complex.

Runtime of the fireworks program is 20 minutes and showtime is 9 p.m. The action packed display lifts 37 shells per minute of continuous firing with a 400 shell and more grand finale. Fallout and safety zone perimeter during setup and the display is a circular zone that extends in all directions from the launch site with a minimum 350 foot radius.

The fallout safety diameter zone of 800 exceeds minimum distances to safely accommodate maximum aerial breaking shell sizes of 5". The pyrotechnic production is choreographed and broadcast to synchronize to an approved digital audio track if desired.

The displays incorporate aerial single shot shells, specialty shells, chained aerial shells and when appropriate, multishot devices. Our effects library includes shells from the world's top manufacturers including T-Sky and Flower King in addition to US, Spanish, Japanese and Italian style aerial shells manufacturers, Exposhows uses only the best and newest product available from domestic sources and overseas.

Exposhows uses Pyromate and Cobra, state of the art digital, wireless firing systems to launch choreographed displays with precise pinpoint timing. Audio soundtracks, mastered specifically for the Village by our our multi-Emmy award winning Audio Engineer will be submitted to the event staff for review and approval prior to April. Following approval, digital distribution & coordination with the Village's media partner for the event.

All Federal, State and local licenses, permits and filings in accordance with all laws, regulations and requirements governing fireworks as well as Risk Management Certificates will be provided by Exposhows. All staff including the licensed Public Display operator in charge and on-site pyrotechnicians are experienced in public displays and authorized Federal BATFE Employee Possessors with current explosives safety training.

Equipment strike and clean up will be conducted following the conclusion of the event. A post show site inspection the following morning with a Village Parks & Recreation representative authorized to inspect and sign off on clean up and release vendor liability.

Project Design and Scope of Work

The Annual Village of Palm Springs 4th of July Celebration Fireworks at Village Center is an audiovisual celebration of the history and freedom of America and contemporary Florida. It showcases the central location Village to world class recreation and beach destinations and the United States in form and function as universal symbols of connectivity, stability, growth and innovation. A celebration of Americas' diversity and a salute to local veterans.

The Fireworks Finale display brings the sky to life. It celebrates July 4th and our history from the beginning to the present representing the dynamic synergy of our United States, portrayed through a menagerie of light and music symbolizing ever greater reliance, sustainability and independence of America.

Safety and Security Plan

All Exposhows employees undergo mandatory annual Safety seminar Certification and have recent show experience. All State licensed operator(s) and pyrotechnicians are registered Federal BATFE Employee Possessors and cleared by the DOJ to handle explosives. Additional training and compliance with OSHA High Hazard Employer Workplace Injury and Illness Prevention Plan is administered to all employees.

Daily safety meetings and pre load-in safety briefings are given on-site. All Exposhows HME (HazMat Endorsed) commercial drivers participate in DOT mandated random drug testing, ackground checks and clearance by the TSA. Drivers are carried as additional insured on Exposhows Commercial Transportation Liability policies.

Access to the firing site is restricted. Exposnows staff remains on site from load-in of explosives until all unfired explosives material is secured and show truck has left the show site following strike of the display.

Fireworks site access proper is restricted to pyrotechnic team members, Palm Beach County Fire Dept, VPSPD, Public Safety, any on-site security and Event staff. Any and all visitors must be cleared by Public Safety or Parks and Recreation. All visitors are escorted by licensed Operator. Licensed Operator has authority to permit access at their discretion.

Permit, Sponsor and Public Safety Coordination

All permits filings and notifications required by Federal agencies, (FAA) and Palm Beach County Fire Dept. Office of the Fire Marshal in accordance with all U.S., State and local laws will be submitted by Exposhows after contract endorsement and approval. Village of Palm Springs, Palm Beach County Fire Rescue, its elected officials, officers, employees, volunteers, guests, agents and public safety agencies will be listed as additional insured on Exposhows general liability and Workers Comp policies.

Music for Fireworks Show

If desired, Exposhows will submit a proposed audio track for review and approval by event staff. Approved audio track may be modified to include pre-show and/or post show narration at the direction of the event director. Following approval, coordination and digital distribution of the audio program to the Village media partner or simulcast with a local radio station will be completed.

Pre-Event Meetings

Any pre-event firework meeting(s) or walk-through with the sponsor or public safety dept. will be attended by the the project manager or assigned licensed operator.

Itemized List and Delivery of Display Equipment

Equipment will be delivered to the firing site on July 3rd. Equipment list includes HDPE 2" - 5" mortars and racks constructed in accordance with and exceeding minimum safe standards and approved rack stabilization methods.

Use of a digital firing system with built in safeguards consistent with safe operation and best practices. All applicable modules, cables, connectors related to the firing system. E-match, quick match and 22-2 low voltage zip wire used to connect fireworks to firing modules. Fire suppression equipment, foil, Visqueen (polyethylene plastic) and oversize tarps for display protection in the event of inclement weather conditions.

Equipment Delivery / Explosives Load In

Fireworks will be delivered via secured Hazmat licensed the firing site at Village Center on Sunday, July 4th at 8 a.m. Hazmat Transportation Permit documents include travel route of the truck. Authority with Jurisdition; Palm Beach County Fire or VPSPD will be advised the ETA of truck and be on site to open Park gates when truck arrives on-site.

Product remains secured inside the truck until such a time licensed operator in charge determines safety perimeter is established and display is ready for product loading. Shell drop and loading follows a Preload Safety Briefing and any required inspection by PBCFD Inspector or Fire Safety Officer.

On completion of shell drop and wiring of all main display and finale chain shells at approximately 5 p.m., field modules will be connected and the field will be cleared by the Operator in Charge to prepare for system continuity checks. A loud verbal "Clear Field" announcement confirming a secure safety perimeter is made every time the firing panel is energized.

Continuity test(s) will be conducted until the display is at 100% Any Signal testing with sound booth or media partner with occur prior to the display. An additional final continuity test will be conducted prior to 8 p.m.

Entire duration of the display from the opening shot to the final finale cue will be fired electronically and choreographed to any pre-approved audio soundtrack.

Display Description

Display contains a variety of several dozen different types of aerial breaking shell effects from different manufacturers fired from the launch site. The display opens with a variety of show effects in all colors visible to the human eye and includes front line single shell titanium salutes and color display and effect shells.

The main body display consists of single shot and multi shot aerial shells and effect shells. Shells may be fired in tandem to a faux finale, building again in intensity for a finale that will engage multiple chained shells and single shot support shells. A breakdown of shell effect types is detailed following Display Elements.

Sky pictures are used in main body, rapidly fired choreographed sequences that create visual panoramas that represent gold waterfalls with pink stars, sunset rainbows and provide an outstanding, multi-layered horizon to horizon experience.

Display Operations

Entire duration of the display from the opening shot to the final finale cue will be fired electronically. Any preshow test shots will also be electronically fired.

Display operator and pyrotechnic team will be in protective gear prior to arming firing system for continuity test(s) and the display. Protective gear includes long 100% cotton long sleeve and long pants, hard hats, eye and ear protection. Sponsor and Fire Safety Officer will be advised when continuity testing is complete.

All event staff other than production pyrotechnicians and PBCFD Fire Safety Officer must be clear of designated safety perimeter 30 minutes before display start. After the safety perimeter is clear, an all-clear signal is given by Operator and on-site Fire Safety Officer to ensure safe distance minimums are being observed

Following a pre-show safety briefing, pytrotechnic staff with fire supression units are deployed to the fallout perimeter locations for the duration of the display.

Sponsor will be notified that firing system is armed and hot approximately 15 minutes before the scheduled start of the displays. Start of the display is ultimately under the control of the sound booth or media partner at the discretion of the sponsor.

All members of the public and event staff must be clear of the safety perimeter 30 minutes before display start. After the safety perimeter is clear of all persons, an all-clear is given. Firing system will be armed and hot approximately 15 minutes before the scheduled start of the display. Start of the display is ultimately under the control of the sound booth or media partner at the discretion of the licensed pyrotechnic operator in charge and Fire Safety Officer who makes final safety decisions.

Firing Systems in use by Exposhows contain a deadman switch that enables an immediate cease fire in the event an unsafe condition exists that may jepoardize public safety. No aerial shells are chained or ganged in the main display which prevents any additional breaking aerial shells from firing in the event of a cease fire. The display may then be resumed at the discretion of the Operator and the Fire Safety Officer.

Post Display Safety

Due to heat generated by shell lifting chages, the firing field will not be approached for 30 minutes folllowing the conclusion of the show. It is not uncommon for unfired shells to launch following a display due to the intense heat following a finale barrage.

A post display proximate field sweep will be conducted immediately following the display during cool down. Team members will attempt to isolate and secure any duds or aerial shells that were observed to malfunction for containment.

If all shells are accounted for by spotters and burst counts match, an all clear within 10 minutes of the conclusion of the display is anticipated. Following the firing field cool down, all guns will be inspected for unfired shells by the licensed Operator in Charge and an assistant.

Any unexploded ordinance will be removed, secured and stored in the show truck in a safe manner before any equipment or site tear down is initiated. Removal of all explosives from the site will be conducted after equipment strike and during load out.

A detailed Post Display Report will be provided to the Palm Beach County Fire Marshals Office within 72 hours of the conclusion of the show.

Display Equipment Strike, Clean Up

Equipment Strike removes all guns, racks and associated firing equipment from the site. Display debris and expendables will be disposed in a manner consistent with best practices.

Substrates and surfaces used to stage all equipment and pyrotechnics will be returned to their original condition following completion of the display. All debris and byproduct materials will be removed and discarded in a manner consistent with responsible project management. Weather or unforeseen conditions withstanding, Exposhows will supply all materials and staff necessary to complete load-out and cleanup in accordance with required completion dates.

A Parks or Village representative will be required to make a final walk through inspection with the lead operator to ensure compliance with contract terms and to certify any used substrate has been returned to its original condition without damage.

Hazardous Materials Transportation

Exposhows is a Federally licensed Hazardous Materials Shipper and has Interstate operating authority to transport Explosives and Hazardous Materials on public roadways throughout the United States.

Exposhows USDOT #2053003 maintains all current required permits that include FMCSA Hazardous Materials Interstate Transportation Permit, FMCSA Satisfactory Rating & PHMSA Registration. Exposhows carries a $5,000,000 Commercial Transportation Policy, required by law to conduct Interstate Transport of Hazardous Materials.

Transportation of Hazardous Materials (Explosives and Fireworks) are done in house by Exposhows employees who are also licensed operator(s) for the 2021 Sugden Park July 4th Fireworks Display. As Commercial Drivers with HazMat endorsements, they are subject to the requirements and regulations of 49 CFR that include random drug testing, physicals and DHS background checks.

Explosives Storage

In accordance with BATFE 27 CFR and DOT 49 CFR regulations that govern Explosives transport and storage, no overnight explosives storage is required and on-site explosives will be attended at all times by Exposhows staff.

Acceptance of Terms and Conditions & Cancellation Policy

No Exceptions to the Scope of Work or terms and conditions is taken.

Any costs or permit filings with regard to maintenance of traffic or vehicle traffic control fall outside the scope of work of Exposhows (vendor) responsibilities.

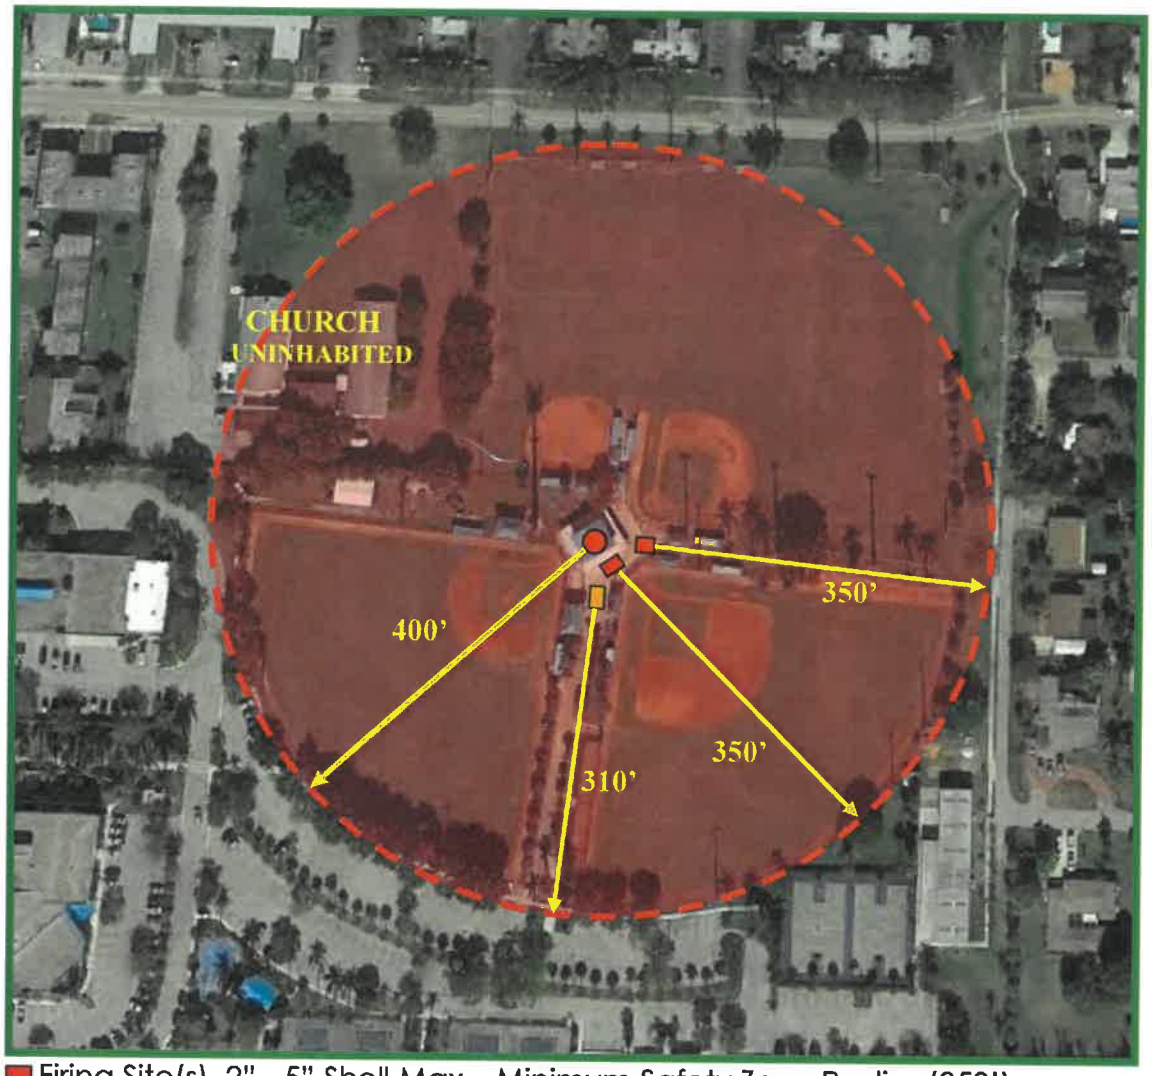
Exposhows is willing to enter into an agreement under the terms and conditions prescribed by The Village of Palm Springs. It is our intention to streamline the production process by utilizing feedback to shape the show with the synergy of a shared vision.

Village shall have the option to unilaterally cancel the Production prior to the scheduled date without rescheduling. If Village of Palm Springs exercises this option, Village agrees to pay to EXPO, as liquidated damages, 25% if cancellation occurs 15 to 29 days prior to the scheduled date, 2) 50% if cancellation occurs 7 to 14 days prior to the scheduled date, 3) 75% if less than 7 days and 4) After July 1st, 100% thereafter.
If the event is rescheduled less than 7 days from the show date due to a Force Majure (including pandemics), Village agrees to pay to EXPO a 15% percentage of the fee or 25% of the fee if on-site show setup has been initiated.
In the event Village cancels the Production, it will be impractical or extremely difficult to fix actual amount of EXPO's damages. The foregoing represents a reasonable estimate of the damages EXPO will suffer if Village cancels the Production.

Display Elements and Shell Count

Shell count and device totals are listed and will be sent with permit filings for review and approval by Palm Beach County Fire Dept. Office of the Fire Marshal.

Specialty custom shells used to enhance the audience experience are made in the United States. Exposhows is proud to support American manufacturers whenever possible.



Shell Size /Effect / Device	Aerial Shell Count
Aerial Barrage Opening	
Multishot Devices (2 x 49 shot)	
3" Display Shells	**10**
4" Display Shells	**2**
Aerial Main Display	
Mulltishot Devices (2 x 300 shot)	
2.5" Main Display Shells	**124**
3" Main Display Shells	**410**
4" Main Display Shells	**100**
5" Main Display Shells	**36**
Aerial Grand Finale	
2" Shell Finale Cake (1)	**100**
2.5" Shells (Chain Finale)	**120**
3" Shells (Chain Finale)	**180**
4" Shells (Chain Finale)	**18**
5" Display Support Shells	**4**
Total Shell Count / Run Time / Price	**Summary Total**
Breaking Shell Total	**1104**
Main Display Shells (Lift Rate Average)	**37/ minute**
Finale Run Time	**2 minutes**
Total Show Run Time	**20 minutes**
Total Display Price	**$21,800***

As an operating standard and value-added feature, Exposhows displays and permit filings have additional product above the listed total count to exceed expectations and ensure compliance with contracted minimum shell count. *Pricing includes all PBC Fire Dept Permit Filings and all Fees.

2021 Village of Palm Springs July 4th Fireworks Displays – Effect Inventory

Most Effect Categories below contain dozens of different effects with similar performance characteristics in different colors. Standard and custom special effects within a category have been detailed for reference. Each effect in a category is further defined by color or color(s)

Exposhows uses a balance of shells in all categories and all colors of the visible light spectrum for a specific Display Mix. Various Reds, Orange, Yellows, Greens, Blues, Indigo, Violet, Lime, Lemon, Aqua, Pink, Whites, Silvers and Golds are all employed for every show. All shells have rising tails in different colors to facilitate visual shell tracking by the spectators.

Effect Categories (Main Display and Finale Support Shells)

Statement of Non-Discrimination

Exposhows Inc. is an equal opportunity employer and does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor."

Form **W-9**
(Rev. December 2011)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)
Exposhows Inc.

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor ☐ C Corporation ☑ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶

☐ Exempt payee

☐ Other (see instructions) ▶

PO Box 5590

Santa Monica CA 90409

Requester's name and address (optional)
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
			-		-				

Employer identification number
8	0	-	0	7	6	4	5	0	9

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here | **Signature of U.S. person** ▶  **Date** ▶ 6/14/2020

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

ADDITIONAL INSURED

Underwriter's at Lloyd's, London: Referred to in this endorsement as either the "Insurer" or the "Underwriters"

This endorsement modifies insurance provided under the following:

SECTION III. PERSONS INSURED

In consideration of the premium charged for the Policy, it is hereby understood and agreed that the following entity(ies) is an additional insured pursuant to Section III. e), but only as respects the specific Display or Special Effects listed on the attached Certificate of Insurance:

Name of Person or Organization (Additional Insured):

Village of Palm Springs
226 Cypress Lane
Palm Springs, Florida 33461

Any coverage afforded to any above person or entity as an Additional Insured shall apply only with respect to **Bodily Injury** or **Property Damage** directly resulting from (1) the **Named Insured's** ongoing operations performed for such specific person and entity; or (2) acts or omissions of the Additional Insured in connection with their general supervisions of the **Named Insured's** ongoing operations. Coverage for such person or entity as an Additional Insured does not apply to:

(i) **Personal Injury** and **Advertising Injury** Liability;

(ii) Fire Legal Liability;

(iii) Employee Benefits Liability;

(iv) **Bodily Injury** or **Property Damage** which the person or entity is obligated to pay as damages by reason of the assumption of liability under a contract or agreement but this shall not apply to liability for damages the person or entity would have in the absence of the contract or agreement;

(v) **Property Damage** to: (1) property owned, used or occupied by or rented to such person or entity; (2) property in the care custody, or control of such person or entity or over which such person or entity is for any purpose exercising physical control; or (3) any work, including materials, parts or equipment furnished in connection with such work, which is performed for the person or entity by or on behalf of the **Named Insured**.

(vi) **Products-Completed Operations Hazards;**

(vii) Any obligation assumed by the Additional Insured in any contract related to the Display or Special Effects listed in the attached Certificate of Insurance.

(viii) Such other **Claims, Accidents**, offenses, damages and/or liabilities which may be excluded pursuant to Section V. Exclusions of the Policy.

All other terms, exclusions and conditions of this Policy remain unchanged.

USDOT Number: _____ **Date Received:** _____

◯ *This insurance is primary and the company shall not be liable for amounts in excess of $* _____ *for each accident.*

◯ *This insurance is excess and the company shall not be liable for amounts in excess of $* 4,000,000.00 *for each accident in excess of the underlying limit of $* 1,000,000.00 *for each accident.*

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA , to verify that the policy is in force as of a particular date. The telephone number to call is: 203-328-5571.

Cancellation of this endorsement may be effected by the company of the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, DC).

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.

Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.

Property Damage means damage to or loss of use of tangible property.

Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.

Public Liability means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon, or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of anyone accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

FIREWORKS

Scope of work

Display Overview:

Show Date: July 4, 2021

All inclusive Budget and Duration: $20,000, 20 minute High- Impact display

Insurance Liability Coverage: $10 Million dollars per incident clause to cover the Fireworks Display. Zambelli uses the highest insurance premium in the industry, only offered to "AAA" rated companies.

Transportation Liability Coverage: $5 Million dollars as required by United States Department of Transportation. (DOT)

Workers Compensation: Pyro-technicians will meet all of the requirements of the Workers Compensation Laws of Florida.

License & Permits: Zambelli Fireworks will obtain all required local, county and state fireworks permits and approvals.

Transportation: Fireworks and equipment will be delivered by qualified CDL drivers with Haz-Mat endorsed licenses as required by US DOT.

Personnel: Zambelli Certified Pyro-technicians and Trained Assistants; no subcontractors used.

Safety Procedures: Zambelli Fireworks adheres to all safety regulations.
NFPA 1123 and 1126 code will be strictly enforced.

Zambelli
FIREWORKS

Proposed Show Segments- July 4th

OPENING: An opening barrage is designed to attract the attention of the audience and entice them to pay attention…"The show has just begun!" The opening barrage for the display will certainly impress as multiple shots of comet tails and aerial effects will fill the night's air. As the opening barrage grows, the intensity of colors and sound will permeate the skies. **20 seconds.**

FEATURE PRESENTATION: The main body of the fireworks display should not be just one shell fired one after another. It's about rhythm, timing, and spacing the perfect effects with one another and building themes throughout the show. Some fireworks are designed to have extreme intensity while others are designed to slow the pace down with slower, softer effects. The design team hand picks every product used to ensure there are nearly no duplicates of tableaus throughout the program. The audience will enjoy a fully designed display.

…. **18-19 Minutes.**

…the **GRAND FINALE:** and it will be GRAND!

Human nature is to remember things last experienced. The Grand Finale is what people will remember the most about a fireworks production. A poor finale will leave an audience disappointed. Zambelli Fireworks has a long tradition of supplying the biggest and best Finales in the industry. It will be loud, it will be full of vibrant colors, it will be long, and it will leave a lasting impression. Hundreds of shots and effects of multi-color shells, gold and silver sparking lights, gold brocade crown shells and other effects coupled with chest-pounding titanium-salutes will be the magical ending of the grand display. The finale will be fired with multiple products and effects to cover every inch of sky… **60 seconds.**

FIREWORKS

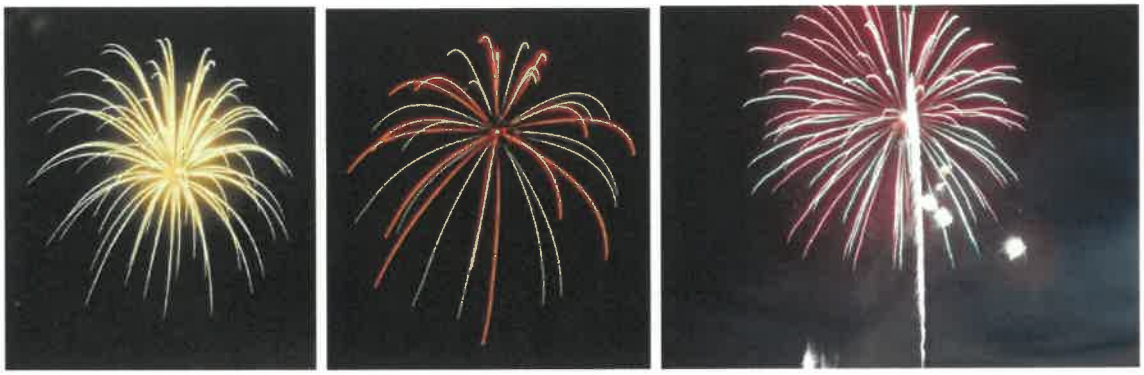
Duration/Lingering Effects (Willows, Brocades, Kamuros)



Description: A Long Duration/Lingering Effect is like a Chrysanthemum but burns slowly to the ground leaving a trail of aerial spark dust. These shells are many times gold or silver with various color tips, color changing, or have various colored centers. Zambelli uses many long duration effects at the end of finales to create a sky of gold or silver.

3" Shells Body

- Twilight Glitter w/Purple
- Brocade Crowns
- Brocade Crown to Purple
- Variegated Falling Leaves
- Long Duration Kamuro
- Pixie Dust Willows
- White Poca Shells
- Twilight Glitter w/Red
- Long Duration Red Falling Leaves
- Brocade Crown to Red
- Purple Falling Leaves
- Super Brocade Crowns
- Ultra-Long Duration Gold Kamuro
- Gold Poca Shells

Zambelli
FIREWORKS

Dahlias

Description: A Dahlia shell is like a peony but uses dramatically larger and fewer stars to create brighter, wider trails of sparks through the air. They are typically very bold, defined colors used to mix up the pace of a show. They many times are also used in finales.

3" Shells Body

Assorted Color Dahlia
Green Dahlia w/Pistil
Yellow Dahlia w/Pistil
Pink Dahlia
Gold Strobe Dahlia
Red Strobe Dahlia
Variegated Dalia

Zambelli
FIREWORKS

Statement of Approach

Zambelli Fireworks believes in creating a simple, turnkey event for our clients. Our approach is to take on the front-end and day-of-event work to provide a great service with little to no hassle for our clients. Our knowledge of the display site and familiarity of the logistics makes us the best candidate for the job. Lastly, our dedication to the ultimate in customer service and creativity is key to the success of our company.

History:

Zambelli Fireworks traces its US pyrotechnics roots back to 1893 when Antonio Zambelli founded a fireworks manufacturing company in New Castle, PA. The company quickly grew and also became a display fireworks company.

In 1960 the company incorporated in the state of Pennsylvania and grew exponentially over the past 50 years. In 2019 Zambelli Fireworks displayed over 2,000 displays in 38 states and internationally. Company Chairman George Zambelli Jr. and President/CEO Ed Meyer have been actively growing the organization.

Zambelli Fireworks has opened six more regional offices for a total of twelve offices around the US. A new Director of Design/Choreography was recently hired to oversee new products, inventory, show design, and choreography. More project managers have also been hired to work closely with clients to make sure all details are attended to every display.

Today Zambelli Fireworks employs nearly 50 full-time employees and thousands of licensed pyro-technicians. Longevity in the fireworks industry doesn't make good shows. Talented individuals make good shows. Zambelli Fireworks is dedicated to having the best individuals in the industry on-board in order to create the best fireworks displays in the industry.

Zambelli
FIREWORKS

Equipment:

Zambelli Fireworks works year-around to ensure all equipment is both up to Federal Codes and safe to use. A huge part of our core company belief is safety for technicians and the area surrounding the display sites. The use of state-of-the-art electrical firing units provides peace of mind that the display will fire safely and accurately.

Training:

All technicians that work for Zambelli Fireworks must pass both a written and hand's on test. No lead technicians are ever assigned to a display unless they have significant pyrotechnics experience. All State License requirements are enforced.

Products (Fireworks):

Product Guarantees. In our experience some fireworks companies tend to "over-promise" in a proposal and then under-deliver on show day. We encourage all of our clients to understand exactly what they are promised and exactly what they receive on show day. We offer openly an audit of both quantity and quality of our products and equipment.

The quality of Zambelli Fireworks products are the key element of our success. Each type of pyrotechnics is test-fired for results, inspected for problems, federally approved and used exclusively.

Many companies in the fireworks industry buy cheap lines of pyrotechnics in order to put more quantity in a display. Although this might impress on paper, the real test is the actual display. Zambelli aggressively prices displays to put the maximum amount of quantity in a show but never to sacrifice the quality of a shell. All shells will be special effects that will have colored tails, multi-color changing effects, designs or patterns, or other special effects.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Zambelli Fireworks Manufacturing Company

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☑ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
120 Marshall Drive

Requester's name and address (optional)

6 City, state, and ZIP code
Warrendale, PA 15086

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
[ ][ ][ ] - [ ][ ] - [ ][ ][ ][ ]

or

Employer identification number
2 5 - 1 0 9 2 9 3 1

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ Thomas Zambelli Date ▶ 01/27/2021

General Instructions

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Parks & Recreation

ITEM 6.5:

Resolution No. 2021-13 - Approve Budget Transfer - FY 2021 General Fund - Contingency

SUMMARY:

The Parks and Recreation Department is requesting the Village Council to consider a budget transfer within the FY 2021 Budget - General Fund from Council Contingency to Parks and Recreation to cover the purchase and installation of playground equipment/replacement for the Village Center Playground.

The proposed budget transfer, if approved, would amend the department/budget line item based on actual and/or estimated cost projections through the remainder of the fiscal year.

- Council Contingency -Reduced $99,920 (Total Line reduced from $273,000 to $173,080)
- Parks and Recreation - Improvements Other Than Buildings - Increased $99,920 (Total Line Increased to $1,448,901 from $1,348,981)

Note: The proposed budget transfer would support the purchase and installation of new playground equipment for the Village Center Complex. This project was originally funded within FY 2020, however, due to production complications and delays in engineering during the COVID-19 pandemic, this project was not able to be completed and is being proposed to be funded within the current fiscal year. The proposed vendor and installer were contacted and, the Village has been assured that this project will be completed prior to the end of FY 2021.

FISCAL IMPACT:

The proposed budget transfer, if approved, would decrease the department's budget line item based on actual and/or estimated cost projections through the remainder of the fiscal year (FY 2021):

- Council Contingency -Reduced $99,920 (Total Line reduced from $273,000 to $173,080)
- Parks and Recreation - Improvements Other Than Buildings - Increased $99,920 (Total Line Increased to $1,448,901 from $1,348,981)

RESOLUTION NO. 2021-13

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, ADOPTING A GENERAL APPROPRIATION BUDGET TRANSFER AND CORRESPONDING APPROPRIATIONS FOR THE VILLAGE'S NECESSARY OPERATING EXPENSES FOR VARIOUS DEPARTMENTS OF THE VILLAGE FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2020 AND ENDING SEPTEMBER 30, 2021; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Village of Palm Springs, Florida ("Village") previously adopted the FY 2020 Annual Operating Budget, pursuant to Ordinance No. 2020-13 on September 24, 2020; and

WHEREAS, the Village finds it is necessary consider a Village Council Legislative-Contingency Transfer to cover projected increased costs during FY 2020 within the Improvements Other Than Buildings to purchase and install a Village Center Playground; and

WHEREAS, adoption of the FY 2020-2021 Amended Annual Operating Budget set forth herein serves a value public purpose.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA;

Section 1. The above recitals are hereby ratified and confirmed as being true and correct and are hereby incorporated into this Resolution.

Section 2. The funds and available resources and revenues more specifically described in "Exhibit A", attached hereto, and incorporated herein by reference, are appropriated to provide the funding for necessary operating and other expenses of departments of the Village for the fiscal year.

Section 3. The revenues and expenses as set forth in "Exhibit A" are hereby incorporated by reference and are hereby adopted as the amended budget for FY 2020 - 2021.

Section 4. This Resolution shall take effect immediately upon adoption.

Council Member_____offered the foregoing resolution. Council Member_____seconded the motion, and upon being put to a vote, the vote was as follows:

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Parks & Recreation

ITEM 6.6: Approve Lakewood Gardens Park Improvements (Task Order No. 286 - Work Authorization No. WG-G0) - Professional Engineering Services - Parks and Recreation Department (FY 2021 Budget - General Fund) - Wantman Group, Inc.

SUMMARY:

The Parks and Recreation Department has identified a need to complete additional surveying work as part of the Lakewood Gardens Park Improvements Project t o ensure that the approved shade structure and playground equipment are constructed/installed within the proper location. Staff is requesting approval of Work Authorization WG-G0 (Task Order No. 286) with Wantman Group, Inc. (WGI) for professional engineering/surveying services, which will assist in ensuring the correct location/layout for the shade structure and playground equipment prior to construction/installation.

Note: Lakewood Gardens Park was annexed into the Village in July, 2014 as an improved park with a playground installed by Palm Beach County. The park was deeded over to the Village in November 2014 as part of the Village's larger annexation process for this area of the County/Village.

As a result, the Village Council is requested to approved Work Authorization No. WG-G0 (Task Order #286) to support all requisite professional engineering/surveying services (i.e., staking and layout services, etc.) to be completed by WGI.

The proposed tasks and associated costs to provide professional engineering services to complete this project are as follows:

Task Description	Amount
Set up Files and Calculate Points	$ 696

Verify Improvements	$ 428
Stake Columns	$ 428
Office - Review fieldwork and send deliverable	$ 328
Total Proposed Costs - Professional Design & Engineering	**$1,880**

Note: The Village approved funding in the amount of $400,000 within the FY 2021 Budget - General Fund to support this proposed project.

The Village will not expend more than the amount in the approved budget as it may be adopted/approved each year for these goods and services over the term of the contract.

If approved, the total engineering/surveying services costs for the Lakewood Gardens Park Improvements Project within Task Order #286 (Work Authorization WG-G0) will be increased to $7,680 (the original survey work was completed by Engenuity in the amount of $5,800 and the proposed additional survey work will be completed by WGI in the amount of $1,880). If approved, the Village would accepted WGI's pricing as outlined within the previously approved General Consulting Services Continuing Contract with WGI including all terms, conditions and pricing therein.

Note: The Village issued a Request for Qualifications (RFQ) for professional engineering services (RFQ #2019-01 - General Consulting Services Continuing Contracts) in accordance with the Consultants Competitive Negotiation Act (CCNA) - Section 287.55, Florida Statutes.

If approved, it is estimated that the proposed survey work will take approximately one week following the Notice to Proceed by the Village.

The proposed work authorization was prepared by WGI and reviewed by the Parks & Recreation Director, Assistant Public Service Director/Engineer, Assistant Village Manager, Village Attorney and Finance Director.

The Village has worked with the proposed vendor previously and received excellent service and a quality product.

FISCAL IMPACT:

Funding to support this proposed Lakewood Gardens project is available within the FY 2021 Budget - General Fund utilizing a Land Water Conservation Fund (LWCF) matching grant and Infrastructure Surtax (Sales Tax) funds ($200,000).

Allocated/Estimated Project Funding:	
FY 2021 Approved Budget - General Fund	$400,000.00
TOTAL APPROVED BUDGET:	**$400,000.00**

Estimated/Actual Project Costs:	
Actual Project Cost - Lakewood Gardens Park Survey (Task Order #286) FY 2020	$ 5,800.00
Actual Project Cost - Lakewood Gardens Park Shade Structure Purchase (Task Order #286) - FY 2021	$ 47,611.00
Actual Project Cost - Lakewood Gardens Park Shade Structure Installation (Task Order #286) - FY 2021	$ 44,000.00
Actual Project Cost - Lakewood Gardens Park Playground Replacement (Task Order #286) - FY 2021	$172,103.87
Actual Project Cost - Lakewood Gardens Park Bottle Filler Water Fountain Replacement (Task Order #286) - FY 2021	$ 2,649.00
Actual Project Cost - Lakewood Gardens Park Basketball Court Resurfacing (Task Order #286) - FY 2021	$ 5,500.00
Actual Project Cost - Lakewood Gardens Park Park Amenities (Tables, Grills and Benches) (Task Order #286) - FY 2021	$ 10,495.69
Actual Project Cost - Lakewood Gardens Park Concrete (Task Order #286) - FY 2021	$ 51,212.50
Actual Project Cost - Lakewood Gardens Park Trash/Recycling Receptacles (Task Order #286) - FY 2021	$ 1,977.90
Proposed Project Cost - Lakewood Gardens Park Pavilion/Picnic Shelter Purchase (Task Order #286) - FY 2021	$ 24,638.62
Proposed Project Cost - Lakewood Gardens Park Picnic Shelter Installation (Task Order #286) - FY 2021	$ 21,140.26
Proposed Project Cost - Lakewood Gardens Park Volleyball Improvements Purchase (Task Order #286) - FY 2021	$ 500.00
Proposed Project Cost - Lakewood Gardens Park Landscape Improvements (Task Order #286) - FY 2021	$ 10,491.16
Proposed Project Cost - Lakewood Gardens Park Survey for Location of Shade Structure Footers	$ 1,880.00
TOTAL EQUIPMENT PURCHASE COST:	**$400,000.00**

Note: The Village Council previously approved $400,000 toward improvements to Lakewood Gardens Park within the FY 2021 Budget. Additionally, the Village was awarded a Land Water Conservation Fund (LWCF) Grant to complete these park improvements, which includes a 50:50 matching reimbursement ($200,000).

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods/services.

VILLAGE OF PALM SPRINGS

CONSULTING SERVICE WORK AUTHORIZATION

DATE: 04/19/2021 VILLAGE RFQ. NO.: 2019R-001

WORK AUTHORIZATION NO. WG – G0 FOR CONSULTING

SERVICES TASK ORDER (PROJECT) No. _____ G/L CODE: _____

WGI, INC. PROJECT NO.: 3527.00

PROJECT TITLE: Lakewood Gardens Park – Equipment Layout

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated April 4th, 2019 between the Village of Palm Springs ("VILLAGE"), and WGI, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

WGI shall provide survey services to layout playground equipment for construction purposes.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Task Order.

TASK 1 - SURVEY SERVICES

Task 1.1 – Construction Staking/Layout Services

1. Setup Files and Calculate features from plans/drawings.
2. Field verify adjacent features and align the design to fit per Client's approval.
3. One time staking of the location and two offsets for seven steel columns supporting a proposed shade structure.

III. DELIVERABLES

1. Field notes.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Table "A".

Table "A"
Schedule

Activity	Time to Complete (Calendar Days)
1.1 Construction Staking/Layout Services	10 Days

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for a lump sum fee of **$1,880.00** as outlined in Table "B".

Table "B"
Budget Summary

Description	Total
Task 1.1 – Construction Staking/Layout Services	
1. Setup Files and Calculate points	$696.00
2. Verify improvements	$428.00
3. Stake Columns	$428.00
4. Office – Review fieldwork and send deliverable	$328.00
TOTAL	**$1,880.00**

VI. ASSUMPTIONS

1. No plans or drawings exists that define the horizontal placement of the columns.
2. Grading (elevations) are not required.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated April 4th, 2019, by and between the Village of Palm Springs ("VILLAGE") and WGI, INC. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

AGREEMENT FOR PROFESSIONAL SERVICES

THIS AGREEMENT, made and entered into this 4th day of April, 2019, by and between the Village of Palm Springs, Florida, hereinafter referred to as "Village", and Wantman Group Inc., hereinafter referred to as "Consultant".

WITNESSETH:

WHEREAS, the Village has provided notice of the desired professional services and carried out the proper selection process pursuant to and in accordance with the Consultant's Competitive Negotiation Act; and,

WHEREAS, the Village represents that it is a Florida municipal corporation with the authority to engage the Consultant and accept the obligation for payment for the services desired; and,

WHEREAS, the Village desires to engage the Consultant to perform certain professional services pertinent to such work in accordance with this Agreement; and

WHEREAS, the Consultant desires to provide such professional services in accordance with this Agreement.

NOW, THEREFORE, in consideration of the premises and the mutual benefits which will accrue to the parties hereto in carrying out the terms of this Agreement, it is mutually understood and agreed as follows:

I. SCOPE OF WORK; TERM; AND COMPENSATION

The Village has awarded the Consultant the non-exclusive right to provide the City with professional services ("services").

The scope of work for each project shall be as set forth in in each Work Authorization and incorporated herein and shall set forth the duties of the Consultant, the time frame in which Consultant shall perform the duties and the not to exceed amounts to be paid to Consultant upon the conclusion of each task.

This non-exclusive Agreement does not guarantee that the Village will utilize Consultant in any capacity or for any services identified herein. When the Village identifies a need for the Consultant's services, the Village will request a proposal from the Consultant to provide the services requested. The Consultant's proposal shall be submitted in the format of the sample Work Authorization, attached hereto and incorporated herein as **Exhibit "A"** and shall be based on the Consultant's fee schedule agreed to by the Village, attached hereto and incorporated herein as **Exhibit "B"**. If a subconsultant(s) is to be utilized for services under a Work Authorization, the Consultant shall obtain a written proposal from the subconsultant(s) and attach the same to the Consultant's proposal submitted to the Village. Upon receipt of the Consultant's proposal, the Village shall decide in its sole discretion whether to award the Work Authorization to the

Consultant. If the Work Authorization is awarded to the Consultant, the Consultant shall commence the identified services upon receipt of a Notice to Proceed from the Village or upon the Consultant's receipt of a Purchase Order for the services. The Village reserves the right to reject any and all proposals submitted by the Consultant.

This non-exclusive Agreement shall become effective upon approval by the Village Council and execution by the Mayor and shall have an initial term of five (5) years with three (3) optional one (1) year renewals. The Village Manager is authorized to exercise the optional one (1) year renewals. Each fiscal year of this Agreement and any renewals will be subject to the availability of finds lawfully appropriated for its purpose by the Village.

II. GENERAL DUTIES OF CONSULTANT

A. The relationship of the Consultant to the Village will be that of a professional Consultant, and the Consultant will provide the professional and technical services required under this Agreement in accordance with acceptable professional practices and ethical standards. No employer/employee relationships shall be deemed to be established and the Consultant, its agents, subcontractors, and employees shall be independent contractors at all times.

B. Professional and Technical Services. It shall be the responsibility of the Consultant to work with the Village and apprise it of solutions to problems and the approach or technique to be used towards accomplishment of the requirements of this Agreement.

C. The Consultant designates Brett Oldford, as its representative to act as liaison with the Village. The representative shall manage and coordinate Village projects and is hereby authorized to act on behalf of the Consultant on any other related matter with respect to performance of services for the Village in accordance with the Agreement. Any change to name another person shall be requested in writing to the Village and shall be approved by the Village.

D. Consultant shall attend all meetings, as specified or as defined in this Agreement.

III. TIME OF PERFORMANCE

A. The Consultant will begin work promptly after the issuance of a Work Authorization.

B. The Consultant's services called for under the Agreement shall be completed in accordance with the schedule contained in each Work Authorization. If the Consultant's services are unreasonably delayed by the Village in excess of 180 days, the time of performance and compensation shall be renegotiated, provided; however, the Consultant as a condition precedent to renegotiations shall notify the Village within fifteen (15) calendar days at the end of the delay of Consultant's proposed additional costs incurred by reason of said delay.

IV. COMPENSATION

The Village will compensate the Consultant for the services performed and not to exceed the hourly rate provided in **Exhibit "B"** and the budget in each Work Authorization.

A. Lump Sum Work Authorizations: The Village shall pay the Consultant the lump sum, not to exceed amount(s) set forth in an approved Work Authorization. The Consultant expressly acknowledges and agrees that the total cost to complete all services as set forth in an approved Work Authorization shall be a lump sum, not to exceed price, and no additional costs shall be authorized or paid by the Village unless approved by written amendment to the Work Authorization by the Village Manager or Village Council (depending on the Village's required level of approval for such additional costs). In no case shall the Consultant bill the Village for any amount not stated in an approved Work Authorization or written amendment thereto.

B. Reimbursable Expenses: The Consultant's reimbursable, out-of-pocket expenses including, but not limited to, travel, per diem and other living expenses, shall be identified in an approved Work Authorization. The Village shall not be responsible for payment of any such reimbursable, out-of-pocket expenses except as provided for in an approved Work Authorization or amendment thereto. Reimbursement for mileage shall only be for travel required outside of Palm Beach County. Consultant shall not be reimbursed for travel within Palm Beach County and all travel shall be proposed and reimbursed pursuant to section 112. 061, Florida Statutes.

C. Direct Project Expenses: Unless otherwise specifically stated in an approved Work Authorization, charges for printing, reproduction, use of computer-aided design equipment, field equipment, and any laboratory analysis performed by the Consultant or its subconsultants or its subcontractors, and the use of the Consultant's and employee's automobiles shall be identified in an approved Work Authorization. The Village shall not be responsible for payment of any other direct project expenses. **All direct project expenses shall be billed at cost to the Village and the Consultant shall not mark-up or charge an administrative fee in addition to the direct cost for such expenses.**

D. Additional Services: If the Village seeks to utilize the Consultant for any additional services related to the services identified herein, the Village and Consultant will meet and negotiate a reasonable fee for such services. The negotiated fee shall be approved by the Village in the form of a Work Authorization prior to said services being provided.

V. PAYMENT

The Village agrees that it will use its best effort to pay the Consultant within thirty (30) calendar days from presentation of the Consultant's itemized report and invoice and approval of the Village's representative. The Consultant shall submit monthly invoices, which shall include a report of work completed during the respective invoice period. The report of work shall be

submitted in the format of the sample Monthly Project Status Update, attached hereto and incorporated herein as **Exhibit "C"**. The report shall be adequate in detail to describe work progress (% complete for each task) and written summaries of work completed.

The Consultant shall pay all applicable sales taxes; or the Village shall provide to the Consultant the tax exemption information, where and if appropriate.

In the event sufficient budgeted funds are not available for a new fiscal period, the Village shall notify the Consultant of such occurrence and this Agreement shall terminate on the last day of the current fiscal period without penalty or expense to the Village. The Consultant will be paid for all services rendered through the date of termination

VI. MISCELLANEOUS PROVISIONS

A. Ownership Documents:

All reproducible mylar drawings and CADD disks in a format compatible with Village's Computer system shall be given to the Village. Details, design calculations, and all other documents and plans that result from the Consultant's services under this Agreement shall become and remain the property of the Village, including copyright rights, whether the project is completed or not, and will be delivered to the Village upon demand. Consultant reserves the right to retain a copy of all such documents for record purposes. Where such documents are required to be filed with governmental agencies, the Consultant will furnish copies to the Village upon request.

B. Copies of Documents:

The Consultant shall prepare sufficient copies of all documents necessary to obtain approval through the Village's processes, as well as other governmental authorities. Any use by the Village of such materials in connection with a project other than that for which such materials were prepared without prior written consent and adaptation by the Consultant shall be at the Village's sole risk, and the Consultant shall have no responsibility or liability therefore.

C. Insurance:

Without limiting any of the other obligations or liabilities of the Consultant, the Consultant shall, at his own expense, provide and maintain in force, until all of its services to be performed under this Agreement have been completed and accepted by the Village (or for such duration as it otherwise specified hereinafter), the following insurance coverages:

1. Worker's Compensation Insurance to apply to all of the Consultant's employees in compliance with the "Worker's Compensation Law" of the State of Florida and all applicable Federal Laws.

a. Employer's Liability with limits of $100,000 per person, $500,000 per occurrence and $100,000 per each disease.

2. Comprehensive General Liability with minimum limits of one million dollars ($1,000,000.00) per occurrence combined single limit for Bodily Injury Liability and Property Damage Liability. Coverage must be afforded on a form no more restrictive than the latest edition of the Comprehensive General Liability policy, without restrictive endorsements other than ISO Endorsement GL 21 06 (Engineers, Architects, or Surveyors Professional Liability exclusion), as Filed by the Insurance Services Office and must include:

   a. Premises and/or Operations
   b. Independent Contractors
   c. Products and Completed Operations - Consultants shall maintain in force until at least three years after completion of all services required under this Agreement, coverage for Products and Completed Operations, including Broad Form Property Damage.
   d. Broad Form Property Damage
   e. Contractual Coverage applicable to this specific Agreement.
   f. Personal Injury Coverage with minimum limits of coverage equal to those required for Bodily Injury Liability.

3. Business Automobile Liability with minimum limits of three hundred thousand dollars ($300,000.00) per occurrence combined single limit for Bodily Injury Liability and Property Damage Liability. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Services Office and must include:
   a. Owned Vehicles
   b. Hired and Non-Owned Vehicles
   c. Employers' Non-Ownership

4. Professional Liability Insurance with minimum limits per occurrence of $1,000,000.00.

   Coverage shall be afforded on a form acceptable to the Village. Consultant shall maintain such professional liability insurance until at least one year after a Certificate of Occupancy is issued. Consultant shall insure that sub-consultants used for any portion of the project, maintain adequate levels of Professional Liability Insurance.

5. Prior to commencement of services, the Consultant shall provide to the Village Certificates of Insurance evidencing the insurance coverage specified in the foregoing Paragraphs C1, C2, C3, C4. All policies covered within subparagraphs C1, C2, C3, C4, shall be endorsed to provide the Village with thirty (30) days notice of cancellation and/or restriction. The Village shall be named as an additional

insured as to Consultant's liability on policies referenced in subparagraphs C2. The required Certificates of Insurance shall not only name the types of policies provided, but also shall refer specifically to this Agreement and section and to the above paragraphs in accordance with which insurance is being furnished, and shall state that such insurance is as required by such paragraphs of this Agreement. The Consultant shall also make available to the Village a certified copy of the professional liability insurance policy required by paragraph 4 above for the Village's review. Upon request, the Consultant shall provide copies of all other insurance policies.

6. If the initial insurance policies required by this Agreement expire prior to the completion of the services, renewal Certificates of Insurance of policies shall be furnished thirty (30) days prior to the date of their expiration. For Notice of Cancellation and/or Restriction; the policies must be endorsed to provide the Village with thirty (30) days notice of cancellation and/or restriction.

7. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis.

D. Litigation Services:

It is understood and agreed that Consultant's services include reasonable participation in litigation or dispute resolution arising from this Agreement. Consultant's participation shall include up to 15 hours of services related to litigation or dispute resolution. Any such services in excess of 15 hours shall be an extra service.

E. Assignment:

The Village and the Consultant each binds itself and its successors, legal representatives, and assigns to the other party to this Agreement and to the partners, successors, legal representatives, and assigns of such other party, in respect to all covenants of this Agreement subject to budget considerations and requirements of law; and, neither the Village nor the Consultant will assign or transfer their interest in this Agreement without the written consent of the other.

F. Confidential Information:

During all times that the Consultant is employed on behalf of the Village and at all times subsequent to the date of this contract, all discussions between the Village and the Consultant and all information developed or work products produced by the Consultant during its employment and all matters relevant to the business of the Village not otherwise being a matter of public record shall be deemed to be confidential. All such information and work product shall be protected by the Consultant and shall not be revealed to other persons without the express written permission of the Village, unless mandated by order of the court.

G. Subconsultants:

In the event the Consultant, during the course of the work under this Agreement requires the services of any subcontractors or other professional associates in connection with services covered by this Agreement, Consultant must secure the prior written approval of the Village.

H. Notices:

Whenever either party desires to give notice unto the other, it must be given by written notice, sent by registered United States mail, with return receipt requested, addressed to the party for whom it is intended at the place last written, as the place for giving of notice in compliance with the provisions of this paragraph. For the present, the parties designate the following as the respective places of giving of notice to wit:

VILLAGE of Palm Springs

Attn: Village Manager
226 Cypress Lane
Palm Springs, Florida 33461

CONSULTANT

Wantman Group, Inc.
2035 Vista Parkway
West Palm Beach, FL 33411

I. Request for Qualifications:

The Request for Qualifications (RFQ) is hereby incorporated within and made an integral part of this Agreement.

J. Records:

Records of all expenses relative to each task shall be kept on a generally recognized accounting basis and shall be available to the Village or its authorized representative at mutually convenient times.

K. Personnel:

The Consultant represents that it has or will secure, at its own expense, qualified personnel required in performing the services under this Agreement. All work shall be performed under the direction of a professional, registered under the State of Florida in the field for which he is responsible for performing such services.

L. Equal Opportunity Employment:

Consultant agrees that it will not discriminate against any employee or applicant for employment for work under this Agreement because of race, color, religion, sex, age or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment advertising; lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth this non-discrimination clause. This provision applies to all Consultant's subcontractors and it is the responsibility of Consultant to ensure subcontractor's compliance.

M. Prohibition against Contingent Fees:

The Consultant warrants that he/she has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that he has not paid or agreed to pay any persons, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

N. Termination:

This Agreement may be terminated by either party by seven (7) calendar days prior written notice, in the event of substantial failure to perform in accordance with the terms hereof by the other party through no fault of the terminating party. The Village shall have the right to terminate this Agreement for convenience at any time by thirty (30) calendar days written notice to the Consultant. The Consultant agrees to provide all documents to the Village. Further, prior to the Consultant's destruction of any of the above referenced documents, the Village shall be notified and allowed a reasonable period to gain access to and make copies of any such documents. Upon any termination of this Agreement, the Consultant agrees that it shall use its best efforts to work harmoniously with any successor who enters an Agreement to provide services for the Village in order to provide for a smooth transition period.

O. Indemnification:

The Consultant agrees to indemnify and hold harmless the Village, its council members, mayor, officers, employees, and attorneys of, from, and against liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees (at all trial and appellate levels), to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Consultant, its agents, officers, subconsultants, employees, or anyone else employed or utilized by the Consultant in the performance of this Agreement. The Consultant's liability hereunder shall include all reasonable attorney's fees and costs incurred by the Village in the enforcement of this indemnification provision. The obligations contained in this provision shall survive termination of this Agreement and shall not be limited by the amount of any insurance required to be obtained or maintained under this Agreement.

It is the specific intent of the parties hereto that the foregoing indemnification complies with Section 725.08, Florida Statutes, as amended. Consultant expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.08, Florida Statutes, as amended. Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the Village may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

Neither the Consultant nor the Village nor either party's suppliers, agents, officers, and directors shall have any liability regardless of the theory of recovery, including breach of contract or negligence, to the other party or any other person or entity for any indirect, incidental, special, or consequential damages, cost or expense whatsoever, including but not limited to loss of revenue or profit, whether actual or anticipated, loss of use, failure to realize anticipated savings, loss of or damage to data or other commercial or economic loss. This waiver of consequential damages is made regardless that (i) either party has been advised of the possibility of such damages and (ii) that such damages may be foreseeable.

P. Interest of the Consultant:

The Consultant covenants that it presently has no interest and shall not acquire any interest, direct or indirect, in any Project to which this Agreement pertains or any other interest which would conflict in any manner or degree with the performance of its services hereunder. The Consultant further covenants that in the performance of this Agreement, no person having such interest shall be employed.

Q. Compliance with Laws:

The Consultant shall comply with the applicable requirements of State and applicable County laws and all Codes and Ordinances of the Village as amended from time to time, and that exist at the time of building permit issuance.

R. Jurisdiction; Venue:

The Consultant hereby covenants, consents and yields to the jurisdiction of the State Civil Courts of Palm Springs County, Florida. Any dispute between Consultant and the Village shall be governed by the laws of Florida with venue in Palm Springs County.

S. Internal Dispute between Owner and Consultant:

The Village Manager shall be the final decision maker regarding internal disputes between Village and Consultant.

T. Entire Agreement and Conflicts:

This Agreement, including the RFQ, Consultant's response to the RFQ and any exhibits hereto, constitutes the entire Agreement between the parties hereto and supersedes any prior negotiations, representations, Agreements, and understandings, either written or oral.

This Agreement consists of the terms and conditions provided herein and Exhibits; the RFQ (including all drawings, maps, specifications, exhibits and addenda attached thereto or referenced therein, if any); and Consultant's response to the RFQ. To the extent that there exists a conflict between this Agreement and the remaining documents, the order of precedence shall be the terms, conditions, covenants, and/or provisions of this Agreement, the RFQ (including all drawings, maps, specifications, exhibits and addenda attached thereto) and lastly the Consultant's response to the RFQ. Wherever possible, the provisions of such documents shall be construed in such a manner as to avoid conflicts between provisions of the various documents.

In the event Community Development Block Grant (CDBG) funds are used for a project, the requirements of the CDBG Agreement with Palm Beach County shall apply and in the event of any conflict, the CDBG Agreement shall be first in order of precedence. The Consultant shall abide by all requirements and obligations imposed on the Village (or as otherwise identified) under the CDBG Agreement. This includes all requirements stated in the Requirements for Federally Funded Projects (a copy of which is attached hereto as **Exhibit "D"**). If the CDBG Agreement is terminated for any reason, this Agreement and the Agreement Documents will also be terminated unless agreed in writing by the Village and Consultant to be extended.

U. Palm Beach County Inspector General:

In accordance with Palm Beach County ordinance number 2011-009, the Consultant acknowledges that this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The Consultant has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

V. Public Records:

Consultant shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the Village as provided under section 119.011(2), Florida Statutes, specifically agrees to:

(a) Keep and maintain public records required by the Village to perform the service.

(b) Upon request from the Village's custodian of public records or designee, provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Contract and following completion of this Contract if the Consultant does not transfer the records to the Village.

(d) Upon completion of this Contract, transfer, at no cost, to the Village all public records in possession of the Consultant or keep and maintain public records required by the Village to perform the service. If the Consultant transfers all public records to the Village upon completion of the Contract, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the Contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the Village, upon request from the Village's custodian of public records or designee, in a format that is compatible with the information technology systems of the Village.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

THE REST OF THE PAGE IS LEFT BLANK

IN WITNESS WHEREOF, the Village has caused these presents to be executed in its name by its Mayor, and attested and its official Seal to be hereunto affixed by its Village Clerk, and the Consultant has hereunto set its hand and Seal the day and year first written above.

VILLAGE OF PALM SPRINGS
PRELIMINARY CAPITAL IMPROVEMENT PROJECT DETAIL

TASK # 286

Project Name: Lakewood Gardens Park Improvements
Department: Parks & Recreation
Location: Lakewood Gardens Park

Project Manager: Justin Lucas
Date Requested: 2/27/20
Date Approved: 10/1/20

DESCRIPTION / JUSTIFICATION:

Village annexed Lakewood Gardens Park in July 2014 from Palm Beach County. The existing park amenities remain the same as when it was acquired. Staff applied for and was awarded a Land Water Conservation Fund Grant in the amount of $400,000 (50-50 matching grant). Future amenities proposed include playground replacement, surfacing, shade, landscaping, resurface basketball court, upgrade volleyball court, picnic facility replacement, water fountain, trash cans and enhance the walking path. Survey and engineering was completed as part of LWCF Grant application. Village staff will serve as GC in order to best utilize project funding.

Department Head

Village Manager

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Parks & Recreation

ITEM 6.7:

Approve Lakewood Gardens Park Picnic Shelter Purchase Contract (Task Order No. 286) - Piggyback - Parks and Recreation Department (FY 2021 Funded - General Fund) - Advanced Recreational Concepts, Inc.

SUMMARY:

The Parks and Recreation Department has identified a need to purchase a pavilion/picnic shelter for Lakewood Gardens Park as part of the Village's efforts to renovate the park facility. The proposed new structure, if approved, would contribute to ensuring a safe and enjoyable space for our community and would include a 16' hexagonal structure with an all-steel frame and teal metal roof.

Note: Lakewood Gardens Park was annexed into the Village in July, 2014 as an improved park with a playground installed by Palm Beach County. The park was deeded over to the Village in November 2014 as part of the Village's larger annexation process for this area of the County/Village. To enhance the recreational opportunities within the Lakewood Gardens neighborhood, this proposed pavilion shelter will provide a covered space and, the purchase and installation of a new pavilion/picnic shelter will contribute to the renovation of this important park within the southern portion of our Village.

To ensure the lowest possible price, staff is recommending that the Village piggyback off the current Clay County Florida Contract awarded to Advanced Recreational Concepts, Inc. This selection by Clay County Florida was completed through a competitive selection process - Various Equipment and Amenities (RFP No. 18/19-2 - May 28, 2019).

Note: Through the Clay County contract, the Parks and Recreation Department would be able to obtain a price of $25,291.62, which includes a 5% discount (per the terms of the

approved contract) from their retail catalog pricing.

Within the FY 2021 Budget - General Fund and the Capital Improvement Plan (CIP), the Village Council approved $400,000 for the renovation of Lakewood Gardens Park. This funding, included the $200,000 federal grant award from the Land Water Conservation Fund (LWCF) Grant, that is expected to include the replacement and installation of new playground equipment, safety surfacing, shade coverings, renovation of volleyball and basketball courts, new and improved picnic facilities and enhanced landscaping.

If approved, the Village would accept Advanced Recreational Concepts, Inc's pricing by piggybacking the Clay County Contract, including all terms, conditions and pricing therein. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The Village's Purchasing Code, Section 58-9, Accessing contracts of other government agencies, provides that the Village may award a contract by piggybacking or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

If approved, the proposed permitting and installation of the new pavilion would be completed in conjunction with the previously approved and purchased amenities for the Lakewood Gardens Park renovation and is estimated to be complete within 120 days (September 2021) following the Notice to Proceed by the Village.

The Parks & Recreation Advisory Board considered the proposed shade structure improvement project during their October 7, 2020 and December 9, 2020 meetings and provided input on the proposed design and recommended approval.
The proposed agreement was prepared by the Village Attorney and reviewed by the Parks and Recreation Director, Program Supervisor, Public Service Project Manager, Assistant Village Manager, Interim Planning, Zoning & Building Director and Finance Director.
The Village has not worked with the proposed vendor previously; however, multiple municipalities (i.e., Palm Beach Gardens, Brevard County, Town of Lake Clarke Shores and Village of North Palm Beach) have utilized this vendor and have received excellent service and quality products.

FISCAL IMPACT:

Funding to support this proposed Lakewood Gardens project is available within the FY 2021 Budget - General Fund utilizing a Land Water Conservation Fund (LWCF) matching grant and Infrastructure Surtax (Sales Tax) funds ($200,000).

Allocated/Estimated Project Funding:	

FY 2021 Approved Budget - General Fund	$400,000.00
TOTAL APPROVED BUDGET:	**$400,000.00**

Estimated/Actual Project Costs:	
Actual Project Cost - Lakewood Gardens Park Survey (Task Order #286) FY 2020	$ 5,800.00
Actual Project Cost - Lakewood Gardens Park Shade Structure Purchase (Task Order #286) - FY 2021	$ 47,611.00
Actual Project Cost - Lakewood Gardens Park Shade Structure Installation (Task Order #286) - FY 2021	$ 44,000.00
Actual Project Cost - Lakewood Gardens Park Playground Replacement (Task Order #286) - FY 2021	$172,103.87
Actual Project Cost - Lakewood Gardens Park Bottle Filler Water Fountain Replacement (Task Order #286) - FY 2021	$ 2,649.00
Actual Project Cost - Lakewood Gardens Park Basketball Court Resurfacing (Task Order #286) - FY 2021	$ 5,500.00
Actual Project Cost - Lakewood Gardens Park Park Amenities (Tables, Grills and Benches) (Task Order #286) - FY 2021	$ 10,495.69
Actual Project Cost - Lakewood Gardens Park Concrete (Task Order #286) - FY 2021	$ 51,212.50
Actual Project Cost - Lakewood Gardens Park Trash/Recycling Receptacles (Task Order #286) - FY 2021	$ 1,977.90
Proposed Project Cost - Lakewood Gardens Park Pavilion/Picnic Shelter Purchase (Task Order #286) - FY 2021	$ 25,291.62
Proposed Project Cost - Lakewood Gardens Park Picnic Shelter Installation (Task Order #286) - FY 2021	$ 21,140.26
Proposed Project Cost - Lakewood Gardens Park Volleyball Improvements Purchase (Task Order #286) - FY 2021	$ 500.00
Proposed Project Cost - Lakewood Gardens Park Landscape Improvements (Task Order #286) - FY 2021	$ 10,491.16
Proposed Project Cost - Lakewood Gardens Park Survey for Location of Shade Structure Footers	$ 1,880.00
TOTAL EQUIPMENT PURCHASE COST:	**$400,000.00**

Note: The Village Council previously approved $400,000 toward improvements to Lakewood Gardens Park within the FY 2021 Budget. Additionally, the Village was awarded a Land Water Conservation Fund (LWCF) Grant to complete these park improvements, which includes a 50:50 matching reimbursement ($200,000).

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods/services.

AGREEMENT FOR PURCHASE OF PARK PICNIC PAVILION

This Agreement for the purchase of a park picnic pavilion, hereafter ("Agreement") is made as of the _____ day of _____, 2021, by and between the **Village of Palm Springs**, 226 Cypress Lane, Palm Springs, Florida 33461-1699, a municipal corporation organized and existing under the laws of the State of Florida, hereinafter referred to as the VILLAGE, and **Advanced Recreational Concepts, Inc,** 3125 Skyway Circle, Melbourne, Florida 32934, a corporation authorized to do business in the State of Florida, hereinafter referred to as the VENDOR.

RECITALS

WHEREAS, the VILLAGE wishes to engage the VENDOR for the purchase of a new picnic pavilion for the Lakewood Gardens Park; and,

WHEREAS, Clay County, Florida, through its competitive selection process awarded a contract for Various Equipment and Amenities for Parks and Playgrounds (RFP # 18/19-2) (hereafter, "Clay County Contract") to the VENDOR which included substantially the services sought by the VILLAGE; and,

WHEREAS, the VILLAGE requested and the VENDOR has executed this Agreement with the VILLAGE for purchase of a new picnic pavilion in Lakewood Gardens Park based on the pricing and terms and conditions of the Clay County Contract; and,

WHEREAS, the VILLAGE desires to accept VENDOR's pricing by piggy-backing the Clay County Contract including all terms, conditions and pricing therein.

NOW THEREFORE, in consideration of the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Recitals. The parties agree that the recitals set forth above are true and correct and are fully incorporated herein by reference.

2. Clay County Contract. The Clay County Contract with the VENDOR is hereby expressly made a part of this Agreement as fully as if set forth at length herein. The VILLAGE shall have all rights, obligations and remedies authorized to the School Board under the Clay County Contract and all associated and applicable Contract Documents as defined therein.

3. VENDOR's Proposal. In accordance with the terms and conditions in the Clay County Contract and pricing therein, the VENDOR shall provide for the purchase of a picnic pavilion in Lakewood Gardens Park as requested by the VILLAGE. The goods and services to be provided by the VENDOR shall be commenced subsequent to the execution and approval of this Agreement by the VILLAGE in accordance with the terms of the Clay County Contract.

4. Contract Documents and Conflict of Terms and Conditions. The Contract Documents for this Agreement are compromised of the following:

A. All written modifications and amendments hereto;
B. This Agreement (including all exhibits);
C. Clay County Contract (including all Contract Documents as defined therein).

The Contract Documents of this Agreement are intended to be complementary and interpreted in harmony so as to avoid conflict with the words and phrases interpreted in a manner consistent with construction and design industry standards. In the event of any inconsistency, conflict or ambiguity between or among the Contract Documents of this Agreement, the Contract Documents of this Agreement shall take precedence in the following order:

A. All written modifications and amendments hereto;
B. This Agreement;
C. The Clay County Contract.

5. Compensation to VENDOR. Payments by the VILLAGE to the VENDOR under this Agreement shall not exceed the amount of compensation stated in the VENDOR's proposal to the VILLAGE and shall be based on the unit prices found in the Clay County Contract, which shall be considered the "Contract price". VENDOR waives consequential or incidental damages for claims, disputes or other matters in question arising out of or relating to this Agreement. Payments made to VENDOR shall not be in excess of the amount provided in an approved budget of the VILLAGE.

6. Miscellaneous Provisions.

6.1 The VILLAGE and VENDOR each binds itself, its partners, its successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect of all covenants, agreements and obligations contained in the Contract Documents.

6.2 VENDOR shall maintain the insurance as required in the Clay County Contract applicable to the goods and services being delivered hereunder. Said insurance will name the VILLAGE as an additional insured.

6.3 Headings and References & Exhibits: The headings contained in this Contract are inserted for convenience of reference only and shall not be a part or control or affect the meaning hereof. All references herein to Exhibits are to the exhibits hereto, each of which shall be incorporated into and deemed to be a part of this Contract.

6.4 Counterparts: This Contract may be executed in two or more counterparts, each of which shall be deemed to be an original, but all of which shall be deemed to be an original, but each of which together shall constitute one and the same instrument.

6.5 Entire Contract; Amendment and Waiver: This Contract (together with the Exhibits hereto) supersedes any and all prior negotiations and oral or written agreements heretofore made relating to the subject matter hereof and, except for written agreements, if any, executed and delivered simultaneously with or subsequent to the date of this Contract, constitutes the entire agreement of the parties relating to the subject matter

hereof. This Contract may not be altered or amended except by a writing signed by the parties hereto. No waiver of any of the terms or conditions of this Contract shall be effective unless in writing and executed by the party to be changed therewith. No waiver of any condition or of the breach of any term, covenant, representation, warranty or other provision hereof shall be deemed to be construed as a further or continuing waiver of any such condition or breach or a waiver of any other condition or of any breach of any other term, covenant, representation, warranty or other provision contained in this Contract.

6.6 Successors and Assigns: This Contract shall be binding upon, and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6.7 Governing Law; Consent to Jurisdiction: This Contract shall be governed by and construed and interpreted in accordance with the laws of the State of Florida. Each of the parties hereto (a) irrevocably submit itself to the exclusive jurisdiction of the Fifteenth Judicial Circuit Court in and for Palm Beach County, Florida for state actions and jurisdiction of the United States District Court for the Southern District of Florida, Palm Beach Division, for the purposes of any suit, action or other proceeding arising out of, or relating to, this Contract; (b) waives and agrees not to assert against any party hereto, by way of motion, as a defense of otherwise, in any suit, action or other proceeding, any claim that it is not personally subject to the jurisdiction of the above-named courts for any reason whatsoever; and (ii) to the extent permitted by applicable law, any claim that such suit, action or proceeding by any part hereto is brought in an inconvenient forum or that the venue of such suit, action or proceeding is improper or that this Contract or the subject matter hereof may not be enforced in or by such courts.

6.8 Third Party Beneficiary rights: This Contract shall create no rights or claims whatsoever in any person other than a party herein.

6.9 Severability: If any one or more of the provisions of the Contract shall be held to be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions hereof shall not in any way be affected or impaired thereby.

6.10 Effective date and Term: The effective date of this Contract is the date the Contract is approved by the Village Council. The term shall be the same as the current Clay County Contract. Any renewals shall be based on the renewal of the Clay County Contract.

6.11 Public Records: VENDOR shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the VILLAGE as provided under section 119.011(2), Florida Statutes, specifically agrees to:

A. Keep and maintain public records required by the VILLAGE to perform the service.

B. Upon request from the VILLAGE's custodian of public records or designee, provide the VILLAGE with a copy of the requested records or allow the records

to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Contract and following completion of this Contract if the VENDOR does not transfer the records to the VILLAGE.

D. Upon completion of this Contract, transfer, at no cost, to the VILLAGE all public records in possession of the VENDOR or keep and maintain public records required by the VILLAGE to perform the service. If the VENDOR transfers all public records to the VILLAGE upon completion of the Contract, the VENDOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the VENDOR keeps and maintains public records upon completion of the Contract, the VENDOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the VILLAGE, upon request from the VILLAGE's custodian of public records or designee, in a format that is compatible with the information technology systems of the VILLAGE.

IF THE VENDOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

6.12 Preparation: This Contract shall not be construed more strongly against either party regardless of who was more responsible for its preparation.

6.13 PALM BEACH COUNTY IG: In accordance with Palm Beach County ordinance number 2011-009, the VENDOR acknowledges that this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The VENDOR has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

6.14 All notices required in this Agreement shall be sent by certified mail, return receipt requested, and sent to the addresses appearing on the first page of this Agreement.

6.15 The VILLAGE is exempt from payment of Florida State Sales and Use Tax. The VENDOR shall not be exempted from paying sales tax to its suppliers for materials used to fill contractual obligations with the VILLAGE, nor is the VENDOR authorized to use the VILLAGE'S Tax Exemption Number in securing such materials.

7. Indemnity and Warranty.

Shall be as set forth in the Clay County Contract.

8. Defaults; Termination of Agreement.

A. If the Village Manager deems that the VENDOR is in default for failure to supply the requested goods or has failed in any other respect to satisfactorily perform the services specified in this Agreement, the Village Manager may give written notice to the VENDOR specifying defaults to be remedied within fifteen (15) days.

If the VENDOR does not remedy defaults within fifteen (15) days or commence steps to remedy default to the reasonable satisfaction of the Village Manager, the VILLAGE may secure such services from another VENDOR; or

If after thirty (30) days the VENDOR has not remedied defaults or commenced steps to remedy defaults to the satisfaction of the Village Manager, the VILLAGE may elect to terminate this Agreement.

B. Notwithstanding paragraph A, the VILLAGE reserves the right and may elect to terminate this Agreement, without cause, upon thirty (30) days written notice. At such time, the VENDOR would be compensated only for the goods purchased to the date of termination and any other amounts due and owing to VENDOR at the time of termination. No compensation shall be paid for disengagement, wind-down or other costs incurred due to termination of this Agreement.

9. Public Entity Crimes.

VENDOR acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier or sub-contractor under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list. VENDOR will advise the VILLAGE immediately if it becomes aware of any violation of this statute. As provided in Section 287.135, Florida Statutes, as amended from time to time, by entering into the Contract Documents, VENDOR certifies that it is not participating in a boycott of Israel. The VILLAGE and VENDOR agree that the VILLAGE will have the right to terminate the Contract Documents if VENDOR is found to have been placed on the Scrutinized Companies that Boycott Israel List or is engaged in a boycott of Israel.

10. Fiscal Non-funding.

In the event sufficient budgeted funds are not available for a new fiscal period, the VILLAGE shall notify the VENDOR of such occurrence and this Agreement shall terminate on the last day of the current fiscal period without penalty or expense to the VILLAGE. The VENDOR will be paid for all services rendered through the date of termination.

11. Scrutinized Companies.

As provided in F.S. 287.135, by entering into any agreement with the VILLAGE, or performing any work in furtherance hereof, the VENDOR certifies that VENDOR and VENDOR's affiliates, suppliers, subcontractors and consultants that will perform hereunder that at the time the VENDOR submits a bid or proposal for a contract or before the VENDOR enters into or renews a contract with an agency or local governmental entity for goods or services of $1 million or more, the company must certify that the VENDOR is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List and that it does not have business operations in Cuba or Syria. Also, at the time a VENDOR submits a bid or proposal for a contract or before the VENDOR enters into or renews a contract with an agency or local governmental entity for goods or services of any amount, the VENDOR must certify that it is not participating in a boycott of Israel. If the VILLAGE determines, using credible information available to the public, that a false certification has been submitted by the VENDOR, the VILLAGE's Agreement may be terminated and a civil penalty equal to the greater of $2 million or twice the amount of the Agreement shall be imposed, pursuant to Section 287.135, Florida Statutes.

12. E-Verify.

Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the CONTRACTOR shall:

A. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractors' newly hired employees;

B. Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an "unauthorized alien" as defined in Section 448.095(1)(k), Florida Statutes;

C. Maintain copies of all subcontractor affidavits for the duration of this Agreement and provide the same to the Owner upon request;

Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes;

D. Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and,

E. Be aware that if the VILLAGE terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the CONTRACTOR may not be awarded a contract for at least one (1) year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the VILLAGE as a result of the termination of the Agreement.

IN WITNESS WHEREOF, the VILLAGE and VENDOR have caused this Agreement to be executed the day and year shown above.

BOARD OF COUNTY COMMISSIONERS OF CLAY COUNTY, FLORIDA

NOTICE OF INTENT TO AWARD BID

RFP NO 18/19-2, Various Equipment and Amenities for Parks and Playgrounds

In accordance with the provisions of Section 8.N of the Clay County Purchasing Policy, notice is hereby given and posted of the decision of the Board of County Commissioners of Clay County, Florida (hereinafter the "Board") with respect to RFP No. 18/19-2, Various Equipment and Amenities for Parks and Playgrounds. Responses to RFP No. 18/19-2 were opened on March 19, 2019. During its regular meeting on May 28, 2019, the Board rendered its decision to award RFP No. 18/19-2 to multiple companies. This notice of intent to award bid is the official notification regarding said selection. The decision of the Board is final subject to 72 hour period for protest. Failure to file a protest within the time prescribed in Section 8.N of the Clay County Purchasing Policies shall constitute a waiver of proceedings under Section 8.N Bid Awards and Protests.

Form W-9

REQUEST FOR PROPOSAL NOTICE

NOTICE IS HEREBY GIVEN that sealed proposals will be received until 4:00 P.M., Monday, March 18, 2019, at the Clay County Administration Building, Fourth Floor, Reception Area, 477 Houston Street, Green Cove Springs, Florida 32043, for the following:

RFP No. 18/19-2, VARIOUS EQUIPMENT AND AMENITIES FOR PARKS AND PLAYGROUNDS

Proposals will be opened at 1:00 P.M., or as soon thereafter as possible, on Tuesday, March 19, 2019 in the Clay County Administration Building, Conference Room "B", Fourth Floor, 477 Houston Street, Green Cove Springs, Florida, in the presence of the Purchasing Department staff and all other interested persons.

The opened Proposals will be read aloud, examined for conformance to specifications, tabulated, and preserved in the custody of the Purchasing Department. Proposals submitted will be evaluated by the Finance and Audit Committee. The Finance and Audit Committee of the Board will present its recommendation to the Board of County Commissioners as soon thereafter as possible. At the discretion of the Board of County Commissioners or the Finance and Audit Committee, companies submitting proposals may be requested to make oral presentations as part of the evaluation process.

Proposals will not be valid unless received by the proposal deadline and in a sealed envelope marked "**RFP No. 18/19-2, VARIOUS EQUIPMENT AND AMENITIES FOR PARKS AND PLAYGROUNDS"** to be received until 4:00 P.M., Monday, March 18, 2019. Envelopes are to be submitted in person or delivered by courier to the above address. No postal mail will be accepted.

During the bidding process, all prospective proposers are hereby prohibited from contacting (i) any member of the Board of County Commissioners, the County Manager or any County employee or agent regarding the solicitation in any respect during the solicitation period, and (ii) the County Manager or any County employee or agent regarding the solicitation in any respect during the evaluation period. The violation of this rule shall result in the automatic disqualification of any response to a bid solicitation submitted by the violator (as specified in Section P of Chapter 8 of the Purchasing Manual attached hereto). The no-contact rule set forth shall not apply to inquiries submitted to County employees or agents in the manner specifically provided in the bid solicitation package regarding the distribution thereof, or to communications seeking clarification regarding instructions or specifications submitted to County employees or agents in the manner specifically provided for in the bid solicitation package, or to pre-bid conferences provided for in the bid solicitation package, or to formal presentations by finalists to the Board of County Commissioners or any committee thereof specifically contemplated in the bid solicitation package. For information concerning procedures for responding to this Bid, contact the Purchasing Department, Donna Fish by email purchasing@claycountygov.com or at (904) 278-3761.

The County reserves the right to waive formalities in any response, to reject any or all responses with or without cause, to waive technical and non-technical or non-material defects in the solicitation or submittal of any responses, including the lack of availability of adequate funds, regulatory agency requirements, to make award in part or completely, and/or to accept the response that, in its judgment, will be in the best interest of the County of Clay. Bid proposals in which the prices obviously are unbalanced will be rejected.

FOLLOWING THE BID OPENING AND TABULATION, A "NOTICE OF INTENT TO AWARD BID" OR A "NOTICE OF REJECTION OF ALL BIDS" WILL BE POSTED ON THE INTERNET AT: http://www.claycountygov.com/departments/purchasing-division/bcc-bid-tabs-current-bids-intent-bids-rejection-bids. **THIS WEB PAGE CAN ALSO BE ACCESSED FROM THE HOMEPAGE OF THE COUNTY'S WEBSITE AT:** www.claycountygov.com **BY FOLLOWING THE "NOTICE OF INTENT BIDS" LINK UNDER THE "BUSINESS" ROLLOVER BUTTON ON THE COUNTY'S HOMEPAGE. NO OTHER NOTICE WILL BE POSTED.**

PROSPECTIVE BIDDERS ARE NOTIFIED THAT THE FAILURE TO INCLUDE WITHIN THE SEALED BID ENVELOPE A PROPER BID BOND OR OTHER SECURITY APPROVED UNDER THE COUNTY'S PURCHASING POLICY, OR THE FAILURE TO FILE A WRITTEN PETITION INITIATING A FORMAL PROTEST PROCEEDING WITHIN THE TIMES AND IN THE MANNER PRESCRIBED IN SECTION 8. (N), OF SAID POLICY, SHALL CONSTITUTE A WAIVER OF THE RIGHT TO PROTEST THE BID SOLICITATION, ANY ADDENDUM THERETO, OR THE BID DECISION, AS APPLICABLE, AND TO INITIATE A FORMAL PROTEST PROCEEDING UNDER SAID POLICY. THE COUNTY'S PURCHASING POLICY CAN BE VIEWED AT THE COUNTY'S WEBSITE BY FOLLOWING THE APPROPRIATE LINKS FROM THE HOMEPAGE ADDRESS SET FORTH ABOVE.

A person or affiliate who has been placed on the convicted bidder list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted bidder list.

REQUEST FOR PROPOSAL INSTRUCTIONS

RFP No. 18/19-2, VARIOUS EQUIPMENT AND AMENITIES FOR PARKS AND PLAYGROUNDS

1. **Delivery and Receipt of Bids:** All sealed Proposals submitted shall be received by the Purchasing Department of Clay County, Florida.

   Proposals submitted in person or by courier services will be received at:
   Clay County Administrative Building
   Fourth Floor, Reception Area
   477 Houston Street, Green Cove Springs, Florida 32043

Three copies of the Proposal must be received in a sealed envelope. Proof of liability insurance, form W-9 taxpayer identification number, and bid information shall be included with all responses submitted.

The words "**RFP No. 18/19-2, VARIOUS EQUIPMENT AND AMENITIES FOR PARKS AND PLAYGROUNDS"** shall be clearly marked on the front and back of the envelope containing the Proposal.

2. **Due Date and Opening Date:** Proposals will be received by carrier or in person until Monday, March 18, 2019 at 4:00 p.m. and will be opened on Tuesday, March 19, 2019 at 1:00 p.m. or soon thereafter, in the Clay County Administration Building, 477 Houston Street, Conference Room "B", Fourth Floor, Green Cove Springs, Florida. Bids will be reviewed by Clay County as soon thereafter as possible.

   A. All Proposals will be "clocked" at the time they are received to indicate the time and date of receipt.
   B. Proposals WILL NOT be accepted in person after the time and date specified.
   C. Proposals received by carrier WILL NOT be accepted if they are received after the time and date specified regardless of the circumstances.
   D. No postal mail will be accepted.

3. **Withdrawal of RFP:** Proposals may be withdrawn by a written or faxed request by the Bidder and received by the Purchasing Department before the date and time for receiving Proposals has expired. Negligence on the part of the Bidder in preparing a Proposal is not grounds for withdrawal or modification of a Proposal after such Proposal has been opened by the County. Bidders may not withdraw or modify a Proposal after the appointed Bid Opening. Bidders may not assign or otherwise transfer their Proposals.

4. **Inquiries/Questions:** Any questions regarding this RFP must be directed to **Donna Fish** (the authorized contact person) via email at purchasing@claycountygov.com (preferred method) or by calling (904) 278-3761. Written inquiries/questions must be received by **March 6, 2019**. Responses to questions, clarifications, and addenda will be distributed to potential Bidders by email. It is the responsibility of interested Bidders to verify if this information has been issued prior to submitting a Bid.

5. **No Contact Period:** During the Bidding process, all prospective Bidders are hereby prohibited from contacting (1) any member of the Board of County Commissioners, the County Manager or any County employee or agent regarding the solicitation in any respect during the solicitation period, and (2) the County Manager or any County employee or agent regarding the solicitation in any respect during the evaluation period. The violation of this rule shall result in the automatic disqualification of any Bid submitted by the violator, as specified in Section P of Chapter 8 of the Clay County Purchasing Manual. **Exceptions:** The no-contact rule set forth shall not apply to inquiries submitted to the authorized contact person, the pre-bid conference, or to formal presentations by finalists to the Board of County Commissioners or to the County's evaluation committee.

6. **Additional Evaluation:** The County reserves the right to request any additional information from Bidders after Bid Opening and before award as may be necessary to assist in review and evaluation of any Bid prior to submittal of a recommendation for award to the Board of County Commissioners.

7. **Award:** The Bid will be awarded to the responsible Bidder(s) submitting a Bid determined to provide the best value to the County with price, technical, and other applicable factors considered. The County reserves the right to award to multiple bidders.

8. **Waiver of Formalities/Rejection of Bids:** The County reserves the right to waive formalities in any Bid, to reject any or all Bids with or without cause, to waive irregularities/technicalities, and waive technical and non-technical or non-material defects in the Bid document or submittal of any Bid. The County reserves the right to make award either in part or completely, and/or to accept the Bid that, in its judgment, will be in the best interest of the County. Bids in which the prices obviously are unbalanced will be rejected. The County reserves the right to reject any and all Bids and to re-advertise for all or any part of this solicitation as deemed in its best interest.

9. **Cancellation of Bid:** Clay County reserves the right to cancel a solicitation at any time prior to approval of the award. The decision to cancel a solicitation cannot be the basis for a protest under the formal protest process as referenced herein.

10. **No Bid:** Each company not intending to respond to this Bid should reply with a written "No Bid Statement". Such action will maintain the company on the appropriate active Bidder solicitation list. Three (3) failures to respond to solicitations may result in deletion from the Bidder solicitation list.

11. **Bid Errors:** Where Bid forms have erasures or corrections, each erasure or correction must be initialed in ink by the Bidder. In case of unit price Bid items, if an error is committed in the extension of an item, the unit price as shown in the Bid response will govern. Errors between any sum, computed by the Bidder, and the correct sum thereof will be resolved in favor of the correct sum. Any discrepancy between words and numbers will be resolved in favor of the written words.

12. **Deviations:** Bidders are hereby advised the County will only consider Bids that meet the specifications and other requirements imposed upon them by this Bid document. In instances where a deviation is stated in the Bid Form, said Bid will be subject to rejection by the County in recognition of the fact that said Bid does not meet the exact requirements imposed upon the Bidder by the Bid or Contract documents.

13. **Bid Protests:** Any company affected adversely by the County's decision may file with the County Purchasing Department a "Notice of Protest" in writing within 72 hours after the posting of the recommended award. Failure to file a written Notice of Protest shall constitute a waiver of proceedings under Chapter 8 (N) of the Clay County Purchasing Policies. Failure to file a written petition initiating a formal protest proceeding within the time frame and in the manner prescribed in Section 8 (N) of said policy shall constitute a waiver of the right to protest the Bid solicitation, any addendum thereto, or the Bid award recommendation or decision, and to initiate a formal protest proceeding under said policy. The County's Purchasing Policy may be viewed at the County's website by following the appropriate links from the Homepage.

14. **Public Entity Crimes:** Pursuant to Section 287.133(2)(a) of the Florida Statutes, a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Bid for a Contract to provide any goods or services to a public entity, may not submit a Bid for a Contract with a public entity for the construction or repair of a public building or public work, may not submit Bids on leases of real property to a public entity, may not be awarded or perform work as a Contractor, supplier, subcontractor, or consultant under a Contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017 of the Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. By submitting a Bid, Bidder attests that they have not been placed on the "Convicted Vendor List".

15. **Debarment:** By submitting a Proposal, the Bidder certifies that it is not currently debarred from submitting proposals for contracts issued by any political subdivision or agency of the State of Florida and that it is not an agent of a person or entity that is currently debarred from submitting proposals for contracts issued by any subdivision or agency of the State of Florida.

16. **Laws and Regulations:** The Bidder shall comply with all laws and regulations applicable to provide the goods and/or services specified in this solicitation. The Bidder shall be familiar with all federal, state and local laws that may affect the goods and/or services offered. All applicable Federal and State laws, municipal and Clay County ordinances, and the rules and regulations of all authorities having jurisdiction over any part of the project shall apply to the entire project and Contract.

17. **Scrutinized Companies Certification:** In compliance with subsection (5) of Section 287.135(5), Florida Statutes the Bidder certifies that the company is not participating in a boycott of Israel as defined in subsection (1) of the Statute; is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List as referred to in subsection (2) of the Statute; and does not have business operations in Cuba or Syria as defined in subsection (1) of the Statute. The included Scrutinized Companies Certification Form must be completed and returned as part of the bid submittal.

18. **Laws and Regulations:** The Bidder shall comply with all laws and regulations applicable to provide the goods and/or services specified in this solicitation. The Bidder shall be familiar with all federal, state and local laws that may affect the goods and/or services offered. All applicable Federal and State laws, municipal and Clay County ordinances, and the rules and regulations of all authorities having jurisdiction over any part of the project shall apply to the entire project and Contract.

19. **Copyright Restrictions:** Both the County seal and the County logo are being registered for a copyright. Neither the Clay County seal nor the logo may be used or provided to non-Clay County government users for use on company Bids, presentations, etc.

20. **Indemnification:** The awarded Bidder shall indemnify and hold harmless the County, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the company and other persons employed or utilized by the company in the performance of the Contract. The provisions of Florida Statute 768.28 applicable to Clay County, Florida apply in full to this Contract. Any legal actions to recover monetary damages in tort for injury or loss of property, personal injury, or death caused by the negligent or wrongful act or omission of any employee of the County acting within the scope of his/her office or employment are subject to the limitations specified in this statute.

    No officer, employee or agent of the County acting within the scope of his/her employment or function shall be held personally liable in tort or named as a defendant in any action for any or damage suffered as a result of any act, event, or failure to act. The County shall not be liable in tort for the acts or omissions of an officer, employee, or agent committed while acting outside the course and scope of his/her employment. This exclusion includes actions committed in bad faith or with malicious purpose, or in a manner exhibiting wanton and willful disregard of human rights, safety, or property.

21. **Insurance Requirements:** Prior to commencement of the project, the awarded Bidder shall provide the County Purchasing Department with proof of the following insurance:

    a. Commercial General Liability

1. General Aggregate	$1,000,000
2. Products and Completed Operations Aggregate	$1,000,000
3. Personal and Advertising Injury	$1,000,000
4. Each Occurrence	$1,000,000
5. Fire Damage (any one fire)	$ 50,000
6. Medical Expense (any one person)	$ 5,000

    b. Automobile Liability

1. Any automobile-Combined bodily injury/property damage, with minimum limits for all additional coverages as required by Florida law	$1,000,000

    c. Workers Compensation/Employers Liability

1. Workers Compensation	statutory limits
2. Employers Liability	
a. Each Accident	$ 100,000
b. Disease-Policy	$ 500,000
c. Disease-Each Employee	$ 100,000

    d. Professional Liability

1. When required by Contract-per occurrence	$ 1,000,000

The awarded Bidder must maintain insurance coverage at the above-prescribed levels through the date of completion of the project and such coverage must include all independent Contractors and Subcontractors. Either prior to, or simultaneously with the execution of the Contract, the awarded Bidder must deliver certificates of insurance for the required insurance coverage to the County naming "Clay County, a political subdivision of the State of Florida, the Board of County Commissioners, Clay County, Florida; and all public agencies of Clay County, as their interests may appear" as "Additional Insured." Said certificates of insurance shall also include a thirty-day prior written notice of cancellation, modification or non-renewal to be provided to the County.

22. **Performance and Payment Bond Requirements:** Performance and Payment Bonds are not required for projects of $200,000^{.00}$ or less. Prior to commencement of a project exceeding $200,000^{.00}$, the awarded Bidder shall file a 100% Performance Bond and Payment Bond (using Clay County's Standard Form) in the Public Record of Clay County, Florida, Recording Dept./Room 130, 825 North Orange Avenue, Green Cove Springs, Florida 32043. The recorded Performance and Payment Bonds shall be provided prior to the commencement of construction to Clay County Purchasing Department, PO Box 1366, Green Cove Springs, Florida 32043. Performance and Payment Bonds must be increased in accordance with any change order increases on the project.

23. **Bid Preparation Costs:** By submission of a Bid, the Bidder agrees that all costs associated with the preparation of his/her Bid will be the sole responsibility of the Bidder and shall not be borne by the County. The Bidder also agrees that the County bears no responsibility for any costs associated with the preparation of their Bid and/or any administrative or judicial proceedings resulting from the solicitation process.

24. **Business Registration Requirement:** In accordance with Chapters 605-623, Florida Statutes, in order to do business in the State of Florida, corporations (and other business designations) are required to be registered and in good standing with the Department of State, Division of Corporations. To be eligible to receive a contract and/or purchase order registration must be accomplished prior to the initial posting indicating intent to award to that vendor. Failure to be registered may be cause for disqualification. Contact the Division of Corporations at (850) 245-6000. Online-filing is available at: http://dos.myflorida.com/sunbiz

25. **Contractor Qualifications and Requirements:** At the time of Bid Opening, all Bidders must be certified or registered pursuant to Chapter 489, Florida Statutes, or hold a Clay County certification under Article III of Chapter 7 of the Clay County Code, as applicable, at the time of submitting a Bid. All Bidders must submit evidence of current state certification or registration, or County certification, as applicable, prior to award of this Bid.

    The following licensing requirements shall apply when the applicable Florida statute mandates specific licensing for Contractors engaged in the type of work covered by this solicitation.

    a. State of Florida, Department of Professional Regulation, Construction Industries Licensing Board and licensed by other federal, state, regional, county or municipal agencies having jurisdiction over the specified construction work.

    b. Said licenses shall be in the Bidder's name as it appears on the Bid Form. Bidder shall supply a copy of each applicable license showing the appropriate license numbers, with expiration

dates as required by the County. Failure to hold and provide proof of proper licensing, certification and registration may be grounds for rejection of the Bid and/or termination of the Contract.

c. Subcontractors Contracted by the Prime Contractor shall be licensed in their respective fields to obtain construction permits from the County. Said license must be in the name of the subcontractor.

The following licensing requirements shall apply when applicable (Contractor Prequalification):

Florida Law and Rules of the State of Florida, Department of Transportation, require contractors to be prequalified with the Department in order to bid for the performance of road, bridge, or public transportation construction contracts greater than $250,000.00. The Contractor Prequalification process results in the issuance of a Certificate of Qualification for each successful applicant which lists the approved work classes and the Maximum Capacity Rating in dollars. It is the responsibility of potential bidders to review the requirement and meet the qualifications listed at: http://www.dot.state.fl.us/cc-admin/PreQual_Info/prequalified.shtm. Contractors not meeting the applicable work types associated with the scope of the work may utilize subcontractors to assist with meeting the requirement of all necessary prequalification work classes.

26. **Qualification:** The County shall have the right to review the references, experience of assigned personnel, and qualifications of the Contractor in order to make the final determination of acceptability of the Contractor to be awarded the Contract and construct the work.

The Board of County Commissioners may reject, at its sole discretion, any Bidder the Commission finds to lack, or who's present or former executive employees, officers, directors, stockholders, partners or owners are found by the Commission to lack honesty, integrity, or moral responsibility. The Commission's finding may be based on any of the following factors: the disclosure required herein, the County's own investigation, public records, or any other reliable source of information. The Commission may also reject any Bidder failing to make the disclosure required herein. By submitting a Bid, Bidder recognizes and accepts that the Board of County Commissioners may reject any Bid at its sole discretion and the Bidder waives any claim it might have for damages or other relief arising from the rejection of its Bid or resulting directly or indirectly from the rejection of its Bid based on these grounds or from the disclosure of any pertinent information relating to the reasons for rejection of its Bid.

27. **Subcontractors:** The County reserves the right to approve all Subcontractors for this Contract. If Subcontractors are to be utilized, their names and references must be included within this Bid. Responsibility for the performance of the Contract remains with the main Contractor exclusively. After the commencement of the project, subcontractors may be added or modified during the Contract period only with prior written permission from the County, and only for reasonable cause, as judged by the County.

28. **Interpretation of Plans and Specifications:** No interpretation of the meaning of the plans, specifications, or other Contract documents will be made to any Bidder orally. Every request for interpretation should be in writing addressed to the Purchasing Department. To be given consideration, such requests must be received no later than **March 6, 2019.**

Any and all such interpretations and any supplemental instructions will be in the form of a written addendum. All Addenda issued shall become part of the Bid and Contract documents, and receipt must be acknowledged on the Bid Form, by completion of the applicable information on the Addendum, and submitting it with the Bid. Failure to acknowledge Addenda which have no effect on the competitive nature of the bidding process may be a waiveable deviation at the County's sole discretion.

29. **Conflict of Interest:** The award hereunder is subject to Chapter 112, Florida Statutes. All proposers must disclose with their Proposal, any personal or organizational conflicts of interest pursuant to Section 112.313, Florida Statutes, the name of any officer, director, or agent who is also an employee of the Clay County Board of County Commissioners. Further, all proposers must disclose the name of any Clay County Board of County Commissioners employee who owns, directly or indirectly, an interest of the proposer's firm or any of its branches.

30. **Use of Contract by Other Government Agencies:** At the option of the Bidder, the use of the Contract resulting from this solicitation may be extended to other governmental agencies, including the State of Florida, its agencies, political subdivisions, counties, and cities.

    Each governmental agency allowed by the Bidder to use this Contract shall do so independent of any other governmental entity. Each agency shall be responsible for its own purchases and shall be liable only for goods or services ordered, received and accepted. No agency receives any liability by virtue of this bid and subsequent contract award.

31. **Execution of Contract and Notice to Proceed:** The awarded Bidder may be required to sign a written Contract. Said Contract will evidence in written form the agreement between the parties.

32. All payments made under this Bid will be made in accordance with the Local Government Prompt Payment Act; in effect, not later than 45 days from receipt of proper invoice.

33. At the discretion of the Board of County Commissioners any Committee contemplated herein, Vendors submitting proposals may be requested to make oral presentations as part of the evaluation process.

RFP No. 18/19-2, VARIOUS EQUIPMENT AND AMENITIES FOR PARKS AND PLAYGROUNDS – SCOPE OF SERVICES
(Provided by Parks and Recreation Department)

SCOPE:

The purpose of this bid invitation:

1. Establish a firm, fixed percentage discount from manufacturer's and/or bidder's current catalog/supply/product information price list for the purchase of various equipment and amenities for parks and playgrounds as requested by the Clay County Division of Parks and Recreation. The County reserves the right to award to multiple bidders.
2. Establish a firm, fixed percentage of manufacturer's and/or bidder's current catalog/supply/product information price list, after applying the above requested discount for purchase, for the installation of various equipment and amenities. It is understood that bidder's current catalog/supply/product information price list are subject to change; however, percentages shall remain fixed. No extra charges or compensation will be allowed for installation above and beyond what has already been presented in your bid. If the bidder offers specialized catalogs, the catalogs must be submitted separately from any other catalog offered by the bidder.
3. This bid is also a means for qualifying vendors for ball park lighting services. Qualifying vendors will be requested to provide pricing on a project by project basis as defined in the method of ordering section of this bid utilizing prices provided in bid response. The qualified vendor(s) providing the lowest responsive quote will be awarded the project.
4. There is no guarantee any purchases will be made after award. Purchase orders will be issued subject to availability of funds.

RESPONSIBILITY:

Bidder shall be responsible for all labor, materials, equipment, supervision, off-loading, storage, and installation, of various equipment and amenities for parks and playground equipment or amenities ordered, unless otherwise specified by the County. The County may elect, in certain circumstances, to purchase only materials and have those materials installed by others (e.g., volunteers, County staff). These items will be shipped to a designated location and off-loaded by the bidder or bidder's representative.

QUALIFICATION OF INSTALLERS:

If a bidder utilizes a sub-contracted installer for any park or playground equipment, a list of sub-contracted installers must be included with their bid. Additionally, the bidder must supply WRITTEN FACTORY/MANUFACTURER CERTIFICATION that its installer, or its sub-contracted installer, is an authorized installer, certified to install various equipment and amenities for parks and playground equipment as required by each manufacturer.

CATALOGS AND MANUFACTURER SUGGESTED RETAIL PRICE (MSRP) LISTS:

Each bidder shall submit with this bid, at no charge, two (2) sets of each current catalog/supply/product information price list as well as current MSRP list for each catalog

submitted. All catalogs and/or MSRP lists shall clearly identify bidder's name, address and telephone number.

The vendor shall supply at no charge, two (2) sets of each then current catalog/supply/product information price list as well as current MSRP list for each catalog submitted upon price changes. At renewal time Vendor may request that new manufacturers be added. County reserves the right to approve or deny this request.

COMPLIANCE WITH LAWS AND CODES:

Bidders must strictly comply with Federal, State and local building and safety codes. Equipment must meet all State and Federal safety regulations. The following publications (issue in effect on date of invitation to bid) shall form a part of this specification:

A. American Society for Testing and Materials (ASTM):

ASTM-F1487 Standards – Methods of testing Playground Equipment for Public Use.

ASTM-F1292 Standards - Method for testing various surfacing materials to determine their "critical height" (the fall height below which a life threatening head injury would not be expected to occur)

Copies may be obtained from the - American Society for Testing and Materials
100 Barr Harbor Drive
West Conshohocken, PA 19428

B. Consumer Product Safety Commission (CPSC) – printed Handbook for Public Playground Safety.

Copies may be obtained from the - US Consumer Product Safety Commission
4330 East West Highway
Bethesda, MD 20814
(301) 504-7923

C. National Playground Safety Institute (NPSI) – identification of 12 leading causes of injuries on playgrounds.

Copies may be obtained from the - National Recreation and Park Association
22377 Belmont Ridge Road
Ashburn, VA 20148-4150
(703) 858-0784

D. Americans with Disabilities Act (ADA) Regulations for Title III, Appendix A, Standards for Accessible Design, issued by the Department of Justice.

Copies may be obtained by calling: (800) 514-0301

Bidders certify that all products (materials, equipment, processes, age appropriate signage, or other items supplied in response to this bid) contained in its bid meet all Federal and State requirements, **Upon completion of installation of play equipment and/or playground surfacing, bidder shall furnish to the County a certificate so stating the equipment /surfacing and its installation meet all Federal and State requirements as outlined in the above publications.**

Bidders further certify that if the product(s) delivered and/or installed are subsequently found to be deficient in any of the aforementioned requirements in effect on date of delivery, all costs necessary to bring the product(s) and installation into compliance shall be borne by the bidder.

INVOICING:

Invoices may be issued once equipment, materials, and supplies are delivered and/or installed to the county's satisfaction. At a minimum, invoices must include: Purchase Order Number, Item Number and Description, Date of Shipment, Quantity Ordered, Unit Price, Unit of Measure, and a total for all purchases. Standard payment terms are Net 45 days per the Local Government Prompt Payment Act.

TERMS OF CONTRACT:

The term of bid award for various equipment and amenities for parks and playgrounds will be three (3) years, with two (2) one (1) year renewal options. Discounts from this solicitation shall prevail for the full duration of the contract and including subsequent extensions. County reserves the right to use other available bids or contracts when in the best interest of the County.

METHOD OF ORDERING:

The County may generate a Request for Quotation, on an "as needed" basis, for park and playground equipment and/or ball field lighting together with a request for additional services required to complete that project (see attached Quote sample sheet). The County reserves the right to send such Request for Quotation to any or all awarded bidders. The Request for Quotation can define the project exactly or the Request for Quotation can describe a desired end result, allowing the bidder to design the park or playground site.

After generating a Request for Quotation for a project, and before bidder's submission of its quotation in response to the Request for Quotation, the County may require requested bidder (s) to attend a site visit with County personnel to familiarize the bidder(s) with the site and determine additional services that may be required to complete the project. Bidders will be responsible for the accuracy of all fixed measurements.

The bidder's quotation in response to the Request for Quotation must contain each of the following:

- A detailed breakdown of the cost for the entire project. Descriptions of additional services related to the project, together with their price, shall also be listed.
- Include Catalog Name, Number and associated discount. When quoting projects where freight would be charged, those costs must be included in quote so freight charges can appear on the purchase order. Freight charges for equipment must be pre-paid and added to the invoice.
- Names of any and all subcontractors on the project. It is understood the bidder remains responsible for project completion and acceptance by the County. The County reserves the right to reject any quotation in response to a Request for Quotation if said quotation names a subcontractor who has, in the sole opinion of the County, previously failed in the proper performance of an award or failed to deliver on time contracts of a similar nature, or who is not in a position to perform properly under this award.
- Project Completion Date.
- Include an updated catalog, if needed and updated MSRP lists for the park and play equipment specifically quoted.

The County will generate purchase orders as a result of approved "Request for Quotations" submitted, at the sole discretion of the County. The County reserves the right to not award to any, or to use other available bids or contracts when in the best interest of the County.

PROMOTIONAL PRICING:

During the contract period, bidders shall extend any pricing offered on a "promotional" basis from the manufacturer to the county. It will be the bidder's responsibility to monitor said items and report any that are or will be offered at lower prices.

SUPERVISION:

A bidder's job supervisor/representative shall be on the work site at all times and be thoroughly knowledgeable of the materials, job requirements, plans, specifications and installation functions. Contractors shall be responsible for the appearance of all working personnel assigned to the project (clean and appropriately dressed at all times).

JOB COMPLETION:

Bidder/installer shall be responsible for all materials received and signed for from date of order to completion of job installation.

Bidder/installer shall be responsible for cleanup and removal of all debris resulting in job completion.

Bidder/installer shall be responsible for restoring the work site to its original condition at the completion of the project. This shall include re-sodding of the area affected by their work with sod which is of the same variety and quality as the surrounding sod. Where no sod exists prior to installation, the contractor shall restore grade to a level consistent with the surrounding grade.

RESPONSIBILITY FOR DAMAGES AND PRESERVATION OF PROPERTY:

The bidder shall use due care to avoid damaging all property associated with, adjacent to, or in any way affected by the work being performed. The bidder shall be responsible for the protection of all buildings, structures, and utilities that are underground, above ground, or on the surface from their operations that may be hazardous and/or damaging to said facilities. Bidder shall leave work site in a neat and orderly fashion at the end of each work day. Any damage occurring to such items by bidder shall be immediately repaired or replaced to a condition at least equal to that which existed prior to the damage. All costs incurred for repair or replacement shall be borne by the successful bidder. Any damages not repaired or replaced by the bidder within ten (10) calendar days from notification will be fixed by the County or its contractor and the cost shall be paid by the bidder or deducted from their invoice.

VIOLATIONS/DEFAULT:

In the event the awarded bidder(s) should violate any provisions of this bid, such bidder will be given written notice stating the deficiencies and given ten (10) days to correct deficiencies found. The County reserves the right to terminate any bid, contract, or purchase order at any time due to any violation.

In the event the awarded bidder(s) should breach this contract, the County reserves the right to seek all remedies in law and/or in equity. Failure of an awarded bidder to adhere to completion dates defined by bidder and County may result in no further purchase being made with such bidder under this Bid.

CHAPTER 8: PROCEDURES FOR PUBLIC BID OPENINGS

(A) **Purpose:** The purpose of this chapter is to specify procedures for the submittal, receipt, opening and recording of all formal bids required by all of the various laws, ordinances, and other procedures and manuals governing the solicitation and awarding of public bids in Clay County, Florida, including but not limited to:

a. Section 336.44, Florida Statues (2001).
b. Applicable Provisions of Clay County Code.
c. Florida Department of Transportation Standard Specifications, most recent edition.

(B) **Time of Opening:** All bids shall be submitted to the Purchasing department, 4th Floor, Clay County Administration Building, 477 Houston Street, Green Cove Springs, Florida, which shall record receipt thereof by date and time on the bid envelope. Upon receipt, the Purchasing department will maintain custody and control of all bid submittals until after they have been opened. The deadline for a particular bid submittal shall be 4:00 P.M., of the Monday immediately preceding the Tuesday upon which the bid is to be opened. No bid shall be opened unless and until proof by publisher's affidavit of publication of the bid solicitation is received and filed by the Purchasing department. Bidders and the public are welcomed to attend the opening and all subsequent committee and commission meetings related to the bids.

(C) **Form of Bid Submittal:** All bids shall be submitted in triplicate, (and if applicable only on the forms provided by the County or its staff). Each bid and its accompanying materials shall be submitted in a single, sealed and opaque envelope. The following items shall be prominently marked on the cover of the envelope by the party making the submittal prior thereto:

a. The number assigned to the particular bid solicitation.
b. The title of the bid exactly as it appeared in the published solicitation.
c. The date of the bid opening.

(D) **Bid Receipt Procedure**: The County Manager shall, in cooperation with his or her Department heads and the Purchasing department, assign a specific and discrete number and title to each bid solicitation, which shall be contained in the Request for Bids, the newspaper publication, specifications and the Bid Form thereof. Three copies of each request for bid shall be submitted to the Purchasing department for distribution as provided in Section F hereof, and the "Request For Bids" shall be signed prior to publication.

(E) **Place of Opening:** All bids properly submitted shall be opened in a public location so designated in the bid solicitation.

(F) **Distribution of Copies:** Upon the opening of a bid, one copy shall be distributed to the head of the originating department. Purchasing shall submit to the Finance committee of the Board a tabulated list of all bidders and their bids, including bid number, name, staff assigned, a recommendation to include but not be limited to the lowest responsive and responsible bid, or in a proper circumstance the best bid, budget information and alternatives. All staff assigned to evaluate bid and RFP responses shall do so observing all requirements of the Sunshine Law and

in meetings noticed at least 72 hours in advance thereof. The Purchasing department shall serve as the permanent record holder for the County Manager.

(G) **Committee Review, Report and Recommendations:** Bids shall be reviewed by the Board's Finance committee following the bid opening. The Committee should, in the absence of unusual circumstances, report its recommendation to the Board at the Board's next regularly scheduled meeting, which shall include a tabulated list of all bidders and their bids. In all events, the County Manager shall cause to be spread upon the minutes of the regular meeting of the Board next following the opening of a particular bid, a list of all bidders and their bids. Upon being awarded a bid, and if a contract is entered into with the successful bidder then the County's Standard Addendum and IRS Form W-9, Request for Taxpayer Identification and Certification must be completed.

(H) **Ineligible Bid:** Any bid that does not meet the foregoing requirements for form, time of submittal, number of copies or the specifications advertised will be rejected and the reasons stated therefor; provided that the Purchasing department shall reject and return unopened all bids which do not meet the foregoing requirements for time of submittal, or envelope markings. Bids that do not meet requirements for form will be rejected and declared "No Bid". The Board reserves the power to reject all bids and in its discretion to re-advertise the solicitation.

(I) **Bid Withdrawal Period:** Any bid submitted requires a five (5) percent bond unless waived by the Board prior to solicitation, which cannot be withdrawn for a period of 30 days subsequent to the date of the bid opening, notice of which shall be incorporated in all requests for bids. As used herein, the term bond shall include cashier or certified checks payable to the County. All such checks shall be held by the Finance department for safekeeping immediately upon acceptance of the bid (but not deposited). The Finance department is hereby authorized to return each bond to the submitting party, as soon as practicable, upon written request to the Finance department, but only after a bid and contract have been awarded and executed between the County and the successful bidder for a particular project, or in the event that all bids have been rejected by the Board, or in the event the time provided that the bid shall remain in effect shall have expired and the bid submitter requests its return in writing.

(1) Vendors bidding on SHIP rehabilitation projects are exempt from the bid bond requirements delineated in 8(I) above or as may be otherwise stated elsewhere in this policy document.

(2) Vendors bidding on commodities price contracts, or any other type of contract that does not commit the Board to an actual exchange transaction (purchase) but rather seeks only a fixed unit price commitment from a vendor in the event a future purchase decision is made, shall be exempt from the bid bond requirements delineated in 8(I) above or as may be otherwise stated elsewhere in this policy document.

(J) **Bid Addenda:** All addenda distributed subsequent to the initial distribution of specifications shall be sent by certified mail/return receipt requested, said return receipt to be returned to the Purchasing department identified by bid number. Prior to mailing, a copy of each addendum shall be received by the Purchasing department, provided that no addendum shall be mailed later than five (5) working days prior to the scheduled bid opening date.

(K) **Bid Tabulation Form:** The bid Tabulation Form used at bid openings shall include a place thereon for three witnesses to sign. This procedure will eliminate the need for signing each individual bid at the time of opening, thus requiring the three witnesses to sign only once for each bid number submitted.

(L) **Authority to Delay Bid Openings:** The County Manager is hereby authorized, without seeking prior approval of the Board in any particular case, to order a delay of any bid opening from its scheduled date and time to a time certain on the agenda of the next regularly scheduled meeting of the Board, or such special meeting called for such purpose. The delay may be ordered at any time prior to the time of the scheduled opening, provided that such order be in writing, addressed and delivered to the Purchasing department with a copy delivered to the County Manager, and that copies thereof be mailed by certified mail, return receipt requested to all responding bidders as soon thereafter as is reasonably practicable. Upon receipt of the order, the Purchasing department shall immediately record the date and time thereof. The Purchasing department shall continue to accept sealed bids up until the applicable deadline. At the date and time originally scheduled for the bid opening, the Purchasing department shall announce the delay order to all in attendance and shall continue to maintain in its custody all properly submitted sealed bids until further order of the Board. At the time certain scheduled before the Board, the County Manager shall present his reason or reasons for the delay order and his recommendation for disposition of bids submitted. The Board may order the bids to be opened then and there, or at some other time and date certain; it may cancel the bid and order the return of all bids unopened; it may order a further delay of the bid opening; or it may make any other order appropriate to the circumstances. If the bids are ultimately opened, they shall be reviewed as provided elsewhere herein. If a delay occurs as provided herein, then the 30 day withdrawal period as provided in 8(I) shall commence upon the date of the actual bid opening, provided such date is not more than 60 days subsequent to the originally scheduled date. No delay shall be ordered beyond such 60 day period, unless the parties submitting timely bids consent to such delay in writing. In no event is the County Manager authorized to extend the deadline for bid submittals for any particular project, only the bid opening date.

(M) **Contractor's Insurance Requirement**:

1. Any Contractor submitting a bid for any public works project must include, within its initial bid response, proof of the following insurance, in effect continuously from the date of submittal through the 60 days subsequent to the scheduled bid opening date:

a. Commercial General Liability

1.	General Aggregate	$1,000,000
2.	Products and Completed Operations Aggregate	$1,000,000
3.	Personal and Advertising Injury	$1,000,000
4.	Each Occurrence	$1,000,000
5.	Fire Damage (any one fire)	$ 50,000
6.	Medical Expense (any one person)	$ 5,000

b. Automobile Liability

1. Any automobile-Combined bodily injury/property damage, with minimum limits for all additional coverage as required by Florida law $1,000,000

c. Workers Compensation/Employers Liability

1. Workers Compensation		statutory limits
2. Employers Liability		
	a. Each Accident	$ 100,000
	b. Disease-Policy	$ 500,000
	c. Disease-Each Employee	$ 100,000

d. Professional Liability

1. When required by contract-per occurrence	$1,000,000

2. Upon being awarded the bid, the contractor must provide proof that such insurance will be in effect from the date of commencement of the project. The contractor will maintain insurance coverage at the above-prescribed levels through the date of completion of the project and that coverage will include all independent contractors and subcontractors. Either prior to or simultaneously with the execution of the contract, the successful bidder must deliver certificates of insurance for the required insurance coverages to the County naming "Clay County, a political subdivision of the State of Florida; The Board of County Commissioners, Clay County, Florida; and all public agencies of Clay County, as their interests may appear" as "Additional Insureds." Said certificates of insurance shall also include a thirty day prior written notice of cancellation, modification or non-renewal to be provided to the County.

3. The Board reserves the right to waive, raise or lower the minimum coverages required for particular projects prior to bid solicitation by affirmative action. The Board will not waive any defects in a bid submittal pertaining to matters under this subsection.

(N) <u>Bid Awards and Protests:</u>

1. Both the **INSTRUCTIONS** and the **PUBLISHED NOTICE** for every sealed bid solicitation shall include conspicuously the following statements:

> FOLLOWING THE BID OPENING AND TABULATION, A "NOTICE OF INTENT TO AWARD BID" OR A "NOTICE OF REJECTION OF ALL BIDS" WILL BE POSTED ON THE INTERNET AT: [insert bid notice web address[1]]. THIS WEBPAGE CAN ALSO BE ACCESSED FROM THE HOMEPAGE OF THE COUNTY'S WEBSITE AT: [insert County's homepage address[2]] BY [insert suitable directions[3]]. NO OTHER NOTICE WILL BE POSTED.

[1] As of the date on which this Purchasing Policy was adopted, the bid notice web address was: http://www.claycountygov.com/departments/purchasing-division/bcc-bid-tabs-current-bids-intent-bids-rejection-bids

[2] As of the date on which this Purchasing Policy was adopted, the County's homepage address was: http://www.claycountygov.com/.

[3] As of the date on which this Purchasing Policy was adopted, suitable directions would be: "FOLLOWING THE "Notice of Intent Bids" LINK UNDER THE "Business" ROLLOVER BUTTON".

PROSPECTIVE BIDDERS ARE NOTIFIED THAT THE FAILURE TO INCLUDE WITHIN THE SEALED BID ENVELOPE A PROPER BID BOND OR OTHER SECURITY APPROVED UNDER THE COUNTY'S PURCHASING POLICY, IF REQUIRED FOR THIS SOLICITATION, OR THE FAILURE TO FILE A WRITTEN NOTICE OF PROTEST AND TO FILE A WRITTEN PETITION INITIATING A FORMAL PROTEST PROCEEDING WITHIN THE TIMES AND IN THE MANNER PRESCRIBED IN SECTION 8.N. OF SAID POLICY, SHALL CONSTITUTE A WAIVER OF THE RIGHT TO PROTEST THE BID SOLICITATION, ANY ADDENDUM THERETO, OR THE BID DECISION, AS APPLICABLE, AND TO INITIATE A FORMAL PROTEST PROCEEDING UNDER SAID POLICY. THE COUNTY'S PURCHASING POLICY CAN BE VIEWED AT THE COUNTY'S WEBSITE BY FOLLOWING THE APPROPRIATE LINKS FROM THE HOMEPAGE ADDRESS SET FORTH ABOVE.

IF A PROSPECTIVE BIDDER IS IN DOUBT WHETHER THIS SOLICITATION REQUIRES A BID BOND, SUCH PROSPECTIVE BIDDER IS SOLELY RESPONSIBLE FOR MAKING APPROPRIATE INQUIRY.

2. Unless otherwise expressly directed by the Board in its decision on a bid award, immediately following such decision the County Manager shall cause a "Notice of Intent to Award Bid" or a "Notice of Rejection of All Bids" to be posted on the County's website, with the time and date of posting appearing thereon. Notice shall not be posted elsewhere. The notice shall be posted in portable document format or other secure format.

3. The failure on the part of a prospective bidder to include within the sealed bid envelope a proper bid bond or other security approved under this policy, if required for the particular bid solicitation, or the failure by a prospective bidder to file a written notice of protest and to file a written petition initiating a formal protest proceeding within the times and in the manner prescribed in this section shall constitute a waiver of the prospective bidder's right to protest the bid solicitation, any addendum thereto, the Board's bid decision, as applicable, and to initiate a formal protest proceeding hereunder.

4. A prospective bidder is solely responsible for determining whether a particular bid solicitation requires a bid bond, and for resolving any doubt by making appropriate inquiry.

5. The County Manager shall cause a copy of this policy to be posted on the County's website in portable document format or other secure format. The County Manager shall cause to be established conspicuous and easy-to-follow links to the policy from the homepage.

6. Any person who is adversely affected by a bid solicitation, by any addendum thereto, or by a bid decision may file with the County Manager a written notice of protest no later than 4:30 p.m. on the third business day immediately following the date notice is published, with respect to a bid solicitation; no later than 4:30 p.m. on the third business day immediately following the date of issuance, with respect to a bid addendum; and within 72 hours after the posting of the notice, exclusive of hours occurring during days that are other than business days, with respect to a bid decision.

7. A formal protest proceeding shall be deemed commenced upon the timely filing of a written petition initiating the same. A written petition initiating a formal protest proceeding must be filed with the County Manager no later than 4:30 p.m. on the tenth calendar day immediately following the date on which the written notice of protest was filed; provided, if the tenth calendar day is not a business day, then the petition must be filed no later than 4:30 p.m. on the first business day immediately following said tenth calendar day. The petition must set forth with particularity the facts and law upon which the protest is based. The petition must conform substantially with the requirements for petitions set forth in Rule 28-106.201, Florida Administrative Code. References in this section to a petition shall mean a written petition initiating a formal protest proceeding filed in accordance with this subsection.

8. Any protest of a bid solicitation or bid addendum shall pertain exclusively to the terms, conditions, and specifications contained in a bid solicitation or bid addendum, including any provisions governing the methods for ranking bids, proposals, or replies, awarding contracts, reserving rights of further negotiation, or modifying or amending any contract.

9. Upon receipt of a formal written notice of protest that has been timely filed, the County Manager shall suspend the bid solicitation or bid award process until the subject of the protest is resolved by final action as specified in this section, unless the County Manager sets forth in writing particular facts and circumstances which require the continuance of the solicitation or award process without delay in order to avoid an immediate and serious danger to the public health, safety, or welfare. Such suspension shall be lifted immediately in the event the protesting party shall have failed to timely file a petition.

10. Intervenors shall be permitted to participate in the formal protest proceeding in accordance with the procedures governing intervenor practice set forth in Rule Chapter 28-106, Florida Administrative Code, and shall be subject to all limitations provided therein applicable to intervenors.

11. In his or her discretion, the County Manager may provide an opportunity to resolve the protest by mutual agreement between the County Manager and the protesting party within 7 calendar days after receipt of a timely petition. Such agreement must be reduced to writing, signed by the County Manager and the protesting party or such party's authorized agent, and submitted to the Board at the earliest opportunity. The agreement shall not be deemed effective unless ratified by the Board. If the Board shall fail to ratify the agreement, then the protest shall proceed to resolution as hereinafter provided.

12. Within 10 business days following the timely filing of a petition, or, if the Board shall have considered but failed to ratify an agreement submitted to it under subsection 11, then within 10 business days thereafter, a hearing shall be conducted pursuant to subsection 13 before a hearing officer, who shall be the County Manager or his or her designee. The County Manager may designate any department head as the hearing officer; provided, a department head who is substantially involved in or connected with the bid solicitation or bid award process shall be deemed disqualified from serving as the hearing officer, unless such involvement or connection is purely ministerial in nature.

13. All hearings shall be conducted pursuant to written notice to the protesting party, the County Attorney's Office and all intervenors by the hearing officer specifying the time, date and place of the hearing. Particular rules and procedures governing each such hearing are as follows:

a. The audio thereof shall be recorded electronically.

b. Prior to the hearing only, motion practice may be permitted by the hearing officer in his or her discretion in accordance with the rules governing the same set forth in Rule Chapter 28-106, Florida Administrative Code. All motions shall be ruled upon prior to or at the start of the hearing, except that rulings on motions in limine may be deferred to an appropriate time during or after the hearing.

c. Prior to the hearing, the protesting party, the County and all intervenors must confer and endeavor to stipulate to as many relevant and undisputed facts upon which the decision is to be based as may be practicable. Such stipulation must also identify those issues of material fact, if any, that remain in dispute. The stipulation must be reduced to a writing signed by or on behalf of the protesting party, the County and all intervenors, and be submitted to the hearing officer at least two business days prior to the hearing. The stipulation may include an appendix comprising documents that shall be deemed admitted and considered as evidence for purposes of the hearing, or referring to tangible items deemed admitted and considered as evidence for purposes of the hearing, which items shall either be presented at the hearing or, if such presentation is impractical, submitted to the hearing officer by graphic, descriptive, representational, photographic, videotape or similar medium properly depicting or characterizing the items.

d. The protesting party and all intervenors shall have the right to appear before the hearing officer at the hearing in proper person or through counsel and, as to those issues of material fact, if any, that remain in dispute, as identified in the stipulation, to present relevant testimonial, documentary and tangible evidence, and to be heard on the substantive issues bearing on the protest. The County shall be deemed a party to the proceeding, and the County Attorney or any assistant county attorney may participate in the protest proceeding, appear before the hearing officer, present evidence and be heard on behalf of the County.

e. All witnesses shall be placed under oath by the hearing officer prior to testifying, and shall be subject to cross-examination by any hearing participant.

f. Hearsay evidence shall be admissible unless the hearing officer shall determine the same to be redundant, unreliable or prejudicial.

g. At the hearing any hearing participant may offer appropriate argument and summation, and submit a written brief and a proposed order, but only after the conclusion of the evidentiary portion of the hearing, if any.

h. Immediately following the hearing, the County Manager shall cause a written transcript of all testimonial evidence introduced at the hearing to be prepared expeditiously based upon the audio recording, and shall provide copies of the same to all of the hearing participants.

i. Within 7 business days following the hearing, the hearing officer shall submit a recommended order to the County Manager and serve copies on all hearing participants; provided, if the County Manager is the hearing officer, then within 7 business days following the hearing, the County Manager shall issue a recommended order and serve copies on all hearing participants. The recommended order shall contain findings of fact and, based upon such facts, a disposition of the protest; provided, no finding of fact may be predicated solely upon the basis of hearsay.

j. The recommended order shall thereafter be submitted to the Board along with the transcript of the hearing testimony and the entire written and tangible record of the protest proceedings at the earliest opportunity to be considered at a time certain, with notice thereof served upon the hearing participants. Each of the hearing participants shall be allowed 3 minutes to address the Board regarding the recommended order, unless the Chairman in his or her discretion shall allow additional time. If a hearing participant intends to challenge any finding of fact in a recommended order that was based upon testimonial evidence, such participant shall be allowed 2 additional minutes for such purpose, and may direct the attention of the Board members to any portion of the transcript relevant to the challenge. The other hearing participants shall each have the right to offer argument in rebuttal to the challenge, and to direct the attention of the Board members to any portion of the transcript relevant to the rebuttal. No testimony or other evidence beyond the record and the transcript shall be presented to the Board. Thereafter the Board shall render its decision on the protest. In so doing the Board shall be bound by the findings of fact in the recommended order that are based upon testimonial evidence, except those for which it upholds a challenge. A challenge shall be upheld only if the finding of fact is not supported by competent, substantial evidence in the record or in the transcript. Otherwise, the Board shall not be bound by any of the provisions of the recommended order. The decision of the Board shall be reduced to a written order signed by the Chairman, and shall constitute final action of the County on the protest.

k. The date, type and substance of all ex parte communications between any Board member and a hearing participant, including counsel therefor or any agent thereof, and between any Board member and third party, must be publicly disclosed by the Board member prior to the rendering of the Board's decision. All such communications that are written or received electronically must be filed for the record, and copies thereof provided to each Board member and hearing participant.

14. All proceedings before the hearing officer shall be informal, and customary rules of evidence shall be relaxed. In all respects both the hearing officer and the Board shall observe the requirements of procedural and substantive due process that are the minimum necessary for accomplishing a fair, just and expeditious resolution of the protest.

15. Ex parte communications between a hearing participant and the hearing officer are forbidden. The hearing officer may take such steps as he or she may deem just and appropriate to prevent or sanction attempted ex parte communications, including promptly disclosing the attempted communication, or requiring the offending hearing participant to disclose promptly the attempted communication, to the other hearing participants. Where necessary, the hearing officer may recuse himself or herself, and the subsequently designated hearing officer may order the offending participant to pay for all or any portion of the costs incurred by the County and any other hearing participant strictly as a consequence of the ex parte communication or attempted ex parte communication, else be excluded from further participation. Neither the County Attorney nor any assistant county attorney shall be subject to this subsection or prohibited from engaging in ex parte communications with the hearing officer.

16. The purpose of this policy is to promote fairness and public confidence in the competitive bidding process. To further such end, and except as otherwise specifically provided herein, the substantive law governing the resolution of bid protests found in the decisions of the Florida appellate courts, as well as any statutes or agency rules that may be applicable to the particular bid solicitation, shall guide the hearing officer and the Board in rendering a decision on a bid protest under this section. The significant principles of law governing the bid protest and the resolution thereof, which shall prevail to the extent not otherwise in conflict with any governing statutes or agency rules, are as follows:

a. The burden is on the party protesting the award of the bid to establish a ground for invalidating the award.

b. The standard of proof for the protest proceeding shall be whether the proposed award was clearly erroneous, contrary to competition, arbitrary, or capricious.

c. The proposed award shall be deemed arbitrary or capricious if it is contrary in a material way to any governing statutes, the County's rules or policies, or the bid or proposal instructions or specifications.

d. The scope of the inquiry is limited initially to whether the proposed award is improper under the foregoing standard of proof. If and only if the hearing officer first determines on the basis of competent and substantial evidence that the proposed award is improper, then the hearing officer may recommend, in accordance with the law and this policy, an alternate disposition for the proposed award. Such disposition may include, but shall not be limited to, rejecting all bids, or awarding all or a portion of the bid to the protesting party.

e. A bid protest proceeding may not serve as a vehicle for the Board to revisit the proposed award absent a determination of impropriety as set forth above.

17. By written agreement amongst the protesting party, the County, and all then-existing intervenors, any provision of this section pertaining to the procedures for resolving a protest for which a petition has been timely filed may be modified or waived so long as such modification

or waiver shall not hinder or thwart the proper and expeditious resolution of the protest, or otherwise operate to undermine the salutary purposes of competitive, public bidding.

18. Only to the extent necessary to avoid a miscarriage of justice or to prevent a manifest violation of a hearing participant's procedural or substantive due process rights, a hearing officer may modify or suspend the applicability of any of the provisions or requirements of this section in the course of conducting a protest proceeding hereunder; provided, a hearing officer may not modify or suspend any of the provisions or requirements of subsections 3, 4, 6, 7, 8, 16, 20, 21 and 22 hereof.

19. Except and to the extent specifically provided in this section, and except and to the extent otherwise specified provided by written agreement amongst the protesting party, the County, and all then-existing intervenors, no provisions of Rule Chapter 28-106, Florida Administrative Code, shall be deemed applicable to the resolution of protests under this section.

20. For purposes of this section, the filing with the County Manager of a written notice of protest or of a written petition initiating a formal protest proceeding shall be deemed accomplished only when the original written notice or original written petition has been physically received by the County Manager or his or her designee. A notice or petition shall be deemed original only if it bears the original signature of the protesting party or such party's authorized agent. No notice or petition may be filed by facsimile transmission or by e-mail, and any notice or petition received in such manner shall be deemed unfiled and ineffective. The use of an overnight delivery service or of the United States Postal Service to file a notice or petition shall be entirely at the risk of the person submitting the same, and any such notice or petition so received after the applicable deadline shall be deemed untimely.

21. For purposes of this section, a business day shall mean any 24-hour day that is not a Saturday, a Sunday, or a holiday observed by the County.

22. For purposes of this section, counsel shall mean an attorney who is a member of the Florida Bar in good standing.

23. For purposes of this section, all notices of protest and petitions initiating formal protest proceedings, and all stipulations, briefs, proposed findings of fact, written motions and proposed orders submitted to a hearing officer shall be on white, opaque paper 8 ½ by 11 inches in size. The pages of all such documents shall have margins on all sides of not less than 1 inch; shall be in Times New Roman or Courier New font no smaller than 12 in size, including footnotes and endnotes; shall have standard double-spacing between lines, excluding quotations, footnotes and endnotes; and shall be numbered at the bottom. All quotations shall be indented. Briefs shall not exceed 15 pages in length, and may not include any appendices. A digital copy of all written stipulations, briefs, proposed findings of fact, written motions and proposed orders submitted to the hearing officer must be simultaneously provided to the hearing officer in Word format, version 2000 or later, on compact disc or 3 ½" diskette.

24. For purposes of this section, a hearing participant shall mean and include the protesting party, the County and any intervenor.

25. This section shall be construed and implemented so as to secure the just, speedy, and inexpensive resolution of bid protests.

(O) **UTILITY RELOCATION AGREEMENTS:** Prior to soliciting bids for right of way improvements and other public works projects that require the removal or relocation of utilities, agreements with the affected utilities must be entered into providing for the terms, scheduling and conditions of such relocation and removal. The County Manager may develop and maintain such form of agreement as may be appropriate for accomplishing the requirements of this section. *(Resolution No. 09/10-65)*

(P) **NO-CONTACT RULE:** *(Resolution No. 09/10-81)*

1. As used in this section and unless the context clearly requires otherwise, the following terms and phrases shall have the meanings herein ascribed:

a. Contacting shall mean communicating or attempting to communicate by any means, whether orally, telephonically, electronically or in writing.

b. Bidder shall mean any person or entity submitting a response to a bid solicitation, and shall include all owners, shareholders, principals, officers, employees and agents thereof.

c. Bid shall mean any bid, request for proposals and request for qualifications.

d. Solicitation period shall mean the time between the publication of the notice of the bid and the opening of the bid.

e. Evaluation period shall mean the time between the opening of the bid and the award thereof by the Board of County Commissioners.

2. The instructions for all solicitations of bids to be submitted under seal shall include provisions prohibiting bidders from contacting (i) any member of the Board of County Commissioners, the County Manager or any County employee or agent regarding the solicitation in any respect during the solicitation period, and (ii) the County Manager or any County employee or agent regarding the solicitation in any respect during the evaluation period. The violation of this rule shall result in the automatic disqualification of any response to a bid solicitation submitted by the violator, and the foregoing instructions shall so state.

3. The no-contact rule set forth in subsection 2 shall not apply to inquiries submitted to County employees or agents in the manner specifically provided in the bid solicitation package regarding the distribution thereof, or to communications seeking clarification regarding instructions or specifications submitted to County employees or agents in the manner specifically provided in the bid solicitation package, or to pre-bid conferences provided for in the bid solicitation package, or to formal presentations by finalists to the Board of County Commissioners or any committee thereof specifically contemplated in the bid solicitation package.

4. The purpose of the no-contact rule set forth in subsection 2 is to prevent any one bidder from gaining an advantage over other bidders through lobbying or otherwise attempting to influence the procurement decision through discussions or the presentation of information or materials outside of the process contemplated in the bid solicitation package and this purchasing policy, and also to ensure that the dissemination of information from the County entity to bidders regarding the bid solicitation is equal and uniform.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ **Go to *www.irs.gov/FormW9* for instructions and the latest information.**

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

Requester's name and address (optional)

6 City, state, and ZIP code

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

		–							

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here **Signature of U.S. person** ▶ **Date** ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting,* later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.

2. The treaty article addressing the income.

3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.

4. The type and amount of income that qualifies for the exemption from tax.

5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,

2. You do not certify your TIN when required (see the instructions for Part II for details),

3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code,* later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships,* earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code,* later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note: ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C corporation, or S corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

d. **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 3

Check the appropriate box on line 3 for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3.

