Next Meeting

THURSDAY, OCTOBER 14, 2021 AT 6:30 PM

If a person decides to appeal any decision made by this Council with respect to any matter considered at this meeting, he will need a record of the proceeding, and that for such purpose he may need to ensure that verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

VILLAGE COUNCIL LOCAL PLANNING AGENCY MEETING MINUTES
226 CYPRESS LANE | PALM SPRINGS | FLORIDA 33461
JULY 29, 2021, at 6:30 PM

COUNCIL	ADMINISTRATION
■ Mayor Bev Smith	■ Village Manager Richard Reade
■ Vice Mayor Gary Ready	■ Village Attorney Glen Torcivia
■ Mayor Pro Tem Doug Gunther	■ Village Clerk Kimberly Wynn
■ Council Member Joni Brinkman	
■ Council Member Patti Waller	

---

1. CALL TO ORDER

Mayor Smith called the Local Planning Agency meeting to order at 6:38 PM (Immediately following the Village Council Budget Workshop)

2. ROLL CALL

Present: Mayor Bev Smith, Vice Mayor Gary Ready, Mayor Pro Tem Doug Gunther, Council Member Joni Brinkman and Council Member Patti Waller.

Absent: None

Also present: Chief Ceccarelli, Assistant Police Chief Perez, Assistant Public Service Director Chad Girard, Director of Library Services Jossie Maliska, Assistant Village Manager Kim Glas-Castro, Village Manager Richard Reade, Chief Financial Officer Rebecca Morse, Assistant Finance Director Marianna Sanchez-Ortega, Director of Parks and Recreation Justin Lucas, Planning Zoning and Building Director, Iramis Cabrera,

Director of Information Technology Thomas Cook and Senior Manager of Administrative Services, Ashley Saingilus

3. PUBLIC HEARINGS

3.1 Ordinance No. 2021-07 - Comprehensive Plan Amendment - Property Rights Sub-Element

- Proposed Ordinance No. 2021-07 - Text Amendment - Comprehensive Plan - Property Rights Sub-Element
- Committee Substitute/Senate Bill 496
- Advertisement - Ordinance 2021-07 - Comp Plan Text Amendment - Property Rights

Mayor Smith introduced Ordinance No. 2021-07. Village Manager Reade read the staff presentation into the record. The Village Clerk read the statement of advertisement into the record.

Mayor Smith asked the Board if there was further discussion. Council Member Brinkman wanted to know if any implications would result in revisions to the Village's zoning code that affects the property owners' rights. Mrs. Cabrera said that she did not think it would be affected. Mrs. Glas-Castro added that the legislators put this together as a type of Bill of Rights. The municipalities are incorporating the ordinance in their Comprehensive Plan and then perfecting it.

Mayor Smith offered the public an opportunity to speak on Ordinance No. 2021-07.

There were no comments from the public.

Council Member Brinkman made a motion to recommend for approval Ordinance No. 2021-07 to be considered by the Village Council, seconded by Vice Mayor Ready. The motion carries 5-0.

4. ADJOURNMENT

Hearing no further discussion, Mayor Smith adjourned the meeting at 6:52 PM.

ATTEST:

_____

Bev Smith, Mayor

The undersigned is the Village Clerk of Palm Springs, Florida, and the information provided herein is the Minutes of the Local Planning Agency Meeting held on **July 29, 2021**. Which minutes were formally approved and adopted by the Village Council on **September 23, 2021.**

_____
Kimberly M. Wynn, Village Clerk

If a person decides to appeal any decision made by this Council with respect to any matter considered at this meeting, he will need a record of the proceeding, and that for such purpose he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. Persons who need an accommodation in order to attend or participate in this meeting should contact the Village Clerk at (561) 965-4010 at least 3 business days prior to the meeting in order to request such assistance.

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Administration

ITEM 6.2: Approval of Village Council Meeting Schedule - FY 2022

SUMMARY: The Village Charter and the Code of Ordinances requires the Council to hold at least one (1) meeting per month. As a result, the Village Council is requested to approve the proposed meeting schedule for Fiscal Year (FY) 2022:

2021

- Thursday, October 14, 2021
- **Thursday, November 18, 2021** *(Meeting date changed in observance of Veteran's Day Holiday)*
- Thursday, December 9, 2021

2022

- Thursday, January 13, 2022
- Thursday, February 10, 2022
- Thursday, March 10, 2022
- Thursday, April 14, 2022 [CRA Meeting at 6:00 PM]
- Thursday, May 12, 2022
- Thursday, June 9, 2022
- Thursday, July 7, 2022
- Thursday, July 21, 2022 - Budget Workshop/Regular Village Council Meeting - 5:30 PM
- **Thursday, August 18, 2022** *(Meeting date changed to 3rd Thursday due to conflict with FLC Conference - August 11-13, 2022)*
- Thursday, September 8, 2022 [CRA Meeting at 6:00 PM] *(First Reading/First Budget Hearing)*
- Thursday, September 22, 2022 *(Second Reading /Final Budget Hearing)*
- Thursday, October 13, 2022

Note: Council Meetings begin at 6:30 PM, except for the July 21st meeting, which will start at 7:00 PM, or immediately following the Budget Workshop Meeting. Additional meetings may be scheduled as needed.

FISCAL IMPACT:

The proposed meeting schedule does not have a direct fiscal impact to the Village.

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Administration

ITEM 6.3: Approval of Insurance Renewal (FY 2022) - Property, Casualty, Liability, Special Coverage & Workers Compensation - Florida Municipal Insurance Trust (FMIT)

SUMMARY:

Recently, the Gehring Group, the Village's contracted insurance broker, has gone out to the insurance marketplace to request proposals and identify the FY 2021/2022 annual rates for property, casualty, liability and workers compensation insurance. As a result, Gehring Group received two (2) responses and is recommending that the Village remains with our current carrier, Florida League of Cities (FMIT), for this upcoming plan year, which would provide the Village with the following benefits:

1. Consistency with a single carrier will assist with current and future premium pricing
2. Maintaining the current carrier would significantly reduce the education and coverage-related issues associated with changing to another company
3. Continuity with adjusters assists to expedite the closing of outstanding claims
4. Provide the highest level of benefits
5. Turnkey Recovery program through Synergy NDS, assists with seamless management of all property damage claims.

In accordance with the Village's Procurement Code (Sec. 58-2. Exempt Purchases.) and following receipt of both bids to provide insurance coverage, Gehring Group began negotiating directly with our current carrier, Florida League of Cities (FMIT) to achieve the following proposed premium rates for FY 2021:

Coverage Type	Current Rates - FY 2021	Proposed Rates - FY 2022
Property & Equipment	$116,581	$125,656
General Liability*	$184,980	$135,768
Auto Liability & Auto Physical Damage	$87,685	$89,964
Workers' Compensation	$393,762	$398,905
Pollution Liability	$3,472	$3,472
Statutory AD&D	$2,946	$2,910
LESS: Return of FMIT Premium Credit	N/A	N/A
Total Annual Premium	**$789,426**	**$756,675**

*Includes Public Officials Liability & Employment Practice Liability and Law Enforcement Liability, and Cyber Security is also included.

Note: Due to the recent catastrophic events worldwide and the steep rise in reinsurance costs, FMIT's annual Return of Premium Credit program was suspended by its board of governors in 2019. It has not been reinstituted for FY 21/22.

Initially, the Gehring Group projected that the Village may experience a 12% increase for FY 2022 due to increases in Property Insurance (due to recent hurricane storm events) and Employment Practices Liability and Law Enforcement Liability. However, through negotiations with FMIT, the Village received an annual premium of $750,293, this is a -4.1% decrease over the FY2021 annual premium. This was an estimated $133,317 savings from Gehring's original projection. Therefore, the Gehring Group recommends that the Village remain with FMIT and continue its coverage. The proposed annual premium has been reviewed by the Village Clerk (who manages our insurance program) and the Finance Director.

If approved, the Village would accept the Florida Municipal Insurance Trust's (FMIT) pricing including all terms, conditions, and pricing. The term of the proposed contract would be for one (1) year and would expire on September 30, 2022. The Village will not expend more than the amount in the approved budget as it may be adopted/approved each year for these goods and services for the term of the contract.

The Village's Procurement Code, Section 58-2. - Exempt purchases., provides that the following goods and/or services are approved as exempt purchases when they are included in the adopted annual budget. Exempt purchases are exempt from the competitive selection purchase requirements set forth in this purchasing code: (29) Payments for casualty and property insurance after approval of the contract by Village Council.

The proposed annual premiums were prepared by FMIT and reviewed by the Gehring Group, the Village Clerk (who manages our insurance program) and the Finance Director.

If approved, the Village's new premiums for FY 2022 will be effective beginning October 1, 2021.

FISCAL IMPACT:

The proposed premiums are included within the proposed FY 2022 Budget - General Fund and Water and Sewer Enterprise Fund.

The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

Gehring Group Executive Summary (Renewal)
Palm Springs FMIT Renewal Evaluation 2021-2022
Gehring Group 2021 Property and Casualty Market Outlook

Village of Palm Springs

Property, Casualty & Workers' Compensation

Executive Summary

Effective Date: October 1, 2021

The Gehring Group sought out competitive proposals from alternative Property & Casualty Insurance providers for the 2021/2022 fiscal year policy term. Of the responders who have programs, specific to the concerns of governmental entities, only two could package all lines of coverage for the Village of Palm Springs at a competitive annual premium. They were the incumbent, Florida Municipal Insurance Trust (FMIT) and the Preferred Governmental Insurance Trust (PGIT).

The Florida Municipal Insurance Trust, the incumbent property, casualty and workers' compensation insurance carrier for the Village of Palm Springs, has provided a renewal proposal for FY 2021/2022 with regards to Property & Inland Marine, General Liability, Public Officials Liability, Employment Practices Liability, Law Enforcement Liability, Auto Liability & Physical Damage and Workers' Compensation insurance coverage. They proposed an overall renewal premium of $756,675 which represents a decrease of $32,751, or -4.1% versus the expiring premium of $789,426.

Because of the ongoing, annual catastrophic losses from hurricanes, earthquakes, and wildfires that have devastating affect worldwide, reinsurers have significantly increased their costs to underwrite global property losses. Therefore, FMIT board members elected to suspend the Return of Premium (ROP) credit as of FY 2019/2020.

In addition, the Village of Palm Springs also secures its Pollution Liability Insurance through FMIT's Pool package written through Allied World Assurance CO. (AWAC), and statutorily required Accidental Death & Dismemberment for its Police officers from National Union Fire Ins. Co.

Overall, the total annual premiums for the Pollution Liability and insurance Statutory AD&D insurance policy coverages are $6,382, a decrease of 0.6% versus the combined expiring premiums of $6,418.

Summary

Gehring Group recommends that the Village of Palm Springs renew its Property, Inland Marine, General Liability, Automobile, Workers' Compensation and Crime coverages with the FMIT for the package premium of $750,293; and renew its Pollution Liability and Statutory AD&D policies with AWAC and National Union Fire Ins. Co., respectively, for a combined premium of $6,382.

The overall program cost for the Village of Palm Spring's FY 2021/2022 Property & Casualty and Workers' Compensation program is $756,675.

Challenges Remain

2020 was a year unlike any other. A pandemic, domestic civil unrest, economic uncertainty, new norms, an election cycle and a multitude of weather and climate disaster events with losses exceeding $1 billion have all changed the way we live, work, conduct business and interact with each other. In short, 2020 was a year of massive upheaval across society.

Like many other sectors of the economy, the commercial insurance industry is experiencing changes to both its market cycles and its operating procedures. In particular, 2020 brought an acceleration of a hardening insurance marketplace—one that is less friendly to insurance buyers—which is now nearly two years old. Capacity has left the market, reinsurance has become more expensive, underwriting has gotten stricter and, most importantly, premiums are on the rise for nearly every line of insurance.

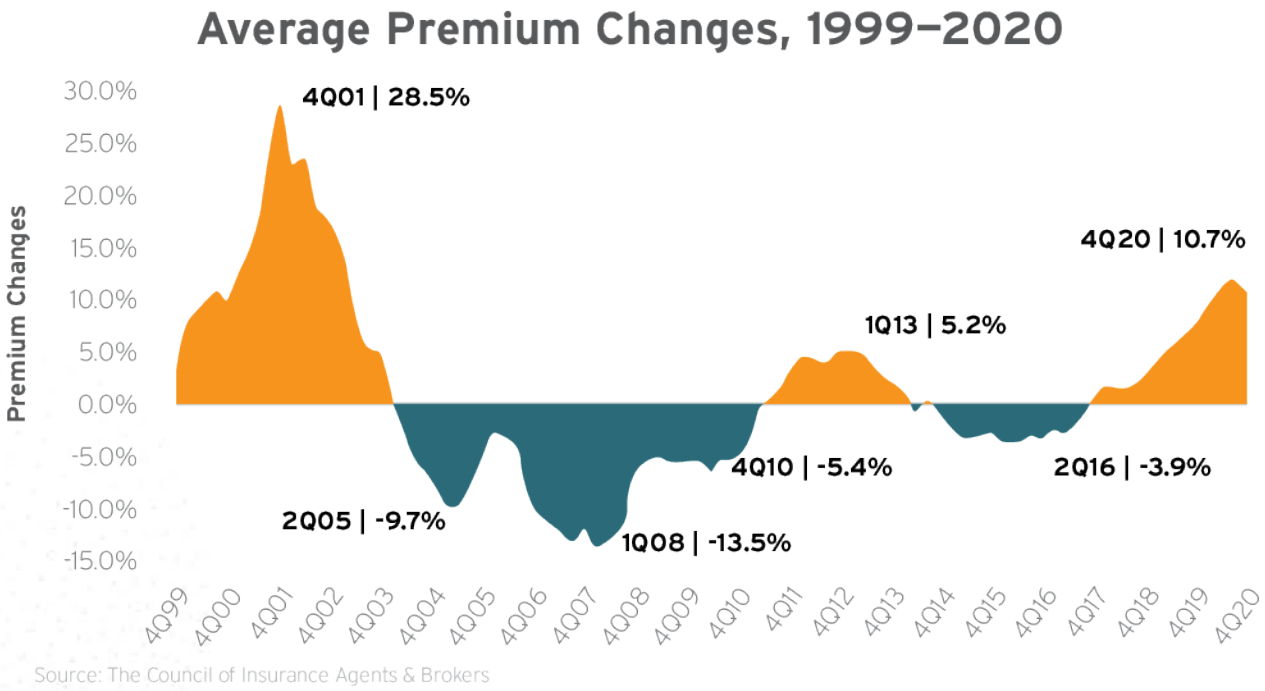
While the effects of this hardening insurance market on your business will depend on a variety of factors, many businesses will see premium increases for their insurance coverage in 2021. In fact, for some lines of insurance, businesses may see double-digit rate increases at their next renewal.

Beyond that, managing a business today is more challenging than ever. Organizations must account for dynamic, short- and long-term trends in their industry, while also addressing trends that affect the economy as a whole. What's more, all of this is unfolding at a time when the COVID-19 pandemic has upended life and business as we know it.

Throughout the past year, the world has had to navigate a series of lockdowns, surges in COVID-19 cases and frequently changing public health guidelines related to the pandemic. As such, organizations across industry lines have had to make significant adjustments to their daily operations. Between temporary closures, widespread remote work arrangements, mass layoffs and furloughs, updated workplace layouts, reopening plans, and varying state and local restrictions, running a successful business in the midst of the COVID-19 pandemic has been anything but simple. Further, COVID-19 has led to many complications in the insurance market—creating additional exposures across practically every line of coverage, elevating underwriting losses and motivating the development of various policy restrictions. And while the COVID-19 vaccine rollout offers hope for an eventual return to normalcy, much of the ramifications stemming from the pandemic are expected to carry on for years to come.

While this is unwelcome news for many businesses, they are not powerless. Now more than ever, it's essential for businesses to take a proactive approach when it comes to their risk management efforts and their insurance policies. Put another way, in an insurance and risk environment with many unknowns, businesses should focus on addressing the factors they can influence.

Nevertheless, you are not in this alone. To help you navigate the hardening market, you need an insurance professional who understands your business and its unique risks, and will advocate on your behalf. Secondly, you need insurance professionals who can tell your story to insurance carriers in a way that will best position your business come renewal time. Third, you need to work with an insurance professional who understands the dynamics of the current insurance market cycle and how to navigate businesses through a hard market. Finally, you need an insurance professional who fully understands your industry, the dynamic insurance landscape and how to provide targeted loss control solutions.



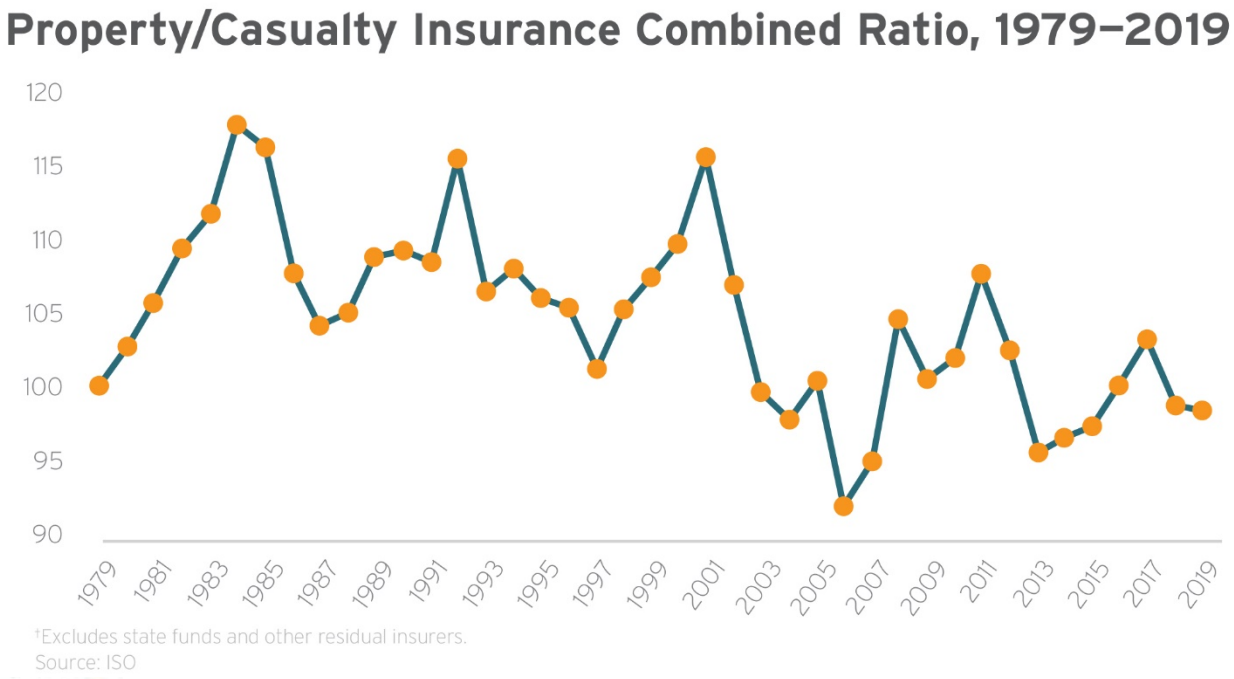
Remember, in these challenging times, Gehring Group is here to provide the insurance guidance and expertise your business needs.

The Insurance Market Cycle: Hard vs. Soft Markets

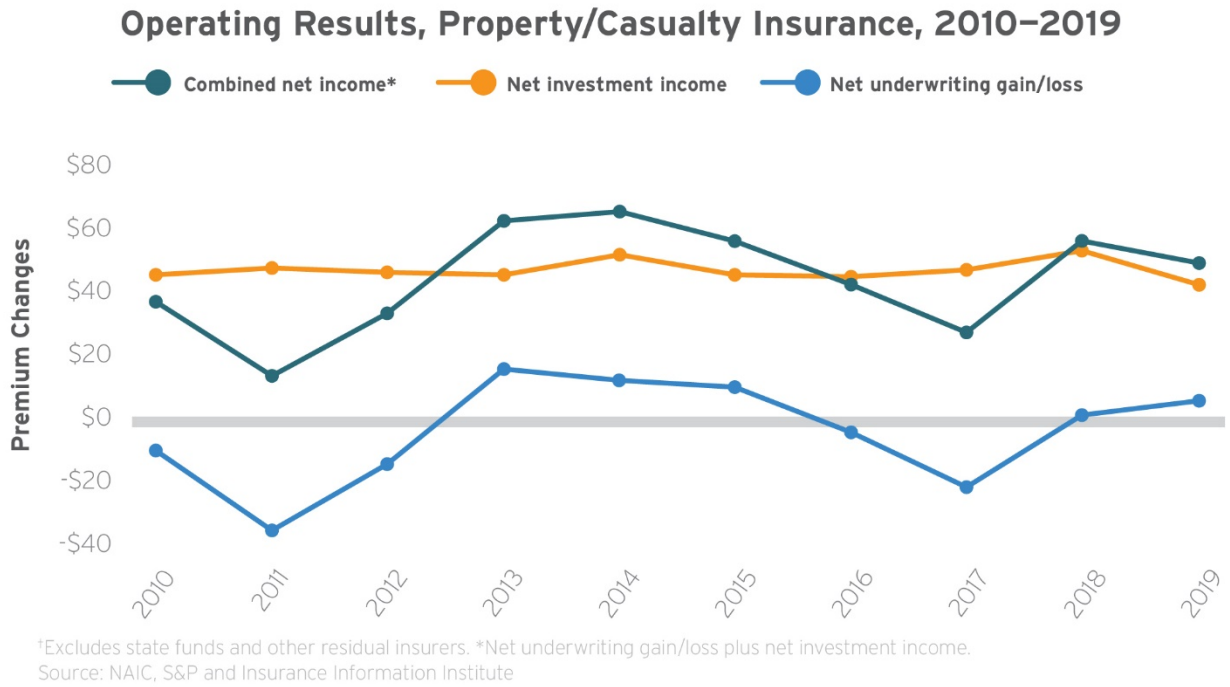
The commercial insurance market is cyclical in nature, fluctuating between hard and soft markets. These cycles affect the availability, terms and price of commercial insurance, so it's helpful to know what to expect in both a hard and soft insurance market.

A **soft market**, which is sometimes called a buyer's market, is characterized by stable or even lowering premiums, broader terms of coverage, increased capacity, higher available limits of liability, easier access to excess layers of liability and competition among insurance carriers for new business. On the other hand, a **hard market**, which is sometimes called a seller's market, is characterized by increased premium costs for insureds, stricter underwriting criteria, less capacity, restricted terms of coverage and less competition among insurance carriers for new business.

During a hard market, some businesses may receive conditional or nonrenewal notices from their insurance carrier. What's more, during hard market cycles, insurance carriers are more likely to exit certain unprofitable lines of insurance.



Source: The Council of Insurance Agents & Brokers



In what was one of the longest soft markets in recent years, businesses across most lines of insurance enjoyed stable premiums and expanded terms of coverage for decades. While the commercial insurance market hardened for a short period of time after the terrorist attacks of Sept. 11, 2001, the last sustained hard market occurred in the 1980s. However, after years of gradual changes, the market is firming, leading to increased premiums and reduced capacity.

A number of different factors affect insurance pricing, but the following are common contributors to the hardening market:

- **Catastrophic (CAT) losses—**Floods, hurricanes, wildfires and similar disasters are increasingly common and devastating. Years of costly disasters like these have compounded losses for insurers, driving up the cost of coverage overall, especially when it comes to commercial property policies.
- **Inconsistent underwriting profits**—Underwriting profits refer to the difference between the premiums an insurer collects and the money it pays out in claims and expenses. When an insurance company collects more in premiums than it pays out in claims and expenses, it will earn an underwriting profit. Conversely, an insurance company that pays more in claims and expenses than it collects in premiums will sustain an underwriting loss. An insurance company's combined ratio after dividends is a measure of underwriting profitability. This ratio reflects the percentage of each premium dollar an insurance company puts toward spending on claims and expenses. A combined ratio above 100 indicates an underwriting loss. Insurance companies generally do not generate profits from their underwriting operations. In the past 10 years, the commercial insurance industry has only had a combined ratio under 100 four times.

- **Mixed investment returns**—Insurance companies also generate income through investments. Commercial insurance companies typically invest in a variety of stocks, bonds, mortgages and real estate investments. Due to regulations, insurance companies invest significantly in bonds. These provide stability against underwriting results, which can vary from year to year. When interest rates are high and returns from other investments are solid, insurance companies can make up underwriting losses through their investment income. But when interest rates are low—like they currently are—insurers must pay close attention to their underwriting standards and other investment returns.

†Excludes state funds and other residual insurers. *Net underwriting gain/loss plus net investment income.
Source: NAIC, S&P and Insurance Information Institute

- **The economy**—The economy as a whole also affects an insurance company's ability to write new policies. During periods of economic downturn and uncertainty, some businesses may purchase less coverage or forgo insurance altogether. A business's revenue and payroll, which factor into how premiums are set, may decline. This creates an environment where there is less premium income for insurers.
- **The cost of reinsurance**—Generally speaking, reinsurance is coverage for insurance companies. Carriers often buy reinsurance for risks they can't or don't wish to retain fully, including those for severe weather events like hurricanes and wildfires. It's a way for primary insurers to protect against unforeseen or extraordinary losses. As a result, reinsurance helps to stabilize premiums for regular businesses by making it less of a risk for insurance carriers to write a policy. However, reinsurers have exposures to many of the same events and trends that are affecting insurance companies. For 2021, reinsurance is becoming more expensive to obtain, which is reflected in the overall cost of insurance for businesses.

Additional Factors That Influence Your Insurance Rates

In addition to the above, the following are additional factors that may influence your insurance rates:

The coverage you're seeking—The forms of insurance you're seeking, as well as the details of the coverage (e.g., limits of liability and value of insured property), will affect your insurance pricing.

The size of your business—As a general rule, the more employees your business has and the larger your revenue is, the higher you will pay for your insurance.

The industry in which you operate—There are certain industries that carry more risk than others. In general, businesses in these sectors are more likely to file an insurance claim. As a result, businesses involved in risky industries tend to, on average, pay more in insurance premiums.

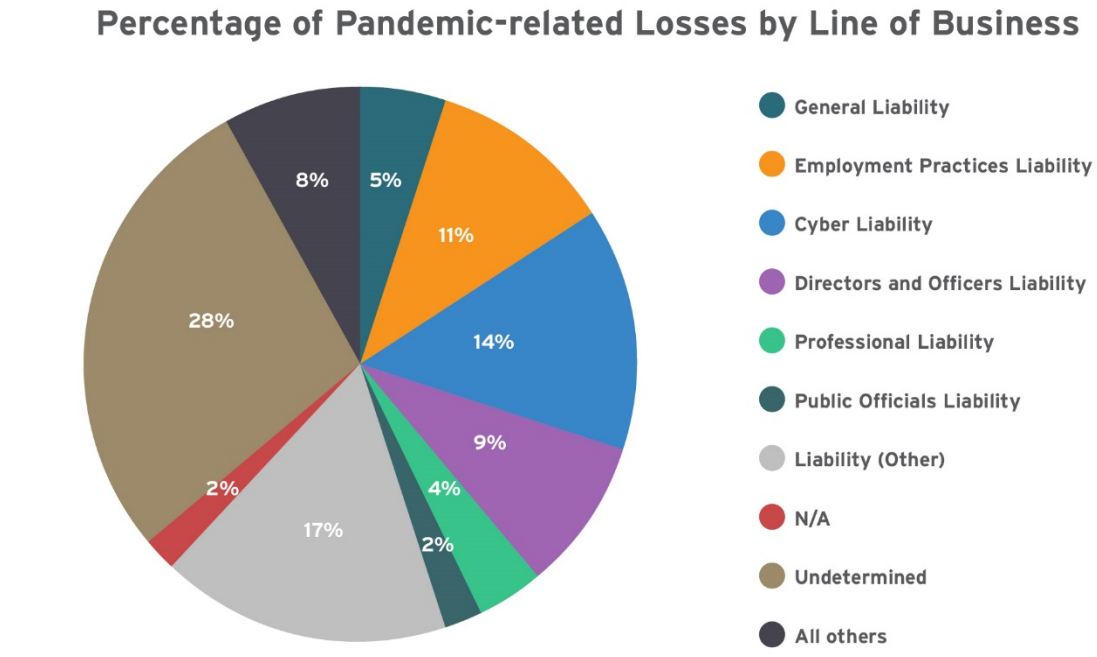
The location of your business—The location of your business will also influence your commercial insurance rates. If your business is located in an area prone to certain natural disasters, insurers may determine that your facility is more at risk for property damage. This increased risk will translate to higher insurance premiums.

Your claims history—Your business's claims history, often referred to as your loss history, will also have an impact on insurance rates. If your business has an extensive claims history, then insurance carriers will tend to consider your company more likely to file future claims. This, in turn, means that your business will be viewed as risky to insure, subjecting you to higher commercial insurance premiums.

Your risk management practices—Now more than ever, conducting a careful assessment of your business's unique exposures and establishing effective, well-documented risk management practices can make your establishment more attractive to insurance carriers. After all, having a robust risk management program in place reduces the likelihood of costly claims occurring, as well as minimizes the potential losses that your business could experience from an unexpected event.

Put simply, during a hard market, insurance buyers may face complex considerations regarding their insurance coverage. Thankfully, businesses are not without recourse in the face of a hard market. Organizationswho proactively address risk losses and manage exposures will be better prepared for a hardening market than those who do not. Furthermore, those who educate themselves on the trends that influence their insurance will have a greater understanding of what can be done to influence their insurance rates.

Trends to Watch in 2021



Insurance experts often examine how outside influences and trends affect the insurance marketplace, and businesses should follow suit to determine what factors impact their insurance coverage. For 2021, there are a number of sweeping market developments to consider.

COVID-19

Over the past year, the COVID-19 pandemic has essentially become one of the most significant public health crises that the world has ever seen, disrupting life as we know it. While the initial response to the pandemic resulted in millions of individuals across the United States being subject to stay-at-home orders and only essential businesses remaining open, organizations of all sizes and sectors have begun reopening in accordance with federal, state and local restrictions—whether it be remote or in person.

However, as COVID-19 cases continue to rise and fall, and the vaccine rollout progresses, widespread implications of the pandemic remain. Specifically, the insurance market has encountered a range of difficulties related to COVID-19. Namely, increased risks and losses stemming from the pandemic have complicated underwriting and renewal processes across most lines of coverage. Underwriter scrutiny is at an all-time high, with every aspect of policyholders' risk profiles being closely reviewed, and some underwriters refusing to consider classes of business with elevated COVID-19 exposures altogether. While deductible and premium costs are rising, capacity has decreased due to COVID-19, with more stringent coverage conditions and policy exclusions emerging for pandemic-related losses. Essentially, insurance carriers are being increasingly cautious toward taking on an excess of COVID-19 risks—making it crucial for businesses to have measures in place to minimize potential COVID-19 exposures.

Overall, the COVID-19 pandemic has significantly tested the preparedness of businesses everywhere. Moving forward, it's critical to take a hard look at your continuity and disaster response plans. You should also partner with experts who not only understand the risks your business faces on a daily basis, but can also help you prepare for the unexpected. This is particularly vital during times of uncertainty.

Spotlight on Social Inflation

As an insurance buyer, you may have heard the term "social inflation" used to explain one of the factors driving up the cost of insurance in today's market. In general, this term refers to societal trends that influence the ever-rising costs of insurance claims and lawsuits. As the insurance market changes, it's important for businesses to understand what's currently driving social inflation.

Litigation Funding

One of the factors driving social inflation has to do with increased litigation or, more specifically, litigation funding. Litigation funding is when a third party provides financing for a lawsuit. In exchange, the third party receives a portion of the settlement. In the past, the steep cost of attorney fees would often scare plaintiffs away from taking a lawsuit to trial. But, through litigation funding, most or all of the costs associated with litigation are covered by a third party, which has increased the volume of cases being pursued.

Not only is litigation funding becoming more common, but it also increases the cost of litigation, sometimes to seven figures. This is because plaintiffs are able to take cases further and seek larger settlements.

Tort Reform

Tort reform refers to laws that are designed to reduce litigation. Specifically, tort reforms are used to prevent frivolous lawsuits and preserve laws that prevent abusive practices against businesses.

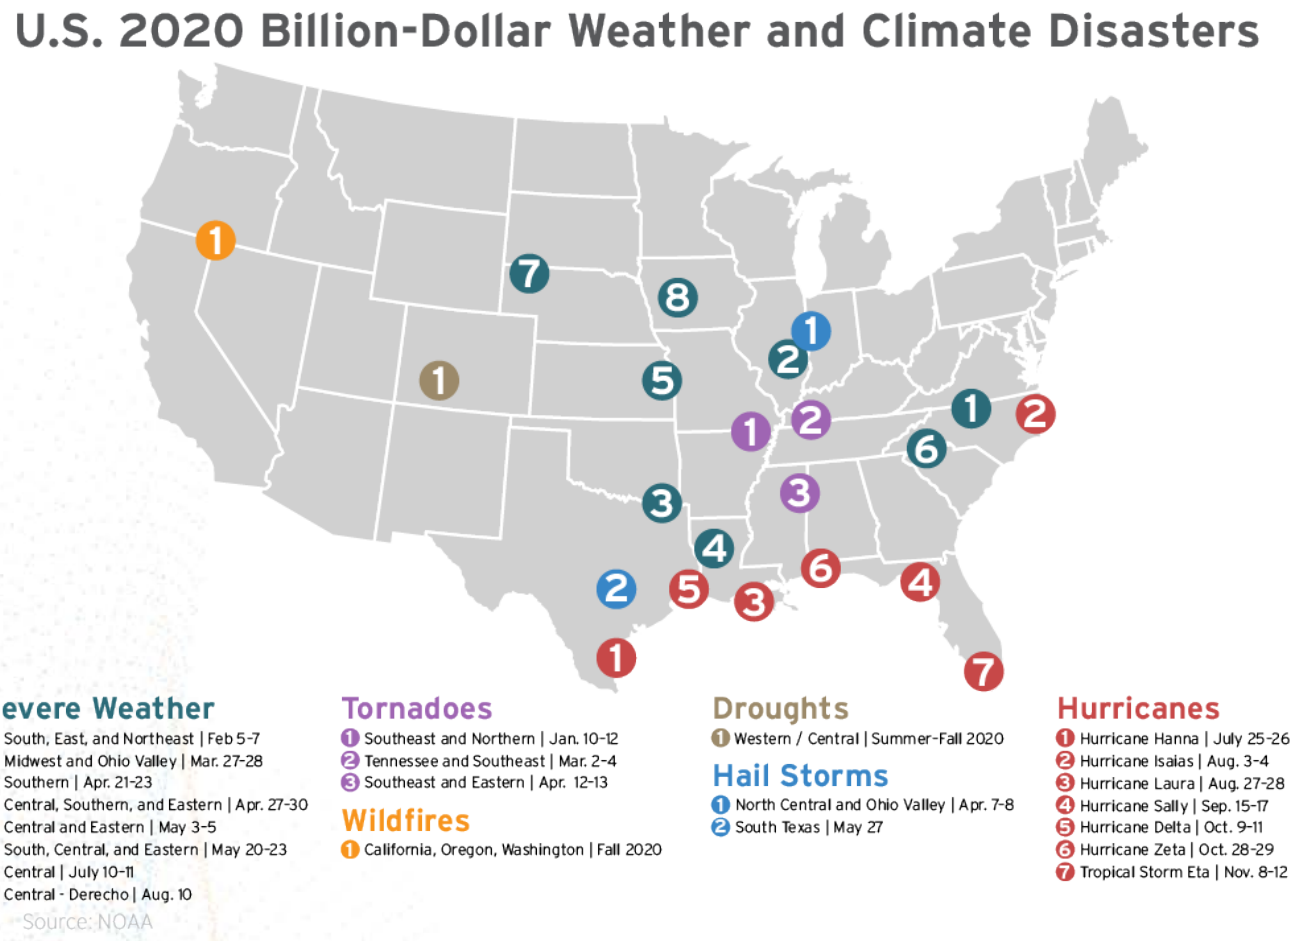
Many states have enacted tort reforms over the last several decades, leading to fewer claims and caps on punitive damages. However, in recent years, a number of states have modified tort reforms or challenged them as unconstitutional. Opponents believe tort reforms lower settlements to the point where attorneys are less likely to take on new cases and help victims get justice for their injuries or other damages.

Further complicating matters, tort reform is subject to uncertainty, as it's largely tied to political leanings and the interests of individual states. Should tort reform continue to erode, there could be fewer restrictions on punitive and noneconomic damages, statutes of limitations and contingency fees—all of which can drive up the cost of claims and exacerbate social inflation.

Plaintiff-friendly Legal Decisions and Large Jury Rewards

The overall public sentiment toward large businesses and corporations is deteriorating, and anti-corporate culture is more prevalent than ever. A number of factors are contributing to this increasing distrust, including highly publicized issues related to the mishandling of personal data and social campaigns.

This has had a considerable impact on how businesses are perceived by a jury in court, and organizations are held to a high standard for issues related to the way they conduct their business. In fact, juries are increasingly likely to sympathize with plaintiffs, especially if a business's reputation has



been tarnished in some way in the past. As a result, plaintiff attorneys are likely to play to a jury's emotions rather than the facts of the case.

Compounding this issue, there's an increasing public perception that businesses—particularly large ones—can afford the cost of any damages. This means juries are likely to have fewer reservations when it comes to awarding damages. In the current environment, nuclear verdicts (awards of $10 million or more) have become more common.

Extreme Weather Events Examined

Extreme weather events—like hurricanes, tornadoes, hailstorms and wildfires—continue to make headlines as they become increasingly devastating and costly. Making matters worse, these events aren't limited to one geographic area or weather event, impacting businesses and residents across the United States.

In 2020, wildfires once again plagued the West Coast, recording a year-end total of more than 58,000 wildfires. Widespread drought and several heatwaves in the Western and Central United States contributed to approximately $4.5 billion in damages. Hundreds of tornadoes wreaked havoc across over 15 Southeastern and Northeastern states, while hailstorms, strong winds and heavy snow totaled over $5 billion in damages throughout the Midwest. On the East Coast, the 2020 hurricane season resulted in a record-breaking number of storms, causing over $40 billion in damages and affecting multiple states along the Atlantic Ocean.

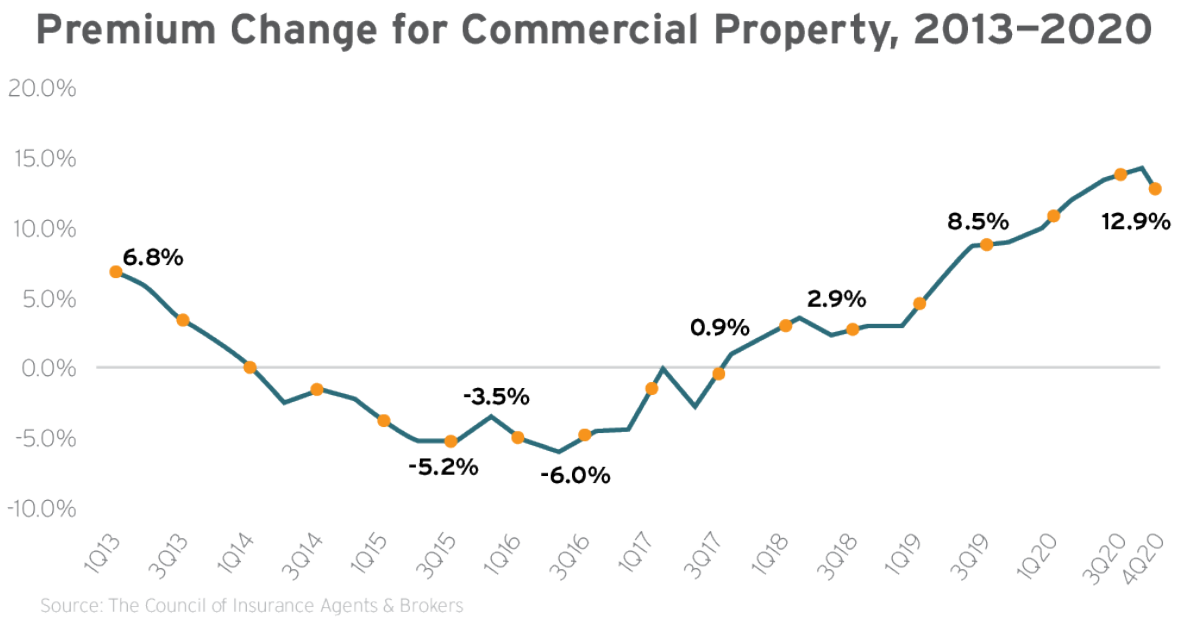
Many experts believe severe storms, extreme temperatures, wildfires and flooding are the new norm. As these catastrophes become more frequent, the insurance industry will need to come up with innovative solutions to keep up with weather-related losses. Moving forward, expect to see more emphasis around weather readiness, especially from an insurer's perspective.

Social Movements

Several social movements rose to prominence throughout the course of 2020, with the implications of these movements expected to affect organizations for years to come. The Black Lives Matter movement—which initially was founded in 2013 but resurged this past summer in the form of nationwide protests and civil unrest—has pushed for increased accountability (both at the corporate and individual level) regarding racial injustice, as well as encouraged organizations of all sizes and sectors to make strides in promoting racial equality and diversity within their workforce.

In addition to the Black Lives Matter movement, the #MeToo movement—which is an anti-sexual harassment campaign that was founded in 2006 but resurged in 2017 across social media—has repeatedly reigned as a relevant topic for many organizations in recent years. Since its resurgence, this movement has led to a sharp increase in work-related sexual harassment claims—especially as it relates to employees alleging sexual harassment from senior leadership. The movement has highlighted the need for all organizations to implement sexual harassment prevention and response measures (e.g., a zero-tolerance policy, awareness training and well-documented reporting procedures).

As a whole, both of these movements have contributed to the rising trend of increased corporate accountability in regard to social issues, thus elevating the risk of employment-related claims alleging discrimination, harassment or other forms of unfair treatment. Moving forward, it's important for employers to respond accordingly in the midst of such social movements, routinely adjusting organizational practices to ensure a positive, inclusive and diverse work environment. Failing to do so could result in increased losses and subsequent claims, as well as severe reputational damages. Policyholders who take the necessary actions to avoid such claims by documenting workplace inclusivity, diversity and social awareness initiatives may reap the benefits of reduced premiums.



2021 Market Outlook Forecast Trends

Price forecasts are based on industry reports for individual lines of insurance. Forecasts are subject to change and are not a guarantee of premium rates. Insurance premiums are determined by a multitude of factors and differ per organization. These forecasts should be viewed as general information and not insurance or legal advice.

LINE OF COVERAGE	PRICE FORECAST
Commercial property	**Overall:** +8% to +25% **High risk/CAT exposed/poor loss history:** +25%
General liability	**Overall:** +8% to +18%
Excess and umbrella liability	**High risk**: +50% or more **Low to moderate risk:** +30% or more
Commercial auto	**Overall**: +7% to +25%
Workers' compensation	**Overall:** Flat to +7%
Cyber liability	**Overall:** +14% to +32%
Directors and officers liability	**Public entities:** +20% to +70% or more **Private/nonprofit entities:** +10% to +50%
Employment practices liability	**Overall:** +14% to +31%

Commercial Property

The commercial property market has steadily hardened in recent years, resulting in rate increases every quarter since Q3 2017. Unfortunately, these rate increases—as well as additional policy restrictions—are expected to continue in 2021.

Such unfavorable market conditions are the result of a record-breaking season of natural disasters (e.g., wildfires, hurricanes, windstorms, hail and floods) and the ongoing COVID-19 pandemic. An uptick in losses stemming from these trends has forced commercial property insurance carriers to elevate policyholders' premium costs and implement more restrictive coverage terms.

We predict that many insureds will experience double-digit rate increases, lowered available capacity, higher sub-limits, and various policy restrictions or exclusions—especially regarding losses tied to weather events or the COVID-19 pandemic. Policyholders who conduct high-risk operations with poor loss control practices or are located in natural disaster-prone areas may encounter more severe rate changes, higher retentions and decreased coverage limits.

2021 Price Prediction

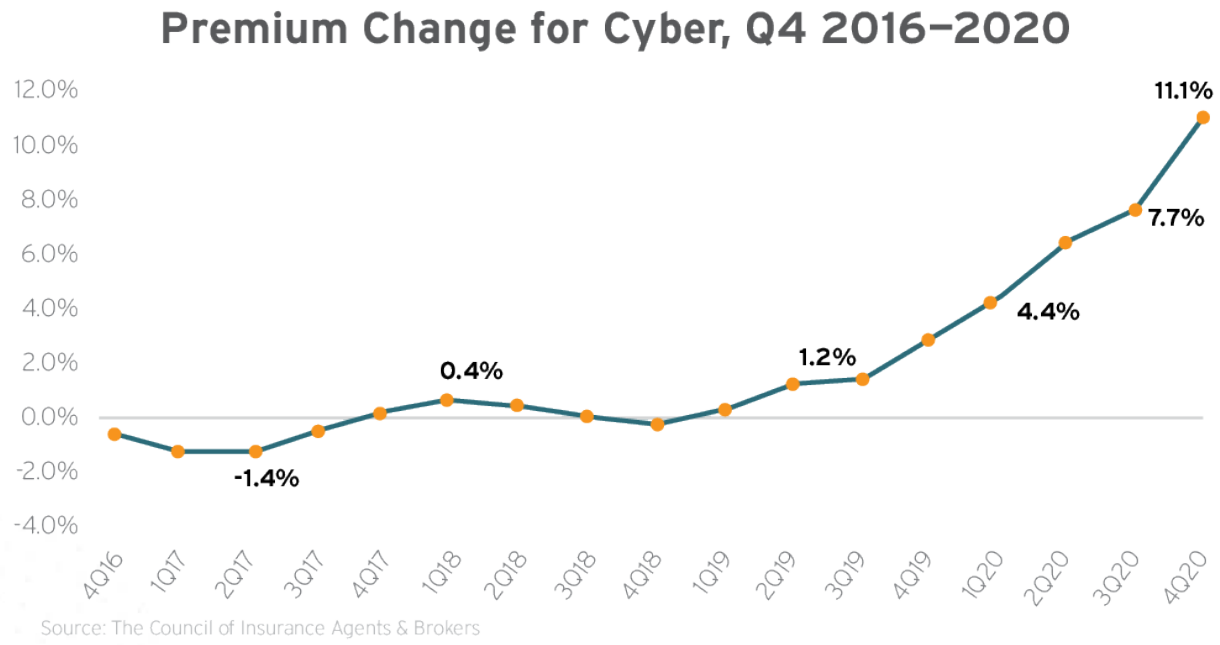
Non-CAT exposed: **+8% to +20%**
CAT exposed: **+10% to +25%**
CAT exposed with poor loss history: **+25% to +40%**

Trends to Watch

- **Natural disasters—** According to the National Interagency Fire Center, the 2020 wildfire season resulted in over 58,000 wildfires—burning double the number of acres impacted in 2019 and destroying more than 10,000 structures across North America. In addition to wildfires, the National Oceanic and Atmospheric Administration reported that the 2020 Atlantic hurricane season produced a record-breaking 30 named storms, totaling $47 billion in overall costs. What's worse, many climate

experts predict that both the frequency and severity of natural disasters will continue to worsen in the coming years. These catastrophes often leave behind devastating property damage for affected establishments, leading to significant rebuilding concerns.

- **Civil unrest incidents—**Occurrences of civil unrest—which have taken place in communities throughout the country in the past year—can create unique challenges for organizationsand their commercial properties. Namely, these incidents can leave businesses vulnerable to vandalism, stolen or damaged goods, and extensive property damage. Apart from physical damages, civil unrest can also force establishments to temporarily close or alter business hours to ensure employee and customer safety, resulting in lost income.
- **Property coverage and the pandemic—**Although a significant number of businesses have encountered severe interruptions related to the ongoing COVID-19 pandemic, many establishments haven't been able to receive financial relief through their business interruption policies. While some businesses were granted a limited amount of protection from their property insurance policies for such losses, most businesses have encountered unresponsive policies stemming from either virus- and bacteria-related coverage exclusions or a lack of physical property damage—which is often a necessary policy trigger for business interruption claims. Despite numerous lawsuits between insureds and carriers regarding these policy concerns, most courts have continued to deny coverage. Going forward, the majority of commercial property policies issued after the emergence of COVID-19 have incorporated specific exclusions for losses pertaining to communicable diseases or the pandemic. Although some carriers offer policy extensions (e.g., infectious disease insurance) for this particular exposure, these extensions have become increasingly difficult to obtain.



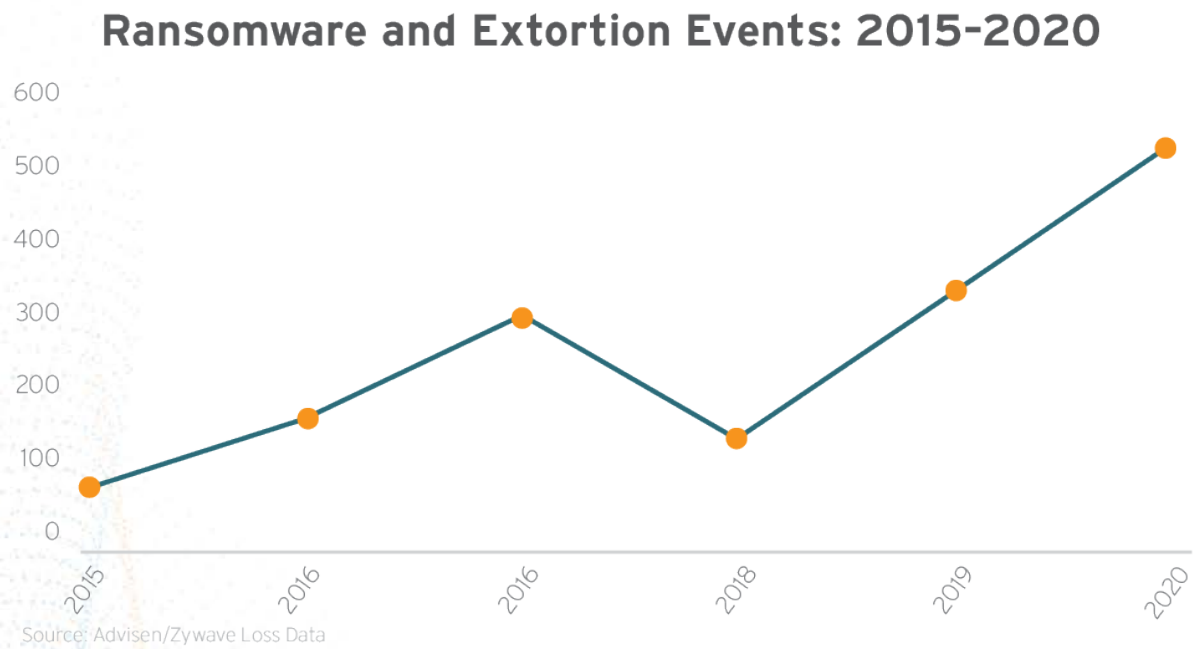
Tips for Insurance Buyers

- Work with your insurance professionals to begin the renewal process early. Many commercial property insurers are seeing an increased submission volume. Timely, complete and quality submissions are vital to ensure your application will be reviewed by underwriters.
- Determine whether you will need to adjust your business' retentions or limits to manage costs.
- Gather as much data as possible regarding your existing risk management techniques. Be sure to work with your insurance professionals to present loss control measures you have in place.
- Conduct a thorough inspection of both your commercial property and the surrounding area for specific risk management concerns. Implement additional mitigation measures as needed.
- Analyze your organization's natural disaster exposures. If your commercial property is located in an area that is more prone to a specific type of catastrophe, implement mitigation and response measures that will protect your property as much as possible if such an event occurs (e.g., installing storm shutters on windows to protect against hurricane damages or utilizing fire-resistant roofing materials to protect against wildfire damages).
- Develop a documented business continuity plan (BCP) that will help your organization remain operational and minimize damages in the event of an interruption. Test this BCP regularly with various possible scenarios. Make updates when necessary.
- Address insurance carrier recommendations. Insurers will be looking at your loss control initiatives closely. Taking the appropriate steps to reduce your risks whenever possible can make your business more attractive to underwriters.

Cyber Liability

Although the last few years have seen increased competition among cyber insurance carriers, higher capacity and expanded coverage terms, rapidly evolving cyber threats have led to a hardening market. Across industry lines, cyberattacks have surged in both cost and frequency, resulting in a rise in cyber liability claims and subsequent underwriting losses.

In fact, according to recent research from IBM and the Ponemon Institute, the average cost of a data breach in the United States jumped to $8.19 million in 2020—representing an increase of 5.3% since 2019. Driving factors contributing to this hardening market include remote work exposures as a result of the ongoing COVID-19 pandemic, elevated ransomware concerns, regulatory ramifications surrounding data privacy and fallout from the SolarWinds hack.



In light of these market conditions, we predict that most policyholders will experience higher cyber liability insurance rates in 2021. Besides increased premium costs, insureds may also encounter coverage restrictions or exclusions for losses stemming from specific types of cyber incidents (e.g., ransomware attacks), while still having more generous coverage terms for other exposures. Policyholders who operate in industries with more pronounced cyber exposures (e.g., education, technology, health care, finance, retail and hospitality) or generate higher revenue levels may experience more severe rate increases.

2021 Price Prediction

Overall: **+14% to +32%**

Trends to Watch

- **Push for standalone policies—**While many businesses have sought to secure protection from cyber exposures within their traditional property and liability policies throughout the past decade, standalone cyber liability policies have become an increasingly important purchase for establishments across industry lines. In the midst of growing cyber risks and a surge in both the cost and frequency of cyberattacks, most standard property and liability policies have begun implementing exclusions for cyber exposures to avoid unexpected underwriting losses—leaving businesses without a standalone cyber liability policy unprotected. As such, it's critical for organizations to have a clear understanding of the extent of coverage that their traditional policies provide for cyber-related losses, as well as seriously consider securing a standalone cyber liability policy to avoid potential insurance gaps.
- **Remote work exposures—**The COVID-19 pandemic forced many organizations to make the transition to remote operations, with a significant number of employees working from home for the first time. Unfortunately, these telework arrangements led to a rise in cyberattacks, as many cybercriminals have targeted remote employees in various phishing and hacking incidents—namely, social engineering scams. This is the result of many employees' home networks and software lacking the same level of security as that of their workplace.
- **Ransomware concerns—** Ransomware is a type of malicious software that cybercriminals use to compromise a device (or multiple devices) and demand a large payment be made before restoring the technology—as well as any data stored on it—for the victim. A ransomware attack is one of the most expensive and disruptive forms of cyberattack for organizations to deal with, with the average loss from such an attack exceeding $1 million. What's worse, the number of ransomware attacks has practically exploded in the past few years. In response, some cyber liability insurance carriers have implemented revised coverage conditions related to ransomware incidents.

- **Regulatory ramifications—**As workplace technology and its associated cyber threats continue to evolve, so have data privacy regulations across the globe. A multitude of both international and domestic jurisdictions have recently debuted new data protection laws aimed at increasing responsibilities and compliance considerations for organizations that handle sensitive data (e.g., employees' contact information or customers' credit card numbers). Examples of such laws include the European Union's General Data Protection Regulation and California's Consumer Privacy Act. Looking ahead, more and more states are expected to pass similar legislation—increasing employers' regulatory exposures in the realm of data protection.
- **Fallout from SolarWinds—**In late 2020, the U.S. government revealed that presumably, Russian hackers had orchestrated a supply chain cyberattack earlier in the year in an effort to compromise several federal agencies and organizations. The hackers initially infiltrated the technology company SolarWinds' network monitoring platform via malware before using that platform to gain access to sensitive data and emails from a range of U.S. government departments and private organizations. The attack—which has been dubbed as one of the largest and most sophisticated breaches the world has ever seen—is estimated to have impacted over 18,000 of SolarWinds' customers and incurred as much as $90 million in total losses. The fallout from this large-scale attack has motivated many businesses to take a closer look at potential security risks stemming from their supply chains and make necessary adjustments to ensure cyber resiliency. Looking ahead, underwriting guidelines are expected to become more stringent in regard to supply chain exposures.

Tips for Insurance Buyers

- Work with your insurance professionals to understand the different types of cyber coverage available and secure a policy that's unique to your needs. Carefully determine whether your organization should purchase standalone cyber liability coverage.
- Take advantage of loss control services offered by insurance carriers to help strengthen your cybersecurity measures.
- Provide remote employees with adequate resources, support and software to avoid cybersecurity concerns amid work-from-home arrangements.
- Focus on employee training to prevent cybercrime from affecting your operations. Employees should be aware of the latest cyber threats and ways to prevent them from occurring. After all, human errors are a factor in over 60% of all cyber incidents.
- Keep your organizational devices secure by utilizing a virtual private network, installing antivirus software, implementing a firewall, restricting employees' administrative controls and encrypting all sensitive data.
- Routinely update workplace software to ensure its effectiveness. Keep employees on a strict software update schedule and consider using a patch management system to assist with updates.
- Establish an effective, documented cyber incident response plan aimed at remaining operational and minimizing damages in the event of a data breach or cyberattack. Test this plan regularly by running through various scenarios with staff. Make updates to the plan as needed.
- Consult your insurance professionals and legal counsel to determine your organization's regulatory exposures in regard to applicable data protection laws. Make compliance adjustments as needed.

- Develop workplace policies that prioritize cybersecurity—including an internet usage policy, a remote work policy, a bring your own device policy and a data breach response policy.
- Be sure to consider potential supply chain exposures when establishing your organization's cybersecurity policies and protocols.

Commercial Auto

For the past decade, the commercial auto space has been challenging and largely unprofitable for insurance carriers. According to a recent report from AM Best, the commercial auto insurance segment's underwriting losses reached $4 billion in 2019—the worst loss the industry has seen in 10 years.

Various factors have led to this poor underwriting performance, including litigation trends, a wide range of driver safety failures, medical treatment inflation, distracted driving, surging accident expenses and a deteriorating public road infrastructure. In this environment, many commercial auto insurance carriers have elevated premium costs—with some policyholders experiencing double-digit rate increases. Despite rising premiums, as an industry, insurance carriers have not returned an underwriting profit for commercial auto lines in over a decade.

Unfortunately, industry experts predict that this hard market will continue to be a concern in 2021 and beyond. As such, we predict that the majority of businesses with commercial auto exposures—regardless of their industry or vehicle class—will have a more difficult renewal process by way of greater premium rates, lowered capacity and more stringent policy requirements or restrictions. Further, insureds with larger fleets or a poor loss history may experience more significant rate increases.

2021 Price Prediction

Overall: **+7% to +25%**

Trends to Watch

- **Delivery exposures—**Due to the ongoing COVID-19 pandemic, many organizations have adjusted their typical operations to remain open—including extending delivery capabilities or hiring delivery drivers for the first time. For many organizations, these new services represent new commercial auto exposures.
- **Driver shortages—**According to the American Trucking Associations, approximately 160,000 commercial driver positions will go unfilled in the next decade. As a result, many organizations have had to lower their driver applicant standards to fill open positions. These drivers often have fewer years of experience and shorter driving records. Such factors can make these new employees more likely to be involved in an accident on the road. Driver shortages have also forced some organizations to compete for experienced drivers. What's more, experienced drivers are often working longer hours. While this may seem like an effective measure, such a practice can greatly increase the risk of employees experiencing driver fatigue, which can elevate accident risks.
- **Distracted driving concerns—**Distracted driving reduces awareness, decision-making and performance—increasing the likelihood of driver error, near-crashes or crashes. Data from the National Highway Traffic Safety Administration indicates that, every year, up to 391,000 people are injured and 3,450 people are killed in crashes involving distracted drivers. As these incidents have become more prevalent, commercial auto insurance costs have climbed in tandem.

- **Additional vehicles on the road—**The Department of Transportation (DOT) reports that 286.9 million vehicles were registered in the United States in 2020, up from 284.5 million in 2019. Looking ahead, the DOT estimates that an additional 2.6 million vehicles will be registered in 2021. Industry demand is also on the rise, and drivers are logging more miles to make deliveries and meet employer demands. This means a higher number of drivers will be on the road for longer periods of time, increasing the likelihood of accidents and subsequent commercial auto claims.
- **Elevated accident costs—** As accidents steadily increase, their associated costs have unfortunately followed suit. First, the steep monetary value of technological advancements in commercial vehicles (e.g., blind-spot cameras, backup alarms, GPS devices and telematics software) has elevated vehicle repair costs in the event of an accident. In fact, according to a report from AAA, vehicles equipped with driver assistance systems often cost twice as much to repair as those that aren't. Second, medical expenses have risen over the past number of years. This is because injuries from accidents often require multiple doctor visits or even surgery, which can extend recovery time and influence overall medical costs.
- **Nuclear verdicts—**Settlement verdicts for bodily injury claims have been rising steadily. Specifically, nuclear verdicts—which refer to jury awards in which the penalties exceed $10 million—have become increasingly prevalent. As a result, attorneys are more inclined to go to trial. This extends litigation and significantly raises the cost to defend a claim.

Nuclear Verdicts in the Commercial Auto Space, 2010-2020

Source: Advisen/Zywave Loss Data

Tips for Insurance Buyers

- Examine your loss control practices relative to your fleet and drivers. Enhance your driver safety programs by implementing or modifying policies on safe driving and distracted driving.
- Design your driver training programs to fit your needs and the exposures facing your business. Regularly retrain drivers on safe driving techniques.

- Establish adequate driving schedules to reduce driver fatigue. Educate employees on driver fatigue and encourage them to take a break if they start experiencing symptoms behind the wheel.
- If you have just begun offering delivery services or recently hired new delivery drivers due to the pandemic, fully assess the risks associated with these changes and implement measures to minimize potential damages (e.g., driver training programs and safe delivery protocols).
- Ensure you are hiring qualified drivers by using motor vehicle records (MVRs) to vet a driver's past experience and moving violations. Disqualify drivers with an unacceptable driving record. Review MVRs on a regular basis to ensure that drivers maintain good driving records. Define the number and types of violations a driver can have before they lose their driving privileges.
- Consider technology solutions, such as telematics, where appropriate to strengthen and supplement other loss control measures.
- Implement a driver- or employee-retention program to maintain experienced drivers.
- Prioritize organizational accident prevention initiatives and establish effective post-accident investigation protocols to prevent future collisions on the road.
- Examine your Federal Motor Carrier Safety Administration BASIC scores to identify gaps in your fleet management programs, if applicable.
- Determine whether you should make structural changes to your commercial auto policies by speaking with your insurance broker.

General Liability

In recent years, the general liability market has consistently underperformed, resulting in heightened underwriting losses and subsequent rate increases. As worsening social inflation concerns, surging medical expenses and the ongoing COVID-19 pandemic continue to contribute to a rise in liability claim frequency and severity, the market has preceded to harden.

Due to these market conditions, we predict that most policyholders will encounter another year of rate increases across their liability lines in 2021. In addition to rate increases, many insureds may also experience lowered capacity and further underwriting scrutiny during the renewal process.

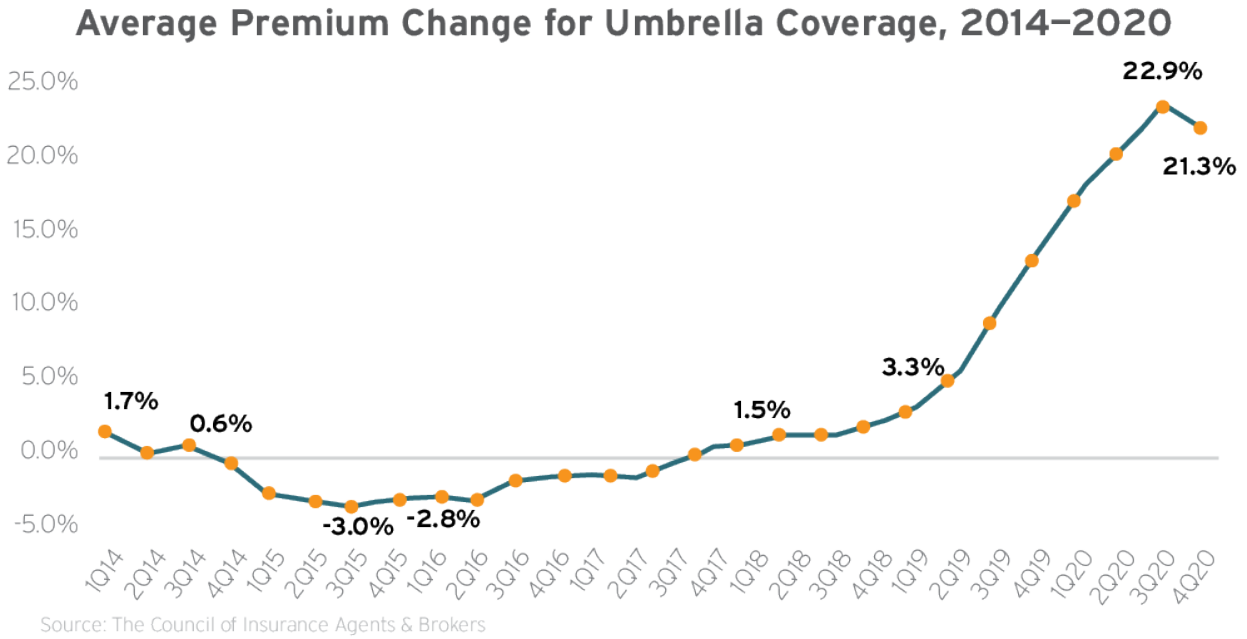
Policyholders who operate in sectors with elevated general liability exposures (e.g., real estate, construction, manufacturing, retail, hospitality and contracting) may be more prone to double-digit rate increases and restrictive underwriting standards, as well as experience significant difficulties securing or maintaining higher coverage limits.

2021 Price Prediction

Overall: **+8% to +18%**

Trends to Watch

- **Social inflation concerns—** Put simply, social inflation refers to the heightened frequency and severity of insurance claims. These rising costs are the result of societal trends and views toward increased litigation, broader contract interpretations, plaintiff-friendly legal decisions and large jury awards. Together, these factors can raise the cost of insurance. Currently, the key factors influencing social inflation within the liability market include the aforementioned issue of nuclear verdicts—especially in the case of commercial auto accidents and class action lawsuits. Collectively, these trends have contributed to a more than 300% increase in the median value of the top U.S. verdicts since 2014.
- **Surging medical expenses—**Although health care advancements and increasingly effective treatment options have helped injured individuals live longer and fuller lives following an accident, these advancements have also contributed to a surge in medical expenses, and—consequently—more costly liability claims related to such accidents (e.g., customer or visitor injuries at a business's establishment or commercial auto crashes). According to data from the American Medical Association, health care spending has steadily increased by approximately 4% every year since 2016. Looking ahead, health care spending is expected to rise by over 5% annually through 2028.
- **COVID-19 exposures—**The early days of the COVID-19 pandemic forced many businesses to temporarily close their doors. However, as organizationsacross industry lines start reopening to the public, doing so carries an increased risk of COVID-19 exposures. Specifically, visitors or customers who get infected with COVID-19 after visiting a business may allege that the establishment's lacking precautionary measures contributed to their illness. What's more, many insurance carriers exclude



claims related to communicable diseases from coverage, making businesses more financially vulnerable in the event of pandemic-related liability lawsuits.

Tips for Insurance Buyers

- Work with your insurance broker to educate yourself on key market changes affecting your rates and how to respond using loss control measures.
- Ensure your establishment has measures in place to reduce the potential for customer or visitor injuries (e.g., maintaining safe walking surfaces and promoting proper housekeeping).
- Consult federal, state and local guidance to establish a safe reopening plan for your establishment with adequate COVID-19 prevention protocols.
- Reach out to your insurance broker to review pandemic-related coverage restrictions.
- Examine your general liability coverage with your insurance broker to ensure limits match up with your insurance needs.

Excess and Umbrella Liability

Similar to 2020, the excess and umbrella liability market continues to experience large-scale disruption—becoming more challenging than the primary liability coverage markets. This is largely due to social inflation and its impact on exponentially rising claims costs, driven by factors such as litigation funding, nuclear verdicts and surging medical care expenses. Such severe underwriting losses have created an increasingly hardening market for 2021.

As a result, underwriters have made numerous adjustments—lowering capacity on excess layers, reevaluating coverage grants, increasing attachment points and narrowing their appetites for the writing of new business. We predict that these conditions will continue in 2021, alongside significant rate increases. Rates on excess liability may even exceed those of primary ones. Insureds seeking excess or umbrella liability in a high-risk industry may experience further rate increases and capacity concerns.

2021 Price Prediction

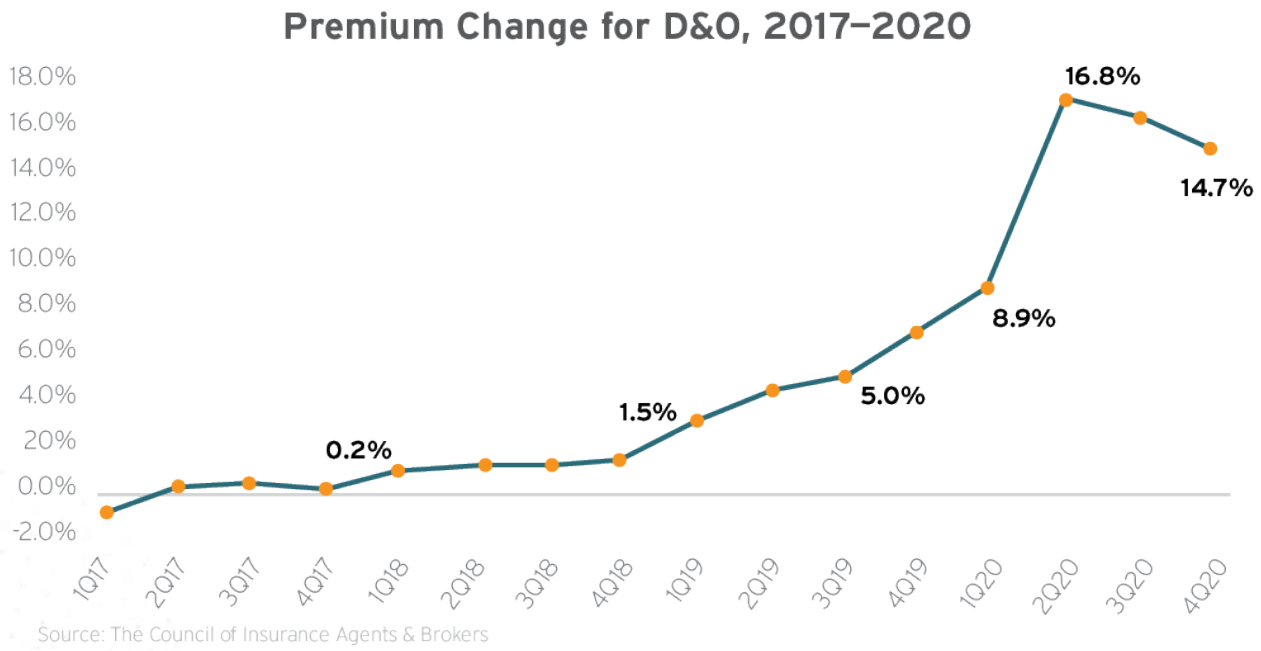
High risk: **+50% or more**

Low to moderate risk: **+30% or more**

Trends to Watch

- **Restricted capacity**—Since 2019, many carriers reduced their lead umbrella capacity from $25 million to less than $15 million. This trend has only worsened in the past year, with average blocks of capacity now sitting at $10 million. What's worse, insureds with prior loss history are encountering no more than $5 million in total maximum capacity. As such, it currently requires as much as 10-12 markets to complete a $100 million liability tower, while much of the past decade only required between four and six markets to do so.

- **Distorted liability tower pricing—**The impact of the aforementioned social inflation trends on claim frequency and severity have motivated organizations across industry lines to seek additional layers of liability. As layer demands increase, however, excess and umbrella liability carriers have responded by developing higher rates for the top layers of liability towers (e.g., $100 million or more in total capacity) than lower layers—despite lower layers being closer to potential risks.
- **COVID-19 exclusions—**The emergence of COVID-19 has prompted many organizations to look for additional liability coverage for pandemic-related claims. Nevertheless, communicable disease exclusions have been implemented in most policy renewal programs—especially for insureds operating within industries with elevated COVID-19 exposures (e.g., health care and hospitality).



Tips for Insurance Buyers

- Plan for price increases and difficult renewals. Applications may have to be submitted earlier.
- Work with your insurance broker to submit a quality application. Because of the firming market conditions for excess and umbrella layers, submission activity is up. Insurance companies are dealing with a lot of submissions for both renewals and new business. In this environment, poor applications are likely to be denied by underwriters.

Directors and Officers (D&O) Liability

Although D&O insurance carriers offered mostly favorable pricing for businesses throughout much of the past decade, recent years have seen a shift in the market by way of elevated rates and reduced capacity. In the midst of a new decade, the D&O market has only continued to harden, with rate increases of double digits becoming the norm for most insureds. Looking forward, insurance experts anticipate that the D&O market will be the hardest it's ever been in 2021.

Many factors that contributed to the initial D&O market shift have remained top concerns, including increased corporate accountability, evolving cybersecurity threats and a surge in class action lawsuits. However, a range of additional trends have also emerged within the hardening D&O market—namely, further lawsuits and derivative actions, the COVID-19 pandemic, economic uncertainty, climate change and social movements.

Source: The Council of Insurance Agents & Brokers

In these tightening market conditions, we predict that many businesses will experience significant rate increases, fewer markets, lower available limits, more robust underwriting and higher retentions in 2021. Insureds may also encounter various coverage reductions—including costly extended reporting period terms, the elimination of shareholder derivative demand investigative costs coverage and additional policy restrictions related to Side A insurance. Public entities that belong to the airline, energy, auto, entertainment, health care, hospitality and retail industries may experience the most severe rate increases and coverage reductions.

2021 Price Prediction

Private/nonprofit entities: **+10% to +50%**

Public entities: **+20% to +70% or more**

Trends to Watch

- **COVID-19 concerns—**The ongoing COVID-19 pandemic has forced many organizations to make serious operational changes—such as conducting office closures, having employees work remotely, conducting furloughs or layoffs and altering various workplace procedures to comply with health and safety standards. Such changes can carry a wide range of D&O exposures, seeing as there is the potential for stakeholders or shareholders to allege that the senior leadership team mismanaged the organization. A lack of such changes can also cause D&O liability concerns, as stakeholders could allege that senior leaders were negligent and failed to respond appropriately to COVID-19.
- **Insolvency issues—** The global recession caused by the COVID-19 pandemic has led to major financial disruption for many organizations. These economic struggles have resulted in a wide range of employers going bankrupt or experiencing insolvency issues. Insolvency is a key contributor to D&O claims for both publicly and privately held organizations. Insolvency-related claims can result from stakeholders alleging that senior leaders failed to properly plan for financial disruption or did not respond correctly to prolonged periods of reduced revenue, ultimately putting the senior leadership team at fault for the financial hardship.
- **Cybersecurity struggles—**As workplace technology continues to advance, so do the tactics of cybercriminals. What's more, the growing number of employees working remotely due to the COVID-19 pandemic has resulted in additional cyber exposures for organizations. When cyberattacks occur, costly consequences can often lead to D&O claims. Specifically, stakeholders affected by a cyberattack may allege that the senior leadership team failed to properly address cybersecurity threats or establish a plan for responding to an attack.
- **Environmental, social and governance (ESG) topics—**ESG activism has become increasingly prevalent in today's business climate, making a noticeable impact on the D&O market. Rising ESG movements include the following:
    - **Climate change—**A cultural shift regarding the pressing issue of climate change—evidenced by a continued surge in natural disasters worldwide—has resulted in an increased demand on organizations across industry lines to "go green," thus holding senior leaders accountable for ensuring eco-friendly operations. This shift also led to a rise in environmental legislation and enforcement from governing bodies.
    - **The Black Lives Matter movement—**This movement is a racial justice campaign that was originally founded in 2013 and resurged in 2020 in the form of nationwide protests. Since its resurgence, the movement has caused organizational stakeholders to call out senior leaders on their alleged failures to promote equality and inclusion in the workplace, as well as ask for greater racial diversity among senior leadership teams.
    - **The #MeToo movement—**This movement is an anti-sexual harassment campaign that was originally founded in 2006 and has gained significant social media attention since 2017. The movement has contributed to a sharp rise in D&O litigation, as employees and other stakeholders have come forward to allege that organizations' senior leaders engaged in sexual harassment or acted negligently in their response to other allegations of sexual harassment.
- **Derivative claims**— One form of D&O claim in particular, known as a derivative claim, has become increasingly prevalent. In such a claim, one or more shareholders will file a lawsuit on behalf of an organization against a specific individual (or several individuals) on the senior leadership team rather than the whole team or board. Derivative claims are often caused by "event-driven" lawsuits, in

which shareholders allege that particular members of the senior leadership team failed to act accordingly in the midst of large-scale disasters or trends. These lawsuits are also more likely to result in costly settlements of $100 million or more.

Tips for Insurance Buyers

- Examine your D&O program structure and limits alongside your insurance professionals to ensure they are appropriate and take market conditions and trends into account.
- Consult insurance brokers, loss control experts and underwriters to gain a better understanding of your D&O exposures and cost drivers in the market.
- Work closely with senior leadership to identify any organizational risks that may arise from the COVID-19 pandemic and determine a course of action that prioritizes the needs of your stakeholders.
- Diligently evaluate any workplace adjustments related to COVID-19 prior to implementation to ensure regulatory compliance and minimize legal or financial fallout.
- Monitor organizational health and safety procedures, and update them as needed to reflect frequently changing federal, state and local COVID-19 requirements.
- Ensure your senior leaders follow safe and secure financial practices (e.g., timely payments, educated investments, accurate documentation and reasonable reimbursement procedures). Be transparent with stakeholders about your organization's economic state to avoid misrepresentation concerns.
- Make sure your senior leadership team is actively involved in monitoring your organization's unique cyber risks, implementing proper cybersecurity practices to help prevent potential attacks (especially in the realm of remote work arrangements), ensuring compliance with all applicable data security standards and establishing an effective cyber incident response plan to minimize any damages in the event of an attack.
- Implement measures to foster an inclusive workplace and ensure diverse representation within your senior leadership team.
- Enforce a zero-tolerance policy on sexual harassment within your organization and take any reports of such behavior seriously. Require your senior leadership team to participate in routine sexual harassment awareness training.