IF the entity/person on line 1 is a(n) . . .	THEN check the box for . . .
• Corporation	Corporation
• Individual • Sole proprietorship, or • Single-member limited liability company (LLC) owned by an individual and disregarded for U.S. federal tax purposes.	Individual/sole proprietor or single-member LLC
• LLC treated as a partnership for U.S. federal tax purposes, • LLC that has filed Form 8832 or 2553 to be taxed as a corporation, or • LLC that is disregarded as an entity separate from its owner but the owner is another LLC that is not disregarded for U.S. federal tax purposes.	Limited liability company and enter the appropriate tax classification. (P= Partnership; C= C corporation; or S= S corporation)
• Partnership	Partnership
• Trust/estate	Trust/estate

Line 4, Exemptions

If you are exempt from backup withholding and/or FATCA reporting, enter in the appropriate space on line 4 any code(s) that may apply to you.

Exempt payee code.

- Generally, individuals (including sole proprietors) are not exempt from backup withholding.
- Except as provided below, corporations are exempt from backup withholding for certain payments, including interest and dividends.
- Corporations are not exempt from backup withholding for payments made in settlement of payment card or third party network transactions.
- Corporations are not exempt from backup withholding with respect to attorneys' fees or gross proceeds paid to attorneys, and corporations that provide medical or health care services are not exempt with respect to payments reportable on Form 1099-MISC.

The following codes identify payees that are exempt from backup withholding. Enter the appropriate code in the space in line 4.

1—An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2)

2—The United States or any of its agencies or instrumentalities

3—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

4—A foreign government or any of its political subdivisions, agencies, or instrumentalities

5—A corporation

6—A dealer in securities or commodities required to register in the United States, the District of Columbia, or a U.S. commonwealth or possession

7—A futures commission merchant registered with the Commodity Futures Trading Commission

8—A real estate investment trust

9—An entity registered at all times during the tax year under the Investment Company Act of 1940

10—A common trust fund operated by a bank under section 584(a)

11—A financial institution

12—A middleman known in the investment community as a nominee or custodian

13—A trust exempt from tax under section 664 or described in section 4947

The following chart shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 13.

IF the payment is for . . .	THEN the payment is exempt for . . .
Interest and dividend payments	All exempt payees except for 7
Broker transactions	Exempt payees 1 through 4 and 6 through 11 and all C corporations. S corporations must not enter an exempt payee code because they are exempt only for sales of noncovered securities acquired prior to 2012.
Barter exchange transactions and patronage dividends	Exempt payees 1 through 4
Payments over $600 required to be reported and direct sales over $5,000[1]	Generally, exempt payees 1 through 5[2]
Payments made in settlement of payment card or third party network transactions	Exempt payees 1 through 4

[1] See Form 1099-MISC, Miscellaneous Income, and its instructions.

[2] However, the following payments made to a corporation and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, gross proceeds paid to an attorney reportable under section 6045(f), and payments for services paid by a federal executive agency.

Exemption from FATCA reporting code. The following codes identify payees that are exempt from reporting under FATCA. These codes apply to persons submitting this form for accounts maintained outside of the United States by certain foreign financial institutions. Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) written or printed on the line for a FATCA exemption code.

A—An organization exempt from tax under section 501(a) or any individual retirement plan as defined in section 7701(a)(37)

B—The United States or any of its agencies or instrumentalities

C—A state, the District of Columbia, a U.S. commonwealth or possession, or any of their political subdivisions or instrumentalities

D—A corporation the stock of which is regularly traded on one or more established securities markets, as described in Regulations section 1.1472-1(c)(1)(i)

E—A corporation that is a member of the same expanded affiliated group as a corporation described in Regulations section 1.1472-1(c)(1)(i)

F—A dealer in securities, commodities, or derivative financial instruments (including notional principal contracts, futures, forwards, and options) that is registered as such under the laws of the United States or any state

G—A real estate investment trust

H—A regulated investment company as defined in section 851 or an entity registered at all times during the tax year under the Investment Company Act of 1940

I—A common trust fund as defined in section 584(a)

J—A bank as defined in section 581

K—A broker

L—A trust exempt from tax under section 664 or described in section 4947(a)(1)

M—A tax exempt trust under a section 403(b) plan or section 457(g) plan

Note: You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester,* later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at *www.SSA.gov*. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at *www.irs.gov/Businesses* and clicking on Employer Identification Number (EIN) under Starting a Business. Go to *www.irs.gov/Forms* to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to *www.irs.gov/OrderForms* to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code,* earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

For this type of account:	Give name and SSN of:
1. Individual	The individual
2. Two or more individuals (joint account) other than an account maintained by an FFI	The actual owner of the account or, if combined funds, the first individual on the account[1]
3. Two or more U.S. persons (joint account maintained by an FFI)	Each holder of the account
4. Custodial account of a minor (Uniform Gift to Minors Act)	The minor[2]
5. a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee[1]
b. So-called trust account that is not a legal or valid trust under state law	The actual owner[1]
6. Sole proprietorship or disregarded entity owned by an individual	The owner[3]
7. Grantor trust filing under Optional Form 1099 Filing Method 1 (see Regulations section 1.671-4(b)(2)(i)(A))	The grantor*
For this type of account:	**Give name and EIN of:**
8. Disregarded entity not owned by an individual	The owner
9. A valid trust, estate, or pension trust	Legal entity[4]
10. Corporation or LLC electing corporate status on Form 8832 or Form 2553	The corporation
11. Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
12. Partnership or multi-member LLC	The partnership
13. A broker or registered nominee	The broker or nominee
14. Account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district, or prison) that receives agricultural program payments	The public entity
15. Grantor trust filing under the Form 1041 Filing Method or the Optional Form 1099 Filing Method 2 (see Regulations section 1.671-4(b)(2)(i)(B))	The trust

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name and you may also enter your business or DBA name on the "Business name/disregarded entity" name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

[4] List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships*, earlier.

*Note: The grantor also must provide a Form W-9 to trustee of trust.

Note: If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at *spam@uce.gov* or report them at *www.ftc.gov/complaint*. You can contact the FTC at *www.ftc.gov/idtheft* or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see *www.IdentityTheft.gov* and Pub. 5027.

Visit *www.irs.gov/IdentityTheft* to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

BID TABULATION FORM

BOARD OF COUNTY COMMISSIONERS
MEETING MINUTES
May 28, 2019
Administration Building,
4th Floor, BCC Meeting Room, 477 Houston Street,
Green Cove Springs, FL 32043
4:00 PM

INVOCATION

Commissioner Rollins

PLEDGE

Commissioner Hutchings

CALL TO ORDER

Chairman Cella called the meeting to order at 4:02 P.M.

ROLL CALL

Present: Commissioner District 1 Chairman Mike Cella
Commissioner District 5 Vice Chairman Gayward Hendry
Commissioner District 2 Commissioner Wayne Bolla
Commissioner District 3 Commissioner Diane Hutchings
Commissioner District 4 Commissioner Gavin Rollins

Absent: None

Staff Present: Acting County Manager Lorin Mock
County Attorney Courtney K. Grimm
Commission Auditor Mike Price
Chief Assistant County Attorney Fran Moss

A MOMENT IN HISTORY

Vice Chairman Hendry reported of a plane crash that killed nine service men at Thunderbolt Field, piloted by Lt. Commander Lester Key, on June 14, 1951.

ARTWORK

There was no Artwork on the agenda.

PET ADOPTIONS

Kelly Kinney, Friends of Clay County Animals, brought two kittens to the meeting and asked for help from those who may want to consider fostering kittens taken to Animal Services.

APPROVAL OF MINUTES

Commissioner Rollins moved, seconded by Commissioner Hutchings, and carried 5-0, to approve the minutes for the May 14, 2019 and May 20, 2019 BCC meetings.

1. May 14, 2019 BCC Minutes

2. May 20, 2019 BCC Special Meeting Minutes

PUBLIC COMMENTS

No public comments were received.

CONSENT AGENDA

Commissioner Rollins moved, seconded by Commissioner Bolla, and carried 5-0, to approve the Consent Agenda as presented.

3. Finance Business

   The Finance Department business is submitted to request approval and ratification by the Board for various warrants and disbursements in order to meet the requirements of Ch. 136.06 (1), Fl Statute. Acceptance and disposal of various Board property and various documents are submitted for the Board's information. At times, approval is requested for various finance related issues.

4. Finance & Audit Committee Business

   Approval of the Finance & Audit Committee Minutes of May 21, 2019.

5. Tourist Development Council Committee Business

   Approval of the March 27, 2019 Tourist Development Council Meeting Minutes.

FINANCE AND AUDIT COMMITTEE
MEETING MINUTES
May 21, 2019
Administration Building,
4th Floor, BCC Meeting Room, 477 Houston Street,
Green Cove Springs, FL 32043
3:00 PM

PUBLIC COMMENTS

Chairman Hendry called the meeting to order at 3:00 P.M.

Chairman Hendry opened the public comment period.

There were no public comments to be heard.

Chairman Hendry closed the public comment period.

1. Solid Waste Collection Assessment Rate

   Approval of the Solid Waste Collection Assessment rate for Fiscal Year 2019-2020. This rate will be used in the preparation of the Solid Waste Collection Assessement Roll and included in the notice to affected property owners for the upcoming year. Funding Source: Revenue (M. Towns)

   After discussion, Commissioner Gayward Hendry moved, seconded by Commissioner Wayne Bolla, and Carried 2 - 0, to pull for full Board discussion at the May 28th BCC meeting.

2. Bid #18/19-17, Household Hazardous Waste Buildings

   Approval to post notice of intent and award Bid #18/19-17, Household Hazardous Waste Buildings to MCC Development, Inc. at a cost of $233,900.00. Approval will be effective after 72 hour period for protest has expired. Funding Source: 401-3802-562000 (Solid Waste Fund / Environmental Services / Buildings) (M. Towns)

   After discussion, Commissioner Gayward Hendry moved, seconded by Commissioner Wayne Bolla, and Carried 2 - 0, approval to go before the Board on the May 28th Consent Agenda.

3. Florida Department of Veterans' Affairs (FDVA) Memorandum of

Agreement

Approval of the Memorandum of Agreement with the Florida Department of Veterans' Affairs, formalizing the Interlocal relationship as an authorized user of FDVA's VetraSpec technology, for a term to continue until terminated by either party. Funding Source: Not Applicable (T. Nagle)

After discussion, Commissioner Gayward Hendry moved, seconded by Commissioner Wayne Bolla, and Carried 2 - 0, approval to go before the Board on the May 28th Consent Agenda.

4. RFP #18/19-2, Various Equipment and Amenities for Parks and Playgrounds

Approval to post notice of intent and to award RFP No. 18/19-2, Various Equipment and Amenities for Parks and Playgrounds, to multiple companies for a term of three years. All bids are based upon the % discount offered for products and service. This bid is also a means for qualifying vendors for Ball Park lighting services. Qualifying vendors will be requested to provide pricing on a project by project basis based on discount pricing.Approval will be effective after 72 hour bid protest period has expired. Submittals are available for review in the Purchasing Department. Funding Source: 001-3201-546100 (General Fund - Parks & Rec - Repairs & Maint) (J. Householder)

After discussion, Commissioner Gayward Hendry moved, seconded by Commissioner Wayne Bolla, and Carried 2 - 0, approval to go before the Board on the May 28th Consent Agenda.

5. Division of Historical Resources Grant Application for the Clay County Historical Courthouse Building Restoration Project

Approval to apply for a Department of State Historic Preservation Grant funding through the Division of Historical Resources for the Clay County Historical Courthouse Building Restoration Project. The grant requires a 50% match. The application deadline is June 1, 2019. Staff is still in the process of finalizing the grant application. (J. Householder)

James Householder, Director of Facilities & Maintenance, stated that the amount of the grant application is a total of $300,000.00 and that the required 50% County match of $150,000.00 is to be in the FY 19/20 County Budget.

After discussion, Commissioner Gayward Hendry moved, seconded by Commissioner Wayne Bolla, and Carried 2 - 0, approval to go before the Board on the May 28th Consent Agenda.

6. Discussion regarding Agreements related to the SWEAT Program

Discussion regarding the following Agreements related to the SWEAT

VILLAGE OF PALM SPRINGS
PRELIMINARY CAPITAL IMPROVEMENT PROJECT DETAIL

TASK # 286

Project Name: Lakewood Gardens Park Improvements
Department: Parks & Recreation
Location: Lakewood Gardens Park

Project Manager: Justin Lucas
Date Requested: 2/27/20
Date Approved: 10/1/20

DESCRIPTION / JUSTIFICATION:

Village annexed Lakewood Gardens Park in July 2014 from Palm Beach County. The existing park amenities remain the same as when it was acquired. Staff applied for and was awarded a Land Water Conservation Fund Grant in the amount of $400,000 (50-50 matching grant). Future amenities proposed include playground replacement, surfacing, shade, landscaping, resurface basketball court, upgrade volleyball court, picnic facility replacement, water fountain, trash cans and enhance the walking path. Survey and engineering was completed as part of LWCF Grant application. Village staff will serve as GC in order to best utilize project funding.

PROJECT EXPENDITURES / FUNDING SOURCES:

PROJECT COSTS:	FY1	FY2	FY3	FY4	FY5	FY6	TOTAL
Land/Easement Acquisition							$ 0.00
Site Preparation (clearing,soil testing,permitting,survey)							$ 0.00
Architectural Services							$ 0.00
Engineering Services	6,000.00						$ 6,000.00
Construction	394,000.00						$ 394,000.00

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.8: Approve Carol & Rex Avenue Stormwater Improvements Reconciliation (Change Order No. 1 & Closeout) (Task Order #250) - Public Service Department (FY 2021 Budget Funded - Stormwater Enterprise Fund) - DBF Construction

SUMMARY:

On November 12, 2020, the Village Council approved Task Order #250 with DBF Construction, Inc. for the Carol & Rex Ave Stormwater Improvements project in the amount of $279,839.00 for the installation of approximately 1400 linear feet of drainage pipe. There was a need to add a new stormwater collection system on Carol Avenue and Rex Avenue to improve the stormwater conveyance in these areas following years of flooding issues.

The work started on the project on January 28, 2021 and during the initial site excavation the contractor encountered two (2) force mains, one in the utility easement off Carol Avenue and the other on Rex Avenue, that were not indicated on the Village's as-builts, which required field adjustments to relocate the force mains and complete the installation of the new proposed storm pipe (proposed Change Order #1), minimizing the impact to the residents' sewer services. Additionally, sewer laterals (which were also not included on the recorded as-builts) were required to be re-routed from two (2) apartment buildings within the Rex Terrace community to ensure that they did not conflict with the proposed new storm line as well as other additional costs are for material quantity overages for materials needed above the Engineer's estimates. The project was substantially completed and inspected on March 24, 2021, 155 days ahead of schedule, and with minimal punch items identified and completed.

Note: The awarded original contract had no provisions for a contingency, though the project is expected to come in $6,689.04 under budget (final engineering bills have yet to be submitted but are expected to be within the contract amount).

As a result, the Village's Public Service Department is requesting approval of a final

reconciliation change order (Change Order #1) with DRMP in the amount of $37,598.58.

The final reconciliation (close out) for the Carol & Rex Ave Stormwater Improvements contract to DBF Construction is as follows:

Work to be Completed	**Contract Amount**	**Contract Time**
Original Contract Amount	$ 279,839.00	240
Add: Change Order No. 1	$ 37,598.58	0
Final Revised Contract Amount	**$ 317,437.58**	**240**

If approved, the revised total construction cost of the Carol & Rex Ave Stormwater Improvements project within Task Order #250 will be $317,437.58 and the total contract time will be 240 days.

No additional change orders are anticipated for this project. Construction work is complete and, if approved, the contract will be closed out.
The proposed reconciliation (Change Order No. 1 & Close Out) was prepared by DBF Construction, Inc. and reviewed by the Village's Contracted Engineer, Public Service Assistant Director/Engineer, Public Service Project Manager, Village Attorney and Finance Director.

FISCAL IMPACT:

Funding to support Carol & Rex Avenue Stormwater Improvements project (Task Order No. 250) was provided within the Stormwater Enterprise Fund:

Allocated/Estimated Project Funding:	***Amount***
FY 2019 Actual - Stormwater Enterprise Fund	$ 6,260.00
FY 2020 Actual - Stormwater Enterprise Fund	$ 33,185.62
FY 2021 Approved Budget - Stormwater Enterprise Fund	$ 354,411.00
TOTAL ALLOCATED/APPROVED BUDGET:	**$ 393,856.62**

Expected Project Costs:	***Amount***
Original Project Award - Design & Engineering - Stormwater Fund (TO #250)	$ 69,730.00
Original Project Bid Award – Construction - Stormwater Fund (TO #250)	$ 279,839.00
Change Order #1 - Construction - Stormwater Fund (TO #250)	$ 37,598.58
TOTAL REVISED PROJECT COSTS:	**$ 387,167.58**

The Village will not expend more than the amount in the approved budget as it may be adopted / approved each year for these goods and services for the term of the contract.

ATTACHMENTS:
Proposed Change Order #1 - DBF Construction, Inc.
Agreement - DBF Construction, Inc.

Change Order No. 1

Date of Issuance:	April 16, 2021	Effective Date:	
Owner:	Village of Palm Springs	Owner's Task Order No.:	250
Contractor:	DBF Construction	ITB No.:	2020B-009
Engineer:	DRMP, Inc.	Engineer's Project No.:	18-0488.001
Project:	Carol & Rex Ave Stormwater Improvements	Work Authorization:	DRMP-G01

The Contract is modified as follows upon execution of this Change Order:

Description: Performed two (2) force main deflections and sewer service laterals redirected due to conflicts with proposed new storm lines and all associated work. These services were not located on any Village as-builts, therefore it was an unforeseen condition. There were also line item overages from original Engineer estimate that was verified and confirmed in the field (i.e., sod, asphalt, concrete, storm pipe, grouting, and pavers).

Attachments: Change order record with line item breakdown.

AGREEMENT
BETWEEN OWNER AND CONTRACTOR
FOR CONSTRUCTION CONTRACT (STIPULATED PRICE)

THIS AGREEMENT is by and between Village of Palm Springs ("Owner") and DBF Construction, LLC ("Contractor").

Owner and Contractor hereby agree as follows:

ARTICLE 1 – WORK

1.01 Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

ARTICLE 2 – THE PROJECT

2.01 The Project, of which the Work under the Contract Documents is a part, is generally described as follows: Carol & Rex Avenue Stormwater Improvements

ARTICLE 3 – ENGINEER

3.01 The part of the Project that pertains to the Work has been designed by DRMP, Inc.

3.02 The Village Inspector ("Engineer") will act as Owner's representative, assume all duties and responsibilities, and have the rights and authority assigned to Engineer in the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.

ARTICLE 4 – CONTRACT TIMES

4.01 Time of the Essence

A. All time limits for Milestones, if any, Substantial Completion, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract.

4.02 Contract Times: Days

A. The Work will be substantially completed within 210 days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 240 days after the date when the Contract Times commence to run.

4.03 Liquidated Damages

A. Contractor and Owner recognize that time is of the essence as stated in Paragraph 4.01 above and that Owner will suffer financial and other losses if the Work is not completed and Milestones not achieved within the times specified in Paragraph 4.02 above, plus any extensions thereof allowed in accordance with the Contract. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of

requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty):

1. Substantial Completion: Contractor shall pay Owner $500 for each day that expires after the time (as duly adjusted pursuant to the Contract) specified in Paragraph 4.02.A above for Substantial Completion until the Work is substantially complete.
2. Completion of Remaining Work: After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Times (as duly adjusted pursuant to the Contract) for completion and readiness for final payment, Contractor shall pay Owner $200 for each day that expires after such time until the Work is completed and ready for final payment.
3. Liquidated damages for failing to timely attain Substantial Completion and final completion are not additive and will not be imposed concurrently.

4.04 Special Damages

A. In addition to the amount provided for liquidated damages, Contractor shall reimburse Owner (1) for any fines or penalties imposed on Owner as a direct result of the Contractor's failure to attain Substantial Completion according to the Contract Times.

ARTICLE 5 – CONTRACT PRICE

5.01 Owner shall pay Contractor for completion of the Work in accordance with the Contract Documents the amounts that follow, subject to adjustment under the Contract:

A. For all Work other than Unit Price Work, a lump sum of: $_____.

All specific cash allowances are included in the above price in accordance with Paragraph 13.02 of the General Conditions.

B. For all Unit Price Work, an amount equal to the sum of the extended prices (established for each separately identified item of Unit Price Work by multiplying the unit price times the actual quantity of that item):

(See Unit Price Breakdown in Bid Form 00410 provide at bid time)

Unit Price Work					
Item No.	**Description**	**Unit**	**Estimated Quantity**	**Unit Price**	**Extended Price**
Total of all Extended Prices for Unit Price Work (subject to final adjustment based on actual quantities)					$279,839.00

The extended prices for Unit Price Work set forth as of the Effective Date of the Contract are based on estimated quantities. As provided in Paragraph 13.03 of the General Conditions, estimated quantities are not guaranteed, and determinations of actual quantities and classifications are to be made by Engineer.

C. Total of Lump Sum Amount and Unit Price Work (subject to final Unit Price adjustment) $ 279,839.00 .

D. For all Work, at the prices stated in Contractor's Bid, attached hereto as an exhibit.

ARTICLE 6 – PAYMENT PROCEDURES

6.01 Submittal and Processing of Payments

A. Contractor shall submit Applications for Payment in accordance with Article 15 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 Progress Payments; Retainage

A. Owner shall make progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment on or about the 20th day of each month during performance of the Work as provided in Paragraph 6.02.A.1 below, provided that such Applications for Payment have been submitted in a timely manner and otherwise meet the requirements of the Contract. All such payments will be measured by the Schedule of Values established as provided in the General Conditions (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no Schedule of Values, as provided elsewhere in the Contract.

a. Prior to Substantial Completion, progress payments will be made in accordance with Florida Statute 255.078 but, in each case, less the aggregate of payments previously made and less such amounts as Owner may withhold, including but not limited to liquidated damages, in accordance with the Contract.

B. Upon Substantial Completion, Owner shall pay an amount sufficient to increase total payments to Contractor to 100 percent of the Work completed, less such amounts set off by Owner pursuant to Paragraph 15.01.E of the General Conditions, and less 200 percent of Engineer's estimate of the value of Work to be completed or corrected as shown on the punch list of items to be completed or corrected prior to final payment.

6.03 Final Payment

A. Upon final completion and acceptance of the Work in accordance with Paragraph 15.06 of the General Conditions, Owner shall pay the remainder of the Contract Price as recommended by Engineer as provided in said Paragraph 15.06.

ARTICLE 7 – INTEREST

7.01 All amounts not paid when due shall bear interest at the rate of 1 percent per annum.

ARTICLE 8 – CONTRACTOR'S REPRESENTATIONS

8.01 In order to induce Owner to enter into this Contract, Contractor makes the following representations:

A. Contractor has examined and carefully studied the Contract Documents, and any data and reference items identified in the Contract Documents.

B. Contractor has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Contractor is familiar with and is satisfied as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Contractor has considered the information known to Contractor itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; and the Site-related reports and drawings identified in the Contract Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor; and (3) Contractor's safety precautions and programs.

E. Based on the information and observations referred to in the preceding paragraph, Contractor agrees that no further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract.

F. Contractor is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.

G. Contractor has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Contractor has discovered in the Contract Documents, and the written resolution thereof by Engineer is acceptable to Contractor.

H. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

I. Contractor's entry into this Contract constitutes an incontrovertible representation by Contractor that without exception all prices in the Agreement are premised upon performing and furnishing the Work required by the Contract Documents.

ARTICLE 9 – CONTRACT DOCUMENTS

9.01 Contents

A. The Contract Documents consist of the following:

1. This Agreement (pages 1 to 11 inclusive).
2. Performance bond (pages 1 to 3 inclusive).
3. Payment bond (pages 1 to 3 inclusive).
4. General Conditions (pages 1 to 65 inclusive).
5. Supplementary Conditions (pages 1 to 10 inclusive).
6. Specifications as listed in the table of contents of the Project Manual.
7. Drawings listed on the attached sheet index.
8. Addenda (numbers 1 to 1, inclusive).
9. Exhibits to this Agreement (enumerated as follows):
    a. Contractor's Bid (pages 1 to 65, inclusive).
10. The following which may be delivered or issued on or after the Effective Date of the Contract and are not attached hereto:
    a. Notice to Proceed.

b. Work Change Directives.

c. Change Orders.

d. Field Orders.

B. The documents listed in Paragraph 9.01.A are attached to this Agreement (except as expressly noted otherwise above).

C. There are no Contract Documents other than those listed above in this Article9.

D. The Contract Documents may only be amended, modified, or supplemented as provided in the General Conditions.

ARTICLE 10 – MISCELLANEOUS

10.01 Terms

A. Terms used in this Agreement will have the meanings stated in the General Conditions and the Supplementary Conditions.

10.02 Assignment of Contract

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

10.03 Successors and Assigns

A. Owner and Contractor each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

10.04 Severability

A. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

10.05 Contractor's Certifications

A. Contractor certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 10.05:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process or in the Contract execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process or the execution of the Contract to the detriment of Owner, (b) to establish Bid or Contract prices at artificial non-competitive levels, or (c)

to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish Bid prices at artificial, non-competitive levels; and

4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

10.06 Indemnity

A. The parties recognize that the CONTRACTOR is an independent contractor. The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the VILLAGE, its council members, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, Contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Contract. The CONTRACTOR's liability hereunder shall include all attorney's fees and costs incurred by the VILLAGE in the enforcement of this indemnification provision. This includes claims made by the employees of the CONTRACTOR against the VILLAGE and the CONTRACTOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. The obligations contained in this provision shall survive termination of this Contract and shall not be limited by the amount of any insurance required to be obtained or maintained under this Contract.

B. Subject to the limitations set forth in this Section, CONTRACTOR shall assume control of the defense of any claim asserted by a third party against the VILLAGE and, in connection with such defense, shall appoint lead counsel, in each case at the CONTRACTOR's expense. The VILLAGE shall have the right, at its option, to participate in the defense of any third party claim, without relieving CONTRACTOR of any of its obligations hereunder. If the CONTRACTOR assumes control of the defense of any third party claim in accordance with this paragraph, the CONTRACTOR shall obtain the prior written consent of the VILLAGE before entering into any settlement of such claim. Notwithstanding anything to the contrary in this Section, the CONTRACTOR shall not assume or maintain control of the defense of any third party claim, but shall pay the fees of counsel retained by the VILLAGE and all expenses, including experts' fees, if (i) an adverse determination with respect to the third party claim would, in the good faith judgment of the VILLAGE, be detrimental in any material respect to the VILLAGE's reputation; (ii) the third party claim seeks an injunction or equitable relief against the VILLAGE; or (iii) the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim. Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith.

C. It is the specific intent of the parties hereto that the foregoing indemnification complies with Section 725.06, Florida Statutes, as amended. CONTRACTOR expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statues. Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the VILLAGE may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

10.07 Governing Law and Remedies

A. The validity of this Agreement and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue for any and all disputes related to or arising from this Agreement shall be in Palm Beach County, Florida.

B. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

10.08 Office of the Inspector General

A. Palm Beach County has established the Office of the Inspector General, which is authorized and empowered to review past, present, and proposed County programs, contracts, transactions, accounts and records. The Inspector General (IG) has the power to subpoena witnesses, administer oaths, require the production of records, and monitor existing projects and programs. The Inspector General may, on a random basis, perform audits on all Village contracts.

10.09 Public Records

A. The CONTRACTOR shall comply with Florida's Public Records Laws, Chapter 119, Florida Statutes, and, if it is acting on behalf of the VILLAGE as provided under section 119.011(2), the CONTRACTOR specifically agrees to:

1. Keep and maintain public records required by the VILLAGE to perform the services under this Agreement.

2. Upon request from the VILLAGE's custodian of public records, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable tie at a cost that does not exceed the cost provided in this Chapter 119, Florida Statutes, or as otherwise provided by law.

3. Ensure that said public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement, if the CONTRACTOR does not transfer the records to the VILLAGE.

4. Upon the completion of the Agreement, transfer, at no cost, to the VILLAGE all public records in possession of the CONTRACTOR or keep and maintain public records required by the VILLAGE to perform the services. If the CONTRACTOR transfers all public records to the VILLAGE upon completion of the Agreement, the CONTRACTOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the CONTRACTOR keeps and maintains public records upon completion of the Agreement, the CONTRACTOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the VILLAGE, upon request from the VILLAGE's custodian of public records, in a format that is compatible with the information technology systems of the Village.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO

THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

10.10 Insurance

A. The limits of liability for insurance required by Paragraph 6.03 of the General Conditions shall provide coverage for not less that the following amounts or greater where required by Law and Regulations:

1. Workers' Compensation, and related coverages under Paragraphs 6.03.A.1 and A.2 of the General Conditions:

a.	State	Statutory
b.	Applicable Federal	Statutory
c.	Employer Liability:	
	Bodily injury, each accident	$1,000,000
	Bodily injury by disease, each employee	$500,000
	Bodily injury/disease aggregate	$1,000,000
d.	Foreign voluntary worker compensation	Statutory

2. Contractor's Commercial General Liability under Paragraphs 6.03.B and 6.03.C of the General Conditions:

a.	General Aggregate	$2,000,000
b.	Products – Completed Operations Aggregate	$2,000,000
c.	Personal and Advertising Injury	$1,000,000
d.	Each Occurrence (Bodily Injury and Property Damage)	$1,000,000

3. Automobile Liability under paragraph 6.03.D of the General Conditions:

a.	Bodily Injury:	
	Each Person	$500,000
	Each Accident	$1,000,000
b.	Property Damage:	
	Each Incident	$1,000,000

4. Umbrella of Excess Liability under paragraph 6.03.E of the General Conditions:

a.	Excess or Umbrella Liability	
	1) General Aggregate	$5,000,000
	2) Each Occurrence	$1,000,000

5. Contractor's Pollution Liability under paragraph 6.03.F of the General Conditions:

a.	Contractor's Pollution Liability	
	1) General Aggregate	$2,000,000
	2) Each Occurrence	$1,000,000

6. Additional Insureds include the respective officers, partners, directors, employees, agents, consultants, and subconsultants of the following firms and municipal government(s):

a. Village of Palm Springs

10.11 Audit By Village

A. The CONTRACTOR shall permit the VILLAGE, or any authorized representatives of the VILLAGE, at all reasonable times, access to and the right to examine all records, books, papers or documents related to the CONTRACTOR's performance under this Agreement including, but not limited to, expenses for sub-contractors, agents or assistants, direct and indirect charges for work performed and detailed documentation for all such work performed or to be performed under this Agreement.

10.12 Copies of Data/Documents

A. Copies or original documents prepared by the CONTRACTOR in relation to work associated with this Agreement shall be provided to the VILLAGE. Data collected, stored, and/or provided shall be in a form acceptable to the VILLAGE and agreed upon by the VILLAGE.

10.13 Ownership

A. Each and every report, draft, work product, map, record, and other document reproduced, prepared, or caused to be prepared by the CONTRACTOR pursuant to or in connection with this Agreement shall be the exclusive property of the VILLAGE.

10.14 Limitations of Liability

A. Under no circumstances shall either party be liable to the other for any consequential, incidental, special, punitive, or any other form of indirect or non-compensatory damages.

10.15 Enforcement Costs

A. All parties shall be responsible for their own attorneys' fees, court costs and expenses if any legal action or other proceeding is brought for any dispute, disagreement, or issue of construction or interpretation arising hereunder whether relating to the Agreement's execution, validity, the obligations provided therein, or performance of this Agreement, or because of an alleged breach, default or misrepresentation in connection with any provisions of this Agreement.

10.16 Copyrights and/or Patent Rights

A. CONTRACTOR warrants that there has been no violation of copyrights and/or patent rights in the manufacturing, producing or selling of the goods, shipped or ordered, as a result of this Agreement and the CONTRACTOR agrees to hold the Village harmless from any and all liability, loss, or expense occasioned by any such violation.

10.17 Protection of Property

A. The CONTRACTOR shall at all times guard against damage or loss to the property of the VILLAGE or of other vendors or contractors and shall be held responsible for replacing or repairing any such loss or damage. The VILLAGE may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the successful CONTRACTOR or its agents. The CONTRACTOR shall be responsible to safeguard all of their property such as tools and equipment while on site. The VILLAGE will not be held responsible for any loss of CONTRACTOR property due to theft or vandalism.

10.18 Damage to Persons or Property

A. The responsibility for all damage to person or property arising out of or on account of Scope of Work done under this Contract shall rest upon the CONTRACTOR.

10.19 Discrimination

A. The CONTRACTOR warrants and represents that all of its employees are treated equally

during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, political affiliation, marital status, handicap, or sexual orientation. Further, CONTRACTOR shall not discriminate or permit discrimination against any employee or an applicant for employment on the basis of race, color, sex, religion, political affiliation, natural origin, ancestry, marital status, sexual orientation or handicap.

10.20 Construction Defects

A. PURSUANT TO SECTION 558.005, FLORIDA STATUTES, ANY CLAIMS FOR CONSTRUCTION DEFECTS ARE NOT SUBJECT TO THE NOTICE AND CURE PROVISIONS OF CHAPTER 558, FLORIDA STATUTES.

10.21 Public Entity Crimes

A. Contractor acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier or sub-contractor under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statues, for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list. The Contractor will advise the Village immediately if it becomes aware of any violation of this statute.

10.22 Scrutinized Companies

A. Contractor certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List and are not engaged in the boycott of Israel. Pursuant to section 287.135, Florida Statutes, the City may immediately terminate this Agreement at its sole option if the Contractor or any of its subcontractors are found to have submitted a false certification; or if the Contractor or any of its subcontractors, are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of this Agreement.

B. If this Agreement is for one million dollars or more, the Contractor certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged in business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, the City may immediately terminate this Agreement at its sole option if the Contractor, or any of its subcontractors are found to have submitted a false certification; or if the Contractor or any of its subcontractors are placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or are or have been engaged with business operations in Cuba or Syria during the term of this Agreement.

C. The Contractor agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under this Agreement.

D. The Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the term of this Agreement, including any and all renewals.

E. The Contractor agrees that if it or any of its subcontractors' status changes in regards to any certification herein, the Contractor shall immediately notify the City of the same.

F. As provided in Subsection 287.135(8), Florida Statutes, if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

10.23 E-Verify

A. Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the CONTRACTOR shall:

1. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all Subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the Subcontractors' newly hired employees;
2. Secure an affidavit from all Subcontractors (providing services or receiving funding under this Agreement) stating that the Subcontractor does not employ, contract with, or subcontract with an "unauthorized alien" as defined in Section 448.095(1)(k), Florida Statutes;
3. Maintain copies of all Subcontractor affidavits for the duration of this Agreement and provide the same to the Owner upon request;
4. Comply fully, and ensure all of its Subcontractors comply fully, with Section 448.095, Florida Statutes;
5. Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and,
6. Be aware that if the Owner terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the Contractor may not be awarded a contract for at least 1 year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the Village as a result of the termination of the Agreement.

IN WITNESS WHEREOF, Owner and Contractor have signed this Agreement.

This Agreement will be effective on 12/10/20 (which is the Effective Date of the Contract).

BID FORM

ARTICLE 1 – BID RECIPIENT

1.01 This Bid is submitted to:

VILLAGE OF PALM SPRINGS

C/O Kimberly Wynn, Village Clerk

226 Cypress Lane, Palm Springs, FL 33461

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 – BIDDER'S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 120 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

ARTICLE 3 – BIDDER'S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

Addendum No.	Addendum, Date
1	10/7/2020

B. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.

E. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder's safety precautions and programs.

F. Bidder agrees, based on the information and observations referred to in the preceding paragraph, that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.

G. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.

H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and confirms that the written resolution thereof by Engineer is acceptable to Bidder.

I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work.

J. The submission of this Bid constitutes an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, and that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.

ARTICLE 4 – BIDDER'S CERTIFICATION

4.01 Bidder certifies that:

A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;

B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;

C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and

D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and

4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the e execution of the Contract.

ARTICLE 5 – BASIS OF BID

5.01 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

UNIT PRICE BID

24	PAINTED PAVEMENT MARKINGS, STANDARD, YELLOW, 6"	LF	34	$ 47.50	$ 1,615.00
Total of All Unit Price Bid Items					$279,839.00

Bidder acknowledges that (1) each Bid Unit Price includes an amount considered by Bidder to be adequate to cover Contractor's overhead and profit for each separately identified item, and (2) estimated quantities are not guaranteed, and are solely for the purpose of comparison of Bids, and final

payment for all unit price Bid items will be based on actual quantities, determined as provided in the Contract Documents.

Total Bid Price $ 279,839.00

Two hundred seventy nine thousand dollars eight hundred thirty nine with zero cents

ARTICLE 6 – TIME OF COMPLETION

6.01 Bidder agrees that the Work will be substantially complete within 210 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 240 calendar days after the date when the Contract Times commence to run.

6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 7 – ATTACHMENTS TO THIS BID

7.01 The following documents are submitted with and made a condition of this Bid:

A. Required Bid security;

B. List of Proposed Subcontractors;

C. List of Proposed Suppliers;

D. List of Project References;

E. Evidence of authority to do business in the state of the Project; or a written covenant to obtain such license within the time for acceptance of Bids;

F. Contractor's License No.: CGC1512467 / CUC1224328

G. Required Bidder Qualification Statement with supporting data; and

OLD REPUBLIC SURETY COMPANY

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That OLD REPUBLIC SURETY COMPANY, a Wisconsin stock insurance corporation, does make, constitute and appoint:

GUS E. ZERVOS, STEPHEN M. ZERVOS, DAVID C. LANGE, ANGELO G. ZERVOS, MICHAEL G. ZERVOS, DONALD W. BURDEN, OF SOUTHFIELD, MI

its true and lawful Attorney(s)-in-Fact, with full power and authority, for and on behalf of the company as surety, to execute and deliver and affix the seal of the company thereto (if a seal is required), bonds, undertakings, recognizances or other written obligations in the nature thereof, (other than bail bonds, bank depository bonds, mortgage deficiency bonds, mortgage guaranty bonds, guarantees of installment paper and note guaranty bonds, self-insurance workers compensation bonds guaranteeing payment of benefits, asbestos abatement contract bonds, waste management bonds, hazardous waste remediation bonds or black lung bonds), as follows:

ALL WRITTEN INSTRUMENTS

and to bind OLD REPUBLIC SURETY COMPANY thereby, and all of the acts of said Attorneys-in-Fact, pursuant to these presents, are ratified and confirmed. This appointment is made under and by authority of the board of directors at a special meeting held on February 18, 1982. This Power of Attorney is signed and sealed by facsimile under and by the authority of the following resolutions adopted by the board of directors of the OLD REPUBLIC SURETY COMPANY on February 18, 1982.

RESOLVED that, the president, any vice-president, or assistant vice president, in conjunction with the secretary or any assistant secretary, may appoint attorneys-in-fact or agents with authority as defined or limited in the instrument evidencing the appointment in each case, for and on behalf of the company to execute and deliver and affix the seal of the company to bonds, undertakings, recognizances, and suretyship obligations of all kinds; and said officers may remove any such attorney-in-fact or agent and revoke any Power of Attorney previously granted to such person.

RESOLVED FURTHER, that any bond, undertaking, recognizance, or suretyship obligation shall be valid and binding upon the Company
(i) when signed by the president, any vice president or assistant vice president, and attested and sealed (if a seal be required) by any secretary or assistant secretary; or
(ii) when signed by the president, any vice president or assistant vice president, secretary or assistant secretary, and countersigned andsealed (if a seal be required) by a duly authorized attorney-in-fact or agent; or
(iii) when duly executed and sealed (if a seal be required) by one or more attorneys-in-fact or agents pursuant to and within the limits ofthe authority evidenced by the Power of Attorney issued by the company to such person or persons.

RESOLVED FURTHER, that the signature of any authorized officer and the seal of the company may be affixed by facsimile to any Power of Attorney or certification there of authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the company; and such signature and seal when so used shall have the same force and effect as though manually affixed.

IN WITNESS WHEREOF, OLD REPUBLIC SURETY COMPANY has caused these presents to be signed by its proper officer, and its corporate seal to be affixed this 12TH day of MAY, 2020.

SECTION 00454
DRUG-FREE WORKPLACE CERTIFICATE

I, the undersigned, in accordance with Florida Statute 287.087, hereby certify that _____
DBF Construction, LLC (Print or Type Name of Firm)

- Publishes a written statement notifying that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace named above, and specifying actions that will be taken against violations of such prohibition.
- Informs employees about the dangers of drug abuse in the workplace; the firm's policy of maintaining a drug-free working environment and available drug counseling, rehabilitation, and employee assistance programs; and the penalties that may be imposed upon employees for drug-use violations.
- Gives each employee engaged in providing commodities or contractual services that are under bid or proposal a copy of the statement specified above.
- Notifies the employees that as a condition of working on the commodities or contractual services under bid or proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of or plea of guilty or nolo contendere to any violation of Chapter 1893 or any controlled substance law of the State of Florida or the United States for a violation occurring in the workplace, no later than 5 days after such conviction, and requires employees to sign copies of such written statement to acknowledge their receipt.
- Imposes a sanction on or requires the satisfactory participation in a drug-abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
- Makes a good faith effort to continue to maintain a drug-free workplace through the implementation of the drug-free workplace program.

"As a person authorized to sign this statement, I certify that the business, firm, or corporation named above complies fully with the requirements set forth herein."

SECTION 00455
SWORN STATEMENT UNDER SECTION 287.133(3)(a),
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

(To be signed in the presence of a notary public or other officer authorized to administer oaths.)

STATE OF Florida

COUNTY OF Broward

Before me, the undersigned authority, personally appeared Mark Giannetti, who, being by me first duly sworn, made the following statement:

1. The business address of DBF Construction, LLC
(firm name of Bidder/Contractor)

is 3710 Park Central Boulevard North ,Pompano Beach, FL, 33064.

2. My relationship to DBF Construction, LLC
(firm name of Bidder/Contractor)

is Vice President.
(relationship such as sole proprietor, partner, president, vice president)

3. I understand that a "public entity crime" as defined in Section 287.133 of the Florida Statutes includes a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity in Florida or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or such an agency or political subdivision and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

4. I understand that "convicted" or "conviction" is defined by the statute to mean a finding of guilt or a conviction of a public entity crime, with or without adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

5. I understand that "affiliate" is defined by the statute to mean (1) a predecessor or successor of a person or a corporation convicted of a public entity crime; or (2) an entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime; or (3) those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate; or (4) a person or corporation who knowingly entered into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months.

6. Neither the Bidder/Contractor nor any officer, director, executive, partner, shareholder, employee, member or agent who is active in the management of the Bidder/Contractor, nor any affiliate of the Bidder/Contractor, has been convicted of public entity crime subsequent to July 1, 1989.

(Draw a line through Paragraph 6 if Paragraph 7 below applies.)

7. There has been a conviction of a public entity crime by the Bidder/Contractor, or an officer, director, executive, partner, shareholder, employee, member or agent of the Bidder/Contractor who is active in the management of the Bidder/Contractor or an affiliate of the Bidder/Contractor. A determination has been made pursuant to Section 287.133(3) by order of the Division of Administrative Hearings that it is not in the public interest for the name of the convicted person or affiliate to appear on the convicted vendor list. The name of the convicted person or affiliate is_____.

A copy of the order of the Division of Administrative Hearings is attached to this statement.

(Draw a line through Paragraph 7 if Paragraph 6 above applies.)

(Signature)

Sworn to and subscribed to before me in the State and County first mentioned above on the 12th day of October, 20 20.

SECTION 00456
SCRUTINIZED COMPANIES CERTIFICATION FORM

By execution below, I, Mark Giannetti, on behalf of DBF Construction, LLC (hereinafter, the "Contractor"), hereby swear or affirm to the following certifications:

The following certifications apply to all procurements:

1. The Contractor has reviewed section 215.4725, Florida Statutes, section 215.473, Florida Statutes and section 287.135, Florida Statutes, and understands the same.
2. The Contractor is not on the Scrutinized Companies that Boycott Israel List nor is the Contractor engaged in a boycott of Israel.
3. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
4. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

If the contract awarded hereunder is for one million dollars or more, the following additional certifications apply:

1. The Contractor is not on the Scrutinized Companies with Activities in Sudan List.
2. The Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.
3. The Contractor is not engaged in business operations in Cuba or Syria.
5. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
6. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

CONTRACTOR:
By: _____
Name: Mark Giannetti
Title: Vice President
Date: 10/12/2020

CHRIS@DBF-CONSTRUCTION.COM

954-892-0678

EXPERIENCE

Equipment operator / Foreman / Superintendent / Project Manager / Estimator

Dates From 1982 to 1990

Iacobelli Contracting, Inc.

Medley, Florida

Performed multiple tasks on large diameter transmission mains for Miami Dade Water & Sewer Authority

Tasks included:

- Planning laying schedules
- Coordinating crews for installation, cleaning, joint welding, testing, & restoration

Also oversaw all heavy equipment maintenance and repair

OWNER / PRESIDENT OF COASTAL UTILITIES, INC. COOPER CITY, FL.

Dates From 1990 - 1997

Completed approximately $30 million of Water Main, Sanitary Sewer, & Storm Drainage Improvements in the Dade, Broward, Palm Beach, & Monroe Counties

Project Manager / Estimator

Megan South, LLC

Davie, Fl.

Dates From 1997 - 2001

Completed approximately $10 million of

Earthwork, Water Main, Sanitary Sewer, Storm Drainage, & Roadway construction within Dade, Broward, Palm Beach, & Monroe Counties

Part Owner / Estimator / Project Manager

GMI Contracting, Inc.

Davie, Fl.

Dates From 2001 - 2012

Completed approximately $15 million of Earthwork, Water Main, Sanitary Sewer, Storm Drainage, & Roadway Construction within Dade, Broward, Palm Beach, & Monroe Counties.

Project Superintendent / Estimator

Charlie Frymyer Paving, Inc.

Davie, Fl.

Dates from 2012 – 2014

Completed:

- 3,500 LF Water Main
- 3,500 LF Force Main
- 1,200 LF of Poured in place concrete containment (30' wide x 4' high within the Fort Lauderdale Airport Runway expansion and US 1Tunnel Project
- Several thousand LF of Storm Drainage (15" up to 60" RCP) within the Fort Lauderdale Airport Terminal 4 Improvements

Project Manager / Estimator

TV Diversified, LLC

Lake Worth, Fl.

Dates from 2014 – 2016

Completed approximately $6 million of Lift Station Rehabilitation, Water Main Improvements, Sanitary Sewer Point Repairs, & Treatment Plant Improvements

Project Superintendent

All County Paving, Inc.

Delray Beach, Fl.

Dates from 2016 - 2018

Oversaw multiple crews and subcontractors on the Hard Rock Stadium Site Improvements Project including Demolition, Water Main, Storm Drainage, Sanitary Sewer, Textured Concrete, Brick Pavers, Curb & Gutter, Parking Lot Reconstruction, Striping / Signage, & Landscaping,

Also oversaw the scheduling, Inspection, material requirements, equipment allocation, and manpower allocation for multiple Road Building crews on a Neighborhood Improvement project in Davie, Fl.

SAFETY PLAN

PROJECT: Washington Road Improvements

INTRODUCTION

It is the policy of **DBF Construction, LLC** to provide a safe workplace for its employees. To this end, the company, in correct with employees, will seek to comply with all applicable standards promulgated pursuant to the Florida Occupation Safety and Health Act

Any questions regarding this document should be addressed to:

Safety Officer: Spencer Mart

954-532-9869

DBF Construction, LLC

Safety Standards

It is the policy of this company to keep its employees informed of all safety rules contained in the Construction Safety Standards and the Occupational Health Standards.

Any employee may obtain a copy of any of the above referenced standards by contacting the company Safety Officer.

DBF Construction, LLC

Accident Prevention Program/General Safety Rules

1. It is the policy of **DBF Construction, LLC** to furnish each employee employment which is free from recognized hazards that are causing or are likely to cause death or serious physical harm to such employee.

2. **DBF Construction, LLC** designates Spencer Mart as corporate Safety Officer. This person is responsible for the implementation of the Company's safety program. If any employee needs to know who the company Safety Office is, they can find out by asking any foreman.

3. When practical, employees of **DBF Construction, LLC** will participate in safety seminars sponsored by the Associated Underground Contractors, Inc., and / or other organizations.

4. The Safety Officer shall designate a qualified employee on each crew or project who will have the following responsibilities:

    a) Instruct each employee regarding operating procedures, hazards and safeguards of tools and equipment when necessary to perform the job.

    b) Inspect the construction site, tools and equipment to assure unsafe conditions that may create a hazard are eliminated.

    c) Instruct each employee in the recognition and avoidance of hazards.

    d) Instruct each employee, where known harmful plants, reptiles, animals or insects are present, as to the potential hazards, how to avoid injury, and applicable first aid procedures to be used in the event of an injury.

    e) Instruct each employee required to handle or use known poisons, toxic materials, caustics and other harmful substances regarding the potential hazards, safe handling, use, personal hygiene, protective measures require and applicable first aid procedures to be used in the event of injury.

    f) Instruct each employee required to enter a confined space regarding the hazards involved, the necessary precautions to be taken, the use of personal protective equipment, and the procedures to be followed if an emergency occurs.

    g) Instruct all employees in the steps to be taken in case of an injury or accident.

5. DBF Construction, LLC shall not knowingly permit an employee to work while under the influence of intoxicating beverages or substances which would impair the employee's ability to perform a task in a safe manner. Additionally, no employee shall possess/ use intoxicating beverages or controlling substances at any DBF Construction, LLC site or facility. Any employee violating this policy is subject to immediate dismissal.

6. The job foreman will inspect all machines, tools and equipment on a regular basis to make certain that no defect is present that will affect the safety of employees.

7. All employees' complaints or concern regarding safety shall be immediately brought to the attention of the Safety Officer.

8. Periodic meetings will be held to inform all employees of the company safety program.

9. This safety program shall be made available to all employees.

10. A copy of the AUC *Trench Safety Handbook* shall be made available to all employees who are involved in working in open excavations.

11. Employees will adhere to the following Safety Rules:

A. Miscellaneous Rules

a) Do not use tools or equipment that you have not been trained or authorized to use. This rule also applies to power-actuated tools.
b) Gasoline must be stored and transported in approved cans only. Engines must be shut off when refueling and no smoking anywhere near flammable liquids.
c) Immediately report all injuries, whether to yourself or a co-worker, to your foreman.
d) Do not distract the attention of fellow workers.

B. Trenching Rules

a) Spoil must be at least 2 feet back from the lip of the trench
b) All employees working in excavations or trenches must always stay within the protective system (trench shield, shoring, sloping).
c) Never climb on shoring, trench shields, or sloped walls or ride on any lift, hook, chain, cable, sling, or other equipment parts.

Stay out from under suspended loads, away from moving equipment, and counterweights.

c) Only designated individuals shall be permitted to operate or service heavy equipment.

d) Perform frequent and periodic inspection as required.

e) The equipment operator must wear the seat belt when required.

f) No employee is permitted to ride on any part of the equipment.

g) It is the responsibility of all employees to make certain that back-up alarms on obstructed rear-view equipment be in operable condition. Use a flagger to move equipment when back up alarms are inoperable.

h) Maintain a 10" minimum clearance from energized lines; use a spotter in difficult areas.

F. Fall Protection

a) All manholes which present a fall hazard should be covered and identified as a hole.
b) Guardrails around open shafts and bore pits deeper than 6" should be 42" plus or minus 3" high.
c) The intermediate rail should be positioned halfway between the floor and top rail.
d) The threshold for fall protection use is 6". Fall protection may be accomplished by guarding, personal fall arrest systems or safety nets. Ask your qualified person.

G. Traffic

a) All traffic control devices are to be placed under the direction of the Qualified Employee. While flagging or directing vehicular traffic, a reflectorized, fluorescent orange warming vest shall be worn at all times. Flag people are to be courteous at all times.
b) A six foot staff two-sided paddle sign with "STOP" on one side and "SLOW" on the other shall be used to control traffic.
c) When working in or adjacent to vehicular traffic always face the flow of traffic or use of a spotter.

DBF Construction, LLC
Emergency Response Program

1. As part of its safety program it is the policy of DBF Construction, LLC to make certain that all employees have been instructed as to proper procedures in case of an injury or accident.

2. DBF Construction, LLC designates the 911 system as its first response in the event of a medical emergency and/ or rescue operation.

3. A list of emergency phone numbers will be posted at the jobsite when practical. If no suitable or convenient location exists, the list will be kept by the project foreman.

4. All injuries and/ or accident shall be reported to the job foreman immediately.

5. All incidents and/ or injuries shall be reported to the Safety Officer as soon as is practical

6. DBF Construction, LLC will provide a person at each job site who is trained in CPR and First Aid procedures as required by any applicable Safety & Health Standards.

7. Never move an injured person unless absolutely necessary. Further injury may result. Keep injured comfortable and utilize available First Aid equipment until an ambulance arrives.

DBF Construction, LLC
Responsibilities of Foreman / Qualified Employee

1. Assure that the safety program is implemented.
2. Inspect the job site to assure that no unsafe conditions exist.
3. Make sure that necessary protective equipment is on hand and used when required.
4. Instruct all employees in safe procedures and job safety requirements. Follow up and insist on compliance.
5. Discuss safety with employees on every operation. Have periodic safety meetings.
6. See that all injuries are cared for properly and reported promptly.
7. Investigate all accidents. File a complete accident report with the Safety Officer and correct the causes immediately. USE OSHA FOR 300 AND/OR 300A
8. Be familiar with the rules pertaining to safety.
9. Report any hazardous conditions to the Safety Officer even if the condition has been corrected.
10. Recommend reprimands for employees found in non-compliance of safety program and related materials.

DBF Construction, LLC
Personal Protective Equipment Policy

It is the policy of DBF Construction, LLC that all employees comply with the OSHA standards in regards to the use of personal protective equipment. Violation of this policy will be subject to discipline as outlined in this section.

1. This company shall provide all personal protective equipment t as required by OSHA.
2. All employees outside of a cabbed vehicle or covered piece of equipment must wear a hard hat. There will be no exceptions to this rule.
3. All employees must wear required hand protection, gloves, etc. when an employee is exposed to hazards such as radiation, alkalies, acids, adhesives and temperature extremes other than those caused by weather conditions. Appropriate hand protection other than ordinary work gloves will be supplied by the company.
4. Any employee directing vehicular traffic must wear a fluorescent orange vest.
5. All employees must wear proper foot protection if conditions on the job are likely to cause foot injury. Tennis shoes or similar footwear is strictly forbidden.
6. The use of face and eye protection will vary according to the task performed. All employees must consult with the qualified employee to determine the proper method of protection and this protective gear must be worn.
7. Any personal protective equipment that is found to be defective shall be immediately reported to the safety officer or qualified person.
8. Acknowledgement of receipt of personal protective equipment will be kept on file at the company office.
9. A company disciplinary policy is in effect regarding personal protective equipment and is available to all employees upon request.

Acknowledgement and Receipt

Personal Protective Equipment

_____, an employee of DBF Construction, LLC, has received a copy of the company's policy (Dated) regarding the wearing of personal protective equipment and am aware of the disciplinary procedure I can be subject to for failure to wear personal protective equipment as instructed.

I acknowledge receipt of and instruction in the wearing of the following personal protective equipment.

1.

2.

3.

4.

5.

6.

I further acknowledge that I may turn in equipment which has been damaged or no longer functions properly because of use or normal wear and tear and receive a free replacement of that item. However, if I should lose or damage through neglect any company- provided personal protective equipment, I authorize the company to deduct the cost of that item, in the pay period in which the loss or damage is reported or detected, from any wages which the company may owe.

Date: _____ Employee Signature: _____

DBF Construction, LLC

Disciplinary Policy

It is the policy of DBF Construction, LLC to supply its employees with a workplace which is free from recognized hazards. DBF Construction, LLC will provide to each employee the proper tools, equipment, training and instructions so that every job is accomplished effectively and safely. DBF Construction, LLC is concerned with your safety and requires you to take advantage of these measures for your protection.

In order to ensure your compliance with this policy, the following schedule of disciplinary action shall apply to any employee found to be in violation of the required procedures:

First Offense-	Written warning filed in employees permanent file (Effective for one year from date of issue).
Second Offense-	Written warning filed in the employees permanent file (Effective for one year from date of issue).
Third Offense-	Subject to suspension without pay for a length of the time to be determined at time of offense.
Subsequent Offenses-	Subject to dismissal or suspension without pay for a length Of time to be determined at time of offense.

Safety is everyone's' responsibility. The safety rules DBF Construction, LLC are in place to protect you and your fellow employees and these rules will be enforced.

Employee Signature:_____

Date: _____

DBF Construction, LLC

Employee Sign-Off Sheet

_____, an employee of DBF Construction, LLC understands this company's safety policy. I also understand that if I have any questions concerning the safety policy or safety in general I may contact the company safety officer for clarification. Further, I understand that safety is everyone's responsibility, including my own.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.9: Approve Roadway Asphalt Milling & Resurfacing Contract - Work Authorization No. 3 - Piggyback - Public Service Department - (FY 2021 Budget Funded - General Fund) - Ranger Construction Industries, Inc.

SUMMARY:

The Pubic Service Department is recommending that six (6) roadway segments throughout the Village be milled and resurfaced based on visual inspection and rating by staff (see attached map). These roadways are currently paved; however, they maintain significant pavement deterioration and are recommended to be milled and resurfaced to extend their service life.

As a result, the Public Service Department is recommending that the following six (6) roadways be approved to be milled and resurfaced utilizing the Village's existing (piggybacked) contract with Ranger Construction Industries, Inc. in the amount of $192,136:

Rostan Lane
Mid Pines Road
Longfellow Drive
Henthorne Drive (N. of Greenbrier Drive)
Cavalier Road
Lanier Drive

Note: To ensure the lowest possible price, staff is recommending that the Village utilize our existing agreement, which was piggybacked off the current Palm Beach County contract, that was awarded by PBC to Ranger Construction Industries on October 12, 2018. This selection by Palm Beach County was completed through a competitive selection process - Palm Beach

County Annual Milling and Resurfacing Contract (ITB #R2018-1533 - Project Number 2018051 - July 8, 2018).

The Village accepted Ranger Construction Industries' pricing as approved under Palm Beach County's contract, including all terms, conditions and pricing therein. The term of the Palm Beach County contract is set to expire on October 15, 2021, and there is a renewal option to extend the contract up to six (6) months. The Village will not expend more than the amount within the approved Budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: All original bid documents authorizing the initial piggyback and renewal agreements with Ranger Construction Industries, Inc. are available in the Village Clerk's Office.

The Village's Purchasing Code, Section 58-9, Accessing Contracts of Other Government Agencies, provides that the Village may award a contract by piggy-backing or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

If approved, the proposed project is expected to be completed by the end of September 2021.

The proposed project Work Authorization No. 3 was prepared by the Village Attorney and reviewed by the the Assistant Public Service Director/Engineering, the Public Works Superintendent and the Finance Director.

The Village has previously worked with the proposed contractor and has received excellent service and a quality product.

FISCAL IMPACT:

Funding to support this road resurfacing project is available within the FY 2021 Budget - General Fund.

Allocated/Estimated Project Funding	
FY 2021 Approved Budget - General Fund - Road Resurfacing	$225,000
FY 2021 Approved Budget - General Fund - Road Restriping	$ 25,000
TOTAL APPROVED BUDGET	**$250,000**
Expected/Project Costs	
Proposed Project Cost - Construction - Road Repaving (Work Authorization #3)	$192,136

Estimated Project Cost - Construction - Road Restriping (Work Authorization #3)	$ 25,000
TOTAL EXPECTED PROJECT COSTS	**$217,136**

Note: The proposed re-striping of the improved roads will be presented for consideration by the Village Council during an upcoming Council Meeting (expected June/July 2021).

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

ATTACHMENTS:

Proposed Work Authorization No 3 - Roadway Milling and Resurfacing - Ranger Construction Industries

Map - Proposed Roadway Segments to be Milled & Paved - FY 2021

PROJECT WORK AUTHORIZATION NO. 3 WITH RANGER CONSTRUCTION FOR MILLING AND RESUFACING PROJECTS

This Project Work Authorization No. 3 is made as of the _____ day of _____, 2021, by and between the **Village of Palm Springs**, 226 Cypress Lane, Palm Springs, Florida 33461-1699, a municipal corporation organized and existing under the laws of the State of Florida, hereinafter referred to as the "Village", and **Ranger Construction Industries, Inc.**, 101 Sansbury's Way, West Palm Beach, FL 33411, a corporation authorized to do business in the State of Florida, hereinafter referred to as the "Contractor".

1.0 Project Description:

The Public Service Department has identified a need to mill and resurface several roadways throughout the Village.

The Village desires the Contractor to provide the milling and resurfacing of the following streets:

1. Rostan Lane;
2. Mid Pines Road;
3. Longfellow Drive;
4. Henthorne Drive;
5. Cavalier Road;
6. Lanier Drive;

2.0 Scope

Under this Project Work Authorization, the Contractor will provide the construction services to the Village as detailed in the **Contractor's proposal attached hereto and incorporated herein as Exhibit "A"**.

3.0 Schedule

The services to be provided under this Project Work Authorization shall be completed within ninety (90) calendar days from the Village's issuance of a Notice to Proceed.

4.0 Compensation

This Project Work Authorization is issued for a not to exceed price in the amount of $192,136.00. The attached proposal identifies all costs and expenses included in the not to exceed amount.

5.0 Authorization

This Project Work Authorization is issued pursuant to the Agreement for milling and resurfacing services between the Village and the Contractor, dated July 23, 2020. If there are any conflicts between the terms and conditions of this Project Work Authorization and the Agreement, the terms and conditions of the Agreement shall prevail.

IN WITNESS WHEREOF, the Village and Contractor have caused this Project Work Authorization No. 3 to be executed the day and year shown above.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.10: Approve Change Order No. 2 (Task Order #240 - Work Authorization EE-U01 and Task Orders No. 266 and 278 - Work Authorization EE-U05) - Professional Engineering Services - Vacuum Station No. 1 Safety Improvements & Upgrades - Public Service Department (FY 2021 Budget - Water & Sewer Enterprise Fund) - Eckler Engineering, Inc.

SUMMARY:

On November 8, 2018, the Village Council approved Task Order #240 (Work Authorization EE-U01) with Eckler Engineering to provide professional engineering services associated with the development of the Vacuum Station No. 1 Safety Improvements & Upgrades (Professional Services and Design - Work Authorization EE-U05) located along Marilyn Drive. On February 13, 2020, the Village Council approved Change Order #1 to the approved Task Order #240 with Eckler Engineering in the amount of $4,635.00 to support the additional engineering and design services required to combine the previously approved plans for safety improvements (Task Order #240) with the additional proposed projects (Task Order No. 266 - Emergency Generator and Task Order No. 278 - Upgrade Vacuum Pumps) to be completed by Eckler Engineering.

Vacuum Station No. 1, which was constructed on Marilyn Drive in 1999, was the first wastewater vacuum pump station constructed by the Village. However, due to site constraints at the time of design and construction, this pump station was constructed on a small easement behind an automobile repair shop and only provided access by ladder through the top of the structure (which is partially buried). This access, though functional, creates a potentially hazardous work environment for our utilities staff who are entering/leaving the structure and carrying equipment into the station. As a result, a precast stairway entrance into the west side of the structure, which would provide the safest and most accessible access into the station, has been proposed and the engineering and design has begun by the Village's contracted engineer, Eckler Engineering (Task Order #240 - Approved November 8, 2019) .
Additionally, this Station provides collection services for a large service area and does not

have an on-site emergency power supply. Thus, during power outages the station is non-operational until staff delivers and utilizes a portable generator to the station to ensure proper wastewater collection. A permanent generator (Task Order No. 266) is proposed to be installed at the Vacuum Station to provide emergency power during a power failure (i.e., hurricane, etc.). In addition, Vacuum Station No. 1 is in need of replacing/upgrading the existing vacuum pumps (Task Order No. 278 - Request to be Approved), which provide the negative pressures required to operate the vacuum sewer system, with newer and more reliable vacuum pumps (that are recommended by AirVac - the designer and manufacturer of the vacuum system).These new pumps would require less maintenance and would replace the original style vacuum pumps that are still being utilized.
Note: In an effort to lower design and construction costs for this project (and to ensure vendor interest to take on this project) it has been recommended by Eckler Engineering and Village Staff to combine each of the three (3) task orders (No. 240, 266 and 278) and bid them as one, single project.

Currently, the Public Service Department is requesting approval of Change Order #2 to Task Order No. 240 and 266 (Work Authorization EE-U01 and Work Authorization EE-U05) for Eckler Engineering to provide additional engineering and design services to develop a sketch and legal description for a proposed easement that is necessary support a proposed emergency generator as well as additional engineering and design services that are a result of the Village going out to bid for a 3rd time (due to pricing/bids that were significantly over the Village's budgeted amount).

As a result, the Village's contracted engineer, Eckler Engineering, and the Public Service Department is recommending an amendment to the approved Task Order #240 (Change Order #2) with Eckler Engineering in the amount of $3,257 to support the additional engineering and design services required to provide a sketch and legal description for an emergency generator easement and updated bid documents (Task Order #240) with the additional proposed projects (Task Order No. 266 - Emergency Generator and Task Order No. 278 - Upgrade Vacuum Pumps).
The proposed tasks and associated costs to provide the professional engineering services to complete this project are as follows:

Work to be Completed	**Amount**
Task Order 240 - Safety Improvements	$29,282.00
Task Order 266 - Emergency Generator	$24,685.00
Task Order 278 - Vacuum Pump Replacement	$17,592.00
Change Order #1 - Revise Bid Documents & Coordination	$ 4,653.00
Add: Proposed Change Order #2 - Prepare Sketch & Legal, Revise Bid Documents & Coordination	$ 3,257.00
Final Revised Contract Amount	**$79,469.00**

Note: The Village Council has approved funding ($326,685) within the FY 2021 Budget - Water & Sewer Enterprise Fund to support these three (3) projects (design and construction).

If approved, the revised total engineering design, bidding and construction services cost for the Vacuum Station No. 1 Safety Improvements & Upgrades Project within Task Order #240, 266 & 278 will be increased to $79,469.00. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.

It is estimated that the proposed Vacuum Station No. 1 Safety Improvements & Upgrades Project will require an additional 30 days (May-June 2021) of design work from the date the work authorization is issued to Eckler Engineering and construction is estimated to take approximately eight (8) months (April/May 2022) from the Notice to Proceed by the Village.

The proposed Change Order No. 2 (Task Order #240, #266, & #278) was prepared by Eckler Engineering and reviewed by the the Assistant Public Service Director/Engineer, the Village Project Manager, the Utilities Superintendent, the Assistant Village Manager, the Village Attorney and the Finance Director.

FISCAL IMPACT:

Funding to support the proposed Vacuum Station No. 1 Safety Improvements & Upgrades Project Change Order No. 2 to (Task Order #240 - Work Authorization EE-U01 and Task Orders No. 266 and 278 - Work Authorization EE-U05) is available within the FY 2021 Budget - Water & Sewer Enterprise Fund.

Allocated/Estimated Project Funding	***Amount***
FY 2019 Actual - Water & Sewer Enterprise Fund - Building Safety Improvements (TO #240)	$ 15,435.00
FY 2020 Actual - Water & Sewer Enterprise Fund - Building Safety Improvements (TO #240)	$ 7,568.40
FY 2020 Actual - Water & Sewer Enterprise Fund - Emergency Generator (TO #266)	$ 13,500.00
FY 2020 Actual - Water & Sewer Enterprise Fund - Vacuum Pump Upgrade (TO #278)	$ 9,614.40
FY 2021 Approved Budget - Water & Sewer Enterprise Fund - Building Safety Improvements (TO #240)	$134,665.00
FY 2021 Approved Budget- Water & Sewer Enterprise Fund - Emergency Generator (TO #266)	$118,566.00
FY 2021 Approved Budget- Water & Sewer Enterprise Fund - Vacuum Pump Upgrade (TO #278)	$ 73,454.00
Total Allocated/Estimated Budget	**$372,802.80**

Expected Project Costs - Engineering & Design Services :	***Amount***
Original Project Cost - Water & Sewer Enterprise Fund (TO #240)	$ 29,282.00

Change Order #1 - Water & Sewer Enterprise Fund (TO #240, #266 & #278)	$ 4,653.00
Proposed Change Order #2 - Water & Sewer Enterprise Fund (TO #240 & #266)	$ 3,257.00
Total Project Request - Engineering & Design Services	**$ 37,192.00**
Expected Project Costs - Construction Services :	
Projected Construction Cost - Water & Sewer Enterprise Fund (TO #240, 266, 278)	$452,000.00
Total Project Request – Construction Services	**$452,000.00**

TOTAL PROJECT REQUEST/COST (REVISED)	**$531,469.00**

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Note: Projected construction cost is based on engineer's preliminary opinion of cost estimate. The construction prices may increase above the original project cost estimate, but will be included in the FY 2022 budget for the Water & Sewer Enterprise Fund.

Mr. Paul Ward
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

Dear Mr. Ward:

Reference: Engineering Scope Revision No. 1
Vacuum Pump Station No. 1 Improvements
Village P.O. #60, #62, & #63 (Task Orders #240, 266, 278)

This Scope Revision is being submitted for the additional work associated with obtaining the sketch and description for the easement necessary for the generator footprint. In addition, this Scope Revision includes additional fee associated with rebidding of the project due to high bids and underfunding. The rebid shall revise the Contract Documents to reflect updated dates, bid numbers and other general coordination. The anticipated work associated with this request is as follows:

1. Obtain sketch and description for easement necessary for generator footprint.

2. General rebid coordination with the Village and project management.

3. Revise the Specifications to reflect updated bid numbers, dates (bid advertisement, pre-pre-bid conference, bid opening, etc…), and front-end documents.

4. Revise the Drawings to reflect updated bid numbers and dates.

5. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

For the additional items summarized above, we request **$3,257.00** for the anticipated work effort. The attached spreadsheet provides a breakdown of our proposed fee.

If you have any questions or require additional information pertaining to the attached documents or the project in general, please do not hesitate to contact me.

Sincerely,

Douglas K Hammann:A01410D00000178224CBADF000034A7

ENGINEERING SCOPE REVISION

Project:	Vacuum Pump Station No. 1 Improvements	**Client:**	Village of Palm Springs
EEI Project No:	400-089.01	**Contact:**	Paul Ward
Revision No:	1	**Date:**	April 5, 2021

Nature of Revision:

This Engineering Scope Revision covers work required to modify and prepare the drawings and specifications for rebid. Specifically, the following items shall be added:

1. Obtain sketch and description for easement necessary for generator footprint.
2. General project management and bidding coordination.
3. Specification revisions necessary for bid coordination and updating front-end documents.
4. Revise the Drawings to reflect updated bid numbers and dates.
5. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

Scope of Services:

1. Engineering services (Items 1 through 5 above) in accordance with the attached fee breakdown spreadsheet = **$3,257.00**

Original Engineering Design Fee:		**Original Time:**	
Task Order #240 – Safety Improvements	$29,282.00	N/A	-
Task Order #266 – Emergency Generator	$24,685.00	N/A	-
Task Order #278 – Vacuum Pump Replacement	$17,592.00	N/A	-
Total	$71,559.00	Total	259 Days
Previous Revisions:		**Previous Revisions:**	
Change Order #1 (TO #240)	$4,653.00	Change Order #1 (TO #240)	0 Days
Total	$4,653.00	Total	0 Days
This Revision:	$3,257.00	**This Revision:**	30 Days
Revised Fee:	$79,469.00	**Revised Time:**	289 Days

Approved by:

Douglas K Hammann:A01410D00000178224CBADF000034A7

VILLAGE OF PALM SPRINGS

CONSULTING SERVICE WORK AUTHORIZATION

DATE: August 30, 2019 VILLAGE RFQ. NO.: 2018R-002

WORK AUTHORIZATION NO. EE-UXX FOR CONSULTING SERVICES

TASK ORDER (PROJECT) No. 266 & 278 G/L CODE: 41336-56400

ECKLER ENGINEERING PROJECT NO.: 400-0XX.01

PROJECT TITLE: Vacuum Pump Station No. 1 Upgrades

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated September 13, 2018 between the Village of Palm Springs ("VILLAGE"), and Eckler Engineering, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

Vacuum Pump Station No. 1 was constructed in 1998. This original vacuum pump station has been serving the surrounding collection area for the past 21 years. In order to maintain this service capability, there are improvements needed at this facility. The following improvements will be addressed per this Work Authorization:

A. Removal and replacement of the existing vacuum pumps. The original vacuum pumps will be replaced with a newer type of vacuum pump that requires less maintenance, specifically routine oil changes.

B. Provision of a dedicated standby emergency generator. This generator shall serve all of the electrical power requirements of the vacuum pump station and will provide automatic transfer of power upon an outage.

C. Modifications to the requirements for personnel access and incorporation of those requirements into this project.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Work Authorization.

A. DESIGN PHASE

The Design Phase will include the following services:

TASK D1 - PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK D2 - DATA GATHERING AND PRELIMINARY COORDINATION

This task focuses on obtaining the necessary preliminary information required to prepare detailed engineering plans and specifications.

1. Visit the site and review pertinent features that may impact design and/or construction.

2. Collect existing facility's data including field conditions, access, and other information needed to complete the design.

3. Meet with appropriate VILLAGE staff to discuss the project requirements.

4. Coordination and completion of SUBCONSULTANT's professional services for electrical engineering.

TASK D3 - PRELIMINARY DESIGN REPORT

This task not required. The design conditions are currently known and defined.

TASK D4 - DRAWINGS AND ENGINEERING

This task consists of the engineering and the development of plans necessary to construct this project. The CONSULTANT will prepare detailed drawings for the proposed work as discussed in this task order. A tentative list of drawings to be prepared for this project is presented in ATTACHMENT 1.

TASK D5 - SPECIFICATION PREPARATION

1. Prepare Standard EJCDC (2013 Edition) Contract Forms, Bidding Documents and Contract Conditions required for this project.

2. Prepare technical specifications required for this project in Division 1 through Division 16. These specifications, utilizing the CSI format, will be

prepared and will consist of written technical descriptions of materials, equipment and construction systems, standards and workmanship required for this project as developed by CONSULTANT. A tentative list of specification sections to be prepared for this project is presented in ATTACHMENT 2.

TASK D6 - PERMIT PREPARATION ASSISTANCE

This task consists of the preparation of the following construction permit application submittals:

1. No regulatory wastewater permits are anticipated. Work required is maintenance per FAC 62-620.325(2)(e). Notification to the Department per Rule will be provided, if applicable.

2. Palm Beach County DERM Permit for proposed generator diesel base tank.

   Any additional permits required beyond the above will be considered as outside the scope of this proposal.

TASK D7 - PREPARE OPINION(S) OF PROBABLE CONSTRUCTION COST

Prepare the 90%, 100% and final completion level(s) opinion of probable construction cost for new facilities and improvements proposed under this project.

TASK D8 - BIDDING ASSISTANCE SERVICES

This task will include work necessary to assist the VILLAGE with the bidding of the project. This work may include the following:

1. Coordinate bidding requirements with VILLAGE and prepare electronic bid documents for distribution by the Village Clerk's office. Bidding documents shall be in .pdf format on CD or other requested media.

2. Assist VILLAGE Clerk's Office with the coordination of the bidding documents, the advertisement for bids, respond to communications from contractors, and prepare addenda information as required. The VILLAGE Clerk's Office shall publish/distribute all Addenda.

3. Attend the prebid meeting and prepare/distribute minutes to registered bidding contractors. VILLAGE Clerk's Office shall publish final Prebid Meeting Minutes.

4. Attend the bid opening and tabulate the bids provided by interested contractors.

TASK D9 - BID EVALUATION AND RECOMMENDATION OF AWARD ASSISTANCE

This task shall consist of the review and evaluation of the bids and the recommendation of a bidder for award of a contract. A recommendation of award letter shall be prepared and submitted to VILLAGE.

TASK D10 - SUBMIT AND REVIEW (QUALITY CONTROL)

The CONSULTANT will make the following submittals at various completion levels of this project for the purpose of VILLAGE's review and comment for coordination and quality control. A review meeting will be requested following each submittal to discuss and receive comments from the VILLAGE. The VILLAGE's comments shall be incorporated into revisions prior to the next subsequent quality control submittal. Quality control submittals for this project are anticipated at the following completion levels:

1. 90% Drawings and Specifications

2. 100% Drawings and Specifications

3. Final Drawings and Specifications

The CONSULTANT will incorporate the agreed-upon revisions made by the VILLAGE.

A total of three (3) meeting(s) with the VILLAGE is the level of effort for this Task.

B. ENGINEERING SERVICES DURING CONSTRUCTION

TASK C1 – PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK C2 - PRECONSTRUCTION ACTIVITIES PRIOR TO NOTICE TO PROCEED

After issuance of a Notice of Award by VILLAGE, assist in the preparation and signing of the Contract Documents. The CONSULTANT will also undertake other preconstruction activities which include coordinating, attending and preparing minutes of the preconstruction conference meeting and assisting the Contractor in finalizing the permits required for the construction of this project by providing the required number of signed/sealed drawing sets.

TASK C3 - CONSULT AND ADVISE

Provide technical advice and assistance to VILLAGE during the construction period and provide necessary interpretations and clarifications of the Contract Documents as required by VILLAGE or Contractor by responding to RFI's or other documentation. An evaluation of and response to an estimated three (3) RFI's is the level of effort that is estimated for this task.

TASK C4 - REVIEW SHOP DRAWINGS

Review Shop Drawings and samples, the results of tests and inspections, and other data submitted by the Contractor in accordance with the Contract Documents. A total of twenty (20) submittals is the estimated basis for this item's budget.

TASK C5 - REVIEW PAY REQUESTS AND SCHEDULES

Review estimated four (4) monthly pay requests and make recommendations for payment to VILLAGE. Monthly pay requests will be reviewed in the field and an agreement reached between the Contractor, VILLAGE's project representative(s), and the CONSULTANT prior to formal submittal to VILLAGE for payment. Review the Contractor's preliminary and monthly progress schedules through completion.

TASK C6 - PERFORM PERIODIC AND MILESTONE INSPECTIONS

CONSULTANT will make periodic site visits at intervals appropriate to the various stages of construction to observe the work, determine conformity with the plans and specifications, and compliance with the construction permits. It is anticipated that there will be a total of four (4) visits.

Perform inspections to determine that the project has achieved substantial completion and readiness for final acceptance and that the work has been completed in general conformance with the Contract Documents to certify completion of construction to permitting agencies, where applicable. Two (2) such site visits are anticipated.

TASK C7 - PROGRESS MEETINGS

This task not required.

TASK C8 - CONTRACT MODIFICATIONS

Develop the necessary data, notes and clarification drawings required to prepare contract modifications to reflect adjustments to the construction project. One (1)

contract modification incorporating a total of four (4) items, is the estimated basis for this budget item.

TASK C9 - PROJECT CLOSEOUT

Review the Contractor's record drawing information which shows the work as it was constructed. Prepare for VILLAGE record drawings and prints showing those changes made during the construction process based upon information provided by the Contractor as follows:

1. CONSULTANT shall prepare record drawings based on Contractor's field data.

2. CONSULTANT shall submit record documents to VILLAGE.

3. CONSULTANT shall attend the final project reconciliation meetings with VILLAGE and CONTRACTOR.

TASK C10 - REGULATORY AGENCY DOCUMENTATION AND PROJECT CLOSEOUT SUBMITTALS

Project services in connection with preparing acknowledgment of Final Completion construction submittals with record drawings to the following agencies.

1. Palm Beach County DERM Diesel Fuel Storage Permit.

TASK C11 - SPECIAL SERVICES

The CONSULTANT shall provide special services during construction consisting of the following items:

Resident Services

To monitor that project is constructed in complete conformance with the Contract Documents.

Services which will be provided by the CONSULTANT's resident project representative will consist of the following:

Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Construction Contract Documents.

1. Observe any tests and review the results of tests required of the Contractor by the Contract Documents.

2. Observe the placement of reinforcing steel and all concrete pours. Observe the construction of all piping and equipment placement.

3. Assist with commissioning, startup and check out the operation of all new equipment and control systems.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. In order to estimate the efforts of the CONSULTANT's project representative, it is anticipated that a person would need to visit the project site ten (10) times, approximately 5 hours per visit.

III. DELIVERABLES

Project deliverables shall be in accordance with Attachment 1.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Attachment 3.

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for the fees as outlined in Tables 1 and 2 and further detailed in Attachments 5 and 6.

A. DESIGN PHASE

1. For services described in Part II. A. - Design Phase, Tasks D1 through D10, the lump sum fee of **$34,092.00**.

TABLE 1
DESIGN PHASE
BUDGET SUMMARY

Description	Total
D1 - Project Administration / Management	$4,500.00
D2 - Data Gathering and Preliminary Coordination	$1,000.00
D3 - Not Used	$0.00
D4 - Drawings and Engineering	$20,387.00
D5 - Specification Preparation	$1,280.00
D6 - Permitting	$0.00
D7 - Prepare Opinions of Probable Construction Cost	$321.00
D8 - Bidding Assistance Services	$1,470.00
D9 - Bid Evaluation and Recommendation of Award	$864.00
D10 - Submit and Review (Quality Control)	$1,830.00
Reimbursable Expenses	$1,084.00
TOTAL LUMP SUM FEE	**$34,092.00**

B. CONSTRUCTION PHASE

1. For services described in Part II. B. - Construction Phase, Tasks C1 through C11, not to exceed fee of **$26,685.00.**

TABLE 2
ENGINEERING SERVICES DURING CONSTRUCTION
BUDGET SUMMARY

Description	Total
C-1 Project Administration / Management	$2,880.00
C-2 Preconstruction Activities Prior to Notice to Proceed	$1,896.00
C-3 Consult and Advise	$1,935.00
C-4 Review Shop Drawings	$7,420.00
C-5 Review Pay Requests & Schedules	$1,304.00
C-6 Perform Periodic & Milestone Inspections	$2,424.00
C-7 Not Used	$0.00
C-8 Contract Modifications	$786.00
C-9 Project Closeout	$2,364.00
C-10 Not Used	$0.00
C-11 Special Services	$5,100.00
Reimbursable Expenses	$576.00
TOTAL NOT-TO-EXCEED FEE	**$26,685.00**

TABLE 3
PROJECT COMPONENT
BUDGET SUMMARY

Project Component	Design Phase	Engineering SDC	Total
Vacuum Pumps Replacement (2)	$11,592.00	$6,000.00	$17,592.00
Emergency Generator Addition	$15,000.00	$9,685.00	$24,685.00
Building Access Modifications	$7,500.00	$11,000.00	$18,500.00
Project Total	**$34,092.00**	**$26,685.00**	**$60,777.00**

VI. ASSUMPTIONS

This Work Authorization does not include the provision of the following items:

A. Payment of permit fees.

B. Any expert witness or testimony services.

C. Services not specifically indicated in this Work Authorization.

This Work Authorization assumes the following data or assistance will be provided by VILLAGE:

A. Attendance at project meetings.

B. General project review, where required.

C. Provide pertinent project data and information available from VILLAGE when requested by CONSULTANT.

D. Facility access and other project related information requested by CONSULTANT.

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

Provide editable files (Word format) of VILLAGE's EJCDC based (2013 Edition) Contract forms. If unavailable, CONSULTANT shall use documents from recent VILLAGE projects.

Services which will be provided by the VILLAGE resident project representative will include the following:

1. Monitor that project is constructed in conformance with the Contract Documents.

2. Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Contract Documents.

3. Observe field tests and review the results of tests required by the Contract Documents.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. Provide daily reports of Contractor activity to the CONSULTANT on a form provided by the CONSULTANT.

6. Provide photographs of the work during construction showing typical construction progress.

7. Keep the CONSULTANT informed of any changes which need to be made and assist CONSULTANT with the change decision.

8. Be present at all required times for permit compliance.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated September 13, 2018, by and between the Village of Palm Springs ("VILLAGE") and Eckler Engineering, Inc. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

VILLAGE OF PALM SPRINGS

CONSULTING SERVICE WORK AUTHORIZATION

DATE: October 30, 2018 VILLAGE RFQ. NO.: 2018R-002

WORK AUTHORIZATION NO. EE-U01 FOR CONSULTING SERVICES

TASK ORDER (PROJECT) No. 240 G/L CODE: 41336-56200

ECKLER ENGINEERING PROJECT NO.: 400-081.01

PROJECT TITLE: Personnel Access Revision Vacuum Station No. 1 (Marilyn Drive)

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated September 13, 2018 between the Village of Palm Springs ("VILLAGE"), and Eckler Engineering, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

Access at this site needs to be improved so that maintenance personnel can approach and enter this facility through a typical access doorway similar to the Village=s other vacuum pump stations. Access will also have to address the potential for removal of heavy pieces equipment such as pumps, motors, and/or valves from the vacuum pump station. Improvement space can be made available within the utility easement on the west side of the existing vacuum pump station structure. This space can be utilized, but will require minor relocation of existing 8-inch vacuum sanitary sewer line (VSS) and conflict resolution with the existing 6-inch force main. Based on these requirements, the following scope of work is proposed:

1. Relocation of the existing utility pipeline(s) to allow space for the access improvements.

2. Removal of existing ladders from the interior and exterior of existing vacuum pump station structure. Existing hatch on the roof of the structure shall remain for equipment access and removal by way of crane and/or boom truck.

3. Design of a new entrance, from grade, on the west side of the vacuum pump station structure.

4. Design of new flood resistant, 3' x 6' 8" door at west wall of structure.

5. Miscellaneous minor modifications to electrical and piping system on interior of building to facilitate space for access modifications.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Work Authorization.

A. DESIGN PHASE

The Design Phase will include the following services:

TASK D1 - PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK D2 - DATA GATHERING AND PRELIMINARY COORDINATION

This task focuses on obtaining the necessary preliminary information required to prepare detailed engineering plans and specifications.

1. Visit the site and review pertinent features that may impact design and/or construction.

2. Collect existing facility's data including field conditions, access, and other information needed to complete the design.

3. Meet with appropriate VILLAGE staff to discuss the project requirements.

TASK D3 - PRELIMINARY DESIGN REPORT

This task not required. The design conditions are currently known and defined.

TASK D4 - DRAWINGS AND ENGINEERING

This task consists of the engineering and the development of plans necessary to construct this project. The CONSULTANT will prepare detailed drawings for the proposed work as discussed in this task order. A tentative list of drawings to be prepared for this project is presented in ATTACHMENT 1.

TASK D5 - SPECIFICATION PREPARATION

1. Prepare Standard EJCDC (2013 Edition) Contract Forms, Bidding Documents and Contract Conditions required for this project.

2. Prepare technical specifications required for this project in Division 1 through Division 16. These specifications, utilizing the CSI format, will be prepared and will consist of written technical descriptions of materials, equipment and construction systems, standards and workmanship required for this project as developed by CONSULTANT. A tentative list of specification sections to be prepared for this project is presented in ATTACHMENT 2.

TASK D6 - PERMIT PREPARATION ASSISTANCE

This task consists of the preparation of the following construction permit application submittals:

1. No regulatory permits are anticipated. Work required is maintenance per FAC 62-620.325(2)(e). Notification to the Department per Rule will be provided, if applicable.

   Any additional permits required beyond the above will be considered as outside the scope of this proposal.

TASK D7 - PREPARE OPINION(S) OF PROBABLE CONSTRUCTION COST

Prepare the 90%, 100% and final completion level(s) opinion of probable construction cost for new facilities and improvements proposed under this project.

TASK D8 - BIDDING ASSISTANCE SERVICES

This task will include work necessary to assist the VILLAGE with the bidding of the project. This work may include the following:

1. Coordinate bidding requirements with VILLAGE and prepare electronic bid documents for distribution by the Village Clerk's office. Bidding documents shall be in .pdf format on CD.

2. Assist VILLAGE Clerk's Office with the coordination of the bidding documents, the advertisement for bids, respond to communications from contractors, and issuance of addenda information as required.

3. Attend the prebid meeting and prepare/distribute minutes to registered bidding contractors. VILLAGE Clerk's Office shall publish final Prebid Meeting Minutes.

4. Attend the bid opening and tabulate the bids provided by interested contractors.

TASK D9 - BID EVALUATION AND RECOMMENDATION OF AWARD ASSISTANCE

This task shall consist of the review and evaluation of the bids and the recommendation of a bidder for award of a contract. A recommendation of award letter shall be prepared and submitted to VILLAGE.

TASK D10 - SUBMIT AND REVIEW (QUALITY CONTROL)

The CONSULTANT will make the following submittals at various completion levels of this project for the purpose of VILLAGE's review and comment for coordination and quality control. A review meeting will be requested following each submittal to discuss and receive comments from the VILLAGE. The VILLAGE's comments shall be incorporated into revisions prior to the next subsequent quality control submittal. Quality control submittals for this project are anticipated at the following completion levels:

1. 90% Drawings and Specifications

2. 100% Drawings and Specifications

3. Final Drawings and Specifications

The CONSULTANT will incorporate the agreed-upon revisions made by the VILLAGE.

A total of three (3) meeting(s) with the VILLAGE is the level of effort for this Task.

B. ENGINEERING SERVICES DURING CONSTRUCTION

TASK C1 – PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK C2 - PRECONSTRUCTION ACTIVITIES PRIOR TO NOTICE TO PROCEED

After issuance of a Notice of Award by VILLAGE, assist in the preparation and signing of the Contract Documents. The CONSULTANT will also undertake other preconstruction activities which include coordinating, attending and preparing minutes of the preconstruction conference meeting and assisting the Contractor in finalizing the permits required for the construction of this project by providing the required number of signed/sealed drawing sets.

TASK C3 - CONSULT AND ADVISE

Provide technical advice and assistance to VILLAGE during the construction period and provide necessary interpretations and clarifications of the Contract Documents as required by VILLAGE or Contractor by responding to RFI's or other documentation.

TASK C4 - REVIEW SHOP DRAWINGS

Review Shop Drawings and samples, the results of tests and inspections, and other data submitted by the Contractor in accordance with the Contract Documents. A total of ten (10) submittals is the estimated basis for this item's budget.

TASK C5 - REVIEW PAY REQUESTS AND SCHEDULES

Review estimated two (2) monthly pay requests and make recommendations for payment to VILLAGE. Monthly pay requests will be reviewed in the field and an agreement reached between the Contractor, VILLAGE's project representative(s), and the CONSULTANT prior to formal submittal to VILLAGE for payment. Review the Contractor's preliminary and monthly progress schedules through completion.

TASK C6 - PERFORM PERIODIC AND MILESTONE INSPECTIONS

CONSULTANT will make periodic site visits at intervals appropriate to the various stages of construction to observe the work, determine conformity with the plans and specifications, and compliance with the construction permits. It is anticipated that there will be a total of four (4) visits.

Perform inspections to determine that the project has achieved substantial completion and readiness for final acceptance and that the work has been completed in general conformance with the Contract Documents to certify completion of construction to permitting agencies, where applicable. Two (2) such site visits are anticipated.

TASK C7 - PROGRESS MEETINGS

This task not required.

TASK C8 - CONTRACT MODIFICATIONS

Develop the necessary data, notes and clarification drawings required to prepare contract modifications to reflect adjustments to the construction project. One (1) contract modification incorporating a total of four (4) items, is the estimated basis for this budget item.

TASK C9 - PROJECT CLOSEOUT

Review the Contractor's record drawing information which shows the work as it was constructed. Prepare for VILLAGE record drawings and prints showing those changes made during the construction process based upon information provided by the Contractor as follows:

1. CONSULTANT shall prepare record drawings based on Contractor's field data.

2. CONSULTANT shall submit record documents to VILLAGE.

3. CONSULTANT shall attend the final project reconciliation meetings with VILLAGE and CONTRACTOR.

TASK C10 - REGULATORY AGENCY DOCUMENTATION AND PROJECT CLOSEOUT SUBMITTALS

Project services in connection with preparing acknowledgment of Final Completion construction submittals with record drawings to the following agencies.

1. None Required

TASK C11 - SPECIAL SERVICES

This Task not required.

III. DELIVERABLES

Project deliverables shall be in accordance with Attachment 1.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Attachment 3.

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for the fees as outlined in Tables 1 and 2 and further detailed in Attachments 5 and 6.

A. DESIGN PHASE

1. For services described in Part II. A. - Design Phase, Tasks D1 through D10, the lump sum fee of **$15,435.00**.

TABLE 1
DESIGN PHASE
BUDGET SUMMARY

Description	Total
D1 - Project Administration / Management	$2,500.00
D2 - Data Gathering and Preliminary Coordination	$1,000.00
D3 - Not Used	$0.00
D4 - Drawings and Engineering	$5,440.00
D5 - Specification Preparation	$1,070.00
D6 - Not Used	$0.00
D7 - Prepare Opinions of Probable Construction Cost	$321.00
D8 - Bidding Assistance Services	$1,470.00
D9 - Bid Evaluation and Recommendation of Award	$864.00
D10 - Submit and Review (Quality Control)	$1,830.00
Reimbursable Expenses	$940.00
TOTAL LUMP SUM FEE	**$15,435.00**

B. CONSTRUCTION PHASE

1. For services described in Part II. B. - Construction Phase, Tasks C1 through C11, not to exceed fee of **$13,847.00.**

TABLE 2
ENGINEERING SERVICES DURING CONSTRUCTION
BUDGET SUMMARY

Description	Total
C-1 Project Administration / Management	$1,280.00
C-2 Preconstruction Activities Prior to Notice to Proceed	$1,896.00

C-10 Not Used	$0.00
C-11 Not Used	$0.00
Reimbursable Expenses	$360.00
TOTAL NOT-TO-EXCEED FEE	**13,847.00**

VI. ASSUMPTIONS

This Work Authorization does not include the provision of the following items:

A. Payment of permit fees.

B. Any expert witness or testimony services.

C. Services not specifically indicated in this Work Authorization.

This Work Authorization assumes the following data or assistance will be provided by VILLAGE:

A. Attendance at project meetings.

B. General project review, where required.

C. Provide pertinent project data and information available from VILLAGE when requested by CONSULTANT.

D. Facility access and other project related information requested by CONSULTANT.

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

F. Provide editable files (Word format) of VILLAGE's EJCDC based (2013 Edition) Contract forms. If unavailable, CONSULTANT shall use documents from recent VILLAGE projects.

Services which will be provided by the VILLAGE resident project representative will include the following:

1. Monitor that project is constructed in conformance with the Contract Documents.

2. Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Contract Documents.

3. Observe field tests and review the results of tests required by the Contract Documents.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. Provide daily reports of Contractor activity to the CONSULTANT on a form provided by the CONSULTANT.

6. Provide photographs of the work during construction showing typical construction progress.

7. Keep the CONSULTANT informed of any changes which need to be made and assist CONSULTANT with the change decision.

8. Be present at all required times for permit compliance.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated September 13, 2018, by and between the Village of Palm Springs ("VILLAGE") and Eckler Engineering, Inc. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

1. Pre-bid Meeting Minutes Information.
2. Addenda Information, as required, to the VILLAGE and/or Contractors.

B. Post Bid

1. Bid Tabulation.

2. Recommendation of Award Letter.

3. Contractor Notice of Tentative Award.

CONSTRUCTION PHASE

A. Pre-Construction

1. Three (3) sets of 22" x 34" signed/sealed drawings and specifications for Building Permit Submittal.

2. Three (3) sets of drawings (11" x 17") and specifications for VILLAGE's use during construction.

3. Three (3) sets of drawings (11" x 17") and specifications for CONTRACTOR's use during construction.

4. Pre-construction conference meeting agenda and minutes.

B. Shop Drawings

1. Electronic copies of accepted and final shop drawings.

C. Construction Inspection

1. Site visit reports will be provided for each site visit in accordance with Task(s) C6.

D. Progress Meetings

1. N/A

E. Contract Modifications

1. Four (4) copies of all completed contract modifications.

F. Pay Requests

1. Copies of reviewed and approved partial and final pay request applications.

G. Record Drawings and Project Closeout

1. Two (2) sets of record drawings.

2. Two (2) CD's with record drawings in .pdf and ACAD (2016 Civil 3D) formats.

H. Commissioning and Startup Reports.

1. N/A

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.11: Approve Change Order No. 1 (Task Order No. 271 - Work Authorization EE-U08) - Professional Engineering Services - Replacement of Sand Loader System Project - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Fund) - Eckler Engineering, Inc.

SUMMARY: On December 12, 2019, the Village Council approved Task Order #271 (Work Authorization EE-U08) with Eckler Engineering, Inc. for professional engineering services associated with the design and construction of the Sand Loader Replacement Project (Task Order No. 271) at the Main Water Treatment Plant in the amount of $35,759.

Currently, the Public Service Department is requesting approval of Change Order #2 to Task Order No. 271 (Work Authorization EE-U08) for Eckler Engineering to provide additional engineering and design services to ensure that the isolation valve within the Sand Loader System operates operates properly(if non-operational, the supply of sand from the sand storage silo to the sand loading system could be impacted) as well as to update the bid documents to go out to bid for a 2nd time (due to new language to request financial information to allow for more competitive bidding and ensuring qualified bidders are being considered).

As a result, the Village's contracted engineer, Eckler Engineering, and the Public Service Department are recommending an amendment to the approved Task Order #271 (Change order No. 1) with Eckler Engineering in the amount of $5,415.00 for additional engineering and design services as well as additional/updated bidding services (Task Order No. 271 - Work Authorization EE-U08).

The proposed tasks and associated costs to provide the professional engineering services to complete this project are as follows:

Work to be Completed	**Contract Amount**
Original Contract Amount - Task Order #271	$35,759.00
Add: Proposed Change Order No. 1 - Engineering & Design, Revise Bid Documents & Coordination	$ 5,415.00
Final Revised Contract Amount	**$41,174.00**

Note: The Village Council has approved funding ($278,386) within the within the FY 2021 Budget - Water & Sewer Enterprise Fund to support this project (design and construction).

If approved, the revised total cost for professional engineering design, bidding and construction services cost for the Sand Loader System Project within Task Order #271 will be increased to $41,174. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.

It is estimated that the proposed Replacement of Sand Loader Project will not require additional time to complete the design work from the the date the work authorization was issued to Eckler Engineering and the construction bid is expected to be awarded in the summer of 2021 and construction is expected to be complete by the end of FY 2021.

The proposed Change Order No. 1 (Task Order No. 271 - Work Authorization EE-U08) was prepared by Eckler Engineering and reviewed by the Assistant Public Service Director/Engineer, Utilities Superintendent, Village Attorney and Finance Director.

FISCAL IMPACT:

Funding to support the proposed Replacement of Sand Loader Project (Task Order No. 271) is available within the FY 2021 Budget - Water & Sewer Enterprise Fund:

Allocated/Estimated Project Funding:	***Amount***
FY 2020 Approved Funding - Water & Sewer Enterprise Fund	$ 17,45
FY 2021 Approved Funding - Water & Sewer Enterprise Fund	$288,38
Total Allocated/Estimated Budget	**$305,84**

Expected Project Costs - Engineering & Design Services :	***Amount***
Original Project Cost - Engineering - Water & Sewer Enterprise Fund (TO #271):	$ 35,759.00
Proposed Change Order #1 - Water & Sewer Enterprise Fund (TO #271):	$ 5,415.00

Total Project Cost - Engineering & Design Services	**$ 41,174.00**

Expected Project Costs - Construction Services :	***Amount***
FY2021 - Estimated Construction Costs	$ 218,000.00
Total Project Cost - Construction Services	**$ 259,174.00**

TOTAL PROJECT REQUEST/COST (REVISED)	**$300,348.00**

The Village will not expend more than the amount in the approved budget as it may be adopted/approved each year for these goods and services for the term of the contract.

Palm Springs, FL 33461

Dear Mr. Ward:

Reference: Engineering Scope Revision No. 1
Replacement of Sand Loader at Main WTP
VPS Project No.: 20-UTL-564-14

This Scope Revision is being submitted to modify the location of the new air compressor and to add a rotary inlet valve to the project scope. In addition, this Scope Revision includes additional fee associated with rebidding of the project due to high bids and underfunding. The rebid shall revise the Contract Documents to reflect updated dates, bid numbers and other general coordination. The anticipated work associated with this request is as follows:

1. Modify drawings to locate the new air compressor package at sand silo and not at the original scope location within the existing chemical building.

2. Add the removal and replacement of rotary inlet valve to the project.

3. General rebid coordination with the Village and project management.

4. Revise the Specifications to reflect updated bid numbers, dates (bid advertisement, pre-pre-bid conference, bid opening, etc…), and front-end documents.

5. Revise the Drawings to reflect updated bid numbers and dates.

6. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

For the additional items summarized above, we request **$5,415.00** for the anticipated work effort. The attached spreadsheet provides a breakdown of our proposed fee.

If you have any questions or require additional information pertaining to the attached documents or the project in general, please do not hesitate to contact me.

Sincerely,

Douglas K Hammann:A01410D0000 0178224CBADF000034A7

ENGINEERING SCOPE REVISION

Project:	Replacement of Sand Loader at Main WTP	**Client:**	Village of Palm Springs
EEI Project No:	400-088.01	**Contact:**	Paul Ward
Revision No:	1	**Date:**	March 24, 2021

Nature of Revision:

This Engineering Scope Revision covers work required to modify and prepare the drawings and specifications for rebid. Specifically, the following items shall be added:

1. Modify drawings to locate the new air compressor package at sand silo and not at the original scope location within the existing chemical building.
2. Add the removal and replacement of rotary inlet valve to the project.
3. General project management and bidding coordination.
4. Specification revisions necessary for bid coordination and updating front-end documents.
5. Revise the Drawings to reflect updated bid numbers and dates.
6. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

Scope of Services:

1. Engineering services (Items 1 through 6 above) in accordance with the attached fee breakdown spreadsheet = **$5,415.00**

Original Engineering Design Fee:	$18,373.00	**Original Time:**	218 Days
Previous Revisions:	$0.00	**Previous Revisions:**	0 Days
This Revision:	$5,415.00	**This Revision:**	30 Days
Revised Fee	$23,788.00	**Revised Time:**	248 Days

Approved by:

Douglas K Hammann:A01410D0000 0178224CBADF000034A7

Palm Springs, FL 33461

Dear Mr. Ward:

Reference: Proposal for Engineering Services
Design and Construction Phases for the
Replacement of Sand Loader System (Main WTP)
VPS Project No.: 20-UTL-564-14
Eckler Engineering Work Authorization No. EE-UXX

Enclosed is Work Authorization No. EE-UXX outlining the engineering services required for design and services during construction for the Replacement of Sand Loader System (Main WTP).

Eckler Engineering proposes to provide the design phase services for the lump sum fee of $18,373.00 and the engineering services during construction on an hourly rate plus direct expenses basis not to exceed $17,386.00 without the additional authorization of the Village Council.

If this Work Authorization meets with your approval, please coordinate placing on the next available Village Council Agenda. Following Council approval, please return one executed copy and the necessary Village of Palm Springs purchase order to our office approving Authorization to Proceed.

Eckler Engineering looks forward to the opportunity of continuing to provide professional engineering services to the Village of Palm Springs on this project. If you have any questions or require additional information pertaining to this Work Authorization, please do not hesitate to contact me.

Sincerely,

Douglas K. Hammann, P.E.

VILLAGE OF PALM SPRINGS

CONSULTING SERVICE WORK AUTHORIZATION

DATE: October 23, 2019 VILLAGE RFQ. NO.: 2018R-002

WORK AUTHORIZATION NO. EE-UXX FOR CONSULTING SERVICES

TASK ORDER (PROJECT) No. 271 G/L CODE: 41336-56400

ECKLER ENGINEERING PROJECT NO.: 400-0XX.01

PROJECT TITLE: Replacement of Sand Loader System (Main WTP)

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated September 13, 2018 between the Village of Palm Springs ("VILLAGE"), and Eckler Engineering, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

The existing Sand Loading System at the Village Main Water Treatment Plant was installed in 1998 as part of the Main Water Treatment Plant Phase II Improvements. The original Sand Loading System has been in continuous service at the Main Water Treatment facility for the past 21 years. Based on the location of this facility and the harsh service conditions required for operation, the system has performed well, but is beginning to deteriorate and is in constant need of maintenance and repairs. To address the replacement of this system, the following improvements are recommended per this Work Authorization:

A. Removal and replacement of the existing pneumatic sand conveyance system in its entirety inclusive of dense phase vessel, air management system panel, control panel, air compressor, receiver tank, and the desiccant dryer system.

B. Replacement design will be of similar configuration to the existing system in order to maintain familiarity with the operation and as a result of the performance of this type of system over the past 21 years.

C. In order to protect equipment that is susceptible to damage from environmental concerns such as rain and sunlight, the control systems, air management system, air compressor system, receiver tank and the air dryer system will all be located within the room formerly occupied by the previously deleted gas chlorinators. This location is just west of the sand silo and spiractors in the southeast corner of the eastern portion of the existing chemical feed building.

D. Electrical service requirements for the equipment will re-configured for the relocated equipment location as will high pressure air lines for operating the dense phase vessel. The existing sand silo will remain as existing.

E. Where necessary to provide for proper operation, the sand slurry feed lines to the existing spiractors will be removed and replaced with new similar material and diameter piping systems.

F. Ethernet communications and coordination with the proposed Main WTP SCADA system for the purposes of incorporating the proposed pneumatic sand conveyance system.

G. Structural modifications to the former chlorinator room including new equipment pads, pipe supports, and ventilation system improvements for air compressor operation. Ventilation improvements shall consist of louver additions.

H. Miscellaneous civil and sitework improvements to support the system modifications.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Work Authorization.

A. DESIGN PHASE

The Design Phase will include the following services:

TASK D1 - PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK D2 - DATA GATHERING AND PRELIMINARY COORDINATION

This task focuses on obtaining the necessary preliminary information required to prepare detailed engineering plans and specifications.

1. Visit the site and review pertinent features that may impact design and/or construction.

2. Collect existing facility's data including field conditions, and other information needed to complete the design.

3. Meet with appropriate VILLAGE staff to discuss the project requirements.

4. Coordination and completion of SUBCONSULTANT's professional services for electrical engineering.

TASK D3 - PRELIMINARY DESIGN REPORT

This task not required. The design conditions are currently known and defined.

TASK D4 - DRAWINGS AND ENGINEERING

This task consists of the engineering and the development of plans necessary to construct this project. The CONSULTANT will prepare detailed drawings for the proposed work as discussed in this task order. A tentative list of drawings to be prepared for this project is presented in ATTACHMENT 1.

TASK D5 - SPECIFICATION PREPARATION

1. Prepare Standard EJCDC (2013 Edition) Contract Forms, Bidding Documents and Contract Conditions required for this project.

2. Prepare technical specifications required for this project in Division 1 through Division 16. These specifications, utilizing the CSI format, will be prepared and will consist of written technical descriptions of materials, equipment and construction systems, standards and workmanship required for this project as developed by CONSULTANT. A tentative list of specification sections to be prepared for this project is presented in ATTACHMENT 2.

TASK D6 - PERMIT PREPARATION ASSISTANCE

This task consists of the preparation of the following construction permit application submittals:

1. No regulatory permits are anticipated. Work required is maintenance per FAC 62-555.520(1)(c)1. Notification to the Department per Rule will be provided, if applicable.

   Any additional permits required beyond the above will be considered as outside the scope of this proposal.

TASK D7 - PREPARE OPINION(S) OF PROBABLE CONSTRUCTION COST

Prepare the 90%, 100% and final completion level(s) opinion of probable construction cost for new facilities and improvements proposed under this project.

TASK D8 - BIDDING ASSISTANCE SERVICES

This task will include work necessary to assist the VILLAGE with the bidding of the project. This work may include the following:

1. Coordinate bidding requirements with VILLAGE and prepare electronic bid documents for distribution by the Village Clerk's office. Bidding documents shall be in .pdf format on CD or other requested media.

2. Assist VILLAGE Clerk's Office with the coordination of the bidding documents, the advertisement for bids, respond to communications from contractors, and prepare addenda information as required. The VILLAGE Clerk's Office shall publish/distribute all Addenda.

3. Attend the prebid meeting and prepare/distribute minutes to registered bidding contractors. VILLAGE Clerk's Office shall publish final Prebid Meeting Minutes.

4. Attend the bid opening and tabulate the bids provided by interested contractors.

TASK D9 - BID EVALUATION AND RECOMMENDATION OF AWARD ASSISTANCE

This task shall consist of the review and evaluation of the bids and the recommendation of a bidder for award of a contract. A recommendation of award letter shall be prepared and submitted to VILLAGE.

TASK D10 - SUBMIT AND REVIEW (QUALITY CONTROL)

The CONSULTANT will make the following submittals at various completion levels of this project for the purpose of VILLAGE's review and comment for coordination and quality control. A review meeting will be requested following each submittal to discuss and receive comments from the VILLAGE. The VILLAGE's comments shall be incorporated into revisions prior to the next subsequent quality control submittal. Quality control submittals for this project are anticipated at the following completion levels:

1. 90% Drawings and Specifications

2. 100% Drawings and Specifications

3. Final Drawings and Specifications

   The CONSULTANT will incorporate the agreed-upon revisions made by the VILLAGE.

   A total of three (3) meeting(s) with the VILLAGE is the level of effort for this Task.

B. ENGINEERING SERVICES DURING CONSTRUCTION

TASK C1 – PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK C2 - PRECONSTRUCTION ACTIVITIES PRIOR TO NOTICE TO PROCEED

After issuance of a Notice of Award by VILLAGE, assist in the preparation and signing of the Contract Documents. The CONSULTANT will also undertake other preconstruction activities which include coordinating, attending and preparing minutes of the preconstruction conference meeting and assisting the Contractor in finalizing the permits required for the construction of this project by providing the required number of signed/sealed drawing sets.

TASK C3 - CONSULT AND ADVISE

Provide technical advice and assistance to VILLAGE during the construction period and provide necessary interpretations and clarifications of the Contract Documents as required by VILLAGE or Contractor by responding to RFI's or other documentation. An evaluation of and response to an estimated two (2) RFI's is the level of effort that is estimated for this task.

TASK C4 - REVIEW SHOP DRAWINGS

Review Shop Drawings and samples, the results of tests and inspections, and other data submitted by the Contractor in accordance with the Contract Documents. A total of ten (10) submittals is the estimated basis for this item's budget.

TASK C5 - REVIEW PAY REQUESTS AND SCHEDULES

Review estimated three (3) monthly pay requests and make recommendations for payment to VILLAGE. Monthly pay requests will be reviewed in the field and an agreement reached between the Contractor, VILLAGE's project representative(s), and the CONSULTANT prior to formal submittal to VILLAGE for payment. Review the Contractor's preliminary and monthly progress schedules through completion.

TASK C6 - PERFORM PERIODIC AND MILESTONE INSPECTIONS

CONSULTANT will make periodic site visits at intervals appropriate to the various stages of construction to observe the work, determine conformity with the plans and specifications, and compliance with the construction permits. It is anticipated that there will be a total of two (2) visits.

Perform inspections to determine that the project has achieved substantial completion and readiness for final acceptance and that the work has been completed in general conformance with the Contract Documents to certify completion of construction to permitting agencies, where applicable. Two (2) such site visits are anticipated.

TASK C7 - PROGRESS MEETINGS

This task not required.

TASK C8 - CONTRACT MODIFICATIONS

Develop the necessary data, notes and clarification drawings required to prepare contract modifications to reflect adjustments to the construction project. One (1) contract modification incorporating a total of four (4) items, is the estimated basis for this budget item.

TASK C9 - PROJECT CLOSEOUT

Review the Contractor's record drawing information which shows the work as it was constructed. Prepare for VILLAGE record drawings and prints showing those changes made during the construction process based upon information provided by the Contractor as follows:

1. CONSULTANT shall prepare record drawings based on Contractor's field data.

2. CONSULTANT shall submit record documents to VILLAGE.

3. CONSULTANT shall attend the final project reconciliation meetings with VILLAGE and CONTRACTOR.

TASK C10 - REGULATORY AGENCY DOCUMENTATION AND PROJECT CLOSEOUT SUBMITTALS

Project services in connection with preparing acknowledgment of Final Completion construction submittals with record drawings to the following agencies.

1. Palm Springs Building Department

TASK C11 - SPECIAL SERVICES

The CONSULTANT shall provide special services during construction consisting of the following items:

Resident Services

To monitor that project is constructed in complete conformance with the Contract Documents.

Services which will be provided by the CONSULTANT's resident project representative will consist of the following:

Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Construction Contract Documents.

1. Observe any tests and review the results of tests required of the Contractor by the Contract Documents.

2. Observe the placement of reinforcing steel and all concrete pours. Observe the construction of all piping and equipment placement.

3. Assist with commissioning, startup and check out the operation of all new equipment and control systems.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. In order to estimate the efforts of the CONSULTANT's project representative, it is anticipated that a person would need to visit the project site ten (10) times, approximately 3 hours per visit.

III. DELIVERABLES

Project deliverables shall be in accordance with Attachment 1.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Attachment 3.

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for the fees as outlined in Tables 1 and 2 and further detailed in Attachments 5 and 6.

A. DESIGN PHASE

1. For services described in Part II. A. - Design Phase, Tasks D1 through D10, the lump sum fee of **$18,373.00**.

TABLE 1
DESIGN PHASE
BUDGET SUMMARY

Description	Total
D1 - Project Administration / Management	$2,310.00
D2 - Data Gathering and Preliminary Coordination	$1,000.00
D3 - Not Used	$0.00
D4 - Drawings and Engineering	$7,370.00
D5 - Specification Preparation	$1,350.00
D6 - Permitting	$0.00
D7 - Prepare Opinions of Probable Construction Cost	$321.00
D8 - Bidding Assistance Services	$1,470.00
D9 - Bid Evaluation and Recommendation of Award	$864.00
D10 - Submit and Review (Quality Control)	$1,830.00
Reimbursable Expenses	$1,858.00
TOTAL LUMP SUM FEE	**$18,373.00**

B. CONSTRUCTION PHASE

1. For services described in Part II. B. - Construction Phase, Tasks C1 through C11, not to exceed fee of **$17,386.00.**

TABLE 2

ENGINEERING SERVICES DURING CONSTRUCTION
BUDGET SUMMARY

Description	Total
C-1 Project Administration / Management	$2,000.00
C-2 Preconstruction Activities Prior to Notice to Proceed	$1,896.00
C-3 Consult and Advise	$1,290.00
C-4 Review Shop Drawings	$2,480.00
C-5 Review Pay Requests & Schedules	$978.00
C-6 Perform Periodic & Milestone Inspections	$1,616.00
C-7 Not Used	$0.00
C-8 Contract Modifications	$786.00
C-9 Project Closeout	$2,474.00
C-10 Not Used	$0.00
C-11 Special Services	$3,200.00
Reimbursable Expenses	$666.00
TOTAL NOT-TO-EXCEED FEE	**$17,386.00**

VI. ASSUMPTIONS

This Work Authorization does not include the provision of the following items:

A. Payment of permit fees.

B. Any expert witness or testimony services.

C. Services not specifically indicated in this Work Authorization.

This Work Authorization assumes the following data or assistance will be provided by VILLAGE:

A. Attendance at project meetings.

B. General project review, where required.

C. Provide pertinent project data and information available from VILLAGE when requested by CONSULTANT.

D. Facility access and other project related information requested by CONSULTANT.

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

Provide editable files (Word format) of VILLAGE's EJCDC based (2013 Edition) Contract forms. If unavailable, CONSULTANT shall use documents from recent VILLAGE projects.

Services which will be provided by the VILLAGE resident project representative will include the following:

1. Monitor that project is constructed in conformance with the Contract Documents.

2. Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Contract Documents.

3. Observe field tests and review the results of tests required by the Contract Documents.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. Provide daily reports of Contractor activity to the CONSULTANT on a form provided by the CONSULTANT.

6. Provide photographs of the work during construction showing typical construction progress.

7. Keep the CONSULTANT informed of any changes which need to be made and assist CONSULTANT with the change decision.

8. Be present at all required times for permit compliance.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated September 13, 2018, by and between the Village of Palm Springs ("VILLAGE") and Eckler Engineering, Inc. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

LIST OF PROJECT DELIVERABLES

DESIGN PHASE

A. 90% Design Submittal

1. One (1) set of 11" x 17" Drawings, 90% complete.
2. 90% Completion Estimate of Probable Construction Cost.

B. 100% Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. 100% Completion Estimate of Probable Construction Cost.

C. Final Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. Final Completion Estimate of Probable Construction Cost.

D. Permit Documents

1. Not Applicable

BIDDING SERVICES

A. Bidding (Final) Coordination Submittal

1. One (1) set of 11" x 17" Drawings (Final).
2. One (1) Final Completion Estimate of Probable Construction Cost.
3. Four (4) CD's with bid documents in .pdf format.

B. Pre-Bid

1. Pre-bid Meeting Minutes Information.
2. Addenda Information, as required, to the VILLAGE and/or Contractors.

C. Post Bid

1. Bid Tabulation.

2. Recommendation of Award Letter.

3. Contractor Notice of Tentative Award.

CONSTRUCTION PHASE

A. Pre-Construction

1. Three (3) sets of 22" x 34" signed/sealed drawings and specifications for Building Permit Submittal.

2. Three (3) sets of drawings (11" x 17") and specifications for VILLAGE's use during construction.

3. Three (3) sets of drawings (11" x 17") and specifications for CONTRACTOR's use during construction.

4. Pre-construction conference meeting agenda and minutes.

B. Shop Drawings

1. Electronic copies of accepted and final shop drawings.

C. Construction Inspection

1. Site visit reports will be provided for each site visit in accordance with Task(s) C6.

D. Progress Meetings

1. N/A

E. Contract Modifications

1. Four (4) copies of all completed contract modifications.

F. Pay Requests

1. Copies of reviewed and approved partial and final pay request applications.

G. Regulatory Permit Closeout Documents

1. Not Applicable

H. Record Drawings and Project Closeout

1. Two (2) sets of record drawings.

2. Two (2) CD's with record drawings in .pdf and ACAD (2016 Civil 3D) formats.

I. Commissioning and Startup Reports.

1. Pneumatic Conveyance System Startup Report.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.12: Approve Change Order No. 1 (Task Order #261 - Work Authorization EE-P01) - Professional Engineering Services - Storage Building for Maintenance Equipment - Public Service Department (FY 2021 Budget Funded - General Fund Public Works) - Eckler Engineering

SUMMARY:

On January 9, 2020, the Village Council approved Task Order No. 261 (Work Authorization EE-P01) with Eckler Engineering for professional engineering services associated with the design and construction of the Storage Building for Maintenance Equipment (Task Order No. 261) at the Main Water Treatment Plant (WTP) in the amount of $ 43,312.50.

Currently, the Public Service Department is requesting approval of Change Order No. 1 to Task Order No. 261 (Work Authorization EE-P01) for Eckler Engineering to provide additional engineering and design services to reflect the construction of one (1) building on this property instead of two (2) that were previously shown as well as to update the bid documents to go out to bid for a 2nd time (due to pricing/bids that were significantly over the Village's budgeted amount).

Note: In 2017, an open 120' x 40' pre-engineered metal structure/building was constructed near the southeastern boundary of the property to provide covered storage for Public Works equipment and vehicles; however, additional storage area is needed at this time. In order to maintain access to existing Village water treatment facilities and existing Village Public Works facilities, the available area to construct additional storage is limited and the Engineer is proposing an additional storage structure to be built on the northeast side of the existing

storage structure, which is expected to add approximately 1,500 additional square feet of covered storage space.

Note: In an effort to lower design and construction costs for this project (and to ensure vendor interest to take on this project) it has been recommended by Eckler Engineering and Village Staff to combine this project (Task Order No. 261) with the proposed Materials Storage Building that will be located at the Village's Utility Maintenance facility - 2400 Kirk Road (Task Order No. 260) and bid them as one, single project.

As a result, the Village's contracted engineer, Eckler Engineering, and the Public Service Department are recommending an amendment to the approved Task Order No. 261 (Change Order #1) with Eckler Engineering in the amount of $5,000 to support additional engineering and design services as well as additional/updated bidding services (Task Order No. 261 - Work Authorization EE-P01).

The proposed tasks and associated costs to provide the professional engineering services to complete this project are as follows:

Work to be Completed	**Contract Amount**
Original Contract Amount - Design & Bidding	$22,494.00
Original Contract Amount - Construction Services	$20,818.50
Add: Propose Change Order No. 1	$ 5,000.00
Final Revised Contract Amount	**$48,312.50**

Note: The Village Council has approved funding ($220,000) within the FY 2021 Budget - General Fund to support this project (design & construction).

If approved, the revised total cost for professional engineering design, bidding and construction services cost for the Storage Building for Maintenance Equipment Project within Task Order No. 261 will be increased to $48,312.50. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.

It is estimated that the Proposed Storage Building for Maintenance Equipment project will require an additional thirty (30) days (May/June 2021) to complete the design work from the date the change order is issued to Eckler Engineering and construction is estimated to be

completed six (6) months (June/July 2022) following the completion of Material Storage Building project at 2400 Kirk Road, which is expected to be completed 11 months from the Notice to Proceed by the Village.

The proposed Change Order #1 (Task Order No. 261 - Work Authorization EE-P01) was prepared by Eckler Engineering and reviewed by the Assistant Public Service Director/Engineer, Public Service Project Manager, Assistant Village Manager, Village Attorney and the Finance Director.

FISCAL IMPACT:

Funding to support the proposed Storage Building for Maintenance Equipment Project (Task Order #261) is available within the FY 2021 Budget - General Fund.

Allocated/Estimated Project Funding	***Amount***
FY 2020 Actual - Engineering & Design Cost - General Fund (TO #261):	$ 21,369.30
FY 2021 Approved Budget - General Fund (TO #261):	$220,000.00
Total Allocated/Estimated Budget	**$241,369.30**

Expected Project Costs - Engineering & Design Services	***Amount***
Original Project Cost (Design & Bidding) - General Fund Public Works (TO #261):	$ 22,494.00
Original Project Cost (Const Services) - General Fund Public Works (TO #261):	$ 20,818.50
Proposed Change Order No. 1	$ 5,000.00
Total Project Cost - Engineering & Design Services	**$ 48,312.50**
Expected Project Costs - Construction Services	
Projected Construction Costs - General Fund (TO # 261):	$203,000.00
Total Project Cost - Construction Services	**$203,000.00**
TOTAL PROJECT REQUEST/COST (REVISED)	**$251,312.50**

The Village will not expend more than the amount in the approved budget as it may be adopted / approved each year for these goods and services for the term of the contract.

An internal budget transfer or amendment to support this proposed cost above the budgeted amount may be completed within the General Fund at a later date, if necessary.

ECKLER ENGINEERING, INC.

February 5, 2021 (Sent via email to: wsanchez@vpsfl.org)
400-085.01

Mr. Walter Sanchez
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

Dear Mr. Sanchez:

Reference: Engineering Scope Revision No. 1
Main WTP Equipment Storage Buildings
Eckler Engineering Work Authorization No. EE-P01
Village P.O. No.: 057 (FY 2021)

This Scope Revision is being submitted at the Village's request to rebid the Main WTP Equipment Storage Building projects due to high bids and underfunding. The rebid shall revise the Contract Documents to reflect the Kirk Road Pipe and Material Storage Building as the base bid with the East Building at the Main WTP as an alternate. The North Building at the Main WTP shall be eliminated from the bid. The anticipated work associated with this request is as follows:

1. General bid coordination with the Village and project management.

2. Revise the Specifications to reflect updated bid numbers, dates (bid advertisement, pre-pre-bid conference, bid opening, etc…), and description of work.

3. Revise the Drawings to reflect updated bid numbers and elimination of the North Building at the Main WTP, including any associated notes and details.

4. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

For the additional items summarized above, we request **$5,000.00** for the anticipated work effort. The attached spreadsheet provides a breakdown of our proposed fee.

If you have any questions or require additional information pertaining to the attached documents or the project in general, please do not hesitate to contact me.

Sincerely,

Chase Dickinson

Chase Dickinson, P.E.

Encl.

ENGINEERING SCOPE REVISION

Project:	Main WTP Equipment Storage Building	**Client:**	Village of Palm Springs
EEI Project No:	400-085.01	**Contact:**	Walter Sanchez
Revision No:	1	**Date:**	February 3, 2021

Nature of Revision:

This Engineering Scope Revision covers work required to modify and prepare the drawings and specifications for rebid. Specifically, the following items shall be added:

1. General project management and bidding coordination.
2. Specification revisions for necessary for bid coordination, making the Kirk Road building the base bid and eliminating the North Building at the Main WTP.
3. Drawing revisions necessary to eliminate the North Building at the Main WTP.
4. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

Scope of Services:

1. Engineering services (Items 1 through 4 above) in accordance with the attached fee breakdown spreadsheet = **$5,000.00**

Original Engineering Design Fee:	$22,494.00	**Original Time:**	197 Days
Previous Revisions:	$0.00	**Previous Revisions:**	0 Days
This Revision:	$5,000.00	**This Revision:**	30 Days
Revised Fee	$27,949.00	**Revised Time:**	227 Days

Prepared by:	**Accepted by:**
Chase Dickinson, P.E. Project Manager Eckler Engineering, Inc.	Walter Sanchez Project Manager Village of Palm Springs

Palm Springs, FL 33461

Dear Mr. Sanchez:

Reference: Proposal for Engineering Services
Design and Construction Phases for the
Storage Building for Maintenance Equipment
VPS Project No.: 20-PW-562-01
Eckler Engineering Work Authorization No. EE-P01

Enclosed is Work Authorization No. EE-P01 outlining the engineering services required for design and services during construction for the Additional Public Works Equipment Storage Building.

Eckler Engineering proposes to provide the design phase services for the lump sum fee of $22,494.00 and the engineering services during construction on an hourly rate plus direct expenses basis not to exceed $20,818.50 without the additional authorization of the Village Council.

If this Work Authorization meets with your approval, please coordinate placing on the next available Village Council Agenda. Following Council approval, please return one executed copy and the necessary Village of Palm Springs purchase order to our office approving Authorization to Proceed.

Eckler Engineering looks forward to the opportunity of continuing to provide professional engineering services to the Village of Palm Springs on this project. If you have any questions or require additional information pertaining to this Work Authorization, please do not hesitate to contact me.

Sincerely,

Douglas K. Hammann, P.E.

CONSULTING SERVICE WORK AUTHORIZATION

DATE: October 24, 2019 VILLAGE RFQ. NO.: 2018R-002

WORK AUTHORIZATION NO. EE-P01 FOR CONSULTING SERVICES

TASK ORDER (PROJECT) No. 261 G/L CODE: 01441-56200

ECKLER ENGINEERING PROJECT NO.: 400-085.01

PROJECT TITLE: Storage Building for Maintenance Equipment

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated September 13, 2018 between the Village of Palm Springs ("VILLAGE"), and Eckler Engineering, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

The Village Public Works staff stores equipment and vehicles at the south end of the Village Main Water Treatment Plant site. In 2017, an open bay, 120' x 40' pre-engineered metal structure/building was constructed near the southeastern limits of the Village Main Water Treatment Plant. The 2017 structure provided covered storage area for Public Works equipment and vehicles, however, additional storage area has been requested at this time. In order to maintain access to existing Village water treatment facilities and existing Village Public Works facilities, the available area to construct additional storage is limited. CONSULTANT proposes an addition to the 2017 storage structure and a new stand-alone structure (see Attachment 7). The following general scope of work is proposed:

A. New pre-engineered metal structure/building addition (South Building) on extended concrete slabs on the northeast side of the 2017 structure.

B. New pre-engineered metal structure/building (North Building) on the south side of the wash water recovery basin.

C. New reinforced concrete building slab additions and additional concrete column foundations.

D. Site plan revisions to address impact to site drainage and paved access adjacent to the proposed storage bay additions.

E. Site restoration and other miscellaneous engineering work associated with siting the proposed buildings.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Task Order.

A. DESIGN PHASE

The Design Phase will include the following services:

TASK D1 - PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK D2 - DATA GATHERING AND PRELIMINARY COORDINATION

This task focuses on obtaining the necessary preliminary information required to prepare detailed engineering plans and specifications.

1. Visit the site and review pertinent features that may impact design and/or construction.

2. Collect existing facility's data including field conditions, access, and other information needed to complete the design.

3. Meet with appropriate VILLAGE staff to discuss the project requirements.

4. Coordination and completion of SUBCONSULTANT'S professional services for geotechnical engineering.

5. CONSULTANT shall coordinate and include survey work from the 2017 storage building project into this project.

TASK D3 - PRELIMINARY DESIGN REPORT

This task not required. The design conditions are currently known and defined.

TASK D4 - DRAWINGS AND ENGINEERING

This task consists of the engineering and the development of plans necessary to construct this project. The CONSULTANT will prepare detailed drawings for the proposed work as discussed in this task order. A tentative list of drawings to be prepared for this project is presented in ATTACHMENT 1.

TASK D5 - SPECIFICATION PREPARATION

1. Prepare Standard EJCDC (current VILLAGE standard) Contract Forms, Bidding Documents and Contract Conditions required for this project.

2. Prepare technical specifications required for this project in Division 1 through Division 16. These specifications, utilizing the CSI format, will be prepared and will consist of written technical descriptions of materials, equipment and construction systems, standards and workmanship required for this project as developed by CONSULTANT. A tentative list of specification sections to be prepared for this project is presented in ATTACHMENT 2.

TASK D6 - PERMIT PREPARATION ASSISTANCE

This task consists of the preparation of the following construction permit application submittals:

1. No regulatory permits are anticipated.

   Any additional design phase permits required beyond the above will be considered as outside the scope of this proposal.

TASK D7 - PREPARE OPINION(S) OF PROBABLE CONSTRUCTION COST

Prepare the 90%, 100%, and Final completion level opinion(s) of probable construction cost for new facilities and improvements proposed under this project.

TASK D8 - BIDDING ASSISTANCE SERVICES

This task will include work necessary to assist the VILLAGE with the bidding of the project. This work may include the following:

1. Coordinate bidding requirements with VILLAGE and prepare electronic bid documents for distribution by the VILLAGE Clerk's office. Bidding documents shall be in .pdf format on CD or electronic submittal.

2. Assist VILLAGE Clerk's Office with the coordination of the bidding documents, the advertisement for bids, respond to communications from bidders, and assist with preparation of documents for issuance of addenda information as required.

3. Attend the prebid meeting and prepare minutes for submittal to VILLAGE Clerk's office. VILLAGE Clerk's Office shall publish final Prebid Meeting Minutes.

4. Attend the bid opening and tabulate the bids provided by interested contractors.

TASK D9 - BID EVALUATION AND RECOMMENDATION OF AWARD ASSISTANCE

This task shall consist of the review and evaluation of the bids to make a recommendation of a bidder for award of a contract. A recommendation of award letter shall be prepared and submitted to VILLAGE.

TASK D10 - SUBMIT AND REVIEW (QUALITY CONTROL)

The CONSULTANT will make the following submittals at various completion levels of this project for the purpose of VILLAGE's review and comment for coordination and quality control. A review meeting will be requested following each submittal to discuss and receive comments from the VILLAGE. The VILLAGE's comments shall be incorporated into revisions prior to the next subsequent quality control submittal. Quality control submittals for this project are anticipated at the following completion levels:

1. 90% Drawings and Specifications

2. 100% Drawings and Specifications

3. Final Drawings and Specifications

The CONSULTANT will incorporate the agreed-upon revisions made by the VILLAGE.

A total of three (3) meetings with the VILLAGE is the level of effort for this Task.

B. ENGINEERING SERVICES DURING CONSTRUCTION

TASK C1 – PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK C2 - PRECONSTRUCTION ACTIVITIES PRIOR TO NOTICE TO PROCEED

After issuance of a Notice of Award by VILLAGE, assist in the preparation and signing of the Contract Documents. The CONSULTANT will also undertake other preconstruction activities which include coordinating, attending and preparing minutes of the preconstruction conference meeting and assisting the Contractor in finalizing the permits required for the construction of this project by providing the required number of signed/sealed drawing sets and answering questions from the local Building Department.

TASK C3 - CONSULT AND ADVISE

Provide technical advice and assistance to VILLAGE during the construction period and provide necessary interpretations and clarifications of the Contract Documents as required by VILLAGE or Contractor by responding to RFI's or other documentation. Evaluation of and response to an estimated five (5) RFI's is the level of effort estimated for this task.

TASK C4 - REVIEW SHOP DRAWINGS

Review Shop Drawings and samples, the results of tests and inspections, and other data submitted by the Contractor in accordance with the Contract Documents. A total of ten (10) submittals is the estimated basis for this item's budget.

TASK C5 - REVIEW PAY REQUESTS AND SCHEDULES

Review estimated three (3) monthly pay requests and make recommendations for payment to VILLAGE. Monthly pay requests will be reviewed in the field and an agreement reached between the Contractor, VILLAGE's project representative(s), and the CONSULTANT prior to formal submittal to VILLAGE for payment. Review the Contractor's preliminary and monthly progress schedules through completion.

TASK C6 - PERFORM PERIODIC AND MILESTONE INSPECTIONS

CONSULTANT will make periodic site visits at intervals appropriate to the various stages of construction to observe the work, determine conformity with the plans and specifications, and compliance with the construction permits. It is anticipated that there will be a total of six (6) visits.

Perform inspections to determine that the project has achieved substantial completion and readiness for final acceptance and that the work has been completed in general conformance with the Contract Documents to certify completion of construction to permitting agencies, where applicable. Two (2) such site visits are anticipated.

TASK C7 - PROGRESS MEETINGS

This task not required.

TASK C8 - CONTRACT MODIFICATIONS

Develop the necessary data, notes, and clarification drawings required to prepare contract modifications to reflect adjustments to the construction project. One (1) contract modification incorporating a total of four (4) items, is the estimated basis for this budget item.

TASK C9 - PROJECT CLOSEOUT

Review the Contractor's record drawing information which shows the work as it was constructed. Prepare for VILLAGE record drawings and prints showing those changes made during the construction process based upon information provided by the Contractor as follows:

1. CONSULTANT shall prepare record drawings based on Contractor's field data.

2. CONSULTANT shall submit record documents to VILLAGE.

3. CONSULTANT shall attend the final project reconciliation meetings with VILLAGE and CONTRACTOR.

TASK C10 - REGULATORY AGENCY DOCUMENTATION AND PROJECT CLOSEOUT SUBMITTALS

Project services in connection with preparing acknowledgment of Final Completion construction submittals with record drawings to the following agencies.