Employment Practices Liability (EPL)

Like many other lines of insurance, the EPL insurance market has also hardened. This is due in part to a higher frequency and severity of claims in recent years, as well as increased legislative activity at both the state and federal level. What's more, the ongoing impact of the COVID-19 pandemic is a particularly pressing concern in the EPL market. Specifically, pandemic-related remote work operations, return-to-work plans, and furlough or layoff decisions have fueled a variety of EPL claims across industry lines (e.g., discrimination, invasion of privacy and retaliation).

Apart from pandemic-related issues, the EPL market has also seen a recent rise in potential exposures due to a wide range of emerging trends—including a rapidly aging workforce, increased LGBTQ+ protections, social movements and widespread marijuana legalization. Moreover, judges and juries seem increasingly sympathetic to plaintiffs in employment-related actions. Over the past few years, there has been an acceleration of large judgments (more than $5 million) issued against employers for EPL claims. In response, many carriers are decreasing their appetite to write new EPL business.

That being said, we predict that the majority of businesses will experience rate increases, coverage reductions and additional retention requirements in 2021. Larger organizations and insureds that operate within riskier states (e.g., California, Illinois, Florida, New York and Texas) may encounter more significant rate increases.

2021 Price Prediction

Overall: **+14% to +31%**

Trends to Watch

- **Pandemic-related claims—**The ongoing COVID-19 pandemic has forced many organizations to make workplace changes—such as having employees work remotely, adjusting office setups and conducting staff layoffs or furloughs. And with these changes, EPL claims followed. According to data from Fisher Phillips, some of the top pandemic-related EPL claims include:

1| Allegations regarding employee leave concerns and remote work capabilities (27% of claims)

2| Allegations of discrimination related to workplace adjustments or layoffs (23.7% of claims)

3| Allegations of retaliation after an objection to unsafe work conditions (22.5% of claims)

4| Allegations related to wage and hour concerns (6.7% of claims)

5| Allegations pertaining to unsafe work conditions (5.2% of claims)

- **Social movements—**Several social movements have led to an increase in EPL claims in recent years, including the aforementioned #MeToo movement and the Black Lives Matter movement. In fact, the #MeToo movement largely contributed to a 50% rise in sexual harassment lawsuits against employers over the past few years, according to the U.S. Equal Employment Opportunity Commission (EEOC). Looking ahead, the Black Lives Matter movement has the potential to become a driving factor in race-related workplace discrimination and harassment lawsuits.
- **LGBTQ+ protections—**Although the EEOC had previously released guidance stating that workplace discrimination and harassment based on sexual orientation, gender identity and gender expression violated Title VII of the Civil Rights Act of 1964, the U.S. Supreme Court just recently confirmed in 2020 that Title VII protects gay and transgender employees from such treatment. While this is a relatively new development, the Supreme Court's decision could open the door for additional discrimination-based EPL claims throughout the course of 2021.
- **Age discrimination issues—**According to the U.S. Bureau of Labor Statistics, the share of employees over the age of 55 in the labor force is expected to rise to nearly 25% by 2024 (up from 13% in 2001). This demographic shift makes it increasingly important for employers to take steps to minimize the potential for age discrimination issues within the workplace. After all, the Age Discrimination in Employment Act (ADEA) forbids age discrimination against employees and job applicants aged 40 and over. Despite the ADEA; however, a recent Hiscox study found that 21% of U.S. employees have reported experiencing workplace discrimination based on their age. Such discrimination can lead to poor staff morale, a tarnished organizational reputation and an increase in EPL claims.
- **Marijuana legalization—**Following the 2020 election, medical marijuana is now legal in 36 states and recreational marijuana is now legal in 15 states. As a result, some states have enacted legislation that restricts an employer's ability to conduct drug tests for marijuana. Further, several state court cases have ruled in favor of the employee in recent employment lawsuits related to marijuana usage. This includes a case in which a disabled employee sued their employer for alleged workplace discrimination due to medical marijuana usage, as well as a case in which an employee sued their employer for alleged wrongful termination due to a positive drug test for marijuana.

Tips for Insurance Buyers

- Review your employee handbook and related policies. Ensure you have all appropriate policies in place, including language on discrimination, harassment and retaliation.
- Take note of any organizational changes created by the COVID-19 pandemic. These changes should be reviewed to ensure they adequately consider the needs of your workforce and are compliant with employment law.
- Implement effective sexual harassment prevention measures (e.g., a zero-tolerance policy and a sexual harassment awareness program), reporting methods and response protocols.
- Promote diversity, acceptance and inclusion in the workplace through staff education and training. Take any accusations or reports of discrimination seriously.
- Document all evaluations, employee complaints and situations that result in employee termination.
- Consult legal counsel for state-specific employee wage and hour guidance. Pay close attention to workplace issues that could lead to wage and hour complaints.

- Review any state-specific legislation related to marijuana legalization. Consider revising procedures related to conducting workplace drug tests for marijuana or basing employment decisions on an employee's marijuana usage, as these practices could potentially contribute to EPL claims.

Workers' Compensation

Unlike other casualty lines, the market for workers' compensation insurance has remained stable in most states and industries, performing as an outlier by producing profitable underwriting results. According to the National Council on Compensation Insurance (NCCI), the private carrier combined ratio for workers' compensation in 2020 is estimated to be 86%, compared to an 85% ratio for 2019.

Because the COVID-19 pandemic resulted in many organizations transitioning to remote work operations, many employees across industry lines have been less prone to illness and injury within their work-from-home arrangements. Further, the emergence of telemedicine has helped many organizations supply more immediate and cost-effective treatment options for any employees that get injured on the job—thus providing the potential to minimize workers' compensation claim costs.

Nevertheless, there are still some trends that cause reason for concern within the market for 2021. Apart from increasing remote work operations, the COVID-19 pandemic has still carried consequences in the realm of workers' compensation by way of claims related to occupational COVID-19 exposures (especially in the health care industry). What's more, due to the COVID-19 pandemic, many employers have scaled back their workforces or shuttered operations. This directly impacted insurance carriers in the workers' compensation space. According to NCCI estimates, the private carrier net written premium is estimated to be $38.6 billion in 2020. This represents an 8.1% decline from that of 2019.

Further, various workforce trends—including a rise in comorbidities, labor shortages and an aging population—are also expected to elevate the likelihood of workplace accidents and subsequent claims. With some degree of market uncertainty for 2021 in mind, we predict that workers' compensation rates will remain stable, with moderate rate increases becoming the norm.

2021 Price Prediction

Overall: **Flat to +7%**

Trends to Watch

- **COVID-19 presumptions—**As the pandemic continues, a number of states have enacted legislation that assumes workers' compensation coverage for certain employees (e.g., health care workers and first responders) in regard to COVID-19 illnesses. In particular, some states have created new rules regarding COVID-19 presumptions (the conditions in which an employee's injury or illness is presumed to have happened on the job and should be compensated), increasing the likelihood of pandemic-related claims. As of late 2020, nine states have updated their statutes to include presumptive liability, which provides workers' compensation benefits to a larger spectrum of employees—namely, essential workers who contract COVID-19. More than a dozen other states currently have similar legislation under consideration. Although such laws are rebuttable, overcoming presumptions has become an increasingly difficult feat, seeing as the burden of proof in these cases is often being pushed to the employer rather than the employee.
- **Mega claims—**A mega claim is an exceptionally large claim—totaling $3 million or more in incurred losses. In the scope of workers' compensation, these claims typically stem from employees

experiencing severe (and possibly permanent) injuries on the job. Mega claims are not only expensive, but often lengthier and more complex in nature. Such claims can leave lasting impacts on organizations by way of hefty costs, lost time and the potential for severe reputational damage. Mega claims have become a rising concern in the past decade. According to a recent study conducted by the NCCI, these claims have reached a 12-year high—increasing in both frequency and severity.

- **Comorbidities—**Put simply, a comorbidity is the simultaneous presence of two or more medical diagnoses for an individual. Comorbid conditions are typically long-term health complications that have the potential to increase the severity of other injuries or illnesses that the affected individual may experience, making it more difficult to fully recover. Common comorbid conditions include obesity, diabetes, hypertension, depression, anxiety and substance abuse. According to a study conducted by the NCCI, workers' compensation claims involving comorbidities have nearly tripled since 2000. Further, the average cost of workers' compensation claims connected to a comorbid condition is almost twice as much as that of comparable claims that don't involve comorbidities.
- **Qualified worker shortages—**Filling jobs with experienced workers has been a challenge for organizations across industry lines due to ongoing labor shortages. As a result, many employers have begun hiring a larger number of inexperienced workers. However, such a practice comes with workers' compensation risks. According to a recent survey conducted by the Golden Triangle Business Roundtable in Texas, employees with less than five years of experience contribute to 43% of overall workplace injuries. This is likely because inexperienced workers often lack years of safety training and may be more willing to take unnecessary risks.
- **An aging workforce—**In addition to a rise in inexperienced employees, the past decade has also brought on an aging workforce. According to the U.S. Bureau of Labor Statistics, the share of employees over the age of 55 in the labor force is expected to increase to nearly 25% by 2024 (up from 21.7% in 2014). Such a statistic is notable, as the cost of workers' compensation claims generally increases as employees age. After all, because health typically diminishes with age, the impact of minor injuries can be more severe for older workers—taking them longer to fully recover. Furthermore, age-related changes and declines can include a shorter memory, slower reaction times, a decline in vision and hearing, or a poor sense of balance. These limitations can lead to many injuries for older workers, including falls caused by poor vision or a slowed reaction time, sprains and strains due to a loss of strength or balance, and injuries from repetitive tasks.

Tips for Insurance Buyers

- Enforce workplace health and safety measures to help protect your staff from COVID-19 exposure and limit the likelihood of related claims. Review guidance from your state workers' compensation board and speak with an insurance professional to learn more about how your coverage may or may not respond to COVID-19 claims.
- Implement safety and health programs to address common risks, especially when using a loss-sensitive workers' compensation program.
- Reevaluate the effectiveness of pre-loss safety initiatives and post-loss claims handling procedures.
- Conduct routine safety training for employees of all ages and experience levels.
- Establish workplace wellness initiatives aimed at preventing or treating chronic health conditions and improving the overall well-being of your staff. These initiatives can help reduce the risk of your workforce developing comorbidities.

- Develop an effective return-to-work program that properly supports employees in the process of healing from a work-related illness or injury and resuming job duties following their recovery.
- Ramp up your organizational safety efforts and injury-prevention methods—particularly when it comes to preventing falls, motor vehicle accidents and struck-by incidents, as these types of accidents are most likely to result in mega claims.
- If your workforce is operating remotely, provide guidance on how employees can make their workspaces more ergonomic in order to prevent injuries at home.

Moving Forward

It can sometimes seem as if the forces determining your insurance rates are beyond your control. But, as an insurance buyer, it's important to know how your premiums are calculated, what trends influence the market and what you can do to get the best price.

Your claims history—which you can control—has an enormous impact on whether your rates go up or down. That's where implementing a solid risk management plan will help steer your pricing in a more favorable direction, both now and in future renewal periods.

The following are five key components of a successful risk management strategy:

1. Pinpoint your exposures and cost drivers.
2. Identify the best loss control solutions to address your unique risks.
3. Create a solid business continuity plan to account for disasters and other unpredictable risks.
4. Build a company culture focused on safety.
5. Manage claims efficiently to keep costs down.

In addition to implementing the above risk management strategies, working alongside an experienced insurance broker is equally crucial. Qualified insurance professionals can help their clients analyze their business, understand their exposures and establish a suite of customized insurance policies that act as a last line of defense against claims. A broker will also thoroughly explain your policies, notifying you of any additional considerations to keep in mind.

Remember, the insurance landscape is complex, and while the predictions found in this outlook are based on expert research, they are subject to change. Fortunately, your partners at Gehring Group are diligently monitoring the market throughout the year and will keep you informed of any changes that might affect your business.

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Public Service

ITEM 6.4: Approve Main & Pratt WTPs MIEX Regeneration System Upgrade (Task Order Nos. 238 & 268) - Invitation to Bid (ITB) - Public Service Department (FY 2021 Budget Funded - Water & Sewer Enterprise Fund) - Lawrence Lee Construction Services, Inc.

SUMMARY:

The Public Service Department has a need to upgrade/replace the regeneration system within the MIEX treatment unit at both of our water treatment plants - Main WTP & Pratt WTP. The MIEX treatment units were installed at both water treatment plants in 2005 and the regeneration systems have exceeded their useful lives. Both units require software and hardware upgrades, including the HMI (human-machine interface) as well as various tanks, pumps, and valves. Thus, the Public Service Department is recommending that the regeneration systems within the MIEX units at both Village WTP's be replaced utilizing a competitive bid process.

Currently, the Village Council has authorized Eckler Engineering to serve as the Village's consulting engineer to complete the engineering and design for this project (Task Order # 238 & 268) in the amount of $234,687.58. The proposed construction project consists of the construction and installation of new regeneration tanks, control panels and required piping, programming, electrical wiring and site restoration. These upgrades would enable Village water treatment staff to ensure an adequate supply of quality drinking water to the public from both the Main and Pratt Water Treatment Plants.

Note: To ensure the lowest possible price for this project, the Village issued an Invitation to Bid (ITB) on May 28, 2021 for the MIEX Regeneration System Upgrade at both the Main and R.L. Pratt Water Treatment Plants. This process was completed by the Village through a competitive bid selection process - MIEX Regeneration System Upgrade Main and R.L. Pratt Water Treatment Plants (ITB No. 2021B-010 - May 28, 2021).

Within the FY 2021 Budget - Water & Sewer Enterprise Fund and the Capital Improvement Plan (CIP), the Village Council approved $2,024,215 for the MIEX Regeneration System Upgrade at both the Main and R.L. Pratt Water Treatment Plants. As a result of the Village's ITB, the following six (6) bid proposals were received:

Vendor	**Total Bid**
Lawrence Lee Construction	$3,414,000
Florida Drilling Design Corp	$3,484,000
Cardinal Contractors, Inc.	$3,498,000
PC Construction Company	$3,632,000
Florida Design Contractors	$3,637,621
BLDM USA, LLC	$3,714,000

After review of the six (6) bids received, the Interim Public Service Administrator, the Public Service Project Manager, the Village Attorney and the Village's consulting engineer, Eckler Engineering, have determined that Lawrence Lee Construction Services, Inc. provided the lowest responsible and responsive bid. As a result, staff is recommending that the Council award this proposed contract (Task Order #238 & 268) to the lowest responsive and responsible bidder, Lawrence Lee Construction, in the amount of $3,414,000.

Note: The proposed bid amount ($3,414,000) was submitted by Lawrence Lee Construction and was 9% below the engineer's estimate of $3,773,000. The total approved budget for FY 2021 for this project is $2,024,215; however, staff believes that no work will be completed, thus, no payments/expenditures will be paid to this proposed vendor within the current FY 2021. Thus, the total proposed project cost ($3,414,000) to complete this project has been requested to be approved by the Village Council during the upcoming FY 2022 budget process.

If approved, the Village would accept Lawrence Lee Construction's pricing including all terms, conditions and pricing as submitted within their ITB proposal and proposed agreement. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and/or services over the term of this contract.

If approved, the project is expected to take approximately 360 days (late September 2022) to complete following the Notice to Proceed from the Village.

The proposed agreement was prepared by the Village Attorney and reviewed by the Interim Public Service Administrator, the Public Service Project Manager and the Finance Director.

The Village has not worked with the proposed vendor previously; however, the Village has received positive references from six (6) governmental agencies/municipalities (i.e., Martin County, Indian River County, City of Lake Wales, City of Deerfield Beach, City of Stuart, City of Bartow) for the proposed vendor.

FISCAL IMPACT:

Funding to support the proposed MIEX regeneration system upgrade project is available within FY 2021 Budget - Water & Sewer Enterprise Fund:

Allocated/Estimated Project Funding:	***Amount:***
FY 2018 Actual Funding - Water & Sewer Fund TO# 238	$ 19,486.60
FY 2019 Actual Funding - Water & Sewer Fund TO# 238	$ 69,950.00
FY 2020 Actual Funding - Water & Sewer Fund TO# 238	$ 27,276.58
FY 2020 Actual Funding - Water & Sewer Fund TO# 268	$ 109,096.26
FY 2021 Approved Funding - Water & Sewer Fund TO# 238	$ 974,594.00
FY 2021 Approved Funding - Water & Sewer Fund TO# 268	$1,049,621.00
FY 2022 Requested Funding - Water & Sewer Fund TO# 238	$1,803,000.00
FY 2022 Requested Funding - Water & Sewer Fund TO# 268	$2,127,812.00
Total Allocated/Approved Budget - TO# 238:	**$2,894,307.18**
Total Allocated/Approved Budget - TO# 268:	**$3,286,529.26**

Expected Project Costs:	***Amount:***
FY 2018 Project Cost - Actual Engineering - Water & Sewer Fund TO#238	$ 19,486.60
FY 2019 Project Cost - Actual Engineering - Water & Sewer Fund TO#238	$ 69,950.00
FY 2020 Project Cost - Actual Engineering - Water & Sewer Fund TO#238	$ 27,276.58
FY 2020 Project Cost - Actual Engineering - Water & Sewer Fund TO#268	$ 109,096.26
FY 2021 Project Cost - Actual Engineering - Water & Sewer Fund TO#238	$ 7,695.37
FY 2021 Project Cost - Actual Engineering - Water & Sewer Fund TO#268	$ 3,596.58
FY 2022 Project Cost - Estimated Construction Cost - Water & Sewer Fund (Task Order No. 238)	$1,474,000.00
FY 2022 Project Cost - Estimated Construction Cost - Water & Sewer Fund (Task Order No. 268)	$1,940,000.00
Total Project Request/Cost - TO# 238:	**$1,598,408.55**
Total Project Request/Cost - TO# 268:	**$2,052,692.84**

Note: The proposed bid amount ($3,414,000) was submitted by Lawrence Lee Construction and was 9% below the engineer's estimate of $3,773,000. The total approved budget for FY 2021 for this project is $2,024,215; however, staff believes that no work will be completed, thus, no payments/expenditures will be paid to this proposed vendor within the current FY 2021. Thus, the total proposed project cost ($3,414,000) to complete this project has been requested to be approved by the Village Council during the upcoming FY 2022 budget process.

The Village will not expend more than the amount within the approved budget as it may be

adopted/amended each year for these goods and/or services over the term of this contract.

ECKLER ENGINEERING, INC.

August 23, 2021
400-076/86.01

Mr. Paul Ward
Village of Palm Springs
226 Cypress Lane
Lake Worth, FL 33461

Dear Mr. Ward:

Reference: Recommendation of Award
Bid No. 2021B-010
Task Orders: #238 and #268
MIEX Regeneration System Upgrade - Main and R. L. Pratt WTPs

The Village of Palm Springs received, opened, and read aloud bids for the MIEX Regeneration System Upgrade - Main and R. L. Pratt Water Treatment Plants on Wednesday, August 4, 2021 at 2:00 P.M. Six (6) bids were received ranging in price from $3,414,000.00 to $3,714,000.00. The apparent low bid was submitted by Lawrence Lee Construction Services, Inc., of Stuart, FL.

The bid packages were reviewed and evaluated per the requirements of the bid documents as follows:

Lawrence Lee Construction Services, Inc.

The bid package submitted by the apparent low bidder was reviewed first. Per our review and evaluation, we noted the following items as incomplete or not provided in accordance with the bid documents:

1. Per Section 00451 - Qualifications Statement, Article 12, the OHSA 300 - Log & Summary of Occupational Injuries & Illnesses attachment was not included in the submittal.

In accordance with Section 00200 - Instruction to Bidders, page 8, Article 19.01, the Owner reserves the right to waive any and all informalities not involved with price, time, or changes in the work. Based on this Specification Article, we continued the evaluation process of the bidder's qualifications and experience.

Lawrence Lee Construction Services, Inc., has successfully completed numerous projects similar to the bid scope for many different municipal water and wastewater treatment facilities. Based on submitted past performance references and our knowledge of their capabilities, they are qualified to complete this project per the bid drawings and specifications.

Based on the above evaluation, we recommend the Village award of this construction contract to Lawrence Lee Construction Services, Inc., in the amount of $3,414,000.00. We find this recommended amount to be approximately 9% below the Engineer's final opinion of probable construction cost of $3,773,000.

A certified bid tabulation has been attached. The bid tabulation lists the documents that were required to be submitted by the bidder with the bid proposal. An "X" indicates that the necessary documents were submitted and found to be in compliance with the requirements of the bidding phase of this project.

If you have any questions or require additional information pertaining to this recommendation of award or the project in general, please do not hesitate to contact me.

Sincerely,

Douglas K. Hammann, P.E.

7. ☑ Completed Section 00452 – Bidder's Statement of Disputes, Litigation, Arbitration, and Surety Completion – Last Three (3) Years
8. ☑ Completed Section 00453 - Non-Collusive Affidavit.
9. ☑ Completed Section 00454 - Drug-Free Workplace.
10. ☑ Completed Section 00455 - Public Entity Crimes.
11. ☑ Completed Section 00456 - Scrutinized Companies Certification Form.
12. ☑ Provide requested bidder qualification information per Section 00200 - Instructions to Bidders, Articles 3.1, 3.2, 3.3, and 3.4.
13. ☑ Current insurance certificate showing that bidder can meet the insurance requirements per Specification Section 00520 – Agreement, Article 10.10.
14. ☑ Signed copy of all Addenda.

Submit one (1) original and two (2) copies of all documents listed above. Original shall be clearly marked Original.

Failure to provide the above listed items may result in your bid being deemed non-responsive.

END OF SECTION

SECTION 00410

BID FORM

ARTICLE 1 – BID RECIPIENT

1.01 This Bid is submitted to:

Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 – BIDDER'S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 120 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

ARTICLE 3 – BIDDER'S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

Addendum No.	Addendum Date
1	07/09/2021
2	07/13/2021
3	07/14/2021

B. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Not used.

E. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and

ARTICLE 5 – BASIS OF BID

5.01 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

1. MIEX Regeneration System Upgrade – Main WTP (Bid Package "A")	
1A. Lump Sum Bid Price	$ 1,890,000.00
1B. Lump Sum Contingency Allowance	$ 50,000.00
Sub-Total	$ 1,940,000.00

1. MIEX Regeneration System Upgrade – R. L. Pratt WTP (Bid Package "B")	
1A. Lump Sum Bid Price	$ 1,424,000.00
1B. Lump Sum Contingency Allowance	$ 50,000.00
Sub-Total	$ ~~1,424,000.00~~ 1,474,000.00

Total of Lump Sum Price $ 3,414,000.00

THREE MILLION FOUR HUNDRED FOURTEEN THOUSAND DOLLARS AND NO CENTS

(written)

ARTICLE 6 – TIME OF COMPLETION

6.01 Bidder agrees that the Work will be substantially complete within 335 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 365 calendar days after the date when the Contract Times commence to run.

6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 7 – ATTACHMENTS TO THIS BID

7.01 The following documents are submitted with and made a condition of this Bid:

A. Required Bid security;

B. List of Proposed Subcontractors;

C. List of Proposed Suppliers;

D. List of Project References;

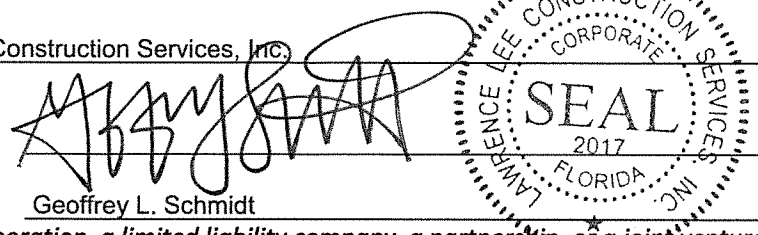
E. Evidence of authority to do business in the state of the Project;

F. Contractor's License Number;

G. Required Bidder Qualification Statement with supporting data; and

H. Documentation per Section 00200 – Instructions to bidders, page 8, Article 15.04.

ARTICLE 8 – DEFINED TERMS



8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

Inquiries: (321) 800-6594

Note: Addresses are to be used for giving any required notice.
Provide execution by any additional parties, such as joint venturers, if necessary.

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond shall be Owner's sole and exclusive remedy upon default of Bidder.

2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.

3. This obligation shall be null and void if:

3.1 Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or

3.2 All Bids are rejected by Owner, or

3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).

4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.

5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.

6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after the Bid due date.

7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.

8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.

9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.

10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.

11. The term "Bid" as used herein includes a Bid, offer, or proposal as applicable.

intact INSURANCE

Power of Attorney

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Plymouth, Minnesota, does hereby constitute and appoint: **Jorge L. Bracamonte**, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **unlimited** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this twenty-seventh day of April, 2020.

*__NOTE:__ AN __AFFIDAVIT__ WILL BE REQUIRED AT BID TIME FROM THE BONDING COMPANY (MIN. RATING A-) CERTIFYING THE ABOVE INDICATED BONDING CAPACITIES. ONCE AWARD OF CONTRACT IS ISSUED, THE CONTRACTOR MUST PROVIDE THE ***VILLAGE*** WITH A **PERFORMANCE AND PAYMENT BOND** FOR 100 PERCENT (100%) OF THE CONTRACT PRICE IN ACCORDANCE WITH SECTION 255.05, FLORIDA STATUTES. SAID BOND MUST BE **RECORDED** IN THE OFFICIAL RECORDS IN AND FOR PALM BEACH COUNTY AND A CERTIFIED COPY OF THE RECORDED BOND MUST BE PROVIDED TO THE VILLAGE PRIOR TO THE CONTRACTOR PROVIDING ANY SERVICES UNDER THE CONTRACT.

10. FINANCIAL INFORMATION

Financial Institution: TD Bank

Address: 989 SE Federal Hwy

Stuart, FL 34994

Account Manager: Trisha Hawthrone

Phone: 772-236-2386

THE ***VILLAGE*** RETAINS THE RIGHT TO REQUEST ADDITIONAL FINANCIAL STATEMENTS AFTER BID OPENING AND PRIOR TO CONTRACT AWARD AT ITS OWN DISCRETION.

11. CONSTRUCTION EXPERIENCE:

Current Experience:

List on **Schedule A** all uncompleted projects currently under contract (If Joint Venture list each participant's projects separately).

Previous Experience:

List on **Schedule B** all projects completed within the last 5 Years (If Joint Venture list each participant's projects separately).

Has firm listed in Section 1 ever failed to complete a construction contract awarded to it?

☐ YES ☑ NO

If YES, attach as an Attachment details including Project Owner's contact information.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Has any Corporate Officer, Partner, Joint Venture participant or Proprietor ever failed to complete a construction contract awarded to them in their name or when acting as a principal of another entity?

☐ YES ☑ NO

If YES, attach as an Attachment details including Project Owner's contact information.

Are there any judgments, claims, disputes or litigation pending or outstanding involving the firm listed in Section 1 or any of its officers (or any of its partners if a partnership or any of the individual entities if a joint venture)?

☐ YES ☑ NO

If YES, attach as an Attachment details including Project Owner's contact information.

12. SAFETY PROGRAM:

Name of Contractor's Safety Officer: Stephen Flannery

Include the following as attachments:

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) OSHA No. 300 - Log & Summary of Occupational Injuries & Illnesses for the past 5 years. To be Provided Upon low bid and request

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) list of all OSHA Citations & Notifications of Penalty (monetary or other) received within the last 5 years (indicate disposition as applicable) - IF NONE SO STATE.

NONE

Provide as an Attachment Contractor's (and Contractor's proposed Subcontractors and Suppliers furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) list of all safety citations or violations under any state all received within the last 5 years (indicate disposition as applicable) - IF NONE SO STATE. NONE

Provide the following for the firm listed in Section V (and for each proposed Subcontractor furnishing or performing Work having a value in excess of 10 percent of the total amount of the Bid) the following (attach additional sheets as necessary):

NONE

SECTION 00454
DRUG-FREE WORKPLACE CERTIFICATE

I, the undersigned, in accordance with Florida Statute 287.087, hereby certify that _____
Lawrence Lee Construction Services, Inc. (Print or Type Name of Firm)

- Publishes a written statement notifying that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace named above, and specifying actions that will be taken against violations of such prohibition.
- Informs employees about the dangers of drug abuse in the workplace; the firm's policy of maintaining a drug-free working environment and available drug counseling, rehabilitation, and employee assistance programs; and the penalties that may be imposed upon employees for drug-use violations.
- Gives each employee engaged in providing commodities or contractual services that are under bid or proposal a copy of the statement specified above.
- Notifies the employees that as a condition of working on the commodities or contractual services under bid or proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of or plea of guilty or nolo contendere to any violation of Chapter 1893 or any controlled substance law of the State of Florida or the United States for a violation occurring in the workplace, no later than 5 days after such conviction, and requires employees to sign copies of such written statement to acknowledge their receipt.
- Imposes a sanction on or requires the satisfactory participation in a drug-abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
- Makes a good faith effort to continue to maintain a drug-free workplace through the implementation of the drug-free workplace program.

"As a person authorized to sign this statement, I certify that the business, firm, or corporation named above complies fully with the requirements set forth herein."

SECTION 00455
SWORN STATEMENT UNDER SECTION 287.133(3)(a), FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

(To be signed in the presence of a notary public or other officer authorized to administer oaths.)

STATE OF Florida

COUNTY OF Martin

Before me, the undersigned authority, personally appeared Geoffrey L. Schmidt, who, being by me first duly sworn, made the following statement:

1. The business address of Lawrence Lee Construction Services, Inc.
(firm name of Bidder/Contractor)

is 800 SE Lincoln Ave, Stuart FL 34994.

2. My relationship to Lawrence Lee Construction Services, Inc.
(firm name of Bidder/Contractor)

is President.
(relationship such as sole proprietor, partner, president, vice president)

3. I understand that a "public entity crime" as defined in Section 287.133 of the Florida Statutes includes a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity in Florida or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or such an agency or political subdivision and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

4. I understand that "convicted" or "conviction" is defined by the statute to mean a finding of guilt or a conviction of a public entity crime, with or without adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

5. I understand that "affiliate" is defined by the statute to mean (1) a predecessor or successor of a person or a corporation convicted of a public entity crime; or (2) an entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime; or (3) those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate; or (4) a person or corporation who knowingly entered into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months.

6. Neither the Bidder/Contractor nor any officer, director, executive, partner, shareholder, employee, member or agent who is active in the management of the Bidder/Contractor, nor any affiliate of the Bidder/Contractor, has been convicted of public entity crime subsequent to July 1, 1989.

(Draw a line through Paragraph 6 if Paragraph 7 below applies.)

7. There has been a conviction of a public entity crime by the Bidder/Contractor, or an officer, director, executive, partner, shareholder, employee, member or agent of the Bidder/Contractor who is active in the management of the Bidder/Contractor or an affiliate of the Bidder/Contractor. A determination has been made pursuant to Section 287.133(3) by order of the Division of Administrative Hearings that it is not in the public interest for the name of the convicted person or affiliate to appear on the convicted vendor list. The name of the convicted person or affiliate is _____.

A copy of the order of the Division of Administrative Hearings is attached to this statement.

(Draw a line through Paragraph 7 if Paragraph 6 above applies.)

SECTION 00456
SCRUTINIZED COMPANIES CERTIFICATION FORM

By execution below, I, Geoffrey L. Schmidt, on behalf of Lawrence Lee Construction Services, Inc. (hereinafter, the "Contractor"), hereby swear or affirm to the following certifications:

The following certifications apply to all procurements:

1. The Contractor has reviewed section 215.4725, Florida Statutes, section 215.473, Florida Statutes and section 287.135, Florida Statutes, and understands the same.
2. The Contractor is not on the Scrutinized Companies that Boycott Israel List nor is the Contractor engaged in a boycott of Israel.
3. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
4. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

If the contract awarded hereunder is for one million dollars or more, the following additional certifications apply:

1. The Contractor is not on the Scrutinized Companies with Activities in Sudan List.
2. The Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.
3. The Contractor is not engaged in business operations in Cuba or Syria.
5. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
6. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

CONTRACTOR:
By: _____
Name: Geoffrey L. Schmidt
Title: President
Date: 7/14/2021

STATE OF FLORIDA

MIEX REGENERATION SYSTEM
UPGRADE MAIN AND R.L. PRATT
WATER TREATMENT PLANTS

ADVERTISEMENT FOR BIDS

Sealed Bids for the construction of the **MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants** will be received, by the **Village of Palm Springs**, at the office of the **Palm Springs Village Clerk**, until **2:00 P.M.** local time on **July 14th, 2021**, at which time the Bid Package received will be reviewed for document completeness. Following a determination of which bidders were responsible and responsive, the **Village of Palm Springs** will hold a bid opening of compliant bidders on **August 4th, 2021 at 2:00 P.M.** local time to determine the acceptable low bidder. The Project consists of furnishing all labor, equipment and material for the Upgrade of the Existing MIEX Regeneration Systems as described by the Drawings and Specifications. Generally, the work includes demolition, construction of replacement regeneration system equipment, piping relocation, electrical, site restoration, and all other incidentals as indicated by the drawings and specifications or as required to properly complete the project as planned. Late proposals will not be accepted, whether by mail or otherwise. Proposals will be returned unopened. It is the responsibility of the Proposer to ensure all pages are included in the submission. ***All Bidders are advised to closely examine the Bid documents*.**

Invitation to Bid documents are available beginning **May 27th, 2021**. The Village of Palm Springs utilizes electronic online services for notification, distribution, and submittal of its Solicitation documents. The Village's Solicitation information can be obtained from: (a) Demandstar website – www.Demandstar.com; (b) by contacting the Village Clerk, Kimberly Wynn, at kwynn@vpsfl.org; (c) or calling the Village Clerk's office at (561) 965-4010.

Proposers may submit their responses electronically via DemandStar. Proposers also have the option to submit one (1) unbound original to the Village Clerk at the time and date specified. Sealed Proposals must be marked **"ITB #2021B-010, MIEX REGENERATION SYSTEM UPGRADE MAIN AND R.L. PRATT WATER TREATMENT PLANTS"**.

Hardcopies of bidding documents may also be obtained from Eckler Engineering, Inc., 4700 Riverside Drive, Suite 110, Coral Springs, Florida, 33067 on Mondays through Fridays between the hours of 8:00 AM to 5:00 P.M. Bidding Documents are available on your preferred media device as a Compact Disc or USB Drive (as portable document format (PDF) files) for a non-refundable charge of $40.00, including shipping via overnight express service. Alternatively, printed Bidding Documents may be obtained from Eckler Engineering, Inc. either via in- person pick-up or via mail, upon receipt of payment for the Bidding Documents. The non-refundable cost of printed Bidding Documents is $250.00 per full size drawing set and specification book or $250.00 per half size drawing set and specification book, payable to Eckler Engineering, Inc.

A virtual **Pre-Bid Conference** will be held for this solicitation on **June 23, 2021 at 2:00 PM.** Attendance at the pre-bid conference ***is not*** mandatory.

The Village of Palm Springs will provide for public participation using Gotowebinar.com, a communication media technology (teleconference) for the non-mandatory Pre-bid conference and Bid Opening.

Non-Mandatory Pre-Bid Conference

Participants can use their telephone or computer mic & speakers (VoIP).
United States: +1 (562) 247-8422 Access #632-639-653
Registration URL
https://attendee.gotowebinar.com/register/4012955072373904652

Bid Opening

Participants can use their telephone or computer mic & speakers (VoIP).
United States +1 (914) 614-3221 Access #622-810-717
Registration URL
https://attendee.gotowebinar.com/register/1373724744455907596

Bid security shall be furnished in accordance with the Instructions to Bidders.

Any questions regarding the specifications and Solicitation process must be submitted in writing to the Village Clerk at kwynn@vpsfl.org, Questions and requests for clarification and additional information must be received prior to the Deadline for Submission of Questions on **July 2nd , 2021** at **5:00 PM** local time.

Pursuant to Section 2-355 of Palm Beach County Ordinance No. 2011-039, and the purchasing policies of the Village of Palm Springs, all Solicitations, once advertised, are under the "Cone of Silence" until the appropriate authority has approved an award recommendation, rejected all responses or some other action by the Village to end the selection process. This limit and requires documentation of communications between potential Bidders and/or Bidders on Village Solicitations, the Village's professional staff, and the Village Council members.

MIEX Regeneration System Upgrade
Main and R.L. Pratt Water Treatment Plants

Bid No.: 2021B - 010

Addendum No. 1

July 9, 2021

BIDS DUE: 2:00 PM, Local Time, July 14, 2021

TO ALL VENDORS BIDDING ON THIS PROJECT:

The changes, additions, substitutions, and/or deletions contained in Addendum No. 1 are hereby made a part of the Bid Documents for the MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants, fully and completely as if the same were fully set forth herein.

A. QUESTIONS FROM BIDDERS

1. **Question:** We have reviewed the drawings and specifications for this project and understand from the IXOM (MIEX supplier's) quote that they are excluding the integration of the new MIEX control systems into the existing plant SCADA system from their scope of work. It is not clear from the drawings and specifications however what work is required to integrate the new systems. Are there additional documents that the Village will be providing to enable the I&C suppliers to quote this integration work to the bidding prime contractors?

   Answer: The integration of new MIEX facilities into the SCADA systems at both WTP's is included in the Village's WTP SCADA project Bid # 2021B-003.

2. **Question:** Reference both M-06 drawings. Please identify type and specification of valves located on the 3" Recycled Resin lines at Settler Tanks.

   Answer: Flanged, stainless steel, Butterfly valves (V-28) per specifications section 15100, 2.08, A, page 3. This will be further clarified in Addendum No. 1.

3. **Question:** Reference both C-03 drawings Note #4. Please clarify does the protective coating require removal over the entire resin room floor and pads or just under new concrete in-fill slab.

   Answer: Existing floor coating removal required for new concrete in-fill areas only.

4. **Question:** Reference both C-02 thru C-04 drawings. Please clarify who is responsible for disposal of liquids from relocated and removal tanks.

   Answer: Village WTP Staff will remove liquid and resin from the tanks to be relocated. CONTRACTOR shall schedule and coordinate this task with plant operations.

5. **Question:** Reference specification 15007 3.01D. Fielding Welding and M-06 drawings. Please clarify if the 3" Sch 10 Stainless Steel Fresh Resin and Recycled Resin lines can be fabricated in the field or is shop fabrication required.

   Answer: Yes, the 3" Resin Recycle (SRR) and 3" Fresh Resin (FR) Sch 10 SST piping can be field fabricated, per 3.01, D.

6. **Question:** Reference specification 02072 3.01B. Demolition. Please identify what equipment is salvaged to the owner.

   Answer: No equipment or materials being removed are to be salvaged to the VILLAGE.

7. **Question:** Reference both C-03 drawings Note #3. Please clarify if the owners monorail crane can be used for contractor construction activities.

   Answer: Yes, the existing monorail crane may be used by CONTRACTOR.

8. **Question:** Reference Section 00400 Bid Submission Checklist Item 12, which requests information in Section 00200 Articles 3.1 through 3.4. These exact article numbers do not appear in Section 00200. Please clarify.

Answer: Articles 3.1, 3.2, 3.3 and 3.4 referenced in Section 00400 are the same as Articles 3.01, 3.02, 3.03 and 3.04 provided in Section 00200.

9. **Question:** Reference Section 00111 Advertisement, Section 00200 Instructions to Bidders Article 15 and Section 00400 Bid Submission Checklist. The instructions vary between these three sections on submission type, quantities etc. Please confirm it is acceptable to upload only one electronic.

Answer: Bid submission requirement specified by 3rd paragraph, page 1 of Section 00111 is correct and shall govern. Sections 00200 and 00400 shall be corrected via addendum.

10. **Question:** Reference Section 00111, Advertisement. Page 2 states, "Questions and requests for clarification and additional information must be received prior to the Deadline for Submission of Questions on July 2nd, 2021 at 5:00 PM local time. "As this is a Holiday weekend, please consider extending the

Answer: Deadline for questions shall remain July 2, 2021, 5:00 PM.

11. **Question:** Reference Section 16001, Electrical Demolition, Paragraph 1.04. Note A states demolished electrical equipment shall become property of the contractor. Note B states owner shall reserve the right of ownership of any owner-selected equipment. Please provide a list of owner-selected

Answer: No equipment or materials being removed are to be salvaged to the VILLAGE.

12. **Question:** The pipe schedule on M-2 states that BRR piping is to be Sch 10 304 Stainless Steel. Stainless Steel piping specification 15007 states that all stainless pipe is to be 316L. Which document prevails?

Answer: Piping material scheduled on drawing M-02 shall prevail. Specifications section 15007 shall be updated via Addendum No. 1.

13. **Question:** Spec section 15007 2.02A states fittings are to be flanged, welded or threaded. Will grooved fittings be considered?

Answer: Grooved or Victaulic fittings are not specified or allowed for this project.

14. **Question:** Reference Section 1600, Electrical General, Paragraph 1.01 Not A. Please confirm that record drawings are not separate from the overall record drawings in spec section1700.

Answer: Record Drawings requirement specified in Section 16000, Article, 1.04, A, are the same documents and same general requirements as specified in Section 01720, Articles 1.03 and 1.06.

15. **Question:** Drawing M-06 show what appear to be 3" flanged ball valves on the 3" SRR lines coming from pumps P-3-7-3 and P-3-7-2. Drawing 1-13 indicates the valves are butterfly valves. What is the proper style valve for the 3" SSR lines?

    Answer: Valves are, flanged, stainless steel, butterfly valves (V-28) per specifications section 15100, 2.08, A, page 3. This will be further clarified in Addendum No. 1.

16. **Question:** Reference Section 00520 Agreement. Can the insurance limits required in Article 10.10, Agreement between Owner and Contractor, be met by a combination of primary policies and follow-form excess/umbrella liability policies?

    Answer: Yes, please reference section 00700 General Conditions Article 6 for more information.

17. **Question:** Reference Section 00520 Agreement. Article 10.10 Insurance, Agreement between Owner and Contractor, requires Automobile liability limits of $500,000 each person/$1,000,000 each accident and $1,000,000 each property damage incident. Can a $1,000,000 combined single limit policy be used to satisfy this requirement?

    Answer: No, coverage must be as stated in Section 00520.

18. **Question:** Drawing E-03 note 6. Please provide new location of pole.

    Answer: Light pole (LP) is on Drawing E-03 at south end of modified elevated walkway of existing settler.

19. **Question:** Drawing E-08 references drawing M-102. However drawing M-102 was not provided. Please advise.

    Answer: "M-102" is not a drawing sheet reference. M-102 refers to the room number designation for MIEX Building Control room. See Architectural Legend on drawing G-06 and the Architectural drawings.

20. **Question:** Please advise if Notice to Proceed is anticipated to be issued within the first 30 days of the 120 days that bids are required to be held open. Or will it be issued closer to the end of the 120 day period?

Answer: The Notice to Proceed will be issued per Section 00700 – General Conditions, Article 4.01, A, page 10 of 65 and as further defined by Section 00800 - Supplementary Conditions, Article SC-4.01, page 2 of 10.

21. **Question:** Please confirm that both the Main and R.L. Pratt sites will be available to begin work at the time Notice to Proceed is issued?

Answer: Both sites are available for work to begin upon notice to proceed.

22. **Question:** Bid package A drawing E-03 note 5; "Existing Fiber from MIEX Control Room to SCADA Operations Room Shall Remain and Be Reused." Bid package B drawing E-03 does not have that note. Please confirm that note applies for both bid packages.

Answer: Note does not apply to both sites. There is no existing fiber at the R. L. Pratt WTP (Bid Package "B").

23. **Question:** What is the material of the existing Fresh Resin Tanks?

Answer: HDPE per Drawing M-02.

24. **Question:** What is the material of the existing Regenerant Tanks?

Answer: HDPE per Drawing M-02. Regeneration Tanks are FRP per Drawing M-02.

25. **Question:** Will the owner be responsible for draining the regeneration system prior to demo?

Answer: OWNER will drain regeneration system, when coordinated by CONTRACTOR.

26. **Question:** Will the owner be responsible for draining of the regenerant tank to facilitate temporary relocation?

Answer: OWNER will drain regenerant tank, when coordinated by CONTRACTOR.

27. **Question:** What is the process for demo of anchor bolts at the regeneration tank structural steel supports? Is it acceptable to cut flush anchor bolts?

Answer: The anchor bolts may be cut flush with the existing concrete slab.

28. **Question:** There appears to be an existing fence in the location of the temporary fresh resin tank. Please confirm if this fence is actually present in this location? If fence is existing, is it the intention to have the contractor remove and replace the fence or to move the temp resin tank system to outside of the fence?

Answer: The existing chain link fencing shall be removed by OWNER prior to CONTRACTOR Mobilization.

29. **Question:** Spec 00900 calls for PVC to be painted. However, the equipment supply summary included in the specifications for IXOM states in the clarifications that the PVC will not be painted. Is it required for the contractor to paint this vendor supplied piping or will uncoated PVS be acceptable?

Answer: Specification Section 09900 covers PVC pipe and conduit systems not on the Manufacturer provided skids to be painted. This is also scheduled on the drawings.

30. **Question:** Are there any limitations in regards to when the platform on C-04 can be removed?

Answer: Yes. The regeneration system must remain operational until the new regeneration system has been completed, tested, commissioned, started-up and provided to OWNER for operation.

31. **Question:** Drawing I-10 indicates the 2" BRR line requires a new butterfly valve. The valve does not appear in the process drawings. Is it required?

Answer: 2" butterfly valve shown on I-10, is not required. This will be further clarified in Addendum No. 1.

32. **Question:** The 2" butterfly valves shown on I-10 and I-12 are diaphragm actuated, are air lines required for their operation?

Answer: These valves are all electric motor actuated, no new air lines are required.

33. **Question:** Spec 00451, 12. Safety Program requires safety information from subcontractors and suppliers that have a value in excess of 10 percent of the total bid amount. The subcontractors, subcontract values and total bid amount will be subject to change right up to the time the bid is due. Please confirm it

is acceptable to provide safety information for the Prime Contractor only with bid and the requested safety information for Subcontractors and Suppliers can be provided post-bid.

Answer: Safety information of the prime contractor is required at bidding. The Village reserves the right to request safety information from subcontractors after bids have been received.

34. **Question:** Spec 01010 talks about the (2) $50,000 allowances. If the allowances are used will the full amount of the change order be funded thru this allowances including the contractors overhead and profit?

Answer: Yes.

35. **Question:** Spec 01500 describes field office requirements. Is this requirement at each job site or at 1 site specifically the meeting room capacity of 8 people.

Answer: One (1) office trailer can be provided to serve both project sites. Site selected for location of trailer shall be per CONTRACTOR.

36. **Question:** Spec 16000 calls for a Licensed Journeyman on the project full time. Please advise if the intent of this is that the contractor will provide a Licensed Journeyman Electrician full duration; one at each jobsite?

Answer: This requirement shall only apply when electrical work is underway.

B. SPECIFICATIONS

1. Section 15007 – Stainless steel Pipe and Fittings, **CHANGE,** "all references to Type 316L" **TO** "Type 304, 316 or 316L as scheduled or noted in drawing.".

2. Section 09201-Portland Cement Plaster (Stucco), Article 2.04, A, Page 3, **CHANGE** "Waterproofing material shall be Thoroseal Waterproof Cement-Based Coating with Acryl 60, or equal." **TO** "Waterproofing material shall be MasterSeal 581 Waterproof Cement-Based Coating with MasterEmaco A 660, or equal."

C. DRAWINGS

1. Bid Package "A" and "B", Drawing No. M-06, MIEX Treatment Area System Modification Plan, **CLARIFICATION,** "Two new valves shown at Drawing Grid coordinate G-5, are 3" V-28, SST butterfly valves per revised drawing No. M-06, attached.

2. Bid Package "A" and "B", Drawing No. I-10, Unit Process 9 – Pretreatment (MIEX Systems) Modifications, **DELETE, "**valve VXXXX shown at Drawing Grid coordinate C-6."

3. Bid Package "A" and "B", Drawing No. E-04, MIEX Area Control Panel, **CHANGE, "**Detail XX – Raised Conc Equipment Pad" **TO** "Detail 358C - Raised Conc Equipment Pad".

All modifications to the above listed drawings, are attached and have been identified with a revision triangle.

Receipt acknowledged and conditions agreed to the _____ day of _____, 2021.

MIEX Regeneration System Upgrade
Main and R.L. Pratt Water Treatment Plants

Bid No.: 2021B - 010

Addendum No. 3

July 14, 2021

BIDS DUE: 2:00 PM, Local Time, July 21, 2021

TO ALL VENDORS BIDDING ON THIS PROJECT:

The changes, additions, substitutions, and/or deletions contained in Addendum No. 1 are hereby made a part of the Bid Documents for the **MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants**, fully and completely as if the same were fully set forth herein.

A. QUESTIONS FROM BIDDERS

1. **Question:** What is the estimated cost of construction?

   Answer: Bid Package "A" = $2,101,000 and Bid Package "B" = $1,672,000 for a total of $3,773,000.

2. **Question:** Section 15007 part 2.01.A and B require stainless steel piping to be type 316L. Drawing M-02 shows schedule 10 type 304 for multiple processes. Please clarify.

   Answer: Piping material scheduled on M-02 shall prevail. This was addressed in Addendum No. 1, Section A, Question No. 12 and Section B, Question No. 1.

3. **Question:** Please confirm welded joints are required for all SST process piping called out on sheet M-02

   Answer: Yes, all stainless-steel joints shall be welded in accordance with ASNI B31 as per Specification Section 15007, 2.01, E.

4. **Question:** What schedule pipe is required for salt dry stainless-steel piping?

   Answer: Salt dry piping shall be Schedule 10, see revised New Piping Schedule on Drawing No. M-02.

5. **Question:** If we decide to submit our bid electronically, do we need to mail in a hard copy of the bid bond? If so, please confirm the address and the deadline for receiving the bid bond.

   Answer: You may submit an electronic copy of your bid bond in Demand Star. Staff will advise you on how to proceed pending the results of the bid.

6. **Question:** Architectural plans appear to show RHR doors, but the door schedules show LHR. Please clarify.

   Answer: The door and hardware schedule has been revised to address this discrepancy, see revised Door and Hardware Schedule table on Drawing No. A-05.

7. **Question:** If you look at the door schedule the hardware calls for a lock latch set (L1) as well as an exit device (E1). Those are two separate devices that do not go together. The L1 is a Schlage AL53PD cylindrical lock. I called the manufacturer. They told me that the lock is discontinued. It has been replaced by the series "ALX". This would be ok for our FBC testing if we added an additional cylindrical deadlock. The E1, is a mortise panic device. That would not be covered under our FBC testing. We would have to change that to a Corbin Russwin FE5400S panic. That is a three point surface vertical rod panic. That is the only panic we tested with. Either way, the L1 and the E1 can't go on the same door.

   Answer: The specifications and door schedule have been revised to address this question. The lock hatch set shall be ALX53PD and the exit device has been removed from the door schedule. See revised Drawing No. A-05 and Specification Section 08710.

B. SPECIFICATIONS

1. Section 08710 – Finish Hardware, Article 2.05, E, Page 4, **CHANGE,** "Schlage products AL53PD, AL80PD, AL50PD, AL40S and AL10S" **TO** "ALX53PD, ALX80PD, ALX50PD, ALX40S and ALX10S, respectively".

C. DRAWINGS

1. Bid Package "A" and "B", Drawing No. A-05, Door and Hardware Schedules, **CLARIFICATION,** "The swing type, threshold and exit device have been revised for door type 2 per Drawing No. A-05, attached."

2. Bid Package "A" and "B", Drawing No. M-02, MIEX System Equipment, Piping Schedules and Notes, **CLARIFICATION, "**Salt Dry piping schedule type shall be Schedule 10 per revised New Piping Schedule – MIEX System per revised Drawing No. M-02."

All modifications to the above listed drawings, are attached and have been identified with a revision triangle.

Receipt acknowledged and conditions agreed to the _____ day of _____, 2021.

File name: C:\Civil 3D Projects\400-086.01 MIEX Regeneration System Upgrade - Main WTP\01_Working\400-086.01_G-02; Plotted @: 3/29/2017 7:18:36 PM; Scale multiplier: 0.5; Printed by: Jcrick; Milestone: BID DOCUMENTS

BID DOCUMENTS

GENERAL NOTES

1) ALL CONSTRUCTION AND MATERIALS SHALL CONFORM TO THE STANDARDS AND SPECIFICATIONS OF THE:
   - FLORIDA BUILDING CODE (2017, 6TH ED)
   - DEPARTMENT OF TRANSPORTATION
   - FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
   - PALM BEACH COUNTY HEALTH DEPARTMENT
   - AND ALL OTHER LOCAL AND NATIONAL CODES WHERE APPLICABLE
   - (SEE DESIGN CRITERIA SHEETS FOR OTHER CODE AND COMPLIANCE REQUIREMENTS)
2) THESE PLANS WERE DEVELOPED UTILIZING RECORD DRAWINGS AND MANUFACTURER PROVIDED EQUIPMENT AND INSTRUMENTATION DRAWINGS. RELOCATION OF EXISTING EQUIPMENT, DEMOLITION OF EXISTING EQUIPMENT, TEMPORARY OPERATION(S) OF RELOCATED EQUIPMENT ARE BASED ON THIS INFORMATION. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR ITEMS NOT SPECIFICALLY LISTED OR ADDRESSED IN THE PLANS OR SPECIFICATIONS.
3) ALL CONSTRUCTION SHALL BE DONE IN A SAFE MANNER, SPECIFICALLY, THE RULES AND REGULATIONS OF THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION AND THE MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES SHALL BE STRICTLY OBSERVED.
4) CONTRACTOR SHALL NOT CREATE TRIPPING HAZARDS SUCH AS SURFACE MOUNTED CONDUITS WITHOUT THE APPROVAL OF THE ENGINEER.
5) ALL ELEVATIONS ON THE DRAWINGS OR REFERENCED IN THE SPECIFICATIONS ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD88), UNLESS NOTED OTHERWISE.
6) THE CONTRACTOR SHALL OBTAIN THE SERVICES OF A UTILITY LOCATION SERVICE SUCH AS "SUNSHINE STATE ONE CALL OF FLA, INC." AT (800) 432-4770 AT LEAST 48 HOURS PRIOR TO BEGINNING ANY EXCAVATION.
7) EXISTING UTILITY LOCATIONS SHOWN ON THESE DRAWINGS ARE APPROXIMATE. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THE ACCURACY OF EXISTING UTILITIES SHOWN OR FOR ANY EXISTING UTILITIES NOT SHOWN.
8) PRIOR TO BEGINNING CONSTRUCTION, THE CONTRACTOR SHALL VERIFY THE SIZE LOCATION AND MATERIAL OF ALL EXISTING UTILITIES WITHIN THE AREA OF CONSTRUCTION.
9) IF UPON EXCAVATION, AN EXISTING UTILITY IS FOUND TO BE IN CONFLICT WITH THE PROPOSED CONSTRUCTION OR TO BE OF A SIZE OR MATERIAL DIFFERENT FROM THAT SHOWN ON THE DRAWINGS, THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER.
10) THE CONTRACTOR SHALL PERFORM ALL WORK NECESSARY TO LOCATE, EXCAVATE AND PREPARE FOR CONNECTIONS TO THE EXISTING SYSTEMS AS SHOWN ON THE DRAWINGS. THE COST FOR THIS WORK AND FOR THE ACTUAL CONNECTION TO THE EXISTING SYSTEMS SHALL BE INCLUDED IN THE BID PRICE FOR THE PROJECT AND SHALL NOT RESULT IN ANY ADDITIONAL COST TO THE OWNER.
11) CONTRACTOR MUST PROVIDE FOR AND MAINTAIN ADEQUATE ACCESS AT ALL TIMES TO ALL BUSINESSES AND RESIDENCES AFFECTED BY PROGRESS OF THE WORK.
12) PROJECT SITE SAFETY:
   A. THE ENGINEER/OWNER OR THEIR EMPLOYEES HAVE NO AUTHORITY TO EXERCISE ANY CONTROL OVER THE CONTRACTOR, ANY SUB-CONTRACTOR OR OTHER ENTITY OR THEIR EMPLOYEES IN CONNECTION WITH THEIR WORK OR ANY JOBSITE HEALTH OR SAFETY PRECAUTIONS.
   B. THE CONTRACTOR IS SOLELY RESPONSIBLE FOR JOBSITE SAFETY, AND WARRANTS THAT THIS INTENT IS MADE EVIDENT BY THE AGREEMENT BETWEEN OWNER AND CONTRACTOR.
   C. ALL EXISTING OVERHEAD AND UNDERGROUND UTILITIES SHOWN ON THESE DRAWINGS OR ENCOUNTERED THROUGH THE PROGRESSION OF WORK AT THIS PROJECT SITE ARE ASSUMED TO BE LIVE, CONTRACTOR SHALL BE RESPONSIBLE FOR ALL SAFETY PRECAUTIONS WHEN WORKING AROUND EXISTING OVERHEAD OR UNDERGROUND UTILITIES.
13) ALL OPEN-CUT PIPE LAYING OPERATIONS SHALL BE COMPLETED IN DRY TRENCH EXCAVATIONS PER SPECIFICATIONS.
14) PRIOR TO BEGINNING DEMOLITION WORK, CONTRACTOR SHALL CONFIRM WITH VILLAGE, THE LOCATION AND ARRANGEMENT OF EXISTING PIPING / VALVES TO BE IMPACTED BY WORK. CONTRACTOR SHALL NOTIFY ENGINEER OF ANY DISCREPANCIES.
15) ALL PHASES OF CIVIL, ARCHITECTURAL, STRUCTURAL, MECHANICAL, INSTRUMENTATION AND ELECTRICAL WORK SHALL BE COORDINATED BY CONTRACTOR.
16) CONTRACTOR SHALL BE RESPONSIBLE FOR AND PROTECT ALL EXISTING UTILITIES, STRUCTURES, EQUIPMENT AND PAVED AREAS THAT ARE TO REMAIN, FROM DAMAGE BY PROGRESSION OF WORK. ALL DAMAGED AREAS OR EQUIPMENT SHALL BE RESTORED TO PREVIOUS CONDITION PER DETAIL AND SPECIFICATION(S) REQUIREMENTS.
17) STANDARD SEPARATION STATEMENT:
   A. MAINTAIN A MINIMUM THREE (3) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND VACUUM SEWER, STORM SEWER, OR RECLAIMED WATER MAINS REGULATED UNDER PART III OF CHAPTER 62-610.
   B. MAINTAIN A MINIMUM SIX (6) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND GRAVITY SEWER, PRESSURE-TYPE SANITARY SEWER, OR RECLAIMED WATER MAINS NOT REGULATED UNDER PART III OF CHAPTER 62-610.
      THIS DISTANCE CAN BE REDUCED TO THREE (3) FOOT HORIZONTAL DISTANCE WHEN EITHER PIPE IS ENCLOSED IN A WATERTIGHT CASING OR CONCRETE; AND WHEN WATER MAINS ARE LOCATED AT LEAST SIX (6) INCHES ABOVE GRAVITY SEWER MAINS.
   C. MAINTAIN A MINIMUM TEN (10) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND ONSITE SEWAGE TREATMENT AND DISPOSAL SYSTEMS.
   D. MAINTAIN SIX (6) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS ABOVE VACUUM SEWER, GRAVITY SEWER, OR STORM SEWER.
   E. MAINTAIN A TWELVE (12) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS BELOW VACUUM SEWER, GRAVITY SEWER, OR STORM SEWER.
   F. MAINTAIN A TWELVE (12) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS ABOVE OR BELOW PRESSURE-TYPE SANITARY SEWER, FORCE MAIN, OR RECLAIMED WATER MAINS.

PROCESS & INSTRUMENTATION LEGEND

VALVE SYMBOLS

- GATE N/O
- GATE N/C
- BALL N/O
- BALL N/C
- REDUCER (CONCENTRIC)
- REDUCER (ECCENTRIC)
- GLOBE
- VEE BALL
- BUTTERFLY
- OR PLUG
- SWING CHECK
- DIFFUSER (FLAPPER) CHECK
- VALVE W/ DIAPHRAGM ACTUATOR
- PRESSURE RELIEF VALVE
- PRESSURE SUSTAINING (INTERNAL TAP)
- PRESSURE SUSTAINING (EXTERNAL TAP)
- PRESSURE REDUCING
- KNIFE
- AIR RELEASE
- MOTOR OPERATED VALVE
- PINCH
- NEEDLE
- MUD
- BACKFLOW
- 2-WAY VALVE
- 3-WAY VALVE
- 4-WAY VALVE

VALVE ACTUATOR SYMBOLS

- DIAPHRAGM
- ELECTRICAL MOTOR
- SOLENOID
- PISTON
- LEVER
- HAND WHEEL
- CHAIN WHEEL

FLOW ELEMENT SYMBOLS

- ROTAMETER
- VENTURI (FE)
- FLOW ELEMENT (ORIFICE PLATE)
- FLOW METER (PROPELLER)
- FLOW METER (MAGNETIC)

GENERAL SYMBOLS

- DIAPHRAGM SEAL
- PE — PRESSURE SENSOR
- LEVEL (FLOAT)
- DIFFUSER
- WATER LEVER / SURFACE
- FLOAT SWITCH
- TILT FLOAT SWITCH
- SIGHT GLASS
- I — PANEL MOUNTED INTERLOCK (HARDWIRED)
- POWER (120 VOLT)
- RECEPTACLE
- X — WIRING (IDENTIFIER)
- PROPOSED PANEL, PULL BOX, ELECTRICAL CABINET BOUNDARY
- SKID UNIT / EQUIPMENT BOUNDARY
- A — OR — A — INTERCEPT EXISTING WIRING (SEE ELECTRICAL DRAWINGS)
- GENERATOR RECEPTACLE
- ASC — ADJUSTABLE SPEED CONTROL (ELECTRIC)
- VSD — VARIABLE SPEED CONTROL (MECHANICAL)
- VFD — VARIABLE FREQUENCY DRIVE
- LASER — NON-CONTACT LASER FLOW VELOCITY SENSOR
- M — REDUCER / MOTOR DRIVE UNIT
- ETHERNET MODEM — ETHERNET MODEM
- ETHERNET SWITCH — ETHERNET SWITCH
- INTERNET MODEM — INTERNET MODEM
- VPN ROUTER AND FIREWALL — VPN ROUTER AND FIREWALL
- RADIO / MODEM — ETHERNET (RADIO / MODEM)
- F/O | M — MEDIA CONVERTER FIBER OPTIC TO ETHERNET
- MCP-PLC — PLC MAIN CONTROL PANEL
- EH — ETHERNET HUB (SWITCH)
- INDUSTRIAL PC — COMPUTER TERMINAL
- KEYPAD
- ANTENNA
- BFP — BACKFLOW PREVENTER
- EXHAUST SILENCER
- ANTI-VORTEX PLATE
- M — MIXER
- FLOOR DRAIN
- FLEXIBLE HOSE
- INJECTION WELL
- H — HOSE CONNECTION
- F — FLUSHING CONNECTION
- S — SAMPLE POINT
- PROCESS FLUME
- STATIC MIXER
- AIR RELEASE VALVE (W/GAUGE AND W/O GAUGE)
- QUICK COUPLING HOSE CONNECTION
- THREADED HOSE CONNECTION
- BULKHEAD FITTING
- EMERGENCY EYEWASH / SHOWER HEAD
- EMERGENCY EYEWASH / SHOWER SIGNAL LIGHT
- SEPERATOR
- EDUCTOR
- WASTE CONTAINER
- AIR COMPRESSOR
- AC — INSTRUMENT AIR COMPRESSOR
- FILTER / REGULATOR
- BLOWER FAN
- UNION
- "Y" STRAINER
- "T" STRAINER
- FLANGE
- EXPANSION JOINT

PUMP SYMBOLS

- S — SUBMERSIBLE PUMP
- ROTARY GEAR PUMP
- CENTRIFUGAL PUMP FOOT MOUNTED
- CENTRIFUGAL PUMP RECEIVER MOUNTED
- GRINDER PUMP
- POSITIVE DISPLACEMENT PUMP
- VC — VERTICAL CANTILEVERED PUMP
- VT — VERTICAL TURBINE PUMP IN CAN
- VP — VERTICAL CENTRIFUGAL PUMP
- VT — VERTICAL TURBINE PUMP
- DOUBLE DIAPHRAGM PUMP (AIR OPERATED)
- M — DOUBLE DIAPHRAGM PUMP (ELECTRIC MOTOR OPERATED)
- CHEMICAL FEED PUMP (DIAPHRAGM)
- VAC FEED — VACUUM CHEMICAL DOSING UNIT
- M — PROGRESSIVE CAVITY PUMP

LINETYPE AND ANNOTATION SYMBOLS

PROPOSED / EXISTING

- PRIMARY PROCESS LINE
- SECONDARY PROCESS LINE
- TERTIARY PROCESS LINE
- ELECTRICAL SIGNAL
- A — ANALOG SIGNAL
- V — VENDOR SUPPLIED CABLE
- PNEUMATIC LINE
- CAPILLARY TUBING
- CAPILLARY TUBING
- COPPER TUBING
- HOSE
- EN — ETHERNET CABLE
- FO — FIBER OPTIC CABLE
- 120V,1Ø — 120V POWER SUPPLY
- 480V,3Ø — 480V POWER SUPPLY
- WIRING CONTINUATION

- P-XXX / PUMP — EQUIPMENT IDENTIFIER AND DESCRIPTION
- XX — PLC INPUT / OUTPUT TERMINAL (DI / DO)
- SLOPE LINE
- LINE CONTENTS / ID | REF. DWG. NO. / NOTE — LINE CONTINUATION IN OR OUT OF DRAWING
- LINE CONTINUATION TO PROCESS / STORAGE
- UP- / PROCESS / (EXISTING) — EXISTING UNIT PROCESS
- UP- / PROCESS / SHEET # — PROPOSED UNIT PROCESS

FUNCTION INDICATOR LEGEND

- STATUS LIGHT, PANEL MOUNTED
- AUDIBLE HORN
- PANEL MOUNTED DEVICE
- SUB PANEL MOUNTED DEVICE
- FIELD MOUNTED DEVICE
- COMPUTER FUNCTION
- PLC FUNCTION
- SHARED DISPLAY / CONTROL (OF COMPUTER OR PLC FUNCTION)
- LE/LT — LEVEL ELEMENT / TRANSMITTER (CAPACITANCE PROBE)
- LE/LT — LEVEL ELEMENT / TRANSMITTER (ULTRASONIC)
- LT / LE — LEVEL ELEMENT / TRANSMITTER (SUBMERSIBLE)
- AE / XX — PROBE: WHERE (XX) = pH = pH PROBE, COND = CONDUCTIVITY PROBE

EQUIPMENT AND TANK LEGEND

- CHEM — CHEMICAL TANK
- CHEM — ROUND STORAGE TANK
- CHEM — CLOSED TOP TANK
- CHEM — OPEN TOP TANK
- TANK ID — BURIED / BELOW GRADE TANK

PROCESS AND INSTRUMENTATION (SHEET 2)

DWG NO. 8 OF 72
SHEET G-08
PROJ. NO. 400-086.01
DATE JULY 31, 2020

BID DOCUMENTS

File name: C:\Civil 3D Projects\400-086.01 MIEX Regeneration System Upgrade - Main WTP\01_Working\400-086.01_G-03-MULTI.dwg; Plotted @: 5/26/2021 12:55:44 PM; Scale multiplier: 0.5; Printed by: Jcrick; Milestone: BID DOCUMENTS

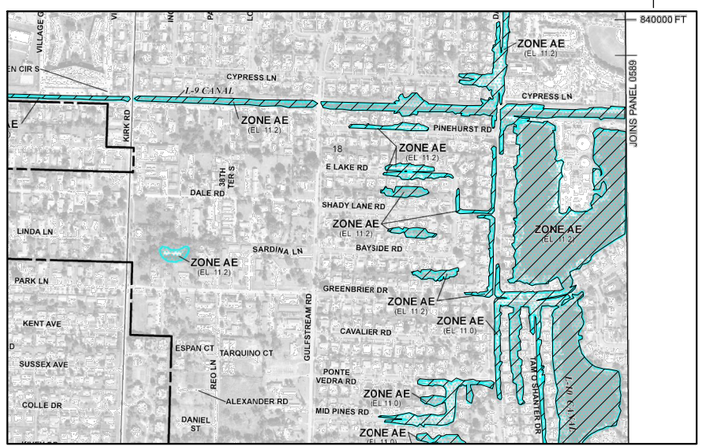
DESIGN CRITERIA

VILLAGE OF PALM SPRINGS BUILDING DEPARTMENT REQUIREMENTS:

1) CONTRACTOR SHALL COORDINATE AND OBTAIN ALL PERMITS REQUIRED FOR THE EXECUTION OF THE WORK FROM THE VILLAGE OF PALM SPRINGS BUILDING DEPARTMENT.
2) CONTRACTOR SHALL REGISTER WITH PALM SPRINGS LAND DEVELOPMENT.
3) FOLLOWING APPROVAL BY ENGINEER, CONTRACTOR SHALL SUBMIT PRODUCT APPROVAL DOCUMENTATION FOR THE FOLLOWING ITEMS TO THE VILLAGE OF PALM SPRINGS BUILDING DEPARTMENT.
5) SEPARATE PERMITS WILL BE REQUIRED FOR THE FOLLOWING:
   - OTHER PERMITS AS MAY BE REQUIRED BY BUILDING OFFICIAL.
6) REFER TO SPECIFICATIONS SECTION 01010-SUMMARY OF WORK FOR ADDITIONAL INFORMATION.

FLOOD ELEVATION:

100 YEAR FLOOD ELEVATION:	16.30' NAVD88 (17.78' NGVD29)



(DATA FROM PALM BEACH COUNTY FEMA FLOOD MAP - 12099C0588F) (EFFECTIVE OCT 5, 2017)

LEGEND

ZONE AE (EL 16.3) NAVD88

OTHER AREAS (ZONE X / D)

NORTH

FEMA FLOOD ZONE MAP (NOT TO SCALE)

BUILDING / STRUCTURAL

CODES

- FLORIDA BUILDING CODE, 2020, 7TH EDITION
- FLORIDA FIRE PROTECTION CODE, LATEST EDITION
- NATIONAL ELECTRIC CODE 2017
- ACI 318 "BUILDING CODE REQUIREMENTS FOR REINFORCED CONCRETE"
- ALUMINUM DESIGN MANUAL "SPECIFICATIONS FOR ALUMINUM STRUCTURES", LATEST EDITION
- CRSI HANDBOOK
- AISC MANUAL OF STEEL CONSTRUCTION
- MASONRY CONSTRUCTION SHALL CONFORM TO LATEST ACI CODE REQUIREMENTS FOR CONCRETE MASONRY STRUCTURES (ACI 530 / ASCE 5 / TMS 402), SPECIFICATIONS FOR MASONRY STRUCTURES (ACI 530.1 / ASCE 6 / TMS 602) ASTM C476, ASTM C1019, AND NCMA TEK 107.

GENERAL STRUCTURE SCHEDULE

STRUCTURE	GROSS AREA (SF)	OCCUPANCY	TYPE OF CONSTRUCTION	OCCUPANCY LOAD
N/A	N/A	N/A	N/A	N/A

(1) ALL STRUCTURES ARE NON-HABITABLE.

LIFE SAFETY PLAN ELEMENTS

- MEANS OF EGRESS
  - MINIMUM CLEAR OPENING OF DOORS: 32" (REQUIRED PER FBC 1010.1.1)
  - MINIMUM HEADROOM (CEILING HEIGHT): 7'-6" (REQUIRED PER FBC 1003.2)
  - MINIMUM DOORWAY HEADROOM: 6'-8" (REQUIRED PER FBC 1010.1.1)
  - MINIMUM STAIR WIDTH: 36" (REQUIRED PER FBC 1011.2, EXCEPTION 1)
  - MINIMUM STAIRWAY HEADROOM: 6'-8" (REQUIRED PER FBC 1011.3)
- EXITS
  - NUMBER OF EXITS REQUIRED: 1 REQUIRED PER SPACE PER FBC 1022.1
  - NUMBER OF EXITS PROVIDED: 1 PER ROOM (MINIMUM)
  - SPECIAL EXIT REQUIREMENTS: INGRESS / EGRESS SHALL BE PROVIDED AT EACH END OF ELECTRICAL EQUIPMENT MEETING THE REQUIREMENTS OF NEC 110.26 (C) (2)
- TRAVEL DISTANCE
  - ALLOWABLE TRAVEL DISTANCE: 75' PER FBC TABLE 1006.2.1 (GROUP F - WITHOUT SPRINKLER SYSTEM)

DESIGN LOADING CRITERIA

- DESIGN LOADS
  - EQUIPMENT: ACTUAL
  - BRIDGE CRANE OR MONORAIL ACTUAL
  - ROOF, SUPERIMPOSED: ACTUAL, 15 PSF MIN.
- LIVE LOADS:
  - ROOF (MIN., UNREDUCED): 20 PSF
  - WALKWAYS AND PLATFORMS: 100 PSF
  - FLOOR: 100 PSF (OR HS20-44, IF APPLIES)
  - PROCESS SLABS: 200 PSF
- IMPACT LOADS
  - TRAVELING CRANES AND HOSTS: 25% OF THE LIFTED LOAD
  - ROTATING EQUIPMENT: 20% OF THE MACHINE WEIGHT
  - RECIPROCATING EQUIPMENT: 50% OF THE MACHINE WEIGHT
- WIND DESIGN DATA:

DESIGN WIND PRESSURE CRITERIA IN ACCORDANCE WITH PROVISIONS OF ASCE 7-16 FOR THE FOLLOWING WIND PRESSURE DATA PER FLORIDA BUILDING CODE SECTION 1603:

- ULTIMATE WIND SPEED ($V_{(ult)}$) : 180 MPH (3 SECOND GUST) (FBC 1620.2)
- NOMINAL DESIGN WIND SPEED (V_{asd}) : 139 MPH (FBC TABLE 1609.3.1)
- RISK CATEGORY: III (FBC TABLE 1604.5)
- EXPOSURE CATEGORY: C (FBC 1620.3)
- INTERNAL PRESSURE COEFFICIENT: ± 0.55

BUILDING / STRUCTURAL (CONTINUED)

- BUOYANCY
  - ASSUMED GROUND WATER ELEVATION FOR BUOYANCY LOAD: FINISH GRADE
  - FACTOR OF SAFETY: 2.0
- EARTHQUAKE DESIGN DATA (SEISMIC ZONE): NOT APPLICABLE
- FOUNDATIONS
  - DESIGN LOAD-BEARING VALUE OF SOILS: 2000 PSF

MATERIALS OF CONSTRUCTION

- STRUCTURAL CAST-IN-PLACE
  - CONCRETE, MIN. f'c @ 28 DAYS: 4,000 PSI (OR AS SPECIFIED)
- STRUCTURAL PRECAST/PRETENSIONED/PRE-STRESSED
  - CONCRETE, MIN. f'c @ 28 DAYS: 5,000 PSI
- PRESTRESSING TENDON/STRAND: ASTM A416/A21
- STRUCTURAL STEEL:
  - ROLLED W SHAPES, ASTM A572: 50,000 PSI
  - ANGLES, CHANNELS AND PLATES, ASTM A36: 36,000 PSI
  - TUBE SECTIONS, ASTM A500, GRADE C, fy: 46,000 PSI
- MASONRY:
  - CMU UNITS, GRADE N-1, COMPRESSIVE STRENGTH: 1,900 PSI (ASTM C90)
  - COMPRESSIVE STRENGTH OF MORTAR, TYPE S: 1,800 PSI (ASTM C270)
  - COMPRESSIVE STRENGTH OF GROUT: 3,000 PSI (ASTM C476)
  - MASONRY UNIT ASSEMBLY, f'm: 1,500 PSI
- REINFORCING STEEL, fy: 60,000 PSI

REINFORCING STEEL SHALL HAVE THE FOLLOWING MINIMUM CLEAR COVER UNLESS OTHERWISE NOTED: (SEE REINFORCEMENT CLEARANCE DETAIL, THIS SHEET)

- CONCRETE CAST AGAINST EARTH: 3"
- FORMED SURFACED IN CONTACT WITH SOIL, SEWAGE, WATER OR EXPOSED TO WEATHER: 2"
- FORMED SURFACES NOT EXPOSED TO WEATHER OR IN CONTACT WITH SOIL
  - -SLABS AND WALL: 2"
  - -BEAMS AND COLUMNS: 1-1/2"
- SPLICES AND LAPS OF DEFORMED BARS:
  - MINIMUM BAR LAP (TYPICAL): (SEE LAP SPLICE SCHEDULE, STRUCTURAL SHEETS)
  - TENSION LAPS: IN ACCORDANCE WITH ACI 318
  - OTHER LAP DISTANCES: AS INDICATED ON DRAWINGS

GENERAL CONDITIONS

ALL STRUCTURAL DRAWINGS SHALL BE USED IN CONJUNCTION WITH THE MECHANICAL, CIVIL, ELECTRICAL AND SHOP DRAWINGS AND SPECIFICATIONS.

THE CONTRACTOR SHALL REVIEW AND VERIFY DIMENSIONS SHOWN IN ALL PLANS AND REVIEW ALL FIELD CONDITIONS THAT MAY AFFECT THE INSTALLATION OF THE FACILITY. SHOULD DISCREPANCIES APPEAR, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING TO OBTAIN ENGINEER'S CLARIFICATION BEFORE COMMENCING WITH THE WORK.

FOR ALL ITEMS EMBEDDED IN OR PASSED THROUGH CONCRETE, THE CONTRACTOR SHALL INITIALLY REFER TO MECHANICAL AND ELECTRICAL DRAWINGS FOR TYPE, SIZE, LOCATION AND SPECIAL INSTALLATION REQUIREMENTS FOR THESE ITEMS.

THE CONTRACTOR SHALL TAKE ANY AND ALL NECESSARY MEASURES TO PROTECT EXISTING STRUCTURES FROM DAMAGE WHEN WORKING IN AND AROUND EXISTING STRUCTURES PERFORMING WORK SUCH AS DEMOLITION, FOUNDATION EXCAVATION AND OTHER WORK.

SIZE AND LOCATION OF EQUIPMENT PADS AND ANCHOR BOLTS SHALL BE PER EQUIPMENT MANUFACTURER'S REQUIREMENTS AND APPROVED SUBMITTALS.

ANY EQUIPMENT THAT MAY INDUCE VIBRATION TO THE STRUCTURE SHALL BE ADEQUATELY ISOLATED FROM THE STRUCTURES.

ALL EXPOSED CORNERS OF CONCRETE SHALL HAVE A MINIMUM 3/8" TOOLED EDGE AT ALL EXPOSED EDGES UNLESS OTHERWISE NOTED.

THE CONTRACTOR SHALL OBTAIN ENGINEER'S APPROVAL FOR THE LOCATION OF CONSTRUCTION JOINTS THAT ARE NOT SHOWN ON THE DRAWINGS.

SEQUENCE OF CONSTRUCTION

GENERAL PROJECT REQUIREMENTS

1) CONTRACTOR SHALL COMPLETE THOROUGH REVIEW OF PROJECT SITE, PROJECT REQUIREMENTS, DRAWINGS AND SPECIFICATIONS TO PREPARE AND SUBMIT A DETAILED SEQUENCE OF CONSTRUCTION AND COORDINATION SUBMITTAL. THIS SUBMITTAL SHALL BE MADE IN ACCORDANCE WITH SECTION 01300 - SUBMITTALS AND COORDINATED WITH THE CONTRACTOR'S OVERALL PROJECT SCHEDULE. THE CONSTRUCTION SEQUENCING AND COORDINATION SUBMITTAL SHALL BE REVIEWED AND APPROVED BY ENGINEER AND OWNER PRIOR TO PROGRESSION OF WORK ON SITE THAT IMPACTS EXISTING REGENERATION SYSTEM OPERATIONS.

MIEX REGENERATION SYSTEM IMPROVEMENTS

GENERAL PROJECT CONSIDERATIONS

WORK ASSOCIATED WITH THIS PROJECT MUST NOT ADVERSELY IMPACT THE WATER TREATMENT PLANT OPERATIONS BEYOND THE TIME FRAMES SPECIFIED. AS A RESULT, CONTRACTOR MUST COORDINATE WORK AND CONNECTIONS TO THE EXISTING MIEX SYSTEM COMPONENTS TO MEET THE FOLLOWING CONDITIONS:

1. EXISTING CONTROL SYSTEMS SHALL REMAIN IN SERVICE UNTIL PROPOSED SYSTEMS ARE FULLY OPERATIONAL.
2. EXISTING MIEX PRETREATMENT SYSTEM SHALL REMAIN IN SERVICE AT ALL TIMES DURING CONSTRUCTION OF PROPOSED REGENERATION SYSTEM. WORK REQUIRED TO TEMPORARILY RELOCATE EXISTING EQUIPMENT, VALVES, INSTRUMENTS AND ASSOCIATED WIRING / CONTROLS SHALL BE INCLUDED IN THE SCOPE OF WORK.
3. SHORT TERM MIEX REGENERATION SYSTEM SHUTDOWN SHALL BE ALLOWED IN ACCORDANCE WITH THE FOLLOWING REQUIREMENTS:
   - PROVIDE OWNER MINIMUM COORDINATION NOTICE OF 48 HOURS.
   - SHORT TERM SHUTDOWN DURATION SHALL NOT EXCEED 72 HOURS.
   - REGENERATION SYSTEM SHUTDOWN(S) SHALL BE FOLLOWED BY A MINIMUM OF 5-DAYS OPERATION PRIOR TO ADDITIONAL SHUTDOWN(S).
4. NEW MIEX REGENERATION SYSTEM SHALL MEET THE FOLLOWING:
   - MODULAR DESIGN WITH SHIPPING SPLITS.
   - ALL SYSTEM COMPONENTS SHALL BE PRE-ASSEMBLED AND TESTED FOR COMPLETE SYSTEM FUNCTIONALITY BEFORE SHIPMENT.
   - AFTER SUCCESSFUL TESTING SYSTEM SHALL BE DISASSEMBLED AT SHIPPING SPLITS.
5. DURING INSTALLATION OF REGENERATION SYSTEM AND WHEN VIRGIN RESIN ADDITION (MAKEUP) IS DOWN, CONTRACTOR SHALL ASSIST VILLAGE WITH DIRECT DUMP OF VIRGIN RESIN STORAGE TOTES INTO CONTACTOR, WHEN NEEDED. (ESTIMATED 2 TOTES (265 GALLON / EA) EVERY OTHER MONTH.

SUGGESTED SEQUENCE OF CONSTRUCTION RECOMMENDATIONS

1) THE FOLLOWING INFORMATION IS PROVIDED TO ASSIST THE CONTRACTOR IN SEQUENCE OF DEMOLITION AND CONSTRUCTION TO ALLOW THE EXISTING MIEX REGENERATION SYSTEM TO REMAIN IN SERVICE DURING THE CONSTRUCTION PROCESS. THE CONTRACTOR SHALL REFER TO THESE AND OTHER NOTES THROUGHOUT THE PROJECT DRAWINGS.
2) CONTRACTOR SHALL HAVE THE FREEDOM TO PERFORM CONSTRUCTION AND DEMOLITION IN ANY FASHION AND IN ANY ORDER CONTRACTOR SEES FIT AS LONG AS THE PERFORMANCE OF THE WORK MEETS OR EXCEEDS THE ABOVE GENERAL PROJECT CONSIDERATIONS.
3) COMPLETE SHOP DRAWING PHASE, PROCUREMENT AND DELIVERY (OR HAVE DELIVERY SCHEDULED) FOR ALL MAJOR PIECES OF EQUIPMENT ASSOCIATED WITH THE SYSTEM UPGRADE.
4) COORDINATE WITH OWNER AND ENGINEER AND PROVIDE PRELIMINARY SCHEDULE OF SYSTEM SHUTDOWN(S) NEEDED TO COMPLETE THE WORK.
5) ALL MATERIAL SHALL BE ON-SITE PRIOR TO SYSTEM SHUTDOWN AND DEMOLITION.
6) COMPLETE ALL WORK THAT IS POSSIBLE BEFORE SHUTDOWN OF THE EXISTING SYSTEMS.
7) REMOVE EXISTING EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS AS INDICATED BY DRAWINGS WHILE MAINTAINING REGENERATION SYSTEM OPERATION.
8) INSTALL ALL NEW EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS.
9) COMPLETE ALL SYSTEM MANUFACTURER, CONFIGURATION, STARTUP AND TRAINING.
10) PLACE ALL NEW SYSTEMS INTO OPERATION.
11) COMPLETE DEMOLITION OF EXISTING AND RELOCATED REGENERATION SYSTEM EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS AS INDICATED BY DRAWINGS.
12) SEQUENCE OF CONSTRUCTION NOTES ARE NOT MEANT TO COVER ALL ASPECTS OF THE DEMOLITION AND CONSTRUCTION PROCESS.

PROJECT SPECIFIC AREAS OF CONSIDERATION

A. GENERAL CONSTRUCTION / DEMOLITION

1) REMOVE VIRGIN RESIN TANK AND MIXER, STAIRS, VIRGIN RESIN TRANSFER PUMP, DISCONNECT AND CONDUITS.
2) REMOVE VIRGIN RESIN PIPING (VR), HIGH PRESSURE AIR (HPA) AND SERVICE WATER (W2) CURRENTLY SERVICING VIRGIN RESIN EQUIPMENT. CAP REMAINING PIPE(S) TO ALLOW SYSTEM OPERATION DURING CONSTRUCTION.
3) PLACE RAISED CONCRETE EQUIPMENT PADS PER DRAWINGS FOR RELOCATED REGENERATION EQUIPMENT.
4) REMOVE EXISTING LOUVER ASSEMBLY TO ALLOW EQUIPMENT REMOVAL / INSTALLATION. CONTRACTOR SHALL STORE LOUVER ON SITE IN A MANNER TO PREVENT DAMAGE UNTIL REINSTALLATION.

B. FRESH RESIN TANK AND TRANSFER EQUIPMENT

1) RELOCATE FRESH RESIN TANK (T-3-4-1), FRESH RESIN PUMP (P-3-4-1), SUCTION AND DISCHARGE PIPING, METER AND HOSES.
2) PROVIDE TEMPORARY CONNECTIONS FOR:
   - 6" (RR) REGENERATED RESIN
   - 1" (W2) FLUSHING AND SEAL WATER
   - 1-1/2" (FR) FRESH RESIN
   - POWER FOR TANK MIXER AND FRESH RESIN PUMP
   - CONTROL WIRING FOR LE/LT SENSOR AND FRESH RESIN FLOW METER

C. REGENERANT TANK / RELATED EQUIPMENT AND PIPING

1) RELOCATE REGENERANT TANK (T-3-3-1) TO FACILITATE CONCRETE REMOVAL FOR PROPOSED PIPING INSTALLATION.
2) REMOVE AND REPAIR CONCRETE AS REQUIRED PRIOR TO FINAL PLACEMENT OF REGENERANT TANK.
3) EXTEND AND RECONNECT EXISTING PIPING TO REGENERANT TANK:
   6" RD (REGENERATED DECANT)
   4" W2 (PROCESS WATER)
   2" SSS (SATURATED SALT SOLUTION)
   3" SRR (SUPERNATANT / REGENERANT / RINSE WATER

D. PROPOSED MIEX REGENERATION SKID PLACEMENT

1) PLACE CONCRETE FOR PROPOSED REGENERATION SKIDS PER PLANS.
2) INSTALL PROPOSED REGENERATION EQUIPMENT SKIDS, PIPING, HANGERS, AND VALVES. CONNECT TO EXISTING PIPING SYSTEM PER PLANS, CONTRACTOR SHALL FIELD COORDINATE FINAL PIPING TIE-INS AND CONNECTIONS TO ACCOMMODATE SITE CONDITIONS AND VILLAGE PREFERENCES.
3) INSTALL PROPOSED MIEX ACP CABINET, CONDUIT(S) AND WIRING PER PLAN TO PROPOSED EQUIPMENT.
4) START-UP PROPOSED REGENERATION SYSTEM AND ENSURE PROPER OPERATION PRIOR TO FINAL REMOVAL OF EXISTING REGENERATION EQUIPMENT AND PIPING.

NOTES

1) SEE GENERAL NOTES ON SHEET G-03.
2) CONTRACTOR'S OFFICE TRAILER, EMPLOYEE PARKING AND MATERIAL STORAGE AREAS WILL BE COORDINATED ON-SITE WITH OWNER.
3) DEMOLITION WORK, PROPOSED WORK AND SCHEDULED SHUTDOWNS SHALL BE COORDINATED WITH SITE STAFF, ENGINEER AND "SEQUENCE OF CONSTRUCTION" (SEE SHEET G-12).
4) SEE SPECIFICATION SECTION 02072 - DEMOLITION FOR ADDITIONAL REQUIREMENTS.
5) CONTRACTOR IS RESPONSIBLE FOR RETURNING REMOVED EQUIPMENT TO OWNER AS SPECIFIED HERE AND THROUGHOUT DRAWINGS AND SPECIFICATIONS.

   THE VILLAGE HAS PRELIMINARILY MARKED THE FOLLOWING ITEMS TO BE SALVAGED FOR THE VILLAGE BY CONTRACTOR:

   - (TO BE DETERMINED)

5) CONTRACTOR RESERVES THE RIGHT TO KEEP ANY REMOVED EQUIPMENT THAT IS NOT REQUESTED BY THE OWNER OR SPECIFIED TO BE RETURNED THROUGHOUT THE DRAWINGS AND SPECIFICATIONS. ANY EQUIPMENT NOT REQUESTED BY OWNER SHALL BE DISPOSED OF LAWFULLY BY THE CONTRACTOR.
6) FOR ELECTRICAL DEMOLITION AND TEMPORARY ELECTRICAL PROJECT REQUIREMENTS, CONTRACTOR SHALL REFER TO INSTRUMENTATION AND ELECTRICAL DRAWINGS.
7) EQUIPMENT REMOVAL SHALL INCLUDE PIPING AS INDICATED ON DRAWINGS, ACCESSORIES AND ELECTRICAL CONDUIT(S)/WIRING ETC., SUPPORTS, AND MOUNTING / ANCHORING HARDWARE TYPICAL, UNLESS OTHERWISE STATED.
8) PIPING REMOVAL SHALL BE INCLUSIVE OF ALL PIPE, FITTING, VALVES, SUPPORTS AND ANCHORAGE, TYPICAL.

BID DOCUMENTS

NOTES AND DESIGN CRITERIA - STRUCTURAL

GENERAL NOTES

1) THESE NOTES SUPPLEMENT THE SPECIFICATIONS, WHICH SHALL BE REFERENCED FOR ADDITIONAL REQUIREMENTS.

2) THE CONTRACTOR SHALL REVIEW AND VERIFY DIMENSIONS SHOWN IN ALL PLANS AND REVIEW ALL FIELD CONDITIONS THAT MAY AFFECT THE INSTALLATION OF THE FACILITY. SHOULD DISCREPANCIES APPEAR, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING TO OBTAIN ENGINEER'S CLARIFICATION BEFORE COMMENCING WITH THE WORK.

3) WHERE DISCREPANCIES OCCUR BETWEEN PLANS, DETAILS, GENERAL NOTES, PLAN NOTES AND SPECIFICATIONS, THE MORE STRINGENT REQUIREMENTS SHALL GOVERN. DETAILS ON DRAWINGS TAKE PRECEDENCE OVER GENERAL NOTES AND TYPICAL DETAILS. DETAILS NOTED TYPICAL APPLY TO ALL SIMILAR CONDITIONS. WHERE NO SPECIFIC DETAILS ARE SHOWN, CONSTRUCTION SHALL CONFORM TO SIMILAR WORK ELSEWHERE ON THE PROJECT.

4) FOR ALL ITEMS EMBEDDED IN OR PASSED THROUGH CONCRETE, THE CONTRACTOR SHALL INITIALLY REFER TO MECHANICAL AND ELECTRICAL DRAWINGS FOR TYPE, SIZE, LOCATION, AND SPECIAL INSTALLATION REQUIREMENTS FOR THESE ITEMS.

5) ALL EXPOSED CORNERS OF CONCRETE SHALL HAVE A MINIMUM 3/4" CHAMFERED EDGE OR 3/8" RADIUS TOOLED EDGE UNLESS OTHERWISE NOTED.

6) COORDINATION: STRUCTURAL DRAWINGS ARE NOT STAND-ALONE DOCUMENTS AND ARE INTENDED TO BE USED IN CONJUNCTION WITH THE CIVIL, MECHANICAL, ELECTRICAL AND DRAWINGS FROM OTHER DISCIPLINES. THE CONTRACTOR SHALL COORDINATE ALL REQUIREMENTS OF THE CONTRACT DOCUMENTS.

7) EQUIPMENT ARRANGEMENTS, DIMENSIONS AND MATERIALS ARE SHOWN FOR REFERENCE, CONTRACTOR SHALL COORDINATE FINAL REQUIREMENTS WITH ENGINEER APPROVED, MANUFACTURER SHOP DRAWINGS.

CONCRETE FINISH SCHEDULE

TYPE OF FINISH	AREA OR SURFACE TYPE	REQUIRED FROM TOLERANCES

#9	1.128
#10	1.270

4) THE CONTRACTOR SHALL OBTAIN ENGINEER'S APPROVAL FOR THE LOCATION OF CONSTRUCTION JOINTS THAT ARE NOT SHOWN ON THE DRAWINGS.

5) REINFORCEMENT SHALL BE ASTM A615 GRADE 60.

DESIGN CRITERIA

1) DESIGN WIND PRESSURE CRITERIA IN ACCORDANCE WITH PROVISIONS OF ASCE 7-16 FOR THE FOLLOWING CRITERIA PER FLORIDA BUILDING CODE SECTION 1609:
WIND DESIGN DATA:

VELOCITY (V_{ult})	180 MPH (3 SECOND GUST)
VELOCITY (V_{asd})	139 MPH (3 SECOND GUST)
RISK CATEGORY:	III
EXPOSURE CATEGORY:	C

2) DESIGN LOADS SHALL BE AS FOLLOWS:
a) DEAD LOAD = ACTUAL MEMBER OR PRECAST COMPONENTS WEIGHT.
b) LIVE LOAD = ROOF (MIN., UNREDUCED) 20 PSF
WALKWAYS AND PLATFORMS 100 PSF
FLOOR 100 PSF
PROCESS SLABS 200 PSF

3) FLOOD DESIGN DATA:
SEE DRAWING(S) G-02 AND / OR G-09.

4) DESIGN LOADS: FBC, LATEST EDITION.

5) DESIGN CRITERIA FOR STRUCTURE(S) AND FOUNDATIONS:
a) SOIL BEARING CAPACITY = 2000 PSF
b) CONCRETE COMPRESSIVE STRENGTH AT 28 DAYS = 4,000 PSI, UNLESS SPECIFIED OTHERWISE.
c) MAXIMUM W/C RATIO = 0.40

NOTES

1) VERIFY EXHAUST FAN AND DOOR ROUGH OPENING REQUIREMENTS WITH ENGINEER APPROVED, MANUFACTURER'S SHOP DRAWING(S).
2) PROVIDE REINFORCED CONCRETE IN-FILL ABOVE PROPOSED ELECTRICAL ROOM DOOR. CONCRETE SHALL MATCH BLOCK WIDTH AND EXTEND A MINIMUM OF 8" BEYOND ROUGH OPENING AT EACH END.
3) PROVIDE 12"x8" PRECAST LINTEL AT CMU OPENING (COORDINATE W/ ARCHITECTRUAL SHEETS). EXTEND LINTEL A MINIMUM OF 8" EACH SIDE OF ROUGH OPENING. BREAK OUT OPENING(S) IN LINTEL TO ALLOW VERTICAL REINFORCEMENT TO PASS THROUGH. GROUT OPENINGS FOLLOWING INSTALLATION.
4) COORDINATE FINAL EQUIPMENT PAD DIMENSIONS WITH THE APPROVED EQUIPMENT SHOP DRAWINGS.
5) TANKS, MIEX SKIDS AND PIPING NOT SHOWN FOR PLAN CLARITY.
6) EXISTING RAISED EQUIPMENT PAD(S) TO REMAIN. PROPOSED CONCRETE SHALL BE SAME THICKNESS AS EXISTING PADS. WHERE EXISTING PADS HAVE 3/4" CHAMFER, CONCRETE EDGES SHALL BE SAWCUT SQUARE OR REMOVED PRIOR TO NEW CONCRETE PLACEMENT.

BID DOCUMENTS

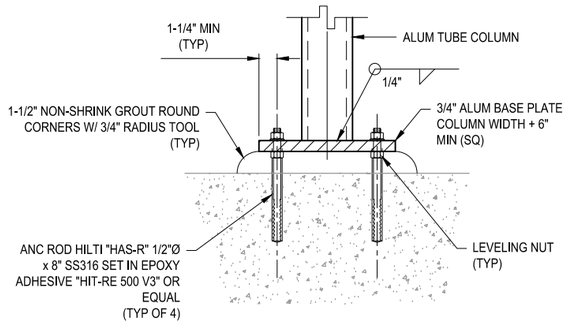
NOTES:
1) PROVIDE EXPANSION JOINT AND PROTECTIVE JOINT CASINGS AS PER SPECIFICATIONS 05520-HANDRAILS AND RAILINGS.
2) SHOP DRAWINGS SHALL DETAIL TOE BOARD CONNECTION.

TYPICAL HANDRAIL

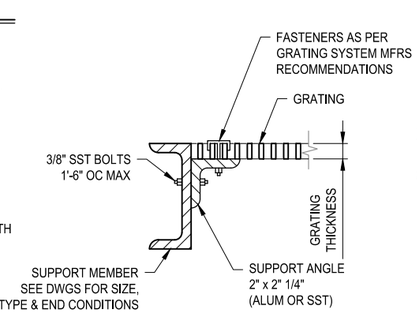


316

NOTES:
1) BASE PLATE, HANDRAIL AND POST TO BE SAME THE MATERIAL. PROVIDE PROTECTION FOR DISSIMILAR AND CONCRETE AS PER SPECIFICATIONS.
2) WELD POST CONNECTION AS SHOWN FOR STEEL AND STAINLESS STEEL. FOR ALUMINUM PROVIDE CONNECTION DEVELOPING FULL PIPE STRENGTH FOR SHOP DRAWING REVIEW.

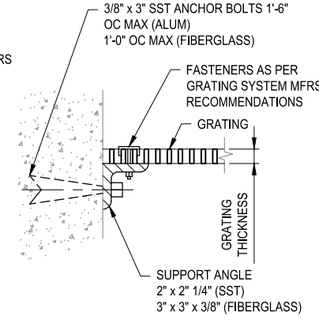
HANDRAIL POST ANCHORAGE (TYPICAL)

317A



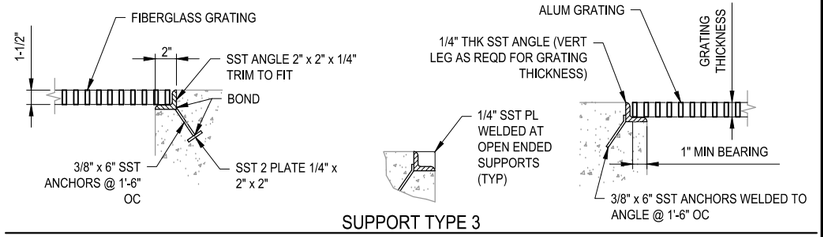
COLUMN BASE CONNECTION

341



NOTES

1) GRATING SPAN ⟷ SEE PLAN.
2) GRATING WIDTH SECTIONS SHALL BE BETWEEN 2'-0" AND 3'-0".
3) SHOP DRAWINGS SHALL BE SUBMITTED TO THE ENGINEER BASED ON FIELD DIMENSIONS PRIOR TO FABRICATION. SHOP DRAWINGS SHALL SHOW ALL GRATING SECTIONS AND BANDING.
4) UNLESS SHOWN ON PLANS, USE GRATING THICKNESS IN TABLE.
5) BEARING BAR THICKNESS FOR GRATING TO BE 3/16" MINIMUM.
6) BAND ALL EDGES WITH 1/4" x DEPTH OF BEARING BAR. ALL CUTOUTS THROUGH GRATING SHALL ALSO BE BANDED.
7) PROVIDE MISCELLANEOUS GRATING FASTENERS AS REQUIRED.
8) ALL SECTIONS OF GRATING SHALL BE REMOVABLE.
9) TYPE OF MATERIAL USED SHALL BE AS SHOWN ON PLANS OR AS SPECIFIED. THIS STANDARD DETAIL INCLUDES 2 TYPES ALTHOUGH BOTH MAY NOT BE INCLUDED IN PROJECT.



GRATING THICKNESS TABLE		
MAX SPAN	ALUMINUM	FIBERGLASS
3'-6"	1-1/4"	1-1/2"
4'-0"	1-1/2"

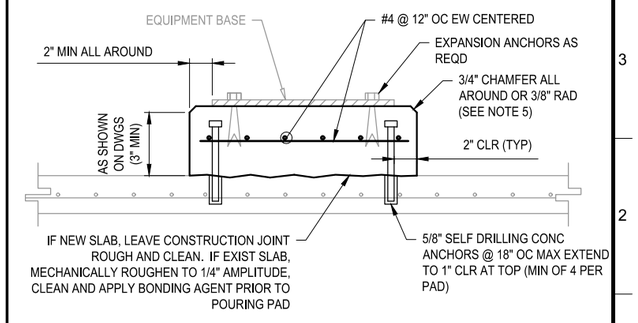
GRATING DETAILS

NOTES:
1) BRACKET MATERIALS TO BE SAME MATERIAL AS BEAM.
2) TOP PLATE SHALL BE SIZED AS REQUIRED TO ACCOMODATE EQUIPMENT TO BE MOUNTED OR AS INDICATED. PLATE SHALL BE A MINIMUM OF 10" SQUARE, COORDINATE WITH EQUIPMENT.
3) EQUIPMENT MOUNTING HOLES SHALL BE FIELD DRILLED / CUT AS REQUIRED, UNLESS OTHERWISE SHOWN.



SPECIFIC NOTES
1. PL1/2" (MINIMUM 10" SQ)
2. PL1/2" (WEB STIFFENER)

343

BEAM MOUNTED BRACKET

NOTES:
1) PAD SIZE SHALL BE MIN SHOWN ON DETAIL OR DRAWING, OR AS INDICATED BY THE EQUIPMENT MANUFACTURER AND REVIEWED BY THE ENGINEER.
2) EQUIPMENT BASES SHALL BE INSTALLED LEVEL UNLESS SPECIFIED OTHERWISE.
3) SHIM BASES AND BACK OFF TEMPORARY LEVEL NUTS PRIOR TO PLACING GROUT. SHIMS SHALL NOT BE EXPOSED TO VIEW.
4) ANCHOR BOLT TYPE, SIZE, NUMBER, LOCATION AND THREAD PROJECTION SHALL BE AS PER EQUIPMENT MANUFACTURER'S RECOMMENDATIONS AND REVIEWED BY THE ENGINEER. WHERE APPLICABLE ANCHOR BOLTS SHALL BE HELD IN POSITION WITH A TEMPLATE WHILE PAD IS BEING POURED AND CURED.
5) 3/8" TOOLED EDGE IS ACCEPTABLE SUBSTITUTE WITH OWNER / ENGINEER APPROVAL. DO NOT CHAMFER OR TOOL EDGES OF PADS ADJACENT TO WALLS.

PIPING SCHEDULE NOTES

1) H = HYDROSTATIC PRESSURE TEST
   P = PNEUMATIC PRESSURE TEST
2) DISINFECTION OF THE PIPING SHALL BE COMPLETED IN ACCORDANCE WITH SECTION 15029-TESTING AND DISINFECTION (PIPELINE, STRUCTURES AND EQUIPMENT)
3) EXPOSED PIPE, INTERIOR & EXTERIOR, SHALL BE PREPARED AND PAINTED (COLOR CODED) AND LABELED. PREPARATION, PAINTING AND LABELING SHALL BE AS SPECIFIED IN SECTION 09900 - PROTECTIVE COATINGS AND AS SCHEDULED IN THE ARCHITECTURAL DRAWINGS.
4) COLOR CODES ARE TNEMEC.
5) EXPOSED PIPING SHALL BE LABELED EVEN IF NOT PAINTED.
6) BURIED PIPING SHALL BE STRIPED PER APPLICABLE SERVICE COLOR CODE. MINIMUM 2" WIDE STRIPE ON FOUR (4) QUADRANTS OF PIPE.
7) FLEXIBLE TUBING SHALL BE BANDED PER COLOR CODE AT 5'-0" O.C. BANDING SHALL BE FLEXIBLE COLORED TAPE, 1" MINIMUM WIDTH.
8) OTHER PIPING REQUIREMENTS NOT LISTED HERE SHALL BE AS NOTED ON DRAWINGS.

NEW PIPING SCHEDULE - YARD PIPING

( ) NUMBER(S) IN PARENTHESES REFER TO NOTES LISTED IN "PIPING SCHEDULE NOTES" THIS SHEET.

GENERAL MECHANICAL NOTES

1) CONTRACTOR SHALL VERIFY EXISTING PIPING LOCATIONS AND ELEVATIONS. REVISE PROPOSED PIPING INSTALLATIONS AS REQUIRED. REVISIONS SHALL BE AS APPROVED BY THE ENGINEER.
2) PIPING MATERIALS SHALL BE AS INDICATED BY THE PIPING SCHEDULE.
3) ALL DI YARD PIPING 4" AND LARGER SHALL BE RESTRAINED AS PER (STD DTL 401).
4) ALL PIPING SHALL BE INSTALLED WITH A MINIMUM COVER OF 30" UNLESS NOTED OTHERWISE. PIPING ELEVATION REQUIREMENTS NOTED SHALL TAKE PRECEDENCE.
5) ALL BURIED VALVES SHALL BE INSTALLED PER THE REQUIREMENTS OF THE STANDARD DETAILS.
6) SEE (STD DTL 405) FOR UTILITY TRENCH REQUIREMENTS OF PAVED AND NON-PAVED AREAS.
7) THRUST BLOCKS ALLOWED AT LOCATIONS NOTED ONLY.
8) SEE CIVIL DRAWINGS FOR SITE RESTORATION REQUIREMENTS.
9) WHERE EXISTING PIPING SYSTEMS ARE SHOWN TO BE REMOVED, THE PIPING NEED ONLY BE REMOVED TO FACILITATE CONSTRUCTION OF NEW IMPROVEMENTS. WHERE SECTIONS OF ABANDONED PIPING REMAIN THE EXPOSED ENDS SHALL BE GROUT PLUGGED OR CAPPED. (METHOD NOTED ON DRAWINGS)
10) GENERAL PIPE SUPPORT INFORMATION/REQUIREMENTS:
   A. PIPING SHALL BE SUPPORTED, IN GENERAL, AS DESCRIBED HEREINAFTER AND AS SHOWN BY THE PIPE SUPPORT DETAILS ON THE DRAWINGS. MANUFACTURER'S CATALOG FIGURE NUMBERS ARE TYPICAL OF THE TYPES AND QUALITY OF STANDARD PIPE SUPPORTS AND HANGERS TO BE EMPLOYED.
   B. NO ATTEMPT HAS BEEN MADE TO SHOW ALL REQUIRED PIPE SUPPORTS IN ALL LOCATIONS, EITHER ON THE DRAWINGS OR IN THE DETAILS. THE ABSENCE OF PIPE SUPPORTS AND DETAILS ON ANY DRAWINGS SHALL NOT RELIEVE THE CONTRACTOR OF THE RESPONSIBILITY FOR PROVIDING THEM THROUGHOUT THE PROJECT.
   C. WHERE PIPING CONNECTS TO EQUIPMENT IT SHALL BE SUPPORTED BY A PIPE SUPPORT AND NOT BY THE EQUIPMENT UNLESS NOTED OTHERWISE.
   D. PIPE SUPPORT TYPES SHALL BE PER THE SPECIFICATIONS AND STANDARD DETAILS.
   E. IN GENERAL, THE TYPE OF PIPE SUPPORTS TO BE USED SHALL BE AS FOLLOWS UNLESS SHOWN OTHERWISE ON DRAWINGS:

PIPE CENTERLINE ABOVE FLOOR	TYPE OF PIPE	TYPE OF SUPPORT
0 - 5 FT.	DUCTILE IRON	CONCRETE
> 5 FT.	DUCTILE IRON	ADJUSTABLE PIPE SADDLE, BRACKETS, SUPPORTS OR HANGERS
ANY HEIGHT	PLASTIC	SST OR FRP STRUT SYSTEM OR HANGERS
ANY HEIGHT	METAL (DUCTILE IRON)	SST OR FRP STRUT SYSTEM OR HANGERS

   F. PIPE SUPPORT SPACING

NOMINAL PIPE SIZE (INCHES)	DUCTILE IRON (FEET)	METALLIC NON-DUCTILE (FEET)	PLASTIC (FEET)
1/2	-	5	3
3/4 TO 1-1/2	-	5	5
2 TO 3	-	5	5
4	10	10	5
6 AND LARGER	10	10	5

   G. HANGER ROD SIZING

NOMINAL PIPE SIZE (INCHES)	DUCTILE IRON (INCHES)	METALLIC NON-DUCTILE (INCHES)	PLASTIC (INCHES)
1/2 TO 3	-	3/8	3/8
3	-	1/2	1/2
4	5/8	5/8	5/8
6 TO 8	7/8	3/4	3/4
10 TO 16	1	1	5
18	1-1/8	1-1/8	1-1/8
20 TO 24	1-1/4	1-1/4	1-1/4
30 AND ABOVE	SEE DWGS	SEE DWGS	SEE DWGS

   WHEN SUPPORTING DUCTILE IRON PIPE, LOCATE HANGER RODS AT ALL NONDRYING JOINTS AND AT EACH CHANGE OF DIRECTION.
   H. ALL PIPING SHALL BE SUPPORTED IN A MANNER WHICH WILL PREVENT UNDUE STRAIN ON ANY VALVE, FITTING, OR PIECE OF EQUIPMENT. IN ADDITION, PIPE SUPPORTS SHALL BE PROVIDED AT CHANGES IN DIRECTION OR ELEVATION, ADJACENT TO FLEXIBLE COUPLINGS, AND WHERE OTHERWISE SHOWN. PIPE SUPPORTS AND HANGARS SHALL NOT BE INSTALLED IN EQUIPMENT ACCESS AREAS OR BRIDGE CRANE RUNS.
11) ALL PIPING PENETRATIONS OF SLABS, FLOORS, WALLS AND ROOFS SHALL BE AS SHOWN ON THE DRAWINGS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO VERIFY THE SIZE AND LOCATION OF ALL STRUCTURE PENETRATIONS PRIOR TO POURING CONCRETE.
12) WHERE VALVE HANDWHEELS ARE SHOWN, VALVE ORIENTATION SHALL BE AS SHOWN. WHERE VALVE ORIENTATION IS NOT SHOWN, VALVES SHALL BE ORIENTED TO PERMIT EASY ACCESS TO THE HANDWHEELS, AND TO AVOID INTERFERENCES.
13) GENERAL REQUIREMENTS FOR UNIONS:
   A. UNIONS SHALL BE INSTALLED WHERE REQUIRED FOR PIPING OR EQUIPMENT INSTALLATION, EVEN THOUGH THEY ARE NOT SHOWN ON THE DRAWINGS.
   B. UNIONS SHALL NOT BE REQUIRED AT LOCATIONS WHERE ANOTHER TYPE OF BREAKABLE CONNECTION HAS BEEN PROVIDED (I.E., FLANGES, UNLESS SPECIFICALLY NOTED ON DRAWINGS.)
   C. UNIONS SHALL BE PROVIDED FOR ALL PIPING TO EQUIPMENT CONNECTIONS.
   D. UNIONS SHALL BE PROVIDED FOR REMOVAL OF ALL INLINE VALVES AND DEVICES.
14) ALL PVC PIPE LESS THAN OR EQUAL TO 4" SHALL BE PROTECTED AT GRADE PER (STD-437).

( ) NUMBER(S) IN PARENTHESES REFER TO NOTES LISTED IN "PIPING SCHEDULE NOTES" THIS SHEET.

PIPING SCHEDULE NOTES

1) H = HYDROSTATIC PRESSURE TEST
P = PNEUMATIC PRESSURE TEST
2) DISINFECTION OF THE PIPING SHALL BE COMPLETED IN ACCORDANCE WITH SECTION 15029-TESTING AND DISINFECTION (PIPELINE, STRUCTURES AND EQUIPMENT)
3) EXPOSED PIPE, INTERIOR & EXTERIOR, SHALL BE PREPARED AND PAINTED (COLOR CODED) AND LABELED. PREPARATION, PAINTING AND LABELING SHALL BE AS SPECIFIED IN SECTION 09900 - PROTECTIVE COATINGS AND AS SCHEDULED IN THE ARCHITECTURAL DRAWINGS.
4) COLOR CODES ARE TNEMEC.
5) EXPOSED PIPING SHALL BE LABELED EVEN IF NOT PAINTED.
6) BURIED PIPING SHALL BE STRIPED PER APPLICABLE SERVICE COLOR CODE. MINIMUM 2" WIDE STRIPE ON FOUR (4) QUADRANTS OF PIPE.
7) FLEXIBLE TUBING SHALL BE BANDED PER COLOR CODE AT 5'-0" O.C. BANDING SHALL BE FLEXIBLE COLORED TAPE, 1" MINIMUM WIDTH.
8) OTHER PIPING REQUIREMENTS NOT LISTED HERE SHALL BE AS NOTED ON DRAWINGS.

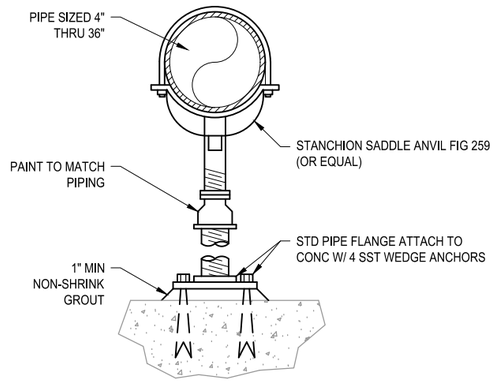
409B

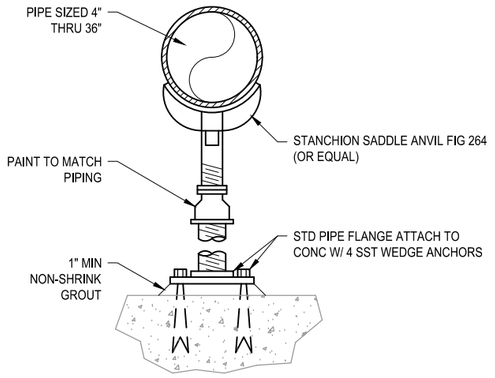
NON-BURIED VALVE MARKER



NOTES:
1) NAMEPLATE SHALL BE ENGRAVED RIGID LAMINATED PLASTIC.
2) NAMEPLATES SHALL BE BLACK WITH WHITE LETTERS.
3) LETTER HEIGHT SHALL 3/16".
4) FASTEN TO COMPONENT WITH SST SCREWS OR ADHESIVE.
5) CONTRACTOR SHALL CONFIRM TEXT DURING SHOP DRAWING PROCESS.
6) ALL NEW EQUIPMENT SHALL BE LABELED.
7) NAMEPLATE(S) SHALL BE SIZED AS SHOWN.

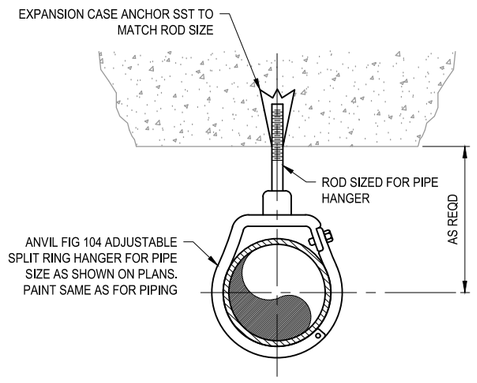
409C

GENERAL NEW EQUIPMENT LABEL



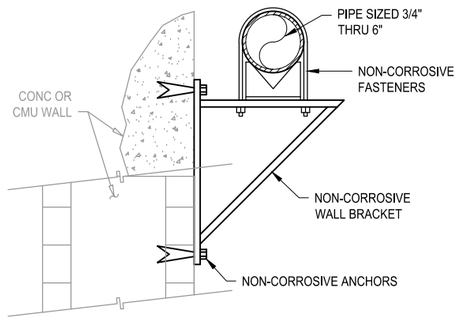
NOTES:
1) "(259)" ON THE DETAIL TITLE REFERS TO ANVIL MANUFACTURER MODEL NUMBER, OR EQUAL.

441



PIPE SUPPORT (259)

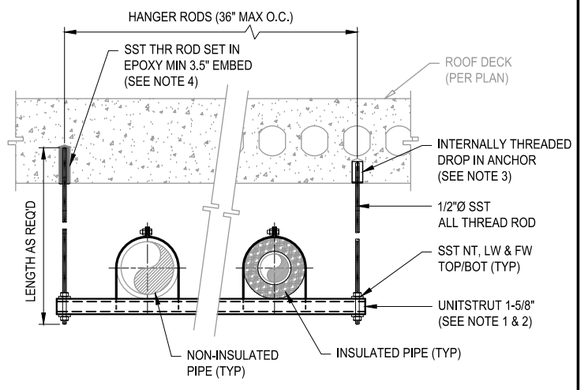
NOTES:
1) "(264)" ON THE DETAIL TITLE REFERS TO ANVIL MANUFACTURER MODEL NUMBER, OR EQUAL.



442

PIPE SUPPORT (264)

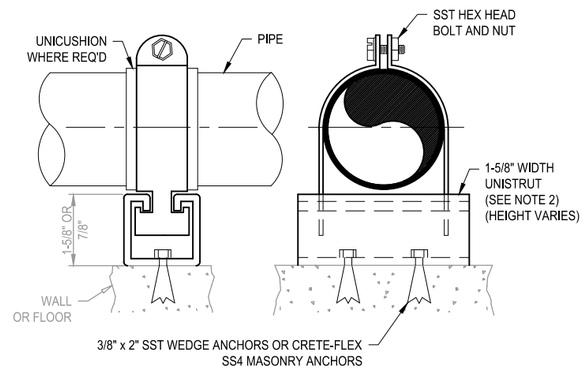
443



PIPE HANGER (TYP)

444

PIPE SUPPORT (AT WALL)



NOTES:
1) UNISTRUT LENGTH AS NECESSARY TO PROVIDE ADEQUATE CLEARANCE BETWEEN PIPES. UNISTRUT MATERIAL TO BE AS REQUIRED PER PLAN AND SPECIFICATIONS.
2) PROVIDE TRAPEZE HANGERS TO LIMIT UNSUPPORTED SPAN TO 5'-0" MAXIMUM OC.
3) WHERE ROOFING SYSTEM IS HOLLOW CORE SLAB, RED HEAD "MULTI-SET II, PART NUMBER RX-12" OR EQUAL DROP IN ANCHORS SHALL BE UTILIZED TO HANG THE THREADED RODS. DRILLING FOR ANCHORS SHALL BE DEPTH LIMITED AS SPECIFIED BY ANCHOR MANUFACTURER TO AVOID HITTING REINFORCING STEEL IN SLAB.
4) EPOXY ADHESIVE SHALL BE HILTI "HIT-RE 500 V3" OR APPROVED EQUAL.

447C

TRAPEZE PIPE HANGER

NOTES:
1) PIPING SUPPORTS SHALL BE AS SPECIFIED IN SECTION 15400-PLUMBING.
2) APPLICATION SHALL BE AS FOLLOWS:
   - SST MATERIALS AS NOTED FOR GENERAL INDOOR/OUTDOOR INSTALLATION, SST UNISTRUT OR EQUAL.
   - FRP/VINYLESTER MATERIAL SHALL BE USED FOR CORROSIVE AREAS OR CHEMICAL HANDLING AREAS, AICKINSTRUT 2000 SERIES, OR EQUAL.

LOCATION	CONDUIT	ENCLOSURE MATERIALS	ENCLOSURE NEMA RATING	FASTENERS, STRUT, THREADED ROAD, ETC.	REMARKS
INTERIOR					
EXPOSED IN AIR CONDITIONED EQUIPMENT ROOMS	PVC SCH 80	PAINTED STEEL	1, GASKETED	GALVANIZED STEEL	
EXPOSED IN PUMP ROOMS, EQUIPMENT ROOMS, ETC. (NOT AIR CONDITIONED)	PVC SCH 80	316 STAINLESS STEEL	3R, MODIFIED NEMA 12	316 STAINLESS STEEL	
EXPOSED IN CHEMICAL ROOMS, ETC.	PVC SCH 80	FRP	4X	FRP	
CONCEALED IN OFFICES, CONTROL ROOMS, ATTICS, ETC.	ELECTRICAL METALLIC TUBING, GALVANIZED STEEL	PAINTED STEEL	1	GALVANIZED STEEL	
CONCEALED IN BLOCK WALLS, POURED CONCRETE WALLS, ETC.	PVC SCH 40	N/A	N/A	GALVANIZED STEEL	
EXTERIOR					
BELOW GRADE	PVC SCH 40	CONCRETE BOXES	N/A	316 STAINLESS STEEL	
ABOVE GRADE	PVC SCH 80	316 STAINLESS STEEL	4X	316 STAINLESS STEEL	

GENERAL NOTES

1. THE SCHEDULE SHALL ESTABLISH THE MINIMUM LEVEL OF QUALITY FOR MATERIALS, UNLESS OTHERWISE INDICATED BY THE DRAWINGS OR NOTED IN THE SPECIFICATIONS.
2. THE SCHEDULE SHALL NOT APPLY TO POWER TRANSFORMERS, LIGHT FIXTURES AND LIGHT POLES. THESE ELEMENTS ARE NOTED OR INDICATED ELSEWHERE.
3. PVC COATED RGS WHERE NOTED OR INDICATED ON DRAWINGS.

CONDUIT / RACEWAY IDENTIFICATION LEGEND

TERMINATION EXAMPLE DETAIL

SCALE : N.T.S.

GENERAL ELECTRICAL NOTES

1) ALL PROPOSED AND MODIFIED CONDUITS AND WIRE SHALL BE LABELED PER STANDARD DETAILS.
2) THE CONTRACTOR SHALL VERIFY EXACT LOCATION OF ELECTRICAL ENCLOSURES AND CONDUIT ENTRANCES OF ALL EQUIPMENT AGAINST APPROVED SHOP DRAWINGS BEFORE STUBBING UP CONDUITS.
3) CONDUIT FOR FUTURE EQUIPMENT OR EXTENSION SHALL BE TERMINATED AS SHOWN IN DETAILS OR AS SPECIFIED. ALL EXPOSED CONDUIT STUB UPS SHALL BE CAPPED.
4) CONNECTION BETWEEN RIGID CONDUIT AND MOTOR TERMINAL BOX SHALL BE LIQUID-TIGHT FLEXIBLE METAL CONDUIT.
5) EXPOSED CONNECTIONS SHALL BE LIQUID-TIGHT FLEXIBLE METAL CONDUIT WITH APPROVED GROUNDING FITTINGS AND SHALL NOT EXCEED 30" IN LENGTH FOR 2" SIZE FITTINGS AND LARGER, MAXIMUM LENGTH OF 18" FOR SIZES 1" AND SMALLER.
6) CONDUITS TERMINATING AT SWITCHBOARD, MOTOR CONTROL CENTER, POWER PANELS, CONTROL CABINETS, ETC., SHALL BE EQUIPPED WITH A GROUNDING BUSHING 'OZ' TYPE 'GB' AND GROUNDED AS INDICATED ON DRAWINGS OR PER NEC SECTION ARTICLE 250.
7) EQUIPMENT SHALL BE INSTALLED IN ACCORDANCE WITH APPROVED SHOP DWG, ADJUSTMENT OR ALTERATIONS SHALL BE MADE WITH ENGINEERS APPROVAL.
8) MOTOR CONTROL CENTERS, SWITCHBOARDS, SWITCHGEAR AND ALL FREE STANDING PANELS SHALL BE SET ON CONCRETE HOUSEKEEPING PAD AS SHOWN IN DETAILS, UNLESS OTHERWISE INDICATED.
9) IN CASE OF INTERFERENCE BETWEEN ELECTRICAL EQUIPMENT SHOWN ON THE DRAWINGS AND OTHER EQUIPMENT OR CONFLICTS, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING AND THE ENGINEER SHALL REVIEW THE PROPOSED CHANGES BEFORE THEY ARE MADE.
10) ALL OUTDOOR DEVICES SHALL BE "IN-USE" WEATHERPROOF.
11) ALL RECEPTACLES IN OUTDOOR OR ANTICIPATED WET AREAS SHALL BE GROUND FAULT INTERRUPTER RECEPTACLES.
12) ALL RECEPTACLES SHALL BE MOUNTED 14" ABOVE FLOOR SURFACE UNLESS OTHERWISE INDICATED.
13) LOCATION OF PULLBOXES ARE APPROXIMATE. CONTRACTOR SHALL COORDINATE EXACT LOCATION OF PULL BOXES WITH MECHANICAL PIPING AND/OR OTHER SITE WORK. ANY FIELD ADJUSTMENTS SHALL BE AT NO ADDITIONAL COST TO THE OWNER.
14) CONTRACTOR SHALL PROVIDE PULLBOXES WHERE THEY ARE REQUIRED TO MAKE A WORKABLE INSTALLATION WHETHER INDICATED BY DRAWINGS OR NOT.
15) SEE SPECIFICATIONS DIVISION 16 FOR ADDITIONAL NOTES AND REQUIREMENTS.
16) CONTRACTOR SHALL DUCT SEAL ALL ELECTRICAL CONDUITS ENTERING CONTROL PANELS, SWITCHBOARDS, PANEL BOARDS, SAFETY SWITCHES AND THE LIKE. DUCT SEAL SHALL ALSO BE APPLIED TO CONDUITS ENTERING CHEMICAL AREAS SUCH AS CHLORINE ROOMS AND THE LIKE TO PROHIBIT GAS MIGRATION TO OTHER AREAS. DUCT SEAL SHALL BE APPLIED TO CONDUITS AT BOTH ENDS. DUCT SHALL BE PUG DUCT SEAL BY GB ELECTRICAL OR EQUAL.
17) ALL ELECTRICAL DEMOLITION WORK AND PROPOSED WORK SHALL BE COORDINATED WITH "SEQUENCE OF CONSTRUCTION" ON SHEET G-12.

ELECTRICAL SCOPE OF WORK

1) INSTALL NEW MIEX SYSTEM COMPONENTS PER DRAWINGS.
2) FURNISH AND INSTALL ALL POWER AND CONTROL WIRE, CONDUIT, AND ACCESSORIES FOR FULLY FUNCTIONAL SYSTEM AS SHOWN ON DRAWINGS.
3) PROVIDE ALL ELECTRICAL WORK FOR TEMPORARY OPERATION AND DEMOLITION PER DRAWINGS AND SEQUENCE OF CONSTRUCTION..

R.C. PROJECT # 20026

KEY NOTES

1. REMOVE EXISTING MIXER, DISCONNECT, CONDUIT(S), LEVEL SENSOR AND HARDWARE
2. REMOVE INSTRUMENT(S), CABLES, CONDUITS, WIRING AND J-BOX(S) (TYP)
3. REMOVE VALVES, CONDUITS, WIRING AND J-BOX(S) (TYP)
4. REMOVE MIXER, CONDUITS, WIRING, DISCONNECT AND J-BOX(S)
5. EXISTING VALVE AND LE/LT TO BE RELOCATED (COORDINATE W/ REGENERANT TANK RELOCATION
6. REMOVE EXISTING MIEX ACP AND EXISTING POWER FROM PDP-B
7. REMOVE EXISTING AIR COMPRESSOR, DRYER, DISCONNECT, CONDUIT(S) AND WIRING
8. FRESH RESIN TANK MIXER AND LEVEL TRANSMITTER TO BE RELOCATED (TEMPORARILY), COORDINATE WITH MECHANICAL SHEETS
9. FRESH RESIN FLOW METER TO BE RELOCATED (TEMPORARILY), COORDINATE WITH MECHANICAL SHEETS
11. TEMPORARILY RELOCATE DISCONNECT(S) WITH ASSOCIATED EQUIPMENT AND PROVIDE TEMPORARY MOUNTING RACK

NOTES

1) DEMOLITION WORK SHALL BE COORDINATED WITH THE "SEQUENCE OF CONSTRUCTION" ON SHEET G-12.
2) DEMOLITION OF ELECTRICAL EQUIPMENT LOCATED OUTSIDE AT NORTH END OF MIEX BUILDING SHALL INCLUDE ALL CONDUITS AND MOUNTING HARDWARE TO WALL MOUNTED J-BOX (JB-001) AT NORTH END OF STRUCTURE.
3) DEMOLITION OF WIRING SHALL BE FROM COMPONENT TO PANEL (MIEX ACP, MPCP, POWER PANEL, VALVE HEATER PANEL, ETC.)
4) COORDINATE RELOCATION OF CONDUIT / WIRE FOR VALVE AND LT/LE WITH PROPOSED TANK LOCATION AND FINAL PIPE INSTALLATION.
5) NOT ALL EQUIPMENT DEMOLITION IS SHOWN ON THIS SHEET FOR CLARITY. SEE CIVIL DEMOLITION SHEETS FOR NON-ELECTRICAL COMPONENTS.

R.C. PROJECT # 20026

BID DOCUMENTS

NOTES

1) MIEX REGENERATION SKID, TYPICAL OF TWO, SHALL BE PRE-WIRED. LEVEL TRANSMITTER, CONDUCTIVITY PROBE AND ELECTRICALLY ACTUATED PROCESS VALVES SHALL BE WIRED TO A COMMON, SKID MOUNTED, SERVICE PANEL.
2) TANK AGITATOR AND UNDER DRAIN PUMP SHALL BE FACTORY PRE-WIRED TO SKID MOUNTED DISCONNECTS.
3) FRESH RESIN SKID PUMP SHALL BE FACTORY PRE-WIRED TO A SKID MOUNTED DISCONNECT.
4) ELECTRICAL CONTRACTOR SHALL PROVIDE CONDUIT AND WIRING FROM MIEX ACP TO SKID MOUNTED SERVICE PANEL(S) AND DISCONNECT SWITCHES PER PLANS.
5) MIEX ACP SHALL BE FURNISHED BY MIEX SUPPLIER AND INSTALLED BY ELECTRICAL CONTRACTOR.
6) CONTRACTOR SHALL RELOCATE CONDUIT(S) FOR ELECTRICAL EQUIPMENT TO REMAIN NORTH OF MIEX BUILDING. SEE KEY NOTE #3.
7) PROVIDE 1/0 CU GROUND CONDUCTOR FROM EXISTING MIEX ACP GROUND. ROUTE 1/0 CU GROUND CONDUCTOR THROUGH WALL (IN 1" CONDUIT) AND UNDER PROPOSED CONCRETE IN-FILL SLAB TO PROPOSED MIEX EQUIPMENT SKIDS. PROVIDE BONDING TO MIEX EQUIPMENT AS SHOWN.

KEY NOTES

1. ELECTRICAL CONTRACTOR SHALL EXTEND EXISTING CONDUIT AND WIRE AS REQ'D TO LOCATION OF RELOCATED EQUIPMENT
2. PROVIDE WIREWAY GUTTER, 12"x12"xLENGTH REQ'D, OVER EXISTING CONDUIT STUB-UPS
2A. ELECTRICAL CONTRACTOR SHALL TAG AND EXTEND EXISTING CONDUIT(S) AND WIRE(S) FROM FORMER MIEX ACP TO PROPOSED MIEX ACP FOR ALL CIRCUITS TO REMAIN IN SERVICE. SEE SHEET E-08 AND E-09.
3. RELOCATE CONDUIT/WIRE FOR ELECTRICAL CIRCUITS:
   - CONTACTOR MIXER "M-3-1-1" (M311P) AND "M-3-1-2" (M312P)
   - LIGHT POLE(S) (M-31 AND M-33)
   - INSTRUMENT "AE/AT 3-1-1" (AT311P AND AT311A)
   - INSTRUMENT "LT/LE 3-1-1" (LT311P AND LT311A)
4. PROVIDE NEMA 4X 316 SST WIREWAY GUTTER / J-BOX AT END OF WALKWAY TO FACILITATE TERMINATION OF EXISTING CONDUITS AND PROPOSED RELOCATED CONDUITS
5. EXISTING FIBER FROM MIEX CONTROL ROOM TO SCADA OPERATIONS ROOM SHALL REMAIN AND BE REUSED
6. RELOCATE EXISTING POLE AND AREA LIGHT FROM AREA OF REMOVED WALKWAY TO PROPOSED BRACKET AT NEW LOCATION. COORDINATE CONDUIT AND WIRING PER KEY NOTE "3"

KEY NOTES

1. EXISTING MIEX-ACP TO BE REMOVED - AFTER PROPOSED MIEX SYSTEM AND ACP INSTALLATION IS COMPLETED AND OPERATIONAL, REMOVE EXISTING WIRING FROM PDP-B TO MIEX-ACP LOCATION
2. PROPOSED MIEX-ACP WILL ASSUME REMAINING EXISTING MIEX EQUIPMENT LOADS AS WELL AS PROPOSED EQUIPMENT LOADS.
3. - EXISTING OPERATION LOADS - DURING CONSTRUCTION OF PROPOSED MIEX REGENERATION SYSTEM.
   - FINAL OPERATION LOAD - UPON COMPLETION, STARTUP AND SWITCH OVER TO PROPOSED MIEX REGENERATION SYSTEM.
4. FURNISH AND INSTALL PROPOSED 3P-200A BREAKER IN SPARE SPACE
5. FORMER 3P-200A BREAKER TO BE LABELED AS SPARE.

GENERAL NOTES

1) ALL CONSTRUCTION AND MATERIALS SHALL CONFORM TO THE STANDARDS AND SPECIFICATIONS OF THE:
   - FLORIDA BUILDING CODE (2017, 6TH ED)
   - DEPARTMENT OF TRANSPORTATION
   - FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
   - PALM BEACH COUNTY HEALTH DEPARTMENT
   - AND ALL OTHER LOCAL AND NATIONAL CODES WHERE APPLICABLE
   - (SEE DESIGN CRITERIA SHEETS FOR OTHER CODE AND COMPLIANCE REQUIREMENTS)
2) THESE PLANS WERE DEVELOPED UTILIZING RECORD DRAWINGS AND MANUFACTURER PROVIDED EQUIPMENT AND INSTRUMENTATION DRAWINGS. RELOCATION OF EXISTING EQUIPMENT, DEMOLITION OF EXISTING EQUIPMENT, TEMPORARY OPERATION(S) OF RELOCATED EQUIPMENT ARE BASED ON THIS INFORMATION. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR ITEMS NOT SPECIFICALLY LISTED OR ADDRESSED IN THE PLANS OR SPECIFICATIONS.
3) ALL CONSTRUCTION SHALL BE DONE IN A SAFE MANNER, SPECIFICALLY, THE RULES AND REGULATIONS OF THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION AND THE MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES SHALL BE STRICTLY OBSERVED.
4) CONTRACTOR SHALL NOT CREATE TRIPPING HAZARDS SUCH AS SURFACE MOUNTED CONDUITS WITHOUT THE APPROVAL OF THE ENGINEER.
5) ALL ELEVATIONS ON THE DRAWINGS OR REFERENCED IN THE SPECIFICATIONS ARE BASED ON NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD88), UNLESS NOTED OTHERWISE.
6) THE CONTRACTOR SHALL OBTAIN THE SERVICES OF A UTILITY LOCATION SERVICE SUCH AS "SUNSHINE STATE ONE CALL OF FLA, INC." AT (800) 432-4770 AT LEAST 48 HOURS PRIOR TO BEGINNING ANY EXCAVATION.
7) EXISTING UTILITY LOCATIONS SHOWN ON THESE DRAWINGS ARE APPROXIMATE. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THE ACCURACY OF EXISTING UTILITIES SHOWN OR FOR ANY EXISTING UTILITIES NOT SHOWN.
8) PRIOR TO BEGINNING CONSTRUCTION, THE CONTRACTOR SHALL VERIFY THE SIZE LOCATION AND MATERIAL OF ALL EXISTING UTILITIES WITHIN THE AREA OF CONSTRUCTION.
9) IF UPON EXCAVATION, AN EXISTING UTILITY IS FOUND TO BE IN CONFLICT WITH THE PROPOSED CONSTRUCTION OR TO BE OF A SIZE OR MATERIAL DIFFERENT FROM THAT SHOWN ON THE DRAWINGS, THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER.
10) THE CONTRACTOR SHALL PERFORM ALL WORK NECESSARY TO LOCATE, EXCAVATE AND PREPARE FOR CONNECTIONS TO THE EXISTING SYSTEMS AS SHOWN ON THE DRAWINGS. THE COST FOR THIS WORK AND FOR THE ACTUAL CONNECTION TO THE EXISTING SYSTEMS SHALL BE INCLUDED IN THE BID PRICE FOR THE PROJECT AND SHALL NOT RESULT IN ANY ADDITIONAL COST TO THE OWNER.
11) CONTRACTOR MUST PROVIDE FOR AND MAINTAIN ADEQUATE ACCESS AT ALL TIMES TO ALL BUSINESSES AND RESIDENCES AFFECTED BY PROGRESS OF THE WORK.
12) PROJECT SITE SAFETY:
   A. THE ENGINEER/OWNER OR THEIR EMPLOYEES HAVE NO AUTHORITY TO EXERCISE ANY CONTROL OVER THE CONTRACTOR, ANY SUB-CONTRACTOR OR OTHER ENTITY OR THEIR EMPLOYEES IN CONNECTION WITH THEIR WORK OR ANY JOBSITE HEALTH OR SAFETY PRECAUTIONS.
   B. THE CONTRACTOR IS SOLELY RESPONSIBLE FOR JOBSITE SAFETY, AND WARRANTS THAT THIS INTENT IS MADE EVIDENT BY THE AGREEMENT BETWEEN OWNER AND CONTRACTOR.
   C. ALL EXISTING OVERHEAD AND UNDERGROUND UTILITIES SHOWN ON THESE DRAWINGS OR ENCOUNTERED THROUGH THE PROGRESSION OF WORK AT THIS PROJECT SITE ARE ASSUMED TO BE LIVE, CONTRACTOR SHALL BE RESPONSIBLE FOR ALL SAFETY PRECAUTIONS WHEN WORKING AROUND EXISTING OVERHEAD OR UNDERGROUND UTILITIES.
13) ALL OPEN-CUT PIPE LAYING OPERATIONS SHALL BE COMPLETED IN DRY TRENCH EXCAVATIONS PER SPECIFICATIONS.
14) PRIOR TO BEGINNING DEMOLITION WORK, CONTRACTOR SHALL CONFIRM WITH VILLAGE, THE LOCATION AND ARRANGEMENT OF EXISTING PIPING / VALVES TO BE IMPACTED BY WORK. CONTRACTOR SHALL NOTIFY ENGINEER OF ANY DISCREPANCIES.
15) ALL PHASES OF CIVIL, ARCHITECTURAL, STRUCTURAL, MECHANICAL, INSTRUMENTATION AND ELECTRICAL WORK SHALL BE COORDINATED BY CONTRACTOR.
16) CONTRACTOR SHALL BE RESPONSIBLE FOR AND PROTECT ALL EXISTING UTILITIES, STRUCTURES, EQUIPMENT AND PAVED AREAS THAT ARE TO REMAIN, FROM DAMAGE BY PROGRESSION OF WORK. ALL DAMAGED AREAS OR EQUIPMENT SHALL BE RESTORED TO PREVIOUS CONDITION PER DETAIL AND SPECIFICATION(S) REQUIREMENTS.
17) STANDARD SEPARATION STATEMENT:
   A. MAINTAIN A MINIMUM THREE (3) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND VACUUM SEWER, STORM SEWER, OR RECLAIMED WATER MAINS REGULATED UNDER PART III OF CHAPTER 62-610.
   B. MAINTAIN A MINIMUM SIX (6) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND GRAVITY SEWER, PRESSURE-TYPE SANITARY SEWER, OR RECLAIMED WATER MAINS NOT REGULATED UNDER PART III OF CHAPTER 62-610.
      THIS DISTANCE CAN BE REDUCED TO THREE (3) FOOT HORIZONTAL DISTANCE WHEN EITHER PIPE IS ENCLOSED IN A WATERTIGHT CASING OR CONCRETE; AND WHEN WATER MAINS ARE LOCATED AT LEAST SIX (6) INCHES ABOVE GRAVITY SEWER MAINS.
   C. MAINTAIN A MINIMUM TEN (10) FOOT HORIZONTAL DISTANCE BETWEEN WATER MAINS AND ONSITE SEWAGE TREATMENT AND DISPOSAL SYSTEMS.
   D. MAINTAIN SIX (6) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS ABOVE VACUUM SEWER, GRAVITY SEWER, OR STORM SEWER.
   E. MAINTAIN A TWELVE (12) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS BELOW VACUUM SEWER, GRAVITY SEWER, OR STORM SEWER.
   F. MAINTAIN A TWELVE (12) INCH VERTICAL SEPARATION WHERE WATER MAINS CROSS ABOVE OR BELOW PRESSURE-TYPE SANITARY SEWER, FORCE MAIN, OR RECLAIMED WATER MAINS.

HATCH LEGEND

PROCESS & INSTRUMENTATION LEGEND

VALVE SYMBOLS

- GATE N/O
- GATE N/C
- BALL N/O
- BALL N/C
- REDUCER (CONCENTRIC)
- REDUCER (ECCENTRIC)
- GLOBE
- VEE BALL
- BUTTERFLY
- PLUG
- OR
- SWING CHECK
- DIFFUSER (FLAPPER) CHECK
- VALVE W/ DIAPHRAGM ACTUATOR
- PRESSURE RELIEF VALVE
- PRESSURE SUSTAINING (INTERNAL TAP)
- PRESSURE SUSTAINING (EXTERNAL TAP)
- PRESSURE REDUCING
- KNIFE
- AIR RELEASE
- MOTOR OPERATED VALVE
- PINCH
- NEEDLE
- MUD
- BACKFLOW
- 2-WAY VALVE
- 3-WAY VALVE
- 4-WAY VALVE

VALVE ACTUATOR SYMBOLS

- DIAPHRAGM
- ELECTRICAL MOTOR
- SOLENOID
- PISTON
- LEVER
- HAND WHEEL
- CHAIN WHEEL

FLOW ELEMENT SYMBOLS

- ROTAMETER
- VENTURI (FE)
- FLOW ELEMENT (ORIFICE PLATE)
- FLOW METER (PROPELLER)
- FLOW METER (MAGNETIC)

GENERAL SYMBOLS

- DIAPHRAGM SEAL
- PE — PRESSURE SENSOR
- LEVEL (FLOAT)
- DIFFUSER
- WATER LEVER / SURFACE
- FLOAT SWITCH
- TILT FLOAT SWITCH
- SIGHT GLASS
- I — PANEL MOUNTED INTERLOCK (HARDWIRED)
- POWER (120 VOLT)
- RECEPTACLE
- X — WIRING (IDENTIFIER)
- PROPOSED PANEL, PULL BOX, ELECTRICAL CABINET BOUNDARY
- SKID UNIT / EQUIPMENT BOUNDARY
- A — A — OR — A — A — INTERCEPT EXISTING WIRING (SEE ELECTRICAL DRAWINGS)
- GENERATOR RECEPTACLE
- ASC — ADJUSTABLE SPEED CONTROL (ELECTRIC)
- VARIABLE SPEED CONTROL (MECHANICAL)
- VFD — VARIABLE FREQUENCY DRIVE
- LASER — NON-CONTACT LASER FLOW VELOCITY SENSOR
- M — REDUCER / MOTOR DRIVE UNIT
- ETHERNET MODEM — ETHERNET MODEM
- ETHERNET SWITCH — ETHERNET SWITCH
- INTERNET MODEM — INTERNET MODEM
- VPN ROUTER AND FIREWALL — VPN ROUTER AND FIREWALL
- RADIO / MODEM — ETHERNET (RADIO / MODEM)
- F/O | M — MEDIA CONVERTER FIBER OPTIC TO ETHERNET
- MCP-PLC — PLC MAIN CONTROL PANEL
- EH — ETHERNET HUB (SWITCH)
- INDUSTRIAL PC — COMPUTER TERMINAL
- KEYPAD
- ANTENNA
- BFP — BACKFLOW PREVENTER
- EXHAUST SILENCER
- ANTI-VORTEX PLATE
- M — MIXER
- FLOOR DRAIN
- FLEXIBLE HOSE
- INJECTION WELL
- H — HOSE CONNECTION
- F — FLUSHING CONNECTION
- S — SAMPLE POINT
- PROCESS FLUME
- STATIC MIXER
- AIR RELEASE VALVE (W/GAUGE AND W/O GAUGE)
- QUICK COUPLING HOSE CONNECTION
- THREADED HOSE CONNECTION
- BULKHEAD FITTING
- EMERGENCY EYEWASH / SHOWER HEAD
- EMERGENCY EYEWASH / SHOWER SIGNAL LIGHT
- SEPERATOR
- EDUCTOR
- WASTE CONTAINER
- AIR COMPRESSOR
- AC — INSTRUMENT AIR COMPRESSOR
- FILTER / REGULATOR
- BLOWER FAN
- UNION
- "Y" STRAINER
- "T" STRAINER
- FLANGE
- EXPANSION JOINT

PUMP SYMBOLS

- S — SUBMERSIBLE PUMP
- ROTARY GEAR PUMP
- CENTRIFUGAL PUMP FOOT MOUNTED
- CENTRIFUGAL PUMP RECEIVER MOUNTED
- GRINDER PUMP
- POSITIVE DISPLACEMENT PUMP
- VC — VERTICAL CANTILEVERED PUMP
- VT — VERTICAL TURBINE PUMP IN CAN
- VP — VERTICAL CENTRIFUGAL PUMP
- VT — VERTICAL TURBINE PUMP
- DOUBLE DIAPHRAGM PUMP (AIR OPERATED)
- M — DOUBLE DIAPHRAGM PUMP (ELECTRIC MOTOR OPERATED)
- CHEMICAL FEED PUMP (DIAPHRAGM)
- VAC FEED — VACUUM CHEMICAL DOSING UNIT
- M — PROGRESSIVE CAVITY PUMP

LINETYPE AND ANNOTATION SYMBOLS

PROPOSED	EXISTING	
		PRIMARY PROCESS LINE
		SECONDARY PROCESS LINE
		TERTIARY PROCESS LINE
		ELECTRICAL SIGNAL
A	A	ANALOG SIGNAL
V	V	VENDOR SUPPLIED CABLE
		PNEUMATIC LINE
		CAPILLARY TUBING
X	X	CAPILLARY TUBING
		COPPER TUBING
		HOSE
EN	EN	ETHERNET CABLE
FO	FO	FIBER OPTIC CABLE
120V,1Ø	120V,1Ø	120V POWER SUPPLY
480V,3Ø	480V,3Ø	480V POWER SUPPLY
		WIRING CONTINUATION

- P-XXX / PUMP — EQUIPMENT IDENTIFIER AND DESCRIPTION
- XX — PLC INPUT / OUTPUT TERMINAL (DI / DO)
- SLOPE LINE
- LINE CONTENTS / ID | REF. DWG. NO. / NOTE — LINE CONTINUATION IN OR OUT OF DRAWING
- SYSTEM NAME — LINE CONTINUATION TO PROCESS / STORAGE
- UP- / PROCESS / (EXISTING) — EXISTING UNIT PROCESS
- UP- / PROCESS / SHEET # — PROPOSED UNIT PROCESS

FUNCTION INDICATOR LEGEND

- STATUS LIGHT, PANEL MOUNTED
- AUDIBLE HORN
- PANEL MOUNTED DEVICE
- SUB PANEL MOUNTED DEVICE
- FIELD MOUNTED DEVICE
- COMPUTER FUNCTION
- PLC FUNCTION
- SHARED DISPLAY / CONTROL (OF COMPUTER OR PLC FUNCTION)
- LE/LT — LEVEL ELEMENT / TRANSMITTER (CAPACITANCE PROBE)
- LE/LT — LEVEL ELEMENT / TRANSMITTER (ULTRASONIC)
- LT / LE — LEVEL ELEMENT / TRANSMITTER (SUBMERSIBLE)
- AE / XX — PROBE: WHERE (XX) = pH = pH PROBE, COND = CONDUCTIVITY PROBE

EQUIPMENT AND TANK LEGEND

- CHEM / TANK ID — CHEMICAL TANK
- CHEM / TANK ID — ROUND STORAGE TANK
- CHEM / TANK ID — CLOSED TOP TANK
- CHEM / TANK ID — OPEN TOP TANK
- TANK ID — BURIED / BELOW GRADE TANK

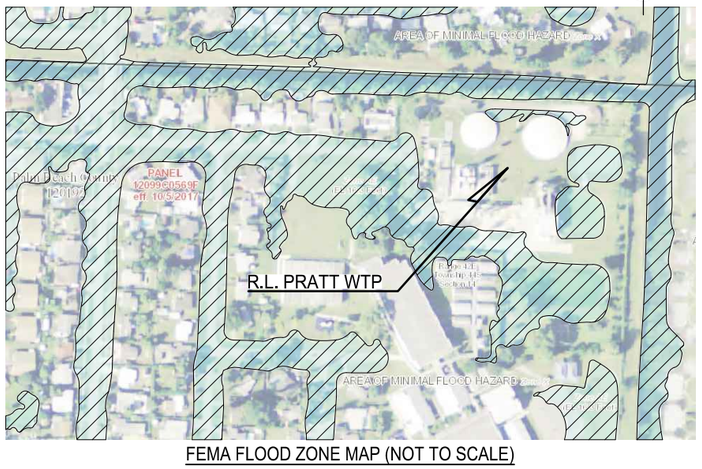
BID DOCUMENTS

DESIGN CRITERIA

PALM BEACH COUNTY BUILDING DEPARTMENT REQUIREMENTS:

1) CONTRACTOR SHALL COORDINATE AND OBTAIN ALL PERMITS REQUIRED FOR THE EXECUTION OF THE WORK FROM THE PALM BEACH COUNTY BUILDING DEPARTMENT.
2) CONTRACTOR SHALL REGISTER WITH PALM SPRINGS LAND DEVELOPMENT.
3) FOLLOWING APPROVAL BY ENGINEER, CONTRACTOR SHALL SUBMIT PRODUCT APPROVAL DOCUMENTATION FOR THE FOLLOWING ITEMS TO THE BUILDING DEPARTMENT.
5) SEPARATE PERMITS WILL BE REQUIRED FOR THE FOLLOWING:
   - OTHER PERMITS AS MAY BE REQUIRED BY BUILDING OFFICIAL.
6) REFER TO SPECIFICATIONS SECTION 01010-SUMMARY OF WORK FOR ADDITIONAL INFORMATION.

FLOOD ELEVATION:



100 YEAR FLOOD ELEVATION:	16.30' NAVD88 (17.78' NGVD29)

(DATA FROM PALM BEACH COUNTY FEMA FLOOD MAP - 12099C0569F) (EFFECTIVE OCT 5, 2017)

LEGEND

ZONE AE (EL 16.3) NAVD88

OTHER AREAS (ZONE X / D)

FEMA FLOOD ZONE MAP (NOT TO SCALE)

BUILDING / STRUCTURAL

CODES

- FLORIDA BUILDING CODE, 2020, 7TH EDITION
- FLORIDA FIRE PROTECTION CODE, LATEST EDITION
- NATIONAL ELECTRIC CODE 2017
- ACI 318 "BUILDING CODE REQUIREMENTS FOR REINFORCED CONCRETE"
- ALUMINUM DESIGN MANUAL "SPECIFICATIONS FOR ALUMINUM STRUCTURES", LATEST EDITION
- CRSI HANDBOOK
- AISC MANUAL OF STEEL CONSTRUCTION
- MASONRY CONSTRUCTION SHALL CONFORM TO LATEST ACI CODE REQUIREMENTS FOR CONCRETE MASONRY STRUCTURES (ACI 530 / ASCE 5 / TMS 402), SPECIFICATIONS FOR MASONRY STRUCTURES (ACI 530.1 / ASCE 6 / TMS 602) ASTM C476, ASTM C1019, AND NCMA TEK 107.

GENERAL STRUCTURE SCHEDULE

STRUCTURE	GROSS AREA (SF)	OCCUPANCY	TYPE OF CONSTRUCTION	OCCUPANCY LOAD
N/A	N/A	N/A	N/A	N/A

(1) ALL STRUCTURES ARE NON-HABITABLE.

LIFE SAFETY PLAN ELEMENTS

- MEANS OF EGRESS	
MINIMUM CLEAR OPENING OF DOORS:	32" (REQUIRED PER FBC 1010.1.1)
MINIMUM HEADROOM (CEILING HEIGHT):	7'-6" (REQUIRED PER FBC 1003.2)
MINIMUM DOORWAY HEADROOM:	6'-8" (REQUIRED PER FBC 1010.1.1)
MINIMUM STAIR WIDTH:	36" (REQUIRED PER FBC 1011.2, EXCEPTION 1)
MINIMUM STAIRWAY HEADROOM:	6'-8" (REQUIRED PER FBC 1011.3)
- EXITS	
NUMBER OF EXITS REQUIRED:	1 REQUIRED PER SPACE PER FBC 1022.1
NUMBER OF EXITS PROVIDED:	1 PER ROOM (MINIMUM)
SPECIAL EXIT REQUIREMENTS:	INGRESS / EGRESS SHALL BE PROVIDED AT EACH END OF ELECTRICAL EQUIPMENT MEETING THE REQUIREMENTS OF NEC 110.26 (C) (2)
- TRAVEL DISTANCE	
ALLOWABLE TRAVEL DISTANCE:	75' PER FBC TABLE 1006.2.1 (GROUP F - WITHOUT SPRINKLER SYSTEM)

DESIGN LOADING CRITERIA

- DESIGN LOADS	
EQUIPMENT:	ACTUAL
BRIDGE CRANE OR MONORAIL	ACTUAL
ROOF, SUPERIMPOSED:	ACTUAL, 15 PSF MIN.
- LIVE LOADS:	
ROOF (MIN., UNREDUCED):	20 PSF
WALKWAYS AND PLATFORMS:	100 PSF
FLOOR:	100 PSF (OR HS20-44, IF APPLIES)
PROCESS SLABS:	200 PSF
- IMPACT LOADS	
TRAVELING CRANES AND HOSTS:	25% OF THE LIFTED LOAD
ROTATING EQUIPMENT:	20% OF THE MACHINE WEIGHT
RECIPROCATING EQUIPMENT:	50% OF THE MACHINE WEIGHT
- WIND DESIGN DATA:	
DESIGN WIND PRESSURE CRITERIA IN ACCORDANCE WITH PROVISIONS OF ASCE 7-16 FOR THE FOLLOWING WIND PRESSURE DATA PER FLORIDA BUILDING CODE SECTION 1603:	
ULTIMATE WIND SPEED (V_{ult}) :	180 MPH (3 SECOND GUST) (FBC 1620.2)
NOMINAL DESIGN WIND SPEED (V_{asd}) :	139 MPH (FBC TABLE 1609.3.1)
RISK CATEGORY:	III (FBC TABLE 1604.5)
EXPOSURE CATEGORY:	C (FBC 1620.3)
INTERNAL PRESSURE COEFFICIENT:	± 0.55

BUILDING / STRUCTURAL (CONTINUED)

- BUOYANCY	
ASSUMED GROUND WATER	
ELEVATION FOR BUOYANCY LOAD:	FINISH GRADE
FACTOR OF SAFETY:	2.0
- EARTHQUAKE DESIGN DATA (SEISMIC ZONE):	
NOT APPLICABLE	
- FOUNDATIONS	
DESIGN LOAD-BEARING VALUE OF SOILS:	2000 PSF

MATERIALS OF CONSTRUCTION

- STRUCTURAL CAST-IN-PLACE	
CONCRETE, MIN. f'c @ 28 DAYS:	4,000 PSI (OR AS SPECIFIED)
- STRUCTURAL PRECAST/PRETENSIONED/PRE-STRESSED	
CONCRETE, MIN. f'c @ 28 DAYS:	5,000 PSI
- PRESTRESSING TENDON/STRAND:	ASTM A416/A21
- STRUCTURAL STEEL:	
ROLLED W SHAPES, ASTM A572:	50,000 PSI
ANGLES, CHANNELS AND PLATES, ASTM A36:	36,000 PSI
TUBE SECTIONS, ASTM A500, GRADE C, fy:	46,000 PSI
- MASONRY:	
CMU UNITS, GRADE N-1, COMPRESSIVE STRENGTH:	1,900 PSI (ASTM C90)
COMPRESSIVE STRENGTH OF MORTAR, TYPE S:	1,800 PSI (ASTM C270)
COMPRESSIVE STRENGTH OF GROUT:	3,000 PSI (ASTM C476)
MASONRY UNIT ASSEMBLY, f'm:	1,500 PSI
- REINFORCING STEEL, fy:	60,000 PSI

REINFORCING STEEL SHALL HAVE THE FOLLOWING MINIMUM CLEAR COVER UNLESS OTHERWISE NOTED: (SEE REINFORCEMENT CLEARANCE DETAIL, THIS SHEET)

CONCRETE CAST AGAINST EARTH	3"
FORMED SURFACED IN CONTACT WITH SOIL, SEWAGE, WATER OR EXPOSED TO WEATHER	2"
FORMED SURFACES NOT EXPOSED TO WEATHER OR IN CONTACT WITH SOIL	
-SLABS AND WALL	2"
-BEAMS AND COLUMNS	1-1/2"
- SPLICES AND LAPS OF DEFORMED BARS:	
MINIMUM BAR LAP (TYPICAL):	(SEE LAP SPLICE SCHEDULE, STRUCTURAL SHEETS)
TENSION LAPS:	IN ACCORDANCE WITH ACI 318
OTHER LAP DISTANCES:	AS INDICATED ON DRAWINGS

GENERAL CONDITIONS

ALL STRUCTURAL DRAWINGS SHALL BE USED IN CONJUNCTION WITH THE MECHANICAL, CIVIL, ELECTRICAL AND SHOP DRAWINGS AND SPECIFICATIONS.