1. Palm Springs Building Department

TASK C11 - SPECIAL SERVICES

The CONSULTANT shall provide special services during construction consisting of the following items:

Resident Services

To monitor that project is constructed in complete conformance with the Contract Documents.

Services which will be provided by the CONSULTANT's resident project representative will consist of the following:

Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Construction Contract Documents.

1. Observe any tests and review the results of tests required of the Contractor by the Contract Documents.

2. Observe the placement of reinforcing steel and all concrete pours. Observe the construction of all piping and equipment placement.

3. Assist with commissioning, startup and check out the operation of all new equipment and control systems.

4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.

5. In order to estimate the efforts of the CONSULTANT's project representative, it is anticipated that a person would need to visit the project site ten (10) times, approximately 3 hours per visit.

III. DELIVERABLES

Project deliverables shall be in accordance with Attachment 3.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Attachment 4.

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for the fees as outlined below in Tables 1 and 2 and further detailed in Attachments 5 and 6.

A. DESIGN PHASE

1. For services described in Part II. A. - Design Phase, Tasks D1 through D10, the lump sum fee of **$22,494.00**.

TABLE 1
DESIGN PHASE
BUDGET SUMMARY

Description	Total
D1 - Project Administration / Management	$2,708.00
D2 - Data Gathering and Preliminary Coordination	$1,354.00
D3 - Not Used	$0.00
D4 - Drawings and Engineering	$6,770.00
D5 - Specification Preparation	$2,002.00
D6 – Permit Preparation Assistance	$0.00
D7 - Prepare Opinions of Probable Construction Cost	$1,188.00
D8 - Bidding Assistance Services	$1,856.00
D9 - Bid Evaluation and Recommendation of Award	$964.00
D10 - Submit and Review (Quality Control)	$2,449.00
Reimbursable Expenses	$3,203.00
TOTAL LUMP SUM FEE	**$22,494.00**

B. CONSTRUCTION PHASE

1. For services described in Part II. B. - Construction Phase, Tasks C1 through C11, not to exceed fee of **$20,818.50.**

TABLE 2
ENGINEERING SERVICES DURING CONSTRUCTION
BUDGET SUMMARY

Description	Total
C-1 Project Administration / Management	$2,208.00
C-2 Preconstruction Activities Prior to Notice to Proceed	$1,648.00
C-3 Consult and Advise	$2,215.00
C-4 Review Shop Drawings	$2,030.00
C-5 Review Pay Requests & Schedules	$1,113.00
C-6 Perform Periodic & Milestone Inspections	$3,328.00
C-7 Not Used	$0.00
C-8 Contract Modifications	$1,032.00
C-9 Project Closeout	$4,044.50
C-10 Not Used	$0.00
C-11 Special Services	$3,200.00
Reimbursable Expenses	$0.00
TOTAL NOT-TO-EXCEED FEE	**$20,818.50**

VI. ASSUMPTIONS

This Work Authorization does not include the provision of the following items:

A. Payment of permit fees.

B. Any expert witness or testimony services.

C. Topographic surveying services. Topographic survey completed for the 2017 building project will be utilized for completion of this Work Authorization.

D. Stormwater Management Plan will not be prepared for this site.

E. Services not specifically indicated in this Work Authorization.

This Work Authorization assumes the following data or assistance will be provided by VILLAGE:

A. Attendance at project meetings.

B. General project review, where required.

C. Provide pertinent project data and information available from VILLAGE when requested by CONSULTANT.

D. Facility access and other project related information requested by CONSULTANT.

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

Services which will be provided by the VILLAGE resident project representative will include the following:

1. Monitor that project is constructed in conformance with the Contract Documents.

2. Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Contract Documents.
3. Observe field tests and review the results of tests required by the Contract Documents.
4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.
5. Provide daily reports of Contractor activity to the CONSULTANT on a form provided by the CONSULTANT.
6. Provide photographs of the work during construction showing typical construction progress.
7. Keep the CONSULTANT informed of any changes which need to be made and assist CONSULTANT with the change decision.
8. Be present at all required times for permit compliance.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated September 13, 2018, by and between the Village of Palm Springs ("VILLAGE") and Eckler Engineering, Inc. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

LIST OF PROJECT DELIVERABLES

DESIGN PHASE

A. 90% Design Submittal

1. One (1) set of 11" x 17" Drawings, 90% complete.
2. One (1) Specification Booklet.
3. 90% Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

B. 100% Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. One (1) Specification Booklet.
3. 100% Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

C. Final Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. One (1) Specification Booklet.
3. Final Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

D. Bidding (Final) Coordination Submittal

1. One (1) set of 11" x 17" Drawings (Final).

2. One (1) Specification Booklet.

3. One (1) Final Completion Estimate of Probable Construction Cost.

4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

BIDDING SERVICES

A. Pre-Bid

1. Pre-bid Meeting Minutes Information.

2. Addenda Information, as required, to the VILLAGE.

B. Post Bid

1. Bid Tabulation.

2. Recommendation of Award Letter.

3. Contractor Notice of Tentative Award.

CONSTRUCTION PHASE

A. Pre-Construction

1. Three (3) sets of 22" x 34" signed/sealed drawings and specifications for Building Permit Submittal.

2. Three (3) sets of drawings (11" x 17") and specifications for VILLAGE's use during construction.

3. Three (3) sets of drawings (11" x 17") and specifications for CONTRACTOR's use during construction.

4. Pre-construction conference meeting agenda and minutes.

B. Shop Drawings

1. Electronic copies of accepted and final shop drawings.

C. Construction Inspection

1. Site visit reports will be provided for each site visit in accordance with Task(s) C6 and C11.

D. Progress Meetings

1. N/A

E. Contract Modifications

1. Four (4) copies of all completed contract modifications.

F. Pay Requests

1. Copies of reviewed and approved partial and final pay request applications.

G. Record Drawings and Project Closeout

1. Two (2) sets of record drawings.

2. Two (2) CD's with record drawings in .pdf and ACAD (2016 Civil 3D) formats.

H. Commissioning and Startup Reports.

1. N/A

Re: Proposal/Agreement for Geotechnical Exploration Services
Village of Palm Springs Public Works Department
Equipment Storage Building
360 Davis Road
Palm Springs, FL

Dear Mr. Hammann:

Nutting Engineers of Florida, Inc. (NE) is pleased to present this proposal/agreement for performing geotechnical engineering services at the referenced project.

Per your email dated August 27, 2019, we understand that plans for this project include constructing a pre-engineered equipment storage building at the referenced site. At the time of this proposal a site plan was not available; however, we anticipate receiving one prior to the initiation of on-site activities. Based on your request for proposal and our understanding of the project, we propose the following scope of work and fee schedule.

SCOPE OF WORK

We propose to perform two Standard Penetration Test (SPT) borings in general accordance with ASTM D-1586 specifications to a depth of 20 feet in the area of the proposed building. In order to perform the test borings, the existing concrete slab will need to be cored through. The holes will be patched after the borings are completed.

At the completion of the on-site work, the soil samples will be returned to our laboratory. We will provide an engineering report including a description of our findings and general site preparation and foundation design recommendations for support of the proposed construction. In order to provide information concerning the engineering properties of the soils encountered, it is anticipated that tests may be performed to determine natural water content, organic content, and sieve analysis on representative soil samples collected from the site. The engineering report will include graphic logs of the test borings and a test boring location plan. We assume the site is accessible to truck mounted drilling equipment and that underground utilities will be cleared by others prior to our performing the on-site work.

FEE SCHEDULE

The above-indicated scope of work will be performed for an estimated cost of $1,975.00 based on the following rates and quantities:

Tech. site visit, boring layout, utility clearance	Lump Sum	$100.00
Mobilization of equipment/crew	1 @ $150.00	$150.00
SPT borings* (truck mounted drill rig)	Lump Sum	$500.00 (min)
Casing	Lump Sum	$200.00
Concrete slab coring/ patching	Lump Sum	$150.00
Soil classification/ laboratory analysis	Lump Sum	$50.00
Project Engineer	Lump Sum	$650.00
Principal Engineer	Lump Sum	$125.00
Clerical/ Admin. for report preparation	Lump Sum	$50.00

*If loose or deleterious soil is encountered it may be necessary to extend the soil boring(s).

Additional requested and authorized services beyond those described above will be provided at customary unit rates with expenses at cost +20%.

Construction Materials Testing (as may be required):
Pile monitoring - $65.00/hour
Proctors - $150.00/test
Density tests - $25.00/test (5 min/trip)
Concrete cylinders - $85.00/set
Trip charge - $50.00/ea. (if required)
Bearing capacity completion letter - $150.00
Clerical/ Admin. - $50.00/hour
Principal Engineer - $125.00/hour

Once we receive the executed/ signed proposal, project scheduling will commence. The on-site work should take approximately one business day to complete. The geotechnical report should be available within approximately 12 - 15 business days after the on-site work is completed.

NE has been offering geotechnical engineering, environmental sciences, materials testing, and structural inspection services for over 50 years in South Florida and the Treasure Coast during which time we have worked on many similar projects. Our commitment to practical, cost effective solutions supported by responsive client services distinguishes our firm and enables us to solve your most demanding technical challenges. Another value-added component NE brings to your project is our staff of experienced professionals including geotechnical engineers, environmental specialists, field personnel who are certified and have been trained to provide a wide range of consulting services, and our dedicated administrative staff.

Our laboratory is checked annually by the Construction Materials Engineering Council (CMEC) and is certified to perform geotechnical engineering and materials testing services for the Florida Department of Transportation (FDOT).

Our sister company, Nutting Environmental of Florida, Inc. (NEF), can assist in your environmental needs. For thirty years, NEF has performed a wide variety of environmental consulting services throughout Florida including Phase I and II environmental site assessments, storage tank removal and tank closure assessments, contamination assessments, design and implementation of remedial action plans (RAP), groundwater monitoring for solid waste and Hazmat permit requirements, assistance with dewatering permitting and much more. NEF can be reached 561-732-7200.

Thank you for providing us the opportunity to present this proposal/agreement. We look forward to working with you on this and future projects.

Respectfully submitted,
NUTTING ENGINEERS OF FLORIDA, INC.

Scott Ersland
Division Manager

Richard C. Wohlfarth, P.E.
Principal/ Director of Engineering

Reports and invoices will be addressed to the client as listed below unless other instructions are provided in writing with this executed proposal. The undersigned, as an authorized representative of the entity listed below, approves this proposal and agrees to be bound by the terms and conditions contained in this proposal. Deposit amounts are collected at time of written authorization to proceed. If you are a first-time client, we request that the balance due for these services be paid at the time of report completion. Once your account is established, our terms are net 30 days. Any invoices over 30 days will be assessed a 1 1/2 percent service charge per month until paid in full.

General Terms and Conditions

For the purpose of this project, the addressee of this proposal will be known as the Client. The client is expected to furnish NUTTING ENGINEERS OF FLORIDA, INC. ("NE"), with accurate information including sketch of survey and/or site plan, construction drawings/specifications as appropriate, details of proposed construction including the proposed structural system and loads or existing construction problem information and site accessibility information as appropriate. Other information requirements may be detailed in the enclosed proposal. IF ANY CONDITIONS CHANGE such as building layout, loading, project specifications/design, or unusual site conditions are observed, NE should be notified immediately in writing about the changed condition for possible review and comment. Should the Client wish to impose other conditions and requirements beyond those contained in this proposal such as in a separate contract, we reserve the option to modify contract language, fee amounts, to remove our proposal from consideration or other measures as may be indicated.
Delivery – Scheduled upon receipt of written authorization to proceed and deposit unless other arrangements are agreed to in writing. Additional report copies can be provided for a nominal fee to the Client. NE will exercise appropriate measures to ensure project completion within a reasonable time frame subject to existing workloads. However, NE will not be held responsible for unavailability of necessary project data and site access within the time frame agreed upon for the investigation. Project delivery may be delayed if the ENTIRE signed proposal and deposit are not received in a timely manner. The ENTIRE signed quotation should be returned along with the requested project information. This unsigned proposal is valid for 60 days.

Payment - No deposit required with signed agreement. Balance due upon completion of report. Directing NE to proceed with the work shall constitute acceptance of the terms of NE's proposal and these General Terms and Conditions. Interest at the rate of 18% per annum or the highest rate allowable by law whichever is less, will be added to all amounts not paid within 30 days after date of invoice. All attorney fees and expenses associated with collection of past due invoices will be paid by Client.

Insurance – NE maintains Workers' Compensation and Employer's Liability Insurance in conformance with state law. In addition, we maintain Comprehensive General Liability Insurance and Automobile Liability Insurance with bodily injury limits of $1,000,000.00 and property damage limits of $1,000,000.00. A certificate of insurance can be supplied evidencing such coverage which contains a clause providing that fifteen days written notice be given prior to cancellation.

Right-of-Entry - Unless otherwise agreed, Client will furnish right-of-entry on the property for NE to make the planned borings, surveys, and/or explorations. NE will not be responsible for removing fences, earth berms, vegetation or other obstructions for purposes of our investigation. NE will take reasonable precautions to minimize damage to the property caused by its equipment and sampling procedures, but the cost of restoration or damage which may result from the planned operations is not included in the contracted amount. If Client desires to restore the property to its former condition, NE will accomplish this and add the cost to its fee. Client agrees to waive all claims arising from or related to the failure to provide NE with proper access to conduct its work.

Damage to Existing Man-made Objects - It shall be the responsibility of the Owner or his duly authorized representative to disclose the presence and accurate location of all hidden or obscure man-made objects relative to routes of access, field tests, sampling, or boring locations. When cautioned, advised or given data in writing that reveal the presence or potential presence of underground or over-ground obstructions, such as utilities, septic tanks, etc., NE will give special instructions to its field personnel. In addition, Client waives any claim against NE arising from damage to existing man-made objects.

Warranty and Limitation of Liability - NE shall perform services for Client in a professional manner, using that degree of care and skill ordinarily exercised by and consistent with the standards of competent consultants practicing in the same or a similar locality as the project. In the event any portion of the services fails to comply with this warranty obligation and NE is promptly notified in writing prior to one year after completion of such portion of the services, NE will re-perform such portion of the services, or if re-performance is impracticable, NE will refund the amount of compensation paid to NE for such portion of the services. This warranty is in lieu of all other warranties. No other warranty, expressed or implied, including warranties of merchantability and fitness for a particular purpose is made or intended by the proposal for consulting services, by furnishing an oral response of the findings made or by any representations made regarding the services included in this agreement. In no event shall NE or any of its professional employees be liable for any special, indirect, incidental or consequential loss or damages, including but not limited to impact and delay claims. The remedies set forth herein are exclusive and the total liability of consultant whether in contract, tort (including negligence whether sole or concurrent), or otherwise arising out of, connected with or resulting from the services provided pursuant to this Agreement shall not exceed the total fees paid by Client or $50,000.00, whichever is greater. At additional cost, Client may obtain a higher limit prior to commencement of services.

PURSUANT TO §558.0035, FLORIDA STATUTES, NE'S INDIVIDUAL EMPLOYEES AND/OR AGENTS MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE ARISING OUT OF, CONNECTED WITH, OR RESULTING FROM THEIR SERVICES PROVIDED PURSUANT TO THIS AGREEMENT.

Indemnification – Client agrees to defend, indemnify and save harmless NE from all claims, including negligence claims, suits, losses, personal injuries, death and property liability resulting from NE's performance of the proposed work, whether such claims or damages are caused in part by NE, and agrees to reimburse NE for expenses in connection with any such claims or suits, including reasonable attorney's fees. Client's obligation to indemnify is limited to $2 million per occurrence, which Client agrees bears a reasonable commercial relationship to the Work undertaken by NE. Client further agrees that these general conditions are a part of the Work's specifications or bid documents, if any.

Sampling or Testing Location - Unless specifically stated to the contrary, the unit fees included in this proposal do not include costs associated with professional land surveying of the site or the accurate horizontal and vertical locations of tests. Field tests or boring locations described in our report or shown on our sketches are based on specific information furnished to us by others and/or estimates made in the field by our technicians. Such dimensions, depths or elevations should be considered as approximations unless otherwise stated in the report. It is understood that all drilling locations are accessible to conventional truck mounted drilling equipment unless otherwise specified by the client. If unscheduled remobilizations or use of portable or all terrain equipment is required additional charges will apply. NE will attempt to clear utilities at our excavation/test locations by manual drilling to 3' below land surface (BLS). Any utilities/obstructions present at client specified test locations or below 3' BLS will be the responsibility of the client.

Sample Handling and Retention – Generally soil test samples are retained for approximately three months after which time they will be discarded unless written instructions to the contrary are received from the client.

Legal Jurisdiction - The parties agree that any actions brought to enforce any provision of this Agreement shall only be brought in a court of competent jurisdiction located in Palm Beach County, Florida. Any and all causes of action arising out of NE's performance of the Work, including but not limited to claims for indemnity, contribution and equitable subrogation, shall be deemed to have accrued and the applicable statutes of limitations shall commence to run not later than the date of NE's last invoice for the Work performed hereunder.

Force Majeure - NE shall not be held responsible for any delay or failure in performance of any part of this Agreement to the extent such delay or failure is caused by fire, flood, explosion, war, strike, embargo, government requirement, civil or military authority, acts of God, act or omission of subcontractors, carriers, client or other similar causes beyond its control.

Documents - NE shall be entitled to rely upon the accuracy and completeness of all surveys, reports and information furnished by the client. If conditions different from those described in our report are found at the site, NE should be notified in writing immediately upon discovery. NE reserves the right to revise conclusions and recommendations presented in the final report should additional information regarding the project become available. All permits will be obtained by others unless otherwise specified in this proposal or in writing to NE. NE has no liability for consequences of information not provided or unavailable or otherwise not reviewed or known from the normal sources customarily examined by NE in such investigations within the time frame allowed for this investigation under this agreement. The client, entities identified in writing on the address portion of our report, design team professionals engaged by our client and building official staff are entitled to use and rely upon NE'S reports for purposes of the current project. Other parties are not authorized to use or rely upon NE'S reports unless NE so states in writing.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.13: Approve Change Order No. 4 (Task Order #234) - Prairie Road Bridge Replacement Utility Relocation Project - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Fund) - Palm Beach County

SUMMARY: On July 9, 2020, the Village Council approved Task Order #234 with Palm Beach County for professional engineering services and the construction of the Prairie Road Bridge Replacement Utility Relocation Project in the amount of $220,206.

Currently, the Public Service Department is requesting approval of Change Order #4 to Task Order #234 for Palm Beach County in the amount of $12,908.86 as it was determined during construction that the contractor was unable to construct the water main directly under the shoulder barrier footings. As a result, the water main is required to be adjusted to the west and then back up to cross the canal.

Note: The Public Service Department staff had been coordinating with Palm Beach County on their plans for constructing a new bridge on Prairie Road (crossing over the Lake Worth Drainage District's L-8 Canal) for several years. Currently, the Village maintains a vacuum sewer main and a water main that were attached to the existing bridge and were required to be relocated to accommodate the new bridge. As a result, in accordance with state law (Florida Interlocal cooperation Act of 1969), the Interlocal Agreement approved by the Village Council on July 9, 2020 requires the Village to reimburse the County for the actual costs to relocate the water main and vacuum sewer main.

As a result, the Public Service Department is recommending an amendment to the approved Task Order No. 234 (Change Order #4) with Palm Beach County in the amount of $21,360.46 to support the costs associated with relocating the utility lines as a result of unforeseen conflicts during the construction process (Task Order #234).

The proposed tasks and associated costs to provide the professional engineering services to complete this project are as follows:

Work to be Completed	**Amount**
Original Contract Amount - Engineering & Design, Bidding & Construction	$220,206.00
• Approved Change Order #1 - Deducted from Contingency	($ 4,310.70)
• Approved Change Order #2 - Deducted from Contingency	($ 16,556.78)
• Approved Change Order #3 - Deducted from Contingency	($ 7,381.92)
Add: Change Order #4	$ 21,360.46
Minus Contingency Remaining	($ 8,451.60)
Final Revised Contract Amount	$233,114.86

Note: The Village approved funding ($245,000) within the FY 2021 Budget - Water and Sewer Fund to support this utility relocation project (design & construction).

If approved, the revised total for professional engineering design, bidding and construction costs for the Prairie Road Bridge Replacement Utility Relocation Project within Task Order #234 (Change Orders #4) will be increased to $233,114.86. An internal budget transfer or amendment to support this proposed cost above the budgeted amount may be completed within the Water & Sewer Enterprise Fund at a later date, if necessary. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.; however, any change orders by the County requiring additional funding by the Village would require advanced written approval from the Village.

It is estimated that the proposed Prairie Road Bridge Replacement Utility Relocation Project will be completed by October 2021.

The proposed Change Order #4 (Task Order #4) was prepared by Drawdy Construction Company, Inc (PBC's contractor) and reviewed by Palm Beach County, the Village's contracted engineer, Eckler Engineering, Assistant Public Services Director/Engineer, Village Attorney and Finance Director.

FISCAL IMPACT:

Funding to support the proposed Prairie Road Bridge Replacement Utility Relocation project (Task Order No. 234) is available within the FY 2021 Budget - Water and Sewer Enterprise Fund.

Allocated/Estimated Project Funding:	

FY 2018 Actual Budget - Water and Sewer Enterprise Fund	$ 2,225.59
FY 2019 Actual Budget - Water and Sewer Enterprise Fund	$ 36,496.41
FY 2020 Actual Budget - Water and Sewer Enterprise Fund	$ 27,778.00
FY 2021 Approved Budget - Water and Sewer Enterprise Fund	$245,000.00
Total Allocated/Estimated Budget	**$311,500.00**

Expected Project Costs - Engineering & Design and Construction	
FY 2018 Project Cost - Engineering - Water and Sewer Enterprise Fund	$ 2,225.59
FY 2019 Project Cost - Engineering - Water & Sewer Enterprise Fund	$ 36,496.41
FY 2020 Project Cost - Engineering - Water & Sewer Enterprise Fund	$ 27,778.00
FY 2021 Project Cost - Engineering - Water & Sewer Enterprise Fund	$ 11,907.20
FY 2021 Project Request/Cost - Construction - Water & Sewer Enterprise Fund	$183,505.00
FY 2021 Project Request/Cost - Contingency - Water & Sewer Enterprise Fund	$ 36,701.00
• Deducted Change Order #1 from Contingency - Water & Sewer Enterprise Fund	• ($ 4,310.70)
• Deducted Change Order #2 from Contingency - Water & Sewer Enterprise Fund	• ($ 16,556.78)
• Deducted Change Order #3 from Contingency - Water & Sewer Enterprise Fund	• ($ 7,381.92)
• Balance of Contingency - Water & Sewer Enterprise Fund	• $ 8,451.60
Additional Funding Requested Change Order #4 - Water & Sewer Enterprise Fund	$ 12,908.86
TOTAL PROJECT REQUEST/COST (REVISED)	**$301,522.06**

The Village will not expend more than the amount within the approved budgets as they may be adopted/amended each year for these goods and services over the term of this contract.

An internal budget transfer or amendment to support this proposed cost will be completed within the Water & Sewer Enterprise Fund at at later date, if necessary.

INTERLOCAL AGREEMENT BETWEEN PALM BEACH COUNTY, FLORIDA AND VILLAGE OF PALM SPRINGS FOR JOINT PARTICIPATION AND PROJECT FUNDING FOR CONSTRUCTION OF UTILITY ADJUSTMENTS FOR PRAIRIE ROAD BRIDGE OVER LWDD L-8 CANAL PALM BEACH COUNTY PROJECT NO. 2016505

THIS Interlocal Agreement, (AGREEMENT), for Prairie Road Bridge over LWDD L-8 Canal (PROJECT), is made as of the _____ day of _____, 2020, by and between Palm Beach County, a political subdivision of the State of Florida, by and through its Board of County Commissioners (COUNTY) and the Village of Palm Springs, a municipal corporation existing under the laws of Florida, (hereinafter "VILLAGE"), each one constituting a public agency defined in Part I of Chapter 163, Florida Statutes (individually Party and collectively Parties).

WHEREAS, Section 163.01, Florida Statutes, authorizes local governments to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage, thereby providing services and facilities that will harmonize geographic, economic, population, and other factors influencing the needs and development of local communities; and

WHEREAS, Part I of Chapter 163, Florida Statutes, permits public agencies as defined therein to enter into Interlocal Agreements with each other to jointly exercise any power, privilege, or authority which such agencies share in common and which each might exercise separately; and

WHEREAS, the VILLAGE has requested the COUNTY to construct water main, sewer main and associated appurtenance adjustments to the VILLAGE'S system (UTILITY WORK) within the limits of the PROJECT; and

WHEREAS, the COUNTY and the VILLAGE desire to jointly participate in the UTILITY WORK ; and

WHEREAS, both COUNTY and VILLAGE declare that it is in the public interest that the UTILITY WORK be constructed with the PROJECT; and

NOW, THEREFORE, in consideration of the mutual covenants, promises, and representations contained herein, the Parties agree as follows:

Section 1. Recitals.

The above recitals are true and correct and are incorporated herein.

Section 2. COUNTY Responsibilities:

A. COUNTY shall provide construction and administrative services to the PROJECT as more specifically described in the Bid Documents for Palm Beach County Project No. 2016505. Said Bid Documents include the UTILITY WORK as shown in VILLAGE prepared Utility Matrix, Applicable Technical Specifications, Standard Construction Details, and Approved Product List.

B. COUNTY shall obtain written approval from the VILLAGE in advance of any change orders, including any costs associated with the VILLAGE'S failure to approve change orders in a timely manner, which increase the cost attributable to the UTILITY WORK to an amount greater than the contract amount as stated in Section 3A below. VILLAGE'S Approval shall not be unreasonably withheld.

C. COUNTY shall secure all necessary easements and permits required for PROJECT.

D. COUNTY shall publicly bid, administer, construct and inspect the PROJECT and UTILITY WORK in accordance with the Bid Documents and Exhibit "A".

E. COUNTY shall require the contractor to provide a Public Construction Bond in an amount equal to the contractor's bid for the PROJECT and the UTILITY WORK.

Section 3. VILLAGE'S Responsibilities:

A. VILLAGE shall reimburse COUNTY a total estimated cost including 20% contingency of **Two Hundred Twenty Thousand Two Hundred and Six Dollars ($220,206.00)**, provided COUNTY performs pursuant to the terms and conditions of this Agreement for all UTILITY WORK in accordance with the Bid Tabulation (Exhibit "A") and cost summary (Exhibit "B"). Any cost exceeding this amount attributable to VILLAGE'S Utility Items shall be paid by the VILLAGE.

B. Costs shall be based upon actual contract costs using contract unit prices and actual constructed quantities, said quantities being measured by the COUNTY with concurrence by the VILLAGE.

C. Upon completion of the PROJECT and the UTILITY WORK, the VILLAGE shall repair and maintain the UTILITY WORK, at VILLAGE'S expense.

Section 4. Payments/Invoicing and Reimbursement:

The COUNTY will invoice the VILLAGE on a periodic basis during construction of the PROJECT and the UTILITY WORK. The VILLAGE agrees to provide to COUNTY payment for documented costs for the UTILITY WORK in the amount established in Section 3.A. COUNTY shall submit all invoices to the VILLAGE identifying the UTILITY WORK, including COUNTY'S total expenditure for the PROJECT, and identifying the amount attributable to the UTILITY WORK under Exhibit "A". COUNTY shall supply any further documentation such as copies of paid receipts, canceled checks, invoices and other documents deemed necessary by the VILLAGE within seven (7) calendar days of request by the VILLAGE. Invoices received from COUNTY will be reviewed and approved by the VILLAGE to ensure that expenditures have been made in conformity with this

AGREEMENT. Upon COUNTY'S submission of acceptable documents needed to substantiate its costs for the UTILITY WORK, VILLAGE will provide said payment to COUNTY on a reimbursement basis within thirty (30) days of receipt of all required documents. In no event shall the VILLAGE provide advance payment to the COUNTY.

The PROJECT and the UTILITY WORK will be administered by the COUNTY. Only those costs incurred by the COUNTY relating to the UTILITY WORK are eligible for reimbursement by the VILLAGE pursuant to the terms and conditions hereof. In the event the COUNTY ceases or suspends the PROJECT or the UTILITY WORK for any reason, the VILLAGE will reimburse the COUNTY for the UTILITY WORK completed as of the date the COUNTY suspends the UTILITY WORK. Any remaining unpaid portion of this AGREEMENT shall be retained by the VILLAGE and the VILLAGE shall have no further obligation to honor reimbursement requests submitted by the COUNTY.

Section 5. Access and Audits:

COUNTY and VILLAGE shall maintain adequate records to justify all charges, expenses and costs incurred in performing the PROJECT and the UTILITY WORK for at least five (5) years after completion or termination of this AGREEMENT. Each Party shall have access to such books, records, and documents as required in this section for the purpose of inspection or audit during normal business hours, at the other Parties place of business. In the event any work is subcontracted by COUNTY, COUNTY shall similarly require each contractor and subcontractor to maintain and allow access to such records for audit purposes.

Section 6. Independent Contractor:

COUNTY and the VILLAGE are and shall be, in the performance of all work, services and activities under this AGREEMENT Independent Contractors and not employees, agents or servants of the other Party. All COUNTY employees engaged in the work or services performed pursuant to this AGREEMENT shall at all times, and in all places, be subject to COUNTY'S sole direction, supervision, and control. All VILLAGE employees engaged in the work or services performed pursuant to this AGREEMENT shall at all times, and in all places, be subject to VILLAGE'S sole direction, supervision, and control. The Parties shall exercise control over the means and manner in which it and its employees perform the work, and in all respects the Parties relationship and the relationship of its employees to the other Party shall be that of an Independent Contractor and not as employees or agents of the other.

Neither COUNTY nor the VILLAGE have the power or authority to bind the other in any promise, agreement or representation.

Section 7. Personnel:

COUNTY represents that it has, or will secure at its own expense, all necessary personnel required to perform the services under this AGREEMENT. Such personnel shall not be employees of or have any contractual relationship with the VILLAGE.

All of the services required hereinunder shall be performed by COUNTY or its contractor, and personnel engaged in performing the services shall be fully qualified and, if required, authorized

or permitted under state and local law to perform such services.

All of COUNTY'S personnel, contractors and all subcontractors while on COUNTY premises will conduct themselves in an acceptable manner and follow acceptable safety and security procedures.

Section 8. Indemnification:

The VILLAGE and COUNTY recognize their liability for certain tortious acts of its agents, officers, employees and invitees to the extent and limits provided in Section 768.28, Florida Statutes. To the extent permitted by law, the VILLAGE and COUNTY shall indemnify, defend and hold the other harmless against any actions, claims and damages arising out of the their own negligence in connection with the PROJECT and the UTILITY WORK and the use of the funds provided under this AGREEMENT. The foregoing indemnification shall not constitute a waiver of sovereign immunity beyond the limits set forth in Section 768.28, Florida Statutes, nor shall the same be construed to constitute an agreement by the VILLAGE or COUNTY to indemnify each other for sole negligence, or willful or intentional acts of the other. The foregoing indemnification shall survive termination of this AGREEMENT.

No provision of this AGREEMENT is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this AGREEMENT, including but not limited to any citizen or employees of the COUNTY and/or VILLAGE .

Section 9. Annual Appropriation:

All provisions of this AGREEMENT calling for the expenditure of ad valorem tax money by either the COUNTY or the VILLAGE are subject to annual budgetary funding and should either Party involuntarily fail to fund any of their respective obligations pursuant to the AGREEMENT, this AGREEMENT may be terminated. However, once the PROJECT and the UTILITY WORK have been awarded to the contractor, it shall be prosecuted to completion and this AGREEMENT shall be binding upon the Parties and neither Party shall have the right to terminate the subject AGREEMENT for the reason that sufficient funds are not available.

Section 10. Breach and Opportunity to Cure:

The Parties expressly covenant and agree that in the event either Party is in default of its obligations under this AGREEMENT, each Party shall have thirty (30) days written notice before exercising any of its rights.

Section 11. Enforcement Costs:

Any costs or expenses (including reasonable attorney's fees) associated with the enforcement of the terms and conditions of this AGREEMENT shall be borne by the respective Parties.

Section 12. Notice:

All notices required to be given under this AGREEMENT shall be in writing, and deemed sufficient to each Party when sent by United States Mail, postage prepaid, to the following:

All notice to the VILLAGE shall be sent to:

Ronald Eyma, P.E. Public Service Director
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

All notice to the COUNTY shall be sent to:

Morton L. Rose, P.E., Director
Palm Beach County Engineering & Public Works
Roadway Production Division
P.O. Box 21229
West Palm Beach, FL 33416-1229

Section 13. Modification and Amendment:

Except as expressly permitted herein to the contrary, no modification, amendment or alteration in the terms or conditions contained herein shall be effective unless contained in a written document executed with the same formality and equality of dignity herewith.

Section 14. Remedies:

This AGREEMENT shall be governed by the laws of the State of Florida. Any legal action necessary to enforce this AGREEMENT will be held in a court of competent jurisdiction located in Palm Beach County, Florida. No remedy herein conferred upon any Party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity by statute or otherwise. No single or partial exercise by any Party of any right, power or remedy hereunder shall preclude any other or further exercise thereof.

Section 15. No Waiver:

Any waiver by either Party of its rights with respect to a default under this AGREEMENT, or with respect to any other matters arising in connection with this AGREEMENT, shall not be deemed a waiver with respect to any subsequent default or other matter. The failure of either Party to enforce strict performance by the other Party of any of the provisions of this AGREEMENT or to exercise any rights under this AGREEMENT shall not be construed as a waiver or relinquishment to any extent of such Party's right to assert or rely upon any such provisions or rights in that or any other instance.

Section 16. Joint Preparation:

The preparation of this AGREEMENT has been a joint effort of the Parties, and the resulting document shall not, solely as a matter of judicial constraint, be construed more severely against one of the Parties than the other.

Section 17. Non-Discrimination:

COUNTY and VILLAGE agree that both Parties shall not conduct business with nor appropriate any funds for any organization or entity that practices discrimination on the basis of race, color, national origin, religion, ancestry, sex, age, familial status, marital status, sexual orientation, gender identity or expression, disability, or genetic information. COUNTY will ensure that all contracts let for the PROJECT and the UTILITY WORK pursuant to the terms of this AGREEMENT will contain a similar non-discrimination clause.

Section 18. Execution:

This AGREEMENT may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

Section 19. Filing:

A copy of this AGREEMENT shall be filed with the Clerk of the Circuit Court in and for Palm Beach County, Florida.

Section 20. Termination:

This AGREEMENT may be terminated by either Party upon sixty (60) days prior written notice to the other Party, except as otherwise addressed in this AGREEMENT. However, once the PROJECT and the UTILITY WORK has commenced, it shall be prosecuted to completion and this AGREEMENT shall be binding upon the Parties and neither Party shall have the right to terminate the subject AGREEMENT.

Section 21. Compliance with Codes and Laws:

COUNTY and VILLAGE shall abide by all applicable federal, state and local laws, orders, rules and regulations when performing under this AGREEMENT. COUNTY and VILLAGE further agree to include this provision in all subcontracts issued as a result of this AGREEMENT.

Section 22. Office of the Inspector General:

Palm Beach County has established the Office of the Inspector General, in Palm Beach County code section 2-421-2-440, as may be amended. The Inspector General's authority includes but is not limited to the power to review past, present and proposed County contracts, transactions, accounts and records, to require the production of records, and audit, investigate, monitor, and inspect the activities of the contractor, its officers, agents, employees, and lobbyists in order to ensure compliance with contract specifications and detect corruption and fraud. All contractors and parties doing business with the County and receiving County funds shall fully cooperate

with the Inspector General including receiving access to records relating to Bid or any resulting contract.

Section 23. Public Entity Crime Certification:

As provided in F.S. 287.132-133, by entering into this AGREEMENT or performing any work in furtherance hereof, COUNTY shall have its contractors certify that it, its affiliates, suppliers, subcontractors and consultants who will perform hereunder, have not been placed on the convicted vendor list maintained by the State of Florida Department of Management Services within the 36 months immediately preceding the date hereof. This notice is required by F.S. 287.133 (3) (a).

Section 24. Severability:

If any term or provision of this AGREEMENT, or the application thereof to any person or circumstances shall, to any extent, be held invalid or unenforceable, the remainder of this AGREEMENT, or the application of such terms or provision, to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and every other term and provision of this AGREEMENT shall be deemed valid and enforceable to the extent permitted by law.

Section 25. Entirety of Agreement:

COUNTY and VILLAGE agree that this AGREEMENT sets forth the entire AGREEMENT between the Parties, and there are no promises or understandings other than those stated herein.

Section 26. Survival:

The obligations, rights, and remedies of the Parties hereunder, which by their nature survive the termination of this AGREEMENT or the completion of the PROJECT and UTILITY WORK, shall survive such termination or PROJECT or UTILITY WORK completion and inure to the benefit of the Parties.

Section 27. Term:

The term of this AGREEMENT shall be effective on the date of execution of this AGREEMENT by both Parties.

IN WITNESS WHEREOF, the undersigned Parties have executed this AGREEMENT on the day and year first written above.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.14:

Approve Change Order No. 1 (Task Order #260 - Work Authorization EE-U03) - Professional Engineering Services - Material Storage Building at 2400 Kirk Rd - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Fund) - Eckler Engineering

SUMMARY:

On November 14, 2019, the Village Council approved the Task Order #260 with Eckler Engineering for the professional engineering services associated with the design and construction of the Pipe & Material Storage Building Project (Task Order No. 260) at the 2400 Kirk Road Utilities Maintenance Building in the amount of $38,648.00.

Currently, the Public Service Department is requesting approval of Change Order No. 1 to Task Order #260 (Work Authorization EE-U03) for Eckler Engineering in the amount of $3,000 to provide additional engineering and design services to reflect the Pipe and Material Storage Building at 2400 Kirk Road as the base bid and the East Building at the Main Water Treatment Plant as an alternate as well as to update the bid documents to go out to bid for a 2nd time (due to pricing/bids that were significantly over the Village's budgeted amount).

Note: The Village Utilities division stores miscellaneous utility supplies outside at the east end of the property in an open-air fenced area, which degrades some of the materials. Thus, a covered storage structure is proposed to be built on the east side of the existing utilities maintenance building creating approximately 1,800 square feet of covered storage space.

Note: In an effort to lower design and construction costs for this project (and to ensure vendor interest to take on this project) it has been recommended by Eckler Engineering and Village Staff to combine this project (Task Order No. 260) with the proposed Storage Building for Maintenance Equipment that will be located at the Village's Main Water Treatment Plant (Task

Order No. 261) and bid them as one, single project.

As a result, the Village's contracted engineer, Eckler Engineering, and the Public Service Department is recommending an amendment to the approved Task Order #260 (Change Order #1) with Eckler Engineering in the amount of $3,000 to support additional engineering and design services as well as additional/updated bidding services (Task Order No. 260 - Work Authorization EE-U03).

The proposed tasks and associated costs to provide the professional engineering services to complete this project are as follows:

Work to be Completed	**Amount**
Original Contract Amount - Design & Bidding	$23,540.00
Original Contract Amount - Construction Services	$15,108.00
Add: Proposed Change Order No. 1	$ 3,000.00
Final Revised Contract Amount	**$41,648.00**

Note: The Village Council has approved funding ($185,000) within the FY 2021 Budget - Water & Sewer Enterprise Fund to support this project (design & construction).

If approved, the revised total for professional engineering design, bidding and construction services cost for the Material Storage Building project at 2400 Kirk Road within Task Order No. 260 will be increased to $41,648. An internal budget transfer or amendment to support this proposed cost above the budgeted amount may be completed within the Water & Sewer Enterprise Fund at a later date, if necessary. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

No additional change orders are anticipated for this project.

It is estimated that Material Storage Building project at 2400 Kirk Road require an additional thirty (30) days (May/June 2021) to complete the design work from the date the change order is issued to Eckler Engineering and construction is estimated to be completed approximately five (5) months (January/February 2022) following the Notice to Proceed by the Village (11 months total if alternate bid for 2nd building at Main WTP is accepted).

The proposed Change Order #1 (Task Order No. 260 - Work Authorization EE-U03) was prepared by Eckler Engineering and reviewed by the Assistant Public Service Director/Engineer, Public Service Project Manager, Assistant Village Manager, Village Attorney and the Finance Director.

FISCAL IMPACT:

Funding to support the proposed Material Storage Building at 2400 Kirk Road Project (Task Order No. 260) is available within the FY 2021 - Water & Sewer Enterprise Fund.

Allocated/Estimated Project Funding	***Amount***
FY 2020 Actual - Water & Sewer Enterprise Fund (TO #260):	$ 22,598.40
FY 2021 Approved Budget - Water & Sewer Enterprise Fund (TO #260):	$185,000.00
Total Allocated/Estimated Budget	**$207,598.40**

Expected Project Costs - Engineering & Design Services	***Amount***
Original Project Cost (Design & Bidding) - Water & Sewer Enterprise Fund (TO #260):	$ 23,540.00
Original Project Cost (Const. Services) - Water & Sewer Enterprise Fund (TO #260):	$ 15,108.00
Proposed Change Order No. 1	$ 3,000.00
Total Project Cost – Engineering & Design Services	**$ 41,648.00**
Expected Project Costs - Construction Services	
Projected Construction Costs - Water & Sewer Enterprise Fund (TO #260):	$214,000.00
Total Project Cost – Construction Services	**$214,000.00**
TOTAL PROJECT REQUEST/COST (REVISED)	**$255,648.00**

The Village will not expend more than the amount in the approved budget as it may be adopted / approved each year for these goods and services for the term of the contract.

An internal budget transfer or amendment to support this proposed cost above the budgeted amount may be completed within the Water & Sewer Enterprise Fund at a later date, if necessary.

Mr. Walter Sanchez
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

Dear Mr. Sanchez:

Reference: Engineering Scope Revision No. 1
Kirk Road Pipe and Material Storage Building
Eckler Engineering Work Authorization No. EE-U03
Village P.O. No.: 032 (FY 2021)

This Scope Revision is being submitted at the Village's request to rebid the Kirk Road Pipe and Material Storage Building & Main WTP Equipment Storage Buildings projects due to high bids and underfunding. The rebid shall revise the Contract Documents to reflect the Kirk Road Pipe and Material Storage Building as the base bid with the East Building at the Main WTP as an alternate. The North Building at the Main WTP shall be eliminated from the bid. The anticipated work associated with this request is as follows:

1. General bid coordination with the Village and project management.

2. Revise the Specifications to reflect updated bid numbers, dates (bid advertisement, pre-pre-bid conference, bid opening, etc…), and description of work.

3. Revise the Drawings to reflect updated bid numbers and dates.

4. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

For the additional items summarized above, we request **$3,000.00** for the anticipated work effort. The attached spreadsheet provides a breakdown of our proposed fee.

If you have any questions or require additional information pertaining to the attached documents or the project in general, please do not hesitate to contact me.

Sincerely,

Chase Dickinson

Chase Dickinson, P.E.

Encl.

ENGINEERING SCOPE REVISION

Project:	Kirk Road Pipe & Material Storage Building	**Client:**	Village of Palm Springs
EEI Project No:	400-083.01	**Contact:**	Walter Sanchez
Revision No:	1	**Date:**	February 3, 2021

Nature of Revision:

This Engineering Scope Revision covers work required to modify and prepare the drawings and specifications for rebid. Specifically, the following items shall be added:

1. General project management and bidding coordination.
2. Specification revisions necessary for bid coordination and updating summary of work.
3. Bidding services for attending meetings (pre-bid and bid opening), site visit (if necessary), answering bidder questions, bid evaluation, and recommendation of award.

Scope of Services:

1. Engineering services (Items 1 through 3 above) in accordance with the attached fee breakdown spreadsheet = **$3,000.00**

Original Engineering Design Fee:	$23,540.00	**Original Time:**	190 Days
Previous Revisions:	$0.00	**Previous Revisions:**	0 Days
This Revision:	$3,000.00	**This Revision:**	30 Days
Revised Fee	$26,540.00	**Revised Time:**	220 Days

ECKLER ENGINEERING, INC.

October 29, 2019
400-000.BD

Mr. Walter Sanchez.
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

Dear Mr. Sanchez:

Reference: Proposal for Engineering Services
Design and Construction Phases for the
Kirk Road Pipe/Material Building
Eckler Engineering Work Authorization No. EE-U03

Enclosed is Work Authorization No. EE-U03 outlining the engineering services required for design and services during construction for the Kirk Road Pipe/Material Building.

Eckler Engineering proposes to provide the design phase services for the lump sum fee of $23,540.00 and the engineering services during construction on an hourly rate plus direct expenses basis not to exceed $15,108.00 without the additional authorization of the Village Council.

If this Work Authorization meets with your approval, please coordinate placing on the next available Village Council Agenda. Following Council approval, please return one executed copy and the necessary Village of Palm Springs purchase order to our office approving Authorization to Proceed.

Eckler Engineering looks forward to the opportunity of continuing to provide professional engineering services to the Village of Palm Springs on this project. If you have any questions or require additional information pertaining to this Work Authorization, please do not hesitate to contact me.

Sincerely,

Douglas K. Hammann, P.E.

Encl.

CONSULTING SERVICE WORK AUTHORIZATION

DATE: October 29, 2019 VILLAGE RFQ. NO.: 2018R-002

WORK AUTHORIZATION NO. EE-U03 FOR CONSULTING SERVICES

TASK ORDER (PROJECT) No. 260 G/L CODE: 41336-56200

ECKLER ENGINEERING PROJECT NO.: 400-083.01

PROJECT TITLE: Kirk Road Pipe/Material Building

This Work Authorization, when executed, shall be incorporated in and shall become an integral part of the Agreement for Professional Services dated September 13, 2018 between the Village of Palm Springs ("VILLAGE"), and Eckler Engineering, Inc. ("CONSULTANT") hereafter referred to as the Agreement.

I. PROJECT DESCRIPTION

VILLAGE Utility Maintenance staff stores equipment and pipe at the Kirk Road Utility Maintenance Facility. This equipment and material are stored outdoors and exposed to the elements, including continuous exposure to sunlight and UV radiation. This exposure is detrimental to many of the stored materials and equipment, specifically PVC pipe. To protect the VILLAGE's investment into utility maintenance materials and equipment, CONSULTANT has provided this work authorization to provide engineering services for the design and engineering services during construction of a pipe and materials storage building. The following general scope of work is proposed:

1. New pre-engineered metal structure/building on existing concrete slab.
2. New reinforced concrete column foundations.
3. Painting of proposed structure to match with the Kirk Road Maintenance Facility.
4. Restoration of existing Kirk Road Maintenance Facility grounds of previous equipment and material storage area. Existing gate and fencing to remain.

II. SCOPE OF SERVICES

The following is a description of the services to be provided under this Task Order.

A. DESIGN PHASE

The Design Phase will include the following services:

TASK D1 - PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK D2 - DATA GATHERING AND PRELIMINARY COORDINATION

This task focuses on obtaining the necessary preliminary information required to prepare detailed engineering plans and specifications.

1. Visit the site and review pertinent features that may impact design and/or construction.

2. Collect existing facility's data including field conditions, access, and other information needed to complete the design.

3. Meet with appropriate VILLAGE staff to discuss the project requirements.

4. Coordination and completion of SUBCONSULTANT'S professional services for geotechnical engineering and topographical surveying services.

TASK D3 - PRELIMINARY DESIGN REPORT

This task not required. The design conditions are currently known and defined.

TASK D4 - DRAWINGS AND ENGINEERING

This task consists of the engineering and the development of plans necessary to construct this project. The CONSULTANT will prepare detailed drawings for the proposed work as discussed in this task order. A tentative list of drawings to be prepared for this project is presented in ATTACHMENT 1.

TASK D5 - SPECIFICATION PREPARATION

1. Prepare Standard EJCDC (current VILLAGE standard) Contract Forms, Bidding Documents and Contract Conditions required for this project.

2. Prepare technical specifications required for this project in Division 1 through Division 16. These specifications, utilizing the CSI format, will be prepared and will consist of written technical descriptions of materials, equipment and construction systems, standards and workmanship required for this project as developed by CONSULTANT. A tentative list of specification sections to be prepared for this project is presented in ATTACHMENT 2.

TASK D6 - PERMIT PREPARATION ASSISTANCE

This task consists of the preparation of the following construction permit application submittals:

1. No regulatory permits are anticipated.

   Any additional design phase permits required beyond the above will be considered as outside the scope of this proposal.

TASK D7 - PREPARE OPINION(S) OF PROBABLE CONSTRUCTION COST

Prepare the 90%, 100%, and Final completion level opinion(s) of probable construction cost for new facilities and improvements proposed under this project.

TASK D8 - BIDDING ASSISTANCE SERVICES

This task will include work necessary to assist the VILLAGE with the bidding of the project. This work may include the following:

1. Coordinate bidding requirements with VILLAGE and prepare electronic bid documents for distribution by the VILLAGE Clerk's office. Bidding documents shall be in .pdf format on CD or electronic submittal.

2. Assist VILLAGE Clerk's Office with the coordination of the bidding documents, the advertisement for bids, respond to communications from bidders, and issuance of addenda information as required.

3. Attend the prebid meeting and prepare/distribute minutes to registered bidding contractors. VILLAGE Clerk's Office shall publish final Prebid Meeting Minutes.

4. Attend the bid opening and tabulate the bids provided by interested contractors.

TASK D9 - BID EVALUATION AND RECOMMENDATION OF AWARD ASSISTANCE

This task shall consist of the review and evaluation of the bids to make a recommendation of a bidder for award of a contract. A recommendation of award letter shall be prepared and submitted to VILLAGE.

TASK D10 - SUBMIT AND REVIEW (QUALITY CONTROL)

The CONSULTANT will make the following submittals at various completion levels of this project for the purpose of VILLAGE's review and comment for coordination and quality control. A review meeting will be requested following each submittal to discuss and receive comments from the VILLAGE. The VILLAGE's comments shall be incorporated into revisions prior to the next subsequent quality control submittal.

Quality control submittals for this project are anticipated at the following completion levels:

1. 90% Drawings and Specifications
2. 100% Drawings and Specifications
3. Final Drawings and Specifications

The CONSULTANT will incorporate the agreed-upon revisions made by the VILLAGE.

A total of three (3) meetings with the VILLAGE is the level of effort for this Task.

B. ENGINEERING SERVICES DURING CONSTRUCTION

TASK C1 – PROJECT ADMINISTRATION/MANAGEMENT

This task focuses on the administration of the project including project setup, client interface and general project management and administration.

TASK C2 - PRECONSTRUCTION ACTIVITIES PRIOR TO NOTICE TO PROCEED

After issuance of a Notice of Award by VILLAGE, assist in the preparation and signing of the Contract Documents. The CONSULTANT will also undertake other preconstruction activities which include coordinating, attending and preparing minutes of the preconstruction conference meeting and assisting the Contractor in finalizing the permits required for the construction of this project by providing the required number of signed/sealed drawing sets.

TASK C3 - CONSULT AND ADVISE

Provide technical advice and assistance to VILLAGE during the construction period and provide necessary interpretations and clarifications of the Contract Documents as required by VILLAGE or Contractor by responding to RFI's or other documentation. Evaluation of and response to an estimated five (5) RFI's is the level of effort estimated for this task.

TASK C4 - REVIEW SHOP DRAWINGS

Review Shop Drawings and samples, the results of tests and inspections, and other data submitted by the Contractor in accordance with the Contract Documents. A total of six (6) submittals is the estimated basis for this item's budget.

TASK C5 - REVIEW PAY REQUESTS AND SCHEDULES

Review estimated three (3) monthly pay requests and make recommendations for

payment to VILLAGE. Monthly pay requests will be reviewed in the field and an agreement reached between the Contractor, VILLAGE's project representative(s), and the CONSULTANT prior to formal submittal to VILLAGE for payment. Review the Contractor's preliminary and monthly progress schedules through completion.

TASK C6 - PERFORM PERIODIC AND MILESTONE INSPECTIONS

CONSULTANT will make periodic site visits at intervals appropriate to the various stages of construction to observe the work, determine conformity with the plans and specifications, and compliance with the construction permits. It is anticipated that there will be a total of six (6) visits.

Perform inspections to determine that the project has achieved substantial completion and readiness for final acceptance and that the work has been completed in general conformance with the Contract Documents to certify completion of construction to permitting agencies, where applicable. Two (2) such site visits are anticipated.

TASK C7 - PROGRESS MEETINGS

This task not required.

TASK C8 - CONTRACT MODIFICATIONS

Develop the necessary data, notes, and clarification drawings required to prepare contract modifications to reflect adjustments to the construction project. One (1) contract modification incorporating a total of four (4) items, is the estimated basis for this budget item.

TASK C9 - PROJECT CLOSEOUT

Review the Contractor's record drawing information which shows the work as it was constructed. Prepare for VILLAGE record drawings and prints showing those changes made during the construction process based upon information provided by the Contractor as follows:

1. CONSULTANT shall prepare record drawings based on Contractor's field data.

2. CONSULTANT shall submit record documents to VILLAGE.

3. CONSULTANT shall attend the final project reconciliation meetings with VILLAGE and CONTRACTOR.

TASK C10 - REGULATORY AGENCY DOCUMENTATION AND PROJECT CLOSEOUT SUBMITTALS

Project services in connection with preparing acknowledgment of Final Completion construction submittals with record drawings to the following agencies.

1. None Required

TASK C11 - SPECIAL SERVICES

This Task not required.

III. DELIVERABLES

Project deliverables shall be in accordance with Attachment 3.

IV. SCHEDULE

Upon receipt of Notice-To-Proceed the CONSULTANT will complete the services identified in this Work Authorization within the schedule outlined in Attachment 4.

V. COMPENSATION AND PAYMENT

The CONSULTANT will perform the tasks as outlined in the scope of services for the fees as outlined below in Tables 1 and 2 and further detailed in Attachments 5 and 6.

A. DESIGN PHASE

1. For services described in Part II. A. - Design Phase, Tasks D1 through D10, the lump sum fee of **$23,540.00.**

TABLE 1
DESIGN PHASE
BUDGET SUMMARY

Description	Total
D1 - Project Administration / Management	$2,554.00
D2 - Data Gathering and Preliminary Coordination	$1,354.00
D3 - Not Used	$0.00
D4 - Drawings and Engineering	$5,620.00
D5 - Specification Preparation	$1,932.00
D6 – Permit Preparation Assistance	$406.00
D7 - Prepare Opinions of Probable Construction Cost	$1,188.00
D8 - Bidding Assistance Services	$1,856.00
D9 - Bid Evaluation and Recommendation of Award	$964.00
D10 - Submit and Review (Quality Control)	$2,449.00
Reimbursable Expenses	$5,217.00
TOTAL LUMP SUM FEE	**$23,540.00**

B. CONSTRUCTION PHASE

1. For services described in Part II. B. - Construction Phase, Tasks C1 through C11, not to exceed fee of **$15,108.00.**

TABLE 2
ENGINEERING SERVICES DURING CONSTRUCTION
BUDGET SUMMARY

Description	Total
C-1 Project Administration / Management	$2,208.00
C-2 Preconstruction Activities Prior to Notice to Proceed	$1,648.00
C-3 Consult and Advise	$1,102.00
C-4 Review Shop Drawings	$1,624.00
C-5 Review Pay Requests & Schedules	$742.00
C-6 Perform Periodic & Milestone Inspections	$3,328.00
C-7 Not Used	$0.00
C-8 Contract Modifications	$1,032.00
C-9 Project Closeout	$3,424.00
C-10 Not Used	$0.00
C-11 Not Used	$0.00
Reimbursable Expenses	$0.00
TOTAL NOT-TO-EXCEED FEE	**$15,108.00**

VI. ASSUMPTIONS

This Work Authorization does not include the provision of the following items:

A. Payment of permit fees.

B. Any expert witness or testimony services.

C. Services not specifically indicated in this Work Authorization.

This Work Authorization assumes the following data or assistance will be provided by VILLAGE:

A. Attendance at project meetings.

B. General project review, where required.

C. Provide pertinent project data and information available from VILLAGE when requested by CONSULTANT.

D. Facility access and other project related information requested by CONSULTANT.

E. VILLAGE Project Representative Services (Part time when CONSULTANT's representative is not on site.)

F. Services which will be provided by the VILLAGE resident project representative will include the following:

1. Monitor that project is constructed in conformance with the Contract Documents.
2. Make periodic on-site field observations of the Contractor's performance. The limits of the authority of the on-site representative are as defined within the Contract Documents.

3. Observe field tests and review the results of tests required by the Contract Documents.
4. Assist in the development of punch lists in conjunction with the milestone inspections to determine if the project has achieved Substantial and Final Completion and that the work has been completed in general conformance with the Contract Documents.
5. Provide daily reports of Contractor activity to the CONSULTANT on a form provided by the CONSULTANT.
6. Provide photographs of the work during construction showing typical construction progress.
7. Keep the CONSULTANT informed of any changes which need to be made and assist CONSULTANT with the change decision.
8. Be present at all required times for permit compliance.

VII. AGREEMENT REFERENCE

The work authorized under this Work Authorization shall be performed under the terms and conditions described within the Professional Services Agreement dated September 13, 2018, by and between the Village of Palm Springs ("VILLAGE") and Eckler Engineering, Inc. ("CONSULTANT"). Compensation shall not exceed the hourly rates currently in effect under this Agreement.

LIST OF PROJECT DELIVERABLES

DESIGN PHASE

A. 90% Design Submittal

1. One (1) set of 11" x 17" Drawings, 90% complete.
2. One (1) Specification Booklet.
3. 90% Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

B. 100% Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. One (1) Specification Booklet.
3. 100% Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

C. Final Design Submittal

1. One (1) set of 11" x 17" Drawings, 100% complete.
2. One (1) Specification Booklet.
3. Final Completion Estimate of Probable Construction Cost.
4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

D. Bidding (Final) Coordination Submittal

1. One (1) set of 11" x 17" Drawings (Final).

2. One (1) Specification Booklet.

3. One (1) Final Completion Estimate of Probable Construction Cost.

4. Updated Project Schedule.

(Electronic submittal process shall be used. Hard copy documents available upon request.)

BIDDING SERVICES

A. Pre-Bid

1. Pre-bid Meeting Minutes Information.

2. Addenda Information, as required, to the VILLAGE and/or Contractors.

B. Post Bid

1. Bid Tabulation.

2. Recommendation of Award Letter.

3. Contractor Notice of Tentative Award.

CONSTRUCTION PHASE

A. Pre-Construction

1. Three (3) sets of 22" x 34" signed/sealed drawings and specifications for Building Permit Submittal.

2. Three (3) sets of drawings (11" x 17") and specifications for VILLAGE's use during construction.

3. Three (3) sets of drawings (11" x 17") and specifications for CONTRACTOR's use during construction.

4. Pre-construction conference meeting agenda and minutes.

B. Shop Drawings

1. Electronic copies of accepted and final shop drawings.

C. Construction Inspection

1. Site visit reports will be provided for each site visit in accordance with Task(s) C6.

D. Progress Meetings

1. N/A

E. Contract Modifications

1. Four (4) copies of all completed contract modifications.

F. Pay Requests

1. Copies of reviewed and approved partial and final pay request applications.

G. Record Drawings and Project Closeout

1. Two (2) sets of record drawings.

2. Two (2) CD's with record drawings in .pdf and ACAD (2016 Civil 3D) formats.

H. Commissioning and Startup Reports.

1. N/A

All review comments shall be provided to Consultant within 14 calendar days after the Village receives the submittal. An adjustment to the overall schedule will be required in the event the review meeting takes longer to be conducted and/or obtaining comments takes longer to receive.

Detailed schedule will be provided upon receipt of authorization to proceed and will include specific submittal dated.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.15: Approve Surficial Aquifer Well Rehabilitation Agreement - Piggyback - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Funded) - Centerline Drilling, Inc.

SUMMARY: The Public Service Department has a need throughout the year to provide wellfield maintenance and rehabilitation services (i.e., rehabilitate surficial aquifer wells) within the Village's utility system. The Village has utilized Centerline Drilling, Inc. to assist with these types of projects/services and the previously piggybacked contract (from the Town of Jupiter) expired on January 8, 2021.

To ensure the lowest possible price, staff is recommending that the Village piggyback off the current Town of Jupiter contract awarded to Centerline Drilling, Inc. This selection by the Town of Jupiter was completed through a competitive selection process - Surficial Wellfield Rehabilitation Program (ITB# W2111-0-2020 - December 8, 2020).

If approved, the Village would accept Centerline Drilling, Inc.'s pricing by piggybacking the Town of Jupiter's contract including all terms, conditions and pricing therein. The term of the proposed contract would expire on February 16, 2024 and may be renewed for two (2) additional one (1) year periods. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The Village's Purchasing Code, Section 58-9, Accessing contracts of other government agencies, provides that the Village may award a contract by piggy-backing or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

The proposed Agreement was prepared by the Village Attorney and reviewed by the Assistant Public Service Director/Engineer, the Utilities Superintendent and the Finance Director.

The Village has worked with the proposed vendor and has received excellent service and a quality product.

FISCAL IMPACT:

Funding to support purchases under this proposed agreement is available within the FY 2021 Budget - Water & Sewer Enterprise Fund:

Allocated/Estimated Services Funding:	***Amount***
FY 2021 Approved Budget - Water & Sewer Fund	$68,000.00

Expected Services Cost:	***Amount***
Project Request/Cost - Water & Sewer Fund	$54,000.00

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

ATTACHMENTS:

Proposed Piggyback Agreement - Centerline Drilling
Approval to Piggyback - Centerline Drilling
Town of Jupiter - Executed Contract - Centerline Drilling

AGREEMENT FOR SURFICIAL AQUIFER WELL REHABILITATION

This Agreement for Surficial Aquifer Well Rehabilitation ("Agreement" hereafter) is made as of the _____ day of _____, 2021D you have the , by and between the **Village of Palm Springs**, 226 Cypress Lane, Palm Springs, Florida 33461-1699, a municipal corporation organized and existing under the laws of the State of Florida, hereinafter referred to as the VILLAGE, and **Centerline Drilling, Inc.**, 1696 Old Okeechobee Blvd., Suite #3C, West Palm Beach, FL 33409, a corporation authorized to do business in the State of Florida, hereinafter referred to as the CONTRACTOR.

RECITALS

WHEREAS, the VILLAGE is in need of a contractor to provide the VILLAGE with the services for surficial aquifer well rehabilitation on an as needed basis; and,

WHEREAS, the Town of Jupiter through its competitive selection process awarded the Contract for Surficial Aquifer Well Rehabilitation (W2111-0-2020) ("Jupiter Contract" hereafter) to the CONTRACTOR for substantially the same services sought by the VILLAGE; and,

WHEREAS, the VILLAGE requested and the CONTRACTOR has executed this Agreement with the VILLAGE for surficial aquifer well rehabilitation services based on the pricing and terms and conditions of the Jupiter Contract; and,

WHEREAS, the VILLAGE desires to accept CONTRACTOR's pricing by piggy-backing the Jupiter Contract including all terms, conditions and pricing therein.

NOW THEREFORE, in consideration of the mutual promises set forth herein, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Recitals. The parties agree that the recitals set forth above are true and correct and are fully incorporated herein by reference.

2. Jupiter Contract. The Jupiter Contract with the CONTRACTOR is hereby expressly made a part of this Agreement as fully as if set forth at length herein. The VILLAGE shall have all rights, obligations and remedies authorized to the Town of Jupiter under the Jupiter Contract and all associated and applicable Contract Documents as defined therein.

3. CONTRACTOR's Proposal. In accordance with the terms and conditions in the Jupiter Contract and pricing therein, the CONTRACTOR shall provide surficial aquifer well rehabilitation services as requested by the VILLAGE. The services to be provided by the CONTRACTOR shall be commenced subsequent to the execution and approval of this Agreement by the VILLAGE in accordance with the terms of the Jupiter Contract.

4. Contract Documents and Conflict of Terms and Conditions. The Contract Documents for this Agreement are compromised of the following:

A. All written modifications and amendments hereto;
B. This Agreement (including all exhibits);
C. Jupiter Contract (including all Contract Documents as defined therein).

The Contract Documents of this Agreement are intended to be complementary and interpreted in harmony so as to avoid conflict with the words and phrases interpreted in a manner consistent with construction and design industry standards. In the event of any inconsistency, conflict or ambiguity between or among the Contract Documents of this Agreement, the Contract Documents of this Agreement shall take precedence in the following order:

A. All written modifications and amendments hereto;
B. This Agreement.
C. The Jupiter Contract.

5. Compensation to Contractor. Payments by the Village to the Contractor under this Agreement shall not exceed the amount of compensation, unit prices, stated in the CONTRACTOR's proposal to the Town of Jupiter ITB, which shall be considered the "Contract price." Contractor waives consequential or incidental damages for claims, disputes or other matters in question arising out of or relating to this Agreement.

6. Miscellaneous Provisions.

6.1 The Village and Contractor each binds itself, its partners, its successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect of all covenants, agreements and obligations contained in the Contract Documents.

6.2 Reserved.

6.3 Headings and References & Exhibits: The headings contained in this Contract are inserted for convenience of reference only and shall not be a part or control or affect the meaning hereof. All references herein to Exhibits are to the exhibits hereto, each of which shall be incorporated into and deemed to be a part of this Contract.

6.4 Counterparts: This Contract may be executed in two or more counterparts, each of which shall be deemed to be an original, but all of which shall be deemed to be an original, but each of which together shall constitute one and the same instrument.

6.5 Entire Contract; Amendment and Waiver: This Contract (together with the Exhibits hereto) supersedes any and all prior negotiations and oral or written agreements heretofore made relating to the subject matter hereof and, except for written agreements, if any, executed and delivered simultaneously with or subsequent to the date of this Contract, constitutes the entire agreement of the parties relating to the subject matter hereof. This Contract may not be altered or

amended except by a writing signed by the parties hereto. No waiver of any of the terms or conditions of this Contract shall be effective unless in writing and executed by the party to be changed therewith. No waiver of any condition or of the breach of any term, covenant, representation, warranty or other provision hereof shall be deemed to be construed as a further or continuing waiver of any such condition or breach or a waiver of any other condition or of any breach of any other term, covenant, representation, warranty or other provision contained in this Contract.

6.6 Successors and Assigns: This Contract shall be binding upon, and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6.7 Governing Law; Consent to Jurisdiction: This Contract shall be governed by and construed and interpreted in accordance with the laws of the State of Florida. Each of the parties hereto (a) irrevocably submit itself to the exclusive jurisdiction of the Fifteenth Judicial Circuit Court in and for Palm Beach County, Florida for state actions and jurisdiction of the United States District Court for the Southern District of Florida, Palm Beach Division, for the purposes of any suit, action or other proceeding arising out of, or relating to, this Contract; (b) waives and agrees not to assert against any party hereto, by way of motion, as a defense of otherwise, in any suit, action or other proceeding, any claim that it is not personally subject to the jurisdiction of the above-named courts for any reason whatsoever; and (ii) to the extent permitted by applicable law, any claim that such suit, action or proceeding by any part hereto is brought in an inconvenient forum or that the venue of such suit, action or proceeding is improper or that this Contract or the subject matter hereof may not be enforced in or by such courts.

6.8 Third Party Beneficiary rights: This Contract shall create no rights or claims whatsoever in any person other than a party herein.

6.9 Severability: If any one or more of the provisions of the Contract shall be held to be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions hereof shall not in any way be affected or impaired thereby.

6.10 Effective date, term and renewal: The effective date of this Contract is the date the Contract is approved by the Village Council. The term shall be the same as the term specified in the Jupiter Contract, which initial term shall not expire until January 10, 2019. This Contract may be renewed provided the underlying agreement with the Town of Jupiter is renewed. Such renewal may be approved by the Village Manager provided the same terms, conditions and pricing are maintained.

6.11 Preparation: This Contract shall not be construed more strongly against either party regardless of who was more responsible for its preparation.

6.12 Palm Beach County Inspector General: In accordance with Palm Beach County Ordinance No. 2011-009, the Contractor acknowledges that this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The Contractor has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

6.13 All notices required in this Agreement shall be sent by certified mail, return receipt requested, and sent to the addresses appearing on the first page of this Agreement.

6.14 The Village is exempt from payment of Florida State Sales and Use Tax. The Contractor shall not be exempted from paying sales tax to its suppliers for materials used to fill contractual obligations with the Village, nor is the Contractor authorized to use the Village's Tax Exemption Number in securing such materials.

7. Public Records.

Contractor shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the Village as provided under section 119.011(2), Florida Statutes, specifically agrees to:

(a) Keep and maintain public records required by the Village to perform the service.

(b) Upon request from the Village's custodian of public records or designee, provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Contract and following completion of this Contract if the Contractor does not transfer the records to the Village.

(d) Upon completion of this Contract, transfer, at no cost, to the Village all public records in possession of the Contractor or keep and maintain public records required by the Village to perform the service. If the Contractor transfers all public records to the Village upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the Village, upon request from the Village's custodian of public records or designee, in a format that is compatible with the information technology systems of the Village.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

7. Indemnity.

The parties recognize that the Contractor is an independent contractor. The Contractor agrees to assume liability for and indemnify, hold harmless, and defend the Village, its council members, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the Contractor, its agents, officers, Contractors, subcontractors, employees, or anyone else utilized by the Contractor in the performance of this Contract. The Contractor's liability hereunder shall include all attorney's fees and costs incurred by the Village in the enforcement of this indemnification provision. This includes claims made by the employees of the Contractor against the Village and the Contractor hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. The obligations contained in this provision shall survive termination of this Contract and shall not be limited by the amount of any insurance required to be obtained or maintained under this Contract.

Subject to the limitations set forth in this Section, Contractor shall assume control of the defense of any claim asserted by a third party against the Village and, in connection with such defense, shall appoint lead counsel, in each case at the Contractor's expense. The Village shall have the right, at its option, to participate in the defense of any third party claim, without relieving Contractor of any of its obligations hereunder. If the Contractor assumes control of the defense of any third party claim in accordance with this paragraph, the Contractor shall obtain the prior written consent of the Village before entering into any settlement of such claim. Notwithstanding anything to the contrary in this Section, the Contractor shall not assume or maintain control of the defense of any third party claim, but shall pay the fees of counsel retained by the Village and all expenses, including experts' fees, if (i) an adverse determination with respect to the third party claim would, in the good faith judgment of the Village, be detrimental in any material respect to the Village's reputation; (ii) the third party claim seeks an injunction or equitable relief against the Village or (iii) the Contractor has failed or is failing to prosecute or defend vigorously the third party claim. Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith.

It is the specific intent of the parties hereto that the foregoing indemnification complies with Section 725.06, Florida Statutes, as amended. Contractor expressly agrees that it will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statues. Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the Village may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

8. Defaults, Termination of Agreement.

8.1 If the Contractor fails to satisfactorily perform the work specified in this Agreement; or, is in material breach of a term or condition of this Agreement, the Public Services Director may give written notice to the Contractor specifying defaults to be remedied. Such notice shall set forth the basis for any dissatisfaction and suggest corrective measures. If the Contractor does not remedy defaults within the allotted time or commence good faith steps to remedy the default to the reasonable satisfaction of the Public Services Director, the Village may take such action to remedy the default and all expenses related thereto shall be borne by the Contractor including, without limitation, utilization of another contractor to provide for such work; and/or, the Village may withhold any money due or which may become due to the Contractor for such expense and/or work related to the claimed default. Alternatively, or in addition to the foregoing, if after three (3) days the Contractor has not remedied defaults or commenced good faith steps to remedy defaults to the satisfaction of the Public Services Director, the Village may elect to terminate this Agreement. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.1.

8.2 Notwithstanding paragraph 8.1, the Village reserves the right and may elect to terminate this Agreement at any time, with or without cause. At such time, the Contractor would be compensated only for the parts provided to the date of termination. In the event material has been ordered or is in the process of being manufactured, the Village must pay for all material ordered or manufactured. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.2.

9. Insurance.

9.1 The Contractor shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the Village, the types and amounts of insurance conforming to the minimum requirements set forth below. The Contractor shall not commence services until the required insurance is in force and evidence of insurance acceptable to the Village has been provided to, and approved by, the Village. An appropriate Certification of Insurance shall be satisfactory evidence of insurance. Until such insurance is no longer required by this Contract, the Contractor shall provide the Village with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

A. The Contractor shall maintain, during the life of this Agreement, commercial general liability, including contractual liability insurance in the amount of $1,000,000 per occurrence and $2,000,000 aggregate, to protect the Contractor from claims for damages for bodily and personal injury, including wrongful death, as well as from claims of property damages which may arise from any operations under this Agreement, whether such operations be by the Contractor or by anyone directly employed by or contracting with the Contractor.

B. The Contractor shall maintain, during the life of this Agreement, comprehensive automobile liability insurance in the minimum amount of $1,000,000 combined single limit for bodily injury and property damages liability to protect the Contractor from claims for damages for bodily and personal injury, including death, as well as from claims for property damage, which may arise from the ownership, use, or maintenance of owned and non-owned automobiles, including rented automobiles whether such operations be by the Contractor or by anyone directly or indirectly employed by the Contractor .

C. The Contractor shall maintain, during the life of this Agreement, Workers' Compensation Insurance and Employer's Liability Insurance for all employees as required by Florida Statutes.

All insurance, other than Worker's Compensation, to be maintained by the Contractor shall specifically include the Village as an "Additional Insured".

9.2 The insurance provided by the s Contractor hall apply on a primary basis. Any insurance, or self-insurance, maintained by the Village Council shall be excess of, and shall not contribute with, the insurance provided by the Contractor. Except as otherwise specified, no deductible or self-insured retention is permitted.

9.3 Compliance with these insurance requirements shall not limit the liability of the Contractor. Any remedy provided to the Village by the insurance provided by the Village shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of the Contractor) available to the Village under this Agreement or otherwise.

9.4 Neither approval nor failure to disapprove insurance furnished by the Contractor shall relieve the Contractor from responsibility to provide insurance as required by this Agreement.

9.5 The Contractor's failure to obtain, pay for, or maintain any required insurance shall constitute a material breach upon which the Village may immediately terminate or suspend this Agreement. In the event of any termination or suspension, the Village may use the services of another contractor without the Village incurring any liability to the Contractor.

9.6 At its sole discretion, the Village may obtain or renew the Contractor's insurance, and the Village may pay all or part of the premiums. Upon demand, the Contractor shall repay to the Village all monies paid to obtain or renew the insurance. The Village may offset the cost of the premium against any monies due the Contractor from the Village.

10. Public Entity Crimes.

As provided in Sections 287.132-133, Florida Statutes, as amended from time to time, by entering into the Contract Documents, Company certifies that they, their affiliates, suppliers, subcontractors and any other contractors who will perform hereunder, have not been placed on

the convicted vendor list maintained by the State of Florida Department of Management Services within the thirty-six (36) months immediately preceding the date hereof.

11. Scrutinized Companies.

Company certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List and are not engaged in the boycott of Israel. Pursuant to section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Company or any of its subcontractors are found to have submitted a false certification; or if the Company or any of its subcontractors, are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of this Agreement.

The Company agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under this Agreement. The Company agrees that the certifications in this section shall be effective and relied upon by the Village for the term of this Agreement, including any and all renewals. The Company agrees that if it or any of its subcontractors' status changes in regard to any certification herein, the Company shall immediately notify the Village of the same. As provided in Subsection 287.135(8), Florida Statutes, if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

12. E-Verify.

Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the Company shall:

1. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractors' newly hired employees;
2. Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien;
3. Maintain copies of all subcontractor affidavits for the duration of this Agreement;
4. Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes;
5. Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and
6. Be aware that if the Village terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the Company may not be awarded a public contract for at least 1 year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the Village as a result of the termination of the Agreement.

IN WITNESS WHEREOF, the VILLAGE and CONTRACTOR have caused this Agreement to be executed the day and year shown above.

AGREEMENT

THIS AGREEMENT is dated and will be effective on the 7th day of January in the year 2021, by and between the **VILLAGE OF WELLINGTON**, a Florida municipal corporation, through its Village Council, (hereinafter referred to as "Owner" or "Village"), and **FLORIDA DESIGN DRILLING CORPORATION** a Florida Profit Corporation(hereinafter referred to as "Contractor"), having its principal office at 7733 Hooper Road for **Wellfield Rehabilitation, Maintenance and New Construction** (hereinafter referred to as the "Project") in accordance with the Contract Documents, hereinafter defined.

Owner and Contractor, in consideration of the mutual covenants hereinafter set forth, agree as follows:

ARTICLE 1 – SCOPE OF WORK

The Contractor will provide all materials, supervision, light, power, transportation, labor, tools and equipment necessary to complete the work in strict accordance with the Contract Documents as defined in Article 2 of this Agreement, and perform all work that is reasonably inferable therefrom as being necessary to accomplish the intent of the Contract Documents, and as required by the manufacturer's specifications and all applicable laws, ordinances and rules and regulations of any governing authority including but not limited to the requirements of the Florida Building Code and any amendments thereto. The work to be performed shall hereinafter be referred to as the "Work".

The Work is generally described as follows: The rehabilitation, maintenance, and new well construction for the Village of Wellington Surficial Aquifer System wellfield and existing production wells. Scope shall be generated, phase by phase, by the Village as needed.

ARTICLE 2 - CONTRACT DOCUMENTS

The Contract Documents, which comprise the entire Agreement between Owner and Contractor concerning the Work, consist of the following:

2.1 This Agreement;

2.2 Addenda numbers: NONE

2.3. General Conditions attached hereto as **Exhibit "A"**;

2.4 Signing Authority to Agreement attached hereto as **Exhibit "B"**;

2.5 Drawings, plans or technical specifications are attached hereto as **Exhibit "C"**;

2.6 Performance Bond and Payment Bonds in the forms attached hereto as **Exhibit "D"** which shall be in compliance with Fla. Stat. § 255.05 (plus Power of Attorney Forms as applicable);

2.7 Notice of Award attached hereto as **Exhibit "E"**;

2.8 Sales Tax Recovery Program Special Conditions For Owner Furnished Materials and Equipment attached hereto as **Exhibit "F"**;

2.9 Contractor's Schedule of Values attached as **Exhibit "G"**;

2.10 Contractor's Certificate(s) of Insurance attached hereto as **Exhibit "H"**;

2.11 Warranty Forms attached hereto as **Exhibit "I"**;

2.12 Form of Certificate of Substantial Completion attached hereto as **Exhibit "J"**;

2.13 Form of Application for Payment attached hereto as **Exhibit "K"**;

2.14 Form of Bill of Sale, Absolute attached hereto as **Exhibit "L"**;

2.15 Form of Contractors affidavit to Owner and Final Release of Liens, attached hereto as **Exhibit "M"**;

2.16 Contractor's Forms and Misc. Requirements attached hereto as **Composite Exhibit "N"**:

Exhibit "N1"	Conflict of Interest Statement
Exhibit "N2"	Non-Collusion Affidavit
Exhibit "N3"	Certification Pursuant to Florida Statute 287.135 and 215.4725

2.17 Sales Tax Exemption Certificate of Entitlement attached hereto as **Exhibit "O";**

2.18 The following which may be delivered or issued after the Effective Date of the Agreement may not be attached hereto: Notice to Proceed, all written amendments and Change Orders signed by both parties and other documents amending, modifying, or supplementing the Contract Documents pursuant to paragraph 3.04 of the General Conditions.

2.19 The Contract Documents listed under Article 2 above are attached to this Agreement (except as expressly noted otherwise above) and include any documents referenced in the Agreement or Contract Documents to be incorporated by reference. There are no Contract Documents other than those listed above in this Article 2. The Contract Documents may only be amended, modified or supplemented as provided in paragraph 3.04 of the General Conditions. The Contract Documents shall be interpreted together and in harmony with one another. In the event of a conflict between or among the Contract Documents, whichever document imposes the greater obligation on Contractor shall control. The Contractor must call any such conflict or discrepancy to the Village's attention, in writing or the Contractor waives and releases any claims it might have related to such conflict, unless otherwise stated herein. The Contractor shall not proceed when in doubt as to any dimension or measurement but shall seek clarification from the Engineer (defined below).

ARTICLE 3 - ENGINEER

Notwithstanding anything contrary to language contained in the Agreement, the roles and responsibilities of the Owner and Engineer during construction are as follows:

The Owner will serve as the Owners Representative. All communication relative to Contractors obligation under Agreement shall be through the Owner. The Owner will act as the Engineer during construction unless otherwise notified by Owner. The responsibilities of the Engineer are in Article 9 of the of the General Conditions.

ARTICLE 4 – TERM, TIME OF COMMENCEMENT AND COMPLETION

4.1 The term of the contract shall be for three (3) years from date of award, and by mutual agreement between Wellington and the awardee(s), be renewable for two (2) additional one (1) year periods. Wellington reserves the right to exercise the option to renew (subject to the appropriation of funds), not to exceed a maximum of two (2) year renewals. Renewals will be based upon mutual agreement between Wellington and vendor, and by incorporating the same terms and conditions. Renewals will be by a written notice from Wellington, and acceptance by the awarded vendor(s). The written notice will generally be provided about ninety (90) days prior to the contract expiration date. The pricing submitted for the initial period of the contract will remain fixed. There will be no allowable price escalations for services, materials, or fuel costs throughout the initial term of the contract.

4.2 The time of commencement of the Work shall be the date stated in the Notice to Proceed, as defined in the General Conditions ("Date of Commencement"). Specific contract time shall be determined on a phase by phase basis., subject to any authorized extensions of time as set forth in the Article 12 of the General Conditions. All Work shall be performed in an expeditious manner. Contractor shall reach Final Completion of all Work as specified in the Notice to Proceed and delivery of the Final Punch List as required by the Contract Documents.

4.3 LIQUIDATED DAMAGES. The parties to this Agreement agree that time is of the essence in the performance of this Agreement. Substantial Completion of the Work under this Agreement, as defined in Article 1 of **Exhibit "A",** shall be no later than the Substantial Completion date set forth in Section 4.1 of this Agreement, subject to authorized extensions of time as set forth in the Article 12 of the General Conditions. In the event the Work is not substantially completed by the completion date stated above, and has not been extended by Change Order, the Owner shall be entitled to collect liquidated damages. Contractor and Owner agree that, because of the nature of the Work, the inability of the parties to precisely calculate actual damages for delay and the difficulty of determining these damages, the Contractor shall pay the Owner the sum of Five Hundred Dollars ($500.00) for each calendar day in achieving Substantial Completion of the Work. Further, Contractor and Owner agree that, because of the nature of the Work, the inability of the parties to precisely calculate actual damages for delay and the difficulty of determining these damages, the Contractor shall pay the Owner the sum of Two Hundred Fifty Dollars ($250.00) for each and every calendar day of unexcused delay for failure to achieve Final Completion. It is hereby agreed that the amount of the per diem assessment for liquidated damages for the Contractor's failure to achieve Substantial Completion of the Work or Final Completion of the Work within the time specified in this Agreement is not a penalty and not excessive in light of the circumstances known to the parties at the time this Agreement is executed. The Owner's exercise of its right to terminate this Agreement shall not release the Contractor from its obligation to pay liquidated damages in the amount set forth herein. Such assessments shall be immediately due and payable to the Owner or, at the Owner's option, may be deducted from future payments that may be due and owing to Contractor. Any sums due and payable hereunder by the Contractor shall be payable, not as a penalty, but as liquidated damages representing an estimate of delay damages likely to be sustained by the Owner, estimated at or before the time of executing this Agreement. Contractor's liability for liquidated damages shall survive completion and termination of the Agreement and are in addition to Owner's other remedies available under the Contract Documents and by law.

ARTICLE 5 - CONTRACT SUM

The Owner shall pay the Contractor for the cost of each project, authorized by the Owner through the issuance of a Notice to Proceed, based upon the unit prices set forth in the Schedule of Values, inclusive of all licenses, taxes and fees. If any permits are required for the performance of the Work from any governing authorities having jurisdiction over the Project, Contractor shall be responsible for obtaining all required permits and the Owner shall pay for the actual cost for such permits as part of the Contract Sum. The Ownerdoes not guarantee any minimum amount in contract price nor any minimum number of projects.

ARTICLE 6 - PAYMENT PROCEDURES

Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed and reviewed by Owner and Engineer as provided in Article 14 of the General Conditions.

6.1. PROGRESS PAYMENTS. Pursuant to Article 14 of the General Conditions, Owner shall make progress payments on account of the Work performed, including any Unit Price Work, on the basis of Contractor's Applications for Payment (**Exhibit "K**") as recommended by Engineer, on or about the **10th** day of each month during construction as provided below. All progress payments will be on the basis of the percentage of completion and progress of the Work, and in the case of Unit Price Work based on the price per unit multiplied by the number of units completed, measured by the Schedule of Values established pursuant to Paragraph 2.05 of the General Conditions and **Exhibit "G"** attached to this Agreement.

6.1.1. Prior to successful completion of 50% of the Work, progress payments will be made in an amount equal to the percentage indicated below, but, in each case, less the aggregate of payments previously made and less such amounts as Engineer shall determine, or Owner may withhold, in accordance with Paragraph 14.02 of the General Conditions.

Ninety percent (90%) of Work completed and zero percent (0%) of materials and equipment not incorporated in the Work (but delivered, suitably stored and accompanied by documentation satisfactory to Owner as provided in Paragraph 14.02.A of the General Conditions).

6.1.2. Upon successful completion of 50% of the work, progress payments will be made in an amount equal to ninety-five percent (95%) of the Work completed, but, in each case, less the aggregate of payments previously made and less such amounts as Engineer shall determine, or Owner may withhold, in accordance with Paragraph 14.02 of the General Conditions.

6.1.3 Owner is not obligated to reduce the retainage for any amounts that are the subject of a good faith dispute, the subject of a claim brought pursuant to Section 218.735, Florida Statutes, Section 255.05, Florida Statutes, or for any amounts that are otherwise the subject of a Claim or demand by the Owner against the Contractor under this Agreement. After 50% completion of the Work, the Contractor may submit to the Owner an Application for Payment for up to 50% of the retainage withheld by the Owner through the date of the Application for Payment. The Owner shall promptly make such payment to the Contractor unless the Owner has grounds to withhold payment for amounts that are the subject of a good faith dispute, the subject of a Claim pursuant to Section 218.735, Florida Statutes, Section 255.05, Florida Statutes, or are otherwise the subject of a Claim or demand by the Owner against the Contractor. If the Owner makes payment of retainage to the Contractor, which is attributable to the labor, services, or materials supplied by one or more Subcontractors or suppliers, the Contractor shall timely remit payment of such retainage to those Subcontractors and suppliers. Upon Substantial Completion of the Work, and the completion of the punch list, the amount of retainage shall be reduced to the value of 150% of the total cost to complete any disputed items on the punch list, which shall be deducted from any amounts due.

6.2. FINAL PAYMENT. Upon final completion and acceptance of the Work in accordance with Paragraph 14.07 of the General Conditions, and settlement of all Claims, Owner shall pay the remainder of the Contract Price as recommended by Engineer as provided in said paragraph 14.07 of the General Conditions.

ARTICLE 7 - CONTRACTOR'S REPRESENTATIONS

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

7.1 Contractor has familiarized itself with the nature and extent of the Contract Documents, Work, Site, locality, and all local conditions, Laws, and Regulations that in any manner may affect the cost, progress, performance, or furnishing of the Work.

7.2. Contractor has obtained and carefully studied (or assumes responsibility for obtaining and carefully studying) all such examinations, investigations, explorations, tests, reports and studies which pertain to the subsurface conditions at or contiguous to the Site or otherwise may affect the cost, progress, performance or furnishing of the Work as Contractor considers necessary for the performance or furnishing of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents, including specifically the provisions of paragraph 4.03 of the General Conditions; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Contractor for such purposes.

7.3. Contractor has obtained and carefully studied (or assumes responsibility for obtaining and carefully studying) all examinations, investigations, explorations, tests, reports and studies which pertain to the physical conditions at or contiguous to the Site or otherwise may affect the cost, progress, performance or furnishing of the Work as Contractor considers necessary for the performance or furnishing of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents, and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Contractor for such purposes.

7.4. Contractor has given Owner written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by Owner is acceptable to Contractor.

7.5 The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

7.6 Contractor represents that it is a properly qualified and licensed contractor in good standing with the State of Florida and is a Florida General Contractor in good standing, organized and existing under the laws of the State of Florida. Contractor further represents that it is well qualified and able to perform the Work; it has a sufficient number of qualified personnel to assure timely performance of the Work; that it has the proper tools and equipment to perform the Work and is financially capable of performing the Work and all the requirements stated within the Contract Documents.

7.7 Contactor represents that all Work will be of first quality, free from faults and defects and in conformance with the Contract Documents. All Work not so conforming to these standards may be considered defective. The Contractor shall supervise and direct the Work using its best skill and attention. All Work shall be performed by craftsmen skilled in the trades and application of materials involved. The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work and shall comply with all OSHA regulations regarding job safety and all applicable laws, ordinances, rules, regulations and orders of any public authority having jurisdiction for the safety or persons or property.

ARTICLE 8 - INDEMNIFICATION

8.1 Subject to Paragraph 6.20 of the General Conditions, to the fullest extent permitted by the law, Contractor shall indemnify and hold harmless the Owner, and its council members, officers, directors, agents, members and employees and Engineer and its officers, directors, agents, members and employees ("Indemnified Parties"), from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees at the trial and appellate level, but only to the extent caused by the negligence, recklessness, wrongly or intentionally wrongful conduct, act or omission of the Contractor and other persons employed or utilized by Contractor, any of Contractor's Subcontractors, agents or others for whom the Contractor is responsible, arising from this Agreement or its performance. The Owner's contributory negligence shall only reduce, but not prevent, the Contractor's obligation to indemnify provided herein. Nothing in the Contract Documents shall be construed or interpreted as consent by the Owner to be sued, nor as a waiver of sovereign immunity beyond the waiver or limits provided in §768.28, Florida Statutes.

8.2 In any and all claims against Indemnified Parties by any employee (or the survivor or personal representative of such employee) of Contractor, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under Paragraph 8.1 shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for Contractor or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

8.3 The parties intend for this indemnification provision to be enforceable pursuant to Sections 725.06 and 725.08, Florida Statutes and as such, hereto acknowledge and agree that to the extent that any portion of this indemnification provision is deemed void or unenforceable in any action or proceeding, then such portion is considered severable and will not affect the remaining portions of this provision. The Contractor shall indemnify and hold harmless all of the Indemnified Parties from and against any costs and expenses (including reasonable attorneys' fees) incurred by any of the Indemnitees in enforcing any of the Contractor's indemnity and hold-harmless obligations under this Contract. This indemnification provision does not extend to provide indemnification to the Indemnified Parties for their own negligence and therefore, the parties agree that the indemnification obligations should be construed in accordance with Sections 725.06 and 725.08, Florida Statutes.

8.4 The indemnity provisions of this Article 8 shall survive termination and completion of the Agreement.

ARTICLE 9 – SUBCONTRACTS

No portion of the Work may be subcontracted to vendors not listed on the Schedule of Subcontractor without the prior written consent of the Village, which consent may be withheld for any reason. It is further agreed that all subcontracts and material and equipment purchase contracts entered into by Contractor or its subcontractors or material suppliers, shall contain a provision stating that the Owner may bring claim directly against any subcontractor of Contractor for breach of Contract, warranty rights, quality of workmanship, and create third party beneficiary rights of Owner in said agreements. Additionally, nothing contained in this Contract shall constitute an assignment of Contractor's rights against the Owner or create any third party beneficiary rights in any

subcontractors or material and equipment suppliers of Contractor. The purpose of this provision is to allow the Owner, in addition to Contractor, to make claim for damage or indemnification directly against any subcontractors or material and equipment suppliers that may be ultimately responsible for defects or deficiencies in the Work or materials and equipment.

ARTICLE 10 – TIME & DELAYS

Any changes in the Work, changes in the Contract Price and/or Contract Time shall be executed via written Change Order pursuant to Articles 10 and 12 of the General Conditions. Further, if the Contractor is delayed at any time in the progress of the Work, any approved changes in the Contract Time shall similarly be executed via written Change Order pursuant to Article 12 of the General Conditions. All requests by the Contractor for extensions of the Contact Time, other than those associated with changes in the Work, must be submitted in writing to Owner's Representative within the time period specified in Article 12 of the General Conditions. Failure to so request an extension of the Contract Time will constitute a waiver of any right for an extension of the Contract Time.

ARTICLE 11 – BONDS AND INSURANCE

The Contractor shall furnish performance and payment bonds pursuant to Article 5 of the General Conditions. The Contractor shall also, as a condition of this Agreement and to payment under this Agreement, purchase and maintain the insurance coverage and policy limits as delineated within Paragraph 5.04 of the General Conditions and the Supplementary Conditions.

ARTICLE 12 – SALES TAX INFORMATION

The Owner Sales Tax Recovery Program Special Conditions are incorporated herein by reference. To be entitled to purchase materials tax exempt for a public works project, the Owner is required to issue a Certificate of Entitlement to each vendor and to the Contractor to affirm that the tangible personal property purchased from that vendor will go into or become a part of a public work. The Owner's purchase order for tangible personal property to be incorporated into the public works project must be attached to the Certificate of Entitlement. The Owner must issue a separate Certificate of Entitlement for each purchase order. The Owner's form Certificate of Entitlement is attached hereto as **Exhibit "O".** By executing each Certificate of Entitlement, the Owner affirms that the purchase of the tangible personal property contained in the attached Purchase Order meets the applicable exemption requirements contained in Section 212.08(6), Florida Statutes, and Rule 12A-1.094, F.A.C. If the personal property sold by a vendor tax-exempt pursuant to a Certificate of Entitlement does not qualify for the exemption under Section 212.08(6), Florida Statutes, and Rule 12A-1.094, F.A.C., the Owner will be liable for any tax, penalty, and interest determined to be due.

ARTICLE 13 - This space left blank intentionally.

ARTICLE 14 – CONFLICT OF INTEREST

This Agreement is subject to any and all applicable conflict of interest provisions found in the policies or Code of Ordinances of the Village of Wellington, the Palm Beach County Code of Ethics and Ch. 112, Part III, Florida Statutes. The Contractor's completed Conflict of Interest Statement shall be attached hereto and incorporated herein as **Exhibit "N1"**. During the term of this Agreement and any renewals or extensions thereof, the Contractor shall continue to disclose to Owner any possible conflicts of interests. The Contractor's duty to disclose is of a continuing nature and any conflict of interest shall be immediately brought to the attention of Owner.

ARTICLE 15 – TRANSFER OF LIEN

In the event any liens should be filed against the Site by any lienors, in connection with labor or services performed, Contractor shall indemnify and hold the Owner harmless against all such liens and suits or other proceedings pertaining thereto including any and all costs and attorneys' fees, at both the trial and appellate level. If any such liens are filed then Contractor must forthwith within twenty (20) days of notice of the lien, transfer such lien to security in accordance with Florida Statutes. Should Contractor fail to transfer such lien, the Owner may, at its option, do so and deduct the amount expended, including all costs and attorney's fees incurred from any payment then due Contractor.

ARTICLE 16 – DISPUTE RESOLUTION

16.1 If the parties mutually agree, any disputes not resolved by the Initial Decision Maker as provided in the General Conditions, may be referred to mediation. However, mediation shall not be a condition precedent to litigation of any disputes. All costs of mediation shall be shared equally by the parties. Venue for litigation concerning this Agreement or the Contract Documents shall be in Palm Beach County, Florida. In the event of litigation to settle disputes arising out of this Agreement or the Project, the prevailing party shall be entitled to recover against the other party its cost and expenses, including reasonable attorney's fees, which shall include any fees and costs attributable to appellate proceedings arising on and of such litigation.

16.2 Waiver of Trial By Jury. IN THE EVENT OF LITIGATION, BOTH PARTIES HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY, AND INTENTIONALLY WAIVE ANY RIGHT EITHER PARTY MAY HAVE TO A TRIAL

BY JURY IN RESPECT OF ANY ACTION, PROCEEDING, CLAIM, OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THE CONTRACT, OR BREACH THEREOF, OR IN CONNECTION WITH WORK OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENTS (WHETHER VERBAL OR WRITTEN), OR ANY ACTIONS OR INACTIONS OF EITHER PARTY.

ARTICLE 17 – MISCELLANEOUS

17.1 Terms used in this Agreement, which are defined in Article 1 of the General Conditions, will have the meanings indicated in the General Conditions.

17.2 **Public Entity Crime Statement.** Contractor acknowledges the existence of Section 287.133(2)(a), Florida Statutes ("Public Entity Crimes Act"), which provides, in part, that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to Owner, may not submit a bid on a contract with Owner for the construction or repair of a public building or public work, may not submit bids on leases of real property to Village, may not be awarded or perform work as a Contractor, supplier, Subcontractor, or Consultant under a contract with Village, and may not transact business with Owner in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of thirty-six (36) months from the date of being placed on the convicted vendor list. Violation of this Section by Contractor shall result in termination of this Agreement by Owner without penalty.

17.3 **Truth-In-Negotiation Certificate.** Signature of this Agreement by Contractor shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete, and current at the time of contracting. The original Contract Price and any additions thereto shall be adjusted to exclude any significant sums, by which Owner determines the Contract Price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments shall be made within one (1) year following the end of this Agreement.

17.4 **Records.** Contractor shall keep such records and accounts and require any and all architects, Consultants, and Subcontractors to keep records and accounts as may be necessary in order to record complete and correct entries as to personnel hours charged to this engagement. Such books and records will be available at all reasonable times for examination and audit by Owner and for the required retention period of the Florida Public Records Act (Chapter 119, Florida Statutes), if applicable, or if the Florida Public Records Act is not applicable, for a minimum period of three (3) years after termination of this Agreement. If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer, the books, records, and accounts shall be retained until resolution of the audit findings.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, OR TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS, CHEVELLE D. ADDIE AT 561-791-4000, CADDIE@WELLINGTONFL.GOV , 12300 FOREST HILL BLVD. WELLINGTON, FL 33414.

17.5 In accordance with Palm Beach County Ordinance Number 2011-009, this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The Contractor has reviewed Palm Beach County Ordinance Number 2011-009 and is aware of its rights and/or obligations under such ordinance.

17.6 **Village of Wellington's Purchasing and Procurement Procedures Manual.** Contractor shall comply with all Contractor requirements of the Village of Wellington's Purchasing and Procurement Procedures Manual as adopted by Resolution No. R2014-12.

17.7 **Local Preference.** Except where prohibited by federal or state law, other funding source restrictions, or as otherwise excluded by the Village of Wellington's Local Preference Policy, if Contractor represented itself as a Palm Beach County Local Business or Western Communities Local Business in accordance with the Village of Wellington's Local Preference Policy, Contractor shall be obligated to maintain such status in accordance with eligibility requirements of Village of Wellington's Local Preference Policy through final completion of the Project. In the event Contractor qualified for Local Preference by subcontractor participation, the Contractor shall maintain the local subcontractor(s) identified in its response to the Owner's Invitation to Bid and shall not replace same without the prior written consent of the Owner. In the event Contractor needs to replace a local subcontractor, said subcontractor shall be replaced with another subcontractor, which meets the eligibility requirements of the Village of Wellington's Local Preference Policy, unless expressly agreed in writing by the Owner.

17.8 **Code of Ethics & Conduct.** If Contractor violates or is a party to a violation of the Florida Statutes Chapter 112 or the Palm Beach Code of Ethics (Sec. 2-441 et. seq), Contractor may be in material breach of this Agreement and may be disqualified from bidding on any future bids for work of goods with the Owner.

17.9 **Non-Collusion.** This Agreement is made without collusion or fraud. No premiums, rebates, or gratuities are permitted with, prior to, or after any delivery of material or provisions of services. Any violation of this provision may result in termination of this Agreement, return of materials or discontinuation of services, and the possible removal of Contractor for bidder lists.

17.10 **Drug-Free Workplace**. Execution of this Agreement by Contractor shall serve as Contractor's certification that it either has or that it will establish a drug-free workplace consistent with Chapter 112.0455, Florida Statutes.

17.11 As part of the Village's National Pollutant Discharge Elimination System (NPDES) requirements, Contractor may be required to achieve training which may include but not be limited to a live presentation and/or video presentation. Contractor is responsible for all costs associated with the training.

17.12 **Traffic Control and Maintenance**. To the extent applicable, the Contract Price includes all traffic control and traffic control costs related to the Work. The Maintenance of Traffic Plan and all traffic warning and control devices shall conform to the applicable provisions of the latest editions of the national "Manual On Uniform Traffic Control Devices" (MUTCD), and the 600 series of the Florida Department of Transportation's "Roadway and Traffic Design Standards". The MOT Plan shall be prepared by a Florida MOT Certified Technician if FDOT standard details are used. If FDOT standard details are not used, a Professional Engineer licensed in Florida shall prepare the MOT Plan. MOT Plans shall be submitted to appropriate agencies for approval. Costs of compliance with this Paragraph are included as part of the Contract Price.

17.13 **Existing Structures & Utilities**. All known utilities have been shown on the Plans and Drawings or otherwise provided in the Contract Documents according to the best information available. It is the Contractor's responsibility to contact all owners of structures or utilities above ground, on the surface, or below the ground, within the Project area so that said owners may stake, otherwise make, or protect their facilities. When structures and utilities have been properly shown or marked and are disturbed or damaged in the execution of the Work, they must be repaired immediately at Contractor's sole cost and expense in conformance with best standard practice and the approval of the owner of the damaged utility or structure. In the case of structures and utilities which have not been properly shown or located as outlined above and are disturbed or damaged in the prosecution of the Work, Contractor shall take whatever steps are necessary for safety and notify the affected utility owner and avoid any actions which might cause further damage to the structure or utility. Should the Work require repairs, changes, or modifications of the Owner's utilities as well as other utilities, it is the responsibility of the Contractor to provide for the maintenance of continuous water, sewage, electric, telephone and other utility services to all present customers of such utilities, unless approval in writing is secured from the applicable utility company or Owner for interruption of such service.

17.14 **Testing**. All tests and analyses, which are called for in the Specifications and/or Drawings to be performed by an Independent Testing Laboratory or otherwise, will be at the Owner's expense unless otherwise specified, provided the tests and analyses determine that the material(s) and/or Work meets the requirements as specified. All such tests that fail to meet the Project requirements are to be paid by the Contractor.

17.15 **Storage Site.** The Contractor shall furnish, at its expense, properly zoned area suitable for field offices, material storage and equipment service and storage, as applicable for the Project. The Contractor shall maintain these areas in a clean, orderly condition so as not to cause of nuisance in the area and shall restore the storage areas to its original or better condition.

17.16 The undersigned Contractor does hereby confirm to the Owner and Engineer that the Contractor has reviewed the provisions of Chapter 556, Florida Statutes, and has provided to "Sunshine State One-Call of Florida, Inc." the information required under F.S. 556.105 before the commencement of any excavation or demolition required for the Work.

17.17 **Compliance with Laws.** The Contractor shall give all notices, and warrants and represents that the Work will comply with all federal, state and local laws, ordinances, rules, regulations, and orders of any public authority having jurisdiction over the Work. Contractor shall comply with all ordinances, laws and rules of the State of Florida, Village of Wellington and Palm Beach County applicable to the Work. Contractor shall be liable for any deviation from any laws, ordinances, rules, regulations, and orders of any public authority even if in strict compliance with the Contract Documents. Contractor shall bear sole responsibility for and bear all costs necessary to insure full compliance with the representations contained herein, including, but not limited to any attorney's fees or other expenses incurred by Owner in responding to any complaints, citations, court orders, administrative orders or similar governmental edicts or process. The provisions of this paragraph shall survive the termination of this Agreement.

17.18 The Contractor acknowledges that the Florida Doctrine of Sovereign Immunity bars all claims by Contractor against the Owner other than Claims arising out of this Agreement. Specifically, except as provided in Section 768.28, Florida Statutes, the Contractor acknowledges that it cannot and will not assert any claims against the Owner, unless the claim is based upon a breach by the Owner of this Agreement.

17.19 The Contractor affirms that the provisions of the Contract Documents regarding notice to Claims, and the requirement for a written Change Order cannot be waived and further, without timely notice of a Claim or a written Change Order as required in the Contract Documents,, the Contractor shall not be entitled to additional compensation or an extension of the Contract Time. Such Claims for additional compensation or extensions of the Contract Time are waived if the Contractor has not given all required notices and obtained a written a Change Order when required.

17.20 No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound; and specifically but without limitation monies that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

17.21 Owner and Contractor each binds itself, its partners, successors, assigns and legal representatives to the other party hereto, its partners, successors, assigns and legal representatives in respect of all covenants, agreements and obligations contained on the Contract Documents.

17.22 Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

17.23 The failure of either party hereto to insist, in any one or more instances, upon the performance of any of the terms, covenants or conditions of this Agreement, or to exercise any right herein, shall not be construed as a waiver or relinquishment of such term, covenant, condition or right as respects further performance.

17.24 This Agreement may not be amended or modified except by an instrument in writing signed by the party against whom enforcement of such amendment or modification is sought.

17.25 This Agreement may be executed in any number of counterparts with the same effect as if all parties hereto had signed the same document. All such counterparts shall be construed together and shall constitute one instrument.

17.26 **Site Security.** Security at the site is a very high priority to the Owner. The Contractor recognizes that this site is sensitive in nature as a result of homeland security concerns, and the security criteria stipulated herein constitutes a material inducement of the Owner to enter into this contract with the Contractor. In recognition of the Owner's security needs and the fact that this is an active and functioning facility, the Contractor agrees to take all reasonable steps to minimize the degree to which the facility is impacted by this construction project. The Owner reserves the right to require timing adjustment of activities that, in the sole determination of the Owner, impact the operation, efficiency or security of the Plant. The Contractor shall anticipate and work within the requirements of the Owner's security needs.

The Owner reserves the right to require the Contractor to perform a background check on all of Contractor's agents, licensees, invitees, employees, subcontractors, material workers, and suppliers entering the site and agrees to supply the results to the Owner. Contractor shall secure from the affected parties appropriate authorizations and releases from liability in favor of the Owner prior to performing the background checks. All background checks shall be performed prior to allowing the workers or suppliers access to the project site. The Owner reserves the right but not the obligation to disallow entrance to the work site of any persons or entities as a result of the background check or other relevant information, regardless of the result of such background check.

Background checks shall be in such form and fashion as is acceptable to the Owner, but at a minimum, shall be performed through the Florida Department of Law Enforcement. The Contractor shall allow sufficient time to perform the necessary background checks within the project schedule. Nothing herein shall be construed as consent to be sued by third parties and Contractor waives all claims for damages based upon the security measures set forth herein. Each third party upon whom a background check has been performed shall be required to carry a photo identification and a clearance tag. Such identification and clearance tag shall be required to enter the Plant and shall be maintained with the person at all times while on site. The Contractor shall provide to the Owner a complete roster of all parties who may enter the work site to perform the work called for by this agreement and shall keep said roster updated and current on at least a monthly basis.

ARTICLE 18 – NOTICE

Whenever either party desires to give notice unto the other, it must be given by written notice, sent by certified United States mail, with return receipt requested, addressed to the party for whom it is intended, at the place last specified; and the place for giving of notice shall remain such until it shall have been changed by written notice in compliance with the provisions of this paragraph. For the present, the parties designate the following as the respective places for giving of notice, to-wit:

For Owner:
Chevelle D. Addie, Village Clerk
Village of Wellington
12300 Forest Hill Blvd.
Wellington, FL 33414

For Contractor
Michael Black
Florida Design Drilling Corporation
7733 Hooper Road
West Palm Beach, FL 33411

ARTICLE 19 – COUNTERPARTS

This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, Owner and Contractor have signed this Agreement. One counterpart each has been delivered to Owner, Contractor, and the Engineer. All portions of the Contract Documents have been signed or identified by Owner and Contractor or by the Engineer on their behalf.

ARTICLE 1 – DEFINITIONS AND TERMINOLOGY

1.01 Defined Terms

Wherever used in the Contract Documents and printed with initial capital letters, the terms listed below will have the meanings indicated which are applicable to both the singular and plural thereof. In addition to terms specifically defined, terms with initial capital letters in the Contract Documents include references to identified articles and paragraphs, and the titles of other documents or forms.

1. *Addenda*—Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Requirements or the proposed Contract Documents.

2. *Agreement*—The written instrument which is evidence of the agreement between Owner and Contractor covering the Work.

3. *Application for Payment*—The form acceptable to Engineer which is to be used by Contractor during the course of the Work in requesting progress or final payments and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. *Change Order*—A document possibly prepared by Engineer which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Contract Price or the Contract Times, issued on or after the Effective Date of the Agreement.

5. *Claim*—A demand or assertion by Owner or Contractor seeking an adjustment of Contract Price or Contract Times, or both, or other relief with respect to the terms of the Contract. A demand for money or services by a third party is not a Claim.

6. *Contract*—The entire and integrated written agreement between the Owner and Contractor concerning the Work. The Contract supersedes prior negotiations, representations, or agreements, whether written or oral.

7. *Contract Documents*—Those items so designated in the Agreement. Approved Shop Drawings and other Contractor submittals are not Contract Documents.

8. *Contract Price*—The moneys payable by Owner to Contractor for completion of the Work in accordance with the Contract Documents as stated in the Agreement.

9. *Contract Time(s)*—The number of day(s) or the date(s) stated in the Agreement to: (i) achieve Milestones, if any; (ii) achieve Substantial Completion; and (iii) complete the Work so that it is ready for final payment as evidenced by Engineer's written recommendation of final payment.

10. *Drawings*—The Drawings are listed in Exhibit C to the Agreement. Shop Drawings and other Contractor submittals are not Drawings as so defined.

11. *Effective Date of the Agreement*—The date indicated in the Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

12. *Engineer*—Design professional

13. *Field Order*—A written order issued by Engineer which requires minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

14. *Hazardous Environmental Condition*—The presence at the Site of Asbestos, PCBs, Petroleum, Hazardous Waste, or Radioactive Material in such quantities or circumstances that may present a substantial danger to persons or property exposed thereto.

15. *Hazardous Waste*—The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

16. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

17. *Liens*—Charges, security interests, or encumbrances upon Project funds, real property, or personal property.

18. *Milestone*—A principal event specified in the Contract Documents relating to an intermediate completion date or time prior to Substantial Completion of all the Work.

19. *Notice of Award*—The written notice by Owner to the Successful Bidder stating that upon timely compliance by the Successful Bidder with the conditions precedent listed therein, Owner will sign and deliver the Agreement.

20. *Notice to Proceed*—A written notice given by Owner to Contractor fixing the date on which the Contract Times will commence to run and on which Contractor shall start to perform the Work under the Contract Documents.

21. *PCBs*—Polychlorinated biphenyls.

22. *Petroleum*—Petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute), such as oil, petroleum, fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

23. *Progress Schedule*—A schedule, prepared and maintained by Contractor, describing the sequence and duration of the activities comprising the Contractor's plan to accomplish the Work within the Contract Times.

24. *Project*—The total construction of which the Work to be performed under the Contract Documents may be the whole, or a part.

25. *Project Manual*—The bound documentary information prepared for bidding and constructing the Work. A listing of the contents of the Project Manual, which may be bound in one or more volumes, is contained in the table(s) of contents. In no event shall the Project Manual be deemed part of the Contract Documents.

26. *Owner*— Village of Wellington, a Florida municipal corporation, through its Village Council

27. *Owner's Representative*—Employee of the Village of Wellington who has been authorized to make Project decisions on the Owner's behalf.

28. *Radioactive Material*—Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

29. *Resident Project Representative*—The authorized representative of Engineer who may be assigned to the Site or any part thereof.

30. *Samples*—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

31. *Schedule of Submittals or Submittal Schedule*—A schedule, prepared and maintained by Contractor, of required submittals and the time requirements to support scheduled performance of related construction activities.

32. *Schedule of Values*—A schedule, prepared and maintained by Contractor, allocating portions of the Contract Price to various portions of the Work and used as the basis for reviewing Contractor's Applications for Payment.

33. *Shop Drawings*—All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work.

34. *Site*—Lands or areas indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for the use of Contractor.

35. *Specifications*—That part of the Contract Documents consisting of written requirements for materials, equipment, systems, standards and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable thereto.

36. *Subcontractor*—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work at the Site.

37. *Substantial Completion*— Substantial Completion is defined as the time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended and all necessary governmental approvals required for the Owner to utilize the Project for the purposes intended have been obtained. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof. The date is defined in the Contract Documents.

38. *Underground Facilities*—All underground pipelines, conduits, ducts, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or attachments, and any encasements containing such facilities, including those that convey electricity, gases, steam, liquid petroleum products, telephone or other communications, cable television, water, wastewater, storm water, other liquids or chemicals, or traffic or other control systems.

39. *Unit Price Work*—Work to be paid for on the basis of unit prices.

40. *Construction Change Directive*—A written statement to Contractor issued on or after the Effective Date of the Agreement and signed by Owner and recommended by Engineer ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies or may be utilized in the absence of complete agreement on the terms of a Change Order. A Construction Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change ordered or documented by a Construction Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times. Contractor shall be obligated to proceed with all Construction Change Directives pending resolution of a Change Order, if applicable.

1.02 Terminology

A. *Intent of Certain Terms or Adjectives:*

1. The Contract Documents include the terms "as allowed," "as approved," "as ordered," "as directed" or terms of like effect or import to authorize an exercise of professional judgment by Engineer. In addition, the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of Engineer as to the Work. It is intended that such exercise of professional judgment, action, or determination will be solely to evaluate, in general, the Work for compliance with the information in the Contract Documents and with the design concept of the Project as a functioning whole as shown or indicated in the Contract Documents (unless there is a specific statement indicating

otherwise). The use of any such term or adjective is not intended to and shall not be effective to assign to Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility contrary to the provisions of Paragraph 9.09 of the General Conditions or any other provision of the Contract Documents.

B. *Day:*

1. The word "day" means a calendar day..

C. *Furnish, Install, Perform, Provide:*

1. The word "furnish," when used in connection with services, materials, or equipment, shall mean to supply and deliver said services, materials, or equipment to the Site (or some other specified location) ready for use or installation and in usable or operable condition.

2. The word "install," when used in connection with services, materials, or equipment, shall mean to put into use or place in final position said services, materials, or equipment complete and ready for intended use.

3. The words "perform" or "provide," when used in connection with services, materials, or equipment, shall mean to furnish and install said services, materials, or equipment complete and ready for intended use.

4. When "furnish," "install," "perform," or "provide" is not used in connection with services, materials, or equipment in a context clearly requiring an obligation of Contractor, "provide" is implied.

D. Unless stated otherwise in the Contract Documents, words or phrases that have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2 – PRELIMINARY MATTERS

2.01 Delivery of Bonds and Evidence of Insurance

A. When Contractor delivers the executed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner the required payment and performance bonds in the form attached as **Exhibit "D"** to the Agreement.

B. *Evidence of Insurance:* Before any Work at the Site is started, Contractor shall deliver to the Owner, with copies to each additional insured, certificates of insurance (and other evidence of insurance which the Owner or any additional insured may reasonably request) which Contractor is required to purchase and maintain in accordance with the Contract Documents.

2.02 Copies of Documents

A. Upon written request, Owner shall furnish to Contractor up to two printed hard copies of the Contract Documents. Additional copies of the Contract Documents will be furnished upon request at the cost of reproduction.

2.03 Starting the Work

A. Contractor shall start to perform the Work on the Date of Commencement. No Work shall be done at the Site prior to the Date of Commencement, unless expressly authorized by Owner in writing.

2.04. Intentionally Deleted.

2.05 Before Starting Construction

A. *Construction Schedules:* Within 30 days after the Effective Date of the Agreement (unless otherwise specified in the General Requirements), Contractor shall submit to Owner for timely review:

1. a construction schedule, otherwise referred to herein as a Progress Schedule, indicating the times (numbers of days or dates) for starting and completing the various stages of the Work, including any Milestones specified in the Contract Documents; and

2. a Schedule of Submittals; and

3. a Schedule of Values for all of the Work which includes quantities and prices of items which when added together equal the Contract Price and subdivides the Work into component parts in sufficient detail to serve as the basis for progress payments during performance of the Work. Such prices will include the agreed upon amount of overhead and profit applicable to each item of Work.

2.06 Preconstruction Conference; Designation of Authorized Representatives

A. Before any Work at the Site is started, a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to establish a working understanding among the parties as to the Work and to discuss the schedules referred to in Paragraph 2.05.A, procedures for handling Shop Drawings and other submittals, processing Applications for Payment, and maintaining required records.

B. If not already done so, at this conference Owner and Contractor each shall designate, in writing, a specific individual to act as its authorized representative with respect to the services and responsibilities under the Contract. Such individuals shall have the authority to transmit instructions, receive information, render decisions relative to the Contract, and otherwise act on behalf of each respective party.

2.07 Initial Acceptance of Schedules

A. At least 10 days before submission of the first Application for Payment a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to review for acceptability to Owner/Engineer as provided below the schedules submitted in accordance with Paragraph 2.05.A. Contractor shall have an additional 10 days to make corrections and adjustments and to complete and resubmit the schedules. No progress payment shall be made to Contractor until acceptable schedules are submitted to Owner/Engineer. The Progress Schedule shall be in a detailed precedence style critical path management ("CPM") format satisfactory to the Owner and Engineer that shall also: (i) provide a graphic representation of all activities and events that will occur during performance of the Work; (ii) identify each phase of construction and occupancy; and (iii) set forth dates that are critical in ensuring the timely and orderly completion of the Work in accordance with the requirements of the Contract Documents (hereinafter referred to as "Milestone Dates"). The Contractor shall monitor the progress of the Work for conformance with the requirements of the Progress Schedule and shall promptly advise the Owner of any delays or potential delays. The accepted Progress Schedule shall be updated to reflect actual conditions and as requested by the Owner. In the event any progress report indicates any delays, the Contractor shall propose an affirmative plan to correct the delay. Any overtime and/or additional labor to correct the delay shall be at the Contractor's sole expense if the delay is caused in whole or in part by the Contractor, its Subcontractors, or anyone for whom the Contractor is responsible. In no event shall any progress report constitute an adjustment in the Contract Time, Milestone Dates, or the Contract Price unless any such adjustment is agreed to by the Owner and authorized pursuant to written Change Order. Contractor shall maintain such Progress Schedule on a current basis in accordance with the provisions of this paragraph and shall keep proper records to substantiate actual activity, duration and completion dates.

B. In the event the Owner determines that the performance of the Work, as of a Milestone Date, has not progressed or reached the level of completion required by the Contract Documents or if the Owner determines that Substantial Completion may be delayed, and provided that the delay was not due to an act or omission caused solely by the Owner, the Owner shall have the right to order the Contractor to take corrective measures, at Contractor's sole cost and expense, necessary to expedite the progress of construction, including without limitation: (i) working additional shifts or overtime in conformity with schedules recognizing the requirements of the Owner; (ii) supplying, additional manpower equipment and facilities; and (iii) other similar measures (hereinafter referred to collectively as "Remedial Measures"). Such Remedial Measures shall continue until the progress of the Work complies with the stage of completion required by the Contract Documents. If Contractor fails to undertake such Remedial Measures, then after seven (7) days written notice, Owner may undertake such Remedial Measures at Contractor's expense which Owner may, at its election, subtract from amounts due Contractor.

C. At least 10 days before submission of the first Application for Payment a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to review for acceptability to Owner/Engineer as Schedule of Submittals submitted in accordance with Paragraph 2.05.A. Contractor shall have an additional 10 days to make corrections and adjustments and to complete and resubmit the Schedule of Submittals. No progress payment shall be made to Contractor until acceptable schedules are submitted to Owner/Engineer . Contractor shall maintain and update the Schedule of Submittals as needed and/or required under the Contract Documents.

D. At least 10 days before submission of the first Application for Payment a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to review for acceptability to Owner/Engineer as Schedule of Values submitted in accordance with Paragraph 2.05.A. Contractor shall have an additional 10 days to make corrections and adjustments and to complete and resubmit the Schedule of Values. No progress payment shall be made to Contractor until acceptable schedules are submitted to Owner/Engineer . Contractor shall maintain and update the Schedule of Values as needed and/or required under the Contract Documents.

ARTICLE 3 – CONTRACT DOCUMENTS: INTENT, AMENDING, REUSE

3.01 Intent

A. The Contract Documents are complementary; what is required by one is as binding as if required by all.

B. It is the intent of the Contract Documents to describe a functionally complete project (or part thereof) to be constructed in accordance with the Contract Documents. Any labor, documentation, services, materials, or equipment that reasonably may be inferred from the Contract Documents or from prevailing custom or trade usage as being required to produce the indicated result will be provided whether or not specifically called for, at no additional cost to Owner.

C. Clarifications and interpretations of the Contract Documents shall be issued by Owner/Engineer as provided in Article 9 of the General Conditions.

3.02 Reference Standards

A. Standards, Specifications, Codes, Laws, and Regulations

1. Reference to standards, specifications, manuals, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, shall mean the standard, specification, manual, code, or Laws or Regulations in effect as of the Effective Date of the Agreement, except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard, specification, manual, or code, or any instruction of a Supplier, shall release the Contractor or any of their subcontractors, consultants, agents, or employees of

their duties or responsibilities set forth in the Contract Documents. No such provision or instruction shall be effective to assign to Owner, Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

3.03 Reporting and Resolving Discrepancies in Contract Documents

A. *Reporting Discrepancies*:

1. *Contractor's Review of Contract Documents*: Before undertaking each part of the Work, Contractor shall carefully study and compare the Contract Documents and check and verify pertinent figures therein and all applicable field measurements. Contractor shall promptly report in writing to Engineer any conflict, error, ambiguity, or discrepancy which Contractor discovers, or has actual knowledge of, and shall obtain a written interpretation or clarification from Engineer before proceeding with any Work affected thereby. Failure to report any such conflict, error, ambiguity, or discrepancy to the Engineer shall result in a waiver of all Claims related thereto.

2. *Contractor's Review of Contract Documents During Performance of Work*: If, during the performance of the Work, Contractor discovers any conflict, error, ambiguity, or discrepancy within the Contract Documents, or between the Contract Documents and (a) any applicable Law or Regulation, (b) any standard, specification, manual, or code, or (c) any instruction of any Supplier, then Contractor shall promptly report it to Engineer in writing. Contractor shall not proceed with the Work affected thereby (except in an emergency as required by Paragraph 6.16.A) until an amendment or supplement to the Contract Documents has been issued by one of the methods indicated in Paragraph 3.04.

B. *Resolving Discrepancies*:

1. The Contract Documents shall be interpreted together and in harmony with one another. In the event of a conflict between or among the Contract Documents or between or among the Contract Documents and any Laws or Regulations, whichever imposes the greater obligation on Contractor or contains the more stringent requirement on the Contractor shall control.

3.04 Amending and Supplementing Contract Documents

A. The Contract Documents may be amended to provide for additions, deletions, and revisions in the Work or to modify the terms and conditions thereof by either a Change Order or a Construction Change Directive.

B. The requirements of the Contract Documents may be supplemented, and minor variations and deviations in the Work may be authorized, so long as there is no impact to the Contract Time or Contract Price, by issuance of a Field Order.

3.05 Reuse of Documents & Electronic Data

A. Unless otherwise stated in the Contract Documents if there is a discrepancy between the electronic files of drawings and the hard copies of drawings, the hard copies govern.

B. When transferring documents in electronic media format, the transferring party makes no representations as to long term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by the data's creator.

C. Before Owner and Contractor transmit documents or data, either personally or electronically, they shall endeavor to establish necessary safeguard protocols governing such transmissions, unless otherwise already provided in the Contract Documents.

D. Notwithstanding the foregoing, the Owner shall be deemed the author and owner of the Drawings, Specifications, documents and data, including, without limitation, design documents and data prepared on behalf of Owner and provided by Owner to Contractor whether in hard copy or electronic format. As a result, Owner will retain all common law, statutory and other reserved rights, including any and all intellectual property rights. The Contractor, Subcontractors, Sub-subcontractors, and material or equipment suppliers shall not own or claim any rights in such documents or data and may not use said documents and data on other projects or for additions to this Project outside the scope of the Work without the specific written consent of the Owner. The Contractor, Subcontractors, Sub-subcontractors and material or equipment suppliers are authorized to use and reproduce the documents and data provided to them solely and exclusively for execution of the Work. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Owner's reserved rights

E. The prohibitions of Paragraph 3.05 D will survive final payment, or termination of the Contract. Contractor shall indemnify and hold harmless the Owner and Engineer from any claims, liabilities and damages including but not limited to reasonable attorney's fees and costs due to any unauthorized use of Drawings, Specifications or documents by Contractor, any Subcontractor, Supplier or any person or entity for which they are responsible. Nothing herein shall preclude Contractor from retaining copies of the Contract Documents for record purposes.

ARTICLE 4 – AVAILABILITY OF LANDS; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS; REFERENCE POINTS

4.01 Availability of Lands

A. Owner shall furnish the Site. Owner shall notify Contractor of any encumbrances or restrictions not of general application but which specifically related to use of the Site of which the Owner is aware and with which Contractor must comply in performing the Work. Owner will obtain in a timely manner and pay for easements for permanent structures or permanent changes in existing facilities.

B. Contractor shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

4.02 Subsurface and Physical Conditions

A. Reports and drawings were provided to Contractor as part of the Request for Proposal/Invitation to Bid and are attached as part of **Composite Exhibit "C"**.

B. *Limited Reliance by Contractor Authorized:* Contractor may not rely upon the accuracy of the reports and drawings in **Composite Exhibit "C"**. Contractor shall independently confirm that, in the Contractor's professional judgment, the information is reliable and accurate. Contractor shall have full responsibility with respect to subsurface and physical conditions at or contiguous to the Site, subject to Paragraph 4.03 below. Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, and safety precautions and programs incident thereto; or

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or

3. any Contractor interpretation of or conclusion drawn from any data, interpretations, opinions, or information.

4.03 Differing Subsurface or Physical Conditions

A. If Contractor believes that any subsurface or physical condition that is uncovered or revealed either:

1. is of such a nature as to establish that any information on which Contractor is entitled to rely as provided in Paragraph 4.02 is materially inaccurate; or

2. differs materially from that shown or indicated in the Contract Documents; or

3. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents; and

4. is of such a nature as to require a change in the Contract Documents;

then Contractor shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith (except in an emergency as required by Paragraph 6.16.A), notify Owner and Engineer in writing about such condition.

B. *Engineer's Review:* After receipt of written notice as required by Paragraph 4.03.A, Engineer will promptly review the pertinent condition, determine the necessity of Owner's obtaining additional exploration or tests with respect thereto, and advise Owner in writing (with a copy to Contractor) of Engineer's findings and conclusions.

C. *Possible Price and Times Adjustments:*

1. Contractor may make a Claim for an equitable adjustment to the Contract Price or the Contract Times, or both, to the extent that the existence of such differing subsurface or physical condition causes an increase or decrease in Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:

a. such condition must meet the requirements described in Paragraph 4.03.A;

b. a Claim is not precluded pursuant to Paragraph 4.02B;

c. the Engineer's findings and conclusions support such an adjustment to the Contract Price and/or Contract Time; and

d. with respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraphs 9.07 and 11.03.

2. Contractor shall not be entitled to any adjustment in the Contract Price or Contract Times if:

a. Contractor knew of or Contractor, as an experienced and knowledgeable contractor, should have known of the existence of such conditions at the time Contractor made a final commitment to Owner with respect to Contract Price and Contract Times by the submission of a Bid or becoming bound under this Agreement; or

b. the existence of such condition could reasonably have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site and contiguous areas required by the Contract Documents; or

c. Contractor failed to give the written notice as required by Paragraph 4.03.A.

3. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times, or both, a Claim may be made therefor as provided in Paragraph 10.05. However, neither Owner nor Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors shall be liable to Contractor for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Contractor on or in connection with any other project or anticipated project or lost profits on this Project.

4.04 Underground Facilities

A. *Shown or Indicated:* The information and data shown or indicated in the Contract Documents with respect to existing Underground Facilities at or contiguous to the Site is based on information and data furnished to Owner or Engineer by the owners of such Underground Facilities, including Owner, or by others. Unless it is otherwise expressly provided in the Supplementary Conditions:

1. Owner and Engineer shall not be responsible for the accuracy or completeness of any such information or data provided by others; and

2. the cost of all of the following will be included in the Contract Price, and Contractor shall have full responsibility for:

a. reviewing and checking all such information and data;

b. locating all Underground Facilities shown or indicated in the Contract Documents;

c. coordination of the Work with the owners of such Underground Facilities, including Owner, during construction; and

d. the safety and protection of all such Underground Facilities and repairing any damage thereto resulting from the Work.

B. *Not Shown or Indicated:*

1. If an Underground Facility is uncovered or revealed at or contiguous to the Site which was not shown or indicated, or not shown or indicated with reasonable accuracy in the Contract Documents, Contractor shall, promptly after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith (except in an emergency as required by Paragraph 6.16.A), identify the owner of such Underground Facility and give written notice to that owner and to Owner and Engineer. Engineer will promptly review the Underground Facility and determine the extent, if any, to which a change is required in the Contract Documents to reflect and document the consequences of the existence or location of the Underground Facility. During such time, Contractor shall be responsible for the safety and protection of such Underground Facility.

2. If Engineer concludes that a change in the Contract Documents is required, a Construction Change Directive or a Change Order will be issued to reflect and document such consequences. An equitable adjustment shall be made in the Contract Price or Contract Times, or both, to the extent that they are attributable to the existence or location of any Underground Facility that was not shown or indicated or not shown or indicated with reasonable accuracy in the Contract Documents and that Contractor did not know of and could not reasonably have been expected to be aware of or to have anticipated. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment in Contract Price or Contract Times, Owner or Contractor may make a Claim therefor as provided in Paragraph 10.05.

4.05 Reference Points

A. Owner shall provide engineering surveys to establish reference points for construction which in Engineer's judgment are necessary to enable Contractor to proceed with the Work. Contractor shall be responsible for laying out the Work, shall protect and preserve the established reference points and property monuments, and shall make no changes or relocations without the prior written approval of Owner. Contractor shall report to Engineer whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.06 Hazardous Environmental Condition at Site

A. Reports and drawings of Hazardous Environmental Conditions known to the Owner that have been identified at the Site are attached as part of **Composite Exhibit "C"**.

B. *Limited Reliance by Contractor:* Contractor may not rely upon the accuracy of the reports and drawings in **Composite Exhibit "C"**. Contractor shall independently confirm that, in the Contractor's professional judgment, the information is reliable and accurate Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences and procedures of construction to be employed by Contractor and safety precautions and programs incident thereto; or

2. other data, interpretations, opinions and information contained in such reports or shown or indicated in such drawings; or

3. any Contractor interpretation of or conclusion drawn from anydata, interpretations, opinions or information.

C. Contractor shall not be responsible for any Hazardous Environmental Condition uncovered or revealed at the Site which was not shown or indicated in Drawings or Specifications, identified in the Contract Documents to be within the scope of the Work, or which should have been reasonably known to the Contractor. Contractor shall be responsible for a Hazardous Environmental Condition created with any materials brought to the Site by Contractor, Subcontractors, Suppliers, or anyone else for whom Contractor is responsible.

D. If Contractor encounters a Hazardous Environmental Condition or if Contractor or anyone for whom Contractor is responsible creates a Hazardous Environmental Condition, Contractor shall immediately: (i) secure or otherwise isolate such condition; (ii) stop all Work in connection with such condition and in any area affected thereby (except in an emergency as required by Paragraph 6.16.A); and (iii) notify Owner and Engineer (and promptly thereafter confirm such notice in writing). Owner shall promptly consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any.

E. Contractor shall not be required to resume Work in connection with such condition or in any affected area until after Owner has obtained any required permits related thereto and delivered written notice to Contractor: (i) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work; or (ii) specifying any special conditions under which such Work may be resumed safely. If Owner and Contractor cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times, or both, as a result of such Work stoppage or such special

conditions under which Work is agreed to be resumed by Contractor, either party may make a Claim therefor as provided in Paragraph 10.05.

F. If after receipt of such written notice Contractor does not agree to resume such Work based on a reasonable belief it is unsafe, or does not agree to resume such Work under such special conditions, then Owner may order the portion of the Work that is in the area affected by such condition to be deleted from the Work. If Owner and Contractor cannot agree as to entitlement to or on the amount or extent, if any, of an adjustment in Contract Price or Contract Times as a result of deleting such portion of the Work, then either party may make a Claim therefor as provided in Paragraph 10.05. Owner may have such deleted portion of the Work performed by Owner's own forces or others in accordance with Article 7 and the Contract Price shall be reduced by deductive Change Order for the costs incurred by Owner to perform the deleted portion of the Work with Owner's own forces or by others.

G. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition created by Contractor or by anyone for whom Contractor is responsible. Nothing in this Paragraph 4.06.G shall obligate Contractor to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

H. The provisions of Paragraphs 4.02, 4.03, and 4.04 do not apply to a Hazardous Environmental Condition uncovered or revealed at the Site.

ARTICLE 5 – BONDS AND INSURANCE

5.01 Performance, Payment, and Other Bonds

A. Contractor shall furnish performance and payment bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all of Contractor's obligations under the Contract Documents and in the forms attached to the Agreement all in accordance with applicable Florida law. These bonds shall remain in effect until one year after the date when final payment becomes due or until completion of the correction period specified in Paragraph 13.07, whichever is later, except as provided otherwise by Laws or Regulations or by the Contract Documents. Contractor shall also furnish such other bonds as are required by the Contract Documents. Contractor's performance bond shall not contain any limitation or exclusion for Contractor's warranty obligations.

B. All bonds shall be in the form prescribed by the Contract Documents except as provided otherwise by Laws or Regulations, and shall be executed by such sureties as are named in the list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Financial Management Service, Surety Bond Branch, U.S. Department of the Treasury. All bonds signed by an agent or attorney-in-fact must be accompanied by a certified copy of that individual's authority to bind the surety. The evidence of authority shall show that it is effective on the date the agent or attorney-in-fact signed each bond.

C. If the surety on any bond furnished by Contractor is declared bankrupt or becomes insolvent or its right to do business is terminated in any state where any part of the Project is located or it ceases to meet the requirements of Paragraph 5.01.B, Contractor shall promptly notify Owner and Engineer and shall, within 20 days after the event giving rise to such notification, provide another bond and surety, both of which shall comply with the requirements of Paragraphs 5.01.B and 5.02.

5.02 Licensed Sureties and Insurers

A. All bonds and insurance required by the Contract Documents to be purchased and maintained by Owner or Contractor shall be obtained from surety or insurance companies that are duly licensed or authorized in the jurisdiction in which the Project is located to issue bonds or insurance policies for the limits and coverages so required. Such surety and insurance companies shall also meet such additional requirements and qualifications as may be provided in the Supplementary Conditions.

5.03 Certificates of Insurance

A. The Owner and Engineer shall be named as an additional insured in all policies required to be maintained under the Contract Documents, with the exception of the Worker's Compensation insurance, unless otherwise specified herein. As a condition precedent to entitlement to any progress payment or final payment under the Agreement, Contractor must maintain the required insurance coverage under the Contract Documents at least until final payment unless otherwise specified within the Contract Documents.

Contractor shall deliver to Owner, with copies to each additional insured and loss payee identified in the Supplementary Conditions, certificates of insurance (and other evidence of insurance requested by Owner or any other additional insured) which Contractor is required to purchase and maintain.

C. Failure of Owner to demand such certificates or other evidence of Contractor's full compliance with these insurance requirements or failure of Owner to identify a deficiency in compliance from the evidence provided shall not be construed as a waiver of Contractor’s obligation to maintain such insurance.

D. The insurance and insurance limits required herein shall not be deemed as a limitation on Contractor’s liability under the indemnities granted to Owner in the Contract Documents.

5.04 Contractor’s Insurance

A. Contractor shall purchase and maintain such insurance as is appropriate for the Work being performed and as will provide protection from claims set forth below which may arise out of or result from Contractor’s performance of the Work and Contractor’s other obligations under the Contract Documents, whether it is to be performed by Contractor, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable:

1. claims under workers’ compensation, disability benefits, and other similar employee benefit acts;

2. claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor’s employees;

3. claims for damages because of bodily injury, sickness or disease, or death of any person other than Contractor’s employees;

4. claims for damages insured by reasonably available personal injury liability coverage which are sustained:

    a. by any person as a result of an offense directly or indirectly related to the employment of such person by Contractor, or

    b. by any other person for any other reason;

5. claims for damages, other than to the Work itself, because of injury to or destruction of tangible property wherever located, including loss of use resulting therefrom; and

6. claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance or use of any motor vehicle.

B. The policies of insurance required by this Paragraph 5.04 shall:

1. with respect to insurance required by Paragraphs 5.04.A.3 through 5.04.A.6 inclusive, be written on an a Project specific occurrence basis with limits as outlined in the Supplementary Conditions or as required by Laws or Regulations, whichever is greater. Such policies shall include as additional insureds (subject to any customary exclusion regarding professional liability) Owner and Engineer, and any other individuals or entities identified in the Supplementary Conditions, all of whom shall be listed as additional insureds, and include coverage for the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of all such additional insureds, and the insurance afforded to these additional insureds shall provide primary coverage for all claims covered thereby. Contractor shall deliver endorsements showing such additional insured coverage using the ISO form CG 20 10 11 85 or its 2004 ISO equivalent (forms 20 10 07 04 and 20 37 07 04) for both ongoing and completed operations;

2. include at least the specific coverages and be written for not less than the limits of liability provided in the Supplementary Conditions or required by Laws or Regulations, whichever is greater;

3. include contractual liability insurance covering Contractor's indemnity obligations under Paragraphs 6.11 and 6.20;

4. contain a provision or endorsement that the coverage afforded will not be canceled, materially changed or renewal refused until at least 10 days prior written notice has been given to Owner and Contractor and to each other additional insured identified in the Supplementary Conditions to whom a certificate of insurance has been issued (and the certificates of insurance furnished by the Contractor pursuant to Paragraph 5.03 will so provide);

5. remain in effect at least until final payment and at all times thereafter when Contractor may be correcting, removing, or replacing defective Work in accordance with Paragraph 13.07; and

6. include completed operations coverage with respect to insurance required by Paragraphs 5.04.A.3 through 5.04.A.6 inclusive:

   a. Such insurance shall remain in effect for one year after final payment.

   b. Contractor shall furnish Owner and each other additional insured identified in the Supplementary Conditions, to whom a certificate of insurance has been issued, evidence satisfactory to Owner and any such additional insured of continuation of such insurance at final payment and each year thereafter.

7. For Worker's Compensation insurance to apply for all employees in compliance with the "Workers' Compensation Law" of the State of Florida and all applicable federal laws. In addition, the policy(ies) must include Employer's Liability with limits as provided in the Supplementary Conditions.

8. Business Automobile Liability coverage, required by 5.04A.6, must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability Policy, without restrictive endorsements, as filed by the Insurance Services Office and must include:

   Owned vehicles.
   Non-owned and hired vehicles.

9. The policies of Contractor shall contain an endorsement whereby the insurance carriers agree that its insurance is primary and not contributory with or in excess of any coverage which the Owner has purchased. The Contractor shall be responsible for all deductibles under the insurance policies. The Contractor shall be responsible for all loss or damage to the Work, including the Contractor's materials delivered to Site for incorporation therein and all property issued to the Contractor by the Owner for use or incorporation in the Work, except for Owner Direct Purchase which shall be governed by **Exhibit "F"**. The Contractor shall waive all rights against the Owner for recovery of damages to the extent that these damages are covered by insurance maintained pursuant to the above requirements, and the Contractor shall provide all waivers of subrogation in the endorsements and forms required by the Owner.

C. Intentionally Deleted.

D. Notwithstanding the availability of any insurance, the Contractor shall bear the risk of loss for its acts, errors or omissions pursuant to this Agreement. The Contractor bears all liability and risk of loss, for losses and damages arising from any acts, errors, omissions, or negligence on the part of the Contractor and its Subcontractors, including without limitation damages for defective and nonconforming work, and the Contractor and all applicable Subcontractors shall bear the risk and pay for such losses regardless of whether the Contractor should be covered for such losses by any insurance required by this Article, except for Owner Direct Purchases governed by **Exhibit "F"** .

5.05 Limits of Liability Insurance. The limits of liability for the insurance required by paragraph 5.04 of the General Conditions shall provide coverage for not less than the following amounts or greater where required by Laws and Regulations:

Worker's Compensation, etc., under paragraphs 5.04.A.1 and A.2 of the General Conditions:

(1)	State:	Statutory
(2)	Applicable Federal (e.g. Longshoreman's and Harbour Workers' Compensation, Maritime, Jones Act, etc.):	Statutory
(3)	Employer's Liability:	$1,000,000

The coverage and the limits of liability for employer's liability are modified to read as follows:

$1,000,000 each accident
$1,000,000 disease policy limit
$1,000,000 disease each employee

Also, the following wording is added governing employer's liability for contractors that are not incorporated or lease employees: If the Contractor is not an incorporated entity (i.e. sole proprietor/partnership), or Leases Employees (under the alternate employer laws of the State of Florida), the Owner shall require a minimum premium policy meeting the aforementioned requirements even though not required by the Worker's Compensation Laws of the State of Florida. Unless and until Contractor provides the Owner with proof of exemption and such forms and proof that the Owner deems appropriate.

Comprehensive General Liability (under paragraphs 5.04.A.3 through A.6 of the General Conditions):

(1) Including coverage for Premises/Operations Liability on an occurrence basis, Contractual Liability, Independent Contractors, Products/Completed Operations Liability on an occurrence basis, and Personal Injury Coverage with the employee exclusion deleted. The Owner will not accept exclusion for explosion, collapse, or underground in the policy.

Acceptable minimum per project limits are: $2,000,000 general aggregate

$1,000,000 products and completed operations aggregate
$1,000,000 personal injury and advertising injury

$1,000,000 each occurrence

(2) Comprehensive Automobile Liability shall include coverage for owned vehicles, non-owned vehicles, and hired vehicles. Acceptable minimum limits are $1,000,000 combined single limit for bodily injury and property damage.

(3) Follow form umbrella liability naming Owner and Engineer as an additional insured, may be purchased and maintained, if necessary, to meet Owners minimum insurance requirements.

5.06 Subcontractor Insurance. All Subcontractors and suppliers shall be obligated to carry insurance commensurate with that required to be carried by Contractor.

Subcontractors and suppliers shall name the Owner and Engineer as an additional insured on all policies including completed operations coverage using the ISO form CG 20 10 11 85 or its 2004 ISO equivalent (forms 20 10 07 04 and 20 37 07 04); which shall also be maintained for a period of one (1) years from completion of the Project.

5.07 Acceptance of Bonds and Insurance; Option to Replace

A. Owner shall review the coverage afforded by or other provisions of the insurance required to be purchased or maintained by Contractor after delivery of insurance certificates to Owner in accordance with Paragraph 2.01B of the General Conditions. Contractor shall furnish to the Owner such additional information in respect to insurance provided by Contractor as the Owner may reasonably request. Review of Insurance Policies or Insurance Certificates by the Owner shall not relieve or decrease the liability of the Contractor hereunder. In case of a breach by Contractor of any insurance provision stated in the Contract Documents, the Owner at its option may take out and maintain, at the expense of the Contractor, such insurance as the Owner may deem proper and Owner may deduct the cost of such insurance from any monies which may be due or become due the Contractor under this Contract. All the policies of insurance (or the certificates or other evidence thereof) required to be purchased and maintained by Contractor shall contain the name of the Project.

5.08 Partial Utilization, Acknowledgment of Property Insurer

A. If Owner finds it necessary to occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work as provided in Paragraph 14.05, no such use or occupancy shall commence before the insurers providing the property insurance pursuant to Paragraph 5.04 have acknowledged notice thereof and in writing effected any changes in coverage necessitated thereby. The insurers providing the property insurance shall consent by endorsement on the policy or policies, but the property insurance shall not be canceled or permitted to lapse on account of any such partial use or occupancy.

ARTICLE 6 – CONTRACTOR'S RESPONSIBILITIES

6.01 Supervision

A. Contractor shall supervise, inspect, and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction.. If the Contract Documents give specific instructions concerning construction means, methods, techniques, sequences or procedures, the Contractor shall evaluate the jobsite safety thereof and, except as stated below, shall be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor shall give timely written notice to the Owner and Engineer and shall not proceed with that portion of the

Work without further written instructions from the Engineer. If the Contractor is then instructed in writing by the Owner and Engineer to proceed with the required means, methods, techniques, sequences or procedures without acceptance of changes proposed by the Contractor, the Owner shall be solely responsible for any loss or damage arising solely from those Owner-required means, methods, techniques, sequences or procedures.

B. Contractor shall be responsible to see that the completed Work complies accurately with the Contract Documents.

C. At all times during the progress of the Work, Contractor shall assign a competent resident superintendent who shall not be replaced without written notice to Owner and Engineer except under extraordinary circumstances. The superintendent will be Contractor's representative at the Site and shall have the authority to act on behalf of the Contractor. All communications given to or received from the superintendent shall be binding on Contractor.

6.02 Labor; Working Hours

A. Contractor shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. Contractor shall at all times maintain good discipline and order at the Site.

B. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site shall be performed Monday through Friday, 7:00 a.m. till 5:00 p.m., excluding holidays, and shall comply with the Village of Wellington's Noise Ordinance. Contractor will not permit overtime work or the performance of Work on a Sunday without Owner's written consent (which will not be unreasonably withheld) given after prior written notice to Engineer.

6.03 Services, Materials, and Equipment

A. Unless otherwise specified in the Contract Documents, Contractor shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start-up, and completion of the Work.

B. All materials and equipment incorporated into the Work shall be as specified or, if not specified, shall be of good quality and new, except as otherwise provided in the Contract Documents. All special warranties and guarantees required by the Specifications shall expressly run to the benefit of Owner. If required by Engineer, Contractor shall furnish satisfactory evidence (including reports of required tests) as to the source, kind, and quality of materials and equipment.

C. All materials and equipment shall be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with instructions and warranties of the applicable Supplier, except as otherwise may be provided in the Contract Documents.

6.04 Progress Schedule

A. Contractor shall adhere to the Schedule established in accordance with Paragraphs 2.05 and 2.07 as it may be adjusted from time to time as provided below.

1. Contractor shall submit to Owner/Engineer for acceptance (to the extent indicated in Paragraph 2.07) proposed adjustments in the Progress Schedule that will not result in changing the Contract Times. Such adjustments will comply generally to the Progress Schedule then in effect and additionally will comply with any provisions of the General Requirements applicable thereto;

2. Proposed adjustments in the Progress Schedule that will change the Contract Times shall be submitted in accordance with the requirements of Article 12. Adjustments in Contract Times may only be made by a Change Order.

6.05 Substitutes and "Or-Equals"

A. Whenever an item of material or equipment is specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular Supplier, the specification or description is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or-equal" item or no substitution is permitted, other items of material or equipment or material or equipment of other Suppliers may be submitted to Engineer for review under the circumstances described below.

1. *"Or-Equal" Items:* If in Engineer's sole discretion an item of material or equipment proposed by Contractor is functionally equal to that named and sufficiently similar so that no change in related Work will be required, it may be considered by Engineer as an "or-equal" item if:

a. in the exercise of reasonable judgment Engineer determines that:

1) it is at least equal in materials of construction, quality, durability, appearance, strength, and design characteristics;

2) it will reliably perform at least equally well the function and achieve the results imposed by the design concept of the completed Project as a functioning whole; and

3) it has a proven record of performance and availability of responsive service.

b. Contractor certifies that, if approved and incorporated into the Work:

1) there will be no increase in cost to the Owner or increase in Contract Times; and

2) it will conform substantially to the detailed requirements of the item named in the Contract Documents.

2. *Substitute Items:*

a. If in Engineer's sole discretion an item of material or equipment proposed by Contractor does not qualify as an "or-equal" item under Paragraph 6.05.A.1, it will be considered a proposed substitute item.

b. Contractor shall submit sufficient information as provided below to allow Engineer to determine if the item of material or equipment proposed is essentially equivalent to that named and an acceptable substitute therefor. Requests for review of proposed substitute items of material or equipment will not be accepted by Engineer from anyone other than Contractor.

c. The requirements for review by Engineer will be as set forth in Paragraph 6.05.A.2.d, as supplemented by the General Requirements, and as Engineer may decide is appropriate under the circumstances.

d. Contractor shall make written application to Engineer for review of a proposed substitute item of material or equipment that Contractor seeks to furnish or use. The application:

1) shall certify that the proposed substitute item will:

a) perform adequately the functions and achieve the results called for by the general design,

b) be similar in substance to that specified, and

c) be suited to the same use as that specified;

2) will state:

a) the extent, if any, to which the use of the proposed substitute item will prejudice Contractor's achievement of Substantial Completion on time,

b) whether use of the proposed substitute item in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with Owner for other work on the Project) to adapt the design to the proposed substitute item, and

c) whether incorporation or use of the proposed substitute item in connection with the Work is subject to payment of any license fee or royalty;

3) will identify:

a) all variations of the proposed substitute item from that specified, and

b) available engineering, sales, maintenance, repair, and replacement services; and

4) shall contain an itemized estimate of all costs or credits that will result directly or indirectly from use of such substitute item, including costs of redesign and claims of other contractors affected by any resulting change.

B. *Substitute Construction Methods or Procedures:* If a specific means, method, technique, sequence, or procedure of construction is expressly required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, technique, sequence, or procedure of construction approved in writing by Engineer. Contractor shall submit sufficient information to allow Engineer, in Engineer's sole discretion, to determine that the substitute proposed is equivalent to that expressly called for by the Contract Documents. The requirements for review by Engineer will be similar to those provided in Paragraph 6.05.A.2.

C. *Engineer's Evaluation:* Engineer will be allowed a reasonable time within which to evaluate each proposal or submittal made pursuant to Paragraphs 6.05.A and 6.05.B. Engineer may require Contractor to furnish additional data about the proposed substitute item. Engineer will be the sole judge of acceptability. No "or equal" or substitute will be ordered, installed or utilized until Engineer's review is complete, which will be evidenced by a Change Order. Engineer will advise Contractor in writing of any negative determination.

D. *Special Guarantee:* Owner may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

E. *Engineer's Cost Reimbursement:* Engineer will record Engineer's costs in evaluating a substitute proposed or submitted by Contractor pursuant to Paragraphs 6.05.A.2 and 6.05.B. Whether or not Engineer approves a substitute so proposed or submitted by Contractor, Contractor shall reimburse Owner for the reasonable charges of Engineer for evaluating each such proposed substitute. Contractor shall also reimburse Owner for the reasonable charges of Engineer for making changes in the Contract Documents (or in the provisions of any other direct contract with Owner) resulting from the acceptance of each proposed substitute.

F. *Contractor's Expense:* Contractor shall provide all data in support of any proposed substitute or "or-equal" at Contractor's expense.

6.06 Concerning Subcontractors, Suppliers, and Others

A. Contractor shall not employ any Subcontractor, Supplier, or other individual or entity (including those acceptable to Owner as indicated in Paragraph 6.06.B), whether initially or as a replacement, against whom Owner may have reasonable objection. Contractor shall not be required to employ any Subcontractor, Supplier, or other individual or entity to furnish or perform any of the Work against whom Contractor has reasonable objection.

B. If the Supplementary Conditions require the identity of certain Subcontractors, Suppliers, or other individuals or entities to be submitted to Owner in advance for acceptance by Owner by a specified date prior to the Effective Date of the Agreement, and if Contractor has submitted a list thereof in accordance with the Supplementary Conditions, Owner's acceptance (either in writing or by failing to make written objection thereto by the date indicated for acceptance or objection in the Bidding Documents or the Contract Documents) of any such Subcontractor, Supplier, or other individual or entity so identified may be revoked on the basis of reasonable objection after due investigation. Contractor shall submit an acceptable replacement for the rejected Subcontractor, Supplier, or other individual or entity, and the Contract Price will be adjusted by the difference in the cost occasioned by such replacement, and an appropriate Change Order will be issued. No acceptance by Owner of any such Subcontractor, Supplier, or other individual or entity, whether initially or as a replacement, shall constitute a waiver of any right of Owner or Engineer to reject defective Work.

C. Contractor shall be fully responsible to Owner and Engineer for all acts and omissions of the Subcontractors, Suppliers, and other individuals or entities performing or furnishing any of the Work just as Contractor is responsible for Contractor's own acts and omissions. Nothing in the Contract Documents:

1. shall create for the benefit of any such Subcontractor, Supplier, or other individual or entity any contractual relationship between Owner or Engineer and any such Subcontractor, Supplier or other individual or entity; nor

2. shall create any obligation on the part of Owner or Engineer to pay or to see to the payment of any moneys due any such Subcontractor, Supplier, or other individual or entity except as may otherwise be required by Laws and Regulations.

D. Owner or Engineer may furnish to any such Subcontractor, Supplier, or other individual or entity, to the extent practicable, evidence of amounts paid to Contractor in accordance with Contractor's Application for Payment.

E. Contractor shall be solely responsible for scheduling and coordinating the Work of Subcontractors, Suppliers, and other individuals or entities performing or furnishing any of the Work under a direct or indirect contract with Contractor.

F. Contractor shall require all Subcontractors, Suppliers, and such other individuals or entities performing or furnishing any of the Work to communicate with Engineer through Contractor.

G. The divisions and sections of the Specifications and the identifications of any Drawings shall not control Contractor in dividing the Work among Subcontractors or Suppliers or delineating the work to be performed by any specific trade.

H. All Work performed for Contractor by a Subcontractor or Supplier will be pursuant to an appropriate agreement between Contractor and the Subcontractor or Supplier which specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract Documents for the benefit of Owner and Engineer. The agreement(s) between the Contractor and the Subcontractor or Supplier will contain provisions whereby the Subcontractor or Supplier waives all rights against Owner, Contractor,

Engineer, and all other individuals or entities identified in the Supplementary Conditions to be listed as insureds or loss payees (and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them) for all losses and damages caused by, arising out of, relating to, or resulting from any of the perils or causes of loss covered by such policies and any other property insurance applicable to the Work. If the insurers on any such policies require separate waiver forms to be signed by any Subcontractor or Supplier, Contractor will obtain the same. It is further agreed that all subcontracts and material and equipment purchase contracts entered into by Contractor or its subcontractors or material suppliers, shall contain a provision stating that the Owner may bring Claim(s) directly against any subcontractor of Contractor for breach of Contract, warranty rights, quality of workmanship, and create third party beneficiary rights of Owner in said agreements. Additionally, nothing contained in this Contract shall constitute an assignment of Contractor's rights against the Owner or create any third party beneficiary rights in any subcontractors or material and equipment suppliers of Contractor. The purpose of this provision is to allow the Village, in addition to Contractor, to make claim for damage or indemnification directly against any subcontractors or material and equipment suppliers that may be ultimately responsible for defects or deficiencies in the Work or materials and equipment. Further, to the extent requested by Owner, Contractor shall deliver copies of all Subcontract and Supplier agreements, purchase orders and invoices to Owner.

6.07 Patent Fees and Royalties

A. Contractor shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product, or device is specified in the Contract Documents for use in the performance of the Work and if, to the actual knowledge of Owner or Engineer, its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by Owner in the Contract Documents.

B. [Paragraph intentionally left blank.]

C. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents. Nothing herein shall be construed or interpreted as consent by the Owner to be sued, nor as a waiver of sovereign immunity beyond the waiver and limits provided in §768.28, Florida Statutes.

6.08

A. Intentionally Deleted.

6.09 Laws and Regulations

A. Contractor shall give all notices required by and shall comply with all Laws and Regulations applicable to the performance of the Work. Except where otherwise expressly required by applicable Laws and Regulations, neither Owner nor Engineer shall be responsible for monitoring Contractor's compliance with any Laws or Regulations.

B. If Contractor performs any Work knowing or having reason to know that it is contrary to Laws or Regulations, Contractor shall bear all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such Work. However, it shall not be Contractor's

primary responsibility to make certain that the Specifications and Drawings are in accordance with Laws and Regulations, but this shall not relieve Contractor of Contractor's obligations under Paragraph 3.03.

C. Changes in Laws or Regulations not known as of the Effective Date of the Agreement having an effect on the cost or time of performance of the Work may be the subject of an adjustment in Contract Price or Contract Times. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment, a Claim may be made therefor as provided in Paragraph 10.05.

6.10 Taxes

A. Contractor shall pay all sales, consumer, use, and other similar taxes required to be paid by Contractor in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work. Sales Tax shall be paid in accordance with the Sales Tax Recovery Program Special Conditions when applicable, as determined by the Owner and/or Engineer.

6.11 Use of Site and Other Areas

A. *Limitation on Use of Site and Other Areas:*

1. Contractor shall confine construction equipment, the storage of materials and equipment, and the operations of workers to the Site and other areas permitted by Laws and Regulations, and shall not unreasonably encumber the Site and other areas with construction equipment or other materials or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or of any adjacent land or areas resulting from the performance of the Work.

2. Should any claim be made by any such owner or occupant because of the performance of the Work, Contractor shall promptly settle with such other party by negotiation or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law.

3. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any claim or action, legal or equitable, brought by any such owner or occupant against Owner, Engineer, or any other party indemnified hereunder to the extent caused by or based upon Contractor's performance of the Work. Nothing herein shall be construed or interpreted as consent by the Owner to be sued, nor as a waiver of sovereign immunity beyond the waiver or limits provided in §768.28, Florida Statutes.

B. *Removal of Debris During Performance of the Work:* During the progress of the Work, Contractor shall keep the Site and other areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris shall conform to applicable Laws and Regulations.

C. Prior to Substantial Completion of the Work, Contractor shall clean the Site and the Work and make it ready for utilization by Owner. At the completion of the Work Contractor shall remove from the Site all tools, appliances, construction equipment and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents. If Contractor fails to keep the Site and other areas clean on a daily basis and/or as a condition to Substantial Completion, Owner shall have the right to deduct costs incurred by Owner to keep the Site and other areas clean and free from accumulations of waste.

D. *Loading Structures:* Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent

property to stresses or pressures that will endanger it.

6.12 Record Documents

A. Contractor shall maintain in a safe place at the Site one record copy of all Drawings, Specifications, Addenda, Change Orders, Construction Change Directives, Field Orders, and written interpretations and clarifications in good order and annotated to show changes made during construction. These record documents together with all approved Samples and a counterpart of all approved Shop Drawings will be available to Engineer for reference. Upon completion of the Work, these record documents, Samples, and Shop Drawings will be delivered to Engineer for Owner.

6.13 Safety and Protection

A. Contractor shall be solely responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. Such responsibility does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with applicable safety Laws and Regulations. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

1. all persons on the Site or who may be affected by the Work;

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

B. Contractor shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary safeguards for such safety and protection. Contractor shall notify owners of adjacent property and of Underground Facilities and other utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property.

C. Contractor shall comply with the applicable requirements of Owner's safety programs, if any. The Supplementary Conditions identify any Owner's safety programs that are applicable to the Work.

D. Contractor shall inform Owner and Engineer of the specific requirements of Contractor's safety program with which Owner's and Engineer's employees and representatives must comply while at the Site.

E. All damage, injury, or loss to any property including but not limited to property referred to in Paragraph 6.13.A.2 or 6.13.A.3 caused, directly or indirectly, in whole or in part, by Contractor, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, shall be remedied by Contractor at no additional cost to the Owner or Engineer.

F. Contractor's duties and responsibilities for safety and for protection of the Work shall continue until such time as all the Work is completed and Engineer has issued a notice to Owner and Contractor in accordance with Paragraph 14.07.B that the Work is acceptable (except as otherwise expressly provided in connection with Substantial Completion).

G. Contractor shall comply with the Trench Safety Standards provided by OSHA's Excavation Safety Standards, 29 CFR §1926.650 Subpart P and Fla. Stat. §553.60-§553.64 (1990) (inclusive).

6.14 Safety Representative

A. Contractor shall designate a qualified and experienced safety representative at the Site whose duties and responsibilities shall be the prevention of accidents and the maintaining and supervising of safety precautions and programs.

6.15 Hazard Communication Programs

A. Contractor shall be responsible for coordinating any exchange of material safety data sheets or other hazard communication information required to be made available at the Site in accordance with Laws or Regulations.

6.16 Emergencies

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, Contractor is obligated to act to prevent threatened damage, injury, or loss. Contractor shall give Engineer prompt written notice if Contractor believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby or are required as a result thereof. If Engineer determines that a change in the Contract Documents is required because of the action taken by Contractor in response to such an emergency, a Construction Change Directive or Change Order will be issued.

6.17 Shop Drawings and Samples

A. Contractor shall submit Shop Drawings and Samples to Engineer for review and approval in accordance with the accepted Schedule of Submittals (as required by Paragraph 2.07). Each submittal will be identified as Engineer may require.

1. *Shop Drawings:*

    a. Submit number of copies specified in the General Requirements.

    b. Data shown on the Shop Drawings will be complete with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to show Engineer the services, materials, and equipment Contractor proposes to provide and to enable Engineer to review the information for the limited purposes required by Paragraph 6.17.D.

2. *Samples*:

    a. Submit number of Samples specified in the Specifications.

    b. Clearly identify each Sample as to material, Supplier, pertinent data such as catalog numbers, the use for which intended and other data as Engineer may require to enable Engineer to review the submittal for the limited purposes required by Paragraph 6.17.D.

B. Where a Shop Drawing or Sample is required by the Contract Documents or the Schedule of Submittals, any related Work performed prior to Engineer's review and approval of the pertinent submittal will be at the sole expense and responsibility of Contractor.

C. *Submittal Procedures:*

1. Before submitting each Shop Drawing or Sample, Contractor shall have:

    a. reviewed and coordinated each Shop Drawing or Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents;

b. determined and verified all field measurements, quantities, dimensions, specified performance and design criteria, installation requirements, materials, catalog numbers, and similar information with respect thereto;

c. determined and verified the suitability of all materials offered with respect to the indicated application, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work; and

d. determined and verified all information relative to Contractor's responsibilities for means, methods, techniques, sequences, and procedures of construction, and safety precautions and programs incident thereto.

2. Each submittal shall bear a stamp or specific written certification that Contractor has satisfied Contractor's obligations under the Contract Documents with respect to Contractor's review and approval of that submittal.

3. With each submittal, Contractor shall give Engineer specific written notice of any variations that the Shop Drawing or Sample may have from the requirements of the Contract Documents. This notice shall be both a written communication separate from the Shop Drawings or Sample submittal; and, in addition, by a specific notation made on each Shop Drawing or Sample submitted to Engineer for review and approval of each such variation.

D. *Engineer's Review:*

1. Engineer will provide timely review of Shop Drawings and Samples in accordance with the Schedule of Submittals acceptable to Engineer. Engineer's review and approval will be only to determine if the items covered by the submittals will, after installation or incorporation in the Work, conform to the information given in the Contract Documents and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. Engineer's review and approval will not extend to means, methods, techniques, sequences, or procedures of construction (except where a particular means, method, technique, sequence, or procedure of construction is specifically and expressly called for by the Contract Documents) or to safety precautions or programs incident thereto. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions.

3. Engineer's review and approval shall not relieve Contractor from responsibility for any variation from the requirements of the Contract Documents unless Contractor has complied with the requirements of Paragraph 6.17.C.3 and Engineer has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample. Engineer's review and approval shall not relieve Contractor from responsibility for complying with the requirements of Paragraph 6.17.C.1.

E. *Resubmittal Procedures:*

1. Contractor shall make corrections required by Engineer and shall return the required number of corrected copies of Shop Drawings and submit, as required, new Samples for review and approval. Contractor shall direct specific attention in writing to revisions other than the corrections called for by Engineer on previous submittals.

6.18 Continuing the Work

A. Contractor shall carry on the Work and adhere to the Progress Schedule during all disputes or disagreements with Owner. No Work shall be delayed or postponed pending resolution of any disputes or disagreements, except as permitted by Paragraph 15.04 or as Owner and Contractor may otherwise agree in

writing.

6.19 Contractor's General Warranty and Guarantee

A. Contractor warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Contractor warrants to Owner that all materials and equipment furnished for the Project will be new unless otherwise specified and that all Work for the Project, will be of first quality, free from faults and defects, fully functional, and in conformance with the Contract Documents. The Work shall be free from defects not inherent in the quality required or permitted, and that the Work will conform to the requirements of the Contract Documents. Contractor's warranty and the warranty of all Subcontractors and suppliers shall be for a period of one (1) year from final payment or longer, as may be stated in an Extended Warranties. All Work for the Project not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective. The Contractor shall, within three (3) working days of written notice from Village, correct any Work that fails to conform to the requirements of the Contract Documents and unconditionally guarantees and warrants that it shall correct at its sole cost and expense any defects due to faulty materials, equipment and/or workmanship which appear within a period of one (1) year from the date of final payment or such longer time required by the Contract Documents for particular items (the "Extended Warranties"). The Contractor shall bear all costs of correcting such defective work. Contractor and Subcontractor warranties expressly also include all statutory warranties, all of which are specifically and expressly incorporated herein by reference. The Contractor shall also provide warranties from manufacturers for the specified items and systems within the Contract Documents and may include Extended Warranties. Notwithstanding anything set forth in the Manufacturers' Warranties to the contrary, those items specifically covered by the Manufacturers' Warranties and any disclaimers and limitations on liability shall in no way be deemed to limit Contractor's warranties and liability herein and are in addition to and not in lieu of the Contractor's warranties. These obligations shall survive termination of this Agreement. If Contractor should default in the performance of any of its warranty obligations, it shall be responsible for all damages, fees or costs incurred by the Owner in enforcing the warranty provisions of this Article, including, but not limited to, all attorney's fees, engineering and consulting fees or other expenses incurred. Without limiting the generality of the foregoing, if any warranty repairs are not performed within the specified time, emergency repairs performed by others shall not void the warranty and the Contractor shall reimburse the Owner for all costs incurred in connection with the performance of such repairs. This warranty is in addition to and not in lieu of any other warranties, express or implied, which may be provided by Laws and Regulations.

B. Contractor's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute. None of the following will constitute acceptance of Work that is not in accordance with the Contract Documents or a release of Contractor's obligation to perform the Work in accordance with the Contract Documents:

1. observations by Engineer;

2. recommendation by Engineer or payment by Owner of any progress or final payment;

3. the issuance of a certificate of Substantial Completion by Owner or any payment related thereto by Owner;

4. use or occupancy of the Work or any part thereof by Owner;

5. any acceptance by Owner or any failure to do so;

6. any review and approval of a Shop Drawing or Sample submittal or the issuance of a notice of acceptability by Engineer;

7. any inspection, test, or approval by others; or

8. any correction of defective Work by Owner.

6.20 Delegation of Professional Design Services

A. Contractor will not be required to provide professional design services unless such services are specifically required by the Contract Documents for a portion of the Work or unless such services are required to carry out Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. Contractor shall not be required to provide professional services in violation of applicable law.

B. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of Contractor by the Contract Documents, Contractor shall cause such services or certifications to be provided by a properly licensed professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings and other submittals prepared by such professional. Shop Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to Engineer.

C. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications or approvals performed by such design professionals, provided Owner and Engineer have specified to Contractor all performance and design criteria that such services must satisfy.

D. Pursuant to this Paragraph 6.20, Engineer's review and approval of design calculations and design drawings will be only for the limited purpose of checking for conformance with performance and design criteria given and the design concept expressed in the Contract Documents. Engineer's review and approval of Shop Drawings and other submittals (except design calculations and design drawings) will be only for the purpose stated in Paragraph 6.17.D.1.

E. Contractor shall not be responsible for the adequacy of the performance or design criteria required by the Contract Documents.

ARTICLE 7 – OTHER WORK AT THE SITE

7.01 Related Work at Site

A. Owner may perform other work related to the Project at the Site with Owner's employees, or through other direct contracts therefor, or have other work performed by utility owners. If such other work is not noted in the Contract Documents, then:

1. written notice thereof will be given to Contractor prior to starting any such other work; and

2. if Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times that should be allowed as a result of such other work, a Claim may be made therefor as provided in Paragraph 10.05.

B. Contractor shall afford each other contractor who is a party to such a direct contract, each utility owner, and Owner, if Owner is performing other work with Owner's employees, proper and safe access to the Site, provide a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work, and properly coordinate the Work with theirs. Contractor shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering such work; provided, however, that Contractor may cut or alter others' work with the written consent of Engineer and the others whose work will be affected. The duties and responsibilities of Contractor under this Paragraph are for the benefit of such utility owners and other contractors to the extent that there are comparable provisions for the benefit of Contractor in said direct contracts between Owner and such utility owners and other contractors.

C. If the proper execution or results of any part of Contractor's Work depends upon work performed by others under this Article 7, Contractor shall inspect such other work and promptly report to Engineer in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of Contractor's Work. Contractor's failure to so report will constitute an acceptance of such other work as fit and proper for integration with Contractor's Work except for latent defects and deficiencies in such other work.

7.02 Coordination

A. If Owner intends to contract with others for the performance of other work on the Project at the Site, the following will be set forth in Supplementary Conditions:

1. the individual or entity who will have authority and responsibility for coordination of the activities among the various contractors will be identified;

2. the specific matters to be covered by such authority and responsibility will be itemized; and

3. the extent of such authority and responsibilities will be provided.

B. Unless otherwise provided in the Supplementary Conditions, Owner shall have sole authority and responsibility for such coordination.

7.03 Legal Relationships

A. Paragraphs 7.01.A and 7.02 are not applicable for utilities not under the control of Owner.

B. Each other direct contract of Owner under Paragraph 7.01.A shall provide that the other contractor is liable to Owner and Contractor for the reasonable direct delay and disruption costs incurred by Contractor as a result of the other contractor's wrongful actions or inactions.

C. Contractor shall be liable to Owner and any other contractor under direct contract to Owner for the reasonable direct delay and disruption costs incurred by such other contractor as a result of Contractor's wrongful action or inactions.

ARTICLE 8 – OWNER'S RESPONSIBILITIES

8.01 Communications to Contractor

A. The Owner will serve as the Owners Representative. All communication relative to Contractors obligation under Agreement shall be through the Owner.

8.02 Replacement of Engineer

A. In case of termination of the employment of Engineer, Owner shall appoint an engineer to whom Contractor makes no reasonable objection, whose status under the Contract Documents shall be that of the former Engineer.

8.03 Furnish Data

A. Owner shall promptly furnish the data required of Owner under the Contract Documents, including, without limitation, (i) geotechnical engineering survey; (ii) other applicable land surveys; (iii) environmental studies of existing facilities; and (iv) all applicable reports regarding water intrusion and contamination, all of which are attached as **Composite Exhibit "C"**. Unless otherwise provided for under the Contract Documents, the Owner shall provide said information in a timely manner and Contractor shall not rely on such information without independently confirming that, in the Contractor's professional judgment, the information is reliable and accurate.

8.04 Limitations on Owner's Responsibilities

A. The Owner shall not supervise, direct, or have control or authority over, nor be responsible for, Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Owner will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

8.05 Evidence of Financial Arrangements

A. Upon written request of Contractor, Owner shall furnish Contractor reasonable evidence that financial arrangements have been made to satisfy Owner's obligations under the Contract Documents.

8.06 Compliance with Safety Program

A. While at the Site, Owner's employees and representatives shall comply with the specific applicable requirements of Contractor's safety programs of which Owner has been informed in writing in accordance with the Contract Documents.

ARTICLE 9 – ENGINEER'S STATUS DURING CONSTRUCTION

9.01 Owner's Representative

A. The Owner will serve as the Owners Representative. All communication relative to Contractors obligation under Agreement shall be through the Owner.

B. The Owner has engaged the services of JLA Geosciences, Inc. to design the project. The Village of Wellington will act as the Engineer during construction unless otherwise notified by Owner.

9.02 Visits to Site

A. Engineer will make visits to the Site at intervals appropriate to the various stages of construction as Engineer deems necessary in order to observe as an experienced and qualified design professional the progress that has been made and the quality of the various aspects of Contractor's executed Work. Based on information obtained during such visits and observations, Engineer, for the benefit of Owner, will determine, in general, if the Work is proceeding in accordance with the Contract Documents. Engineer will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. Engineer's efforts will be directed toward providing for Owner a greater degree of confidence that the completed Work will conform generally to the Contract Documents. On the basis of such visits and observations, Engineer will keep Owner informed of the progress of the Work and will advise the Owner of any defective or non-conforming Work.

B. Engineer's visits and observations are subject to all the limitations on Engineer's authority and responsibility set forth in Paragraph 9.09. Particularly, but without limitation, during or as a result of Engineer's visits or observations of Contractor's Work, Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work.

9.03 Project Representative

A. If Owner and Engineer agree, Engineer will furnish a Resident Project Representative to assist Engineer in providing more extensive observation of the Work. The duties, responsibilities and limitations of authority of any such Resident Project Representative and assistants will be as provided in the LISTING OF THE

DUTIES, RESPONSIBILITIES AND LIMITATIONS OF AUTHORITY OF THE RESIDENT PROJECT REPRESENTATIVE (the "Listing") which will be distributed to Contractor and , as provided in Paragraph 9.09. If any conflicts exist between the Listing and Paragraph 9.09, the terms and conditions of the Listing shall govern. If Owner designates another representative or agent to represent Owner at the Site who is not Engineer's consultant, agent or employee, the responsibilities and authority and limitations thereon of such other individual or entity will be as presented at the Pre-Construction Meeting.

9.04 Authorized Variations in Work

A. Engineer may authorize minor variations in the Work from the requirements of the Contract Documents which do not involve an adjustment in the Contract Price or the Contract Times and are compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. These may be accomplished by a Field Order and will be binding on Owner and also on Contractor, who shall perform the Work involved promptly. If Owner or Contractor believes that a Field Order justifies an adjustment in the Contract Price or Contract Times, or both, Contractor shall so notify Owner in writing within five (5) business days of receipt of the Field Order, and if the parties are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment, a Claim may be made therefor as provided in Paragraph 10.05.

9.05 Rejecting Defective Work

A. Engineer will have authority to reject Work which Engineer believes to be defective, or that Engineer believes will not produce a completed Project that conforms to the Contract Documents or that will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. Engineer will also have authority to require special inspection or testing of the Work as provided in Paragraph 13.04, whether or not the Work is fabricated, installed, or completed. Owner shall also have the same rights as Engineer to reject Work which it believes to be defective, which it believes will not produce a completed Project that conforms to the Contract Documents, or which it believes that will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

9.06 Shop Drawings, Change Orders and Payments

A. In connection with Engineer's authority, and limitations thereof, as to Shop Drawings and Samples, see Paragraph 6.17.

B. In connection with Engineer's authority, and limitations thereof, as to design calculations and design drawings submitted in response to a delegation of professional design services, if any.

C. In connection with Engineer's authority as to Change Orders, see Articles 10, 11, and 12.

D. In connection with Engineer's authority as to Applications for Payment, see Article 14.

9.07 Determinations for Unit Price Work

A. Engineer will determine the actual quantities and classifications of Unit Price Work performed by Contractor. Engineer will review with Contractor the Engineer's preliminary determinations on such matters before rendering a written decision thereon (by recommendation of an Application for Payment or otherwise). Engineer's written decision thereon will be final and binding (except as modified by Engineer to reflect changed factual conditions or more accurate data) upon Owner and Contractor, subject to the provisions of Paragraph 10.05.

9.08 Decisions on Requirements of Contract Documents and Acceptability of Work

A. Engineer will be the initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the Work thereunder. All matters in question and other matters between Owner and

Contractor arising prior to the date final payment is due relating to the acceptability of the Work, and the interpretation of the requirements of the Contract Documents pertaining to the performance of the Work, will be referred initially to Engineer in writing within 14 days of the event giving rise to the question.

B. In no event, shall Contractor cease performance of the Work as the result of referring a matter to the Engineer regarding or relating to the acceptability of the Work and/or the interpretation of the requirements of the Contract Documents pertaining to the performance of the Work.

C. Engineer will, with reasonable promptness, render a written decision on the issue referred. If Owner or Contractor believes that any such decision entitles them to an adjustment in the Contract Price or Contract Times or both, a Claim may be made under Paragraph 10.05.

D. Engineer's written decision on the issue referred will be neither final nor binding on Owner and Contractor, and is subject to the provisions of Paragraph 10.05.

E. When functioning as interpreter and judge under this Paragraph 9.08, Engineer will not show partiality to Owner or Contractor and will not be liable in connection with any interpretation or decision rendered in good faith in such capacity.

9.09 Limitations on Engineer's Authority and Responsibilities

A. Neither Engineer's authority or responsibility under this Article 9 or under any other provision of the Contract Documents nor any decision made by Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Engineer shall create, impose, or give rise to any duty in contract, tort, or otherwise owed by Engineer to Contractor, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

B. Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Engineer will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

C. Engineer will not be responsible for the acts or omissions of Contractor or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. Engineer's review of the final Application for Payment and accompanying documentation and all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by Paragraph 14.07.A will only be to determine generally that their content complies with the requirements of, and in the case of certificates of inspections, tests, and approvals that the results certified indicate compliance with, the Contract Documents.

E. The limitations upon authority and responsibility set forth in this Paragraph 9.09 shall also apply to the Resident Project Representative, if any, and assistants, if any.

9.10 Compliance with Safety Program

A. While at the Site, Engineer's employees and representatives shall comply with the specific applicable requirements of Contractor's safety programs of which Engineer has been informed pursuant to Paragraph 6.13.D.

ARTICLE 10 – CHANGES IN THE WORK; CLAIMS

10.01 Authorized Changes in the Work

A. Without invalidating the Contract and without notice to any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work by a Change Order, or a Construction Change Directive. Upon receipt of any such document, Contractor shall promptly proceed with the Work involved which will be performed under the applicable conditions of the Contract Documents (except as otherwise specifically provided).

B. If Owner and Contractor are unable to agree on entitlement to, or on the amount or extent, if any, of an adjustment in the Contract Price or Contract Times, or both, that should be allowed as a result of a Construction Change Directive, a Claim may be made therefor as provided in Paragraph 10.05, but Contractor shall be required to perform the Work and Owner shall be required to continue to make undisputed payments under the Contract Documents.

C. Any changes in the Work or any adjustment in the Contract Price or the Contract Time shall only be made upon written Change Order or Construction Change Directive as provided herein. If Contractor proceeds with such work without obtaining a written Change Order or Construction Change Directive, it shall be assumed that Contractor has performed such work at no additional charge. The requirement for writing under this Article cannot be waived

10.02 Unauthorized Changes in the Work

A. Contractor shall not be entitled to an increase in the Contract Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents as amended, modified, or supplemented as provided in Paragraph 3.04, authorized by written Change Order or Construction Change Directive, except in the case of an emergency as provided in Paragraph 6.16 or in the case of uncovering Work as provided in Paragraph 13.04.D.

10.03 Execution of Change Orders & Construction Change Directives

A. A Change Order shall be based upon agreement between the Owner and Contractor and approved by Engineer, based on auditable documentation of the costs incurred, if any, and shall be executed upon any of the following:

1. changes in the Work which are: (i) ordered by Owner pursuant to Paragraph 10.01.A, (ii) required because of acceptance of defective Work under Paragraph 13.08.A or Owner's correction of defective Work under Paragraph 13.09, or (iii) agreed to by the parties;

2. changes in the Contract Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work actually performed in accordance with a Construction Change Directive; and

3. changes in the Contract Price or Contract Times which embody the substance of any written decision rendered by Engineer pursuant to Paragraph 10.05 if agreed to by the parties.

B. Among other circumstances, a Construction Change Directive may be issued where the Contractor believes it is entitled to a Change Order or otherwise to an increase in the Contract Price or Contract Time, but the Owner does not agree or if the parties cannot agree on the amount or duration of any change to the Contract Price or Contract Time. In such event, the Contractor is obligated to perform the Work described in the Construction Change Directive in accordance with this Paragraph. Changes in the Work shall be performed under applicable provisions of the Contract Documents, and the Contractor shall proceed promptly, unless otherwise provided in the Change Order or Construction Change Directive. A Construction Change Directive is a written order signed by the Owner directing a change in the Work prior to agreement on adjustment, if any, in the Contract Price or Contract Time, or both. The Owner may by Construction Change Directive, without invalidating the Agreement, order changes in the Work within the general scope

of the Agreement consisting of additions, deletions or other revisions, the Contract Price and Contract Time being adjusted accordingly.

1. If the Construction Change Directive provides for an adjustment to the Contract Price, the adjustment shall be based on one of the following methods:

   a. Mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

   b. Unit prices stated in the Contract Documents or subsequently agreed upon;

   c. Cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or

   d. As provided in Article 11.

3. Upon receipt of a Construction Change Directive, the Contractor shall promptly proceed with the change in the Work involved and advise the Owner and Engineer of the Contractor's agreement or disagreement with the method, if any, provided in the Construction Change Directive for determining the proposed adjustment in the Contract Price or Contract Time. Disagreement as to the adjustment to the Contract Price or Contract Time shall not excuse Contractor from its prompt performance of the Work described in the Construction Change Directive.

4. A Construction Change Directive signed by the Contractor indicates the Contractor's agreement therewith, including adjustment in Contract Price and Contract Time or the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.

5. Deductions of Work ("Deductive Change Orders"). The Owner reserves the right to remove any items from the scope of Work in the Contract Documents by Deductive Change Order. Such deduction shall be determined by the Engineer using the Contractor's Schedule of Values. The deductions, if any, shall not be considered a cardinal change to the Agreement. The parties hereto recognize that the Owner has materially relied on this provision in entering into contract with Contractor. Such value deduction shall be conclusive as it relates to utilizing the Contractor's Schedule of Values.

10.04 Notification to Surety

A. Any bonds issued in connection with the Work shall contain a provision that surety waives notices of any changes to the Contract Documents. However, to the extent any notice of any changes to the Contract Documents requires notice to any surety, the giving of any such notice will be Contractor's responsibility. The amount of each applicable bond shall automatically be adjusted to reflect the effect of any such change.

10.05 Claims

A. *Engineer's Decision Required:* All Claims, except those waived pursuant to Paragraph 14.09 of the General Conditions, shall be referred to the Engineer for decision. A decision by Engineer shall be required as a condition precedent to any exercise by Owner or Contractor of any rights or remedies either may otherwise have under the Contract Documents or by Laws and Regulations in respect of such Claims, unless Engineer fails to render a decision in the time periods required by the Contract Documents.

B. *Notice:* Written notice stating the general nature of each Claim shall be delivered by the claimant to Engineer and the other party to the Contract promptly (but in no event later than 14 days) after the start of the event giving rise thereto. The responsibility to substantiate a Claim shall rest with the party making the Claim. Notice of the amount or extent of the Claim, with supporting data shall be delivered to the Engineer and the other party to the Contract within 30 days after the start of such event (unless Engineer allows additional time for claimant to submit additional or more accurate data in support of such Claim). A Claim

for an adjustment in Contract Price shall be prepared in accordance with the provisions of Paragraph 12.01.A. A Claim for an adjustment in Contract Times shall be prepared in accordance with the provisions of Paragraph 12.02.A. Each Claim shall be accompanied by claimant's written statement that the adjustment claimed is the entire adjustment to which the claimant believes it is entitled as a result of said event. The opposing party shall submit any response to Engineer and the claimant within 30 days after receipt of the claimant's last submittal (unless Engineer allows additional time).

C. *Engineer's Action:* Engineer will review each Claim and, within 14 days after receipt of the last submittal of the claimant or the last submittal of the opposing party if any, take one of the following actions in writing:

1. deny the Claim in whole or in part;

2. approve the Claim; or

3. notify the parties that the Engineer is unable to resolve the Claim if, in the Engineer's sole discretion, it would be inappropriate for the Engineer to do so. For purposes of further resolution of the Claim, such notice shall be deemed a denial.

D. In the event that Engineer does not take action on a Claim within said 14 days, the Claim shall be deemed denied.

E. Engineer's written decision shall not be binding on the parties unless expressly agreed to by the parties.

F. No Claim for an adjustment in Contract Price or Contract Times will be valid if not submitted in accordance with this Paragraph 10.05.

ARTICLE 11 –ALLOWANCES & UNIT PRICE WORK

11.01 Allowances

A. It is understood that Contractor has included in the Contract Price all allowances so named in the Contract Documents as part of **Exhibit "G"** and shall cause the Work so covered to be performed for such sums and by such persons or entities as may be acceptable to Owner and Engineer. Unless otherwise provided in the Contract Documents:

1. allowances shall cover the cost to the Contractor of materials and equipment delivered at the Site and all required taxes, less applicable trade discounts;

2. Contractor's costs for unloading and handling at the Site, labor, installation costs, overhead, profit, general conditions, insurance, bonds and other expenses contemplated for stated allowance amounts shall be included in the Contract Price but not in the allowances; and

3. whenever costs for the actual allowance item (materials and equipment) are more than or less than allowances, the Contract Price shall be adjusted accordingly by Change Order. The amount of the Change Order shall reflect (1) the difference between actual costs and the allowances under this Paragraph and (2) changes in Contractor's costs.

Contractor shall notify Owner to make selection of materials and equipment under an allowance in sufficient time to avoid delay in the Work.

11.02 Contingency

A. Any contingency listed in the Schedule of Values (the "Contingency") may only be utilized by the Owner, in its sole discretion, for any purpose, including, but not limited to covering unanticipated costs in the Work. The Contractor shall not be entitled to use the Contingency without the prior written approval of Owner, which may be withheld in its sole discretion. In no event shall the Contingency be used for the Contractor's gross negligence; for costs reasonably recoverable from insurance, subcontractors, supplier or sureties; for funding punch list work; for funding the coordination of subcontractors and other entities; for resolving conflicts in the field; for funding costs incurred as a result of a default on the part of Contractor unless Owner approves in writing, or for any other direct costs of performance not approved in writing by Owner. Any Contingency that is not used (the "Contingency Savings") will accrue 100% to the Owner and shall result in a credit to Owner and result in a reduction towards to the outstanding balance of the Contract Price.

11.03 Unit Price Work

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Contract Documents.

B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of bids and determining an initial Contract Price. Determinations of the actual quantities and classifications of Unit Price Work performed by Contractor will be made by Engineer subject to the provisions of Paragraph 9.07.

C. Each unit price will be deemed to include an amount considered by Contractor to be adequate to cover Contractor's overhead and profit for each separately identified item.

D. Contractor may not make a Claim in accordance with paragraph 10.05 for additional expenses incurred as a result of a difference between final quantity of any item(s) of Unit Price Work and the estimated quantity of such item(s) in the Contract Documents. Owner may make a claim for an adjustment in the Contract Price in accordance with paragraph 10.05 if the Owner believes that Owner is entitled to a decrease in Contract Price and the parties are unable to agree as to the amount of such decrease.

ARTICLE 12 – CHANGE OF CONTRACT PRICE; CHANGE OF CONTRACT TIMES

12.01 Change of Contract Price

A. The Contract Price may only be changed by a Change Order. Any Claim for an adjustment in the Contract Price shall be based on written notice submitted by the party making the Claim to the Engineer and the other party to the Contract in accordance with the provisions of Paragraph 10.05.

12.02 Change of Contract Times

A. The Contract Times may only be changed by a Change Order. Any Claim for an adjustment in the Contract Times shall be based on written notice submitted by the party making the Claim to the Engineer and the other party to the Contract in accordance with the provisions of Paragraph 10.05.

12.03 Delays

A. If Contractor is delayed in the performance or progress of the Work by fire, flood, epidemic, abnormal weather conditions, acts of God, acts or failures to act of utility owners not under the control of Owner, or other causes not the fault of and beyond control of Contractor, then Contractor shall be entitled to an equitable adjustment in Contract Time, if such delay results in an impact to the critical path of the schedule as determined by Engineer. Such an adjustment in the Contract Time shall be Contractor's sole and

exclusive remedy for the delays described in this Paragraph 12.03. Claims for abnormal weather conditions shall be documented by data substantiating the weather conditions were abnormal for the period of time, could not have been reasonably anticipated and had an adverse effect on the scheduled construction. No extension of the Contract Time shall be granted for delays resulting from normal weather conditions prevailing in the area as defined by the average of the last five (5) years of weather recorded by the Owner. The parties agree that time is of the essence in the performance of this Agreement.

B. Owner, Engineer, and their officers, directors, members, partners, employees, agents, consultants, or subcontractors shall not be liable to Contractor for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Contractor on or in connection with any other project or anticipated project.

C. Contractor shall not be entitled to an adjustment in Contract Price or Contract Time for delays within the control of Contractor, any Subcontractor, Supplier or any other person or entity for which Contractor is responsible.

D. NO CLAIM FOR DAMAGES OR ANY CLAIM OTHER THAN FOR AN EXTENSION OF TIME SHALL BE MADE OR ASSERTED AGAINST OWNER BY REASON OF ANY DELAYS. Contractor shall not be entitled to an increase in the Contract Price or payment or compensation of any kind from Owner for direct, indirect, consequential, impact or other costs, expenses, or damages, including, but not limited to, costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance be reasonable or unreasonable, foreseeable, or avoidable or unavoidable. Contractor shall be entitled only to extensions of the Contract Time as the sole and exclusive remedy for such resulting delays, in accordance with and to the extent specifically provided herein.

ARTICLE 13 – TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

13.01 Notice of Defects

A. Notice of all defective Work of which Owner has actual knowledge will be given to Contractor. Defective Work may be rejected, corrected, or accepted as provided in this Article 13.

13.02 Access to Work

A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and governmental agencies with jurisdictional interests over the Work and Site will have access to the Site and the Work at reasonable times for their observation, inspection, and testing. Contractor shall provide them proper and safe conditions for such access and advise them of Contractor's safety procedures and programs so that they may comply therewith as applicable.

13.03 Tests and Inspections

A. Contractor shall give no less than forty-eight hours notice to Engineer and Owner for all required inspections, tests, or approvals, except as otherwise provided, and shall cooperate with inspection and testing personnel to facilitate required inspections, tests or approvals.

B. Owner shall employ and pay for the services of an independent testing laboratory to perform all inspections, tests, or approvals required by the Contract Documents except:

1. for inspections, tests, or approvals covered by Paragraphs 13.03.C and 13.03.D below;

2. that costs incurred in connection with tests or inspections conducted pursuant to Paragraph 13.04.B shall be paid as provided in Paragraph 13.04.C; and

3. for inspection, tests, or approvals due to defective or non-conforming Work, or as otherwise specifically provided in the Contract Documents.

C. If Laws or Regulations of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, Contractor shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Engineer the required certificates of inspection or approval.

D. Contractor shall be responsible for arranging and obtaining and shall pay all costs in connection with any inspections, tests, or approvals required for Owner's and Engineer's acceptance of materials or equipment to be incorporated in the Work; or acceptance of materials, mix designs, or equipment submitted for approval prior to Contractor's purchase thereof for incorporation in the Work. Such inspections, tests, or approvals shall be performed by organizations acceptable to Owner and Engineer.

E. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work which are applicable at the time of the Effective Date of the Agreement. Owner shall pay all charges of utility owners for connections for providing permanent service to the Work.

13.04 Uncovering Work

A. If any Work (or the work of others) that is to be inspected, tested, or approved pursuant to Paragraph 13.03 above, is covered by Contractor without written concurrence of Engineer, Contractor shall, if requested by Engineer, uncover such Work for observation. Uncovering Work shall be at Contractor's expense unless Contractor has given Engineer timely notice of Contractor's intention to cover the same and Engineer has not acted with reasonable promptness in response to such notice.

B. If any Work is covered contrary to the written request of Engineer, it must, if requested by Engineer, be uncovered for Engineer's observation and replaced at Contractor's expense.

C. If Engineer considers it necessary or advisable that covered Work be observed by Engineer or inspected or tested by others, Contractor, at Engineer's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as Engineer may require, that portion of the Work in question, furnishing all necessary labor, material, and equipment.

D. If it is found that the uncovered Work is defective, Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and Owner shall be entitled to an appropriate decrease in the Contract Price. If the parties are unable to agree as to the amount thereof, Owner may make a Claim therefor as provided in Paragraph 10.05.

E. If the uncovered Work is not found to be defective, Contractor shall be allowed an increase in the Contract Price or an extension of the Contract Times, or both, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, Contractor may make a Claim therefor as provided in Paragraph 10.05.

13.05 Owner May Stop the Work

A. If the Work is defective, or Contractor fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, Owner may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of Owner to stop the Work shall not give rise to any

duty on the part of Owner to exercise this right for the benefit of Contractor, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them. Notwithstanding the foregoing, any stoppage ordered in the Work by Owner, shall not result in a Claim for an increase in the Contract Price or Contract Time by Contractor.

13.06 Correction or Removal of Defective Work

A. Within three (3) days after receipt of written notice from the Engineer, Contractor shall correct all defective Work, whether or not fabricated, installed, or completed, or, if the Work has been rejected by Engineer, remove it from the Project and replace it with Work that is not defective. Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of Engineer, engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or removal (including but not limited to all costs of repair or replacement of work of others).

B. When correcting defective Work under the terms of this Paragraph 13.06 or Paragraph 13.07, Contractor shall take no action that would void or otherwise impair Owner's special warranty and guarantee, if any, on said Work.

13.07 Correction Period

A. If within one year after the date of Substantial Completion (or such longer period of time as may be prescribed by the terms of any applicable special guarantee required by the Contract Documents) or by any specific provision of the Contract Documents, any Work is found to be defective, or if the repair of any damages to the land or areas made available for Contractor's use by Owner or permitted by Laws and Regulations as contemplated in Paragraph 6.11.A is found to be defective, Contractor shall promptly, without cost to Owner and in accordance with Owner's written instructions:

1. repair such defective land or areas; or

2. correct such defective Work; or

3. if the defective Work has been rejected by Owner, remove it from the Project and replace it with Work that is not defective, and

4. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others or other land or areas resulting therefrom.

B. If Contractor does not promptly comply with the terms of Owner's written instructions, or in an emergency where delay would cause serious risk of loss or damage, Owner may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. All claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others) will be paid by Contractor.

C. Where defective Work (and damage to other Work resulting therefrom) has been corrected or removed and replaced under this Paragraph 13.07, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed, or for the remaining period of time of any applicable special guarantee by the Contract Documents, whichever is longer.

D. Contractor's obligations under this Paragraph 13.07 are in addition to any other obligation or warranty. The provisions of this Paragraph 13.07 shall not be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

13.08 Acceptance of Defective Work

A. If, instead of requiring correction or removal and replacement of defective Work, Owner (and, prior to Engineer's recommendation of final payment) prefers to accept it, Owner may do so. Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) attributable to Owner's evaluation of and determination to accept such defective Work (such costs to be approved by Engineer as to reasonableness) and for the diminished value of the Work to the extent not otherwise paid by Contractor pursuant to this sentence. If any such acceptance occurs prior to Engineer's recommendation of final payment, a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work, and Owner shall be entitled to an appropriate decrease in the Contract Price, reflecting the diminished value of Work so accepted. If the parties are unable to agree as to the amount thereof, Owner may make a Claim therefor as provided in Paragraph 10.05. If the acceptance occurs after such recommendation, an appropriate amount will be paid by Contractor to Owner.

13.09 Owner May Correct Defective or Non-conforming Work

A. If Contractor fails within three (3) days after written notice from Engineer to correct defective or non-conforming Work, or to remove and replace rejected Work as required by Engineer in accordance with Paragraph 13.06.A, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any other provision of the Contract Documents, Owner may, after seven days written notice to Contractor, correct, or remedy any such deficiency.

B. In exercising the rights and remedies under this Paragraph 13.09, Owner shall proceed expeditiously. In connection with such corrective or remedial action, Owner may exclude Contractor from all or part of the Site, take possession of all or part of the Work and suspend Contractor's services related thereto, take possession of Contractor's tools, appliances, construction equipment and machinery at the Site, and incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere. Contractor shall allow Owner, Owner's representatives, agents and employees, Owner's other contractors, and Engineer and Engineer's consultants access to the Site to enable Owner to exercise the rights and remedies under this Paragraph.

C. All claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs and all costs for acceleration, additional forces or overtime) incurred or sustained by Owner in exercising the rights and remedies under this Paragraph 13.09 will be charged against Contractor, and a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work; and Owner shall be entitled to an appropriate decrease in the Contract Price. Further, Owner's exercise of its rights under this Article shall not be construed to be a waiver of liquidated damages for delay and shall be in addition to any other or further remedies available Owner under the Contract Documents.

D. Contractor shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to the exercise by Owner of Owner's rights and remedies under this Paragraph 13.09.

ARTICLE 14 – PAYMENTS TO CONTRACTOR AND COMPLETION

14.01 Schedule of Values

A. The Schedule of Values established pursuant to Paragraph 2.05.A of the General Conditions will serve as the basis for progress payments and will be incorporated into a form of Application for Payment acceptable to Owner/Engineer.

14.02 Progress Payments

A. *Applications for Payments:*

1. At least 20 days before the date established in the Agreement for each progress payment to be paid by Owner (but not more often than once a month), Contractor shall submit to Engineer and Owner for review an Application for Payment on AIA forms G702 and G703 and filled out and signed by Contractor based on the completion and progress of the project, and for Unit Price Work, based on the number of units completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents. For the Unit Price Work, Contractor shall not be entitled to payment for the performance of any quantities of the Unit Price Work unless prior to performing same the quantities are verified and approved, in writing, by the Engineer. If the Contractor proceeds with any Unit Price Work without obtaining the prior written approval of the Engineer, the Contractor shall not be entitled to payment for the performance of such Unit Price Work. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice, or other documentation warranting that Owner has received the materials and equipment free and clear of all Liens and evidence that the materials and equipment are covered by appropriate property insurance or other arrangements to protect Owner's interest therein, all of which must be satisfactory to Owner. Notwithstanding the foregoing, each Application for Payment shall show a complete breakdown of the Project components, the quantities completed and the amounts due, together with such data substantiating the Contractor's right to payment and such supporting evidence which may be requested by the Engineer or Owner including, but not limited to: (a) all Subcontractor requisitions; (b) where required by any manufacturers for extended warranties, inspection certificates or other acceptable documentation confirming the acceptable completion of any and all required inspections for the Work performed for which payment is being made; (c) all monthly reports required by any federal, state or local requirements including.

2. In addition, as a further condition to payment of each progress payment, Contractor shall: (i) submit partial release of lien from Contractor for the current Application for Payment, submit partial releases of lien from all laborers, material suppliers and Subcontractors through the date of the last payment made, and such other evidence that the Owner may reasonably require substantiating that all Work which is the subject of each such Application for Payment has been performed. The releases of lien form shall conform to the Florida's Construction Lien Law 713.01 et. seq. and/or Fla. Stat. § 255.05, and shall be in such forms as approved by the Owner. An updated Progress schedule shall be submitted at least monthly to the Owner and Engineer**.** Submission of the updated Progress schedule shall not serve as notice of delays and shall not be construed as Owner's consent to extensions of the Contract Time. Each Application for Payment shall be submitted in triplicate to the Engineer for approval.

3. Beginning with the second Application for Payment, each Application of Payment shall include an affidavit of Contractor stating that all previous progress payments received on account of the Work, have been applied on account to discharge Contractor's legitimate obligations associated with prior Applications for Payment. Commencing with the second Application for Payment, each Application for Payment shall also include unconditional partial releases of lien from all laborers, material suppliers and Subcontractors covering the prior progress payment to Contractor.

4. The amount of retainage with respect to progress payments will be as stipulated in the Agreement and shall be in accordance with Florida law.

B. *Review of Applications:*

1. Engineer will, within 10 days after receipt of each Application for Payment, either indicate in writing a recommendation of payment and present the Application for Payment to Owner or return the Application for Payment to Contractor indicating in writing Engineer's reasons for refusing to recommend payment. In the latter case, Contractor may make the necessary corrections and resubmit the Application for Payment.

2. Engineer's recommendation of any payment requested in an Application for Payment will constitute a representation by Engineer to Owner, based on Engineer's observations of the executed Work as an experienced and qualified design professional, and on Engineer's review of the Application for Payment and the accompanying data and schedules, that to the best of Engineer's knowledge, information and belief:

    a. the Work has progressed to the point indicated in the most recent Progress Schedule;

    b. the quality of the Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, a final determination of quantities and classifications for Unit Price Work under Paragraph 9.07, and any other qualifications stated in the recommendation); and

    c. the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work.

3. By recommending any such payment, Engineer will not thereby be deemed to have represented that:

    a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in the Contract Documents; or

    b. there may not be other matters or issues between the parties that might entitle Contractor to be paid additionally by Owner or entitle Owner to withhold payment to Contractor.

4. Neither Engineer's review of Contractor's Work for the purposes of recommending payments nor Engineer's recommendation of any payment, including final payment, will impose responsibility on Engineer:

    a. to supervise, direct, or control the Work, or

    b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or

    c. for Contractor's failure to comply with Laws and Regulations applicable to Contractor's performance of the Work, or

    d. to make any examination to ascertain how or for what purposes Contractor has used the moneys paid on account of the Contract Price, or

    e. to determine that title to any of the Work, materials, or equipment has passed to Owner free and clear of any Liens.

5. Engineer may refuse to recommend the whole or any part of any payment if, in Engineer's opinion, it would be incorrect to make the representations to Owner stated in Paragraph 14.02.B.2. Engineer may also refuse to recommend any such payment or, because of subsequently discovered evidence or the results of subsequent inspections or tests, revise or revoke any such payment recommendation previously made, to such extent as may be necessary in Engineer's opinion to protect Owner from loss because:

    a. the Work is defective, or completed Work has been damaged, requiring correction or replacement;

b. the Contract Price has been reduced by Change Orders;

c. Owner has been required to correct defective Work or complete Work of Contractor;

d. Engineer has actual knowledge of the occurrence of any of the events enumerated in Paragraph 15.02.A;

e. Claims filed or reasonable evidence indicating probable filing of claims by other parties against Contractor;

f. Failure of Contractor to make payments properly to Subcontractors or suppliers or for material or labor;

g. Damage to the work of another Contractor, Subcontractor, supplier, materialmen, party, or person not remedied;

h. Liquidated damages pursuant to Article 4.2 and 4.3 of the Agreement; and

i. Any other breach of the Agreement by Contractor.

C. *Payment Becomes Due:*

1. Ten days after presentation of the Application for Payment to Owner with Engineer's recommendation or no later than the 10th day of the following month, the amount recommended will (subject to the provisions of Paragraph 14.02.D) become due, and when due will be paid by Owner to Contractor.

2. When the Contractor herein receives payment from the Owner for labor, services or materials furnished by subcontractor and suppliers hired by the Contractor, the Contractor shall remit payment due those parties within ten (10) days after receipt of payment from the Owner, unless otherwise provided for by Florida Law. Further, when a subcontractor receives payment from the Contractor for labor, services, or materials furnished by subcontractors and suppliers hired by the subcontractor, the subcontractor shall remit payment due to those subcontractors and suppliers within 7 days after the subcontractor's receipt of payment.

3. The receipt of each progress payment by Contractor, a subcontractor or material supplier shall constitute a waiver of claims by that payee, except for those expressly made in writing by that payee as disputed and unsettled at the time of the subject progress payment.

D. *Reduction in Payment:*

1. Owner may refuse to make payment of the full or any amount recommended by Engineer because:

a. claims have been made against Owner on account of Contractor's performance or furnishing of the Work;

b. Liens have been filed in connection with the Work, except where Contractor has delivered a specific bond satisfactory to Owner to secure the satisfaction and discharge of such Liens;

c. there are other items entitling Owner to a set-off against the amount recommended; or

d. For any of the reasons which the Engineer may withhold or reduce certification of payment pursuant to Article 14.02(B)(5) or Owner has actual knowledge of the

occurrence of any of the events enumerated in Paragraphs 14.02.B.5.a through 14.02.B.5.c or Paragraph 15.02.A.

2. If Owner refuses to make payment of the full or any amount recommended by Engineer, Owner will give Contractor written notice within three (3) days of receipt of Engineer's certification (with a copy to Engineer) stating the reasons for such action and promptly pay Contractor any amount remaining after deduction of the amount so withheld. Owner shall promptly pay Contractor the amount so withheld, or any adjustment thereto agreed to by Owner and Contractor, when Contractor remedies the reasons for such action. Any amount withheld by Owner shall not give rise to a reason or justification for Contractor to stop performing the Work, provided Owner complies with the notice requirement stated herein and pays any undisputed amounts.

3. The Owner may, but shall not be obligated to, upon the issuance of a notice of non-payment by a Subcontractor, supplier or materialmen, or any other lienor, or claimant as defined by §255.05, Florida Statutes, make all or any portion of any progress payment by check payable jointly to the order of Contractor and any lienor giving timely notice, or may make such payment directly to such lienor and deduct said sum from the balance then due Contractor. However, such payment, if made, shall not create any third party beneficiary or other rights in such lienor or claimant. In making such payments to lienors or claimant, the Owner shall require such lienor or claimant to execute the applicable release of lien or the Waiver of Right to Claim Against Bond form in accordance with §255.05, Florida Statutes.

14.03 Contractor's Warranty of Title

A. Contractor warrants and guarantees that title to all Work, materials, and equipment covered by any Application for Payment, whether incorporated in the Project or not, will pass to Owner no later than the time of payment free and clear of all Liens.

14.04 Substantial Completion

A. Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or use the Work or a portion thereof for its intended use and that the following minimum requirements are met:

1. The Work is complete, ready for occupancy, and all persons or entities having jurisdiction over the Project have issued the appropriate permits, authorizations, and temporary certificates of occupancy for the Project, and the Work has passed all necessary inspections;

2. The exterior elements, such as Site cleanup and restoration (including without limitation removal of all excess materials, rock, sand, paving, debris, supplies, equipment, temporary structures, and trailers), paving, parking, landscaping and exterior building finishes, the interior spaces and finishes of the Work and all mechanical, electrical, plumbing and technical systems required by the Contract Documents, fire and life safety systems, are complete and fully operational and are ready for occupancy, the Contractor has submitted the Contractor's punch list with respect to such items and they have been inspected and approved by the Engineer and Owner as to scope, number, and content;

3. All warranties required by the Contract Documents have been delivered to Owner;

4. All equipment manuals and operational videos have been delivered to Owner and training by Contractor of Owner's staff is complete; and

5. The Owner has issued the Certificate of Substantial Completion, based on recommendation of Engineer concurrence that the required conditions has been satisfied.

B. When Contractor considers the entire Work ready for its intended use and all other requirements of Article 14.04A. have been satisfied, Contractor shall notify Owner and Engineer in writing that the entire Work is substantially complete (except for items specifically listed by Contractor as incomplete) and request that

Owner issue a certificate of Substantial Completion. The Owner may, at its sole discretion, accept portions of the Project separately, in which event the applicable parts of this Article 14.04A. shall apply to such portions of the Project;

C. Promptly after Contractor's notification, Owner, Contractor, and Engineer shall make an inspection of the Work to determine the status of completion. If Engineer does not consider the Work substantially complete, Engineer will notify Contractor in writing giving the reasons therefor.

D. If Engineer considers the Work substantially complete, Engineer will deliver to Owner a recommendation for approval of Substantial Completion. There shall be attached to the recommendation a list of items to be completed or corrected before final payment. Owner shall have seven days after receipt of the engineer's recommendation during which to make written objection to Engineer as to any provisions of the recommendation or attached list. If, after considering such objections, Engineer concludes that the Work is not substantially complete, Engineer will, within 14 days after submission of the their recommendation to Owner, notify Contractor in writing, stating the reasons therefor and revise the final punch list accordingly. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Contractor must complete all punch list items to the satisfaction of the Owner prior to Final Payment.

E. At the time of delivery of the engineer's recommendation for Substantial Completion, Engineer will clarify to Owner and Contractor as to division of responsibilities pending final payment between Owner and Contractor with respect to security, operation, safety, and protection of the Work, maintenance, heat, utilities, insurance, and warranties and guarantees. Unless Owner and Contractor agree otherwise in writing and so inform Engineer, Engineer's aforesaid recommendation will be binding on Owner and Contractor until final payment.

F. Owner shall have the right to exclude Contractor from the Site after the date of Substantial Completion subject to allowing Contractor reasonable access to remove its property and complete or correct items on the tentative list.

G. Final Punch List. In accordance with Section 218.70, Florida Statutes, following Substantial Completion, the Owner, Contractor and Engineer shall work together to supplement and finalize a list of items required to be completed for final completion of the Project within the following time frames:

1. For construction projects having an estimated cost of less than $10 million, within 30 calendar days after reaching Substantial Completion of the Work; or

2. For construction projects having an estimated cost of $10 million or more, within 30 calendar days, or, if extended by contract, up to 60 calendar days after reaching Substantial Completion of the Work.

Within five days after the punch list has been developed, Contractor shall deliver a copy of the list to Owner and Engineer. The failure to include any corrective work or pending items not yet completed on the final punch list or any punch list does not alter the responsibility of the Contractor to complete all of the Work in accordance with the Contract Documents. Contractor shall complete the final punch list items within the time periods specified above. Upon completion of all items on the final punch list, the Contractor may submit a payment request for all remaining retainage withheld by the Owner. If a good faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the Contract, the Owner may continue to withhold up to 150 percent of the total costs to complete such items.

14.05 Partial Utilization

A. Prior to Substantial Completion of all the Work, Owner may use or occupy any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which Owner, Engineer, and Contractor agree constitutes a separately functioning and usable part of the Work that can be used by Owner for its intended purpose without significant interference with Contractor's performance of

the remainder of the Work, subject to the following conditions:

1. Owner at any time may request Contractor in writing to permit Owner to use or occupy any such part of the Work which Owner believes to be ready for its intended use and substantially complete. If and when Contractor agrees that such part of the Work is substantially complete, Contractor, Owner, and Engineer will follow the procedures of Paragraph 14.04.for that part of the Work.

2. With Owner's approval, Contractor at any time may notify Owner and Engineer in writing that Contractor considers any such part of the Work ready for its intended use and substantially complete and request Ownerto issue a certificate of Substantial Completion for that part of the Work. However, in no event shall Owner or Engineer be obligated to deem a portion of the Work substantially complete or otherwise partially accept the Work. Owner may seek partial occupancy or use whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for completion or correction of the Work and commencement of warranties required by the Contract Documents.

3. Within a reasonable time after either such request, Owner, Contractor, and Engineer shall make an inspection of that part of the Work to determine its status of completion. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and Contractor in writing giving the reasons therefor. If Engineer considers that part of the Work to be substantially complete, the provisions of Paragraph 14.04 will apply with respect to certification of Substantial Completion of that part of the Work and the division of responsibility in respect thereof and access thereto.

4. No use or occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of Paragraph 5.08 regarding property insurance.

14.06 Final Inspection

A. Upon written notice from Contractor that the entire Work or an agreed portion thereof is complete, Engineer will promptly make a final inspection with Owner and Contractor and will notify Contractor in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. Contractor shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

14.07 Final Payment

A. *Application for Payment:*

1. After Contractor has, in the opinion of Engineer, satisfactorily completed all corrections identified in the final punch list and during the final inspection has delivered, in accordance with the Contract Documents, all maintenance and operating instructions not previously delivered , schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of inspection, marked-up record documents (as provided in Paragraph 6.12), and other documents, Contractor may make application for final payment following the procedure for progress payments.

2. The final Application for Payment shall be accompanied (except as previously delivered) by:

   a. all documentation called for in the Contract Documents, including but not limited to the evidence of insurance required by Paragraph 5.04.B.6;

   b. consent of the surety, if any, to final payment;

   c. a list of all Claims against Owner that Contractor believes are unsettled;

d. complete and legally effective final releases or waivers (satisfactory to Owner) of all Lien rights arising out of or Liens filed in connection with the Work;

e. an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied;

f. the final certificate of occupancy and all final governmental and utility authority permits have been issued;

g. Contractor has delivered to Owner all previously undelivered manufacturer and Subcontractor guarantees and warranties, and/or instruction manuals for appliances and equipment;

h. Contractor has delivered to Owner and Engineer all shop drawings, revised plans and final, complete and coordinated "as built" drawings in CAD and hard copy for the Work [including, without limitation, structural drawings, mechanical drawings (e.g., plumbing, air conditioning, fire sprinkler, etc.) and electrical drawings] detailing all changes or deviations from the original design;

i. Contractor has fully cleaned and restored the Site with respect to all of the final punch list work;

j. all temporary utilities are disconnected; and

k. Contractor has complied with all other requirements of the Contract Documents and all requirements of Owner.

3. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, Contractor may furnish a bond or other collateral satisfactory to Owner to indemnify Owner against any Lien.

B. *Engineer's Review of Application and Acceptance:*

1. If, on the basis of Engineer's observation of the Work during construction and final inspection, and Engineer's review of the final Application for Payment and accompanying documentation as required by the Contract Documents, Engineer is satisfied that the Work has been completed and Contractor's other obligations under the Contract Documents have been fulfilled, Engineer will, within ten days after receipt of the final Application for Payment, indicate in writing Engineer's recommendation of payment and present the Application for Payment to Owner for payment. At the same time Engineer will also give written notice to Owner and Contractor that the Work is acceptable subject to the provisions of Paragraph 14.09. Otherwise, Engineer will return the Application for Payment to Contractor, indicating in writing the reasons for refusing to recommend final payment, in which case Contractor shall make the necessary corrections and resubmit the Application for Payment.

2. Owner may withhold final payment to such extent as may be necessary on account of:

a. Defective Work not remedied;

b. Claims filed or reasonable evidence indicating probable filing of claims by other parties a against Contractor;

c. Failure of Contractor to make payments properly to Subcontractors or suppliers or for material or labor;

d. Damage to another contractor, subcontractor, supplier, materialmen, party, or person not remedied;

e. Liquidated damages;

f. As-built drawings not being in current and acceptable state; and/or

g. Any other breach of this Agreement by Contractor.

3. When the above grounds are removed or resolved or Contractor provides a surety bond or a consent of surety satisfactory to Owner, which will protect Owner in the amount withheld, payment may be made in whole or in part, as applicable.

C. *Payment Becomes Due:*

1. Thirty days after the presentation to Owner of the Application for Payment and accompanying documentation, the amount recommended by Engineer, less any sum Owner is entitled to set off against Engineer's recommendation, including but not limited to liquidated damages, will become due and will be paid by Owner to Contractor.

14.08 Final Completion Delayed

A. If, through no fault of Contractor, final completion of the Work is significantly delayed, and if Engineer so confirms, Owner shall, upon receipt of Contractor's final Application for Payment (for Work fully completed and accepted) and recommendation of Engineer, and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance to be held by Owner for Work not fully completed or corrected is less than the retainage stipulated in the Agreement, and if bonds have been furnished as required in Paragraph 5.01, the written consent of the surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by Contractor to Engineer with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of Claims.

14.09 Waiver of Claims

A. The making of any payment, including final payment, shall not constitute a waiver of claims by the Owner or a waiver of any of Contractor's continuing obligations.

B. Acceptance of final payment by the Contractor, a subcontractor or material supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

ARTICLE 15 – SUSPENSION OF WORK AND TERMINATION

15.01 Owner May Suspend Work

A. At any time and without cause, Owner may suspend the Work or any portion thereof for a period of not more than 90 consecutive days by notice in writing to Contractor and Engineer. Contractor shall resume the Work Upon written notification from Owner. Contractor shall be granted an adjustment in the Contract Price or an extension of the Contract Times, or both, directly attributable to any such suspension if Contractor makes a Claim therefor as provided in Paragraph 10.05.

15.02 Owner May Terminate for Cause

A. The occurrence of any one or more of the following events will justify termination for cause:

1. Contractor's failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment or failure to adhere to the Progress Schedule established under Paragraph 2.07 as adjusted from time to time pursuant to Paragraph 6.04);

2. Contractor's disregard of or failure to comply with Laws or Regulations of any public body having jurisdiction or the authority of the Engineer;

3. Contractor's failure to make payment to Subcontractors for services, materials or labor in accordance with the respective agreements;

4. Contractor is otherwise guilty of a material breach of a provision of the Contract Documents;

5. Contractor shall institute proceedings or consent to proceedings requesting relief or arrangement under the Federal Bankruptcy Act or any similar or applicable federal or state law, or if a petition under any federal or state bankruptcy or insolvency law is filed against the Contractor and such petition is not dismissed within sixty (60) days from the date of said filing;

6. Contractor admits in writing his inability to pay his debts generally as they become due, or if the Contractor makes a general assignment for the benefit of his creditors, or if a receiver, liquidator, trustee or assignee is appointed on account of his bankruptcy or insolvency; and

7. Contractor submits an Application for Payment, sworn statement, waiver of claim, affidavit or document of any nature whatsoever which is intentionally falsified.

B. If one or more of the events identified in Paragraph 15.02.A occur, Owner may, after giving Contractor (and surety) seven days written notice of its intent to terminate the services of Contractor:

1. exclude Contractor from the Site, and take possession of the Work and of all Contractor's tools, appliances, construction equipment, and machinery at the Site, and use the same to the full extent they could be used by Contractor (without liability to Contractor for trespass or conversion);

2. incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere; and

3. complete the Work as Owner may deem expedient.

C. If Owner proceeds as provided in Paragraph 15.02.B, Contractor shall not be entitled to receive any further payment until the Work is completed. If the unpaid balance of the Contract Price exceeds all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Owner arising out of or relating to completing the Work, such excess will be paid to Contractor. If such claims, costs, losses, and damages exceed such unpaid balance, Contractor and its surety shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be reviewed by Engineer as to their reasonableness and, when so approved by Engineer, incorporated in a Change Order. When exercising any rights or remedies under this Paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

D. Notwithstanding Paragraphs 15.02.B and 15.02.C, Owner, in its sole discretion, may choose not to terminate Contractor's services if Contractor begins within seven days of receipt of notice of intent to terminate to correct its failure to perform and proceeds diligently to cure such failure within no more than 15 days of receipt of said notice.

E. Where Contractor's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against Contractor then existing or which may thereafter accrue. Any retention or payment of moneys due Contractor by Owner will not release Contractor from liability.

F. If and to the extent that Contractor has provided a performance bond, that bond shall incorporate the provisions of this Agreement.

15.03 Owner May Terminate For Convenience

A. The Owner may terminate this contract for convenience upon providing Contractor fourteen (14) days written notice of the same. If this Contract is terminated as provided herein, the Contractor shall be paid for all completed and acceptable Work executed and allowable and proven demobilization expenses incurred due to such termination. Payment shall include services actually performed in full prior to termination date, but shall exclude all lost profits, direct, indirect, consequential, special damages, or other damages for the remainder of the Project.

If a court of competent jurisdiction finds that the Owner wrongfully terminated this Contract, then in such event, this Contract shall be deemed terminated for convenience as provided for in this Paragraph 15.03A., and the Contractor shall not be entitled to damages or loss of profits, consequential, indirect, or special damages, but may be entitled to all items as authorized herein.

15.04 Contractor May Stop Work or Terminate

A. If, through no act or fault of Contractor, (i) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (ii) Engineer fails to act on any Application for Payment within 30 days after it is submitted, or (iii) Owner fails for 30 days to pay Contractor any sum finally determined to be due, then Contractor may, upon fourteen (14) days written notice to Owner and Engineer, and provided Owner or Engineer do not remedy such suspension or failure within that time, terminate the Contract and recover from Owner for call completed and acceptable Work executed and allowable and proven demobilization expenses as a result of such termination, but in no event shall Contractor be entitled to any lost profits, overhead, direct, indirect, consequential special damages or other damages for the remainder of the Project.

B. In lieu of terminating the Contract and without prejudice to any other right or remedy, if Engineer has failed to act on an Application for Payment within 30 days after it is submitted, or Owner has failed for 30 days to pay Contractor any sum finally determined to be due, Contractor may, seven days after written notice to Owner and Engineer, stop the Work until payment is made of all such amounts due Contractor, including interest thereon. The provisions of this Paragraph 15.04 are not intended to preclude Contractor from making a Claim under Paragraph 10.05 for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to Contractor's stopping the Work as permitted by this Paragraph.

ARTICLE 16 –

16.01 [This paragraph intentionally left blank].

ARTICLE 17 – MISCELLANEOUS

17.01 Giving Notice

A. Whenever any provision of the Contract Documents requires the giving of written notice, it will be deemed to have been validly given if:

1. delivered in person to the individual or to a member of the firm or to an officer of the corporation

for whom it is intended; or

2. delivered at or sent by registered or certified mail, postage prepaid, Federal Express or other similar carrier with signature required to the last business address known to the giver of the notice.

17.02 Computation of Times

A. When any period of time is referred to in the Contract Documents by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

17.03 Cumulative Remedies

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to, and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract Documents. The provisions of this Paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

17.04 Survival of Obligations

A. All representations, indemnifications, warranties, and guarantees made in, required by Contractor, or given in accordance with the Contract Documents, as well as all continuing obligations indicated in the Contract Documents, will survive final payment, completion, and acceptance of the Work or termination or completion of the Contract or termination of the services of Contractor.

17.05 Controlling Law

A. This Contract is to be governed by the law of the State of Florida. Any legal proceeding arising from the Contract Documents shall be brought only in a court of competent jurisdiction in Palm Beach County, Florida.

17.06 Headings

A. Article and paragraph headings are inserted for convenience only and do not constitute parts of these General Conditions.

SECTION 01 11 00

SUMMARY OF WORK

PART I GENERAL

1.01 WORK COVERED BY CONTRACT DOCUMENTS

1.0 GENERAL SCOPE

The work described in these Specifications is for the rehabilitation, maintenance, and new well construction for the Village of Wellington (OWNER) Surficial Aquifer System wellfield, located in Wellington, Florida. The OWNER may elect to rehabilitate or perform maintenance for some or all of the wells, as well as construct new wells, as the OWNER sees fit. The OWNER will determine the scope of work and the order in which that scope is to take place. No work is guaranteed under this Contract and any generated scope shall be subject to approval by the Village of Wellington Council individually. The well location maps and a construction details table are provided as Exhibits at the end of these specifications. The CONTRACTOR shall perform all work in accordance with specification sections provided in the contract documents. Examples of typical work scopes for these wells are described below. The actual work scope will vary; this is only provided to give insight as to the nature of the work.

- Remove wellhead and pump assembly, perform preliminary downhole video remove existing screen and riser, install new screen and riser, install new gravel pack, develop well, perform post rehabilitation video, replace wellhead and pump assembly, disinfect well, bacteriological testing, demobilize, restore site.

- Remove wellhead and pump assembly, perform preliminary downhole video, brush existing screen and riser, install new gravel pack, develop well, perform post rehabilitation video, replace wellhead and pump assembly, disinfect well, bacteriological testing, demobilize, restore site.

- Remove wellhead and pump assembly, perform preliminary downhole video, perform acid treatment of existing screen and riser, install new gravel pack, develop well, perform post rehabilitation video, replace wellhead and pump assembly, disinfect well, bacteriological testing, demobilize, restore site.

- Remove wellhead and pump assembly and abandon well, restore site.

In performing the scope of work, the CONTRACTOR shall furnish all labor,

materials, transportation, tools, supplies, equipment and necessary appurtenances to rehabilitate the production wells to the satisfaction of the OWNER as specified herein.

2.0 EQUIPMENT AND PERSONEL

The CONTRACTOR shall furnish capable personnel and equipment required to handle the materials and perform the tasks specified herein. The OWNER or its Representative shall reserve the right to inspect the equipment of the drilling CONTRACTORs to assure qualification. The awarded CONTRACTOR shall repair or replace any equipment not considered by the OWNER or it's Representative to be satisfactory. At the OWNER's discretion, the CONTRACTOR shall demonstrate the accuracy and precision of the CONTRACTOR's methods of measurement.

The CONTRACTOR shall provide and mobilize a minimum of two (2) clean water storage tanks, having minimum capacities of 500-gallons and 2000-gallons, for the CONTRACTOR's use onsite. The tank shall be acceptable to the OWNER and be used for storage of water, mixing chlorine, surfactant and acid prior to installation of mixtures into the well.

3.0 SITE CONDITIONS

Each well site is located in an area with adequate access. The CONTRACTOR is assumed to have viewed the well sites before submitting a bid. CONTRACTOR shall remove external piping, fittings, valves, wellhead assembly, pump column, and pump and secure exposed wiring from harm during site activities. If required, a fence CONTRACTOR shall do fence removal and replacement. If required, the CONTRACTOR shall restore sod and plantings. Other existing improvements at each site shall be removed, as needed, with prior approval by the OWNER. During the period of the contract, the CONTRACTOR will protect all well appurtenances removed by the CONTRACTOR; protect all remaining improvements; and protect any equipment loaned to the CONTRACTOR.

The CONTRACTOR will advise the OWNER of any device or appurtenances known by the CONTRACTOR to be broken or unstable upon discovery. The CONTRACTOR shall replace, at the CONTRACTOR's expense, items that are broken or rendered unusable as a result of actions by the CONTRACTOR.

4.0 DESCRIPTION OF PRODUCTION WELLS

The existing well construction details are provided in Attachment 1 of the Appendix of these specifications.

5.0 SPECIFIC WELL REHABILITATION WORK TASKS

Well rehabilitation may include the following work tasks or any combination thereof:

A. *Mobilization (major or minor)*: Included in this task is the transport of all necessary drilling equipment, pumps, motors, surge tanks and other ancillary equipment on site, including restroom facilities for CONTRACTOR'S use, removal of fencing, landscaping, grubbing and preparation of the site for set-up of the rig and all necessary equipment and set-up of all necessary drilling and/or rehabilitation equipment to perform the well rehabilitation, including erosion prevention measures, drainage Best Management Practices, and sedimentation collection measures. All associated permitting requirements to transport and set-up the drilling equipment are also included in this task. Determination of mobilization type (major/minor) is outlined by task per the table provided in this section.

During all rehabilitation work, the CONTRACTOR shall secure any well within his/her scope of work and prevent unauthorized access at all times in accordance with Section 33 21 32. When the CONTRACTOR is off site, the wellhead shall be sealed and watertight. Temporary wellhead seals shall be bolted in place and inaccessible to unauthorized entry into the well.

B. *Removal and installation of pump:* CONTRACTOR shall remove external piping, fittings, valves, wellhead assembly, pump column, and pump and secure exposed wiring from harm during site activities.

Following the well rehabilitation, the CONTRACTOR shall re-install any of the equipment previously removed unless approval not to do so is given in writing by the OWNER or the ENGINEER. The removed pump may be stored on site up to one (1) week during the out-of-service period. If the duration of the out-of-service period is greater than one (1) week, then the pump is to be transported by the CONTRACTOR to the OWNER water plant for storage. The CONTRACTOR shall protect OWNER property in accordance with Section 10.0 Protection of Property within this specification. Installation of pump/motor item may also include installation of OWNER furnished pump and motor.

C. *Pump retrieval:* CONTRACTOR shall perform retrieve of pump/motor assembly as directed by the ENGINEER.

D. *Video logging:* CONTRACTOR shall perform static and dynamic, 360-degree, color, video logging of the entire well in accordance with Section 33 21 24.

E. *Acid treatment:* The CONTRACTOR is responsible for all potential receptors that may be impacted by the acid treatment activity and will use best management practices in keeping all receptors free from harm. Prior to acidization Contractor will provide plan for acidization including wellhead set up for approval by ENGINEER. The CONTRACTOR shall set up and acidize the well screen in accordance with Section 33 21 28.

F. *Brushing and swabbing:* The CONTRACTOR shall perform swabbing of the existing well casing. Maximum swabbing diameter shall be no more than ½ inch less the I.D. of the existing well casing as determined in the field. Swabbing tool dimensions shall be submitted to the ENGINEER in accordance with Section 01 33 00.

G. *Fill and compaction of site voids:* The CONTRACTOR shall perform fill and compaction of well site voids as necessary and determined by the ENGINEER. Site compaction shall include areas surrounding the immediate well site to stabilize the surface feature.

H. *Profile well:* Drill a nominal 6-inch diameter pilot hole to a depth of approximately 180 feet below land surface using the mud rotary method. The pilot hole will be drilled on the centerline of the production well as shown on the project drawings and as approved by the ENGINEER. Formation samples shall be collected by the CONTRACTOR every 5 feet, at a minimum, or as otherwise specified by the ENGINEER. Prepare the pilot hole for geophysical logging by circulation of the drilling fluids until uniform and free of drill cuttings. A geophysical logging suite shall be conducted by the CONTRACTOR and shall include Dual Induction log; Natural gamma log; Spontaneous potential log; Caliper log; Fluid Resistivity log. The CONTRACTOR may set a temporary surface casing to facilitate drilling the pilot hole. The CONTRACTOR will determine the setting depth of the temporary surface casing. Following completion of geophysical logging, the CONTRACTOR shall install a continuous casing string of approximately 180 feet of 2-inch diameter casing and 10 feet of 0.020-inch slot well screen. CONTRACTOR will then install gravel pack in the annular space between the casing, screen and the borehole. Gravel shall be placed using only the tremie method from the base of the well screen to land surface. Gravel will be added as needed to support the casing and fill the borehole as it is pulled to shallower depths. Develop the well using airlift method until turbidity is lowered to an acceptable level for collecting a water sample as

determined by the ENGINEER. The CONTRACTOR shall provide a test/sampling pump to allow for representative water samples to be collected by the ENGINEER and OWNER. Upon completion of development and sampling, raise casing and screen to a depth directed by ENGINEER. Develop and sample as described above. This procedure will be repeated up to 5 times, as determined by the ENGINEER. Upon completion of the test well sampling, CONTRACTOR shall remove the test well and plug and abandon the borehole in accordance with applicable regulations project drawings.

I. *Development (Including airlift, jetting with simultaneous airlift, and pump development):* The CONTRACTOR will provide all pumps, motors, air compressors, surge tanks and other ancillary equipment needed to develop each screened well to the extent that, as practical, suspended solids have been removed from the well bore, screen and gravel pack, in accordance with Section 33 21 25.

J. *New Well Construction*

a. *30-inch surface casing installation.* Drill, furnish, install, and cement in place approximately 30 feet of 30-inch outside diameter, steel surface casing having a minimum wall thickness of 0.375 inches. Welded casings shall be straight and true of alignment to the satisfaction of the ENGINEER. Casings shall have machine-cut beveled ends and shall be arc welded together by the standards of the American Welding Society. Installation and grouting shall be in accordance with Section 33 21 21 and Section 33 21 22.

b. *Drilling for 24-inch casing installation.* Drill a nominal 28-inch diameter borehole using the mud rotary method. A staged bit shall be used that includes a lead bit placed below the reaming bit assembly. Prepare the borehole for casing installation by circulating the drilling fluid until all drill cuttings have been removed. Drilling shall be performed in accordance with Section 33 21 20.

c. *Furnish, install and grout 24-inch casing.* Furnish and install a continuous casing string of 24-inch diameter (O.D.), Schedule 40 PVC casing. Casing construction, assembly and installation shall be in accordance with Section 33 21 21. Grout the annular space between the 24-inch diameter PVC casing and the borehole and 36-inch diameter surface casing with neat cement in accordance with Section 33 21 22. Allow grout to cure for a minimum 48 hours before resuming drilling operations.

d. *Drill screened interval:* Drill a nominal 22-inch diameter borehole using the method as specified in Section 33 21 20.

The depth of the borehole shall be measured from the base of the 24-inch diameter PVC casing and to a depth determined by the ENGINEER. 12.0 Reverse air drilling will be performed in accordance with Section 33 21 20.

e. *Install within well, new well screen and riser:* The CONTRACTOR will supply and install the specified amount of stainless-steel well screen. Furnish and install 16-inch diameter, 316 stainless steel continuous slot well screen and 16-inch diameter, CertainTeed CertaLok SDR26 PVC riser casing. The riser casing/well screen lengths are outlined in the table above in Part III Execution, 3.02 Construction Scope of Work. The top of the screen shall be fitted to 16-inch diameter, CertainTeed CertaLok SDR26 PVC riser casing which shall be continuous up to land surface. Screen and riser casing construction, assembly and installation will be in accordance with Sections 33 21 21 and 33 21 23.

K. *Overdrill Well:*

a. *Remove existing well screen.* The existing well screen, gravel pack and riser will be completely removed by the CONTRACTOR.

b. *Overdrill existing outer casing.* Remove the existing outer casing by the overdrill method. The CONTRACTOR may submit a plan for an alternative method for removal of the existing casing for review and approval by the ENGINEER. To the furthest extent possible, the CONTRACTOR shall preserve the integrity of the existing borehole by avoiding drilling/reaming of the existing completion interval and by avoiding the use of and/or introduction of bentonite drilling fluids (mud) or drilling fluid additives to the existing completion interval.

c. *Furnish, install and grout 24-inch casing.* Furnish and install a continuous casing string of 24-inch diameter (O.D.), Schedule 40 PVC casing. Casing construction, assembly and installation shall be in accordance with Section 33 21 21. Grout the annular space between the 24-inch diameter PVC casing and the borehole and 36-inch diameter surface casing with neat cement in accordance with Section 33 21 22. Allow grout to cure for a minimum 48 hours before resuming drilling operations.

d. *Clean-out open hole:* The CONTRACTOR shall clean-out the open borehole from the base of the outer casing to the total well depth to satisfaction of the ENGINEER. This is to include all necessary equipment, materials and labor needed to complete the work in accordance with Section 33 21 20.

Reverse air drilling will be performed in accordance with Section 33 21 20.

e. *Install within overdrilled well, new well screen and riser:* The CONTRACTOR will supply and install the specified amount of stainless-steel well screen. Furnish and install 16-inch diameter, 316 stainless steel continuous slot well screen and 16-inch diameter, CertainTeed CertaLok SDR26 PVC riser casing. The riser casing/well screen lengths are outlined in the table above in Part III Execution, 3.02 Construction Scope of Work. The top of the screen shall be fitted to 16-inch diameter, CertainTeed CertaLok SDR26 PVC riser casing which shall be continuous up to land surface. Screen and riser casing construction, assembly and installation will be in accordance with Sections 33 21 21 and 33 21 23.

L. *Screen replacement:*

a. *Remove screen and riser:* The existing well screen, gravel pack and riser will be completely removed by the CONTRACTOR. The existing outer casings shall remain in place and undamaged.

b. *Clean-out open hole:* The CONTRACTOR shall clean-out the open borehole from the base of the outer casing to the total well depth to satisfaction of the ENGINEER. This is to include all necessary equipment, materials and labor needed to complete the work in accordance with Section 33 21 20.

c. *Install new 12-inch diameter well screen and riser:* The CONTRACTOR will supply and install the specified amount of stainless-steel well screen. This work shall include, but not be limited to, stainless steel wire-wrapped screen, stainless steel blank sections of well screen, bail hook, all labor, materials and equipment necessary for proper screen installation. Well Screen shall be 12-inch diameter based on the well construction details of the existing well outer casing and determined by the ENGINEER and OWNER. Well screens shall be installed in accordance with Section 33 21 23.

M. *Geophysical logging:* CONTRACTOR shall perform geophysical logging of all drilled boreholes in accordance with Section 33 21 24.

N. *Squeeze Grouting of Existing Well Casing:* The CONTRACTOR shall perform squeeze grouting of the base of the existing well casing. Squeeze grouting shall be performed in accordance with Section 33 21 22.

O. *Install new well-screen and riser:* The CONTRACTOR will supply and install the specified amount of stainless-steel well screen. This work shall include, but not be limited to, stainless steel wire-wrapped screen, stainless steel blank sections of well screen, bail hook, all labor, materials and equipment necessary for proper screen installation. Well Screen may be 10-inch or 12-inch diameter based on the well construction details of the existing well outer casing and determined by the ENGINEER and OWNER. Well screens shall be installed in accordance with Section 33 21 23.

P. *Install gravel pack:* Gravel pack shall be installed in accordance with Section 33 21 23. Levels shall be measured continuously during development with the use of tremie tubing and replenished as needed. Replacement gravel material shall be as specified for each well by the ENGINEER. At completion of development, the gravel elevation shall remain at the level designated by the ENGINEER.

Q. *Well disinfection:* The CONTRACTOR shall disinfect each production well, pump facilities, wellhead, and added piping complete according to the requirements of AWWA C-601 and Section 33 21 29.

R. *Well abandonment:* The CONTRACTOR shall perform well abandonment in accordance with State of Florida well drilling practices and AWWA standards, including obtaining all required permits and performing all preliminary investigations for determination of existing well construction in accordance with Section 33 29 00.

S. *Site Restoration (major or minor)*: The CONTRACTOR shall perform the well site(s) to its original condition. Determination of restoration type (major/minor) is outlined by task per the table provided in this section.

6.0 SPECIFIC WELL REHABILITATION TASK TIME FRAMES

Well rehabilitation may include the work tasks provided in the table at the end of this Section, or any combination thereof. The time allocated for each task is also included in the table. The intent of the list of work tasks is to provide the CONTRACTOR insight into the type of work that may be required and the time in which it is expected to be completed. The task numbers listed in the table correspond to the items listed on the Bid Schedule of Values.

7.0 DISPOSAL OF WASTES

The CONTRACTOR shall provide containment for all fluids and solids associated with the work described in these specifications. The CONTRACTOR shall dispose of all spent wastes off site in an

environmentally responsible manner and in accordance with all implementing regulatory agencies. Water that meets criteria for discharge on site may be discharged on site. The CONTRACTOR shall minimize flooding to adjacent properties and roadways. If necessary, temporary berms will be constructed and/or piping shall be installed to divert all discharge water to an approved drainage structure. CONTRACTOR shall be responsible for implementing Best Management Practices (BMPs) for erosion and drainage protection.

8.0 SITE RESTORATION

Upon completion of the work, the CONTRACTOR shall replace pump, pump column, wellhead, piping, security fence, landscaping, irrigation, sod and all other appurtenances to restore each site to the satisfaction of the OWNER. CONTRACTOR is responsible for watering and establishing sod to healthy state within 30 days of placing sod. The OWNER will make all electrical connections. At the OWNER's discretion, the CONTRACTOR may make pump electrical terminations. Each well shall be left clean; free of oils, grease, or other substances used during rehabilitation. The CONTRACTOR shall remove from the site all removed deposits, existing well materials, debris, unused materials and chemicals and shall restore the site to its original or better condition acceptable to OWNER. Site restoration shall also include any restoration work to the water discharge outfalls, drainage ditches and canals.

9.0 REPORTING

On a daily basis, the CONTRACTOR shall provide verbal status reports and submit a copy of the daily log to the OWNER or the ENGINEER. A daily field log shall be maintained and updated on a daily basis. Include in the log the names of personnel on site, hours on site performing rehabilitation services and a detailed description of type of work performed, chemical, water and mud additives, quantities of additives to the well, development technique used, pumping rates, drawdown measurements, static water level measurements (measured at the beginning of each day), Rossum sand measurements, any problems, date and time for each entry. The log shall be kept current with a copy located at the drill site, and be available for inspection by the ENGINEER. Any pay application submitted with incomplete daily logs will be automatically rejected. The CONTRACTOR may copy the log for submittal at the OWNER water plant. The CONTRACTOR shall notify the OWNER immediately if unforeseen or unanticipated complications or conditions that occur during the performance of the scope of work.

10.0 PROTECTION OF PROPERTY

The CONTRACTOR shall take special precautions to reduce to a minimum the nuisances and damage to property which could result from working in a

residential area and adjacent to a road. Any damage to public or private property shall be immediately repaired or paid for by the CONTRACTOR at no expense to the OWNER. During the period of the contract, the CONTRACTOR will protect all well appurtenances removed by the CONTRACTOR; protect all remaining improvements; and protect any equipment loaned to the CONTRACTOR by the OWNER. If the CONTRACTOR becomes aware of any faulty or damaged OWNER equipment, he/she shall notify the OWNER immediately.

11.0 CERTIFICATION OF CHEMICALS

All chemicals used during project construction or furnished for project operation, whether herbicide, pesticide, disinfectant, polymer reactant or of other classification, must show approval of the Environmental Protection Agency (EPA), American Water Works Association (AWWA), US Department of Agriculture (USDA) and National Science Foundation (NSF). Use of all chemicals and disposal of residues shall be in strict conformance to applicable regulations, codes, laws, and ordinances.

12.0 PURCHASING OF PARTS/EQUIPMENT

The OWNER may request the CONTRACTOR to purchase parts and/or equipment for certain wells as needed. CONTRACTOR shall purchase and deliver equipment to the well site for the OWNER at cost in accordance with Article 12-Change of Contract Price, Change of Contract Time in the General Conditions. OWNER will require original vendor receipts for all items purchased. The OWNER may require that the CONTRACTOR provide up to three prices from different vendors. Any installation/modifications associated with equipment purchased if required will be paid for at the rate specified on the Bid Schedule of Values for Crew Foreman and one Crew Member (Item 28).

1.02 CONTRACT TIMEFRAME

1.0 The CONTRACTOR shall mobilize to the site and be actively performing the scope of work required in these specifications within 30 calendar days upon authorization to proceed (NOTICE TO PROCEED) by the OWNER. The CONTRACTOR shall be diligent in completing the specified tasks and shall not discontinue work on the specified well, except during the material order period for the specified well. While the CONTRACTOR is performing the tasks authorized by the OWNER, the CONTRACTOR shall continue to perform the authorized tasks, during normal working hours, to completion. Normal working hours are defined as Monday through Friday, between 8:00 AM and 4:00 PM, excluding OWNER observed holidays and weekends. A list of OWNER holidays is available from upon request.

1.03 WORK BY OTHERS, COORDINATION

1.0 The CONTRACTOR shall yield to operations at the water treatment plant at all times and not interfere in any way with operations or personnel. The CONTRACTOR shall comply and adhere to all security requirements including but not limited to background checks and issuance of security badges. Access to the well site and work areas shall be limited to the areas shown on the project drawings and as discussed in the pre-construction meeting(s).

2.0 The CONTRACTOR shall coordinate with the OWNER regarding coordination of laydown areas and staging areas.

3.0 The CONTRACTOR shall diligently perform the scope of work independently of all others who may perform concurrent tasks during execution of the scope of work.

4.0 All CONTRACTOR equipment at individual well sites shall be contained within OWNER easements only. All work shall be in accordance with the existing easement agreements schedule limitations.

5.0 Perimeter fencing must be secured at all times including but not limited to the installation of temporary construction fencing prior to the removal of existing perimeter and security fencing required for construction. CONTRACTOR must submit a plan outlining the installation and removal of fencing for approval by OWNER prior to mobilization.

6.0 The OWNER's representative reserves the right to, throughout the construction process, perform onsite inspections of the CONTRACTOR and construction process. Documentation of work may include, but not be limited to, detailed documentation of daily work performed by the CONTRACTOR, and photographs and/or videos of critical phases of well construction, development, and testing.

7.0 CONTRACTOR must contact the Palm Beach County Health Department and submit the "Well Construction Permit Application" if applicable, and any others required for construction, prior to commencement of well drilling activities. A minimum 30 calendar days will be built into the CONTRACTOR's schedule for Palm Beach County Health Department review period.

8.0 The CONTRACTOR shall submit to the ENGINEER, plans to mitigate the construction noise and vibration impacts and comply with the noise and vibration criteria specified herein, including the method of construction and treatments if necessary.

SURFICIAL AQUIFER PRODUCTION WELL REHABILITATION TASKS TIMETABLE

Schedule of Values Task No.	Task	Contract Time to Complete Task (calendar days)	Mobilization Type	Restoration Type
6	Remove Pump/Motor	2	Minor	Minor
7	Re-install Pump/Motor	2	Minor	Minor
8	Pump/Motor Retrieval	5	Minor	Minor
9/10	Acid Treatment	10	Major	Major
11	Brushing and Swabbing	7	Major	Major

*Does not include lead time to procure items; listed contract time is construction installation duration only.

END OF SECTION

SECTION 01 29 00

MEASUREMENT AND PAYMENT

PART I GENERAL

1.01 GENERAL REQUIREMENTS

A. The unit prices stated in the Contract shall be considered payment in Full for the completion of all work. Payment shall be made under each item only for work as it is not specifically included under other items.

B. The CONTRACTOR shall furnish all labor, equipment and material required to complete the rehabilitation of Surficial wells for the Village of Wellington (OWNER).

C. The CONTRACTOR's attention is called to the fact that the quotations for the various items of Work are intended to establish a total price for completing the Work in its entirety. Should the CONTRACTOR feel that the cost of any item of Work has not been established by the Schedule of Values or Measure and Payment, he shall include the cost for that Work in the other Bid Items so that his proposal for the project does reflect his total price for completing the Work in its entirety.

D. CONTRACTOR applications for payment shall comply with OWNER contract terms and conditions.

E. A daily field log shall be maintained and updated on a daily basis. Any pay application submitted with incomplete daily logs will be automatically rejected.

PART II PRODUCTS (NOT USED)

PART III EXECUTION

3.01 REHABILITATION OF SURFICIAL AQUIFER WELLS

A. ITEM NO. 1 – BONDS AND INSURANCE

This pay item shall include the costs of required and acceptable bonds and insurance for the project in place for two years. Bonds and insurance shall be paid in full at the Line Item Lump Sum Price as specified in the Contract Documents, completed and accepted by the OWNER.

Payment for this item shall be made on the first Application for Payment. CONTRACTOR shall provide OWNER with Certificates of Insurance and Bonds during the CONTRACT execution process.

B. ITEM NO. 2 – INDEMNIFICATION

One-time Indemnification payment will be made with the first Application for Payment for the Line Item Lump Sum Price as specified in the Contract Documents.

C. ITEM NO. 3 – GENERAL CONDITIONS

The work specified in this item shall include the costs to comply with all elements of the General Conditions of the Contract, including but not limited to: record keeping, safety, permitting, project management and all other costs necessary to the job.

Payment shall be made at the Contract Lump Sum Price as specified in the Contract Documents. Measurement will be based on the percentage of work completed and accepted by OWNER and does not include the percentage of any stored materials.

D. ITEM NO. 4 – MAJOR MOBILIZATION/DEMOBILIZATION

The work included in this Pay Item consists of preparatory work, finish work, mobilizing and demobilizing for beginning and ending work for major rehabilitation items as outlined by task in Section 01 11 00, including, but not limited to, those operations necessary for the movement of personnel, equipment, supplies and incidentals to and from the project site and for the establishment/de-establishment of the temporary provisions and state and local laws and regulations including pre-construction video, sanitary facilities and any other pre or post construction expense necessary for starting or completing the work. This item is limited to ten percent (5%) of the Contract Value (TOTAL BID).

Payment for this item shall be made at the Contract Unit Price for each well major mobilization following completion of mobilization to the well site and acceptance by the OWNER.

E. ITEM NO. 5 – MINOR MOBILIZATION/DEMOBILIZATION

The work included in this Pay Item consists of preparatory work, finish work, mobilizing and demobilizing for beginning and ending work for minor rehabilitation items as outlined by task in Section 01 11 00, including, but not limited to, those operations necessary for the movement of personnel, equipment, supplies and incidentals to and from the project site and for the establishment/de-establishment of the temporary provisions and state and local laws and regulations including pre-construction video, sanitary facilities and any other pre or post construction expense necessary for starting or completing the work. This item is limited to ten percent (10%) of the Contract Value (TOTAL BID).

Payment for this item shall be made at the Contract Unit Price for each well minor mobilization following completion of mobilization to the well site and acceptance by the OWNER.

F. ITEM NO. 6 – REMOVE PUMP/MOTOR AND DISCHARGE APPARATUS

This pay item shall include removal of well pump, wellhead piping assemblies, and electrical service and controls, and assessment of pulled equipment and proper disposal as specified in contract documents.

Payment for this item shall be made at the Contract Unit Price for Each complete pump removal as specified in the Contract Documents and witnessed and accepted by ENGINEER.

G. ITEM NO. 7 – INSTALL PUMP/MOTOR AND DISCHARGE APPARATUS

This pay item shall include reinstall of existing well pump, wellhead piping assemblies, and electrical service and controls, and assessment of equipment as specified in contract documents or installation of OWNER furnished new well pump and motor and associated wellhead piping assemblies.

Payment for this item shall be made at the Contract Unit Price for Each complete pump installation as specified in the Contract Documents and witnessed and accepted by ENGINEER.

H. ITEM NO. 8 – PUMP/MOTOR RETRIEVAL

This pay item shall include all materials, equipment, labor required to completely and successfully retrieved pump and motor assembly.

Payment for this item shall be made at the Contract Unit Price for Each successfully retrieved pump and motor assembly as specified in the Contract Documents and witnessed and accepted by ENGINEER.

I. ITEM NO. 9 – WELL ACIDIZATION SETUP

This pay item consists of preparatory work, finish work, mobilizing and demobilizing for beginning and ending work, including, but not limited to, those operations necessary for well acidization including but not be limited to setup, provide acid pumping, labor and equipment necessary to acidize the well and to complete the acid treatment as specified in the Contract Documents accepted by the ENGINEER.

Payment will be made at the Contract Unit Price for Each well based upon the percentage of the work completed, and approved by the OWNER

J. ITEM NO. 10 –WELL ACIDIZATION TREATMENT WITH 32% HCL

This pay item consists of 32% HCL acidization including but not be limited to furnishing and placing the acid as specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price per Gallon of 32% HCL Acid as specified in the Contract Documents and accepted by the ENGINEER as determined by delivery tickets and field observations, in accordance with Contract Documents.

K. ITEM NO. 11 – BRUSHING AND SWABBING OF WELL SCREEN/RISER/CASING

This pay item shall include brushing of the full length of existing well screen, riser, or casing, including but not limited to all material, labor and equipment necessary to complete the work in accordance with the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price for Each successful brushing of the entire well length as specified in the Contract Documents and accepted by the ENGINEER.

L. ITEM NO. 12 – FILL AND COMPACTION OF SITE VOIDS

This pay item shall include fill and compaction of the well site of void areas, limited to areas within a 20 foot radius of the well site, including but not limited to all grading, material, compaction testing, labor and equipment necessary to complete the work in accordance with the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price for Each successful fill and compacted well site as specified in the Contract Documents and accepted by the ENGINEER.

M. ITEM NO. 13 – 6-INCH DIAMETER PROFILE WELL DRILLING, SAMPLING, ABANDONMENT

This pay item shall include the drilling of a nominal 6-inch diameter pilot hole to 160 feet below land surface at a location adjacent to the existing production well including geophysical logging, furnished and installed 2-inch diameter casing and well screen to 160 feet, development and water quality sampling at each depth interval, and proper plug and abandonment of the pilot hole as specified and in accordance with contract documents including but not be limited to all labor, equipment, grout, development time, proper disposal of drilling mud, and other materials necessary to properly perform test hole testing as described and specified in the Contract Documents and accepted by the ENGINEER.

Payment for this item shall be made at the Contract Unit Price for Each profile well as listed on the Contract Bid Proposal as specified in contract documents.

N. ITEM NO. 14 – FURNISH, INSTALL AND GROUT IN PLACE 30-INCH DIAMETER STEEL SURFACE CASING TO 30 FEET

This pay item shall include the 30-inch outside diameter (O.D.) surface casing furnished, installed and grouted in place and shall include, but not be limited to, all labor, equipment, centralizers, annular grout and other materials necessary to properly install the casing as described and specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

O. ITEM NO. 15 – DRILL NOMINAL 28-INCH DIAMETER BOREHOLE USING MUD ROTARY METHOD

This pay item includes the actual length of borehole drilled and accepted and shall be measured vertically from the bottom of the 30-inch diameter surface casing to the bottom of the nominal 28-inch diameter drilled hole interval. The borehole shall be paid for at the Contract Unit Cost Price of hole drilled and accepted, as listed on the Contract Bid Proposal.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

P. ITEM NO. 16 – DRILL NOMINAL 22-INCH DIAMETER BOREHOLE USING REVERSE AIR METHOD

This pay item includes the actual length of borehole drilled and accepted and shall be measured vertically from the bottom of the 24-inch diameter well casing to the bottom of the nominal 22-inch diameter drilled hole interval, including but not be limited to the furnishing of all material, labor and equipment necessary to complete the work as specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

Q. ITEM NO. 17 - REMOVE EXISTING SCREEN AND RISER

This pay item shall include removal of the existing stainless-steel well screen, gravel pack and riser. The existing outer well casing shall remain in place, undamaged.

Payment for this item shall be at the Contract Unit Price for Each successful complete removal of the well screen and riser accepted by the ENGINEER.

R. ITEM NO. 18 – CLEAN OUT OF BOREHOLE TO TOTAL DEPTH

This pay item shall include the complete reamed borehole to total depth as approved by the ENGINEER, including but not limited to of all material, labor and equipment necessary to complete the work in accordance with the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price for Each successfully borehole clean out as specified in the Contract Documents and accepted by the ENGINEER.

S. ITEM NO. 19 – REMOVE SURFACE CASING, OUTER CASING, INNER CASING, SCREEN, USING OVERDRILL METHOD, BACKFILL BOREHOLE WITH GRAVEL

This pay item shall include the complete removal of the existing well surface, outer, and inner well casings and screen using the overdrill method and backfilling of the borehole with gravel as specified in the Contract Documents including but not limited to all equipment, temporary casings, labor, materials, required to successfully complete the item in accordance with the Contract Documents.

Payment shall be made at the Contract Unit Price for Each completed successful overdrill as specified in the Contract Documents and accepted by the ENGINEER.

T. ITEM NO. 20 – FURNISH AND INSTALL 24-INCH DIAMETER SCHEDULE 40 PVC WELL CASING

This pay item shall include the actual length of 24-inch diameter schedule 40 PVC casing installed below land surface, and accepted as specified by the ENGINEER, including but not limited to time, all labor, equipment, centralizers, and materials to properly install the riser as described in Contract Documents.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

U. ITEM NO. 21 – CEMENT GROUT 24-INCH DIAMETER SCHEDULE 40 PVC WELL CASING IN PLACE

This pay item shall include cement for the 24-inch diameter PVC well casing, in place and accepted by the ENGINEER, and includes but is not limited to materials, labor, equipment, delivery charges, additives, operations, setup and removal of equipment for grout emplacement as specified in the Contract

Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price per 94-pound sack of cement furnished and accepted by the ENGINEER as determined by delivery tickets and field observations, in accordance with Contract Documents.

V. ITEM NO. 22 – FURNISH AND INSTALL 16-INCH DIAMETER STAINLESS STEEL SCREEN

This pay item shall include the actual length of 16-inch diameter 316 stainless steel well screen installed below land surface, and accepted as specified by the ENGINEER, including but not limited to time, all labor, equipment, centralizers, and materials to properly install the screen as described in Contract Documents.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

W. ITEM NO. 23 – FURNISH AND INSTALL 16-INCH DIAMETER SDR17 PVC RISER CASING

This pay item shall include the actual length of 16-inch diameter SDR17 PVC Riser Casing installed below land surface, and accepted as specified by the ENGINEER, including but not limited to time, all labor, equipment, centralizers, and materials to properly install the riser as described in Contract Documents.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

X. ITEM NO. 24 – FURNISH AND INSTALL 12-INCH DIAMETER STAINLESS STEEL SCREEN

This pay item shall include the actual length of 12-inch diameter 316 stainless steel well screen installed below land surface, and accepted as specified by the ENGINEER, including but not limited to time, all labor, equipment, centralizers, and materials to properly install the screen as described in Contract Documents.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

Y. ITEM NO. 25 – FURNISH AND INSTALL 12-INCH SDR17 PVC RISER CASING

This pay item shall include the actual length of 12-inch diameter SDR17 Riser Casing installed below land surface, and accepted as specified by the ENGINEER, including but not limited to time, all labor, equipment,

centralizers, and materials to properly install the riser as described in Contract Documents.

Payment shall be made at the Contract Unit Price per Linear Foot as specified in the Contract Documents and accepted by the ENGINEER.

Z. ITEM NO. 26 – FURNISH AND INSTALL WELL GRAVEL PACK

This pay item includes the work required to furnish and successfully install well gravel pack and shall include, but not be limited to, all equipment, materials and labor to satisfactorily disinfect and install gravel pack from total depth to a depth specified by the ENGINEER.

Payment shall be made at the Contract Unit Price per Cubic Foot as specified in the Contract Documents and accepted by the ENGINEER as determined by delivery tickets and field observations, in accordance with Contract Documents.

AA. ITEM NO. 27 – SQUEEZE GROUT

This pay item shall include cement squeeze grout operations required for successful pressure squeeze grouting of the existing well casing, including but not limited to of all material, grout, labor and equipment necessary to complete the work in accordance with the Contract Documents and accepted by the ENGINEER.

Payment shall be made at the Contract Unit Price for Each successful pressure squeeze grout as specified in the Contract Documents and accepted by the ENGINEER.

BB. ITEM NO. 28 – AIRLIFT DEVELOPMENT

This pay item includes the work required to perform airlift of the borehole, as described in the specifications, and shall include, but not be limited to, all material, labor, equipment and preparations necessary to complete the scope of work as specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be at the Contract Unit Price per Hour for airlift development as listed on the Contract Bid Proposal. Only hours of actual airlift development shall be considered for payment of this item as approved by the ENGINEER.

CC. ITEM NO. 29 – JETTING WITH SIMULTANEOUS AIRLIFT DEVELOPMENT

This pay item includes the work required to perform jetting and clean out of the borehole, as described in the specifications, to the total drilled depth and shall include, but not be limited to, all material, labor, equipment and

preparations necessary to complete the scope of work as specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be at the Contract Unit Price per Hour for jetting the hole (including simultaneous airlift) as specified or reverse air clean out of the hole as listed on the Contract Bid Proposal. Only hours of actual jetting or reverse air clean out of the hole shall be considered for payment of this item as approved by the ENGINEER.

DD. ITEM NO. 30 – PUMP DEVELOPMENT

This pay item includes the work required to perform pump development, as described in the specifications, and shall include, but not be limited to, all material, labor, equipment, fuel, and preparations necessary to complete the scope of work as specified in the Contract Documents and accepted by the ENGINEER.

Payment shall be at the Contract Unit Price per Hour for pump development as listed on the Contract Bid Proposal. Only hours of actual pump development shall be considered for payment of this item as approved by the ENGINEER.

EE. ITEM NO. 31 – STEP-RATE TESTING

This pay item includes step-rate pump test including, but not be limited to, the furnishing of all material, labor, fuel and equipment necessary to successfully complete the test in accordance with the Contract Documents as accepted by the ENGINEER.

Payment shall be at the Contract Unit Price per Hour for step-rate testing as listed on the Contract Bid Proposal. Only hours of actual step-rate pumping shall be considered for payment of this item as approved by the ENGINEER.

FF. ITEM NO. 32 – WELL DISINFECTION

This pay item shall include, but not be limited to, all time, equipment, materials and labor to satisfactorily disinfect the well as required by the Contract Documents and state and local laws and regulations as related to this pay item.

Payment of this item shall be made at the Contract Unit Price for Each successful disinfection as listed on the Contract Bid Proposal as specified in the Contract Documents and accepted by the ENGINEER.

GG. ITEM NO. 33 – BACTERIOLOGICAL SAMPLING AND CLEARANCE

This pay item shall include, but not be limited to, all time, equipment, materials and labor to satisfactorily and perform bacteriological sampling and

testing, as required by the Contract Documents and state and local laws and regulations as related to this pay item. The CONTRACTOR shall be responsible for costs associated with testing, re-chlorination, re-sampling, and re-testing as needed to satisfactorily disinfect the well and obtain passing and acceptable results from CONTRACTOR approved laboratory and OWNER laboratory as described in Contract Documents.

Payment of this item shall be made at the Contract Unit Price for Each successful clearance per well as listed on the Contract Bid Proposal as specified in the Contract Documents and accepted by the ENGINEER.

HH. ITEM NO. 34 –VIDEO LOGGING (STATIC AND DYNAMIC)

This item shall include video logging (in both static and dynamic conditions) including, but not be limited to, equipment required for the flushing of the well with potable water to provide a clear color video image, the furnishing of all material, labor and equipment required, as specified in contract documents.

Payment shall be made at the Contract Unit Price for Each successful video log as specified in the Contract Documents and accepted by the ENGINEER. Only video logs accepted by the ENGINEER shall be paid for under this pay item.

II. ITEM NO. 36 – GEOPHYSICAL LOGGING

This pay item shall include successful complete geophysical well logging but not be limited to furnishing of all material, labor and equipment necessary to complete the work in accordance with the Contract Documents and accepted by the ENGINEER.

Payment for this item shall be made at the Contract Unit Price for Each well as listed on the Bid Schedule of Values

JJ. ITEM NO. 37 – FORMATION WATER DISPOSAL SYSTEM

This pay item includes formation water disposal system including but not limited to the furnishing of all labor, time, materials, equipment, removal of the piping from the project site after construction is complete, cost to maintain the disposal and settling system, required piping, fittings, pumps, monitoring, operation and maintenance.

Payment of this item shall be made at the Contract Unit Price for Each well formation water disposal system as listed on the Bid Schedule of Values.

KK. ITEM NO. 38 – WELL ABANDONMENT

This pay item includes the work required for the successful well abandonment of the existing production well in accordance with state and

federal regulations and as specified in contract documents, including but not limited to the cost for necessary supervised labor, materials, and equipment.

Payment of this item shall be made at the Contract Unit Price for Each well successfully abandoned as listed on the Bid Schedule of Values.

LL. ITEM NO. 39 – MAJOR SITE RESTORATION

The work specified under this pay item includes restoring the well site(s) to its original condition, the intended grades as shown on the site plan to the satisfaction of the OWNER, and shall include all materials, equipment, tools and labor necessary to completely restore the site as accepted by the OWNER. Either minor or major site restorations shall be paid on one well, not both. The determination as to the necessity of site restoration will be made prior to initiation of activities and will be made by the OWNER or the ENGINEER.

Payment shall be at the Contract Unit Price for Each well major site restoration as listed on the Contract Bid Proposal and accepted by the OWNER.

MM. ITEM NO. 40 – MINOR SITE RESTORATION

The work specified under this pay item includes restoring the well site(s) to its original condition, the intended grades as shown on the site plan to the satisfaction of the OWNER, and shall include all materials, equipment, tools and labor necessary to completely restore the site as accepted by the OWNER. Either minor or major site restorations shall be paid on one well, not both. The determination as to the necessity of site restoration will be made prior to initiation of activities and will be made by the OWNER or the ENGINEER.

Payment shall be at the Contract Unit Price for Each well minor site restoration as listed on the Contract Bid Proposal and accepted by the OWNER.

NN. ITEM NO. 41 – EXTRA WORK BY DRILLING CREW (FOREMAN AND ONE CREW MEMBER) WITH DRILLING EQUIPMENT

This pay item includes OWNER approved extra work performed by the drilling crew (consisting of Foreman and one crew member) with drilling equipment, specifically drilling rig.

Payment shall be made at the Contract Unit Price based on the amount of approved time used based on the OWNER's ENGINEER. Work included under separate pay items will not be paid under the extra work pay item. CONTRACTOR must receive approval from OWNER and OWNER's ENGINEER to bill against this Pay Item before actual time is incurred. Failure

to do so will result in no payment of this Pay Item by OWNER.

OO. ITEM NO. 42 – EXTRA WORK BY DRILLING CREW (FOREMAN AND ONE CREW MEMBER) WITH OTHER EQUIPMENT

This pay item includes OWNER approved extra work performed by the drilling crew (consisting of Foreman and one crew member) with other construction equipment, including but not limited to crane, boom truck, backhoe etc.

Payment shall be made at the Contract Unit per hour based on the amount of approved time used by the OWNER's ENGINEER. Work included under separate pay items will not be paid under the extra work pay item. CONTRACTOR must receive approval from OWNER and OWNER's ENGINEER to bill against this Pay Item before actual time is incurred. Failure to do so will result in no payment of this Pay Item by OWNER.

PP. ITEM NO. 43 – EXTRA WORK BY DRILLING CREW (FOREMAN AND ONE CREW MEMBER) WITHOUT DRILLING EQUIPMENT

This pay item includes OWNER approved extra work performed by the drilling crew (consisting of Foreman and one crew member) without drilling equipment.

Payment shall be made at the Contract Unit per hour based on the amount of approved time used by the OWNER's ENGINEER. Work included under separate pay items will not be paid under the extra work pay item. CONTRACTOR must receive approval from OWNER and OWNER's ENGINEER to bill against this Pay Item before actual time is incurred. Failure to do so will result in no payment of this Pay Item by OWNER.

QQ. ITEM NO.44 – STANDBY TIME WITH RIG AND DRILLING CREW ON-SITE

This pay item includes OWNER approved standby time as required with the drilling crew and drilling rig on site.

Payment shall be made at the Contract Unit Price based on the number of approved hours required as determined by the OWNER's ENGINEER. CONTRACTOR must receive approval from OWNER and OWNER's ENGINEER to bill against this Pay Item before actual time is incurred. Failure to do so will result in no payment of this Pay Item by OWNER.

RR. ITEM NO. 45 – STANDBY TIME WITH RIG AND DRILLING CREW OFF-SITE

This pay item includes OWNER approved standby time as required with the drilling crew and drilling rig off site.

Payment shall be made at the Contract Unit Price based on the number of approved hours required as determined by the OWNER's ENGINEER. CONTRACTOR must receive approval from OWNER and OWNER's ENGINEER to bill against this Pay Item before actual time is incurred. Failure to do so will result in no payment of this Pay Item by OWNER.

SS. ITEM NO. 46 – MACHINE SHOP WELDING

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily provide machine shop welding services.

Payment of this item shall be made at the Contract Unit Price per hour as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

TT. ITEM NO. 47 – ONSITE WELDING

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily provide onsite welding services.

Payment of this item shall be made at the Contract Unit Price per hour as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

UU. ITEM NO. 48 – FURNISH & INSTALL 1-INCH PVC STILLING WELL UP TO 60-FT TO 80-FT IN LENGTH

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily furnish and install new 1-inch diameter PVC stilling well 60 feet to 80 feet in length.

Payment of this item shall be made at the Contract Unit Price per foot as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

VV. ITEM NO. 49 – FURNISH & INSTALL 2 NEW SS SAFETY CABLES UP TO 60-FT TO 80-FT IN LENGTH

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily furnish and install new stainless-steel safety cables 60 feet to 80 feet in length.

Payment of this item shall be made at the Contract Unit Price per foot as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

WW. ITEM NO. 50 – PUMP MAINTENANCE

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily perform pump maintenance of OWNER pumps for repair. This pay item shall include disassembly and inspection of the well pump and shall not be duplicated with Motor Maintenance pay item. Replacements of pump parts shall be paid for under Unidentified Parts Allowance pay item.

Payment of this item shall be made at the Contract Unit Price per hour as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

XX. ITEM NO. 51 – MOTOR MAINTENANCE

This pay item shall include, but not be limited to, all equipment, materials and labor to satisfactorily perform motor maintenance of OWNER motors for repair. This pay item shall include disassembly and inspection of the pump motor and shall not be duplicated with Pump Maintenance pay item. Replacements of pump parts shall be paid for under Unidentified Parts Allowance pay item.

Payment of this item shall be made at the Contract Unit Price per hour as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

YY. ITEM NO. 52 – UNIDENTIFIED PARTS ALLOWANCE

This item is intended for specialized small parts and procurement of items not stocked by the OWNER needed to complete rehabilitation of wells and avoid delays associated with placing the wells back into service.

Payment of this item shall be made at the Contract Lump Sum Price as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

ZZ. ITEM NO. 53 – MAINTENANCE OF TRAFFIC

This pay item shall include, but not be limited to, all equipment, materials, permitting, and labor to provide maintenance of traffic in accordance with Contract Documents.

Payment of this item shall be made at the Contract Unit Price for each as listed on the Bid Schedule of Values, as specified in the Contract Documents and accepted by the ENGINEER.

END OF SECTION

SECTION 01 31 13

PROJECT COORDINATION

PART I GENERAL

1.01 DESCRIPTION

A. ENGINEER shall schedule and administer a preconstruction meeting, periodic progress meetings, and specially called meetings throughout the progress of the work. ENGINEER shall:

1. Distribute written notice of each meeting.
2. Make physical arrangements for meetings.
3. Preside at meetings.
4. Record the minutes, include all significant proceedings and decisions.
5. Reproduce and distribute copies of minutes:
   a. To all participants in the meeting.
   b. To all parties affected by decisions made at the meeting.

B. Representatives of CONTRACTORs, SUBCONTRACTORs and suppliers attending the meetings shall be qualified and authorized to act on behalf of the entity each represents.

1.02 RELATED REQUIREMENTS SPECIFIED ELSEWHERE

1. Section 01 11 00 - Summary of Work

1.03 PRE-CONSTRUCTION MEETING

A. To be held prior to the Notice to Proceed.

B. Location: The project site, or a location designated by the ENGINEER.

C. Attendance:

1. OWNER's Representative
2. ENGINEER's Representative
3. CONTRACTOR

4. CONTRACTOR's Superintendent

5. Major SUBCONTRACTORs

6. Others as appropriate

D. Agenda:

1. Record of Attendance.

2. Project Summary Description.

3. Local Utilities to be affected.

   a. Water lines
   b. Sewer lines
   c. Telephone lines
   d. Cable TV lines
   e. Electric lines
   f. Roads

4. CONTRACTOR Responsibilities:

   a. Start date
   b. Completion date
   c. Liquidated damages
   d. Contract amount
   e. Work schedule
   f. Space utilization
   g. Progress Payment Application
   h. As-builts (Records/Drawings)
   i. Photographs
   j. Shop drawings
   k. SUB
   l. Project coordination

5. OWNER Responsibilities:

   a. Monthly meetings
   b. Special meetings
   c. Partial and final payment
   d. Change Orders
   e. Public announcements and public relations
   f. Project acceptance

6. ENGINEER Responsibilities:

a. Technical representative of OWNER
b. Interpreter of Contract Documents
c. Periodic inspections of job progress
d. Review partial and final payment applications
e. Prepare Change Orders
f. Review shop drawings
g. Review record drawings
h. Perform final inspection and issue certificate of completion

7. Resident Inspector Responsibilities:

a. ENGINEER's and OWNER's representative on site
b. Review materials and work and report any deficiencies to ENGINEER
c. Review applications for payment
d. Work with CONTRACTOR on public notification of work items
e. Attend progress meetings
f. Observe testing work
g. Maintain daily diary of work tasks
h. Furnish reports to ENGINEER as deemed advisable

1.04 PROGRESS MEETINGS

A. To be held periodically as required by progress of the work as determined by the OWNER.

B. Location of the meetings: Project site, or a location designated by the OWNER or ENGINEER.

C. Attendance:

1. OWNER's Representative

2. ENGINEER's Representative

3. SUBCONTRACTORs as appropriate

4. Suppliers as appropriate

1.05 EMERGENCY MEETINGS

A. May be called by OWNER, ENGINEER, or CONTRACTOR with a minimum of three hours notice to resolve conditions of an emergency nature.