THE CONTRACTOR SHALL REVIEW AND VERIFY DIMENSIONS SHOWN IN ALL PLANS AND REVIEW ALL FIELD CONDITIONS THAT MAY AFFECT THE INSTALLATION OF THE FACILITY. SHOULD DISCREPANCIES APPEAR, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING TO OBTAIN ENGINEER'S CLARIFICATION BEFORE COMMENCING WITH THE WORK.

FOR ALL ITEMS EMBEDDED IN OR PASSED THROUGH CONCRETE, THE CONTRACTOR SHALL INITIALLY REFER TO MECHANICAL AND ELECTRICAL DRAWINGS FOR TYPE, SIZE, LOCATION AND SPECIAL INSTALLATION REQUIREMENTS FOR THESE ITEMS.

THE CONTRACTOR SHALL TAKE ANY AND ALL NECESSARY MEASURES TO PROTECT EXISTING STRUCTURES FROM DAMAGE WHEN WORKING IN AND AROUND EXISTING STRUCTURES PERFORMING WORK SUCH AS DEMOLITION, FOUNDATION EXCAVATION AND OTHER WORK.

SIZE AND LOCATION OF EQUIPMENT PADS AND ANCHOR BOLTS SHALL BE PER EQUIPMENT MANUFACTURER'S REQUIREMENTS AND APPROVED SUBMITTALS.

ANY EQUIPMENT THAT MAY INDUCE VIBRATION TO THE STRUCTURE SHALL BE ADEQUATELY ISOLATED FROM THE STRUCTURES.

ALL EXPOSED CORNERS OF CONCRETE SHALL HAVE A MINIMUM 3/8" TOOLED EDGE AT ALL EXPOSED EDGES UNLESS OTHERWISE NOTED.

THE CONTRACTOR SHALL OBTAIN ENGINEER'S APPROVAL FOR THE LOCATION OF CONSTRUCTION JOINTS THAT ARE NOT SHOWN ON THE DRAWINGS.

SEQUENCE OF CONSTRUCTION

GENERAL PROJECT REQUIREMENTS

1) CONTRACTOR SHALL COMPLETE THOROUGH REVIEW OF PROJECT SITE, PROJECT REQUIREMENTS, DRAWINGS AND SPECIFICATIONS TO PREPARE AND SUBMIT A DETAILED SEQUENCE OF CONSTRUCTION AND COORDINATION SUBMITTAL. THIS SUBMITTAL SHALL BE MADE IN ACCORDANCE WITH SECTION 01300 - SUBMITTALS AND COORDINATED WITH THE CONTRACTOR'S OVERALL PROJECT SCHEDULE. THE CONSTRUCTION SEQUENCING AND COORDINATION SUBMITTAL SHALL BE REVIEWED AND APPROVED BY ENGINEER AND OWNER PRIOR TO PROGRESSION OF WORK ON SITE THAT IMPACTS EXISTING REGENERATION SYSTEM OPERATIONS.

MIEX REGENERATION SYSTEM IMPROVEMENTS

GENERAL PROJECT CONSIDERATIONS

WORK ASSOCIATED WITH THIS PROJECT MUST NOT ADVERSELY IMPACT THE WATER TREATMENT PLANT OPERATIONS BEYOND THE TIME FRAMES SPECIFIED. AS A RESULT, CONTRACTOR MUST COORDINATE WORK AND CONNECTIONS TO THE EXISTING MIEX SYSTEM COMPONENTS TO MEET THE FOLLOWING CONDITIONS:

1. EXISTING CONTROL SYSTEMS SHALL REMAIN IN SERVICE UNTIL PROPOSED SYSTEMS ARE FULLY OPERATIONAL.
2. EXISTING MIEX PRETREATMENT SYSTEM SHALL REMAIN IN SERVICE AT ALL TIMES DURING CONSTRUCTION OF PROPOSED REGENERATION SYSTEM. WORK REQUIRED TO TEMPORARILY RELOCATE EXISTING EQUIPMENT, VALVES, INSTRUMENTS AND ASSOCIATED WIRING / CONTROLS SHALL BE INCLUDED IN THE SCOPE OF WORK.
3. SHORT TERM MIEX REGENERATION SYSTEM SHUTDOWN SHALL BE ALLOWED IN ACCORDANCE WITH THE FOLLOWING REQUIREMENTS:
   - PROVIDE OWNER MINIMUM COORDINATION NOTICE OF 48 HOURS.
   - SHORT TERM SHUTDOWN DURATION SHALL NOT EXCEED 72 HOURS.
   - REGENERATION SYSTEM SHUTDOWN(S) SHALL BE FOLLOWED BY A MINIMUM OF 5-DAYS OPERATION PRIOR TO ADDITIONAL SHUTDOWN(S).
4. NEW MIEX REGENERATION SYSTEM SHALL MEET THE FOLLOWING:
   - MODULAR DESIGN WITH SHIPPING SPLITS.
   - ALL SYSTEM COMPONENTS SHALL BE PRE-ASSEMBLED AND TESTED FOR COMPLETE SYSTEM FUNCTIONALITY BEFORE SHIPMENT.
   - AFTER SUCCESSFUL TESTING SYSTEM SHALL BE DISASSEMBLED AT SHIPPING SPLITS.
5. DURING INSTALLATION OF REGENERATION SYSTEM AND WHEN VIRGIN RESIN ADDITION (MAKEUP) IS DOWN, CONTRACTOR SHALL ASSIST VILLAGE WITH DIRECT DUMP OF VIRGIN RESIN STORAGE TOTES INTO CONTACTOR, WHEN NEEDED. (ESTIMATED 1 TO 2 TOTES (265 GALLON / EA) EVERY OTHER MONTH.

SUGGESTED SEQUENCE OF CONSTRUCTION RECOMMENDATIONS

1) THE FOLLOWING INFORMATION IS PROVIDED TO ASSIST THE CONTRACTOR IN SEQUENCE OF DEMOLITION AND CONSTRUCTION TO ALLOW THE EXISTING MIEX REGENERATION SYSTEM TO REMAIN IN SERVICE DURING THE CONSTRUCTION PROCESS. THE CONTRACTOR SHALL REFER TO THESE AND OTHER NOTES THROUGHOUT THE PROJECT DRAWINGS.
2) CONTRACTOR SHALL HAVE THE FREEDOM TO PERFORM CONSTRUCTION AND DEMOLITION IN ANY FASHION AND IN ANY ORDER CONTRACTOR SEES FIT AS LONG AS THE PERFORMANCE OF THE WORK MEETS OR EXCEEDS THE ABOVE GENERAL PROJECT CONSIDERATIONS.
3) COMPLETE SHOP DRAWING PHASE, PROCUREMENT AND DELIVERY (OR HAVE DELIVERY SCHEDULED) FOR ALL MAJOR PIECES OF EQUIPMENT ASSOCIATED WITH THE SYSTEM UPGRADE.
4) COORDINATE WITH OWNER AND ENGINEER AND PROVIDE PRELIMINARY SCHEDULE OF SYSTEM SHUTDOWN(S) NEEDED TO COMPLETE THE WORK.
5) ALL MATERIAL SHALL BE ON-SITE PRIOR TO SYSTEM SHUTDOWN AND DEMOLITION.
6) COMPLETE ALL WORK THAT IS POSSIBLE BEFORE SHUTDOWN OF THE EXISTING SYSTEMS.
7) REMOVE EXISTING EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS AS INDICATED BY DRAWINGS WHILE MAINTAINING REGENERATION SYSTEM OPERATION.
8) INSTALL ALL NEW EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS.
9) COMPLETE ALL SYSTEM MANUFACTURER, CONFIGURATION, STARTUP AND TRAINING.
10) PLACE ALL NEW SYSTEMS INTO OPERATION.
11) COMPLETE DEMOLITION OF EXISTING AND RELOCATED REGENERATION SYSTEM EQUIPMENT, PIPING AND ELECTRICAL SYSTEMS AS INDICATED BY DRAWINGS.
12) SEQUENCE OF CONSTRUCTION NOTES ARE NOT MEANT TO COVER ALL ASPECTS OF THE DEMOLITION AND CONSTRUCTION PROCESS.

PROJECT SPECIFIC AREAS OF CONSIDERATION

A. GENERAL CONSTRUCTION / DEMOLITION

1) REMOVE VIRGIN RESIN TANK AND MIXER, STAIRS, VIRGIN RESIN TRANSFER PUMP, DISCONNECT AND CONDUITS.
2) REMOVE VIRGIN RESIN PIPING (VR), HIGH PRESSURE AIR (HPA) AND SERVICE WATER (W2) CURRENTLY SERVICING VIRGIN RESIN EQUIPMENT. CAP REMAINING PIPE(S) TO ALLOW SYSTEM OPERATION DURING CONSTRUCTION.
3) PLACE RAISED CONCRETE EQUIPMENT PADS PER DRAWINGS FOR RELOCATED REGENERATION EQUIPMENT.
4) REMOVE EXISTING LOUVER ASSEMBLY TO ALLOW EQUIPMENT REMOVAL / INSTALLATION. CONTRACTOR SHALL STORE LOUVER ON SITE IN A MANNER TO PREVENT DAMAGE UNTIL REINSTALLATION.

B. FRESH RESIN TANK AND TRANSFER EQUIPMENT

1) RELOCATE FRESH RESIN TANK (T-9-4-1), FRESH RESIN PUMP (P-9-4-1), SUCTION AND DISCHARGE PIPING, METER AND HOSES.
2) PROVIDE TEMPORARY CONNECTIONS FOR:
   - 6" (RR) REGENERATED RESIN
   - 1" (W2) FLUSHING AND SEAL WATER
   - 1-1/2" (FR) FRESH RESIN
   - POWER FOR TANK MIXER AND FRESH RESIN PUMP
   - CONTROL WIRING FOR LE/LT SENSOR AND FRESH RESIN FLOW METER

C. REGENERANT TANK / RELATED EQUIPMENT AND PIPING

1) RELOCATE REGENERANT TANK (T-9-3-1) TO FACILITATE CONCRETE REMOVAL FOR PROPOSED PIPING INSTALLATION.
2) REMOVE AND REPAIR CONCRETE AS REQUIRED PRIOR TO FINAL PLACEMENT OF REGENERANT TANK.
3) EXTEND AND RECONNECT EXISTING PIPING TO REGENERANT TANK:
   6" RD (REGENERATED DECANT)
   4" W2 (PROCESS WATER)
   2" SSS (SATURATED SALT SOLUTION)
   3" SRR (SUPERNATANT / REGENERANT / RINSE WATER

D. PROPOSED MIEX REGENERATION SKID PLACEMENT

1) PLACE CONCRETE FOR PROPOSED REGENERATION SKIDS PER PLANS.
2) INSTALL PROPOSED REGENERATION EQUIPMENT SKIDS, PIPING, HANGERS, AND VALVES. CONNECT TO EXISTING PIPING SYSTEM PER PLANS, CONTRACTOR SHALL FIELD COORDINATE FINAL PIPING TIE-INS AND CONNECTIONS TO ACCOMMODATE SITE CONDITIONS AND VILLAGE PREFERENCES.
3) INSTALL PROPOSED MIEX ACP CABINET, CONDUIT(S) AND WIRING PER PLAN TO PROPOSED EQUIPMENT.
4) START-UP PROPOSED REGENERATION SYSTEM AND ENSURE PROPER OPERATION PRIOR TO FINAL REMOVAL OF EXISTING REGENERATION EQUIPMENT AND PIPING.

NOTES

1) SEE GENERAL NOTES ON SHEET G-03.
2) CONTRACTOR'S OFFICE TRAILER, EMPLOYEE PARKING AND MATERIAL STORAGE AREAS WILL BE COORDINATED ON-SITE WITH OWNER.
3) ALL WORK AND SCHEDULED SHUTDOWNS SHALL BE COORDINATED WITH SITE STAFF, ENGINEER AND "SEQUENCE OF CONSTRUCTION" (SEE SHEET G-12).
4) CONTRACTOR IS RESPONSIBLE FOR RETURNING REMOVED EQUIPMENT TO OWNER AS SPECIFIED HERE AND THROUGHOUT DRAWINGS AND SPECIFICATIONS.
   THE VILLAGE HAS PRELIMINARILY MARKED THE FOLLOWING ITEMS TO BE SALVAGED FOR THE VILLAGE BY CONTRACTOR:
   - (TBD)
5) CONTRACTOR RESERVES THE RIGHT TO KEEP ANY REMOVED EQUIPMENT THAT IS NOT REQUESTED BY THE OWNER OR SPECIFIED TO BE RETURNED THROUGHOUT THE DRAWINGS AND SPECIFICATIONS. ANY EQUIPMENT NOT REQUESTED BY OWNER SHALL BE DISPOSED LAWFULLY OF BY THE CONTRACTOR.
6) FOR ELECTRICAL DEMOLITION AND TEMPORARY ELECTRICAL PROJECT REQUIREMENTS, CONTRACTOR SHALL REFER TO INSTRUMENTATION AND ELECTRICAL DRAWINGS.
7) COORDINATE DEMOLITION WORK WITH "SEQUENCE OF CONSTRUCTION" REQUIREMENTS ON DRAWING G-12.
8) SEE SPECIFICATION SECTION 02072 - DEMOLITION FOR ADDITIONAL REQUIREMENTS.
9) EQUIPMENT REMOVAL SHALL INCLUDE PIPING AS INDICATED ON DRAWINGS, ACCESSORIES AND ELECTRICAL CONDUIT(S)/WIRING ETC., SUPPORTS, AND MOUNTING / ANCHORING HARDWARE TYPICAL, UNLESS OTHERWISE STATED.
10) PIPING REMOVAL SHALL BE INCLUSIVE OF ALL PIPE, FITTING, VALVES, SUPPORTS AND ANCHORAGE, TYPICAL.

BID DOCUMENTS

NOTES AND DESIGN CRITERIA - STRUCTURAL

GENERAL NOTES

1) THESE NOTES SUPPLEMENT THE SPECIFICATIONS, WHICH SHALL BE REFERENCED FOR ADDITIONAL REQUIREMENTS.
2) THE CONTRACTOR SHALL REVIEW AND VERIFY DIMENSIONS SHOWN IN ALL PLANS AND REVIEW ALL FIELD CONDITIONS THAT MAY AFFECT THE INSTALLATION OF THE FACILITY. SHOULD DISCREPANCIES APPEAR, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING TO OBTAIN ENGINEER'S CLARIFICATION BEFORE COMMENCING WITH THE WORK.
3) WHERE DISCREPANCIES OCCUR BETWEEN PLANS, DETAILS, GENERAL NOTES, PLAN NOTES AND SPECIFICATIONS, THE MORE STRINGENT REQUIREMENTS SHALL GOVERN. DETAILS ON DRAWINGS TAKE PRECEDENCE OVER GENERAL NOTES AND TYPICAL DETAILS. DETAILS NOTED TYPICAL APPLY TO ALL SIMILAR CONDITIONS. WHERE NO SPECIFIC DETAILS ARE SHOWN, CONSTRUCTION SHALL CONFORM TO SIMILAR WORK ELSEWHERE ON THE PROJECT.
4) FOR ALL ITEMS EMBEDDED IN OR PASSED THROUGH CONCRETE, THE CONTRACTOR SHALL INITIALLY REFER TO MECHANICAL AND ELECTRICAL DRAWINGS FOR TYPE, SIZE, LOCATION, AND SPECIAL INSTALLATION REQUIREMENTS FOR THESE ITEMS.
5) ALL EXPOSED CORNERS OF CONCRETE SHALL HAVE A MINIMUM 3/4" CHAMFERED EDGE OR 3/8" RADIUS TOOLED EDGE UNLESS OTHERWISE NOTED.
6) COORDINATION: STRUCTURAL DRAWINGS ARE NOT STAND-ALONE DOCUMENTS AND ARE INTENDED TO BE USED IN CONJUNCTION WITH THE CIVIL, MECHANICAL, ELECTRICAL AND DRAWINGS FROM OTHER DISCIPLINES. THE CONTRACTOR SHALL COORDINATE ALL REQUIREMENTS OF THE CONTRACT DOCUMENTS.
7) EQUIPMENT ARRANGEMENTS, DIMENSIONS AND MATERIALS ARE SHOWN FOR REFERENCE, CONTRACTOR SHALL COORDINATE FINAL REQUIREMENTS WITH ENGINEER APPROVED, MANUFACTURER SHOP DRAWINGS.

CONCRETE FINISH SCHEDULE

TYPE OF FINISH	AREA OR SURFACE TYPE	REQUIRED FROM TOLERANCES
B-3	BEAMS	B-A
C-3	COLUMNS	C-A
S-1 OR S-6	ROOF/TOP SLABS (EXPOSED)	S-A
S-1 OR S-6	INTERIOR SLABS	S-B
S-1 OR S-6	BASIN SLABS	S-A
S-2	ROOF SLAB (COVERED WITH ROOFING MATERIAL)	S-A
S-3	UNDERSIDE OF ELEVATED SLABS	S-A
S-4	EXTERIOR SLABS	S-A
SEE NOTE 4	SIDEWALKS, DRIVES, CURBS	SEE NOTE 4
W-1	EXTERIOR BELOW GRADE WALL SURFACES	W-A
W-2	INTERIOR WALL SURFACES	W-B
W-3	EXTERIOR ABOVE GRADE WALL SURFACES	W-B

NOTES:
1) FINISH TYPES SHALL BE AS SPECIFIED IN SECTION 03300 – CONCRETE.
2) FORM TOLERANCES SHALL BE AS SPECIFIED IN SECTION 03100 – FORMWORK.
3) CONFIRM ALL FINISH REQUIREMENTS WITH ENGINEER PRIOR TO PLACING CONCRETE.
4) SEE SPECIFICATION SECTION 02630 – CONCRETE SIDEWALK, DRIVES, CURBS.
5) FOR AREA OR SURFACE TYPE NOT INDICATED CONSULT ENGINEER.

STRUCTURAL CONCRETE REINFORCING NOTES

1) CONCRETE AND REINFORCING SHALL BE AS SPECIFIED IN DIVISION 3 - CONCRETE.
2) REINFORCING STEEL SHALL HAVE THE FOLLOWING MINIMUM CLEAR COVER UNLESS OTHERWISE NOTED:
   - CONCRETE CAST AGAINST EARTH 3"
   - FORMED SURFACES IN CONTACT WITH SOIL, SEWAGE, WATER OR EXPOSED WEATHER 2"

   FORMED SURFACES NOT EXPOSED TO WEATHER OR IN CONTACT WITH SOIL:
   - SLABS AND WALLS 2"
   - BEAMS AND COLUMNS 1-1/2"

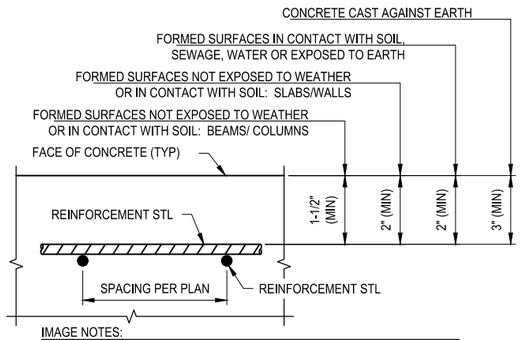

IMAGE NOTES:
1) IMAGE SHOWS A SINGLE MAT OF REINFORCING STEEL, IT SHALL APPLY TO ALL REINFORCING STEEL PLACEMENT.
2) MINIMUM CLEARANCES AS SHOWN ARE TYPICAL FOR ALL SIDES OF CONCRETE AND SHALL APPLY TO CLOSEST LAYER OF STEEL.

3) SPLICES AND LAPS OF DEFORMED BARS:

LAP SPLICE SCHEDULE (INCHES)								
BAR SIZE								
f_c	3	4	5	6	7	8	9	10
3000	22	29	36	43	63	72	81	90
4000	19	25	31	37	54	62	70	78
5000	17	23	28	34	49	56	63	69

BAR TYPE	DIA (IN)
#3	0.375
#4	0.500
#5	0.625
#6	0.750

BAR TYPE	DIA (IN)
#7	0.875
#8	1.00
#9	1.128
#10	1.270

4) THE CONTRACTOR SHALL OBTAIN ENGINEER'S APPROVAL FOR THE LOCATION OF CONSTRUCTION JOINTS THAT ARE NOT SHOWN ON THE DRAWINGS.
5) REINFORCEMENT SHALL BE ASTM A615 GRADE 60.

DESIGN CRITERIA

1) DESIGN WIND PRESSURE CRITERIA IN ACCORDANCE WITH PROVISIONS OF ASCE 7-16 FOR THE FOLLOWING CRITERIA PER FLORIDA BUILDING CODE SECTION 1609:
   WIND DESIGN DATA:

VELOCITY (V_{ult})	180 MPH (3 SECOND GUST)
VELOCITY (V_{asd})	139 MPH (3 SECOND GUST)
RISK CATEGORY:	III
EXPOSURE CATEGORY:	C

2) DESIGN LOADS SHALL BE AS FOLLOWS:
   a) DEAD LOAD = ACTUAL MEMBER OR PRECAST COMPONENTS WEIGHT.
   b) LIVE LOAD = ROOF (MIN., UNREDUCED) 20 PSF
      WALKWAYS AND PLATFORMS 100 PSF
      FLOOR 100 PSF
      PROCESS SLABS 200 PSF
3) FLOOD DESIGN DATA:
   SEE DRAWING(S) G-02 AND / OR G-09.
4) DESIGN LOADS: FBC, LATEST EDITION.
5) DESIGN CRITERIA FOR STRUCTURE(S) AND FOUNDATIONS:
   a) SOIL BEARING CAPACITY = 2000 PSF
   b) CONCRETE COMPRESSIVE STRENGTH AT 28 DAYS = 4,000 PSI, UNLESS SPECIFIED OTHERWISE.
   c) MAXIMUM W/C RATIO = 0.40

BID DOCUMENTS

NOTES

1) VERIFY EXHAUST FAN AND DOOR ROUGH OPENING REQUIREMENTS WITH ENGINEER APPROVED, MANUFACTURER'S SHOP DRAWING(S).
2) PROVIDE REINFORCED CONCRETE IN-FILL ABOVE PROPOSED ELECTRICAL ROOM DOOR. CONCRETE SHALL MATCH BLOCK WIDTH AND EXTEND A MINIMUM OF 8" BEYOND ROUGH OPENING AT EACH END.
3) PROVIDE 12"x8" PRECAST LINTEL AT CMU OPENING (COORDINATE W/ ARCHITECTRUAL SHEETS). EXTEND LINTEL A MINIMUM OF 8" EACH SIDE OF ROUGH OPENING. BREAK OUT OPENING(S) IN LINTEL TO ALLOW VERTICAL REINFORCEMENT TO PASS THROUGH. GROUT OPENINGS FOLLOWING INSTALLATION.
4) COORDINATE FINAL EQUIPMENT PAD DIMENSIONS WITH THE APPROVED EQUIPMENT SHOP DRAWINGS.
5) TANKS, MIEX SKIDS AND PIPING NOT SHOWN FOR PLAN CLARITY.
6) EXISTING RAISED EQUIPMENT PAD(S) TO REMAIN. PROPOSED CONCRETE SHALL BE SAME THICKNESS AS EXISTING PADS. WHERE EXISTING PADS HAVE 3/4" CHAMFER, CONCRETE EDGES SHALL BE SAWCUT SQUARE OR REMOVED PRIOR TO NEW CONCRETE PLACEMENT.

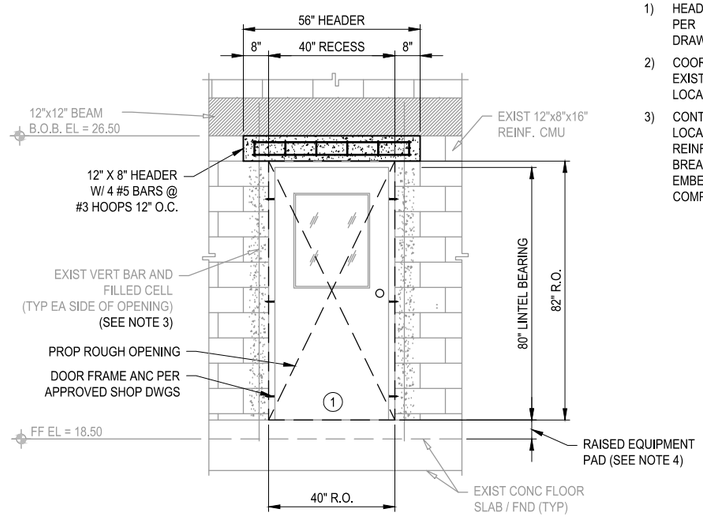
BID DOCUMENTS

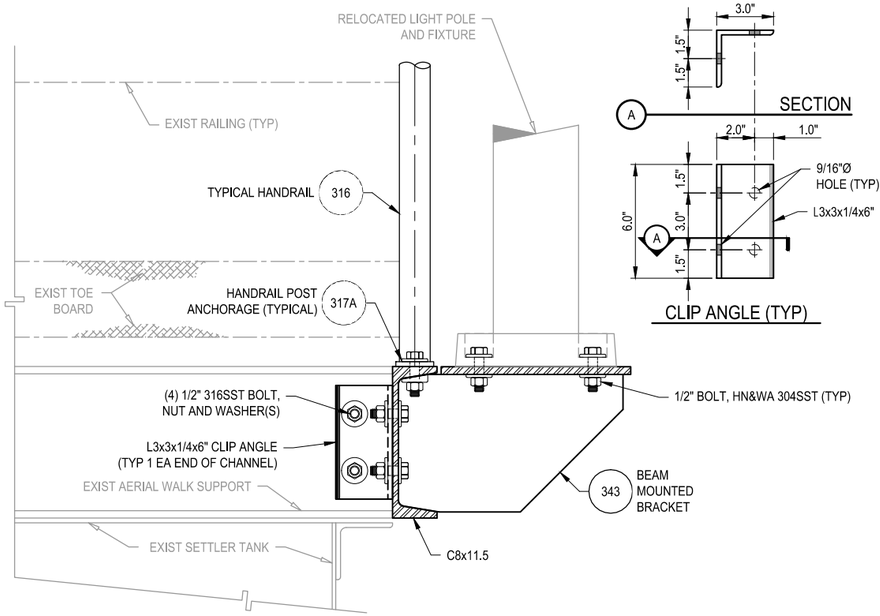


GENERAL NOTES:

1) LINTEL AND CONCRETE INFILL TO BE REMOVED TO EXTENTS OF EXISTING DOOR OPENING WIDTH.

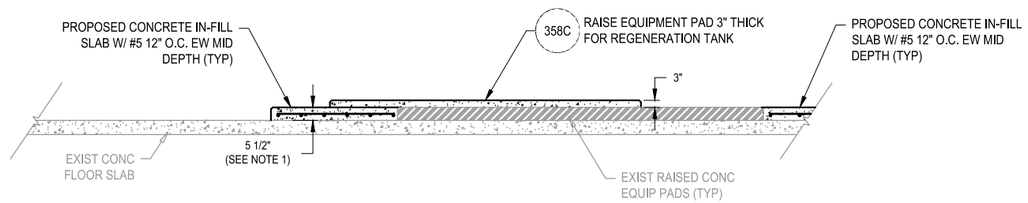
WALL SECTION - DEMOLITION (A)

SCALE: 1/2" = 1'-0"



INTERIOR DOOR INSTALLATION - CMU WALL (B)

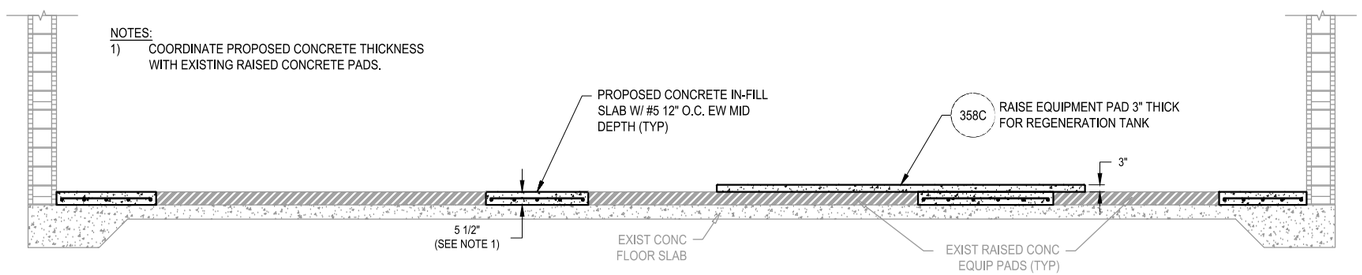
SCALE: 1/2" = 1'-0"



GENERAL NOTES:

1) HEADER BEARING HEIGHT AND ROUGH OPENING SHALL BE PER ENGINEER APPROVED MANUFACTURER SHOP DRAWINGS.
2) COORDINATE FINAL HEADER DIMENSIONS AND HEIGHT WITH EXISTING EQUIPMENT PAD HEIGHT, EXISTING BEAM LOCATION AND ROUGH OPENING REQUIREMENTS.
3) CONTRACTOR SHALL COORDINATE FINAL ROUGH OPENING LOCATION WITH EXISTING WALL REINFORCEMENT. WHERE REINFORCEMENT IS NOT PRESENT, CONTRACTOR SHALL BREAK OUT CELL WALL, INSTALL #5 BAR VERTICAL (EPOXY EMBED INTO FLOOR AND TIE BEAM) AND GROUT FILL CELL COMPLETE.

AERIAL WALKWAY MODIFICAITON (C)



SCALE: 3" = 1'-0"

SECTION - FLOOR AND TANK PAD MODIFICATIONS (E)

SCALE: 3/8" = 1'-0"

S-02

EQUIPMENT PAD & RELOCATED REGENERATION TANK (D)

SCALE: 3/8" = 1'-0"

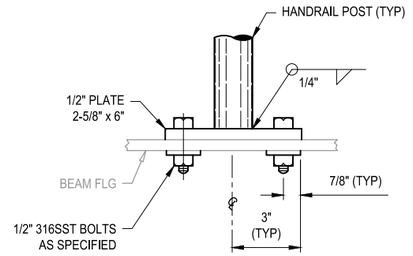
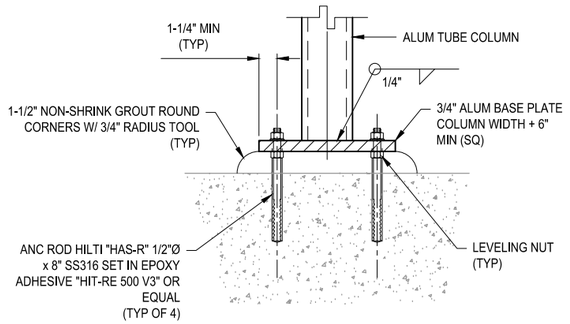
BID DOCUMENTS



NOTES:
1) PROVIDE EXPANSION JOINT AND PROTECTIVE JOINT CASINGS AS PER SPECIFICATIONS 05520-HANDRAILS AND RAILINGS.
2) SHOP DRAWINGS SHALL DETAIL TOE BOARD CONNECTION.

TYPICAL HANDRAIL

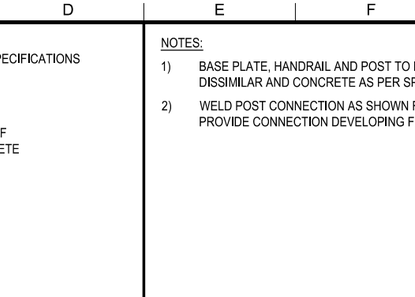


316

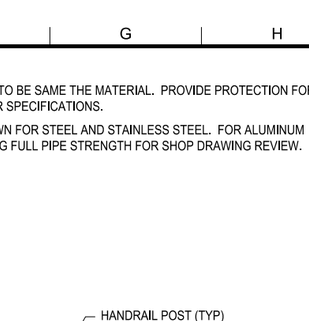
NOTES:
1) BASE PLATE, HANDRAIL AND POST TO BE SAME THE MATERIAL. PROVIDE PROTECTION FOR DISSIMILAR AND CONCRETE AS PER SPECIFICATIONS.
2) WELD POST CONNECTION AS SHOWN FOR STEEL AND STAINLESS STEEL. FOR ALUMINUM PROVIDE CONNECTION DEVELOPING FULL PIPE STRENGTH FOR SHOP DRAWING REVIEW.

HANDRAIL POST ANCHORAGE (TYPICAL)

317A



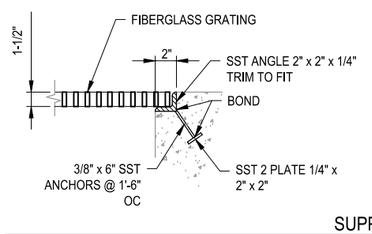
COLUMN BASE CONNECTION

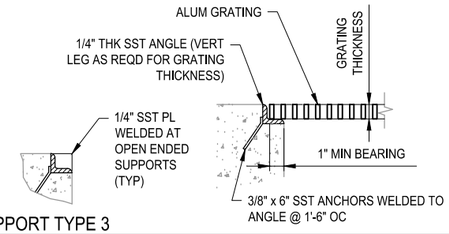


341

N O T E S

1) GRATING SPAN ~~SEE PLAN.~~
2) GRATING WIDTH SECTIONS SHALL BE BETWEEN 2'-0" AND 3'-0".
3) SHOP DRAWINGS SHALL BE SUBMITTED TO THE ENGINEER BASED ON FIELD DIMENSIONS PRIOR TO FABRICATION. SHOP DRAWINGS SHALL SHOW ALL GRATING SECTIONS AND BANDING.
4) UNLESS SHOWN ON PLANS, USE GRATING THICKNESS IN TABLE.
5) BEARING BAR THICKNESS FOR GRATING TO BE 3/16" MINIMUM.
6) BAND ALL EDGES WITH 1/4" x DEPTH OF BEARING BAR. ALL CUTOUTS THROUGH GRATING SHALL ALSO BE BANDED.
7) PROVIDE MISCELLANEOUS GRATING FASTENERS AS REQUIRED.
8) ALL SECTIONS OF GRATING SHALL BE REMOVABLE.
9) TYPE OF MATERIAL USED SHALL BE AS SHOWN ON PLANS OR AS SPECIFIED. THIS STANDARD DETAIL INCLUDES 2 TYPES ALTHOUGH BOTH MAY NOT BE INCLUDED IN PROJECT.





SUPPORT TYPE 1

SUPPORT TYPE 2

GRATING THICKNESS TABLE		
MAX SPAN	ALUMINUM	FIBERGLASS
3'-6"	1-1/4"	1-1/2"
4'-0"	1-1/2"	
4'-6"	1-3/4"	MAX SPAN ALLOWABLE IS 4'-0" (ALLOWABLE DEFLECTION 1/4" MAX)

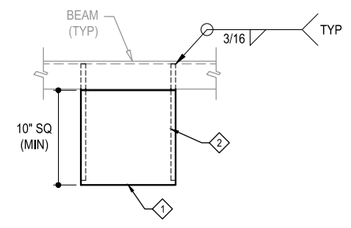
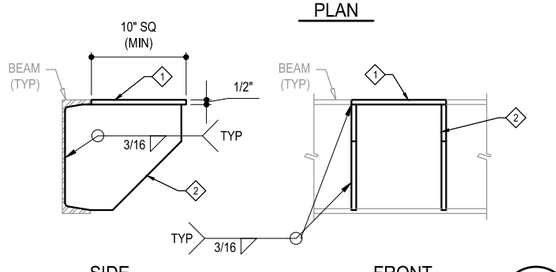
6'-6"	2-1/4"	



SUPPORT TYPE 3

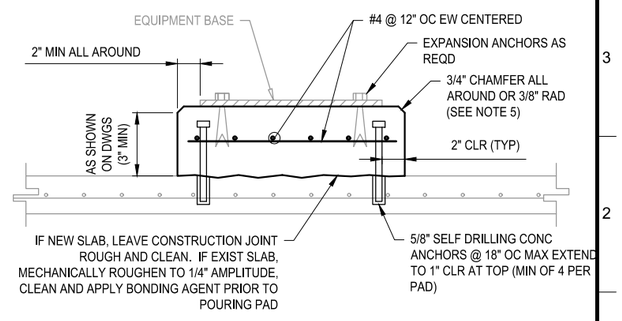


336

GRATING DETAILS

NOTES:
1) BRACKET MATERIALS TO BE SAME MATERIAL AS BEAM.
2) TOP PLATE SHALL BE SIZED AS REQUIRED TO ACCOMODATE EQUIPMENT TO BE MOUNTED OR AS INDICATED. PLATE SHALL BE A MINIMUM OF 10" SQUARE, COORDINATE WITH EQUIPMENT.
3) EQUIPMENT MOUNTING HOLES SHALL BE FIELD DRILLED / CUT AS REQUIRED, UNLESS OTHERWISE SHOWN.

SPECIFIC NOTES
1. PL1/2" (MINIMUM 10" SQ)
2. PL1/2" (WEB STIFFENER)



343

BEAM MOUNTED BRACKET

NOTES:
1) PAD SIZE SHALL BE MIN SHOWN ON DETAIL OR DRAWING, OR AS INDICATED BY THE EQUIPMENT MANUFACTURER AND REVIEWED BY THE ENGINEER.
2) EQUIPMENT BASES SHALL BE INSTALLED LEVEL UNLESS SPECIFIED OTHERWISE.
3) SHIM BASES AND BACK OFF TEMPORARY LEVEL NUTS PRIOR TO PLACING GROUT. SHIMS SHALL NOT BE EXPOSED TO VIEW.
4) ANCHOR BOLT TYPE, SIZE, NUMBER, LOCATION AND THREAD PROJECTION SHALL BE AS PER EQUIPMENT MANUFACTURER'S RECOMMENDATIONS AND REVIEWED BY THE ENGINEER. WHERE APPLICABLE ANCHOR BOLTS SHALL BE HELD IN POSITION WITH A TEMPLATE WHILE PAD IS BEING POURED AND CURED.
5) 3/8" TOOLED EDGE IS ACCEPTABLE SUBSTITUTE WITH OWNER / ENGINEER APPROVAL. DO NOT CHAMFER OR TOOL EDGES OF PADS ADJACENT TO WALLS.

PIPING SCHEDULE NOTES

1) H = HYDROSTATIC PRESSURE TEST
   P = PNEUMATIC PRESSURE TEST
2) DISINFECTION OF THE PIPING SHALL BE COMPLETED IN ACCORDANCE WITH SECTION 15029-TESTING AND DISINFECTION (PIPELINE, STRUCTURES AND EQUIPMENT)
3) EXPOSED PIPE, INTERIOR & EXTERIOR, SHALL BE PREPARED AND PAINTED (COLOR CODED) AND LABELED. PREPARATION, PAINTING AND LABELING SHALL BE AS SPECIFIED IN SECTION 09900 - PROTECTIVE COATINGS AND AS SCHEDULED IN THE ARCHITECTURAL DRAWINGS.
4) COLOR CODES ARE TNEMEC.
5) EXPOSED PIPING SHALL BE LABELED EVEN IF NOT PAINTED.
6) BURIED PIPING SHALL BE STRIPED PER APPLICABLE SERVICE COLOR CODE. MINIMUM 2" WIDE STRIPE ON FOUR (4) QUADRANTS OF PIPE.
7) FLEXIBLE TUBING SHALL BE BANDED PER COLOR CODE AT 5'-0" O.C. BANDING SHALL BE FLEXIBLE COLORED TAPE, 1" MINIMUM WIDTH.
8) OTHER PIPING REQUIREMENTS NOT LISTED HERE SHALL BE AS NOTED ON DRAWINGS.

NEW PIPING SCHEDULE - YARD PIPING

( ) NUMBER(S) IN PARENTHESES REFER TO NOTES LISTED IN "PIPING SCHEDULE NOTES" THIS SHEET.

GENERAL MECHANICAL NOTES

1) CONTRACTOR SHALL VERIFY EXISTING PIPING LOCATIONS AND ELEVATIONS. REVISE PROPOSED PIPING INSTALLATIONS AS REQUIRED. REVISIONS SHALL BE AS APPROVED BY THE ENGINEER.
2) PIPING MATERIALS SHALL BE AS INDICATED BY THE PIPING SCHEDULE.
3) ALL DI YARD PIPING 4" AND LARGER SHALL BE RESTRAINED AS PER (STD DTL 401).
4) ALL PIPING SHALL BE INSTALLED WITH A MINIMUM COVER OF 30" UNLESS NOTED OTHERWISE. PIPING ELEVATION REQUIREMENTS NOTED SHALL TAKE PRECEDENCE.
5) ALL BURIED VALVES SHALL BE INSTALLED PER THE REQUIREMENTS OF THE STANDARD DETAILS.
6) SEE (STD DTL 405) FOR UTILITY TRENCH REQUIREMENTS OF PAVED AND NON-PAVED AREAS.
7) THRUST BLOCKS ALLOWED AT LOCATIONS NOTED ONLY.
8) SEE CIVIL DRAWINGS FOR SITE RESTORATION REQUIREMENTS.
9) WHERE EXISTING PIPING SYSTEMS ARE SHOWN TO BE REMOVED, THE PIPING NEED ONLY BE REMOVED TO FACILITATE CONSTRUCTION OF NEW IMPROVEMENTS. WHERE SECTIONS OF ABANDONED PIPING REMAIN THE EXPOSED ENDS SHALL BE GROUT PLUGGED OR CAPPED. (METHOD NOTED ON DRAWINGS)
10) GENERAL PIPE SUPPORT INFORMATION/REQUIREMENTS:
   A. PIPING SHALL BE SUPPORTED, IN GENERAL, AS DESCRIBED HEREINAFTER AND AS SHOWN BY THE PIPE SUPPORT DETAILS ON THE DRAWINGS. MANUFACTURER'S CATALOG FIGURE NUMBERS ARE TYPICAL OF THE TYPES AND QUALITY OF STANDARD PIPE SUPPORTS AND HANGERS TO BE EMPLOYED.
   B. NO ATTEMPT HAS BEEN MADE TO SHOW ALL REQUIRED PIPE SUPPORTS IN ALL LOCATIONS, EITHER ON THE DRAWINGS OR IN THE DETAILS. THE ABSENCE OF PIPE SUPPORTS AND DETAILS ON ANY DRAWINGS SHALL NOT RELIEVE THE CONTRACTOR OF THE RESPONSIBILITY FOR PROVIDING THEM THROUGHOUT THE PROJECT.
   C. WHERE PIPING CONNECTS TO EQUIPMENT IT SHALL BE SUPPORTED BY A PIPE SUPPORT AND NOT BY THE EQUIPMENT UNLESS NOTED OTHERWISE.
   D. PIPE SUPPORT TYPES SHALL BE PER THE SPECIFICATIONS AND STANDARD DETAILS.
   E. IN GENERAL, THE TYPE OF PIPE SUPPORTS TO BE USED SHALL BE AS FOLLOWS UNLESS SHOWN OTHERWISE ON DRAWINGS:

PIPE CENTERLINE ABOVE FLOOR	TYPE OF PIPE	TYPE OF SUPPORT
0 - 5 FT.	DUCTILE IRON	CONCRETE
> 5 FT.	DUCTILE IRON	ADJUSTABLE PIPE SADDLE, BRACKETS, SUPPORTS OR HANGERS
ANY HEIGHT	PLASTIC	SST OR FRP STRUT SYSTEM OR HANGERS
ANY HEIGHT	METAL (DUCTILE IRON)	SST OR FRP STRUT SYSTEM OR HANGERS

   F. PIPE SUPPORT SPACING

NOMINAL PIPE SIZE (INCHES)	DUCTILE IRON (FEET)	METALLIC NON-DUCTILE (FEET)	PLASTIC (FEET)
1/2	-	5	3
3/4 TO 1-1/2	-	5	5
2 TO 3	-	5	5
4	10	10	5
6 AND LARGER	10	10	5

   G. HANGER ROD SIZING

NOMINAL PIPE SIZE (INCHES)	DUCTILE IRON (INCHES)	METALLIC NON-DUCTILE (INCHES)	PLASTIC (INCHES)
1/2 TO 3	-	3/8	3/8
3	-	1/2	1/2
4	5/8	5/8	5/8
6 TO 8	7/8	3/4	3/4
10 TO 16	1	1	5
18	1-1/8	1-1/8	1-1/8
20 TO 24	1-1/4	1-1/4	1-1/4
30 AND ABOVE	SEE DWGS	SEE DWGS	SEE DWGS

   WHEN SUPPORTING DUCTILE IRON PIPE, LOCATE HANGER RODS AT ALL NONDRYING JOINTS AND AT EACH CHANGE OF DIRECTION.
   H. ALL PIPING SHALL BE SUPPORTED IN A MANNER WHICH WILL PREVENT UNDUE STRAIN ON ANY VALVE, FITTING, OR PIECE OF EQUIPMENT. IN ADDITION, PIPE SUPPORTS SHALL BE PROVIDED AT CHANGES IN DIRECTION OR ELEVATION, ADJACENT TO FLEXIBLE COUPLINGS, AND WHERE OTHERWISE SHOWN. PIPE SUPPORTS AND HANGARS SHALL NOT BE INSTALLED IN EQUIPMENT ACCESS AREAS OR BRIDGE CRANE RUNS.
11) ALL PIPING PENETRATIONS OF SLABS, FLOORS, WALLS AND ROOFS SHALL BE AS SHOWN ON THE DRAWINGS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO VERIFY THE SIZE AND LOCATION OF ALL STRUCTURE PENETRATIONS PRIOR TO POURING CONCRETE.
12) WHERE VALVE HANDWHEELS ARE SHOWN, VALVE ORIENTATION SHALL BE AS SHOWN. WHERE VALVE ORIENTATION IS NOT SHOWN, VALVES SHALL BE ORIENTED TO PERMIT EASY ACCESS TO THE HANDWHEELS, AND TO AVOID INTERFERENCES.
13) GENERAL REQUIREMENTS FOR UNIONS:
   A. UNIONS SHALL BE INSTALLED WHERE REQUIRED FOR PIPING OR EQUIPMENT INSTALLATION, EVEN THOUGH THEY ARE NOT SHOWN ON THE DRAWINGS.
   B. UNIONS SHALL NOT BE REQUIRED AT LOCATIONS WHERE ANOTHER TYPE OF BREAKABLE CONNECTION HAS BEEN PROVIDED (I.E., FLANGES, UNLESS SPECIFICALLY NOTED ON DRAWINGS.)
   C. UNIONS SHALL BE PROVIDED FOR ALL PIPING TO EQUIPMENT CONNECTIONS.
   D. UNIONS SHALL BE PROVIDED FOR REMOVAL OF ALL INLINE VALVES AND DEVICES.
14) ALL PVC PIPE LESS THAN OR EQUAL TO 4" SHALL BE PROTECTED AT GRADE PER (STD-437).

GENERAL NOTES

1. THE SCHEDULE SHALL ESTABLISH THE MINIMUM LEVEL OF QUALITY FOR MATERIALS, UNLESS OTHERWISE INDICATED BY THE DRAWINGS OR NOTED IN THE SPECIFICATIONS.
2. THE SCHEDULE SHALL NOT APPLY TO POWER TRANSFORMERS, LIGHT FIXTURES AND LIGHT POLES. THESE ELEMENTS ARE NOTED OR INDICATED ELSEWHERE.
3. PVC COATED RGS WHERE NOTED OR INDICATED ON DRAWINGS.

CONDUIT / RACEWAY IDENTIFICATION LEGEND

TERMINATION EXAMPLE DETAIL

SCALE : N.T.S.

GENERAL ELECTRICAL NOTES

1) ALL PROPOSED AND MODIFIED CONDUITS AND WIRE SHALL BE LABELED PER STANDARD DETAILS.
2) THE CONTRACTOR SHALL VERIFY EXACT LOCATION OF ELECTRICAL ENCLOSURES AND CONDUIT ENTRANCES OF ALL EQUIPMENT AGAINST APPROVED SHOP DRAWINGS BEFORE STUBBING UP CONDUITS.
3) CONDUIT FOR FUTURE EQUIPMENT OR EXTENSION SHALL BE TERMINATED AS SHOWN IN DETAILS OR AS SPECIFIED. ALL EXPOSED CONDUIT STUB UPS SHALL BE CAPPED.
4) CONNECTION BETWEEN RIGID CONDUIT AND MOTOR TERMINAL BOX SHALL BE LIQUID-TIGHT FLEXIBLE METAL CONDUIT.
5) EXPOSED CONNECTIONS SHALL BE LIQUID-TIGHT FLEXIBLE METAL CONDUIT WITH APPROVED GROUNDING FITTINGS AND SHALL NOT EXCEED 30" IN LENGTH FOR 2" SIZE FITTINGS AND LARGER. MAXIMUM LENGTH OF 18" FOR SIZES 1" AND SMALLER.
6) CONDUITS TERMINATING AT SWITCHBOARD, MOTOR CONTROL CENTER, POWER PANELS, CONTROL CABINETS, ETC., SHALL BE EQUIPPED WITH A GROUNDING BUSHING 'OZ' TYPE 'GB' AND GROUNDED AS INDICATED ON DRAWINGS OR PER NEC SECTION ARTICLE 250.
7) EQUIPMENT SHALL BE INSTALLED IN ACCORDANCE WITH APPROVED SHOP DWG, ADJUSTMENT OR ALTERATIONS SHALL BE MADE WITH ENGINEERS APPROVAL.
8) MOTOR CONTROL CENTERS, SWITCHBOARDS, SWITCHGEAR AND ALL FREE STANDING PANELS SHALL BE SET ON CONCRETE HOUSEKEEPING PAD AS SHOWN IN DETAILS, UNLESS OTHERWISE INDICATED.
9) IN CASE OF INTERFERENCE BETWEEN ELECTRICAL EQUIPMENT SHOWN ON THE DRAWINGS AND OTHER EQUIPMENT OR CONFLICTS, THE CONTRACTOR SHALL NOTIFY THE ENGINEER IN WRITING AND THE ENGINEER SHALL REVIEW THE PROPOSED CHANGES BEFORE THEY ARE MADE.
10) ALL OUTDOOR DEVICES SHALL BE "IN-USE" WEATHERPROOF.
11) ALL RECEPTACLES IN OUTDOOR OR ANTICIPATED WET AREAS SHALL BE GROUND FAULT INTERRUPTER RECEPTACLES.
12) ALL RECEPTACLES SHALL BE MOUNTED 14" ABOVE FLOOR SURFACE UNLESS OTHERWISE INDICATED.
13) LOCATION OF PULLBOXES ARE APPROXIMATE. CONTRACTOR SHALL COORDINATE EXACT LOCATION OF PULL BOXES WITH MECHANICAL PIPING AND/OR OTHER SITE WORK. ANY FIELD ADJUSTMENTS SHALL BE AT NO ADDITIONAL COST TO THE OWNER.
14) CONTRACTOR SHALL PROVIDE PULLBOXES WHERE THEY ARE REQUIRED TO MAKE A WORKABLE INSTALLATION WHETHER INDICATED BY DRAWINGS OR NOT.
15) SEE SPECIFICATIONS DIVISION 16 FOR ADDITIONAL NOTES AND REQUIREMENTS.
16) CONTRACTOR SHALL DUCT SEAL ALL ELECTRICAL CONDUITS ENTERING CONTROL PANELS, SWITCHBOARDS, PANEL BOARDS, SAFETY SWITCHES AND THE LIKE. DUCT SEAL SHALL ALSO BE APPLIED TO CONDUITS ENTERING CHEMICAL AREAS SUCH AS CHLORINE ROOMS AND THE LIKE TO PROHIBIT GAS MIGRATION TO OTHER AREAS. DUCT SEAL SHALL BE APPLIED TO CONDUITS AT BOTH ENDS. DUCT SHALL BE PUG DUCT SEAL BY GB ELECTRICAL OR EQUAL.
17) ALL ELECTRICAL DEMOLITION WORK AND PROPOSED WORK SHALL BE COORDINATED WITH "SEQUENCE OF CONSTRUCTION" ON SHEET G-12.

ELECTRICAL SCOPE OF WORK

1) INSTALL NEW MIEX SYSTEM COMPONENTS PER DRAWINGS.
2) FURNISH AND INSTALL ALL POWER AND CONTROL WIRE, CONDUIT, AND ACCESSORIES FOR FULLY FUNCTIONAL SYSTEM AS SHOWN ON DRAWINGS.
3) PROVIDE ALL ELECTRICAL WORK FOR TEMPORARY OPERATION AND DEMOLITION PER DRAWINGS AND SEQUENCE OF CONSTRUCTION..

BID DOCUMENTS

KEY NOTES

1. REMOVE EXISTING MIXER, DISCONNECT, CONDUIT(S), LEVEL SENSOR AND HARDWARE
2. REMOVE INSTRUMENT(S), CABLES, CONDUITS, WIRING AND J-BOX(S) (TYP)
3. REMOVE VALVES, CONDUITS, WIRING AND J-BOX(S) (TYP)
4. REMOVE MIXER, CONDUITS, WIRING, DISCONNECT AND J-BOX(S)
5. EXISTING VALVE AND LE/LT TO BE RELOCATED (COORDINATE W/ REGENERANT TANK RELOCATION
6. REMOVE EXISTING MIEX ACP AND EXISTING POWER FROM PDP-B
7. REMOVE EXISTING AIR COMPRESSOR, DRYER, DISCONNECT, CONDUIT(S) AND WIRING
8. FRESH RESIN TANK MIXER AND LEVEL TRANSMITTER TO BE RELOCATED (TEMPORARILY), COORDINATE WITH MECHANICAL SHEETS
9. FRESH RESIN FLOW METER TO BE RELOCATED (TEMPORARILY), COORDINATE WITH MECHANICAL SHEETS
10. TEMPORARILY RELOCATE DISCONNECT(S) WITH ASSOCIATED EQUIPMENT AND PROVIDE TEMPORARY MOUNTING RACK

NOTES

1) DEMOLITION WORK SHALL BE COORDINATED WITH THE "SEQUENCE OF CONSTRUCTION" ON SHEET G-12.
2) DEMOLITION OF ELECTRICAL EQUIPMENT LOCATED OUTSIDE AT NORTH END OF MIEX BUILDING SHALL INCLUDE ALL CONDUITS AND MOUNTING HARDWARE TO WALL MOUNTED J-BOX (JB-001) AT NORTH END OF STRUCTURE.
3) DEMOLITION OF WIRING SHALL BE FROM COMPONENT TO PANEL (MIEX ACP, MPCP, POWER PANEL, VALVE HEATER PANEL, ETC.)
4) COORDINATE RELOCATION OF CONDUIT / WIRE FOR VALVE AND LT/LE WITH PROPOSED TANK LOCATION AND FINAL PIPE INSTALLATION.
5) NOT ALL EQUIPMENT DEMOLITION IS SHOWN ON THIS SHEET FOR CLARITY. SEE CIVIL DEMOLITION SHEETS FOR NON-ELECTRICAL COMPONENTS.

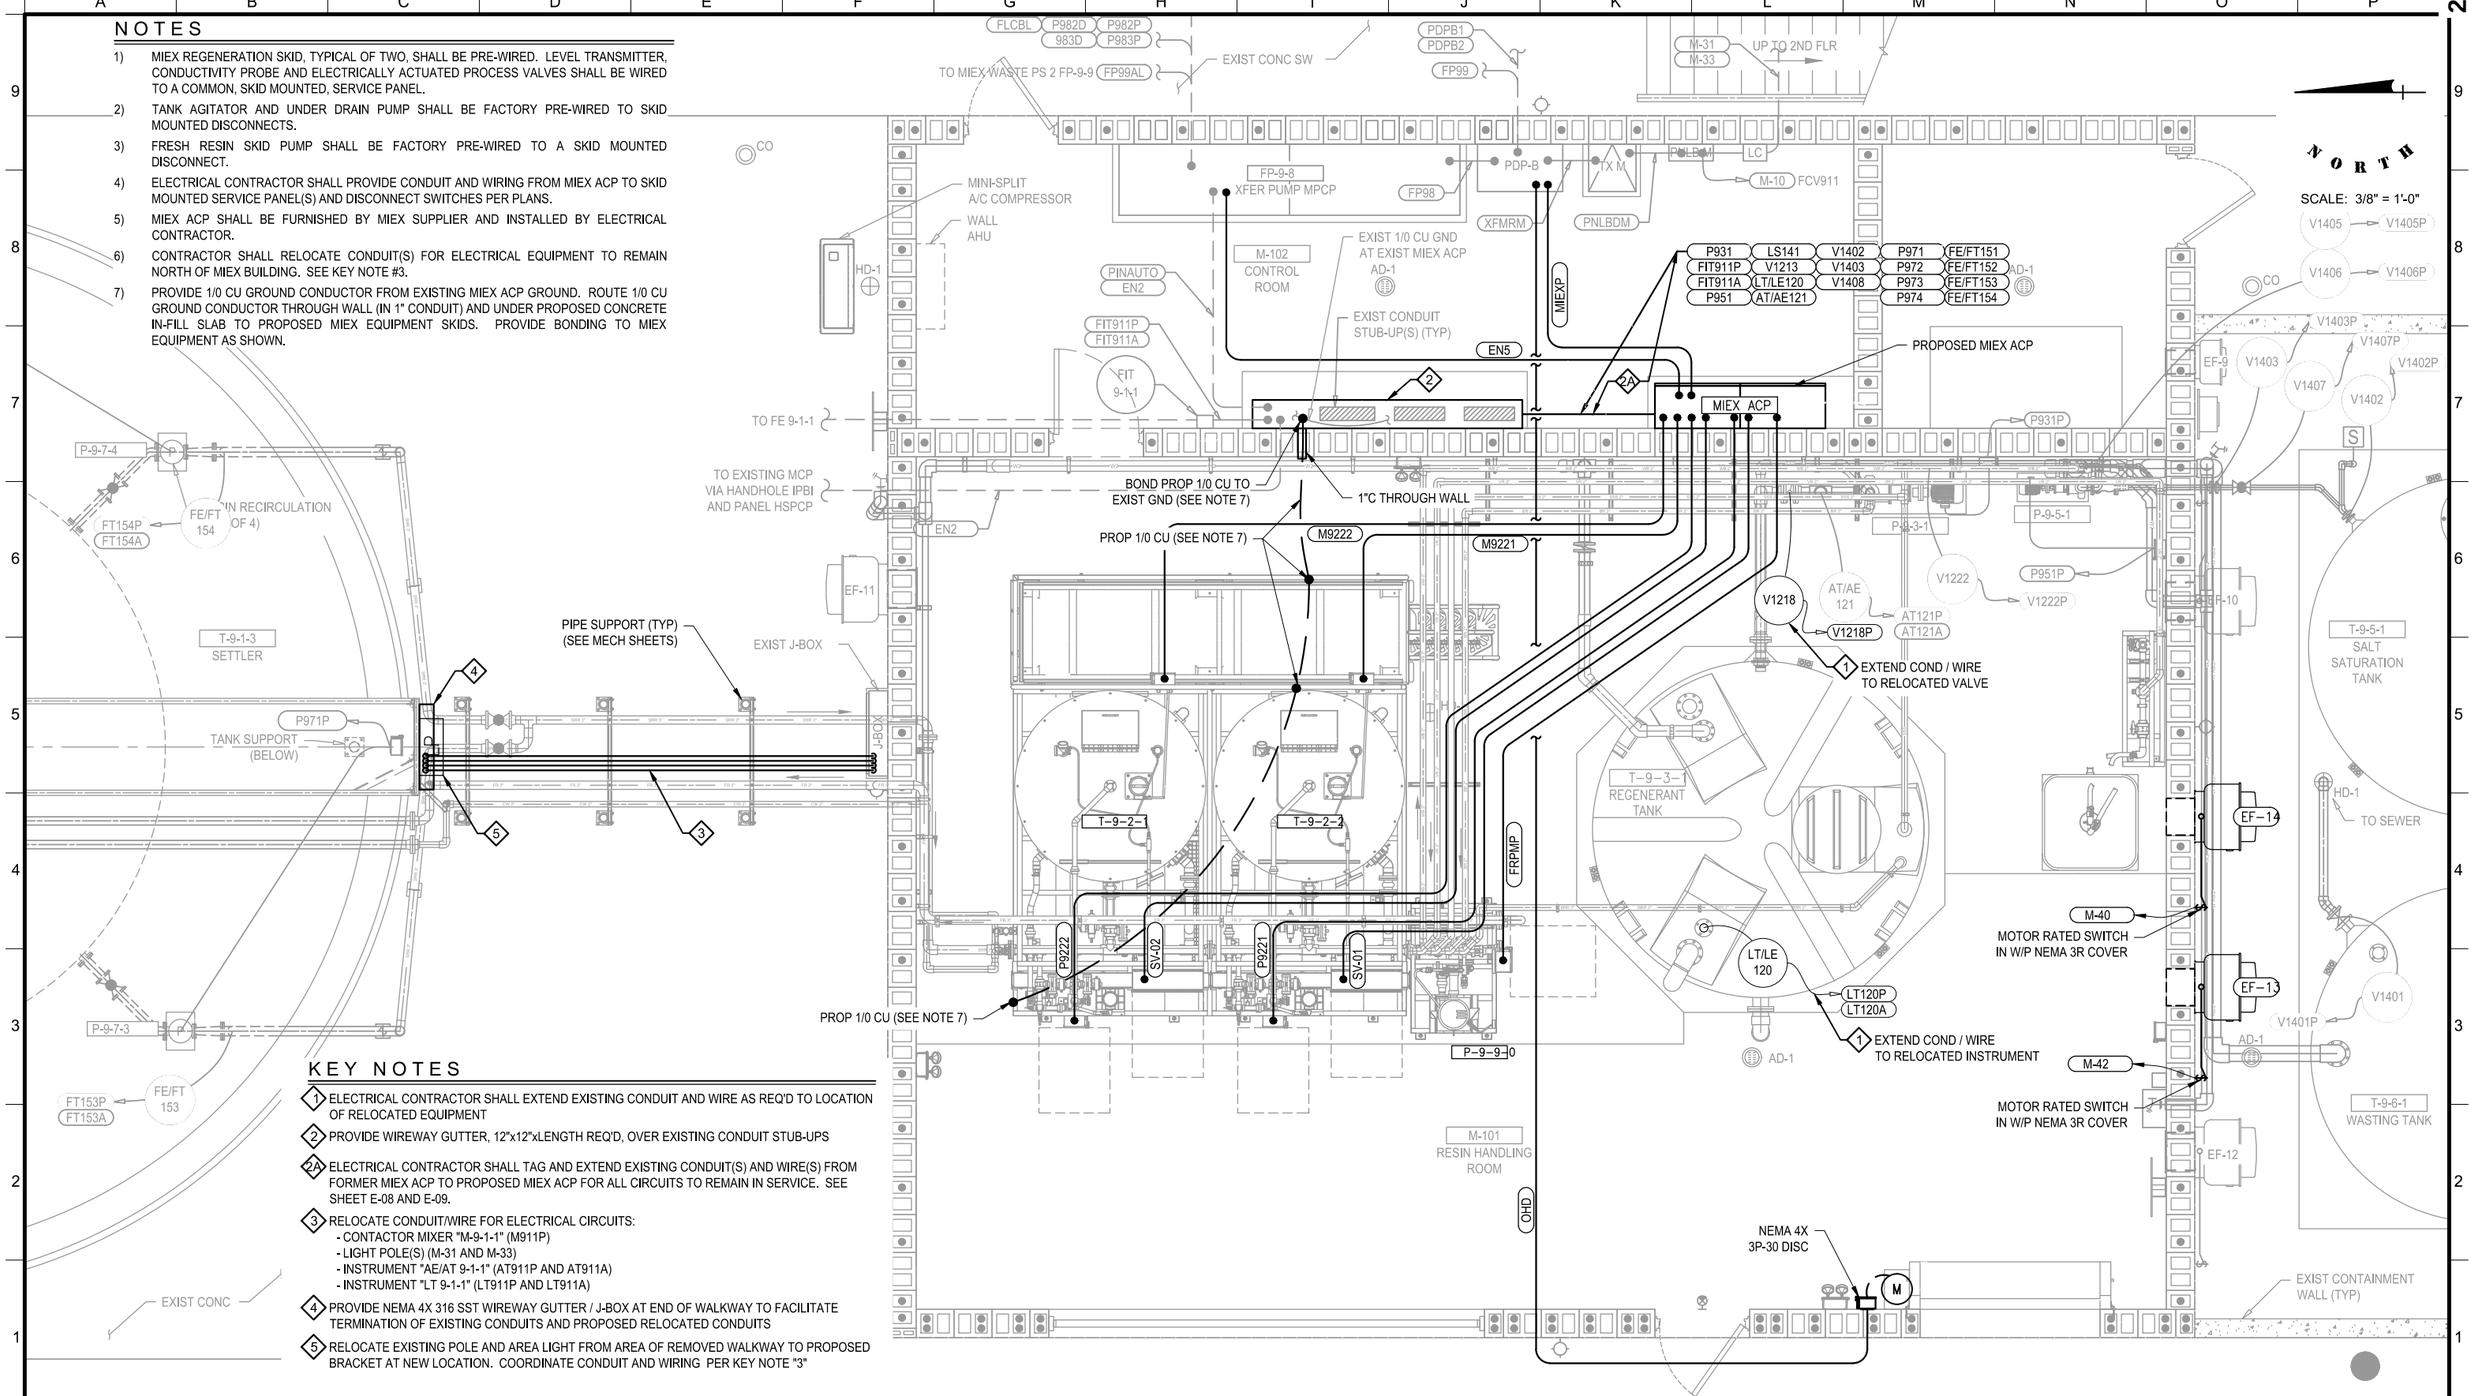
MIEX REGENERATION SYSTEM UPGRADE - R.L. PRATT WTP

MIEX TREATMENT SYSTEM
ELECTRICAL DEMOLITION PLAN

DWG NO. 62 OF 72
SHEET E-02
PROJ. NO. 400-076.01
DATE JULY 31, 2020



R.C. PROJECT # 20026

BID DOCUMENTS

File name: C:\Civil 3D Projects\400-076.01 MIEX Regen Upgrades RL Pratt\01_Working\400-076.01_E-02.dwg; Plotted @: 5/26/2021 12:51:51 PM; Scale multiplier: 0.5; Printed by: Jcrick; Milestone: BID DOCUMENTS

NOTES

1) MIEX REGENERATION SKID, TYPICAL OF TWO, SHALL BE PRE-WIRED. LEVEL TRANSMITTER, CONDUCTIVITY PROBE AND ELECTRICALLY ACTUATED PROCESS VALVES SHALL BE WIRED TO A COMMON, SKID MOUNTED, SERVICE PANEL.
2) TANK AGITATOR AND UNDER DRAIN PUMP SHALL BE FACTORY PRE-WIRED TO SKID MOUNTED DISCONNECTS.
3) FRESH RESIN SKID PUMP SHALL BE FACTORY PRE-WIRED TO A SKID MOUNTED DISCONNECT.
4) ELECTRICAL CONTRACTOR SHALL PROVIDE CONDUIT AND WIRING FROM MIEX ACP TO SKID MOUNTED SERVICE PANEL(S) AND DISCONNECT SWITCHES PER PLANS.
5) MIEX ACP SHALL BE FURNISHED BY MIEX SUPPLIER AND INSTALLED BY ELECTRICAL CONTRACTOR.
6) CONTRACTOR SHALL RELOCATE CONDUIT(S) FOR ELECTRICAL EQUIPMENT TO REMAIN NORTH OF MIEX BUILDING. SEE KEY NOTE #3.
7) PROVIDE 1/0 CU GROUND CONDUCTOR FROM EXISTING MIEX ACP GROUND. ROUTE 1/0 CU GROUND CONDUCTOR THROUGH WALL (IN 1" CONDUIT) AND UNDER PROPOSED CONCRETE IN-FILL SLAB TO PROPOSED MIEX EQUIPMENT SKIDS. PROVIDE BONDING TO MIEX EQUIPMENT AS SHOWN.

KEY NOTES

1. ELECTRICAL CONTRACTOR SHALL EXTEND EXISTING CONDUIT AND WIRE AS REQ'D TO LOCATION OF RELOCATED EQUIPMENT
2. PROVIDE WIREWAY GUTTER, 12"x12"xLENGTH REQ'D, OVER EXISTING CONDUIT STUB-UPS
2A. ELECTRICAL CONTRACTOR SHALL TAG AND EXTEND EXISTING CONDUIT(S) AND WIRE(S) FROM FORMER MIEX ACP TO PROPOSED MIEX ACP FOR ALL CIRCUITS TO REMAIN IN SERVICE. SEE SHEET E-08 AND E-09.
3. RELOCATE CONDUIT/WIRE FOR ELECTRICAL CIRCUITS:
   - CONTACTOR MIXER "M-9-1-1" (M911P)
   - LIGHT POLE(S) (M-31 AND M-33)
   - INSTRUMENT "AE/AT 9-1-1" (AT911P AND AT911A)
   - INSTRUMENT "LT 9-1-1" (LT911P AND LT911A)
4. PROVIDE NEMA 4X 316 SST WIREWAY GUTTER / J-BOX AT END OF WALKWAY TO FACILITATE TERMINATION OF EXISTING CONDUITS AND PROPOSED RELOCATED CONDUITS
5. RELOCATE EXISTING POLE AND AREA LIGHT FROM AREA OF REMOVED WALKWAY TO PROPOSED BRACKET AT NEW LOCATION. COORDINATE CONDUIT AND WIRING PER KEY NOTE "3"

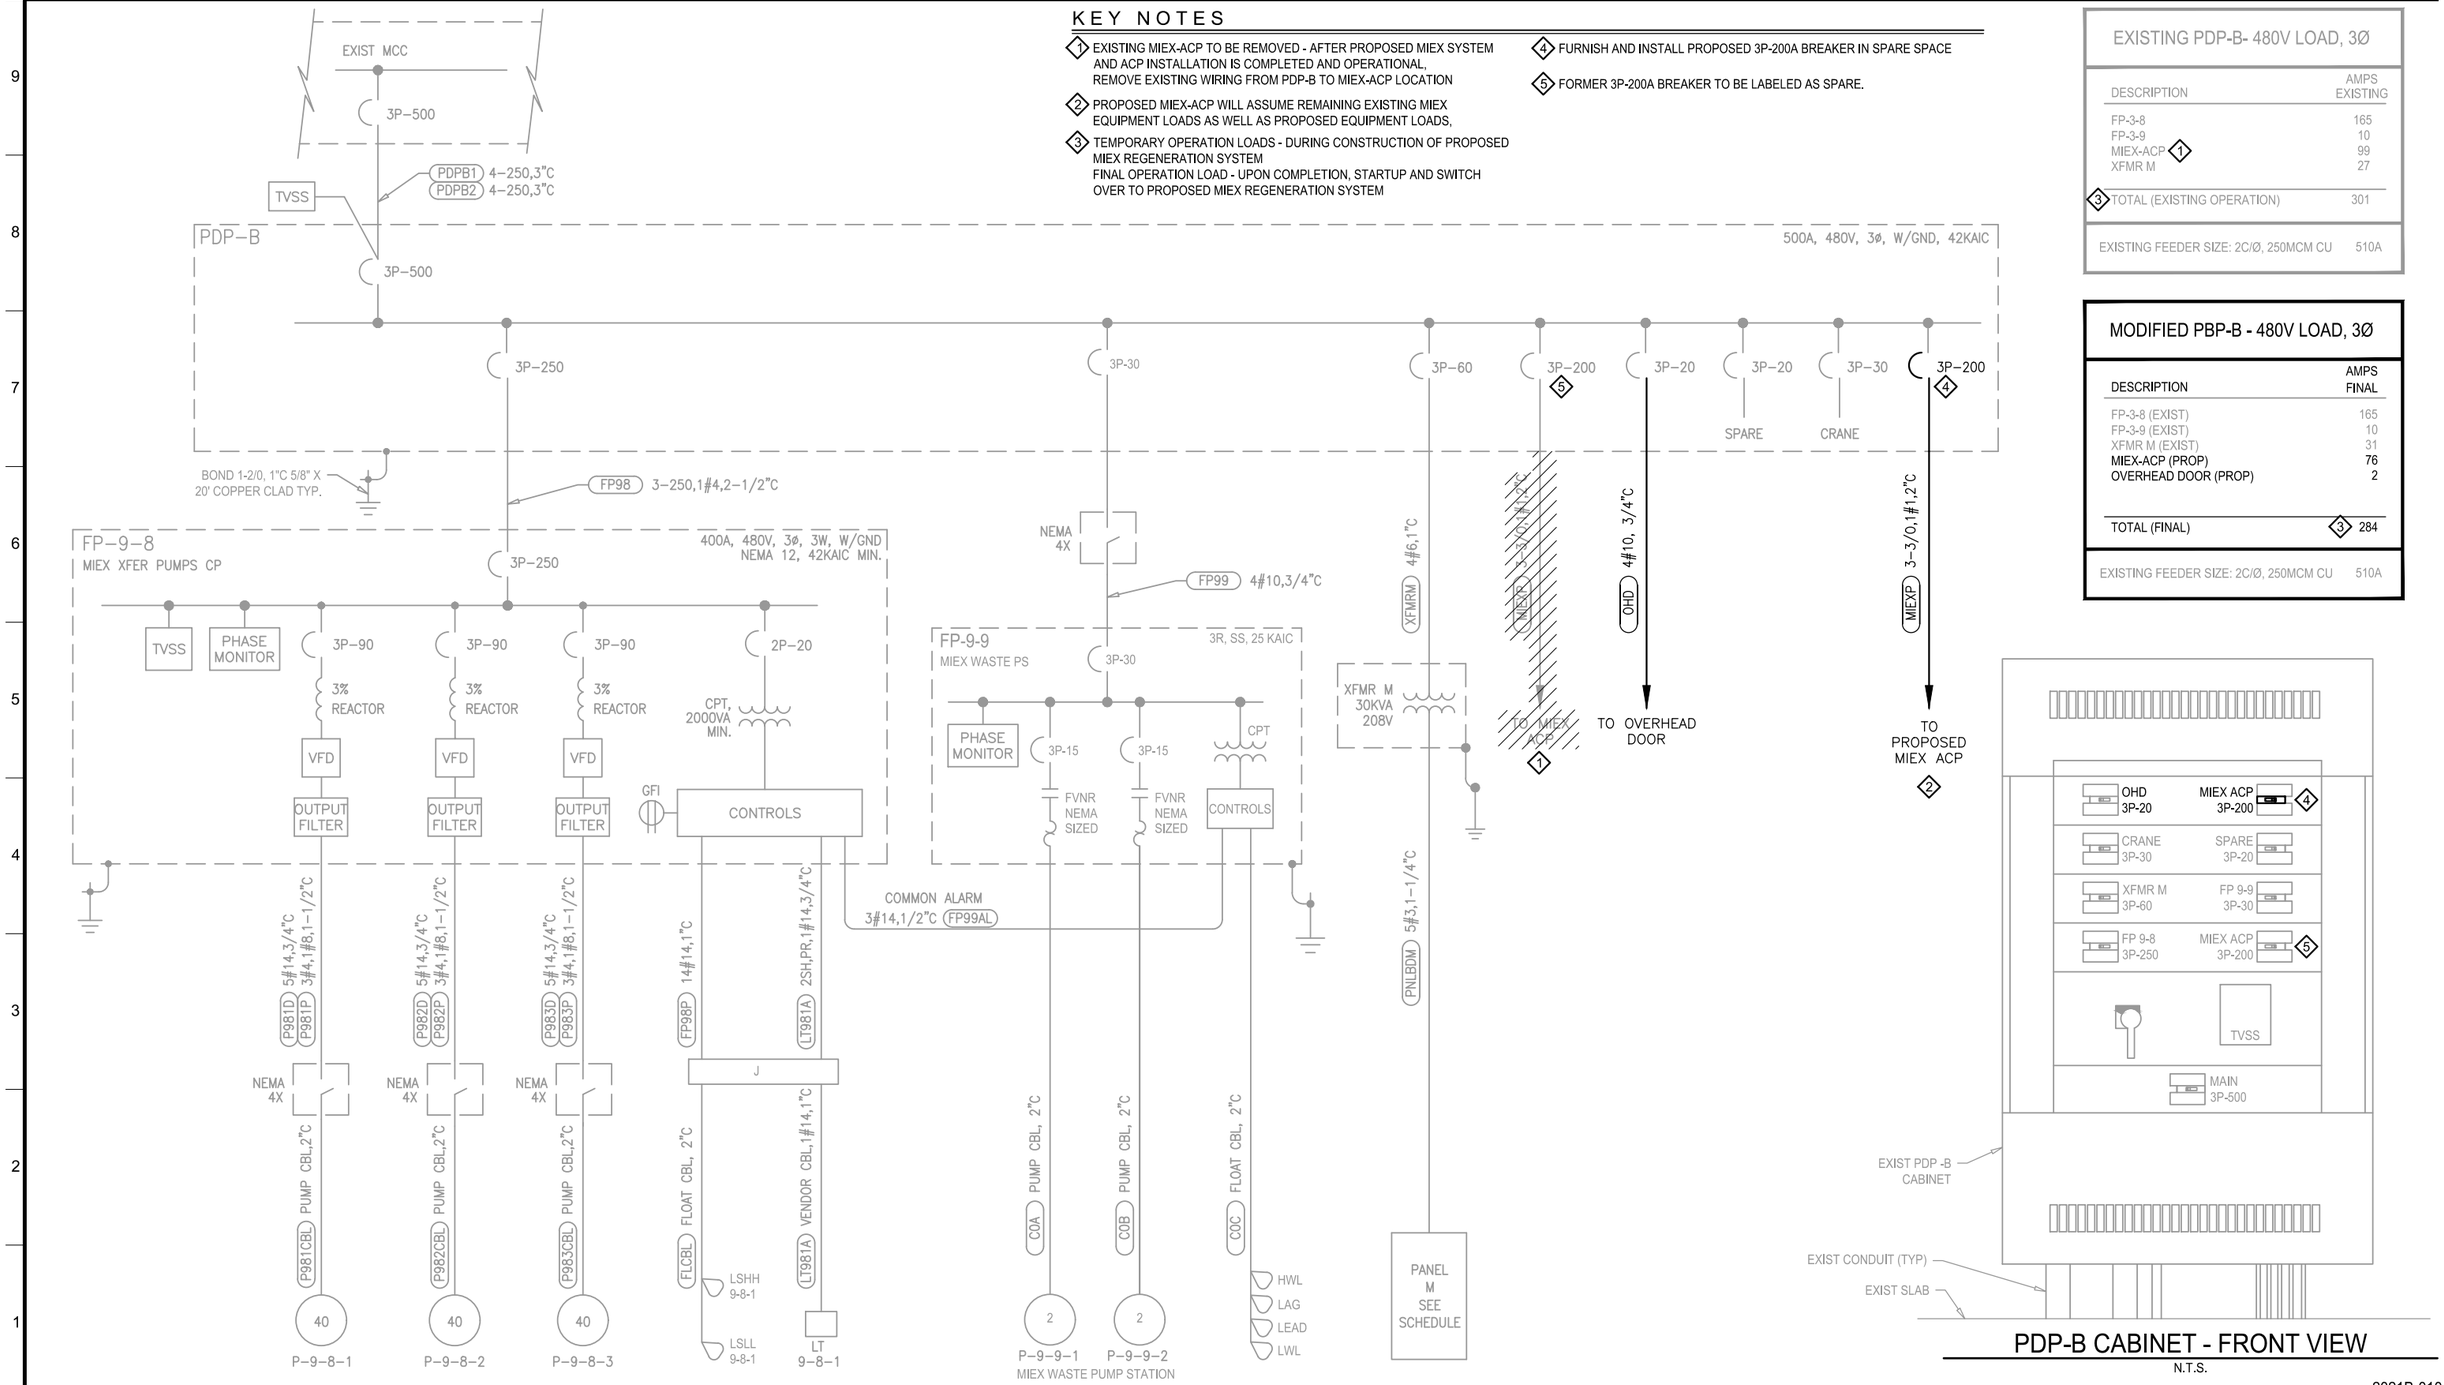
KEY NOTES



1. EXISTING MIEX-ACP TO BE REMOVED - AFTER PROPOSED MIEX SYSTEM AND ACP INSTALLATION IS COMPLETED AND OPERATIONAL, REMOVE EXISTING WIRING FROM PDP-B TO MIEX-ACP LOCATION
2. PROPOSED MIEX-ACP WILL ASSUME REMAINING EXISTING MIEX EQUIPMENT LOADS AS WELL AS PROPOSED EQUIPMENT LOADS,
3. TEMPORARY OPERATION LOADS - DURING CONSTRUCTION OF PROPOSED MIEX REGENERATION SYSTEM
   FINAL OPERATION LOAD - UPON COMPLETION, STARTUP AND SWITCH OVER TO PROPOSED MIEX REGENERATION SYSTEM
4. FURNISH AND INSTALL PROPOSED 3P-200A BREAKER IN SPARE SPACE
5. FORMER 3P-200A BREAKER TO BE LABELED AS SPARE.