PART II PRODUCTS

Not used.

PART III EXECUTION

Not used.

END OF SECTION

SECTION 01 32 16

CONSTRUCTION PROGRESS SCHEDULE

PART I GENERAL

1.01 REQUIREMENTS INCLUDED

A. Promptly after award of the Contract, Contractor shall prepare and submit to the Engineer estimated construction progress for the Work, with sub-schedules of related activities which are essential to its progress.

B. Coordinate the work and scheduling with and around other contractors and individual trades performing work on the Project

C. Submit revised progress schedules with each application for payment or at each monthly progress meeting. Applications for payment shall not be reviewed or accepted without Contractor submittal of updated progress schedules.

D. Progress Schedule shall become part of Contract Documents after approval by Engineer.

1.02 RELATED REQUIREMENTS

A. In other parts of the Contract Documents:

1. General Conditions

B. Specified in other sections:

1. Section 01 11 00: Summary of Work
2. Section 01 33 00: Submittals

1.03 FORM OF SCHEDULES

A. Prepare schedules in the form of a horizontal bar chart as follows:

1. Provide separate horizontal bar for each trade or operation
2. Horizontal time scale: Identify the first work day of each week.
3. Scale and spacing: To allow space for notations and future revisions.
4. Minimum sheet size: 11" x 17"

B. Format of listings: The chronological order of the start of each item of work.

C. Identification of listings: By major specification section numbers.

1.04 CONTENT OF SCHEDULES

A. Construction Progress Schedule shall:

1. Show the complete sequence of construction by activity.
2. Show the dates for the beginning and completion of each major element of construction; specifically, list:

    a. Subcontractor work
    b. Utility construction
    c. Restoration
    d. Work that affects WTP operations

3. Show projected percentage of completion for each item, as of the first day of each month.

1.05 PROGRESS REVISIONS

A. Indicate progress of each activity to date of submission
B. Show changes occurring since previous submission of Schedule:

1. Major changes in scope.
2. Activities modified since previous submission.
3. Revised projections of progress and completion.
4. Other identifiable changes.

C. Provide a narrative report as needed to define:

1. Problem areas, anticipated delays, and the impact on the schedule.
2. Corrective action recommended, and its effect.
3. The effect of changes on schedules of other prime contractors.

1.06 SUBMISSIONS

A. Submit initial schedules within ten (10) days after award of Contract; Engineer will review schedules for information only.

B. Submit revised progress schedules with each application for payment, or at each monthly progress meeting.

C. Submit the number of opaque reproductions which the Contractor requires, plus two (2) additional copies; one for Owner and one for Engineer.

1.07 DISTRIBUTION

A. Distribute copies of approved schedules to:

1. Job site file
2. Subcontractors
3. Other concerned parties

B. Instruct recipients to report promptly to the Contractor, in writing, any problems anticipated by the projections shown in the schedule.

PART II PRODUCTS

Not used.

PART III EXECUTION

Not used.

END OF SECTION

(This page has been intentionally left blank.)

SECTION 01 33 00

SUBMITTALS

PART I GENERAL

1.01 SCOPE OF WORK

A. CONTRACTOR shall submit to the ENGINEER, shop drawings, project data, and samples required by the specification sections.

B. The ENGINEER'S review is only for general conformance with the design concept of the project and general compliance with the information given in the Contract Documents. Corrections or comments made on the shop drawings during the ENGINEER'S review do not relieve the CONTRACTOR from compliance with the requirements of the Contract Documents. Review of a specific item shall not include approval of an assembly of which the item is a component. The CONTRACTOR is responsible for: dimensions to be confirmed and correlated at the job site; information that pertains to the fabrication processes or to the means, methods, techniques, sequences, and procedures of construction; impact on other work; coordination of CONTRACTOR'S Work with that of all other trades; and for performing all work in a safe and satisfactory manner.

1.02 SCHEDULES

A. The CONTRACTOR shall provide an updated construction schedule to the OWNER or ENGINEER during each monthly progress meeting.

B. Prepare and submit with the Construction Schedule, a separate schedule listing dates for submission and review of shop drawings, project data, and samples that shall be needed for each product or piece of equipment.

C. Coordinate and prepare the delivery and processing of submittals with the performance of the work so that the work is not delayed by submittals. Coordinate and sequence different categories of submittals for the same Work, and for interfacing units of Work, so that one is not delayed for coordination with another.

D. No extension of time shall be allowed because of the CONTRACTOR'S failure to properly coordinate and sequence submittals.

E. Do not proceed with purchasing, fabrication and delivery of work related to a submittal until the submittal procedure is successfully complete. CONTRACTOR is proceeding at own risk if purchase of materials is done before submittal review.

F. Coordinate fabrication and delivery of CONTRACTOR furnished materials.

PART II PRODUCTS

2.01 SHOP DRAWINGS

A. Original drawings, prepared by CONTRACTOR, Subcontractor, Supplier or Distributor, which illustrate portions of the work; showing fabrication, layout, setting, or erection details.

B. Prepare submittals by a qualified detailer.

C. Identify details by reference to sheet numbers and detail shown on Contract Drawings.

2.02 PROJECT DATA

A. Includes standard printed information on materials, products and systems not custom prepared for this project. Collect the required data into one (1) submittal for each material, product or system; and mark each copy to show which choices and options are applicable to the project.

B. Manufacturer's standard schematic drawings and standard printed recommendations for application and use, compliance with standards, application of labels and seals, notation of field measurements which have been checked, and special coordination requirements:

1. Modify drawings to delete information which is not applicable to project.
2. Supplement standard information to provide additional information applicable to project.

C. Manufacturer's catalog sheets, brochures, diagrams, schedules, performance charts, illustrations and other standard descriptive data.

1. Clearly mark each copy to identify pertinent materials, products or models.
2. Show dimensions and clearances required.
3. Show performance characteristics and capacities.
4. Show wiring diagrams and controls.

2.03 SAMPLES

A. Physical examples to illustrate materials, equipment or workmanship, and to establish standards by which completed work is judged.

B. Office samples of sufficient size and quantity to clearly illustrate:

1. Functional characteristics of product or material, with integrally related parts and attachment devices.
2. Full range of color samples.

C. Field samples and mock-ups:

1. Erect at the project site at a location acceptable to the OWNER.
2. Construct each sample or mock-up complete, including work of all trades required in finished work.

2.04 PAY REQUESTS

A. Pay Requests shall be made in accordance with the requirements of the Agreement between OWNER and CONTRACTOR.

B. Amount of Retainage shall be 10% unless otherwise stated in the Agreement between OWNER and CONTRACTOR.

PART III EXECUTION

3.01 CONTRACTOR RESPONSIBILITIES

A. Review shop drawings, project data and samples for compliance with these Specifications prior to submission.

B. Verify:
1. Field measurements.
2. Field construction criteria.
3. Catalog numbers and similar data.

C. Coordinate each submittal with requirements of the work and of the Contract Documents.

D. The CONTRACTOR's responsibility for errors and omissions in submittals is not relieved by the ENGINEER'S review of submittals.

E. The CONTRACTOR's responsibility for deviations in submittals from the requirements of the Contract Documents is not relieved by the ENGINEER'S review of submittals, unless the OWNER or the ENGINEER gives written acceptance of specific deviations.

F. Notify the ENGINEER, in writing at the time of submission, of deviations in submittals from the requirements of the Contract Documents.

G. Begin no work requiring submittals until return of submittals with the ENGINEER'S stamp and initials or signature indicating review and approval.

H. After ENGINEER review, distribute copies.

3.02 SUBMISSION REQUIREMENTS

A. Schedule submissions at least 14 days before dates reviewed submittals will be needed; the OWNER and ENGINEER shall have a maximum of 14 days for review of the submittal following receipt, for approval or rejection

B. Submit number of copies of Shop Drawings, Project Datum, and Samples which CONTRACTOR requires for distribution plus 4 copies for the OWNER and ENGINEER.

C. Accompany submittals with transmittal letter, in duplicate, containing:

1. Date.
2. Project title and number.
3. CONTRACTOR'S name and address.
4. Notification of deviations from Contract Documents.
5. Other pertinent data.

D. Submittals must include:

1. Date of submittal and revision dates.
2. Project title and number.
3. The names of:
   a. ENGINEER.
   b. CONTRACTOR.
   c. Subcontractor.
   d. Supplier.
   e. Manufacturer.
   f. Separate detailer when pertinent.
4. Identification of product or material.
5. Relation to adjacent structure or materials.
6. Field dimensions, clearly identified as such.
7. Identification of deviations from Contract Documents.
8. CONTRACTOR'S stamp, initialed or signed, certifying review of submittal, verification of field measurements and compliance with Contract Documents.

E. Electronic submittals are acceptable.

3.03 RESUBMISSION REQUIREMENTS

A. Shop Drawings:

1. Revise initial drawings as required and resubmit as specified for initial submittal.
2. Indicate on drawings any changes which have been made other than those requested by ENGINEER.

B. Project Data and Samples:

1. Submit new datum and samples as required for initial submittal.

3.04 DISTRIBUTION OF SUBMITTALS AFTER REVIEW

A. Distribute copies of Shop Drawings and Project Datum which carry ENGINEER'S stamp, to:

1. Contractor's file.
2. Job site file.
3. Record Documents file.
4. Other prime contractors.
5. Subcontractors.
6. Supplier.
7. Fabricator.

C. Distribute samples as directed.

END OF SECTION

(This page intentionally left blank.)

SECTION 01 52 00

CONSTRUCTION FACILITIES AND TEMPORARY CONTROLS

PART I GENERAL

1.01 REQUIREMENTS INCLUDED

A. Furnish install and maintain all methods, equipment, and temporary utilities as required to provide controls over environmental conditions at the construction site and related areas under the CONTRACTOR'S influence. Remove physical evidence of temporary facilities upon completion of work.

B. Providing adequate facilities at every stage of performing the work is the CONTRACTOR'S sole responsibility, and is not limited by the requirements hereof.

C. Except as otherwise indicated, the cost of providing and using temporary utility services is to be included in the Contract Sum.

D. Maintain distinct markers for underground lines and protect from damage during excavation operations.

E. These references shall govern the work except where they conflict with the OWNER'S terms and conditions. In case of conflict, the OWNER'S terms and conditions shall govern to the extent of such difference.

1.02 REQUIREMENTS OF REGULATORY AGENCIES

A. Comply with the National Electrical Code.

B. Comply with Federal, State, and local codes, ordinances, rules, regulations, standards, and permits.

C. Comply with the "Manual of Accident Prevention in Construction" by the Associated General CONTRACTORs (AGC).

D. Comply with all utility company requirements.

1.03 HURRICANE PREPAREDNESS PLAN

A. The CONTRACTOR must submit a hurricane preparedness plan to ENGINEER for approval prior to site mobilization.

B. The CONTRACTOR shall implement hurricane preparedness plan upon reasonable concern that a hurricane may strike or as directed by the ENGINEER.

PART II PRODUCTS

2.01 MATERIALS

Materials may be new or used but must be adequate in capacity for the required usage, must not create unsafe conditions, and must not violate requirements to applicable codes, ordinances, rules, regulations, and standards.

2.02 TEMPORARY ELECTRICITY AND LIGHTING

A. Install circuit and branch wiring, with area distribution boxes located so that power and lighting is available throughout the construction by the use of construction type power cords.

B. Provide adequate artificial lighting for all areas of work when natural lighting is not adequate for work and night work is allowed by the contract documents.

2.03 TEMPORARY PHONE SERVICE

A. The CONTRACTOR shall provide onsite phone service to the CONTRACTOR'S project superintendent and for each driller on site. Phone supplied personnel shall be available by phone during all working hours during execution of the scope of work.

B. Cellular phones are acceptable.

2.04 TEMPORARY WATER

A. Only potable quality water will be used for well construction. Water necessary for construction activities shall be provided by the OWNER at no cost to the CONTRACTOR. Wasteful use of OWNER'S water by CONTRACTOR will forfeit CONTRACTOR'S use of OWNER'S water and CONTRACTOR will be required to purchase water elsewhere.

B. CONTRACTOR shall provide adequate backflow prevention in line with potable water service that is acceptable to OWNER.

C. OWNER'S use of water takes priority at all times. CONTRACTOR shall temporarily restrict or discontinue use of OWNER'S water if required to do so by OWNER.

2.05 TEMPORARY SANITARY FACILITIES

A. Provide sanitary facilities in compliance with laws, ordinances and regulations.

B. Service, clean and maintain facilities and enclosures.

C. OWNER'S plumbing facilities shall not be used by contractor personnel.

2.06 TEMPORARY ACCESS ROAD, PARKING AND TRAFFIC CONTROL

A. Construct and maintain new and existing temporary access roads over designated easements from public thoroughfare to the site.

B. Maintain traffic areas free of excavated materials, construction equipment, products, and debris.

C. Traffic control warning signs and barricades shall be in strict accordance with the provisions of the Florida Department of Transportation Manual on Traffic Controls and Safe Practices for Street and Highway Construction Maintenance and Utility Operations latest revision.

D. No road or street shall be closed to the public except with the permission of the ENGINEER and appropriate governmental agency.

E. The work shall be conducted at all times so as to ensure the least possible obstruction to traffic and inconvenience to the general public and the residents in the vicinity of the work, and to insure the protection of persons and property.

F. Well site discharge locations are shown on the drawings and security requirements apply. CONTRACTOR shall secure all gates and fences per contract requirements.

G. Shared access roads to, from, adjacent to, and around the well sites shall be kept open at all times.

2.07 TEMPORARY CONTROLS

A. Noise Control:

1. Between the hours of 6:00PM and 8:00AM, Monday through Friday, noise levels shall not exceed ten (10) dbA above the ambient noise level, when measured within 50 feet of the noise source, without written permission of the OWNER.

2. Between the hours of 6:00PM Friday and 8:00AM Monday, noise levels shall not exceed ten (10) dbA above the ambient noise level, when measured within 50 feet of the noise source, without written permission of the OWNER.

3. Between the hours of 6:00PM on the day prior to recognized Palm Beach County Holidays to 8:00AM on the day after such Holidays, noise levels shall not exceed ten (10) dbA above the ambient noise levels, when measured within 50 feet of the noise source, without written permission of the OWNER.

4. The CONTRACTOR shall provide and install soundproofing barriers, provide mufflers on equipment, and take whatever other steps are necessary during operations to ensure that noise levels conform to the Village of Wellington or other applicable noise ordinances. Working hours for construction, demolition, drilling, rehabilitation, site work, and development are 7:00AM to 7:00PM.

5. CONTRACTOR shall immediately cease operations and mitigate sound to the extent required by Village ordinance if residents complain about noise as applicable.

B. Light Control:

1. CONTRACTOR shall mitigate stray light during approved night work by directing light source to the work area only.

2. Lighting shall be directed away from nearby residences and properties.

3. CONTRACTOR shall immediately mitigate stray light upon complaint.

4. Lighting levels shall comply with applicable federal and state regulations.

C. Dust Control:

1. Provide positive methods and apply dust control materials to minimize raising dust form construction operations, and provide positive means to prevent air-borne dust from dispersing into the atmosphere.

2. CONTRACTOR shall immediately mitigate dust upon complaint

D. Water Control:

1. Provide methods to contain storm water drainage within the CONTRACTORS approved work area and prevent storm water and

project-related water containing turbidity above the allowable standard from entering adjacent surface water bodies. Provide settling and treatment before discharge of water to approved discharge location.

2. Provide methods to control surface water to prevent damage to the project, the site, or adjoining properties.

3. Control fill, grading, and ditching to direct surface drainage away from excavation, trenches, pits, and other construction areas, and to direct drainage to proper runoff.

4. Provide, operate, and maintain hydraulic equipment of adequate capacity to control surface water.

5. Dispose of drainage water in a manner to prevent flooding, erosion, or other damage to any portion of the site or adjoining areas.

E. Debris and Waste Materials Control:

1. Maintain all areas under the CONTRACTOR's control free of extraneous debris, garbage, and waste matter.

2. Initiate and maintain a specific program to prevent accumulation of debris at the construction site, storage, and parking areas, or along access roads and haul routes.

3. Provide acceptable containers for deposit of debris and waste.

4. Prohibit overloading of trucks to prevent spillage on access and haul roads.

5. Provide periodic inspection of traffic areas to enforce requirements.

6. Schedule periodic and as needed collection and disposal of debris and waste.

7. Provide additional collections and disposal of debris whenever the periodic schedule is inadequate to prevent accumulation.

F. Pollution Control:

1. Provide methods, means, and facilities required to prevent contamination of soil, water, or air by the discharge of noxious substances from construction operations.

2. Immediately remove and properly dispose of all contaminated materials upon discovery of spillage of noxious substances.

3. Take special precautions to prevent harmful substances form entering public waters.

4. Provide systems for control of atmospheric pollutants and prevent toxic concentrations of chemicals.

G. Erosion Control:

1. Plan and execute construction and earthwork by methods to control surface drainage from cuts and fills and from borrow and waste disposal areas to prevent erosion and sedimentation.

2. Hold areas of bare soil exposed at one time to a minimum and provide temporary control measures such as berms, dikes, and drains.

3. Construct fills and waste areas by selective placement to eliminate surface silts and clays from eroding.

4. Construct and maintain properly installed silt fencing and hay bales around the perimeter of the construction area to control surface drainage and runoff.

H. Vibration Control:

1. The CONTRACTOR shall plan and execute construction activities by methods to control vibration to prevent damage to surrounding foundations, structures, and buildings. The CONTRACTOR shall protect all existing structures from damage from vibration activities. Vibration control and compliance are the sole responsibility of the CONTRACTOR.

PART III EXECUTION

3.01 GENERAL

A. Comply with all applicable requirements of local building codes.

B. Maintain and operate systems to assure continuous service.

C. Modify and extend systems as work progress requires.

D. Preserve from damage all property along the line of work or which is in the vicinity of or is in any way affected by the Work. Wherever such property is

damaged due to the activities of the CONTRACTOR, it shall be immediately restored to its original condition by the CONTRACTOR at no cost to the OWNER.

E. Preconstruction Video

1. At least one (1) week prior to the start of construction, the contractor shall have video recordings taken of the entire project area. This area includes, but is not limited to, the entire length of the wellfield improvement work, and all locations where work may occur on or near private property. Such recordings shall be provided to the Owner and Engineer before the commencement of construction. These recordings shall serve as record of the conditions as they existed prior to the start of the work. They will be used in the event of a dispute that arises from restoration or damage claims from property owners along the project corridor. The contractor shall pay particular attention to existing damage on public and private property near the work area and ensure that these items are documented on the video.

3.02 INSPECTIONS

Prior to placing temporary facilities into service, inspect and test each service and arrange for inspections and tests by governing authorities and obtain required certifications and permits for use thereof.

3.03 REMOVAL

A. Completely remove temporary materials and equipment when their use is no longer required.

B. Clean and repair damage caused by temporary installations or use of temporary facilities.

C. Restore permanent facilities used for temporary services to specified conditions.

END OF SECTION

(This page has been intentionally left blank.)

SECTION 01 55 26

TRAFFIC CONTROL

PART I GENERAL

1.01 SECTION INCLUDES

A. Construction parking controls.

B. Flares and lights.

C. Haul routes.

D. Traffic signs and signals.

E. Removal.

F. Detour routes.

1.02 RELATED REQUIREMENTS SPECIFIED ELSEWHERE

A. Drawings and general provisions of the Contract, including the General and Supplementary Conditions and Division 1 Specification sections, apply to this section.

B. Section 01 11 00 - Summary of Work

C. Section 01 52 00 – Construction Facilities and Temporary Controls

PART II PRODUCTS

2.01 SIGNS, SIGNALS, AND DEVICES

A. Post Mounted Traffic Control and Informational Signs in accordance with FDOT and MUTCD Standards.

PART III EXECUTION

3.00 GENERAL

A. Coordinate Maintenance of Traffic with Palm Beach County or other entity having jurisdiction. To the greatest extent practical, vehicular and pedestrian traffic is to be maintained to the existing residences.

B. Contractor shall provide temporary means of egress by means of boardwalks, temporary sidewalks or other approved equivalent systems to allow access to residences and businesses at all times.

C. Emergency vehicle access to the residences shall be provided at all times.

3.01 CONSTRUCTION PARKING CONTROL

A. Control vehicular parking to prevent interference with public traffic and parking, private property, business, and residential access.

B. Monitor parking of construction personnel's vehicles. Maintain vehicular access to private residences and businesses.

3.02 FLAG PERSONS

A. Provide trained and equipped flag persons to regulate traffic when construction operations or traffic encroach on public traffic lanes.

3.03 FLARES AND LIGHTS

A. Use flares and lights during hours of low visibility to delineate project limits.

3.04 HAUL ROUTES

A. Consult with Village of Wellington to establish public thoroughfares to be used for haul routes and site access.

B. Confine construction traffic to designated haul routes.

C. Provide traffic control at critical areas of haul routes to regulate traffic and to minimize interference with public traffic.

3.05 TRAFFIC SIGNS AND SIGNALS

A. At approaches to site and on site, install at crossroads, detours, parking areas, and elsewhere as needed to direct construction and affected public traffic.

B. Relocate as Work progresses to maintain effective traffic control.

3.06 REMOVAL

A. Remove equipment and devices when no longer required.

B. Repair damage caused by installation.

END OF SECTION

(This page has been intentionally left blank.)

SECTION 32 93 00

SODDING

PART I GENERAL

1.01 DESCRIPTION OF WORK

The CONTRACTOR shall furnish all labor, equipment, and materials necessary for grassing all areas disturbed by his operations and any other areas on the plans indicated to receive grassing. It is the intent of this specification that damaged areas are to be replaced in kind, with sod to be used for all maintained yard areas. ENGINEER shall also designate the type of sod to be used in each area. CONTRACTOR shall take all steps practical to minimize the area required to be sodded. All grassing shall be in accordance with Section 570-1 through 570-9 of the FDOT Standard Specifications for Road and Bridge Construction (current edition), except as modified herein.

1.02 STORAGE OF MATERIALS

The CONTRACTOR shall provide space for storage of sod prior to placement in a manner that will not endanger or restrict pedestrian or vehicular traffic or interfere with other aspects of the work.

PART II PRODUCTS

2.01 SOD

A. Types: Sod shall be St. Augustine Floratam, Argentine Bahia, Centipede, or Bermuda, depending on type of existing sod in adjacent area to be matched. Sod shall be well matted with roots. Where sodding will adjoin, or be in sufficiently close proximity to private lawns, types of sod other than those listed above may be used if desired by the affected property OWNERs and approved by the ENGINEER. Sod shall be delivered in commercial-size rectangles, preferably 12-inch by 24-inch or larger.

B. Condition: The sod shall be sufficiently thick to secure a dense stand of live grass. The sod shall be live, fresh, and uninjured at the time of planting. It shall have a soil mat of sufficient thickness adhering firmly to the roots to withstand all necessary handling. It shall be reasonably free of weeds and other grasses. It shall be planted as soon as possible after being dug and shall be kept moist from the time it is planted.

2.02 MULCH

The mulch material used shall normally be dry mulch. Dry mulch shall be straw or hay, consisting of oat, rye, of wheat straw, or of pangola, peanut, coastal Bermuda, or Bahia grass hay. Only deteriorated mulch which can readily be cut into the soil shall be used.

2.03 GRASSING EQUIPMENT

A. Equipment for Cutting Mulch into Soil: The mulching equipment shall be of a type capable of cutting the specified materials uniformly into the soil, and to the required depth. Harrows will not be allowed.

B. Rollers: A cultipacker, traffic roller, or other suitable equipment will be required for rolling the grassed areas.

PART III EXECUTION

3.01 GENERAL CONSTRUCTION METHODS

Mulching operations will not be permitted when wind velocities exceed 15 miles per hour. Whenever a suitable length of right-of-way or adjacent area has been graded, it shall be made ready, when directed by the ENGINEER, and grassed in accordance with these specifications. Grassing shall be incorporated into the project at the earliest practical time.

3.02 SODDING

A. Preparation of Area to be Sodded: The ground which is to receive sod shall have been graded to proper elevations (2" below sodded grade) to match pre-construction conditions or proposed grades. All disturbed swales and ditches shall have been restored to their pre-construction condition or better. The pre-construction grade shall be maintained and the prepared soil shall be loose and reasonable smooth. It shall be reasonably free of large clods, roots, patches of existing grass, and other material which will interfere with the sod-laying operations or subsequent mowing and maintenance operations.

B. Laying of Sod: Sod shall be installed in all areas so designated by ENGINEER. Sod shall be carefully placed so that each piece abuts flush to all surrounding sod, regardless of whether surrounding sod is new or existing. Where new sod is to be placed adjacent to existing sod, the new sod must be cut in to match the elevation of the existing sod. Uneven sod which might cause mowing problems will be rejected. New sod laid on top of existing sod will also be rejected. All sod placed on steep slopes (greater than 1:1) shall be pinned with a wooden pin to keep it in place.

C. Rolling: Immediately after completion of the sod laying, the entire sodded area shall be rolled thoroughly with the equipment specified. At least two trips over the entire area will be required.

D. Watering: Newly-sodded areas are to be watered by CONTRACTOR as necessary to keep sod alive until the Contract is closed out. Dead sod shall be replaced by CONTRACTOR prior to contract closeout.

3.03 MULCHING

A. Sequence of Operations: The operations involved in the work shall proceed in the following sequence: preparation of the ground and cutting in mulch.

B. Preparation of Area to be Mulched: The ground over which the mulch is to be laid shall be prepared by disk-harrowing and thoroughly pulverizing the soil to a suitable depth. The prepared soil shall be loose and reasonably smooth. It shall be reasonably free of large clods, roots, and other material which will interfere with the work or subsequent mowing and maintenance operations.

C. Mulching: When mulching is called for, approximately two inches, loose thickness, of the mulch material shall then be applied uniformly over the area, and the mulch material cut into the soil with the equipment specified, so as to produce a loose mulched thickness of three to four inches. Care shall be exercised that the materials are not cut too deeply into the soil. No artificial watering of the mulch shall be done before it is applied.

D. Rolling: Immediately after completion of the mulching, the entire grassed or mulched area shall be rolled thoroughly with the equipment specified. At least two trips over the entire area will be required.

E. Operations on Steep Slopes: On steep slopes when mulching is called for, the mulch material may be anchored down in lieu of being cut into the soil by use of a machine. Anchoring may be done by either of the following methods:

1. Placing a layer of soil, approximately two inches thick by nine inches wide, along the upper limits of the mulch, and spotting soil piles over the rest of the area at a maximum spacing of four feet.
2. Spreading a string net over the mulch, using stakes driven flush with the top of the mulch, at six-foot centers, and stringing parallel and perpendicular, with diagonals in both directions.

F. Maintenance: The CONTRACTOR shall, at his expense, maintain the planted areas in a satisfactory condition until final acceptance of the project.

Such maintenance shall include the filling, leveling, and repairing of any washed or eroded areas, as may be necessary. The ENGINEER, at any time, may require replanting of any areas in which the establishment of the grass stand does not appear to be developing satisfactorily. If a planted area must be replanted due to the CONTRACTOR's negligence, carelessness, or failure to provide routine maintenance of such areas, such replacement shall be at the CONTRACTOR's expense. If replanting is necessary due to factors determined to be beyond the control of the CONTRACTOR, payment for replacement will be made under the appropriate contract pay items.

END OF SECTION

SECTION 33 21 20

WELL DRILLING

PART I GENERAL

1.01 SCOPE OF WORK

This section covers the work, materials, and equipment necessary for drilling the borehole for the well(s).

1.02 SUBMITTALS

A. A list of all drilling additives intended for use on this project shall be submitted to the ENGINEER prior to drilling activities.

B. A list of drilling equipment to be used on this project shall be submitted to the ENGINEER prior to mobilization, including drill bit diameters and dimensions of staged bit assemblies proposed for drilling. Alternative methods for cleaning of the borehole to total depth may be submitted to the ENGINEER by the CONTRACTOR.

C. If applicable, overdrill plan must be submitted for prior approval by the ENGINEER.

D. Drilling fluid solids management system specifications, joint compound, mud pump type and pump curve, and anticipated up-hole velocities during drilling shall also be submitted to the ENGINEER prior to mobilization.

E. Submit to ENGINEER vibration and sound compliance plans for approval prior to mobilization.

F. All chemicals, fluids, and additives introduced into the well shall be NSF certified and shall be applied and used as recommended by the manufacturer for water well use.

PART II PRODUCTS

2.01 EQUIPMENT

A. All equipment shall be in good working condition and suitable for the proposed work. Prior to mobilization, a list of drilling equipment to be used on the project is to be submitted to the ENGINEER. The CONTRACTOR shall provide assurances that he has the proper equipment to adequately complete the project in a timely and safe manner and overcome possible complications encountered during well construction.

B. The OWNER shall reserve the right to inspect the equipment of each CONTRACTOR submitting a bid as a part of the evaluation of bids.

C. The CONTRACTOR shall provide all tools, bits, and all other necessary equipment for drilling.

D. The CONTRACTOR shall use a drilling rig having a hook load capacity of no less than 70,000 pounds to perform the scope of work contemplated herein.

E. Drilling equipment shall be capable of performing mud rotary, reverse air and reverse mud drilling methods within the established time of construction.

F. During drilling within any PVC casing, the CONTRACTOR shall fit rubber protective bumpers to each drill pipe within the casing. The bumpers shall be located adjacent to tool joints.

G. All equipment shall be in accordance with local noise ordinances and OWNER'S requirements for the applicable working hours. The CONTRACTOR shall be required to keep within noise requirements during all phases of the work. This shall include use of hospital-grade mufflers on equipment (as appropriate) to comply. Noise abatement may require acoustical sound barrier walls, enclosures, or other means to minimize noise. Noise control and compliance are the sole responsibility of the CONTRACTOR.

H. The CONTRACTOR shall take special precautions to reduce to a minimum the nuisances and damage to property. Any damage to public or private property shall be immediately repaired or paid for by the CONTRACTOR at no expense to the OWNER. Equipment, tools and materials shall be located in places where they shall produce a minimum of nuisance. CONTRACTOR shall take appropriate action to minimize noise, light, vibration and other nuisances caused by the drilling operation. The appropriate warning signs shall be posted on the streets and the appropriate police shall be informed of the location of the construction site.

2.02 DRILLING FLUID

The CONTRACTOR shall provide all drilling fluids, water, and additives as required. Any water added to the well shall have a minimum chlorine residual of 50 ppm. All chemicals, fluids, and additives introduced into the wells shall be NSF certified and shall be applied and used as recommended by the manufacturer.

2.03 TEST AND SAMPLING EQUIPMENT

A. The CONTRACTOR shall provide equipment for measuring drilling fluid properties including a marsh funnel, viscosimeter, filter press, and a fluid density balance.

B. The CONTRACTOR shall provide sampling bags or containers for collection and storage of formation samples.

PART III EXECUTION

3.01 GENERAL REQUIREMENTS

A. Notify the ENGINEER 7 days prior to drilling and 24 hours prior to all other site work. The construction schedule shall be met based on day work only (M-F, 7 AM – 7 PM) and excludes nights (unless requirements of 3.01 B. are met), weekends, and OWNER and federal holidays.

B. Should the CONTRACTOR desire to carry out work outside of contract working hours, he shall submit written notice to the OWNER/ENGINEER for approval with a minimum of 48 hours for satisfactory arrangements to be made and for inspecting the work in progress. No night work shall be permitted except as specifically authorized by the OWNER or ENGINEER on a case by case basis.

C. The CONTRACTOR shall provide at all times a thoroughly experienced, competent, and SFWMD licensed water well driller during all operations at the drill site. Provide sufficient competent driller's hands during all operations at the drill site. Use of drilling or other equipment without proper onsite supervision is not permitted.

3.02 DRILLING/CLEAN OUT OF BOREHOLE

A. Existing estimated borehole depths and diameters for the surficial aquifer production well are depicted on the drawings and in project documents. Borehole diameters are considered nominal dimensions. The CONTRACTOR shall recommend the appropriate bit size for correct drilling/cleaning out of the borehole diameter. Borehole depths provided in the specifications are estimates only: actual depths may vary and shall be determined by the preliminary geophysical logging.

B. Boreholes shall be advanced in such a manner that the drilled hole shall proceed straight and plumb. The drilling rate shall be optimized for cuttings removal with minimal mixing and accurate formation sample collection. Pilot boreholes shall be advanced in 5-foot increments for more accurate sample collection. Cuttings shall be predominantly cleared from the borehole at the

end of each increment (5-foot increments for pilot holes and reverse air drilled holes, 20-foot increments for reamed holes).

C. Boreholes shall be cleared of cuttings and stable to permit subsequent tasks to be completed without impairment.

D. The reaming assembly shall consist of a lead bit with the same outer diameter as the pilot hole and progressively larger diameter bits up to the reamed hole diameter. The reaming assembly should not exceed 2 feet in length below the largest diameter bit.

E. Drilling of the production interval or cleaning out of the borehole will be performed using the reverse air method. When reverse air is not possible, the reverse mud method may be used with prior ENGINEER approval. Boreholes shall be advanced in such a manner that the drilled hole will proceed straight and plumb. Boreholes shall be drilled and conditioned to permit geophysical logging and casing/screen installation. The borehole shall be cleared of cuttings and stable in order to permit subsequent tasks to be completed without impairment.

3.03 DRILLING FLUIDS AND SETTLING TANKS

A. Drilling fluids shall not be discharged to the ground surface at the drilling site.

B. All drilling fluid storage tanks shall be above ground. Dug mud pits shall not be permitted during any phase of borehole or pilot hole drilling. Tanks shall be of sufficient length and construction to allow settling or removal of cuttings and prevent their reintroduction to the borehole. A mud system shall be used that includes a vibratory shale shaker and centrifugal desanders. Mud tanks shall be of sufficient length and construction to allow settling or removal of cuttings and prevent their reintroduction to the borehole.

C. Throughout drilling, settled solids shall be physically removed from the settling system to allow for sufficient storage and settling of solids. Drilling mud (if applicable) shall be reconditioned as needed.

D. The CONTRACTOR shall routinely monitor and record drilling fluid properties including mud weight, viscosity, gel strength, pH, and liquid and solids content. Monitoring shall be in accordance with manufacturer's recommendations, the AWWA, and International Association of Drilling Contractors (IADC). The mud and solids management systems used by the CONTRACTOR for this project shall meet the CONTRACTOR'S proposed drilling fluid manufacturer specifications for the intended application.

E. The CONTRACTOR shall provide ample settling tanks at the well site to settle solids prior to discharge. The settling tanks shall be used to reduce turbidity of the discharge so that water discharging to the outfall location

meets the criteria required for discharge to surface water bodies in accordance with SECTION 32 21 27.

F. A pump that is capable of pumping all flow test water shall be fitted between the well and settling tanks. The pump shall be sized such that the rate of the pumped flow is equal or greater to the flow test. If multiple tanks are needed for settlement of solids, then multiple pumps shall be used, as necessary, to move water through the tank system. A pump shall be capable of discharging water from the settling tanks to the outfall location.

3.04 ALIGNMENT REQUIREMENTS

A. Pilot holes and reamed holes shall be drilled round and straight throughout.

B. The completed well shall be sufficiently plumb and straight so that there shall be no interference with installation, alignment, operation, or future removal of the permanent well pump.

3.05 COMPLIANCE WITH GOVERNMENTAL REGULATIONS

A. Construct the well in strict conformance with all laws, rules, regulations, and standards related to the construction of wells in the State of Florida and local regulatory agencies.

3.06 FORMATION SAMPLES

A. One (1) set of representative formation samples shall be collected by the CONTRACTOR at specified intervals from the present total depth of the well to the new total depth. Samples shall be taken at each 5-foot level and each change in formation or material type. The method must yield samples that are representative of the actual depth to which drilling has progressed.

B. Each sample shall be approximately 8 ounces and be placed in a cotton, soil sample bag, Hubco or equivalent, or as approved by ENGINEER. Each sample shall be labeled with the date, well identification, and depth from which the sample was taken clearly marked on the container in indelible ink. The CONTRACTOR shall store and protect the samples from damage or disturbance until they have been released to and accepted by the ENGINEER.

3.07 WATER SAMPLES

A. The CONTRACTOR shall supply new 500 mL HDPE sample bottles and collect water samples during reverse air drilling. A fixed, safe, accessible location to collect samples must be provided to the satisfaction of the ENGINEER. Samples shall be collected from the point of discharge at every

ten foot interval. Sample bottles shall be labeled with well number, depth, date, and time collected.

B. The CONTRACTOR shall prevent additives during the drilling process from affecting water samples collected from the reverse air discharge point.

C. The water column in the well shall be periodically purged to obtain representative water samples. The ENGINEER shall determine when the well is to be purged.

3.08 DRILLING LOGS

A. Prepare a daily drilling log for inspection and submittal to the ENGINEER. Include in the log the depths and type of geologic formation encountered; drilling penetration rate, in minutes, for each 5-foot interval; general formation hardness based on drilling; type of drilling, chemical, water and mud additives; loss of circulation zones; additives to the well to control flow; water added to supplement reverse air drilling; problems during drilling; date, time, and depth for each entry. The log shall be kept current with a copy located at the drill site. The CONTRACTOR shall maintain an up-to-date drill string tally that shall be available for inspection by the ENGINEER.

B. A final well log shall be prepared that includes copies of the above. An as-built drawing of the well shall be submitted showing casing and borehole dimensions and details.

C. Submittals shall be made as required to the appropriate regulatory agencies per the applicable local, state and federal regulations. The CONTRACTOR shall provide copies of all submittals to the ENGINEER.

3.09 WASTE DISPOSAL

A. All solid and liquid waste, including but not limited to drilled solids, cuttings, drilling mud, drilling additives, spent or unused chemicals and unused products shall be disposed of or recycled by the CONTRACTOR in an environmentally responsible manner and in accordance with applicable regulations. The disposal or recycling location must be identified in a submittal to the ENGINEER. Prior to disposal, the location must be accepted by the ENGINEER. The CONTRACTOR shall prevent wastes from migrating from the designated construction area and cuttings storage area. The CONTRACTOR shall promptly clean up drilling by-products that migrate outside of the designated construction area. Further, the CONTRACTOR shall minimize the spillage of formation water at all times and promptly repair leaks where formation water may be released to the ground surface.

B. Remove from the drilling site all cuttings and other material removed by the drilling operations that are not required to complete the work. Solid material shall be disposed of in accordance with local and state regulations at an approved disposal site, approved by the ENGINEER. Removal of cuttings, mud and formation water from the site is considered incidental to the work and does not constitute additional payment to the CONTRACTOR.

C. Depressions left in the land surface from the cleanup of residues, or for any other reason resulting from the CONTRACTOR'S activities, shall be filled with clean fill material and graded smoothly.

END OF SECTION

(This page intentionally left blank.)

SECTION 33 21 21

WELL CASING

PART I GENERAL

1.01 SCOPE OF WORK

This section covers the work, equipment and materials necessary for furnishing and installing the well casing(s).

1.02 SUBMITTALS

A. Provide manufacturer's specifications and technical data on all casing to be provided for installation in the well(s).

PART II PRODUCTS

2.01 GENERAL REQUIREMENTS

A. All casings shall be approved for use in municipal public supply wells, and to the specifications as outlined. Casing material and dimensions are provided in Section 33 20 00 and illustrated in the project drawings. Surface casings shall be constructed of carbon steel. The CONTRACTOR shall furnish, satisfactorily install and grout each applicable string of casing. The CONTRACTOR shall ensure that when casing is installed to the total required depth it is able to rotate freely without impediment prior to grouting in place. All casings shall be new, unused and in good physical condition. Warped or damaged casing shall be rejected.

B. The Contract provides an estimate of the amount of casing. The OWNER or the ENGINEER shall determine actual lengths based on drilling results. The CONTRACTOR shall be responsible for ensuring that the selected casing shall withstand all stresses of construction without impairment.

C. The CONTRACTOR shall provide the ENGINEER with an inventory of all casing delivered to the site and maintain a tally during installation.

D. Surface casing shall include: 30-inch diameter carbon steel well casing; Production well casings shall include: 24-inch diameter, Schedule 40 PVC intermediate casing; 16-inch diameter, SDR26 CertainTeed Certa-Lok riser casing.

2.02 CARBON STEEL CASING

A. All steel casing shall be 30-inch diameter, new and unused carbon steel pipe

that conforms to A139.

B. Steel casing mill certificates shall be submitted to the ENGINEER by the CONTRACTOR prior to delivery of the casing to the site for approval. Casing shall not be approved for installation without mill certification submittal and approval by the ENGINEER.

2.03 POLY VINYL CHLORIDE (PVC) CASING

A. The 24-inch diameter PVC casing shall be Schedule 40 or approved equivalent. Any equivalent casing selected must be shown to have sufficient joint and tensile strength, internal pressure rating, resistance to collapse and ability to withstand all stresses of construction. Any alternates must be approved in advance by the ENGINEER.

B. The 16-inch riser PVC casing and couplings shall be SDR26 Certa-Lok by CertainTeed or equivalent. Any equivalent casing selected must be shown to have sufficient joint and tensile strength, internal pressure rating, resistance to collapse and ability to withstand all stresses of construction. Any alternates must be approved in advance by the ENGINEER.

C. All casings shall be clearly marked with type, grade and manufacturer. If required by the ENGINEER, the CONTRACTOR shall provide additional backup supporting documentation from the manufacturer.

D. Casing elevators must be approved by the ENGINEER.

E. Only CertainTeed Certa-Lok splines shall be used with Certa-Lok couplings. The CONTRACTOR shall provide a copy of the installation and connection procedure on site for review prior to casing assembly.

F. Final PVC well casing shall be completed as shown on the drawings.

G. Bills of lading shall be provided for casings delivered for well construction.

2.04 CENTERING GUIDES

A. Casing centering guides (centralizers) shall be placed on all casing strings, prior to installation, at 30-foot intervals with the first set of centralizers placed within 5 feet of the bottom of the casing. At the location five feet above the base of the casing, six equally spaced centralizers shall be installed and at all other locations four equally spaced centralizers shall be installed. Centralizers shall be fixed to the casing at coupling locations. If requested by the ENGINEER, an additional centralizer shall be installed 15 feet from the bottom of the casing.

B. Centralizer material shall be steel when attached to carbon steel, and stainless steel when attached to stainless steel, and either stainless steel or other approved material when attached to PVC casing. Guides shall be welded when attached to steel; and steel strapped to PVC.

C. Fixed centering guides shall extend outward from the casing to within 1/2 inch of the maximum drill bit dimension.

D. Uppermost centering guides for the final PVC casing shall be installed at a minimum of 15 feet below finished grade.

PART III EXECUTION

3.01 GENERAL

A. Casings shall be installed as described in the specifications and drawings. Actual casing depths shall be determined by the ENGINEER.

B. The casing installation method shall be approved in advance by the ENGINEER and be consistent with manufacturer specifications.

C. Casing failure by any means including, but not limited to, any collapse, breakage, separation, dents, tears or rips during construction that in any way impairs the use of the well in the opinion of the ENGINEER, shall be repaired or replaced at the CONTRACTOR'S sole expense.

D. Casing connections shall meet manufacturer specifications for water tightness. Connections shall have equal strength to the casing itself.

E. All steel and stainless-steel casings shall have machine cut beveled ends and shall be arc welded together according to the standards of the American Welding Society. Welded casings shall be straight and true of alignment to the satisfaction of the ENGINEER.

F. Final PVC well casing shall be set at one foot above 100-year flood elevation in accordance with project drawings and to facilitate final wellhead installation.

3.02 WELDING

A. General: The standards of the American Welding Society and Structural Welding Code (AWS D1.1) shall apply for all welded joint casing and accessories. All welds shall conform to the latest revision of ANSI B31.1.

B. Certification: All welded casing joints shall be made by welders certified in the State of Florida. The certified welder shall perform and be responsible for the

integrity of all steel casing welds. The CONTRACTOR must provide the ENGINEER proof of welders' certifications 72 hours before any welding is performed.

C. Surface Preparation: Any surface defects that shall affect the weld shall be chipped or ground out. A power-driven wire brush shall be used to thoroughly clean each layer of weld prior to each additional weld metal, including the final pass.

D. Passes: There shall be a minimum of three (3) weld passes on pipe sizes 6-inches and greater.

E. Cooling Time: Welded joints shall be allowed to cool for not less than 30 minutes before the weld is placed in contact with water or until the welded joint reaches a temperature equal to or less than 400 degrees Fahrenheit.

F. Weld Reinforcement: Weld reinforcement shall be as specified by the AWS code. Upon completion of welding, all weld splatter, flux, slag, and burrs left by attachments shall be removed. Welds shall be repaired to produce a workmanlike appearance, with uniform weld contours and dimensions.

G. Field Joints: All field joints shall be welded during installation by qualified welders in accordance with the requirements of AWWA C206.

END OF SECTION

SECTION 33 21 22

ANNULAR GROUT

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the labor, equipment and materials required to furnish and install the annular grout.

1.02 SUBMITTALS

A. Provide data on all proposed additives and manufacturer's specifications.

B. Provide bulk cement unit weight tickets for verification of cement quantities pumped.

C. Prior to each cement stage the CONTRACTOR shall submit a plan including anticipated theoretical lift for the specific cement stage. If theoretical lift differs from actual lift by greater than 40%, the CONTRACTOR shall immediately provide alternative means of verifying the cement grout is uniform and continuous prior to continuing subsequent stages of grout. This verification shall be performed at the CONTRACTOR'S expense and shall be performed in a timely manner so as not to hinder successful grouting of subsequent stages.

D. During cementing, provide cement slurry weight data for each grouting stage. A fixed, safe, accessible location to collect samples must be provided to the satisfaction of the ENGINEER. Samples of the cement slurry shall be collected, weighed and recorded by the CONTRACTOR in sight of the ENGINEER. If performed in batches, provide slurry weight and collect sample for each batch mixed. If performed in continuous mixing, provide slurry weights and collect samples at the beginning, middle, and end of pumping for each grouting stage.

PART II PRODUCTS

2.01 GENERAL REQUIREMENTS

A. The CONTRACTOR shall furnish and install all grout and additives as specified.

B. Cement and dry additives shall be delivered to the site in their dry state and mixed with water on site.

C. The use of ready-mix grout, mixed with water prior to delivery to the site, will be permitted; however, the CONTRACTOR must ensure that all delivered grout meets the criteria listed below and outlined in this Section. Any delivered ready-mix grout that does not meet the criteria will be rejected at the CONTRACTOR'S cost.

- Grout temperature shall be read and recorded prior to pumping downhole using equipment provided by the CONTRACTOR and viewed in the field by the ENGINEER. Acceptable grout temperature shall be in accordance with Specification for Hot Weather Concreting (ACI 305), including, but not limited to, a maximum temperature of ready mixed grout of no more than 95 degrees Fahrenheit, unless otherwise specified by the ENGINEER;
- Slurry weight of ready mixed grout shall be measured prior to pumping downhole using equipment provided by the CONTRACTOR and viewed in the field by the ENGINEER;
- Ready mixed grout slurry shall be free of grout stones (improperly mixed grout) and other foreign materials.

2.02 PORTLAND CEMENT

A. Cement grout shall be API class B Portland cement and conform to ASTM C150, Type II standards.

2.03 BENTONITE

A. Bentonite furnished for cementing shall be raw bentonite and be added at the bulk facility and thoroughly mixed at the ratio specified. Small batches (less than 50, 94-lb. bags of cement) of grout may be mixed on site. Bentonite-cement mix ratio shall not exceed applicable regulations for cement grout.

B. If the CONTRACTOR proposes to mix bentonite with cement on site, all ingredients shall be thoroughly mixed, at the ratio specified, to the satisfaction of the ENGINEER. The CONTRACTOR shall demonstrate the dry mixing method to the ENGINEER prior to mixing the slurry. Following dry mixing, the CONTRACTOR shall mix a slurry sample for measurement and provide a method of measurement to determine the weight in pounds per gallon of cement slurry to confirm proper mix ratios. Bentonite-cement mix ratio shall not exceed applicable regulations for cement grout.

PART III EXECUTION

3.01 GROUTING

A. The CONTRACTOR is solely responsible for the successful execution of grouting. Annular grout shall be in conformance with all applicable local and state regulations.

B. The CONTRACTOR shall sufficiently circulate the annulus between the casing and borehole prior to grouting to ensure borehole fluids are properly conditioned to minimize channeling and non-uniform grouting.

C. The CONTRACTOR is solely responsible for defects in the grout or grouted interval. The CONTRACTOR shall take all precautions to protect the casing from collapse or damage during grouting. Any defects in the grout job or casing damage resulting from grouting shall be corrected by the CONTRACTOR at his own expense.

D. The CONTRACTOR shall provide 24-hour notice prior to each stage of cementing of the well to enable the ENGINEER to observe all cementing operations.

E. Provide a method of measurement to determine the weight in pounds per gallon of cement slurry to confirm proper mix ratios. Samples of the cement slurry shall be collected, weighed and recorded by the CONTRACTOR in sight of the ENGINEER. The correct mix ratios shall be maintained. If performed in batches, provide slurry weight and collect samples for each batch mixed. If performed in continuous mixing, provide slurry weights and collect samples at the beginning, middle and end of pumping for each grout stage. The CONTRACTOR shall provide a fixed, safe, accessible location for the ENGINEER to view and/or collect grout samples during the cementing process.

F. If grouting is to be conducted in stages, the top of the hardened grout from the previous grouting stage shall be measured in the presence of the ENGINEER prior to each cementing stage. Each cementing stage shall be given 12 hours of curing time prior to resuming cementing. It is the responsibility of the CONTRACTOR to determine the collapse strength of the casing and the appropriate amount of grout for each grouting stage. Cementing calculations shall be reviewed with the ENGINEER in advance of each grouting stage. Grout shall be allowed to cure for 48 hours before continuation of drilling operations.

G. The grout mixture for the initial grouting stage after each casing installation shall be API Class B neat Portland cement mixed with no more than 5.5 gallons of water per sack of cement, with a minimum 14.8

lbs/gallon. At a minimum, the neat cement mixture shall be used to grout the lower 40 linear feet of casing. Additional grouting stages after casing installation above the initial grouting stage shall be API Class B Portland cement mixed with up to 6% bentonite and no more than 9 gallons of water per sack of cement as approved by the ENGINEER. Only potable water shall be used for the grout mix.

H. CONTRACTOR is solely responsible for the proper grouting of all casings in accordance with all applicable AWWA, SFWMD, FDEP and HD standards.

3.02 SETTING TIME

A. The cement must be allowed to cure 12 hours between cementing stages.

B. The final cement stage shall have a minimum 48 hours to cure before continuation of drilling operations.

END OF SECTION

SECTION 33 21 23

WELL SCREEN AND GRAVEL PACK

PART I GENERAL

1.01 SCOPE OF WORK

This section covers the work, equipment, and materials necessary for furnishing and installing the well screen and gravel pack.

1.02 SUBMITTALS

A. Provide data on all proposed additives and manufacturer's specifications.

B. Provide manufacturer's specifications and technical data on all screens and gravel to be provided for well construction.

C. Prior to mobilization, the CONTRACTOR shall provide a manufacturer grain size distribution cutsheet for anticipated gravel pack and a 16-ounce sample for ENGINEER review and approval. Throughout well construction and development, when new gravel shipments are required, the CONTRACTOR shall submit updated manufacturer grain size distribution cutsheets for review prior to installation in the well(s).

D. Provide shop drawings showing screen/PVC casing transition coupling.

PART II PRODUCTS

2.01 GENERAL REQUIREMENTS

A. All screens shall be approved for use in municipal public supply wells and to the specifications as outlined. The CONTRACTOR shall furnish, satisfactorily install, and gravel pack each string of well screen and riser casing. All screens, riser casings, couplings, and adapters shall be new, unused, in good physical condition, and delivered to the site in the original protective wood crates as provided by the manufacturer. Warped or damaged materials shall be rejected.

B. The well screen to be used in the construction of the production well shall be 10-inch or 12-inch diameter, continuous slot, type 316 stainless-steel well screens, of V-slot design, as manufactured by Johnson Well Screens, Inc., or ENGINEER approved equal. Screen sections shall be joined by welding or by threaded and coupled connections. If welded, the weld shall not decrease the corrosion resistance of the screen.

C. The screen slot size shall be determined by the ENGINEER. Blank sections within the screened interval shall be "tight wound" type 316 stainless steel screen having less than 0.001-inch slot openings.

D. The Bidding Documents indicate an estimate of the screen length. Actual lengths shall be determined by the ENGINEER.

E. The bottom of the screen shall be fitted with a matching diameter, 316 stainless steel flat plate welded to the screen.

2.02 RISER CASING

A. Riser casing shall consist of 10-inch diameter (10.750" O.D.) or 12-inch diameter (12.750" O.D.) SDR17 CertainTeed CertaLok PVC casing. For estimation purposes, the riser interval is shown on the project drawings; however, the amount of riser required may change based on the results of drilling. The riser shall be continuous from the top of the screen to land surface or as determined by the ENGINEER.

B. The riser casing shall be securely connected to the stainless-steel screen by a method approved by the screen manufacturer and the ENGINEER. The CONTRACTOR is responsible for the intact placement of the screen and riser pipe to the depth specified by the ENGINEER.

2.03 CENTERING GUIDES

A. Casing centering guides (centralizers) shall be placed on the screen/riser string, prior to installation, with the first set of centralizers placed within 5 feet of the bottom of the screen, second set of centralizers placed 5 feet above the screen/riser transition, and at 30-foot intervals above. Centralizers shall be fixed to the casing at weld ring or coupling locations. Centralizers shall be aligned so that they do not interfere with the installation of gravel and gravel installation tubing.

B. Centralizer material shall be stainless steel when attached to stainless steel, and either stainless steel, or approved alternative, when attached to PVC. Guides shall be welded when attached to steel and screw attached using ¼-inch screws or lags that penetrate not more than 80 percent of the coupling and casing when attached to PVC. Any casing penetrated shall be rejected and shall be replaced at the CONTRACTOR'S expense.

C. Centralizer material shall be non-ferrous and shall not be attached by drilling into the casing. No ferrous materials shall be used for attachment.

2.04 GRAVEL PACK MATERIAL

A. Gravel pack material shall be composed of a minimum of 95% silica, and sorted and graded so that there is minimum 90% retention on the well screen installed. Gravel pack supplier location of the gravel shall be within the State of Florida. Gravel pack grain size distribution data and a 16-ounce sample must be provided for approval by the ENGINEER.

PART III EXECUTION

3.01 GENERAL

A. Screens and casing risers shall be installed as described in the specifications and drawings. Actual casing depths shall be determined by the ENGINEER.

B. The screen assembly and installation method shall be approved in advance by the ENGINEER and be consistent with manufacturer specifications.

C. Gravel pack shall be installed in a water slurry by the tremie method. The base of the tremie pipe shall be placed at the gravel placement depth and be moved upward consistent with the gravel fill depth. The gravel pack shall be carefully installed to ensure complete filling of the annular space from the bottom of the hole to a minimum of 20 feet above the base of the outer casing or as specified by the ENGINEER. During gravel placement, the free fall distance between the gravel in place and the lower end of the construction tremie shall not exceed 20 feet.

D. Water required for the construction of the well shall be clean, potable and meet primary and secondary drinking water standards pursuant to Chapter 62-550 Florida Administrative Code.

E. After gravel placement, additional gravel may be required during development or other well construction procedures. Placement of additional gravel shall be performed as outlined above until no further measurable settlement of the gravel pack or as determined by the ENGINEER.

F. Screen or casing failure by any means, including but not limited to collapse, breakage, separation, dents, tears or rips during construction that in any way impair the use of the well in the opinion of the ENGINEER, shall be repaired or replaced at the CONTRACTOR'S sole expense.

G. Casing connections shall meet manufacturer specifications for water tightness. Connections shall have equal or greater strength as the casing itself.

SECTION 33 21 24

BOREHOLE GEOPHYSICAL AND VIDEO LOGGING

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the equipment, work, and materials necessary to perform geophysical logging of the wells.

B. Provide the following geophysical logging and well survey equipment:

1. Static and Dynamic Flow log
2. XY Caliper log
3. Gamma Ray log
4. Static and Dynamic Well Video log
5. Dual Induction log

PART II PRODUCTS (NOT USED)

PART III EXECUTION

3.01 GENERAL

A. All logging shall be supervised by the ENGINEER with 24 hours advanced notice. The CONTRACTOR is responsible to ensure that logs are complete and include the entire borehole and cased intervals as directed by the ENGINEER. Logging should be done as soon as possible after the drilling tools have been removed from the logged interval.

B. When the hole has been drilled to a depth determined by the ENGINEER, it must be prepared for geophysical logging. Borehole preparation shall include but not be limited to the following activities: i) continuation of drilling fluid circulation until drill cuttings have been removed from the borehole and the fluid is uniform in the borehole; or ii) reverse air pumping until the discharge water is free of cuttings and suspended sediment. The CONTRACTOR must make all reasonable efforts to leave the borehole free from obstructions in preparation for geophysical logging. Logging must be done immediately following the completion of borehole preparation unless otherwise stated in the Contract or as stipulated by the ENGINEER.

C. Each log must be run and recorded in a continuous fashion to qualify as an acceptable log.

D. Any obstructions or fill material or borehole of reduced diameter more than 1/2-inch in the borehole or cased intervals shall be removed or reamed by the CONTRACTOR at his own expense.

E. All logs shall include a repeat section of not less than 50 feet of the portion of the hole. The ENGINEER will determine the repeat section.

F. All logs shall be appropriately labeled with all appropriate information. Two (2) field copies shall be made available to the ENGINEER upon completion. Five (5) hard and five (5) electronic copies of finished logs including LAS and PDF files are to be provided by the CONTRACTOR within two weeks of logging. The CONTRACTOR shall furnish three (3) copies of each video to the OWNER.

G. A down hole video log in DVD format shall be conducted to inspect the casing and screened interval of the well prior to demobilizing the drilling rig. The video shall be conducted in the presence of the ENGINEER. The video camera lens shall be color and capable of 360-degree movement; be controlled by the logging technician; be independent of the camera body; and have focus capability. The video camera shall be centralized in the borehole. The centralizers shall self-adjust to different casing and hole sizes as necessary. If the ENGINEER determines that the video is unacceptable due to poor quality, the CONTRACTOR at his expense shall obtain the necessary equipment to perform additional logging to the satisfaction of the ENGINEER.

H. Video logging shall be conducted under both static and pumping conditions at the direction of the ENGINEER. The CONTRACTOR shall ensure that the well is pumped sufficiently to ensure adequate visibility for the video survey as determined by the ENGINEER. The CONTRACTOR shall use a submersible pump capable of 50% well design rate as determined by the ENGINEER.

I. During final video logging, total depth of the well shall be recorded and compared with reported total depth. If fill is present, the CONTRACTOR, shall remove following well video. Removal of fill shall be performed at the CONTRACTOR'S expense.

END OF SECTION

SECTION 33 21 25

WELL DEVELOPMENT

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the labor, equipment, and materials required to develop the well(s). Development shall include surging/sustained rate pumping at rates up to 2,000 gpm or as directed by the ENGINEER.

B. Under no circumstances shall the pumping equipment create a vacuum within the well casing.

C. The CONTRACTOR shall manage discharge water as described below and in Section 33 21 27.

1.02 SUBMITTALS

A. The CONTRACTOR shall furnish the ENGINEER with a calibrated flow meter with certification no older than 60 days prior to the notice to proceed and attest to an accuracy of 95 percent or greater for the range of the meter.

B. The CONTRACTOR shall furnish the ENGINEER with manufacturer specifications for all chemical additives proposed for development.

C. The CONTRACTOR shall furnish the ENGINEER with manufacturer specifications for generators, pumps, and corresponding silencers.

D. The CONTRACTOR shall submit to the ENGINEER, prior to installation of the development pump, a manufacturer pump curve for development.

E. The CONTRACTOR shall submit to the ENGINEER a shop drawing depicting a schematic plan with equipment and piping for formation water disposal.

F. Daily development summary logs must be completed daily by the CONTRACTOR and submitted to the ENGINEER, as requested. Blank daily development forms can be found at the end of this section.

G. Completed daily development logs shall be submitted weekly to the ENGINEER.

PART II PRODUCTS

2.01 DEVELOPMENT EQUIPMENT

A. Provide all pumps, motors, air compressors, and other ancillary equipment needed to develop the well to the extent that, as practical, suspended solids are removed from the borehole. Provide all pipe, fittings, and valves required to transmit discharge water from the pump to the settling tanks as required in SECTION 32 21 27.

B. The test pumping equipment shall have access ports, water level measurement setup, and discharge piping as required in SECTION 33 21 26.

C. The CONTRACTOR shall provide a calibrated flow meter near the pump. The flow meter shall be accurate and precise within the range of 200 gpm to 2,000 gpm. The placement of the flow meter shall be in accordance with manufacturer recommendations for flow meter placement. The CONTRACTOR shall also consult the ENGINEER for optimal flow meter placement. Air release valves shall be provided and installed by the CONTRACTOR at as many locations as required. Air release valves shall consist of tapping the discharge pipe and providing and installing a 2-inch diameter riser and gate valve. The CONTRACTOR shall supply an orifice weir to verify pumping rates.

D. The development equipment must be able to divert the flow of water in a controlled manner to minimize flooding and erosion. Discharge water shall be clear and free of suspended solids. Discharge water shall be retained temporarily using a settling tank for settlement of solids and pumped via temporary piping to the discharge point as directed by the ENGINEER. Tanks required for settling of solids and additional pumps and temporary piping needed to transmit water to the discharge point shall be included in the unit cost for development. Management and removal of development solids shall be included in the unit cost for development.

PART III EXECUTION

3.01 AIRLIFT AND JETTING WITH SIMULANTEOUS AIRLIFT WELL DEVELOPMENT

A. Develop the well using compressed air lift at a minimum air flow rate of 650 cubic feet per minute. The base of the air discharge shall be set at the base of the screen during the initial development period. This step shall be considered initial development to remove the majority of drilling fluid from the borehole and to confirm the stability of the gravel pack. Air development shall include varying the depth of air discharge and periodically surging the well with the use of a surge tank. The top of the gravel pack shall be

continuously monitored during air lift. If the top of the gravel pack is below the top of the desired level, then gravel must be added.

B. Following initial development, high velocity jetting shall be done using a solution of Bentonite Mud Remover (BMR) and/or chlorinated water for a period of time to be determined by the ENGINEER. A high velocity jetting tool having 4 nozzles shall be rotated and moved vertically throughout the entire screened portion of the well while chlorinated water is forced through the screen and into the gravel pack. The jetting tool and pumping equipment shall deliver a minimum total flow rate of 500 gpm. Alternate nozzle sizes and flow rates may be proposed; however, a minimum jetting velocity of 50 feet per second shall be maintained. Maximum jetting velocity must be reviewed by engineer for approval. Pumps used for jetting shall be at the surface with measured output flow rate to the jet tool. The initial phase of jetting shall be done using a solution of BMR and chlorinated water having a minimum chlorine concentration of 50 milligrams per liter (mg/L). The initial jetting phase shall be not less than 8 hours. Thereafter, fresh water may be used for jetting development. At the direction of the ENGINEER, accumulating sand in the screen shall be removed by lowering the air lift set to the bottom of the well. After thoroughly jetting and surging the well with the jetting tool, well development shall be performed using air lift at the base of the screen or directed by the ENGINEER.

C. Alternative methods of development may be submitted by the CONTRACTOR prior to implementation for ENGINEER review.

3.02 SURGE PUMPING

A. Using the test pump setup described in SECTION 33 21 26, the CONTRACTOR shall pump surge the well until the discharge water is free of suspended material. The CONTRACTOR shall install a pump in the well capable of pumping steadily and in surges up to 2,000 gpm from the well through the Formation Water Disposal System. The CONTRACTOR shall surge the well frequently and be able to sustain a steady high flow rate as directed by the ENGINEER.

B. The CONTRACTOR shall assist the ENGINEER with any connections required to connect the ENGINEER'S provided silt density index (SDI) testing equipment to the pump discharge. The CONTRACTOR shall provide, operate and maintain a clean auxiliary pump capable of maintaining 35 pounds per square inch (psi) for SDI testing. The auxiliary pump shall be plumbed to the well discharge for sampling and testing. The CONTRACTOR shall provide fittings and fabricate connections as needed to enable the ENGINEER to perform the SDI tests.

C. The CONTRACTOR shall measure static water level in the well prior to the

start of development each day. Additionally, CONTRACTOR shall perform a specific capacity test daily, which shall include measurement of flow rate and simultaneous measurement of water level in the well. The pump shall be capable of a minimum discharge rate of 100 gpm with a minimum drawdown of 30 feet below the pump level.

D. CONTRACTOR shall complete daily development summary forms provided by the ENGINEER, including daily static water level measurements, specific capacity measurements, and sand (Rossum) tests.

E. Throughout development and at completion of development, as directed by and in the presence of the ENGINEER, the CONTRACTOR shall measure the total depth of the well. If significant in-filling has occurred, as determined by the ENGINEER, the CONTRACTOR shall proceed to clean out the borehole to the original total depth.

3.03 DISCHARGE WATER

A. Discharge water generated during construction activities shall be discharged to the CONTRACTOR'S formation water disposal system and subsequently to the designated outfall location. Settling and treatment of formation water to be discharged is the CONTRACTOR'S responsibility and shall be in accordance with all applicable regulations and SECTION 32 21 27. The CONTRACTOR shall set up and maintain discharge water transmission piping, as required in SECTION 32 21 27. Discharge water shall always be contained and under control by the CONTRACTOR.

B. The CONTRACTOR is solely responsible, by any and all methods necessary, to meet the requirements for discharge of water. If the CONTRACTOR fails to fulfill proper requirements of discharge water, the CONTRACTOR is responsible for complete restoration of the discharge location to the original condition at no cost to the OWNER.

SECTION 33 21 26

PUMPING TESTS

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the labor, equipment, and materials required to perform pumping tests on the well.

B. The CONTRACTOR shall be responsible for failure of equipment and materials associated with the pumping test and for negligence on the part of the CONTRACTOR. In the event of such failure or negligence that results in necessitating re-running of the pumping test, the CONTRACTOR shall repeat the test at his own expense.

C. Under no circumstances shall the test pumping equipment create a vacuum within the well casing.

D. The CONTRACTOR shall manage discharge water as described below and in SECTION 32 21 27.

1.02 SUBMITTALS

A. Provide certificates of calibration for flow meters to be used for flow measurement by the ENGINEER.

B. Submit a pump curve prior to installation for approval by the ENGINEER.

C. Provide manufacturer product data and calibration certificates, for ENGINEER's approval, of all data loggers and transducers used for testing.

D. Submit to the ENGINEER following completion of pump testing recovery, all pressure transducer and data logger data from pump test background, pumping and recovery periods.

PART II PRODUCTS

2.01 TEST PUMP

A. Furnish the necessary instruments and pumping equipment capable of pumping at a steady rate ranging from 200 gpm to 2,000 gpm with a throttling device and gate valve so that the flow rate can be adjusted as directed by the ENGINEER.

B. Furnish a gate valve, orifice plate, and manometer to control and measure discharge.

C. Provide and install two (2), 1-inch I.D. drop tubes between the pump column and casing, from the water level access fitting at the wellhead to 5 feet above the pump intake or as directed by the ENGINEER. The drop tube shall enable the Engineer to manually measure water levels without interference of the pump, pump column or electronic water level monitoring equipment.

D. The CONTRACTOR shall provide a pressure transducer, data logger, and logger well cap seal for water level measurement prior to, during, and after pump testing. The CONTRACTOR shall coordinate with the ENGINEER to determine the type of transducer and logger required for the anticipated drawdown, static water level logging periods, pumping periods, and recovery periods. The transducer and logger provided by the CONTRACTOR shall include the ability to view data throughout the test to verify readings. The ENGINEER shall determine data recording frequency and format. Data shall be precise, accurate, and match manual water level measurements. Imprecise or inaccurate data shall be rejected requiring pumping tests and monitoring to be repeated at the CONTRACTOR'S expense. Electronic data shall be submitted to the ENGINEER within 24 hours of completion of the pump test. The data logger shall be installed in the well a minimum of 12 hours prior to and remain a minimum of 12 hours following the pumping test for the purpose of the collection of background and recovery water level data.

2.02 FLOW METER

Provide a calibrated flowmeter with direct measurement and a totalizer to measure flow. Anticipated metered flows shall range from 200 to 2,000 gpm. Certification shall be no older than 60 days prior to notice to proceed and attest to a precision of 95 percent or greater for the range of the meter.

2.03 DISCHARGE PIPING

Provide all pipe, fittings, and valves required to transmit discharge water from the pump to the Formation Water Disposal System identified in SECTION 32 21 27.

PART III EXECUTION

3.01 PUMPING TESTS

A. Install and operate the pumping test equipment. Pumping tests shall consist of one, 8-hour, step drawdown test (approximately 2 hours/step) at rates determined by the ENGINEER. The CONTRACTOR shall determine the

appropriate engine and gate valve settings for the desired pumping rate prior to the test date in order to achieve a constant rate as soon as possible after the start of each test/test step.

B. Sufficient time shall be permitted for the ENGINEER to collect a static water level in the well. The static water level shall be measured by the CONTRACTOR prior to the start of pumping each day.

C. The CONTRACTOR shall assist the ENGINEER with connections required to connect the ENGINEER'S provided silt density index (SDI) testing equipment to the pump discharge. The CONTRACTOR shall provide, operate, and maintain a clean auxiliary pump capable of maintaining 35 pounds per square inch (psi) for SDI testing. The auxiliary pump shall be plumbed to the well discharge for sampling and testing. The CONTRACTOR shall provide fittings and fabricate connections, as needed, to enable the ENGINEER to perform the SDI tests through the duration of the pumping test.

3.02 DISCHARGE WATER

A. Discharge water generated during rehabilitation shall be discharged to the CONTRACTOR'S Formation Water Disposal System. Settling and treatment of formation water to be discharged is the CONTRACTOR'S responsibility and shall be in accordance with all applicable regulations and SECTION 32 21 27. The CONTRACTOR shall set up and maintain discharge water transmission piping, as required in SECTION 32 21 27. Discharge water shall always be contained and under control of the CONTRACTOR.

B. The CONTRACTOR is solely responsible, by any and all methods necessary, to meet the requirements for the discharge of water. If the CONTRACTOR fails to fulfill proper requirements for the discharge of water, the CONTRACTOR is responsible for complete restoration of the discharge location to the original condition at no cost to the OWNER.

END OF SECTION

(This page intentionally left blank.)

SECTION 33 21 26.10

TEST WELL INTERVAL SAMPLING

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the work, equipment and materials necessary for furnishing and installing the test well and performing interval sampling.

B. The purpose of the interval sampling is to determine aquifer quality. Representative groundwater samples shall be collected from approximately eight (8) intervals between the depths of approximately 50 feet and 160 feet below land surface. Sampling depth will be based on pilot hole results.

C. The test well shall be located at the location as shown on project drawings. Following interval sampling, the test well shall be abandoned.

D. An alternate interval testing and sampling program may be proposed by the CONTRACTOR however; at a minimum, the CONTRACTOR must have the capability to perform the work as specified.

1.02 SUBMITTALS

A. Provide manufacturer specifications and technical data on well casing and screen used for installation in the test well.

PART II PRODUCTS

2.01 GENERAL REQUIREMENTS

A. At a minimum, casings shall conform to the requirements specified in SECTION 33 21 23.

2.02 TEST WELL CASING

A. The test well casing shall have a minimum inside diameter of two (2) inches. The CONTRACTOR shall recommend the appropriate schedule of casing for use in the test well for ENGINEER approval based on the CONTRACTOR's experience. Test well casing material shall be recommended by the CONTRACTOR; material must be of sufficient strength to withstand the process of test well interval sampling.

2.03 TEST WELL SCREEN

A. The CONTRACTOR shall recommend a screen that will withstand the stresses of installation, development, and sampling without collapse or impairment of the water sampling program. Test well casing and screen material shall be determined by the CONTRACTOR. Material shall be new and unused and conform to ASTM standards.

B. The selected screen shall have sufficient tensile and collapse strength to withstand the proposed testing program.

2.04 GRAVEL PACK

Gravel pack material shall be Standard Sand and Silica Company, "Sand," 6 by 14, gravel, or equivalent.

PART III EXECUTION

3.01 GENERAL

A. The test well shall consist of approximately 170 feet of 2-inch diameter casing and 10 feet of 0.020-inch slot screen. The test well shall be installed in the 6-inch diameter pilot hole at a depth of approximately 160 feet and gravel packed to surface.

B. Following test well and gravel pack placement, the test interval shall be developed using air lift, surge block, surge pumping or another ENGINEER approved method. After development of the interval, a CONTRACTOR provided test/sampling submersible pump shall be installed in the test well so that a representative water sample can be retrieved from the test interval. A sample shall be collected when each interval has been developed to the satisfaction of the ENGINEER. Each interval zone testing is anticipated to take approximately 2 to 3 hours for completion, however, may vary from interval to interval.

C. The CONTRACTOR shall collect a sample from each test interval and provide to the ENGINEER for analysis of the following parameters at a minimum: temperature, specific conductivity, total dissolved solids, soluble iron, total iron, hydrogen sulfide, turbidity, and chloride.

D. Following successful water sampling, the 2-inch diameter test well and screen shall be pulled up to the next higher interval to be sampled. The test well shall then be gravel packed again and the process of development and water sampling repeated for up to eight (8) samples.

E. The process of sampling and pulling back the test well shall be repeated at

various depths until the uppermost sample has been collected.

F. Following interval sampling, the test well materials shall be removed and the borehole shall be abandoned.

G. An alternate interval testing and sampling program may be proposed by the CONTRACTOR. However, at a minimum the CONTRACTOR must have the capability to perform the work as specified.

H. The CONTRACTOR shall re-drill, replace and/or retest any test well component, tool, pump or any associated component that fails for any reason before representative samples are obtained.

I. An alternate interval testing and sampling program may be proposed by the CONTRACTOR however; at a minimum the CONTRACTOR must have the capability to perform the work as specified. Any alternate plan shall be paid for in the same manner as specified in the bid form.

3.02 DISCHARGE WATER

A. Discharge water shall always be contained and under control by the CONTRACTOR. Any erosion that results from the discharge water shall be immediately repaired by the CONTRACTOR to its previous non-eroded condition.

B. The CONTRACTOR shall ensure that the discharge water does not impact adjoining property unless it is specifically approved by the ENGINEER, does not flood streets or impede any traffic flow in any way, and does not cause a nuisance in general.

END OF SECTION

(This page intentionally left blank.)

SECTION 33 21 27

FORMATION WATER DISPOSAL SYSTEM

PART I GENERAL

1.01 SCOPE OF WORK

A. Provide labor, equipment, and materials to furnish, assemble, and maintain pumps and transmission piping as required to transmit formation water from the CONTRACTOR'S construction wellhead to CONTRACTOR settling tanks and to approved surface water discharge locations adjacent to or near the well sites.

B. The CONTRACTOR is prohibited from discharging formation water to the ground surface at the drilling site. All formation water discharged from the well must be contained at all times and be directed to the designated discharge location using the CONTRACTOR'S Formation Water Disposal System.

C. Formation water shall be discharged to individual locations as depicted in project drawings.

- Wells R-1, R-2, R-3, R-6, R-7, R-8, R-9, R-10: Discharge to ACME Improvement District water bodies and do not required discharge permits.
- Wells 29 and 30: Discharge to adjacent LWDD canals and will required Lake Worth Drainage District Right of Way permit to be obtained by the CONTRACTOR.
- Well R-2: Discharge to WTP onsite stormwater drain.
- Well 23: Discharge to stormwater drain on State Road 7 and will required MOT permit to be obtained by the CONTRACTOR.
- Well 24: Discharge to stormwater drain adjacent to well site.
- Wells 29, 20, 22: Discharge ***TBD.***

D. If the discharge locations outlined above are not capable of handling maximum discharge rates as described in SECTION 33 21 25, the CONTRACTOR shall utilize settling systems and storage tanks to settle solids and reduce turbidity prior to discharge to the final outfall location.

E. The CONTRACTOR is solely responsible, by any and all methods necessary, to meet the requirements for discharge of water. If the CONTRACTOR fails to fulfill proper requirements of discharge water, the CONTRACTOR is responsible for complete restoration of the discharge location to the original condition at no cost to the OWNER.

F. The CONTRACTOR shall employ all means necessary to minimize, to the greatest extent possible, erosion, turbidity at the settling location, and final outfall location. The CONTRACTOR is solely responsible for the removal of discharged solids from any discharge location and restoration of discharge locations to their original condition to the satisfaction of the ENGINEER.

G. The CONTRACTOR shall cease water discharge operations if weather conditions impede the available capacity of the discharge location.

1.02 SUBMITTALS

A. Submit a Best Management Practices plan including a schematic plan of all equipment, piping, and silt and turbidity barriers planned for use during water discharge for approval by the OWNER and ENGINEER.

B. Submit an in-line flow meter calibration report to the OWNER and ENGINEER indicating calibration within the last 60 days.

C. Submit Generic Discharge Permit (62-621.300(2) FAC) notification to the ENGINEER.

D. Submit land development permit for discharge for all applicable stormwater discharge locations.

PART II PRODUCTS

2.01 EQUIPMENT

A. The CONTRACTOR shall provide and maintain a transfer pump(s) capable of pumping the total volumes and anticipated maximum rates of discharge from the well as defined in SECTION 33 21 25. The pump shall be used for the transfer of water from the settling tanks to the designated discharge location.

B. The CONTRACTOR shall provide polyethylene (fusion welded), or approved equal, transmission piping, couplings, valves, reusable fittings and other items needed to assemble, operate, and maintain the Formation Water Disposal System. Multiple vessels shall be connected and sequential to provide sufficient retention time for solids separation prior to fluid discharge. Vessel layout and arrangement must be located within the designated construction area specified on the project drawings.

C. The CONTRACTOR shall furnish and install an in-line flow meter, calibrated within the last 60 days. Flow meter shall have a flow rate indicator and totalizer and be capable of measuring discharge rates at the maximum flow rate of the sediment control system in place.

D. The CONTRACTOR shall provide, operate, and maintain as many pumps as required to transmit water from the well to the outfall location. The pumps shall be capable of pumping at the maximum rates for the elements of work contemplated herein.

E. The CONTRACTOR shall employ all means necessary to minimize to the greatest extent possible erosion, turbidity at the settling location and final outfall location, and containment of discharge solids, including, but not limited to, the use of de-silting/de-sanding separators, settling tanks, vacuum truck for disposal of all drilling and well testing fluids, and turbidity barriers at the outfall location. CONTRACTOR shall use an energy diffuser at the formation water disposal location to aid in minimizing erosion. The CONTRACTOR shall minimize impact to OWNER'S facilities and fully restore all areas used for formation water discharge.

PART III EXECUTION

3.01 PREPARATION

A. Review final discharge location with ENGINEER to confirm proper location and to minimize impact to site erosion.

B. The CONTRACTOR shall be responsible for applying for, obtaining, and monitoring for an FDEP Generic Permit for Discharge of Ground Water from Dewatering Operations per 62-621.300(2) for discharge of water to all State water bodies including application fee. No water quality sampling is required in association with this application; however, flow (in GPD) must be measured (actual or estimated) and recorded once per week when discharging. The flow rate cannot exceed the design flow rate of the sediment control system in place. A record of weekly flow and a copy of the permit must be kept on-site for FDEP inspection. Although not required by the FDEP, the CONTRACTOR is required to monitor and measure turbidity throughout development to ensure turbidity is less than 29 NTU prior to discharge.

C. The CONTRACTOR shall use Best Management Practices (BMPs) and all means necessary to settle and clean discharge water prior to discharge to the State Water bodies, including but not limited to the use of settling tanks and floating turbidity barriers properly installed in receiving water bodies. Well drilling activities shall be adjusted accordingly and corrective actions taken prior to any exceedances of regulatory requirements at the State Water bodies with respect to the CONTRACTOR'S discharge water. The CONTRACTOR shall employ all methods necessary to ensure the discharge water at the discharge point shall be clear, have a pH of no less than 6.0,

less than 29 NTU turbidity and meet FDEP requirements for Generic Permit for Discharge of Ground Water from Dewatering Operations 62-621.300(2).

D. Discharge directly into an outfall without settling systems shall not be permitted.

3.02 CONSTRUCTION

A. Assemble the transmission piping in accordance with the project drawings. Use high-density polyethylene (HDPE), fusion welded pipe, or other approved equivalent, that conforms to AWWA C906 or AWWA C905 for temporary formation water disposal piping. All fittings shall be fusion welded HDPE or approved equal.

B. The CONTRACTOR shall be responsible for providing and maintaining driveway access and road crossings for the access roads and associated appurtenances.

C. Discharge activities shall comply with specifications for all roadway and traffic controls. The CONTRACTOR shall take necessary precautions for the protection of the Work and the safety of the public.

3.03 OPERATION

A. The formation water disposal piping and/or hosing shall be monitored continuously for leaks and possible problem areas. A thorough inspection of the complete pipeline and/or hosing shall be conducted daily prior to startup. Repairs shall be made prior to use.

B. The CONTRACTOR shall coordinate discharge formation water activities with the ENGINEER and OWNER. Operation of the Formation Water Disposal System shall be in accordance with appropriate FDEP permit regulations. If non-compliance occurs, discharge shall be discontinued until the monitored non-compliance levels are below permitted limits. The time required to comply shall be considered incidental to the Work and shall not result in additional compensation to the CONTRACTOR.

C. Pumps shall be capable of pumping water at the anticipated maximum rates of flow. Throttling devices shall be provided on the pumps to adjust the pumping rates accordingly. Valves shall be provided as needed to shut off flow and stop gravity drainage, if necessary.

D. Cleaning and disposal of discharge solids within the settling system shall be removed using a vacuum truck and disposed of in accordance with local, state, and federal regulations. Removal of these materials shall be

considered incidental to the Work and shall not result in additional compensation to the CONTRACTOR.

E. The Formation Water Disposal System may require modifications based on site specific activity and associated quality and quantity of discharge water generated. The CONTRACTOR shall not be compensated for these modifications and the costs should be included in the Lump Sum cost associated with Pay Item Formation Water Disposal System.

F. Cleaning of the storm water drains, drainage pipes, and/or outfall canals shall be performed by the CONTRACTOR following completion of construction activities. The costs should be included in the Lump Sum cost associated with Pay Item Formation Water Disposal System.

END OF SECTION

SECTION 33 21 28

PRODUCTION WELL ACIDIZATION

PART I GENERAL

1.01 SCOPE OF WORK

A. Furnish all labor, equipment, and materials required for acidization.

B. The CONTRACTOR shall provide superintendents in the field with acidization experience who meet the minimum requirements as outlined in the Bidder's questionnaire form.

C. The CONTRACTOR shall provide redundancy in onsite field equipment required to safely perform acidization.

D. The CONTRACTOR is advised that acid treatment and associated setup includes pumping acid into the well, monitoring of the well, and treatment and disposal of spent acid until discharge water returns to a consistent and repeated pH measurement of 6.5 or higher. Once discharge water has returned to an acceptable pH and specific conductance, the CONTRACTOR shall perform a specific capacity test to determine whether additional acid treatment is required. The post acidization specific capacity test shall be performed at a rate equal to the pre-acidization specific capacity test and prior to setting up for pump development. Acidization treatment shall be considered complete upon inspection and approval by the ENGINEER. All costs associated with acid treatment including the purging of spent acid water and the initial specific capacity test are to be included in the unit price for acid treatment setup. The CONTRACTOR shall not bill against pump development nor pump testing for time spent flowing the well to remove spent acid and/or return to an acceptable pH and specific conductance.

E. Upon completion of successful acid treatment as accepted and approved by the ENGINEER, the CONTRACTOR shall remove the acid treatment setup and continue to subsequent rehabilitation tasks including well development. The CONTRACTOR shall allow for up to five (5) work days, from the time that spent acid has been removed from the well and performing specific capacity testing, for the ENGINEER to determine whether additional acid shall be injected.

1.02 SUBMITTALS

A. Acidization header drawing including location of acid line, water injection line, gas bleed line, associated pressure gauges, and other access ports as needed to complete the scope of work.

B. Prior to acidization, CONTRACTOR shall provide plan for acidization, temporary acid storage, containment and safety plan for approval by ENGINEER.

C. Provide all chemical manufacturer information including NSF Standard 60 Certification and the Material Safety Data Sheets (MSDS) for all chemicals proposed for use in the well.

D. Provide acid transportation manifests and load weight tickets.

PART II PRODUCTS

2.01 ACID

A. Furnish ENGINEER approved quantity of 20 Baume strength, 32 percent hydrochloric acid (food service grade) per well.

B. The CONTRACTOR shall ensure proper design and containment of acid pumps, hoses, fittings, and storage tanks and secondary containment to prevent spillage.

C. Place chemical resistant PacTank (or equivalent) portable spill containment berm on ground where chemical transports and tanks are to be spotted. Additional containment berm shall be placed along hose routes beneath hoses and fittings.

2.02 SODIUM BICARBONATE

A. Furnish sufficient sodium bicarbonate to manually distribute around the wellhead, acid hoses, valves, and truck to neutralize any acid in the event of a spill.

B. After acidization, prepare a sodium bicarbonate solution to raise the pH of the well development water to an acceptable level for disposal (pH between 6.5 and 8.5). pH testing shall be performed by the CONTRACTOR under the direction of the ENGINEER.

PART III EXECUTION

3.01 PROCEDURE SEQUENCE

A. The CONTRACTOR shall perform acid treatment of the production wells as designated by the ENGINEER.

B. Each well shall be treated at a strength determined by the ENGINEER between a minimum strength of 3% hydrochloric acid and a maximum strength of 32% (20 Baume) hydrochloric acid. The CONTRACTOR shall include in the acidization plan the proposed procedure for adjusting the acid strength onsite. The plan shall include proposed methods to minimize degassing of the acid during mixing. The blend of hydrochloric acid outlined in the CONTRACTOR'S acidization plan shall be based on requested blend ratios per the ENGINEER. The actual blend rate shall be dependent on the individual well response to acid procedure in the field.

C. The amount and strength of acid used may be adjusted based on results and individual well conditions as determined by the ENGINEER.

D. The CONTRACTOR shall furnish and be capable of installing a sufficient length of steel acid tubing inside the well to place the base of tubing at any depth (down to the total depth of the well), as directed by the ENGINEER. Final length of drop tubing will be determined by the ENGINEER primarily based on the review of the pre-acidization video survey. The drop tubing shall be attached to a temporary CONTRACTOR provided water tight assembly. The CONTRACTOR provided temporary acidization wellhead assembly shall have access for drop tubing, a two-inch water injection line, a gas only relief line at the top of the wellhead, fluid relief line, and a pressure gage fitting.

E. All access ports shall be fitted with isolation valves. The wellhead shall provide a tight seal up to 100 psi. Provide and install a pressure gage on the wellhead to monitor pressure at the wellhead.

F. Set up systems and controls required for acidization including, but not limited to temporary acid storage, containment, formation water treatment and disposal system, tanks, equipment, etc. required for acidization, monitoring, purging, neutralization and control as outlined in the CONTRACTOR'S approved plan. The formation water treatment system shall be adequately sized so that acid can be removed from the well in one (1) day. The CONTRACTOR shall coordinate with the ENGINEER for inspection and approval of the setup prior to acidization of the well.

G. Pump the ENGINEER approved quantity and strength of acid through the drop tubing. The pumping method shall not introduce ambient air into the well. At all times the wellhead pressure shall be monitored and shall not exceed 50 psi. All equipment and materials must be approved by the ENGINEER.

H. It is the intent of these specifications to allow for two methods of acidizing. One method includes injecting "high strength" (32%) acid within a short duration and another method includes continuously injecting "weaker acid"

for a long duration (up to 24 hours of continuous injection). The ENGINEER will coordinate with the CONTRACTOR on the initial acid method to be implemented prior to the CONTRACTOR setting up the acid equipment. The ENGINEER may require a different method based on the results of the first acid injection, should additional acidization be deemed necessary. The CONTRACTOR shall be capable of injecting acid at an approximate rate of 200 gpm (for a high strength acid) and be capable of injecting at a low rate for a duration up to 24 hours (for a lower strength acid).

I. Provide adequate water supply to pump up to three (3) well casing volumes of chase water, plus the drop tubing capacity. This volume may be more or less depending on conditions and the acid reaction. The chase water shall be metered and pumped into the well simultaneously through the drop tubing and through the casing. The pumping rate shall be a minimum 200 gpm or as designated by the ENGINEER. Chase water shall be potable water, chlorinated to 1 mg/l available chlorine. Pump equipment must be capable of overcoming maximum pressure at wellhead if pressure increases during acidization procedure.

J. If a second acid pump is to be performed, the CONTRACTOR shall purge the spent acid from the well between acid pumps until pH of the purged water is no less than 6.5, or as directed by the ENGINEER. The CONTRACTOR shall also perform a specific capacity test between acid pumps.

K. Following acidization, the CONTRACTOR shall remove spent acid continuously and purge water shall have a pH of 6.5 within one (1) day of completing the acid injection.

L. Casing pressures shall be monitored continuously by the CONTRACTOR for at least 12 hours following acid treatment. If required, excess gas pressure shall be bled off as needed. A gas relief pipe shall be extended a minimum of 50 feet away from the work area, downwind from any potential immediate receptor.

M. Using the drop tubing, a water sample shall be collected by the ENGINEER for analysis 12 hours after acid treatment. If required by the ENGINEER, the CONTRACTOR shall pump additional chase water into the well using the same method as Paragraph I.

N. Discharge well through the formation water disposal connection until water is clear with a pH of 6.5 or higher. Water with a pH below 6.5 shall be contained and treated using a sodium bicarbonate solution to neutralize residual acid or be removed from the site. Treated water shall only be discharged from the holding tank after approval by the ENGINEER. All discharge to the outfall location shall comply with all applicable discharge permits. CONTRACTOR shall remove spent acid within one (1) day.

O. Purging of spent acid shall be considered complete when discharge water from the well is clear with a pH of 6.5 or higher, the specific conductance of the well is comparable to pre-acid treatment specific conductance values, and a specific capacity test has been conducted on the well to determine if additional acid treatment is necessary. The specific capacity test shall be performed using a calibrated flowmeter to measure flow rates. The CONTRACTOR shall also furnish and implement a secondary method to measure flow rates as approved by the ENGINEER. An acceptable secondary method could include an orifice weir and manometer, volumetric method and/or other method approved by the ENGINEER.

END OF SECTION

(This page intentionally left blank.)

SECTION 33 21 29

WELL FACILITY DISINFECTION

PART I GENERAL

1.01 SCOPE OF WORK

A. Provide labor, equipment, and materials to disinfect the Production Well(s) pursuant to the requirements of AWWA C654-13 including pump facilities, wellhead, and piping according to the requirements of AWWA C-601.

B. Provide labor, equipment, and materials to perform analytical tests on the well. The CONTRACTOR shall subcontract an analytical laboratory to perform sampling and analytical services. The laboratory shall be certified to perform the scope of work by the Florida Department of Environmental Protection and local health department regulations.

C. Bacteriological analytical testing must match method preferred by OWNER.

D. All materials used in well construction including, but not limited to, well casings, screens, gravels, risers, centralizers, drilling water, pump, and motor must be cleaned and disinfected prior to installation in the well. Passing of bacteriological clearance is the sole responsibility of the CONTRACTOR.

1.02 SUBMITTALS

A. Provide State and County certifications for proposed laboratory. Bacteriological analytical testing method must match method preferred by OWNER.

B. Provide sampling reports, disinfection forms, completed chain of custody forms and analytical results for all consecutive sampling events. Laboratory reports shall be submitted within 30 days of receipt of samples by the laboratory.

C. MSDS for all products to be used for disinfection to be provided to CONTRACTOR a minimum of 15 days prior to commencement of disinfection.

PART II PRODUCTS

2.01 MATERIALS

A. Free chlorine liquid.

B. Sodium hypochlorite.

C. Steriline.

PART III EXECUTION

3.01 WELL FACILITY DISINFECTION

A. Provide notice to ENGINEER 48 hours in advance of treatment. ENGINEER may be present for disinfection and must have proper notification prior to work.

B. Post warning notices and secure the well facility from unauthorized access or use. Secure the area.

C. The CONTRACTOR shall disinfect the wells as soon as construction of the wells and cleaning procedures have been completed. The CONTRACTOR shall carry out adequate cleaning procedures immediately preceding disinfection where evidence indicates that normal well construction and development work have not adequately cleaned the wells. All oil, grease, soil, and other materials which could protect bacteria from disinfectants shall not be allowed in the hole. If evidence indicates that this material has entered the hole, it shall be thoroughly removed. The cleaning operation is to be carried out by pumping and swabbing only. Where test pumping equipment is to be used, such equipment shall be thoroughly scrubbed, or otherwise cleaned of foreign material.

D. Mix a sufficient concentration of chlorinated water solution to maintain 200 parts per million chlorine residual throughout the wells, pump, and added piping facilities. The pump and motor shall not be exposed to chlorinated water solutions with concentrations above 500 ppm. The recommended pH of chlorine solutions is between 5.5 and 6.8. Any well components sensitive to free chlorine or disinfecting agents will be disinfected and installed separately to prevent damage.

E. Disinfection procedures shall ensure that the disinfecting agent is uniformly applied throughout the entire water depth of the wells, without relying on subsequent mechanical or surging action for dispersing the disinfectant. For this purpose, the disinfecting agent shall be furnished or prepared in liquid form and placed in the wells through a hose or tremie of sufficient length to extend to the bottom of the wells. The disinfecting agent shall be applied through the hose, which is to be raised and lowered to achieve uniform distribution of the solution throughout the wells.

F. All portions of the wells above the water shall be maintained in a damp condition with water containing the required concentration of disinfecting agent for a period of not less than 20 minutes. The disinfecting agent shall be left in the wells for a period of at least 24 hours.

G. After a 24 hour or longer contact period, the wells are to be pumped to clear them of the disinfecting agent. The disposal point for the purged water shall be selected so as to minimize potential damage to aquatic life and vegetation.

H. All water used for treatment shall be potable and from an ENGINEER approved source.

I. The complete disinfection program and methods followed, especially if materially different from those specified, shall be in accordance with directives of the Florida Department of Environmental Protection (FDEP), Division of Health and all methods employed shall have their approval. Final approval of the bacterial samples shall be received from the FDEP and Palm Beach County Health Department prior to the time that the system is placed into operation.

J. Prepare and submit '*Surficial Aquifer Well Disinfection Reporting Form*' for each disinfection event.

3.02 BACTERIOLOGICAL ANALYSIS FOR WELLS

A. Purge detectable chlorine solution from the well facility.

B. The CONTRACTOR shall collect up to twenty (20) consecutive water samples per well at an approved location starting 48 hours after disinfection procedure. No less than 6 hours will elapse between sample collection events. No more than two (2) samples shall be collected per day. Sample collection and handling procedures shall be in accordance with a State approved laboratory quality assurance plan by an experienced sampling technician.

C. Any fees associated with additional disinfections or sampling to comply with the above will be at the CONTRACTOR'S expense, including all costs associated with continued well pumping.

SECTION 33 21 32

TEMPORARY WELLHEAD

PART I GENERAL

1.01 SCOPE OF WORK

A. The CONTRACTOR shall furnish, fabricate, and install a temporary construction wellhead for use during well construction and development prior to installation of final wellhead.

1.02 SUBMITTALS

A. Submit a detailed drawing of the temporary construction wellhead.

B. Provide a safety plan for temporary Public Water Supply (PWS) wellhead security plan.

PART II PRODUCTS

2.01 MATERIALS

A. Materials for temporary wellhead construction shall be determined by the CONTRACTOR and submitted in the detailed drawing.

PART III EXECUTION

3.01 REQUIREMENTS

A. The PWS well wellhead shall be maintained and protected with a secure wellhead cover by the CONTRACTOR at all times.

B. During active well work, the CONTRACTOR shall provide personnel onsite at all times. At all times during the progress of the work and at completion, the CONTRACTOR shall use reasonable precautions to prevent either tampering with the well or the entrance of foreign material into it. The well shall be sealed at all times unless testing is in progress. At the end of each work day, the well shall be sealed, to the satisfaction of the ENGINEER.

C. A secure wellhead cover must be immobile, solid and fully cover the open wellhead. A secured wellhead must be a bolted in place blind flange or approved equal.

D. At no time will the wellhead be left open or unsecure. It is the sole responsibility of the CONTRACTOR to properly secure the wellhead at all times.

END OF SECTION

SECTION 33 29 00

WELL ABANDONMENT

PART I GENERAL

1.01 SCOPE OF WORK

A. This section covers the labor, equipment, and materials required to furnish and install the cement grout to abandon an existing well as specified in the project documents. All work performed shall conform to State of Florida well drilling practices and to AWWA standards for deep wells (AWWA; A100-15).

B. Obtain all required permits for abandonment of existing well(s).

C. It is the sole responsibility of the CONTRACTOR to perform all tests (including but not limited to preliminary video and geophysical logging) to confirm all existing materials prior to work.

1.02 SUBMITTALS

A. Well abandonment permit.

B. Provide data on all proposed cement suppliers, additives, and manufacturer's specifications.

C. Provide bulk cement units weight tickets for verification of cement quantities pumped.

D. During cementing, provide cement slurry weight data for each grouting stage. A fixed, safe, accessible location to collect samples must be provided to the satisfaction of the ENGINEER. Samples of the cement slurry shall be collected, weighed and recorded. The correct mix ratios shall be maintained. If performed in batches, provide slurry weight and collect samples for each batch mixed. If performed in continuous mixing, provide slurry weights and collect samples at the beginning, middle, and end of pumping for each grouting stage.

PART II PRODUCTS

2.01 GENERAL REQUIREMENTS

The CONTRACTOR shall furnish and install all grout and additives as specified.

2.02 PORTLAND CEMENT

Cement grout shall be API class B Portland cement and conform to ASTM C150, Type II standards.

PART III EXECUTION

3.01 GENERAL REQUIREMENTS

A. The CONTRACTOR shall furnish and install all grout and additives as specified.

B. Cement and dry additives shall be delivered to the site in their dry state and mixed with water on site.

C. The use of ready-mix grout, mixed with water prior to delivery to the site, will be permitted; however, the CONTRACTOR must ensure that all delivered grout meets the criteria listed below and outlined in this Section. Any delivered ready-mix grout that does not meet the criteria will be rejected at the CONTRACTOR'S cost.

- Grout temperature shall be read and recorded prior to pumping downhole using equipment provided by the CONTRACTOR and viewed in the field by the ENGINEER. Acceptable grout temperature shall be in accordance with Specification for Hot Weather Concreting (ACI 305), including, but not limited to, a maximum temperature of ready mixed grout of no more than 95 degrees Fahrenheit, unless otherwise specified by the ENGINEER;
- Slurry weight of ready mixed grout shall be measured prior to pumping downhole using equipment provided by the CONTRACTOR and viewed in the field by the ENGINEER;
- Ready mixed grout slurry shall be free of grout stones (improperly mixed grout) and other foreign materials.

3.02 WELL ABANDONMENT

A. Obtain permit for abandonment and any special instructions required by permit.

B. The CONTRACTOR is solely responsible for the successful execution of grouting. Well abandonment shall be in conformance with all applicable State regulations. The CONTRACTOR shall provide adequate notice prior to cementing to enable the ENGINEER to observe all cementing operations. The CONTRACTOR will remove riser casing and screen from the well as required by AWWA, A100-15 to ensure an effective seal.

C. Prior to pumping grout, the total well depth will be measured by the CONTRACTOR and reported to the ENGINEER.

D. Abandonment shall be performed by pumping the cement slurry to the bottom of the well using a tremie pipe. Only neat cement will be used for the abandonment. The base of the tremie pipe will be placed within 3 feet of the total well depth. Cement will be pumped continuously from this depth, filling the well from bottom to top, until cement is visible at the top of the well. After the cement has hardened in the well, the depth of the hardened grout from the previous grouting stage will be measured in the presence of the ENGINEER.

E. As was performed for the prior grouting stage, cement will be pumped from the bottom to the top, filling the remaining cased interval, until grout is visible at the top of the well to within three feet below land surface.

F. Cut surface casing to three (3) feet below land surface and backfill to grade with clean fill.

G. Remove all existing above ground components within the fenced area, including fence, and transport all ENGINEER/OWNER considered reusable components to the OWNER'S water treatment plant. Properly dispose or recycle all unusable components. Reusable components shall be determined by the OWNER during pre-construction walkthroughs and outlined on salvage forms.

PAYMENT AND PERFORMANCE BOND FORMS

BOND NO:_____

FORM OF PAYMENT BOND

BY THIS BOND, We _____, as Principal, hereinafter called CONTRACTOR, and _____, as Surety, are bound to the Village of Wellington, as Obligee, hereinafter called "VILLAGE"; in the amount of _____Dollars ($ _____) for the payment whereof CONTRACTOR and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally.

WHEREAS, CONTRACTOR has by written agreement entered into a Contract on the _____day of _____, 20___, with the VILLAGE, Contract Number: _____("Contract") for the **Wellfield Rehabilitation, Maintenance and New Construction**. which Contract is by reference incorporated herein and made a part hereof, and specifically includes provision for liquidated damages and other damages;

THE CONDITION OF THIS BOND is that if CONTRACTOR:

1. Pays VILLAGE all losses, liquidated damages, expenses, costs and attorney's fees including appellate proceedings, that VILLAGE sustains because of default by CONTRACTOR under the Construction Contract; and

2. Promptly makes payments to all claimants as defined by Florida Statute 255.05(1) for all labor, materials and supplies used directly or indirectly by CONTRACTOR in the performance of the Construction Contract;

THEN CONTRACTOR'S OBLIGATION SHALL BE VOID; OTHERWISE, IT SHALL REMAIN IN FULL FORCE AND EFFECT SUBJECT, HOWEVER, TO THE FOLLOWING CONDITIONS:

2.1. A claimant, except a laborer, who is not in privity with CONTRACTOR shall, within forty-five (45) days after beginning to furnish labor, materials, or supplies for the prosecution of the work, furnish to CONTRACTOR a notice that he intends to look to the bond for protection.

2.2. A claimant who is not in privity with CONTRACTOR and who has not received payment for its labor, materials, or supplies shall, within ninety (90) days after performance of the labor or after complete delivery of the materials or supplies, deliver to CONTRACTOR and to the Surety, written notice of the performance of the labor or delivery of the materials or supplies and of the nonpayment.

2.3. No action for the labor, materials, or supplies may be instituted against CONTRACTOR or the Surety unless the notices stated under the preceding conditions (2.1) and (2.2) have been given.

2.4. Any action or claim under this Bond must be instituted in accordance with the Notice and Time Limitations provisions prescribed in Section 255.05(2), Florida Statutes.

Any changes in or under the Contract Documents and compliance or noncompliance with any formalities connected with the Construction Contract or the changes does not affect the Surety's obligation under this Bond.

DEFINITIONS

Contract: For purposes of this Bond, the Contract is the entire integrated agreement between the Village and the Contractor, which includes the Agreement and other documents incorporated therein and all Contract Documents and the changes thereto.

PERFORMANCE BOND

BOND NO:_____ AMOUNT:_____

KNOW ALL MEN BY THESE PRESENTS, that we, _____a Corporation, as Principal (hereinafter called Contractor), whose principal business address and telephone number is _____ and _____ organized and existing under and virtue of the laws of the State of Florida, as Surety (hereinafter called Surety), and authorized to transact business within the State of Florida, whose principal business address and telephone number is _____, are held and firmly bound unto the Village of Wellington, a Municipality of the State of Florida, as OBLIGEE (hereinafter called the Village or Obligee), in the sum of _____Dollars ($_____), lawful money of the United States of America, for the payment of which, well and truly be made to the VILLAGE, the Contractor and the Surety bind themselves and each of their heirs, executors, administrators, personal representatives, successors, and assigns, jointly and severally, firmly by these presents as follows:

WHEREAS, the CONTRACTOR has executed and entered into a Contract, dated the _____ day of _____, 20__, with VILLAGE, Contract Number: _____ ("Contract"), **Wellfield Rehabilitation, Maintenance and New Construction**. ("Project")which is by reference incorporated herein and made a part of this Bond as fully and completely as if set forth herein;

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH THAT IF CONTRACTOR:

1. In all respects fully, promptly and faithfully complies with the terms and conditions of the Contract; and

2. Indemnifies and saves harmless the above VILLAGE against and from all costs, expenses, damages including liquidated damages, attorney's fees, including appellate proceedings, injury, or loss to which said VILLAGE may be subject by reason of any wrong doing, misconduct, want of care or skill, negligence, failure to complete within the prescribed time, failure to petition within the prescribed time, or default, including patent infringements, on the part of said CONTRACTOR, its agents or employees, in the execution or performance of said Contract; and

3. Performs the guarantee and warranty of all work and materials furnished under the Construction Contract for the time specified in the Contract;

THEN THIS BOND IS VOID; OTHERWISE IT WILL REMAIN IN FULL FORCE AND EFFECT for the term of the Contract, including any and all warranty periods as specifically mentioned in said Contract.

By incorporating the Contract into its Performance Bond, the Surety agrees that if the Contractor or any party for whom the Contractor is responsible fails to perform any of its obligations pursuant to the Contract, then Surety will be liable to VILLAGE for all damages VILLAGE may sustain and be entitled to in law and pursuant to the Contract. The VILLAGE shall simply give the Surety the same notices that VILLAGE shall be required to give to Contractor of Contractor's Default(s) pursuant to the Contract to trigger Surety's liability. The VILLAGE will not be required to terminate the Contractor to trigger the Surety's liability for the Contractor's Defaults.

The Surety is also obligated to the VILLAGE without duplication for:

1. The responsibilities of the Contractor for correction of defective or deficient work, materials, and completion of the Contract, including all punch list work, the performance of all warranty and guarantee obligations, including those which arise subsequent to substantial and final completion of the Contract,
2. Additional legal, design professional and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act pursuant to this Bond, and
3. Liquidated damages, or if no liquidated damages are specified in the Contract, actual damages caused by delayed performance or non-performance by the Contractor.

After notice by the VILLAGE of a Contractor Default, the Surety shall be deemed to be in default on this Bond if the Surety fails to take appropriate action to cure the Contractor's Default within fifteen (15) days after receipt of the written default notice from the VILLAGE to the Surety demanding that the Surety perform Contractor's obligations. Should the Surety not take reasonable action to cure the default within fifteen (15) days the VILLAGE shall be entitled to all damages as set forth herein or in the Construction Contract and enforce any other remedy available to the VILLAGE.

The Surety for value received hereby stipulates and specifically agrees that no change involving any extension of time, or alteration or addition to the terms of the Construction Contract or to the Work to be performed, or materials, equipment or supplies to be furnished thereunder, or in the Plans, Drawings and Specifications accompanying the said Construction Contract shall affect the said Surety's obligation under this Bond and the said Surety does hereby waive notice of any such changes, extensions of time, alterations or additions to the terms of the Construction Contract or to the Work, or to the Plans, Drawings and Specifications or any other changes, compliance or noncompliance to the terms of the Construction Contract or to the work or to the Specifications.

DEFINITIONS

Contract: For purposes of this Bond, the Contract is the entire integrated agreement between the VILLAGE and the Contractor, which includes the Agreement and other documents incorporated therein and all Contract Documents and the changes thereto.

Contractor Default: Failure of the Contractor, which has not been remedied, to perform or otherwise to comply with the Construction Contract.

IN WITNESS WHEREOF, the above parties bound together have executed this instrument this ___ day of _____, 20___, with the name and corporate seal of each corporate party being hereto affixed and those presents duly signed by its undersigned representative, pursuant to the authority of its governing body.

NOTICE OF AWARD

December 9, 2020

NOTICE OF AWARD

Pursuant to Wellington, notice is provided as follows:

Reference –
INVITATION TO BID (ITB) # 202034 – Wellfield Rehabilitation, Maintenance and New Construction

On December 8, 2020, Wellington awarded the referenced contract to the following:

All Webbs Enterprises, Inc.
Florida Design Drilling Corporation

SALES TAX RECOVERY PROGRAM SPECIAL CONDITIONS FOR OWNER FURNISHED MATERIALS AND EQUIPMENT

During the course of this Project, Wellington (hereinafter referred to as "Owner") may issue a Change Order or Change Orders to delete from the contract certain items that the Owner desires to purchase directly and furnish to Contractor for use in the Project. Contractor agrees that if Owner desires to issue such Change Order(s), Contractor will assist the Owner in identifying appropriate materials and equipment to be included in the Change Order(s), will execute such Change Order(s) and will participate in this tax savings program at no additional cost to the Owner. Furthermore, Contractor agrees to abide by and comply with the following Special Conditions.

1. Sales and Use Taxes. The Owner is exempt from paying sales and use taxes on materials and equipment purchased for, and incorporated into **Wellfield Rehabilitation, Maintenance and New Construction.,** Bid No. **202034,** (hereinafter the "Project"). The Owner shall make direct purchases of all materials and equipment purchased for, or to be incorporated into the Project, as agreed to by the Contractor and agreed upon by the Owner in the form of a Change Order. All direct purchases of materials and equipment shall be made by the Owner with funds specifically allocated for the construction of the Project. Material suppliers shall be competitively bid by the Contractor and its subcontractors. The Contractor shall include the price for all construction materials in its bid. The Contractor shall provide the Owner a list of all intended suppliers, vendors, etc. for consideration as Owner Purchased Materials. This list shall be submitted at the same time as the preliminary schedule of values. The Contractor shall submit price quotes from the vendors, as well as a description of the materials to be supplied, estimated quantities and prices and as provided below. The Contractor shall notify the Owner no later than **10 calendar days** after request by Owner of the requested materials and equipment to be purchased by the Owner for the Project. The standard Owner Terms and Conditions applicable to this program are included as Attachment A to this section. Each equipment supplier of equipment to be provided under the Sales Tax Recovery Program shall be obligated to meet the requirements of the Owner of Wellington Terms and Conditions and the Project Technical Specifications.

1.1 The Contractor shall: (a) compile Contractor's and any Subcontractors' itemized requirement for materials and equipment, including quantities, unit costs, manufacturers' or vendors' catalogue or order numbers, delivery instructions, and other specific terms and information that are required to order the specific materials and equipment, and terms and conditions to be imposed on suppliers regarding delivery and submittal time requirements, and quantities thereof required by Contractor or Subcontractors in accordance with the applicable requirements of the Construction Contract, from time to time, during the construction of the Project, as materials and equipment need to be ordered for the Project, and submit such compilation to the Owner: (b) prepare a requisition for such materials and equipment on the Owner's form of requisition: and (c) deliver any such requisition to the Owner no less than thirty (30) days prior to the date the manufacturer or vendor of the materials or equipment, as the case may be, requires orders for such materials or equipment to be placed to assure delivery of such materials or equipment to the Site in accordance with the Project Schedule (the "Order Date"). The requisition shall identify the Order Date. . The Owner shall issue a Purchase Order directly to the vendor of the materials or equipment, prior to the Order Date (a Purchase Order). The Owner shall include with any such Purchase Order, a copy of the Owner's sales and use tax exemption certificate and a copy of the Owner's Certificate of Entitlement required under F.A.C. Rule 12A-1.094(4)(c). The Owner shall make direct payment to the vendor from the Owner's account.

1.2 The Contractor, upon the delivery of any such materials or equipment, shall verify the conformity of such materials or equipment with the terms of the Purchase Order and the Contract Documents. If the Contractor determines that the materials and equipment are conforming, the Owner shall take title and possession of such material and equipment before such materials and equipment are incorporated into the Project. If the Contractor determines that the materials and equipment are non-conforming, the Contractor shall immediately notify the Owner in writing and the Owner shall reject such material and equipment.

1.3 The Owner shall assume all risk of loss on all materials and equipment purchased pursuant to its sales and use tax exemption, subject to the provisions of section 1.10 below. The Owner shall maintain Builder's Risk Insurance for the full insurable value for all materials and equipment purchased as a result of the Owner Sales Tax Recovery Program herein. This coverage shall be in addition to all other coverage required in Section 1.11 below or as otherwise provided in these Contract Documents.

1.4 To the extent that materials and equipment are purchased pursuant to the Owner's sales and use tax exemption, the Contractor shall reduce the Contract Amount and the penal sum of its public construction bond by 1.06 times the cost of the materials and equipment purchased directly by the Owner.

1.5 The Contractor shall be fully responsible for all matters relating to the receipt of materials and equipment furnished by the Owner in accordance with this Special Condition, including, but not limited to, the responsibility for verifying correct quantities, verifying documents or orders in a timely manner, coordinating purchases, providing and obtaining all warranties and guarantees required by the Contract Documents, inspection and acceptance of the materials and equipment at the time of delivery, and loss or damage to materials and equipment following acceptance of items due to the negligence of such Contractor or any Subcontractors or other party. The Contractor shall coordinate delivery schedules, sequence of delivery, loading orientation, and other arrangements normally required by such Contractor for the particular materials and equipment furnished. The Contractor shall provide or arrange for all services required for the unloading, handling and storage of such materials and equipment through installation.

1.6 The Contractor shall visually inspect all shipments from material and equipment vendors purchased directly by the Owner in accordance with this Special Condition (the "Owner Furnished Materials") and approve the vendors' invoices for materials or equipment delivered, as Owner Furnished Materials are furnished to the Site in accordance with this Special Condition. The Contractor shall assure that each delivery of the Owner Furnished Materials is accomplished by documentation adequate to identify the Purchase Order against which the purchase is made. This documentation may consist of a delivery ticket and an invoice from the vendor conforming to the Purchase Order, together with such additional information as the Owner may require. The Contractor shall deliver to the Owner all invoices for materials and equipment upon verification by such Contractor that the materials and equipment conform exactly to the Contract Documents and the Purchase Order. Upon receipt of any invoice for Owner Furnished Materials, the Owner shall accept such materials and deliver such invoice to the Owner for payment directly to the vendor.

1.7 The Contractor shall inspect all Owner Furnished Materials to determine that such Owner Furnished Materials conform to the Contract Documents, including the Drawings and Specifications, and to determine prior to incorporation into the Work whether any such Owner Furnished Materials are patently defective, and whether such Owner Furnished Materials are identical to the materials ordered and match the description of the bill of lading and the Purchase Order. If Contractor discovers defective or non-conforming Owner Furnished Materials upon such visual inspection, Contractor shall: (1) not recommend acceptance of such non-conforming materials and equipment, (b) not utilize such non-conforming or defective materials in the Work; (c) not allow Subcontractor to utilize such non-conforming or defective materials in the Work; and (d) promptly notify the Owner, in writing, of the defective or non-conforming condition so that repair or replacement of those Owner Furnished Materials can occur without any undue delay or interruption to the Project. In the event that such Contractor fails to perform such inspection or otherwise incorporates into the Work such defective or non-conforming Owner Furnished Materials, the Contractor shall be responsible for the repair and replacement of defective or non-conforming materials, at its sole cost and expense.

1.8 The Contractor shall maintain written and detailed records of all Owner Furnished Materials incorporated into the Work from the stock of Owner Furnished Materials. The Contractor shall account monthly to the Owner for any Owner Furnished Materials delivered to the Site, indicating which Owner Furnished Materials have been incorporated into the Work.

1.9 The Contractor shall be responsible for obtaining and managing all warranties and guarantees for all Owner Furnished Materials. All repair, maintenance or damage-repair calls shall be forwarded by the Owner to the Contractor for resolution with the appropriate vendor, supplier or Subcontractor. The Contractor warrants represents and covenants that it shall be responsible for all warranties and guarantees of the Owner Furnished Materials.

1.10 After the Owner takes possession of the Owner Furnished Materials at the Site, possession of the Owner's Furnished Material shall immediately and automatically transfer to the Contractor without notice. The transfer of possession of Owner Furnished Materials from the Owner to the Contractor shall constitute a bailment for the mutual benefit of the Owner and such Contractor. The Owner shall be considered the bailor and such Contractor the bailee of the Owner Furnished Materials. Owner Furnished Materials shall be considered returned to the Owner for purposes of their bailment at such time as they are incorporated into the Project or consumed in the process of completing the Project and they are accepted in writing by the Owner upon final completion and acceptance of the Project by the Owner.

1.11 The Contractor shall purchase and maintain Builder's Risk Insurance sufficient to protect against loss of or damage to Owner Furnished Materials. Such insurance shall cover the full value of any Owner Furnished Materials between the time the Owner and or Contractor or its agents first takes title to and possession of any of such Owner Furnished

Materials until final completion of the Work. The Contractor shall also maintain any other insurance with such deductible amounts that the Owner deems necessary as it relates to the Owner Furnished Materials.

1.12 The Owner shall not be liable for any interruption or delay damages in the Project by virtue of ordering the Owner Furnished Materials, for any defects or other problems with the Project by virtue of ordering the Owner Furnished Materials, or for any extra costs resulting from any delay in the delivery of, or defects in, the Owner Furnished Materials.

1.13 The Contractor, on a monthly basis, shall review invoices submitted by all vendors of Owner Furnished Materials delivered to the Site during the prior month and either concur or object to the Owner's issuance of payment to the vendors, based upon such Contractor's records of materials delivered to the Site and whether any of the Owner Furnished Materials for which payment has not been made were either non-conforming or defective.

1.14 In order to arrange for the prompt payment to the vendor, the Contractor shall provide to the Owner a list of the acceptance of the goods or materials within fifteen (15) days of receipt of said goods or materials. Accompanying the list shall be a copy of the applicable Purchase Order, invoices, delivery tickets, written acceptance of the delivered items, and such other documentation as may be reasonably required by the Owner. Upon receipt of the appropriate documentation, the Owner shall prepare a check payable to the vendor based upon the receipt of data provided. This check will be released, delivered and remitted directly to the vendor. The Contractor shall assist the Owner to immediately obtain partial or final release of waivers as appropriate. The Owner shall not make any payment without the appropriate Contractor's concurrence and approval, which shall be delivered to the Owner. There shall be no retention on Owner Furnished Materials against either the vendor, the Contractor(s) or the Subcontractor(s).

1.15 The Contractor and or/the Owner may, in its or their reasonable discretion, require certain material and equipment vendors to provide a supply bond in the amount of one-hundred percent (100%) of the Purchase Order price. The supply bond, if required, shall be issued by a qualified surety company authorized to do business in the State of Florida and acceptable to the Owner. If the supply bond is required, the costs thereof will be added to the amount of the Purchase Order. The Contractor shall verify that a vendor can furnish a supply bond. All bonds will name the Owner and the Contractor as additional obligees.

Terms and Conditions (Attachment A).

The following Terms and Conditions are applicable to this order entered into by and between the Village of Wellington (referred to hereafter as Buyer) and Vendor (referred to as Seller).

2.1 Seller's acceptance of this order will be presumed unless Seller acknowledges exception, in writing, to Buyer within ten (10) calendar days after date of order.

2.2 Sellers doing business with the Buyer are prohibited from discriminating against any employee, applicant, or client because of race, color, religion, disability, sex, age, national origin, ancestry, marital status, or sexual orientation with regard to but not limited to the following employment practices, rates of pay or other compensation methods, and training selection.

2.3 Any assignment of this order, performance of work hereunder, in whole or in part, or monies due or to become due hereunder, shall be void unless consented to by Buyer in writing and Buyer shall have no obligations to any assignee of Seller under any assignment not consented to in writing by Buyer.

2.4 In the event of default by the Seller, Buyer may procure the articles or services covered by this order from other sources and hold the seller responsible for any excess costs occasioned thereby.

2.5 Deliveries are to be made during hours 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding holidays, unless otherwise stipulated. Seller shall notify the Buyer of deliveries that require special handling and/or assistance for off-loading. Failure to notify the Buyer concerning this type of delivery will result in the billing to Seller of any add-on re-delivery, storage, or handling charges.

2.6 The Buyer may grant additional time for any delay or failure to perform hereunder if the delay will not adversely impact the best interest of the Buyer and is due to causes beyond the control of the Seller. Such grant must be in writing and made part of the order.

2.7 In those cases where prices stated are not F.O.B. Destination, Seller is required to prepay charges and list on invoices.

2.8 To the extent authorized by law, Seller shall indemnify, save and hold harmless the Buyer, its employees and agents against any and all claims, damages, liability and court awards including costs, expenses and attorney fees incurred as a result of any act or omission by the Seller, or its employees, agents, subcontractors of assignees pursuant to the terms of this order.

2.9 All Commodities delivered on this order are subject to inspection upon receipt by a representative of the Buyer. All rejected commodities shall remain the property of the Seller and will be returned at the Seller's expense.

2.10 Seller must render original invoice to the Buyer, Attention "Project Manager, 12300 Forest Hill Blvd., Wellington, FL 33414"

2.11 By accepting this order, Seller understands and agrees that the items covered herein, or services to be rendered, shall be manufactured, sold or performed in compliance with applicable Federal, State, County and Local laws, ordinances, rules, codes and regulations. Lack of knowledge by the Seller shall in no way be a cause for relief from responsibility.

2.12 Seller shall save and hold harmless the Buyer, its employees and agents from liability for infringement of any United States patent, trademark or copyright trademark or copyright for or on account of the use of any product sold to Buyer or used in the performance of this order.

2.13 No modifications of this order shall be binding upon Buyer unless approved by an authorized representative of Buyer's Purchasing Office.

2.14 Seller compliance required under Chapter 442, Florida Statutes, that any toxic substance delivered as a part of this order must be accompanied by a Material Safety Data Sheet (MSDS).

2.15 Order Number must appear on all invoices, packing slips, shipping notices, freight bills, and correspondence concerning this order.

2.16 Payments will be made only to the company and address as set forth on order unless the Seller has requested a change thereto on official company letterhead, signed by an authorized officer of the company.

2.17 No endorsement by the Buyer of the product and/or service will be used by Seller in any way, manner or form in product literature or advertising.

2.18 Quantities specified in the order cannot be changed without Buyer's prior written approval. Goods shipped in excess of quantity designated may be returned at Seller's expense.

2.19 All parties to this order agree that the representatives named herein are, in fact, bona fide and possess full and complete authority to bind said parties.

2.20 Responsibility will not be accepted for any goods delivered or services performed unless covered by a duly authorized Buyer Purchase Order.

2.21 The Buyer of Wellington is exempt from Federal and State taxes for tangible personal property. Sellers doing business with the Buyer shall not be exempt from paying sales tax to their suppliers for materials to fulfill contractual obligations with the Buyer, nor shall any Seller be authorized to use the Buyer's Tax Exemption Number in securing such materials.

2.22 Buyer reserves the right to terminate this order in whole or in part for default (a) if Seller fails to perform in accordance with any of the requirements of this order or (b) if Seller becomes insolvent or suspends any of its operations or if any petition is filed of proceeding commenced by or against Seller under any State or Federal law relating to bankruptcy, arrangement, reorganization, receivership or assignment for the benefit of creditors. Any such termination will be without liability to Buyer except for completed items delivered and accepted by the Buyer. Seller will be liable for excess cost of re-procurement.

2.23 By accepting this order, the Seller agrees that payment terms shall be in accord with the Florida Prompt Payment Act, Florida Statute 218.70, *et seq*.

2.24 No provision of Seller's agreement to supply the ordered goods, equipment, or materials shall in any way limit Seller's liability for damages caused by defects in the materials incorporated in, nor the design or manufacture of, Seller's equipment, goods, or materials. Seller's agreement shall not include any provision requiring the Buyer to pay Seller's attorney's fees in any dispute or claim arising out of this Purchase Order.

2.25 The Uniform Commercial Code (Florida Statutes, Chapter 672) shall prevail as the basis for contractual obligations between the Seller and Buyer for any terms and conditions not specifically stated in this order.

2.26 Any and all legal actions arising from or necessary to enforce this contract will be held in Palm Beach County, Florida and the service of process and interpretation of contractual obligation shall be in accordance with the laws of the State of Florida.

2.27 Seller acknowledges that the materials being ordered are for incorporation into the Project for Buyer pursuant to a contract with a contractor. Seller agrees that it shall warrant its goods, equipment, or materials being ordered herein in compliance with Seller's normal warranties, or in compliance with the warranty provisions of the construction contract, the terms of which are incorporated herein, whichever warranty provides the Buyer with the greatest protection. Regardless of the forgoing all warranties shall be in accordance with the contract documents to which Contractor is bound with the buyer.

BIDDER/CONTRACTOR understands and agrees that this is Unit Price Contract and that contractor will be paid based upon items and quantities actually performed and accepted by Owner. The Schedule of Values is provided for the purpose of Bid Evaluation and when initiated by Wellington, the pricing of change orders.

Quantities listed on the Schedule of Values are estimates only and are not to be construed as guaranteed work quantities. Bids will be evaluated based upon the total contract price. Balance of pricing shall be considered by OWNER in determining lowest, responsive, responsible bidders. CONTRACTORS/BIDDERS shall submit balanced bids. In order to meet the needs and the best interest of the Village of Wellington, awards may be made to multiple qualified vendors.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

Named Insured:

Address (including ZIP Code):

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

A. Section **II – Who Is An Insured** is amended to include as an additional insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement. Such person or organization is an additional insured only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf,

in the performance of your ongoing operations or "your work" as included in the "products-completed operations hazard", which is the subject of the written contract or written agreement.

However, the insurance afforded to such additional insured:

1. Only applies to the extent permitted by law; and
2. Will not be broader than that which you are required by the written contract or written agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to:

"Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or failure to render, any professional architectural, engineering or surveying services including:

a. The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

C. The following is added to Paragraph **2.** Duties In The Event Of Occurrence, Offense, Claim Or Suit of Section **IV – Commercial General Liability Conditions**:

The additional insured must see to it that:

1. We are notified as soon as practicable of an "occurrence" or offense that may result in a claim;

2. We receive written notice of a claim or "suit" as soon as practicable; and

3. A request for defense and indemnity of the claim or "suit" will promptly be brought against any policy issued by another insurer under which the additional insured may be an insured in any capacity. This provision does not apply to insurance on which the additional insured is a Named Insured if the written contract or written agreement requires that this coverage be primary and non-contributory.

D. For the purposes of the coverage provided by this endorsement:

1. The following is added to the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

Primary and Noncontributory insurance

This insurance is primary to and will not seek contribution from any other insurance available to an additional insured provided that:

a. The additional insured is a Named Insured under such other insurance; and

b. You are required by written contract or written agreement that this insurance be primary and not seek contribution from any other insurance available to the additional insured.

2. The following paragraph is added to Paragraph **4.b.** of the Other Insurance Condition of Section **IV – Commercial General Liability Conditions**:

This insurance is excess over:

Any of the other insurance, whether primary, excess, contingent or on any other basis, available to an additional insured, in which the additional insured on our policy is also covered as an additional insured on another policy providing coverage for the same "occurrence", offense, claim or "suit". This provision does not apply to any policy in which the additional insured is a Named Insured on such other policy and where our policy is required by a written contract or written agreement to provide coverage to the additional insured on a primary and non-contributory basis.

E. This endorsement does not apply to an additional insured which has been added to this policy by an endorsement showing the additional insured in a Schedule of additional insureds, and which endorsement applies specifically to that identified additional insured.

F. With respect to the insurance afforded to the additional insureds under this endorsement, the following is added to Section **III – Limits Of Insurance**:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the written contract or written agreement referenced in Paragraph **A.** of this endorsement; or

2. Available under the applicable Limits of Insurance shown in the Declarations,

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

All other terms and conditions of this policy remain unchanged.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the:

Commercial General Liability Coverage Part

The following is added to the **Transfer Of Rights Of Recovery Against Others To Us Condition**:

If you are required by a written contract or agreement, which is executed before a loss, to waive your rights of recovery from others, we agree to waive our rights of recovery. This waiver of rights shall not be construed to be a waiver with respect to any other operations in which the insured has no contractual interest.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s):
A GENERAL AGGREGATE LIMIT APPLIES TO EACH CONSTRUCTION PROJECT WHERE THE NAMED INSURED IS PERFORMING OPERATIONS, HOWEVER, A GENERAL AGGREGATE LIMIT DOES NOT APPLY TO ANY CONSTRUCTION PROJECT WHERE THE NAMED INSURED IS PERFORMING OPERATIONS THAT ARE INSURED UNDER A WRAP UP OR ANY OTHER CONSOLIDATED OR SIMILAR INSURANCE PROGRAM.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage **A,** except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage **C** regardless of the number of:
   - **a.** Insureds;
   - **b.** Claims made or "suits" brought; or
   - **c.** Persons or organizations making claims or bringing "suits".
3. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

 © Insurance Services Office, Inc., 2008 □

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section **I** – Coverage **A,** and for all medical expenses caused by accidents under Section **I** – Coverage **C,** which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage **A** for damages or under Coverage **C** for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section **III** – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

Coverage Extension Endorsement – Florida

ZURICH

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.	
Policy No. BAP 3759710-03	Effective Date: 01/01/2020

This endorsement modifies insurance provided under the:

Business Auto Coverage Form
Motor Carrier Coverage Form

A. Amended Who Is An Insured

1. The following is added to the **Who Is An Insured** Provision in **Section II – Covered Autos Liability Coverage**:

   The following are also "insureds":

   a. Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow for acts performed within the scope of employment by you. Any "employee" of yours is also an "insured" while operating an "auto" hired or rented under a contract or agreement in an "employee's" name, with your permission, while performing duties related to the conduct of your business.

   b. Anyone volunteering services to you is an "insured" while using a covered "auto" you don't own, hire or borrow to transport your clients or other persons in activities necessary to your business.

   c. Anyone else who furnishes an "auto" referenced in Paragraphs **A.1.a.** and **A.1.b.** in this endorsement.

   d. Where and to the extent permitted by law:

   (1) Any person(s) or organization(s) where required by written contract or written agreement with you executed prior to any "accident", including

   (2) Those person(s) or organization(s) directing your work pursuant to such written contract or written agreement with you,

   provided the "accident" arises out of operations governed by such contract or agreement.

   This applies only up to the limits required in the written contract or written agreement, or the Limits of Insurance shown in the Declarations, whichever is less.

2. The following is added to the **Other Insurance** Condition in the Business Auto Coverage Form and the **Other Insurance – Primary and Excess Insurance Provisions Condition** in the Motor Carrier Coverage Form:

   Coverage for any person(s) or organization(s), where required by written contract or written agreement with you executed prior to any "accident", will apply on a primary and non-contributory basis and any insurance maintained by the additional "insured" will apply on an excess basis. However, in no event will this coverage extend beyond the terms and conditions of the Coverage Form.

B. Amendment – Supplementary Payments

Paragraphs **a.(2)** and **a.(4)** of the **Coverage Extensions** Provision in **Section II – Covered Autos Liability Coverage** are replaced by the following:

(2) Up to $5,000 for the cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $500 a day because of time off from work.

C. Driver Safety Program Liability and Physical Damage Coverage

1. The following is added to the **Racing** Exclusion in **Section II – Covered Autos Liability Coverage**:

This exclusion does not apply to covered "autos" participating in driver safety program events. This includes events such as, but not limited to, auto or truck rodeos and other auto or truck agility demonstrations.

2. The following is added to Paragraph **2.** in the **Exclusions** of **Section III – Physical Damage Coverage** of the Business Auto Coverage Form and Paragraph **2.b.** in the **Exclusions** of **Section IV – Physical Damage Coverage** of the Motor Carrier Coverage Form:

This exclusion does not apply to covered "autos" participating in driver safety program events. This includes events such as, but not limited to, auto or truck rodeos and other auto or truck agility demonstrations.

D. Lease or Loan Gap Coverage

The following is added to the **Coverage** Provision of the **Physical Damage Coverage** Section:

Lease Or Loan Gap Coverage

In the event of a total "loss" to a covered "auto", we will pay any unpaid amount due on the lease or loan for a covered "auto", less:

a. Any amount paid under the **Physical Damage Coverage** Section of the Coverage Form; and

b. Any:

(1) Overdue lease or loan payments at the time of the "loss";

(2) Financial penalties imposed under a lease for excessive use, abnormal wear and tear or high mileage;

(3) Security deposits not returned by the lessor;

(4) Costs for extended warranties, credit life insurance, health, accident or disability insurance purchased with the loan or lease; and

(5) Carry-over balances from previous leases or loans.

E. Towing and Labor

Paragraph **A.2.** of the **Physical Damage Coverage** Section is replaced by the following:

We will pay up to $75 for towing and labor costs incurred each time a covered "auto" of the private passenger type is disabled. However, the labor must be performed at the place of disablement.

F. Extended Glass Coverage

The following is added to Paragraph **A.3.a.** of the **Physical Damage Coverage** Section:

If glass must be replaced, the deductible shown in the Declarations will apply. However, if glass can be repaired and is actually repaired rather than replaced, the deductible will be waived. You have the option of having the glass repaired rather than replaced.

G. Hired Auto Physical Damage – Increased Loss of Use Expenses

The **Coverage Extension** for **Loss Of Use Expenses** in the **Physical Damage Coverage** Section is replaced by the following:

Loss Of Use Expenses

For Hired Auto Physical Damage, we will pay expenses for which an "insured" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or written rental agreement. We will pay for loss of use expenses if caused by:

(1) Other than collision only if the Declarations indicate that Comprehensive Coverage is provided for any covered "auto";

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(2) Specified Causes Of Loss only if the Declarations indicate that Specified Causes Of Loss Coverage is provided for any covered "auto"; or

(3) Collision only if the Declarations indicate that Collision Coverage is provided for any covered "auto".

However, the most we will pay for any expenses for loss of use is $100 per day, to a maximum of $3000.