PART 1

BIDDING REQUIREMENTS

ITB NO. 2021B-010
MIEX REGENERATION SYSTEM
UPGRADE MAIN AND R.L. PRATT
WATER TREATMENT PLANTS

ADVERTISEMENT FOR BIDS

Sealed Bids for the construction of the **MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants** will be received, by the **Village of Palm Springs**, at the office of the **Palm Springs Village Clerk**, until **2:00 P.M.** local time on **July 14th, 2021**, at which time the Bid Package received will be reviewed for document completeness. Following a determination of which bidders were responsible and responsive, the **Village of Palm Springs** will hold a bid opening of compliant bidders on **August 4th, 2021 at 2:00 P.M.** local time to determine the acceptable low bidder. The Project consists of furnishing all labor, equipment and material for the Upgrade of the Existing MIEX Regeneration Systems as described by the Drawings and Specifications. Generally, the work includes demolition, construction of replacement regeneration system equipment, piping relocation, electrical, site restoration, and all other incidentals as indicated by the drawings and specifications or as required to properly complete the project as planned. Late proposals will not be accepted, whether by mail or otherwise. Proposals will be returned unopened. It is the responsibility of the Proposer to ensure all pages are included in the submission. ***All Bidders are advised to closely examine the Bid documents*.**

Invitation to Bid documents are available beginning **May 27th, 2021**. The Village of Palm Springs utilizes electronic online services for notification, distribution, and submittal of its Solicitation documents. The Village's Solicitation information can be obtained from: (a) Demandstar website – www.Demandstar.com; (b) by contacting the Village Clerk, Kimberly Wynn, at kwynn@vpsfl.org; (c) or calling the Village Clerk's office at (561) 965-4010.

Proposers may submit their responses electronically via DemandStar. Proposers also have the option to submit one (1) unbound original to the Village Clerk at the time and date specified. Sealed Proposals must be marked **"ITB #2021B-010, MIEX REGENERATION SYSTEM UPGRADE MAIN AND R.L. PRATT WATER TREATMENT PLANTS"**.

Hardcopies of bidding documents may also be obtained from Eckler Engineering, Inc., 4700 Riverside Drive, Suite 110, Coral Springs, Florida, 33067 on Mondays through Fridays between the hours of 8:00 AM to 5:00 P.M. Bidding Documents are available on your preferred media device as a Compact Disc or USB Drive (as portable document format (PDF) files) for a non-refundable charge of $40.00, including shipping via overnight express service. Alternatively, printed Bidding Documents may be obtained from Eckler Engineering, Inc. either via in- person pick-up or via mail, upon receipt of payment for the Bidding Documents. The non-refundable cost of printed Bidding Documents is $250.00 per full size drawing set and specification book or $250.00 per half size drawing set and specification book, payable to Eckler Engineering, Inc.

A virtual **Pre-Bid Conference** will be held for this solicitation on **June 23, 2021 at 2:00 PM.** Attendance at the pre-bid conference ***is not*** mandatory.

The Village of Palm Springs will provide for public participation using Gotowebinar.com, a communication media technology (teleconference) for the non-mandatory Pre-bid conference and Bid Opening.

Non-Mandatory Pre-Bid Conference

Participants can use their telephone or computer mic & speakers (VoIP).
United States: +1 (562) 247-8422 Access #632-639-653
Registration URL
https://attendee.gotowebinar.com/register/4012955072373904652

Bid Opening

Participants can use their telephone or computer mic & speakers (VoIP).
United States +1 (914) 614-3221 Access #622-810-717
Registration URL
https://attendee.gotowebinar.com/register/1373724744455907596

Bid security shall be furnished in accordance with the Instructions to Bidders.

Any questions regarding the specifications and Solicitation process must be submitted in writing to the Village Clerk at kwynn@vpsfl.org, Questions and requests for clarification and additional information must be received prior to the Deadline for Submission of Questions on **July 2nd , 2021** at **5:00 PM** local time.

Pursuant to Section 2-355 of Palm Beach County Ordinance No. 2011-039, and the purchasing policies of the Village of Palm Springs, all Solicitations, once advertised, are under the "Cone of Silence" until the appropriate authority has approved an award recommendation, rejected all responses or some other action by the Village to end the selection process. This limit and requires documentation of communications between potential Bidders and/or Bidders on Village Solicitations, the Village's professional staff, and the Village Council members.

ARTICLE 1 – DEFINED TERMS

1.01 Terms used in these Instructions to Bidders have the meanings indicated in the General Conditions and Supplementary Conditions. Additional terms used in these Instructions to Bidders have the meanings indicated below:

A. *Issuing Office* – The office from which the Bidding Documents are to be issued.

ARTICLE 2 – COPIES OF BIDDING DOCUMENTS

2.01 Complete sets of the Bidding Documents may be obtained from the Issuing Office in the number and format stated in the advertisement or invitation to bid.

2.02 Complete sets of Bidding Documents shall be used in preparing Bids; neither Owner nor Engineer assumes any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.03 Owner and Engineer, in making copies of Bidding Documents available on the above terms, do so only for the purpose of obtaining Bids for the Work and do not authorize or confer a license for any other use.

ARTICLE 3 – QUALIFICATIONS OF BIDDERS

3.01 To demonstrate Bidder's qualifications to perform the Work, Bidder shall submit with its Bid (a) written evidence establishing its qualifications such as financial data, previous experience, present commitments, and other such information as may be called for in Section 00451, and (b) the following additional information:

A. Evidence of Bidder's authority to do business in the State of Florida.

B. State of Florida general contractor license number (provide current copy).

C. [Subcontractor and Supplier qualification information; coordinate with provisions of Article 12 of these Instructions, "Subcontractors, Suppliers, and Others."]

D. Provide a minimum of five (5) similar projects which have been completed within the past ten (10) years per Section 00451 – Qualification Statement, including project description, final project cost, owner's name, address, and phone number. A similar project shall be defined as utility structure improvement of similar size and complexity.

E. Current Certificate of Insurance per the requirements of Section 00520 – Agreement, Article 10.10.

3.02 A Bidder's failure to submit required qualification information within the times indicated may disqualify Bidder from receiving an award of the Contract.

3.03 No requirement in this Article 3 to submit information will prejudice the right of Owner to seek additional pertinent information regarding Bidder's qualifications.

3.04 Bidder is advised to carefully review those portions of the Bid Form requiring Bidder's representations and certifications.

ARTICLE 4 – SITE AND OTHER AREAS; EXISTING SITE CONDITIONS; EXAMINATION OF SITE; OWNER'S SAFETY PROGRAM; OTHER WORK AT THE SITE

4.01 *Site and Other Areas*

A. The Site is identified in the Bidding Documents. By definition, the Site includes rights-of-way, easements, and other lands furnished by Owner for the use of the Contractor. Any additional lands required for temporary construction facilities, construction equipment, or storage of materials and equipment, and any access needed for such additional lands, are to be obtained and paid for by Contractor.

4.02 *Existing Site Conditions*

A. Subsurface and Physical Conditions; Hazardous Environmental Conditions

1. The Supplementary Conditions identify:

a. those reports known to Owner of explorations and tests of subsurface conditions at or adjacent to the Site, if any.

b. those drawings known to Owner of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities), if any.

2. Owner will make copies of reports and drawings referenced above available to any Bidder on request. These reports and drawings are not part of the Contract Documents, but the Technical Data contained therein upon whose accuracy Bidder is entitled to rely, as provided in the General Conditions, has been identified and established in the Supplementary Conditions. Bidder is responsible for any interpretation or conclusion Bidder draws from any Technical Data or any other data, interpretations, opinions, or information contained in such reports or shown or indicated in such drawings.

3. If the Supplementary Conditions do not identify Technical Data, the default definition of Technical Data set forth in Article 1 of the General Conditions will apply.

B. Underground Facilities: Information and data shown or indicated in the Bidding Documents with respect to existing Underground Facilities at or adjacent to the Site are set forth in the Contract Documents and are based upon information and data furnished to Owner and Engineer by owners of such Underground Facilities, including Owner, or others.

Adequacy of Data: Provisions concerning responsibilities for the adequacy of data furnished to prospective Bidders with respect to subsurface conditions, other physical conditions, and Underground Facilities, and possible changes in the Bidding Documents due to differing or unanticipated subsurface or physical conditions appear in Paragraphs 5.03, 5.04, and 5.05 of the General Conditions. Provisions concerning responsibilities for the adequacy of data furnished to prospective Bidders with respect to a Hazardous Environmental Condition at the Site, if any, and possible changes in the Contract Documents due to any Hazardous Environmental Condition uncovered or revealed at the Site which was not shown or indicated in the Drawings or Specifications or identified in the Contract Documents to be within the scope of the Work, appear in Paragraph 5.06 of the General Conditions.

4.03 *Site Visit and Testing by Bidders*

A. On request, the Owner will provide the Bidder access to the Site visit during normal working hours. Bidder shall not disturb any ongoing operations at the Site.

B. On request, and to the extent Owner has control over the Site, and schedule permitting, the Owner will provide Bidder access to the Site to conduct such additional examinations, investigations, explorations, tests, and studies as Bidder deems necessary for preparing and

submitting a successful Bid. Owner will not have any obligation to grant such access if doing so is not practical because of existing operations, security or safety concerns, or restraints on Owner's authority regarding the Site.

C. Bidder shall comply with all applicable Laws and Regulations regarding excavation and location of utilities, obtain all permits, and comply with all terms and conditions established by Owner or by property owners or other entities controlling the Site with respect to schedule, access, existing operations, security, liability insurance, and applicable safety programs.

D. Bidder shall fill all holes and clean up and restore the Site to its former condition upon completion of such explorations, investigations, tests, and studies.

E. Bidder shall not disturb any ongoing operations at the Site.

ARTICLE 5 – BIDDER'S REPRESENTATIONS

5.01 It is the responsibility of each Bidder before submitting a Bid to:

A. examine and carefully study the Bidding Documents, and any data and reference items identified in the Bidding Documents;

B. visit the Site, conduct a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfy itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work;

C. become familiar with and satisfy itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work;

D. carefully study all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings;

E. consider the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and the Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder's safety precautions and programs;

F. agree, based on the information and observations referred to in the preceding paragraph, that at the time of submitting its Bid no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of its Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents;

G. become aware of the general nature of the work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents;

H. promptly give Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder discovers in the Bidding Documents and confirm that the written resolution thereof by Engineer is acceptable to Bidder;

I. determine that the Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work; and

J. agree that the submission of a Bid will constitute an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.

ARTICLE 6 – PRE-BID CONFERENCE

6.01 A pre-Bid conference will be held at the time and location stated in the Invitation or Advertisement to Bid (Section 00111). Representatives of Owner and Engineer will be present to discuss the Project. Bidders are encouraged to attend and participate in the conference. Owner will transmit to all prospective Bidders of record such Addenda as Owner and Engineer considers necessary in response to questions arising at the conference. Oral statements may not be relied upon and will not be binding or legally effective.

ARTICLE 7 – INTERPRETATIONS AND ADDENDA

7.01 All questions about the meaning or intent of the Bidding Documents are to be submitted to Owner in writing to the email address stated in the invitation or advertisement to bid. Interpretations or clarifications considered necessary by Owner or Engineer in response to such questions will be issued by Addenda delivered to all parties recorded as having received the Bidding Documents. Questions received less than seven days prior to the date for opening of Bids may not be answered. Only questions answered by Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

7.02 Addenda may be issued to clarify, correct, supplement, or change the Bidding Documents.

ARTICLE 8 – BID SECURITY

8.01 A Bid must be accompanied by Bid security made payable to Owner in an amount of 5 percent of Bidder's maximum Bid price (determined by adding the base bid and all alternates) and in the form of a certified check, bank money order, or a Bid bond (on the form included in the Bidding Documents) issued by a surety meeting the requirements of Paragraphs 6.01 and 6.02 of the General Conditions.

8.02 The Bid security of the apparent Successful Bidder will be retained until Owner awards the contract to such Bidder, and such Bidder has executed the Contract Documents, furnished the required contract security, and met the other conditions of the Notice of Award, whereupon the Bid security will be released. If the Successful Bidder fails to execute and deliver the Contract Documents and furnish the required contract security within 15 days after the Notice of Award, Owner may consider Bidder to be in default, annul the Notice of Award, and the Bid security of that Bidder will be forfeited. Such forfeiture shall be Owner's exclusive remedy if Bidder defaults.

8.03 The Bid security of other Bidders that Owner believes to have a reasonable chance of receiving the award may be retained by Owner until the earlier of seven days after the Effective Date of the Contract or 121 days after the Bid opening, whereupon Bid security furnished by such Bidders will be released.

8.04 Bid security of other Bidders that Owner believes do not have a reasonable chance of receiving the award will be released within seven days after the Bid opening.

ARTICLE 9 – CONTRACT TIMES

9.01 The number of days within which, or the dates by which, the Work is to be substantially completed, and completed and ready for final payment, are set forth in the Agreement.

ARTICLE 10 – LIQUIDATED DAMAGES

10.01 Provisions for liquidated damages, if any, for failure to timely attain a Milestone, Substantial Completion, or completion of the Work in readiness for final payment, are set forth in the Agreement.

ARTICLE 11 – SUBSTITUTE AND "OR-EQUAL" ITEMS

11.01 Not Used.

11.02 All prices that Bidder sets forth in its Bid shall be based on the presumption that the Contractor will furnish the materials and equipment specified or described in the Bidding Documents, as supplemented by Addenda. Any assumptions regarding the possibility of post-Bid approvals of "or-equal" or substitution requests are made at Bidder's sole risk.

ARTICLE 12 – SUBCONTRACTORS, SUPPLIERS, AND OTHERS

12.01 A Bidder shall be prepared to retain specific Subcontractors, Suppliers, or other individuals or entities for the performance of the Work if required by the Bidding Documents (most commonly in the Specifications) to do so. If a prospective Bidder objects to retaining any such Subcontractor, Supplier, or other individual or entity, and the concern is not relieved by an Addendum, then the prospective Bidder should refrain from submitting a Bid.

12.02 Subsequent to the submittal of the Bid, Owner may not require the Successful Bidder or Contractor to retain any Subcontractor, Supplier, or other individual or entity against which Contractor has reasonable objection.

12.03 Unless otherwise required to be submitted with the Bid, the apparent Successful Bidder, and any other Bidder so requested, shall within five days after Bid opening, submit to Owner a list of the Subcontractors or Suppliers for which such identification is required

Such list shall be accompanied by an experience statement with pertinent information regarding similar projects and other evidence of qualification for each such Subcontractor, Supplier, or other individual or entity. If Owner or Engineer, after due investigation, has reasonable objection to any proposed Subcontractor, Supplier, individual, or entity, Owner may, before the Notice of Award is given, request apparent Successful Bidder to submit an acceptable substitute, in which case apparent Successful Bidder shall submit a substitute, Bidder's Bid price will be increased (or decreased) by the difference in cost occasioned by such substitution, and Owner may consider such price adjustment in evaluating Bids and making the Contract award.

12.04 If apparent Successful Bidder declines to make any such substitution, Owner may award the Contract to the next lowest Bidder that proposes to use acceptable Subcontractors, Suppliers, or other individuals or entities. Declining to make requested substitutions will constitute grounds for forfeiture of the Bid security of any Bidder. Any Subcontractor, Supplier, individual, or entity so listed and against which Owner or Engineer makes no written objection prior to the giving of the Notice of Award will be deemed acceptable to Owner and Engineer subject to subsequent revocation of such acceptance as provided in Paragraph 7.06 of the General Conditions.

ARTICLE 13 – PREPARATION OF BID

13.01 The Bid Form is included with the Bidding Documents.

A. All blanks on the Bid Form shall be completed in ink and the Bid Form signed in ink. Erasures or alterations shall be initialed in ink by the person signing the Bid Form. A Bid price shall be indicated for each section, Bid item, alternate, adjustment unit price item, and unit price item listed therein.

B. If the Bid Form expressly indicates that submitting pricing on a specific alternate item is optional, and Bidder elects to not furnish pricing for such optional alternate item, then Bidder may enter the words "No Bid" or "Not Applicable."

13.02 A Bid by a corporation shall be executed in the corporate name by a corporate officer (whose title must appear under the signature), accompanied by evidence of authority to sign. The corporate address and state of incorporation shall be shown.

13.03 A Bid by a partnership shall be executed in the partnership name and signed by a partner (whose title must appear under the signature), accompanied by evidence of authority to sign. The partnership's address for receiving notices shall be shown.

13.04 A Bid by a limited liability company shall be executed in the name of the firm by a member or other authorized person and accompanied by evidence of authority to sign. The state of formation of the firm and the firm's address for receiving notices shall be shown.

13.05 A Bid by an individual shall show the Bidder's name and address for receiving notices.

13.06 A Bid by a joint venture shall be executed by an authorized representative of each joint venturer in the manner indicated on the Bid Form. The joint venture's address for receiving notices shall be shown.

13.07 All names shall be printed in ink below the signatures.

13.08 The Bid shall contain an acknowledgment of receipt of all Addenda, the numbers of which shall be filled in on the Bid Form.

13.09 Postal and e-mail addresses and telephone number for communications regarding the Bid shall be shown.

13.10 The Bid shall contain evidence of Bidder's authority and qualification to do business in the state where the Project is located, or Bidder shall covenant in writing to obtain such authority and qualification prior to award of the Contract and attach such covenant to the Bid. Bidder's state contractor license number, if any, shall also be shown on the Bid Form.

ARTICLE 14 – BASIS OF BID

14.01 *Lump Sum*

A. Bidders shall submit a Bid on a lump sum basis as set forth in the Bid Form.

14.02 *Unit Price*

A. Bidders shall submit a Bid on a unit price basis for each item of Work listed in the unit price section of the Bid Form.

B. The "Bid Price" (sometimes referred to as the extended price) for each unit price Bid item will be the product of the "Estimated Quantity" (which Owner or its representative has set forth in the Bid Form) for the item and the corresponding "Bid Unit Price" offered by the Bidder. The total of all unit price Bid items will be the sum of these "Bid Prices"; such total

will be used by Owner for Bid comparison purposes. The final quantities and Contract Price will be determined in accordance with Paragraph 13.03 of the General Conditions.

C. Discrepancies between the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

14.03 *Allowances*

A. For cash allowances the Bid price shall include such amounts as the Bidder deems proper for Contractor's overhead, costs, profit, and other expenses on account of cash allowances, if any, named in the Contract Documents, in accordance with Paragraph 13.02.B of the General Conditions.

ARTICLE 15 – SUBMITTAL OF BID

15.01 With each copy of the Bidding Documents, a Bidder is furnished one separate unbound copy of the Bid Form, and, if required, the Bid Bond Form. The unbound copy of the Bid Form is to be completed and submitted with the Bid security and the other documents required to be submitted under the terms of Article 7 of the Bid Form.

15.02 A Bid shall be received no later than the date and time prescribed and at the place indicated in the advertisement or invitation to bid and shall be enclosed in a plainly marked package with the Project title (and, if applicable, the designated portion of the Project for which the Bid is submitted), the name and address of Bidder, and shall be accompanied by the Bid security and other required documents. If a Bid is sent by mail or other delivery system, the sealed envelope containing the Bid shall be enclosed in a separate package plainly marked on the outside with the notation "BID ENCLOSED." A mailed Bid shall be addressed to 226 Cypress Lane, Palm Springs, FL 33461.

15.03 Bids received after the date and time prescribed for the opening of bids, or not submitted at the correct location or in the designated manner, will not be accepted and will be returned to the Bidder unopened.

15.04 The following documents shall be submitted with and made a part of the Bid:

Section 00400 Bid Submission Checklist
Section 00410 Bid Form
Section 00430 Bid Bond
Section 00431 Tabulation of Subcontractor and Suppliers
Section 00440 Florida Trench Safety Act Certification
Section 00451 Qualifications Statement
Section 00452 Bidder's Statement of Disputes, Litigation, Arbitration, and Surety Completion
Section 00453 Noncollusion Affidavit
Section 00454 Drug-Free Workplace Certificate
Section 00455 Sworn Statement on Public Entity Crimes
Section 00456 Scrutinized Companies Certification Form
Certificate of Insurance

ARTICLE 16 – MODIFICATION AND WITHDRAWAL OF BID

16.01 A Bid may be withdrawn by an appropriate document duly executed in the same manner that a Bid must be executed and delivered to the place where Bids are to be submitted prior to the date and time for the opening of Bids. Upon receipt of such notice, the unopened Bid will be returned to the Bidder.

16.02 If a Bidder wishes to modify its Bid prior to Bid opening, Bidder must withdraw its initial Bid in the manner specified in Paragraph 16.01 and submit a new Bid prior to the date and time for the opening of Bids.

16.03 If within 24 hours after Bids are opened any Bidder files a duly signed written notice with Owner and promptly thereafter demonstrates to the reasonable satisfaction of Owner that there was a material and substantial mistake in the preparation of its Bid, that Bidder may withdraw its Bid, and the Bid security will be returned. Thereafter, if the Work is rebid, that Bidder will be disqualified from further bidding on the Work.

ARTICLE 17 – OPENING OF BIDS

17.01 Bids will be opened at the time and place indicated in the Advertisement or Invitation to Bid (Section 00111) and, unless obviously non-responsive, read aloud publicly. An abstract of the amounts of the base Bids and major alternates, if any, will be made available to Bidders after the opening of Bids.

ARTICLE 18 – BIDS TO REMAIN SUBJECT TO ACCEPTANCE

18.01 All Bids will remain subject to acceptance for the period of time stated in the Bid Form, but Owner may, in its sole discretion, release any Bid and return the Bid security prior to the end of this period.

ARTICLE 19 – EVALUATION OF BIDS AND AWARD OF CONTRACT

19.01 Owner reserves the right to reject any or all Bids, including without limitation, nonconforming, nonresponsive, unbalanced, or conditional Bids. Owner will reject the Bid of any Bidder that Owner finds, after reasonable inquiry and evaluation, to not be responsible. If Bidder purports to add terms or conditions to its Bid, takes exception to any provision of the Bidding Documents, or attempts to alter the contents of the Contract Documents for purposes of the Bid, then the Owner will reject the Bid as nonresponsive; provided that Owner also reserves the right to waive all minor informalities not involving price, time, or changes in the Work.

19.02 If Owner awards the contract for the Work, such award shall be to the responsible Bidder submitting the lowest responsive Bid.

19.03 Evaluation of Bids

A. In evaluating Bids, Owner will consider whether or not the Bids comply with the prescribed requirements, and such alternates, unit prices, and other data, as may be requested in the Bid Form or prior to the Notice of Award.

19.04 In evaluating whether a Bidder is responsible, Owner will consider the qualifications of the Bidder and may consider the qualifications and experience of Subcontractors and Suppliers proposed for those portions of the Work for which the identity of Subcontractors and Suppliers must be submitted as provided in the Bidding Documents.

19.05 Owner may conduct such investigations as Owner deems necessary to establish the responsibility, qualifications, and financial ability of Bidders and any proposed Subcontractors or Suppliers.

ARTICLE 20 – BONDS AND INSURANCE

20.01 Article 6 of the General Conditions, as may be modified by the Supplementary Conditions, sets forth Owner's requirements as to performance and payment bonds and insurance. When the

Successful Bidder delivers the Agreement (executed by Successful Bidder) to Owner, it shall be accompanied by required bonds and insurance documentation.

ARTICLE 21 – SIGNING OF AGREEMENT

21.01 When Owner issues a Notice of Award to the Successful Bidder, it shall be accompanied by the unexecuted counterparts of the Agreement along with the other Contract Documents as identified in the Agreement. Within 15 days thereafter, Successful Bidder shall execute and deliver the required number of counterparts of the Agreement (and any bonds and insurance documentation required to be delivered by the Contract Documents) to Owner. Within ten days thereafter, Owner shall deliver one fully executed counterpart of the Agreement to Successful Bidder, together with printed and electronic copies of the Contract Documents as stated in Paragraph 2.02 of the General Conditions.

ARTICLE 22 – SALES AND USE TAXES

22.01 CONTRACTOR is responsible for all sales and use taxes applicable to this project.

SECTION 00400

BID SUBMISSION CHECKLIST

Project Name: MIEX REGENERATION SYSTEM UPGRADE – MAIN AND R. L. PRATT WATER TREATMENT PLANTS

Bid Number: 2021-010B

Bidder's Name: _____

The following items must be submitted in the following order with your bid:

1. ☐ Completed Section 00400 - Bid Submission Checklist.
2. ☐ Completed Section 00410 - Bid Form.
3. ☐ Completed Section 00430 - Bid Bond, complete with Power of Attorney.
4. ☐ Completed Section 00431 – Tabulation of Subcontractors and Suppliers.
5. ☐ Completed Section 00440 – Florida Trench Safety Act Certification.
6. ☐ Completed Section 00451 –Qualifications Statement.
7. ☐ Completed Section 00452 – Bidder's Statement of Disputes, Litigation, Arbitration, and Surety Completion – Last Three (3) Years
8. ☐ Completed Section 00453 - Non-Collusive Affidavit.
9. ☐ Completed Section 00454 - Drug-Free Workplace.
10. ☐ Completed Section 00455 - Public Entity Crimes.
11. ☐ Completed Section 00456 - Scrutinized Companies Certification Form.
12. ☐ Provide requested bidder qualification information per Section 00200 - Instructions to Bidders, Articles 3.1, 3.2, 3.3, and 3.4.
13. ☐ Current insurance certificate showing that bidder can meet the insurance requirements per Specification Section 00520 – Agreement, Article 10.10.
14. ☐ Signed copy of all Addenda.

Submit one (1) original and two (2) copies of all documents listed above. Original shall be clearly marked Original.

Failure to provide the above listed items may result in your bid being deemed non-responsive.

END OF SECTION

SECTION 00410

BID FORM

ARTICLE 1 – BID RECIPIENT

1.01 This Bid is submitted to:

Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

ARTICLE 2 – BIDDER'S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 120 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner.

ARTICLE 3 – BIDDER'S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

Addendum No.	**Addendum Date**
_____	_____
_____	_____
_____	_____
_____	_____

B. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Not used.

E. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and

performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder's safety precautions and programs.

F. Bidder agrees, based on the information and observations referred to in the preceding paragraph, that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.

G. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.

H. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents, and confirms that the written resolution thereof by Engineer is acceptable to Bidder.

I. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work.

J. The submission of this Bid constitutes an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, and that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.

ARTICLE 4 – BIDDER'S CERTIFICATION

4.01 Bidder certifies that:

A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;

B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;

C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and

D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and

4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the e execution of the Contract.

ARTICLE 5 – BASIS OF BID

5.01 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

1. MIEX Regeneration System Upgrade – Main WTP (Bid Package "A")	
1A. Lump Sum Bid Price	$
1B. Lump Sum Contingency Allowance	$ 50,000.00
Sub-Total	$

1. MIEX Regeneration System Upgrade – R. L. Pratt WTP (Bid Package "B")	
1A. Lump Sum Bid Price	$
1B. Lump Sum Contingency Allowance	$ 50,000.00
Sub-Total	$

Total of Lump Sum Price $ _____

_____

(written)

ARTICLE 6 – TIME OF COMPLETION

6.01 Bidder agrees that the Work will be substantially complete within 335 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 365 calendar days after the date when the Contract Times commence to run.

6.02 Bidder accepts the provisions of the Agreement as to liquidated damages.

ARTICLE 7 – ATTACHMENTS TO THIS BID

7.01 The following documents are submitted with and made a condition of this Bid:

A. Required Bid security;

B. List of Proposed Subcontractors;

C. List of Proposed Suppliers;

D. List of Project References;

E. Evidence of authority to do business in the state of the Project;

F. Contractor's License Number;

G. Required Bidder Qualification Statement with supporting data; and

H. Documentation per Section 00200 – Instructions to bidders, page 8, Article 15.04.

ARTICLE 8 – DEFINED TERMS

8.01 The terms used in this Bid with initial capital letters have the meanings stated in the Instructions to Bidders, the General Conditions, and the Supplementary Conditions.

Title	Title

Note: Addresses are to be used for giving any required notice.
Provide execution by any additional parties, such as joint venturers, if necessary.

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond shall be Owner's sole and exclusive remedy upon default of Bidder.

2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.

3. This obligation shall be null and void if:

3.1 Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or

3.2 All Bids are rejected by Owner, or

3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).

4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.

5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.

6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after the Bid due date.

7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.

8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.

9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.

10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.

11. The term “Bid” as used herein includes a Bid, offer, or proposal as applicable.

SECTION 00431
TABULATION OF SUBCONTRACTORS AND SUPPLIERS

The Undersigned states that the following is a full and complete list of the proposed subcontractors and suppliers on this Project and the class of work to be performed by each and that such list will not be added to nor altered without written consent of the Owner through the Engineer.

SECTION 00454
DRUG-FREE WORKPLACE CERTIFICATE

I, the undersigned, in accordance with Florida Statute 287.087, hereby certify that _____
_____(Print or Type Name of Firm)

- Publishes a written statement notifying that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace named above, and specifying actions that will be taken against violations of such prohibition.

- Informs employees about the dangers of drug abuse in the workplace; the firm's policy of maintaining a drug-free working environment and available drug counseling, rehabilitation, and employee assistance programs; and the penalties that may be imposed upon employees for drug-use violations.

- Gives each employee engaged in providing commodities or contractual services that are under bid or proposal a copy of the statement specified above.

- Notifies the employees that as a condition of working on the commodities or contractual services under bid or proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of or plea of guilty or nolo contendere to any violation of Chapter 1893 or any controlled substance law of the State of Florida or the United States for a violation occurring in the workplace, no later than 5 days after such conviction, and requires employees to sign copies of such written statement to acknowledge their receipt.

- Imposes a sanction on or requires the satisfactory participation in a drug-abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.

- Makes a good faith effort to continue to maintain a drug-free workplace through the implementation of the drug-free workplace program.

"As a person authorized to sign this statement, I certify that the business, firm, or corporation named above complies fully with the requirements set forth herein."

SECTION 00455
SWORN STATEMENT UNDER SECTION 287.133(3)(a),
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES

(To be signed in the presence of a notary public or other officer authorized to administer oaths.)

STATE OF _____

COUNTY OF _____

Before me, the undersigned authority, personally appeared _____, who, being by me first duly sworn, made the following statement:

1. The business address of _____
(firm name of Bidder/Contractor)

is _____.

2. My relationship to _____
(firm name of Bidder/Contractor)

is _____.
(relationship such as sole proprietor, partner, president, vice president)

3. I understand that a "public entity crime" as defined in Section 287.133 of the Florida Statutes includes a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity in Florida or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or such an agency or political subdivision and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

4. I understand that "convicted" or "conviction" is defined by the statute to mean a finding of guilt or a conviction of a public entity crime, with or without adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

5. I understand that "affiliate" is defined by the statute to mean (1) a predecessor or successor of a person or a corporation convicted of a public entity crime; or (2) an entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime; or (3) those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate; or (4) a person or corporation who knowingly entered into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months.

6. Neither the Bidder/Contractor nor any officer, director, executive, partner, shareholder, employee, member or agent who is active in the management of the Bidder/Contractor, nor any affiliate of the Bidder/Contractor, has been convicted of public entity crime subsequent to July 1, 1989.

(Draw a line through Paragraph 6 if Paragraph 7 below applies.)

7. There has been a conviction of a public entity crime by the Bidder/Contractor, or an officer, director, executive, partner, shareholder, employee, member or agent of the Bidder/Contractor who is active in the management of the Bidder/Contractor or an affiliate of the Bidder/Contractor. A determination has been made pursuant to Section 287.133(3) by order of the Division of Administrative Hearings that it is not in the public interest for the name of the convicted person or affiliate to appear on the convicted vendor list. The name of the convicted person or affiliate is_____.

A copy of the order of the Division of Administrative Hearings is attached to this statement.

(Draw a line through Paragraph 7 if Paragraph 6 above applies.)

SECTION 00456
SCRUTINIZED COMPANIES CERTIFICATION FORM

By execution below, I, _____, on behalf of _____ (hereinafter, the "Contractor"), hereby swear or affirm to the following certifications:

The following certifications apply to all procurements:

1. The Contractor has reviewed section 215.4725, Florida Statutes, section 215.473, Florida Statutes and section 287.135, Florida Statutes, and understands the same.
2. The Contractor is not on the Scrutinized Companies that Boycott Israel List nor is the Contractor engaged in a boycott of Israel.
3. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
4. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

If the contract awarded hereunder is for one million dollars or more, the following additional certifications apply:

1. The Contractor is not on the Scrutinized Companies with Activities in Sudan List.
2. The Contractor is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.
3. The Contractor is not engaged in business operations in Cuba or Syria.
5. If awarded a contract, the Contractor agrees to require these certifications for applicable subcontracts entered into for the performance of work/services under this procurement.
6. If awarded a contract, the Contractor agrees that the certifications in this section shall be effective and relied upon by the City for the entire term of the contract, including any and all renewals.

PART 2

CONTRACT FORMS

NOTICE OF AWARD

Date of Issuance:

Owner: Village of Palm Springs

Owner's Task Order Nos.: 238 and 268

Engineer: Eckler Engineering, Inc.

Engineer's Project No.: 400-086.01

Project: MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants

Contract Name: MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants

Bidder:

Bidder's Address:

TO BIDDER:

You are notified that Owner has accepted your Bid dated [_____] for the above Contract, and that you are the Successful Bidder and are awarded a Contract for:

_____ .

[describe Work, alternates, or sections of Work awarded]

The Contract Price of the awarded Contract is: $_____ *[note if subject to unit prices, or cost-plus]*

[ ] unexecuted counterparts of the Agreement accompany this Notice of Award, and one copy of the Contract Documents accompanies this Notice of Award, or has been transmitted or made available to Bidder electronically. *[revise if multiple copies accompany the Notice of Award]*

☐ a set of the Drawings will be delivered separately from the other Contract Documents.

You must comply with the following conditions precedent within 15 days of the date of this Notice of Award:

1. Deliver to Owner [____]counterparts of the Agreement, fully executed by Bidder.
2. Deliver with the executed Agreement(s) the Contract security *[e.g., performance and payment bonds]* and insurance documentation as specified in the Instructions to Bidders and General Conditions, Articles 2 and 6.
3. Other conditions precedent (if any):

Failure to comply with these conditions within the time specified will entitle Owner to consider you in default, annul this Notice of Award, and declare your Bid security forfeited.

Within ten days after you comply with the above conditions, Owner will return to you one fully executed counterpart of the Agreement, together with any additional copies of the Contract Documents as indicated in Paragraph 2.02 of the General Conditions.

AGREEMENT

BETWEEN OWNER AND CONTRACTOR
FOR CONSTRUCTION CONTRACT (STIPULATED PRICE)

THIS AGREEMENT is by and between Village of Palm Springs ("Owner") and

("Contractor").

Owner and Contractor hereby agree as follows:

ARTICLE 1 – WORK

1.01 Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows: The Project consists of furnishing all labor, equipment and material for the MIEX Regeneration System Upgrades as described by the Drawings and Specifications. Generally, the work includes demolition, construction of new MIEX Regeneration System process equipment at two water treatment facilities, piping modifications, structural improvements, electrical, site restoration and all other incidentals as indicated by the drawings and specifications or as required to properly complete the project as planned.

1.02 ***NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS CONTRACT, OR ANY OF THE SUPPLEMENTAL DOCUMENTS, INCLUDING THE BID FORM, THE SPECIFICATIONS OR OTHER CONTRACT DOCUMENTS, THE VILLAGE OF PALM SPRINGS (OWNER) RESERVES THE RIGHT TO PURCHASE ANY AND ALL EQUIPMENT, MATERIALS OR SUPPLIES, WHERE TO DO SO WILL LAWFULLY AVOID THE PAYMENT OR OBLIGATION FOR PAYMENT, OF FLORIDA SALES AND USE TAX. CONTRACTOR AGREES TO COOPERATE WITH THE OWNER IN SPECIFYING AND WORKING WITH ANY THIRD PARTY EQUIPMENT VENDORS OR SUPPLIERS SELECTED BY THE CONTRACTOR AND/OR THE OWNER, AND APPROVED BY THE OWNER, FOR THE PURCHASE OF END ITEMS AND COMPONENTS OF END ITEMS. CONTRACTOR WILL ADVISE THE OWNER OF ANY AND ALL OPPORTUNITIES TO DIRECT PURCHASE END ITEMS AND COMPONENTS OF END ITEMS, GIVING THE OWNER A REASONABLE TIME PERIOD WITHIN WHICH TO ACCOMPLISH THE PURCHASE OF SUCH ITEMS, AND MEET THE TIME SCHEDULES AND CONTRACT TIMES ALLOWED HEREIN. IN THE EVENT THAT OWNER SHALL DECIDE NOT TO MAKE ONE OR MORE SUCH PURCHASES, WITHIN THE TIME FRAME OF THE WORK, THE CONTRACTOR SHALL MAKE THE PURCHASES AND SHALL PAY ALL REQUIRED TAXES. ANY WAIVER OF THIS PROVISION ON THE PART OF THE OWNER, SHALL NOT CONSTITUTE AN ONGOING WAIVER, AND THE CONTRACTOR SHALL NONETHELESS BE OBLIGATED TO NOTIFY THE OWNER OF ANY AND ALL REMAINING OPPORTUNITIES TO MAKE DIRECT PURCHASES.***

ARTICLE 2 – THE PROJECT

2.01 The Project, of which the Work under the Contract Documents is a part, is generally described as follows: **MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants.**

ARTICLE 3 – ENGINEER

3.01 The part of the Project that pertains to the Work has been designed by Eckler Engineering, Inc.

3.02 The Owner has retained Eckler Engineering, Inc. ("Engineer") to act as Owner's representative, assume all duties and responsibilities, and have the rights and authority assigned to Engineer in

the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.

ARTICLE 4 – CONTRACT TIMES

4.01 *Time of the Essence*

A. All time limits for Milestones, if any, Substantial Completion, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract.

4.02 *Contract Times: Days*

A. The Work will be substantially completed within 335 days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions, and completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 365 days after the date when the Contract Times commence to run.

4.03 *Liquidated Damages*

A. Contractor and Owner recognize that time is of the essence as stated in Paragraph 4.01 above and that Owner will suffer financial and other losses if the Work is not completed and Milestones not achieved within the times specified in Paragraph 4.02 above, plus any extensions thereof allowed in accordance with the Contract. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty):

1. Substantial Completion: Contractor shall pay Owner $500.00 for each day that expires after the time (as duly adjusted pursuant to the Contract) specified in Paragraph 4.02.A above for Substantial Completion until the Work is substantially complete.

2. Completion of Remaining Work: After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Times (as duly adjusted pursuant to the Contract) for completion and readiness for final payment, Contractor shall pay Owner $500.00 for each day that expires after such time until the Work is completed and ready for final payment.

3. Liquidated damages for failing to timely attain Substantial Completion and final completion are not additive and will not be imposed concurrently.

4.04 *Special Damages*

A. In addition to the amount provided for liquidated damages, Contractor shall reimburse Owner (1) for any fines or penalties imposed on Owner as a direct result of the Contractor's failure to attain Substantial Completion according to the Contract Times.

ARTICLE 5 – CONTRACT PRICE

5.01 Owner shall pay Contractor for completion of the Work in accordance with the Contract Documents the amounts that follow, subject to adjustment under the Contract:

A. For all Work other than Unit Price Work, a lump sum of: $_____.

All specific cash allowances are included in the above price in accordance with Paragraph 13.02 of the General Conditions.

B. For all Unit Price Work, an amount equal to the sum of the extended prices (established for each separately identified item of Unit Price Work by multiplying the unit price times the actual quantity of that item):

Unit Price Work					
Item No.	**Description**	**Unit**	**Estimated Quantity**	**Unit Price**	**Extended Price**
	Not Applicable				
Total of all Extended Prices for Unit Price Work (subject to final adjustment based on actual quantities)					$ N/A

The extended prices for Unit Price Work set forth as of the Effective Date of the Contract are based on estimated quantities. As provided in Paragraph 13.03 of the General Conditions, estimated quantities are not guaranteed, and determinations of actual quantities and classifications are to be made by Engineer.

C. Total of Lump Sum Amount and Unit Price Work (subject to final Unit Price adjustment) $_____.

D. For all Work, at the prices stated in Contractor's Bid, attached hereto as an exhibit.

ARTICLE 6 – PAYMENT PROCEDURES

6.01 *Submittal and Processing of Payments*

A. Contractor shall submit Applications for Payment in accordance with Article 15 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 *Progress Payments; Retainage*

A. Owner shall make progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment on or about the 20th day of each month during performance of the Work as provided in Paragraph 6.02.A.1 below, provided that such Applications for Payment have been submitted in a timely manner and otherwise meet the requirements of the Contract. All such payments will be measured by the Schedule of Values established as provided in the General Conditions (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no Schedule of Values, as provided elsewhere in the Contract.

1. Prior to Substantial Completion, progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Owner may withhold, including but not limited to liquidated damages, in accordance with the Contract

a. 90 percent of Work completed (with the balance being retainage). If the Work has been 50 percent completed as determined by Engineer, and if the character and

progress of the Work have been satisfactory to Owner and Engineer, then as long as the character and progress of the Work remain satisfactory to Owner and Engineer, the retainage will be reduced in accordance with Florida Statute 218.735; and

b. 90 percent of cost of materials and equipment not incorporated in the Work (with the balance being retainage).

B. Upon Substantial Completion, Owner shall pay an amount sufficient to increase total payments to Contractor to 100 percent of the Work completed, less such amounts set off by Owner pursuant to Paragraph 15.01.E of the General Conditions, and less 200 percent of Engineer's estimate of the value of Work to be completed or corrected as shown on the punch list of items to be completed or corrected prior to final payment.

6.03 *Final Payment*

A. Upon final completion and acceptance of the Work in accordance with Paragraph 15.06 of the General Conditions, Owner shall pay the remainder of the Contract Price as recommended by Engineer as provided in said Paragraph 15.06.

ARTICLE 7 – INTEREST

7.01 All amounts not paid when due shall bear interest at the rate of 0 percent per annum.

ARTICLE 8 – CONTRACTOR'S REPRESENTATIONS

8.01 In order to induce Owner to enter into this Contract, Contractor makes the following representations:

A. Contractor has examined and carefully studied the Contract Documents, and any data and reference items identified in the Contract Documents.

B. Contractor has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

C. Contractor is familiar with and is satisfied as to all Laws and Regulations that may affect cost, progress, and performance of the Work.

D. Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.

E. Contractor has considered the information known to Contractor itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; and the Site-related reports and drawings identified in the Contract Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor; and (3) Contractor's safety precautions and programs.

F. Based on the information and observations referred to in the preceding paragraph, Contractor agrees that no further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract.

G. Contractor is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.

H. Contractor has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Contractor has discovered in the Contract Documents, and the written resolution thereof by Engineer is acceptable to Contractor.

I. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

J. Contractor's entry into this Contract constitutes an incontrovertible representation by Contractor that without exception all prices in the Agreement are premised upon performing and furnishing the Work required by the Contract Documents.

ARTICLE 9 – CONTRACT DOCUMENTS

9.01 *Contents*

A. The Contract Documents consist of the following:

1. This Agreement (pages 1 to 11, inclusive).
2. Performance bond (pages 1 to 3, inclusive).
3. Payment bond (pages 1 to 3, inclusive).
4. Other bonds.
   a. ___ (pages ___ to ___, inclusive).
   b. ___ (pages ___ to ___, inclusive).
   c. ___ (pages ___ to ___, inclusive).
5. General Conditions (pages 1 to 65, inclusive).
6. Supplementary Conditions (pages 1 to 10, inclusive).
7. Specifications as listed in the table of contents of the Project Manual dated July 31, 2020.
8. Drawings (not attached but incorporated by reference) consisting of 72 sheets with each sheet bearing the following general title: MIEX Regeneration System Upgrade Main WTP (Bid Package "A"), dated July 31, 2020.

   Drawings (not attached but incorporated by reference) consisting of 72 sheets with each sheet bearing the following general title: MIEX Regeneration System Upgrade R. L. Pratt WTP (Bid Package "B"), dated July 31, 2020.
9. Addenda (numbers ___ to ___, inclusive).
10. Exhibits to this Agreement (enumerated as follows):
    a. Contractor's Bid (pages ___ to ___, inclusive).
11. The following which may be delivered or issued on or after the Effective Date of the Contract and are not attached hereto:

a. Notice to Proceed.

b. Work Change Directives.

c. Change Orders.

d. Field Orders.

B. The documents listed in Paragraph 9.01.A are attached to this Agreement (except as expressly noted otherwise above).

C. There are no Contract Documents other than those listed above in this Article 9.

D. The Contract Documents may only be amended, modified, or supplemented as provided in the General Conditions.

ARTICLE 10 – MISCELLANEOUS

10.01 *Terms*

A. Terms used in this Agreement will have the meanings stated in the General Conditions and the Supplementary Conditions.

10.02 *Assignment of Contract*

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

10.03 *Successors and Assigns*

A. Owner and Contractor each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

10.04 *Severability*

A. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

10.05 *Contractor's Certifications*

A. Contractor certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 10.05:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process or in the Contract execution;

2. “fraudulent practice” means an intentional misrepresentation of facts made (a) to influence the bidding process or the execution of the Contract to the detriment of Owner, (b) to establish Bid or Contract prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. “collusive practice” means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish Bid prices at artificial, non-competitive levels; and

4. “coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

10.06 *Indemnity*

A. The parties recognize that the CONTRACTOR is an independent contractor. The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the VILLAGE, its council members, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney’s fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, Contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Contract. The CONTRACTOR’s liability hereunder shall include all attorney’s fees and costs incurred by the VILLAGE in the enforcement of this indemnification provision. This includes claims made by the employees of the CONTRACTOR against the VILLAGE and the CONTRACTOR hereby waives its entitlement, if any, to immunity under Section 440.11, Florida Statutes. The obligations contained in this provision shall survive termination of this Contract and shall not be limited by the amount of any insurance required to be obtained or maintained under this Contract.

B. Subject to the limitations set forth in this Section, CONTRACTOR shall assume control of the defense of any claim asserted by a third party against the VILLAGE and, in connection with such defense, shall appoint lead counsel, in each case at the CONTRACTOR’s expense. The VILLAGE shall have the right, at its option, to participate in the defense of any third party claim, without relieving CONTRACTOR of any of its obligations hereunder. If the CONTRACTOR assumes control of the defense of any third party claim in accordance with this paragraph, the CONTRACTOR shall obtain the prior written consent of the VILLAGE before entering into any settlement of such claim. Notwithstanding anything to the contrary in this Section, the CONTRACTOR shall not assume or maintain control of the defense of any third party claim, but shall pay the fees of counsel retained by the VILLAGE and all expenses, including experts’ fees, if (i) an adverse determination with respect to the third party claim would, in the good faith judgment of the VILLAGE, be detrimental in any material respect to the VILLAGE’s reputation; (ii) the third party claim seeks an injunction or equitable relief against the VILLAGE; or (iii) the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim. Each party shall cooperate, and cause its agents to cooperate, in the defense or prosecution of any third party claim and shall furnish or cause to be furnished such records and information, and attend such conferences, discovery proceedings, hearings, trials, or appeals, as may be reasonably requested in connection therewith.

C. It is the specific intent of the parties hereto that the foregoing indemnification complies with Section 725.06, Florida Statutes, as amended. CONTRACTOR expressly agrees that it

will not claim, and waives any claim, that this indemnification violates Section 725.06, Florida Statues. Nothing contained in the foregoing indemnification shall be construed as a waiver of any immunity or limitation of liability the VILLAGE may have under the doctrine of sovereign immunity or Section 768.28, Florida Statutes.

10.07 *Governing Law and Remedies*

A. The validity of this Agreement and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue for any and all disputes related to or arising from this Agreement shall be in Palm Beach County, Florida.

B. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

10.08 *Office of the Inspector General*

A. Palm Beach County has established the Office of the Inspector General, which is authorized and empowered to review past, present, and proposed County programs, contracts, transactions, accounts and records. The Inspector General (IG) has the power to subpoena witnesses, administer oaths, require the production of records, and monitor existing projects and programs. The Inspector General may, on a random basis, perform audits on all Village contracts.

10.09 *Public Records*

A. The CONTRACTOR shall comply with Florida's Public Records Laws, Chapter 119, Florida Statutes, and, if it is acting on behalf of the VILLAGE as provided under section 119.011(2), the CONTRACTOR specifically agrees to:

1. Keep and maintain public records required by the VILLAGE to perform the services under this Agreement.

2. Upon request from the VILLAGE's custodian of public records, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable tie at a cost that does not exceed the cost provided in this Chapter 119, Florida Statutes, or as otherwise provided by law.

3. Ensure that said public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement, if the CONTRACTOR does not transfer the records to the VILLAGE.

4. Upon the completion of the Agreement, transfer, at no cost, to the VILLAGE all public records in possession of the CONTRACTOR or keep and maintain public records required by the VILLAGE to perform the services. If the CONTRACTOR transfers all public records to the VILLAGE upon completion of the Agreement, the CONTRACTOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the CONTRACTOR keeps and maintains public records upon completion of the Agreement, the CONTRACTOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the VILLAGE, upon request from the VILLAGE's custodian of public records, in a format that is compatible with the information technology systems of the Village.

10.10 *Insurance*

A. The limits of liability for insurance required by Paragraph 6.03 of the General Conditions shall provide coverage for not less that the following amounts or greater where required by Law and Regulations:

1. Workers' Compensation, and related coverages under Paragraphs 6.03.A.1 and A.2 of the General Conditions:

a. State	Statutory
b. Applicable Federal	Statutory
c. Employer Liability:	
Bodily injury, each accident	$1,000,000
Bodily injury by disease, each employee	$500,000
Bodily injury/disease aggregate	$1,000,000
Foreign voluntary worker compensation	Statutory

2. Contractor's Commercial General Liability under Paragraphs 6.03.B and 6.03.C of the General Conditions:

a. General Aggregate	$2,000,000
b. Products – Completed Operations Aggregate	$2,000,000
Personal and Advertising Injury	$1,000,000
c. Each Occurrence (Bodily Injury and Property Damage)	$1,000,000

3. Automobile Liability under paragraph 6.03.D of the General Conditions:

a. Bodily Injury:	
Each Person	$500,000
Each Accident	$1,000,000
b. Property Damage:	
Each Incident	$1,000,000

4. Umbrella of Excess Liability under paragraph 6.03.E of the General Conditions:

a. Excess or Umbrella Liability	
1) General Aggregate	$5,000,000
2) Each Occurrence	$1,000,000

5. Contractor's Pollution Liability under paragraph 6.03.F of the General Conditions:

a. Contractor's Pollution Liability	
1) General Aggregate	$2,000,000
2) Each Occurrence	$1,000,000

6. Additional Insureds include the respective officers, partners, directors, employees, agents, consultants, and subconsultants of the following firms and municipal government(s):

a. Village of Palm Springs
b. Eckler Engineering, Inc.

10.11 *Audit By Village*

A. The CONTRACTOR shall permit the VILLAGE, or any authorized representatives of the VILLAGE, at all reasonable times, access to and the right to examine all records, books, papers or documents related to the CONTRACTOR's performance under this Agreement

including, but not limited to, expenses for sub-contractors, agents or assistants, direct and indirect charges for work performed and detailed documentation for all such work performed or to be performed under this Agreement.

10.12 *Copies of Data/Documents*

A. Copies or original documents prepared by the CONTRACTOR in relation to work associated with this Agreement shall be provided to the VILLAGE. Data collected, stored, and/or provided shall be in a form acceptable to the VILLAGE and agreed upon by the VILLAGE.

10.13 *Ownership*

A. Each and every report, draft, work product, map, record, and other document reproduced, prepared, or caused to be prepared by the CONTRACTOR pursuant to or in connection with this Agreement shall be the exclusive property of the VILLAGE.

10.14 *Limitations of Liability*

A. Under no circumstances shall either party be liable to the other for any consequential, incidental, special, punitive, or any other form of indirect or non-compensatory damages.

10.15 *Enforcement Costs*

A. All parties shall be responsible for their own attorneys' fees, court costs and expenses if any legal action or other proceeding is brought for any dispute, disagreement, or issue of construction or interpretation arising hereunder whether relating to the Agreement's execution, validity, the obligations provided therein, or performance of this Agreement, or because of an alleged breach, default or misrepresentation in connection with any provisions of this Agreement.

10.16 *Copyrights and/or Patent Rights*

A. CONTRACTOR warrants that there has been no violation of copyrights and/or patent rights in the manufacturing, producing or selling of the goods, shipped or ordered, as a result of this Agreement and the CONTRACTOR agrees to hold the Village harmless from any and all liability, loss, or expense occasioned by any such violation.

10.17 *Protection of Property*

A. The CONTRACTOR shall at all times guard against damage or loss to the property of the VILLAGE or of other vendors or contractors and shall be held responsible for replacing or repairing any such loss or damage. The VILLAGE may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the successful CONTRACTOR or its agents. The CONTRACTOR shall be responsible to safeguard all of their property such as tools and equipment while on site. The VILLAGE will not be held responsible for any loss of CONTRACTOR property due to theft or vandalism.

10.18 *Damage to Persons or Property*

A. The responsibility for all damage to person or property arising out of or on account of Scope of Work done under this Contract shall rest upon the CONTRACTOR.

10.19 *Discrimination*

A. The CONTRACTOR warrants and represents that all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, political affiliation, marital status, handicap, or sexual orientation. Further, CONTRACTOR shall not discriminate or permit discrimination against any employee or an applicant for employment on the basis of race, color, sex, religion, political affiliation, natural origin, ancestry, marital status, sexual orientation or handicap.

10.20 *Construction Defects*

A. PURSUANT TO SECTION 558.005, FLORIDA STATUTES, ANY CLAIMS FOR CONSTRUCTION DEFECTS ARE NOT SUBJECT TO THE NOTICE AND CURE PROVISIONS OF CHAPTER 558, FLORIDA STATUTES.

IN WITNESS WHEREOF, Owner and Contractor have signed this Agreement.

This Agreement will be effective on _____ (which is the Effective Date of the Contract).

1. The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner for the performance of the Construction Contract, which is incorporated herein by reference.

2. If the Contractor performs the Construction Contract, the Surety and the Contractor shall have no obligation under this Bond, except when applicable to participate in a conference as provided in Paragraph 3.

3. If there is no Owner Default under the Construction Contract, the Surety's obligation under this Bond shall arise after:

3.1 The Owner first provides notice to the Contractor and the Surety that the Owner is considering declaring a Contractor Default. Such notice shall indicate whether the Owner is requesting a conference among the Owner, Contractor, and Surety to discuss the Contractor's performance. If the Owner does not request a conference, the Surety may, within five (5) business days after receipt of the Owner's notice, request such a conference. If the Surety timely requests a conference, the Owner shall attend. Unless the Owner agrees otherwise, any conference requested under this Paragraph 3.1 shall be held within ten (10) business days of the Surety's receipt of the Owner's notice. If the Owner, the Contractor, and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement shall not waive the Owner's right, if any, subsequently to declare a Contractor Default;

3.2 The Owner declares a Contractor Default, terminates the Construction Contract and notifies the Surety; and

3.3 The Owner has agreed to pay the Balance of the Contract Price in accordance with the terms of the Construction Contract to the Surety or to a contractor selected to perform the Construction Contract.

4. Failure on the part of the Owner to comply with the notice requirement in Paragraph 3.1 shall not constitute a failure to comply with a condition precedent to the Surety's obligations, or release the Surety from its obligations, except to the extent the Surety demonstrates actual prejudice.

5. When the Owner has satisfied the conditions of Paragraph 3, the Surety shall promptly and at the Surety's expense take one of the following actions:

5.1 Arrange for the Contractor, with the consent of the Owner, to perform and complete the Construction Contract;

5.2 Undertake to perform and complete the Construction Contract itself, through its agents or independent contractors;

5.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and a contractor selected with the Owners concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Paragraph 7 in excess of the Balance of the Contract Price incurred by the Owner as a result of the Contractor Default; or

5.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor, and with reasonable promptness under the circumstances:

5.4.1 After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, make payment to the Owner; or

5.4.2 Deny liability in whole or in part and notify the Owner, citing the reasons for denial.

6. If the Surety does not proceed as provided in Paragraph 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Paragraph 5.4, and the Owner refuses the payment or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.

7. If the Surety elects to act under Paragraph 5.1, 5.2, or 5.3, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Construction Contract. Subject to the commitment by the Owner to pay the Balance of the Contract Price, the Surety is obligated, without duplication for:

7.1 the responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;

7.2 additional legal, design professional, and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Paragraph 5; and

7.3 liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.

8. If the Surety elects to act under Paragraph 5.1, 5.3, or 5.4, the Surety's liability is limited to the amount of this Bond.

9. The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Construction Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than the Owner or its heirs, executors, administrators, successors, and assigns.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

10. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders, and other obligations.

11. Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and shall be instituted within two years after a declaration of Contractor Default or within two years after the Contractor ceased working or within two years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this paragraph are void or prohibited by law, the minimum periods of limitations available to sureties as a defense in the jurisdiction of the suit shall be applicable.

12. Notice to the Surety, the Owner, or the Contractor shall be mailed or delivered to the address shown on the page on which their signature appears.

13. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted here from and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

14. Definitions

14.1 Balance of the Contract Price: The total amount payable by the Owner to the Contractor under the Construction Contract after all proper adjustments have been made including allowance for the Contractor for any amounts received or to be received by the Owner in settlement of insurance or other claims for damages to which the Contractor is entitled, reduced by all valid and proper payments made to or on behalf of the Contractor under the Construction Contract.

14.2 Construction Contract: The agreement between the Owner and Contractor identified on the cover page, including all Contract Documents and changes made to the agreement and the Contract Documents.

14.3 Contractor Default: Failure of the Contractor, which has not been remedied or waived, to perform or otherwise to comply with a material term of the Construction Contract.

14.4 Owner Default: Failure of the Owner, which has not been remedied or waived, to pay the Contractor as required under the Construction Contract or to perform and complete or comply with the other material terms of the Construction Contract.

14.5 Contract Documents: All the documents that comprise the agreement between the Owner and Contractor.

15. If this Bond is issued for an agreement between a contractor and subcontractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

1. The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner to pay for labor, materials, and equipment furnished for use in the performance of the Construction Contract, which is incorporated herein by reference, subject to the following terms.

2. If the Contractor promptly makes payment of all sums due to Claimants, and defends, indemnifies, and holds harmless the Owner from claims, demands, liens, or suits by any person or entity seeking payment for labor, materials, or equipment furnished for use in the performance of the Construction Contract, then the Surety and the Contractor shall have no obligation under this Bond.

3. If there is no Owner Default under the Construction Contract, the Surety's obligation to the Owner under this Bond shall arise after the Owner has promptly notified the Contractor and the Surety (at the address described in Paragraph 13) of claims, demands, liens, or suits against the Owner or the Owner's property by any person or entity seeking payment for labor, materials, or equipment furnished for use in the performance of the Construction Contract, and tendered defense of such claims, demands, liens, or suits to the Contractor and the Surety.

4. When the Owner has satisfied the conditions in Paragraph 3, the Surety shall promptly and at the Surety's expense defend, indemnify, and hold harmless the Owner against a duly tendered claim, demand, lien, or suit.

5. The Surety's obligations to a Claimant under this Bond shall arise after the following:

    5.1 Claimants who do not have a direct contract with the Contractor,

        5.1.1 have furnished a written notice of non-payment to the Contractor, stating with substantial accuracy the amount claimed and the name of the party to whom the materials were, or equipment was, furnished or supplied or for whom the labor was done or performed, within ninety (90) days after having last performed labor or last furnished materials or equipment included in the Claim; and

        5.1.2 have sent a Claim to the Surety (at the address described in Paragraph 13).

    5.2 Claimants who are employed by or have a direct contract with the Contractor have sent a Claim to the Surety (at the address described in Paragraph 13).

6. If a notice of non-payment required by Paragraph 5.1.1 is given by the Owner to the Contractor, that is sufficient to satisfy a Claimant's obligation to furnish a written notice of non-payment under Paragraph 5.1.1.

7. When a Claimant has satisfied the conditions of Paragraph 5.1 or 5.2, whichever is applicable, the Surety shall promptly and at the Surety's expense take the following actions:

    7.1 Send an answer to the Claimant, with a copy to the Owner, within sixty (60) days after receipt of the Claim, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed; and

    7.2 Pay or arrange for payment of any undisputed amounts.

    7.3 The Surety's failure to discharge its obligations under Paragraph 7.1 or 7.2 shall not be deemed to constitute a waiver of defenses the Surety or Contractor may have or acquire as to a Claim, except as to undisputed amounts for which the Surety and Claimant have reached agreement. If, however, the Surety fails to discharge its obligations under Paragraph 7.1 or 7.2, the Surety shall indemnify the Claimant for the reasonable attorney's fees the Claimant incurs thereafter to recover any sums found to be due and owing to the Claimant.

8. The Surety's total obligation shall not exceed the amount of this Bond, plus the amount of reasonable attorney's fees provided under Paragraph 7.3, and the amount of this Bond shall be credited for any payments made in good faith by the Surety.

9. Amounts owed by the Owner to the Contractor under the Construction Contract shall be used for the performance of the Construction Contract and to satisfy claims, if any, under any construction performance bond. By the Contractor furnishing and the Owner accepting this Bond, they agree that all funds earned by the Contractor in the performance of the Construction Contract are dedicated to satisfy obligations of the Contractor and Surety under this Bond, subject to the Owner's priority to use the funds for the completion of the work.

10. The Surety shall not be liable to the Owner, Claimants, or others for obligations of the Contractor that are unrelated to the Construction Contract. The Owner shall not be liable for the payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligation to make payments to or give notice on behalf of Claimants, or otherwise have any obligations to Claimants under this Bond.

11. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders, and other obligations.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

12. No suit or action shall be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the state in which the project that is the subject of the Construction Contract is located or after the expiration of one year from the date (1) on which the Claimant sent a Claim to the Surety pursuant to Paragraph 5.1.2 or 5.2, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Construction Contract, whichever of (1) or (2) first occurs. If the provisions of this paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

13. Notice and Claims to the Surety, the Owner, or the Contractor shall be mailed or delivered to the address shown on the page on which their signature appears. Actual receipt of notice or Claims, however accomplished, shall be sufficient compliance as of the date received.

14. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

15. Upon requests by any person or entity appearing to be a potential beneficiary of this Bond, the Contractor and Owner shall promptly furnish a copy of this Bond or shall permit a copy to be made.

16. **Definitions**

16.1 **Claim:** A written statement by the Claimant including at a minimum:

1. The name of the Claimant;
2. The name of the person for whom the labor was done, or materials or equipment furnished;
3. A copy of the agreement or purchase order pursuant to which labor, materials, or equipment was furnished for use in the performance of the Construction Contract;
4. A brief description of the labor, materials, or equipment furnished;
5. The date on which the Claimant last performed labor or last furnished materials or equipment for use in the performance of the Construction Contract;
6. The total amount earned by the Claimant for labor, materials, or equipment furnished as of the date of the Claim;
7. The total amount of previous payments received by the Claimant; and
8. The total amount due and unpaid to the Claimant for labor, materials, or equipment furnished as of the date of the Claim.

16.2 **Claimant:** An individual or entity having a direct contract with the Contractor or with a subcontractor of the Contractor to furnish labor, materials, or equipment for use in the performance of the Construction Contract. The term Claimant also includes any individual or entity that has rightfully asserted a claim under an applicable mechanic's lien or similar statute against the real property upon which the Project is located. The intent of this Bond shall be to include without limitation in the terms of "labor, materials, or equipment" that part of the water, gas, power, light, heat, oil, gasoline, telephone service, or rental equipment used in the Construction Contract, architectural and engineering services required for performance of the work of the Contractor and the Contractor's subcontractors, and all other items for which a mechanic's lien may be asserted in the jurisdiction where the labor, materials, or equipment were furnished.

16.3 **Construction Contract:** The agreement between the Owner and Contractor identified on the cover page, including all Contract Documents and all changes made to the agreement and the Contract Documents.

16.4 **Owner Default**: Failure of the Owner, which has not been remedied or waived, to pay the Contractor as required under the Construction Contract or to perform and complete or comply with the other material terms of the Construction Contract.

16.5 **Contract Documents:** All the documents that comprise the agreement between the Owner and Contractor.

17. If this Bond is issued for an agreement between a contractor and subcontractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

18. Modifications to this Bond are as follows:

7. LESS PREVIOUS PAYMENTS (Line 6 from prior Application)			**$**
8. AMOUNT DUE THIS APPLICATION			**$**
9. BALANCE TO FINISH, PLUS RETAINAGE (Column G total on Progress Estimates + Line 5.c above)			**$**

Contractor's Certification

The undersigned Contractor certifies, to the best of its knowledge, the following:
(1) All previous progress payments received from Owner on account of Work done under the Contract have been applied on account to discharge Contractor's legitimate obligations incurred in connection with the Work covered by prior Applications for Payment;
(2) Title to all Work, materials and equipment incorporated in said Work, or otherwise listed in or covered by this Application for Payment, will pass to Owner at time of payment free and clear of all Liens, security interests, and encumbrances (except such as are covered by a bond acceptable to Owner indemnifying Owner against any such Liens, security interest, or encumbrances); and
(3) All the Work covered by this Application for Payment is in accordance with the Contract Documents and is not defective.

CERTIFICATE OF SUBSTANTIAL COMPLETION

Village of Palm Springs	Owner's Task Order Nos.: 238 and 268
Contractor:	Contractor's Project No.:
Engineer: Eckler Engineering, Inc.	Engineer's Project No.: 400-086.01
Project: MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants	Contract Name: MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants

This [preliminary] [final] Certificate of Substantial Completion applies to:

☐ All Work ☐ The following specified portions of the Work:

Date of Substantial Completion

The Work to which this Certificate applies has been inspected by authorized representatives of Owner, Contractor, and Engineer, and found to be substantially complete. The Date of Substantial Completion of the Work or portion thereof designated above is hereby established, subject to the provisions of the Contract pertaining to Substantial Completion. The date of Substantial Completion in the final Certificate of Substantial Completion marks the commencement of the contractual correction period and applicable warranties required by the Contract.

A punch list of items to be completed or corrected is attached to this Certificate. This list may not be all-inclusive, and the failure to include any items on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract.

The responsibilities between Owner and Contractor for security, operation, safety, maintenance, heat, utilities, insurance, and warranties upon Owner's use or occupancy of the Work shall be as provided in the Contract, except as amended as follows: *[Note: Amendments of contractual responsibilities recorded in this Certificate should be the product of mutual agreement of Owner and Contractor; see Paragraph 15.03.D of the General Conditions.]*

Amendments to Owner's responsibilities: ☐ None ☐ As follows

Amendments to Contractor's responsibilities: ☐ None ☐ As follows:

The following documents are attached to and made a part of this Certificate: *[punch list; others]*

This Certificate does not constitute an acceptance of Work not in accordance with the Contract Documents, nor is it a release of Contractor's obligation to complete the Work in accordance with the Contract.

These General Conditions have been prepared for use with the Agreement Between Owner and Contractor for Construction Contract (EJCDC® C-520, Stipulated Sum, or C-525, Cost-Plus, 2013 Editions). Their provisions are interrelated and a change in one may necessitate a change in the other.

To prepare supplementary conditions that are coordinated with the General Conditions, use EJCDC's Guide to the Preparation of Supplementary Conditions (EJCDC® C-800, 2013 Edition). The full EJCDC Construction series of documents is discussed in the Commentary on the 2013 EJCDC Construction Documents (EJCDC® C-001, 2013 Edition).

ARTICLE 1 – DEFINITIONS AND TERMINOLOGY

1.01 *Defined Terms*

A. Wherever used in the Bidding Requirements or Contract Documents, a term printed with initial capital letters, including the term's singular and plural forms, will have the meaning indicated in the definitions below. In addition to terms specifically defined, terms with initial capital letters in the Contract Documents include references to identified articles and paragraphs, and the titles of other documents or forms.

1. *Addenda*—Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Requirements or the proposed Contract Documents.

2. *Agreement*—The written instrument, executed by Owner and Contractor, that sets forth the Contract Price and Contract Times, identifies the parties and the Engineer, and designates the specific items that are Contract Documents.

3. *Application for Payment*—The form acceptable to Engineer which is to be used by Contractor during the course of the Work in requesting progress or final payments and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. *Bid*—The offer of a Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

5. *Bidder*—An individual or entity that submits a Bid to Owner.

6. *Bidding Documents*—The Bidding Requirements, the proposed Contract Documents, and all Addenda.

7. *Bidding Requirements*—The advertisement or invitation to bid, Instructions to Bidders, Bid Bond or other Bid security, if any, the Bid Form, and the Bid with any attachments.

8. *Change Order*—A document which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Contract Price or the Contract Times, or other revision to the Contract, issued on or after the Effective Date of the Contract.

9. *Change Proposal*—A written request by Contractor, duly submitted in compliance with the procedural requirements set forth herein, seeking an adjustment in Contract Price or Contract Times, or both; contesting an initial decision by Engineer concerning the requirements of the Contract Documents or the acceptability of Work under the Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Contract.

10. *Claim*—(a) A demand or assertion by Owner directly to Contractor, duly submitted in compliance with the procedural requirements set forth herein: seeking an adjustment of Contract Price or Contract Times, or both; contesting an initial decision by Engineer concerning the requirements of the Contract Documents or the acceptability of Work under the Contract Documents; contesting Engineer's decision regarding a Change Proposal; seeking resolution of a contractual issue that Engineer has declined to address; or seeking other relief with respect to the terms of the Contract; or (b) a demand or assertion by Contractor directly to Owner, duly submitted in compliance with the procedural requirements set forth herein, contesting Engineer's decision regarding a Change Proposal; or seeking resolution of a contractual issue that Engineer

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

has declined to address. A demand for money or services by a third party is not a Claim.

11. *Constituent of Concern*—Asbestos, petroleum, radioactive materials, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, state, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

12. *Contract*—The entire and integrated written contract between the Owner and Contractor concerning the Work.

13. *Contract Documents*—Those items so designated in the Agreement, and which together comprise the Contract.

14. *Contract Price*—The money that Owner has agreed to pay Contractor for completion of the Work in accordance with the Contract Documents. .

15. *Contract Times*—The number of days or the dates by which Contractor shall: (a) achieve Milestones, if any; (b) achieve Substantial Completion; and (c) complete the Work.

16. *Contractor*—The individual or entity with which Owner has contracted for performance of the Work.

17. *Cost of the Work*—See Paragraph 13.01 for definition.

18. *Drawings*—The part of the Contract that graphically shows the scope, extent, and character of the Work to be performed by Contractor.

19. *Effective Date of the Contract*—The date, indicated in the Agreement, on which the Contract becomes effective.

20. *Engineer*—The individual or entity named as such in the Agreement.

21. *Field Order*—A written order issued by Engineer which requires minor changes in the Work but does not change the Contract Price or the Contract Times.

22. *Hazardous Environmental Condition*—The presence at the Site of Constituents of Concern in such quantities or circumstances that may present a danger to persons or property exposed thereto. The presence at the Site of materials that are necessary for the execution of the Work, or that are to be incorporated in the Work, and that are controlled and contained pursuant to industry practices, Laws and Regulations, and the requirements of the Contract, does not establish a Hazardous Environmental Condition.

23. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

24. *Liens*—Charges, security interests, or encumbrances upon Contract-related funds, real property, or personal property.

25. *Milestone*—A principal event in the performance of the Work that the Contract requires Contractor to achieve by an intermediate completion date or by a time prior to Substantial Completion of all the Work.

26. *Notice of Award*—The written notice by Owner to a Bidder of Owner's acceptance of the Bid.

27. *Notice to Proceed*—A written notice by Owner to Contractor fixing the date on which the Contract Times will commence to run and on which Contractor shall start to perform the Work.

28. *Owner*—The individual or entity with which Contractor has contracted regarding the Work, and which has agreed to pay Contractor for the performance of the Work, pursuant to the terms of the Contract.

29. *Progress Schedule*—A schedule, prepared and maintained by Contractor, describing the sequence and duration of the activities comprising the Contractor's plan to accomplish the Work within the Contract Times.

30. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the Work to be performed under the Contract Documents is a part.

31. *Project Manual*—The written documents prepared for, or made available for, procuring and constructing the Work, including but not limited to the Bidding Documents or other construction procurement documents, geotechnical and existing conditions information, the Agreement, bond forms, General Conditions, Supplementary Conditions, and Specifications. The contents of the Project Manual may be bound in one or more volumes.

32. *Resident Project Representative*—The authorized representative of Engineer assigned to assist Engineer at the Site. As used herein, the term Resident Project Representative or "RPR" includes any assistants or field staff of Resident Project Representative.

33. *Samples*—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

34. *Schedule of Submittals*—A schedule, prepared and maintained by Contractor, of required submittals and the time requirements for Engineer's review of the submittals and the performance of related construction activities.

35. *Schedule of Values*—A schedule, prepared and maintained by Contractor, allocating portions of the Contract Price to various portions of the Work and used as the basis for reviewing Contractor's Applications for Payment.

36. *Shop Drawings*—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Contract Documents.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

37. *Site*—Lands or areas indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands furnished by Owner which are designated for the use of Contractor.

38. *Specifications*—The part of the Contract that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

39. *Subcontractor*—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work.

40. *Substantial Completion*—The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

41. *Successful Bidder*—The Bidder whose Bid the Owner accepts, and to which the Owner makes an award of contract, subject to stated conditions.

42. *Supplementary Conditions*—The part of the Contract that amends or supplements these General Conditions.

43. *Supplier*—A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or a Subcontractor.

44. *Technical Data*—Those items expressly identified as Technical Data in the Supplementary Conditions, with respect to either (a) subsurface conditions at the Site, or physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities) or (b) Hazardous Environmental Conditions at the Site. If no such express identifications of Technical Data have been made with respect to conditions at the Site, then the data contained in boring logs, recorded measurements of subsurface water levels, laboratory test results, and other factual, objective information regarding conditions at the Site that are set forth in any geotechnical or environmental report prepared for the Project and made available to Contractor are hereby defined as Technical Data with respect to conditions at the Site under Paragraphs 5.03, 5.04, and 5.06.

45. *Underground Facilities*—All underground pipelines, conduits, ducts, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or attachments, and any encasements containing such facilities, including but not limited to those that convey electricity, gases, steam, liquid petroleum products, telephone or other communications, fiber optic transmissions, cable television, water, wastewater, storm water, other liquids or chemicals, or traffic or other control systems.

46. *Unit Price Work*—Work to be paid for on the basis of unit prices.

47. *Work*—The entire construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Contract Documents.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

48. *Work Change Directive*—A written directive to Contractor issued on or after the Effective Date of the Contract, signed by Owner and recommended by Engineer, ordering an addition, deletion, or revision in the Work.

1.02 *Terminology*

A. The words and terms discussed in the following paragraphs are not defined but, when used in the Bidding Requirements or Contract Documents, have the indicated meaning.

B. *Intent of Certain Terms or Adjectives*:

1. The Contract Documents include the terms "as allowed," "as approved," "as ordered," "as directed" or terms of like effect or import to authorize an exercise of professional judgment by Engineer. In addition, the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of Engineer as to the Work. It is intended that such exercise of professional judgment, action, or determination will be solely to evaluate, in general, the Work for compliance with the information in the Contract Documents and with the design concept of the Project as a functioning whole as shown or indicated in the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective is not intended to and shall not be effective to assign to Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility contrary to the provisions of Article 10 or any other provision of the Contract Documents.

C. *Day*:

1. The word "day" means a calendar day of 24 hours measured from midnight to the next midnight.

D. *Defective*:

1. The word "defective," when modifying the word "Work," refers to Work that is unsatisfactory, faulty, or deficient in that it:

a. does not conform to the Contract Documents; or

b. does not meet the requirements of any applicable inspection, reference standard, test, or approval referred to in the Contract Documents; or

c. has been damaged prior to Engineer's recommendation of final payment (unless responsibility for the protection thereof has been assumed by Owner at Substantial Completion in accordance with Paragraph 15.03 or 15.04).

E. *Furnish, Install, Perform, Provide*:

1. The word "furnish," when used in connection with services, materials, or equipment, shall mean to supply and deliver said services, materials, or equipment to the Site (or some other specified location) ready for use or installation and in usable or operable condition.

2. The word "install," when used in connection with services, materials, or equipment, shall mean to put into use or place in final position said services, materials, or equipment complete and ready for intended use.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. The words “perform” or “provide,” when used in connection with services, materials, or equipment, shall mean to furnish and install said services, materials, or equipment complete and ready for intended use.

4. If the Contract Documents establish an obligation of Contractor with respect to specific services, materials, or equipment, but do not expressly use any of the four words “furnish,” “install,” “perform,” or “provide,” then Contractor shall furnish and install said services, materials, or equipment complete and ready for intended use.

F. Unless stated otherwise in the Contract Documents, words or phrases that have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2 – PRELIMINARY MATTERS

2.01 *Delivery of Bonds and Evidence of Insurance*

A. *Bonds*: When Contractor delivers the executed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner such bonds as Contractor may be required to furnish.

B. *Evidence of Contractor’s Insurance*: When Contractor delivers the executed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner, with copies to each named insured and additional insured (as identified in the Supplementary Conditions or elsewhere in the Contract), the certificates and other evidence of insurance required to be provided by Contractor in accordance with Article 6.

C. *Evidence of Owner’s Insurance*: After receipt of the executed counterparts of the Agreement and all required bonds and insurance documentation, Owner shall promptly deliver to Contractor, with copies to each named insured and additional insured (as identified in the Supplementary Conditions or otherwise), the certificates and other evidence of insurance required to be provided by Owner under Article 6.

2.02 *Copies of Documents*

A. Owner shall furnish to Contractor four printed copies of the Contract (including one fully executed counterpart of the Agreement), and one copy in electronic portable document format (PDF). Additional printed copies will be furnished upon request at the cost of reproduction.

B. Owner shall maintain and safeguard at least one original printed record version of the Contract, including Drawings and Specifications signed and sealed by Engineer and other design professionals. Owner shall make such original printed record version of the Contract available to Contractor for review. Owner may delegate the responsibilities under this provision to Engineer.

2.03 *Before Starting Construction*

A. *Preliminary Schedules*: Within 10 days after the Effective Date of the Contract (or as otherwise specifically required by the Contract Documents), Contractor shall submit to Engineer for timely review:

1. a preliminary Progress Schedule indicating the times (numbers of days or dates) for starting and completing the various stages of the Work, including any Milestones specified in the Contract;

2. a preliminary Schedule of Submittals; and

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. a preliminary Schedule of Values for all of the Work which includes quantities and prices of items which when added together equal the Contract Price and subdivides the Work into component parts in sufficient detail to serve as the basis for progress payments during performance of the Work. Such prices will include an appropriate amount of overhead and profit applicable to each item of Work.

2.04 *Preconstruction Conference; Designation of Authorized Representatives*

A. Before any Work at the Site is started, a conference attended by Owner, Contractor, Engineer, and others as appropriate will be held to establish a working understanding among the parties as to the Work and to discuss the schedules referred to in Paragraph 2.03.A, procedures for handling Shop Drawings, Samples, and other submittals, processing Applications for Payment, electronic or digital transmittals, and maintaining required records.

B. At this conference Owner and Contractor each shall designate, in writing, a specific individual to act as its authorized representative with respect to the services and responsibilities under the Contract. Such individuals shall have the authority to transmit and receive information, render decisions relative to the Contract, and otherwise act on behalf of each respective party.

2.05 *Initial Acceptance of Schedules*

A. At least 10 days before submission of the first Application for Payment a conference, attended by Contractor, Engineer, and others as appropriate, will be held to review for acceptability to Engineer as provided below the schedules submitted in accordance with Paragraph 2.03.A. Contractor shall have an additional 10 days to make corrections and adjustments and to complete and resubmit the schedules. No progress payment shall be made to Contractor until acceptable schedules are submitted to Engineer.

1. The Progress Schedule will be acceptable to Engineer if it provides an orderly progression of the Work to completion within the Contract Times. Such acceptance will not impose on Engineer responsibility for the Progress Schedule, for sequencing, scheduling, or progress of the Work, nor interfere with or relieve Contractor from Contractor's full responsibility therefor.

2. Contractor's Schedule of Submittals will be acceptable to Engineer if it provides a workable arrangement for reviewing and processing the required submittals.

3. Contractor's Schedule of Values will be acceptable to Engineer as to form and substance if it provides a reasonable allocation of the Contract Price to the component parts of the Work.

2.06 *Electronic Transmittals*

A. Except as otherwise stated elsewhere in the Contract, the Owner, Engineer, and Contractor may transmit, and shall accept, Project-related correspondence, text, data, documents, drawings, information, and graphics, including but not limited to Shop Drawings and other submittals, in electronic media or digital format, either directly, or through access to a secure Project website.

B. If the Contract does not establish protocols for electronic or digital transmittals, then Owner, Engineer, and Contractor shall jointly develop such protocols.

C. When transmitting items in electronic media or digital format, the transmitting party makes no representations as to long term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

ARTICLE 3 – DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 *Intent*

A. The Contract Documents are complementary; what is required by one is as binding as if required by all.

B. It is the intent of the Contract Documents to describe a functionally complete project (or part thereof) to be constructed in accordance with the Contract Documents.

C. Unless otherwise stated in the Contract Documents, if there is a discrepancy between the electronic or digital versions of the Contract Documents (including any printed copies derived from such electronic or digital versions) and the printed record version, the printed record version shall govern.

D. The Contract supersedes prior negotiations, representations, and agreements, whether written or oral.

E. Engineer will issue clarifications and interpretations of the Contract Documents as provided herein.

3.02 *Reference Standards*

A. Standards Specifications, Codes, Laws and Regulations

1. Reference in the Contract Documents to standard specifications, manuals, reference standards, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, shall mean the standard specification, manual, reference standard, code, or Laws or Regulations in effect at the time of opening of Bids (or on the Effective Date of the Contract if there were no Bids), except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard specification, manual, reference standard, or code, or any instruction of a Supplier, shall be effective to change the duties or responsibilities of Owner, Contractor, or Engineer, or any of their subcontractors, consultants, agents, or employees, from those set forth in the part of the Contract Documents prepared by or for Engineer. No such provision or instruction shall be effective to assign to Owner, Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the part of the Contract Documents prepared by or for Engineer.

3.03 *Reporting and Resolving Discrepancies*

A. *Reporting Discrepancies*:

1. *Contractor's Verification of Figures and Field Measurements*: Before undertaking each part of the Work, Contractor shall carefully study the Contract Documents, and check and verify pertinent figures and dimensions therein, particularly with respect to applicable field measurements. Contractor shall promptly report in writing to Engineer any conflict, error, ambiguity, or discrepancy that Contractor discovers, or has actual knowledge of, and shall not proceed with any Work affected thereby until the conflict,

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

error, ambiguity, or discrepancy is resolved, by a clarification or interpretation by Engineer, or by an amendment or supplement to the Contract Documents issued pursuant to Paragraph 11.01.

2. *Contractor's Review of Contract Documents*: If, before or during the performance of the Work, Contractor discovers any conflict, error, ambiguity, or discrepancy within the Contract Documents, or between the Contract Documents and (a) any applicable Law or Regulation, (b) actual field conditions, (c) any standard specification, manual, reference standard, or code, or (d) any instruction of any Supplier, then Contractor shall promptly report it to Engineer in writing. Contractor shall not proceed with the Work affected thereby (except in an emergency as required by Paragraph 7.15) until the conflict, error, ambiguity, or discrepancy is resolved, by a clarification or interpretation by Engineer, or by an amendment or supplement to the Contract Documents issued pursuant to Paragraph 11.01.

3. Contractor shall not be liable to Owner or Engineer for failure to report any conflict, error, ambiguity, or discrepancy in the Contract Documents unless Contractor had actual knowledge thereof.

B. *Resolving Discrepancies*:

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the part of the Contract Documents prepared by or for Engineer shall take precedence in resolving any conflict, error, ambiguity, or discrepancy between such provisions of the Contract Documents and:

a. the provisions of any standard specification, manual, reference standard, or code, or the instruction of any Supplier (whether or not specifically incorporated by reference as a Contract Document); or

b. the provisions of any Laws or Regulations applicable to the performance of the Work (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation).

3.04 *Requirements of the Contract Documents*

A. During the performance of the Work and until final payment, Contractor and Owner shall submit to the Engineer all matters in question concerning the requirements of the Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Contract Documents, as soon as possible after such matters arise. Engineer will be the initial interpreter of the requirements of the Contract Documents, and judge of the acceptability of the Work thereunder.

B. Engineer will, with reasonable promptness, render a written clarification, interpretation, or decision on the issue submitted, or initiate an amendment or supplement to the Contract Documents. Engineer's written clarification, interpretation, or decision will be final and binding on Contractor, unless it appeals by submitting a Change Proposal, and on Owner, unless it appeals by filing a Claim.

C. If a submitted matter in question concerns terms and conditions of the Contract Documents that do not involve (1) the performance or acceptability of the Work under the Contract Documents, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, then Engineer will promptly give written notice to Owner and Contractor that Engineer is unable to provide a decision or interpretation. If Owner and Contractor are unable to agree on resolution of such a matter in question, either party may pursue resolution as provided in Article 12.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3.05 *Reuse of Documents*

A. Contractor and its Subcontractors and Suppliers shall not:

1. have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents (or copies of any thereof) prepared by or bearing the seal of Engineer or its consultants, including electronic media editions, or reuse any such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of Owner and Engineer and specific written verification or adaptation by Engineer; or

2. have or acquire any title or ownership rights in any other Contract Documents, reuse any such Contract Documents for any purpose without Owner's express written consent, or violate any copyrights pertaining to such Contract Documents.

B. The prohibitions of this Paragraph 3.05 will survive final payment, or termination of the Contract. Nothing herein shall preclude Contractor from retaining copies of the Contract Documents for record purposes.

ARTICLE 4 – COMMENCEMENT AND PROGRESS OF THE WORK

4.01 *Commencement of Contract Times; Notice to Proceed*

A. The Contract Times will commence to run on the thirtieth day after the Effective Date of the Contract or, if a Notice to Proceed is given, on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within 30 days after the Effective Date of the Contract. In no event will the Contract Times commence to run later than the sixtieth day after the day of Bid opening or the thirtieth day after the Effective Date of the Contract, whichever date is earlier.

4.02 *Starting the Work*

A. Contractor shall start to perform the Work on the date when the Contract Times commence to run. No Work shall be done at the Site prior to such date.

4.03 *Reference Points*

A. Owner shall provide engineering surveys to establish reference points for construction which in Engineer's judgment are necessary to enable Contractor to proceed with the Work. Contractor shall be responsible for laying out the Work, shall protect and preserve the established reference points and property monuments, and shall make no changes or relocations without the prior written approval of Owner. Contractor shall report to Engineer whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.04 *Progress Schedule*

A. Contractor shall adhere to the Progress Schedule established in accordance with Paragraph 2.05 as it may be adjusted from time to time as provided below.

1. Contractor shall submit to Engineer for acceptance (to the extent indicated in Paragraph 2.05) proposed adjustments in the Progress Schedule that will not result in changing the Contract Times.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. Proposed adjustments in the Progress Schedule that will change the Contract Times shall be submitted in accordance with the requirements of Article 11.

B. Contractor shall carry on the Work and adhere to the Progress Schedule during all disputes or disagreements with Owner. No Work shall be delayed or postponed pending resolution of any disputes or disagreements, or during any appeal process, except as permitted by Paragraph 16.04, or as Owner and Contractor may otherwise agree in writing.

4.05 *Delays in Contractor's Progress*

A. If Owner, Engineer, or anyone for whom Owner is responsible, delays, disrupts, or interferes with the performance or progress of the Work, then Contractor shall be entitled to an equitable adjustment in the Contract Times and Contract Price. Contractor's entitlement to an adjustment of the Contract Times is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times.

B. Contractor shall not be entitled to an adjustment in Contract Price or Contract Times for delay, disruption, or interference caused by or within the control of Contractor. Delay, disruption, and interference attributable to and within the control of a Subcontractor or Supplier shall be deemed to be within the control of Contractor.

C. If Contractor's performance or progress is delayed, disrupted, or interfered with by unanticipated causes not the fault of and beyond the control of Owner, Contractor, and those for which they are responsible, then Contractor shall be entitled to an equitable adjustment in Contract Times. Contractor's entitlement to an adjustment of the Contract Times is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times. Such an adjustment shall be Contractor's sole and exclusive remedy for the delays, disruption, and interference described in this paragraph. Causes of delay, disruption, or interference that may give rise to an adjustment in Contract Times under this paragraph include but are not limited to the following:

1. severe and unavoidable natural catastrophes such as fires, floods, epidemics, and earthquakes;

2. abnormal weather conditions;

3. acts or failures to act of utility owners (other than those performing other work at or adjacent to the Site by arrangement with the Owner, as contemplated in Article 8); and

4. acts of war or terrorism.

D. Delays, disruption, and interference to the performance or progress of the Work resulting from the existence of a differing subsurface or physical condition, an Underground Facility that was not shown or indicated by the Contract Documents, or not shown or indicated with reasonable accuracy, and those resulting from Hazardous Environmental Conditions, are governed by Article 5.

E. Paragraph 8.03 governs delays, disruption, and interference to the performance or progress of the Work resulting from the performance of certain other work at or adjacent to the Site.

F. Contractor shall not be entitled to an adjustment in Contract Price or Contract Times for any delay, disruption, or interference if such delay is concurrent with a delay, disruption, or interference caused by or within the control of Contractor.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

G. Contractor must submit any Change Proposal seeking an adjustment in Contract Price or Contract Times under this paragraph within 30 days of the commencement of the delaying, disrupting, or interfering event.

ARTICLE 5 – AVAILABILITY OF LANDS; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS

5.01 *Availability of Lands*

A. Owner shall furnish the Site. Owner shall notify Contractor of any encumbrances or restrictions not of general application but specifically related to use of the Site with which Contractor must comply in performing the Work.

B. Upon reasonable written request, Owner shall furnish Contractor with a current statement of record legal title and legal description of the lands upon which permanent improvements are to be made and Owner's interest therein as necessary for giving notice of or filing a mechanic's or construction lien against such lands in accordance with applicable Laws and Regulations.

C. Contractor shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

5.02 *Use of Site and Other Areas*

A. *Limitation on Use of Site and Other Areas*:

1. Contractor shall confine construction equipment, temporary construction facilities, the storage of materials and equipment, and the operations of workers to the Site, adjacent areas that Contractor has arranged to use through construction easements or otherwise, and other adjacent areas permitted by Laws and Regulations, and shall not unreasonably encumber the Site and such other adjacent areas with construction equipment or other materials or equipment. Contractor shall assume full responsibility for (a) damage to the Site; (b) damage to any such other adjacent areas used for Contractor's operations; (c) damage to any other adjacent land or areas; and (d) for injuries and losses sustained by the owners or occupants of any such land or areas; provided that such damage or injuries result from the performance of the Work or from other actions or conduct of the Contractor or those for which Contractor is responsible.

2. If a damage or injury claim is made by the owner or occupant of any such land or area because of the performance of the Work, or because of other actions or conduct of the Contractor or those for which Contractor is responsible, Contractor shall (a) take immediate corrective or remedial action as required by Paragraph 7.12, or otherwise; (b) promptly attempt to settle the claim as to all parties through negotiations with such owner or occupant, or otherwise resolve the claim by arbitration or other dispute resolution proceeding, or at law; and (c) to the fullest extent permitted by Laws and Regulations, indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against any such claim, and against all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any claim or action, legal or equitable, brought by any such owner or occupant against Owner, Engineer, or any other party indemnified hereunder to the extent caused directly or indirectly, in whole or in part

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

by, or based upon, Contractor's performance of the Work, or because of other actions or conduct of the Contractor or those for which Contractor is responsible.

B. *Removal of Debris During Performance of the Work*: During the progress of the Work the Contractor shall keep the Site and other adjacent areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris shall conform to applicable Laws and Regulations.

C. *Cleaning*: Prior to Substantial Completion of the Work Contractor shall clean the Site and the Work and make it ready for utilization by Owner. At the completion of the Work Contractor shall remove from the Site and adjacent areas all tools, appliances, construction equipment and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents.

D. *Loading of Structures*: Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent structures or land to stresses or pressures that will endanger them.

5.03 *Subsurface and Physical Conditions*

A. *Reports and Drawings*: The Supplementary Conditions identify:

1. those reports known to Owner of explorations and tests of subsurface conditions at or adjacent to the Site;

2. those drawings known to Owner of physical conditions relating to existing surface or subsurface structures at the Site (except Underground Facilities); and

3. Technical Data contained in such reports and drawings.

B. *Reliance by Contractor on Technical Data Authorized*: Contractor may rely upon the accuracy of the Technical Data expressly identified in the Supplementary Conditions with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then Contractor may rely upon the accuracy of the Technical Data (as defined in Article 1) contained in any geotechnical or environmental report prepared for the Project and made available to Contractor. Except for such reliance on Technical Data, Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor, and safety precautions and programs incident thereto; or

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or

3. any Contractor interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions, or information.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5.04 *Differing Subsurface or Physical Conditions*

A. *Notice by Contractor*: If Contractor believes that any subsurface or physical condition that is uncovered or revealed at the Site either:

1. is of such a nature as to establish that any Technical Data on which Contractor is entitled to rely as provided in Paragraph 5.03 is materially inaccurate; or

2. is of such a nature as to require a change in the Drawings or Specifications; or

3. differs materially from that shown or indicated in the Contract Documents; or

4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents;

then Contractor shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith (except in an emergency as required by Paragraph 7.15), notify Owner and Engineer in writing about such condition. Contractor shall not further disturb such condition or perform any Work in connection therewith (except with respect to an emergency) until receipt of a written statement permitting Contractor to do so.

B. *Engineer's Review*: After receipt of written notice as required by the preceding paragraph, Engineer will promptly review the subsurface or physical condition in question; determine the necessity of Owner's obtaining additional exploration or tests with respect to the condition; conclude whether the condition falls within any one or more of the differing site condition categories in Paragraph 5.04.A above; obtain any pertinent cost or schedule information from Contractor; prepare recommendations to Owner regarding the Contractor's resumption of Work in connection with the subsurface or physical condition in question and the need for any change in the Drawings or Specifications; and advise Owner in writing of Engineer's findings, conclusions, and recommendations.

C. *Owner's Statement to Contractor Regarding Site Condition*: After receipt of Engineer's written findings, conclusions, and recommendations, Owner shall issue a written statement to Contractor (with a copy to Engineer) regarding the subsurface or physical condition in question, addressing the resumption of Work in connection with such condition, indicating whether any change in the Drawings or Specifications will be made, and adopting or rejecting Engineer's written findings, conclusions, and recommendations, in whole or in part.

D. *Possible Price and Times Adjustments*:

1. Contractor shall be entitled to an equitable adjustment in Contract Price or Contract Times, or both, to the extent that the existence of a differing subsurface or physical condition, or any related delay, disruption, or interference, causes an increase or decrease in Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:

a. such condition must fall within any one or more of the categories described in Paragraph 5.04.A;

b. with respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraph 13.03; and,

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

c. Contractor's entitlement to an adjustment of the Contract Times is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times.

2. Contractor shall not be entitled to any adjustment in the Contract Price or Contract Times with respect to a subsurface or physical condition if:

a. Contractor knew of the existence of such condition at the time Contractor made a commitment to Owner with respect to Contract Price and Contract Times by the submission of a Bid or becoming bound under a negotiated contract, or otherwise; or

b. the existence of such condition reasonably could have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site and contiguous areas expressly required by the Bidding Requirements or Contract Documents to be conducted by or for Contractor prior to Contractor's making such commitment; or

c. Contractor failed to give the written notice as required by Paragraph 5.04.A.

3. If Owner and Contractor agree regarding Contractor's entitlement to and the amount or extent of any adjustment in the Contract Price or Contract Times, or both, then any such adjustment shall be set forth in a Change Order.

4. Contractor may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Contract Price or Contract Times, or both, no later than 30 days after Owner's issuance of the Owner's written statement to Contractor regarding the subsurface or physical condition in question.

5.05 *Underground Facilities*

A. *Contractor's Responsibilities*: The information and data shown or indicated in the Contract Documents with respect to existing Underground Facilities at or adjacent to the Site is based on information and data furnished to Owner or Engineer by the owners of such Underground Facilities, including Owner, or by others. Unless it is otherwise expressly provided in the Supplementary Conditions:

1. Owner and Engineer do not warrant or guarantee the accuracy or completeness of any such information or data provided by others; and

2. the cost of all of the following will be included in the Contract Price, and Contractor shall have full responsibility for:

a. reviewing and checking all information and data regarding existing Underground Facilities at the Site;

b. locating all Underground Facilities shown or indicated in the Contract Documents as being at the Site;

c. coordination of the Work with the owners (including Owner) of such Underground Facilities, during construction; and

d. the safety and protection of all existing Underground Facilities at the Site, and repairing any damage thereto resulting from the Work.

B. *Notice by Contractor*: If Contractor believes that an Underground Facility that is uncovered or revealed at the Site was not shown or indicated in the Contract Documents, or was not shown or indicated with reasonable accuracy, then Contractor shall, promptly after

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith (except in an emergency as required by Paragraph 7.15), identify the owner of such Underground Facility and give written notice to that owner and to Owner and Engineer.

C. *Engineer's Review*: Engineer will promptly review the Underground Facility and conclude whether such Underground Facility was not shown or indicated in the Contract Documents, or was not shown or indicated with reasonable accuracy; obtain any pertinent cost or schedule information from Contractor; prepare recommendations to Owner regarding the Contractor's resumption of Work in connection with the Underground Facility in question; determine the extent, if any, to which a change is required in the Drawings or Specifications to reflect and document the consequences of the existence or location of the Underground Facility; and advise Owner in writing of Engineer's findings, conclusions, and recommendations. During such time, Contractor shall be responsible for the safety and protection of such Underground Facility.

D. *Owner's Statement to Contractor Regarding Underground Facility*: After receipt of Engineer's written findings, conclusions, and recommendations, Owner shall issue a written statement to Contractor (with a copy to Engineer) regarding the Underground Facility in question, addressing the resumption of Work in connection with such Underground Facility, indicating whether any change in the Drawings or Specifications will be made, and adopting or rejecting Engineer's written findings, conclusions, and recommendations in whole or in part.

E. *Possible Price and Times Adjustments*:

1. Contractor shall be entitled to an equitable adjustment in the Contract Price or Contract Times, or both, to the extent that any existing Underground Facility at the Site that was not shown or indicated in the Contract Documents, or was not shown or indicated with reasonable accuracy, or any related delay, disruption, or interference, causes an increase or decrease in Contractor's cost of, or time required for, performance of the Work; subject, however, to the following:

    a. Contractor did not know of and could not reasonably have been expected to be aware of or to have anticipated the existence or actual location of the Underground Facility in question;

    b. With respect to Work that is paid for on a unit price basis, any adjustment in Contract Price will be subject to the provisions of Paragraph 13.03;

    c. Contractor's entitlement to an adjustment of the Contract Times is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times; and

    d. Contractor gave the notice required in Paragraph 5.05.B.

2. If Owner and Contractor agree regarding Contractor's entitlement to and the amount or extent of any adjustment in the Contract Price or Contract Times, or both, then any such adjustment shall be set forth in a Change Order.

3. Contractor may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Contract Price or Contract Times, or both, no later than 30 days after Owner's issuance of the Owner's written statement to Contractor regarding the Underground Facility in question.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5.06 *Hazardous Environmental Conditions at Site*

A. *Reports and Drawings*: The Supplementary Conditions identify:

1. those reports and drawings known to Owner relating to Hazardous Environmental Conditions that have been identified at or adjacent to the Site; and

2. Technical Data contained in such reports and drawings.

B. *Reliance by Contractor on Technical Data Authorized*: Contractor may rely upon the accuracy of the Technical Data expressly identified in the Supplementary Conditions with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then Contractor may rely on the accuracy of the Technical Data (as defined in Article 1) contained in any geotechnical or environmental report prepared for the Project and made available to Contractor. Except for such reliance on Technical Data, Contractor may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors with respect to:

1. the completeness of such reports and drawings for Contractor's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences and procedures of construction to be employed by Contractor and safety precautions and programs incident thereto; or

2. other data, interpretations, opinions and information contained in such reports or shown or indicated in such drawings; or

3. any Contractor interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions or information.

C. Contractor shall not be responsible for removing or remediating any Hazardous Environmental Condition encountered, uncovered, or revealed at the Site unless such removal or remediation is expressly identified in the Contract Documents to be within the scope of the Work.

D. Contractor shall be responsible for controlling, containing, and duly removing all Constituents of Concern brought to the Site by Contractor, Subcontractors, Suppliers, or anyone else for whom Contractor is responsible, and for any associated costs; and for the costs of removing and remediating any Hazardous Environmental Condition created by the presence of any such Constituents of Concern.

E. If Contractor encounters, uncovers, or reveals a Hazardous Environmental Condition whose removal or remediation is not expressly identified in the Contract Documents as being within the scope of the Work, or if Contractor or anyone for whom Contractor is responsible creates a Hazardous Environmental Condition, then Contractor shall immediately: (1) secure or otherwise isolate such condition; (2) stop all Work in connection with such condition and in any area affected thereby (except in an emergency as required by Paragraph 7.15); and (3) notify Owner and Engineer (and promptly thereafter confirm such notice in writing). Owner shall promptly consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any. Promptly after consulting with Engineer, Owner shall take such actions as are necessary to permit Owner to timely obtain required permits and provide Contractor the written notice required by Paragraph 5.06.F. If Contractor or anyone for whom Contractor is responsible created the Hazardous Environmental Condition in question, then Owner may remove and remediate the Hazardous Environmental Condition, and impose a set-off against payments to account for the associated costs.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

F. Contractor shall not resume Work in connection with such Hazardous Environmental Condition or in any affected area until after Owner has obtained any required permits related thereto, and delivered written notice to Contractor either (1) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work, or (2) specifying any special conditions under which such Work may be resumed safely.

G. If Owner and Contractor cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times, or both, as a result of such Work stoppage or such special conditions under which Work is agreed to be resumed by Contractor, then within 30 days of Owner's written notice regarding the resumption of Work, Contractor may submit a Change Proposal, or Owner may impose a set-off.

H. If after receipt of such written notice Contractor does not agree to resume such Work based on a reasonable belief it is unsafe, or does not agree to resume such Work under such special conditions, then Owner may order the portion of the Work that is in the area affected by such condition to be deleted from the Work, following the contractual change procedures in Article 11. Owner may have such deleted portion of the Work performed by Owner's own forces or others in accordance with Article 8.

I. To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Contractor, Subcontractors, and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition, provided that such Hazardous Environmental Condition (1) was not shown or indicated in the Drawings, Specifications, or other Contract Documents, identified as Technical Data entitled to limited reliance pursuant to Paragraph 5.06.B, or identified in the Contract Documents to be included within the scope of the Work, and (2) was not created by Contractor or by anyone for whom Contractor is responsible. Nothing in this Paragraph 5.06.I shall obligate Owner to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

J. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to the failure to control, contain, or remove a Constituent of Concern brought to the Site by Contractor or by anyone for whom Contractor is responsible, or to a Hazardous Environmental Condition created by Contractor or by anyone for whom Contractor is responsible. Nothing in this Paragraph 5.06.J shall obligate Contractor to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

K. The provisions of Paragraphs 5.03, 5.04, and 5.05 do not apply to the presence of Constituents of Concern or to a Hazardous Environmental Condition uncovered or revealed at the Site.

ARTICLE 6 – BONDS AND INSURANCE

6.01 *Performance, Payment, and Other Bonds*

A. Contractor shall furnish a performance bond and a payment bond, each in an amount at least equal to the Contract Price, as security for the faithful performance and payment of all of Contractor's obligations under the Contract. These bonds shall remain in effect until one year after the date when final payment becomes due or until completion of the correction period specified in Paragraph 15.08, whichever is later, except as provided otherwise by Laws or Regulations, the Supplementary Conditions, or other specific provisions of the Contract. Contractor shall also furnish such other bonds as are required by the Supplementary Conditions or other specific provisions of the Contract.

B. All bonds shall be in the form prescribed by the Contract except as provided otherwise by Laws or Regulations, and shall be executed by such sureties as are named in "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (as amended and supplemented) by the Financial Management Service, Surety Bond Branch, U.S. Department of the Treasury. A bond signed by an agent or attorney-in-fact must be accompanied by a certified copy of that individual's authority to bind the surety. The evidence of authority shall show that it is effective on the date the agent or attorney-in-fact signed the accompanying bond.

C. Contractor shall obtain the required bonds from surety companies that are duly licensed or authorized in the jurisdiction in which the Project is located to issue bonds in the required amounts.

D. If the surety on a bond furnished by Contractor is declared bankrupt or becomes insolvent, or its right to do business is terminated in any state or jurisdiction where any part of the Project is located, or the surety ceases to meet the requirements above, then Contractor shall promptly notify Owner and Engineer and shall, within 20 days after the event giving rise to such notification, provide another bond and surety, both of which shall comply with the bond and surety requirements above.

E. If Contractor has failed to obtain a required bond, Owner may exclude the Contractor from the Site and exercise Owner's termination rights under Article 16.

F. Upon request, Owner shall provide a copy of the payment bond to any Subcontractor, Supplier, or other person or entity claiming to have furnished labor or materials used in the performance of the Work.

6.02 *Insurance—General Provisions*

A. Owner and Contractor shall obtain and maintain insurance as required in this Article and in the Supplementary Conditions.

B. All insurance required by the Contract to be purchased and maintained by Owner or Contractor shall be obtained from insurance companies that are duly licensed or authorized, in the state or jurisdiction in which the Project is located, to issue insurance policies for the required limits and coverages. Unless a different standard is indicated in the Supplementary Conditions, all companies that provide insurance policies required under this Contract shall have an A.M. Best rating of A-VII or better.

C. Contractor shall deliver to Owner, with copies to each named insured and additional insured (as identified in this Article, in the Supplementary Conditions, or elsewhere in the Contract), certificates of insurance establishing that Contractor has obtained and is

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

maintaining the policies, coverages, and endorsements required by the Contract. Upon request by Owner or any other insured, Contractor shall also furnish other evidence of such required insurance, including but not limited to copies of policies and endorsements, and documentation of applicable self-insured retentions and deductibles. Contractor may block out (redact) any confidential premium or pricing information contained in any policy or endorsement furnished under this provision.

D. Owner shall deliver to Contractor, with copies to each named insured and additional insured (as identified in this Article, the Supplementary Conditions, or elsewhere in the Contract), certificates of insurance establishing that Owner has obtained and is maintaining the policies, coverages, and endorsements required of Owner by the Contract (if any). Upon request by Contractor or any other insured, Owner shall also provide other evidence of such required insurance (if any), including but not limited to copies of policies and endorsements, and documentation of applicable self-insured retentions and deductibles. Owner may block out (redact) any confidential premium or pricing information contained in any policy or endorsement furnished under this provision.

E. Failure of Owner or Contractor to demand such certificates or other evidence of the other party's full compliance with these insurance requirements, or failure of Owner or Contractor to identify a deficiency in compliance from the evidence provided, shall not be construed as a waiver of the other party's obligation to obtain and maintain such insurance.

F. If either party does not purchase or maintain all of the insurance required of such party by the Contract, such party shall notify the other party in writing of such failure to purchase prior to the start of the Work, or of such failure to maintain prior to any change in the required coverage.

G. If Contractor has failed to obtain and maintain required insurance, Owner may exclude the Contractor from the Site, impose an appropriate set-off against payment, and exercise Owner's termination rights under Article 16.

H. Without prejudice to any other right or remedy, if a party has failed to obtain required insurance, the other party may elect to obtain equivalent insurance to protect such other party's interests at the expense of the party who was required to provide such coverage, and the Contract Price shall be adjusted accordingly.

I. Owner does not represent that insurance coverage and limits established in this Contract necessarily will be adequate to protect Contractor or Contractor's interests.

J. The insurance and insurance limits required herein shall not be deemed as a limitation on Contractor's liability under the indemnities granted to Owner and other individuals and entities in the Contract.

6.03 *Contractor's Insurance*

A. *Workers' Compensation*: Contractor shall purchase and maintain workers' compensation and employer's liability insurance for:

1. claims under workers' compensation, disability benefits, and other similar employee benefit acts.

2. United States Longshoreman and Harbor Workers' Compensation Act and Jones Act coverage (if applicable).

3. claims for damages because of bodily injury, occupational sickness or disease, or death of Contractor's employees (by stop-gap endorsement in monopolist worker's compensation states).

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

4. Foreign voluntary worker compensation (if applicable).

B. *Commercial General Liability—Claims Covered*: Contractor shall purchase and maintain commercial general liability insurance, covering all operations by or on behalf of Contractor, on an occurrence basis, against:

1. claims for damages because of bodily injury, sickness or disease, or death of any person other than Contractor's employees.

2. claims for damages insured by reasonably available personal injury liability coverage.

3. claims for damages, other than to the Work itself, because of injury to or destruction of tangible property wherever located, including loss of use resulting therefrom.

C. *Commercial General Liability—Form and Content*: Contractor's commercial liability policy shall be written on a 1996 (or later) ISO commercial general liability form (occurrence form) and include the following coverages and endorsements:

1. Products and completed operations coverage:

a. Such insurance shall be maintained for three years after final payment.

b. Contractor shall furnish Owner and each other additional insured (as identified in the Supplementary Conditions or elsewhere in the Contract) evidence of continuation of such insurance at final payment and three years thereafter.

2. Blanket contractual liability coverage, to the extent permitted by law, including but not limited to coverage of Contractor's contractual indemnity obligations in Paragraph 7.18.

3. Broad form property damage coverage.

4. Severability of interest.

5. Underground, explosion, and collapse coverage.

6. Personal injury coverage.

7. Additional insured endorsements that include both ongoing operations and products and completed operations coverage through ISO Endorsements CG 20 10 10 01 and CG 20 37 10 01 (together); or CG 20 10 07 04 and CG 20 37 07 04 (together); or their equivalent.

8. For design professional additional insureds, ISO Endorsement CG 20 32 07 04, "Additional Insured—Engineers, Architects or Surveyors Not Engaged by the Named Insured" or its equivalent.

D. *Automobile liability*: Contractor shall purchase and maintain automobile liability insurance against claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance, or use of any motor vehicle. The automobile liability policy shall be written on an occurrence basis.

E. *Umbrella or excess liability*: Contractor shall purchase and maintain umbrella or excess liability insurance written over the underlying employer's liability, commercial general liability, and automobile liability insurance described in the paragraphs above. Subject to industry-standard exclusions, the coverage afforded shall follow form as to each and every one of the underlying policies.

F. *Contractor's pollution liability insurance*: Contractor shall purchase and maintain a policy covering third-party injury and property damage claims, including clean-up costs, as a result

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

of pollution conditions arising from Contractor's operations and completed operations. This insurance shall be maintained for no less than three years after final completion.

G. *Additional insureds*: The Contractor's commercial general liability, automobile liability, umbrella or excess, and pollution liability policies shall include and list as additional insureds Owner and Engineer, and any individuals or entities identified in the Supplementary Conditions; include coverage for the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of all such additional insureds; and the insurance afforded to these additional insureds shall provide primary coverage for all claims covered thereby (including as applicable those arising from both ongoing and completed operations) on a non-contributory basis. Contractor shall obtain all necessary endorsements to support these requirements.

H. *Contractor's professional liability insurance*: If Contractor will provide or furnish professional services under this Contract, through a delegation of professional design services or otherwise, then Contractor shall be responsible for purchasing and maintaining applicable professional liability insurance. This insurance shall provide protection against claims arising out of performance of professional design or related services, and caused by a negligent error, omission, or act for which the insured party is legally liable. It shall be maintained throughout the duration of the Contract and for a minimum of two years after Substantial Completion. If such professional design services are performed by a Subcontractor, and not by Contractor itself, then the requirements of this paragraph may be satisfied through the purchasing and maintenance of such insurance by such Subcontractor.

I. *General provisions*: The policies of insurance required by this Paragraph 6.03 shall:

1. include at least the specific coverages provided in this Article.

2. be written for not less than the limits of liability provided in this Article and in the Supplementary Conditions, or required by Laws or Regulations, whichever is greater.

3. contain a provision or endorsement that the coverage afforded will not be canceled, materially changed, or renewal refused until at least 10 days prior written notice has been given to Contractor. Within three days of receipt of any such written notice, Contractor shall provide a copy of the notice to Owner, Engineer, and each other insured under the policy.

4. remain in effect at least until final payment (and longer if expressly required in this Article) and at all times thereafter when Contractor may be correcting, removing, or replacing defective Work as a warranty or correction obligation, or otherwise, or returning to the Site to conduct other tasks arising from the Contract Documents.

5. be appropriate for the Work being performed and provide protection from claims that may arise out of or result from Contractor's performance of the Work and Contractor's other obligations under the Contract Documents, whether it is to be performed by Contractor, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable.

J. The coverage requirements for specific policies of insurance must be met by such policies, and not by reference to excess or umbrella insurance provided in other policies.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.04 *Owner's Liability Insurance*

A. In addition to the insurance required to be provided by Contractor under Paragraph 6.03, Owner, at Owner's option, may purchase and maintain at Owner's expense Owner's own liability insurance as will protect Owner against claims which may arise from operations under the Contract Documents.

B. Owner's liability policies, if any, operate separately and independently from policies required to be provided by Contractor, and Contractor cannot rely upon Owner's liability policies for any of Contractor's obligations to the Owner, Engineer, or third parties.

6.05 *Property Insurance*

A. *Builder's Risk*: Unless otherwise provided in the Supplementary Conditions, Contractor shall purchase and maintain builder's risk insurance upon the Work on a completed value basis, in the amount of the full insurable replacement cost thereof (subject to such deductible amounts as may be provided in the Supplementary Conditions or required by Laws and Regulations). This insurance shall:

1. include the Owner and Contractor as named insureds, and all Subcontractors, and any individuals or entities required by the Supplementary Conditions to be insured under such builder's risk policy, as insureds or named insureds. For purposes of the remainder of this Paragraph 6.05, Paragraphs 6.06 and 6.07, and any corresponding Supplementary Conditions, the parties required to be insured shall collectively be referred to as "insureds."

2. be written on a builder's risk "all risk" policy form that shall at least include insurance for physical loss or damage to the Work, temporary buildings, falsework, and materials and equipment in transit, and shall insure against at least the following perils or causes of loss: fire; lightning; windstorm; riot; civil commotion; terrorism; vehicle impact; aircraft; smoke; theft; vandalism and malicious mischief; mechanical breakdown, boiler explosion, and artificially generated electric current; earthquake; volcanic activity, and other earth movement; flood; collapse; explosion; debris removal; demolition occasioned by enforcement of Laws and Regulations; water damage (other than that caused by flood); and such other perils or causes of loss as may be specifically required by the Supplementary Conditions. If insurance against mechanical breakdown, boiler explosion, and artificially generated electric current; earthquake; volcanic activity, and other earth movement; or flood, are not commercially available under builder's risk policies, by endorsement or otherwise, such insurance may be provided through other insurance policies acceptable to Owner and Contractor.

3. cover, as insured property, at least the following: (a) the Work and all materials, supplies, machinery, apparatus, equipment, fixtures, and other property of a similar nature that are to be incorporated into or used in the preparation, fabrication, construction, erection, or completion of the Work, including Owner-furnished or assigned property; (b) spare parts inventory required within the scope of the Contract; and (c) temporary works which are not intended to form part of the permanent constructed Work but which are intended to provide working access to the Site, or to the Work under construction, or which are intended to provide temporary support for the Work under construction, including scaffolding, form work, fences, shoring, falsework, and temporary structures.

4. cover expenses incurred in the repair or replacement of any insured property (including but not limited to fees and charges of engineers and architects).

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5. extend to cover damage or loss to insured property while in temporary storage at the Site or in a storage location outside the Site (but not including property stored at the premises of a manufacturer or Supplier).

6. extend to cover damage or loss to insured property while in transit.

7. allow for partial occupation or use of the Work by Owner, such that those portions of the Work that are not yet occupied or used by Owner shall remain covered by the builder's risk insurance.

8. allow for the waiver of the insurer's subrogation rights, as set forth below.

9. provide primary coverage for all losses and damages caused by the perils or causes of loss covered.

10. not include a co-insurance clause.

11. include an exception for ensuing losses from physical damage or loss with respect to any defective workmanship, design, or materials exclusions.

12. include performance/hot testing and start-up.

13. be maintained in effect, subject to the provisions herein regarding Substantial Completion and partial occupancy or use of the Work by Owner, until the Work is complete.

B. *Notice of Cancellation or Change*: All the policies of insurance (and the certificates or other evidence thereof) required to be purchased and maintained in accordance with this Paragraph 6.05 will contain a provision or endorsement that the coverage afforded will not be canceled or materially changed or renewal refused until at least 10 days prior written notice has been given to the purchasing policyholder. Within three days of receipt of any such written notice, the purchasing policyholder shall provide a copy of the notice to each other insured.

C. *Deductibles*: The purchaser of any required builder's risk or property insurance shall pay for costs not covered because of the application of a policy deductible.

D. *Partial Occupancy or Use by Owner*: If Owner will occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work as provided in Paragraph 15.04, then Owner (directly, if it is the purchaser of the builder's risk policy, or through Contractor) will provide notice of such occupancy or use to the builder's risk insurer. The builder's risk insurance shall not be canceled or permitted to lapse on account of any such partial use or occupancy; rather, those portions of the Work that are occupied or used by Owner may come off the builder's risk policy, while those portions of the Work not yet occupied or used by Owner shall remain covered by the builder's risk insurance.

E. *Additional Insurance*: If Contractor elects to obtain other special insurance to be included in or supplement the builder's risk or property insurance policies provided under this Paragraph 6.05, it may do so at Contractor's expense.

F. *Insurance of Other Property*: If the express insurance provisions of the Contract do not require or address the insurance of a property item or interest, such as tools, construction equipment, or other personal property owned by Contractor, a Subcontractor, or an employee of Contractor or a Subcontractor, then the entity or individual owning such property item will be responsible for deciding whether to insure it, and if so in what amount.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.06 *Waiver of Rights*

A. All policies purchased in accordance with Paragraph 6.05, expressly including the builder's risk policy, shall contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any insureds thereunder, or against Engineer or its consultants, or their officers, directors, members, partners, employees, agents, consultants, or subcontractors. Owner and Contractor waive all rights against each other and the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, or resulting from any of the perils or causes of loss covered by such policies and any other property insurance applicable to the Work; and, in addition, waive all such rights against Engineer, its consultants, all Subcontractors, all individuals or entities identified in the Supplementary Conditions as insureds, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, under such policies for losses and damages so caused. None of the above waivers shall extend to the rights that any party making such waiver may have to the proceeds of insurance held by Owner or Contractor as trustee or fiduciary, or otherwise payable under any policy so issued.

B. Owner waives all rights against Contractor, Subcontractors, and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them, for:

1. loss due to business interruption, loss of use, or other consequential loss extending beyond direct physical loss or damage to Owner's property or the Work caused by, arising out of, or resulting from fire or other perils whether or not insured by Owner; and

2. loss or damage to the completed Project or part thereof caused by, arising out of, or resulting from fire or other insured peril or cause of loss covered by any property insurance maintained on the completed Project or part thereof by Owner during partial occupancy or use pursuant to Paragraph 15.04, after Substantial Completion pursuant to Paragraph 15.03, or after final payment pursuant to Paragraph 15.06.

C. Any insurance policy maintained by Owner covering any loss, damage or consequential loss referred to in Paragraph 6.06.B shall contain provisions to the effect that in the event of payment of any such loss, damage, or consequential loss, the insurers will have no rights of recovery against Contractor, Subcontractors, or Engineer, or the officers, directors, members, partners, employees, agents, consultants, or subcontractors of each and any of them.

D. Contractor shall be responsible for assuring that the agreement under which a Subcontractor performs a portion of the Work contains provisions whereby the Subcontractor waives all rights against Owner, Contractor, all individuals or entities identified in the Supplementary Conditions as insureds, the Engineer and its consultants, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, relating to, or resulting from any of the perils or causes of loss covered by builder's risk insurance and any other property insurance applicable to the Work.

6.07 *Receipt and Application of Property Insurance Proceeds*

A. Any insured loss under the builder's risk and other policies of insurance required by Paragraph 6.05 will be adjusted and settled with the named insured that purchased the

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

policy. Such named insured shall act as fiduciary for the other insureds, and give notice to such other insureds that adjustment and settlement of a claim is in progress. Any other insured may state its position regarding a claim for insured loss in writing within 15 days after notice of such claim.

B. Proceeds for such insured losses may be made payable by the insurer either jointly to multiple insureds, or to the named insured that purchased the policy in its own right and as fiduciary for other insureds, subject to the requirements of any applicable mortgage clause. A named insured receiving insurance proceeds under the builder's risk and other policies of insurance required by Paragraph 6.05 shall distribute such proceeds in accordance with such agreement as the parties in interest may reach, or as otherwise required under the dispute resolution provisions of this Contract or applicable Laws and Regulations.

C. If no other special agreement is reached, the damaged Work shall be repaired or replaced, the money so received applied on account thereof, and the Work and the cost thereof covered by Change Order, if needed.

ARTICLE 7 – CONTRACTOR'S RESPONSIBILITIES

7.01 *Supervision and Superintendence*

A. Contractor shall supervise, inspect, and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction.

B. At all times during the progress of the Work, Contractor shall assign a competent resident superintendent who shall not be replaced without written notice to Owner and Engineer except under extraordinary circumstances.

7.02 *Labor; Working Hours*

A. Contractor shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. Contractor shall at all times maintain good discipline and order at the Site.

B. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site shall be performed during regular working hours, Monday through Friday. Contractor will not perform Work on a Saturday, Sunday, or any legal holiday. Contractor may perform Work outside regular working hours or on Saturdays, Sundays, or legal holidays only with Owner's written consent, which will not be unreasonably withheld.

7.03 *Services, Materials, and Equipment*

A. Unless otherwise specified in the Contract Documents, Contractor shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start up, and completion of the Work, whether or not such items are specifically called for in the Contract Documents.

B. All materials and equipment incorporated into the Work shall be of good quality and new, except as otherwise provided in the Contract Documents. All special warranties and

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

guarantees required by the Specifications shall expressly run to the benefit of Owner. If required by Engineer, Contractor shall furnish satisfactory evidence (including reports of required tests) as to the source, kind, and quality of materials and equipment.

C. All materials and equipment shall be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with instructions of the applicable Supplier, except as otherwise may be provided in the Contract Documents.

7.04 *"Or Equals"*

A. Whenever an item of material or equipment is specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular Supplier, the Contract Price has been based upon Contractor furnishing such item as specified. The specification or description of such an item is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or equal" item is permitted, Contractor may request that Engineer authorize the use of other items of material or equipment, or items from other proposed suppliers under the circumstances described below.

1. If Engineer in its sole discretion determines that an item of material or equipment proposed by Contractor is functionally equal to that named and sufficiently similar so that no change in related Work will be required, Engineer shall deem it an "or equal" item. For the purposes of this paragraph, a proposed item of material or equipment will be considered functionally equal to an item so named if:

a. in the exercise of reasonable judgment Engineer determines that:

1) it is at least equal in materials of construction, quality, durability, appearance, strength, and design characteristics;

2) it will reliably perform at least equally well the function and achieve the results imposed by the design concept of the completed Project as a functioning whole;

3) it has a proven record of performance and availability of responsive service; and

4) it is not objectionable to Owner.

b. Contractor certifies that, if approved and incorporated into the Work:

1) there will be no increase in cost to the Owner or increase in Contract Times; and

2) it will conform substantially to the detailed requirements of the item named in the Contract Documents.

B. *Contractor's Expense*: Contractor shall provide all data in support of any proposed "or equal" item at Contractor's expense.

C. *Engineer's Evaluation and Determination*: Engineer will be allowed a reasonable time to evaluate each "or-equal" request. Engineer may require Contractor to furnish additional data about the proposed "or-equal" item. Engineer will be the sole judge of acceptability. No "or-equal" item will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer determines that the proposed item is an "or-equal", which will be evidenced by an approved Shop Drawing or other written communication. Engineer will advise Contractor in writing of any negative determination.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. *Effect of Engineer's Determination*: Neither approval nor denial of an "or-equal" request shall result in any change in Contract Price. The Engineer's denial of an "or-equal" request shall be final and binding, and may not be reversed through an appeal under any provision of the Contract Documents.

E. *Treatment as a Substitution Request*: If Engineer determines that an item of material or equipment proposed by Contractor does not qualify as an "or-equal" item, Contractor may request that Engineer considered the proposed item as a substitute pursuant to Paragraph 7.05.

7.05 *Substitutes*

A. Unless the specification or description of an item of material or equipment required to be furnished under the Contract Documents contains or is followed by words reading that no substitution is permitted, Contractor may request that Engineer authorize the use of other items of material or equipment under the circumstances described below. To the extent possible such requests shall be made before commencement of related construction at the Site.

1. Contractor shall submit sufficient information as provided below to allow Engineer to determine if the item of material or equipment proposed is functionally equivalent to that named and an acceptable substitute therefor. Engineer will not accept requests for review of proposed substitute items of material or equipment from anyone other than Contractor.

2. The requirements for review by Engineer will be as set forth in Paragraph 7.05.B, as supplemented by the Specifications, and as Engineer may decide is appropriate under the circumstances.

3. Contractor shall make written application to Engineer for review of a proposed substitute item of material or equipment that Contractor seeks to furnish or use. The application:

a. shall certify that the proposed substitute item will:

1) perform adequately the functions and achieve the results called for by the general design,

2) be similar in substance to that specified, and

3) be suited to the same use as that specified.

b. will state:

1) the extent, if any, to which the use of the proposed substitute item will necessitate a change in Contract Times,

2) whether use of the proposed substitute item in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with Owner for other work on the Project) to adapt the design to the proposed substitute item, and

3) whether incorporation or use of the proposed substitute item in connection with the Work is subject to payment of any license fee or royalty.

c. will identify:

1) all variations of the proposed substitute item from that specified, and

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2) available engineering, sales, maintenance, repair, and replacement services.

d. shall contain an itemized estimate of all costs or credits that will result directly or indirectly from use of such substitute item, including but not limited to changes in Contract Price, shared savings, costs of redesign, and claims of other contractors affected by any resulting change.

B. *Engineer's Evaluation and Determination*: Engineer will be allowed a reasonable time to evaluate each substitute request, and to obtain comments and direction from Owner. Engineer may require Contractor to furnish additional data about the proposed substitute item. Engineer will be the sole judge of acceptability. No substitute will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer determines that the proposed item is an acceptable substitute. Engineer's determination will be evidenced by a Field Order or a proposed Change Order accounting for the substitution itself and all related impacts, including changes in Contract Price or Contract Times. Engineer will advise Contractor in writing of any negative determination.

C. *Special Guarantee*: Owner may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

D. *Reimbursement of Engineer's Cost*: Engineer will record Engineer's costs in evaluating a substitute proposed or submitted by Contractor. Whether or not Engineer approves a substitute so proposed or submitted by Contractor, Contractor shall reimburse Owner for the reasonable charges of Engineer for evaluating each such proposed substitute. Contractor shall also reimburse Owner for the reasonable charges of Engineer for making changes in the Contract Documents (or in the provisions of any other direct contract with Owner) resulting from the acceptance of each proposed substitute.

E. *Contractor's Expense*: Contractor shall provide all data in support of any proposed substitute at Contractor's expense.

F. *Effect of Engineer's Determination*: If Engineer approves the substitution request, Contractor shall execute the proposed Change Order and proceed with the substitution. The Engineer's denial of a substitution request shall be final and binding, and may not be reversed through an appeal under any provision of the Contract Documents. Contractor may challenge the scope of reimbursement costs imposed under Paragraph 7.05.D, by timely submittal of a Change Proposal.

7.06 *Concerning Subcontractors, Suppliers, and Others*

A. Contractor may retain Subcontractors and Suppliers for the performance of parts of the Work. Such Subcontractors and Suppliers must be acceptable to Owner.

B. Contractor shall retain specific Subcontractors, Suppliers, or other individuals or entities for the performance of designated parts of the Work if required by the Contract to do so.

C. Subsequent to the submittal of Contractor's Bid or final negotiation of the terms of the Contract, Owner may not require Contractor to retain any Subcontractor, Supplier, or other individual or entity to furnish or perform any of the Work against which Contractor has reasonable objection.

D. Prior to entry into any binding subcontract or purchase order, Contractor shall submit to Owner the identity of the proposed Subcontractor or Supplier (unless Owner has already deemed such proposed Subcontractor or Supplier acceptable, during the bidding process or otherwise). Such proposed Subcontractor or Supplier shall be deemed acceptable to Owner unless Owner raises a substantive, reasonable objection within five days.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. Owner may require the replacement of any Subcontractor, Supplier, or other individual or entity retained by Contractor to perform any part of the Work. Owner also may require Contractor to retain specific replacements; provided, however, that Owner may not require a replacement to which Contractor has a reasonable objection. If Contractor has submitted the identity of certain Subcontractors, Suppliers, or other individuals or entities for acceptance by Owner, and Owner has accepted it (either in writing or by failing to make written objection thereto), then Owner may subsequently revoke the acceptance of any such Subcontractor, Supplier, or other individual or entity so identified solely on the basis of substantive, reasonable objection after due investigation. Contractor shall submit an acceptable replacement for the rejected Subcontractor, Supplier, or other individual or entity.

F. If Owner requires the replacement of any Subcontractor, Supplier, or other individual or entity retained by Contractor to perform any part of the Work, then Contractor shall be entitled to an adjustment in Contract Price or Contract Times, or both, with respect to the replacement; and Contractor shall initiate a Change Proposal for such adjustment within 30 days of Owner's requirement of replacement.

G. No acceptance by Owner of any such Subcontractor, Supplier, or other individual or entity, whether initially or as a replacement, shall constitute a waiver of the right of Owner to the completion of the Work in accordance with the Contract Documents.

H. On a monthly basis Contractor shall submit to Engineer a complete list of all Subcontractors and Suppliers having a direct contract with Contractor, and of all other Subcontractors and Suppliers known to Contractor at the time of submittal.

I. Contractor shall be fully responsible to Owner and Engineer for all acts and omissions of the Subcontractors, Suppliers, and other individuals or entities performing or furnishing any of the Work just as Contractor is responsible for Contractor's own acts and omissions.

J. Contractor shall be solely responsible for scheduling and coordinating the work of Subcontractors, Suppliers, and all other individuals or entities performing or furnishing any of the Work.

K. Contractor shall restrict all Subcontractors, Suppliers, and such other individuals or entities performing or furnishing any of the Work from communicating with Engineer or Owner, except through Contractor or in case of an emergency, or as otherwise expressly allowed herein.

L. The divisions and sections of the Specifications and the identifications of any Drawings shall not control Contractor in dividing the Work among Subcontractors or Suppliers or delineating the Work to be performed by any specific trade.

M. All Work performed for Contractor by a Subcontractor or Supplier shall be pursuant to an appropriate contractual agreement that specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract Documents for the benefit of Owner and Engineer.

N. Owner may furnish to any Subcontractor or Supplier, to the extent practicable, information about amounts paid to Contractor on account of Work performed for Contractor by the particular Subcontractor or Supplier.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

O. Nothing in the Contract Documents:

1. shall create for the benefit of any such Subcontractor, Supplier, or other individual or entity any contractual relationship between Owner or Engineer and any such Subcontractor, Supplier, or other individual or entity; nor

2. shall create any obligation on the part of Owner or Engineer to pay or to see to the payment of any money due any such Subcontractor, Supplier, or other individual or entity except as may otherwise be required by Laws and Regulations.

7.07 *Patent Fees and Royalties*

A. Contractor shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product, or device is specified in the Contract Documents for use in the performance of the Work and if, to the actual knowledge of Owner or Engineer, its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by Owner in the Contract Documents.

B. To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Contractor, and its officers, directors, members, partners, employees, agents, consultants, and subcontractors from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device specified in the Contract Documents, but not identified as being subject to payment of any license fee or royalty to others required by patent rights or copyrights.

C. To the fullest extent permitted by Laws and Regulations, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents.

7.08 *Permits*

A. Unless otherwise provided in the Contract Documents, Contractor shall obtain and pay for all construction permits and licenses. Owner shall assist Contractor, when necessary, in obtaining such permits and licenses. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work which are applicable at the time of the submission of Contractor's Bid (or when Contractor became bound under a negotiated contract). Owner shall pay all charges of utility owners for connections for providing permanent service to the Work

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

7.09 *Taxes*

A. Contractor shall pay all sales, consumer, use, and other similar taxes required to be paid by Contractor in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work.

7.10 *Laws and Regulations*

A. Contractor shall give all notices required by and shall comply with all Laws and Regulations applicable to the performance of the Work. Except where otherwise expressly required by applicable Laws and Regulations, neither Owner nor Engineer shall be responsible for monitoring Contractor's compliance with any Laws or Regulations.

B. If Contractor performs any Work or takes any other action knowing or having reason to know that it is contrary to Laws or Regulations, Contractor shall bear all resulting costs and losses, and shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such Work or other action. It shall not be Contractor's responsibility to make certain that the Work described in the Contract Documents is in accordance with Laws and Regulations, but this shall not relieve Contractor of Contractor's obligations under Paragraph 3.03.

C. Owner or Contractor may give notice to the other party of any changes after the submission of Contractor's Bid (or after the date when Contractor became bound under a negotiated contract) in Laws or Regulations having an effect on the cost or time of performance of the Work, including but not limited to changes in Laws or Regulations having an effect on procuring permits and on sales, use, value-added, consumption, and other similar taxes. If Owner and Contractor are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times resulting from such changes, then within 30 days of such notice Contractor may submit a Change Proposal, or Owner may initiate a Claim.

7.11 *Record Documents*

A. Contractor shall maintain in a safe place at the Site one printed record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, written interpretations and clarifications, and approved Shop Drawings. Contractor shall keep such record documents in good order and annotate them to show changes made during construction. These record documents, together with all approved Samples, will be available to Engineer for reference. Upon completion of the Work, Contractor shall deliver these record documents to Engineer.

7.12 *Safety and Protection*

A. Contractor shall be solely responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Such responsibility does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with applicable safety Laws and Regulations. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

1. all persons on the Site or who may be affected by the Work;

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, other work in progress, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

B. Contractor shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary safeguards for such safety and protection. Contractor shall notify Owner; the owners of adjacent property, Underground Facilities, and other utilities; and other contractors and utility owners performing work at or adjacent to the Site, when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property or work in progress.

C. Contractor shall comply with the applicable requirements of Owner's safety programs, if any. The Supplementary Conditions identify any Owner's safety programs that are applicable to the Work.

D. Contractor shall inform Owner and Engineer of the specific requirements of Contractor's safety program with which Owner's and Engineer's employees and representatives must comply while at the Site.

E. All damage, injury, or loss to any property referred to in Paragraph 7.12.A.2 or 7.12.A.3 caused, directly or indirectly, in whole or in part, by Contractor, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, shall be remedied by Contractor at its expense (except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of Owner or Engineer or anyone employed by any of them, or anyone for whose acts any of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of Contractor or any Subcontractor, Supplier, or other individual or entity directly or indirectly employed by any of them).

F. Contractor's duties and responsibilities for safety and protection shall continue until such time as all the Work is completed and Engineer has issued a notice to Owner and Contractor in accordance with Paragraph 15.06.B that the Work is acceptable (except as otherwise expressly provided in connection with Substantial Completion).

G. Contractor's duties and responsibilities for safety and protection shall resume whenever Contractor or any Subcontractor or Supplier returns to the Site to fulfill warranty or correction obligations, or to conduct other tasks arising from the Contract Documents.

7.13 *Safety Representative*

A. Contractor shall designate a qualified and experienced safety representative at the Site whose duties and responsibilities shall be the prevention of accidents and the maintaining and supervising of safety precautions and programs.

7.14 *Hazard Communication Programs*

A. Contractor shall be responsible for coordinating any exchange of material safety data sheets or other hazard communication information required to be made available to or

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

exchanged between or among employers at the Site in accordance with Laws or Regulations.

7.15 *Emergencies*

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, Contractor is obligated to act to prevent threatened damage, injury, or loss. Contractor shall give Engineer prompt written notice if Contractor believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby or are required as a result thereof. If Engineer determines that a change in the Contract Documents is required because of the action taken by Contractor in response to such an emergency, a Work Change Directive or Change Order will be issued.

7.16 *Shop Drawings, Samples, and Other Submittals*

A. *Shop Drawing and Sample Submittal Requirements*:

1. Before submitting a Shop Drawing or Sample, Contractor shall have:

a. reviewed and coordinated the Shop Drawing or Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents;

b. determined and verified all field measurements, quantities, dimensions, specified performance and design criteria, installation requirements, materials, catalog numbers, and similar information with respect thereto;

c. determined and verified the suitability of all materials and equipment offered with respect to the indicated application, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work; and

d. determined and verified all information relative to Contractor's responsibilities for means, methods, techniques, sequences, and procedures of construction, and safety precautions and programs incident thereto.

2. Each submittal shall bear a stamp or specific written certification that Contractor has satisfied Contractor's obligations under the Contract Documents with respect to Contractor's review of that submittal, and that Contractor approves the submittal.

3. With each submittal, Contractor shall give Engineer specific written notice of any variations that the Shop Drawing or Sample may have from the requirements of the Contract Documents. This notice shall be set forth in a written communication separate from the Shop Drawings or Sample submittal; and, in addition, in the case of Shop Drawings by a specific notation made on each Shop Drawing submitted to Engineer for review and approval of each such variation.

B. *Submittal Procedures for Shop Drawings and Samples*: Contractor shall submit Shop Drawings and Samples to Engineer for review and approval in accordance with the accepted Schedule of Submittals. Each submittal will be identified as Engineer may require.

1. *Shop Drawings*:

a. Contractor shall submit the number of copies required in the Specifications.

b. Data shown on the Shop Drawings will be complete with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to show Engineer the services, materials, and equipment Contractor proposes to

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

provide and to enable Engineer to review the information for the limited purposes required by Paragraph 7.16.D.

2. *Samples*:

   a. Contractor shall submit the number of Samples required in the Specifications.

   b. Contractor shall clearly identify each Sample as to material, Supplier, pertinent data such as catalog numbers, the use for which intended and other data as Engineer may require to enable Engineer to review the submittal for the limited purposes required by Paragraph 7.16.D.

3. Where a Shop Drawing or Sample is required by the Contract Documents or the Schedule of Submittals, any related Work performed prior to Engineer's review and approval of the pertinent submittal will be at the sole expense and responsibility of Contractor.

C. *Other Submittals*: Contractor shall submit other submittals to Engineer in accordance with the accepted Schedule of Submittals, and pursuant to the applicable terms of the Specifications.

D. *Engineer's Review*:

1. Engineer will provide timely review of Shop Drawings and Samples in accordance with the Schedule of Submittals acceptable to Engineer. Engineer's review and approval will be only to determine if the items covered by the submittals will, after installation or incorporation in the Work, conform to the information given in the Contract Documents and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. Engineer's review and approval will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions or programs incident thereto.

3. Engineer's review and approval of a separate item as such will not indicate approval of the assembly in which the item functions.

4. Engineer's review and approval of a Shop Drawing or Sample shall not relieve Contractor from responsibility for any variation from the requirements of the Contract Documents unless Contractor has complied with the requirements of Paragraph 7.16.A.3 and Engineer has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample. Engineer will document any such approved variation from the requirements of the Contract Documents in a Field Order.

5. Engineer's review and approval of a Shop Drawing or Sample shall not relieve Contractor from responsibility for complying with the requirements of Paragraph 7.16.A and B.

6. Engineer's review and approval of a Shop Drawing or Sample, or of a variation from the requirements of the Contract Documents, shall not, under any circumstances, change the Contract Times or Contract Price, unless such changes are included in a Change Order.

7. Neither Engineer's receipt, review, acceptance or approval of a Shop Drawing, Sample, or other submittal shall result in such item becoming a Contract Document.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

8. Contractor shall perform the Work in compliance with the requirements and commitments set forth in approved Shop Drawings and Samples, subject to the provisions of Paragraph 7.16.D.4.

E. *Resubmittal Procedures*:

1. Contractor shall make corrections required by Engineer and shall return the required number of corrected copies of Shop Drawings and submit, as required, new Samples for review and approval. Contractor shall direct specific attention in writing to revisions other than the corrections called for by Engineer on previous submittals.

2. Contractor shall furnish required submittals with sufficient information and accuracy to obtain required approval of an item with no more than three submittals. Engineer will record Engineer's time for reviewing a fourth or subsequent submittal of a Shop Drawings, sample, or other item requiring approval, and Contractor shall be responsible for Engineer's charges to Owner for such time. Owner may impose a set-off against payments due to Contractor to secure reimbursement for such charges.

3. If Contractor requests a change of a previously approved submittal item, Contractor shall be responsible for Engineer's charges to Owner for its review time, and Owner may impose a set-off against payments due to Contractor to secure reimbursement for such charges, unless the need for such change is beyond the control of Contractor.

7.17 *Contractor's General Warranty and Guarantee*

A. Contractor warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Engineer and its officers, directors, members, partners, employees, agents, consultants, and subcontractors shall be entitled to rely on Contractor's warranty and guarantee.

B. Contractor's warranty and guarantee hereunder excludes defects or damage caused by:

1. abuse, modification, or improper maintenance or operation by persons other than Contractor, Subcontractors, Suppliers, or any other individual or entity for whom Contractor is responsible; or

2. normal wear and tear under normal usage.

C. Contractor's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute. None of the following will constitute an acceptance of Work that is not in accordance with the Contract Documents or a release of Contractor's obligation to perform the Work in accordance with the Contract Documents:

1. observations by Engineer;

2. recommendation by Engineer or payment by Owner of any progress or final payment;

3. the issuance of a certificate of Substantial Completion by Engineer or any payment related thereto by Owner;

4. use or occupancy of the Work or any part thereof by Owner;

5. any review and approval of a Shop Drawing or Sample submittal;

6. the issuance of a notice of acceptability by Engineer;

7. any inspection, test, or approval by others; or

8. any correction of defective Work by Owner.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. If the Contract requires the Contractor to accept the assignment of a contract entered into by Owner, then the specific warranties, guarantees, and correction obligations contained in the assigned contract shall govern with respect to Contractor's performance obligations to Owner for the Work described in the assigned contract.

7.18 *Indemnification*

A. To the fullest extent permitted by Laws and Regulations, and in addition to any other obligations of Contractor under the Contract or otherwise, Contractor shall indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to the performance of the Work, provided that any such claim, cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom but only to the extent caused by any negligent act or omission of Contractor, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work or anyone for whose acts any of them may be liable.

B. In any and all claims against Owner or Engineer or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors by any employee (or the survivor or personal representative of such employee) of Contractor, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under Paragraph 7.18.A shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for Contractor or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

C. The indemnification obligations of Contractor under Paragraph 7.18.A shall not extend to the liability of Engineer and Engineer's officers, directors, members, partners, employees, agents, consultants and subcontractors arising out of:

1. the preparation or approval of, or the failure to prepare or approve maps, Drawings, opinions, reports, surveys, Change Orders, designs, or Specifications; or

2. giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage.

7.19 *Delegation of Professional Design Services*

A. Contractor will not be required to provide professional design services unless such services are specifically required by the Contract Documents for a portion of the Work or unless such services are required to carry out Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. Contractor shall not be required to provide professional services in violation of applicable Laws and Regulations.

B. If professional design services or certifications by a design professional related to systems, materials, or equipment are specifically required of Contractor by the Contract Documents, Owner and Engineer will specify all performance and design criteria that such services must satisfy. Contractor shall cause such services or certifications to be provided by a properly licensed professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, and other submittals prepared by such professional. Shop

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to Engineer.

C. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy, and completeness of the services, certifications, or approvals performed by such design professionals, provided Owner and Engineer have specified to Contractor all performance and design criteria that such services must satisfy.

D. Pursuant to this paragraph, Engineer's review and approval of design calculations and design drawings will be only for the limited purpose of checking for conformance with performance and design criteria given and the design concept expressed in the Contract Documents. Engineer's review and approval of Shop Drawings and other submittals (except design calculations and design drawings) will be only for the purpose stated in Paragraph 7.16.D.1.

E. Contractor shall not be responsible for the adequacy of the performance or design criteria specified by Owner or Engineer.

ARTICLE 8 – OTHER WORK AT THE SITE

8.01 *Other Work*

A. In addition to and apart from the Work under the Contract Documents, the Owner may perform other work at or adjacent to the Site. Such other work may be performed by Owner's employees, or through contracts between the Owner and third parties. Owner may also arrange to have third-party utility owners perform work on their utilities and facilities at or adjacent to the Site.

B. If Owner performs other work at or adjacent to the Site with Owner's employees, or through contracts for such other work, then Owner shall give Contractor written notice thereof prior to starting any such other work. If Owner has advance information regarding the start of any utility work at or adjacent to the Site, Owner shall provide such information to Contractor.

C. Contractor shall afford each other contractor that performs such other work, each utility owner performing other work, and Owner, if Owner is performing other work with Owner's employees, proper and safe access to the Site, and provide a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work. Contractor shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating, or otherwise altering such work; provided, however, that Contractor may cut or alter others' work with the written consent of Engineer and the others whose work will be affected.

D. If the proper execution or results of any part of Contractor's Work depends upon work performed by others under this Article 8, Contractor shall inspect such other work and promptly report to Engineer in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of Contractor's Work. Contractor's failure to so report will constitute an acceptance of such other work as fit and proper for integration with Contractor's Work except for latent defects and deficiencies in such other work.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

8.02 *Coordination*

A. If Owner intends to contract with others for the performance of other work at or adjacent to the Site, to perform other work at or adjacent to the Site with Owner's employees, or to arrange to have utility owners perform work at or adjacent to the Site, the following will be set forth in the Supplementary Conditions or provided to Contractor prior to the start of any such other work:

1. the identity of the individual or entity that will have authority and responsibility for coordination of the activities among the various contractors;

2. an itemization of the specific matters to be covered by such authority and responsibility; and

3. the extent of such authority and responsibilities.

B. Unless otherwise provided in the Supplementary Conditions, Owner shall have sole authority and responsibility for such coordination.

8.03 *Legal Relationships*

A. If, in the course of performing other work at or adjacent to the Site for Owner, the Owner's employees, any other contractor working for Owner, or any utility owner for whom the Owner is responsible causes damage to the Work or to the property of Contractor or its Subcontractors, or delays, disrupts, interferes with, or increases the scope or cost of the performance of the Work, through actions or inaction, then Contractor shall be entitled to an equitable adjustment in the Contract Price or the Contract Times, or both. Contractor must submit any Change Proposal seeking an equitable adjustment in the Contract Price or the Contract Times under this paragraph within 30 days of the damaging, delaying, disrupting, or interfering event. The entitlement to, and extent of, any such equitable adjustment shall take into account information (if any) regarding such other work that was provided to Contractor in the Contract Documents prior to the submittal of the Bid or the final negotiation of the terms of the Contract. When applicable, any such equitable adjustment in Contract Price shall be conditioned on Contractor assigning to Owner all Contractor's rights against such other contractor or utility owner with respect to the damage, delay, disruption, or interference that is the subject of the adjustment. Contractor's entitlement to an adjustment of the Contract Times is conditioned on such adjustment being essential to Contractor's ability to complete the Work within the Contract Times.

B. Contractor shall take reasonable and customary measures to avoid damaging, delaying, disrupting, or interfering with the work of Owner, any other contractor, or any utility owner performing other work at or adjacent to the Site. If Contractor fails to take such measures and as a result damages, delays, disrupts, or interferes with the work of any such other contractor or utility owner, then Owner may impose a set-off against payments due to Contractor, and assign to such other contractor or utility owner the Owner's contractual rights against Contractor with respect to the breach of the obligations set forth in this paragraph.

C. When Owner is performing other work at or adjacent to the Site with Owner's employees, Contractor shall be liable to Owner for damage to such other work, and for the reasonable direct delay, disruption, and interference costs incurred by Owner as a result of Contractor's failure to take reasonable and customary measures with respect to Owner's other work. In response to such damage, delay, disruption, or interference, Owner may impose a set-off against payments due to Contractor.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

D. If Contractor damages, delays, disrupts, or interferes with the work of any other contractor, or any utility owner performing other work at or adjacent to the Site, through Contractor's failure to take reasonable and customary measures to avoid such impacts, or if any claim arising out of Contractor's actions, inactions, or negligence in performance of the Work at or adjacent to the Site is made by any such other contractor or utility owner against Contractor, Owner, or Engineer, then Contractor shall (1) promptly attempt to settle the claim as to all parties through negotiations with such other contractor or utility owner, or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law, and (2) indemnify and hold harmless Owner and Engineer, and the officers, directors, members, partners, employees, agents, consultants and subcontractors of each and any of them from and against any such claims, and against all costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such damage, delay, disruption, or interference.

ARTICLE 9 – OWNER'S RESPONSIBILITIES

9.01 *Communications to Contractor*

A. Except as otherwise provided in these General Conditions, Owner shall issue all communications to Contractor through Engineer.

9.02 *Replacement of Engineer*

A. Owner may at its discretion appoint an engineer to replace Engineer, provided Contractor makes no reasonable objection to the replacement engineer. The replacement engineer's status under the Contract Documents shall be that of the former Engineer.

9.03 *Furnish Data*

A. Owner shall promptly furnish the data required of Owner under the Contract Documents.

9.04 *Pay When Due*

A. Owner shall make payments to Contractor when they are due as provided in the Agreement.

9.05 *Lands and Easements; Reports, Tests, and Drawings*

A. Owner's duties with respect to providing lands and easements are set forth in Paragraph 5.01.

B. Owner's duties with respect to providing engineering surveys to establish reference points are set forth in Paragraph 4.03.

C. Article 5 refers to Owner's identifying and making available to Contractor copies of reports of explorations and tests of conditions at the Site, and drawings of physical conditions relating to existing surface or subsurface structures at the Site.

9.06 *Insurance*

A. Owner's responsibilities, if any, with respect to purchasing and maintaining liability and property insurance are set forth in Article 6.

9.07 *Change Orders*

A. Owner's responsibilities with respect to Change Orders are set forth in Article 11.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

9.08 *Inspections, Tests, and Approvals*

A. Owner's responsibility with respect to certain inspections, tests, and approvals is set forth in Paragraph 14.02.B.

9.09 *Limitations on Owner's Responsibilities*

A. The Owner shall not supervise, direct, or have control or authority over, nor be responsible for, Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Owner will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

9.10 *Undisclosed Hazardous Environmental Condition*

A. Owner's responsibility in respect to an undisclosed Hazardous Environmental Condition is set forth in Paragraph 5.06.

9.11 *Evidence of Financial Arrangements*

A. Upon request of Contractor, Owner shall furnish Contractor reasonable evidence that financial arrangements have been made to satisfy Owner's obligations under the Contract Documents (including obligations under proposed changes in the Work).

9.12 *Safety Programs*

A. While at the Site, Owner's employees and representatives shall comply with the specific applicable requirements of Contractor's safety programs of which Owner has been informed.

B. Owner shall furnish copies of any applicable Owner safety programs to Contractor.

ARTICLE 10 – ENGINEER'S STATUS DURING CONSTRUCTION

10.01 *Owner's Representative*

A. Engineer will be Owner's representative during the construction period. The duties and responsibilities and the limitations of authority of Engineer as Owner's representative during construction are set forth in the Contract.