H. Personal Effects Coverage

The following is added to the **Coverage** Provision of the **Physical Damage Coverage** Section:

Personal Effects Coverage

a. We will pay up to $750 for "loss" to personal effects which are:

(1) Personal property owned by an "insured"; and

(2) In or on a covered "auto".

b. Subject to Paragraph **a.** above, the amount to be paid for "loss" to personal effects will be based on the lesser of:

(1) The reasonable cost to replace; or

(2) The actual cash value.

c. The coverage provided in Paragraphs **a.** and **b.** above, only applies in the event of a total theft of a covered "auto". No deductible applies to this coverage. However, we will not pay for "loss" to personal effects of any of the following:

(1) Accounts, bills, currency, deeds, evidence of debt, money, notes, securities, or commercial paper or other documents of value.

(2) Bullion, gold, silver, platinum, or other precious alloys or metals; furs or fur garments; jewelry, watches, precious or semi-precious stones.

(3) Paintings, statuary and other works of art.

(4) Contraband or property in the course of illegal transportation or trade.

(5) Tapes, records, discs or other similar devices used with audio, visual or data electronic equipment.

Any coverage provided by this Provision is excess over any other insurance coverage available for the same "loss".

I. Tapes, Records and Discs Coverage

1. The Exclusion in Paragraph **B.4.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.2.c.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply.

2. The following is added to Paragraph **1.a. Comprehensive Coverage** under the **Coverage** Provision of the **Physical Damage Coverage** Section:

We will pay for "loss" to tapes, records, discs or other similar devices used with audio, visual or data electronic equipment. We will pay only if the tapes, records, discs or other similar audio, visual or data electronic devices:

(a) Are the property of an "insured"; and

(b) Are in a covered "auto" at the time of "loss".

The most we will pay for such "loss" to tapes, records, discs or other similar devices is $500. The **Physical Damage Coverage Deductible** Provision does not apply to such "loss".

J. Airbag Coverage

The Exclusion in Paragraph **B.3.a.** of **Section III – Physical Damage Coverage** in the Business Auto Coverage Form and the Exclusion in Paragraph **B.4.a.** of **Section IV – Physical Damage Coverage** in the Motor Carrier Coverage Form does not apply to the accidental discharge of an airbag.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

K. Two or More Deductibles

The following is added to the **Deductible** Provision of the **Physical Damage Coverage** Section:

If an accident is covered both by this policy or Coverage Form and by another policy or Coverage Form issued to you by us, the following applies for each covered "auto" on a per vehicle basis:

1. If the deductible on this policy or Coverage Form is the smaller (or smallest) deductible, it will be waived; or
2. If the deductible on this policy or Coverage Form is not the smaller (or smallest) deductible, it will be reduced by the amount of the smaller (or smallest) deductible.

L. Physical Damage – Comprehensive Coverage – Deductible

The following is added to the **Deductible** Provision of the **Physical Damage Coverage** Section:

Regardless of the number of covered "autos" damaged or stolen, the maximum deductible that will be applied to Comprehensive Coverage for all "loss" from any one cause is $5,000 or the deductible shown in the Declarations, whichever is greater.

M. Temporary Substitute Autos – Physical Damage

1. The following is added to **Section I – Covered Autos**:

   Temporary Substitute Autos – Physical Damage

   If Physical Damage Coverage is provided by this Coverage Form on your owned covered "autos", the following types of vehicles are also covered "autos" for Physical Damage Coverage:

   Any "auto" you do not own when used with the permission of its owner as a temporary substitute for a covered "auto" you do own but is out of service because of its:

   1. Breakdown;
   2. Repair;
   3. Servicing;
   4. "Loss"; or
   5. Destruction.

2. The following is added to the Paragraph **A. Coverage** Provision of the **Physical Damage Coverage** Section:

   Temporary Substitute Autos – Physical Damage

   We will pay the owner for "loss" to the temporary substitute "auto" unless the "loss" results from fraudulent acts or omissions on your part. If we make any payment to the owner, we will obtain the owner's rights against any other party.

   The deductible for the temporary substitute "auto" will be the same as the deductible for the covered "auto" it replaces.

N. Amended Duties In The Event Of Accident, Claim, Suit Or Loss

Paragraph **a.** of the **Duties In The Event Of Accident, Claim, Suit Or Loss** Condition is replaced by the following:

a. **(1)** In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident", claim, "suit" or "loss". However, these duties only apply when the "accident", claim, "suit" or "loss" is known to:

(a) You (if you are an individual);

(b) A partner (if you are a partnership);

(c) A member (if you are a limited liability company); or

(d) An executive officer or insurance manager (if you are a corporation).

The failure of any agent, servant or employee of the "insured" to notify us of any "accident", claim, "suit" or "loss" shall not invalidate the insurance afforded by this policy.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(2) Include, as soon as practicable:

(a) How, when and where the "accident" or "loss" occurred and if a claim is made or "suit" is brought, written notice of the claim or "suit" including, but not limited to, the date and details of such claim or "suit";

(b) The "insured's" name and address; and

(c) To the extent possible, the names and addresses of any injured persons and witnesses.

(3) If you report an "accident", claim, "suit" or "loss" to another insurer when you should have reported to us, your failure to report to us will not be seen as a violation of these amended duties provided you give us notice as soon as practicable after the fact of the delay becomes known to you.

O. Waiver of Transfer Of Rights Of Recovery Against Others To Us

The following is added to the **Transfer Of Rights Of Recovery Against Others To Us** Condition:

This Condition does not apply to the extent required of you by a written contract, executed prior to any "accident" or "loss", provided that the "accident" or "loss" arises out of operations contemplated by such contract. This waiver only applies to the person or organization designated in the contract.

P. Employee Hired Autos – Physical Damage

Paragraph **b.** of the **Other Insurance** Condition in the Business Auto Coverage Form and Paragraph **f.** of the **Other Insurance – Primary and Excess Insurance Provisions** Condition in the Motor Carrier Coverage Form are replaced by the following:

For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented under a written contract or written agreement entered into by an "employee" or elected or appointed official with your permission while being operated within the course and scope of that "employee's" employment by you or that elected or appointed official's duties as respect their obligations to you.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

Q. Unintentional Failure to Disclose Hazards

The following is added to the **Concealment, Misrepresentation Or Fraud** Condition:

However, we will not deny coverage under this Coverage Form if you unintentionally:

(1) Fail to disclose any hazards existing at the inception date of this Coverage Form; or

(2) Make an error, omission, improper description of "autos" or other misstatement of information.

You must notify us as soon as possible after the discovery of any hazards or any other information that was not provided to us prior to the acceptance of this policy.

R. Hired Auto – World Wide Coverage

Paragraph **7.a.(5)** of the **Policy Period, Coverage Territory** Condition is replaced by the following:

(5) Anywhere in the world if a covered "auto" is leased, hired, rented or borrowed for a period of 60 days or less,

S. Bodily Injury Redefined

The definition of "bodily injury" in the **Definitions** Section is replaced by the following:

"Bodily injury" means bodily injury, sickness or disease, sustained by a person including death or mental anguish, resulting from any of these at any time. Mental anguish means any type of mental or emotional illness or disease.

T. Expected Or Intended Injury

The **Expected Or Intended Injury** Exclusion in Paragraph **B. Exclusions** under **Section II – Covered Autos Liability Coverage** is replaced by the following:

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

Expected Or Intended Injury

"Bodily injury" or "property damage" expected or intended from the standpoint of the "insured". This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

U. Physical Damage – Additional Temporary Transportation Expense Coverage

Paragraph **A.4.a.** of **Section III – Physical Damage Coverage** is replaced by the following:

4. Coverage Extensions

a. Transportation Expenses

We will pay up to $50 per day to a maximum of $1,000 for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

V. Replacement of a Private Passenger Auto with a Hybrid or Alternative Fuel Source Auto

The following is added to Paragraph **A. Coverage** of the **Physical Damage Coverage** Section:

In the event of a total "loss" to a covered "auto" of the private passenger type that is replaced with a hybrid "auto" or "auto" powered by an alternative fuel source of the private passenger type, we will pay an additional 10% of the cost of the replacement "auto", excluding tax, title, license, other fees and any aftermarket vehicle upgrades, up to a maximum of $2500. The covered "auto" must be replaced by a hybrid "auto" or an "auto" powered by an alternative fuel source within 60 calendar days of the payment of the "loss" and evidenced by a bill of sale or new vehicle lease agreement.

To qualify as a hybrid "auto", the "auto" must be powered by a conventional gasoline engine and another source of propulsion power. The other source of propulsion power must be electric, hydrogen, propane, solar or natural gas, either compressed or liquefied. To qualify as an "auto" powered by an alternative fuel source, the "auto" must be powered by a source of propulsion power other than a conventional gasoline engine. An "auto" solely propelled by biofuel, gasoline or diesel fuel or any blend thereof is not an "auto" powered by an alternative fuel source.

W. Return of Stolen Automobile

The following is added to the **Coverage Extension** Provision of the **Physical Damage Coverage** Section:

If a covered "auto" is stolen and recovered, we will pay the cost of transport to return the "auto" to you. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes of Loss Coverage.

All other terms, conditions, provisions and exclusions of this policy remain the same.

Includes copyrighted material of Insurance Services Office, Inc., with its permission.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. (This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.)

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

WARRANTY FORMS

CONTRACTOR WARRANTY FORM

PROJECT: **Wellfield Rehabilitation, Maintenance and New Construction**.

OWNER: VILLAGE OF WELLINGTON

CONTRACTOR:

Contractors does hereby warrant to the Owner, that all labor and materials furnished, and Work performed in conjunction with the above-referenced project are in accordance with the Contract Documents and authorized modifications thereto, and will be free from defects due to defective labor, materials or workmanship. This warranty commences on the date of Substantial Completion of the entire Project (as defined in the Contract Documents), and expires after the later of one year from the date of Substantial Completion of the entire Project, or such longer time periods for particular items according to the specifications listed in the Contract Documents. The consideration for this warranty is the amount of the Contract to Contractor for the performance of Work.

Should any defect or deficiency develop during the warranty period due to improper labor, materials, workmanship or otherwise, the same, including adjacent Work displaced, shall be made good by the undersigned at no expense to the Owner.

The Owner will give the Contractor written notice of defective Work. Should Contractor fail to correct defective Work within three (3) calendar days after receiving written notice, the Owner may, at its option, correct defects and charge the Contractor with the costs for such correction. Contractor agrees to pay such charges upon demand.

Nothing in the above shall be deemed to apply to Work which has been abused or neglected by the Owner.

FORM OF CERTIFICATE OF SUBSTANTIAL COMPLETION

CERTIFICATE OF SUBSTANTIAL COMPLETION

PROJECT: **Wellfield Rehabilitation, Maintenance and New Construction**.

CONTRACTOR: _____

DATE OF ISSUANCE: _____ NOTICE TO PROCEED DATE: _____

PROJECT OR DESIGNATED PORTION SHALL INCLUDE:

The work performed under this Contract has been reviewed and found to be substantially complete and all documents required to be submitted by CONTRACTOR under the Contract Documents have been received and accepted. The Date of Substantial Completion of the Project or portion thereof designated above is hereby established as _____ which is also the date of commencement of applicable warranties required by the Contract Documents, except as stated below.

Definition of Date of Substantial Completion
The Date of Substantial Completion of the work or portion thereof designated by VILLAGE is the date certified by VILLAGE when all conditions and requirements of permits and regulatory agencies have been satisfied and the Work is sufficiently complete in accordance with the Contract Documents including, but not limited to Article 38, so the Project is available for beneficial occupancy by VILLAGE. A Certificate of Occupancy must be issued for Substantial Completion to be achieved; however, the issuance of a Certificate of Occupancy or the date thereof are not to be determinative of the achievement or date of Substantial Completion.

A list of items to be completed or corrected, prepared by VILLAGE, is attached hereto. The failure to include any items on such list does not alter the responsibility of CONTRACTOR to complete all work in accordance with the Contract Documents. The date of commencement of warranties for items on the attached list will be the date of final payment unless otherwise agreed in writing.

CONFLICT OF INTEREST STATEMENT

CONFLICT OF INTEREST STATEMENT

This Proposal/Agreement (whichever is applicable) is subject to the conflict of interest provisions of the policies and Code of Ordinances of WELLINGTON, the Palm Beach County Code of Ethics, and the Florida Statutes. During the term of this Agreement and any renewals or extensions thereof, the VENDOR shall disclose to WELLINGTON any possible conflicts of interests. The VENDOR's duty to disclose is of a continuing nature and any conflict of interest shall be immediately brought to the attention of WELLINGTON. The terms below shall be defined in accordance with the policies and Code of Ordinances of WELLINGTON, the Palm Beach County Code of Ethics, and Ch. 112, Part III, Florida Statutes.

CHECK ALL THAT APPLY.

NO CONFLICT:

[X] To the best of our knowledge, the undersigned business has no potential conflict of interest for this Agreement due to any other clients, contracts, or property interests.

[X] To the best of our knowledge, the undersigned business has no employment or other contractual relationship with any WELLINGTON employee, elected official or appointed official.

[X] To the best of our knowledge, the undersigned business has no officer, director, partner or proprietor that is a WELLINGTON purchasing agent, other employee, elected official or appointed official. The term "purchasing agent", "elected official" or "appointed official", as used in this paragraph, shall include the respective individual's spouse or child, as defined in Ch. 112, Part III, Florida Statutes.

[X] To the best of our knowledge, no WELLINGTON employee, elected official or appointed official has a material or ownership interest (5% ownership) in our business. The term "employee", "elected official" and "appointed official", as used in this paragraph, shall include such respective individual's relatives and household members as described and defined in the Palm Beach County Code of Ethics.

[X] To the best of our knowledge, the undersigned business has no current clients that are presently subject to the jurisdiction of WELLINGTON's Planning, Zoning and Building Department.

POTENTIAL CONFLICT:

[ ] **The undersigned business, by attachment to this form, submits information which may be a potential conflict of interest due to any of the above listed reasons or otherwise.**

THE UNDERSIGNED UNDERSTANDS AND AGREES THAT THE FAILURE TO CHECK THE APPROPRIATE BLOCKS ABOVE OR TO ATTACH THE DOCUMENTATION OF ANY POSSIBLE CONFLICTS OF INTEREST MAY RESULT IN DISQUALIFICATION OF YOUR BID/PROPOSAL OR IN THE IMMEDIATE CANCELLATION OF YOUR AGREEMENT, WHICHEVER IS APPLICABLE.

SALES TAX EXEMPTION CERTIFICATE OF ENTITLEMENT

CERTIFICATE OF ENTITLEMENT – SAMPLE

I, the undersigned authorized representative of_____ (hereinafter "Governmental Entity"), Florida Consumer's Certificate of Exemption Number , certify that the tangible personal property purchased on or after _____ (date) will be incorporated into or become a part of a public facility as part of a public works contract pursuant to contract # _____ with _____ (Name of Contractor) for the building of _____.

I certify that the purchase of the materials contained in the attached Purchase Order meets the following exemption requirements contained in Section 212.08(6), F.S., and Rule 12A-1.094, F.A.C.:

You must initial each of the following requirements.

____ 1. The attached Purchase Order is issued directly to the vendor supplying the materials the contractor will use in the identified public works.

____ 2. The vendor's invoice is issued directly to Governmental Entity.

____ 3. Payment of the vendor's invoice is made directly by Governmental Entity to the vendor from public funds.

____ 4. Governmental Entity will take title to the tangible personal property from the vendor at the time of purchase or delivery by the vendor.

____ 5. Governmental Entity assumes the risk of damage or loss at the time of purchase.

I understand that if the tangible personal property identified in the attached Purchase Order does not qualify for the exemption provided in Section 212.08(6), F.S., and Rule 12A-1.094, F.A.C., Governmental Entity will be subject to the tax, interest, and penalties due on the materials purchased. If the Department of Revenue determines that the materials purchased tax-exempt by issuing this Certificate do not qualify for the exemption, Governmental Entity will be liable for any tax, penalty, and interest determined to be due.

I understand that if I fraudulently issue this certificate to evade the payment of sales tax I will be liable for payment of the sales tax plus a penalty of 200% of the tax and may be subject to conviction of a third degree felony.

Under the penalties of perjury, I declare that I have read the foregoing Certificate of Entitlement and the facts stated in it are true.

Signature of Authorized Representative Title

Purchaser's Name (Print or Type) Date

Federal Employer Identification:

Telephone Number:

You must attach the Purchase Order and the Florida Consumer's Certificate of Exemption issued to Governmental Entity.

Do not send to the Department of Revenue. This Certificate of Entitlement must be retained in the vendor's and the contractor's books and records.

(d)(c) If the contractor does not have a Certificate of Entitlement, sales to the contractor are subject to tax, unless the contractor can demonstrate to the satisfaction of the Executive Director or designee that such sales are, in substance, tax-exempt direct sales to a governmental entity.

(e) The governmental entity may not transfer liability for such tax, penalty, and interest to another party by contract or agreement.

(f) In the case of contracts with any agency or branch of the United States government in which the federal governmental agency or branch is not required to produce a Certificate of Entitlement, the purchase must comply with the five criteria provided in paragraph

(4)(b), for the purchase of supplies and materials to be exempt from sales and use tax. If the criteria in paragraph (4)(b) are not met, the contractor is the ultimate consumer of such supplies or materials and is liable for sales or use tax on such purchases and manufacturing costs.

(5) Contractors, including subcontractors, that manufacture or fabricate their own materials for incorporation into public works cannot be included in a governmental entity's direct purchase program and may not accept a Certificate of Entitlement. The contractor and subcontractors, not the governmental entity, are deemed to be the ultimate consumers of the articles of tangible personal property they manufacture or fabricate to perform their contracts and are liable for tax in the manner provided in subsection (10) of Rule 12A-1.051, F.A.C.

(6) through (8) No change.

TOWN OF JUPITER

Invitation to Bid

Sealed bids will only be accepted at the Town Clerk's Department, 210 Military Trail, Jupiter, Florida 33458:

Construction of Surficial Aquifer Well 12A
and Surficial Wellfield Rehabilitation Program (W2111)

Until **2:00PM**, Local Time, **January 13, 2021** at which time and place all bids received will be publicly opened and read aloud in the Town Council Chambers. Sealed bids shall be submitted to the Town Clerk, on paper, in accordance with the Instruction to Bidders. Bids received after the time and date specified will not be considered. The face of the envelope shall be addressed as follows:

Town Clerk
Town of Jupiter
210 Military Trail
Jupiter, FL 33458
January 13, 2021 at 2:00PM
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program (W2111)

The nature and scope of this project is:

Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160' deep with the top 120' being 20" PVC casing and bottom 40' being either 12" open hole, open hole with liner or 12" stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

Bid Documents will be available on December 8, 2020 at www.demandstar.com. Bid Documents can be downloaded for $5.00 from Demandstar by signing up for a free agency subscription for the Town of Jupiter at www.demandstar.com. Hard copies of Bid Documents may also be purchased from Demandstar by visiting www.demandstar.com or emailing demandstar@onvia.com.

A virtual pre-bid meeting will be held on December 16, 2020 at 10:00 AM using Zoom. Bidders can access the meeting using the following link: https://zoom.us/j/98551606222?pwd=bElpT3NWVlB3NnY4czZMbi9aNjhKUT09. Alternatively, bidders can join the meeting by visiting https://zoom.us/join, enter the Meeting ID 985 5160 6222 and use the password W2111. Attendance at the pre-bid meeting is not a requirement for bid qualification; however, bidders are encouraged to attend.

Questions concerning the bid will be answered by addendum through Demandstar.com. All questions should be directed to Rebecca Wilder, P.E. in writing, via email rebeccaw@jupiter.fl.us (include Project Name in the subject of the email) or by fax (561) 747-5634. Emails should be delivered with a Read Receipt requested to confirm successful receipt by the Town.

Bidders are not required to be a plan holder of record with Demandstar.com; however, bidders are responsible to obtain complete sets of bidding documents in preparation of submitting a bid

Bid Security in the amount of five percent (5%) of the estimated value for the initial contract term ($646,000) must accompany each bid in accordance with the Instructions to Bidders.

The Town of Jupiter reserves the right to waive any irregularities and to reject any and all bids. The Town of Jupiter is an equal opportunity employer.

By Order of the Town Council,
Town of Jupiter

Laura Cahill, Interim Town Clerk

PUBLISHED: Palm Beach Post

DATE: December 6, 2020

Bid Proposal

Bidding Company Name: Centerline Drilling, Inc.

Town of Jupiter Utilities
210 Military Trail
Jupiter, FL 33458

Gentlemen:

The undersigned, as Bidder, hereby declares that the only Persons, company, or parties interested in the Proposal or the Contract to be entered into, as principals, are named herein; and that this Proposal is made without connection with any other person, company, or parties making a Bid or Proposal; and that it is in all respects fair and in good faith without collusion or fraud.

That the Bidder has carefully and to his full satisfaction examined the attached Instructions to Bidders, General Conditions, Supplementary Conditions, detailed Specifications, and Form of Contract and Bond, together with the accompanying plans, and that Bidder has read all addenda issued prior to the opening of Bids; and that Bidder has fully examined the site and the project documents and hereby agrees to furnish, unless otherwise provided, all implements, machinery, equipment, transportation, tools, materials, supplies, labor and other things necessary to the prosecution and completion of the work, to wit:

> Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160' deep with the top 120' being 20" PVC casing and bottom 40' being either 12" open hole, open hole with liner or 12" stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

It is proposed that the project herein described shall be constructed for the Unit Prices as follows, all in accordance with the requirements and provisions of the Contract Documents.

Bid Schedule of Values
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program (W2111)

The following schedule of bid items has been developed to allow the Town to equitably evaluate bids. Individual bid item unit costs will be used to establish the total cost of each scope of work developed to maintain, rehabilitate, and/or replace wells; work orders will be issued as authorization to proceed with the various scopes of work to be completed under this Contract. Town does not guarantee that estimated quantities shown will be utilized in full, or at all. The Town may utilize some or all of these bid items for each scope of work, as the Town deems necessary.

Item No.	Item Description	Unit	Estimated Quantity	Unit Price	Extended Value
BASE BID ITEMS, GENERAL					
1	Bonds and Insurance (Maximum Allowable 3%)	LS	1	$19380.00	$19380.00
2	Indemnification	LS	1	$100.00	$ 100.00
3	General Conditions 7 % of Sub-Total Base Bid, Well Rehabilitation Price (Items 5-47)* (Maximum Allowable 8%)	LS	1	$27,009.50	$27,009.50
4	Mobilization/Demobilization 7 % of Sub-Total Base Bid, Well Rehabilitation Price (Items 5-47)* (Maximum Allowable 8%)	LS	1	$27,009.50	$27,009.50
		Sub-Total Base Bid, General (Item Nos. 1-4)			$73,499.00
BASE BID ITEMS, WELL REHABILITATION					
5	Remove and Re-Install Pump Discharge Apparatus	Each	6	$4000.00	$24000.00
6	Brushing and Swabbing of Well Screen, Riser or Casing	Each	1	$800.00	$800.00
7	Surfactant Treatment	Gallon	500	$0.50	$250.00
8	Surficial Aquifer Well Acidization Setup	LS	2	$4500.00	$9000.00
9	Well Acidization with 32% HCl	Gallon	2,000	$5.50	$11000.00
10	Remove Existing Screen and Riser	Each	1	$4000.00	$4000.00
11	Clean Out Open Hole to Total Depth	Foot	50	$30.00	$1500.00

***Bidder shall indicate the percentage (%) in the blank provided on the Bid Form for Pay Items 3 and 4. Refer to Section 01025 Measurement and Payment of the technical specifications for additional detail for all Pay Items**

BID PRICE SUMMARY

Total Base Bid, Well Rehabilitation Price: (Item Nos. 1-47) = $459349.00

Total Base Bid, Well Rehabilitation Price (Items 1-47) in Words: _____

Four hundreed fifty nine thousand three hundred forty nine — 00/100

Total Additive Alternate Bid Well 12A (Open Hole Scenario) Price: (Item Nos. 48-64) =** $231,750.00

Total Additive Alternate Bid Well 12A (Open Hole Scenario) Price: (Item Nos. 48-64) in Words:** _____

two hundreed thirty one thousand Seven Hundreed fifty — 00/100

MUST CHECK ONE OF THE FOLLOWING:

BACTERIOLOGICAL CLEARANCE LABORATORY

☐ Approved State Department of Health Laboratory (DOH Certified)

☑ Town of Jupiter Utilities Laboratory (DOH Certified) - Use of Town of Jupiter Water System Lab will result in no charge for Item No. 32 on the Schedule of Values.

Please note that Bidder is responsible to utilize DOH Certified laboratory for work associated with Bid Item Nos. 60 & 61

List of Subcontractors/Suppliers

The Bidder shall list below the name and the location of the place of business of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the Work or improvement, or a subcontractor licensed by the State who, under subcontract to the prime contractor, specially fabricates and installs a portion of the Work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of two percent (2%) of the prime contractor's total bid. Failure to comply with this requirement may render the Bid non-responsive and may cause its rejection. If Prime Contractor will self-perform any of the work listed below it shall be indicated as self-perform under Subcontractor License Number.

Work to be Performed	Subcontractor License Number	Percent of Total Contract	Subcontractor/Supplier Name & Address
N/A -- No subcontractors over 2% of total bid			

Note: Provide licenses, certifications, experience, and qualification forms for those subcontractors listed above. Attach additional pages as needed.

Qualification Requirements

(Complete these pages in their entirety and include with Bid. Attach copies of applicable Licenses)

THE UNDERSIGNED GUARANTEES THE TRUTH AND ACCURANCY OF ALL STATEMENTS AND ANSWERS HEREIN CONTAINED:

A. Any information for which OWNER cannot corroborate is grounds for rejection of Bid. (Use additional sheets as needed to provide the required information.)

1. State the numbers of years your organization has been doing business in the State of Florida:
   18 years

2. State the location of the office from which this Contract will be managed.
   1696 Old Okeechobee Road #3C, West Palm Beach, Florida 33409

3. State the number of employees available to complete the work contemplated by this contract.
   6

4. State Name and years of experience of Bidder's Project Manager to be assigned to this Project. Provide the proposed Project Manager's experience for at least four (4) similar projects within the past five (5) years. Provide information as to the role of the individual for the stated previous projects and his/her intended role for this Contract. Provide reference contact information for Project Manager on previous projects listed. If in Owner's opinion the proposed Project Manager is not qualified to act at Project Manager for this Contract based on the information presented by the Bidder and Owner's verification of references, Bidder shall propose another Project Manager. Owner and Bidder shall agree on the Project Manager for this Contract before the Contract is awarded.

   Project Manager's: Name: John Say, Jr.

   Years of Experience in this type of work: 35 years

   Years of Experience as a Project Manager in this type of work: 18 years

5. Only Bidders who are qualified and have completed at least four (4) similar projects over the last five (5) years or equivalent experience as determined by the Town to be in the Town's sole best interest will be considered for award.

   NOTE: In order to be deemed acceptable for the purpose of determining Bidder Qualification, similar projects shall be listed below and have all information completed (blanks correctly filled in) including contact names and telephone numbers of both the Owner and Engineer.

   Names and experience of Major Subcontractors (proposed to perform 2% or more of the work of this contract) to be used on this project shall also be included in the Bid Proposal Package. Copy this form and attach additional pages as needed. Provide Four (4) similar projects for major subcontractors.

Qualification Requirements (Continued)

As Bidder, we certify the following:

Proposal (Continued)

If awarded the Contract, the undersigned agrees to execute the attached Agreement/Contract within fifteen (15) calendar days from the date set forth in the Notice of Intent to Award or Notice of Award, which ever one is received first, and to fully complete all necessary work within the time limits specified below after date of written Notice to Proceed, with such extensions of time as are provided for in the General Conditions.

Contract Durations for Well Rehabilitation (Base Bid) Scope:
(Applies to all Work associated with Well Maintenance and Rehabilitation)

Substantial Completion:	365 calendar days from Notice to Proceed
Final Completion:	365 calendar days from Notice to Proceed

Contract Durations for Well 12A (Additive Alternate Bid) Scope:
(Applies to all Work associated with Abandonment of Well 12 and Construction of 12A):

Substantial Completion:	105 calendar days from Notice to Proceed
Final Completion:	135 calendar days from Notice to Proceed

The undersigned understands the Contract time starts on the date of Notice to Proceed. The undersigned understands the Contract time includes time for Contractor to obtain permits, submit and obtain shop drawing approvals, order materials, receive deliveries, complete all Work required of the Contract, and to close out the Contract.

There is enclosed a bid guarantee consisting of five percent (5%) of the estimated value for the initial contract term ($646,000).

The undersigned agrees that all bid documents issued for this project, including addenda, have been reviewed and site visits performed, as necessary to provide a comprehensive bid. The undersigned acknowledges receipt of 1 (insert number) Addenda for this project.

The undersigned furthermore agrees that, in case of failure on undersigned's part to sign said contract and provide required bonds, power of attorney's, and insurance within (15) days after receipt of a Notice of Intent to Award or a Notice of Award, whichever comes first, the check, bond, or other security accompanying undersigned's Bid and the money payable thereon, shall become the property of the Town, by forfeit as agreed and liquidated damages; otherwise the check or bond accompanying undersigned's Bid shall be returned to the undersigned.

The undersigned acknowledges that payments made by the Town of Jupiter will be made via electronic funds transfers (EFT) and vendor will provide the Town of Jupiter with the information required to make EFT payments.

The undersigned, if awarded the contract, agrees to furnish at time of signing the contract, a payment bond and a performance bond, each in the amount of 100% of the contract value as set forth in "Instructions to Bidders".

The undersigned is aware that the Inspector General of Palm Beach County has the authority to investigate and audit matters relating to the negotiation and performance of this contract and in furtherance thereof may demand and obtain records and testimony from the contractor and its subcontractors and lower tier subcontractors. The contractor understands and agrees that in addition to other remedies and consequences

provided by law, the failure of the contractor or its subcontractors or lower tier subcontractors to fully cooperate with the Inspector General when requested may be deemed by the municipality to be a material breach of this contract justifying its termination.

The undersigned states that this bid proposal is the only proposal for this project in which he is interested and certifies that all of the information provided in this bid proposal is true and correct.

Contractor Safety Qualifications/Requirements

1. APPLICABILITY

Any contractors performing maintenance, repair, turnaround, major renovations, or specialty work on or adjacent to the hazardous chemical process at the Jupiter Water Treatment plant is subject to the contractor safety requirements of the Environmental Protection Agency Risk Management Program (40 CRF 68.87) and the Occupational Safety and Health Administration's Process Safety Management Program (29 CRF 1910.119(h)).

CONTRACTOR SHALL SUBMIT A COMPLETED COPY OF THE ATTACHED "CONTRACTOR SAFETY QUALIFICATION FORM" WITH THEIR BID. FAILURE TO INCLUDE THIS FORM WITH THE BID IS GROUNDS FOR DISQUALIFICATION.

2. OWNER RESPONSIBILITY

(A) Selecting a Contractor:

1. When selecting a contractor, obtain and evaluate information regarding the contractor's safety program.

(B) Informing a Contractor:

1. Inform the contractor of the known potential fire, explosion, or toxic release hazards related to the contractor's work and regulated process.

2. Explain to the contractor the applicable provisions of the facilities emergency response program (i.e. alarms, evacuation routes, etc.)

3. Inform the contractor of the facility's safe work practices of operations such as:
    - Confined space entry
    - Equipment/line opening
    - Lockout/tagout Program
    - Control over entry into regulated (i.e. hazardous) process areas
    - Hot Work Permit

(C) Evaluating a Contractor's Performance

1. Evaluate the contractor's performance in fulfilling their requirements under this regulation.

3. CONTRACTOR RESPOSIBILITY

(A) Assure that each of the contractor's employee's is trained in the work practices to safely perform his/her job, and to document that each employee understood the training. This documentation will include the name of employee, date of the training, and means used to verify that the employee understood the training.

(B) Assure that each of the contractor's employees are instructed in the known potential fire, explosion, or toxic release hazards related to his/her job and the process, and the applicable provisions of the emergency response plan.

(C) Assure that Contractor's employees and subcontractor's/laborers attend the WTP safety orientation and follow the facility's safety rules including safe work practices such as control over entry into hazardous chemical process areas, lockout/tagout, equipment/line opening, confined space safety, and hot work permit.

(D) Advise the facility owner of any unique hazard presented by the contractor's work, or of any hazards found by the contractor.

(E) Obtain and evaluate information pertaining to subcontractor's safety programs.

(F) Assure that subcontractor's and laborers are trained in their work practice to safety perform their jobs.

4. CONTRACTOR SUBMITTALS

(A). Training Certification

Prior to the commencement the contractor shall certify in writing to the Owner that those employees involved in work on or around the hazardous chemical process at the Jupiter Water Treatment Plant have successfully completed training in accordance with 40 CFR 68.87(c) and 29 CFR 1910.119(h)(3).

(B). Records Maintenance

The Contractor shall maintain a record of those employees who successfully completed the above training. These records must include the following information:

- Name of the employee
- Contents of training
- Date of training
- Means used to verify that the employee understood the training

(C). Additional Responsibilities

1. Contractor must immediately inform the Owner of all contract employee injuries or illness resulting from work performed on or around and hazardous chemical process.

2. Contractor must immediately inform the Owner of any injuries resulting from any work at the facility.

3. Contractor employees, subcontractors, and laborers must participate in a mandatory on-site safety orientation conducted by the Owner before work begins. It is the Contractor's responsibility to schedule these meetings with the Owner, and it is the Contractor's responsibility to ensure <u>all</u> persons working on the Water Treatment Plant site under this contract have attended the mandatory on-site safety orientation. Failure to do so will result in removal of those persons who have not received the training from the job site until such time as the training is obtained.

SECTION 9: SIGNATURE OF COMPANY OFFICER

I certify that to the best of my knowledge, information, and belief formed after reasonable inquiry, the information submitted is true, accurate, and complete.

Name (print): John Say, Jr. Title: President

Signature: [signature] Date: 11/13/21

Sworn Statement

PURSUANT TO SECTION 287.133(3)(a),FLORIDA STATUES,
ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. This sworn statement is submitted to Town of Jupiter
[print name of the public entity]

by John Say, Jr. President
[print individual's name and title]

for Centerline Drilling, Inc.
[print name of entity submitting sworn statement]

whose business address is 1696 Old Okeechobee Road #3C

West Palm Beach, Florida 33409

and (if applicable) its Federal Employer Identification Number (FEIN) is: 42-1551177
(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn Statement: _____.)

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding or guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:
   1. A predecessor or successor of a person convicted of a public entity crime: or
   2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term affiliate includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **[indicate which statement applies.]**

   ✓ Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity, has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ___ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ___ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in public interest to place the entity submitting this sworn statement on the convicted vendor list.
   [attach a copy of the final order]

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED, I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS: Section 12. Power of Attorney.
Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts: Section 5. Surety Bonds and Undertakings.
Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Renee C. Llewellyn, the undersigned, Assistant Secretary, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 13 day of January, 2021.

By: Renee C. Llewellyn
Renee C. Llewellyn, Assistant Secretary

Not valid for mortgage, note, loan, letter of credit, currency rate, interest rate or residual value guarantees.

To confirm the validity of this Power of Attorney call 1-610-832-8240 between 9:00 am and 4:30 pm EST on any business day.

Bid Bond (continued)

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond will be Owner's sole and exclusive remedy upon default of Bidder.
2. Default of Bidder occurs upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds, Power of Attorney(s), and Certificate(s) of Insurance required by the Bidding Documents.
3. This obligation will be null and void if:
   3.1. Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds, Power of Attorney(s), and Certificate(s) of Insurance required by the Bidding Documents, or
   3.2. All Bids are rejected by Owner, or
   3.3. Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).
4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.
5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions does not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.
6. No suit or action will be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety, and in no case later than one year after the Bid due date.
7. Any suit or action under this Bond will be commenced only in a court of competent jurisdiction located in the state in which the Project is located.
8. Notices required hereunder must be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Postal Service registered or certified mail, return receipt requested, postage pre-paid, and will be deemed to be effective upon receipt by the party concerned.
9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.
10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond will be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute governs and the remainder of this Bond that is not in conflict therewith continues in full force and effect.
11. The term "Bid" as used herein includes a Bid, offer, or proposal as applicable.

HOWARD LEASING
Professional Employee Services

6302 Manatee Avenue West
Bradenton, FL 34209

Centerline Drilling, Inc.
1696 Old Okeechobee Road
West Palm Beach, FL 33409

Re: Experience Modification Rating

To Whom It May Concern:

I am writing this letter in response to your organization's request for Workers' Compensation Experience Modification Rating (EMR). Howard Leasing Inc., had an EMR of .98 in 2018, an EMR of .98 in 2019 and an EMR of .98 in 2020. Through the co-employment relationship between Howard Leasing Inc., and Centerline Drilling, Inc., the EMR rating is as follows:

Rating Effective Date	EMR
January 1, 2021	.98

Sincerely,

Sondra Kelley
Director of Risk Management

Please read this proposal carefully, as the limits, coverage and other terms and conditions may vary significantly from those requested in your submission and/or from the expiring policy. Terms and conditions that are not specifically mentioned in this proposal are not included. The terms and conditions of this proposal supersede the submitted insurance specifications and all prior proposals and binders. Actual coverage will be provided by and in accordance with the policy as issued.

The insurer is not bound by any statements made in the submission purporting to bind the insurer unless such statement is reflected in the policy or in an agreement signed by someone authorized to bind the insurer.

This proposal has been constructed in reliance on the data provided in the submission. A material change or misrepresentation of that data voids this proposal.

Company: **Westchester Surplus Lines Insurance Company - AM Best Rating A++ XV**

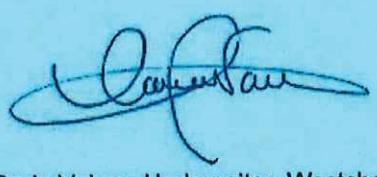
The quoted coverage is subject to the receipt and satisfactory review of the following information within thirty (30) days unless otherwise noted:



1. Three years of currently valued loss runs - prior to binding

Additional Terms and Conditions:

1. Proposed terms and conditions may differ from those requested.
2. Sample coverage forms will be provided to you prior to binding.
3. The producer shall be responsible for all applicable surplus lines filings and taxes.
4. Premium is due thirty (30) days from the effective date of coverage.
5. The proposed coverage shall be 25% minimum earned at inception.
6. The coverage proposed in this quote is valid through 03/07/2021.
7. We reserve the right to rescind this quote in order to amend the terms and conditions, including premium, or decline the account based upon review of additional underwriting information.
8. **PLEASE NOTE THAT FOR POLICIES EFFECTIVE JULY 21, 2011 AND SUBSEQUENT, WE REQUIRE THE PRODUCER TO PROVIDE THE "HOME STATE" AS DEFINED IN THE NONADMITTED AND REINSURANCE REFORM ACT (NRRA) UPON BINDING OF THIS PLACEMENT**
9. Please be advised that we do not review Certificates of Insurance issued by you, or by any party, relating to this policy of insurance either for content or accuracy. Accordingly, we request that you do not provide copies of certificates to us for review or for our records. Authority is granted to you for the limited purpose of issuing **unmodified ACORD Certificates (ACORD 25).** It is your responsibility to see that any Certificate provides an accurate representation of the coverage form and endorsements applicable to this policy at the time the Certificate is issued. **Any modification of the approved ACORD forms specifically set forth above, or the issuance of a non-approved Certificate of Insurance (ACORD or other) is prohibited.** Certificates of Insurance may only be issued as a matter of information. You have no authority by virtue of a Certificate or otherwise, to amend, extend or otherwise alter coverage afforded under this policy. Certificates of Insurance are never recognized as endorsements or policy change requests. You must submit a separate written request if an endorsement or policy change (including but not limited to adding additional insureds or loss payees and/or alteration of notice requirements for cancellation) is requested. In the event a policy change is requested, the underwriter will advise if the request is acceptable to the Company.

CERTIFICATION EXPIRATION DATE
May 30, 2022

Dear Mr. Say:

Congratulations, the South Florida Water Management District (District) has recertified your firm as a Small Business Enterprise (SBE). This certification is valid for three (3) years and may **only** be applied when business is conducted in the following area(s):

Well Water Contracting Services

Your submittal of bids or proposals to supply other products or services outside of the specialty area(s) noted above will not count toward SBE participation. If you require certification in other specialty areas, please contact the Procurement Bureau, SBE Section, for additional information.

Renewal is required every three (3) years and should be requested a minimum of 45 days prior to the above expiration date.

If any changes occur within your company during the certification period such as ownership, affiliate company status, address, telephone number, licensing status, gross revenue, or any information that relates to your SBE Certification status, you must notify this office in writing immediately. It is imperative that we maintain current information on your company at all times. *FAILURE TO REPORT CHANGES MAY RESULT IN DECERTIFICATION.*

Certification is not a guarantee that your firm will receive work, nor an assurance that your firm will remain in the District's vendor database.

We look forward to a mutually beneficial working relationship.

Sincerely,

Joni Lynn Fox
Sr. Contract Compliance Specialist
Procurement Bureau

HEALTH, SAFETY, & HAZARD WRITTEN PROGRAM

SAFETY COMMITEE

Safety Committee Organization

A safety committee has been established to recommend improvements to our workplace safety program and to identify corrective measures needed to eliminate to control recognized safety and health hazards. The safety committee consists of the following supervisory and non-supervisory members of our organization:

John Say Jr.	Safety Program Coordinator
Dean Federer	Supervisory Employee Member

Responsibilities

The safety committee shall determine the schedule for evaluating the effectiveness of control measures use to protect employees from safety and health hazards in the workplace.

The safety committee will be responsible for assisting management in reviewing and updating safety rules based on accident investigation findings, any inspection findings, and employee reports of unsafe conditions or work practices; and accepting and addressing anonymous complaints and suggestions from employees.

The safety committee will be responsible for assisting management in updating the workplace safety program by evaluating employee injury and accident records, identifying trends and patterns and formulating corrective measures to prevent recurrence.

The safety committee will be responsible for assisting management in evaluating employee accident and illness prevention programs and promoting safety and health awareness and co-worker participation through continuous improvements to the workplace safety program.

Safety committee members will participate in safety training and be responsible for assisting management in monitoring workplace safety education and training to ensure that it is in place, that it is effective and that it is documented.

Meetings

Safety committee meetings program are held quarterly. The safety program, coordination will make a copy of the minutes available upon request.

MANAGEMENT COMMITMENT AND INVOLVEMENT

Policy Statement

The management of this organization is committed to providing employees with a safe and healthful workplace. It is the policy of this organization that employees report unsafe conditions and do not perform work tasks if the work is considered unsafe. Employees must report all accidents, injuries and unsafe conditions to their supervisors. No such report will result in retaliation, penalty or other disincentive.

Employee recommendations to improve safety and health conditions will be given thorough consideration by our Management team. Management will give top priority to and provide the financial resources for the correction of unsafe conditions. Similarly, management will take disciplinary action against an employee who willfully or repeatedly violates workplace safely rules. This action may include verbal or written reprimands and may ultimately result in termination of employment.

The primary responsibility for the coordination, implementation and maintenance of our workplace safety program has been assigned to:

Name: John Say Jr.
Number: (561) 436-6388

Senior management will be actively involved with employees in establishing and maintaining an effective safely program. Our safety program coordinator, myself, or other members of our management team will participate with you or your department's employee representative in ongoing safety and health programs activities, which include:

Promoting safely committee participation.
Providing safety and health education and training.
Reviewing and updating workplace safety rules.

This policy statement serves to express management's commitment to an involvement in providing our employees a safe and healthful workplace. This workplace safety program will be incorporated as the standard of practice for this organization. Compliance with the safety rules will be required of all employees as a condition of employment.

John Say, Jr.

SAFETY AND HEALTH TRAINING

Safety and Health Orientation

Workplace safety and health orientation begins on the first day of initial employment or job transfer. Each employee has access to a copy of this safety manual, through his or her supervisor, for review and future reference and will be given a personal copy of the safety rules, polices and job-specific procedures described in our workplace safety program manual. All employees will be instructed by their supervisors that compliance with the safety rules described in the work place safety manual is required.

Job-Specific training

Supervisors will initially train employees on how to perform assigned job tasks safely.

Supervisors will carefully review with each employee the specific safety rules, policies and procedures that are applicable and that are described in the workplace safety manual.

Supervisors will give employees verbal instructions and specific directions on how to do the work safely.

Supervisors will observe employees performing the work. If necessary, the supervisor will provide a demonstration using safe work practices, or remedial instruction to correct training deficiencies before an employee is permitted to do the work without supervision.

All employees will receive safe operating instructions on seldom-used or new equipment before using the equipment.

Supervisors will review safe work practices with employees before permitting the performance of new, non-routine or specialized procedures.

Periodic Retraining of Employees

All employees will be retrained periodically on safety rules, policies and procedures and when changes are made to the workplace safety manual.

Individual employees will be retrained after the occurrence of a work-related injury caused by an unsafe act or work practice and when a supervisor observes employees displaying unsafe acts, practices or behaviors.

First-Aid Procedures (continued)

Minor First-Aid Treatment

First-aid kits are kept in the supervisor's vehicle. If you sustain an injury or are involved in an accident requiring minor first-aid treatment:

1. Inform you supervisor.
2. Administer first-aid treatment to the injury or wound.
3. If a first-aid kit is used, indicate usage on the accident investigation report.
4. Access to a first-aid kit is not intended to be a substitute for medical attention.
5. Provide details to the safety coordinator for the completion of the accident investigation report.

Non-Emergency Medical Treatment

For non-life threatening work related injuries requiring professional medical assistance, the office must first authorize treatment. If you sustain an injury requiring treatment other than first aid:

1. Inform you supervisor.
2. Contact the office, turn information in to complete a notice of injury form, at that time you will be instructed as to what medical facility you can go to.
3. After your doctor appointment contact the office and give them an update on your status.
4. Provide details to the safety coordinator for the completion of the accident investigation report.

Emergency Medical Treatment

1. If you sustain a severe injury requiring emergency treatment:
2. Inform your supervisor or have one of your co-worker notify him.
3. Call for help or have one of your co-workers call (911).
4. Have some one notify the office with all the information need to fill out the notice of injury.
5. Provide details to the safety coordinator for the completion of the accident investigation report.

First-Aid Instructions

In all cases requiring emergency medical treatment, immediately call or have a co-worker call to request emergency medical assistance.

WOUNDS:

Minor: Cuts, lacerations, abrasions or punctures
Wash the wound using soap and water; rinse it well.
Cover the wound using clean dressing.

Major: Large deep and bleeding
Stop the bleeding by pressing directly on the wound, using a bandage or cloth.
Keep pressure on the wound until you receive medical treatment.

BROKEN BONES:

Before the victim is moved, "splint the injured area. Use a board, cardboard, or rolled newspaper as a splint.

BURNS:

Thermal Heat
Rinse the burned area, without scrubbing it and immerse it in cold water; do not use ice water.
Blot dry the area and cover it using sterile gauze or a clean cloth.

Chemical
Flush the exposed area with cool water immediately for 15 to 20 minutes.

EYE INJURY:

Small particles
Do not rub your eyes.
Use the corner of a soft clean cloth to draw particles out or hold the eyelids open and flush the eyes continuously with water.

Large or stuck particles
If a particle is stuck in the eye, do not attempt to remove it.

Chemical
Immediately irrigate the eyes and under the eyelids with water for 30 minutes.

NECK AND SPINE INJURY:

If the victim appears to have injured his or her neck or spine, or is unable to move his or her arm or leg, do not attempt to move the victim unless it is absolutely necessary.

HEAT EXHAUSTION:

Loosen the victim's tight clothing.
Give the victim "sips" of cool water.
Make the victim lie down in a cooler place with the feet raised.

SAFETY AWARENESS POLICY

EMPLOYEE ACKNOWLEDGMENT

I acknowledge that I have received a copy of Centerline Drilling, Inc. safety awareness policy. I have either read or have had the policy read to me, and have been offered the opportunity to have my questions answered by management. I understand how and why these rules and guidelines are important to my personal safety and to the safety of my fellow employees. I agree to follow current and future rules and guidelines of the safety policy. I understand that willful safety violations will result in disciplinary actions. I understand that I may be held responsible for damages to equipment and or property if the damage is caused by an unsafe act on my part.

The following acts will be considered grounds for disciplinary action up to and including immediate dismissal:

1. Any act of complete disregard of a safely rule or directive.
2. Failure or refusal to wear required safely or protective equipment or clothing.
3. Failure to report an accident or injury involving a fellow worker or myself.
4. Failure to report property or equipment damage or failure.
5. Reporting to work while under the influence of drugs or alcohol, or using drugs or alcohol at work.
6. Removal, defeating, defacing, destroying, or altering a required safety shield, guard or device from a piece of equipment regardless of ownership.

Penalties for Safety Violations

1st Offense:	Verbal warning from management or safety department.
2nd Offense:	Written warning, placed in employee's personnel record.
3rd Offense:	Written warning, suspension without pay at management's discretion.
4th Offense:	Written warning, immediate dismissal.

I agree to uphold these conditions for as long as I am an employee with Centerline Drilling, Inc.

ACCIDENT INVESTIGATION

Accident Investigation Procedures

An accident investigation will be performed by the safety coordinator at the location where the accident occurred. The safety coordinator is responsible for seeing that the accident investigation reports are being filled out completely, and the recommendations are being addressed. The Safety coordinator will investigate all accidents, injuries and occupational disease using the follow investigation procedures.

1. Implement temporary control measures to prevent any further injuries to employees.
2. Review the equipment, operations and processes to gain an understanding of the accident situation.
3. Identify and interview each witness and any other person who might provide clues to the accident's causes.
4. Investigate casual conditions and unsafe acts; make conclusions based on existing facts.
5. Complete the accident investigation report.
6. Provide recommendations for corrective actions.
7. Indicate the need for additional or remedial safety training.

Accident investigation reports must be submitted to the office within 48 hours of the accident.

INSTRUCTIONS FOR COMPLETING THE ACCIDENT INVESTIGATION REPORT

An accident investigation is not designed to find fault or place blame but is an analysis of the accident to determine causes that can be controlled or eliminated.

(Items 1-6) Identification: This section is self-explanatory.

(Item 7) Nature of Injury: Describe the injury, e.g., strain, sprain, cut, burn, fracture. **Injury Type**: First aid-injury resulted in minor injury/treated on premises; Medical-injury treated off premises by physician; Lost time-injury missed more than one day of work; No Injury-no injury, near-miss type of incident. **Part of the Body**: Part of the body directly affected, e.g., foot, arm, hand, head.

(Item 8) Describe the accident: Describe the accident, including exactly what happened, and where and how it happened. Describe the equipment or materials involved.

(Item 9) Cause of the accident: Describe all conditions or acts which contributed to the accident, i.e.,
a. unsafe conditions-spills, grease on the floor, poor housekeeping or other physical conditions.
b. unsafe acts-unsafe work practices such as failure to warn, failure to use required personal protective equipment.

(Item 10) Personal protective equipment: Self-explanatory

Item II) Witness(es): List name(s), address(es), and phone number(s).

(Item 12) Safety training provided: Was any safety training provided to the injured related to the work activity being performed?

(Item 13) Interim corrective action: Measures taken by supervisor to prevent recurrence of incident, i.e., barricading accident area, posting warning signs, shutting down operations.

(Item 14): Self-explanatory

(Item 15): Self-explanatory

(Item 16) Follow-up: Once the investigation is complete, the safely coordinator shall review and follow-up the investigation to ensure that corrective actions recommended by the safety committee and approved by the employer are taken, and control measures have been implemented.

RECORDKEEPING PROCEDURES

Recordkeeping Procedures

1. The Safety coordinator will turn in the accident investigation report to the office.
2. The office will keep the Notice of Injury, the accident investigation report and any documents pertaining to the accident in the employee file.
3. The office will also keep a Log & Summary of Occupational Injuries and Illnesses on OSHA's form.
4. All records will be made available to the safety committee.

ALL EMPLOYEES

Lifting Procedures

General

1. Test the weight of the load before lifting by pushing the load along its resting surface.
2. If the load is too heavy or bulky, use lifting and carrying aids such as hand trucks, dollies, pallet jacks and carts, or get assistance from a co-worker.
3. Never lift anything if your hands are greasy or wet.
4. Wear protective gloves when lifting objects with sharp corners or jagged edges.

When lifting

1. Face the load.
2. Position your feet 6" - 12" apart with one foot slightly in front of the other.
3. Bend at the knees, not at the back.
4. Keep your back straight.
5. Get a firm grip on the object with your hands and fingers. Use handles when present.
6. Hold objects as close to your body as possible.
7. Perform lifting movements smoothly and gradually; do not jerk the load.
8. If you must change direction while lifting or carrying the load, pivot your feet and turn your entire body. Do not twist at the waist.
9. Set down objects in the same manner as you picked them up except in reverse.
10. Do not lift an object from the floor to a level above your waist in one motion. Set the load down on a table or bench and then adjust your grip before lifting it higher.

Ladders and Step Ladders

1. Read and follow the manufacturer's instruction label affixed to the ladder if you are unsure how to use the ladder.

2. Do not use ladders that have loose rungs, cracked or split side rails, missing rubber foot pads or are otherwise visibly damaged.

3. Keep ladder rungs clean and free of grease. Remove buildup of material such as dirt or mud.

Ladders and Step Ladders (continued)

4. When performing work from a ladder, face the ladder and do not lean backward or sideways from the ladder.

5. Allow only one person on the ladder at a time.

6. Do not stand on the top two rungs of any ladder.

7. Do not stand on a ladder that wobbles, or that leans to the left or right.

8. Do not try to "walk" a ladder by rocking it. Climb down the ladder, and then move it.

Climbing a Ladder

1. Face the ladder when climbing up or down.

2. Do not carry items in your hands while climbing up or down a ladder.

3. Maintain a three point contact by keeping both hands and one fool or both feet and one hand on the ladder at all times when climbing up or down.

OFFICE PERSONNEL

Office Safety:

1. Do not place material such at boxes or trash in walkways and passageways.
2. Do not throw matches, cigarettes or other smoking materials into trash baskets.
3. Do not kick objects out of your pathway; pick them up or push them out of the way.
4. Keep floors clear of items such as paper clips, pencils, tacks or staples.
5. Straighten or remove rugs and mats that do not lie flat on the floor.
6. Mop up water around drinking fountains and drink dispensing machines.
7. Do not block your view by carrying large or bulky items; use a dolly or hand truck or get assistance from a fellow employee.
8. Store sharp objects such as pens, pencils, letter openers or scissors in drawers or with the points down in a container.
9. Carry pencils, scissors and other sharp objects with the points down.
10. Use a ladder or step stool to retrieve or store items that are located above your head.
11. Do not run on stairs or take more than one step at a time.
12. Keep doors in hallways fully open or fully closed.
13. Use handrails when ascending or descending stairs or ramps.
14. Obey all posted safety and danger signs.

Furniture Use:

1. Open one file cabinet drawer at a time.
2. Close drawers and doors immediately after use.
3. Use the handle when closing doors, drawers and files.
4. Put heavy files in the bottom drawers of the filing cabinets.
5. Do not tilt the chair you are sitting in on its back two legs.
6. Do not stand on furniture to reach high places.

Equipment Use:

1. Do not use fans that have excessive vibrations, frayed cords or missing guards.
2. Do not place floor type fans in walkways, aisles or doorways.
3. Do not connect multiple electrical devices into a single outlet.
4. Do not use extension or power cords that have the ground prong removed or broken off.
5. Do not use frayed, cut or cracked electrical cords.
6. Use a cord cover or tape the cord down when running electrical or other cords across aisles, between desks or across entrances or exits.

LABOR PERSONNEL

Site Safety:

1. Do not start work until barricades, barrier logs, fill or other protection have been installed.
2. Do not approach any heavy equipment until the operator has seen you and has signaled to you that is safe to approach.
3. Walk around or step over holes, rocks, roots materials or equipment in your pathway.
4. Do not work outdoors during lightning storms.
5. Drink plenty of clear liquids during your breaks.
6. Take breaks in shaded areas.

Knives/Sharp Instruments:

1. Use knives for the operation for which they are made.
2. Do not use knives that have broken or loose handles.
3. Do not use knives as screwdrivers, pry bars, can openers or ice picks.
4. When handling knife blades and other cutting tools, direct sharp points and edges away from you.
5. Cut in the direction away from your body when using knives.

Hand Tool Safety:

General:

1. Keep the blade of all cutting tools sharp.
2. Do not carry sharp or pointed hand tools such as screwdrivers, scribes, chisels or files in your pocket unless the tool or pocket is sheathed.
3. Tag worn, damaged or defective tools "Out of Service" and do not use them.
4. Do not use a tool if its handle has splinters, burrs, cracks, splits or if the head of the tool is loose.
5. Do not use impact tools such as hammers, steel stakes or chisels that have mushroomed heads.
6. Do not perform "make-shift" repairs to tools.
7. Do not throw tools from one location to another or from one employee to another.
8. Transport hand tools only in toolboxes or tool belts. Do not carry tools in your clothing.

Hammers:

1. Do not use a hammer if your hands are oily, greasy or wet.
2. Do not strike objects with the cheek of the hammer.
3. Do not strike on hammer against another hammer.

Pliers:

1. Do not attempt to force pliers by using a hammer on them.
2. Do not use pliers that are cracked, broken or sprung.

Saws:

1. Keep control of saws by releasing downward pressures at the end of the stroke.
2. Do not use a saw that has dull saw blades.
3. Oil saw blades after each use.
4. Keep hands and fingers away from the saw blade while you are using the saw.
5. Do not carry a saw by the blade.
6. When using a hand saw, hold workpiece firmly against the worktable.

Labor Personnel

Hand Tool Safety (continued):

Electrical Powered Tools:

1. Do not use power equipment or tools on which you have not been trained.
2. Keep power cords away from the path of power saws.
3. Do not use cords that have splices, exposed wires or cracked or frayed ends.
4. Do not carry plugged in equipment or tools with your finger on the switch.
5. Do not carry equipment or tools by the cord.
6. Turn the tool off before plugging or unplugging it.
7. Do not leave tools that are "on" unattended.
8. Do not handle or operate electrical tools when you hands are wet or when you are standing on wet floors or wet ground.
9. Do not use extension cords or other rounded three pronged power cords that have the ground prong removed or broken off.
10. Do not use an adapter that eliminates the ground such as a cheater plug.
11. Do not drive over, drag, step on or place objects on a cord.

General Power Saw Safety:

1. Wear the prescribed personal protective equipment such as goggles, gloves, dust masks and hearing protection when operation the power saw.
2. Do not use a power saw that has cracked, broken or loose guards or other visible damage.
3. Turn off the saw before making measurements, adjustments or repairs.
4. Keep you hands away from the exposed blade.
5. Operate the saw at full cutting speed with a sharp blade to prevent kickbacks.
6. If the saw becomes jammed, turn the power switch of the saw to "OFF" before pulling out the incomplete cut.
7. Do not alter the anti-kickback device or blade guard.
8. When using the power saw, do not reach across the cutting operation.
9. When using the power saw, do not hold the work piece against your body when making the cut.

Pneumatic Tools/Compressed Air:

1. Do not point a compressed air hose at bystanders or use it to clean your clothing.
2. Do not use pneumatic tools that have handles with burrs or cracks.
3. Lock and/or tag tools "Out of Service" to prevent usage of the tool.
4. Do not use compressors if their belt guards are missing. Replace the belt guards before using the compressor.
5. Turn the power switch of the tool to "Off" and let it come to a complete stop before leaving it unattended.
6. Disconnect the tool from the airline before making any adjustments or repairs to the tool.

Personal Protective Equipment:

1. Do not wear hard hats that are dented or cracked.
2. Do not continue to work if your safety glasses become fogged. Stop work and clean the glasses until the lenses are clear and defogged.
3. Wear your earplugs or earmuffs in area posted "Hearing Protection Required".
4. Wear work gloves when handling wire mesh and steel.

Labor Personnel

Hazardous Materials:

1. Follow instructions on the label and in the corresponding Safety Data Sheet for each chemical product you will be using in your workplace.
2. Do not use protective clothing or equipment that has split seams, pin holes, cut tears, or other visible signs of damage.
3. Each time you use your gloves, wash them before removing the glove, using cold tap water and normal hand washing motion. Always wash your hands after removing the gloves.
4. Do not use chemicals from unlabeled containers or unmarked cylinders.
5. Always use chemical goggles and a face shield before handling chemicals labeled "Corrosive" or "Caustic".
6. Do not store chemical containers labeled "Oxidizer" with containers labeled "Corrosive" or "Caustic".
7. Do not smoke while handling chemicals labeled "Flammable".

Vehicle/Trailer Safety:

1. Set the parking brake in the towing vehicle and use wheel blocks to chock the wheels of the trailer before removing any equipment from the trailer.
2. Secure equipment to the vehicle with chains or straps to eliminate or minimize shifting of the load.
3. No one is permitted to ride in the trailer.
4. Take slow wide turns when towing trailers containing equipment or materials.
5. Do not exceed the load capacity as posted on the trailer door of the trailer.
6. Do not place all the heavy equipment on one side of the trailer.

SAFETY AND OPERATING INSTRUCTIONS FOR TORCH HANDLES, CUTTING ATTACHMENTS AND HEATING NOZZLES:

General Safety Information

The Work Area:

1. The work area should have a fireproof floor, concrete floors are recommended.
2. Use heat resistant shields to protect nearby walls or unprotected flooring from sparks and hot metal.
3. Adequate ventilation is required to prevent the concentration of oxygen/fuel gases and /or toxic fumes. It is important to remember that oxygen itself will not burn, but the presence of pure oxygen serves to accelerate combustion and cause materials to burn with great intensity. Oil, grease and other flammable material can ignite and burn vigorously is the presence of oxygen.
4. Workbenches or tables used during oxy-fuel processes must have fireproof tops. Firebricks are commonly used for topping these surfaces and supporting the work.

Protective Apparel:

1. Protect yourself from sparks, flying slag and flame brilliance at all times. Select safety goggles with tempered lenses shaded 4 or darker to protect your eyes from injury and provide good visibility of the work.
2. Wear only flame resistant clothing, protective gloves, sleeves, aprons and shoes to protect skin and clothing from sparks and slag. Keep all clothing free of oil and grease.

Fire Prevention:

1. Inspect the equipment for oil grease and damaged parts. Do not use the equipment if oil, grease or damage is evident. Oil or grease can ignite and burn violently in the presence of oxygen. Have a qualified repair technician clean and/or repair the equipment before using it.
2. Keep flames and sparks away from cylinders and hoses.
3. Flying sparks can travel as much as 35 feet. Move combustibles a safe distance away from the area where oxy-fuel operations are performed.
4. Keep and approved fire extinguisher of the proper size and type in the work area. Inspect it regularly to ensure that it is in proper working order. Know how to use the fire extinguisher.
5. Use oxy-fuel equipment only with gases for which it is intended.
6. Never test for a gas leak with a flame. Use an approved leak detector solution.
7. When the work is complete, inspect the work area for possible fire or smoldering materials.

Torch Handles
Setting up the Equipment for Cutting

1. Examine the hoses before attaching them to the regulators or torch handle. Do not use the hoses if cuts, burns, worn areas of damaged fittings are found. Repair or replace the hoses. Be sure the regulators and any other apparatus used with the torch are in a good and safe operating condition.

2. Connect the oxygen hose to the oxygen regulator. Tighten the connections firmly with a wrench.

3. Open the cylinder valves as directed by the "Safety and Operating Instructions for Single and Two Stage Regulators". Never stand directly in front of or behind a regulator when opening the cylinder valve. If there is a fire or explosion, you will not be in its path if you stand so the cylinder is between you and the regulator.

4. Adjust the oxygen regulator to allow 3 to 5 PSIG to escape through the hose. Allow oxygen to flow for 5 to 10 seconds to clear the hose of dirt, dust or preservative, then shut off the oxygen flow.

5. Attach and clear the fuel hose in the same manner. Be sure to clear the hoses in a well-ventilated area. Escaping gases create conditions for fires and explosions. Keep hoses clear of any falling metal, slag or sparks. Never allow hoses to become coated with oil, grease or dirt. Such coatings could conceal damaged areas.

6. Inspect the cutting torch and hose connections for oil, grease or damaged parts. Do not use if oil, grease or damage is detected.

7. Inspect the torch handle head. The tapered seating surfaces must be in good condition. If dents, burrs or damaged seats are present, the seat must be repaired or replaced. If the torch is used with poor seating surfaces, backfire or flashback may occur.

8. Using a 3/4" open-end wrench, check the flashback arrestors to make sure they are tight. If they are loose a flashback may have occurred.

9. Attach the hoses to the torch handle or accessory check valves.

When You Finish the Cutting Operation.

1. First close the preheat oxygen valve. Then close the fuel valve. If this procedure is reversed a "pop" may occur. The pop throws carbon and soot back into the torch and may, in time partially clog the gas passages.

2. Close both cylinder valves.

Labor Personnel

When You Finish the Cutting Operation (continued).

3. Open the cutting torch preheat oxygen valve and cutting oxygen valve. This will release the oxygen pressure in the system. Close the torch and preheat valve once all gas has been released.

4. Turn the adjusting screw on the oxygen regulator counterclockwise to release all spring pressure. Close the oxygen valve. Never open both full and oxygen valves at the same time when purging the system. A reverse flow of gas may occur.

5. Repeat steps 3 and 4 for the fuel system.

6. Check the gauges after a few minutes to be sure cylinder valves have been shut off properly. Pressure gauges should read no pressure.

Reverse Flow Check Valves:

1. Many Victor torches and handles are equipped with internal check valves. These models are indicted by a "C" after the model number, for example, 315C. It is strongly recommended that check valves be used on any oxy-fuel torch to reduce the possibility of mixing gases in the hoses and regulators. If necessary check valves are required, connect them to the proper control valve or inlet connection. Check valves are not the same as flashback arrestors. Check valves are designed to prevent gases from mixing upstream (toward the bottles) of the torch. Flashback arrestors are designed to prevent mixed gases from igniting up-stream of the torch.

2. Accessory reverse flow check valves and internal check valves are mechanical devices that can leak when dirty or damaged. Inspect the check valves at least every six months, more often if the hoses are frequently disconnected. Careless usage, dirt or abuse can shorten the service life of check valves thus requiring better-vented area. The escaping gases create conditions for fires and explosions. Do not allow smoking or open flames in the test area.

Testing Internal Check Valves and Torch Reverse Flow Check Valves:

1. Turn both regulators adjusting screw counterclockwise so that no pressure will be delivered.

2. Disconnect one hose from one of the regulators.

3. Open all torch control valves.

4. Plug the tip end.

5. Adjust the regulator that is not disconnected until a 2-5 PSIG reading appears on the L.P. gauge.

6. Put the end of the hose that is disconnected from the regulator under water or cover the end of the hose with an approved leak detector solution.

7. Bubbles will appear if the check valve is leaking. There should be no more than two bubbles in 10 seconds.

Testing Internal Check Valves and Torch Reverse Flow Check Valves (continued):

8. If the check valve leaks, reconnect the hose to the regulator. Unplug the cutting tip. Flush for 3-5 seconds with 10PSIG furl gas or PSIG oxygen, depending on the check valve tested.

9. Retest the check valve. If the torch has an internal check valve and is still leaking, take the torch to a qualified repair technician for replacement. If the torch has accessory check valves they must be replaced.

10. Test the other check valve. Reconnect the hose that was disconnected for the first test. Disconnect the other hose.

11. Follow the same procedures as the first test.

12. After both check valves test good, purge both the oxygen and fuel lines before lighting the torch. Test all hose connections for leaks.

Flashback Arrestors

1. Many Victor torches and handles are equipped with internal flashback arrestors and reverse flow check valves. These models are indicated by an "F" in the model name, for example, 315FC. The flashback arrestor is designed to prevent flashback flame form burning in the hose and gas supply system. A very fine "filterlike" sintered stainless steel flame barrier stops flashback flame.

2. For maximum service life of the flashback arrestor, purge all supply lines and hoses before installing onto the torch handle. This removes loose material contained in the hose or regulator that could restrict flow through the flashback arrestor.

3. Flow restriction and torch over-heating results if dirt or "oily" LOG residuals are allowed to flow into the flashback arrestor. Make sure not to draw liquid. Always store and use cylinders in the upright position.

4. The flame arrestor element cannot be field tested or repaired. The flame arrestor element must be replaced after a maximum of 5 years of service or whenever there are signs of discoloration of the flame arrestor element caused by heat, poor torch performance, restricted flow, signs of carbon soot in the torch inlet, flame damaged or melted check valves, or if the flashback arrestor has become loose in the body. If any of these conditions exists, have the torch tested and repaired by a qualified repair technician.

5. Operating Data

Gas	Maximum Pressure	Maximum Capacity
Oxygen	150 PSI	Welding- 3"
Acetylene	15 PSI	Cutting- 8"

6. If the torch is equipped with internal flashback arrestors it is not advisable to use accessory flashback arrestors, as excessive flow restriction may occur.

HAZARD COUMMUNICATION WRITEN PROGRAM

This program has been prepared to comply with the requirements of the Federal OSHA Standard 1926.59 and to insure that information necessary for the safe use, handling and storage of hazardous chemicals is provided to and made available to employees.

This program includes guidelines on identification of chemical hazards and the preparation and proper use of container labels, placards and other types of warning devices.

1) Chemical Inventory:

a) CENTERLINE DRILLING, INC. maintains an inventory of all known chemicals in use on the worksite. A chemical inventory list is available from the Superintendent.

b) Hazardous chemicals brought onto the work site by CENTERLINE DRILLING, INC. will be included on the hazardous chemical inventory list.

2) Container Labeling:

a) All chemicals on site will be stored in their original or approved containers with a proper label attached, except small quantities for immediate use. Any container not properly labeled should be given to the Superintendent for labeling or proper disposal.

b) Workers may dispense chemicals from original containers only in small quantities intended for immediate use. Any chemical left after work is completed must be returned to the original container or the Superintended for proper handling.

c) No unmarked containers of any size are to be left in the work area unattended.

d) CENTERLINE DRILLING, INC. will rely on manufacturer applied labels whenever possible and will ensure that these labels are maintained. Containers that are not labeled or on which the manufacturer's label has been removed will be relabeled.

e) CENTERLINE DRILLING, INC. will ensure that each container is labeled with the identity of the hazardous chemical contained and any appropriate hazard warnings.

3) Material Safety Data Sheets (MSDS):

a) Employees working with a Hazardous Chemical may request a copy of the safety data sheet (MSDS). Requests for MSDS's should be made to the Superintendent.

b) MSDS should be available and standard chemical reference may also be available on the site to provide immediate reference to chemical safety information.

c) An emergency procedure to gain access to MSDS's information will be established.

4) Employee Training:

Employees will be trained to work safely with hazardous chemicals. Employee training will include:

a) Methods that may be used to detect a release of a hazardous chemical(s) in the workplace.
b) Physical and health hazards associated with chemicals.
c) Protective measures to be taken.
d) Safe work practices, emergency responses and use of personnel protective equipment.
e) Information on the Hazard Communication Standard including:
   - Labeling and warning systems and
   - An explanation of Material Safety Data Sheets.

2) Personal Protective Equipment (PPE):

a) Required PPE is available from the Superintendent. Any employee found in violation of PPE requirements may be subject to disciplinary actions up to and including discharge.

3) Emergency Response:

a) Any incident of over exposure or spill of a hazardous chemical/substance must be reported to the Superintendent at once.

b) The foremen or the immediate supervisor will be responsible for insuring that proper emergency response actions are taken in leak/spill situations.

4) Hazards of Non-Routine Tasks:

a) Supervisors will inform employees of any special tasks that may arise which would involve possible exposure to hazardous chemicals.

b) Review of safe work procedures and use of required PPE will be conducted prior to the start of such tasks. Where necessary, areas will be posted to indicate the nature of the hazard involved.

5) Informing Other Employers:

a) Other on site employers are required to adhere to the provisions of the Hazard Communication Standard.

b) Information on hazardous chemicals known to be present will be exchanged with other employers. Employers will be responsible for providing necessary information to their employees.

c) Other on site employers will be provided with a copy of CENTERLINE DRILLING, INC. hazard communication program.

6) Posting:

a) CENTERLINE DRILLING, INC. has posted information for employees at this job site on the Hazard Communication Standard. This information can be found at the job site office.

Hazard / Control Analysis

Job Steps	Hazards	Controls
Drilling	Hanging loads Rotative Machinery Hydraulic Equipment Specialized equipment. Flying objects Splashes Handling Materials.	• All employees shall use PPE and safety equipment that will provide appropriate protection. • PPE required 100% of the time is hard hat (with bill facing forward), Safety glasses, Safety toe work boots, high visibility vest. • All the employees and personnel must always follow company procedures. • All personnel should ask and follow the Foreman's lead and procedures to avoid any incidents. • Inspect all hydraulic hoses prior to start performing any tasks with the equipment. • Never Leave equipment unattended without securing it. • Good communication within the crew is important to avoid any incidents. • Operations nearby should be avoided if possible. • Water and drilling spoils/cuttings will always be contained but some splashes may be caused. Follow procedures to control. • Operators must be trained on the specific equipment to be operated. • Locate utilities and any other underground/overhead features/items prior to positioning crane • Equipment shall be on firm, stable ground capable of supporting operations
Welding/Burning	Eye Damage. Electric Shock. Cuts & Burns. Fire. Burns	• All employees shall use PPE and safety equipment that will provide appropriate protection. • PPE required 100% of the time is hard hat (with bill facing forward), Safety glasses, Safety toe work boots, high visibility vest. • A 20 lb., ABC dry chemical extinguisher (or equivalent) must be immediately available in the work area and must be maintained in a state of readiness for instant use. • During welding/cutting operations, proper welding gloves and a full-face, UV-ray protective shield shall be worn to prevent injuries to the operator. • All electrical cords shall be inspected and in good working condition prior to use (no missing ground pins, no damaged. • Always inspect and clear the area around cutting/welding prior to start any welding/burning task.
Rigging	Lifting heavy loads. Manual lifting, light loads < 50 lb. Dropping loads.	• All employees shall use PPE and safety equipment that will provide appropriate protection. • PPE required 100% of the time is hard hat (with bill facing forward), Safety glasses, Safety toe work boots, high visibility vest. • All rigging shall be performed and visually inspected before each use by a Competent Person.

	Failure of rigging equipment.	• Damaged rigging shall be immediately removed from the job site. • Proper rigging shall always be used . • Tag lines shall be installed on all loads before flying. (for Crane operations). • Avoid the flying of loads over the heads of workers. • Slings shall not be shortened with knots, bolts, or other makeshift devices. • Slings shall be padded or protected from sharp edges. • The area below suspended loads shall be kept clear of personnel. • Do not allow hands between the slings and load while the sling is being tightened. • When lifting loads manually, bend your knees and keep your back as straight as possible. Use back braces (up to 50 lbs.)
Crane Operation	Loss of load during a crane lift Struck by moving equipment Risk of injury from equipment failure or operator error. Risk of tip over due to unstable ground falling objects and or equipment failure. Miscommunication between operator and signalman.	• Only workers with proof of training will operate the crane. • The Operator shall have final responsibility and control over all crane operations. • The operator shall refuse to proceed if there is doubt regarding safety. • The Operator shall not engage in any practice that may divert his/her attention while engaged in crane operations. • The Operator must be able to see and hear within reasonably acceptable limits. • Crane operators must have a clear view of the load and flagman or be in contact with the signal man at all time. • Should the crane, rigging, or load strike another object, the crane shall be immediately shut down until re-inspected, and approved for operation by a qualified person. • Never leave the controls while there is a load on the hook. • Before making the pick, the Operator shall be responsible for determining that the load is properly secured and balanced. • All mobile cranes shall be properly barricaded before use. • At the end of the workday, mobile crane booms shall be retracted and lowered, and the cabin locked, and keys removed.
Unloading/Storing Materials and Equipment	Soft Tissue Injuries (Sprains/Strains)	• Ensure workers are physically prepared for the tasks they will perform. • Inspect site for conditions that might affect delivery or transfer of material. • The material must be staged to limit the number of times it must be moved. • When transporting material by carrying, especially up and down stairs, the employee cannot carry anything that blocks their ability to see where they are walking. • Do not lean forward, use both arms, and keep your stomach muscles tight. • If you must pull something, face the object squarely, with one foot at least 12inches, keep your back straight, bend your knees slightly and pull with one motion. • Always lift with your legs, keep your back straight, and avoid twisting by moving your feet. • Get help with heavy or awkward loads. • Try not to lift over 25% of your body weight.

Notice of Intent to Award

DATE: February 9, 2021

TO: Centerline Drilling, Inc.
1696 Old Okeechobee Road #3C
West Palm Beach, FL 33409

ATT: John Say, Jr., President

Project: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities, Jupiter, Florida

Gentlemen:

This is to advise that on February 16, 2021, a recommendation for award of the above referenced Contract will be made to the Jupiter Town Council as a result of your bid in the amount of $691,099 submitted to the Town of Jupiter (Owner) on January 13, 2021.

Two (2) sets of the Project Manual for this project are attached. Each set contains an unexecuted agreement. Please sign both sets of the Agreement and include the following additional documentation necessary for execution of the Agreement/Contract. DO NOT DATE ANY OF THE DOCUMENTS. The Town will date them upon execution.

- Two original signed and notarized Payment Bonds (on Bond form included with each project manual).
- Two original signed and notarized Performance Bonds (on Bond form included with each project manual).
- Four original Power of Attorneys; one each to accompany each Payment and Performance bond.
- Two current Certificates of Insurance naming the Town of Jupiter as an additional insured per the requirements of the contract.

Please return both signed Project Manuals with supporting documentation to our office for final signatures.

Your attention is invited to the provision whereby your proposal guarantee may be forfeited in the event the Agreement with satisfactory bonds, insurance, power of attorneys is not executed and delivered to the Owner within fifteen (15) consecutive calendar days from February 11, 2021.

One fully executed original and one copy of the executed Agreement/Contract will be provided to you along with Conformed Construction Documents on or before the Pre-Construction meeting.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Utilities Facilities Manager

Project: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities, Jupiter, Florida

Gentlemen:

This is to advise you that on February 16, 2021, the Jupiter Town Council approved award of a construction contract to your firm, for the above referenced project as a result of your bid on January 13, 2021, in the amount of $691,099.

One fully executed original and one copy of the executed Agreement/Contract will be provided to you along with Conformed Construction Documents on or before the date of the Pre-Construction meeting. A Notice to Proceed will be issued for commencement of the Contract Time.

We look forward to working with you on this project.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Utilities Facilities Manager

Agreement (Contract) Between Owner and Contractor

This Agreement (Contract) made this 18 day of March, 2021 by and between the Town of Jupiter, a public agency of the State of Florida hereinafter designated as the "the TOWN" and "OWNER", and Centerline Drilling, Inc., 1696 Old Okeechobee Road #3C, West Palm Beach, Florida 33409, a Corporation, 42-155177 (FEIN number) hereinafter designated as "the CONTRACTOR", in consideration of the mutual covenants hereinafter set forth agree as follows:

ARTICLE 1. WORK.

1.1 CONTRACTOR shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160' deep with the top 120' being 20" PVC casing and bottom 40' being either 12" open hole, open hole with liner or 12" stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

1.2 The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows: **CONSTRUCTION OF SURFICIAL AQUIFER WELL 12A AND SURFICIAL WELLFIELD REHABILITATION PROGRAM (W2111) FOR THE TOWN OF JUPITER UTILITIES, JUPITER, FLORIDA**

ARTICLE 2. HYDROGEOLOGIST.

2.1 The Project has been designed by the following: JLA Geosciences, 1931 Commerce Way, suite 3, Jupiter, FL 33458.

2.2 The Town of Jupiter will administer the contract during the construction phase. The Hydrogeologist will serve as the Owner's Representative during the course of the Contract.

ARTICLE 3. CONTRACT TIME.

3.1 The Work will have a substantial completion date and a final completion date after the date when the Contract Time commences to run as provided in Paragraph 4.01 of the General Conditions, and as outlined below. There are two substantial and two final completion dates that will apply to this

Contract for the base and additive alternate bids, respectively. Further, all work associated with the additive alternate must be completed between May 15 and September 15. A Notice to Proceed (NTP) will be issued for the base bid. Should the Owner elect to proceed with the additive alternate bid, then a separate NTP will be provided for the additive alternate bid. The Contract durations noted below begin on the date of the Notice to Proceed. The work will be completed and ready for substantial and final payment in accordance with Article 15 of the General Conditions and as outlined below.

Contract Durations for Well Rehabilitation (Base Bid) Scope:
(Applies to all Work associated with Well Maintenance and Rehabilitation)

Substantial Completion:	365 calendar days from Notice to Proceed
Final Completion:	365 calendar days from Notice to Proceed

Contract Durations for Well 12A (Additive Alternate Bid) Scope:
(Applies to all Work associated with Abandonment of Well 12 and Construction of 12A):

Substantial Completion:	105 calendar days from Notice to Proceed
Final Completion:	135 calendar days from Notice to Proceed

3.2 The undersigned understands the Contract time starts on the date of Notice to Proceed. The undersigned understands the Contract Time to Substantial Completion includes time for Contractor to obtain permits, submit and obtain shop drawing approvals, order materials, and substantially complete all the Work required of the Contract. Substantial Completion shall include all work required to abandon all existing wells, construct all new wells, testing and clearance of all wells, submission of well completion reports, final well surveys and final acceptance by PBCHD. Final Completion shall include completion of site restoration, punch list items, demobilization from site, record drawings, and other closeout documents.

3.3 Should Owner elect to proceed with Wells 12 and 12A (bid alternate) then all work associated with this site shall be completed between May 15 and September 15. Failure to complete the work during this time frame and within the contract duration will result in assessment of liquidated damages in the amount of $750/day until the work is substantially complete.

3.4 Unless extended or terminated, the period of performance of this CONTRACT shall commence upon the effective date of execution by the OWNER and continue for a period of 365 days or three hundred and sixty-five calendar days. Written Notice to Proceed and Work Order duration will be mutually agreed upon by both the CONTRACTOR and OWNER and provided in Work Orders outlining work. The CONTRACTOR shall not proceed with work under this CONTRACT until a Work Order with written Notice to Proceed is received from the OWNER.

3.5 Owner and Contractor may agree to renew this Contract at the Contract Unit Prices for items in the Base Bid, Well Rehabilitation, for two (2) additional one (1) year terms, for a total Contract period of three (3) consecutive years. Renewal of this Contract is at the Owner's sole discretion and is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town's Community Investment Program (CIP) and fiscal year operating budgets. If the Contract is renewed, it will be done so by written change order to the Contract and are subject to the same terms, conditions, and unit pricing set forth in the initial Contract and any written amendments/change orders signed by both parties (Owner and Contractor). No compensation shall be made for costs associated with renewal of the Contract. Renewals are contingent upon satisfactory performance evaluations by the Owner and subject to the availability of fiscal year funding approved by the Jupiter Town Council. Contractor may elect not to

extend the Contract with 90 days written notice to Owner. Owner is not obligated to extend the Contract.

Regardless of anything to the contrary, this Contract may be terminated by the Owner at any time and for any reason. Further, the Contractor agrees that it will not be entitled to any claims and/or damages resulting from such termination, including, but not limited to, lost profits, direct or indirect damages, and consequential special or punitive damages.

3.6 The parties agree that the TIME IS OF THE ESSENCE, in the performance of each and every obligation under this CONTRACT. The CONTRACT may be changed only by a change order to the CONTRACT Work Order amendments to individual Work Orders must be completed in writing and signed and dated by Contractor and Owner.

3.7 Liquidated Damages. OWNER and CONTRACTOR recognize that time is of the essence of this Agreement and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in paragraph 3.1 above, plus any extensions thereof allowed in accordance with Article 11 of the General Conditions. They also recognize the delays, expense and difficulties involved in proving in a legal or arbitration preceding the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (But not as a penalty) CONTRACTOR shall pay OWNER Seven Hundred and Fifty 00/100 dollars ($750.00) for each day that expires after the time specified in Paragraph 3.1 for substantial completion until the Work is substantially complete, and Five Hundred 00/100 dollars ($500.00) for each day that expires after the time specified in Paragraph 3.1 from the date of final completion until the work has reached final completion. Final completion includes demobilization from the site. Owner may withhold payment to compensate for liquidated damages either by increasing the amount of money being held in retainage or deduct the amount due in Liquidated Damages from the final payment application. Liquidated damages under this Contract apply to each the substantial completion date and the final completion date.

3.8 The provision of Liquidated Damages for delay shall in no manner affect the TOWN's right to terminate the CONTRACT. The OWNER'S exercise of the right to terminate shall not release the CONTRACTOR from his obligation to pay Liquidated Damages. It is further agreed that the OWNER may deduct from the balance of the CONTRACT sum held by the OWNER the Liquidated Damages stipulated herein or such portions as said balance will cover.

ARTICLE 4. CONTRACT PRICE.

4.1 OWNER shall pay CONTRACTOR for performance of the Work in accordance with the Contract Documents in current funds according to the Contract Unit Prices.

4.2 No guarantee is expressed or implied as to the total quantity of commodities/services to be purchased under any open end Contract. Estimated quantities will be used for Bid comparison purposes only. The Owner reserves the right to issue Work Orders as and when required for proposed work for any or all bid items or any combination thereof. Work under this Contract is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town's Community Investment Program (CIP) and fiscal year operating budgets. Estimated funding budgets anticipated being available for the original contract term and subsequent renewals are provided in the table below.

4.3 The Owner reserves the right to purchase commodities/services specified herein through contracts established by other governmental agencies or through separate procurement actions due to unique or

special needs. If an urgent delivery is required within a short period than the delivery time specified in the Contract, and if the seller is unable to comply therewith, the Owner reserves the right to obtain such delivery from others without penalty or prejudice to the Owner or to the Bidder.

Anticipated Estimated Annual Funding
Town of Jupiter Utilities
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program Contract (W2111)

Term/Years	Description	Estimated Value
Initial Term (1-year)	Well Rehabilitation & Investigation (CIP)	$261,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$60,000
	Unanticipated Emergency Repairs	$50,000
	Well 12A Replacement (CIP)	$275,000
	Initial Term Estimated Total	**$646,000**
1st Renewal (1-year)	Well Rehabilitation & Investigation (CIP)	$269,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$62,000
	Unanticipated Emergency Repairs	$50,000
	1st Renewal Term Estimated Total	**$381,000**
2nd Renewal Final Term (1-year)	Well Rehabilitation & Investigation (CIP)	$277,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$64,000
	Unanticipated Emergency Repairs	$50,000
	2nd Renewal Term Estimated Total	**$391,000**
	Estimated Total Contract (3-years)	**$1,418,000**

ARTICLE 5. PAYMENT PROCEDURES.

5.1 Contractor shall submit Applications for Payment in accordance with Article 15 of the General Conditions. Applications for payment will be processed by OWNER as provided in the General Conditions.

5.2 The undersigned, acknowledges that payments made by the Town of Jupiter will be made via electronic funds transfer (EFT) and vendor will provide the Town of Jupiter with the information required to make EFT payments.

5.3 Progress Payments. OWNER shall make progress payments on account of the Contract Price on the basis of CONTRACTOR'S Applications for Payment within 30 days of receipt of each monthly approved application for payment during construction as provided below. All progress payments will be on the basis of the progress of the Work measured by the agreed upon schedule of values provided for in Articles 2 and 15 of the General Conditions.

5.4 Progress payments will be made in an amount equal to 95% of the Work completed, and 95% of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each

case the aggregate of payments previously made. Owner is not obligated to pay for stored materials and may choose to withhold payment until materials are incorporated into the Work.

5.5 Owner, at its discretion may further increase payments to 98% of the work completed upon Substantial Completion. Owner is not obligated to increase payments to 98% of work completed.

5.6 Final Payment. Upon final completion and acceptance of the Work in accordance with Article 15 of the General Conditions, OWNER shall pay the remainder of the Contract Price as provided in said Article 15 of the General Conditions unless liquidated damages are due.

ARTICLE 6. INTEREST. Not applicable.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce OWNER to enter into this Agreement, CONTRACTOR makes the following representations:

7.1 CONTRACTOR has familiarized himself with the nature and extent of the Contract Documents, Work, locality, and with all local conditions and federal, state and local laws, ordinances, rules and regulations that in any manner may affect cost, progress or performance of the Work.

7.2 CONTRACTOR has studied carefully all reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which were relied upon by ENGINEER in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.

7.3 CONTRACTOR has made or caused to be made examinations, investigations and tests and studies of such reports and related data in addition to those referred to in Article 7.2 (above) as he deems necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents; and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

7.4 CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

7.5 CONTRACTOR has given OWNER written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof is acceptable to CONTRACTOR.

ARTICLE 8. CONTRACT DOCUMENTS.

8.1 The Contract Documents which comprise the entire agreement between OWNER and CONTRACTOR are attached to this Agreement, made a part hereof and consists of the following:

8.1(a) Index
8.1(b) Table of Contents-Specifications & Appendices
8.1(c) Advertisement for Bids
8.1(d) Instructions to Bidders
8.1(e) Proposal
8.1(f) Contractor Safety Qualifications/Requirements(Including Contractor Safety Qualification Form)
8.1(g) Sworn Statement

8.1(h) Trench Safety
8.1(i) Bid Bond
8.1(j) Notice of Intent to Award
8.1(k) Notice of Award
8.1(l) Agreement (Contract) between OWNER and CONTRACTOR
8.1(m) Payment Bond
8.1(n) Performance Bond
8.1(o) Opinion of Town Attorney
8.1(p) Notice to Proceed
8.1(q) General Conditions (EJCDC Standard General Conditions (2018 Edition), inclusive)
8.1(r) Supplementary Conditions
8.1(s) Any Modifications, including Change Orders, duly delivered after execution of Agreement.
8.1(t) Technical Specifications including Appendices bearing the title: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
8.1(u) Drawings bearing the title: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)

8.2 There are no Contract Documents other than those listed above in this Article 8. The Contract Documents may only be altered, amended or repealed by a modification described in Section 1 of the General Conditions of the Contract.

ARTICLE 9. MISCELLANEOUS.

9.1 Terms used in this Agreement which are defined in Article 1 of the General Conditions shall have the meanings indicated in the General Conditions.

9.2 No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound; and specifically but without limitation, moneys that may become due and moneys that are due may be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

9.3 OWNER and CONTRACTOR each binds himself, his partners, successors, assigns and legal representatives to the other party hereto, his partners, successors, assigns and legal representatives in respect to all covenants, agreements and obligations contained in the Contract Documents.

9.4 The Inspector General of Palm Beach County has the authority to investigate and audit matters relating to the negotiation and performance of this Contract and in furtherance thereof may demand and obtain records and testimony from the Contractor and its subcontractors and lower tier subcontractors. The Contractor understands and agrees that in addition to other remedies and consequences provided by law, the failure of the Contractor or its subcontractors or lower tier subcontractors to fully cooperate with the Office of Inspector General of Palm Beach County when requested may be deemed by the municipality to be a material breach of this contract justifying its termination. The Office of Inspector General in Palm Beach County is established by Palm Beach County Code, Section 2-421 - 2-440. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be in violation of Palm Beach County Code, Section 2-421 – 2-440, and be punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

9.5 This Agreement is subject to and governed by the laws of the State of Florida, including without limitation Chapter 119, Florida Statutes, which generally makes public all records or other writings made by or received by the parties. The Contractor acknowledges its legal obligation to comply with § 119.0701, Florida Statutes.

9.5(a) A request to inspect or copy public records relating to a public agency's contract for services must be made directly to the public agency. If the public agency does not possess the requested records, the public agency shall immediately notify the contractor of the request, and the contractor must provide the records to the public agency or allow the records to be inspected or copied within a reasonable time.

9.5(b) If a contractor does not comply with the public agency's request for records, the public agency shall enforce the contract provisions in accordance with the contract.

9.5(c) A contractor who fails to provide the public records to the public agency within a reasonable time may be subject to penalties under s. 119.10.

9.5(d) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 561-741-2270, BRITTANYG@JUPITER.FL.US, OR 210 MILITARY TRAIL, JUPITER, FL 33458.**

9.6 The Town of Jupiter encourages and agrees to the successful bidder extending the pricing, terms and conditions of this solicitation or resultant contract to other governmental entities at the discretion of the successful bidder.

9.7 OFFER EXTENDED TO OTHER GOVERNMENT ENTITITES

The Town of Jupiter encourages and agrees to the successful bidder extending the pricing, terms and conditions of this solicitation or resultant contract to other governmental entities at the discretion of the successful bidder.

SPACE INTENTIONALLY LEFT BLANK.
PROCEED TO NEXT PAGE.

IN WITNESS WHEREOF, the parties hereto have signed two (2) copies of this Agreement. At least one counterpart each has been delivered to OWNER and CONTRACTOR. All portions of the Contract Documents have been signed or identified by OWNER and CONTRACTOR.

TOWN OF JUPITER

Invitation to Bid

Sealed bids will only be accepted at the Town Clerk's Department, 210 Military Trail, Jupiter, Florida 33458:

Construction of Surficial Aquifer Well 12A
and Surficial Wellfield Rehabilitation Program (W2111)

Until **2:00 PM**, Local Time, **January 6, 2021** at which time and place all bids received will be publicly opened and read aloud in the Town Council Chambers. Sealed bids shall be submitted to the Town Clerk, on paper, in accordance with the Instruction to Bidders. Bids received after the time and date specified will not be considered. The face of the envelope shall be addressed as follows:

Town Clerk
Town of Jupiter
210 Military Trail
Jupiter, FL 33458
January 6, 2021 at 2:00 PM
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program (W2111)

The nature and scope of this project is:

> Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160' deep with the top 120' being 20" PVC casing and bottom 40' being either 12" open hole, open hole with liner or 12" stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

Bid Documents will be available on December 8, 2020 at www.demandstar.com. Bid Documents can be downloaded for $5.00 from Demandstar by signing up for a free agency subscription for the Town of Jupiter at www.demandstar.com. Hard copies of Bid Documents may also be purchased from Demandstar by visiting www.demandstar.com or emailing demandstar@onvia.com.

A virtual pre-bid meeting will be held on December 16, 2020 at 10:00 AM using Zoom. Bidders can access the meeting using the following link: https://zoom.us/j/98551606222?pwd=bElpT3NWVlB3NnY4czZMbi9aNjhKUT09. Alternatively, bidders can join the meeting by visiting https://zoom.us/join, enter the Meeting ID 985 5160 6222 and use the password W2111. Attendance at the pre-bid meeting is not a requirement for bid qualification; however, bidders are encouraged to attend.

Questions concerning the bid will be answered by addendum through Demandstar.com. All questions should be directed to Rebecca Wilder, P.E. in writing, via email rebeccaw@jupiter.fl.us (include Project Name in the subject of the email) or by fax (561) 747-5634. Emails should be delivered with a Read Receipt requested to confirm successful receipt by the Town.

Bidders are not required to be a plan holder of record with Demandstar.com; however, bidders are responsible to obtain complete sets of bidding documents in preparation of submitting a bid

Bid Security in the amount of five percent (5%) of the estimated value for the initial contract term ($646,000) must accompany each bid in accordance with the Instructions to Bidders.

The Town of Jupiter reserves the right to waive any irregularities and to reject any and all bids. The Town of Jupiter is an equal opportunity employer.

By Order of the Town Council,
Town of Jupiter

Sally Boylan, Town Clerk

PUBLISHED: Palm Beach Post

DATE: December 6, 2020

Instructions to Bidders

1. DEFINED TERMS

1.1. Terms used in these Instructions to Bidders which are defined in the Standard General Conditions of the Construction Contract, EJCDC C-700 (2018 Edition) have the meanings assigned to them in the General Conditions. The term "Successful Bidder" means the lowest, qualified, responsible Bidder to whom Owner (on the basis of Owner's evaluation as hereinafter provided) makes an award.

2. COPIES OF BIDDING DOCUMENT

2.1. Complete sets of the Bidding Documents in the number and for the non-refundable sum, if any, may be obtained from www.demandstar.com as stated in the Advertisement or Invitation.

2.2. Complete sets of Bidding Documents shall be used in preparing Bids; neither Owner nor Engineer assumes any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.3. Owner in preparing Bidding Documents available on the above terms do so only for the purpose of obtaining Bids on the Work and do not confer a license or grant for any other use.

3. QUALIFICATIONS OF BIDDERS

3.1. To demonstrate qualifications to perform the Work, each Bidder must submit with his/her Bid written evidence of previous experience, references, licensing requirements, evidence of authority to conduct business in the jurisdiction where the project is located, and insurance requirements. Each Bid must contain evidence of the Bidder's qualifications by completion of the Qualification Requirements form in the Front End Documents and Bid Proposal using projects completed by the Bidder that included work meeting the specific description stated on that form as well as evidence of Bidder's qualification to do business in the state where the project is located or convenient to obtain such qualification prior to award of the contract. Bidder shall submit additional information, after the Bid Opening, if requested by Owner, in order for Owner to complete a comprehensive review of the Bid.

3.2. No Bid will be accepted from, nor will any contract be awarded to any person who is in arrears to the Owner, upon any debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to Owner, or any other governmental agency or entity, or who is deemed irresponsible or unreliable by the Owner.

3.3. No Bid will be accepted from, nor will any contract be awarded to any individual, firm, partnership, corporation or association who is currently in litigation with the Owner, or who is providing testimony in current litigation against the Owner or who has a financial interest in any litigation against the Owner.

3.4. Bidders are not required to be a plan holder of record with Demandstar.com; however, bidders are responsible to obtain complete sets of bidding documents in preparation of submitting a bid.

3.5. All bidders must be a licensed Water Well Contractor in the State of Florida.

3.6. The Contractor of Award is required to hold a Town of Jupiter occupational license at the time work commences.

3.7. Bidders are required to complete and submit with their Bid the Qualification Requirements included in the Front End Bid Documents. Owner will evaluate experience and conduct reference checks as part of the bid evaluation process to assess whether Bidder is qualified and responsible to perform the work presented in the Bid Documents. Bidder must show that he/she has sufficient manpower and equipment to complete the Work, that previous experience is of the type and magnitude presented in the Bid Documents for this contract, that past projects of similar type and magnitude have been completed within budget and on schedule, that past projects have been managed professionally and construction quality and field supervision are professional and of best industry practice.

3.8. Any Bidder who does not meet the qualification requirements of the Bid will not be considered for award.

3.9. Owner reserves the right to request additional experience, reference information, financial information and any other information necessary to perform a comprehensive evaluation of the Contractor and his/her major subcontractors.

3.10. Bidder must perform a minimum of 60% of the Work of the Contract with Bidder's own forces.

4. EXAMINATION OF BID/CONTRACT DOCUMENTS AND SITE

4.1. Before submitting a Bid, each Bidder must (a) examine the Contract Documents thoroughly, (b) visit the site to familiarize himself with local conditions that may in any manner affect cost, progress or performance of the Work, (c) familiarize himself with federal, state and local laws, ordinances, rules and regulations that may in any manner affect cost, progress or performance of the Work; and (d) study and carefully correlate Bidder's observations with the Bid/Contract Documents.

4.2. Site is accessible to the Bidder by appointment to conduct such investigations and tests as each Bidder deems necessary for submission of a Bid. Bidder must notify the Town to schedule a date and time for any such investigations and/or tests. Appointments should be scheduled through Rebecca Wilder at (561)741-2635 or rebeccaw@jupiter.fl.us. Bidders are encouraged to attend the non-mandatory pre-bid site visit.

4.3. The lands upon which the Work is to be performed, rights of way for access thereto and other lands designated for use by Contractor in performing the Work are identified in the Supplementary Conditions, General Requirements or Drawings.

4.4. The submission of a Bid will constitute an incontrovertible representation by the Bidder that he has complied with every requirement of this Article 4 and that the Contract Documents are sufficient in scope and detail to indicate and convey understanding of all terms and conditions for performance of the Work.

5. DETERMINATION OF ESTIMATED QUANTITIES

5.1. Lump Sum Contracts: The Bidder is responsible for the determination of the quantities for those items constructed within the authorized plan limits or dimensions. The Owner does not assume any responsibility for any incidental information in Bid documents that may be construed as a quantity of work and/or materials.

5.2. Contracts other than Lump Sum: For those items constructed within authorized plan limits or dimensions, use the quantities shown in the plans and in the Bid Form as the basis of the Bid. The Owner will also use these quantities for final payment as limited by the provisions for the field

conditions, use and measurement, the quantities shown in the plans and in the proposal form are approximate and provide only a basis for calculating the bid upon which the Owner will award the Contract. Where items are listed for payment as lump sum units, the Bidder is solely responsible for his own estimates of such quantities and of the work to be performed.

5.3. The Owner reserves the right to make, at any time prior to or during the progress of the work, such increases, decreases, or alterations to the estimated quantities of work to be done or materials to be furnished which materially increases or decreases the cost or time of performance. Such increases, decreases, or alterations shall not constitute a breach of contract, shall not invalidate the contract, nor release the Surety from any liability arising out of this Contract or the Surety bond. The bidder agrees to perform the work, as altered, the same as if it had been a part of the original Contract.

6. INTERPRETATIONS

6.1. All questions about the meaning or intent of the Contract Documents shall be submitted to The Town of Jupiter Utilities, Attn: Rebecca J. Wilder, P.E. in writing at 17403 Central Boulevard, Jupiter, FL 33458, Phone (561) 741-2635, Fax (561) 747-5634 or email rebeccaw@jupiter.fl.us. Replies will be issued by Addenda as necessary and delivered to all parties recorded by www.Demandstar.com as having received the Bidding Documents. Questions received less than three days prior to the date for opening of Bids will not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

7. BID SECURITY

7.1. Bid Security shall be made payable to Owner, in an amount of five percent (5%) of the estimated value for the initial contract term ($646,000) in the form of a certified or bank check or a Bid Bond issued by a Surety meeting the requirements of Paragraph 6.01 of the General Conditions.

7.2. The Bid Security of the Successful Bidder will be retained until such Bidder has executed the Agreement and furnished the required Contract Security, whereupon it will be returned; if the successful Bidder fails to execute and deliver the Agreement and furnish the required Contract Security within 15 days of the Notice of Intent to Award, Owner may annul the Notice of Intent to Award and the Bid Security of that Bidder will be forfeited. The Bid Security of any Bidder whom Owner believes to have a reasonable chance of receiving the award may be retained by Owner until the earlier of the seventh day after the "effective date of the Contract" (which term is defined in the General Conditions) by Owner to Contractor and the required Contract Security is furnished or the one hundred and twenty first day after the Bid opening. Bid Security of other Bidders will be returned within 30 days of the Bid opening.

8. CONTRACT TIME

8.1. The Work will have a substantial completion date and a final completion date after the date when the Contract Time commences to run as provided in Paragraph 4.01 of the General Conditions, and as outlined below. There are two substantial and two final completion dates that will apply to this Contract for the base and additive alternate bids, respectively. Further, all work associated with the additive alternate must be completed between May 15 and September 15. A Notice to Proceed (NTP) will be issued for the base bid. Should the Owner elect to proceed with the additive alternate bid, then a separate NTP will be provided for the additive alternate bid. The Contract durations noted below begin on the date of the Notice to Proceed. The work will be completed and ready for substantial and final payment in accordance with Article 15 of the General Conditions and as outlined below.

Contract Durations for Well Rehabilitation (Base Bid) Scope:
(Applies to all Work associated with Well Maintenance and Rehabilitation)

Substantial Completion:	365 calendar days from Notice to Proceed
Final Completion:	365 calendar days from Notice to Proceed

Contract Durations for Well 12A (Additive Alternate Bid) Scope:
(Applies to all Work associated with Abandonment of Well 12 and Construction of 12A):

Substantial Completion:	105 calendar days from Notice to Proceed
Final Completion:	135 calendar days from Notice to Proceed

8.2. The undersigned understands the Contract time starts on the date of Notice to Proceed. The undersigned understands the Contract Time to Substantial Completion includes time for Contractor to obtain permits, submit and obtain shop drawing approvals, order materials, and substantially complete all the Work required of the Contract. Substantial Completion shall include all work required to abandon all existing wells, construct all new wells, testing and clearance of all wells, submission of well completion reports, final well surveys and final acceptance by PBCHD. Final Completion shall include completion of site restoration, punch list items, demobilization from site, record drawings, and other closeout documents.

8.3. Should the Owner elect to proceed with Wells 12 and 12A (bid alternate) then all work associated with this site shall be completed between May 15 and September 15. Failure to complete the work during this time frame and within the contract duration will result in assessment of liquidated damages in the amount of $750/day until the work is substantially complete.

8.4. Owner and Contractor may agree to renew this Contract at the Contract Unit Prices for items in the Base Bid, Well Rehabilitation, for two (2) additional one (1) year terms, for a total Contract period of three (3) consecutive years. Renewal of this Contract is at the Owner's sole discretion and is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town's Community Investment Program (CIP) and fiscal year operating budgets. If the Contract is renewed, it will be done so by written change order to the Contract and are subject to the same terms, conditions, and unit pricing set forth in the initial Contract and any written amendments/change orders signed by both parties (Owner and Contractor). No compensation shall be made for costs associated with renewal of the Contract. Renewals are contingent upon satisfactory performance evaluations by the Owner and subject to the availability of fiscal year funding approved by the Jupiter Town Council. Contractor may elect not to extend the Contract with 90 days written notice to Owner. Owner is not obligated to extend the Contract.

9. LIQUIDATED DAMAGES

9.1. Provisions for liquidated damages, if any, are set forth in the Agreement.

10. SUBSTITUTE MATERIAL AND EQUIPMENT

10.1. The Contract, if awarded, will be on the basis of material and equipment described in the Drawings or specified in the Specifications without consideration of possible substitute or "or equal" items. Whenever it is indicated in the Drawings or specified in the Specifications that a substitute or "or equal" item of material or equipment may be furnished or used by Contractor if acceptable to Owner, application for such acceptance will not be considered by Owner until after the "effective date of the Agreement". The procedure for submittal of any such application by Contractor and

consideration by Owner is set forth in Article 7 of the General Conditions which may be supplemented in the General Requirements.

11. SUBCONTRACTORS, ETC.

11.1. If the Front End Documents or the Supplementary Conditions require the identity of certain Subcontractors and other persons and organizations to be submitted to Owner with the Bid or in advance of the Notice of Intent to Award or Notice of Award, the apparent Successful Bidder, and any other Bidder so requested, shall provide such evidence with the Bid, or shall submit to Owner upon request a list of all Subcontractors and other persons and organizations (including those who are to furnish the principal items of material and equipment) proposed for those portions of the Work as to which such identification is so required. Such list shall be accompanied by an experience statement with pertinent information as to similar projects and other evidence of qualification for each such Subcontractor, person and organization if requested by Owner. If Owner after due investigation has reasonable objection to any proposed Subcontractor, other person or organization, may before giving the Notice of Intent to Award or Notice of Award request the apparent Successful Bidder to submit an acceptable substitute without an increase in the Bid price. If the apparent Successful Bidder declines to make any such substitution, the contract shall not be awarded to such Bidder, but his declining to make any such substitution will not constitute grounds for sacrificing his Bid Security. Any Subcontractor, other person or organization so listed and to whom Owner does not make written objection prior to the giving of the Notice of Intent to Award or Notice of Award will be deemed acceptable to Owner.

11.2. In contracts where the Contract Price is on the basis of Cost of the Work Plus a Fee, the apparent Successful Bidder, prior to the Notice of Intent to Award or Notice of Award, shall identify in writing to Owner those portions of the Work that such Bidder proposes to subcontract and after the Notice of Intent to Award or Notice of Award may only subcontract other portions of the Work with Owner's written consent.

11.3. No Contractor shall be required to employ any Subcontractor, other person or organization against whom he has reasonable objection.

11.4. Contractor must identify all major sub-contractors to be used for the work of this contract in the appropriate space provided on the Bid Form and also provide experience as required in the Qualification Requirements of the Bid Proposal Section for each major subcontractor.

12. PRICES BID

12.1. Prices shall be shown in unit amounts, written numerical figures, and extensions (Values) whenever applicable. In the event of discrepancies existing between unit amounts and extension (Value) or totals, the written unit amounts shall govern.

12.2. Discrepancies in the multiplication of units of work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

12.3. Discounts extended to Owner shall include, but not be limited to, those discounts normally extended to governmental agencies as well as the private sector.

12.4. Chain discounts are not acceptable and will not be considered in determining an award. Firm prices are to be quoted for the term of the Contract.

12.5. Bidder warrants by virtue of bidding that prices, terms and conditions in the Bid will be firm for acceptance, for a period of one hundred and twenty (120) calendar days from the date of Bid opening unless otherwise stated by the Owner.

12.6. The Bid price shall include all permit fees, royalties, license fees and other costs arising from the use of such design, device or materials in any way involved in the work and all costs of packaging, transporting and delivery to the designed location within the Owner.

12.7. For the purpose of evaluation, the Bidder must indicate any variance or exceptions to the stated specification no matter how slight. Deviations should be explained in detail. Absence of variations and/or corrections will be interpreted to mean that the Bidder meets all the specifications in every respect.

13. BID FORM

13.1. The Bid Form is included herein (see Proposal).

13.2. Bid Forms must be completed in ink or typed. The Unit Price and Extended Value of each Bid Item on the form must be provided in numerals. Contractor must bid on all alternates on the bid form. All bid forms must be filled out in their entirety. Figures must be provided for all unit prices and values. Incomplete bid forms will be considered non-responsive.

13.3. Bids by corporations must be executed in the corporate name by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign) and the corporate seal must be affixed and attested by the secretary or an assistant secretary. The corporate address and state of incorporation shall be shown below the signature.

13.4. Bids by partnerships must be executed in the partnership name and signed by a partner, whose title must appear under the signature and the official address of the partnership must be shown below the signature.

13.5. All names must be typed or printed below the signature.

13.6. The Bid shall contain an acknowledgment of receipt of all Addenda (the numbers of which shall be filled in on the Bid Form).

13.7. The address to which communications regarding the Bid are to be directed must be shown.

13.8. If the Bid form contains alternate(s), Bidder must bid on all alternate(s), unless otherwise indicated.

14. SUBMISSION OF BIDS

14.1. Two copies of the Bid (one signed original and one electronic pdf on compact disc or flash drive) shall be submitted at the time and place indicated in the Advertisement for Bids or Invitation to Bid and shall be included in an opaque sealed envelope, marked with the Project title and name and address of the Bidder and accompanied by the Bid Security and other required documents. The Bid Form/Schedule of Values and Bid Bond should be clearly marked with a tab for easy identification during the bid opening process. If the Bid is sent through the mail or other delivery system the sealed envelope shall be enclosed in a separate envelope with the notation "BID ENCLOSED" on the face thereof, with the Project name on the front.

15. MODIFICATION AND WITHDRAWAL OF BIDS

15.1. Bids may be modified or withdrawn by an appropriate document duly executed (in the manner that a Bid must be executed) and delivered to the place where Bids are to be submitted at any time prior to the opening of Bids.

15.2. If, within twenty four hours after Bids are opened, any Bidder files a duly signed written notice with Owner and promptly thereafter demonstrates to the reasonable satisfaction of Owner that there was a material and substantial mistake in the preparation of his Bid, which Bidder may withdraw his Bid and the Bid Security will be returned. Thereafter, that Bidder may be disqualified from further bidding on the Work. If a notice is filed with Owner after 24 hours then the Contractor will sacrifice his Bid Bond.

16. OPENING OF BIDS

16.1. Bids will be opened publicly.

16.2. When Bids are opened publicly they will be read aloud, and an abstract of the amounts of the base Bids and major alternates (if any) will be posted on Demandstar.com and made available after the opening of Bids.

17. BIDS TO REMAIN OPEN

17.1. All Bids shall remain open for one hundred and twenty (120) calendar days after the day of the Bid opening, but Owner may, in his sole discretion, release any Bid and return the Bid Security prior to that date.

18. AWARD OF CONTRACT

18.1. Owner reserves the right to reject any and all Bids, to waive any and all informalities and to negotiate contract terms with the Successful Bidder, and the right to disregard all nonconforming, non-responsive or conditional Bids. Discrepancies between words and figures, for total bid prices, will be resolved in favor of words. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum. Discrepancies between the indicated value and the correct value as calculated by the product of the unit price and the estimated quantity will be resolved by using the stated unit price.

18.2. In evaluating Bids, the Owner shall consider the qualifications of the Bidders and whether or not the Bids comply with the prescribed requirements, alternates, and unit processes of the Bid Documents; conduct and consider total cost evaluations to complete rehabilitation of individual wells expected to be rehabilitated during the course of the contract.

18.3. Owner may consider the qualifications and experience of Subcontractors and other persons and organizations (including those who are to furnish the principal items of material or equipment) proposed for those portions of the Work as to which the identity of Subcontractors and other persons and organizations must be submitted as provided in the Supplementary Conditions and Bid Documents. Operating costs, maintenance considerations, performance data and guarantees of materials and equipment may also be considered by Owner.

18.4. Owner may conduct such investigations as he deems necessary to assist in the evaluation of any Bid, and to establish the responsibility, qualifications and financial ability of the Bidders, proposed Subcontractors and other persons and organizations to do the Work in accordance with the Contract Documents to Owner's satisfaction within the prescribed time.

18.5. Owner reserves the right to reject the Bid of any Bidder who does not pass any such evaluation to Owner's satisfaction.

18.6. If the contract is to be awarded, it will be awarded to the lowest, responsive, responsible Bidder, based on the lowest Total Base Bid price, or the lowest Total Base Bid Price plus any combination of Alternate Bid Item(s), as evaluated by the Owner to be in the best interest of the Owner. All Bid pricing shall be submitted on the Bid Proposal Form (Bid Schedule of Values) included in the Front End Bid Documents.

18.7. If the contract is to be awarded, Owner will give the Successful Bidder a Notice of Award within one hundred and twenty (120) days after the day of the Bid opening.

18.8. More than one Bid received for the same work from an individual, firm, partnership, corporation or association under the same or different names will not be considered. If, in the determination of the Owner, there are reasonable grounds for believing that any Bidder is interested in more than one Bid for the same work, or that any collusion exists among the Bidders, this will result in the rejection of the Bids of those Bidders who participated in those Bids. In either case the Owner may deem those Bidders to be a non-responsible or non-qualified Bidder.

19. PERFORMANCE AND OTHER BONDS

19.1. Article 6.0 of the General Conditions and the Supplementary Conditions set forth Owner's requirements as to Performance and Payment Bonds. When the Successful Bidder delivers the executed Agreement to Owner, it shall be accompanied by the required Contract Security.

20. SIGNING OF AGREEMENT

20.1. When Owner gives a Notice of Award or a Notice of Intent to Award to the Successful Bidder, it will be accompanied by at least two unsigned counterparts of the Agreement and all other Contract Documents. Within fifteen days thereafter Contractor shall sign and deliver at least two counter parts of the Agreement to Owner with all other Contract Documents attached. Within thirty days of the Notice of Award, Owner will deliver all fully signed counterparts to Contractor.

21. PERMITS

21.1. Contractor is responsible to obtain all necessary permits (unless otherwise noted) as required by local, State, and Federal regulations as necessary to perform the Work of the Contract in accordance with all regulatory and permit requirements. The Contractor is responsible to perform the Work in accordance with all permit conditions whether Contractor holds the permit or Owner/Town holds the permit. Contractor’s costs associated with obtaining permits shall be included in Bid Pricing.

21.2. Contractor is responsible to obtain the following permits and perform Work in accordance with the permit conditions. Contractor is responsible to obtain South Florida Water Management District Well Construction and Abandonment permits and perform Work in accordance with the permit conditions.

21.3. Contractor is responsible to file a Notice of Commencement with Palm Beach County and provide the Owner with a copy of the recorded Notice of Commencement. Notice of Commencement forms may be obtained from the Town of Jupiter web site.

21.4. Contractor will be responsible to pay for and obtain any other permits required for execution of the work. Contractor will be responsible for treatment of development water prior to disposal, in accordance with the contract documents and local, State and Federal regulations.

21.5. Maintenance of Traffic (MOT) permit from Palm Beach County Traffic Division and/or Town of Jupiter for any pedestrian sidewalk crossings may be required for development water discharge

22. TAXES

22.1. The successful Bidder shall pay all applicable sales, consumer use and other similar taxes required by law.

22.2. The Contract contains provisions in the Supplemental Conditions for procurement of materials and equipment incorporated into the project under the Sales and Use Tax Exemption program.

23. CONTRACT DOCUMENTS

23.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words which have a well-known technical or trade meaning are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in effect at the time the Work is performed, except as may be otherwise specifically stated herein.

23.2. For the purpose of evaluation, the Bidder must indicate any variance or exceptions to the stated specifications no matter how slight. Deviations should be explained in detail. Absence of variations and/or corrections will be interpreted to mean that the Bidder meets all the specifications in every respect.

23.3. A Contract, if awarded, will be on the basis of material and equipment described in the plans and the technical specifications without consideration of possible substitute or an "or equal" item. Whenever it is indicated that a substitute or an "or equal" item of material or equipment may be furnished or used by the Bidder if acceptable to the Owner, application for such acceptance will not be considered by the Owner until after the date of execution of the Contract. In all cases, the low Bidder shall be determined on the basis of the base bid which shall reflect the costs for the materials and equipment specified. Bidders unable to provide the specified materials and equipment shall be determined unresponsive.

23.4. The apparent silence of the specifications as to any detail, or the apparent omission from the Specifications of a detailed description concerning any point, shall be regarded as meaning that only the best commercial practice is to prevail and that only material and workmanship of the finest quality are to be used. All interpretations of the specifications shall be made on the basis of this statement.

23.5. If before or during the performance of the Work Contractor discovers a conflict, error or discrepancy in the Contract Documents, Contractor immediately shall report same to Project Manager in writing and before proceeding with the Work affected thereby shall obtain a written interpretation or clarification from the Project Manager. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other

information known to Contractor with the Contract Documents before commencing any portion of the Work.

23.6. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications or other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the Project Manager. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installations shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

23.7. Plans and specifications will be provided free of charge to the successful bidder upon contract award. These plans and specifications will include two copies of the executed contract (one original), two sets of full size plans, two sets of 11”x17” plans, and electronic copies on compact disk. Additional hard copies of plans and specifications may be provided with the cost charged to the successful bidder at the Town’s cost to print and reproduce them. The Owner will not provide anything but complete plan sets. No individual plan sheets or specification sheets will be made.

24. OPEN END CONTRACT

24.1. No guarantee is expressed or implied as to the total quantity of commodities/services to be purchased under any open end Contract. Estimated quantities will be used for Bid comparison purposes only. The Owner reserves the right to issue Work Orders as and when required for proposed work for any or all bid items or any combination thereof. Work under this Contract is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town’s Community Investment Program (CIP) and fiscal year operating budgets. Estimated funding budgets anticipated being available for the initial contract term and subsequent renewals are provided in the table below.

24.1.1. The Town’s fiscal calendar runs from October 1st through September 30th.

24.2. The Owner reserves the right to purchase commodities/services specified herein through contracts established by other governmental agencies or through separate procurement actions due to unique or special needs. If an urgent delivery is required within a short period than the delivery time specified in the Contract, and if the seller is unable to comply therewith, the Owner reserves the right to obtain such delivery from others without penalty or prejudice to the Owner or to the Bidder.

24.3. The initial term of the Contract will be one year (365 calendar days) from the date of Notice to Proceed. At the Owner’s sole discretion, Owner may renew the Base Bid Work for Well Rehabilitation of the Contract for two (2) additional one (1) year terms for a total Contract period of three (3) years, in accordance with the Town of Jupiter’s Purchasing Policy and terms of the original Contract. Renewals will be in writing by change order to the Contract and are subject to the same terms, conditions, and unit pricing set forth in the initial Contract and any written amendments/change orders signed by both parties (Owner and Contractor). No compensation shall be made for costs associated with renewal of the Contract. Renewals are contingent upon satisfactory performance evaluations by the Owner and subject to the availability of fiscal year

funding approved by the Jupiter Town Council. Contractor may elect not to extend the Contract with 90 days written notice to Owner. Owner is not obligated to extend the Contract.

Regardless of anything to the contrary, this Contract may be terminated by the Owner at any time and for any reason. Further, the Contractor agrees that it will not be entitled to any claims and/or damages resulting from such termination, including, but not limited to, lost profits, direct or indirect damages, and consequential special or punitive damages.

Anticipated Estimated Annual Funding
Town of Jupiter Utilities
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program Contract (W2111)

Term/Years	Description	Estimated Value
Initial Term (1-year)	Well Rehabilitation & Investigation (CIP)	$261,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$60,000
	Unanticipated Emergency Repairs	$50,000
	Construction of Well 12A (CIP)	$275,000
	Initial Term Estimated Total	**$646,000**
1st Renewal (1-year)	Well Rehabilitation & Investigation (CIP)	$269,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$62,000
	Unanticipated Emergency Repairs	$50,000
	1st Renewal Term Estimated Total	**$381,000**
2nd Renewal Final Term (1-year)	Well Rehabilitation & Investigation (CIP)	$277,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$64,000
	Unanticipated Emergency Repairs	$50,000
	2nd Renewal Term Estimated Total	**$391,000**
	Estimated Total Contract (3-years)	**$1,418,000**

25. EQUAL OPPORTUNITY

25.1. The Town of Jupiter recognizes fair and open competition as a basic tenet of public procurement. Contractors doing business with the Owner are prohibited from discriminating on the basis of race, color, creed, national origin, handicap, age or sex.

26. AUDIT RIGHTS

26.1. The Owner reserves the right to audit the records of the successful Bidder for the commodities and/or services provided under the Contract at any time during the performance and term of the Contract and for a period of five (5) years after completion and acceptance by the Owner. If required by the Owner, the successful Bidder agrees to submit to an audit by an independent certified public accountant selected by the Owner. The successful Bidder shall allow the Owner to inspect, examine

and review the records of the successful Bidder in relation to this Contract at any and all times during normal business hours during the term of the Contract.

26.2. The Inspector General of Palm Beach County has the authority to investigate and audit matters relating to the negotiation and performance of this Contract and in furtherance thereof may demand and obtain records and testimony from the Contractor and its subcontractors and lower tier subcontractors. The Contractor understands and agrees that in addition to other remedies and consequences provided by law, the failure of the Contractor or its subcontractors or lower tier subcontractors to fully cooperate with the Office of Inspector General of Palm Beach County when requested may be deemed by the municipality to be a material breach of this contract justifying its termination. The Office of Inspector General in Palm Beach County is established by Palm Beach County Code, Section 2-421 - 2-440. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be in violation of Palm Beach County Code, Section 2-421 – 2-440, and be punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

27. CONFLICT OF INTEREST

27.1. The award hereunder is subject to the provisions of Chapter 112, Florida Statutes. Bidders must disclose with their Bid the name of any officer, director, partner, proprietor, associate or agent who is also a public officer or employee of the Owner or any of its agencies. Further, all Bidders must disclose the name of any public officer or employee of the Owner who owns, directly or indirectly, an interest of five percent (5%) or more in the Bidder's firm or any of its branches or affiliate companies.

28. OCCUPATIONAL HEALTH & SAFETY

28.1. In compliance with Chapter 442, Florida Statutes, any toxic substance listed in Section 38F-41.03 of the Florida Administrative Code delivered as a result of this Bid must be accompanied by a Material Safety Data Sheet ("MSDS") which may be obtained from the manufacturer. The MSDS must include the following information:

28.1.1. The chemical name and the common name of the toxic substance.

28.1.2. The hazards or other risks in the use of the toxic substance including: a) The potential for fire, explosion, corrosively and reactivity; b) The known acute and chronic health effects of risk from exposure including the medical conditions which are generally recognized as being aggravated by exposure to the toxic substance; and c) The primary routes of entry and symptoms of over exposure.

28.1.3. The proper precautions, handling practices, necessary personal protection equipment and other safety precautions in the use of or exposure to the toxic substances, including appropriate emergency treatment in case of exposure.

28.1.4. The emergency procedure for spills, fire, disposal and first aid.

28.1.5. A description in lay terms of the known specific potential health risks posed by the toxic substance intended to alert any person reading this information.

28.1.6. The year and month, if available, that the information was compiled and the name, address, and emergency telephone number of the manufacturer responsible for preparing the information.

28.2. Bidders are required to complete and submit with their bid the Contractor Safety Qualifications Form included in the Front End Documents.

28.3. Contractor of Award and sub-contractors will be required to perform the Work of the Contract in accordance with the Environmental Protection Agency Risk Management Program (40 CRF 68.87) and the Occupational Safety and Health Administration's Process Safety Management Program (29 CRF 1910.119 (h)).

28.4. Contractor of Award, sub-contractor, and all persons performing work at the water treatment plant site under this contract shall be required to attend a mandatory safety orientation hosted by the Jupiter Water Treatment Plant staff. Contractor will be required to coordinate safety orientations with Plant staff at least one week prior to the date in which the work of each trade will be performed. It is requested that the Contractor schedule classes with subcontractor and Town Staff so as to minimize the number of times the class must be presented. Any worker on site who is found not having attended the mandatory safety training will be asked to the leave the site until such safety requirement is met. It is the Contractor's responsibility to make sure all persons working on this project attends the water plant safety orientation.

28.5. Various local and state governments have instituted requirements for their populations that exceeds the CDC guidelines. One example includes a requirement (not a suggestion) to wear face coverings in public. Contractors must observe state and local requirements as needed as we institute a phased reopening throughout the nation. Because local/state guidelines will continue to evolve and may apply differently by different jurisdictions at different times, the Contractor must be prepared to provide PPE as needed in all jurisdictions even if their requirements exceed that of the CDC.

29. SPECIAL LEGAL REQUIREMENTS

29.1. PUBLIC RECORDS

29.1.1. This Agreement is subject to and governed by the laws of the State of Florida, including without limitation Chapter 119, Florida Statutes, which generally makes public all records or other writings made by or received by the parties. The Contractor acknowledges its legal obligation to comply with § 119.0701, Florida Statutes.

29.1.2. A request to inspect or copy public records relating to a public agency's contract for services must be made directly to the public agency. If the public agency does not possess the requested records, the public agency shall immediately notify the contractor of the request, and the contractor must provide the records to the public agency or allow the records to be inspected or copied within a reasonable time.

29.1.3. If a contractor does not comply with the public agency's request for records, the public agency shall enforce the contract provisions in accordance with the contract.

29.1.4. A contractor who fails to provide the public records to the public agency within a reasonable time may be subject to penalties under s. 119.10.

29.1.5. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 561-741-2270,**

BRITTANYG@JUPITER.FL.US, OR 210 MILITARY TRAIL, JUPITER, FL 33458.

29.2. OFFER EXTENDED TO OTHER GOVERNMENTAL ENTITIES

29.2.1. The Town of Jupiter encourages and agrees to the successful bidder extending the pricing, terms and conditions of this solicitation or resultant contract to other governmental entities at the discretion of the successful bidder.

29.3. CONE OF SILENCE, Sec. 2-355. Cone of Silence

29.3.1. Cone of silence means a prohibition on any communication, except for written correspondence, regarding a particular request for proposal, request for qualification, bid, or any other competitive solicitation between:

29.3.1.1. Any person or person's representative seeking an award from such competitive solicitation; and

29.3.1.2. Any county commissioner or commissioner's staff, any member of a local governing body or the member's staff, a mayor or chief executive officer that is not a member of a local governing body or the mayor or chief executive officer's staff, or any employee authorized to act on behalf of the commission or local governing body to award a particular contract.

29.3.2. For the purposes of this section, a person's representative shall include but not be limited to the person's employee, partner, officer, director, consultant, lobbyist, or any actual or potential subcontractor or consultant of the person.

29.3.3. The cone of silence shall be in effect as of the deadline to submit the proposal, bid, or other response to a competitive solicitation. The cone of silence applies to any person or person's representative who responds to a particular request for proposal, request for qualification, bid, or any other competitive solicitation, and shall remain in effect until such response is either rejected by the county or municipality as applicable or withdrawn by the person or person's representative. Each request for proposal, request for qualification, bid or any other competitive solicitation shall provide notice of cone of silence requirements and refer to this article.

29.3.4. The provisions of this article shall not apply to oral communications at any public proceeding, including pre-bid conferences, oral presentations before selection committees, Contract negotiations during any public meeting, presentations made to the board or local municipal governing body as applicable, and protest hearings. Further, the cone of silence shall not apply to contract negotiations between any employee and the intended awardee, any dispute resolution process following the filing of a protest between the person filing the protest and any employee, or any written correspondence at any time with any employee, county commissioner, member of a local municipal governing body, mayor or chief executive officer that is not a member of the local municipal governing body, or advisory board member or selection committee member, unless specifically prohibited by the applicable competitive solicitation process.

29.3.5. The cone of silence shall not apply to any purchases made in an amount less than the competitive bid threshold set forth in the county purchasing ordinance (County Code, chapter 2, article III, division 2, part A, section 2-51 et seq.) or municipal ordinance as applicable.

29.3.6. The cone of silence shall terminate at the time the board, local municipal governing body, or a county or municipal department authorized to act on behalf of the board or local municipal governing body as applicable, awards or approves a contract, rejects all bids or responses, or otherwise takes action which ends the solicitation process.

29.3.7. Any contract entered into in violation of the cone of silence provisions in this section shall render the transaction voidable.

THIS SPACE IS INTENTIONALLY LEFT BLANK.

Bid Proposal

Bidding Company Name:_____

Town of Jupiter Utilities
210 Military Trail
Jupiter, FL 33458

Gentlemen:

The undersigned, as Bidder, hereby declares that the only Persons, company, or parties interested in the Proposal or the Contract to be entered into, as principals, are named herein; and that this Proposal is made without connection with any other person, company, or parties making a Bid or Proposal; and that it is in all respects fair and in good faith without collusion or fraud.

That the Bidder has carefully and to his full satisfaction examined the attached Instructions to Bidders, General Conditions, Supplementary Conditions, detailed Specifications, and Form of Contract and Bond, together with the accompanying plans, and that Bidder has read all addenda issued prior to the opening of Bids; and that Bidder has fully examined the site and the project documents and hereby agrees to furnish, unless otherwise provided, all implements, machinery, equipment, transportation, tools, materials, supplies, labor and other things necessary to the prosecution and completion of the work, to wit:

> Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160’ deep with the top 120’ being 20" PVC casing and bottom 40’ being either 12” open hole, open hole with liner or 12” stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

It is proposed that the project herein described shall be constructed for the Unit Prices as follows, all in accordance with the requirements and provisions of the Contract Documents.

Bid Schedule of Values
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program (W2111)

The following schedule of bid items has been developed to allow the Town to equitably evaluate bids. Individual bid item unit costs will be used to establish the total cost of each scope of work developed to maintain, rehabilitate, and/or replace wells; work orders will be issued as authorization to proceed with the various scopes of work to be completed under this Contract. Town does not guarantee that estimated quantities shown will be utilized in full, or at all. The Town may utilize some or all of these bid items for each scope of work, as the Town deems necessary.

Item No.	Item Description	Unit	Estimated Quantity	Unit Price	Extended Value

BACTERIOLOGICAL CLEARANCE LABORATORY

- ☐ Approved State Department of Health Laboratory (DOH Certified)
- ☐ Town of Jupiter Utilities Laboratory (DOH Certified) - Use of Town of Jupiter Water System Lab will result in no charge for Item No. 32 on the Schedule of Values.

Please note that Bidder is responsible to utilize DOH Certified laboratory for work associated with Bid Item Nos. 60 & 61

List of Subcontractors/Suppliers

The Bidder shall list below the name and the location of the place of business of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the Work or improvement, or a subcontractor licensed by the State who, under subcontract to the prime contractor, specially fabricates and installs a portion of the Work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of two percent (2%) of the prime contractor's total bid. Failure to comply with this requirement may render the Bid non-responsive and may cause its rejection. If Prime Contractor will self-perform any of the work listed below it shall be indicated as self-perform under Subcontractor License Number.

Work to be Performed	**Subcontractor License Number**	**Percent of Total Contract**	**Subcontractor/Supplier Name & Address**

Note: Provide licenses, certifications, experience, and qualification forms for those subcontractors listed above. Attach additional pages as needed.

Qualification Requirements

(Complete these pages in their entirety and include with Bid. Attach copies of applicable Licenses)

THE UNDERSIGNED GUARANTEES THE TRUTH AND ACCURANCY OF ALL STATEMENTS AND ANSWERS HEREIN CONTAINED:

A. Any information for which OWNER cannot corroborate is grounds for rejection of Bid. (Use additional sheets as needed to provide the required information.)

1. State the numbers of years your organization has been doing business in the State of Florida:

   _____

2. State the location of the office from which this Contract will be managed.

   _____

3. State the number of employees available to complete the work contemplated by this contract.

   _____

4. State Name and years of experience of Bidder's Project Manager to be assigned to this Project. Provide the proposed Project Manager's experience for at least four (4) similar projects within the past five (5) years. Provide information as to the role of the individual for the stated previous projects and his/her intended role for this Contract. Provide reference contact information for Project Manager on previous projects listed. If in Owner's opinion the proposed Project Manager is not qualified to act at Project Manager for this Contract based on the information presented by the Bidder and Owner's verification of references, Bidder shall propose another Project Manager. Owner and Bidder shall agree on the Project Manager for this Contract before the Contract is awarded.

   Project Manager's: Name: _____

   Years of Experience in this type of work: _____

   Years of Experience as a Project Manager in this type of work: _____

5. Only Bidders who are qualified and have completed at least four (4) similar projects over the last five (5) years or equivalent experience as determined by the Town to be in the Town's sole best interest will be considered for award.

   NOTE: In order to be deemed acceptable for the purpose of determining Bidder Qualification, similar projects shall be listed below and have all information completed (blanks correctly filled in) including contact names and telephone numbers of both the Owner and Engineer.

   Names and experience of Major Subcontractors (proposed to perform 2% or more of the work of this contract) to be used on this project shall also be included in the Bid Proposal Package. Copy this form and attach additional pages as needed. Provide Four (4) similar projects for major subcontractors.

Proposal (Continued)

If awarded the Contract, the undersigned agrees to execute the attached Agreement/Contract within fifteen (15) calendar days from the date set forth in the Notice of Intent to Award or Notice of Award, which ever one is received first, and to fully complete all necessary work within the time limits specified below after date of written Notice to Proceed, with such extensions of time as are provided for in the General Conditions.

Contract Durations for Well Rehabilitation (Base Bid) Scope:
(Applies to all Work associated with Well Maintenance and Rehabilitation)

Substantial Completion:	365 calendar days from Notice to Proceed
Final Completion:	365 calendar days from Notice to Proceed

Contract Durations for Well 12A (Additive Alternate Bid) Scope:
(Applies to all Work associated with Abandonment of Well 12 and Construction of 12A):

Substantial Completion:	105 calendar days from Notice to Proceed
Final Completion:	135 calendar days from Notice to Proceed

The undersigned understands the Contract time starts on the date of Notice to Proceed. The undersigned understands the Contract time includes time for Contractor to obtain permits, submit and obtain shop drawing approvals, order materials, receive deliveries, complete all Work required of the Contract, and to close out the Contract.

There is enclosed a bid guarantee consisting of five percent (5%) of the estimated value for the initial contract term ($646,000).