10.02 *Visits to Site*

A. Engineer will make visits to the Site at intervals appropriate to the various stages of construction as Engineer deems necessary in order to observe as an experienced and qualified design professional the progress that has been made and the quality of the various aspects of Contractor's executed Work. Based on information obtained during such visits and observations, Engineer, for the benefit of Owner, will determine, in general, if the Work is proceeding in accordance with the Contract Documents. Engineer will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. Engineer's efforts will be directed toward providing for Owner a greater degree of confidence that the completed Work will conform generally to the Contract Documents. On the basis of such visits and observations, Engineer will keep Owner informed of the progress of the Work and will endeavor to guard Owner against defective Work.

B. Engineer's visits and observations are subject to all the limitations on Engineer's authority and responsibility set forth in Paragraph 10.08. Particularly, but without limitation, during

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

or as a result of Engineer's visits or observations of Contractor's Work, Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work.

10.03 *Project Representative*

A. If Owner and Engineer have agreed that Engineer will furnish a Resident Project Representative to represent Engineer at the Site and assist Engineer in observing the progress and quality of the Work, then the authority and responsibilities of any such Resident Project Representative will be as provided in the Supplementary Conditions, and limitations on the responsibilities thereof will be as provided in Paragraph 10.08. If Owner designates another representative or agent to represent Owner at the Site who is not Engineer's consultant, agent, or employee, the responsibilities and authority and limitations thereon of such other individual or entity will be as provided in the Supplementary Conditions.

10.04 *Rejecting Defective Work*

A. Engineer has the authority to reject Work in accordance with Article 14.

10.05 *Shop Drawings, Change Orders and Payments*

A. Engineer's authority, and limitations thereof, as to Shop Drawings and Samples, are set forth in Paragraph 7.16.

B. Engineer's authority, and limitations thereof, as to design calculations and design drawings submitted in response to a delegation of professional design services, if any, are set forth in Paragraph 7.19.

C. Engineer's authority as to Change Orders is set forth in Article 11.

D. Engineer's authority as to Applications for Payment is set forth in Article 15.

10.06 *Determinations for Unit Price Work*

A. Engineer will determine the actual quantities and classifications of Unit Price Work performed by Contractor as set forth in Paragraph 13.03.

10.07 *Decisions on Requirements of Contract Documents and Acceptability of Work*

A. Engineer will render decisions regarding the requirements of the Contract Documents, and judge the acceptability of the Work, pursuant to the specific procedures set forth herein for initial interpretations, Change Proposals, and acceptance of the Work. In rendering such decisions and judgments, Engineer will not show partiality to Owner or Contractor, and will not be liable to Owner, Contractor, or others in connection with any proceedings, interpretations, decisions, or judgments conducted or rendered in good faith.

10.08 *Limitations on Engineer's Authority and Responsibilities*

A. Neither Engineer's authority or responsibility under this Article 10 or under any other provision of the Contract, nor any decision made by Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Engineer, shall create, impose, or give rise to any duty in contract, tort, or otherwise owed by Engineer to Contractor, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. Engineer will not supervise, direct, control, or have authority over or be responsible for Contractor's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of Contractor to comply with Laws and Regulations applicable to the performance of the Work. Engineer will not be responsible for Contractor's failure to perform the Work in accordance with the Contract Documents.

C. Engineer will not be responsible for the acts or omissions of Contractor or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. Engineer's review of the final Application for Payment and accompanying documentation and all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by Paragraph 15.06.A will only be to determine generally that their content complies with the requirements of, and in the case of certificates of inspections, tests, and approvals, that the results certified indicate compliance with the Contract Documents.

E. The limitations upon authority and responsibility set forth in this Paragraph 10.08 shall also apply to the Resident Project Representative, if any.

10.09 *Compliance with Safety Program*

A. While at the Site, Engineer's employees and representatives will comply with the specific applicable requirements of Owner's and Contractor's safety programs (if any) of which Engineer has been informed.

ARTICLE 11 – AMENDING THE CONTRACT DOCUMENTS; CHANGES IN THE WORK

11.01 *Amending and Supplementing Contract Documents*

A. The Contract Documents may be amended or supplemented by a Change Order, a Work Change Directive, or a Field Order.

1. *Change Orders*:

a. If an amendment or supplement to the Contract Documents includes a change in the Contract Price or the Contract Times, such amendment or supplement must be set forth in a Change Order. A Change Order also may be used to establish amendments and supplements of the Contract Documents that do not affect the Contract Price or Contract Times.

b. Owner and Contractor may amend those terms and conditions of the Contract Documents that do not involve (1) the performance or acceptability of the Work, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, without the recommendation of the Engineer. Such an amendment shall be set forth in a Change Order.

2. *Work Change Directives*: A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the modification ordered or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order, following negotiations by the parties as to the Work Change Directive's effect, if any, on the Contract Price and Contract Times; or, if negotiations are unsuccessful, by a determination under the terms of the Contract Documents governing adjustments, expressly including Paragraph 11.04 regarding change of Contract Price. Contractor must submit any Change Proposal seeking an

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

adjustment of the Contract Price or the Contract Times, or both, no later than 30 days after the completion of the Work set out in the Work Change Directive. Owner must submit any Claim seeking an adjustment of the Contract Price or the Contract Times, or both, no later than 60 days after issuance of the Work Change Directive.

3. *Field Orders*: Engineer may authorize minor changes in the Work if the changes do not involve an adjustment in the Contract Price or the Contract Times and are compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. Such changes will be accomplished by a Field Order and will be binding on Owner and also on Contractor, which shall perform the Work involved promptly. If Contractor believes that a Field Order justifies an adjustment in the Contract Price or Contract Times, or both, then before proceeding with the Work at issue, Contractor shall submit a Change Proposal as provided herein.

11.02 *Owner-Authorized Changes in the Work*

A. Without invalidating the Contract and without notice to any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work. Such changes shall be supported by Engineer's recommendation, to the extent the change involves the design (as set forth in the Drawings, Specifications, or otherwise), or other engineering or technical matters. Such changes may be accomplished by a Change Order, if Owner and Contractor have agreed as to the effect, if any, of the changes on Contract Times or Contract Price; or by a Work Change Directive. Upon receipt of any such document, Contractor shall promptly proceed with the Work involved; or, in the case of a deletion in the Work, promptly cease construction activities with respect to such deleted Work. Added or revised Work shall be performed under the applicable conditions of the Contract Documents. Nothing in this paragraph shall obligate Contractor to undertake work that Contractor reasonably concludes cannot be performed in a manner consistent with Contractor's safety obligations under the Contract Documents or Laws and Regulations.

11.03 *Unauthorized Changes in the Work*

A. Contractor shall not be entitled to an increase in the Contract Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents, as amended, modified, or supplemented, except in the case of an emergency as provided in Paragraph 7.15 or in the case of uncovering Work as provided in Paragraph 14.05.

11.04 *Change of Contract Price*

A. The Contract Price may only be changed by a Change Order. Any Change Proposal for an adjustment in the Contract Price shall comply with the provisions of Paragraph 11.06. Any Claim for an adjustment of Contract Price shall comply with the provisions of Article 12.

B. An adjustment in the Contract Price will be determined as follows:

1. where the Work involved is covered by unit prices contained in the Contract Documents, then by application of such unit prices to the quantities of the items involved (subject to the provisions of Paragraph 13.03); or

2. where the Work involved is not covered by unit prices contained in the Contract Documents, then by a mutually agreed lump sum (which may include an allowance for overhead and profit not necessarily in accordance with Paragraph 11.04.C.2); or

3. where the Work involved is not covered by unit prices contained in the Contract Documents and the parties do not reach mutual agreement to a lump sum, then on

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

the basis of the Cost of the Work (determined as provided in Paragraph 13.01) plus a Contractor's fee for overhead and profit (determined as provided in Paragraph 11.04.C).

C. *Contractor's Fee*: When applicable, the Contractor's fee for overhead and profit shall be determined as follows:

1. a mutually acceptable fixed fee; or

2. if a fixed fee is not agreed upon, then a fee based on the following percentages of the various portions of the Cost of the Work:

a. for costs incurred under Paragraphs 13.01.B.1 and 13.01.B.2, the Contractor's fee shall be 15 percent;

b. for costs incurred under Paragraph 13.01.B.3, the Contractor's fee shall be five percent;

c. where one or more tiers of subcontracts are on the basis of Cost of the Work plus a fee and no fixed fee is agreed upon, the intent of Paragraphs 11.04.C.2.a and 11.04.C.2.b is that the Contractor's fee shall be based on: (1) a fee of 15 percent of the costs incurred under Paragraphs 13.01.A.1 and 13.01.A.2 by the Subcontractor that actually performs the Work, at whatever tier, and (2) with respect to Contractor itself and to any Subcontractors of a tier higher than that of the Subcontractor that actually performs the Work, a fee of five percent of the amount (fee plus underlying costs incurred) attributable to the next lower tier Subcontractor; provided, however, that for any such subcontracted work the maximum total fee to be paid by Owner shall be no greater than 27 percent of the costs incurred by the Subcontractor that actually performs the work;

d. no fee shall be payable on the basis of costs itemized under Paragraphs 13.01.B.4, 13.01.B.5, and 13.01.C;

e. the amount of credit to be allowed by Contractor to Owner for any change which results in a net decrease in cost will be the amount of the actual net decrease in cost plus a deduction in Contractor's fee by an amount equal to five percent of such net decrease; and

f. when both additions and credits are involved in any one change, the adjustment in Contractor's fee shall be computed on the basis of the net change in accordance with Paragraphs 11.04.C.2.a through 11.04.C.2.e, inclusive.

11.05 *Change of Contract Times*

A. The Contract Times may only be changed by a Change Order. Any Change Proposal for an adjustment in the Contract Times shall comply with the provisions of Paragraph 11.06. Any Claim for an adjustment in the Contract Times shall comply with the provisions of Article 12.

B. An adjustment of the Contract Times shall be subject to the limitations set forth in Paragraph 4.05, concerning delays in Contractor's progress.

11.06 *Change Proposals*

A. Contractor shall submit a Change Proposal to Engineer to request an adjustment in the Contract Times or Contract Price; appeal an initial decision by Engineer concerning the requirements of the Contract Documents or relating to the acceptability of the Work under the Contract Documents; contest a set-off against payment due; or seek other relief under

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

the Contract. The Change Proposal shall specify any proposed change in Contract Times or Contract Price, or both, or other proposed relief, and explain the reason for the proposed change, with citations to any governing or applicable provisions of the Contract Documents.

1. *Procedures*: Contractor shall submit each Change Proposal to Engineer promptly (but in no event later than 30 days) after the start of the event giving rise thereto, or after such initial decision. The Contractor shall submit supporting data, including the proposed change in Contract Price or Contract Time (if any), to the Engineer and Owner within 15 days after the submittal of the Change Proposal. The supporting data shall be accompanied by a written statement that the supporting data are accurate and complete, and that any requested time or price adjustment is the entire adjustment to which Contractor believes it is entitled as a result of said event. Engineer will advise Owner regarding the Change Proposal, and consider any comments or response from Owner regarding the Change Proposal.

2. *Engineer's Action*: Engineer will review each Change Proposal and, within 30 days after receipt of the Contractor's supporting data, either deny the Change Proposal in whole, approve it in whole, or deny it in part and approve it in part. Such actions shall be in writing, with a copy provided to Owner and Contractor. If Engineer does not take action on the Change Proposal within 30 days, then either Owner or Contractor may at any time thereafter submit a letter to the other party indicating that as a result of Engineer's inaction the Change Proposal is deemed denied, thereby commencing the time for appeal of the denial under Article 12.

3. *Binding Decision*: Engineer's decision will be final and binding upon Owner and Contractor, unless Owner or Contractor appeals the decision by filing a Claim under Article 12.

B. *Resolution of Certain Change Proposals*: If the Change Proposal does not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters, then Engineer will notify the parties that the Engineer is unable to resolve the Change Proposal. For purposes of further resolution of such a Change Proposal, such notice shall be deemed a denial, and Contractor may choose to seek resolution under the terms of Article 12.

11.07 *Execution of Change Orders*

A. Owner and Contractor shall execute appropriate Change Orders covering:

1. changes in the Contract Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work actually performed in accordance with a Work Change Directive;

2. changes in Contract Price resulting from an Owner set-off, unless Contractor has duly contested such set-off;

3. changes in the Work which are: (a) ordered by Owner pursuant to Paragraph 11.02, (b) required because of Owner's acceptance of defective Work under Paragraph 14.04 or Owner's correction of defective Work under Paragraph 14.07, or (c) agreed to by the parties, subject to the need for Engineer's recommendation if the change in the Work involves the design (as set forth in the Drawings, Specifications, or otherwise), or other engineering or technical matters; and

4. changes in the Contract Price or Contract Times, or other changes, which embody the substance of any final and binding results under Paragraph 11.06, or Article 12.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. If Owner or Contractor refuses to execute a Change Order that is required to be executed under the terms of this Paragraph 11.07, it shall be deemed to be of full force and effect, as if fully executed.

11.08 *Notification to Surety*

A. If the provisions of any bond require notice to be given to a surety of any change affecting the general scope of the Work or the provisions of the Contract Documents (including, but not limited to, Contract Price or Contract Times), the giving of any such notice will be Contractor's responsibility. The amount of each applicable bond will be adjusted to reflect the effect of any such change.

ARTICLE 12 – CLAIMS

12.01 *Claims*

A. *Claims Process*: The following disputes between Owner and Contractor shall be submitted to the Claims process set forth in this Article:

1. Appeals by Owner or Contractor of Engineer's decisions regarding Change Proposals;

2. Owner demands for adjustments in the Contract Price or Contract Times, or other relief under the Contract Documents; and

3. Disputes that Engineer has been unable to address because they do not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters.

B. *Submittal of Claim*: The party submitting a Claim shall deliver it directly to the other party to the Contract promptly (but in no event later than 30 days) after the start of the event giving rise thereto; in the case of appeals regarding Change Proposals within 30 days of the decision under appeal. The party submitting the Claim shall also furnish a copy to the Engineer, for its information only. The responsibility to substantiate a Claim shall rest with the party making the Claim. In the case of a Claim by Contractor seeking an increase in the Contract Times or Contract Price, or both, Contractor shall certify that the Claim is made in good faith, that the supporting data are accurate and complete, and that to the best of Contractor's knowledge and belief the amount of time or money requested accurately reflects the full amount to which Contractor is entitled.

C. *Review and Resolution*: The party receiving a Claim shall review it thoroughly, giving full consideration to its merits. The two parties shall seek to resolve the Claim through the exchange of information and direct negotiations. The parties may extend the time for resolving the Claim by mutual agreement. All actions taken on a Claim shall be stated in writing and submitted to the other party, with a copy to Engineer.

D. *Mediation*:

1. At any time after initiation of a Claim, Owner and Contractor may mutually agree to mediation of the underlying dispute. The agreement to mediate shall stay the Claim submittal and response process.

2. If Owner and Contractor agree to mediation, then after 60 days from such agreement, either Owner or Contractor may unilaterally terminate the mediation process, and the Claim submittal and decision process shall resume as of the date of the termination. If the mediation proceeds but is unsuccessful in resolving the dispute, the Claim

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

submittal and decision process shall resume as of the date of the conclusion of the mediation, as determined by the mediator.

3. Owner and Contractor shall each pay one-half of the mediator's fees and costs.

E. *Partial Approval*: If the party receiving a Claim approves the Claim in part and denies it in part, such action shall be final and binding unless within 30 days of such action the other party invokes the procedure set forth in Article 17 for final resolution of disputes.

F. *Denial of Claim*: If efforts to resolve a Claim are not successful, the party receiving the Claim may deny it by giving written notice of denial to the other party. If the receiving party does not take action on the Claim within 90 days, then either Owner or Contractor may at any time thereafter submit a letter to the other party indicating that as a result of the inaction, the Claim is deemed denied, thereby commencing the time for appeal of the denial. A denial of the Claim shall be final and binding unless within 30 days of the denial the other party invokes the procedure set forth in Article 17 for the final resolution of disputes.

G. *Final and Binding Results*: If the parties reach a mutual agreement regarding a Claim, whether through approval of the Claim, direct negotiations, mediation, or otherwise; or if a Claim is approved in part and denied in part, or denied in full, and such actions become final and binding; then the results of the agreement or action on the Claim shall be incorporated in a Change Order to the extent they affect the Contract, including the Work, the Contract Times, or the Contract Price.

ARTICLE 13 – COST OF THE WORK; ALLOWANCES; UNIT PRICE WORK

13.01 *Cost of the Work*

A. *Purposes for Determination of Cost of the Work*: The term Cost of the Work means the sum of all costs necessary for the proper performance of the Work at issue, as further defined below. The provisions of this Paragraph 13.01 are used for two distinct purposes:

1. To determine Cost of the Work when Cost of the Work is a component of the Contract Price, under cost-plus-fee, time-and-materials, or other cost-based terms; or

2. To determine the value of a Change Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price. When the value of any such adjustment is determined on the basis of Cost of the Work, Contractor is entitled only to those additional or incremental costs required because of the change in the Work or because of the event giving rise to the adjustment.

B. *Costs Included*: Except as otherwise may be agreed to in writing by Owner, costs included in the Cost of the Work shall be in amounts no higher than those prevailing in the locality of the Project, shall not include any of the costs itemized in Paragraph 13.01.C, and shall include only the following items:

1. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by Owner and Contractor. Such employees shall include, without limitation, superintendents, foremen, and other personnel employed full time on the Work. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include, but not be limited to, salaries and wages plus the cost of fringe benefits, which shall include social security contributions, unemployment, excise, and payroll taxes, workers' compensation, health and retirement benefits, bonuses, sick leave, and vacation and holiday pay applicable

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

thereto. The expenses of performing Work outside of regular working hours, on Saturday, Sunday, or legal holidays, shall be included in the above to the extent authorized by Owner.

2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and Suppliers' field services required in connection therewith. All cash discounts shall accrue to Contractor unless Owner deposits funds with Contractor with which to make payments, in which case the cash discounts shall accrue to Owner. All trade discounts, rebates, and refunds and returns from sale of surplus materials and equipment shall accrue to Owner, and Contractor shall make provisions so that they may be obtained.

3. Payments made by Contractor to Subcontractors for Work performed by Subcontractors. If required by Owner, Contractor shall obtain competitive bids from subcontractors acceptable to Owner and Contractor and shall deliver such bids to Owner, who will then determine, with the advice of Engineer, which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee shall be determined in the same manner as Contractor's Cost of the Work and fee as provided in this Paragraph 13.01.

4. Costs of special consultants (including but not limited to engineers, architects, testing laboratories, surveyors, attorneys, and accountants) employed for services specifically related to the Work.

5. Supplemental costs including the following:

    a. The proportion of necessary transportation, travel, and subsistence expenses of Contractor's employees incurred in discharge of duties connected with the Work.

    b. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office, and temporary facilities at the Site, and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value, of such items used but not consumed which remain the property of Contractor.

    c. Rentals of all construction equipment and machinery, and the parts thereof, whether rented from Contractor or others in accordance with rental agreements approved by Owner with the advice of Engineer, and the costs of transportation, loading, unloading, assembly, dismantling, and removal thereof. All such costs shall be in accordance with the terms of said rental agreements. The rental of any such equipment, machinery, or parts shall cease when the use thereof is no longer necessary for the Work.

    d. Sales, consumer, use, and other similar taxes related to the Work, and for which Contractor is liable, as imposed by Laws and Regulations.

    e. Deposits lost for causes other than negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, and royalty payments and fees for permits and licenses.

    f. Losses and damages (and related expenses) caused by damage to the Work, not compensated by insurance or otherwise, sustained by Contractor in connection with the performance of the Work (except losses and damages within the deductible amounts of property insurance established in accordance with Paragraph 6.05), provided such losses and damages have resulted from causes

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

other than the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses shall include settlements made with the written consent and approval of Owner. No such losses, damages, and expenses shall be included in the Cost of the Work for the purpose of determining Contractor's fee.

g. The cost of utilities, fuel, and sanitary facilities at the Site.

h. Minor expenses such as communication service at the Site, express and courier services, and similar petty cash items in connection with the Work.

i. The costs of premiums for all bonds and insurance that Contractor is required by the Contract Documents to purchase and maintain.

C. *Costs Excluded*: The term Cost of the Work shall not include any of the following items:

1. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, safety managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks, and other personnel employed by Contractor, whether at the Site or in Contractor's principal or branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in Paragraph 13.01.B.1 or specifically covered by Paragraph 13.01.B.4. The payroll costs and other compensation excluded here are to be considered administrative costs covered by the Contractor's fee.

2. Expenses of Contractor's principal and branch offices other than Contractor's office at the Site.

3. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

4. Costs due to the negligence of Contractor, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

5. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in Paragraph 13.01.B.

D. *Contractor's Fee*: When the Work as a whole is performed on the basis of cost-plus, Contractor's fee shall be determined as set forth in the Agreement. When the value of any Work covered by a Change Order, Change Proposal, Claim, set-off, or other adjustment in Contract Price is determined on the basis of Cost of the Work, Contractor's fee shall be determined as set forth in Paragraph 11.04.C.

E. *Documentation*: Whenever the Cost of the Work for any purpose is to be determined pursuant to this Article 13, Contractor will establish and maintain records thereof in accordance with generally accepted accounting practices and submit in a form acceptable to Engineer an itemized cost breakdown together with supporting data.

13.02 *Allowances*

A. It is understood that Contractor has included in the Contract Price all allowances so named in the Contract Documents and shall cause the Work so covered to be performed for such sums and by such persons or entities as may be acceptable to Owner and Engineer.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. *Cash Allowances*: Contractor agrees that:

1. the cash allowances include the cost to Contractor (less any applicable trade discounts) of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes; and

2. Contractor's costs for unloading and handling on the Site, labor, installation, overhead, profit, and other expenses contemplated for the cash allowances have been included in the Contract Price and not in the allowances, and no demand for additional payment on account of any of the foregoing will be valid.

C. *Contingency Allowance*: Contractor agrees that a contingency allowance, if any, is for the sole use of Owner to cover unanticipated costs.

D. Prior to final payment, an appropriate Change Order will be issued as recommended by Engineer to reflect actual amounts due Contractor on account of Work covered by allowances, and the Contract Price shall be correspondingly adjusted.

13.03 *Unit Price Work*

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Agreement.

B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Payments to Contractor for Unit Price Work will be based on actual quantities.

C. Each unit price will be deemed to include an amount considered by Contractor to be adequate to cover Contractor's overhead and profit for each separately identified item.

D. Engineer will determine the actual quantities and classifications of Unit Price Work performed by Contractor. Engineer will review with Contractor the Engineer's preliminary determinations on such matters before rendering a written decision thereon (by recommendation of an Application for Payment or otherwise). Engineer's written decision thereon will be final and binding (except as modified by Engineer to reflect changed factual conditions or more accurate data) upon Owner and Contractor, subject to the provisions of the following paragraph.

E. Within 30 days of Engineer's written decision under the preceding paragraph, Contractor may submit a Change Proposal, or Owner may file a Claim, seeking an adjustment in the Contract Price if:

1. the quantity of any item of Unit Price Work performed by Contractor differs materially and significantly from the estimated quantity of such item indicated in the Agreement;

2. there is no corresponding adjustment with respect to any other item of Work; and

3. Contractor believes that it is entitled to an increase in Contract Price as a result of having incurred additional expense or Owner believes that Owner is entitled to a decrease in Contract Price, and the parties are unable to agree as to the amount of any such increase or decrease.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 14 – TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

14.01 *Access to Work*

A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and authorities having jurisdiction will have access to the Site and the Work at reasonable times for their observation, inspection, and testing. Contractor shall provide them proper and safe conditions for such access and advise them of Contractor's safety procedures and programs so that they may comply therewith as applicable.

14.02 *Tests, Inspections, and Approvals*

A. Contractor shall give Engineer timely notice of readiness of the Work (or specific parts thereof) for all required inspections and tests, and shall cooperate with inspection and testing personnel to facilitate required inspections and tests.

B. Owner shall retain and pay for the services of an independent inspector, testing laboratory, or other qualified individual or entity to perform all inspections and tests expressly required by the Contract Documents to be furnished and paid for by Owner, except that costs incurred in connection with tests or inspections of covered Work shall be governed by the provisions of Paragraph 14.05.

C. If Laws or Regulations of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, Contractor shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Engineer the required certificates of inspection or approval.

D. Contractor shall be responsible for arranging, obtaining, and paying for all inspections and tests required:

1. by the Contract Documents, unless the Contract Documents expressly allocate responsibility for a specific inspection or test to Owner;

2. to attain Owner's and Engineer's acceptance of materials or equipment to be incorporated in the Work;

3. by manufacturers of equipment furnished under the Contract Documents;

4. for testing, adjusting, and balancing of mechanical, electrical, and other equipment to be incorporated into the Work; and

5. for acceptance of materials, mix designs, or equipment submitted for approval prior to Contractor's purchase thereof for incorporation in the Work.

Such inspections and tests shall be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to Owner and Engineer.

E. If the Contract Documents require the Work (or part thereof) to be approved by Owner, Engineer, or another designated individual or entity, then Contractor shall assume full responsibility for arranging and obtaining such approvals.

F. If any Work (or the work of others) that is to be inspected, tested, or approved is covered by Contractor without written concurrence of Engineer, Contractor shall, if requested by Engineer, uncover such Work for observation. Such uncovering shall be at Contractor's expense unless Contractor had given Engineer timely notice of Contractor's intention to

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

cover the same and Engineer had not acted with reasonable promptness in response to such notice.

14.03 *Defective Work*

A. *Contractor's Obligation*: It is Contractor's obligation to assure that the Work is not defective.

B. *Engineer's Authority*: Engineer has the authority to determine whether Work is defective, and to reject defective Work.

C. *Notice of Defects*: Prompt notice of all defective Work of which Owner or Engineer has actual knowledge will be given to Contractor.

D. *Correction, or Removal and Replacement*: Promptly after receipt of written notice of defective Work, Contractor shall correct all such defective Work, whether or not fabricated, installed, or completed, or, if Engineer has rejected the defective Work, remove it from the Project and replace it with Work that is not defective.

E. *Preservation of Warranties*: When correcting defective Work, Contractor shall take no action that would void or otherwise impair Owner's special warranty and guarantee, if any, on said Work.

F. *Costs and Damages*: In addition to its correction, removal, and replacement obligations with respect to defective Work, Contractor shall pay all claims, costs, losses, and damages arising out of or relating to defective Work, including but not limited to the cost of the inspection, testing, correction, removal, replacement, or reconstruction of such defective Work, fines levied against Owner by governmental authorities because the Work is defective, and the costs of repair or replacement of work of others resulting from defective Work. Prior to final payment, if Owner and Contractor are unable to agree as to the measure of such claims, costs, losses, and damages resulting from defective Work, then Owner may impose a reasonable set-off against payments due under Article 15.

14.04 *Acceptance of Defective Work*

A. If, instead of requiring correction or removal and replacement of defective Work, Owner prefers to accept it, Owner may do so (subject, if such acceptance occurs prior to final payment, to Engineer's confirmation that such acceptance is in general accord with the design intent and applicable engineering principles, and will not endanger public safety). Contractor shall pay all claims, costs, losses, and damages attributable to Owner's evaluation of and determination to accept such defective Work (such costs to be approved by Engineer as to reasonableness), and for the diminished value of the Work to the extent not otherwise paid by Contractor. If any such acceptance occurs prior to final payment, the necessary revisions in the Contract Documents with respect to the Work shall be incorporated in a Change Order. If the parties are unable to agree as to the decrease in the Contract Price, reflecting the diminished value of Work so accepted, then Owner may impose a reasonable set-off against payments due under Article 15. If the acceptance of defective Work occurs after final payment, Contractor shall pay an appropriate amount to Owner.

14.05 *Uncovering Work*

A. Engineer has the authority to require additional inspection or testing of the Work, whether or not the Work is fabricated, installed, or completed.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. If any Work is covered contrary to the written request of Engineer, then Contractor shall, if requested by Engineer, uncover such Work for Engineer's observation, and then replace the covering, all at Contractor's expense.

C. If Engineer considers it necessary or advisable that covered Work be observed by Engineer or inspected or tested by others, then Contractor, at Engineer's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as Engineer may require, that portion of the Work in question, and provide all necessary labor, material, and equipment.

1. If it is found that the uncovered Work is defective, Contractor shall be responsible for all claims, costs, losses, and damages arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and pending Contractor's full discharge of this responsibility the Owner shall be entitled to impose a reasonable set-off against payments due under Article 15.

2. If the uncovered Work is not found to be defective, Contractor shall be allowed an increase in the Contract Price or an extension of the Contract Times, or both, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, then Contractor may submit a Change Proposal within 30 days of the determination that the Work is not defective.

14.06 *Owner May Stop the Work*

A. If the Work is defective, or Contractor fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, then Owner may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of Owner to stop the Work shall not give rise to any duty on the part of Owner to exercise this right for the benefit of Contractor, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them.

14.07 *Owner May Correct Defective Work*

A. If Contractor fails within a reasonable time after written notice from Engineer to correct defective Work, or to remove and replace rejected Work as required by Engineer, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any other provision of the Contract Documents, then Owner may, after seven days written notice to Contractor, correct or remedy any such deficiency.

B. In exercising the rights and remedies under this Paragraph 14.07, Owner shall proceed expeditiously. In connection with such corrective or remedial action, Owner may exclude Contractor from all or part of the Site, take possession of all or part of the Work and suspend Contractor's services related thereto, and incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere. Contractor shall allow Owner, Owner's representatives, agents and employees, Owner's other contractors, and Engineer and Engineer's consultants access to the Site to enable Owner to exercise the rights and remedies under this paragraph.

C. All claims, costs, losses, and damages incurred or sustained by Owner in exercising the rights and remedies under this Paragraph 14.07 will be charged against Contractor as set-offs against payments due under Article 15. Such claims, costs, losses and damages will

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of Contractor's defective Work.

D. Contractor shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to the exercise by Owner of Owner's rights and remedies under this Paragraph 14.07.

ARTICLE 15 – PAYMENTS TO CONTRACTOR; SET-OFFS; COMPLETION; CORRECTION PERIOD

15.01 *Progress Payments*

A. *Basis for Progress Payments*: The Schedule of Values established as provided in Article 2 will serve as the basis for progress payments and will be incorporated into a form of Application for Payment acceptable to Engineer. Progress payments on account of Unit Price Work will be based on the number of units completed during the pay period, as determined under the provisions of Paragraph 13.03. Progress payments for cost-based Work will be based on Cost of the Work completed by Contractor during the pay period.

B. *Applications for Payments*:

1. At least 20 days before the date established in the Agreement for each progress payment (but not more often than once a month), Contractor shall submit to Engineer for review an Application for Payment filled out and signed by Contractor covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice, or other documentation warranting that Owner has received the materials and equipment free and clear of all Liens, and evidence that the materials and equipment are covered by appropriate property insurance, a warehouse bond, or other arrangements to protect Owner's interest therein, all of which must be satisfactory to Owner.

2. Beginning with the second Application for Payment, each Application shall include an affidavit of Contractor stating that all previous progress payments received on account of the Work have been applied on account to discharge Contractor's legitimate obligations associated with prior Applications for Payment.

3. The amount of retainage with respect to progress payments will be as stipulated in the Agreement.

C. *Review of Applications*:

1. Engineer will, within 10 days after receipt of each Application for Payment, including each resubmittal, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to Contractor indicating in writing Engineer's reasons for refusing to recommend payment. In the latter case, Contractor may make the necessary corrections and resubmit the Application.

2. Engineer's recommendation of any payment requested in an Application for Payment will constitute a representation by Engineer to Owner, based on Engineer's observations of the executed Work as an experienced and qualified design professional, and on Engineer's review of the Application for Payment and the accompanying data and schedules, that to the best of Engineer's knowledge, information and belief:

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

a. the Work has progressed to the point indicated;

b. the quality of the Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, a final determination of quantities and classifications for Unit Price Work under Paragraph 13.03, and any other qualifications stated in the recommendation); and

c. the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work.

3. By recommending any such payment Engineer will not thereby be deemed to have represented that:

a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in the Contract; or

b. there may not be other matters or issues between the parties that might entitle Contractor to be paid additionally by Owner or entitle Owner to withhold payment to Contractor.

4. Neither Engineer's review of Contractor's Work for the purposes of recommending payments nor Engineer's recommendation of any payment, including final payment, will impose responsibility on Engineer:

a. to supervise, direct, or control the Work, or

b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or

c. for Contractor's failure to comply with Laws and Regulations applicable to Contractor's performance of the Work, or

d. to make any examination to ascertain how or for what purposes Contractor has used the money paid on account of the Contract Price, or

e. to determine that title to any of the Work, materials, or equipment has passed to Owner free and clear of any Liens.

5. Engineer may refuse to recommend the whole or any part of any payment if, in Engineer's opinion, it would be incorrect to make the representations to Owner stated in Paragraph 15.01.C.2.

6. Engineer will recommend reductions in payment (set-offs) necessary in Engineer's opinion to protect Owner from loss because:

a. the Work is defective, requiring correction or replacement;

b. the Contract Price has been reduced by Change Orders;

c. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible; or

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

e. Engineer has actual knowledge of the occurrence of any of the events that would constitute a default by Contractor and therefore justify termination for cause under the Contract Documents.

D. *Payment Becomes Due*:

1. Ten days after presentation of the Application for Payment to Owner with Engineer's recommendation, the amount recommended (subject to any Owner set-offs) will become due, and when due will be paid by Owner to Contractor.

E. *Reductions in Payment by Owner*:

1. In addition to any reductions in payment (set-offs) recommended by Engineer, Owner is entitled to impose a set-off against payment based on any of the following:

a. claims have been made against Owner on account of Contractor's conduct in the performance or furnishing of the Work, or Owner has incurred costs, losses, or damages on account of Contractor's conduct in the performance or furnishing of the Work, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, non-compliance with Laws and Regulations, and patent infringement;

b. Contractor has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with other work at or adjacent to the Site;

c. Contractor has failed to provide and maintain required bonds or insurance;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which Contractor is responsible;

e. Owner has incurred extra charges or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests and inspections, or return visits to manufacturing or assembly facilities;

f. the Work is defective, requiring correction or replacement;

g. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

h. the Contract Price has been reduced by Change Orders;

i. an event that would constitute a default by Contractor and therefore justify a termination for cause has occurred;

j. liquidated damages have accrued as a result of Contractor's failure to achieve Milestones, Substantial Completion, or final completion of the Work;

k. Liens have been filed in connection with the Work, except where Contractor has delivered a specific bond satisfactory to Owner to secure the satisfaction and discharge of such Liens;

l. there are other items entitling Owner to a set off against the amount recommended.

2. If Owner imposes any set-off against payment, whether based on its own knowledge or on the written recommendations of Engineer, Owner will give Contractor immediate written notice (with a copy to Engineer) stating the reasons for such action and the specific amount of the reduction, and promptly pay Contractor any amount

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

remaining after deduction of the amount so withheld. Owner shall promptly pay Contractor the amount so withheld, or any adjustment thereto agreed to by Owner and Contractor, if Contractor remedies the reasons for such action. The reduction imposed shall be binding on Contractor unless it duly submits a Change Proposal contesting the reduction.

3. Upon a subsequent determination that Owner's refusal of payment was not justified, the amount wrongfully withheld shall be treated as an amount due as determined by Paragraph 15.01.C.1 and subject to interest as provided in the Agreement.

15.02 *Contractor's Warranty of Title*

A. Contractor warrants and guarantees that title to all Work, materials, and equipment furnished under the Contract will pass to Owner free and clear of (1) all Liens and other title defects, and (2) all patent, licensing, copyright, or royalty obligations, no later than seven days after the time of payment by Owner.

15.03 *Substantial Completion*

A. When Contractor considers the entire Work ready for its intended use Contractor shall notify Owner and Engineer in writing that the entire Work is substantially complete and request that Engineer issue a certificate of Substantial Completion. Contractor shall at the same time submit to Owner and Engineer an initial draft of punch list items to be completed or corrected before final payment.

B. Promptly after Contractor's notification, Owner, Contractor, and Engineer shall make an inspection of the Work to determine the status of completion. If Engineer does not consider the Work substantially complete, Engineer will notify Contractor in writing giving the reasons therefor.

C. If Engineer considers the Work substantially complete, Engineer will deliver to Owner a preliminary certificate of Substantial Completion which shall fix the date of Substantial Completion. Engineer shall attach to the certificate a punch list of items to be completed or corrected before final payment. Owner shall have seven days after receipt of the preliminary certificate during which to make written objection to Engineer as to any provisions of the certificate or attached punch list. If, after considering the objections to the provisions of the preliminary certificate, Engineer concludes that the Work is not substantially complete, Engineer will, within 14 days after submission of the preliminary certificate to Owner, notify Contractor in writing that the Work is not substantially complete, stating the reasons therefor. If Owner does not object to the provisions of the certificate, or if despite consideration of Owner's objections Engineer concludes that the Work is substantially complete, then Engineer will, within said 14 days, execute and deliver to Owner and Contractor a final certificate of Substantial Completion (with a revised punch list of items to be completed or corrected) reflecting such changes from the preliminary certificate as Engineer believes justified after consideration of any objections from Owner.

D. At the time of receipt of the preliminary certificate of Substantial Completion, Owner and Contractor will confer regarding Owner's use or occupancy of the Work following Substantial Completion, review the builder's risk insurance policy with respect to the end of the builder's risk coverage, and confirm the transition to coverage of the Work under a permanent property insurance policy held by Owner. Unless Owner and Contractor agree otherwise in writing, Owner shall bear responsibility for security, operation, protection of the Work, property insurance, maintenance, heat, and utilities upon Owner's use or occupancy of the Work.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. After Substantial Completion the Contractor shall promptly begin work on the punch list of items to be completed or corrected prior to final payment. In appropriate cases Contractor may submit monthly Applications for Payment for completed punch list items, following the progress payment procedures set forth above.

F. Owner shall have the right to exclude Contractor from the Site after the date of Substantial Completion subject to allowing Contractor reasonable access to remove its property and complete or correct items on the punch list.

15.04 *Partial Use or Occupancy*

A. Prior to Substantial Completion of all the Work, Owner may use or occupy any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which Owner, Engineer, and Contractor agree constitutes a separately functioning and usable part of the Work that can be used by Owner for its intended purpose without significant interference with Contractor's performance of the remainder of the Work, subject to the following conditions:

1. At any time Owner may request in writing that Contractor permit Owner to use or occupy any such part of the Work that Owner believes to be substantially complete. If and when Contractor agrees that such part of the Work is substantially complete, Contractor, Owner, and Engineer will follow the procedures of Paragraph 15.03.A through E for that part of the Work.

2. At any time Contractor may notify Owner and Engineer in writing that Contractor considers any such part of the Work substantially complete and request Engineer to issue a certificate of Substantial Completion for that part of the Work.

3. Within a reasonable time after either such request, Owner, Contractor, and Engineer shall make an inspection of that part of the Work to determine its status of completion. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and Contractor in writing giving the reasons therefor. If Engineer considers that part of the Work to be substantially complete, the provisions of Paragraph 15.03 will apply with respect to certification of Substantial Completion of that part of the Work and the division of responsibility in respect thereof and access thereto.

4. No use or occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of Paragraph 6.05 regarding builder's risk or other property insurance.

15.05 *Final Inspection*

A. Upon written notice from Contractor that the entire Work or an agreed portion thereof is complete, Engineer will promptly make a final inspection with Owner and Contractor and will notify Contractor in writing of all particulars in which this inspection reveals that the Work, or agreed portion thereof, is incomplete or defective. Contractor shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

15.06 *Final Payment*

A. *Application for Payment*:

1. After Contractor has, in the opinion of Engineer, satisfactorily completed all corrections identified during the final inspection and has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

inspection, annotated record documents (as provided in Paragraph 7.11), and other documents, Contractor may make application for final payment.

2. The final Application for Payment shall be accompanied (except as previously delivered) by:

   a. all documentation called for in the Contract Documents;

   b. consent of the surety, if any, to final payment;

   c. satisfactory evidence that all title issues have been resolved such that title to all Work, materials, and equipment has passed to Owner free and clear of any Liens or other title defects, or will so pass upon final payment.

   d. a list of all disputes that Contractor believes are unsettled; and

   e. complete and legally effective releases or waivers (satisfactory to Owner) of all Lien rights arising out of the Work, and of Liens filed in connection with the Work.

3. In lieu of the releases or waivers of Liens specified in Paragraph 15.06.A.2 and as approved by Owner, Contractor may furnish receipts or releases in full and an affidavit of Contractor that: (a) the releases and receipts include all labor, services, material, and equipment for which a Lien could be filed; and (b) all payrolls, material and equipment bills, and other indebtedness connected with the Work for which Owner might in any way be responsible, or which might in any way result in liens or other burdens on Owner's property, have been paid or otherwise satisfied. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, Contractor may furnish a bond or other collateral satisfactory to Owner to indemnify Owner against any Lien, or Owner at its option may issue joint checks payable to Contractor and specified Subcontractors and Suppliers.

B. *Engineer's Review of Application and Acceptance*:

1. If, on the basis of Engineer's observation of the Work during construction and final inspection, and Engineer's review of the final Application for Payment and accompanying documentation as required by the Contract Documents, Engineer is satisfied that the Work has been completed and Contractor's other obligations under the Contract have been fulfilled, Engineer will, within ten days after receipt of the final Application for Payment, indicate in writing Engineer's recommendation of final payment and present the Application for Payment to Owner for payment. Such recommendation shall account for any set-offs against payment that are necessary in Engineer's opinion to protect Owner from loss for the reasons stated above with respect to progress payments. At the same time Engineer will also give written notice to Owner and Contractor that the Work is acceptable, subject to the provisions of Paragraph 15.07. Otherwise, Engineer will return the Application for Payment to Contractor, indicating in writing the reasons for refusing to recommend final payment, in which case Contractor shall make the necessary corrections and resubmit the Application for Payment.

C. *Completion of Work*: The Work is complete (subject to surviving obligations) when it is ready for final payment as established by the Engineer's written recommendation of final payment.

D. *Payment Becomes Due*: Thirty days after the presentation to Owner of the final Application for Payment and accompanying documentation, the amount recommended by Engineer (less any further sum Owner is entitled to set off against Engineer's recommendation,

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

including but not limited to set-offs for liquidated damages and set-offs allowed under the provisions above with respect to progress payments) will become due and shall be paid by Owner to Contractor.

15.07 *Waiver of Claims*

A. The making of final payment will not constitute a waiver by Owner of claims or rights against Contractor. Owner expressly reserves claims and rights arising from unsettled Liens, from defective Work appearing after final inspection pursuant to Paragraph 15.05, from Contractor's failure to comply with the Contract Documents or the terms of any special guarantees specified therein, from outstanding Claims by Owner, or from Contractor's continuing obligations under the Contract Documents.

B. The acceptance of final payment by Contractor will constitute a waiver by Contractor of all claims and rights against Owner other than those pending matters that have been duly submitted or appealed under the provisions of Article 17.

15.08 *Correction Period*

A. If within one year after the date of Substantial Completion (or such longer period of time as may be prescribed by the terms of any applicable special guarantee required by the Contract Documents, or by any specific provision of the Contract Documents), any Work is found to be defective, or if the repair of any damages to the Site, adjacent areas that Contractor has arranged to use through construction easements or otherwise, and other adjacent areas used by Contractor as permitted by Laws and Regulations, is found to be defective, then Contractor shall promptly, without cost to Owner and in accordance with Owner's written instructions:

1. correct the defective repairs to the Site or such other adjacent areas;

2. correct such defective Work;

3. if the defective Work has been rejected by Owner, remove it from the Project and replace it with Work that is not defective, and

4. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others, or to other land or areas resulting therefrom.

B. If Contractor does not promptly comply with the terms of Owner's written instructions, or in an emergency where delay would cause serious risk of loss or damage, Owner may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others).

C. In special circumstances where a particular item of equipment is placed in continuous service before Substantial Completion of all the Work, the correction period for that item may start to run from an earlier date if so provided in the Specifications.

D. Where defective Work (and damage to other Work resulting therefrom) has been corrected or removed and replaced under this paragraph, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

E. Contractor's obligations under this paragraph are in addition to all other obligations and warranties. The provisions of this paragraph shall not be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

ARTICLE 16 – SUSPENSION OF WORK AND TERMINATION

16.01 *Owner May Suspend Work*

A. At any time and without cause, Owner may suspend the Work or any portion thereof for a period of not more than 90 consecutive days by written notice to Contractor and Engineer. Such notice will fix the date on which Work will be resumed. Contractor shall resume the Work on the date so fixed. Contractor shall be entitled to an adjustment in the Contract Price or an extension of the Contract Times, or both, directly attributable to any such suspension. Any Change Proposal seeking such adjustments shall be submitted no later than 30 days after the date fixed for resumption of Work.

16.02 *Owner May Terminate for Cause*

A. The occurrence of any one or more of the following events will constitute a default by Contractor and justify termination for cause:

1. Contractor's persistent failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment or failure to adhere to the Progress Schedule);

2. Failure of Contractor to perform or otherwise to comply with a material term of the Contract Documents;

3. Contractor's disregard of Laws or Regulations of any public body having jurisdiction; or

4. Contractor's repeated disregard of the authority of Owner or Engineer.

B. If one or more of the events identified in Paragraph 16.02.A occurs, then after giving Contractor (and any surety) ten days written notice that Owner is considering a declaration that Contractor is in default and termination of the contract, Owner may proceed to:

1. declare Contractor to be in default, and give Contractor (and any surety) notice that the Contract is terminated; and

2. enforce the rights available to Owner under any applicable performance bond.

C. Subject to the terms and operation of any applicable performance bond, if Owner has terminated the Contract for cause, Owner may exclude Contractor from the Site, take possession of the Work, incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere, and complete the Work as Owner may deem expedient.

D. Owner may not proceed with termination of the Contract under Paragraph 16.02.B if Contractor within seven days of receipt of notice of intent to terminate begins to correct its failure to perform and proceeds diligently to cure such failure.

E. If Owner proceeds as provided in Paragraph 16.02.B, Contractor shall not be entitled to receive any further payment until the Work is completed. If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals) sustained by Owner, such excess will be paid to Contractor. If the cost to complete the Work including such related claims, costs, losses,

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

and damages exceeds such unpaid balance, Contractor shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be reviewed by Engineer as to their reasonableness and, when so approved by Engineer, incorporated in a Change Order. When exercising any rights or remedies under this paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

F. Where Contractor's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against Contractor then existing or which may thereafter accrue, or any rights or remedies of Owner against Contractor or any surety under any payment bond or performance bond. Any retention or payment of money due Contractor by Owner will not release Contractor from liability.

G. If and to the extent that Contractor has provided a performance bond under the provisions of Paragraph 6.01.A, the provisions of that bond shall govern over any inconsistent provisions of Paragraphs 16.02.B and 16.02.D.

16.03 *Owner May Terminate For Convenience*

A. Upon seven days written notice to Contractor and Engineer, Owner may, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract. In such case, Contractor shall be paid for (without duplication of any items):

1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination, including fair and reasonable sums for overhead and profit on such Work;

2. expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work, plus fair and reasonable sums for overhead and profit on such expenses; and

3. other reasonable expenses directly attributable to termination, including costs incurred to prepare a termination for convenience cost proposal.

B. Contractor shall not be paid on account of loss of anticipated overhead, profits, or revenue, or other economic loss arising out of or resulting from such termination.

16.04 *Contractor May Stop Work or Terminate*

A. If, through no act or fault of Contractor, (1) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (2) Engineer fails to act on any Application for Payment within 30 days after it is submitted, or (3) Owner fails for 30 days to pay Contractor any sum finally determined to be due, then Contractor may, upon seven days written notice to Owner and Engineer, and provided Owner or Engineer do not remedy such suspension or failure within that time, terminate the contract and recover from Owner payment on the same terms as provided in Paragraph 16.03.

B. In lieu of terminating the Contract and without prejudice to any other right or remedy, if Engineer has failed to act on an Application for Payment within 30 days after it is submitted, or Owner has failed for 30 days to pay Contractor any sum finally determined to be due, Contractor may, seven days after written notice to Owner and Engineer, stop the Work until payment is made of all such amounts due Contractor, including interest thereon. The provisions of this paragraph are not intended to preclude Contractor from submitting a Change Proposal for an adjustment in Contract Price or Contract Times or otherwise for

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

expenses or damage directly attributable to Contractor's stopping the Work as permitted by this paragraph.

ARTICLE 17 – FINAL RESOLUTION OF DISPUTES

17.01 *Methods and Procedures*

A. *Disputes Subject to Final Resolution*: The following disputed matters are subject to final resolution under the provisions of this Article:

1. A timely appeal of an approval in part and denial in part of a Claim, or of a denial in full; and

2. Disputes between Owner and Contractor concerning the Work or obligations under the Contract Documents, and arising after final payment has been made.

B. *Final Resolution of Disputes*: For any dispute subject to resolution under this Article, Owner or Contractor may:

1. elect in writing to invoke the dispute resolution process provided for in the Supplementary Conditions; or

2. agree with the other party to submit the dispute to another dispute resolution process; or

3. if no dispute resolution process is provided for in the Supplementary Conditions or mutually agreed to, give written notice to the other party of the intent to submit the dispute to a court of competent jurisdiction.

ARTICLE 18 – MISCELLANEOUS

18.01 *Giving Notice*

A. Whenever any provision of the Contract Documents requires the giving of written notice, it will be deemed to have been validly given if:

1. delivered in person, by a commercial courier service or otherwise, to the individual or to a member of the firm or to an officer of the corporation for which it is intended; or

2. delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the sender of the notice.

18.02 *Computation of Times*

A. When any period of time is referred to in the Contract by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

18.03 *Cumulative Remedies*

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to, and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract. The provisions of this paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

Copyright © 2013 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

18.04 *Limitation of Damages*

A. With respect to any and all Change Proposals, Claims, disputes subject to final resolution, and other matters at issue, neither Owner nor Engineer, nor any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, shall be liable to Contractor for any claims, costs, losses, or damages sustained by Contractor on or in connection with any other project or anticipated project.

18.05 *No Waiver*

A. A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Contract.

18.06 *Survival of Obligations*

A. All representations, indemnifications, warranties, and guarantees made in, required by, or given in accordance with the Contract, as well as all continuing obligations indicated in the Contract, will survive final payment, completion, and acceptance of the Work or termination or completion of the Contract or termination of the services of Contractor.

18.07 *Controlling Law*

A. This Contract is to be governed by the law of the state in which the Project is located.

18.08 *Headings*

A. Article and paragraph headings are inserted for convenience only and do not constitute parts of these General Conditions.

SUPPLEMENTARY CONDITIONS

These Supplementary Conditions amend or supplement the Standard General Conditions of the Construction Contract, EJCDC® C-700 (2013 Edition). All provisions that are not so amended or supplemented remain in full force and effect.

The terms used in these Supplementary Conditions have the meanings stated in the General Conditions. Additional terms used in these Supplementary Conditions have the meanings stated below, which are applicable to both the singular and plural thereof.

The address system used in these Supplementary Conditions is the same as the address system used in the General Conditions, with the prefix "SC" added thereto.

ARTICLE 1 – DEFINITIONS AND TERMINOLOGY

SC-1.01 Defined Terms

SC-1.01. Add to the list of definitions in Paragraph 1.01.A by inserting the following as numbered items in their proper alphabetical positions:

SURETY – The person, firm, or corporation which is bound by the contract bonds with and for Contractor (Principal); and which is held and firmly bound unto Owner for the conditions of obligations set forth in said bonds.

ARTICLE 2 – PRELIMINARY MATTERS

SC-2.01 Delivery of Bonds and Evidence of Insurance

SC-2.01 Delete Paragraphs 2.01 B. in their entirety and insert the following in their place:

B. Evidence of Contractor's Insurance: When Contractor delivers the executed counterparts of the Agreement to Owner, Contractor shall also deliver to Owner copies of the policies of insurance (including all endorsements, and identification of applicable self-insured retentions and deductibles) required to be provided by Contractor in Article 6. Contractor may block out (redact) any confidential premium or pricing information contained in any policy or endorsement furnished under this provision.

SC-2.01 Delete Paragraphs 2.01 C. in its entirety.

SC-2.03 Before Starting Construction

SC-2.03 Amend the second sentence of Paragraph 2.03.A to read as follows:

At the Preconstruction Conference (or as otherwise specifically required by the Contract Documents), Contractor shall submit to Engineer for timely review

ARTICLE 4 – PRELIMINARY MATTERS

SC-4.01 Commencement of Contract Times; Notice to Proceed

SC-4.01 Amend the third sentence of Paragraph 4.01 A. to read as follows:

A. In no event will the Contract Times commence to run later than the one hundred eightieth day after the day of Bid opening or the ninetieth day after the Effective Date of the Contract, whichever date is earlier.

ARTICLE 5 – AVAILABILITY OF LANDS; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS

SC-5.01 Availability of Lands

SC-5.01 Add the following to the end of paragraph 5.01.C:

Contractor shall obtain said land rights at his own expense and without liability to the Owner. Contractor shall not enter upon private property without first obtaining written permission from the rightful property owner.

SC-5.03 Subsurface and Physical Conditions

SC 5.03 Delete Paragraphs 5.03.A and 5.03.B in their entirety and insert the following:

A. No reports of explorations or tests of subsurface conditions at or adjacent to the Site, or drawings of physical conditions relating to existing surface or subsurface structures at the Site, are known to Owner.

SC-5.06 Hazardous Environmental Conditions

SC 5.06 Delete Paragraphs 5.06.A and 5.06.B in their entirety and insert the following:

A. No reports or drawings related to Hazardous Environmental Conditions at the Site are known to Owner.

B. Not Used.

SC-5.06 Delete Paragraph 5.06 I. in its entirety.

SC 5.06 Amend the first paragraph of 5.06.J of the General Conditions by changing "(including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs)" to "(including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or other dispute resolution costs)"

ARTICLE 6 – BONDS AND INSURANCE

SC-6.01 Performance, Payment, and Other Bonds

SC 6.01 Delete Paragraph 6.01.B in its entirety and insert the following:

B. All Bonds shall be in the form prescribed by the Contract Documents or other form approved by Owner. All else notwithstanding, the terms of all Bonds shall be substantially in the form prescribed by Chapter 255, Florida Statutes. All Bonds shall be executed by Contractor and a corporate bonding company licensed to transact such business in the State of Florida and named on the

current list of "Surety Companies Acceptable on Federal Bonds" as published in the Treasury Department Circular Number 570. Contractor will cause the Bonds to be recorded with the Clerk of the Circuit Court in the county in which the Work is to be performed. Failure to execute bonds in the form prescribed may constitute nonresponsiveness on the part of Contractor. The expense for all Bonds shall be Contractor's responsibility.

SC-6.02 Insurance—General Provisions

SC-6.02 Add the following paragraph immediately after Paragraph 6.02.B:

1. Certificates of insurance shall be issued by a company with a Best's rating of at least B+ authorized to do business in the State of Florida. Owner must approve non-rated insurers. If used, Owner shall be shown as the Certificate Holder, Engineer as Additional Insured and provide for a 30-day cancellation notice.

SC-6.02 Delete Paragraph 6.02 D. in its entirety.

SC-6.02 Add the following paragraphs immediately after Paragraph 6.02.J:

K. No work shall be commenced under this contract until the required Certificate(s) have been provided. Work shall not continue after expiration (or cancellation) until new Certificate(s) have been provided. Non-continuance of work after expiration (or cancellation) of Certificate(s) will not constitute a delay beyond Contractor's control as defined in paragraph 4.05.

L. Contractor shall arrange for its insurers' policies to include, or be endorsed to include, a severability of interest/cross liability provision, so that Owner will be treated as if a separate policy were in existence, but without increasing the policy limits.

M. Contractor's deductibles/self-insured retentions shall be disclosed to Owner and may be disapproved by the latter. They shall be reduced or eliminated at the option of Owner. Contractor is responsible for the amount of any deductible or self-insured retention.

N. Insurance required of Contractor or any other insurance of Contractor shall be considered primary and insurance or self-insurance of Owner shall be considered excess, as may be applicable to claims that arise out of this contract.

O. The Contractor shall either (a) require each subcontractor to procure and maintain the same coverage as required of the Contractor, or (b) insure the activities of subcontractors in his own policy.

SC-6.05.A. Add the following to the list of items in Paragraph 6.05.A, as numbered items:

14. include for the benefit of Owner loss of profits and soft cost coverage including, without limitation, fixed expenses and debt service for a minimum of 12 months with a maximum deductible of 30 days, plus attorneys fees and engineering or other consultants' fees, if not otherwise covered;

15. include by express endorsement coverage of damage to Contractor's equipment.

ARTICLE 7 – CONTRACTOR'S RESPONSIBILITIES

SC-7.02 Labor; Working Hours

SC-7.02.B. Amend the first and second sentences of Paragraph 7.02.B to state "…all Work at the Site shall be performed during regular working hours, 7:00 AM through 5:00 PM. Contractor will not perform Work on a Saturday, Sunday, or any legal holiday recognized by the Owner without prior written approval by the Owner. The Owner recognizes the following legal holidays:

New Year's Day (January 1)
Martin Luther King Jr. Day (3rd Monday in January)
President's Day (3rd Monday in February)
Good Friday
Memorial Day (Last Monday of May)
Independence Day (July 4)
Labor Day (1st Monday of September)
Veteran's Day (November 11)
Thanksgiving Day (4th Thursday of November)
Day After Thanksgiving (4th Friday of November)
Christmas Eve (December 24)
Christmas Day (December 25)
New Year's Eve (December 31)"

SC-7.02.C. Add the following new paragraph immediately after Paragraph 7.02.B:

Contractor shall be responsible for the cost of any overtime pay or other expense incurred by the Owner for Engineer's services (including those of the Resident Project Representative, if any), Owner's representative, and construction observation services, occasioned by the performance of Work outside of regular working hours as defined in the Contract Documents. If Contractor is responsible but does not pay, or if the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under Article 15.

SC-7.07 Delete Paragraph 7.07 B. in its entirety.

SC-7.11 Record Documents

SC-7.11.A. Add the following new paragraph immediately after Paragraph 7.11.A:

Annotation of record documents shall be legible, precise, and complete as determined by Engineer. Record drawings shall also meet all additional requirements if any as specified in the Contract Documents including providing an electronic CAD version.

SC-7.12 Safety and Protection

SC-7.12.A. Add the following new paragraph immediately after Paragraph 7.12.A.3:

4. Contractor shall be responsible at all times for precautions to achieve the protection of all persons, including employees and property. Contractor shall make special effort to detect hazardous conditions and shall take prompt action where necessary to avoid accident, injury, or property damage. OSHA and all other applicable safety laws and ordinances shall be followed as well as American National Standards Institute Safety Standards. All accidents, injuries,

claims, or potential claims shall be reported promptly to Owner.

SC-7.16 Shop Drawings, Samples, and Other Submittals

SC-7.16.E. Add the following new paragraph immediately after Paragraph 7.16.E.1:

2. Contractor shall reimburse Owner for the charges of Engineer and Engineer's Consultants for costs generated as a result of more than two submittals of any one Shop Drawing or Sample being required for evaluation due to rejection for noncompliance of the original submittal or for lack of information required by the Contract Documents. Owner's reimbursement for the charges shall be a deduction from Contractor's Partial Payment(s).

SC-7.18 Indemnification

SC-7.18 Delete in its entirety

ARTICLE 9 – OWNER'S RESPONSIBILITIES

SC-9.02 Replacement of Engineer

SC-9.02 Amend paragraph 9.02 of the General Conditions by striking out the following words: ",provided the Contractor makes no reasonable objection."

SC-9.11 Evidence of Financial Arrangements

SC-9.11 Delete in its entirety

ARTICLE 10 – ENGINEER'S STATUS DURING CONSTRUCTION

SC-10.03 Project Representative

SC-10.03 Add the following new paragraphs immediately after Paragraph 10.03.A:

B. The Resident Project Representative (RPR) will be Engineer's representative at the Site, will act as directed by and under the supervision of Engineer, and will confer with Engineer regarding RPR's actions.

1. General: RPR's dealings in matters pertaining to the Work in general shall be with Engineer and Contractor. RPR's dealings with Subcontractors shall only be through or with the full knowledge and approval of Contractor. RPR shall generally communicate with Owner only with the knowledge of and under the direction of Engineer.

2. Schedules: Review the progress schedule, schedule of Shop Drawing and Sample submittals, and Schedule of Values prepared by Contractor and consult with Engineer concerning acceptability.

3. Conferences and Meetings: Attend meetings with Contractor, such as preconstruction conferences, progress meetings, job conferences, and other Project-related meetings, and prepare and circulate copies of minutes thereof.

4. Liaison:

a. Serve as Engineer's liaison with Contractor. Working principally through Contractor's authorized representative or designee, assist in

providing information regarding the provisions and intent of the Contract Documents.

b. Assist Engineer in serving as Owner's liaison with Contractor when Contractor's operations affect Owner's on-Site operations.

c. Assist in obtaining from Owner additional details or information, when required for proper execution of the Work.

5. Interpretation of Contract Documents: Report to Engineer when clarifications and interpretations of the Contract Documents are needed and transmit to Contractor clarifications and interpretations as issued by Engineer.

6. Shop Drawings and Samples:

a. **Record date of receipt of Samples and Contractor-approved Shop Drawings.**

b. Receive Samples which are furnished at the Site by Contractor, and notify Engineer of availability of Samples for examination.

c. Advise Engineer and Contractor of the commencement of any portion of the Work requiring a Shop Drawing or Sample submittal for which RPR believes that the submittal has not been approved by Engineer.

7. Modifications: Consider and evaluate Contractor's suggestions for modifications in Drawings or Specifications and report such suggestions, together with RPR's recommendations, if any, to Engineer. Transmit to Contractor in writing decisions as issued by Engineer.

8. Review of Work and Rejection of Defective Work:

a. Conduct on-Site observations of Contractor's work in progress to assist Engineer in determining if the Work is in general proceeding in accordance with the Contract Documents.

b. Report to Engineer whenever RPR believes that any part of Contractor's work in progress is defective, will not produce a completed Project that conforms generally to the Contract Documents, or will imperil the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents, or has been damaged, or does not meet the requirements of any inspection, test or approval required to be made; and advise Engineer of that part of work in progress that RPR believes should be corrected or rejected or should be uncovered for observation, or requires special testing, inspection or approval.

9. Inspections, Tests, and System Start-ups:

a. Verify that tests, equipment, and systems start-ups and operating and maintenance training are conducted in the presence of appropriate Owner's personnel, and that Contractor maintains adequate records thereof.

b. Observe, record, and report to Engineer appropriate details relative to the test procedures and systems start-ups.

10. **Records:**

    a. **Prepare a daily report or keep a diary or log book, recording Contractor's hours on the Site, Subcontractors present at the Site, weather conditions, data relative to questions of Change Orders, Field Orders, Work Change Directives, or changed conditions, Site visitors, deliveries of equipment or materials, daily activities, decisions, observations in general, and specific observations in more detail as in the case of observing test procedures; and send copies to Engineer.**

    b. **Record names, addresses, fax numbers, e-mail addresses, web site locations, and telephone numbers of all Contractors, Subcontractors, and major Suppliers of materials and equipment.**

    c. **Maintain records for use in preparing Project documentation.**

11. **Reports:**

    a. **Furnish to Engineer periodic reports as required of progress of the Work and of Contractor's compliance with the Progress Schedule and schedule of Shop Drawing and Sample submittals.**

    b. **Draft and recommend to Engineer proposed Change Orders, Work Change Directives, and Field Orders. Obtain backup material from Contractor.**

    c. **Immediately notify Engineer of the occurrence of any Site accidents, emergencies, acts of God endangering the Work, force majeure or delay events, damage to property by fire or other causes, or the discovery of any Constituent of Concern or Hazardous Environmental Condition.**

12. **Payment Requests: Review applications for payment with Contractor for compliance with the established procedure for their submission and forward with recommendations to Engineer, noting particularly the relationship of the payment requested to the Schedule of Values, Work completed, and materials and equipment delivered at the Site but not incorporated in the Work.**

13. **Certificates, Operation and Maintenance Manuals: During the course of the Work, verify that materials and equipment certificates, operation and maintenance manuals and other data required by the Contract Documents to be assembled and furnished by Contractor are applicable to the items actually installed and in accordance with the Contract Documents, and have these documents delivered to Engineer for review and forwarding to Owner prior to payment for that part of the Work.**

14. **Completion:**

    a. **Participate in Engineer's visits to the Site to determine Substantial Completion, assist in the determination of Substantial Completion and the preparation of a punch list of items to be completed or corrected.**

    b. **Participate in Engineer's final visit to the Site to determine completion of the Work, in the company of Owner and Contractor, and prepare a final punch list of items to be completed and deficiencies to be remedied.**

c. Observe whether all items on the final list have been completed or corrected and make recommendations to Engineer concerning acceptance and issuance of the notice of acceptability of the work.

C. The RPR shall not:

1. Authorize any deviation from the Contract Documents or substitution of materials or equipment (including "or-equal" items).

2. Exceed limitations of Engineer's authority as set forth in the Contract Documents.

3. Undertake any of the responsibilities of Contractor, Subcontractors, or Suppliers.

4. Advise on, issue directions relative to, or assume control over any aspect of the means, methods, techniques, sequences or procedures of Contractor's work.

5. Advise on, issue directions regarding, or assume control over security or safety practices, precautions, and programs in connection with the activities or operations of Owner or Contractor.

6. Participate in specialized field or laboratory tests or inspections conducted off-site by others except as specifically authorized by Engineer.

7. Accept Shop Drawing or Sample submittals from anyone other than Contractor.

8. Authorize Owner to occupy the Project in whole or in part.

ARTICLE 12 – CLAIMS

SC-12.01 Claims

SC 12.01.B **Amend the first sentence of paragraph 12.01.B of the General Conditions by changing "(but in no event later than 30 days)" to "(but in no event later than 90 days for the Owner and no later than 10 days for the Contractor)".**

ARTICLE 13 – COST OF THE WORK; ALLOWANCES; UNIT PRICE WORK

SC-13.01 Cost of the Work

SC 13.01.B.5.c **Add the following to the end of Paragraph 13.01.B.5.c:**

In no case shall rates exceed those published by the current edition of Data Quest Incorporated titled, Rental Rate Blue Book for Construction Equipment, and other procedures established by Florida Department of Transportation.

SC 13.01.B.5.f **Amend the first sentence of paragraph 13.01.B.5.f by striking out the following words: "(except losses and damages within the deductible amounts of property insurance established in accordance with Paragraph 6.05)."**

SC 13.01.B.5.i **Add the following new paragraphs immediately after paragraph 13.01.B.5.i:**

j. The cost of compliance with current local, state and federal safety regulations.

SC-13.03 Unit Price Work

SC 13.03.E **Delete Paragraph 13.03.E in its entirety and insert the following in its place:**

E. The unit price of an item of Unit Price Work shall be subject to reevaluation and adjustment by the Owner under the following conditions:

1. if the extended price of a particular item of Unit Price Work amounts to 25 percent or more of the Contract Price (based on estimated quantities at the time of Contract formation) and the variation in the quantity of that particular item of Unit Price Work actually furnished or performed by Contractor differs by more than 25 percent from the estimated quantity of such item indicated in the Agreement; and

2. if there is no corresponding adjustment with respect to any other item of Work; and

3. if Owner believes that the quantity variation entitles Owner to an adjustment in the unit price, Owner may make a Claim, seeking an adjustment in the Contract Price.

SC 13.03.E **Add the following new paragraphs immediately after Paragraph 13.03.E:**

F. Owner reserves the right to delete any Unit Price Work with the change, if any, in the Contract Price or in the Contract Times determined in accordance with Article 11.

ARTICLE 14 –TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

SC-14.02 Tests, Inspections, and Approvals

SC 14.02.A Add the following to the end of Paragraph 14.02.A:

Contractor shall reimburse Owner for the charges of Engineer and Engineer's Consultants for all costs due to work not being ready for tests and/or inspections when the Contractor has notified Engineer that work is ready for tests and/or inspections. Contractor shall reimburse Owner for all failed tests and subsequent retests. Partial payments payable to Contractor shall be distributed, first to reimburse the Owner for such charges, with the balance distributed to the Contractor in accordance with the Contract Documents.

ARTICLE 15 – PAYMENTS TO CONTRACTOR; SET-OFFS; COMPLETION; CORRECTION PERIOD

SC-15.01 Progress Payments

SC 15.01.B.2 Delete Paragraph 15.01.B.2 in its entirety and insert the following in its place:

Beginning with the second Application for Payment, each Application shall include an affidavit of Contractor certifying that Contractor has disbursed to all subcontractors and suppliers having an interest in the contract their pro rata shares of the payment out of previous progress payments received by Contractor for all work completed and materials furnished in the previous period, less a retainage withheld by Contractor pursuant to an agreement with a subcontractor. Contractor shall provide a waiver of lien for all stored materials with the second application for payment after submitting application for payment. If the waiver of lien is not provided, current application for payment will be reduced by the value of the stored materials until said time waiver of lien is received or stored materials become incorporated in the Work. Within 30 days of receipt for the final progress payment or any other payments received thereafter except the final payment, Contractor shall pay all subcontractors and suppliers having an interest in the contract their pro rata shares of the payment for all work completed and materials furnished.

SC-15.01 Progress Payments

SC 15.01.D.1 Change Paragraph 15.01.D.1 to read as follows:

After presentation of the Application for Payment to the Owner with Engineer's recommendation, the amount recommended will (subject to the provisions of paragraph 15.01.C) become due and when due, will be paid by Owner to Contractor within thirty (30) days.

SC-15.03 Substantial Completion

SC 15.03.B Add the following new subparagraph to Paragraph 15.03.B:

1. If some or all of the Work has been determined not to be at a point of Substantial Completion and will require re-inspection or re-testing by Engineer, the cost of such re-inspection or re-testing, including the cost of time, travel and living expenses, shall be paid by Contractor to Owner. If Contractor does not pay, or the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under Article 15.

PART 4

MISCELLANEOUS DOCUMENTS

Work Change Directive No.

Date of Issuance:	Effective Date:
Owner: Village of Palm Springs	Owner's Task Order Nos.: 238 and 268
Contractor:	Contractor's Project No.:
Engineer: Eckler Engineering, Inc.	Engineer's Project No.: 400-086.01
Project: MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants	Contract Name: MIEX Regeneration System Upgrade Main and R. L. Pratt Water Treatment Plants

Contractor is directed to proceed promptly with the following change(s):

Description:

Attachments: *[List documents supporting change]*

Purpose for Work Change Directive:

Directive to proceed promptly with the Work described herein, prior to agreeing to changes on Contract Price and Contract Time, is issued due to: *[check one or both of the following]*

☐ Non-agreement on pricing of proposed change.

☐ Necessity to proceed for schedule or other Project reasons.

Estimated Change in Contract Price and Contract Times (non-binding, preliminary):

Contract Price $ [increase] [decrease].

Contract Time days [increase] [decrease].

Basis of estimated change in Contract Price:

☐ Lump Sum ☐ Unit Price

☐ Cost of the Work ☐ Other

PART 5

SPECIFICATIONS

SECTION 01005

GENERAL REQUIREMENTS

PART 1 GENERAL

1.01 WORK INCLUDED

A. Written and drawn Work specified in these Contract Documents are the sole responsibility of the CONTRACTOR.

B. Provide materials, equipment, and incidentals necessary for proper completion of the Work required by the Specifications and as shown on the Drawings, using qualified labor and supervision.

C. Summary of Work can be found in Section 01010 - Summary of Work. Obtain and pay for required permits. Perform and complete the work in the manner best calculated to promote rapid construction consistent with safety of life and property and to the satisfaction of the ENGINEER and OWNER, and in strict accordance with the Contract Documents. Clean up the work and maintain it during and after construction, until accepted, perform work and pay costs incidental thereto. Repair or restore structures and property that may be damaged or disturbed during performance of the work.

D. The cost of incidental work described in these GENERAL REQUIREMENTS, for which there are no specific Contract Items, shall be considered as part of the general cost of doing the work and shall be included in the prices for the various Contract Items. No additional payment will be made therefor.

E. Provide and maintain such modern plant, tools, and equipment as may be necessary, to perform in a satisfactory and acceptable manner all the work required by this Contract. Only equipment of established reputation and proven efficiency shall be used.

F. The CONTRACTOR is solely responsible for the adequacy of his workmanship, materials, and equipment, prior review of the ENGINEER notwithstanding.

1.02 WORK TO BE PERFORMED BY OTHERS

A. During the construction period for this project, the OWNER (either with his own forces or under a separate contract) may be performing work that will require the cooperation of the CONTRACTORs in scheduling and coordination to avoid conflicts.

1.03 PROGRESS OF PIPELINE CONSTRUCTION

A. Perform Work in a systematic manner so that a minimum of inconvenience will result to the public in the course of construction. It is, therefore, necessary to confine operations to as small a length of work area per crew as is practical. Normally, the trenching equipment shall not be farther than 200 feet ahead of each pipe-laying crew or such distance as necessary to provide maximum safety. Backfill the trench so no section of properly laid pipe is left uncovered longer than is absolutely necessary. The safety conditions of open excavations shall be the CONTRACTOR's responsibility. Completely

backfill and clean up after each section of pipe has been inspected and approved.

1.04 PUBLIC UTILITY INSTALLATIONS AND STRUCTURES

A. Public utility installations and structures shall be understood to include poles, tracks, pipes, wires, conduits, house service connections, vaults, manholes, other appurtenances, and facilities pertaining thereto whether owned or controlled by the OWNER, other governmental bodies or privately owned by individuals, firms, and corporations, used to serve the public with transportation, traffic control, gas, electricity, telephone, cable TV, sewerage collection, drainage collection, potable water, irrigation water, and other public and private property which may be affected by the work shall be deemed included hereunder.

B. The Contract Documents contain data relative to existing public utility installations and structures above and below the ground surface. These data are not guaranteed as to their completeness or accuracy and it is the responsibility of the CONTRACTOR to make his own investigations to inform himself fully of the character, condition and extent of all such installations and structures as may be encountered and as may affect the construction operations.

C. Protect public utility installations and structures from damage during the work. Arrange construction operations as to avoid damage to these facilities. Provide required protective devices and construction including but not limited to temporary pipe supports at CONTRACTOR expense. Repair existing public utilities damaged by the CONTRACTOR which are shown on the Plans or have been located in the field by the utility, at CONTRACTOR expense, as directed by the ENGINEER. No separate payment shall be made for such protective devices or repairs to public utility installations or structures.

D. The CONTRACTOR is solely and directly responsible to the OWNER and operators of such properties for any damage, injury, expense, loss, inconvenience, delay, suits, actions, and claims of any character brought because of any injuries or damage which may result from the construction operations under this Contract.

E. Neither the OWNER nor its officers or agents will be responsible to the CONTRACTOR for damages as a result of the Contractor's failure to protect utilities encountered in the work.

F. Public utility installations or structures owned or controlled by the OWNER or another governmental body which are shown on the Drawings to be removed, relocated, replaced or rebuilt by the CONTRACTOR shall be considered as a part of the general cost of doing the work and shall be included in the prices bid for the various contract items. No separate payment shall be made therefore.

G. Where public utility installations or structures owned or controlled by the OWNER, another governmental body or public agency are encountered during the course of the work, and are not indicated on the Drawings or in the Specifications, and when, in the opinion of the ENGINEER, removal, relocation, replacement, or rebuilding is necessary to complete the work under this Contract, such work shall be accomplished by the utility having jurisdiction, or such work may be

ordered, in writing by the utility for the CONTRACTOR to accomplish. If such work is accomplished by the utility having jurisdiction, it will be carried out expeditiously and the CONTRACTOR shall give full cooperation to permit the utility to complete the removal, relocation, replacement or rebuilding as required. If such work is accomplished by the CONTRACTOR, it will be paid for as extra work as provided in the Agreement.

H. In the event of interruption to domestic water, sewer, storm drain, or other utility services as a result of accidental breakage due to construction operations, promptly notify the proper authority. Cooperate with said authority in restoration of service as promptly as possible and bear all costs of repair. In no case shall interruption of any water or utility service be allowed to exist outside working hours unless prior approval is granted.

I. During performance of the work employ approved methods, exercise reasonable care and skill so as to avoid unnecessary delay, injury, damage, and destruction of public utility installations and structures, avoid unnecessary interference with, or interruption of, public utility services, and cooperate fully with the OWNERs thereof to that end.

J. Perform maintenance, repair, removal, relocation, or rebuilding of public utility installations and structures, when accomplished by the CONTRACTOR as specified, by methods approved by the owner of the utility.

K. Provide written notice to OWNER and other governmental utility departments and other OWNERs of public utilities of the location of his proposed construction operations, at least forty-eight hours in advance of breaking ground in any area or on any unit of the work. This can be accomplished by making the appropriate contact with the following utility companies:

Name of Utility	Responsible Authority	Telephone No.
Sunshine State One Call of Florida, Inc.	General Utility Location	(800) 432-4770

1.05 TEMPORARY SHUTDOWN OF EXISTING OPERATIONS AND UTILITIES

A. Connections to existing services or utilities, or other work that requires the temporary shutdown of any existing operations or utilities shall be planned in detail with appropriate scheduling of the Work and coordinated with the OWNER or ENGINEER. The approved schedule for shutdown or restart shall be indicated on the CONTRACTOR's Progress Schedule, and advance notice shall be given in order that the OWNER or ENGINEER may witness the shutdown, tie-in and startup and coordinate with affected people.

B. Materials and equipment (including emergency equipment) necessary to expedite the tie-in shall be on hand prior to the shutdown of existing services or utilities.

1.06 INTERFERING STRUCTURES

A. Take necessary precautions to prevent damage to existing structures whether on the surface, aboveground or underground. An attempt has been made to show major structures on the Drawings. The completeness and accuracy of information shown cannot be guaranteed, and it is presented simply as a guide to avoid know possible difficulties.

B. Protect underground and above ground existing structures from damage, whether or not they lie within the limits of the existing right-of-way and/or additional right-of-way and easements obtained by the OWNER. Where such existing fences, gates, barns, sheds, buildings or any other structure must be removed during construction, restore to their original condition to the satisfaction of the property owner involved at the CONTRACTOR's own expense. Notify the ENGINEER of any damaged underground structure and make repairs or replacements before backfilling.

C. Without additional compensation, the CONTRACTOR may remove and replace in a condition good as or better than original, such small miscellaneous structures as fences, mailboxes and signposts that interfere with the CONTRACTOR's operations.