The undersigned agrees that all bid documents issued for this project, including addenda, have been reviewed and site visits performed, as necessary to provide a comprehensive bid. The undersigned acknowledges receipt of _____ (insert number) Addenda for this project.

The undersigned furthermore agrees that, in case of failure on undersigned's part to sign said contract and provide required bonds, power of attorney's, and insurance within (15) days after receipt of a Notice of Intent to Award or a Notice of Award, whichever comes first, the check, bond, or other security accompanying undersigned's Bid and the money payable thereon, shall become the property of the Town, by forfeit as agreed and liquidated damages; otherwise the check or bond accompanying undersigned's Bid shall be returned to the undersigned.

The undersigned acknowledges that payments made by the Town of Jupiter will be made via electronic funds transfers (EFT) and vendor will provide the Town of Jupiter with the information required to make EFT payments.

The undersigned, if awarded the contract, agrees to furnish at time of signing the contract, a payment bond and a performance bond, each in the amount of 100% of the contract value as set forth in "Instructions to Bidders".

The undersigned is aware that the Inspector General of Palm Beach County has the authority to investigate and audit matters relating to the negotiation and performance of this contract and in furtherance thereof may demand and obtain records and testimony from the contractor and its subcontractors and lower tier subcontractors. The contractor understands and agrees that in addition to other remedies and consequences

provided by law, the failure of the contractor or its subcontractors or lower tier subcontractors to fully cooperate with the Inspector General when requested may be deemed by the municipality to be a material breach of this contract justifying its termination.

The undersigned states that this bid proposal is the only proposal for this project in which he is interested and certifies that all of the information provided in this bid proposal is true and correct.

Contractor Safety Qualifications/Requirements

1. APPLICABILITY

Any contractors performing maintenance, repair, turnaround, major renovations, or specialty work on or adjacent to the hazardous chemical process at the Jupiter Water Treatment plant is subject to the contractor safety requirements of the Environmental Protection Agency Risk Management Program (40 CRF 68.87) and the Occupational Safety and Health Administration's Process Safety Management Program (29 CRF 1910.119(h)).

CONTRACTOR SHALL SUBMIT A COMPLETED COPY OF THE ATTACHED "CONTRACTOR SAFETY QUALIFICATION FORM" WITH THEIR BID. FAILURE TO INCLUDE THIS FORM WITH THE BID IS GROUNDS FOR DISQUALIFICATION.

2. OWNER RESPONSIBILITY

(A) Selecting a Contractor:

1. When selecting a contractor, obtain and evaluate information regarding the contractor's safety program.

(B) Informing a Contractor:

1. Inform the contractor of the known potential fire, explosion, or toxic release hazards related to the contractor's work and regulated process.

2. Explain to the contractor the applicable provisions of the facilities emergency response program (i.e. alarms, evacuation routes, etc.)

3. Inform the contractor of the facility's safe work practices of operations such as:
    - Confined space entry
    - Equipment/line opening
    - Lockout/tagout Program
    - Control over entry into regulated (i.e. hazardous) process areas
    - Hot Work Permit

(C) Evaluating a Contractor's Performance

1. Evaluate the contractor's performance in fulfilling their requirements under this regulation.

3. CONTRACTOR RESPOSIBILITY

(A) Assure that each of the contractor's employee's is trained in the work practices to safely perform his/her job, and to document that each employee understood the training. This documentation will include the name of employee, date of the training, and means used to verify that the employee understood the training.

(B) Assure that each of the contractor's employees are instructed in the known potential fire, explosion, or toxic release hazards related to his/her job and the process, and the applicable provisions of the emergency response plan.

(C) Assure that Contractor's employees and subcontractor's/laborers attend the WTP safety orientation and follow the facility's safety rules including safe work practices such as control over entry into hazardous chemical process areas, lockout/tagout, equipment/line opening, confined space safety, and hot work permit.

(D) Advise the facility owner of any unique hazard presented by the contractor's work, or of any hazards found by the contractor.

(E) Obtain and evaluate information pertaining to subcontractor's safety programs.

(F) Assure that subcontractor's and laborers are trained in their work practice to safety perform their jobs.

4. CONTRACTOR SUBMITTALS

(A). Training Certification

Prior to the commencement the contractor shall certify in writing to the Owner that those employees involved in work on or around the hazardous chemical process at the Jupiter Water Treatment Plant have successfully completed training in accordance with 40 CFR 68.87(c) and 29 CFR 1910.119(h)(3).

(B). Records Maintenance

The Contractor shall maintain a record of those employees who successfully completed the above training. These records must include the following information:

- Name of the employee
- Contents of training
- Date of training
- Means used to verify that the employee understood the training

(C). Additional Responsibilities

1. Contractor must immediately inform the Owner of all contract employee injuries or illness resulting from work performed on or around and hazardous chemical process.

2. Contractor must immediately inform the Owner of any injuries resulting from any work at the facility.

3. Contractor employees, subcontractors, and laborers must participate in a mandatory on-site safety orientation conducted by the Owner before work begins. It is the Contractor's responsibility to schedule these meetings with the Owner, and it is the Contractor's responsibility to ensure <u>all</u> persons working on the Water Treatment Plant site under this contract have attended the mandatory on-site safety orientation. Failure to do so will result in removal of those persons who have not received the training from the job site until such time as the training is obtained.

Name (print): _____ Title: _____

Signature: _____ Date: _____

Sworn Statement

PURSUANT TO SECTION 287.133(3)(a),FLORIDA STATUES,
ON PUBLIC ENTITY CRIMES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. This sworn statement is submitted to _____
[print name of the public entity]

by _____
[print individual's name and title]

for_____
[print name of entity submitting sworn statement]

whose business address is _____

_____

and (if applicable) its Federal Employer Identification Number (FEIN) is: _____
(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn Statement: _____.)

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding or guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:
    1. A predecessor or successor of a person convicted of a public entity crime: or

    2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term affiliate includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **[indicate which statement applies.]**

   ___ Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity, has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ___ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   ___ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in public interest to place the entity submitting this sworn statement on the convicted vendor list.
   [attach a copy of the final order]

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED, I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Bid Bond (continued)

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond will be Owner's sole and exclusive remedy upon default of Bidder.
2. Default of Bidder occurs upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds, Power of Attorney(s), and Certificate(s) of Insurance required by the Bidding Documents.
3. This obligation will be null and void if:
   3.1. Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds, Power of Attorney(s), and Certificate(s) of Insurance required by the Bidding Documents, or
   3.2. All Bids are rejected by Owner, or
   3.3. Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).
4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.
5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions does not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.
6. No suit or action will be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety, and in no case later than one year after the Bid due date.
7. Any suit or action under this Bond will be commenced only in a court of competent jurisdiction located in the state in which the Project is located.
8. Notices required hereunder must be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Postal Service registered or certified mail, return receipt requested, postage pre-paid, and will be deemed to be effective upon receipt by the party concerned.
9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.
10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond will be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute governs and the remainder of this Bond that is not in conflict therewith continues in full force and effect.
11. The term "Bid" as used herein includes a Bid, offer, or proposal as applicable.

Notice of Intent to Award

DATE:

TO:

ATT:

Project: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities, Jupiter, Florida

Gentlemen:

This is to advise that on [INSERT DATE], a recommendation for award of the above referenced Contract will be made to the Jupiter Town Council as a result of your bid in the amount of [INSERT VALUE] submitted to the Town of Jupiter (Owner) on [INSERT DATE].

Two (2) sets of the Project Manual for this project are attached. Each set contains an unexecuted agreement. Please sign both sets of the Agreement and include the following additional documentation necessary for execution of the Agreement/Contract. DO NOT DATE ANY OF THE DOCUMENTS. The Town will date them upon execution.

- Two original signed and notarized Payment Bonds (on Bond form included with each project manual).
- Two original signed and notarized Performance Bonds (on Bond form included with each project manual).
- Four original Power of Attorneys; one each to accompany each Payment and Performance bond.
- Two current Certificates of Insurance naming the Town of Jupiter as an additional insured per the requirements of the contract.

Please return both signed Project Manuals with supporting documentation to our office for final signatures.

Your attention is invited to the provision whereby your proposal guarantee may be forfeited in the event the Agreement with satisfactory bonds, insurance, power of attorneys is not executed and delivered to the Owner within fifteen (15) consecutive calendar days from [INSERT DATE].

One fully executed original and one copy of the executed Agreement/Contract will be provided to you along with Conformed Construction Documents on or before the Pre-Construction meeting.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Senior Utilities Engineer

Notice of Award

DATE:

TO:

ATT:

Project: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities, Jupiter, Florida

Gentlemen:

This is to advise you that on [INSERT DATE], the Jupiter Town Council approved award of a construction contract to your firm, for the above referenced project as a result of your bid on [INSERT DATE], in the amount of [INSERT VALUE].

One fully executed original and one copy of the executed Agreement/Contract will be provided to you along with Conformed Construction Documents on or before the date of the Pre-Construction meeting. A Notice to Proceed will be issued for commencement of the Contract Time.

We look forward to working with you on this project.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Senior Utilities Engineer

Agreement (Contract) Between Owner and Contractor

This Agreement (Contract) made this_____ (date) day of _____ (month), _____ (year) by and between the Town of Jupiter, a public agency of the State of Florida hereinafter designated as the "the TOWN" and "OWNER", and [INSERT CONTRACTOR'S NAME], [INSERT CONTRACTOR'S ADDRESS] a Corporation, [INSERT FEIN Number] (FEIN number) hereinafter designated as "the CONTRACTOR", in consideration of the mutual covenants hereinafter set forth agree as follows:

ARTICLE 1. WORK.

1.1 CONTRACTOR shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

Furnish all permits, labor, equipment and materials necessary to perform well maintenance, rehabilitation and/or replacement of Surficial Aquifer production wells for the Town of Jupiter, located in Jupiter, Florida. Well maintenance activities may include but are not limited to removal/reinstallation of wellhead including downhole equipment and well piping; pump and motor inspection, repair and/or replacement of well mechanical components including miscellaneous welding, well disinfection and bacteriological clearance. Well rehabilitation activities may include but are not limited to removal/reinstallation of wellhead components, static and dynamic downhole well video, brushing existing well casing, clean-out open hole, chemical treatment of wells, removal/replacement of gravel pack, well development including air lift development, high velocity jetting with simultaneous air lift development and pump development, well performance pump testing, well disinfection and bacteriological clearance, site restoration, and completion of all required work to the extent the well facility has been successfully rehabilitated, returned to service and accepted by the OWNER based on the intent of the contract documents. Well replacement activities may include but are not limited to abandonment of an existing well and replacement with a well approximately 160' deep with the top 120' being 20" PVC casing and bottom 40' being either 12" open hole, open hole with liner or 12" stainless steel screen including well construction permitting, drill site preparation, pilot hole construction and logging, well drilling and construction, well development, step rate pump testing, video logging, well disinfection and testing, well site restoration and all other incidentals as outlined on the bid documents and all appurtenances necessary to complete the Work based on the intent of the contract documents.

1.2 The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows: **CONSTRUCTION OF SURFICIAL AQUIFER WELL 12A AND SURFICIAL WELLFIELD REHABILITATION PROGRAM (W2111) FOR THE TOWN OF JUPITER UTILITIES, JUPITER, FLORIDA**

ARTICLE 2. HYDROGEOLOGIST.

2.1 The Project has been designed by the following: JLA Geosciences, 1931 Commerce Way, suite 3, Jupiter, FL 33458.

2.2 The Town of Jupiter will administer the contract during the construction phase. The Hydrogeologist will serve as the Owner's Representative during the course of the Contract.

ARTICLE 3. CONTRACT TIME.

3.1 The Work will have a substantial completion date and a final completion date after the date when the Contract Time commences to run as provided in Paragraph 4.01 of the General Conditions, and as outlined below. There are two substantial and two final completion dates that will apply to this

Contract for the base and additive alternate bids, respectively. Further, all work associated with the additive alternate must be completed between May 15 and September 15. A Notice to Proceed (NTP) will be issued for the base bid. Should the Owner elect to proceed with the additive alternate bid, then a separate NTP will be provided for the additive alternate bid. The Contract durations noted below begin on the date of the Notice to Proceed. The work will be completed and ready for substantial and final payment in accordance with Article 15 of the General Conditions and as outlined below.

Contract Durations for Well Rehabilitation (Base Bid) Scope:
(Applies to all Work associated with Well Maintenance and Rehabilitation)

Substantial Completion:	365 calendar days from Notice to Proceed
Final Completion:	365 calendar days from Notice to Proceed

Contract Durations for Well 12A (Additive Alternate Bid) Scope:
(Applies to all Work associated with Abandonment of Well 12 and Construction of 12A):

Substantial Completion:	105 calendar days from Notice to Proceed
Final Completion:	135 calendar days from Notice to Proceed

3.2 The undersigned understands the Contract time starts on the date of Notice to Proceed. The undersigned understands the Contract Time to Substantial Completion includes time for Contractor to obtain permits, submit and obtain shop drawing approvals, order materials, and substantially complete all the Work required of the Contract. Substantial Completion shall include all work required to abandon all existing wells, construct all new wells, testing and clearance of all wells, submission of well completion reports, final well surveys and final acceptance by PBCHD. Final Completion shall include completion of site restoration, punch list items, demobilization from site, record drawings, and other closeout documents.

3.3 Should Owner elect to proceed with Wells 12 and 12A (bid alternate) then all work associated with this site shall be completed between May 15 and September 15. Failure to complete the work during this time frame and within the contract duration will result in assessment of liquidated damages in the amount of $750/day until the work is substantially complete.

3.4 Unless extended or terminated, the period of performance of this CONTRACT shall commence upon the effective date of execution by the OWNER and continue for a period of 365 days or three hundred and sixty-five calendar days. Written Notice to Proceed and Work Order duration will be mutually agreed upon by both the CONTRACTOR and OWNER and provided in Work Orders outlining work. The CONTRACTOR shall not proceed with work under this CONTRACT until a Work Order with written Notice to Proceed is received from the OWNER.

3.5 Owner and Contractor may agree to renew this Contract at the Contract Unit Prices for items in the Base Bid, Well Rehabilitation, for two (2) additional one (1) year terms, for a total Contract period of three (3) consecutive years. Renewal of this Contract is at the Owner's sole discretion and is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town's Community Investment Program (CIP) and fiscal year operating budgets. If the Contract is renewed, it will be done so by written change order to the Contract and are subject to the same terms, conditions, and unit pricing set forth in the initial Contract and any written amendments/change orders signed by both parties (Owner and Contractor). No compensation shall be made for costs associated with renewal of the Contract. Renewals are contingent upon satisfactory performance evaluations by the Owner and subject to the availability of fiscal year funding approved by the Jupiter Town Council. Contractor may elect not to

extend the Contract with 90 days written notice to Owner. Owner is not obligated to extend the Contract.

Regardless of anything to the contrary, this Contract may be terminated by the Owner at any time and for any reason. Further, the Contractor agrees that it will not be entitled to any claims and/or damages resulting from such termination, including, but not limited to, lost profits, direct or indirect damages, and consequential special or punitive damages.

3.6 The parties agree that the TIME IS OF THE ESSENCE, in the performance of each and every obligation under this CONTRACT. The CONTRACT may be changed only by a change order to the CONTRACT Work Order amendments to individual Work Orders must be completed in writing and signed and dated by Contractor and Owner.

3.7 Liquidated Damages. OWNER and CONTRACTOR recognize that time is of the essence of this Agreement and that OWNER will suffer financial loss if the Work is not substantially complete within the time specified in paragraph 3.1 above, plus any extensions thereof allowed in accordance with Article 11 of the General Conditions. They also recognize the delays, expense and difficulties involved in proving in a legal or arbitration preceding the actual loss suffered by OWNER if the Work is not substantially complete on time. Accordingly, instead of requiring any such proof, OWNER and CONTRACTOR agree that as liquidated damages for delay (But not as a penalty) CONTRACTOR shall pay OWNER Seven Hundred and Fifty 00/100 dollars ($750.00) for each day that expires after the time specified in Paragraph 3.1 for substantial completion until the Work is substantially complete, and Five Hundred 00/100 dollars ($500.00) for each day that expires after the time specified in Paragraph 3.1 from the date of final completion until the work has reached final completion. Final completion includes demobilization from the site. Owner may withhold payment to compensate for liquidated damages either by increasing the amount of money being held in retainage or deduct the amount due in Liquidated Damages from the final payment application. Liquidated damages under this Contract apply to each the substantial completion date and the final completion date.

3.8 The provision of Liquidated Damages for delay shall in no manner affect the TOWN's right to terminate the CONTRACT. The OWNER'S exercise of the right to terminate shall not release the CONTRACTOR from his obligation to pay Liquidated Damages. It is further agreed that the OWNER may deduct from the balance of the CONTRACT sum held by the OWNER the Liquidated Damages stipulated herein or such portions as said balance will cover.

ARTICLE 4. CONTRACT PRICE.

4.1 OWNER shall pay CONTRACTOR for performance of the Work in accordance with the Contract Documents in current funds according to the Contract Unit Prices.

4.2 No guarantee is expressed or implied as to the total quantity of commodities/services to be purchased under any open end Contract. Estimated quantities will be used for Bid comparison purposes only. The Owner reserves the right to issue Work Orders as and when required for proposed work for any or all bid items or any combination thereof. Work under this Contract is subject to fiscal appropriation by the Jupiter Town Council in either or both the Town’s Community Investment Program (CIP) and fiscal year operating budgets. Estimated funding budgets anticipated being available for the original contract term and subsequent renewals are provided in the table below.

4.3 The Owner reserves the right to purchase commodities/services specified herein through contracts established by other governmental agencies or through separate procurement actions due to unique or

special needs. If an urgent delivery is required within a short period than the delivery time specified in the Contract, and if the seller is unable to comply therewith, the Owner reserves the right to obtain such delivery from others without penalty or prejudice to the Owner or to the Bidder.

Anticipated Estimated Annual Funding
Town of Jupiter Utilities
Construction of Surficial Aquifer Well 12A and
Surficial Wellfield Rehabilitation Program Contract (W2111)

Term/Years	Description	Estimated Value
Initial Term (1-year)	Well Rehabilitation & Investigation (CIP)	$261,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$60,000
	Unanticipated Emergency Repairs	$50,000
	Well 12A Replacement (CIP)	$275,000
	Initial Term Estimated Total	**$646,000**
1st Renewal (1-year)	Well Rehabilitation & Investigation (CIP)	$269,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$62,000
	Unanticipated Emergency Repairs	$50,000
	1st Renewal Term Estimated Total	**$381,000**
2nd Renewal Final Term (1-year)	Well Rehabilitation & Investigation (CIP)	$277,000
	Well Mechanical Repairs & Replacements (Operating, R&M)	$64,000
	Unanticipated Emergency Repairs	$50,000
	2nd Renewal Term Estimated Total	**$391,000**
	Estimated Total Contract (3-years)	**$1,418,000**

ARTICLE 5. PAYMENT PROCEDURES.

5.1 Contractor shall submit Applications for Payment in accordance with Article 15 of the General Conditions. Applications for payment will be processed by OWNER as provided in the General Conditions.

5.2 The undersigned, acknowledges that payments made by the Town of Jupiter will be made via electronic funds transfer (EFT) and vendor will provide the Town of Jupiter with the information required to make EFT payments.

5.3 Progress Payments. OWNER shall make progress payments on account of the Contract Price on the basis of CONTRACTOR'S Applications for Payment within 30 days of receipt of each monthly approved application for payment during construction as provided below. All progress payments will be on the basis of the progress of the Work measured by the agreed upon schedule of values provided for in Articles 2 and 15 of the General Conditions.

5.4 Progress payments will be made in an amount equal to 95% of the Work completed, and 95% of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each

case the aggregate of payments previously made. Owner is not obligated to pay for stored materials and may choose to withhold payment until materials are incorporated into the Work.

5.5 Owner, at its discretion may further increase payments to 98% of the work completed upon Substantial Completion. Owner is not obligated to increase payments to 98% of work completed.

5.6 Final Payment. Upon final completion and acceptance of the Work in accordance with Article 15 of the General Conditions, OWNER shall pay the remainder of the Contract Price as provided in said Article 15 of the General Conditions unless liquidated damages are due.

ARTICLE 6. INTEREST. Not applicable.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce OWNER to enter into this Agreement, CONTRACTOR makes the following representations:

7.1 CONTRACTOR has familiarized himself with the nature and extent of the Contract Documents, Work, locality, and with all local conditions and federal, state and local laws, ordinances, rules and regulations that in any manner may affect cost, progress or performance of the Work.

7.2 CONTRACTOR has studied carefully all reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress or performance of the Work which were relied upon by ENGINEER in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.

7.3 CONTRACTOR has made or caused to be made examinations, investigations and tests and studies of such reports and related data in addition to those referred to in Article 7.2 (above) as he deems necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents; and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

7.4 CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

7.5 CONTRACTOR has given OWNER written notice of all conflicts, errors or discrepancies that he has discovered in the Contract Documents and the written resolution thereof is acceptable to CONTRACTOR.

ARTICLE 8. CONTRACT DOCUMENTS.

8.1 The Contract Documents which comprise the entire agreement between OWNER and CONTRACTOR are attached to this Agreement, made a part hereof and consists of the following:

8.1(a) Index
8.1(b) Table of Contents-Specifications & Appendices
8.1(c) Advertisement for Bids
8.1(d) Instructions to Bidders
8.1(e) Proposal
8.1(f) Contractor Safety Qualifications/Requirements(Including Contractor Safety Qualification Form)
8.1(g) Sworn Statement

8.1(h) Trench Safety
8.1(i) Bid Bond
8.1(j) Notice of Intent to Award
8.1(k) Notice of Award
8.1(l) Agreement (Contract) between OWNER and CONTRACTOR
8.1(m) Payment Bond
8.1(n) Performance Bond
8.1(o) Opinion of Town Attorney
8.1(p) Notice to Proceed
8.1(q) General Conditions (EJCDC Standard General Conditions (2018 Edition), inclusive)
8.1(r) Supplementary Conditions
8.1(s) Any Modifications, including Change Orders, duly delivered after execution of Agreement.
8.1(t) Technical Specifications including Appendices bearing the title: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
8.1(u) Drawings bearing the title: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)

8.2 There are no Contract Documents other than those listed above in this Article 8. The Contract Documents may only be altered, amended or repealed by a modification described in Section 1 of the General Conditions of the Contract.

ARTICLE 9. MISCELLANEOUS.

9.1 Terms used in this Agreement which are defined in Article 1 of the General Conditions shall have the meanings indicated in the General Conditions.

9.2 No assignment by a party hereto of any rights under or interests in the Contract Documents will be binding on another party hereto without the written consent of the party sought to be bound; and specifically but without limitation, moneys that may become due and moneys that are due may be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

9.3 OWNER and CONTRACTOR each binds himself, his partners, successors, assigns and legal representatives to the other party hereto, his partners, successors, assigns and legal representatives in respect to all covenants, agreements and obligations contained in the Contract Documents.

9.4 The Inspector General of Palm Beach County has the authority to investigate and audit matters relating to the negotiation and performance of this Contract and in furtherance thereof may demand and obtain records and testimony from the Contractor and its subcontractors and lower tier subcontractors. The Contractor understands and agrees that in addition to other remedies and consequences provided by law, the failure of the Contractor or its subcontractors or lower tier subcontractors to fully cooperate with the Office of Inspector General of Palm Beach County when requested may be deemed by the municipality to be a material breach of this contract justifying its termination. The Office of Inspector General in Palm Beach County is established by Palm Beach County Code, Section 2-421 - 2-440. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be in violation of Palm Beach County Code, Section 2-421 – 2-440, and be punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

9.5 This Agreement is subject to and governed by the laws of the State of Florida, including without limitation Chapter 119, Florida Statutes, which generally makes public all records or other writings made by or received by the parties. The Contractor acknowledges its legal obligation to comply with § 119.0701, Florida Statutes.

9.5(a) A request to inspect or copy public records relating to a public agency's contract for services must be made directly to the public agency. If the public agency does not possess the requested records, the public agency shall immediately notify the contractor of the request, and the contractor must provide the records to the public agency or allow the records to be inspected or copied within a reasonable time.

9.5(b) If a contractor does not comply with the public agency's request for records, the public agency shall enforce the contract provisions in accordance with the contract.

9.5(c) A contractor who fails to provide the public records to the public agency within a reasonable time may be subject to penalties under s. 119.10.

9.5(d) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 561-741-2270, BRITTANYG@JUPITER.FL.US, OR 210 MILITARY TRAIL, JUPITER, FL 33458.**

9.6 The Town of Jupiter encourages and agrees to the successful bidder extending the pricing, terms and conditions of this solicitation or resultant contract to other governmental entities at the discretion of the successful bidder.

9.7 OFFER EXTENDED TO OTHER GOVERNMENT ENTITITES

The Town of Jupiter encourages and agrees to the successful bidder extending the pricing, terms and conditions of this solicitation or resultant contract to other governmental entities at the discretion of the successful bidder.

Notes: (1) Provide supplemental execution by any additional parties, such as joint venturers. (2) Any singular reference to Contractor, Surety, Owner, or other party is considered plural where applicable.

1. The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner to pay for labor, materials, and equipment furnished for use in the performance of the Construction Contract, which is incorporated herein by reference, subject to the following terms.
2. If the Contractor promptly makes payment of all sums due to Claimants, and defends, indemnifies, and holds harmless the Owner from claims, demands, liens, or suits by any person or entity seeking payment for labor, materials, or equipment furnished for use in the performance of the Construction Contract, then the Surety and the Contractor shall have no obligation under this Bond.
3. If there is no Owner Default under the Construction Contract, the Surety's obligation to the Owner under this Bond will arise after the Owner has promptly notified the Contractor and the Surety (at the address described in Paragraph 13) of claims, demands, liens, or suits against the Owner or the Owner's property by any person or entity seeking payment for labor, materials, or equipment furnished for use in the performance of the Construction Contract, and tendered defense of such claims, demands, liens, or suits to the Contractor and the Surety.
4. When the Owner has satisfied the conditions in Paragraph 3, the Surety shall promptly and at the Surety's expense defend, indemnify, and hold harmless the Owner against a duly tendered claim, demand, lien, or suit.
5. The Surety's obligations to a Claimant under this Bond will arise after the following:
    5.1. Claimants who do not have a direct contract with the Contractor
        5.1.1. have furnished a written notice of non-payment to the Contractor, stating with substantial accuracy the amount claimed and the name of the party to whom the materials were, or equipment was, furnished or supplied or for whom the labor was done or performed, within ninety (90) days after having last performed labor or last furnished materials or equipment included in the Claim; and
        5.1.2. have sent a Claim to the Surety (at the address described in Paragraph 13).
    5.2. Claimants who are employed by or have a direct contract with the Contractor have sent a Claim to the Surety (at the address described in Paragraph 13).
6. If a notice of non-payment required by Paragraph 5.1.1 is given by the Owner to the Contractor, that is sufficient to satisfy a Claimant's obligation to furnish a written notice of non-payment under Paragraph 5.1.1.
7. When a Claimant has satisfied the conditions of Paragraph 5.1 or 5.2, whichever is applicable, the Surety shall promptly and at the Surety's expense take the following actions:
    7.1. Send an answer to the Claimant, with a copy to the Owner, within sixty (60) days after receipt of the Claim, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed; and
    7.2. Pay or arrange for payment of any undisputed amounts.
    7.3. The Surety's failure to discharge its obligations under Paragraph 7.1 or 7.2 will not be deemed to constitute a waiver of defenses the Surety or Contractor may have or acquire as to a Claim, except as to undisputed amounts for which the Surety and Claimant have reached agreement. If, however, the Surety fails to discharge its obligations under Paragraph 7.1 or 7.2, the Surety shall indemnify the Claimant for the reasonable attorney's fees the Claimant incurs thereafter to recover any sums found to be due and owing to the Claimant.

8. The Surety's total obligation will not exceed the amount of this Bond, plus the amount of reasonable attorney's fees provided under Paragraph 7.3, and the amount of this Bond will be credited for any payments made in good faith by the Surety.

9. Amounts owed by the Owner to the Contractor under the Construction Contract will be used for the performance of the Construction Contract and to satisfy claims, if any, under any construction performance bond. By the Contractor furnishing and the Owner accepting this Bond, they agree that all funds earned by the Contractor in the performance of the Construction Contract are dedicated to satisfying obligations of the Contractor and Surety under this Bond, subject to the Owner's priority to use the funds for the completion of the work.

10. The Surety shall not be liable to the Owner, Claimants, or others for obligations of the Contractor that are unrelated to the Construction Contract. The Owner shall not be liable for the payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligation to make payments to or give notice on behalf of Claimants, or otherwise have any obligations to Claimants under this Bond.

11. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders, and other obligations.

12. No suit or action will be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the state in which the project that is the subject of the Construction Contract is located or after the expiration of one year from the date (1) on which the Claimant sent a Claim to the Surety pursuant to Paragraph 5.1.2 or 5.2, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Construction Contract, whichever of (1) or (2) first occurs. If the provisions of this paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit will be applicable.

13. Notice and Claims to the Surety, the Owner, or the Contractor must be mailed or delivered to the address shown on the page on which their signature appears. Actual receipt of notice or Claims, however accomplished, will be sufficient compliance as of the date received.

14. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement will be deemed deleted here from and provisions conforming to such statutory or other legal requirement will be deemed incorporated herein. When so furnished, the intent is that this Bond will be construed as a statutory bond and not as a common law bond.

15. This bond is issued in compliance with Section 255.05, Florida Statutes (1987), as may be amended. A claimant, except a laborer, who is not in privity with the contractor and who has not received payment for his labor, materials, or supplies shall, within 45 days after beginning to furnish labor, materials, or supplies for the prosecution of the work, furnish the contractor with a notice that he intends to look to the bond for protection. A claimant who is not in privity with the contractor and who has not received payment for his labor, materials, or supplies shall, within 90 days after performance of the labor or after complete delivery of the materials or supplies, deliver to the contractor and to the surety written notice of the performance of the labor or delivery of the materials or supplies and of the nonpayment. No action for the labor, materials, or supplies may be instituted against the contractor or the surety unless both notices have been given. No action shall be instituted against the contractor or the surety on the bond after 1 year from the performance of the labor or completion of delivery of the materials or supplies.

16. Upon requests by any person or entity appearing to be a potential beneficiary of this Bond, the Contractor and Owner shall promptly furnish a copy of this Bond or shall permit a copy to be made.

17. Definitions

17.1. *Claim*—A written statement by the Claimant including at a minimum:

17.1.1. The name of the Claimant;

17.1.2. The name of the person for whom the labor was done, or materials or equipment furnished;

17.1.3. A copy of the agreement or purchase order pursuant to which labor, materials, or equipment was furnished for use in the performance of the Construction Contract;

17.1.4. A brief description of the labor, materials, or equipment furnished;

17.1.5. The date on which the Claimant last performed labor or last furnished materials or equipment for use in the performance of the Construction Contract;

17.1.6. The total amount earned by the Claimant for labor, materials, or equipment furnished as of the date of the Claim;

17.1.7. The total amount of previous payments received by the Claimant; and

17.1.8. The total amount due and unpaid to the Claimant for labor, materials, or equipment furnished as of the date of the Claim.

17.2. *Claimant*—An individual or entity having a direct contract with the Contractor or with a subcontractor of the Contractor to furnish labor, materials, or equipment for use in the performance of the Construction Contract. The term Claimant also includes any individual or entity that has rightfully asserted a claim under an applicable mechanic's lien or similar statute against the real property upon which the Project is located. The intent of this Bond is to include without limitation in the terms of "labor, materials, or equipment" that part of the water, gas, power, light, heat, oil, gasoline, telephone service, or rental equipment used in the Construction Contract, architectural and engineering services required for performance of the work of the Contractor and the Contractor's subcontractors, and all other items for which a mechanic's lien may be asserted in the jurisdiction where the labor, materials, or equipment were furnished.

17.3. *Construction Contract*—The agreement between the Owner and Contractor identified on the cover page, including all Contract Documents and all changes made to the agreement and the Contract Documents.

17.4. *Owner Default*—Failure of the Owner, which has not been remedied or waived, to pay the Contractor as required under the Construction Contract or to perform and complete or comply with the other material terms of the Construction Contract.

17.5. *Contract Documents*—All the documents that comprise the agreement between the Owner and Contractor.

18. If this Bond is issued for an agreement between a contractor and subcontractor, the term Contractor in this Bond will be deemed to be Subcontractor and the term Owner will be deemed to be Contractor.

19. Modifications to this Bond are as follows: Request for assigned bond number and for phone numbers of each party listed on the bond (Contractor, Surety, and Owner). Addition of Paragraph 15 and renumbering of the paragraphs thereafter.

Notes: (1) Provide supplemental execution by any additional parties, such as joint venturers. (2) Any singular reference to Contractor, Surety, Owner, or other party is considered plural where applicable.

1. The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner for the performance of the Construction Contract, which is incorporated herein by reference.

2. If the Contractor performs the Construction Contract, the Surety and the Contractor shall have no obligation under this Bond, except when applicable to participate in a conference as provided in Paragraph 3.

3. If there is no Owner Default under the Construction Contract, the Surety's obligation under this Bond will arise after:

    3.1. The Owner first provides notice to the Contractor and the Surety that the Owner is considering declaring a Contractor Default. Such notice may indicate whether the Owner is requesting a conference among the Owner, Contractor, and Surety to discuss the Contractor's performance. If the Owner does not request a conference, the Surety may, within five (5) business days after receipt of the Owner's notice, request such a conference. If the Surety timely requests a conference, the Owner shall attend. Unless the Owner agrees otherwise, any conference requested under this Paragraph 3.1 will be held within ten (10) business days of the Surety's receipt of the Owner's notice. If the Owner, the Contractor, and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement does not waive the Owner's right, if any, subsequently to declare a Contractor Default;

    3.2. The Owner declares a Contractor Default, terminates the Construction Contract and notifies the Surety; and

    3.3. The Owner has agreed to pay the Balance of the Contract Price in accordance with the terms of the Construction Contract to the Surety or to a contractor selected to perform the Construction Contract.

4. Failure on the part of the Owner to comply with the notice requirement in Paragraph 3.1 does not constitute a failure to comply with a condition precedent to the Surety's obligations, or release the Surety from its obligations, except to the extent the Surety demonstrates actual prejudice.

5. When the Owner has satisfied the conditions of Paragraph 3, the Surety shall promptly and at the Surety's expense take one of the following actions:

    5.1. Arrange for the Contractor, with the consent of the Owner, to perform and complete the Construction Contract;

    5.2. Undertake to perform and complete the Construction Contract itself, through its agents or independent contractors;

    5.3. Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and a contractor selected with the Owners concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Paragraph 7 in excess of the Balance of the Contract Price incurred by the Owner as a result of the Contractor Default; or

    5.4. Waive its right to perform and complete, arrange for completion, or obtain a new contractor, and with reasonable promptness under the circumstances:

        5.4.1. After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, make payment to the Owner; or

        5.4.2 Deny liability in whole or in part and notify the Owner, citing the reasons for denial.

6. If the Surety does not proceed as provided in Paragraph 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Paragraph 5.4, and the Owner refuses the payment, or the Surety has denied liability, in whole or in part, without further notice, the Owner shall be entitled to enforce any remedy available to the Owner.

7. If the Surety elects to act under Paragraph 5.1, 5.2, or 5.3, then the responsibilities of the Surety to the Owner will not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety will not be greater than those of the Owner under the Construction Contract. Subject to the commitment by the Owner to pay the Balance of the Contract Price, the Surety is obligated, without duplication for:

    7.1. the responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;

    7.2. additional legal, design professional, and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Paragraph 5; and

    7.3. liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.

8. If the Surety elects to act under Paragraph 5.1, 5.3, or 5.4, the Surety's liability is limited to the amount of this Bond.

9. The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Construction Contract, and the Balance of the Contract Price will not be reduced or set off on account of any such unrelated obligations. No right of action will accrue on this Bond to any person or entity other than the Owner or its heirs, executors, administrators, successors, and assigns.

10. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders, and other obligations.

11. Any proceeding, legal or equitable, under this Bond must be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and must be instituted within two years after a declaration of Contractor Default or within two years after the Contractor ceased working or within two years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this paragraph are void or prohibited by law, the minimum periods of limitations available to sureties as a defense in the jurisdiction of the suit will be applicable.

12. Notice to the Surety, the Owner, or the Contractor must be mailed or delivered to the address shown on the page on which their signature appears.

13. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement will be deemed deleted therefrom and provisions conforming to such statutory or other legal requirement will be deemed incorporated herein. When so furnished, the intent is that this Bond will be construed as a statutory bond and not as a common law bond.

14. This bond is issued in compliance with Section 255.05, Florida Statutes (1987), as may be amended, which statute supersedes this bond to the extent of any conflict, and to the extent the Public Construction Bond coverage provided in such statute may be broader than this bond. A claimant, except a laborer, who is not in privity with the Contractor and who has not received payment for his labor, materials, or supplies shall, within 45 days after beginning to furnish labor, materials, or supplies for the prosecution of the Work, furnish the Contractor with a notice that he intends to look to the bond for protection. A claimant who is not in privity with the Contractor and who has not received payment for his labor, materials, or supplies

shall, within 90 days after performance of the labor or after complete delivery of the materials or supplies, deliver to the Contractor and to the surety written notice of the performance of the labor or delivery of the materials or supplies and of the nonpayment. No action for the labor, materials, or supplies may be instituted against the Contractor or the surety unless both notices have been given. No action shall be instituted against the Contractor or the surety on the bond after 1 year from the performance of the labor or completion of delivery of the materials or supplies.

15. Definitions

    15.1. *Balance of the Contract Price*—The total amount payable by the Owner to the Contractor under the Construction Contract after all proper adjustments have been made including allowance for the Contractor for any amounts received or to be received by the Owner in settlement of insurance or other claims for damages to which the Contractor is entitled, reduced by all valid and proper payments made to or on behalf of the Contractor under the Construction Contract.

    15.2. *Construction Contract*—The agreement between the Owner and Contractor identified on the cover page, including all Contract Documents and changes made to the agreement and the Contract Documents.

    15.3. *Contractor Default*—Failure of the Contractor, which has not been remedied or waived, to perform or otherwise to comply with a material term of the Construction Contract.

    15.4. *Owner Default*—Failure of the Owner, which has not been remedied or waived, to pay the Contractor as required under the Construction Contract or to perform and complete or comply with the other material terms of the Construction Contract.

    15.5. *Contract Documents*—All the documents that comprise the agreement between the Owner and Contractor.

16. If this Bond is issued for an agreement between a contractor and subcontractor, the term Contractor in this Bond will be deemed to be Subcontractor and the term Owner will be deemed to be Contractor.

17. Modifications to this Bond are as follows: Request for assigned bond number and for phone numbers of each party listed on the bond (Contractor, Surety, and Owner). Addition of Paragraph 14 and renumbering of the paragraphs thereafter.

Opinion of Town Attorney

This is to certify that I have examined the attached Contract Documents, that after such examination, I am of the opinion that such documents conform to the laws of the State of Florida, that the execution of the Contract and the Contract Bonds is in due and proper form, that the representative of the respective Contracting Parties have full power and authority to execute such Contract and Contract Bond on behalf of the respective Contracting Parties and that the foregoing agreements constitute valid and binding obligations on such parties.

_____

Thomas J. Baird, Esquire
Attorney for Town of Jupiter

This the ____ day of _____, 20_____.

Notice to Proceed (NTP) – Base Bid, Well Rehabilitation

DATE:

TO:

ATT:

PROJECT: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities
Jupiter, Florida

Gentlemen:

One fully executed copy of your contract is enclosed. The commencement date for the initial term of this Contract for the Base Bid Well Rehabilitation Work is _____ (365 calendar days from NTP). The expiration date is _____.

The OWNER reserves the right to extend the Base Bid portion of the Contract for additional terms as described in the Contract Documents. The Owner will issue work orders to the Contractor for each well rehabilitation effort to be performed under this contract. The work orders will be agreed to between the Owner and the Contractor in writing before mobilization and will include the specific work tasks identified in the Bid/Contract Schedule of Values with associated unit pricing and time to complete the work. A preconstruction meeting will be scheduled on or before the date of Notice to Proceed.

Your attention is invited to the provision whereby you shall start to perform your obligations under the Contract Documents on the Commencement date. Said date shall begin the Contract Time. The Town of Jupiter will monitor the progress of the work and conformance with the contract. **The Contractor shall be responsible for recording the Payment and Performance Bonds with Palm Beach County and provide the Owner with certified copies of the recorded documents before commencing work.**

We look forward to working with you on this project.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Senior Utilities Engineer

Notice to Proceed (NTP) – Additive Alternate, Well 12A

DATE:

TO:

ATT:

PROJECT: Construction of Surficial Aquifer Well 12A and Surficial Wellfield Rehabilitation Program (W2111)
Town of Jupiter Utilities
Jupiter, Florida

Gentlemen:

The commencement date for the Additive Alternate Bid for Well 12A term of this Contract is _____. The following completion dates apply:

Additive Alternate Scope (Item Nos. 40-58): Well 12A

Substantial Completion:_____ (105 calendar days from this NTP)

Final Completion: _____ (135 calendar days from this NTP)

Your attention is invited to the provision whereby you shall start to perform your obligations under the Contract Documents on the Commencement date. Said date shall begin the Contract Time. The Town of Jupiter will monitor the progress of the work and conformance with the contract.

We look forward to working with you on this project.

Sincerely,

Rebecca J. Wilder, P.E.
Town of Jupiter
Senior Utilities Engineer

STANDARD GENERAL CONDITIONS OF THE CONSTRUCTION CONTRACT

ARTICLE 1—DEFINITIONS AND TERMINOLOGY

1.01 *Defined Terms*

A. Wherever used in the Bidding Requirements or Contract Documents, a term printed with initial capital letters, including the term's singular and plural forms, will have the meaning indicated in the definitions below. In addition to terms specifically defined, terms with initial capital letters in the Contract Documents include references to identified articles and paragraphs, and the titles of other documents or forms.

1. *Addenda*—Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Requirements or the proposed Contract Documents.

2. *Agreement*—The written instrument, executed by Owner and Contractor, that sets forth the Contract Price and Contract Times, identifies the parties and the Engineer, and designates the specific items that are Contract Documents.

3. *Application for Payment*—The document prepared by Contractor, in a form acceptable to Engineer, to request progress or final payments, and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. *Bid*—The offer of a Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

5. *Bidder*—An individual or entity that submits a Bid to Owner.

6. *Bidding Documents*—The Bidding Requirements, the proposed Contract Documents, and all Addenda.

7. *Bidding Requirements*—The Advertisement or invitation to bid, Instructions to Bidders, Bid Bond or other Bid security, if any, the Bid Form, and the Bid with any attachments.

8. *Change Order*—A document which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Contract Price or the Contract Times, or other revision to the Contract, issued on or after the Effective Date of the Contract.

9. *Change Proposal*—A written request by Contractor, duly submitted in compliance with the procedural requirements set forth herein, seeking an adjustment in Contract Price or Contract Times; contesting an initial decision by Engineer concerning the requirements of the Contract Documents or the acceptability of Work under the Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Contract.

10. *Claim*

a. A demand or assertion by Owner directly to Contractor, duly submitted in compliance with the procedural requirements set forth herein, seeking an adjustment of Contract Price or Contract Times; contesting an initial decision by Engineer concerning the

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

requirements of the Contract Documents or the acceptability of Work under the Contract Documents; contesting Engineer's decision regarding a Change Proposal; seeking resolution of a contractual issue that Engineer has declined to address; or seeking other relief with respect to the terms of the Contract.

b. A demand or assertion by Contractor directly to Owner, duly submitted in compliance with the procedural requirements set forth herein, contesting Engineer's decision regarding a Change Proposal, or seeking resolution of a contractual issue that Engineer has declined to address.

c. A demand or assertion by Owner or Contractor, duly submitted in compliance with the procedural requirements set forth herein, made pursuant to Paragraph 12.01.A.4, concerning disputes arising after Engineer has issued a recommendation of final payment.

d. A demand for money or services by a third party is not a Claim.

11. *Constituent of Concern*—Asbestos, petroleum, radioactive materials, polychlorinated biphenyls (PCBs), lead-based paint (as defined by the HUD/EPA standard), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to Laws and Regulations regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

12. *Contract*—The entire and integrated written contract between Owner and Contractor concerning the Work.

13. *Contract Documents*—Those items so designated in the Agreement, and which together comprise the Contract.

14. *Contract Price*—The money that Owner has agreed to pay Contractor for completion of the Work in accordance with the Contract Documents.

15. *Contract Times*—The number of days or the dates by which Contractor shall: (a) achieve Milestones, if any; (b) achieve Substantial Completion; and (c) complete the Work.

16. *Contractor*—The individual or entity with which Owner has contracted for performance of the Work.

17. *Cost of the Work*—See Paragraph 13.01 for definition.

18. *Drawings*—The part of the Contract that graphically shows the scope, extent, and character of the Work to be performed by Contractor.

19. *Effective Date of the Contract*—The date, indicated in the Agreement, on which the Contract becomes effective.

20. *Electronic Document*—Any Project-related correspondence, attachments to correspondence, data, documents, drawings, information, or graphics, including but not limited to Shop Drawings and other Submittals, that are in an electronic or digital format.

21. *Electronic Means*—Electronic mail (email), upload/download from a secure Project website, or other communications methods that allow: (a) the transmission or communication of Electronic Documents; (b) the documentation of transmissions, including sending and receipt; (c) printing of the transmitted Electronic Document by the

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

recipient; (d) the storage and archiving of the Electronic Document by sender and recipient; and (e) the use by recipient of the Electronic Document for purposes permitted by this Contract. Electronic Means does not include the use of text messaging, or of Facebook, Twitter, Instagram, or similar social media services for transmission of Electronic Documents.

22. *Engineer*—The individual or entity named as such in the Agreement.

23. *Field Order*—A written order issued by Engineer which requires minor changes in the Work but does not change the Contract Price or the Contract Times.

24. *Hazardous Environmental Condition*—The presence at the Site of Constituents of Concern in such quantities or circumstances that may present a danger to persons or property exposed thereto.

    a. The presence at the Site of materials that are necessary for the execution of the Work, or that are to be incorporated into the Work, and that are controlled and contained pursuant to industry practices, Laws and Regulations, and the requirements of the Contract, is not a Hazardous Environmental Condition.

    b. The presence of Constituents of Concern that are to be removed or remediated as part of the Work is not a Hazardous Environmental Condition.

    c. The presence of Constituents of Concern as part of the routine, anticipated, and obvious working conditions at the Site, is not a Hazardous Environmental Condition.

25. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and binding decrees, resolutions, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

26. *Liens*—Charges, security interests, or encumbrances upon Contract-related funds, real property, or personal property.

27. *Milestone*—A principal event in the performance of the Work that the Contract requires Contractor to achieve by an intermediate completion date, or by a time prior to Substantial Completion of all the Work.

28. *Notice of Award*—The written notice by Owner to a Bidder of Owner's acceptance of the Bid.

29. *Notice to Proceed*—A written notice by Owner to Contractor fixing the date on which the Contract Times will commence to run and on which Contractor shall start to perform the Work.

30. *Owner*—The individual or entity with which Contractor has contracted regarding the Work, and which has agreed to pay Contractor for the performance of the Work, pursuant to the terms of the Contract.

31. *Progress Schedule*—A schedule, prepared and maintained by Contractor, describing the sequence and duration of the activities comprising Contractor's plan to accomplish the Work within the Contract Times.

32. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the Work to be performed under the Contract Documents is a part.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

33. *Resident Project Representative*—The authorized representative of Engineer assigned to assist Engineer at the Site. As used herein, the term Resident Project Representative (RPR) includes any assistants or field staff of Resident Project Representative.

34. *Samples*—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

35. *Schedule of Submittals*—A schedule, prepared and maintained by Contractor, of required submittals and the time requirements for Engineer's review of the submittals.

36. *Schedule of Values*—A schedule, prepared and maintained by Contractor, allocating portions of the Contract Price to various portions of the Work and used as the basis for reviewing Contractor's Applications for Payment.

37. *Shop Drawings*—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Contract Documents.

38. *Site*—Lands or areas indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands or areas furnished by Owner which are designated for the use of Contractor.

39. *Specifications*—The part of the Contract that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

40. *Subcontractor*—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work.

41. *Submittal*—A written or graphic document, prepared by or for Contractor, which the Contract Documents require Contractor to submit to Engineer, or that is indicated as a Submittal in the Schedule of Submittals accepted by Engineer. Submittals may include Shop Drawings and Samples; schedules; product data; Owner-delegated designs; sustainable design information; information on special procedures; testing plans; results of tests and evaluations, source quality-control testing and inspections, and field or Site quality-control testing and inspections; warranties and certifications; Suppliers' instructions and reports; records of delivery of spare parts and tools; operations and maintenance data; Project photographic documentation; record documents; and other such documents required by the Contract Documents. Submittals, whether or not approved or accepted by Engineer, are not Contract Documents. Change Proposals, Change Orders, Claims, notices, Applications for Payment, and requests for interpretation or clarification are not Submittals.

42. *Substantial Completion*—The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion of such Work.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

43. *Successful Bidder*—The Bidder to which the Owner makes an award of contract.

44. *Supplementary Conditions*—The part of the Contract that amends or supplements these General Conditions.

45. *Supplier*—A manufacturer, fabricator, supplier, distributor, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or a Subcontractor.

46. *Technical Data*

    a. Those items expressly identified as Technical Data in the Supplementary Conditions, with respect to either (1) existing subsurface conditions at or adjacent to the Site, or existing physical conditions at or adjacent to the Site including existing surface or subsurface structures (except Underground Facilities) or (2) Hazardous Environmental Conditions at the Site.

    b. If no such express identifications of Technical Data have been made with respect to conditions at the Site, then Technical Data is defined, with respect to conditions at the Site under Paragraphs 5.03, 5.04, and 5.06, as the data contained in boring logs, recorded measurements of subsurface water levels, assessments of the condition of subsurface facilities, laboratory test results, and other factual, objective information regarding conditions at the Site that are set forth in any geotechnical, environmental, or other Site or facilities conditions report prepared for the Project and made available to Contractor.

    c. Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data, and instead Underground Facilities are shown or indicated on the Drawings.

47. *Underground Facilities*—All active or not-in-service underground lines, pipelines, conduits, ducts, encasements, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or systems at the Site, including but not limited to those facilities or systems that produce, transmit, distribute, or convey telephone or other communications, cable television, fiber optic transmissions, power, electricity, light, heat, gases, oil, crude oil products, liquid petroleum products, water, steam, waste, wastewater, storm water, other liquids or chemicals, or traffic or other control systems. An abandoned facility or system is not an Underground Facility.

48. *Unit Price Work*—Work to be paid for on the basis of unit prices.

49. *Work*—The entire construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Contract Documents.

50. *Work Change Directive*—A written directive to Contractor issued on or after the Effective Date of the Contract, signed by Owner and recommended by Engineer, ordering an addition, deletion, or revision in the Work.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1.02 *Terminology*

A. The words and terms discussed in Paragraphs 1.02.B, C, D, and E are not defined terms that require initial capital letters, but, when used in the Bidding Requirements or Contract Documents, have the indicated meaning.

B. *Intent of Certain Terms or Adjectives*: The Contract Documents include the terms "as allowed," "as approved," "as ordered," "as directed" or terms of like effect or import to authorize an exercise of professional judgment by Engineer. In addition, the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of Engineer as to the Work. It is intended that such exercise of professional judgment, action, or determination will be solely to evaluate, in general, the Work for compliance with the information in the Contract Documents and with the design concept of the Project as a functioning whole as shown or indicated in the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective is not intended to and shall not be effective to assign to Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility contrary to the provisions of Article 10 or any other provision of the Contract Documents.

C. *Day*: The word "day" means a calendar day of 24 hours measured from midnight to the next midnight.

D. *Defective*: The word "defective," when modifying the word "Work," refers to Work that is unsatisfactory, faulty, or deficient in that it:

1. does not conform to the Contract Documents;

2. does not meet the requirements of any applicable inspection, reference standard, test, or approval referred to in the Contract Documents; or

3. has been damaged prior to Engineer's recommendation of final payment (unless responsibility for the protection thereof has been assumed by Owner at Substantial Completion in accordance with Paragraph 15.03 or Paragraph 15.04).

E. *Furnish, Install, Perform, Provide*

1. The word "furnish," when used in connection with services, materials, or equipment, means to supply and deliver said services, materials, or equipment to the Site (or some other specified location) ready for use or installation and in usable or operable condition.

2. The word "install," when used in connection with services, materials, or equipment, means to put into use or place in final position said services, materials, or equipment complete and ready for intended use.

3. The words "perform" or "provide," when used in connection with services, materials, or equipment, means to furnish and install said services, materials, or equipment complete and ready for intended use.

4. If the Contract Documents establish an obligation of Contractor with respect to specific services, materials, or equipment, but do not expressly use any of the four words "furnish," "install," "perform," or "provide," then Contractor shall furnish and install said services, materials, or equipment complete and ready for intended use.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

F. *Contract Price or Contract Times*: References to a change in "Contract Price or Contract Times" or "Contract Times or Contract Price" or similar, indicate that such change applies to (1) Contract Price, (2) Contract Times, or (3) both Contract Price and Contract Times, as warranted, even if the term "or both" is not expressed.

G. Unless stated otherwise in the Contract Documents, words or phrases that have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2—PRELIMINARY MATTERS

2.01 *Delivery of Performance and Payment Bonds; Evidence of Insurance*

A. *Performance and Payment Bonds*: When Contractor delivers the signed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner the performance bond and payment bond (if the Contract requires Contractor to furnish such bonds).

B. *Evidence of Contractor's Insurance*: When Contractor delivers the signed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner, with copies to each additional insured (as identified in the Contract), the certificates, endorsements, and other evidence of insurance required to be provided by Contractor in accordance with Article 6, except to the extent the Supplementary Conditions expressly establish other dates for delivery of specific insurance policies.

C. *Evidence of Owner's Insurance*: After receipt of the signed counterparts of the Agreement and all required bonds and insurance documentation, Owner shall promptly deliver to Contractor, with copies to each additional insured (as identified in the Contract), the certificates and other evidence of insurance required to be provided by Owner under Article 6.

2.02 *Copies of Documents*

A. Owner shall furnish to Contractor four printed copies of the Contract (including one fully signed counterpart of the Agreement), and one copy in electronic portable document format (PDF). Additional printed copies will be furnished upon request at the cost of reproduction.

B. Owner shall maintain and safeguard at least one original printed record version of the Contract, including Drawings and Specifications signed and sealed by Engineer and other design professionals. Owner shall make such original printed record version of the Contract available to Contractor for review. Owner may delegate the responsibilities under this provision to Engineer.

2.03 *Before Starting Construction*

A. *Preliminary Schedules*: Within 10 days after the Effective Date of the Contract (or as otherwise required by the Contract Documents), Contractor shall submit to Engineer for timely review:

1. a preliminary Progress Schedule indicating the times (numbers of days or dates) for starting and completing the various stages of the Work, including any Milestones specified in the Contract;

2. a preliminary Schedule of Submittals; and

3. a preliminary Schedule of Values for all of the Work which includes quantities and prices of items which when added together equal the Contract Price and subdivides the Work

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

into component parts in sufficient detail to serve as the basis for progress payments during performance of the Work. Such prices will include an appropriate amount of overhead and profit applicable to each item of Work.

2.04 *Preconstruction Conference; Designation of Authorized Representatives*

A. Before any Work at the Site is started, a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to establish a working understanding among the parties as to the Work, and to discuss the schedules referred to in Paragraph 2.03.A, procedures for handling Shop Drawings, Samples, and other Submittals, processing Applications for Payment, electronic or digital transmittals, and maintaining required records.

B. At this conference Owner and Contractor each shall designate, in writing, a specific individual to act as its authorized representative with respect to the services and responsibilities under the Contract. Such individuals shall have the authority to transmit and receive information, render decisions relative to the Contract, and otherwise act on behalf of each respective party.

2.05 *Acceptance of Schedules*

A. At least 10 days before submission of the first Application for Payment a conference, attended by Contractor, Engineer, and others as appropriate, will be held to review the schedules submitted in accordance with Paragraph 2.03.A. No progress payment will be made to Contractor until acceptable schedules are submitted to Engineer.

1. The Progress Schedule will be acceptable to Engineer if it provides an orderly progression of the Work to completion within the Contract Times. Such acceptance will not impose on Engineer responsibility for the Progress Schedule, for sequencing, scheduling, or progress of the Work, nor interfere with or relieve Contractor from Contractor's full responsibility therefor.

2. Contractor's Schedule of Submittals will be acceptable to Engineer if it provides a workable arrangement for reviewing and processing the required submittals.

3. Contractor's Schedule of Values will be acceptable to Engineer as to form and substance if it provides a reasonable allocation of the Contract Price to the component parts of the Work.

4. If a schedule is not acceptable, Contractor will have an additional 10 days to revise and resubmit the schedule.

2.06 *Electronic Transmittals*

A. Except as otherwise stated elsewhere in the Contract, the Owner, Engineer, and Contractor may send, and shall accept, Electronic Documents transmitted by Electronic Means.

B. If the Contract does not establish protocols for Electronic Means, then Owner, Engineer, and Contractor shall jointly develop such protocols.

C. Subject to any governing protocols for Electronic Means, when transmitting Electronic Documents by Electronic Means, the transmitting party makes no representations as to long-term compatibility, usability, or readability of the Electronic Documents resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the Electronic Documents.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 3—CONTRACT DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 *Intent*

A. The Contract Documents are complementary; what is required by one Contract Document is as binding as if required by all.

B. It is the intent of the Contract Documents to describe a functionally complete Project (or part thereof) to be constructed in accordance with the Contract Documents.

C. Unless otherwise stated in the Contract Documents, if there is a discrepancy between the electronic versions of the Contract Documents (including any printed copies derived from such electronic versions) and the printed record version, the printed record version will govern.

D. The Contract supersedes prior negotiations, representations, and agreements, whether written or oral.

E. Engineer will issue clarifications and interpretations of the Contract Documents as provided herein.

F. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation will be deemed stricken, and all remaining provisions will continue to be valid and binding upon Owner and Contractor, which agree that the Contract Documents will be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

G. Nothing in the Contract Documents creates:

1. any contractual relationship between Owner or Engineer and any Subcontractor, Supplier, or other individual or entity performing or furnishing any of the Work, for the benefit of such Subcontractor, Supplier, or other individual or entity; or

2. any obligation on the part of Owner or Engineer to pay or to see to the payment of any money due any such Subcontractor, Supplier, or other individual or entity, except as may otherwise be required by Laws and Regulations.

3.02 *Reference Standards*

A. *Standards Specifications, Codes, Laws and Regulations*

1. Reference in the Contract Documents to standard specifications, manuals, reference standards, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, means the standard specification, manual, reference standard, code, or Laws or Regulations in effect at the time of opening of Bids (or on the Effective Date of the Contract if there were no Bids), except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard specification, manual, reference standard, or code, and no instruction of a Supplier, will be effective to change the duties or responsibilities of Owner, Contractor, or Engineer from those set forth in the part of the Contract Documents prepared by or for Engineer. No such provision or instruction shall be effective to assign to Owner or Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

inconsistent with the provisions of the part of the Contract Documents prepared by or for Engineer.

3.03 *Reporting and Resolving Discrepancies*

A. *Reporting Discrepancies*

1. *Contractor's Verification of Figures and Field Measurements*: Before undertaking each part of the Work, Contractor shall carefully study the Contract Documents, and check and verify pertinent figures and dimensions therein, particularly with respect to applicable field measurements. Contractor shall promptly report in writing to Engineer any conflict, error, ambiguity, or discrepancy that Contractor discovers, or has actual knowledge of, and shall not proceed with any Work affected thereby until the conflict, error, ambiguity, or discrepancy is resolved by a clarification or interpretation by Engineer, or by an amendment or supplement to the Contract issued pursuant to Paragraph 11.01.

2. *Contractor's Review of Contract Documents*: If, before or during the performance of the Work, Contractor discovers any conflict, error, ambiguity, or discrepancy within the Contract Documents, or between the Contract Documents and (a) any applicable Law or Regulation, (b) actual field conditions, (c) any standard specification, manual, reference standard, or code, or (d) any instruction of any Supplier, then Contractor shall promptly report it to Engineer in writing. Contractor shall not proceed with the Work affected thereby (except in an emergency as required by Paragraph 7.15) until the conflict, error, ambiguity, or discrepancy is resolved, by a clarification or interpretation by Engineer, or by an amendment or supplement to the Contract issued pursuant to Paragraph 11.01.

3. Contractor shall not be liable to Owner or Engineer for failure to report any conflict, error, ambiguity, or discrepancy in the Contract Documents unless Contractor had actual knowledge thereof.

B. *Resolving Discrepancies*

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the part of the Contract Documents prepared by or for Engineer take precedence in resolving any conflict, error, ambiguity, or discrepancy between such provisions of the Contract Documents and:

a. the provisions of any standard specification, manual, reference standard, or code, or the instruction of any Supplier (whether or not specifically incorporated by reference as a Contract Document); or

b. the provisions of any Laws or Regulations applicable to the performance of the Work (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation).

3.04 *Requirements of the Contract Documents*

A. During the performance of the Work and until final payment, Contractor and Owner shall submit to the Engineer in writing all matters in question concerning the requirements of the Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Contract Documents, as soon as possible after such matters arise. Engineer will be the initial interpreter of the requirements of the Contract Documents, and judge of the acceptability of the Work.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. Engineer will, with reasonable promptness, render a written clarification, interpretation, or decision on the issue submitted, or initiate an amendment or supplement to the Contract Documents. Engineer's written clarification, interpretation, or decision will be final and binding on Contractor, unless it appeals by submitting a Change Proposal, and on Owner, unless it appeals by filing a Claim.

C. If a submitted matter in question concerns terms and conditions of the Contract Documents that do not involve (1) the performance or acceptability of the Work under the Contract Documents, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, then Engineer will promptly notify Owner and Contractor in writing that Engineer is unable to provide a decision or interpretation. If Owner and Contractor are unable to agree on resolution of such a matter in question, either party may pursue resolution as provided in Article 12.

3.05 *Reuse of Documents*

A. Contractor and its Subcontractors and Suppliers shall not:

1. have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents (or copies of any thereof) prepared by or bearing the seal of Engineer or its consultants, including electronic media versions, or reuse any such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of Owner and Engineer and specific written verification or adaptation by Engineer; or

2. have or acquire any title or ownership rights in any other Contract Documents, reuse any such Contract Documents for any purpose without Owner's express written consent, or violate any copyrights pertaining to such Contract Documents.

B. The prohibitions of this Paragraph 3.05 will survive final payment, or termination of the Contract. Nothing herein precludes Contractor from retaining copies of the Contract Documents for record purposes.

ARTICLE 4—COMMENCEMENT AND PROGRESS OF THE WORK

4.01 *Commencement of Contract Times; Notice to Proceed*

A. The Contract Times will commence to run on the 30th day after the Effective Date of the Contract or, if a Notice to Proceed is given, on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within 30 days after the Effective Date of the Contract. In no event will the Contract Times commence to run later than the 60th day after the day of Bid opening or the 30th day after the Effective Date of the Contract, whichever date is earlier.

4.02 *Starting the Work*

A. Contractor shall start to perform the Work on the date when the Contract Times commence to run. No Work may be done at the Site prior to such date.

4.03 *Reference Points*

A. Owner shall provide engineering surveys to establish reference points for construction which in Engineer's judgment are necessary to enable Contractor to proceed with the Work. Contractor shall be responsible for laying out the Work, shall protect and preserve the

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

established reference points and property monuments, and shall make no changes or relocations without the prior written approval of Owner. Contractor shall report to Engineer whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.04 *Progress Schedule*

A. Contractor shall adhere to the Progress Schedule established in accordance with Paragraph 2.05 as it may be adjusted from time to time as provided below.

1. Contractor shall submit to Engineer for acceptance (to the extent indicated in Paragraph 2.05) proposed adjustments in the Progress Schedule that will not result in changing the Contract Times.

2. Proposed adjustments in the Progress Schedule that will change the Contract Times must be submitted in accordance with the requirements of Article 11.

B. Contractor shall carry on the Work and adhere to the Progress Schedule during all disputes or disagreements with Owner. No Work will be delayed or postponed pending resolution of any disputes or disagreements, or during any appeal process, except as permitted by Paragraph 16.04, or as Owner and Contractor may otherwise agree in writing.

4.05 *Delays in Contractor's Progress*

A. If Owner, Engineer, or anyone for whom Owner is responsible, delays, disrupts, or interferes with the performance or progress of the Work, then Contractor shall be entitled to an equitable adjustment in Contract Price or Contract Times.

B. Contractor shall not be entitled to an adjustment in Contract Price or Contract Times for delay, disruption, or interference caused by or within the control of Contractor. Delay, disruption, and interference attributable to and within the control of a Subcontractor or Supplier shall be deemed to be within the control of Contractor.

C. If Contractor's performance or progress is delayed, disrupted, or interfered with by unanticipated causes not the fault of and beyond the control of Owner, Contractor, and those for which they are responsible, then Contractor shall be entitled to an equitable adjustment in Contract Times. Such an adjustment will be Contractor's sole and exclusive remedy for the delays, disruption, and interference described in this paragraph. Causes of delay, disruption, or interference that may give rise to an adjustment in Contract Times under this paragraph include but are not limited to the following:

1. Severe and unavoidable natural catastrophes such as fires, floods, epidemics, and earthquakes;

2. Abnormal weather conditions;

3. Acts or failures to act of third-party utility owners or other third-party entities (other than those third-party utility owners or other third-party entities performing other work at or adjacent to the Site as arranged by or under contract with Owner, as contemplated in Article 8); and

4. Acts of war or terrorism.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. Contractor's entitlement to an adjustment of Contract Times or Contract Price is limited as follows:

1. Contractor's entitlement to an adjustment of the Contract Times is conditioned on the delay, disruption, or interference adversely affecting an activity on the critical path to completion of the Work, as of the time of the delay, disruption, or interference.

2. Contractor shall not be entitled to an adjustment in Contract Price for any delay, disruption, or interference if such delay is concurrent with a delay, disruption, or interference caused by or within the control of Contractor. Such a concurrent delay by Contractor shall not preclude an adjustment of Contract Times to which Contractor is otherwise entitled.

3. Adjustments of Contract Times or Contract Price are subject to the provisions of Article 11.

E. Each Contractor request or Change Proposal seeking an increase in Contract Times or Contract Price must be supplemented by supporting data that sets forth in detail the following:

1. The circumstances that form the basis for the requested adjustment;

2. The date upon which each cause of delay, disruption, or interference began to affect the progress of the Work;

3. The date upon which each cause of delay, disruption, or interference ceased to affect the progress of the Work;

4. The number of days' increase in Contract Times claimed as a consequence of each such cause of delay, disruption, or interference; and

5. The impact on Contract Price, in accordance with the provisions of Paragraph 11.07.

Contractor shall also furnish such additional supporting documentation as Owner or Engineer may require including, where appropriate, a revised progress schedule indicating all the activities affected by the delay, disruption, or interference, and an explanation of the effect of the delay, disruption, or interference on the critical path to completion of the Work.

F. Delays, disruption, and interference to the performance or progress of the Work resulting from the existence of a differing subsurface or physical condition, an Underground Facility that was not shown or indicated by the Contract Documents, or not shown or indicated with reasonable accuracy, and those resulting from Hazardous Environmental Conditions, are governed by Article 5, together with the provisions of Paragraphs 4.05.D and 4.05.E.

G. Paragraph 8.03 addresses delays, disruption, and interference to the performance or progress of the Work resulting from the performance of certain other work at or adjacent to the Site.

ARTICLE 5—SITE; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS

5.01 *Availability of Lands*

A. Owner shall furnish the Site. Owner shall notify Contractor in writing of any encumbrances or restrictions not of general application but specifically related to use of the Site with which Contractor must comply in performing the Work.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. Upon reasonable written request, Owner shall furnish Contractor with a current statement of record legal title and legal description of the lands upon which permanent improvements are to be made and Owner's interest therein as necessary for giving notice of or filing a mechanic's or construction lien against such lands in accordance with applicable Laws and Regulations.

C. Contractor shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

5.02 *Use of Site and Other Areas*

A. *Limitation on Use of Site and Other Areas*

1. Contractor shall confine construction equipment, temporary construction facilities, the storage of materials and equipment, and the operations of workers to the Site, adjacent areas that Contractor has arranged to use through construction easements or otherwise, and other adjacent areas permitted by Laws and Regulations, and shall not unreasonably encumber the Site and such other adjacent areas with construction equipment or other materials or equipment. Contractor shall assume full responsibility for (a) damage to the Site; (b) damage to any such other adjacent areas used for Contractor's operations; (c) damage to any other adjacent land or areas, or to improvements, structures, utilities, or similar facilities located at such adjacent lands or areas; and (d) for injuries and losses sustained by the owners or occupants of any such land or areas; provided that such damage or injuries result from the performance of the Work or from other actions or conduct of the Contractor or those for which Contractor is responsible.

2. If a damage or injury claim is made by the owner or occupant of any such land or area because of the performance of the Work, or because of other actions or conduct of the Contractor or those for which Contractor is responsible, Contractor shall (a) take immediate corrective or remedial action as required by Paragraph 7.13, or otherwise; (b) promptly attempt to settle the claim as to all parties through negotiations with such owner or occupant, or otherwise resolve the claim by arbitration or other dispute resolution proceeding, or in a court of competent jurisdiction; and (c) to the fullest extent permitted by Laws and Regulations, indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them, from and against any such claim, and against all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any claim or action, legal or equitable, brought by any such owner or occupant against Owner, Engineer, or any other party indemnified hereunder to the extent caused directly or indirectly, in whole or in part by, or based upon, Contractor's performance of the Work, or because of other actions or conduct of the Contractor or those for which Contractor is responsible.

B. *Removal of Debris During Performance of the Work*: During the progress of the Work the Contractor shall keep the Site and other adjacent areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris will conform to applicable Laws and Regulations.

C. *Cleaning*: Prior to Substantial Completion of the Work Contractor shall clean the Site and the Work and make it ready for utilization by Owner. At the completion of the Work Contractor shall remove from the Site and adjacent areas all tools, appliances, construction equipment

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents.

D. *Loading of Structures*: Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent structures or land to stresses or pressures that will endanger them.

5.03 *Subsurface and Physical Conditions*

A. *Reports and Drawings*: The Supplementary Conditions identify:

1. Those reports of explorations and tests of subsurface conditions at or adjacent to the Site that contain Technical Data;

2. Those drawings of existing physical conditions at or adjacent to the Site, including those drawings depicting existing surface or subsurface structures at or adjacent to the Site (except Underground Facilities), that contain Technical Data; and

3. Technical Data contained in such reports and drawings.

B. *Underground Facilities*: Underground Facilities are shown or indicated on the Drawings, pursuant to Paragraph 5.05, and not in the drawings referred to in Paragraph 5.03.A. Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data.

C. *Reliance by Contractor on Technical Data*: Contractor may rely upon the accuracy of the Technical Data expressly identified in the Supplementary Conditions with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then Contractor may rely upon the accuracy of the Technical Data as defined in Paragraph 1.01.A.46.b.

D. *Limitations of Other Data and Documents*: Except for such reliance on Technical Data, Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, and safety precautions and programs incident thereto;

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings;

3. the contents of other Site-related documents made available to Contractor, such as record drawings from other projects at or adjacent to the Site, or Owner's archival documents concerning the Site; or

4. any Contractor interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions, or information.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5.04 *Differing Subsurface or Physical Conditions*

A. *Notice by Contractor*: If Contractor believes that any subsurface or physical condition that is uncovered or revealed at the Site:

1. is of such a nature as to establish that any Technical Data on which Contractor is entitled to rely as provided in Paragraph 5.03 is materially inaccurate;

2. is of such a nature as to require a change in the Drawings or Specifications;

3. differs materially from that shown or indicated in the Contract Documents; or

4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents;

then Contractor shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith (except in an emergency as required by Paragraph 7.15), notify Owner and Engineer in writing about such condition. Contractor shall not further disturb such condition or perform any Work in connection therewith (except with respect to an emergency) until receipt of a written statement permitting Contractor to do so.

B. *Engineer's Review*: After receipt of written notice as required by the preceding paragraph, Engineer will promptly review the subsurface or physical condition in question; determine whether it is necessary for Owner to obtain additional exploration or tests with respect to the condition; conclude whether the condition falls within any one or more of the differing site condition categories in Paragraph 5.04.A; obtain any pertinent cost or schedule information from Contractor; prepare recommendations to Owner regarding the Contractor's resumption of Work in connection with the subsurface or physical condition in question and the need for any change in the Drawings or Specifications; and advise Owner in writing of Engineer's findings, conclusions, and recommendations.

C. *Owner's Statement to Contractor Regarding Site Condition*: After receipt of Engineer's written findings, conclusions, and recommendations, Owner shall issue a written statement to Contractor (with a copy to Engineer) regarding the subsurface or physical condition in question, addressing the resumption of Work in connection with such condition, indicating whether any change in the Drawings or Specifications will be made, and adopting or rejecting Engineer's written findings, conclusions, and recommendations, in whole or in part.

D. *Early Resumption of Work*: If at any time Engineer determines that Work in connection with the subsurface or physical condition in question may resume prior to completion of Engineer's review or Owner's issuance of its statement to Contractor, because the condition in question has been adequately documented, and analyzed on a preliminary basis, then the Engineer may at its discretion instruct Contractor to resume such Work.

E. *Possible Price and Times Adjustments*

1. Contractor shall be entitled to an equitable adjustment in Contract Price or Contract Times, to the extent that the existence of a differing subsurface or physical condition, or any related delay, disruption, or interference, causes an increase or decrease in

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:

a. Such condition must fall within any one or more of the categories described in Paragraph 5.04.A;

b. With respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraph 13.03; and,

c. Contractor's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E.

2. Contractor shall not be entitled to any adjustment in the Contract Price or Contract Times with respect to a subsurface or physical condition if:

a. Contractor knew of the existence of such condition at the time Contractor made a commitment to Owner with respect to Contract Price and Contract Times by the submission of a Bid or becoming bound under a negotiated contract, or otherwise;

b. The existence of such condition reasonably could have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site and contiguous areas expressly required by the Bidding Requirements or Contract Documents to be conducted by or for Contractor prior to Contractor's making such commitment; or

c. Contractor failed to give the written notice required by Paragraph 5.04.A.

3. If Owner and Contractor agree regarding Contractor's entitlement to and the amount or extent of any adjustment in the Contract Price or Contract Times, then any such adjustment will be set forth in a Change Order.

4. Contractor may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Contract Price or Contract Times, no later than 30 days after Owner's issuance of the Owner's written statement to Contractor regarding the subsurface or physical condition in question.

F. *Underground Facilities; Hazardous Environmental Conditions*: Paragraph 5.05 governs rights and responsibilities regarding the presence or location of Underground Facilities. Paragraph 5.06 governs rights and responsibilities regarding Hazardous Environmental Conditions. The provisions of Paragraphs 5.03 and 5.04 are not applicable to the presence or location of Underground Facilities, or to Hazardous Environmental Conditions.

5.05 *Underground Facilities*

A. *Contractor's Responsibilities*: Unless it is otherwise expressly provided in the Supplementary Conditions, the cost of all of the following are included in the Contract Price, and Contractor shall have full responsibility for:

1. reviewing and checking all information and data regarding existing Underground Facilities at the Site;

2. complying with applicable state and local utility damage prevention Laws and Regulations;

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. verifying the actual location of those Underground Facilities shown or indicated in the Contract Documents as being within the area affected by the Work, by exposing such Underground Facilities during the course of construction;

4. coordination of the Work with the owners (including Owner) of such Underground Facilities, during construction; and

5. the safety and protection of all existing Underground Facilities at the Site, and repairing any damage thereto resulting from the Work.

B. *Notice by Contractor*: If Contractor believes that an Underground Facility that is uncovered or revealed at the Site was not shown or indicated on the Drawings, or was not shown or indicated on the Drawings with reasonable accuracy, then Contractor shall, promptly after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith (except in an emergency as required by Paragraph 7.15), notify Owner and Engineer in writing regarding such Underground Facility.

C. *Engineer's Review*: Engineer will:

1. promptly review the Underground Facility and conclude whether such Underground Facility was not shown or indicated on the Drawings, or was not shown or indicated with reasonable accuracy;

2. identify and communicate with the owner of the Underground Facility; prepare recommendations to Owner (and if necessary issue any preliminary instructions to Contractor) regarding the Contractor's resumption of Work in connection with the Underground Facility in question;

3. obtain any pertinent cost or schedule information from Contractor; determine the extent, if any, to which a change is required in the Drawings or Specifications to reflect and document the consequences of the existence or location of the Underground Facility; and

4. advise Owner in writing of Engineer's findings, conclusions, and recommendations.

During such time, Contractor shall be responsible for the safety and protection of such Underground Facility.

D. *Owner's Statement to Contractor Regarding Underground Facility*: After receipt of Engineer's written findings, conclusions, and recommendations, Owner shall issue a written statement to Contractor (with a copy to Engineer) regarding the Underground Facility in question addressing the resumption of Work in connection with such Underground Facility, indicating whether any change in the Drawings or Specifications will be made, and adopting or rejecting Engineer's written findings, conclusions, and recommendations in whole or in part.

E. *Early Resumption of Work*: If at any time Engineer determines that Work in connection with the Underground Facility may resume prior to completion of Engineer's review or Owner's issuance of its statement to Contractor, because the Underground Facility in question and conditions affected by its presence have been adequately documented, and analyzed on a preliminary basis, then the Engineer may at its discretion instruct Contractor to resume such Work.

F. *Possible Price and Times Adjustments*

1. Contractor shall be entitled to an equitable adjustment in the Contract Price or Contract Times, to the extent that any existing Underground Facility at the Site that was not shown

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

or indicated on the Drawings, or was not shown or indicated with reasonable accuracy, or any related delay, disruption, or interference, causes an increase or decrease in Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:

a. With respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraph 13.03;

b. Contractor's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E; and

c. Contractor gave the notice required in Paragraph 5.05.B.

2. If Owner and Contractor agree regarding Contractor's entitlement to and the amount or extent of any adjustment in the Contract Price or Contract Times, then any such adjustment will be set forth in a Change Order.

3. Contractor may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Contract Price or Contract Times, no later than 30 days after Owner's issuance of the Owner's written statement to Contractor regarding the Underground Facility in question.

4. The information and data shown or indicated on the Drawings with respect to existing Underground Facilities at the Site is based on information and data (a) furnished by the owners of such Underground Facilities, or by others, (b) obtained from available records, or (c) gathered in an investigation conducted in accordance with the current edition of ASCE 38, Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data, by the American Society of Civil Engineers. If such information or data is incorrect or incomplete, Contractor's remedies are limited to those set forth in this Paragraph 5.05.F.

5.06 *Hazardous Environmental Conditions at Site*

A. *Reports and Drawings*: The Supplementary Conditions identify:

1. those reports known to Owner relating to Hazardous Environmental Conditions that have been identified at or adjacent to the Site;

2. drawings known to Owner relating to Hazardous Environmental Conditions that have been identified at or adjacent to the Site; and

3. Technical Data contained in such reports and drawings.

B. *Reliance by Contractor on Technical Data Authorized*: Contractor may rely upon the accuracy of the Technical Data expressly identified in the Supplementary Conditions with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then Contractor may rely on the accuracy of the Technical Data as defined in Paragraph 1.01.A.46.b. Except for such reliance on Technical Data, Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences and procedures

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

of construction to be employed by Contractor, and safety precautions and programs incident thereto;

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or

3. any Contractor interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions or information.

C. Contractor shall not be responsible for removing or remediating any Hazardous Environmental Condition encountered, uncovered, or revealed at the Site unless such removal or remediation is expressly identified in the Contract Documents to be within the scope of the Work.

D. Contractor shall be responsible for controlling, containing, and duly removing all Constituents of Concern brought to the Site by Contractor, Subcontractors, Suppliers, or anyone else for whom Contractor is responsible, and for any associated costs; and for the costs of removing and remediating any Hazardous Environmental Condition created by the presence of any such Constituents of Concern.

E. If Contractor encounters, uncovers, or reveals a Hazardous Environmental Condition whose removal or remediation is not expressly identified in the Contract Documents as being within the scope of the Work, or if Contractor or anyone for whom Contractor is responsible creates a Hazardous Environmental Condition, then Contractor shall immediately: (1) secure or otherwise isolate such condition; (2) stop all Work in connection with such condition and in any area affected thereby (except in an emergency as required by Paragraph 7.15); and (3) notify Owner and Engineer (and promptly thereafter confirm such notice in writing). Owner shall promptly consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any. Promptly after consulting with Engineer, Owner shall take such actions as are necessary to permit Owner to timely obtain required permits and provide Contractor the written notice required by Paragraph 5.06.F. If Contractor or anyone for whom Contractor is responsible created the Hazardous Environmental Condition in question, then Owner may remove and remediate the Hazardous Environmental Condition, and impose a set-off against payments to account for the associated costs.

F. Contractor shall not resume Work in connection with such Hazardous Environmental Condition or in any affected area until after Owner has obtained any required permits related thereto, and delivered written notice to Contractor either (1) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work, or (2) specifying any special conditions under which such Work may be resumed safely.

G. If Owner and Contractor cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times, as a result of such Work stoppage, such special conditions under which Work is agreed to be resumed by Contractor, or any costs or expenses incurred in response to the Hazardous Environmental Condition, then within 30 days of Owner's written notice regarding the resumption of Work, Contractor may submit a Change Proposal, or Owner may impose a set-off. Entitlement to any such adjustment is subject to the provisions of Paragraphs 4.05.D, 4.05.E, 11.07, and 11.08.

H. If, after receipt of such written notice, Contractor does not agree to resume such Work based on a reasonable belief it is unsafe, or does not agree to resume such Work under such special

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

conditions, then Owner may order the portion of the Work that is in the area affected by such condition to be deleted from the Work, following the contractual change procedures in Article 11. Owner may have such deleted portion of the Work performed by Owner's own forces or others in accordance with Article 8.

I. To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Contractor, Subcontractors, and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court, arbitration, or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition, provided that such Hazardous Environmental Condition (1) was not shown or indicated in the Drawings, Specifications, or other Contract Documents, identified as Technical Data entitled to limited reliance pursuant to Paragraph 5.06.B, or identified in the Contract Documents to be included within the scope of the Work, and (2) was not created by Contractor or by anyone for whom Contractor is responsible. Nothing in this Paragraph 5.06.I obligates Owner to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

J. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to the failure to control, contain, or remove a Constituent of Concern brought to the Site by Contractor or by anyone for whom Contractor is responsible, or to a Hazardous Environmental Condition created by Contractor or by anyone for whom Contractor is responsible. Nothing in this Paragraph 5.06.J obligates Contractor to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

K. The provisions of Paragraphs 5.03, 5.04, and 5.05 do not apply to the presence of Constituents of Concern or to a Hazardous Environmental Condition uncovered or revealed at the Site.

ARTICLE 6—BONDS AND INSURANCE

6.01 *Performance, Payment, and Other Bonds*

A. Contractor shall furnish a performance bond and a payment bond, each in an amount at least equal to the Contract Price, as security for the faithful performance and payment of Contractor's obligations under the Contract. These bonds must remain in effect until one year after the date when final payment becomes due or until completion of the correction period specified in Paragraph 15.08, whichever is later, except as provided otherwise by Laws or Regulations, the terms of a prescribed bond form, the Supplementary Conditions, or other provisions of the Contract.

B. Contractor shall also furnish such other bonds (if any) as are required by the Supplementary Conditions or other provisions of the Contract.

C. All bonds must be in the form included in the Bidding Documents or otherwise specified by Owner prior to execution of the Contract, except as provided otherwise by Laws or

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Regulations, and must be issued and signed by a surety named in "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Department Circular 570 (as amended and supplemented) by the Bureau of the Fiscal Service, U.S. Department of the Treasury. A bond signed by an agent or attorney-in-fact must be accompanied by a certified copy of that individual's authority to bind the surety. The evidence of authority must show that it is effective on the date the agent or attorney-in-fact signed the accompanying bond.

D. Contractor shall obtain the required bonds from surety companies that are duly licensed or authorized, in the state or jurisdiction in which the Project is located, to issue bonds in the required amounts.

E. If the surety on a bond furnished by Contractor is declared bankrupt or becomes insolvent, or the surety ceases to meet the requirements above, then Contractor shall promptly notify Owner and Engineer in writing and shall, within 20 days after the event giving rise to such notification, provide another bond and surety, both of which must comply with the bond and surety requirements above.

F. If Contractor has failed to obtain a required bond, Owner may exclude the Contractor from the Site and exercise Owner's termination rights under Article 16.

G. Upon request to Owner from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, Owner shall provide a copy of the payment bond to such person or entity.

H. Upon request to Contractor from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, Contractor shall provide a copy of the payment bond to such person or entity.

6.02 *Insurance—General Provisions*

A. Owner and Contractor shall obtain and maintain insurance as required in this article and in the Supplementary Conditions.

B. All insurance required by the Contract to be purchased and maintained by Owner or Contractor shall be obtained from insurance companies that are duly licensed or authorized in the state or jurisdiction in which the Project is located to issue insurance policies for the required limits and coverages. Unless a different standard is indicated in the Supplementary Conditions, all companies that provide insurance policies required under this Contract shall have an A.M. Best rating of A-VII or better.

C. Alternative forms of insurance coverage, including but not limited to self-insurance and "Occupational Accident and Excess Employer's Indemnity Policies," are not sufficient to meet the insurance requirements of this Contract, unless expressly allowed in the Supplementary Conditions.

D. Contractor shall deliver to Owner, with copies to each additional insured identified in the Contract, certificates of insurance and endorsements establishing that Contractor has obtained and is maintaining the policies and coverages required by the Contract. Upon request by Owner or any other insured, Contractor shall also furnish other evidence of such required insurance, including but not limited to copies of policies, documentation of applicable self-insured retentions (if allowed) and deductibles, full disclosure of all relevant exclusions, and evidence of insurance required to be purchased and maintained by

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Subcontractors or Suppliers. In any documentation furnished under this provision, Contractor, Subcontractors, and Suppliers may block out (redact) (1) any confidential premium or pricing information and (2) any wording specific to a project or jurisdiction other than those applicable to this Contract.

E. Owner shall deliver to Contractor, with copies to each additional insured identified in the Contract, certificates of insurance and endorsements establishing that Owner has obtained and is maintaining the policies and coverages required of Owner by the Contract (if any). Upon request by Contractor or any other insured, Owner shall also provide other evidence of such required insurance (if any), including but not limited to copies of policies, documentation of applicable self-insured retentions (if allowed) and deductibles, and full disclosure of all relevant exclusions. In any documentation furnished under this provision, Owner may block out (redact) (1) any confidential premium or pricing information and (2) any wording specific to a project or jurisdiction other than those relevant to this Contract.

F. Failure of Owner or Contractor to demand such certificates or other evidence of the other party's full compliance with these insurance requirements, or failure of Owner or Contractor to identify a deficiency in compliance from the evidence provided, will not be construed as a waiver of the other party's obligation to obtain and maintain such insurance.

G. In addition to the liability insurance required to be provided by Contractor, the Owner, at Owner's option, may purchase and maintain Owner's own liability insurance. Owner's liability policies, if any, operate separately and independently from policies required to be provided by Contractor, and Contractor cannot rely upon Owner's liability policies for any of Contractor's obligations to the Owner, Engineer, or third parties.

H. Contractor shall require:

1. Subcontractors to purchase and maintain worker's compensation, commercial general liability, and other insurance that is appropriate for their participation in the Project, and to name as additional insureds Owner and Engineer (and any other individuals or entities identified in the Supplementary Conditions as additional insureds on Contractor's liability policies) on each Subcontractor's commercial general liability insurance policy; and

2. Suppliers to purchase and maintain insurance that is appropriate for their participation in the Project.

I. If either party does not purchase or maintain the insurance required of such party by the Contract, such party shall notify the other party in writing of such failure to purchase prior to the start of the Work, or of such failure to maintain prior to any change in the required coverage.

J. If Contractor has failed to obtain and maintain required insurance, Contractor's entitlement to enter or remain at the Site will end immediately, and Owner may impose an appropriate set-off against payment for any associated costs (including but not limited to the cost of purchasing necessary insurance coverage), and exercise Owner's termination rights under Article 16.

K. Without prejudice to any other right or remedy, if a party has failed to obtain required insurance, the other party may elect (but is in no way obligated) to obtain equivalent insurance to protect such other party's interests at the expense of the party who was required to provide such coverage, and the Contract Price will be adjusted accordingly.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

L. Owner does not represent that insurance coverage and limits established in this Contract necessarily will be adequate to protect Contractor or Contractor's interests. Contractor is responsible for determining whether such coverage and limits are adequate to protect its interests, and for obtaining and maintaining any additional insurance that Contractor deems necessary.

M. The insurance and insurance limits required herein will not be deemed as a limitation on Contractor's liability, or that of its Subcontractors or Suppliers, under the indemnities granted to Owner and other individuals and entities in the Contract or otherwise.

N. All the policies of insurance required to be purchased and maintained under this Contract will contain a provision or endorsement that the coverage afforded will not be canceled, or renewal refused, until at least 10 days prior written notice has been given to the purchasing policyholder. Within three days of receipt of any such written notice, the purchasing policyholder shall provide a copy of the notice to each other insured and Engineer.

6.03 *Contractor's Insurance*

A. *Required Insurance*: Contractor shall purchase and maintain Worker's Compensation, Commercial General Liability, and other insurance pursuant to the specific requirements of the Supplementary Conditions.

B. *General Provisions*: The policies of insurance required by this Paragraph 6.03 as supplemented must:

1. include at least the specific coverages required;

2. be written for not less than the limits provided, or those required by Laws or Regulations, whichever is greater;

3. remain in effect at least until the Work is complete (as set forth in Paragraph 15.06.D), and longer if expressly required elsewhere in this Contract, and at all times thereafter when Contractor may be correcting, removing, or replacing defective Work as a warranty or correction obligation, or otherwise, or returning to the Site to conduct other tasks arising from the Contract;

4. apply with respect to the performance of the Work, whether such performance is by Contractor, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable; and

5. include all necessary endorsements to support the stated requirements.

C. *Additional Insureds*: The Contractor's commercial general liability, automobile liability, employer's liability, umbrella or excess, pollution liability, and unmanned aerial vehicle liability policies, if required by this Contract, must:

1. include and list as additional insureds Owner and Engineer, and any individuals or entities identified as additional insureds in the Supplementary Conditions;

2. include coverage for the respective officers, directors, members, partners, employees, and consultants of all such additional insureds;

3. afford primary coverage to these additional insureds for all claims covered thereby (including as applicable those arising from both ongoing and completed operations);

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

4. not seek contribution from insurance maintained by the additional insured; and

5. as to commercial general liability insurance, apply to additional insureds with respect to liability caused in whole or in part by Contractor's acts or omissions, or the acts and omissions of those working on Contractor's behalf, in the performance of Contractor's operations.

6.04 *Builder's Risk and Other Property Insurance*

A. *Builder's Risk*: Unless otherwise provided in the Supplementary Conditions, Contractor shall purchase and maintain builder's risk insurance upon the Work on a completed value basis, in the amount of the Work's full insurable replacement cost (subject to such deductible amounts as may be provided in the Supplementary Conditions or required by Laws and Regulations). The specific requirements applicable to the builder's risk insurance are set forth in the Supplementary Conditions.

B. *Property Insurance for Facilities of Owner Where Work Will Occur*: Owner is responsible for obtaining and maintaining property insurance covering each existing structure, building, or facility in which any part of the Work will occur, or to which any part of the Work will attach or be adjoined. Such property insurance will be written on a special perils (all-risk) form, on a replacement cost basis, providing coverage consistent with that required for the builder's risk insurance, and will be maintained until the Work is complete, as set forth in Paragraph 15.06.D.

C. *Property Insurance for Substantially Complete Facilities*: Promptly after Substantial Completion, and before actual occupancy or use of the substantially completed Work, Owner will obtain property insurance for such substantially completed Work, and maintain such property insurance at least until the Work is complete, as set forth in Paragraph 15.06.D. Such property insurance will be written on a special perils (all-risk) form, on a replacement cost basis, and provide coverage consistent with that required for the builder's risk insurance. The builder's risk insurance may terminate upon written confirmation of Owner's procurement of such property insurance.

D. *Partial Occupancy or Use by Owner*: If Owner will occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work, as provided in Paragraph 15.04, then Owner (directly, if it is the purchaser of the builder's risk policy, or through Contractor) will provide advance notice of such occupancy or use to the builder's risk insurer, and obtain an endorsement consenting to the continuation of coverage prior to commencing such partial occupancy or use.

E. *Insurance of Other Property; Additional Insurance*: If the express insurance provisions of the Contract do not require or address the insurance of a property item or interest, then the entity or individual owning such property item will be responsible for insuring it. If Contractor elects to obtain other special insurance to be included in or supplement the builder's risk or property insurance policies provided under this Paragraph 6.04, it may do so at Contractor's expense.

6.05 *Property Losses; Subrogation*

A. The builder's risk insurance policy purchased and maintained in accordance with Paragraph 6.04 (or an installation floater policy if authorized by the Supplementary Conditions), will contain provisions to the effect that in the event of payment of any loss or damage the insurer will have no rights of recovery against any insureds thereunder, or against

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Engineer or its consultants, or their officers, directors, members, partners, employees, agents, consultants, or subcontractors.

1. Owner and Contractor waive all rights against each other and the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, or resulting from any of the perils, risks, or causes of loss covered by such policies and any other property insurance applicable to the Work; and, in addition, waive all such rights against Engineer, its consultants, all individuals or entities identified in the Supplementary Conditions as builder's risk or installation floater insureds, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, under such policies for losses and damages so caused.
2. None of the above waivers extends to the rights that any party making such waiver may have to the proceeds of insurance held by Owner or Contractor as trustee or fiduciary, or otherwise payable under any policy so issued.

B. Any property insurance policy maintained by Owner covering any loss, damage, or consequential loss to Owner's existing structures, buildings, or facilities in which any part of the Work will occur, or to which any part of the Work will attach or adjoin; to adjacent structures, buildings, or facilities of Owner; or to part or all of the completed or substantially completed Work, during partial occupancy or use pursuant to Paragraph 15.04, after Substantial Completion pursuant to Paragraph 15.03, or after final payment pursuant to Paragraph 15.06, will contain provisions to the effect that in the event of payment of any loss or damage the insurer will have no rights of recovery against any insureds thereunder, or against Contractor, Subcontractors, or Engineer, or the officers, directors, members, partners, employees, agents, consultants, or subcontractors of each and any of them, and that the insured is allowed to waive the insurer's rights of subrogation in a written contract executed prior to the loss, damage, or consequential loss.

1. Owner waives all rights against Contractor, Subcontractors, and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them, for all losses and damages caused by, arising out of, or resulting from fire or any of the perils, risks, or causes of loss covered by such policies.

C. The waivers in this Paragraph 6.05 include the waiver of rights due to business interruption, loss of use, or other consequential loss extending beyond direct physical loss or damage to Owner's property or the Work caused by, arising out of, or resulting from fire or other insured peril, risk, or cause of loss.

D. Contractor shall be responsible for assuring that each Subcontract contains provisions whereby the Subcontractor waives all rights against Owner, Contractor, all individuals or entities identified in the Supplementary Conditions as insureds, the Engineer and its consultants, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, relating to, or resulting from fire or other peril, risk, or cause of loss covered by builder's risk insurance, installation floater, and any other property insurance applicable to the Work.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.06 *Receipt and Application of Property Insurance Proceeds*

A. Any insured loss under the builder's risk and other policies of property insurance required by Paragraph 6.04 will be adjusted and settled with the named insured that purchased the policy. Such named insured shall act as fiduciary for the other insureds, and give notice to such other insureds that adjustment and settlement of a claim is in progress. Any other insured may state its position regarding a claim for insured loss in writing within 15 days after notice of such claim.

B. Proceeds for such insured losses may be made payable by the insurer either jointly to multiple insureds, or to the named insured that purchased the policy in its own right and as fiduciary for other insureds, subject to the requirements of any applicable mortgage clause. A named insured receiving insurance proceeds under the builder's risk and other policies of insurance required by Paragraph 6.04 shall maintain such proceeds in a segregated account, and distribute such proceeds in accordance with such agreement as the parties in interest may reach, or as otherwise required under the dispute resolution provisions of this Contract or applicable Laws and Regulations.

C. If no other special agreement is reached, Contractor shall repair or replace the damaged Work, using allocated insurance proceeds.

ARTICLE 7—CONTRACTOR'S RESPONSIBILITIES

7.01 *Contractor's Means and Methods of Construction*

A. Contractor shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction.

B. If the Contract Documents note, or Contractor determines, that professional engineering or other design services are needed to carry out Contractor's responsibilities for construction means, methods, techniques, sequences, and procedures, or for Site safety, then Contractor shall cause such services to be provided by a properly licensed design professional, at Contractor's expense. Such services are not Owner-delegated professional design services under this Contract, and neither Owner nor Engineer has any responsibility with respect to (1) Contractor's determination of the need for such services, (2) the qualifications or licensing of the design professionals retained or employed by Contractor, (3) the performance of such services, or (4) any errors, omissions, or defects in such services.

7.02 *Supervision and Superintendence*

A. Contractor shall supervise, inspect, and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents.

B. At all times during the progress of the Work, Contractor shall assign a competent resident superintendent who will not be replaced without written notice to Owner and Engineer except under extraordinary circumstances.

7.03 *Labor; Working Hours*

A. Contractor shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. Contractor shall maintain good discipline and order at the Site.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. Contractor shall be fully responsible to Owner and Engineer for all acts and omissions of Contractor's employees; of Suppliers and Subcontractors, and their employees; and of any other individuals or entities performing or furnishing any of the Work, just as Contractor is responsible for Contractor's own acts and omissions.

C. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site will be performed during regular working hours, Monday through Friday. Contractor will not perform Work on a Saturday, Sunday, or any legal holiday. Contractor may perform Work outside regular working hours or on Saturdays, Sundays, or legal holidays only with Owner's written consent, which will not be unreasonably withheld.

7.04 *Services, Materials, and Equipment*

A. Unless otherwise specified in the Contract Documents, Contractor shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start up, and completion of the Work, whether or not such items are specifically called for in the Contract Documents.

B. All materials and equipment incorporated into the Work must be new and of good quality, except as otherwise provided in the Contract Documents. All special warranties and guarantees required by the Specifications will expressly run to the benefit of Owner. If required by Engineer, Contractor shall furnish satisfactory evidence (including reports of required tests) as to the source, kind, and quality of materials and equipment.

C. All materials and equipment must be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with instructions of the applicable Supplier, except as otherwise may be provided in the Contract Documents.

7.05 *"Or Equals"*

A. *Contractor's Request; Governing Criteria*: Whenever an item of equipment or material is specified or described in the Contract Documents by using the names of one or more proprietary items or specific Suppliers, the Contract Price has been based upon Contractor furnishing such item as specified. The specification or description of such an item is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or equal" item is permitted, Contractor may request that Engineer authorize the use of other items of equipment or material, or items from other proposed Suppliers, under the circumstances described below.

1. If Engineer in its sole discretion determines that an item of equipment or material proposed by Contractor is functionally equal to that named and sufficiently similar so that no change in related Work will be required, Engineer will deem it an "or equal" item. For the purposes of this paragraph, a proposed item of equipment or material will be considered functionally equal to an item so named if:

a. in the exercise of reasonable judgment Engineer determines that the proposed item:

1) is at least equal in materials of construction, quality, durability, appearance, strength, and design characteristics;

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2) will reliably perform at least equally well the function and achieve the results imposed by the design concept of the completed Project as a functioning whole;

3) has a proven record of performance and availability of responsive service; and

4) is not objectionable to Owner.

b. Contractor certifies that, if the proposed item is approved and incorporated into the Work:

1) there will be no increase in cost to the Owner or increase in Contract Times; and

2) the item will conform substantially to the detailed requirements of the item named in the Contract Documents.

B. *Contractor's Expense*: Contractor shall provide all data in support of any proposed "or equal" item at Contractor's expense.

C. *Engineer's Evaluation and Determination*: Engineer will be allowed a reasonable time to evaluate each "or-equal" request. Engineer may require Contractor to furnish additional data about the proposed "or-equal" item. Engineer will be the sole judge of acceptability. No "or-equal" item will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer determines that the proposed item is an "or-equal," which will be evidenced by an approved Shop Drawing or other written communication. Engineer will advise Contractor in writing of any negative determination.

D. *Effect of Engineer's Determination*: Neither approval nor denial of an "or-equal" request will result in any change in Contract Price. The Engineer's denial of an "or-equal" request will be final and binding, and may not be reversed through an appeal under any provision of the Contract.

E. *Treatment as a Substitution Request*: If Engineer determines that an item of equipment or material proposed by Contractor does not qualify as an "or-equal" item, Contractor may request that Engineer consider the item a proposed substitute pursuant to Paragraph 7.06.

7.06 *Substitutes*

A. *Contractor's Request; Governing Criteria*: Unless the specification or description of an item of equipment or material required to be furnished under the Contract Documents contains or is followed by words reading that no substitution is permitted, Contractor may request that Engineer authorize the use of other items of equipment or material under the circumstances described below. To the extent possible such requests must be made before commencement of related construction at the Site.

1. Contractor shall submit sufficient information as provided below to allow Engineer to determine if the item of material or equipment proposed is functionally equivalent to that named and an acceptable substitute therefor. Engineer will not accept requests for review of proposed substitute items of equipment or material from anyone other than Contractor.

2. The requirements for review by Engineer will be as set forth in Paragraph 7.06.B, as supplemented by the Specifications, and as Engineer may decide is appropriate under the circumstances.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Contractor shall make written application to Engineer for review of a proposed substitute item of equipment or material that Contractor seeks to furnish or use. The application:

    a. will certify that the proposed substitute item will:

        1) perform adequately the functions and achieve the results called for by the general design;

        2) be similar in substance to the item specified; and

        3) be suited to the same use as the item specified.

    b. will state:

        1) the extent, if any, to which the use of the proposed substitute item will necessitate a change in Contract Times;

        2) whether use of the proposed substitute item in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with Owner for other work on the Project) to adapt the design to the proposed substitute item; and

        3) whether incorporation or use of the proposed substitute item in connection with the Work is subject to payment of any license fee or royalty.

    c. will identify:

        1) all variations of the proposed substitute item from the item specified; and

        2) available engineering, sales, maintenance, repair, and replacement services.

    d. will contain an itemized estimate of all costs or credits that will result directly or indirectly from use of such substitute item, including but not limited to changes in Contract Price, shared savings, costs of redesign, and claims of other contractors affected by any resulting change.

B. *Engineer's Evaluation and Determination*: Engineer will be allowed a reasonable time to evaluate each substitute request, and to obtain comments and direction from Owner. Engineer may require Contractor to furnish additional data about the proposed substitute item. Engineer will be the sole judge of acceptability. No substitute will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer determines that the proposed item is an acceptable substitute. Engineer's determination will be evidenced by a Field Order or a proposed Change Order accounting for the substitution itself and all related impacts, including changes in Contract Price or Contract Times. Engineer will advise Contractor in writing of any negative determination.

C. *Special Guarantee*: Owner may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

D. *Reimbursement of Engineer's Cost*: Engineer will record Engineer's costs in evaluating a substitute proposed or submitted by Contractor. Whether or not Engineer approves a substitute so proposed or submitted by Contractor, Contractor shall reimburse Owner for the reasonable charges of Engineer for evaluating each such proposed substitute. Contractor shall also reimburse Owner for the reasonable charges of Engineer for making changes in the Contract Documents (or in the provisions of any other direct contract with Owner) resulting from the acceptance of each proposed substitute.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. *Contractor's Expense*: Contractor shall provide all data in support of any proposed substitute at Contractor's expense.

F. *Effect of Engineer's Determination*: If Engineer approves the substitution request, Contractor shall execute the proposed Change Order and proceed with the substitution. The Engineer's denial of a substitution request will be final and binding, and may not be reversed through an appeal under any provision of the Contract. Contractor may challenge the scope of reimbursement costs imposed under Paragraph 7.06.D, by timely submittal of a Change Proposal.

7.07 *Concerning Subcontractors and Suppliers*

A. Contractor may retain Subcontractors and Suppliers for the performance of parts of the Work. Such Subcontractors and Suppliers must be acceptable to Owner. The Contractor's retention of a Subcontractor or Supplier for the performance of parts of the Work will not relieve Contractor's obligation to Owner to perform and complete the Work in accordance with the Contract Documents.

B. Contractor shall retain specific Subcontractors and Suppliers for the performance of designated parts of the Work if required by the Contract to do so.

C. Subsequent to the submittal of Contractor's Bid or final negotiation of the terms of the Contract, Owner may not require Contractor to retain any Subcontractor or Supplier to furnish or perform any of the Work against which Contractor has reasonable objection.

D. Prior to entry into any binding subcontract or purchase order, Contractor shall submit to Owner the identity of the proposed Subcontractor or Supplier (unless Owner has already deemed such proposed Subcontractor or Supplier acceptable during the bidding process or otherwise). Such proposed Subcontractor or Supplier shall be deemed acceptable to Owner unless Owner raises a substantive, reasonable objection within 5 days.

E. Owner may require the replacement of any Subcontractor or Supplier. Owner also may require Contractor to retain specific replacements; provided, however, that Owner may not require a replacement to which Contractor has a reasonable objection. If Contractor has submitted the identity of certain Subcontractors or Suppliers for acceptance by Owner, and Owner has accepted it (either in writing or by failing to make written objection thereto), then Owner may subsequently revoke the acceptance of any such Subcontractor or Supplier so identified solely on the basis of substantive, reasonable objection after due investigation. Contractor shall submit an acceptable replacement for the rejected Subcontractor or Supplier.

F. If Owner requires the replacement of any Subcontractor or Supplier retained by Contractor to perform any part of the Work, then Contractor shall be entitled to an adjustment in Contract Price or Contract Times, with respect to the replacement; and Contractor shall initiate a Change Proposal for such adjustment within 30 days of Owner's requirement of replacement.

G. No acceptance by Owner of any such Subcontractor or Supplier, whether initially or as a replacement, will constitute a waiver of the right of Owner to the completion of the Work in accordance with the Contract Documents.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

H. On a monthly basis, Contractor shall submit to Engineer a complete list of all Subcontractors and Suppliers having a direct contract with Contractor, and of all other Subcontractors and Suppliers known to Contractor at the time of submittal.

I. Contractor shall be solely responsible for scheduling and coordinating the work of Subcontractors and Suppliers.

J. The divisions and sections of the Specifications and the identifications of any Drawings do not control Contractor in dividing the Work among Subcontractors or Suppliers, or in delineating the Work to be performed by any specific trade.

K. All Work performed for Contractor by a Subcontractor or Supplier must be pursuant to an appropriate contractual agreement that specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract for the benefit of Owner and Engineer.

L. Owner may furnish to any Subcontractor or Supplier, to the extent practicable, information about amounts paid to Contractor for Work performed for Contractor by the Subcontractor or Supplier.

M. Contractor shall restrict all Subcontractors and Suppliers from communicating with Engineer or Owner, except through Contractor or in case of an emergency, or as otherwise expressly allowed in this Contract.

7.08 *Patent Fees and Royalties*

A. Contractor shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others. If an invention, design, process, product, or device is specified in the Contract Documents for use in the performance of the Work and if, to the actual knowledge of Owner or Engineer, its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights will be disclosed in the Contract Documents.

B. To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Contractor, and its officers, directors, members, partners, employees, agents, consultants, and subcontractors, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device specified in the Contract Documents, but not identified as being subject to payment of any license fee or royalty to others required by patent rights or copyrights.

C. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

7.09 *Permits*

A. Unless otherwise provided in the Contract Documents, Contractor shall obtain and pay for all construction permits, licenses, and certificates of occupancy. Owner shall assist Contractor, when necessary, in obtaining such permits and licenses. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work which are applicable at the time of the submission of Contractor's Bid (or when Contractor became bound under a negotiated contract). Owner shall pay all charges of utility owners for connections for providing permanent service to the Work.

7.10 *Taxes*

A. Contractor shall pay all sales, consumer, use, and other similar taxes required to be paid by Contractor in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work.

7.11 *Laws and Regulations*

A. Contractor shall give all notices required by and shall comply with all Laws and Regulations applicable to the performance of the Work. Neither Owner nor Engineer shall be responsible for monitoring Contractor's compliance with any Laws or Regulations.

B. If Contractor performs any Work or takes any other action knowing or having reason to know that it is contrary to Laws or Regulations, Contractor shall bear all resulting costs and losses, and shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such Work or other action. It is not Contractor's responsibility to make certain that the Work described in the Contract Documents is in accordance with Laws and Regulations, but this does not relieve Contractor of its obligations under Paragraph 3.03.

C. Owner or Contractor may give written notice to the other party of any changes after the submission of Contractor's Bid (or after the date when Contractor became bound under a negotiated contract) in Laws or Regulations having an effect on the cost or time of performance of the Work, including but not limited to changes in Laws or Regulations having an effect on procuring permits and on sales, use, value-added, consumption, and other similar taxes. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times resulting from such changes, then within 30 days of such written notice Contractor may submit a Change Proposal, or Owner may initiate a Claim.

7.12 *Record Documents*

A. Contractor shall maintain in a safe place at the Site one printed record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, written interpretations and clarifications, and approved Shop Drawings. Contractor shall keep such record documents in good order and annotate them to show changes made during construction. These record documents, together with all approved Samples, will be available to Engineer for reference. Upon completion of the Work, Contractor shall deliver these record documents to Engineer.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

7.13 *Safety and Protection*

A. Contractor shall be solely responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Such responsibility does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with applicable safety Laws and Regulations.

B. Contractor shall designate a qualified and experienced safety representative whose duties and responsibilities are the prevention of Work-related accidents and the maintenance and supervision of safety precautions and programs.

C. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

1. all persons on the Site or who may be affected by the Work;

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, other work in progress, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

D. All damage, injury, or loss to any property referred to in Paragraph 7.13.C.2 or 7.13.C.3 caused, directly or indirectly, in whole or in part, by Contractor, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, shall be remedied by Contractor at its expense (except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of Owner or Engineer or anyone employed by any of them, or anyone for whose acts any of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of Contractor or any Subcontractor, Supplier, or other individual or entity directly or indirectly employed by any of them).

E. Contractor shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary safeguards for such safety and protection.

F. Contractor shall notify Owner; the owners of adjacent property; the owners of Underground Facilities and other utilities (if the identity of such owners is known to Contractor); and other contractors and utility owners performing work at or adjacent to the Site, in writing, when Contractor knows that prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property or work in progress.

G. Contractor shall comply with the applicable requirements of Owner's safety programs, if any. Any Owner's safety programs that are applicable to the Work are identified or included in the Supplementary Conditions or Specifications.

H. Contractor shall inform Owner and Engineer of the specific requirements of Contractor's safety program with which Owner's and Engineer's employees and representatives must comply while at the Site.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

I. Contractor's duties and responsibilities for safety and protection will continue until all the Work is completed, Engineer has issued a written notice to Owner and Contractor in accordance with Paragraph 15.06.C that the Work is acceptable, and Contractor has left the Site (except as otherwise expressly provided in connection with Substantial Completion).

J. Contractor's duties and responsibilities for safety and protection will resume whenever Contractor or any Subcontractor or Supplier returns to the Site to fulfill warranty or correction obligations, or to conduct other tasks arising from the Contract Documents.

7.14 *Hazard Communication Programs*

A. Contractor shall be responsible for coordinating any exchange of safety data sheets (formerly known as material safety data sheets) or other hazard communication information required to be made available to or exchanged between or among employers at the Site in accordance with Laws or Regulations.

7.15 *Emergencies*

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, Contractor is obligated to act to prevent damage, injury, or loss. Contractor shall give Engineer prompt written notice if Contractor believes that any significant changes in the Work or variations from the Contract Documents have been caused by an emergency, or are required as a result of Contractor's response to an emergency. If Engineer determines that a change in the Contract Documents is required because of an emergency or Contractor's response, a Work Change Directive or Change Order will be issued.

7.16 *Submittals*

A. *Shop Drawing and Sample Requirements*

1. Before submitting a Shop Drawing or Sample, Contractor shall:

a. review and coordinate the Shop Drawing or Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents;

b. determine and verify:

1) all field measurements, quantities, dimensions, specified performance and design criteria, installation requirements, materials, catalog numbers, and similar information with respect to the Submittal;

2) the suitability of all materials and equipment offered with respect to the indicated application, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work; and

3) all information relative to Contractor's responsibilities for means, methods, techniques, sequences, and procedures of construction, and safety precautions and programs incident thereto;

c. confirm that the Submittal is complete with respect to all related data included in the Submittal.

2. Each Shop Drawing or Sample must bear a stamp or specific written certification that Contractor has satisfied Contractor's obligations under the Contract Documents with respect to Contractor's review of that Submittal, and that Contractor approves the Submittal.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. With each Shop Drawing or Sample, Contractor shall give Engineer specific written notice of any variations that the Submittal may have from the requirements of the Contract Documents. This notice must be set forth in a written communication separate from the Submittal; and, in addition, in the case of a Shop Drawing by a specific notation made on the Shop Drawing itself.

B. *Submittal Procedures for Shop Drawings and Samples*: Contractor shall label and submit Shop Drawings and Samples to Engineer for review and approval in accordance with the accepted Schedule of Submittals.

1. *Shop Drawings*

a. Contractor shall submit the number of copies required in the Specifications.

b. Data shown on the Shop Drawings must be complete with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to show Engineer the services, materials, and equipment Contractor proposes to provide, and to enable Engineer to review the information for the limited purposes required by Paragraph 7.16.C.

2. *Samples*

a. Contractor shall submit the number of Samples required in the Specifications.

b. Contractor shall clearly identify each Sample as to material, Supplier, pertinent data such as catalog numbers, the use for which intended and other data as Engineer may require to enable Engineer to review the Submittal for the limited purposes required by Paragraph 7.16.C.

3. Where a Shop Drawing or Sample is required by the Contract Documents or the Schedule of Submittals, any related Work performed prior to Engineer's review and approval of the pertinent submittal will be at the sole expense and responsibility of Contractor.

C. *Engineer's Review of Shop Drawings and Samples*

1. Engineer will provide timely review of Shop Drawings and Samples in accordance with the accepted Schedule of Submittals. Engineer's review and approval will be only to determine if the items covered by the Submittals will, after installation or incorporation in the Work, comply with the requirements of the Contract Documents, and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. Engineer's review and approval will not extend to means, methods, techniques, sequences, or procedures of construction, or to safety precautions or programs incident thereto.

3. Engineer's review and approval of a separate item as such will not indicate approval of the assembly in which the item functions.

4. Engineer's review and approval of a Shop Drawing or Sample will not relieve Contractor from responsibility for any variation from the requirements of the Contract Documents unless Contractor has complied with the requirements of Paragraph 7.16.A.3 and Engineer has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample. Engineer will

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

document any such approved variation from the requirements of the Contract Documents in a Field Order or other appropriate Contract modification.

5. Engineer's review and approval of a Shop Drawing or Sample will not relieve Contractor from responsibility for complying with the requirements of Paragraphs 7.16.A and B.

6. Engineer's review and approval of a Shop Drawing or Sample, or of a variation from the requirements of the Contract Documents, will not, under any circumstances, change the Contract Times or Contract Price, unless such changes are included in a Change Order.

7. Neither Engineer's receipt, review, acceptance, or approval of a Shop Drawing or Sample will result in such item becoming a Contract Document.

8. Contractor shall perform the Work in compliance with the requirements and commitments set forth in approved Shop Drawings and Samples, subject to the provisions of Paragraph 7.16.C.4.

D. *Resubmittal Procedures for Shop Drawings and Samples*

1. Contractor shall make corrections required by Engineer and shall return the required number of corrected copies of Shop Drawings and submit, as required, new Samples for review and approval. Contractor shall direct specific attention in writing to revisions other than the corrections called for by Engineer on previous Submittals.

2. Contractor shall furnish required Shop Drawing and Sample submittals with sufficient information and accuracy to obtain required approval of an item with no more than two resubmittals. Engineer will record Engineer's time for reviewing a third or subsequent resubmittal of a Shop Drawing or Sample, and Contractor shall be responsible for Engineer's charges to Owner for such time. Owner may impose a set-off against payments due Contractor to secure reimbursement for such charges.

3. If Contractor requests a change of a previously approved Shop Drawing or Sample, Contractor shall be responsible for Engineer's charges to Owner for its review time, and Owner may impose a set-off against payments due Contractor to secure reimbursement for such charges, unless the need for such change is beyond the control of Contractor.

E. *Submittals Other than Shop Drawings, Samples, and Owner-Delegated Designs*

1. The following provisions apply to all Submittals other than Shop Drawings, Samples, and Owner-delegated designs:

   a. Contractor shall submit all such Submittals to the Engineer in accordance with the Schedule of Submittals and pursuant to the applicable terms of the Contract Documents.

   b. Engineer will provide timely review of all such Submittals in accordance with the Schedule of Submittals and return such Submittals with a notation of either Accepted or Not Accepted. Any such Submittal that is not returned within the time established in the Schedule of Submittals will be deemed accepted.

   c. Engineer's review will be only to determine if the Submittal is acceptable under the requirements of the Contract Documents as to general form and content of the Submittal.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

d. If any such Submittal is not accepted, Contractor shall confer with Engineer regarding the reason for the non-acceptance, and resubmit an acceptable document.

2. Procedures for the submittal and acceptance of the Progress Schedule, the Schedule of Submittals, and the Schedule of Values are set forth in Paragraphs 2.03. 2.04, and 2.05.

F. Owner-delegated Designs: Submittals pursuant to Owner-delegated designs are governed by the provisions of Paragraph 7.19.

7.17 *Contractor's General Warranty and Guarantee*

A. Contractor warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Engineer is entitled to rely on Contractor's warranty and guarantee.

B. Owner's rights under this warranty and guarantee are in addition to, and are not limited by, Owner's rights under the correction period provisions of Paragraph 15.08. The time in which Owner may enforce its warranty and guarantee rights under this Paragraph 7.17 is limited only by applicable Laws and Regulations restricting actions to enforce such rights; provided, however, that after the end of the correction period under Paragraph 15.08:

1. Owner shall give Contractor written notice of any defective Work within 60 days of the discovery that such Work is defective; and

2. Such notice will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B, such that any related Claim must be brought within 30 days of the notice.

C. Contractor's warranty and guarantee hereunder excludes defects or damage caused by:

1. abuse, or improper modification, maintenance, or operation, by persons other than Contractor, Subcontractors, Suppliers, or any other individual or entity for whom Contractor is responsible; or

2. normal wear and tear under normal usage.

D. Contractor's obligation to perform and complete the Work in accordance with the Contract Documents is absolute. None of the following will constitute an acceptance of Work that is not in accordance with the Contract Documents, a release of Contractor's obligation to perform the Work in accordance with the Contract Documents, or a release of Owner's warranty and guarantee rights under this Paragraph 7.17:

1. Observations by Engineer;

2. Recommendation by Engineer or payment by Owner of any progress or final payment;

3. The issuance of a certificate of Substantial Completion by Engineer or any payment related thereto by Owner;

4. Use or occupancy of the Work or any part thereof by Owner;

5. Any review and approval of a Shop Drawing or Sample submittal;

6. The issuance of a notice of acceptability by Engineer;

7. The end of the correction period established in Paragraph 15.08;

8. Any inspection, test, or approval by others; or

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

9. Any correction of defective Work by Owner.

E. If the Contract requires the Contractor to accept the assignment of a contract entered into by Owner, then the specific warranties, guarantees, and correction obligations contained in the assigned contract will govern with respect to Contractor's performance obligations to Owner for the Work described in the assigned contract.

7.18 *Indemnification*

A. To the fullest extent permitted by Laws and Regulations, and in addition to any other obligations of Contractor under the Contract or otherwise, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them, from losses, damages, costs, and judgments (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) arising from third-party claims or actions relating to or resulting from the performance or furnishing of the Work, provided that any such claim, action, loss, cost, judgment or damage is attributable to bodily injury, sickness, disease, or death, or to damage to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, but only to the extent caused by any negligent act or omission of Contractor, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable.

B. In any and all claims against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, by any employee (or the survivor or personal representative of such employee) of Contractor, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under Paragraph 7.18.A will not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for Contractor or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

7.19 *Delegation of Professional Design Services*

A. Owner may require Contractor to provide professional design services for a portion of the Work by express delegation in the Contract Documents. Such delegation will specify the performance and design criteria that such services must satisfy, and the Submittals that Contractor must furnish to Engineer with respect to the Owner-delegated design.

B. Contractor shall cause such Owner-delegated professional design services to be provided pursuant to the professional standard of care by a properly licensed design professional, whose signature and seal must appear on all drawings, calculations, specifications, certifications, and Submittals prepared by such design professional. Such design professional must issue all certifications of design required by Laws and Regulations.

C. If a Shop Drawing or other Submittal related to the Owner-delegated design is prepared by Contractor, a Subcontractor, or others for submittal to Engineer, then such Shop Drawing or other Submittal must bear the written approval of Contractor's design professional when submitted by Contractor to Engineer.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy, and completeness of the services, certifications, and approvals performed or provided by the design professionals retained or employed by Contractor under an Owner-delegated design, subject to the professional standard of care and the performance and design criteria stated in the Contract Documents.

E. Pursuant to this Paragraph 7.19, Engineer's review, approval, and other determinations regarding design drawings, calculations, specifications, certifications, and other Submittals furnished by Contractor pursuant to an Owner-delegated design will be only for the following limited purposes:

1. Checking for conformance with the requirements of this Paragraph 7.19;

2. Confirming that Contractor (through its design professionals) has used the performance and design criteria specified in the Contract Documents; and

3. Establishing that the design furnished by Contractor is consistent with the design concept expressed in the Contract Documents.

F. Contractor shall not be responsible for the adequacy of performance or design criteria specified by Owner or Engineer.

G. Contractor is not required to provide professional services in violation of applicable Laws and Regulations.

ARTICLE 8—OTHER WORK AT THE SITE

8.01 *Other Work*

A. In addition to and apart from the Work under the Contract Documents, the Owner may perform other work at or adjacent to the Site. Such other work may be performed by Owner's employees, or through contracts between the Owner and third parties. Owner may also arrange to have third-party utility owners perform work on their utilities and facilities at or adjacent to the Site.

B. If Owner performs other work at or adjacent to the Site with Owner's employees, or through contracts for such other work, then Owner shall give Contractor written notice thereof prior to starting any such other work. If Owner has advance information regarding the start of any third-party utility work that Owner has arranged to take place at or adjacent to the Site, Owner shall provide such information to Contractor.

C. Contractor shall afford proper and safe access to the Site to each contractor that performs such other work, each utility owner performing other work, and Owner, if Owner is performing other work with Owner's employees, and provide a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work.

D. Contractor shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering such work; provided, however, that Contractor may cut or alter others' work with the written consent of Engineer and the others whose work will be affected.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. If the proper execution or results of any part of Contractor's Work depends upon work performed by others, Contractor shall inspect such other work and promptly report to Engineer in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of Contractor's Work. Contractor's failure to so report will constitute an acceptance of such other work as fit and proper for integration with Contractor's Work except for latent defects and deficiencies in such other work.

F. The provisions of this article are not applicable to work that is performed by third-party utilities or other third-party entities without a contract with Owner, or that is performed without having been arranged by Owner. If such work occurs, then any related delay, disruption, or interference incurred by Contractor is governed by the provisions of Paragraph 4.05.C.3.

8.02 *Coordination*

A. If Owner intends to contract with others for the performance of other work at or adjacent to the Site, to perform other work at or adjacent to the Site with Owner's employees, or to arrange to have utility owners perform work at or adjacent to the Site, the following will be set forth in the Supplementary Conditions or provided to Contractor prior to the start of any such other work:

1. The identity of the individual or entity that will have authority and responsibility for coordination of the activities among the various contractors;

2. An itemization of the specific matters to be covered by such authority and responsibility; and

3. The extent of such authority and responsibilities.

B. Unless otherwise provided in the Supplementary Conditions, Owner shall have sole authority and responsibility for such coordination.

8.03 *Legal Relationships*

A. If, in the course of performing other work for Owner at or adjacent to the Site, the Owner's employees, any other contractor working for Owner, or any utility owner that Owner has arranged to perform work, causes damage to the Work or to the property of Contractor or its Subcontractors, or delays, disrupts, interferes with, or increases the scope or cost of the performance of the Work, through actions or inaction, then Contractor shall be entitled to an equitable adjustment in the Contract Price or the Contract Times. Contractor must submit any Change Proposal seeking an equitable adjustment in the Contract Price or the Contract Times under this paragraph within 30 days of the damaging, delaying, disrupting, or interfering event. The entitlement to, and extent of, any such equitable adjustment will take into account information (if any) regarding such other work that was provided to Contractor in the Contract Documents prior to the submittal of the Bid or the final negotiation of the terms of the Contract, and any remedies available to Contractor under Laws or Regulations concerning utility action or inaction. When applicable, any such equitable adjustment in Contract Price will be conditioned on Contractor assigning to Owner all Contractor's rights against such other contractor or utility owner with respect to the damage, delay, disruption, or interference that is the subject of the adjustment. Contractor's entitlement to an adjustment of the Contract Times or Contract Price is subject to the provisions of Paragraphs 4.05.D and 4.05.E.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. Contractor shall take reasonable and customary measures to avoid damaging, delaying, disrupting, or interfering with the work of Owner, any other contractor, or any utility owner performing other work at or adjacent to the Site.

1. If Contractor fails to take such measures and as a result damages, delays, disrupts, or interferes with the work of any such other contractor or utility owner, then Owner may impose a set-off against payments due Contractor, and assign to such other contractor or utility owner the Owner's contractual rights against Contractor with respect to the breach of the obligations set forth in this Paragraph 8.03.B.

2. When Owner is performing other work at or adjacent to the Site with Owner's employees, Contractor shall be liable to Owner for damage to such other work, and for the reasonable direct delay, disruption, and interference costs incurred by Owner as a result of Contractor's failure to take reasonable and customary measures with respect to Owner's other work. In response to such damage, delay, disruption, or interference, Owner may impose a set-off against payments due Contractor.

C. If Contractor damages, delays, disrupts, or interferes with the work of any other contractor, or any utility owner performing other work at or adjacent to the Site, through Contractor's failure to take reasonable and customary measures to avoid such impacts, or if any claim arising out of Contractor's actions, inactions, or negligence in performance of the Work at or adjacent to the Site is made by any such other contractor or utility owner against Contractor, Owner, or Engineer, then Contractor shall (1) promptly attempt to settle the claim as to all parties through negotiations with such other contractor or utility owner, or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law, and (2) indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against any such claims, and against all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such damage, delay, disruption, or interference.

ARTICLE 9—OWNER'S RESPONSIBILITIES

9.01 *Communications to Contractor*

A. Except as otherwise provided in these General Conditions, Owner shall issue all communications to Contractor through Engineer.

9.02 *Replacement of Engineer*

A. Owner may at its discretion appoint an engineer to replace Engineer, provided Contractor makes no reasonable objection to the replacement engineer. The replacement engineer's status under the Contract Documents will be that of the former Engineer.

9.03 *Furnish Data*

A. Owner shall promptly furnish the data required of Owner under the Contract Documents.

9.04 *Pay When Due*

A. Owner shall make payments to Contractor when they are due as provided in the Agreement.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

9.05 *Lands and Easements; Reports, Tests, and Drawings*

A. Owner's duties with respect to providing lands and easements are set forth in Paragraph 5.01.

B. Owner's duties with respect to providing engineering surveys to establish reference points are set forth in Paragraph 4.03.

C. Article 5 refers to Owner's identifying and making available to Contractor copies of reports of explorations and tests of conditions at the Site, and drawings of physical conditions relating to existing surface or subsurface structures at the Site.

9.06 *Insurance*

A. Owner's responsibilities, if any, with respect to purchasing and maintaining liability and property insurance are set forth in Article 6.

9.07 *Change Orders*

A. Owner's responsibilities with respect to Change Orders are set forth in Article 11.

9.08 *Inspections, Tests, and Approvals*

A. Owner's responsibility with respect to certain inspections, tests, and approvals is set forth in Paragraph 14.02.B.

9.09 *Limitations on Owner's Responsibilities*

A. The Owner shall not supervise, direct, or have control or authority over, nor be responsible for, Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Owner will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

9.10 *Undisclosed Hazardous Environmental Condition*

A. Owner's responsibility in respect to an undisclosed Hazardous Environmental Condition is set forth in Paragraph 5.06.

9.11 *Evidence of Financial Arrangements*

A. Upon request of Contractor, Owner shall furnish Contractor reasonable evidence that financial arrangements have been made to satisfy Owner's obligations under the Contract (including obligations under proposed changes in the Work).

9.12 *Safety Programs*

A. While at the Site, Owner's employees and representatives shall comply with the specific applicable requirements of Contractor's safety programs of which Owner has been informed.

B. Owner shall furnish copies of any applicable Owner safety programs to Contractor.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 10—ENGINEER'S STATUS DURING CONSTRUCTION

10.01 *Owner's Representative*

A. Engineer will be Owner's representative during the construction period. The duties and responsibilities and the limitations of authority of Engineer as Owner's representative during construction are set forth in the Contract.

10.02 *Visits to Site*

A. Engineer will make visits to the Site at intervals appropriate to the various stages of construction as Engineer deems necessary in order to observe, as an experienced and qualified design professional, the progress that has been made and the quality of the various aspects of Contractor's executed Work. Based on information obtained during such visits and observations, Engineer, for the benefit of Owner, will determine, in general, if the Work is proceeding in accordance with the Contract Documents. Engineer will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. Engineer's efforts will be directed toward providing for Owner a greater degree of confidence that the completed Work will conform generally to the Contract Documents. On the basis of such visits and observations, Engineer will keep Owner informed of the progress of the Work and will endeavor to guard Owner against defective Work.

B. Engineer's visits and observations are subject to all the limitations on Engineer's authority and responsibility set forth in Paragraph 10.07. Particularly, but without limitation, during or as a result of Engineer's visits or observations of Contractor's Work, Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work.

10.03 *Resident Project Representative*

A. If Owner and Engineer have agreed that Engineer will furnish a Resident Project Representative to represent Engineer at the Site and assist Engineer in observing the progress and quality of the Work, then the authority and responsibilities of any such Resident Project Representative will be as provided in the Supplementary Conditions, and limitations on the responsibilities thereof will be as provided in the Supplementary Conditions and in Paragraph 10.07.

B. If Owner designates an individual or entity who is not Engineer's consultant, agent, or employee to represent Owner at the Site, then the responsibilities and authority of such individual or entity will be as provided in the Supplementary Conditions.

10.04 *Engineer's Authority*

A. Engineer has the authority to reject Work in accordance with Article 14.

B. Engineer's authority as to Submittals is set forth in Paragraph 7.16.

C. Engineer's authority as to design drawings, calculations, specifications, certifications and other Submittals from Contractor in response to Owner's delegation (if any) to Contractor of professional design services, is set forth in Paragraph 7.19.

D. Engineer's authority as to changes in the Work is set forth in Article 11.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. Engineer's authority as to Applications for Payment is set forth in Article 15.

10.05 *Determinations for Unit Price Work*

A. Engineer will determine the actual quantities and classifications of Unit Price Work performed by Contractor as set forth in Paragraph 13.03.

10.06 *Decisions on Requirements of Contract Documents and Acceptability of Work*

A. Engineer will render decisions regarding the requirements of the Contract Documents, and judge the acceptability of the Work, pursuant to the specific procedures set forth herein for initial interpretations, Change Proposals, and acceptance of the Work. In rendering such decisions and judgments, Engineer will not show partiality to Owner or Contractor, and will not be liable to Owner, Contractor, or others in connection with any proceedings, interpretations, decisions, or judgments conducted or rendered in good faith.

10.07 *Limitations on Engineer's Authority and Responsibilities*

A. Neither Engineer's authority or responsibility under this Article 10 or under any other provision of the Contract, nor any decision made by Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Engineer, will create, impose, or give rise to any duty in contract, tort, or otherwise owed by Engineer to Contractor, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

B. Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Engineer will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

C. Engineer will not be responsible for the acts or omissions of Contractor or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. Engineer's review of the final Application for Payment and accompanying documentation, and all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by Contractor under Paragraph 15.06.A, will only be to determine generally that their content complies with the requirements of, and in the case of certificates of inspections, tests, and approvals, that the results certified indicate compliance with the Contract Documents.

E. The limitations upon authority and responsibility set forth in this Paragraph 10.07 also apply to the Resident Project Representative, if any.

10.08 *Compliance with Safety Program*

A. While at the Site, Engineer's employees and representatives will comply with the specific applicable requirements of Owner's and Contractor's safety programs of which Engineer has been informed.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 11—CHANGES TO THE CONTRACT

11.01 *Amending and Supplementing the Contract*

A. The Contract may be amended or supplemented by a Change Order, a Work Change Directive, or a Field Order.

B. If an amendment or supplement to the Contract includes a change in the Contract Price or the Contract Times, such amendment or supplement must be set forth in a Change Order.

C. All changes to the Contract that involve (1) the performance or acceptability of the Work, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, must be supported by Engineer's recommendation. Owner and Contractor may amend other terms and conditions of the Contract without the recommendation of the Engineer.

11.02 *Change Orders*

A. Owner and Contractor shall execute appropriate Change Orders covering:

1. Changes in Contract Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work actually performed in accordance with a Work Change Directive;

2. Changes in Contract Price resulting from an Owner set-off, unless Contractor has duly contested such set-off;

3. Changes in the Work which are: (a) ordered by Owner pursuant to Paragraph 11.05, (b) required because of Owner's acceptance of defective Work under Paragraph 14.04 or Owner's correction of defective Work under Paragraph 14.07, or (c) agreed to by the parties, subject to the need for Engineer's recommendation if the change in the Work involves the design (as set forth in the Drawings, Specifications, or otherwise) or other engineering or technical matters; and

4. Changes that embody the substance of any final and binding results under: Paragraph 11.03.B, resolving the impact of a Work Change Directive; Paragraph 11.09, concerning Change Proposals; Article 12, Claims; Paragraph 13.02.D, final adjustments resulting from allowances; Paragraph 13.03.D, final adjustments relating to determination of quantities for Unit Price Work; and similar provisions.

B. If Owner or Contractor refuses to execute a Change Order that is required to be executed under the terms of Paragraph 11.02.A, it will be deemed to be of full force and effect, as if fully executed.

11.03 *Work Change Directives*

A. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the modification ordered or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order, following negotiations by the parties as to the Work Change Directive's effect, if any, on the Contract Price and Contract Times; or, if negotiations are unsuccessful, by a determination under the terms of the Contract Documents governing adjustments, expressly including Paragraph 11.07 regarding change of Contract Price.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. If Owner has issued a Work Change Directive and:

1. Contractor believes that an adjustment in Contract Times or Contract Price is necessary, then Contractor shall submit any Change Proposal seeking such an adjustment no later than 30 days after the completion of the Work set out in the Work Change Directive.

2. Owner believes that an adjustment in Contract Times or Contract Price is necessary, then Owner shall submit any Claim seeking such an adjustment no later than 60 days after issuance of the Work Change Directive.

11.04 *Field Orders*

A. Engineer may authorize minor changes in the Work if the changes do not involve an adjustment in the Contract Price or the Contract Times and are compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. Such changes will be accomplished by a Field Order and will be binding on Owner and also on Contractor, which shall perform the Work involved promptly.

B. If Contractor believes that a Field Order justifies an adjustment in the Contract Price or Contract Times, then before proceeding with the Work at issue, Contractor shall submit a Change Proposal as provided herein.

11.05 *Owner-Authorized Changes in the Work*

A. Without invalidating the Contract and without notice to any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work. Changes involving the design (as set forth in the Drawings, Specifications, or otherwise) or other engineering or technical matters will be supported by Engineer's recommendation.

B. Such changes in the Work may be accomplished by a Change Order, if Owner and Contractor have agreed as to the effect, if any, of the changes on Contract Times or Contract Price; or by a Work Change Directive. Upon receipt of any such document, Contractor shall promptly proceed with the Work involved; or, in the case of a deletion in the Work, promptly cease construction activities with respect to such deleted Work. Added or revised Work must be performed under the applicable conditions of the Contract Documents.

C. Nothing in this Paragraph 11.05 obligates Contractor to undertake work that Contractor reasonably concludes cannot be performed in a manner consistent with Contractor's safety obligations under the Contract Documents or Laws and Regulations.

11.06 *Unauthorized Changes in the Work*

A. Contractor shall not be entitled to an increase in the Contract Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents, as amended, modified, or supplemented, except in the case of an emergency as provided in Paragraph 7.15 or in the case of uncovering Work as provided in Paragraph 14.05.C.2.

11.07 *Change of Contract Price*

A. The Contract Price may only be changed by a Change Order. Any Change Proposal for an adjustment in the Contract Price must comply with the provisions of Paragraph 11.09. Any Claim for an adjustment of Contract Price must comply with the provisions of Article 12.

B. An adjustment in the Contract Price will be determined as follows:

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1. Where the Work involved is covered by unit prices contained in the Contract Documents, then by application of such unit prices to the quantities of the items involved (subject to the provisions of Paragraph 13.03);

2. Where the Work involved is not covered by unit prices contained in the Contract Documents, then by a mutually agreed lump sum (which may include an allowance for overhead and profit not necessarily in accordance with Paragraph 11.07.C.2); or

3. Where the Work involved is not covered by unit prices contained in the Contract Documents and the parties do not reach mutual agreement to a lump sum, then on the basis of the Cost of the Work (determined as provided in Paragraph 13.01) plus a Contractor's fee for overhead and profit (determined as provided in Paragraph 11.07.C).

C. *Contractor's Fee*: When applicable, the Contractor's fee for overhead and profit will be determined as follows:

1. A mutually acceptable fixed fee; or

2. If a fixed fee is not agreed upon, then a fee based on the following percentages of the various portions of the Cost of the Work:

a. For costs incurred under Paragraphs 13.01.B.1 and 13.01.B.2, the Contractor's fee will be 15 percent;

b. For costs incurred under Paragraph 13.01.B.3, the Contractor's fee will be 5 percent;

c. Where one or more tiers of subcontracts are on the basis of Cost of the Work plus a fee and no fixed fee is agreed upon, the intent of Paragraphs 11.07.C.2.a and 11.07.C.2.b is that the Contractor's fee will be based on: (1) a fee of 15 percent of the costs incurred under Paragraphs 13.01.B.1 and 13.01.B.2 by the Subcontractor that actually performs the Work, at whatever tier, and (2) with respect to Contractor itself and to any Subcontractors of a tier higher than that of the Subcontractor that actually performs the Work, a fee of 5 percent of the amount (fee plus underlying costs incurred) attributable to the next lower tier Subcontractor; provided, however, that for any such subcontracted Work the maximum total fee to be paid by Owner will be no greater than 27 percent of the costs incurred by the Subcontractor that actually performs the Work;

d. No fee will be payable on the basis of costs itemized under Paragraphs 13.01.B.4, 13.01.B.5, and 13.01.C;

e. The amount of credit to be allowed by Contractor to Owner for any change which results in a net decrease in Cost of the Work will be the amount of the actual net decrease in Cost of the Work and a deduction of an additional amount equal to 5 percent of such actual net decrease in Cost of the Work; and

f. When both additions and credits are involved in any one change or Change Proposal, the adjustment in Contractor's fee will be computed by determining the sum of the costs in each of the cost categories in Paragraph 13.01.B (specifically, payroll costs, Paragraph 13.01.B.1; incorporated materials and equipment costs, Paragraph 13.01.B.2; Subcontract costs, Paragraph 13.01.B.3; special consultants costs, Paragraph 13.01.B.4; and other costs, Paragraph 13.01.B.5) and applying to each such cost category sum the appropriate fee from Paragraphs 11.07.C.2.a through 11.07.C.2.e, inclusive.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

11.08 *Change of Contract Times*

A. The Contract Times may only be changed by a Change Order. Any Change Proposal for an adjustment in the Contract Times must comply with the provisions of Paragraph 11.09. Any Claim for an adjustment in the Contract Times must comply with the provisions of Article 12.

B. Delay, disruption, and interference in the Work, and any related changes in Contract Times, are addressed in and governed by Paragraph 4.05.

11.09 *Change Proposals*

A. *Purpose and Content*: Contractor shall submit a Change Proposal to Engineer to request an adjustment in the Contract Times or Contract Price; contest an initial decision by Engineer concerning the requirements of the Contract Documents or relating to the acceptability of the Work under the Contract Documents; challenge a set-off against payment due; or seek other relief under the Contract. The Change Proposal will specify any proposed change in Contract Times or Contract Price, or other proposed relief, and explain the reason for the proposed change, with citations to any governing or applicable provisions of the Contract Documents. Each Change Proposal will address only one issue, or a set of closely related issues.

B. *Change Proposal Procedures*

1. *Submittal*: Contractor shall submit each Change Proposal to Engineer within 30 days after the start of the event giving rise thereto, or after such initial decision.

2. *Supporting Data*: The Contractor shall submit supporting data, including the proposed change in Contract Price or Contract Time (if any), to the Engineer and Owner within 15 days after the submittal of the Change Proposal.

    a. Change Proposals based on or related to delay, interruption, or interference must comply with the provisions of Paragraphs 4.05.D and 4.05.E.

    b. Change proposals related to a change of Contract Price must include full and detailed accounts of materials incorporated into the Work and labor and equipment used for the subject Work.

    The supporting data must be accompanied by a written statement that the supporting data are accurate and complete, and that any requested time or price adjustment is the entire adjustment to which Contractor believes it is entitled as a result of said event.

3. *Engineer's Initial Review*: Engineer will advise Owner regarding the Change Proposal, and consider any comments or response from Owner regarding the Change Proposal. If in its discretion Engineer concludes that additional supporting data is needed before conducting a full review and making a decision regarding the Change Proposal, then Engineer may request that Contractor submit such additional supporting data by a date specified by Engineer, prior to Engineer beginning its full review of the Change Proposal.

4. *Engineer's Full Review and Action on the Change Proposal*: Upon receipt of Contractor's supporting data (including any additional data requested by Engineer), Engineer will conduct a full review of each Change Proposal and, within 30 days after such receipt of the Contractor's supporting data, either approve the Change Proposal in whole, deny it in whole, or approve it in part and deny it in part. Such actions must be in writing, with a copy provided to Owner and Contractor. If Engineer does not take action on the Change

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Proposal within 30 days, then either Owner or Contractor may at any time thereafter submit a letter to the other party indicating that as a result of Engineer's inaction the Change Proposal is deemed denied, thereby commencing the time for appeal of the denial under Article 12.

5. *Binding Decision*: Engineer's decision is final and binding upon Owner and Contractor, unless Owner or Contractor appeals the decision by filing a Claim under Article 12.

C. *Resolution of Certain Change Proposals*: If the Change Proposal does not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters, then Engineer will notify the parties in writing that the Engineer is unable to resolve the Change Proposal. For purposes of further resolution of such a Change Proposal, such notice will be deemed a denial, and Contractor may choose to seek resolution under the terms of Article 12.

D. *Post-Completion*: Contractor shall not submit any Change Proposals after Engineer issues a written recommendation of final payment pursuant to Paragraph 15.06.B.

11.10 *Notification to Surety*

A. If the provisions of any bond require notice to be given to a surety of any change affecting the general scope of the Work or the provisions of the Contract Documents (including, but not limited to, Contract Price or Contract Times), the giving of any such notice will be Contractor's responsibility. The amount of each applicable bond will be adjusted to reflect the effect of any such change.

ARTICLE 12—CLAIMS

12.01 *Claims*

A. *Claims Process*: The following disputes between Owner and Contractor are subject to the Claims process set forth in this article:

1. Appeals by Owner or Contractor of Engineer's decisions regarding Change Proposals;

2. Owner demands for adjustments in the Contract Price or Contract Times, or other relief under the Contract Documents;

3. Disputes that Engineer has been unable to address because they do not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters; and

4. Subject to the waiver provisions of Paragraph 15.07, any dispute arising after Engineer has issued a written recommendation of final payment pursuant to Paragraph 15.06.B.

B. *Submittal of Claim*: The party submitting a Claim shall deliver it directly to the other party to the Contract promptly (but in no event later than 30 days) after the start of the event giving rise thereto; in the case of appeals regarding Change Proposals within 30 days of the decision under appeal. The party submitting the Claim shall also furnish a copy to the Engineer, for its information only. The responsibility to substantiate a Claim rests with the party making the Claim. In the case of a Claim by Contractor seeking an increase in the Contract Times or Contract Price, Contractor shall certify that the Claim is made in good faith, that the supporting data are accurate and complete, and that to the best of Contractor's knowledge

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

and belief the amount of time or money requested accurately reflects the full amount to which Contractor is entitled.

C. *Review and Resolution*: The party receiving a Claim shall review it thoroughly, giving full consideration to its merits. The two parties shall seek to resolve the Claim through the exchange of information and direct negotiations. The parties may extend the time for resolving the Claim by mutual agreement. All actions taken on a Claim will be stated in writing and submitted to the other party, with a copy to Engineer.

D. *Mediation*

1. At any time after initiation of a Claim, Owner and Contractor may mutually agree to mediation of the underlying dispute. The agreement to mediate will stay the Claim submittal and response process.

2. If Owner and Contractor agree to mediation, then after 60 days from such agreement, either Owner or Contractor may unilaterally terminate the mediation process, and the Claim submittal and decision process will resume as of the date of the termination. If the mediation proceeds but is unsuccessful in resolving the dispute, the Claim submittal and decision process will resume as of the date of the conclusion of the mediation, as determined by the mediator.

3. Owner and Contractor shall each pay one-half of the mediator's fees and costs.

E. *Partial Approval*: If the party receiving a Claim approves the Claim in part and denies it in part, such action will be final and binding unless within 30 days of such action the other party invokes the procedure set forth in Article 17 for final resolution of disputes.

F. *Denial of Claim*: If efforts to resolve a Claim are not successful, the party receiving the Claim may deny it by giving written notice of denial to the other party. If the receiving party does not take action on the Claim within 90 days, then either Owner or Contractor may at any time thereafter submit a letter to the other party indicating that as a result of the inaction, the Claim is deemed denied, thereby commencing the time for appeal of the denial. A denial of the Claim will be final and binding unless within 30 days of the denial the other party invokes the procedure set forth in Article 17 for the final resolution of disputes.

G. *Final and Binding Results*: If the parties reach a mutual agreement regarding a Claim, whether through approval of the Claim, direct negotiations, mediation, or otherwise; or if a Claim is approved in part and denied in part, or denied in full, and such actions become final and binding; then the results of the agreement or action on the Claim will be incorporated in a Change Order or other written document to the extent they affect the Contract, including the Work, the Contract Times, or the Contract Price.

ARTICLE 13—COST OF THE WORK; ALLOWANCES; UNIT PRICE WORK

13.01 *Cost of the Work*

A. *Purposes for Determination of Cost of the Work*: The term Cost of the Work means the sum of all costs necessary for the proper performance of the Work at issue, as further defined below. The provisions of this Paragraph 13.01 are used for two distinct purposes:

1. To determine Cost of the Work when Cost of the Work is a component of the Contract Price, under cost-plus-fee, time-and-materials, or other cost-based terms; or

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. When needed to determine the value of a Change Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price. When the value of any such adjustment is determined on the basis of Cost of the Work, Contractor is entitled only to those additional or incremental costs required because of the change in the Work or because of the event giving rise to the adjustment.

B. *Costs Included*: Except as otherwise may be agreed to in writing by Owner, costs included in the Cost of the Work will be in amounts no higher than those commonly incurred in the locality of the Project, will not include any of the costs itemized in Paragraph 13.01.C, and will include only the following items:

1. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by Owner and Contractor in advance of the subject Work. Such employees include, without limitation, superintendents, foremen, safety managers, safety representatives, and other personnel employed full time on the Work. Payroll costs for employees not employed full time on the Work will be apportioned on the basis of their time spent on the Work. Payroll costs include, but are not limited to, salaries and wages plus the cost of fringe benefits, which include social security contributions, unemployment, excise, and payroll taxes, workers' compensation, health and retirement benefits, sick leave, and vacation and holiday pay applicable thereto. The expenses of performing Work outside of regular working hours, on Saturday, Sunday, or legal holidays, will be included in the above to the extent authorized by Owner.

2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and Suppliers' field services required in connection therewith. All cash discounts accrue to Contractor unless Owner deposits funds with Contractor with which to make payments, in which case the cash discounts will accrue to Owner. All trade discounts, rebates, and refunds and returns from sale of surplus materials and equipment will accrue to Owner, and Contractor shall make provisions so that they may be obtained.

3. Payments made by Contractor to Subcontractors for Work performed by Subcontractors. If required by Owner, Contractor shall obtain competitive bids from subcontractors acceptable to Owner and Contractor and shall deliver such bids to Owner, which will then determine, with the advice of Engineer, which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee will be determined in the same manner as Contractor's Cost of the Work and fee as provided in this Paragraph 13.01.

4. Costs of special consultants (including but not limited to engineers, architects, testing laboratories, surveyors, attorneys, and accountants) employed or retained for services specifically related to the Work.

5. Other costs consisting of the following:

a. The proportion of necessary transportation, travel, and subsistence expenses of Contractor's employees incurred in discharge of duties connected with the Work.

b. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office, and temporary facilities at the Site, which are

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

consumed in the performance of the Work, and cost, less market value, of such items used but not consumed which remain the property of Contractor.

1) In establishing included costs for materials such as scaffolding, plating, or sheeting, consideration will be given to the actual or the estimated life of the material for use on other projects; or rental rates may be established on the basis of purchase or salvage value of such items, whichever is less. Contractor will not be eligible for compensation for such items in an amount that exceeds the purchase cost of such item.

c. *Construction Equipment Rental*

1) Rentals of all construction equipment and machinery, and the parts thereof, in accordance with rental agreements approved by Owner as to price (including any surcharge or special rates applicable to overtime use of the construction equipment or machinery), and the costs of transportation, loading, unloading, assembly, dismantling, and removal thereof. All such costs will be in accordance with the terms of said rental agreements. The rental of any such equipment, machinery, or parts must cease when the use thereof is no longer necessary for the Work.

2) Costs for equipment and machinery owned by Contractor or a Contractor-related entity will be paid at a rate shown for such equipment in the equipment rental rate book specified in the Supplementary Conditions. An hourly rate will be computed by dividing the monthly rates by 176. These computed rates will include all operating costs.

3) With respect to Work that is the result of a Change Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price ("changed Work"), included costs will be based on the time the equipment or machinery is in use on the changed Work and the costs of transportation, loading, unloading, assembly, dismantling, and removal when directly attributable to the changed Work. The cost of any such equipment or machinery, or parts thereof, must cease to accrue when the use thereof is no longer necessary for the changed Work.

d. Sales, consumer, use, and other similar taxes related to the Work, and for which Contractor is liable, as imposed by Laws and Regulations.

e. Deposits lost for causes other than negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, and royalty payments and fees for permits and licenses.

f. Losses and damages (and related expenses) caused by damage to the Work, not compensated by insurance or otherwise, sustained by Contractor in connection with the performance of the Work (except losses and damages within the deductible amounts of builder's risk or other property insurance established in accordance with Paragraph 6.04), provided such losses and damages have resulted from causes other than the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses include settlements made with the written consent and approval of Owner. No such losses, damages, and expenses will be included in the Cost of the Work for the purpose of determining Contractor's fee.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

g. The cost of utilities, fuel, and sanitary facilities at the Site.

h. Minor expenses such as communication service at the Site, express and courier services, and similar petty cash items in connection with the Work.

i. The costs of premiums for all bonds and insurance that Contractor is required by the Contract Documents to purchase and maintain.

C. *Costs Excluded*: The term Cost of the Work does not include any of the following items:

1. Payroll costs and other compensation of Contractor's officers, executives, principals, general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks, and other personnel employed by Contractor, whether at the Site or in Contractor's principal or branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in Paragraph 13.01.B.1 or specifically covered by Paragraph 13.01.B.4. The payroll costs and other compensation excluded here are to be considered administrative costs covered by the Contractor's fee.

2. The cost of purchasing, renting, or furnishing small tools and hand tools.

3. Expenses of Contractor's principal and branch offices other than Contractor's office at the Site.

4. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

5. Costs due to the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

6. Expenses incurred in preparing and advancing Claims.

7. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in Paragraph 13.01.B.

D. *Contractor's Fee*

1. When the Work as a whole is performed on the basis of cost-plus-a-fee, then:

a. Contractor's fee for the Work set forth in the Contract Documents as of the Effective Date of the Contract will be determined as set forth in the Agreement.

b. for any Work covered by a Change Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price on the basis of Cost of the Work, Contractor's fee will be determined as follows:

1) When the fee for the Work as a whole is a percentage of the Cost of the Work, the fee will automatically adjust as the Cost of the Work changes.

2) When the fee for the Work as a whole is a fixed fee, the fee for any additions or deletions will be determined in accordance with Paragraph 11.07.C.2.

2. When the Work as a whole is performed on the basis of a stipulated sum, or any other basis other than cost-plus-a-fee, then Contractor's fee for any Work covered by a Change

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price on the basis of Cost of the Work will be determined in accordance with Paragraph 11.07.C.2.

E. *Documentation and Audit*: Whenever the Cost of the Work for any purpose is to be determined pursuant to this Article 13, Contractor and pertinent Subcontractors will establish and maintain records of the costs in accordance with generally accepted accounting practices. Subject to prior written notice, Owner will be afforded reasonable access, during normal business hours, to all Contractor's accounts, records, books, correspondence, instructions, drawings, receipts, vouchers, memoranda, and similar data relating to the Cost of the Work and Contractor's fee. Contractor shall preserve all such documents for a period of three years after the final payment by Owner. Pertinent Subcontractors will afford such access to Owner, and preserve such documents, to the same extent required of Contractor.

13.02 *Allowances*

A. It is understood that Contractor has included in the Contract Price all allowances so named in the Contract Documents and shall cause the Work so covered to be performed for such sums and by such persons or entities as may be acceptable to Owner and Engineer.

B. *Cash Allowances*: Contractor agrees that:

1. the cash allowances include the cost to Contractor (less any applicable trade discounts) of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes; and

2. Contractor's costs for unloading and handling on the Site, labor, installation, overhead, profit, and other expenses contemplated for the cash allowances have been included in the Contract Price and not in the allowances, and no demand for additional payment for any of the foregoing will be valid.

C. *Owner's Contingency Allowance*: Contractor agrees that an Owner's contingency allowance, if any, is for the sole use of Owner to cover unanticipated costs.

D. Prior to final payment, an appropriate Change Order will be issued as recommended by Engineer to reflect actual amounts due Contractor for Work covered by allowances, and the Contract Price will be correspondingly adjusted.

13.03 *Unit Price Work*

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Agreement.

B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Payments to Contractor for Unit Price Work will be based on actual quantities.

C. Each unit price will be deemed to include an amount considered by Contractor to be adequate to cover Contractor's overhead and profit for each separately identified item.

D. Engineer will determine the actual quantities and classifications of Unit Price Work performed by Contractor. Engineer will review with Contractor the Engineer's preliminary determinations on such matters before rendering a written decision thereon (by recommendation of an Application for Payment or otherwise). Engineer's written decision

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

thereon will be final and binding (except as modified by Engineer to reflect changed factual conditions or more accurate data) upon Owner and Contractor, and the final adjustment of Contract Price will be set forth in a Change Order, subject to the provisions of the following paragraph.

E. *Adjustments in Unit Price*

1. Contractor or Owner shall be entitled to an adjustment in the unit price with respect to an item of Unit Price Work if:

a. the quantity of the item of Unit Price Work performed by Contractor differs materially and significantly from the estimated quantity of such item indicated in the Agreement; and

b. Contractor's unit costs to perform the item of Unit Price Work have changed materially and significantly as a result of the quantity change.

2. The adjustment in unit price will account for and be coordinated with any related changes in quantities of other items of Work, and in Contractor's costs to perform such other Work, such that the resulting overall change in Contract Price is equitable to Owner and Contractor.

3. Adjusted unit prices will apply to all units of that item.

ARTICLE 14—TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK

14.01 *Access to Work*

A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and authorities having jurisdiction have access to the Site and the Work at reasonable times for their observation, inspection, and testing. Contractor shall provide them proper and safe conditions for such access and advise them of Contractor's safety procedures and programs so that they may comply with such procedures and programs as applicable.

14.02 *Tests, Inspections, and Approvals*

A. Contractor shall give Engineer timely notice of readiness of the Work (or specific parts thereof) for all required inspections and tests, and shall cooperate with inspection and testing personnel to facilitate required inspections and tests.

B. Owner shall retain and pay for the services of an independent inspector, testing laboratory, or other qualified individual or entity to perform all inspections and tests expressly required by the Contract Documents to be furnished and paid for by Owner, except that costs incurred in connection with tests or inspections of covered Work will be governed by the provisions of Paragraph 14.05.

C. If Laws or Regulations of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, Contractor shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Engineer the required certificates of inspection or approval.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required:

1. by the Contract Documents, unless the Contract Documents expressly allocate responsibility for a specific inspection or test to Owner;

2. to attain Owner's and Engineer's acceptance of materials or equipment to be incorporated in the Work;

3. by manufacturers of equipment furnished under the Contract Documents;

4. for testing, adjusting, and balancing of mechanical, electrical, and other equipment to be incorporated into the Work; and

5. for acceptance of materials, mix designs, or equipment submitted for approval prior to Contractor's purchase thereof for incorporation in the Work.

Such inspections and tests will be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to Owner and Engineer.

E. If the Contract Documents require the Work (or part thereof) to be approved by Owner, Engineer, or another designated individual or entity, then Contractor shall assume full responsibility for arranging and obtaining such approvals.

F. If any Work (or the work of others) that is to be inspected, tested, or approved is covered by Contractor without written concurrence of Engineer, Contractor shall, if requested by Engineer, uncover such Work for observation. Such uncovering will be at Contractor's expense unless Contractor had given Engineer timely notice of Contractor's intention to cover the same and Engineer had not acted with reasonable promptness in response to such notice.

14.03 *Defective Work*

A. *Contractor's Obligation*: It is Contractor's obligation to assure that the Work is not defective.

B. *Engineer's Authority*: Engineer has the authority to determine whether Work is defective, and to reject defective Work.

C. *Notice of Defects*: Prompt written notice of all defective Work of which Owner or Engineer has actual knowledge will be given to Contractor.

D. *Correction, or Removal and Replacement*: Promptly after receipt of written notice of defective Work, Contractor shall correct all such defective Work, whether or not fabricated, installed, or completed, or, if Engineer has rejected the defective Work, remove it from the Project and replace it with Work that is not defective.

E. *Preservation of Warranties*: When correcting defective Work, Contractor shall take no action that would void or otherwise impair Owner's special warranty and guarantee, if any, on said Work.

F. *Costs and Damages*: In addition to its correction, removal, and replacement obligations with respect to defective Work, Contractor shall pay all claims, costs, losses, and damages arising out of or relating to defective Work, including but not limited to the cost of the inspection, testing, correction, removal, replacement, or reconstruction of such defective Work, fines levied against Owner by governmental authorities because the Work is defective, and the costs of repair or replacement of work of others resulting from defective Work. Prior to final payment, if Owner and Contractor are unable to agree as to the measure of such claims, costs,

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

losses, and damages resulting from defective Work, then Owner may impose a reasonable set-off against payments due under Article 15.

14.04 *Acceptance of Defective Work*

A. If, instead of requiring correction or removal and replacement of defective Work, Owner prefers to accept it, Owner may do so (subject, if such acceptance occurs prior to final payment, to Engineer's confirmation that such acceptance is in general accord with the design intent and applicable engineering principles, and will not endanger public safety). Contractor shall pay all claims, costs, losses, and damages attributable to Owner's evaluation of and determination to accept such defective Work (such costs to be approved by Engineer as to reasonableness), and for the diminished value of the Work to the extent not otherwise paid by Contractor. If any such acceptance occurs prior to final payment, the necessary revisions in the Contract Documents with respect to the Work will be incorporated in a Change Order. If the parties are unable to agree as to the decrease in the Contract Price, reflecting the diminished value of Work so accepted, then Owner may impose a reasonable set-off against payments due under Article 15. If the acceptance of defective Work occurs after final payment, Contractor shall pay an appropriate amount to Owner.

14.05 *Uncovering Work*

A. Engineer has the authority to require additional inspection or testing of the Work, whether or not the Work is fabricated, installed, or completed.

B. If any Work is covered contrary to the written request of Engineer, then Contractor shall, if requested by Engineer, uncover such Work for Engineer's observation, and then replace the covering, all at Contractor's expense.

C. If Engineer considers it necessary or advisable that covered Work be observed by Engineer or inspected or tested by others, then Contractor, at Engineer's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as Engineer may require, that portion of the Work in question, and provide all necessary labor, material, and equipment.

1. If it is found that the uncovered Work is defective, Contractor shall be responsible for all claims, costs, losses, and damages arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and pending Contractor's full discharge of this responsibility the Owner shall be entitled to impose a reasonable set-off against payments due under Article 15.

2. If the uncovered Work is not found to be defective, Contractor shall be allowed an increase in the Contract Price or an extension of the Contract Times, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, then Contractor may submit a Change Proposal within 30 days of the determination that the Work is not defective.

14.06 *Owner May Stop the Work*

A. If the Work is defective, or Contractor fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, then Owner may order Contractor to stop the Work,

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

or any portion thereof, until the cause for such order has been eliminated; however, this right of Owner to stop the Work will not give rise to any duty on the part of Owner to exercise this right for the benefit of Contractor, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them.

14.07 *Owner May Correct Defective Work*

A. If Contractor fails within a reasonable time after written notice from Engineer to correct defective Work, or to remove and replace defective Work as required by Engineer, then Owner may, after 7 days' written notice to Contractor, correct or remedy any such deficiency.

B. In exercising the rights and remedies under this Paragraph 14.07, Owner shall proceed expeditiously. In connection with such corrective or remedial action, Owner may exclude Contractor from all or part of the Site, take possession of all or part of the Work and suspend Contractor's services related thereto, and incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere. Contractor shall allow Owner, Owner's representatives, agents and employees, Owner's other contractors, and Engineer and Engineer's consultants access to the Site to enable Owner to exercise the rights and remedies under this paragraph.

C. All claims, costs, losses, and damages incurred or sustained by Owner in exercising the rights and remedies under this Paragraph 14.07 will be charged against Contractor as set-offs against payments due under Article 15. Such claims, costs, losses and damages will include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of Contractor's defective Work.

D. Contractor shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to the exercise by Owner of Owner's rights and remedies under this Paragraph 14.07.

ARTICLE 15—PAYMENTS TO CONTRACTOR; SET-OFFS; COMPLETION; CORRECTION PERIOD

15.01 *Progress Payments*

A. *Basis for Progress Payments*: The Schedule of Values established as provided in Article 2 will serve as the basis for progress payments and will be incorporated into a form of Application for Payment acceptable to Engineer. Progress payments for Unit Price Work will be based on the number of units completed during the pay period, as determined under the provisions of Paragraph 13.03. Progress payments for cost-based Work will be based on Cost of the Work completed by Contractor during the pay period.

B. *Applications for Payments*

1. At least 20 days before the date established in the Agreement for each progress payment (but not more often than once a month), Contractor shall submit to Engineer for review an Application for Payment filled out and signed by Contractor covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents.

2. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment must also be accompanied by: (a) a bill of sale, invoice, copies of subcontract or purchase order payments, or other documentation

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

establishing full payment by Contractor for the materials and equipment; (b) at Owner's request, documentation warranting that Owner has received the materials and equipment free and clear of all Liens; and (c) evidence that the materials and equipment are covered by appropriate property insurance, a warehouse bond, or other arrangements to protect Owner's interest therein, all of which must be satisfactory to Owner.

3. Beginning with the second Application for Payment, each Application must include an affidavit of Contractor stating that all previous progress payments received by Contractor have been applied to discharge Contractor's legitimate obligations associated with prior Applications for Payment.

4. The amount of retainage with respect to progress payments will be as stipulated in the Agreement.

C. *Review of Applications*

1. Engineer will, within 10 days after receipt of each Application for Payment, including each resubmittal, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to Contractor indicating in writing Engineer's reasons for refusing to recommend payment. In the latter case, Contractor may make the necessary corrections and resubmit the Application.

2. Engineer's recommendation of any payment requested in an Application for Payment will constitute a representation by Engineer to Owner, based on Engineer's observations of the executed Work as an experienced and qualified design professional, and on Engineer's review of the Application for Payment and the accompanying data and schedules, that to the best of Engineer's knowledge, information and belief:

   a. the Work has progressed to the point indicated;

   b. the quality of the Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, a final determination of quantities and classifications for Unit Price Work under Paragraph 13.03, and any other qualifications stated in the recommendation); and

   c. the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work.

3. By recommending any such payment Engineer will not thereby be deemed to have represented that:

   a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in the Contract; or

   b. there may not be other matters or issues between the parties that might entitle Contractor to be paid additionally by Owner or entitle Owner to withhold payment to Contractor.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

4. Neither Engineer's review of Contractor's Work for the purposes of recommending payments nor Engineer's recommendation of any payment, including final payment, will impose responsibility on Engineer:

    a. to supervise, direct, or control the Work;

    b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto;

    c. for Contractor's failure to comply with Laws and Regulations applicable to Contractor's performance of the Work;

    d. to make any examination to ascertain how or for what purposes Contractor has used the money paid by Owner; or

    e. to determine that title to any of the Work, materials, or equipment has passed to Owner free and clear of any Liens.

5. Engineer may refuse to recommend the whole or any part of any payment if, in Engineer's opinion, it would be incorrect to make the representations to Owner stated in Paragraph 15.01.C.2.

6. Engineer will recommend reductions in payment (set-offs) necessary in Engineer's opinion to protect Owner from loss because:

    a. the Work is defective, requiring correction or replacement;

    b. the Contract Price has been reduced by Change Orders;

    c. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

    d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible; or

    e. Engineer has actual knowledge of the occurrence of any of the events that would constitute a default by Contractor and therefore justify termination for cause under the Contract Documents.

D. *Payment Becomes Due*

1. Ten days after presentation of the Application for Payment to Owner with Engineer's recommendation, the amount recommended (subject to any Owner set-offs) will become due, and when due will be paid by Owner to Contractor.

E. *Reductions in Payment by Owner*

1. In addition to any reductions in payment (set-offs) recommended by Engineer, Owner is entitled to impose a set-off against payment based on any of the following:

    a. Claims have been made against Owner based on Contractor's conduct in the performance or furnishing of the Work, or Owner has incurred costs, losses, or damages resulting from Contractor's conduct in the performance or furnishing of the Work, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, non-compliance with Laws and Regulations, and patent infringement;

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

b. Contractor has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with other work at or adjacent to the Site;

c. Contractor has failed to provide and maintain required bonds or insurance;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible;

e. Owner has incurred extra charges or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests and inspections, or return visits to manufacturing or assembly facilities;

f. The Work is defective, requiring correction or replacement;

g. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

h. The Contract Price has been reduced by Change Orders;

i. An event has occurred that would constitute a default by Contractor and therefore justify a termination for cause;

j. Liquidated or other damages have accrued as a result of Contractor's failure to achieve Milestones, Substantial Completion, or final completion of the Work;

k. Liens have been filed in connection with the Work, except where Contractor has delivered a specific bond satisfactory to Owner to secure the satisfaction and discharge of such Liens; or

l. Other items entitle Owner to a set-off against the amount recommended.

2. If Owner imposes any set-off against payment, whether based on its own knowledge or on the written recommendations of Engineer, Owner will give Contractor immediate written notice (with a copy to Engineer) stating the reasons for such action and the specific amount of the reduction, and promptly pay Contractor any amount remaining after deduction of the amount so withheld. Owner shall promptly pay Contractor the amount so withheld, or any adjustment thereto agreed to by Owner and Contractor, if Contractor remedies the reasons for such action. The reduction imposed will be binding on Contractor unless it duly submits a Change Proposal contesting the reduction.

3. Upon a subsequent determination that Owner's refusal of payment was not justified, the amount wrongfully withheld will be treated as an amount due as determined by Paragraph 15.01.D.1 and subject to interest as provided in the Agreement.

15.02 *Contractor's Warranty of Title*

A. Contractor warrants and guarantees that title to all Work, materials, and equipment furnished under the Contract will pass to Owner free and clear of (1) all Liens and other title defects, and (2) all patent, licensing, copyright, or royalty obligations, no later than 7 days after the time of payment by Owner.

15.03 *Substantial Completion*

A. When Contractor considers the entire Work ready for its intended use Contractor shall notify Owner and Engineer in writing that the entire Work is substantially complete and request that Engineer issue a certificate of Substantial Completion. Contractor shall at the same time

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

submit to Owner and Engineer an initial draft of punch list items to be completed or corrected before final payment.

B. Promptly after Contractor's notification, Owner, Contractor, and Engineer shall make an inspection of the Work to determine the status of completion. If Engineer does not consider the Work substantially complete, Engineer will notify Contractor in writing giving the reasons therefor.

C. If Engineer considers the Work substantially complete, Engineer will deliver to Owner a preliminary certificate of Substantial Completion which will fix the date of Substantial Completion. Engineer shall attach to the certificate a punch list of items to be completed or corrected before final payment. Owner shall have 7 days after receipt of the preliminary certificate during which to make written objection to Engineer as to any provisions of the certificate or attached punch list. If, after considering the objections to the provisions of the preliminary certificate, Engineer concludes that the Work is not substantially complete, Engineer will, within 14 days after submission of the preliminary certificate to Owner, notify Contractor in writing that the Work is not substantially complete, stating the reasons therefor. If Owner does not object to the provisions of the certificate, or if despite consideration of Owner's objections Engineer concludes that the Work is substantially complete, then Engineer will, within said 14 days, execute and deliver to Owner and Contractor a final certificate of Substantial Completion (with a revised punch list of items to be completed or corrected) reflecting such changes from the preliminary certificate as Engineer believes justified after consideration of any objections from Owner.

D. At the time of receipt of the preliminary certificate of Substantial Completion, Owner and Contractor will confer regarding Owner's use or occupancy of the Work following Substantial Completion, review the builder's risk insurance policy with respect to the end of the builder's risk coverage, and confirm the transition to coverage of the Work under a permanent property insurance policy held by Owner. Unless Owner and Contractor agree otherwise in writing, Owner shall bear responsibility for security, operation, protection of the Work, property insurance, maintenance, heat, and utilities upon Owner's use or occupancy of the Work.

E. After Substantial Completion the Contractor shall promptly begin work on the punch list of items to be completed or corrected prior to final payment. In appropriate cases Contractor may submit monthly Applications for Payment for completed punch list items, following the progress payment procedures set forth above.

F. Owner shall have the right to exclude Contractor from the Site after the date of Substantial Completion subject to allowing Contractor reasonable access to remove its property and complete or correct items on the punch list.

15.04 *Partial Use or Occupancy*

A. Prior to Substantial Completion of all the Work, Owner may use or occupy any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which Owner, Engineer, and Contractor agree constitutes a separately functioning and usable part of the Work that can be used by Owner for its intended purpose without

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

significant interference with Contractor's performance of the remainder of the Work, subject to the following conditions:

1. At any time, Owner may request in writing that Contractor permit Owner to use or occupy any such part of the Work that Owner believes to be substantially complete. If and when Contractor agrees that such part of the Work is substantially complete, Contractor, Owner, and Engineer will follow the procedures of Paragraph 15.03.A through 15.03.E for that part of the Work.

2. At any time, Contractor may notify Owner and Engineer in writing that Contractor considers any such part of the Work substantially complete and request Engineer to issue a certificate of Substantial Completion for that part of the Work.

3. Within a reasonable time after either such request, Owner, Contractor, and Engineer shall make an inspection of that part of the Work to determine its status of completion. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and Contractor in writing giving the reasons therefor. If Engineer considers that part of the Work to be substantially complete, the provisions of Paragraph 15.03 will apply with respect to certification of Substantial Completion of that part of the Work and the division of responsibility in respect thereof and access thereto.

4. No use or occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of Paragraph 6.04 regarding builder's risk or other property insurance.

15.05 *Final Inspection*

A. Upon written notice from Contractor that the entire Work or an agreed portion thereof is complete, Engineer will promptly make a final inspection with Owner and Contractor and will notify Contractor in writing of all particulars in which this inspection reveals that the Work, or agreed portion thereof, is incomplete or defective. Contractor shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

15.06 *Final Payment*

A. *Application for Payment*

1. After Contractor has, in the opinion of Engineer, satisfactorily completed all corrections identified during the final inspection and has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of inspection, annotated record documents (as provided in Paragraph 7.12), and other documents, Contractor may make application for final payment.

2. The final Application for Payment must be accompanied (except as previously delivered) by:

   a. all documentation called for in the Contract Documents;

   b. consent of the surety, if any, to final payment;

   c. satisfactory evidence that all title issues have been resolved such that title to all Work, materials, and equipment has passed to Owner free and clear of any Liens or other title defects, or will so pass upon final payment.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

d. a list of all duly pending Change Proposals and Claims; and

e. complete and legally effective releases or waivers (satisfactory to Owner) of all Lien rights arising out of the Work, and of Liens filed in connection with the Work.

3. In lieu of the releases or waivers of Liens specified in Paragraph 15.06.A.2 and as approved by Owner, Contractor may furnish receipts or releases in full and an affidavit of Contractor that: (a) the releases and receipts include all labor, services, material, and equipment for which a Lien could be filed; and (b) all payrolls, material and equipment bills, and other indebtedness connected with the Work for which Owner might in any way be responsible, or which might in any way result in liens or other burdens on Owner's property, have been paid or otherwise satisfied. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, Contractor may furnish a bond or other collateral satisfactory to Owner to indemnify Owner against any Lien, or Owner at its option may issue joint checks payable to Contractor and specified Subcontractors and Suppliers.

B. *Engineer's Review of Final Application and Recommendation of Payment*: If, on the basis of Engineer's observation of the Work during construction and final inspection, and Engineer's review of the final Application for Payment and accompanying documentation as required by the Contract Documents, Engineer is satisfied that the Work has been completed and Contractor's other obligations under the Contract have been fulfilled, Engineer will, within 10 days after receipt of the final Application for Payment, indicate in writing Engineer's recommendation of final payment and present the final Application for Payment to Owner for payment. Such recommendation will account for any set-offs against payment that are necessary in Engineer's opinion to protect Owner from loss for the reasons stated above with respect to progress payments. Otherwise, Engineer will return the Application for Payment to Contractor, indicating in writing the reasons for refusing to recommend final payment, in which case Contractor shall make the necessary corrections and resubmit the Application for Payment.

C. *Notice of Acceptability*: In support of its recommendation of payment of the final Application for Payment, Engineer will also give written notice to Owner and Contractor that the Work is acceptable, subject to stated limitations in the notice and to the provisions of Paragraph 15.07.

D. *Completion of Work*: The Work is complete (subject to surviving obligations) when it is ready for final payment as established by the Engineer's written recommendation of final payment and issuance of notice of the acceptability of the Work.

E. *Final Payment Becomes Due*: Upon receipt from Engineer of the final Application for Payment and accompanying documentation, Owner shall set off against the amount recommended by Engineer for final payment any further sum to which Owner is entitled, including but not limited to set-offs for liquidated damages and set-offs allowed under the provisions of this Contract with respect to progress payments. Owner shall pay the resulting balance due to Contractor within 30 days of Owner's receipt of the final Application for Payment from Engineer.

15.07 *Waiver of Claims*

A. By making final payment, Owner waives its claim or right to liquidated damages or other damages for late completion by Contractor, except as set forth in an outstanding Claim,

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

appeal under the provisions of Article 17, set-off, or express reservation of rights by Owner. Owner reserves all other claims or rights after final payment.

B. The acceptance of final payment by Contractor will constitute a waiver by Contractor of all claims and rights against Owner other than those pending matters that have been duly submitted as a Claim, or appealed under the provisions of Article 17.

15.08 *Correction Period*

A. If within one year after the date of Substantial Completion (or such longer period of time as may be prescribed by the Supplementary Conditions or the terms of any applicable special guarantee required by the Contract Documents), Owner gives Contractor written notice that any Work has been found to be defective, or that Contractor's repair of any damages to the Site or adjacent areas has been found to be defective, then after receipt of such notice of defect Contractor shall promptly, without cost to Owner and in accordance with Owner's written instructions:

1. correct the defective repairs to the Site or such adjacent areas;
2. correct such defective Work;
3. remove the defective Work from the Project and replace it with Work that is not defective, if the defective Work has been rejected by Owner, and
4. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others, or to other land or areas resulting from the corrective measures.

B. Owner shall give any such notice of defect within 60 days of the discovery that such Work or repairs is defective. If such notice is given within such 60 days but after the end of the correction period, the notice will be deemed a notice of defective Work under Paragraph 7.17.B.

C. If, after receipt of a notice of defect within 60 days and within the correction period, Contractor does not promptly comply with the terms of Owner's written instructions, or in an emergency where delay would cause serious risk of loss or damage, Owner may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. Contractor shall pay all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others). Contractor's failure to pay such costs, losses, and damages within 10 days of invoice from Owner will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B, such that any related Claim must be brought within 30 days of the failure to pay.

D. In special circumstances where a particular item of equipment is placed in continuous service before Substantial Completion of all the Work, the correction period for that item may start to run from an earlier date if so provided in the Specifications.

E. Where defective Work (and damage to other Work resulting therefrom) has been corrected or removed and replaced under this paragraph, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

F. Contractor's obligations under this paragraph are in addition to all other obligations and warranties. The provisions of this paragraph are not to be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

ARTICLE 16—SUSPENSION OF WORK AND TERMINATION

16.01 *Owner May Suspend Work*

A. At any time and without cause, Owner may suspend the Work or any portion thereof for a period of not more than 90 consecutive days by written notice to Contractor and Engineer. Such notice will fix the date on which Work will be resumed. Contractor shall resume the Work on the date so fixed. Contractor shall be entitled to an adjustment in the Contract Price or an extension of the Contract Times directly attributable to any such suspension. Any Change Proposal seeking such adjustments must be submitted no later than 30 days after the date fixed for resumption of Work.

16.02 *Owner May Terminate for Cause*

A. The occurrence of any one or more of the following events will constitute a default by Contractor and justify termination for cause:

1. Contractor's persistent failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment, or failure to adhere to the Progress Schedule);

2. Failure of Contractor to perform or otherwise to comply with a material term of the Contract Documents;

3. Contractor's disregard of Laws or Regulations of any public body having jurisdiction; or

4. Contractor's repeated disregard of the authority of Owner or Engineer.

B. If one or more of the events identified in Paragraph 16.02.A occurs, then after giving Contractor (and any surety) 10 days' written notice that Owner is considering a declaration that Contractor is in default and termination of the Contract, Owner may proceed to:

1. declare Contractor to be in default, and give Contractor (and any surety) written notice that the Contract is terminated; and

2. enforce the rights available to Owner under any applicable performance bond.

C. Subject to the terms and operation of any applicable performance bond, if Owner has terminated the Contract for cause, Owner may exclude Contractor from the Site, take possession of the Work, incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere, and complete the Work as Owner may deem expedient.

D. Owner may not proceed with termination of the Contract under Paragraph 16.02.B if Contractor within 7 days of receipt of notice of intent to terminate begins to correct its failure to perform and proceeds diligently to cure such failure.

E. If Owner proceeds as provided in Paragraph 16.02.B, Contractor shall not be entitled to receive any further payment until the Work is completed. If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects,

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

attorneys, and other professionals) sustained by Owner, such excess will be paid to Contractor. If the cost to complete the Work including such related claims, costs, losses, and damages exceeds such unpaid balance, Contractor shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be reviewed by Engineer as to their reasonableness and, when so approved by Engineer, incorporated in a Change Order. When exercising any rights or remedies under this paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

F. Where Contractor's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against Contractor then existing or which may thereafter accrue, or any rights or remedies of Owner against Contractor or any surety under any payment bond or performance bond. Any retention or payment of money due Contractor by Owner will not release Contractor from liability.

G. If and to the extent that Contractor has provided a performance bond under the provisions of Paragraph 6.01.A, the provisions of that bond will govern over any inconsistent provisions of Paragraphs 16.02.B and 16.02.D.

16.03 *Owner May Terminate for Convenience*

A. Upon 7 days' written notice to Contractor and Engineer, Owner may, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract. In such case, Contractor shall be paid for (without duplication of any items):

1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination, including fair and reasonable sums for overhead and profit on such Work;

2. expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work, plus fair and reasonable sums for overhead and profit on such expenses; and

3. other reasonable expenses directly attributable to termination, including costs incurred to prepare a termination for convenience cost proposal.

B. Contractor shall not be paid for any loss of anticipated profits or revenue, post-termination overhead costs, or other economic loss arising out of or resulting from such termination.

16.04 *Contractor May Stop Work or Terminate*

A. If, through no act or fault of Contractor, (1) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (2) Engineer fails to act on any Application for Payment within 30 days after it is submitted, or (3) Owner fails for 30 days to pay Contractor any sum finally determined to be due, then Contractor may, upon 7 days' written notice to Owner and Engineer, and provided Owner or Engineer do not remedy such suspension or failure within that time, terminate the contract and recover from Owner payment on the same terms as provided in Paragraph 16.03.

B. In lieu of terminating the Contract and without prejudice to any other right or remedy, if Engineer has failed to act on an Application for Payment within 30 days after it is submitted, or Owner has failed for 30 days to pay Contractor any sum finally determined to be due, Contractor may, 7 days after written notice to Owner and Engineer, stop the Work until payment is made of all such amounts due Contractor, including interest thereon. The

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

provisions of this paragraph are not intended to preclude Contractor from submitting a Change Proposal for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to Contractor's stopping the Work as permitted by this paragraph.

ARTICLE 17—FINAL RESOLUTION OF DISPUTES

17.01 *Methods and Procedures*

A. *Disputes Subject to Final Resolution*: The following disputed matters are subject to final resolution under the provisions of this article:

1. A timely appeal of an approval in part and denial in part of a Claim, or of a denial in full, pursuant to Article 12; and

2. Disputes between Owner and Contractor concerning the Work, or obligations under the Contract Documents, that arise after final payment has been made.

B. *Final Resolution of Disputes*: For any dispute subject to resolution under this article, Owner or Contractor may:

1. elect in writing to invoke the dispute resolution process provided for in the Supplementary Conditions;

2. agree with the other party to submit the dispute to another dispute resolution process; or

3. if no dispute resolution process is provided for in the Supplementary Conditions or mutually agreed to, give written notice to the other party of the intent to submit the dispute to a court of competent jurisdiction.

ARTICLE 18—MISCELLANEOUS

18.01 *Giving Notice*

A. Whenever any provision of the Contract requires the giving of written notice to Owner, Engineer, or Contractor, it will be deemed to have been validly given only if delivered:

1. in person, by a commercial courier service or otherwise, to the recipient's place of business;

2. by registered or certified mail, postage prepaid, to the recipient's place of business; or

3. by e-mail to the recipient, with the words "Formal Notice" or similar in the e-mail's subject line.

18.02 *Computation of Times*

A. When any period of time is referred to in the Contract by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

18.03 *Cumulative Remedies*

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to, and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract. The provisions of this paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

18.04 *Limitation of Damages*

A. With respect to any and all Change Proposals, Claims, disputes subject to final resolution, and other matters at issue, neither Owner nor Engineer, nor any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, shall be liable to Contractor for any claims, costs, losses, or damages sustained by Contractor on or in connection with any other project or anticipated project.

18.05 *No Waiver*

A. A party's non-enforcement of any provision will not constitute a waiver of that provision, nor will it affect the enforceability of that provision or of the remainder of this Contract.

18.06 *Survival of Obligations*

A. All representations, indemnifications, warranties, and guarantees made in, required by, or given in accordance with the Contract, as well as all continuing obligations indicated in the Contract, will survive final payment, completion, and acceptance of the Work or termination of the Contract or of the services of Contractor.

18.07 *Controlling Law*

A. This Contract is to be governed by the law of the state in which the Project is located.

18.08 *Assignment of Contract*

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party to this Contract of any rights under or interests in the Contract will be binding on the other party without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract.

18.09 *Successors and Assigns*

A. Owner and Contractor each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

18.10 *Headings*

A. Article and paragraph headings are inserted for convenience only and do not constitute parts of these General Conditions.

SUPPLEMENTARY CONDITIONS OF THE CONSTRUCTION CONTRACT

These Supplementary Conditions amend or supplement EJCDC® C-700, Standard General Conditions of the Construction Contract (2018). The General Conditions remain in full force and effect except as amended.

The terms used in these Supplementary Conditions have the meanings stated in the General Conditions. Additional terms used in these Supplementary Conditions have the meanings stated below, which are applicable to both the singular and plural thereof.

The address system used in these Supplementary Conditions is the same as the address system used in the General Conditions, with the prefix "SC" added—for example, “Paragraph SC-4.05.”

ARTICLE 1—DEFINITIONS AND TERMINOLOGY

SC - 1.01.A.22 Add the following language to the definition of Engineer. The additional language should be added immediately after the end of the first sentence of Item 1.01.A.22.

The term Engineer in this Contract refers to either or all of the following: the Design Engineer, the Owner’s Engineer serving as Owner’s project manager and Engineer during construction, another Engineer from whom Owner seeks expertise or guidance during construction of the Work. Engineer may be employed directly by Owner, or be a consultant of Owner.

SC - 1.01.A.30 Add the following language to the definition of Owner. The additional language should be added immediately after the end of the first sentence of Item 1.01.A.30, as follows:

Owner will administer the Contract during construction.

SC - 1.01.A.33 Add the following language to the definition of Resident Project Representative immediately after the 2nd sentence of Item 1.01.A.33.

Owner will provide the RPR. RPR may be an employee of Owner or a consultant of Owner.

ARTICLE 2—PRELIMINARY MATTERS

2.02 *Copies of Documents*

SC-2.02 Delete Paragraph 2.02.A in its entirety and insert the following new paragraph in its place:

A. Owner shall furnish to Contractor two printed copies of conformed Contract Documents incorporating and integrating all Addenda and any amendments negotiated prior to the Effective Date of the Contract (including one fully signed counterpart of the Agreement), and one copy in electronic portable document format (PDF). Additional printed copies of the conformed Contract Documents will be furnished upon request at the cost of reproduction. In addition, Owner shall furnish to Contractor two full size (24”x36”) sets of Conformed Construction Drawings, two reduced size (11”x17”) sets of Conformed

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Construction Drawings, and one electronic copy of Conformed Construction Drawings in PDF and AutoCAD formats. AutoCAD format is provided solely for Contractor's use in preparing and providing Owner with Record Drawings.

SC-2.05A Delete the Paragraph 2.05A in its entirety and insert the following new paragraph in its place. Paragraphs 2.05A.1, 2.05.A.2, 2.05.A.3 and 2.05.A.4 shall remain as written.

A. At least 10 days before submission of the first Application for Payment, Contractor shall submit to Owner, a draft Application for Payment based on the schedule of values accepted by Owner in response to the Contractor's schedule of values submitted in accordance with Paragraph 2.03.A.3. No progress payment will be made to Contractor until acceptable schedules are submitted to Owner.

ARTICLE 3—CONTRACT DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 *Intent*

SC-3.01.E Delete Paragraph 3.01.E in its entirety and insert the following new paragraph:

E. Owner or Engineer may issue clarifications and interpretations of the Contract Documents as provided herein.

SC-3.02.A.2 Amend the language of the first sentence in Paragraph 3.02.A.2 to read as follows:

No provision of any such standard specification, manual, reference standard, or code, and no instruction of a Supplier, will be effective to change the duties or responsibilities of Owner, Contractor, or Engineer from those set forth in the part of the Contract Documents prepared by or for Owner.

SC-3.03.A.1 Amend the language of the second sentence in Paragraph 3.03.A.1 to read as follows:

Contractor shall promptly report in writing to Owner ~~Engineer~~ any conflict, error, ambiguity, or discrepancy that Contractor discovers, or has actual knowledge of, and shall not proceed with any Work affected thereby until the conflict, error, ambiguity, or discrepancy is resolved by a clarification or interpretation by Owner or Engineer, or by an amendment or supplement to the Contract issued pursuant to Paragraph 11.01.

SC-3.04.A Add the following sentence immediately after the last sentence in Paragraph 3.04.A.

Owner may choose to request the interpretation of the Design Engineer or another Engineer, at Owner's sole discretion.

ARTICLE 4—COMMENCEMENT AND PROGRESS OF THE WORK

4.05 *Delays in Contractor's Progress*

SC-4.05.C.1 Amend Paragraph 4.05.C.1 to include hurricanes.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

SC-4.05.C.2 Add the following sentence to the end of Item 4.05.C.2

Abnormal weather conditions shall apply to excessive rainfall that exceeds the historical three (3) year average for the specific month in which Contractor claims the weather delays interrupted the critical path towards completing the Work. Rainfall measurements shall be as reported by the Owner's weather station, located at the Owner's water treatment plant, or a South Florida Water Management District (SFWMD) weather station located near the Site. Actual rainfall that exceeds the historical three year average for the specified month will justify an abnormal weather condition for which Contractor may request a change in Contract Time.

ARTICLE 5—SITE, SUBSURFACE AND PHYSICAL CONDITIONS, HAZARDOUS ENVIRONMENTAL CONDITIONS

5.03 *Subsurface and Physical Conditions*

SC-5.03 Add the following new paragraphs immediately after Paragraph 5.03.D:

E. The following table lists the reports of explorations and tests of subsurface conditions at or adjacent to the Site that contain Technical Data, and specifically identifies the Technical Data in the report upon which Contractor may rely:

Report Title	Date of Report	Technical Data
None for this project		

F. The following table lists the drawings of existing physical conditions at or adjacent to the Site, including those drawings depicting existing surface or subsurface structures at or adjacent to the Site (except Underground Facilities), that contain Technical Data, and specifically identifies the Technical Data upon which Contractor may rely:

Drawings Title	Date of Drawings	Technical Data
None for this project		

G. Contractor may examine copies of reports and drawings identified in SC-5.03.E and SC-5.03.F that were not included with the Bidding Documents at **the Jupiter Water Treatment Plant located at 17403 Central Boulevard, Jupiter, FL 33458** during regular business hours, or may request copies from Owner.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5.06 *Hazardous Environmental Conditions*

SC-5.06 Add the following new paragraphs immediately after Paragraph 5.06.A.3:

4. The following table lists the reports known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and the Technical Data (if any) upon which Contractor may rely:

Report Title	Date of Report	Technical Data
None for this project		

5. The following table lists the drawings known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and Technical Data (if any) contained in such Drawings upon which Contractor may rely:

Drawings Title	Date of Drawings	Technical Data
None for this project		

ARTICLE 6—BONDS AND INSURANCE

6.01 *Performance, Payment, and Other Bonds*

SC-6.01 Add the following paragraphs immediately after Paragraph 6.01.A:

1. *Required Performance Bond Form:* Shall be in the Form provided in the Front Ends of the Contract Documents.

2. *Required Payment Bond Form:* Shall be in the Form provided in the Front Ends of the Contract Documents.

SC-6.01 Supplement Paragraph 6.01 with the following provisions after Paragraph 6.01.C:

1. *Required Performance Bond Form:* Shall be written by a surety with no less than an "A" rating by a national rating agency. All sureties must be on the U.S. Department of Treasury's listing of Approved Sureties and bonds must be written within the treasury's underwriting limitation.

2. *Required Payment Bond Form:* Shall be written by a surety with no less than an "A" rating by a national rating agency. All sureties must be on the U.S. Department of Treasury's listing of Approved Sureties and bonds must be written within the treasury's underwriting limitation.

6.02 *Insurance – General Provisions*

SC-6.02 Add the following language to the end of the last sentence in Paragraph 6.02.B:

"and Financial Stability: B+ to A+."

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.03 *Contractor's Insurance*

SC-6.03 Supplement Paragraph 6.03 with the following provisions after Paragraph 6.03.C:

D. *Other Additional Insureds:* As a supplement to the provisions of Paragraph 6.03.C of the General Conditions, the commercial general liability, automobile liability, umbrella or excess, pollution liability, and unmanned aerial vehicle liability policies must include as additional insureds Owner, Engineer, and other entities as follows:

The following language shall appear on the Certificate of Insurance:

"The Town of Jupiter, Florida it's employees, agents, contractors, is hereby named Additional Insured under the terms of this policy and shall be provided any Notice of Cancellation of any of the required policies." The Certificate of Insurance shall be issued to Town of Jupiter, Attn: Amanda Z. Barnes, P.E., 17403 Central Boulevard, Jupiter, FL 33458.

A thirty (30) day Notice of Cancellation is required and must be stated on the Certificate of Insurance.

Certificates of Insurance (COI) shall be maintained current for the duration of the Contract. Contractor is responsible to provide Owner with updated COIs during the course of the Contract.

E. *Workers' Compensation and Employer's Liability:* Contractor shall purchase and maintain workers' compensation and employer's liability insurance. F. *Commercial General Liability—Claims Covered:* Contractor shall purchase and maintain commercial general liability insurance, covering all operations by or on behalf of Contractor, on an occurrence basis, against claims for:

1. damages because of bodily injury, sickness or disease, or death of any person other than Contractor's employees,
2. damages insured by reasonably available personal injury liability coverage, and
3. damages because of injury to or destruction of tangible property wherever located, including loss of use resulting therefrom.

G. *Commercial General Liability—Form and Content:* Contractor's commercial liability policy must be written on a 1996 (or later) Insurance Services Organization, Inc. (ISO) commercial general liability form (occurrence form) and include the following coverages and endorsements:

1. Products and completed operations coverage.
    a. Such insurance must be maintained for three years after final payment.
    b. Contractor shall furnish Owner and each other additional insured (as identified in the Supplementary Conditions or elsewhere in the Contract) evidence of continuation of such insurance at final payment and three years thereafter.
2. Blanket contractual liability coverage, including but not limited to coverage of Contractor's contractual indemnity obligations in Paragraph 7.18.
3. Severability of interests and no insured-versus-insured or cross-liability exclusions.
4. Underground, explosion, and collapse coverage.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5. Personal injury coverage, with employment exclusion deleted.

6. Additional insured endorsements that include both ongoing operations and products and completed operations coverage through ISO Endorsements CG 20 10 10 01 and CG 20 37 10 01 (together). If Contractor demonstrates to Owner that the specified ISO endorsements are not commercially available, then Contractor may satisfy this requirement by providing equivalent endorsements.

7. For design professional additional insureds, ISO Endorsement CG 20 32 07 04 "Additional Insured—Engineers, Architects or Surveyors Not Engaged by the Named Insured" or its equivalent.

H. *Commercial General Liability—Excluded Content:* The commercial general liability insurance policy, including its coverages, endorsements, and incorporated provisions, must not include any of the following:

1. Any modification of the standard definition of "insured contract" (except to delete the railroad protective liability exclusion if Contractor is required to indemnify a railroad or others with respect to Work within 50 feet of railroad property).

2. Any exclusion for water intrusion or water damage.

3. Any provisions resulting in the erosion of insurance limits by defense costs other than those already incorporated in ISO form CG 00 01.

4. Any exclusion of coverage relating to earth subsidence or movement.

5. Any exclusion for the insured's vicarious liability, strict liability, or statutory liability (other than worker's compensation).

6. Any limitation or exclusion based on the nature of Contractor's work.

7. Any professional liability exclusion broader in effect than the most recent edition of ISO form CG 22 79.

I. *Commercial General Liability—Minimum Policy Limits*

Commercial General Liability	**Policy limits of not less than:**
General Aggregate	$1,000,000
Products—Completed Operations Aggregate	$1,000,000
Personal and Advertising Injury	$1,000,000
Bodily Injury and Property Damage—Each Occurrence	$1,000,000

J. *Automobile Liability:* Contractor shall purchase and maintain automobile liability insurance for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance, or use of any motor vehicle. The automobile liability policy must be written on an occurrence basis.

Automobile Liability	**Policy limits of not less than:**
Bodily Injury	
Each Person	$1,000,000
Each Accident	$1,000,000

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Automobile Liability	Policy limits of not less than:
Property Damage	
Each Accident	$1,000,000
[or]	
Combined Single Limit	
Combined Single Limit (Bodily Injury and Property Damage)	$N/A

K. *Contractor's Pollution Liability Insurance:* Contractor shall purchase and maintain a policy covering third-party injury and property damage, including cleanup costs, as a result of pollution conditions arising from Contractor's operations and completed operations. This insurance must be maintained for no less than three years after final completion.

Contractor's Pollution Liability	Policy limits of not less than:
Each Occurrence/Claim	$1,000,000
General Aggregate	$1,000,000

SC-6.04. Add the following sentence immediately before Paragraph 6.0.A

If there is a Bid Item of Pay Item in the Bid Schedule of Values for Builder's Risk Insurance, then Contractor shall provide Builder's Risk Insurance as required by Article 6.04 of the General Conditions. If a Bid Item or Pay Item is not provided for in the Bid Schedule of Values (or addenda during Bidding) then Contractor is not required to provide Builder's Risk Insurance for this Contract.

SC-6.04 Supplement Paragraph 6.04 of the General Conditions with the following provisions:

F. *Builder's Risk Requirements:* The builder's risk insurance must:

1. be written on a builder's risk "all risk" policy form that at a minimum includes insurance for physical loss or damage to the Work, temporary buildings, falsework, and materials and equipment stored and in transit, and must not exclude the coverage of the following risks: fire; windstorm; hail; flood; earthquake, volcanic activity, and other earth movement; lightning; riot; civil commotion; terrorism; vehicle impact; aircraft; smoke; theft; vandalism and malicious mischief; mechanical breakdown, boiler explosion, and artificially generated electric current; collapse; explosion; debris removal; demolition occasioned by enforcement of Laws and Regulations; and water damage (other than that caused by flood).

    a. Such policy will include an exception that results in coverage for ensuing losses from physical damage or loss with respect to any defective workmanship, methods, design, or materials exclusions.

    b. If insurance against mechanical breakdown, boiler explosion, and artificially generated electric current; earthquake, volcanic activity, and other earth

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

movement; or flood, are not commercially available under builder's risk policies, by endorsement or otherwise, such insurance will be provided through other insurance policies acceptable to Owner and Contractor.

2. cover, as insured property, at least the following: (a) the Work and all materials, supplies, machinery, apparatus, equipment, fixtures, and other property of a similar nature that are to be incorporated into or used in the preparation, fabrication, construction, erection, or completion of the Work, including Owner-furnished or assigned property; (b) spare parts inventory required within the scope of the Contract; and (c) temporary works which are not intended to form part of the permanent constructed Work but which are intended to provide working access to the Site, or to the Work under construction, or which are intended to provide temporary support for the Work under construction, including scaffolding, form work, fences, shoring, falsework, and temporary structures.
3. cover expenses incurred in the repair or replacement of any insured property (including but not limited to fees and charges of contractors, engineers, and architects).
4. extend to cover damage or loss to insured property while in temporary storage at the Site or in a storage location outside the Site (but not including property stored at the premises of a manufacturer or Supplier).
5. extend to cover damage or loss to insured property while in transit.
6. allow for the waiver of the insurer's subrogation rights, as set forth in this Contract.
7. allow for partial occupancy or use by Owner by endorsement, and without cancellation or lapse of coverage.
8. include performance/hot testing and start-up, if applicable.
9. be maintained in effect until the Work is complete, as set forth in Paragraph 15.06.D of the General Conditions, or until written confirmation of Owner's procurement of property insurance following Substantial Completion, whichever occurs first.
10. include as named insureds the Owner, Contractor, Subcontractors (of every tier), and any other individuals or entities required by this Contract to be insured under such builder's risk policy. For purposes of Paragraphs 6.04, 6.05, and 6.06 of the General Conditions, and this and all other corresponding Supplementary Conditions, the parties required to be insured will be referred to collectively as "insureds." In addition to Owner, Contractor, and Subcontractors of every tier, include as insureds the following:

    a. No others for this Contract**.**

11. include, in addition to the Contract Price amount, the value of the following equipment and materials to be installed by the Contractor but furnished by the Owner or third parties:

    a. None for this Contract.

SC-6.04 Supplement Paragraph 6.04 of the General Conditions with the following provisions:

H. *Builder's Risk and Other Property Insurance Deductibles:* The purchaser of any required builder's risk, installation floater, or other property insurance will be responsible for costs not covered because of the application of a policy deductible.

ARTICLE 7—CONTRACTOR'S RESPONSIBILITIES

7.03 *Labor; Working Hours*

SC-7.03.C Amend the first and second sentences of Paragraph 7.03.C to state "…all Work at the Site must be performed during regular working hours, Monday through Friday. Contractor will not perform Work on a Saturday, Sunday, or any legal holiday."

SC-7.03.C Delete the third sentence in its entirety and insert the following sentences in its place.

Contractor may request in writing, to Owner, to perform Work outside of regular working hours. Owner is not obligated to consent to Work occurring outside of regular working hours, if it is not in Owner's best interest.

SC-7.03.C Add the following new subparagraphs immediately after Paragraph 7.03.C:

1. Regular working hours will be Monday through Friday, 7:00am – 5:00pm. Work requiring inspection shall be scheduled to occur Monday through Friday, between the hours of 8:00am – 3:30 pm.

2. Owner's legal holidays for the year 2020 are as follows:

Wednesday, Jan. 1, 2020	New Year's Day
Monday, Jan. 20, 2020	Martin Luther King Jr. Day
Monday, Feb. 17, 2020	President's Day
Monday, May 25, 2020	Memorial Day
Friday, July 3, 2020	Independence Day (Observed)
Saturday, July 4, 2020	Independence Day
Monday, Sept. 7, 2020	Labor Day
Wednesday, Nov. 11, 2020	Veteran's Day
Thursday, Nov. 26, 2020	Thanksgiving Day
Friday, Nov. 27, 2020	Thanksgiving holiday
Thursday, Dec. 24, 2020	Christmas Eve Day
Friday, Dec. 25, 2020	Christmas Day

If the Contract Work is anticipated to go beyond 2020, Contractor shall anticipate observance of the same holidays (not the same dates) for future years.

SC-7.03.D Add the following new paragraph immediately after Paragraph 7.03.C:

D. Contractor shall be responsible for the cost of any overtime pay or other expense incurred by the Owner for Engineering services (including those of the Resident Project Representative, and geotechnical testing if any), Owner's representative, and construction observation services, occasioned by the performance of Work on Saturday, Sunday, any legal holiday, or as overtime on any regular work day. Contractor shall execute a deductive change order with Owner to reduce the Contract Value by the cost of the expenses incurred by Owner for overtime pay and Work outside of regular work hours. If Contractor does not sign such change order, or if the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under Article 15.

7.10 *Taxes*

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

SC-7.10.B Add a new paragraph immediately after Paragraph 7.10.A:

B. Owner is exempt from payment of sales and compensating use taxes of the State of Florida and of cities and counties thereof on all materials to be incorporated into the Work. Owner may exercise its rights to purchase materials to be incorporated into the Work of this Contract under the provisions governing the State of Florida's Sales and Use Tax Exemption for Owner furnished materials as follows:

1. Sales and Use Taxes. Owner is exempt from paying sales and use taxes on materials and equipment purchased for, and incorporated into this Public Works Contract (hereinafter the "Project") in accordance with Florida Statute 12A-1.094. The Owner shall make direct purchases of all materials and equipment purchased for, or to be incorporated into the Project, as agreed upon between the Contractor and the Owner. All direct purchases of materials and equipment shall be made by the Owner with funds specifically allocated for construction of the Project. Contractor shall provide Owner with a proposed deductive change order no later than 10 calendar days after request by Owner for materials and equipment to be purchased by the Owner for the Project. The proposed deductive change order shall include the costs of the materials to be purchased by the Owner including sales tax. The Town of Jupiter Purchase Order Standard Terms and Conditions, Certificate of Entitlement and Construction Contract Documents (plans and specifications) and requirements shall apply to work performed under this program. Each vendor/supplier of equipment under this Sales Tax Recovery Program shall be obligated to meet the requirements of the Town of Jupiter Construction Contract Documents and State Law (F.S. 12A-1.094).

2. The Contractor shall: (a) compile Contractor's and any Subcontractors' itemized requirement for materials and equipment, including quantities, unit costs, manufacturers' or vendors' catalogue or order numbers, delivery instructions, and other specific information that is required to order the specific materials and equipment, and terms and conditions to be imposed on suppliers regarding delivery and submittal time requirements, and quantities thereof required by Contractor or Subcontractors in accordance with the applicable requirements of the Construction Contract, from time to time, during the construction of the Project, as materials and equipment need to be ordered for the Project, and submit such compilation to the Owner's designated representative: (b) prepare a requisition for such materials and equipment and (c) deliver any such requisition to the owner's designated representative no less than thirty (30) days prior to the date the manufacturer or vendor of the materials or equipment, as the case may be, requires orders for such materials or equipment to be placed to assure delivery of such materials or equipment to the Site in accordance with the Project Schedule (the "Order Date"). The requisitions shall identify the Order Date. Upon receipt of any such requisition the Owner's designated representative shall forward same to the Owner. The Owner shall issue a Purchase Order directly to the vendor of the materials or equipment, prior to the Owner Date (a Purchase Owner). The Owner shall include with any such Purchase Order, a copy of the owner's sales and use tax exemption certificate, a Certificate of Entitlement and the order requisition prepared by the Contractor. The Owner shall also provide the Contractor with a Certificate of Entitlement for each vendor from which materials or equipment is purchased under this program. The

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

vendor shall issue the invoice directly to the Owner. The owner shall make direct payment to the vendor.

3. The Contractor, upon the delivery of any such materials or equipment, shall verify the conformity of such materials or equipment with the terms of the Purchase Order and the Contract Documents. If the Contractor determines that the materials and equipment are conforming, the Owner shall take title and possession of such material and equipment before such materials and equipment are incorporated into the Project. If the Contractor determines that the materials and equipment are non-conforming, the Contractor shall immediately notify the Owner in writing and the Owner shall reject such material and equipment.

4. The Owner shall assume all risk of loss on all materials and equipment purchased pursuant to its sales and use tax exemption.

5. To the extent that materials and equipment are purchased pursuant to the Owner's sales and use tax exemption, the Contractor shall reduce the Contractor Amount and the penal sum of its public construction bond by 1.06, or the applicable sales and use tax at the time, times the cost of the materials and equipment purchased directly by the Owner.

6. The Contractor shall be fully responsible for all matters relating to the receipt of materials and equipment furnished by the Owner in accordance with this Special Condition, including, but not limited to, the responsibility for verifying correct quantities, verifying documents or orders in a timely manner, coordinating purchases, providing and obtaining all warranties and guarantees required by the Contract Documents, inspection and acceptance of the materials and equipment at the time of delivery, and loss or damage to materials and equipment following acceptance of items due to the negligence of such Contractor or any Subcontractors. The Contractor shall coordinate delivery schedules, sequence of delivery, loading orientation, and other arrangements normally required by such Contractor for the particular materials furnished. The Contractor shall provide or arrange for all services required for the unloading, handling and storage of such materials and equipment through installation.

7. The Contractor shall visually inspect all shipments from material and equipment vendors purchased directly by the Owner in accordance with this Special Condition (the "Owner Furnished Materials") and approve the vendors' invoices for materials or equipment delivered, as Owner-Furnished Materials are furnished to the Site in accordance with this Special Condition. The Contractor shall assure that each delivery of Owner Furnished Materials is accomplished by documentation adequate to identify the Purchase Order against which the purchase is made. This documentation may consist of a delivery ticket and an invoice from the vendor conforming to the Purchase Order, together with such additional information as the Owner may require. The Contractor shall deliver to the Owner's designated representative all invoices for materials and equipment upon verification by such Contractor that the materials and equipment conform exactly to the Contract Documents and the Purchase Order. Upon receipt of any invoice for Owner Furnished Materials, the Owner's designated representative shall deliver such invoice to the Owner for payment directly to the Vendor.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

8. The Contractor shall inspect all Owner Furnished Materials to determine that such Owner Furnished Materials conform to the Contract Documents, including the Drawings and the Specifications, and to determine prior to incorporation into the work whether such Owner Furnished Materials are patently defective, and whether such Owner Furnished Materials are identical to the materials ordered and match the description of the bill of lading and the Purchase Order. If Contractor discovers defective or non-conforming Owner Furnished Materials upon such visual inspection, Contractor shall: (a) not recommend acceptance of such non-conforming materials and equipment, (b) not utilize such non-conforming or defective materials in the work: (c) not allow Subcontractor to utilize such non-conforming or defective materials in the work; and (d) promptly notify the Owner's designated representative, in writing, of the defective or non-conforming condition so that repair or replacement of those Owner Furnished Materials can occur without any undue delay or interruption to the Project. In the event that such Contractor fails to perform such inspection or otherwise incorporates into the work such defective or non-conforming materials, the Contractor shall be responsible for the repair and replacement of defective or non-conforming materials, at its sole cost and expense.

9. The Contractor shall maintain records of all Owner Furnished Materials incorporated into the work from the stock of Owner Furnished Materials. The Contractor shall account monthly to the Owner's designated representative and Owner for any Owner Furnished Materials delivered to the site, indicating which Owner Furnished Materials have been incorporated into the work.

10. The Contractor shall be responsible for obtaining and managing all warranties and guarantees for all Owner Furnished Materials. All repair, maintenance or damage-repair calls shall be forwarded by the Owner to the Contractor for resolution with the appropriate vendor or Subcontractor through the warranty period.

11. After the Owner takes possession of the Owner Furnished Materials at the site, possession of the Owner shall immediately and automatically transfer to the Contractor without notice. The transfer of possession of Owner Furnished Materials from the Owner to the Contractor shall constitute a bailment for the mutual benefit of the Owner and such Contractor. The Owner shall be considered the bailor and the Contractor the bailee of the Owner Furnished materials. Owner Furnished Materials shall be considered returned to the Owner for purposes of their bailment at such time as they are incorporated into the Project or consumed in the process of completing the Project.

12. The Contractor shall purchase and maintain builder's risk insurance, naming the Owner as an additional insured, sufficient to protect against loss of or damage to Owner Furnished Materials. Such insurance shall be in the amount stated elsewhere in the Contract and shall cover the full value of any Owner Furnished Materials between the time the Owner first takes title to and possession of any of such Owner Furnished Materials until final completion of the work."

13. The Owner shall not be liable for any interruption or delay damages in the project by virtue of ordering the Owner Furnished Materials, for any defects or other problems with the project by virtue of ordering the Owner Furnished Materials, or for any extra

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

costs resulting from any delay in the delivery of, or defects in, the Owner Furnished Materials.

14. The Contractor, on a monthly basis, shall review invoices submitted by all vendors of Owner Furnished Materials delivered to the site during the prior month and either concur or object to the Owner's Issuance of payment to the vendors, based upon such Contractor's records of materials delivered to the site and whether any of the Owner Furnished Materials for which payment has not been made were either non-conforming or defective.

15. In order to arrange for the prompt payment to the vendor, the Contractor shall provide to the Owner's designated representative a list of the acceptance of the goods or materials within fifteen (15) days of receipt of said goods or materials. Accompanying the list shall be a copy of the applicable purchase order, invoices, delivery tickets, written acceptance of the delivered items, and such other documentation as may be reasonably required by the Owner. Upon receipt of the appropriate documentation, the Owner shall process vendor's invoice for payment directly to vendor by electronic funds transfer (EFT) based upon the receipt of data provided. The Contractor shall assist the Owner to immediately obtain partial or final release of waivers as appropriate. The Owner shall not make any payment without the appropriate Contractor's concurrence and approval. Owner shall hold up to 5% retention on Owner Furnished Materials against the Vendor, for equipment requiring operational and start-up testing, if a specific pay item is not identified for such start-up and testing. Owner shall release retention upon successful start-up and operational testing of the equipment as agreed to between the Owner, Contractor and Vendor. Owner may, at Owner's discretion, hold up to 2% retention until vendor record drawings and operation and maintenance manuals are accepted by the Contractor and Owner.

16. The Contractor may, in its reasonable discretion, require certain material and equipment vendors to provide a supply bond in the amount of one-hundred percent (100%) of the purchase order price. The supply bond, if required, shall be issued by a qualified surety company authorized to do business in the State of Florida and acceptable to the Owner. If the supply bond is required, the costs thereof will be added to the amount of the purchase order. The Contractor shall verify that a vendor can furnish a supply bond. All bonds will name the Owner and the Contractor as additional obliges. To the extent that materials and equipment are purchased pursuant to the Owner's sales and use tax exemption, the Contractor shall reduce the Contract Amount and the penal sum of its public construction bond by 1.06, or the applicable sales and use tax at the time, times the cost of the materials and equipment purchased directly by the Owner.

17. The Contractor is advised that the following list of equipment may be included under the sales and use tax exemption program for Owner furnished equipment. This list is provided to the Contractor for informational purposes only. The Owner reserves the right to revise the quantity of Owner furnished equipment by deleting equipment listed or including equipment not listed herein. Contractor may make suggestions to Owner as to other components of the project that may be Owner purchased under this program for this project.

- Well pump and motor

Purchase Order Standard Terms and Conditions and a Certificate of Entitlement are provided as Exhibit A in at the end of these Supplemental Conditions. Both of these documents will be issued to the Vendor for procurement of materials and supplies to be incorporated into this Contract under the Sales and Use Tax Exemption Program. Contractor will also receive copies of the Certificate of Entitlement, and purchase order to vendor with purchase order standard terms and conditions.

ARTICLE 8—OTHER WORK AT THE SITE

No changes are made to the General Conditions for this Article.

ARTICLE 9—OWNER'S RESPONSIBILITIES

9.13 *Owner's Site Representative*

SC-9.13 Add the following new paragraph immediately after Paragraph 9.12 of the General Conditions:

9.13 *Owner's Administration of Contract and Site Representative*

A. Owner will administer the Contract during construction. Owner will furnish an Engineer to manage the Contract and certify construction completion for close out of regulatory permits. Owner's Engineer is an employee of the Owner, not an Engineering consultant, or agent. Owner may at Owner's discretion refer to the Design Engineer for interpretation, input, and review of components during administration of the Contract.

B. Owner will furnish the "Owner's Site Representative" to represent Owner at the Site and assist Owner in observing the progress and quality of the Work. The Owner's Site Representative will be an employee of Owner. Owner may at Owner's discretion request from Design Engineer assistance with furnishing a Site Representative to assist with construction observation and inspection.

ARTICLE 10—ENGINEER'S STATUS DURING CONSTRUCTION

10.03 *Resident Project Representative*

SC10.01.A.1 Add the following new subparagraph immediately after Paragraph 10.01.A:

1. On this Project, by agreement with the Owner, the Design Engineer will not serve as the Engineer during construction. Owner will furnish a project manager who will serve as the Engineer during construction. Owner's Engineer will have all authority as described in Article 10.04 of the General Conditions. Owner's Engineer may request assistance from the Design Engineer with items such as shop drawing reviews, interpretations and clarifications during construction, and to provide other input as requested by Owner at Owner's discretion.

SC-10.03.A Add the following new subparagraph immediately after Paragraph 10.03.A:

1. On this Project, by agreement with the Owner, the Engineer will not furnish a Resident Project Representative to represent Engineer at the Site or assist Engineer in observing the progress and quality of the Work. Owner will furnish the Resident Project Representative for this project.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

SC-10.03.C Add the following new paragraphs immediately after Paragraph 10.03.B:

C. The Resident Project Representative (RPR) will be Owner's representative at the Site. RPR's dealings in matters pertaining to the Work in general will be with the Owner's Engineer and Contractor. RPR's dealings with Subcontractors will only be through or with the full knowledge or approval of Contractor. The RPR will:

1. *Conferences and Meetings:* Attend meetings with Contractor, such as preconstruction conferences, progress meetings, job conferences, and other Project-related meetings (but not including Contractor's safety meetings), and as appropriate prepare and circulate copies of minutes thereof.

2. *Safety Compliance:* Comply with Site safety programs, as they apply to RPR, and if required to do so by such safety programs, receive safety training specifically related to RPR's own personal safety while at the Site.

3. *Liaison*

    a. Serve as Owner's liaison with Contractor. Working principally through Contractor's authorized representative or designee; assist in providing information regarding the provisions and intent of the Contract Documents.

    b. Serve as Owner's liaison with Contractor when Contractor's operations affect Owner's on-Site operations.

    c. Assist in obtaining from Owner additional details or information, when required for Contractor's proper execution of the Work.

4. *Review of Work; Defective Work*

    a. Conduct on-Site observations of the Work to assist Owner's Engineer in determining, to the extent set forth in Paragraph 10.02, if the Work is in general proceeding in accordance with the Contract Documents.

    b. Observe whether any Work in place appears to be defective.

    c. Observe whether any Work in place should be uncovered for observation, or requires special testing, inspection or approval.

5. *Inspections and Tests*

    a. Observe Contractor-arranged inspections required by Laws and Regulations, including but not limited to those performed by public or other agencies having jurisdiction over the Work.

    b. Accompany visiting inspectors representing public or other agencies having jurisdiction over the Work.

6. *Payment Requests:* Review Applications for Payment with Contractor.

7. *Completion*

    a. Participate in Owner Engineer's visits regarding Substantial Completion.

    b. Assist in the preparation of a punch list of items to be completed or corrected.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

c. Participate in Owner Engineer's visit to the Site in the company of Contractor regarding completion of the Work, and prepare a final punch list of items to be completed or corrected by Contractor.

d. Observe whether items on the final punch list have been completed or corrected.

D. The RPR will not:

1. Authorize any deviation from the Contract Documents or substitution of materials or equipment (including "or-equal" items).

2. Exceed limitations of Engineer's authority as set forth in the Contract Documents.

3. Undertake any of the responsibilities of Contractor, Subcontractors, or Suppliers.

4. Advise on, issue directions relative to, or assume control over any aspect of the means, methods, techniques, sequences or procedures of construction.

5 Advise on, issue directions regarding, or assume control over security or safety practices, precautions, and programs in connection with the activities or operations of Owner or Contractor.

6. Participate in specialized field or laboratory tests or inspections conducted off-site by others except as specifically authorized by Owner's Engineer.

7. Authorize Owner to occupy the Project in whole or in part.

ARTICLE 11—CHANGES TO THE CONTRACT

No changes are made to the General Conditions for this Article.

ARTICLE 12—CLAIMS

No changes are made to the General Conditions for this Article.

ARTICLE 13—COST OF WORK; ALLOWANCES, UNIT PRICE WORK

13.01 *Cost of the Work*

SC-13.01 Supplement Paragraph 13.01.B.5.c.(2) by adding the following sentence:

The equipment rental rate book that governs the included costs for the rental of machinery and equipment owned by Contractor (or a related entity) under the Cost of the Work provisions of this Contract is the most current edition of Rental Rate Blue Book for Construction Equipment.

SC-13.01 Supplement Paragraph 13.01.C.2 by adding the following definition of small tools and hand tools:

a. For purposes of this paragraph, "small tools and hand tools" means any tool or equipment whose current price if it were purchased new at retail would be less than $500.

Copyright© 2018 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

13.03 *Unit Price Work*

SC-13.03 Delete Paragraph 13.03.E in its entirety and insert the following in its place:

ARTICLE 1—E. *Adjustments in Unit Price*

1. Unit prices shall remain firm for the duration of the Contract. No changes in unit price shall be permitted.

ARTICLE 2—TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK

14.05.B Delete Paragraph 14.05.B in its entirety and insert the following in its place:

B. If any Work is covered contrary to the written request of Engineer, or requirements of the Contract Documents, including Drawings and Specifications, then Contractor shall, if requested by Engineer, uncover such Work for Engineer's observation, and then replace the covering, all at the Contractor's expense.

ARTICLE 3—PAYMENTS TO CONTRACTOR, SET OFFS; COMPLETIONS; CORRECTION PERIOD

15.01 *Progress Payments*

SC-15.01 Add the following sentences immediately before Paragraph 15.01 as follows:

All references to the term Engineer in Article 15 shall refer to Owner's Engineer, who is administering the Contract, serving as Owner's project manager, and serving as Engineer during construction.

SC-15.01.C.1 Amend the language of Paragraph 15.01.C.1 to read as follows:

1. Owner will, within 14 days, after receipt of each Application for Payment from Contractor, including each resubmittal, either indicate in writing to Contractor that Owner agrees with the recommendation for payment and payment will be made, or return the Application to Contractor indicating in writing the reasons for Owner's refusal to recommend payment. In the latter case, Contractor shall make the necessary corrections and resubmit the Application.

SC-15.01.D.1 Amend the language of Paragraph 15.01.D.1 to read as follows:

1. Thirty (30) days after presentation of the Application for Payment to Owner with Engineer's recommendation, the amount recommended (subject to any Owner set offs) will become due, and when due will be paid by Owner to Contractor.

15.03 *Substantial Completion*

SC-15.03 Add the following new subparagraph to Paragraph 15.03.B:

1. If some or all of the Work has been determined not to be at a point of Substantial Completion and will require re-inspection or re-testing by Engineer, the cost of such re-inspection or re-testing, including the cost of time, travel and living expenses, will be paid by Contractor to Owner. If Contractor does not pay, or the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under this Article 15.

PURCHASE ORDER STANDARD TERMS AND CONDITIONS

FOR

TOWN OF JUPITER UTILITIES

1) Purchase Order number must show on all invoices, shipments, correspondence, and any other documents related to the purchase order.

2) Invoices shall be submitted in triplicate. If a partial shipment is made, so state this on the invoice. Also state whether the invoice is final or complete.

3) This purchase order is subject to the approval of 6 copies of submitted data prior to fabrication and shipment.

4) Vendor's final invoice will not be honored until receipt of 3 final copies of operation and maintenance instructions, the Contract Documents, spare parts lists, and record drawings, if applicable.

5) All material and equipment furnished hereunder shall be in strict compliance with plans, specifications, and general conditions of the Contract between _____ (Contractor) and (Purchaser) the Town of Jupiter Utilities (Owner) entitled "_____" (name of contractor) and / or with any other contractor, in connection with the job for which these items are furnished, and vendor shall be bound thereby in the performance of this contract. Vendor expressly warrants that all material and equipment covered by this purchase order shall produce capacities or meet design specifications and function as called for in the applicable plans and specifications, or as set forth in the text of this order.

6) All material and equipment contemplated under this order shall be subject to the approval of the Purchaser and the Owner, and / or his Architects, Engineers, or other parties designated by the Owner. All materials and equipment, actually furnished under this order, shall be subject to Purchaser's inspection and testing to determine compliance with the requirements of this order. Vendor shall furnish the indicated number of submittal data or samples for said approval.

7) Owner shall issue to Vendor and Contractor with this purchase order a completed and signed Certificate of Entitlement. A copy of Owner's Florida Consumer's Certificate of Exemption shall accompany the purchase order issued directly to the Vendor.

8) Vendor guarantees against defects in material or workmanship all items covered by this purchase order and will repair or replace, freight prepaid to jobsite without cost to purchaser or Owner, any part found to be defective in material or workmanship within that time provided by the Contract Documents as indicated, or one year from date of initial operation or 18 months from date of shipment, whichever is longer. On any part found to be defective at jobsite prior to initial startup seller shall make repairs or replacement with his own forces, or reimburse Contractor for necessary labor. Defective parts will be returned freight collect only upon written request and instructions from the vendor. In the event more than one person or entity is listed on the front side of this purchase order as Vendor or is identified as an agent, that person or entity shall also be fully liable on and responsible for the performance of all of the Vendor's obligations under this purchase order. Initial Operation shall be when the materials or equipment are placed into service for use by Owner.

9) Notice to Purchaser of all shipments of equipment and / or materials shall be given immediately, noting date, routing, order number, description, and copy of bill of lading. Ultimate delivery of equipment requiring rigging shall be made by suitable vehicle. Equipment and / or materials in transit shall be adequately protected from the elements. The materials and equipment covered by this order shall remain the property of the Vendor until actually received at the destination by the Purchaser and Owner. Payment for goods damaged in transit, regardless of how shipped, will be withheld until repairs or replacement are made and claim against transportation company is resolved.

10) Cancellation of all or any part of this order to be effected at no cost to Contractor or Owner for failure of the Vendor to:

a) Secure written approval of submittal data by approving authority or purchaser.

b) Furnish any portion of this order within specified time limits.

11) In the event the contract price or prices and terms set forth herein, including any changes that may be made therein, violate an applicable schedule, regulation or order here before or hereafter issued by an approved Government Agency, the contract price or prices shall be the maximum prices permitted by, and the terms shall be in accordance with such schedule, regulations or order. All prices listed on the front side of this order are firm for duration of the project and no escalation will be allowed. Vendor shall not assign this purchase order without the written consent of Purchaser and Owner; except however, Vendor assigns to Purchaser all of Vendor's right and interest in any payments due or to become due to Vendor under this purchase order as security for the payment and satisfaction of any sums due Purchaser or to become due to Purchaser under this or any other purchase order, contract or agreement between Vendor and Purchaser or debt due Purchaser for which Vendor may be liable to Purchaser.

12) The Vendor hereby agrees to indemnify, defend and hold harmless the Purchaser and Owner, and their officers, agents, employees and designees from and against all claims, liability, damages, losses, costs, or expenses whatsoever (including without limitation all attorney's fee, cost and expenses) arising out of or in connection with this Purchase Order and the materials, goods, or services provided by Vendor including without limitation those attributable to bodily injury or death, property damage or destruction, or by reason of any action or alleged infringement or letters patent or any litigation based thereon covering any article purchased hereunder. Such indemnification shall not include claims of, or damages resulting from, gross negligence, or willful, wanton or intentional misconduct of the parties indemnified hereunder. Vendor's indemnification is limited to the extent of insurance coverage maintained by Vendor, or One Million Dollars ($1,000,000), whichever is greater. [NOTE: If this Purchase Order is in connection with a public agency's project, then Vendor's indemnity obligations are limited to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Vendor and persons employed or utilized by Vendor in the performance of the Purchase Order.]

13) Vendor shall furnish all necessary releases, lien waivers, affidavits, or other documents, all as required by the Contract Documents and / or to keep the Owner's premises free from liens or claims arising out of the furnishing of materials or equipment herein, as payments are made from time to time under this order.

14) Any acceptance in a manner or on terms and conditions different from those contained in this order shall not operate as an acceptance. This order, when accepted by the Vendor, shall constitute a valid and binding contract which shall be governed by and construed according to the laws of the State of Florida. All prior options, conversations, or preliminary negotiations shall be deemed to be merged in this order.

15) The above conditions and conditions printed or typed on front of side of this order, can only be changed by written authorization of the Contractor and the Owner, and are not to be abridged by any terms or conditions of sale printed on Vendor's quotation, acknowledgement, invoice, or other like form.

The terms and conditions contained in this order shall be binding upon Vendor unless it objects in writing within 10 days of receipt this order.

16) All purchases are F.O.B. destination, freight prepaid by Seller unless otherwise stated on the Purchase Order. Collect shipments will not be accepted.

17) Calculations for invoice payment will be calculated from date Town receives the invoice.

18) Title of goods shall pass to Buyer upon acceptance.

19) Seller shall comply with the Fair Labor Standards Act and Equal Employment Opportunity Provisions of Executive Orders.

20) Seller is expressly prohibited from delegating its duties and obligations or transferring or assigning its rights hereunder without the prior written approval of Buyer.

21) If items purchased are classified as toxic or hazardous substances under Chapter 403, Florida Statutes, Seller must submit copies of the Material Safety Data Sheet IMSOSI for each substance to the Town of Jupiter's Risk Management Coordinator, 210 Military Trail, Jupiter, Florida 33458 and to the delivery location at time of shipment. Products must be identified and labeled in accordance with OSHA standards. Failure to comply with these requirements will result in delay of payment until compliance is affected.

22) This purchase Order shall be governed and construed according to the laws of the State of Florida.

23) EXCISE AND SALES TAXES: The prices herein should not include any Federal excise taxes or sales taxes imposed by any State or Municipal Government. Such taxes, if included, must be deducted by the vendor when submitting claim for payment.

24) Non-Appropriation of Funds: It is understood that Town funds are contingent upon the availability of lawful appropriations by the Town Council. Subject to the applicable provisions of the Town Charter, the Town represents: that it has adequate funds to meet its obligations under this order for the full price set forth herein; and that it has no reason to believe that it will not have sufficient funds to enable it to make all payments due hereunder during such contract period. However, if the Town Council fails at any time during such contract period(s) to continue funding for any purchase order awarded, the Towns obligations under such contract(s) are terminated as of the date that the funding expires without further obligation to the Town.

CERTIFICATE OF ENTITLEMENT

The undersigned authorized representative of_____ (hereinafter "Governmental Entity"), Florida Consumer's Certificate of Exemption Number_____, affirms that the tangible personal property purchased pursuant to Purchase Order Number_____ from _____ (Vendor) on or after _____ (date) will be incorporated into or become a part of a public facility as part of a public works contract pursuant to contract # _____ with _____ (Name of Contractor) for the construction of _____.

Governmental Entity affirms that the purchase of the tangible personal property contained in the attached Purchase Order meets the following exemption requirements contained in Section 212.08(6), F.S., and Rule 12A-1.094, F.A.C.:

You must initial each of the following requirements.

____ 1. The attached Purchase Order is issued directly to the vendor supplying the tangible personal property the Contractor will use in the identified public works.

____ 2. The vendor's invoice will be issued directly to Governmental Entity.

____ 3. Payment of the vendor's invoice will be made directly by Governmental Entity to the vendor from public funds.

____ 4. Governmental Entity will take title to the tangible personal property from the vendor at the time of purchase or of delivery by the vendor.

____ 5. Governmental Entity assumes the risk of damage or loss at the time of purchase or delivery by the vendor.

Governmental Entity affirms that if the tangible personal property identified in the attached Purchase Order does not qualify for the exemption provided in Section 212.08(6), F.S., and Rule 12A-1.094, F.A.C., Governmental Entity will be subject to the tax, interest, and penalties due on the tangible personal property purchased. If the Florida Department of Revenue determines that the tangible personal property purchased tax-exempt by issuing this Certificate does not qualify for the exemption, Governmental Entity will be liable for any tax, penalty, and interest determined to be due.

I understand that if I fraudulently issue this certificate to evade the payment of sales tax I will be liable for payment of the sales tax plus a penalty of 200% of the tax and may be subject to conviction of a third degree felony.

Under the penalties of perjury, I declare that I have read the foregoing Certificate of Entitlement and the facts stated in it are true.

_____ _____

Signature of Authorized Representative Title

_____ _____

Purchaser's Name (Print or Type) Date

Federal Employer Identification Number: _____

You must attach a copy of the Purchase Order to this Certificate of Entitlement.

Do not send to the Florida Department of Revenue. This Certificate of Entitlement must be retained in the vendor's and the contractor's books and records.

Village of Palm Springs

Executive Brief

AGENDA DATE: May 13, 2021

DEPARTMENT: Public Service

ITEM 6.16: Approve MIEX DOC Resin Acquisition Agreement - Best Interest Acquisition - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Fund) - IXOM Watercare, Inc.

SUMMARY: The Public Service Department has a need to select a vendor to provide Dissolved Organic Carbon (DOC) Resin, which is a critical component in the water pre-treatment process. The resin chemical assists with improving potable water color and removing organic compounds which interact with chlorine to create disinfectant byproducts. At this time, the Village uses a Magnetic Ion Exchange (MIEX) System, which is a proprietary water treatment process, and the manufacturer, IXOM Watercare, recommends utilizing their patented DOC Resin within our water treatment plants.

The proposed agreement to purchase MIEX DOC Resin is recommended by the manufacturer for the following reasons:

- The resin beads are very small and magnetized, which allows the contaminants to be absorbed by the resin beads thereby improving water color.
- The resin beads over time will be joined together (magnetized) and will increase the weight of the beads, thus, helping to settle to the bottom of the water tank. They then go through a regeneration process and the beads are reused (pumped back to the beginning of the water treatment process), which helps with the overall cost of producing potable water.
- The MIEX DOC resin meets all requirements for NSF/ANSI Standard 61 - Drinking Water System Components - Health Effects for control of Total Trihalomethanes (TTHM), Haloacetic Acids Five (HAA5) and color

As a result, the proposed MIEX DOC resin is essentially a sole source resin for the MIEX system. Thus, for the reasons outlined above, it is recommended that the Village acquire the

requisite MIEX DOC Resin under the Village's Purchasing Code -Section 58-11 Best Interest Acquisitions.

The Village's Purchasing Code - Section 58-11 Best Interest Acquisitions, which provides that the Village may acquire or contract for non-real property, goods or services without utilizing the competitive selection process where the Village Council determines by at least four-fifths (4/5) affirmative vote that the competitive selection process is not in the best interest of the Village. The Village Council shall make specific factual findings that support its determination, and such contracts shall be placed on the regular Village Council agenda. This provision may not be used to contract for goods or services which such contract would exceed the limits set forth in F.S. §§ 287.055 or 255.20, as amended.

If approved, the Village would accept IXOM Watercare, Inc.'s terms, conditions and pricing therein. The cost per liter of resin is $16.99, shipped in 900L containers plus freight.

The proposed agreement was prepared by the Village Attorney and reviewed by the Assistant Public Service Director/Engineer, Utilities Superintendent and the Finance Director.

The Village has worked with the proposed vendor previously and they have provided excellent service and quality products.

FISCAL IMPACT:

Funding to support this purchase is available within the FY 2021 Budget - Water & Sewer Enterprise Fund.

Allocated/Estimated Project Funding:	***Amount***
FY 2021 Approved Budget - Water & Sewer Enterprise Fund	$700,000

Expected Purchase Costs:	***Amount***
FY 2021 Expected Purchase Cost - Water & Sewer Fund	$300,000

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

ATTACHMENTS:

Proposed Agreement - Best Interest Acquisiton - IXOM Watercare, Inc.
Sole Source Letter - IXOM Watercare, Inc.
Certificate of Liability Insurance - IXOM Watercare, Inc.

AGREEMENT

THIS AGREEMENT is made this _____day of _____, 2021 between the **Village of Palm Springs**, Florida, a municipal corporation, hereinafter the "VILLAGE", with its office located at 226 Cypress Lane, Palm Springs, Florida 33461, and **IXOM Watercare, Inc.,** a corporation authorized to do business in the State of Florida, hereinafter the "CONTRACTOR", with its office located at 8150 S. Akron St., Suite 401, Centennial CO 80112.

RECITALS

WHEREAS, the VILLAGE is a municipal corporation organized and existing pursuant to the Charter and the Constitution of the State of Florida;

WHEREAS, the VILLAGE wishes to purchase materials from CONTRACTOR;

WHEREAS, CONTRACTOR submitted a proposal for the delivery of materials as a best interest provider pursuant to Section 58-11 of the Village Code;

WHEREAS, the VILLAGE desires to accept the CONTRACTOR's proposal in order for CONTRACTOR to render the goods and services to the VILLAGE as provided herein;

WHEREAS, the CONTRACTOR further warrants that it is experienced and capable of performing the tasks hereunder in a professional and competent manner;

WHEREAS, the VILLAGE finds awarding the contract to the CONTRACTOR as described herein serves a valid public purpose.

NOW THEREFORE, the VILLAGE hereby engages the services of the CONTRACTOR, and in consideration of the mutual promises herein contained, the sufficiency of which is hereby acknowledged by both parties, the parties agree as follows:

1. SCOPE OF WORK

1.1 The scope of work is the providing of material, as set forth in Exhibit "A", incorporated herein and attached hereto. CONTRACTOR shall provide the material as requested by the VILLAGE.

1.2 The CONTRACTOR represents to the VILLAGE that the services and materials provided under this Agreement shall be in accordance with accepted and established trade practices and procedures recognized in the CONTRACTOR's trade in general and that the materials shall conform to the highest standards and in accordance with this Agreement.

1.3 The CONTRACTOR represents that it is licensed to do business in the State of Florida and holds and will maintain all applicable licenses required for the work to be completed under this Agreement. The CONTRACTOR further warrants its capability and experience to perform the work provided for herein in a professional and competent manner.

2. USE OF AGENTS OR ASSISTANTS

2.1 To the extent reasonably necessary to enable the CONTRACTOR to perform its work hereunder, the CONTRACTOR shall be authorized to engage the services of any agents or assistants which it may deem proper, and may further employ, engage, or retain the services of such other persons or corporations to aid or assist in the proper performance of its duties. All costs of the services of, or expenses incurred by, such agents or assistants shall be paid by the CONTRACTOR.

3. FEE AND TERM

3.1 For the parts to be provided under this Agreement, the CONTRACTOR shall be entitled to payment as set forth in CONTRACTOR's proposal, attached hereto as Exhibit "A" and incorporated herein.

3.2 Should the VILLAGE require additional services or materials, not included in this Agreement, fees and payment for such work will be set forth in a separate Addendum, as authorized in accordance with the VILLAGE's procurement code prior to any such additional goods being provided by the CONTRACTOR.

3.3 This Agreement shall become effective upon execution by both parties and shall be effective for a period of (5) years from the effective date.

4. MAXIMUM COSTS

4.1 The CONTRACTOR expressly acknowledges and agrees that the total cost to provide the material is specified in the CONTRACTOR's proposal, and no additional costs shall be authorized without prior written approval from VILLAGE's governing body.

5. INVOICE

5.1 The CONTRACTOR shall submit an itemized invoice to the VILLAGE for approval prior to receiving compensation. The CONTRACTOR shall be paid within thirty (30) days of receipt of an approved invoice for work.

6. COPIES OF DATA/DOCUMENTS

6.1 Copies or original documents prepared by the CONTRACTOR in relation to work associated with this Agreement shall be provided to the VILLAGE. Data collected, stored, and/or provided shall be in a form acceptable to the VILLAGE and agreed upon by the VILLAGE.

7. OWNERSHIP

7.1 Each and every report, draft, work product, map, record, and other document reproduced, prepared, or caused to be prepared by the CONTRACTOR pursuant to or in connection with this Agreement shall be the exclusive property of the VILLAGE.

8. DEFAULTS, TERMINATION OF AGREEMENT

8.1 If the CONTRACTOR fails to satisfactorily perform the work specified in this Agreement; or, is in material breach of a term or condition of this Agreement, the Public Services Director may give written notice to the CONTRACTOR specifying defaults to be remedied. Such notice shall set forth the basis for any dissatisfaction and suggest corrective measures. If the CONTRACTOR does not remedy defaults within the allotted time or commence good faith steps to remedy the default to the reasonable satisfaction of the Public Services Director, the VILLAGE may take such action to remedy the default and all expenses related thereto shall be borne by the CONTRACTOR including, without limitation, utilization of another contractor to provide for such work; and/or, the VILLAGE may withhold any money due or which may become due to the CONTRACTOR for such expense and/or work related to the claimed default. Alternatively, or in addition to the foregoing, if after three (3) days the CONTRACTOR has not remedied defaults or commenced good faith steps to remedy defaults to the satisfaction of the Public Services Director, the VILLAGE may elect to terminate this Agreement. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.1.

8.2 Notwithstanding paragraph 8.1, the VILLAGE reserves the right and may elect to terminate this Agreement at any time, with or without cause. At such time, the CONTRACTOR would be compensated only for the parts provided to the date of termination. In the event material has been ordered or is in the process of being manufactured, the VILLAGE must pay for all material ordered or manufactured. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.2.

9. INSURANCE

9.1 The CONTRACTOR shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the VILLAGE, the types and amounts of insurance conforming to the minimum requirements set forth below. The CONTRACTOR shall not commence services until the required insurance is in force and evidence of insurance acceptable to the VILLAGE has been provided to, and approved by, the VILLAGE. An appropriate Certification of Insurance shall be satisfactory evidence of insurance. Until such insurance is no longer required by this Contract, the CONTRACTOR shall provide the VILLAGE with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

A. The CONTRACTOR shall maintain, during the life of this Agreement, commercial general liability, including contractual liability insurance in the amount of $1,000,000 per occurrence and $2,000,000 aggregate, to protect the CONTRACTOR from claims for damages for bodily and personal injury, including wrongful death, as well as from claims of property damages which may arise from any operations under this Agreement, whether such operations be by the CONTRACTOR or by anyone directly employed by or contracting with the CONTRACTOR.

B. The CONTRACTOR shall maintain, during the life of this Agreement, comprehensive automobile liability insurance in the minimum amount of $1,000,000 combined single limit for bodily injury and property damages liability to protect the CONTRACTOR from claims for damages for bodily and personal injury, including death, as well as from claims for property damage, which may arise from the ownership, use, or maintenance of owned and non-owned automobiles, including rented automobiles whether such operations be by the CONTRACTOR or by anyone directly or indirectly employed by the CONTRACTOR.

C. The CONTRACTOR shall maintain, during the life of this Agreement, Workers' Compensation Insurance and Employer's Liability Insurance for all employees as required by Florida Statutes.

All insurance, other than Worker's Compensation, to be maintained by the CONTRACTOR shall specifically include the VILLAGE as an "Additional Insured".

9.2 The insurance provided by the CONTRACTOR shall apply on a primary basis. Any insurance, or self-insurance, maintained by the VILLAGE Council shall be excess of, and shall not contribute with, the insurance provided by the CONTRACTOR. Except as otherwise specified, no deductible or self-insured retention is permitted.

9.3 Compliance with these insurance requirements shall not limit the liability of the CONTRACTOR. Any remedy provided to the VILLAGE by the insurance provided by the VILLAGE shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of the CONTRACTOR) available to the VILLAGE under this Agreement or otherwise.

9.4 Neither approval nor failure to disapprove insurance furnished by the CONTRACTOR shall relieve the CONTRACTOR from responsibility to provide insurance as required by this Agreement.

9.5 The CONTRACTOR's failure to obtain, pay for, or maintain any required insurance shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Agreement. In the event of any termination or suspension, the VILLAGE may use the services of another contractor without the VILLAGE incurring any liability to the CONTRACTOR.

9.6 At its sole discretion, the VILLAGE may obtain or renew the CONTRACTOR's insurance, and the VILLAGE may pay all or part of the premiums. Upon demand, the CONTRACTOR shall repay the VILLAGE all monies paid to obtain or renew the insurance. The VILLAGE may offset the cost of the premium against any monies due the CONTRACTOR from the VILLAGE.

10. WAIVER OF BREACH

10.1 The waiver by either party of any breach of any provision of this Agreement shall not operate or be construed as a waiver of any subsequent breach of that same or any other provision.

11. E-VERIFY.

11.1 Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the CONTRACTOR shall:

A. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractors' newly hired employees;

B. Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an "unauthorized alien" as defined in Section 448.095(1)(k), Florida Statutes;

C. Maintain copies of all subcontractor affidavits for the duration of this Agreement and provide the same to the Owner upon request;

Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes;

D. Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and,

E. Be aware that if the VILLAGE terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the CONTRACTOR may not be awarded a contract for at least one (1) year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the VILLAGE as a result of the termination of the Agreement.

12. ENTIRE AGREEMENT AND ORDER OF PRECEDENCE

12.1 This Agreement consists of the terms and conditions provided herein; and, the CONTRACTOR's proposal. To the extent that there exists a conflict between this Agreement and the remaining documents, the terms, conditions, covenants, and/or provisions of this Agreement shall prevail. Wherever possible, the provisions of such documents shall be construed in such a manner as to avoid conflicts between provisions of the various documents.

12.2 This Agreement supersedes any and all other Agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereof, and no other Agreement, statement, or promise relating to the subject matter of this Agreement which is not contained herein shall be valid or binding.

13. ASSIGNMENT

13.1 Nothing under this Agreement shall be construed to give any rights or benefits to any party other than the VILLAGE and the CONTRACTOR. All duties and responsibilities under this Agreement shall be for the sole and exclusive benefit of the VILLAGE and the CONTRACTOR and not for the benefit or any other party. The CONTRACTOR shall not assign any right or interest in this Agreement, and shall not delegate any duty owned, without the VILLAGE's prior written consent. Any attempted assignment or delegation shall be void and totally ineffective for all purposes, and shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Agreement.

13.2 In the event the VILLAGE consents to an assignment or delegation, the assignee, delegate, or its legal representative shall agree in writing to personally assume, perform, and be bound by this Agreement's covenants, conditions, obligations and provisions.

14. SUCCESSORS AND ASSIGNS

14.1 Subject to the provision regarding assignment, this Agreement shall be binding on the heirs, executors, administrators, successors, and assigns of the respective parties.

15. WAIVER OF TRIAL BY JURY

15.1 TO ENCOURAGE PROMPT AND EQUITABLE RESOLUTION OF ANY LITIGATION, EACH PARTY HEREBY WAIVES ITS RIGHTS TO A TRIAL BY JURY IN ANY LITIGATION RELATED TO THIS AGREEMENT.

16. GOVERNING LAW AND REMEDIES

16.1 The validity of this Agreement and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue shall be in Palm Beach County, Florida.

16.2 No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

17. TIME IS OF THE ESSENCE

17.1 Time is of the essence in the delivery of the goods as specified herein.

18. NOTICES

18.1 All notices hereunder must be in writing and, unless otherwise provided herein, shall be deemed validly given on the date when personally delivered to the address indicated below; or on the third (3rd) business day following deposit, postage prepaid, using certified mail, return receipt requested, in any U.S. postal mailbox or at any U.S. Post Office; or when sent via nationally recognized overnight courier to the address indicated below. Should the VILLAGE or the CONTRACTOR have a change of address, the other party shall immediately be notified in writing of such change, provided, however, that each address for notice must include a street address and not merely a post office box. All notices, demands or requests from the CONTRACTOR to the VILLAGE shall be given to the VILLAGE address as follows:

Public Services Director
Village of Palm Springs
226 Cypress Lane
Palm Springs, Florida 33461

All notices, demands or requests from the VILLAGE to the CONTRACTOR shall be given to the CONTRACTOR address as follows:

IXOM Watercare, Inc.
33101 East Quincy Avenue
Watkins, CO 80137

19. SEVERABILITY

19.1 Should any part, term or provision of this Agreement or any document required herein to be executed be declared invalid, void or unenforceable, all remaining parts, terms and provisions hereof shall remain in full force and effect and shall in no way be invalidated, impaired or affected thereby.

20. DELAYS AND FORCES OF NATURE

20.1 The CONTRACTOR shall not be considered in default by reason of a delay in timely performance if such delay and failure arises out of causes reasonably beyond the control of the CONTRACTOR or its subcontractors and without their fault or negligence. Upon the CONTRACTOR's request, the VILLAGE shall consider the facts and extent of any such delay and failure to timely perform the work for reason beyond the control of the CONTRACTOR and, if the CONTRACTOR'S delay and failure to timely perform was without it or its subcontractors' fault or negligence, as determined by the VILLAGE in its sole discretion, the time of completion shall be extended for any reasonable time that the VILLAGE, in its sole discretion, may decide; subject to the VILLAGE'S rights to change, terminate, or stop any or all of the work at any time. If the CONTRACTOR is delayed at any time in the progress of the work by any act or neglect of the VILLAGE or its

employees, or by any other contractor employed by the VILLAGE, or by changes ordered by the VILLAGE, unavoidable casualties, or any causes beyond the CONTRACTOR'S control, or by delay authorized by the VILLAGE pending negotiation or by any cause which the VILLAGE, in its sole discretion, shall decide justifies the delay, then the time of completion shall be extended for any reasonable time the VILLAGE, in its sole discretion, may decide. No extension of time shall be made for any delay occurring more than five (5) days before a claim therefore is made in writing to the VILLAGE. In the case of continuing cause of delay, only one (1) claim is necessary. The CONTRACTOR's sole remedy for a delay in completion of the work for any reason will be an extension of time to complete the work and CONTRACTOR specifically waives any right to seek any monetary damages or losses for a delay in completion of the work, including, but not limited to, waiving any right to seek monetary amounts for lost profits, additional overhead, salaries, lost productivity, efficiency losses, or any other alleged monetary losses which may be allegedly suffered by CONTRACTOR due to a delay in completion of the work.

20.2 Neither party shall be considered in default in the performance of its obligations hereunder or any of them, if such obligations were prevented or delayed by any cause, existing or future beyond the reasonable control of such party which include but are not limited to acts of God, labor disputes or civil unrest.

21. COUNTERPARTS

21.1 This Agreement may be executed in counterparts, each of which shall be an original, but all of which shall constitute one and the same document. Each of the parties shall sign a sufficient number of counterparts, so that each party will receive a fully executed original of this Agreement.

22. LIMITATIONS OF LIABILITY

22.1 Under no circumstances shall either party be liable to the other for any consequential, incidental, special, punitive, or any other form of indirect or non-compensatory damages.

23. PUBLIC ENTITY CRIMES

23.1 CONTRACTOR acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier or sub-contractor under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount

provided in Section 287.017, Florida Statues, for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list. CONTRACTOR will advise the VILLAGE immediately if it becomes aware of any violation of this statute.

24. PREPARATION

24.1 This Agreement shall not be construed more strongly against either party regardless of who was more responsible for its preparation.

25. PALM BEACH COUNTY INSPECTOR GENERAL

25.1 In accordance with Palm Beach County ordinance number 2011-009, the CONTRACTOR acknowledges that this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The CONTRACTOR has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

26. ENFORCEMENT COSTS

26.1 All parties shall be responsible for their own attorneys' fees, court costs and expenses if any legal action or other proceeding is brought for any dispute, disagreement, or issue of construction or interpretation arising hereunder whether relating to the Contract's execution, validity, the obligations provided therein, or performance of this Contract, or because of an alleged breach, default or misrepresentation in connection with any provisions of this Contract.

27. PUBLIC RECORDS

CONTRACTOR shall comply with Florida's Public Records Laws, and specifically agrees to:

(a) Keep and maintain public records that ordinarily and necessarily would be required by the VILLAGE in order to perform the service.

(b) Upon request from the VILLAGE's custodian of public records or designee, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer, at no cost, to the VILLAGE all public records in possession of the CONTRACTOR upon termination of the Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records

disclosure requirements. All records stored electronically must be provided to the VILLAGE in a format that is compatible with the information technology systems of the VILLAGE.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE VENDOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

28. COPYRIGHTS AND/OR PATENT RIGHTS

28.1 CONTRACTOR warrants that there has been no violation of copyrights and/or patent rights in the manufacturing, producing of selling the goods, shipped or ordered, as a result of this proposal and the CONTRACTOR agrees to hold the VILLAGE harmless from any and all liability, loss, or expense occasioned by any such violation.

29. COMPLIANCE WITH OCCUPATIONAL SAFETY AND HEALTH

29.1 CONTRACTOR certifies that all services, material, equipment, etc., provided in this bid meets all OSHA requirements. CONTRACTOR further certifies that, if the services, material, equipment, etc., provided, is subsequently found to be deficient in any OSHA requirements in effect on date of delivery or performance, all costs necessary to bring the services, material, equipment, etc. into compliance with the aforementioned requirements shall be borne by the CONTRACTOR.

30. FEDERAL AND STATE TAX

30.1 The VILLAGE of Palm Springs is exempt from Federal Tax and State Tax for Tangible Personal Property. The Procurement Official will sign an exemption certificate submitted by the successful Proposer. Vendors or contractors doing business with the VILLAGE shall not be exempted from paying sales tax to their suppliers for materials to fulfill contractual obligations with the VILLAGE, nor shall any Vendor/Contractor be authorized to use the VILLAGE's Tax Exemption Number in securing such materials.

MIEX® DOC RESIN SUPPLY AGREEMENT ("AGREEMENT")

BUYER	Village of Palm Springs, a municipality having a place of business at 226 Cypress Lane, Palm Springs, FL 33461-1699

SUBJECT TO THE TERMS AND CONDITIONS OF THIS AGREEMENT, IXOM WATERCARE INC. ("SELLER") AGREES TO SELL TO BUYER, AND BUYER AGREES TO PURCHASE FROM SELLER, MIEX® DOC RESIN ("GOODS") FOR USE IN BUYER'S WATER TREATMENT PLANT.

TERM	This Agreement shall be effective for a period of five (5) years beginning on April 29, 2021.
PRICES; QUANTITIES	The price for the Goods shall be fixed for the first 12 months at $16.99 ($15,291.00 per 900L tote), exclusive of shipping charges. Thereafter, prices for the Goods shall be adjusted on each anniversary of April 29 (starting in Y2022) as set out in Attachment A. No sales tax will be payable by the Village of Palm Springs (Florida State Sales Tax Exemption Certificate Number: 60-40-11379-54C). The minimum order quantity required for each delivery is three (3) 900L totes.
ORDERS	Seller will ensure that sufficient quantities of MIEX® Resin are supplied as may be required for the continued operation of the Plant. During the Term and any Renewal Period, Buyer shall source its requirements for water treatment resin exclusively from Seller. At all times, Buyer shall maintain an inventory of no less than two (2) 900 Liter totes.
PACKAGING	Goods will be supplied in 900 Liter totes (see Attachment B).
DELIVERY	Deliveries shall be made to Buyer's Plant. Buyer shall have available during normal business hours suitable equipment and personnel at the Plant to promptly unload all deliveries of Goods from the delivery vehicle. Deliveries shall be made within ten (10) business days from the date Seller receives Buyer's written order. Deliveries shall be made to Buyer's Main Treatment Plant located 360 Davis Road, Palm Springs, FL 33461 (the "Plant").
PAYMENT TERMS	Net thirty (30) days from date of invoice.
AGREEMENT DOCUMENTS	This Agreement consists of this document, the attached General Terms and Conditions of Sale, and Attachments A (Resin Price and Adjustment Terms) and B (Product Specifications).

This Agreement is executed for and on behalf of Buyer and Seller by their duly authorized representatives.

RESIN PRICE AND ADJUSTMENTS

Annual Adjustments. On each anniversary of the effective date of this Agreement, the price per liter of the MIEX® DOC Resin will be increased by Seller by a percentage not to exceed the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) for the U.S. City Average for All Items (Base Index 1982-84=100), as published by the U.S. Bureau of Labor Statistics, over the immediately preceding twelve (12) month period. In no event, however, shall the prices for MIEX® DOC Resin be less than the prices paid during the previous twelve (12) months of the Agreement. In the event the index specified above is either unavailable or is no longer published, the most comprehensive official index then published by the United States Department of Labor, Bureau of Labor Statistics that most clearly approximates the index specified above shall be substituted in place thereof. Seller shall provide Buyer with fifteen (15) days written notice of the adjusted prices.

Price Adjustments Due to Increased Costs. If Seller experiences increases of more than ten percent (10%) in the aggregate costs of raw materials, handling and/or transportation of the MIEX® DOC Resin in any one calendar year, or more than twenty five percent (25%) in the aggregate during any three consecutive calendar years, Seller may notify Buyer of its need to increase the prices for the MIEX® DOC Resin to reflect such increased costs (the "Cost Notice"). Promptly after receipt by Buyer of any Cost Notice, Seller and Buyer shall negotiate in good faith to arrive at a revised price for the Goods that reflects such cost increases. If the parties have negotiated in good faith but are unable to agree on a revised price within sixty (60) days after receipt by Buyer of the Cost Notice, either party may terminate the Agreement upon ninety (90) days' notice to the other party. Seller shall fill all purchase orders received prior to the effective date of the price adjustment at the prices in effect at the time the purchase order was received by Seller.

MIEX® DOC RESIN PRODUCT SPECIFICATION

IXOM

Manufacturing code	MIEX® DOC
Type	Strong Base Anion Exchange Resin
Matrix	Methacrylate-DVB/TMPTMA, macroporous

Typical properties*

Form	90% (v/v) slurry in water
Physical appearance	Opaque beads
Colour	Brown
Working pH range	3 – 10
Regeneration method	NaCl, $NaHCO_3$
Dry bulk settled density, g/mL resin	0.20 – 0.22
Capacity, meq/mL resin	0.40 – 0.44
Magnetic content, % (w/w)	24 – 25
Mean particle size, μm	200 – 250

* Product sales specifications available on request

Suggested applications

MIEX® DOC is a strong base anion exchange resin that was developed for removal of DOC (dissolved organic carbon). The resin displays excellent resistance to organic fouling. It can be used for removal of nitrate and bromide.**

MIEX® DOC Resin has been certified by the NSF as meeting all requirements for NSF/ANSI Standard 61 - Drinking Water System Components - Health Effects. The resin appears in the list of Approved Products and Processes on the Drinking Water Inspectorate (UK) website. Application areas include potable and wastewater applications.

***MIEX® resin is not usually used in a packed column. Please contact a sales office for guidance.*

NOTE: 90% v/v slurry is at time of packaging. MIEX Resin beads will further settle and pack into a more dense mass during storage and transport to customer sites over several months periods or years until used.

4/29/21 VPS/IXOM JOINT TERMS AND CONDITIONS OF SALE

These terms and conditions (collectively, "Terms and Conditions") govern all sales of products, equipment and services (collectively, "Goods") agreed to be supplied by IXOM Watercare Inc ("Seller") to any person to whom any quotation is made or who is offering to contract with the Seller ("Buyer"). The Terms and Conditions are incorporated into any order, offer, arrangement or understanding between the Seller and the Buyer (including pursuant to a quotation or letter of offer accepted by the Buyer) as well as any quotation or invoice or any other document to which they are attached (individually and collectively "Order"). All purchases by Buyer are expressly limited and conditioned upon acceptance of the Terms and Conditions and without limiting any other mode of acceptance, Buyer's acceptance of the Goods manifests Buyer's assent to the Terms and Conditions and the credit terms offered by Seller. Seller objects to and rejects any provision additional to or different from the Terms and Conditions that may appear in Buyer's purchase order, acknowledgement, confirmation, writing or in any prior or later communication from Buyer to Seller, unless Seller expressly agrees to such provision in a written amendment signed by Seller. An Order together with these Terms and Conditions are herein referred to as "Contract".

1. PRICES; TAXES; PAYMENT TERMS; DEFAULT.

(a) Prices for Goods and any adjustments to such prices shall be determined in accordance with Seller's final pricing letter or offer forming part of the Contract which has been accepted by Buyer ("Price").

(b) Prices do not include any sales, use, excise, privilege, or other taxes or assessments imposed on the Goods sold hereunder and unless Buyer provides proof of exemption satisfactory to Seller, such may be added to the price of the Goods.

(c) Subject to Section 1(e) and unless otherwise agreed in writing, payment terms are net 30 days from date of invoice. Payments not received when due shall incur service charges at the rate of 1½% per month (18% per annum) until paid, compounded on a daily basis.

(d) If any of the events set out in this Section 1(d)(i) through (v) below occur, Seller reserves the right, among other remedies, to delay or suspend further shipments or require full or partial cash payment in advance until all sums due have been paid. Buyer shall be liable for all costs and expenses incurred by Seller in collecting any overdue amounts, including without limitation reasonable attorneys' fees..

(i) Buyer defaults in any payments or is unable or states that it is unable to pay its debts as and when they fall due.

(ii) Buyer commits an act of bankruptcy, files a voluntary petition in bankruptcy or has filed against it an involuntary petition in bankruptcy or has a trustee, receiver, liquidator, custodian, conservator, manager, controller or voluntary administrator appointed in respect of Buyer's estate or any part of Buyer's property or assets.

(iii) Buyer passes a resolution for its winding up or enters into liquidation or has an application for winding up filed against it.

(iv) Buyer makes an assignment for the benefit of its creditors.

(v) Buyer experiences any analogous event having substantially similar effect to any of the events listed above.

(e) Notwithstanding Section 1(a), Seller may at any time in its sole and unfettered discretion and without being under any duty or obligation to assign reasons, review, alter or terminate Buyer's credit limit or payment terms without notice. Without limiting the generality of the foregoing, the decision of Seller shall be final and Seller accepts no liability or responsibility for any loss, howsoever arising, incurred by Buyer due to the operation of this condition.

2. SHIPMENT; DELIVERY AND RESPONSIBILITY TO PURCHASE.

(a) Unless agreed otherwise in writing, all shipments are F.C.A. Seller's or its sub-contractor's warehouse. Shipping dates are estimates only and are subject to Seller's lead time policy. Seller shall make all reasonable efforts to have Goods delivered to Buyer on or about the date or within the time frame of the Order but Seller shall not be liable for any failure or delay in delivery for any reason. Buyer is responsible for disposing of all non-returnable containers and shipping materials

(b) Purchase orders issued by Buyer and placed with Seller are irrevocable and Buyer is contractually obliged to take delivery and pay for all Goods ordered and supplied or made available by Seller pursuant to such purchase order. If Seller does not receive forwarding instructions sufficient to enable it to dispatch Goods within fourteen (14) days after notice to Buyer that such Goods are ready, Buyer shall be deemed to have taken delivery from such date and shall be obliged to pay reasonable storage charges payable on demand. Unless otherwise agreed upon by the parties in writing, if Buyer does not accept delivery or collect Goods from Seller when made available at the agreed delivery point in accordance with the Contract, Buyer also will pay Seller for storage costs and reimburse Seller for any demurrage, transport or futile delivery costs incurred by Seller.

3. TITLE; RISK OF LOSS OR DAMAGE.

Title to and risk of loss of the Goods shall pass to Buyer upon delivery to the carrier at point of shipment.

4. INSPECTION; ACCEPTANCE.

Buyer shall promptly examine the Goods for any damage or shortage or failure of the Goods to comply with the Seller's standard sales specifications or the specifications contained in or referenced in the Contract. All claims for damage or shortage of Goods shall be deemed waived unless made in writing and received by Seller within 30 days of delivery of the Goods. If Buyer finds that any of the Goods do not comply with the specifications, Buyer may, at its option, reject that portion of the Goods that fail to comply by providing Seller with a notice made in writing and received by the Seller within 30 days of delivery of the Goods. Failure to timely deliver written notice of any such claim or rejection of the Goods within the warranty period specified in this clause 4 shall be deemed an absolute and unconditional waiver of such claim for damage or shortage or a right to reject such Goods and all claims related thereto and shall constitute an unqualified acceptance of such Goods, irrespective of whether the facts giving rise to such claim shall have then been discovered or of whether use or application of the Goods shall have then taken place.

5. **RETURNS**.

Returned Goods shall not be accepted unless Buyer obtains prior written approval and transportation instructions from Seller. All Goods returned to Seller must be in full containers or cases, unopened and in the same condition as when delivered. If a return is approved by Seller, Goods may be returned for exchange or credit only. Seller shall give no cash refunds for returned Goods. Approved returned Goods are subject to a restocking charge of 15% of the invoiced value of such Goods and Buyer shall pay all transportation charges.

6. LIMITED WARRANTY.

(a) Subject to Section 6(e) and Section 7 below, Seller warrants title and that the Goods shall conform to Seller's standard sales specifications in effect at the time of manufacture or the specifications agreed by the parties in writing and contained or referenced in the Order. Equipment components not manufactured by Seller which are incorporated in the Goods may, if specified elsewhere in the Contract, be subject only to warranties of Seller's vendors and Seller hereby assigns to Buyer all such rights in such vendor's warranties and will provide reasonable assistance in enforcing such rights.

(b) Buyer is solely responsible for determining that the Goods and their specification and scope are appropriate for Buyer's intended use. Any advice or recommendations by Seller with respect to the Goods or the use of the Goods are provided in good faith based on tests or experience believed to be reliable but such advice or recommendations are not warranted. Buyer agrees that it is responsible for ensuring that Goods that comply with the warranties in Section 6(a) are fit and suitable for its purposes, requirements, processes, plant and equipment.

(c) To the maximum extent permitted by law, Seller makes no other representation or warranty of any kind, and hereby expressly disclaims all other representations or warranties, express, implied, statutory or arising from a course of dealing, usage of the trade or otherwise, including without limitation any representation or warranty as to merchantability, fitness for a particular purpose, or any other matter with respect to the goods, whether used alone or in combination with any other goods, substances processes or materials or services.

(d) In the event the exclusion of some or all of such warranties under section 6(c) for certain goods subject to this contract would be illegal, any additional warranty would be limited to the warranty required by applicable law and to the extent permitted by such law, would be subject to section 6(e) and section 7, and is conditioned upon use in accordance with label directions under normal conditions reasonably foreseeable to seller with buyer assuming the risk of any use contrary to label directions, under abnormal conditions or under conditions not reasonably foreseeable to seller.

(e) Seller's sole liability and Buyer's sole remedy for breach of warranty are specifically limited to the repair of the goods (or re-performance of services when applicable) or the cost thereof where Seller fails to perform such repair necessitate by a breach of warranty, and such liability and remedy re exclusive of all other liabilities and remedies. Should these remedies be found inadequate or to have failed of their essential purpose for any reason whatsoever, Buyer agrees that the return of the amount paid by buyer to seller for the purchase of the goods which fail to conform with the warranties set forth in section 7 shall be considered a fair and adequate remedy and prevent the remedies from failing of their essential purpose.

7. LIMITATION OF LIABILITY.

(a) The liability of Seller and its affiliates to Buyer under and in connection with the Contract is limited to the price allocable to the Goods giving rise to the claim and in no event shall the cumulative liability of Seller howsoever arising,

whether under warranty, contract, tort, negligence, strict liability, indemnification, defense or any other cause or combination of causes whatsoever, exceed the total payments received from Buyer under the Contract in connection with the Goods.
(b) To the extent permitted by law and not withstanding any provision to the contrary in the contract, Seller shall not be liable for special, indirect, incidental or consequential damages, including without limitation, and loss of profits. Loss of business revenues, loss of capital, failure to realize expected profits or savings, overhead costs, loss by reason of service interruption or increased expense of operation, loss of goodwill, loss of reputation, loss of value in any intellectual property, damages or liquidated sums payable pursuant to other agreements or to other third parties, other economic losses, whether arising under warranty, contract; negligence (including negligent misrepresentation) or other tort, strict liability, breach of statute, indemnification, or any other cause or combination of causes, including any theories of concurrent liability arising from a duty of care by operation of law or otherwise.

8. SAFE STORAGE HANDLING AND USE; ASSUMPTION OF RISK; INDEMNIFICATION.

Buyer acknowledges that it is familiar with the risks associated with the storage, handling and use of Goods and any waste resulting therefrom. Accordingly and notwithstanding anything to the contrary set forth in the Contract, Buyer covenants and warrants and shall ensure that (i) that it and its employees, agents, carriers and customers are familiar with and adhere to all necessary and appropriate precautions and safety measures to safely store, handle or use the Goods; (ii) it and its employees, agents, carriers and customers shall comply with all applicable Laws, including without limitation, environmental laws and regulations pertaining to the storage, handling and use of Goods; (iiI) shall obtain and comply with all required permits and licenses. Seller takes no responsibility for, and Buyer assumes all risks associated with waste characterization, regulatory status and chemical composition of any product, process, material, waste or substance into which the Goods are incorporated or applied. Without limiting the foregoing, Buyer shall further ensure that all storage tanks, vessels, and pipes, hoses and valves and other components used by Buyer or its employees, agents, carriers and customers to store, handle and transfer Goods which are bulk chemicals are properly installed and maintained to prevent injury, death or loss of containment during storage, handling and transfer of such Goods. If Buyer resells or distributes Goods to third parties, Buyer assumes responsibility for ensuring that it provides detailed instructions to such third parties regarding safe storage, handling and use of those Goods and any Storage Items or packaging in which such Goods are stored. To the maximum extent allowed by law, Buyer assumes all risks and liability whatsoever for all injuries, losses and damages to persons or property or otherwise and shall indemnify, defend and hold harmless Seller and Seller's employees and agents against all claims, damages, losses, costs, liabilities, and other expenses (including investigation and attorneys' fees) that Seller incurs or may be obligated to pay as a result of (i) Buyer's, its employees', agents', carriers' or customers' handling, possession, further processing, storage, use treatment, transportation, disposal, sale or other use or disposition of the Goods, whether used alone or in combination with other products, materials, substances or wastes, (ii) Buyer's, its employees', agents', carriers' or customers' violation or alleged violation of any Law, or (iii) Buyer's breach of any of its obligations set forth herein.

9. FORCE MAJEURE. Shipments or deliveries may be totally or partially suspended or delayed by Seller during any period in which the Seller may be prevented or hindered from manufacture, delivery or supply through any circumstances outside Seller's reasonable control or where such manufacture, delivery or supply is rendered materially more expensive by such circumstances. Circumstances beyond Seller's reasonable control shall include, without limitation, strikes, lockouts or other labor difficulty; acts of carriers; acts of God; acts of civil or military authorities; acts or omissions of Buyer; war; riot; fire; explosion; acts of terrorism; flood; any inability to obtain or lack of any necessary or adequate materials, inputs, fuel, power, labor, equipment, containers, facilities or services on usual terms; power or water shortage; accidents or breakdowns or failures of plant or machinery or apparatus; delays, congestions or blockages at sea ports or transport depots or software, hardware or communication network; changes in applicable Laws; or any other event, whether or not enumerated herein, beyond the reasonable control of Seller that makes impractical the manufacture, transportation or shipment of the Goods or of a material or other resource upon which the manufacture, transportation or shipment of the Goods depends. Seller shall not incur any liability to Buyer in respect of such suspension.

10. INTELLECTUAL PROPERTY.