1.07 FIELD RELOCATION

A. During the progress of construction, it is expected that minor relocations of the work may be necessary. Such relocations shall be made only by direction of the ENGINEER. If existing structures are encountered which prevent the construction, and which are not properly shown on the drawings, notify the ENGINEER before continuing with the construction in order that the ENGINEER my make such field revisions as necessary to avoid conflict with the existing structures. If the structure is encountered, and shall proceed with the construction despite this interference, he shall do so at his own risk.

1.08 EASEMENTS

A. Where portions of the work are located on public or private property, easements and permits will be obtained by the OWNER. Easements will provide for the use of property for construction purposes to the extent indicated on the easements. Copies of these easements and permits are available upon request to the OWNER. It shall be the CONTRACTOR's responsibility to determine the adequacy of the easement obtained in every case and to abide by all requirements and provisions of the easement or permit. The CONTRACTOR shall confine his construction operations to within the easement limits or street right-of-way limits or make special arrangements with the property owners or appropriate public agency for the additional area required. Any damage to property, either inside or outside the limits of the easements provided by the OWNER, shall be the responsibility of the CONTRACTOR as specified herein. The CONTRACTOR shall remove, protect and replace all fences or other items encountered on public or private property. Before final payment will be authorized by the ENGINEER, the CONTRACTOR will be required to furnish the OWNER with written releases from property owners or public agencies where side agreements or special easements have been made by the CONTRACTOR of where the CONTRACTOR's operations, for any reason, have not been kept within the construction right-of-way obtained by the OWNER.

B. It is anticipated that the required easements and permits will be obtained before construction is started. However should the procurement of any easement or permit be delayed, the CONTRACTOR shall schedule and perform the work around these areas until such time as the easement or permit has been secured.

1.09 LAND MONUMENTS

A. Notify the ENGINEER of any existing federal, state, county, city and private land monuments encountered. Private monuments that are within 5 feet of the trench centerline shall be preserved, or replaced by a licensed surveyor at the CONTRACTOR's expense. Notify the ENGINEER when government monuments are encountered at least 2 weeks in advance of the proposed construction in order that the ENGINEER will have ample opportunity to notify the proper authority and reference these monuments for later replacement.

1.10 DRAWINGS AND SPECIFICATIONS

A. Drawings

The Drawings referred to in the Contract Documents bear the general project name and number as shown in the Invitation to Bid.

When obtaining data and information from the Drawings, figures shall be used in preference to scaled dimensions, and large scale drawings in preference to small scale drawings.

B. Copies furnished to CONTRACTOR

After the Contract has been executed, the contractor will be furnished with three (3) sets of paper prints, the same size as the original drawings and three (3) copies of the Specifications. Additional copies of the Plans and Specifications, when requested, may be furnished to the CONTRACTOR at cost of reproduction.

The CONTRACTOR shall furnish each of the subcontractors, manufacturers, and material men such copies of the Contract Documents as may be required for their work.

C. Supplementary Drawings

When, in the opinion of the ENGINEER, it becomes necessary to explain more fully the work to be done or to illustrate the work further or to show any changes which may be required, drawings known as Supplementary Drawings, with specifications pertaining thereto, will be prepared by the ENGINEER and five (5) paper prints thereof will be given to the CONTRACTOR.

The Supplementary Drawings shall be binding upon the CONTRACTOR with the same force as the Drawings. Where such Supplementary Drawings require either less or more than the estimated quantities of work, credit to the OWNER or compensation therefor to the CONTRACTOR shall be subject to the terms of the Agreement.

D. CONTRACTOR To Check Drawings and Data

Verify all dimensions, quantities and details shown on the Drawings, Supplementary Drawings, schedules, Specifications or other data received from the ENGINEER, and shall notify him of all errors, omissions, conflicts, and discrepancies found therein. Failure to discover or correct errors, conflicts or discrepancies shall not relieve the CONTRACTOR of full responsibility for unsatisfactory work, faulty construction or improper operation resulting therefrom nor from rectifying such conditions at his own expense. He will not be allowed to take advantage of any errors or omissions, as full instructions will be furnished by the ENGINEER, should such errors or omissions be discovered. All schedules are given for the convenience of the ENGINEER and the CONTRACTOR and are not guaranteed to be complete. The CONTRACTOR shall assume all responsibility for the making of estimates of the size, kind, and quality of materials and equipment included in work to be done under the Contract.

E. Specifications

Each Technical Specification Section consists of three parts: General, Products and Execution. The General part contains General Requirements which govern the Work. Products and Execution modify and supplement these by detailed requirements for the work and shall always govern whenever there appears to be a conflict.

F. Intent

All work called for in the Specifications applicable to this Contract, but not shown on the Drawings in their present form, or vice versa, shall be of like effect as if shown or mentioned in both. Work not specified in either the Drawings or in the Specifications, but involved in carrying out their intent or in the complete and proper execution of the work, is required and shall be performed by the CONTRACTOR as though it were specifically delineated or described.

The apparent silence of the Specifications as to any detail, or the apparent omission from them of a detailed description concerning any work to be done and materials to be furnished, shall be regarded as meaning that only the best general practice is to prevail and that only material and workmanship of the best quality is to be used, and interpretation of these Specifications shall be made upon that basis.

1.11 MATERIALS AND EQUIPMENT

A. General

Materials and equipment to be incorporated in the Work must be new and unused. The use of reconditioned or refurbished materials and equipment will not be allowed.

B. Manufacturer

The names of proposed manufacturers, material men, suppliers and dealers who are to furnish materials, fixtures, equipment, appliances or other fittings shall be submitted to the ENGINEER for review as early as possible, to afford proper investigation and checking. Such review must be obtained before Shop Drawings will be checked. No manufacturer will be acceptable to furnish any materials under this Contract unless it shall be of good reputation and have a plant of ample capacity. Manufacturers shall, upon the request of the

ENGINEER, be required to submit evidence that it has manufactured a similar product to the one specified and that it has been previously used for a like purpose for a sufficient length of time to demonstrate its satisfactory performance.

All transactions with the manufacturers or subcontractors shall be through the CONTRACTOR, unless the contractor shall request, in writing to the ENGINEER, that the manufacturer or subcontractor deal directly with the ENGINEER. Any such transactions shall not in any way release the CONTRACTOR from his full responsibility under this Contract.

Any two or more pieces of material or equipment of the same kind, type or classification, and being used for identical types of service shall be made by the same manufacturer.

C. Delivery

Deliver materials in ample quantities to insure the most speedy and uninterrupted progress of the work so as to complete the work within the allotted time. Also coordinate deliveries in order to avoid delay in, or impediment of, the progress of the work of any related CONTRACTOR.

D. Tools and Accessories

Unless otherwise stated in the Contract Documents, furnish with each type, kind or size of equipment, one complete set of suitably marked high grade special tools and appliances which may be needed to adjust, operate, maintain or repair the equipment. Such tools and appliances shall be furnished in painted steel cases, properly labeled and equipped with good grade cylinder locks and duplicate keys.

Furnish spare parts as specified.

Provide with each piece of equipment a substantial nameplate, securely fastened in place and clearly inscribed with the manufacturer's name, year of manufacture, serial number, weight and principal rating data.

E. Installation of Equipment

Have on hand sufficient proper equipment and machinery of ample capacity to facilitate the work and to handle all emergencies normally encountered in work of this character.

Erect equipment in a neat and workmanlike manner on the foundations at the locations and elevations shown on the Drawings. Correctly align, level, and adjust equipment for satisfactory operation and install so that proper and necessary connections can be made readily between the various units.

F. Service of Manufacturer's ENGINEER

The Contract prices for equipment shall include the cost of furnishing a competent and experienced engineer or superintendent who shall represent the manufacturer and shall assist the CONTRACTOR, when required, to install, adjust, test and place in operation the equipment in conformity with the Contract Documents. After the equipment is placed in permanent operation by the OWNER, such engineer or

superintendent shall make all adjustments and tests required by the ENGINEER to prove that such equipment is proper and in satisfactory operating condition, and shall instruct such personnel as may be designated by the OWNER in the proper operation and maintenance of such equipment.

1.12 INSPECTION AND TESTING

A. General

Inspection and testing of materials will be performed by a representative of the OWNER unless otherwise specified.

For tests specified to be made by the CONTRACTOR, the testing personnel shall make the necessary inspections and tests and the reports thereof shall be in such form as will facilitate checking to determine compliance with the Contract Documents. Five copies of the reports shall be submitted and authoritative certification thereof must be furnished to the ENGINEER as a prerequisite for the acceptance of any material or equipment.

If, in the making of any test of any material or equipment, it is ascertained by the ENGINEER that the material or equipment does not comply with the Contract, the CONTRACTOR will be notified thereof and he will be directed to refrain from delivering said material or equipment, or to remove it promptly from the site or from the work and replace it with acceptable material, without cost to the OWNER.

Tests of electrical and mechanical equipment and appliances shall be conducted in accordance with recognized test codes of the ANSI, ASME, or the IEEE, except as may otherwise be stated herein.

The CONTRACTOR shall be fully responsible for the proper operation of equipment during tests and instruction periods and shall neither have nor make any claim for damage which may occur to equipment prior to the time when the OWNER formally takes over the operation thereof.

B. Costs

Inspection and testing of materials furnished under this Contract will be performed by the OWNER or duly authorized inspection engineers or inspection bureaus without cost to the CONTRACTOR, unless otherwise expressly specified.

The cost of shop and field tests of equipment and of certain other tests specifically called for in the Contract Documents shall be borne by the CONTRACTOR and such costs shall be deemed to be included in the Contract price.

Materials and equipment submitted by the CONTRACTOR as the equivalent to those specifically named in the Contract may be tested by the OWNER for compliance. The CONTRACTOR shall reimburse the OWNER for the expenditures incurred in making such tests on materials and equipment which are rejected for non-compliance.

C. Inspection of Materials

Give notice in writing to the ENGINEER, sufficiently in advance of intention to commence the manufacture or preparation of materials especially manufactured or prepared for use in or as part of the permanent construction. Such notice shall contain a request for inspection, the date of commencement and the expected date of completion of the manufacture or preparation of materials. Upon receipt of such notice, the ENGINEER will arrange to have a representative present at such times during the manufacture as may be necessary to inspect the materials or he will notify the CONTRACTOR that the inspection will be made at a point other than the point of manufacture, or he will notify the CONTRACTOR that inspection will be waived. The CONTRACTOR must comply with these provisions before shipping any material. Such inspection shall not release the CONTRACTOR from the responsibility for furnishing materials meeting the requirements of the Contract Documents.

D. Certificate of Manufacture

When inspection is waived or when the ENGINEER so requires, the CONTRACTOR shall furnish to him authoritative evidence in the form of Certificates of Manufacture that the materials to be used in the work have been manufactured and tested in conformity with the Contract Documents. These certificates shall be notarized and shall include copies of the results of physical tests and chemical analyses, where necessary, that have been made directly on the product or on similar products of the manufacturer.

E. Shop Tests of Operating Equipment

Test each piece of equipment for which pressure, duty, capacity, rating, efficiency, performance, function, or special requirements are specified in the shop of the maker in a manner which shall conclusively prove that its characteristics comply fully with the requirements of the Contract documents. No such equipment shall be shipped to the work until the ENGINEER notifies the CONTRACTOR, in writing, that the results of such tests are acceptable.

Five copies of the manufacturer's actual test data and interpreted results thereof, accompanied by a certificate of authenticity sworn to by a responsible official of the manufacturing company, shall be forwarded to the ENGINEER for approval.

The cost of shop tests and of furnishing manufacturer's preliminary and shop test data of operating equipment shall be borne by the CONTRACTOR.

F. Preliminary Field Tests

As soon as conditions permit, provide materials, equipment, and incidentals necessary for proper completion of the preliminary field tests of equipment, using qualified labor and supervision. If the preliminary field tests disclose any equipment furnished under this Contract which does not comply with the requirements of the Contract Documents, the CONTRACTOR shall, prior to the acceptance tests, make all changes, adjustments and replacements required. The supplier and furnishing contractor shall assist in the preliminary field tests as applicable.

G. Final Field Tests

Upon completion of the work and prior to final payment, all equipment and piping installed under this Contract shall be subjected to acceptance tests as specified or required to prove compliance with the Contract Documents.

Provide materials, equipment, fuel, energy, water, and incidentals necessary for proper completion of the acceptance tests and final field tests required by the Specifications and as shown on the Drawings, using qualified labor and supervision.

H. Failure of Tests

Any defects in the materials and equipment or their failure to meet the tests, guarantees or requirements of the Contract Documents shall be promptly corrected by the CONTRACTOR by replacements or otherwise. The decision of the ENGINEER as to whether or not the CONTRACTOR has fulfilled his obligations under the Contract shall be final and conclusive. If the CONTRACTOR fails to make these corrections or if the improved materials and equipment, when tested, shall again fail to meet the guarantees or specified requirements, the OWNER, notwithstanding its partial payment for work, and materials and equipment, may reject the materials and equipment and may order the CONTRACTOR to remove them from the site at his own expense.

If the failure during testing is fully or partly due to the equipment provided by the CONTRACTOR, as determined by the ENGINEER, the Furnishing CONTRACTOR shall make all required improvements at no cost to the OWNER.

In case the OWNER rejects any materials and equipment, then the CONTRACTOR shall replace the rejected materials and equipment within a reasonable time. If he fails to do so, the OWNER may, after the expiration of a period of thirty (30) calendar days after giving him notice in writing, proceed to replace such rejected materials and equipment, and the cost thereof shall be deducted from any compensation due or which may become due the CONTRACTOR under his Contract.

The OWNER agrees to obtain other equipment within a reasonable time and the CONTRACTOR agrees that the OWNER may use the equipment furnished by him without rental or other charges until the new equipment is obtained.

I. Final Inspection

During such final inspections, the work shall be clean and free from water. In no case will the final estimate be prepared until the CONTRACTOR has complied with all requirements set forth and the ENGINEER has made his final inspection of the entire work and is satisfied that the entire work is properly and satisfactorily constructed in accordance with the requirements of the Contract documents.

1.13 TEMPORARY STRUCTURES

A. Responsibility for Temporary Structures

In accepting the Contract, the CONTRACTOR assumes full responsibility for the sufficiency and safety of all temporary structures or work and for any damage which may result from their failure or their improper construction, maintenance or operation and will indemnify and save harmless the OWNER and ENGINEER from all claims, suits or actions and damages or costs of every description arising by reason of failure to comply with the above provisions.

1.14 TEMPORARY SAFETY SERVICES

A. Accident Prevention

Precautions shall be exercised at all times for the protection of person and property. The safety provisions of applicable laws, building and construction codes shall be observed. Comply with the U.S. Department of Labor Safety and Health Regulations for construction promulgated under the Occupational Safety and Health Act of 1970 (PL 910-596), and under Section 107 of the contract Work. Hours and Safety Standards Act (PL 91-54), except where state and local safety standards exceed the federal requirements and except where state safety standards have been approved by the Secretary of labor in accordance with provisions of the Occupational Safety and Health Act, shall be complied with.

B. First Aid

Keep at each location where work is in progress, a completely equipped first aid kit and provide ready access thereto at all times when men are employed on the work.

1.15 TRAFFIC MAINTENANCE AND SAFETY

A. Comply with all rules and regulation of the state, county and city authorities regarding closing or restricting the use of public streets or highways. No public or private road shall be closed, except by express permission of the OWNER. Conduct the work so as to assure the least possible obstruction to traffic and normal commercial pursuits. Protect all obstructions within traveled roadways by installing approved signs, barricades and lights where necessary for the safety of the public. The convenience of the general public and residents adjacent to the project and the protection of persons and property are of prime importance and shall be provided for in an adequate and satisfactory manner.

B. Where traffic will pass over trenches after they are backfilled and before they are paved, the top of the trench shall be maintained in a condition that will allow normal vehicular traffic to pass over. Temporary access driveways must be provided where required. Cleanup operations shall follow immediately behind backfilling and the work site shall be kept in an orderly condition at all times.

C. When flagmen and guards are required by regulation or when deemed necessary for safety, they shall be furnished with approved orange wearing apparel and other regulation traffic-control devices.

1.16 PROTECTION OF PROPERTY

A. Protect stored materials, cultivated trees and crops and other items located adjacent to the proposed work. Notify property owners affected by the construction at least 48 hours in advance of the time construction begins. During construction operations, construct and maintain such facilities as may be required to provide access by all property owners to their property. No person shall be cut off from access to his residence or place of business for a period exceeding 8 hours, unless the CONTRACTOR has made special arrangements with the affected persons.

1.17 ACCESS FOR POLICE, FIRE, AND POSTAL SERVICE

A. Notify the fire department and police department before closing any street or portion thereof. No closing shall be made without the OWNER's approval. Notify said departments when the streets are again passable for emergency vehicles. Do not block off emergency vehicle access to consecutive arterial crossings or dead-end streets, in excess of 300 linear feet, without special written permission from the fire department. Conduct operations with the least interference to fire equipment access and at no time prevent such access.

B. The CONTRACTOR shall lease a night emergency telephone number or numbers with the police department so that contact may be made easily at all times in case of barricade and flare trouble or other emergencies.

C. Maintain postal service facilities in accordance with the requirements of the U.S. Postal Service. Move mailboxes to temporary locations designated by the U.S. Postal Service and at the completion of the work in each area, replace them in their original location and in a condition satisfactory to the U.S. Postal Service.

1.18 SITE RESTORATION AND CLEANUP

A. At all times during the work, keep the premises clean and orderly and upon completion of the work, repair all damage caused by equipment and leave the project free of rubbish or excess materials of any kind.

B. Stockpile excavated materials in a manner that will cause the least damage to adjacent lawns, grassed areas, gardens, shrubbery, or fences, regardless of whether these are on private property or on state, county or city rights-of-way. Remove all excavated materials from grassed and planted areas and leave these surfaces in a condition equivalent to their original conditions.

C. All existing drainage ditches and culverts shall be reopened and graded and natural drainage restored. Restore culverts broken or damaged to their original condition and location.

D. Upon completion of pipe laying and backfilling operations, hand-rake and drag all former grassed and planted areas leaving all disturbed areas free from rocks, gravel, clay or any other foreign materials and ready, in all aspects, for planting. The finished surface shall conform to the original surface and shall be free-draining and free from holes, ruts, rough spots or other surface features detrimental to a seeded area.

E. No trees, except those specifically shown on the Drawings to be removed, shall be removed without the express approval of the ENGINEER. Removed trees will be disposed of off the work site by the CONTRACTOR.

F. Originally seeded areas outside dedicated rights-of-way or easements shall be fertilized and reseeded with first-quality seed or planted with new sod as approved by the property owner. All ground preparation, reseeding and sodding shall be done in accordance with the best accepted practices for lawn planting. The CONTRACTOR shall be responsible for obtaining a satisfactory grass turf acceptable to the property owner.

G. Thoroughly clean all spilled dirt, gravel or other foreign material caused by the construction operations from all streets and roads at the conclusion of each day's operation.

1.19 PRESERVATION OF IRRIGATION AND DRAINAGE DITCHES

A. Arrange schedules so that construction will not interfere with the irrigation of cultivated lands or pasturelands. Construction may proceed during the irrigation season provided the CONTRACTOR constructs, at his own expense, temporary irrigation ditches, turnouts and miscellaneous structures acceptable to the owner of the property.

B. After backfilling of the trenches, restore all irrigation and storm drain ditches destroyed, damaged or otherwise modified during construction to a condition equivalent, in the opinion of the ENGINEER, to the condition of the ditch before construction. Ditches to be reconstructed shall be built in their original locations.

1.20 LINES AND GRADES

A. Grade

All work under this Contract shall be constructed in accordance with the lines and grades shown on the Plans, or as given by the ENGINEER. The full responsibility for keeping alignment and grade shall rest upon the CONTRACTOR.

B. Surveys

Furnish and maintain stakes and other such materials, and give such assistance, including qualified helpers, as may be required by the ENGINEER for setting reference marks. Check such reference marks by such means as deemed necessary and, before using them, call the ENGINEER's attention to any inaccuracies. Establish all working or construction lines and grades as required from the reference marks set by the ENGINEER, and be solely responsible for the accuracy thereof. Lines and grades are subject to the check and review of the ENGINEER.

Keep the ENGINEER informed a reasonable time in advance as to need for line and grade reference marks, in order that they may be furnished and all necessary measurements made for record and payment with the minimum of inconvenience to the ENGINEER or of delay to the CONTRACTOR.

It is the intention not to delay the Work for the establishment of reference marks but, when necessary, working operations shall be

suspended for such reasonable time as the ENGINEER may require for this purpose.

C. Safeguarding Marks

Safeguard all points, stakes, grade marks, monuments and bench marks made or established on the work, bear the cost of reestablishing them if disturbed, and bear the entire expense of rectifying work improperly installed due to not maintaining or protecting or to removing without authorization such established points, stakes and marks. Safeguard all existing and known property corners, monuments and marks adjacent to but not related to the work and, if required, bear the cost of reestablishing them if disturbed or destroyed.

D. Datum Plane

All elevations indicated or specified refer to the North American Vertical Datum of 1988 (NAVD 88) unless noted otherwise.

E. Refer to Section 01050 - Field Engineering.

1.21 PROTECTION OF WORK AND PUBLIC

A. Barriers and Lights

During the prosecution of the work, put up and maintain, at all times, such barriers and lights as will effectually prevent accidents. Provide suitable barricades, yellow lights, "danger" or "caution" or "street closed" signs and watchmen at all places where the work causes obstructions to the normal traffic or constitutes in any way a hazard to the public.

B. Noise

Eliminate noise to as great as extent as practicable at all times. Air compressing plants shall be equipped with silencers and the exhaust of all gasoline motors or other power equipment shall be provided with mufflers. In the vicinity of hospitals and schools, special care shall be used to avoid noise or other nuisances. Strictly observe all local regulations and ordinances covering noise control.

Except in the event of an emergency, no work shall be done between the hours of 7:00 P.M. and 7:00 A.M., or on Saturdays and Sundays. If the proper and efficient prosecution of the work requires operations during these hours, written permission of the ENGINEER shall be obtained before starting such items of the work.

C. Access to Public Services

Neither the materials excavated nor the materials or plant used in the construction of the work shall be so placed as to prevent free access to all fire hydrants, valves or manholes.

D. Dust Prevention

Give all unpaved streets, roads, detours or haul roads used in the construction area an approved dust-preventative treatment or

periodically water to prevent dust. Applicable environmental regulations for dust prevention shall be strictly enforced.

1.22 CUTTING AND PATCHING

A. Do all cutting, fitting or patching of this portion of the Work that may be required to make the several parts thereof join and coordinate in a manner satisfactory to the ENGINEER and in accordance with the Drawings and Specifications. The Work must be done by competent workmen skilled in the trade required by the restoration.

1.23 CLEANING

A. During construction of the Work, keep the site of the Work and adjacent premises as free from material, debris and rubbish as is practicable and remove same from any portion of the site if, in the opinion of the ENGINEER, such material, debris, or rubbish constitutes a nuisance or is objectionable.

Remove from the site all surplus materials and temporary structures when no further need therefore develops. Clean up all spillage and incur all associated costs including, but not limited to, costs related to repair and maintenance resulting from damages of such spills.

B. Final Cleaning

At the conclusion of the work, all erection plant, tools, temporary structures and materials belonging to the CONTRACTOR shall be promptly taken away, and remove and promptly dispose of all water, dirt, rubbish or any other foreign substances.

Thoroughly clean all equipment and materials installed and deliver such materials and equipment undamaged in a bright, clean, polished and new operating condition.

1.24 MISCELLANEOUS

A. Protection Against Siltation and Bank Erosion

1. Arrange operations to minimize siltation and bank erosion on construction sites and on existing or proposed water courses and drainage ditches.

2. Remove any siltation deposits and correct any erosion problems as recommended by the ENGINEER which results from the construction operations.

B. Protection of Wetland Areas

Properly dispose of all surplus material, including spoil, in accordance with Local, State and Federal regulations. Under no circumstances shall surplus material be disposed of in wetland areas as defined by the Florida Department of Environmental Regulation.

C. Existing Facilities

The work shall be so conducted to maintain existing facilities in operation insofar as is possible. Requirements and schedules of

operations for maintaining existing facilities in service during construction shall be as described in the Specific Provisions.

D. Use of Chemicals

All chemicals used during project construction or furnished for project operation, whether herbicide, pesticide, disinfection, polymer, reactant, or of other classification, must show approval of either EPA or USDA. Use of all such chemicals and disposal of residues shall be in strict conformance with instructions.

E. Use of Explosives

The use of any type of explosive to carry out any portion of the work is strictly prohibited.

PART 2 PRODUCTS

Not Used.

PART 3 EXECUTION

Not Used.

END OF SECTION

SECTION 01010

SUMMARY OF WORK

PART 1 GENERAL

1.01 WORK INCLUDED

A. All of the work under this contract is located at the following Village of Palm Springs Facilities:

1. Main Water Treatment Plant (Bid Package "A"), 360 Davis Road, Palm Springs, Florida, 33461.

2. R. L. Pratt Water Treatment Plant (Bid Package "B"), 5618 Basil Drive, West Palm Beach, Florida, 33415.

B. Furnish all labor, materials, equipment, tools, services and incidentals to complete all work required by these Specifications and as shown on the Drawings.

C. Perform the work complete, in place, and ready for continuous service, and include repairs, testing, permits, cleanup, replacements and restoration required as a result of damages caused during this construction.

D. All materials, equipment, skills, tools and labor which are reasonably and properly inferable and necessary for the proper completion of the work in a substantial manner and in compliance with the requirements stated or implied by these Specifications or Drawings shall be furnished and installed by the CONTRACTOR whether specifically indicated in the Contract Documents or not.

E. Comply with all Municipal, County, State, Federal, and other codes which are applicable to the proposed construction work.

1.02 GENERAL DESCRIPTION OF WORK

A. The project consists of an upgrade to the MIEX Resin Regeneration Systems at the existing Main and R. L. Pratt Water Treatment Plants.

1.03 DETAILED DESCRIPTION OF COMPONENTS

A. Minor structural, mechanical, and electrical demolition to facilitate the improvements as indicated by the drawings and specifications.

B. Construction of new reinforced concrete equipment pads, doors, and other incidentals as indicated by the drawings.

C. Furnish and install mechanical process system upgrades as indicated on the Drawings.

D. Piping System Improvements.

E. Electrical.

F. Surface preparation and painting of all surfaces as specified.

G. Complete all permitting requirements specified herein.

H. Provide all required survey for layout of construction and record data.

I. Professional preconstruction audio/video tape of existing conditions of complete project impact area as specified.

J. Provide all surface restoration work as shown on the drawings and as specified including but not limited to sod replacement, site cleanup and equipment cleaning as required.

K. Provide all required record drawings and other record documents.

L. All other required work whether implied or incidental to the proper completion of the project.

1.04 CONTRACT TIME

A. Contract times as specified in the Bid form and Agreement are as follows:

1. Substantial Completion = 335 calendar days from Notice to Proceed.
2. Final Completion = 365 calendar days from Date of Substantial Completion.

1.05 ALLOWANCES

A. The CONTRACTOR shall include in the Bid, the Lump Sum allowances itemized below to establish a fund which shall be used only by the CONTRACTOR with the specific approval of the ENGINEER to pay the cost of items not called for in these Specifications which cannot be anticipated at the time of Bidding. Payment for items of allowance shall be made in accordance with Article 11 of the General Conditions. Any unused balance of allowance shall revert to the OWNER upon completion of the Work.

BID ITEM	DESCRIPTION	AMOUNT
1A.	Miscellaneous Work Allowance – Main WTP	$ 50,000.00
2A.	Miscellaneous Work Allowance – R. L. Pratt WTP	$ 50,000.00
	TOTAL	$100,000.00

B. Additional contract time for providing miscellaneous work shall be as requested by CONTRACTOR and as approved by OWNER and ENGINEER.

1.06 PERMITS

A. The OWNER has obtained permits for the design and construction of these facilities from the following agencies:

1. None required. Maintenance project per FAC 62-555.520(1)(c)1.

B. Pursuant to the Public Bid Disclosure Act, the permits and fees which the CONTRACTOR must apply for, obtain and pay prior to or during this project are as follows:

1. Palm Beach County Building Permit(s) (as applicable), R.L. Pratt WTP.

2. Register with Palm Springs Building Department, fees waived.

3. Palm Springs building Permit (as applicable), Main WTP.

4. The CONTRACTOR shall verify all requirements, obtain and pay for all permits required for the demolition and disposal work required by this project.

5. Other permits may also be required for the Work from local, County, State or Federal authorities.

6. All associated permit fees (where not waived) shall be paid by the CONTRACTOR. Permit fees shall be reimbursed by payment through the Contract Miscellaneous Work Allowance.

7. ENGINEER shall furnish all required signed/sealed drawings necessary for permit submittals at the CONTRACTOR's request.

1.07 SPECIAL PROJECT CONSIDERATIONS

A. Work associated with this project must not adversely impact water service to the Village of Palm Springs' customers. As a result, CONTRACTOR must coordinate the work to meet the following conditions:

1. Refer to sequence of construction and coordination drawing sheet.

B. Access to water plant site(s) or other VILLAGE facilities shall not be obstructed by CONTRACTOR.

C. Village of Palm Springs WTP Laboratory staff will assist CONTRACTOR with specified bacteriological sampling and provide bacteriological testing of the samples. CONTRACTOR shall coordinate this work with the Village. There will be no charge for bacteriological sampling and testing.

1.08 OWNER PURCHASED ITEMS

A. The OWNER intends on direct purchasing the following equipment packages specified for this project:

1. MIEX Regeneration System Equipment per specification Section 11251R and further defined in Appendix A.

2. Other Items that maybe Identified by OWNER

B. OWNER purchase process shall be as follows:

1. CONTRACTOR shall bid project with intent that CONTRACTOR will purchase all equipment.

2. Following award of contract, ENGINEER shall provide CONTRACTOR with a list of items to be purchased by OWNER.

3. CONTRACTOR shall submit manufacturers' bid day dated, scope of supply and quote for each item requested by OWNER.

4. OWNER shall issue a purchase Order directly to manufacturer for the submitted scope of supply and quote for each requested item. OWNER shall make payments to manufacturer based on purchase order requirements.

5. ENGINEER shall issue revision to the contract as follows:
    a. Cost of OWNER purchase orders plus local sales/use tax (estimated at 7%) shall be credited from the lump sum base bid.

6. CONTRACTOR shall still be responsible for Performance and Payment Bonds, insurance, completing shop drawing approvals, delivery acceptance, storage and handling, installation, startup coordination, warranty and other work per specifications.

C. Additional CONTRACTOR Responsibilities

1. CONTRACTOR shall review Specifications Section 11251R and Appendix A and furnish and install all materials required to complete the installation that are not direct purchased by OWNER.

2. CONTRACTOR shall offload all OWNER direct purchased equipment.

   OWNER shall review and accept delivery prior to authorizing CONTRACTOR to offload.

3. CONTRACTOR shall install all OWNER purchased equipment.

   CONTRACTOR shall coordinate proper installation requirements with supplier of OWNER purchased equipment.

4. CONTRACTOR shall coordinate and schedule startup and commissioning of Owner purchased equipment.

5. CONTRACTOR shall assist OWNER purchased Equipment manufacturer/supplier with startup and commissioning.

1.10 ALTERNATE ITEMS

A. The OWNER may require the following alternate items in the event they become necessary for the successful completion of this project:

1. None.

B. Alternate item(s) shall not be included or utilized in the bid evaluation process. If alternates are to be accepted, they will be added prior to the recommendation of award based on available funding at the time.

PART 2 PRODUCTS - Not Used.

PART 3 EXECUTION - Not Used.

END OF SECTION

SECTION 01050

FIELD ENGINEERING

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers all work required for the verification of preconstruction conditions, layout of proposed utility improvements, quality control and data gathering for the preparation of post-construction record drawings.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01300 - Submittals.

B. Section 01720 - Project Record Documents.

1.03 SUBMITTALS

A. Submit name, address and telephone number of Florida Registered Land Surveyor before starting work.

B. Submit copies of all post-construction record drawings and certificate signed by the approved Florida Registered Land Surveyor indicating that the elevations and locations of the work are as the work was constructed.

1.04 DEFINITIONS

A. Location: "As-Built" location (northing, easting coordinate) relative to plant site grid as indicated on Drawings.

B. Elevation: "As-Built" elevation relative to the North American Vertical Datum of 1988 (NAVD 88) and bench marks as indicated on drawings. The NAVD 88 datum is used unless noted otherwise in drawings.

C. Major Deflection: Change in horizontal or vertical alignment greater than 12-inches accomplished without the use of fittings.

D. Valve Elevation: "As-Built" elevation of valve operating nut.

1.05 QUALITY ASSURANCE

A. Land surveyor employed shall be registered in the State of Florida and acceptable to Engineer.

B. Where applicable, employ a professional engineer of the discipline required per specifications or for specific purpose on project, licensed in the State of Florida.

1.06 PROJECT RECORD DOCUMENTS DATA

A. Maintain a complete and accurate log of control and survey data for project record documents as project progresses.

B. Upon completion of the project or other intervals as requested by ENGINEER, submit certified "as-built" site survey data of the project improvements. Scale shall be same as ENGINEER's drawings and ENGINEER's drawings may be used as a base for surveyor's field data (redline markups).

C. The following data shall be provided as a minimum:

1. Locations of all new structures.

2. Provide "As-Built" information of all pertinent elevations and coordinates as shown on the Drawings.

3. Locations and elevations of all new yard piping fittings and valves greater than 3 inches in diameter.

4. Provide locations and general elevation of new yard piping less than 3 inches in diameter.

5. Location and elevation of all connections to existing systems.

6. Locations and elevations of all other site improvements, as applicable, such as but not limited to sidewalks, curbs and roadways.

7. Locations and elevations of re-established survey control points.

D. Submit final record drawings prior to final pay application at completion of project as specified in Section 01700 - Contract Closeout.

E. Record Drawings shall be prepared and submitted as specified in Section 01720 - Project Record Documents.

PART 2 PRODUCTS

NOT USED

PART 3 EXECUTION

3.01 EXAMINATION

A. Verify locations of survey control points and bench marks prior to starting work. Promptly notify ENGINEER of any discrepancies discovered.

3.02 SURVEY REFERENCE POINTS

A. Protect survey control points prior to starting site work; preserve permanent reference points during construction. Make no changes without prior written notice to ENGINEER.

B. Promptly report to ENGINEER the loss or destruction of any reference point or relocation required because of changes in grades or other reasons. Replace dislocated survey control points based on original survey control.

C. Provide affidavit from approved Florida Registered Surveyor that all survey control points were re-established following completion of

construction.

3.03 SURVEY REQUIREMENTS

A. ENGINEER will furnish CONTRACTOR with horizontal and vertical control information. Responsibility for construction of the Work to correct dimensions, alignment and grade shall be CONTRACTOR's. Additional control points, as applicable, shall be provided for and established by CONTRACTOR's surveyor.

B. Establish locations and elevations of proposed improvements. Locate and lay out by instrumentation and similar appropriate means:

1. All utility improvements including locations and elevations.
2. Site improvements including: stakes for grading, fill and pavement.
3. Structure foundations, column locations and structure elevations.
4. Controlling lines and elevations as required for mechanical and electrical improvements.

C. Periodically verify layouts by same means indicated above.

D. In the event that pipe or other mechanical feature cannot be left exposed for surveyor to obtain "as-built" information, CONTRACTOR shall place PVC pipe at all major changes in horizontal or vertical alignment and at all locations required that will be buried. PVC pipe shall be of a diameter suitable for the insertion of a surveyor's rod and shall extend from finish grade to the top center of pipe, fitting, location, etc.

E. PVC pipe for survey data shall be removed by CONTRACTOR after survey data has been obtained.

3.04 SURVEYS FOR MEASUREMENT AND PAYMENT

A. Final project record drawings with "as-built" information of the installed utility systems components and structures of completed project shall be submitted and approved by ENGINEER prior to application for final payment.

B. Current “as-built” information shall be available for ENGINEER’s use for evaluation of partial pay requests.

Should ENGINEER find that the record drawings are incomplete at the time of partial pay request, then ENGINEER’s recommendation of payment may be withheld until record drawing deficiencies are corrected.

END OF SECTION

SECTION 01200

PROJECT MEETINGS

PART 1 GENERAL

1.01 WORK INCLUDED

A. The ENGINEER shall schedule and administer pre-construction meeting, periodic progress meetings, and specially called meetings throughout the progress of the work. ENGINEER shall also:

1. Prepare agenda for meetings.
2. Make physical arrangement for meetings.
3. Preside at meetings.
4. Prepare and distribute minutes of the meetings.

B. Representatives of contractors, subcontractors and suppliers attending meetings shall be qualified and authorized to act on behalf of the entity each represents.

C. The CONTRACTOR shall attend meetings to ascertain that work is expedited consistent with Contract Documents and construction schedules.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 00200 - Instructions to Bidders.

B. Section 01300 - Submittals.

C. Section 01720 - Project Record Documents.

1.03 PRECONSTRUCTION CONFERENCE

A. Schedule a preconstruction meeting no later than 20 days after date of Notice to Proceed.

B. Location: A central site, convenient for all parties, designated by the ENGINEER.

C. Attendance:
1. OWNER's Representative.
2. ENGINEER and his Professional Consultants.
3. Resident Project Representative.
4. CONTRACTOR's Superintendent.
5. Major subcontractors.
6. Major suppliers.
7. Utilities.
8. Others as appropriate.

D. Suggested Agenda:
1. Distribution and discussion of:
   a. List of major subcontractors and suppliers.
   b. Projected Construction Schedules.
2. Critical work sequencing.
3. Major equipment deliveries and priorities.
4. Project Coordination.

a. Designation of responsible personnel.

5. Procedures and processing of:
   a. Field orders.
   b. Requests for Information (RFI).
   c. Requests for Proposal (RFP).
   d. Submittals.
   e. Change Orders.
   f. Applications for Payment.
6. Adequacy of distribution of Contract Documents.
7. Procedures for maintaining Record Documents.
8. Use of premises:
   a. Office, work and storage areas.
   b. OWNER's requirements.
9. Construction facilities, controls and construction aids.
10. Temporary utilities.
11. Housekeeping procedures.
12. Check of required Bond and Insurance certifications.
13. Liquidated damages.
14. Request for a weekly job meeting for all involved.
15. Laboratory testing of material requirements.
16. Inventory of material stored on site provision.
17. Other Items as applicable.

1.04 PROGRESS MEETINGS

A. ENGINEER will schedule and administer Project meetings throughout progress of the Work at maximum monthly intervals, specially called meetings and pre-installation conferences.

B. ENGINEER will make physical arrangements for meetings, prepare agenda with copies for participants, preside at meetings, record minutes, and distribute copies within two days to ENGINEER, participants, and those affected by decisions made at meetings.

C. Location: Project field office of CONTRACTOR or ENGINEER or a central site convenient to all parties.

D. Attendance:
   1. ENGINEER, and his professional consultants as needed.
   2. Subcontractors as appropriate to the agenda.
   3. Suppliers as appropriate to the agenda.
   4. Others as appropriate.

E. Suggested Agenda:
   1. Review, approval of minutes of previous meeting.
   2. Review of work progress since previous meeting.
   3. Field observations, problems, conflicts.
   4. Problems which impede Construction Schedule.
   5. Review of off-site fabrication, delivery schedules.
   6. Corrective measures and procedures to regain projected schedule.
   7. Revisions to Construction Schedule.
   8. Progress, schedule, during succeeding work period.
   9. Coordination of schedules.
   10. Review submittal schedules; expedite as required.
   11. Maintenance of quality standards.
   12. Pending changes and substitutions.
   13. Review proposed changes for:
      a. Effect on Construction Schedule and on completion date.

b. Effect on other contracts of the Project.

14. Other business.
15. Construction schedule.
16. Critical/long lead items.

F. The CONTRACTOR is to attend progress meetings and is to study previous meeting minutes and current agenda items, in order to be prepared to discuss pertinent topics such as deliveries of materials and equipment, progress of the work, etc.

G. The CONTRACTOR is to provide a current submittal log at each progress meeting in accordance with Section 01300 - Submittals.

1.05 PRE-INSTALLATION CONFERENCES

A. When required in individual specification Section, a pre-installation conference will be arranged prior to commencing work of the Section.

B. Require attendance of entities directly affecting, or affected by, work of the Section.

C. Review conditions of installation, preparation and installation procedures, and coordination with related work.

PART 2 PRODUCTS

Not Used.

PART 3 EXECUTION

Not Used.

END OF SECTION

SECTION 01300

SUBMITTALS

PART 1 GENERAL

1.01 WORK INCLUDED

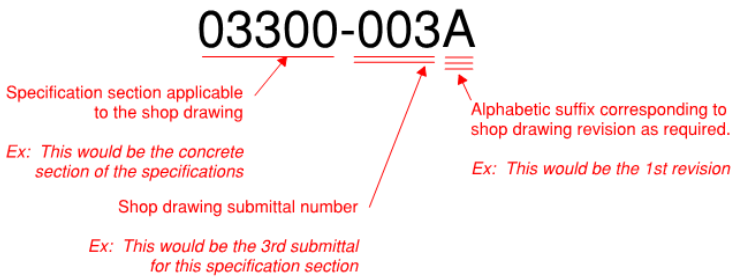
A. Prepare and submit construction progress schedules, proposed products list, shop drawings, product data, samples, manufacturers' instructions, and manufacturers' certificates, complete and in accordance with the Contract Documents.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 00700 - GENERAL CONDITIONS.

B. Section 00800 - Supplementary Conditions.

C. Section 01700 - Contract Closeout.



D. Section 01720 - Project Record Documents.

E. Individual Specification Sections: Additional specific requirements for submitted data.

1.03 SUBMITTAL PROCEDURES

A. Transmit each submittal with ENGINEER accepted form. Electronic submittals (via email) are preferred.

B. Sequentially number the transmittal forms. Resubmittals to have original number with an alphabetic suffix.

C. Identify Project, CONTRACTOR, Subcontractor or supplier; pertinent Drawing sheet and detail number(s), and specification Section number, as appropriate.

D. Drawings and schedules shall be checked and coordinated with the work of all trades involved, before they are submitted for review by the ENGINEER and shall bear the CONTRACTOR's stamp of approval as evidence of such checking and coordination. Drawings or schedules submitted without this stamp of approval shall be returned to the CONTRACTOR for resubmission.

E. Schedule submittals to expedite the Project, and deliver to ENGINEER at Eckler Engineering, Inc., 4700 Riverside Drive, Suite 110, Coral Springs, Florida 33067 and allow 20 days for review. Electronic submittals shall be emailed to Eckler Engineering's project manager for review.

F. If submittal documents/shop drawings show variations from Contract requirements because of standard shop practice or for other reasons, describe such variations in the letter of transmittal. If acceptable, proper adjustment in the Contract shall be implemented where appropriate. Failure to describe such variations does not relieve the CONTRACTOR of the responsibility for executing the work in accordance with the Contract, even though such drawings have been reviewed.

G. Each Shop Drawing shall have a blank area 3-1/2 inches by 3-1/2 inches, located adjacent to the title block. The title block shall display the following:
   1. Number and title of the drawing.
   2. Date of drawing or revision.
   3. Name of project building or facility.
   4. Name of contractor and subcontractor submitting drawing.
   5. Clear identification of contents and location of the work.
   6. Specification title and number.
   7. Specification Section.
   8. Applicable Drawing Number.

H. Revise and resubmit submittals as required; identify all changes made since previous submittal.

I. Distribute copies of reviewed submittals to concerned parties. Instruct parties to promptly report any inability to comply with provisions.

J. Requirements in this Section are in addition to any specific requirements for submittals specified in other Divisions and Sections of these Contract Documents.

1.04 CONSTRUCTION PROGRESS SCHEDULES

A. Submit initial progress schedule in triplicate within 15 days after date established in the Notice to Proceed for ENGINEER review.

B. Revise and resubmit as required.

C. Submit revised schedules with each Application for Payment, identifying changes since previous version.

D. Submit computer generated network analysis diagram using the critical path method, generally as outlined in Associated General Contractors of America (AGC) publication "The Use of CPM in Construction - A Manual for General Contractors and the Construction Industry".

E. Show complete sequence of construction by activity, identifying Work of separate stages and other logically grouped activities. Indicate the early and late start, early and late finish, float dates, and duration.

F. Indicate estimated percentage of completion for each item of Work at each submission.

G. Indicate submittal dates required for shop drawings, product data, samples, and product delivery dates, including those furnished by the OWNER and under Allowances.

1.05 PROPOSED PRODUCTS LIST

A. Within 30 days after date established in the Notice to Proceed, submit a complete list of major products proposed for use, with name of manufacturer, trade name, and model number of each product.

B. For products specified only by reference standards, give manufacturer, trade name, model or catalog designation, and reference standards.

1.06 SHOP DRAWINGS

A. Submit the number of copies which CONTRACTOR requires, plus three copies, which will be retained by ENGINEER (maximum of eight).

B. After review, distribute in accordance with Article on Procedures above and for Record Documents described in Section 01720 - Project Record Documents.

C. When used in the Contract Documents, the term "Shop Drawings" shall be considered to mean, in addition to the definition in Section 00705 - GENERAL CONDITIONS, Contractor's drawings plans for material and equipment which become an integral part of the Project. These drawings shall be complete and detailed. Shop Drawings shall consist of fabrication, erection and setting drawings and schedule drawings, manufacturer's scale drawings, and wiring and control diagrams. Cuts, catalogs, pamphlets, descriptive literature, and performance and test data, shall be considered only as supportive to required Shop Drawings as defined above.

D. Data on materials and equipment include, without limitation, materials and equipment lists, catalog data sheets, cuts, performance curves, diagrams, materials of construction and similar descriptive material. Materials and equipment lists shall give, for each item thereon, the name and location of the supplier or manufacturer, trade name, catalog reference, size, finish and all other pertinent data.

E. For all mechanical and electrical equipment furnished, provide a list including the equipment name, address, telephone number of the manufacturer's representative and service company so that service and/or spare parts can be readily obtained.

F. All manufacturers or equipment suppliers who proposed to furnish equipment or products shall submit an installation list to the ENGINEER along with the required shop drawings. The installation list shall include at least five installations where identical equipment has been installed and has been in operation for a period of at least one (1) year.

G. **Only the ENGINEER will utilize the color "red" in marking Shop Drawing submittals.**

1.07 PRODUCT DATA

A. Submit the number of copies which the CONTRACTOR requires, plus four copies which will be retained by the ENGINEER (with a maximum of eight).

B. Mark each copy to identify applicable products, models, options, and other data. Supplement manufacturers' standard data to provide information unique to this Project.

C. After review, distribute in accordance with Article on Procedures above and provide copies for Record Documents described in Section 01720 - Project Record Documents.

1.08 SAMPLES

A. Submit samples to illustrate functional and aesthetic characteristics of the Product, with integral parts and attachment devices. Coordinate sample submittals for interfacing work.

B. Submit samples of finishes in custom colors selected, textures, and patterns for ENGINEER's selection.

C. Include identification on each sample, with full Project information.

D. Submit the number or samples specified in individual specification Sections; one of which will be retained by ENGINEER.

E. Samples not destroyed in testing shall be sent to the ENGINEER or stored at the site of the work. Accepted samples of the hardware in good condition will be marked for identification and may be used in the work. Materials and equipment incorporated in the work shall match the accepted samples. Samples which failed testing or are not accepted will be returned to the CONTRACTOR at his expense, if so requested at time of submission.

1.09 MANUFACTURER'S INSTRUCTIONS

A. When specified in individual specification Sections, submit manufacturers' printed instructions for delivery, storage, assembly, installation, start-up, adjusting, and finishing, in quantities specified for Product Data.

B. Identify conflicts between manufacturers' instructions and Contract Documents.

1.10 MANUFACTURER'S CERTIFICATES

A. When specified in individual specification Sections, submit manufacturers' certificate to ENGINEER for review, in quantities specified for Product Data.

B. Indicate material or Product conforms to or exceeds specified requirements. Submit supporting reference date, affidavits, and certifications as appropriate.

C. Certificates may be recent or previous test results on material or Product, but must be acceptable to ENGINEER.

END OF SECTION

SECTION 01400

QUALITY CONTROL

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work as required to provide and/or coordinate:

1. Quality assurance and control of installation.

2. References.

3. Field samples.

4. Inspection and testing laboratory services.

5. Manufacturers' field services and reports.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01300 - Submittals

1.03 REFERENCE/STANDARDS

A. Conform to reference standards by date of current issue on date for receiving bids.

B. Should specified reference standards conflict with Contract Documents, request clarification from ENGINEER before proceeding.

C. The contractual relationship of the parties to the Contract shall not be altered from the Contract Documents by mention or inference otherwise in any reference document.

1.04 QUALITY ASSURANCE/CONTROL OF INSTALLATION

A. Monitor quality control over suppliers, manufacturers, products, services, site conditions, and workmanship, to produce Work of specified quality.

B. Comply fully with manufacturers' instructions, including each step in sequence.

C. Should manufacturers' instructions conflict with Contract Documents, request clarification from ENGINEER before proceeding.

D. Comply with specified standards as a minimum quality for the Work except when more stringent tolerances, codes, or specified requirements indicate higher standards or more precise workmanship.

E. Perform work by persons qualified to produce workmanship of specified quality.

F. Secure Products in place with positive anchorage devices designed and sized to withstand stresses, vibration, physical distortion or disfigurement.

1.05 FIELD SAMPLES

A. Install field samples at the site as required by individual specification Sections for review.

B. Acceptable samples represent a quality level for the Work.

C. Where field sample is specified in individual Sections to be removed, clear area after field sample has been accepted by ENGINEER.

1.06 INSPECTION AND TESTING LABORATORY SERVICES

A. OWNER will appoint, employ, and pay for services of an independent firm to perform inspection and testing of earthwork, concrete, road base, and asphalt.

B. The independent firm will perform inspections, tests, and other services specified in individual specification Sections and as required by the ENGINEER.

C. Reports will be submitted by the independent firm to the ENGINEER indicating observations and results of tests and indicating compliance or non-compliance with Contract Documents. Number of signed/sealed reports required and distribution shall be established at preconstruction meeting.

D. Cooperate with independent firm; furnish samples of materials, design mix, equipment, tools, storage and assistance as requested.
   1. Notify ENGINEER and independent firm 24 hours prior to expected time for operations requiring services.
   2. Make arrangements with independent firm and pay for additional samples and tests required for CONTRACTOR's use.

E. Retesting required because of non-conformance to specified requirements shall be performed by the same independent firm on instructions by the ENGINEER. Payment for retesting will be charged to the CONTRACTOR by deducting inspection or testing charges from the Contract Sum/Price.

1.07 MANUFACTURERS' FIELD SERVICES AND REPORTS

A. Submit qualifications of manufacturer's representative to ENGINEER 30 days in advance of required observations. Manufacturer's representative subject to acceptance of ENGINEER.

B. When specified in individual specification Sections, require material or Product suppliers or manufacturers to provide qualified staff personnel to observe site conditions, conditions of surfaces and installation, quality of workmanship, start-up of equipment, test, adjust, and balance of equipment and place equipment into operation as applicable, and to initiate instructions when necessary.

C. Individuals to report observations and site decisions or instructions given to applicators or installers that are supplemental or contrary to manufacturers' written instructions.

D. Submit report in triplicate within 30 days of observation to ENGINEER for review.

SECTION 01500

CONSTRUCTION FACILITIES AND TEMPORARY CONTROLS

PART 1 GENERAL

1.01 WORK INCLUDED

A. Temporary Utilities: Electricity, lighting, heat, ventilation, telephone service, water, and sanitary facilities.

B. Temporary Controls: Enclosures and fencing, protection of the Work, and water control.

C. Construction Facilities: Access roads, parking, progress cleaning, and temporary buildings.

D. Some of the items specified herein are not specifically required for the project. However, these items may be provided for the convenience of the CONTRACTOR or as required for proper completion of the Work.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 02500 - Restoration and Cleanup.

1.03 TEMPORARY ELECTRICITY (AS APPLICABLE)

A. Temporary electrical power service for general construction purposes, as required, is available at site(s) from existing and upgraded and/or new electrical service.

B. Existing permanent convenience receptacles may be utilized during construction for small power tools and lighting local to Work.

C. CONTRACTOR will not be charged for electrical service used.

D. Provide connections to existing facilities, sized to provide service required for power and lighting, as required.

E. Install circuit and branch wiring, with area distribution boxes located so that power and lighting is available throughout the Site by use of construction type power cords, as required.

F. Provide properly configured NEMA polarized outlets to prevent insertion of 110-120 volt plugs into higher voltage outlets. For connection of power tools and equipment, provide outlets equipped with ground-fault circuit interrupters, reset button and pilot light, as required.

G. Provide grounded extension cords. Use "hard-service" cords where exposed to abrasion and traffic. Provide waterproof connectors to connect separate lengths of electric cords if more than one length is required.

H. Provide general service incandescent lamps as required for adequate illumination. Provide guard cages or tempered glass enclosures, where exposed to breakage. Provide exterior fixtures where exposed to moisture.

1.04 TEMPORARY LIGHTING (AS APPLICABLE)

A. Provide and maintain 1 watt/sq ft lighting to exterior staging and storage areas after dark for security purposes.

B. Maintain lighting and provide routine repairs.

1.05 TEMPORARY VENTILATION

A. Ventilate enclosed areas to assist cure of materials, to dissipate humidity, and to prevent accumulation of dust, fumes, vapors, or gases.

1.06 CONFINED SPACE ENTRY REQUIREMENTS

A. CONTRACTOR shall obtain all entry permits and provide all equipment and procedures as required to meet confined space entry requirements in accordance with the following legal authorities:

1. Occupational Safety and Health Act (OSHA), Title 29 CFR 1910.146 "Permit Required Confined Spaces".

2. Florida Statute - Chapter 38 T-20 Section .035. "Hazardous Atmospheres in Confined Spaces".

1.07 TEMPORARY WATER SERVICE (AS APPLICABLE)

A. Provide and maintain suitable quality water service, as required, for construction operations.

B. All water used must be metered by OWNER, but CONTRACTOR will not be charged for the metered water use.

C. Extend branch piping with outlets located so water is available by hoses with threaded connections.

D. Make arrangements with OWNER for obtaining meter.

1.08 TEMPORARY SANITARY FACILITIES (REQUIRED)

A. Provide self-contained, single-occupant toilet units of the chemical, aerated recirculation, or combustion type, properly vented and fully enclosed in a fiberglass or other approved non-absorbent shell.

1.09 TEMPORARY CONSTRUCTION FENCING

A. Construction Fence: Commercial grade chain link fence or bright orange-colored, high density, polyethylene safety fence. Minimum fence height shall be 4 feet.

B. Provide construction fence to secure entire construction area at all times when CONTRACTOR's personnel are not present.

1.10 CONTRACTOR'S FIELD OFFICES AND STORAGE TRAILERS/CONTAINERS

A. Office: Weather-tight, with lighting, electrical outlets, heating, cooling and ventilating equipment, sanitation facilities, and equipped with sturdy furniture.

B. Provide space for project meetings with table and chairs to accommodate 8 persons.

C. Provide private space (lockable room), desk, chair, and filing cabinet for ENGINEER'S USE.

D. Locate offices and sheds a minimum distance of 30 feet from new structures and proposed underground construction.

E. Recommended location for CONTRACTOR's office trailer and storage facilities shall be indicated on drawings.

1.11 PARKING

A. Temporary parking areas for CONTRACTOR's and ENGINEER's project personnel shall be indicated on Drawings.

1.12 PROJECT IDENTIFICATION (WHEN INDICATED ON DRAWINGS)

A. Provide minimum 6'-6"w x 5'-0"h project sign of exterior grade plywood and wood frame construction, painted, with exhibit lettering by a professional sign painter to ENGINEER's design and colors. Sign shall withstand weathering, fading, and chipping for the duration of construction. General design as required for the project sign shall be as shown on the Drawings.

B. List title of Project, names of OWNER, ENGINEER, professional sub-consultants and CONTRACTOR.

C. Erect on site at location established by OWNER and ENGINEER.

D. No other signs are allowed without OWNER permission except those required by applicable law.

E. Submit sketch of project sign for approval in accordance with Section 01300 - Submittals.

1.13 PROTECTION OF INSTALLED WORK

A. Protect installed Work and provide special protection where specified in individual specification Sections.

B. Provide temporary and removable protection for installed Products. Control activity in immediate work area to minimize damage.

C. Prohibit traffic from landscaped areas.

1.14 FIRE EXTINGUISHERS

A. Provide portable UL-rated, Class A fire extinguishers for temporary offices and similar spaces. In other locations, provide portable UL-rated Class ABC dry chemical extinguishers or a combination of NFPA recommended Classes for the exposure. Comply with NFPA 10 and 241 for

classification, extinguishing agent and size required by location and class of fire exposure.

1.15 PROTECTION OF EXISTING STRUCTURES

A. CONTRACTOR shall provide screens or other such means to prevent splatter of concrete, paint or other such substance from staining or damaging the nearby existing structures, equipment or vehicles.

B. CONTRACTOR shall be responsible for cleaning and repairing all damages caused by overspray.

1.16 FUEL STORAGE

A. All fuel or other such regulated substances stored on site by CONTRACTOR shall be done so in accordance with the rules and regulations of the Palm Beach County Department of Environmental Resources Management.

1.17 CONSTRUCTION DEBRIS DISPOSAL

A. Dumpster and/or roll-off container service shall be provided by local waste hauler franchise.

B. Other lawful debris haul-off (dump trucks) by CONTRACTOR.

1.18 PROGRESS CLEANING

A. Maintain areas free of waste materials, debris, and rubbish. Maintain sites in a clean and orderly condition.

B. Broom and vacuum clean interior areas prior to start of surface finishing and continue cleaning to eliminate dust.

C. Remove waste materials, debris, and rubbish from sites weekly and dispose of at an approved site.

1.19 REMOVAL OF TEMPORARY UTILITIES, FACILITIES, AND CONTROLS

A. Remove temporary above grade or buried utilities, equipment, facilities, materials, prior to Final Inspection.

B. Clean and repair damage caused by installation or use of temporary work.

C. Restore existing facilities used during construction to original condition. Restore permanent facilities used during construction to specified condition.

MOBILIZATION/DEMOBILIZATION

PART 1 GENERAL

1.01 WORK INCLUDED

A. Mobilization shall include obtaining of all permits, insurance, and bonds; moving onto site of equipment; temporary buildings, and other construction facilities; all as required for proper performance and completion of the Work. Mobilization shall include but not be limited to the following principal items:

1. Moving onto site of CONTRACTOR's labor and equipment required for first month's operation.

2. Providing field office trailers with all specified furnishings and utility services and appurtenances, if required by specifications.

3. Providing on-site sanitary facilities, potable water facilities and electrical service, as specified.

4. Submittal of all required insurance certificates, bonds and work progress schedules.

5. Obtaining all required permits.

6. Posting all OSHA required notices and establishment of safety programs.

7. Have CONTRACTOR's superintendent at job site full time.

8. Project identification sign (When required by the Drawings).

B. Demobilization shall include but not be limited to the following principle items:

1. Removal of all temporary construction facilities.

2. Removal of all equipment and excess materials.

3. Cleanup and restoration of the site to conditions existing prior to construction.

1.02 PAYMENT FOR MOBILIZATION/DEMOBILIZATION

A. CONTRACTOR's attention is directed to the condition that no payment for mobilization/demobilization, or any part thereof, will be recommended for payment under the Contract until all Mobilization/Demobilization items listed above have been completed as specified.

B. As soon as practicable after receipt of Notice to Proceed, CONTRACTOR shall submit a breakdown to ENGINEER for review, which shall show estimated value of each major component of mobilization/demobilization. When reviewed by ENGINEER, breakdown will be basis for initial progress payments in which Mobilization is included.

C. It shall be understood that the Mobilization/Demobilization item on Lump Sum Base Bid Breakdown includes a sum paid by OWNER to CONTRACTOR in recognition of CONTRACTOR's indemnification obligations. CONTRACTOR shall acknowledge payment of such consideration by letter to OWNER.

END OF SECTION

SECTION 01700

CONTRACT CLOSEOUT

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work as related to contract closeout procedures, final inspection, CONTRACTOR's closeout submittals and final application for payment.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01720 - Project Record Documents.

B. Individual Sections - Testing and Closeout Requirements.

1.03 SUBSTANTIAL COMPLETION

A. When CONTRACTOR considers the Work is substantially complete, he shall submit to the ENGINEER:
   1. A written notice that the Work, or designated portion thereof, is substantially complete.
   2. A list of items to be completed or corrected.

B. Within a reasonable time after receipt of such notice, the ENGINEER will make an inspection to determine the status of completion.

C. Should the ENGINEER determine that the Work is not substantially complete:
   1. The ENGINEER will promptly notify the CONTRACTOR in writing, giving the reasons therefor.
   2. CONTRACTOR shall remedy the deficiencies in the Work, and send a second written notice of substantial completion to the ENGINEER.
   3. The ENGINEER will reinspect the Work.

D. When the ENGINEER finds that the Work is substantially complete, he will:
   1. Prepare and deliver to OWNER a tentative Certificate of Substantial Completion on NSPE Form 1910-8-D, with a tentative list of items to be completed or corrected before final payment.
   2. After consideration of any objections made by the OWNER as provided in GENERAL CONDITIONS, and when the ENGINEER considers the Work substantially complete, he will execute and deliver to the OWNER and the CONTRACTOR a definite Certificate of Substantial Completion with a revised tentative list of items to be completed or corrected.

1.04 FINAL COMPLETION

A. When CONTRACTOR considers the Work is complete, he shall submit written certification that:
   1. Contract Documents have been reviewed.
   2. Work has been inspected for compliance with Contract Documents.
   3. Work has been completed in accordance with Contract Documents.
   4. Equipment and systems have been tested in the presence of the OWNER's representative and are operational.

5. Work is completed and ready for final inspection.

B. The ENGINEER will make an inspection to verify the status of completion with reasonable promptness after receipt of such certification.

C. Should the ENGINEER consider that the Work is incomplete or defective:
   1. The ENGINEER will promptly notify the CONTRACTOR in writing, listing the incomplete or defective work.
   2. CONTRACTOR shall take immediate steps to remedy the stated deficiencies, and send a second written certification to the ENGINEER that the Work is complete.
   3. The ENGINEER will reinspect the Work.

D. When the ENGINEER finds that the Work is acceptable under the Contract Documents, he shall request the CONTRACTOR to make final closeout submittals.

1.05 REINSPECTION FEES

A. Should the ENGINEER perform reinspections due to failure of the Work to comply with the claims of status of completion made by the CONTRACTOR:
   1. OWNER will deduct the amount of such compensation from the final payment to the CONTRACTOR.

1.06 CONTRACTOR'S CLOSEOUT SUBMITTALS TO ENGINEER

A. Evidence of Payment and Release of Liens: To requirements of GENERAL and SUPPLEMENTARY CONDITIONS.

B. Certificate of Insurance for Products and Completed Operations.

C. Consent of Surety for Final Payment.

1.07 FINAL ADJUSTMENT OF ACCOUNTS

A. Submit a final statement of accounting to the ENGINEER.

B. Statement shall reflect all adjustments to the contract Sum:
   1. The original Contract Sum.
   2. Additions and deductions resulting from:
      a. Previous Change Orders.
      b. Allowances.
      c. Unit Prices.
      d. Deductions for uncorrected Work.
      e. Penalties and Bonuses.
      f. Deductions for liquidated damages.
      g. Deductions for reinspection payments.
      h. Other adjustments.
   3. Total Contract Sum, as adjusted.
   4. Previous payments.
   5. Sum remaining due.

C. ENGINEER will prepare a final Change Order, reflecting recommended adjustments to the Contract Sum which were not previously made by Change Order(s).

1.08 FINAL APPLICATION FOR PAYMENT

A. ENGINEER shall send written request directing CONTRACTOR to make final application for payment once the following conditions have been met:

1. All work per contract has been satisfactorily completed.

2. All contract closeout deliverables have been submitted by CONTRACTOR and approved by ENGINEER.

3. The requirements of all permits obtained by OWNER and CONTRACTOR have been satisfied.

4. All closeout submittals per Article 1.06 above have been delivered to ENGINEER.

5. Final contract change order has been approved.

B. CONTRACTOR shall submit the final Application for Payment in accordance with procedures and requirements stated in the Conditions of the Contract.

PART 2 PRODUCTS

Not Used.

PART 3 EXECUTION

END OF SECTION

SECTION 01720

PROJECT RECORD DOCUMENTS

PART 1 GENERAL

1.01 WORK INCLUDED

A. Collect, maintain, and provide the required record documents and samples for the project, including record drawings, and construction photographs.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 00700 - GENERAL CONDITIONS

B. Section 00800 - Supplementary Conditions.

C. Section 01300 - Submittals.

D. Section 01700 - Contract Closeout

E. Individual Specification Sections: Manufacturer's certificates and certificates of inspections and samples.

1.03 SUBMITTALS

A. At Contract closeout, deliver Record Documents and samples under provisions of Section 01700 - Contract Closeout.

B. Submittal quantities shall be as follows:

1. Final Record Drawings - two (2) sets.
2. Construction photographs - two (2) sets with CD’s.
1. Preconstruction audio/video DVD - two (2) copies.

C. Submittals shall be made in accordance with the requirements of Section 01300 - Submittals.

1.04 DEFINITIONS

A. ZONE OF INFLUENCE: Area in which surface and/or underground facilities or features will be disturbed by progress of work.

1.05 MAINTENANCE OF DOCUMENTS AND SAMPLES

A. In addition to requirements in GENERAL CONDITIONS, maintain at the site for OWNER one record copy of:
1. Contract Drawings.
2. Specifications.
3. Addenda.
4. Change Orders and other modifications to the Contract.
5. ENGINEER's field orders or written instructions.
6. Reviewed shop drawings, product data, and samples.
7. Field test records.
8. Inspection certificates.
9. Manufacturer's certificates.
10. Construction photographs.

B. Store Record Documents and samples apart from documents used for construction. Provide organized, dry, secure storage for Record Documents.

C. Label Record Documents and samples in accordance with Section number listings in Table of Contents of this Project Manual. Label each document "PROJECT RECORD" in neat, large, printed letters.

D. Maintain Record Documents in a clean, dry and legible condition. Do not use Record Documents for construction purposes.

E. Keep Record Documents and samples available for inspection by ENGINEER.

1.06 RECORDING (RECORD DATA)

A. Record information on a set of blackline drawings and in a copy of the Contract Documents (Specifications) Book provided by ENGINEER.

B. Provide color marking pens for recording information. Color coding system used shall be approved by ENGINEER. Recommended color coding system as follows:

Green = Deleted Item or Work
Red = Revised Item or Work
Blue = Notation or Clarification

C. Record information concurrently with construction progress. Do not conceal any work until required information is recorded.

D. Contract Drawings and Shop Drawings: Legibly mark each item to record actual construction, including:
1. Horizontal locations and vertical elevations of bridge and appurtenances, structure corners, paving corners and other site improvements per Section 01050 - Field Engineering.
2. Measured locations of internal utilities and appurtenances concealed in construction, referenced to visible and accessible features of construction.
3. Field changes of dimension and detail of all disciplines.
4. Changes made by Modifications of all disciplines.
5. Details not on original Contract Drawings of all disciplines.
6. References to related shop drawings and Modifications of all disciplines.
7. Show field location and relative elevation of all located existing underground facilities not shown on contract drawings.
8. Show field location and relative elevation confirming all located existing underground facilities shown on drawings.
9. Dimensional changes to drawings.
10. Revisions to details shown on drawings.
11. Depths of foundations.
12. Locations and depths of underground utilities.
13. Revisions to routing of piping and conduits.
14. Revisions to electrical circuitry.
15. Actual equipment locations.
16. Duct size and routing.
17. Locations of concealed internal utilities.
18. Changes made by Change Order or Construction Change Directive.
19. Details not on the original Contract Drawings.
20. Field records for variable and concealed conditions.

21. Record information on the Work that is shown only schematically.
22. In general, document all revisions/modifications to contract documents.

E. Specifications: Legibly mark each item to record actual construction, including:
   1. Manufacturer, trade name, and catalog number of each product actually installed, paying particular attention to optional items and substitute items.
   2. Changes made by Addenda and Modifications.

F. Other Documents: Maintain manufacturer's certifications, inspection certifications, and field test records, required by individual Specification sections.

1.07 CONSTRUCTION PHOTOGRAPHS

A. Provide photographs in color showing the preconstruction conditions, construction progress, and the post-construction conditions.

B. Photographs shall be taken by an experienced photographer.

C. The photographer shall be equipped to take interior/exterior photographs.

D. Photographs shall be taken throughout the construction process and show excavations, piping details, work progress, construction which will ultimately be hidden from view and the final completion. Provide sufficient quantity of photographs to adequately detail construction.

E. Provide two (2) sets of construction photographs. These prints shall measure 3-1/2" x 5". All prints shall be mounted in plastic photographic binders. Also provide two (2) CD’s with all photos.

F. Identify each print with the date, orientation of view, and a description of the view.

G. Deliver CD’s and two sets of prints, all in three-ring binders and sequentially labeled to the ENGINEER upon completion of the project. Binders shall be labeled to indicate project name and number, contractor, owner, engineer and year of project.

1.08 COLOR AUDIO-VISUAL PRECONSTRUCTION RECORD

A. General

   1. Prior to commencing work, CONTRACTOR shall have a continuous color audio-video DVD recording taken along entire length of Project to serve as a record of preconstruction conditions. No work shall begin prior to review and acceptance of video covering the work area(s) by ENGINEER. ENGINEER shall have authority to reject all or any portion of the video DVD not conforming to specifications and order that it be redone at no additional charge. CONTRACTOR shall reschedule unacceptable coverage within five days after being notified. ENGINEER shall designate those areas, if any, to be omitted from or added to audio-video coverage. DVD recordings shall not be made more than 90 days

prior to work in any area. All DVD(s) and written records shall become property of OWNER.

2. CONTRACTOR shall engage services of a professional videographer. Color audio-video DVD(s) shall be prepared by a responsible commercial firm known to be skilled and regularly engaged in the business of preconstruction color audio-video documentation. Electrographer shall furnish to ENGINEER a list of all equipment to be used for audio-video recording, i.e. manufacturer's name, model number, specifications and other pertinent information. Additional information to be furnished by electrographer is the names and addresses of two references that electrographer has performed color audio-video recording for projects of a similar nature within the last 12 months.

B. Audio-Video DVD(s)

1. Audio-video DVD(s) shall be new. Reprocessed DVD(s) will not be acceptable. The DVD(s) shall be compatible for playback with a standard DVD player, -R or +R format.

C. Equipment

1. All equipment, accessories, materials and labor to perform this service shall be furnished by CONTRACTOR.

2. Total audio-video system shall reproduce bright, sharp, clear pictures with accurate colors and shall be free from distortion, or any other form of imperfection. The audio portion of recording shall reproduce commentary of camera operator with proper volume, clarity and be free from distortion and interruptions.

3. When conventional wheeled vehicles are used, distance from the camera lens to ground shall not be less than 12 feet. In some instances, audio-video coverage may be required in areas not accessible by conventional wheeled vehicles. Such coverage shall be obtained by walking or special conveyance acceptable to ENGINEER.

4. Color video camera used in the recording system shall have horizontal resolution of 300 lines at center, a luminance signal to noise ratio of 45 db ad a minimum illumination requirement of 25 foot-candles.

D. Recorded Information - Audio

1. Each DVD shall begin with current date, project name and municipality (or owner) and be followed by general location, i.e., name of street, house address, viewing side and direction of progress. Audio track shall consist of an original living recording. The recording shall contain the narrative commentary of electrographer, recorded simultaneously with his fixed elevation video record of zone of influence of construction.

E. Recorded Information - Video

1. All video recordings must, by electronic means, display continuously and simultaneously, generated with actual taping,

transparent digital information to include the date and time of recording and station numbers as shown on the Drawings. The date information shall contain the hours, minutes and seconds. Additional information shall be displayed periodically. Such information shall include nut not be limited to project name, contract umber, name of street, house address, direction of travel and the viewing side. This transparent information shall appear on the extreme upper left hand third of the screen.

2. All recording shall be done during times of good visibility. No recording shall be done during precipitation, mist or fog. The recording shall only be done when sufficient sunlight is present to properly illuminate the subjects of recording and to produce bright, sharp video recordings of those subjects.

3. The rate of speed in the general direction of travel of the vehicle used during recording shall not exceed 44 feet per minute. Panning, zoom-in and zoom-out rates shall be sufficiently controlled to maintain a clear view of the object.

4. Video coverage shall include all surface features located within the zone of influence of construction supported by appropriate audio coverage. Such coverage shall include, but not be limited to existing driveways, sidewalks, curbs, pavements, ditches, mailboxes, landscaping, culverts, fences, signs, structures, and headwalls within the area covered.

END OF SECTION

SECTION 01730

OPERATION AND MAINTENANCE DATA

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work required to prepare and submit operation and maintenance manuals for the project, complete all in accordance with the Contract Documents.

B. Some of the items specified herein are not specifically required for the project. However, these items shall be provided as required for the proper completion of the Work.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01010 - Summary of Work.

B. Section 01740 - Warranties and Bonds.

1.03 SUBMITTALS

A. Submit two copies of preliminary draft or proposed formats and outlines of contents prior to substantial completion of Work. ENGINEER will review draft and return one copy with comments.

B. Submit two (2) copies of completed volumes in final form 15 days prior to final completion. Copy will be returned with ENGINEER comments. Revise content of documents as required prior to final submittal.

D. Submit four (4) copies of revised volumes of data in final form within ten days after final completion.

1.04 QUALITY ASSURANCE

A. Prepare instructions and data by personnel experienced in maintenance and operation of described products.

1.05 GENERAL FORMAT (EACH VOLUME)

A. Prepare data in the form of an instructional manual.

B. Binders: Commercial quality, 8-1/2 x 11 inch three-ring binders with hardback, cleanable, plastic covers; 3 inch maximum ring size. When multiple binders are used, correlate data into related consistent groupings.

C. Cover: Identify each binder with typed or printed title OPERATION AND MAINTENANCE INSTRUCTIONS; list title of Project; identify subject matter of contents.

D. Arrange content by process flow under section numbers and sequence of Table of Contents of this Project Manual.

E. Provide tabbed fly leaf for each separate product and system, with typed description of product and major component parts of equipment.

F. Text: Manufacturer's printed data, or typewritten data on 20 pound paper.

G. Drawings: Provide with reinforced punched binder tab. Bind in with text; fold larger drawings to size of text pages.

1.06 OPERATION AND MAINTENANCE MANUALS (EACH VOLUME)

A. Provide title of Project; owner's name; names, addresses, and telephone numbers of ENGINEER, subconsultants, and CONTRACTOR with name of responsible parties; schedule of products and systems, indexed to content of the volume.

B. Table of Contents: schedule of contents and systems, indexed to each volume.

C. For Each Product or System: List names, addresses and telephone numbers of Subcontractors and suppliers, including local source of supplies and replacement parts.

D. Product Data: Mark each sheet to clearly identify specific products and component parts, and data applicable to installation. Delete inapplicable information.

E. Drawings: Supplement product data to illustrate relations of component parts of equipment and systems, to show control and flow diagrams. Do not use Project Record Documents as maintenance drawings.

F. Type Text: As required to supplement product data. Provide logical sequence of instructions for each procedure, incorporating manufacturer's instructions.

1.07 EQUIPMENT AND SYSTEMS DATA

A. Each Item of Equipment and Each System: Include description of unit or system, and component parts. Identify function, normal operating characteristics, and limiting conditions. Include performance curves, with engineering data and tests, and complete nomenclature and commercial number of replaceable parts.

B. Panelboard Circuit Directories: Provide electrical service characteristics, controls and communications.

C. Operating Procedures: Include start-up, break-in, and routine normal operating instructions and sequences. Include regulation, control, stopping, shut-down, and emergency instructions. Include summer, winter, and any special operating instructions.

D. Maintenance Requirements: Include routine procedures and guide for trouble-shooting; disassembly, repair, and reassembly instructions; and alignment, adjusting, balancing, and checking instructions.

E. Provide servicing and lubrication schedule, and list of lubricants required.

F. Include manufacturer's printed operation and maintenance instructions.

G. Include sequence of operation by controls manufacturer.

H. Provide original manufacturer's parts list, illustrations, assembly drawings, and diagrams required for maintenance.

I. Provide control diagrams by controls manufacturer as installed. Include coded wiring as installed.

J. Provide CONTRACTOR's coordination drawings, with coded piping diagrams as installed.

K. Provide charts of valve tag numbers, with location and function of each valve, keyed to flow and control diagrams.

L. Provide list of original manufacturer's spare parts, current prices, and recommended quantities to be maintained in storage.

M. Additional Requirements: As specified in individual Product specification sections.

N. Provide a listing in Table of Contents for design data, with tabbed fly sheet and space for insertion of data.

1.08 INSTRUCTION OF OWNER PERSONNEL

A. Before final inspection, instruct OWNER's designated personnel in operation, adjustment, and maintenance of products, equipment, and systems, at agreed upon times.

B. Use operation and maintenance manuals as basis for instruction. Review contents of manual with personnel in detail to explain all aspects of operation and maintenance.

C. Prepare and insert additional data in Operation and Maintenance Manual when need for such data becomes apparent during instruction.

PART 2 PRODUCTS

Not Used.

PART 3 EXECUTION

Not Used.

SECTION 01740

WARRANTIES AND BONDS

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work required to prepare and submit all warranty and bond information required by these Contract Documents.

B. Warranties and bonds required shall be as specified in the individual specification sections and Section 00700 - GENERAL CONDITIONS.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 00200 - Instructions to Bidders.

B. Section 00700 - General Conditions.

C. Section 01700 - Contract Closeout.

D. Individual Specification Sections: Warranties required for specific Products or Work.

1.03 FORMAT OF SUBMITTALS

A. Bind in commercial quality, 8-1/2 x 11 three-ring side binders with hardback, cleanable, plastic covers. Provide two copies of completed binders.

B. Label cover of each binder with typed or printed title WARRANTIES AND BONDS, with title of Project; date; project owner; name, address and telephone number of CONTRACTOR and ENGINEER.

C. Table of Contents: Neatly typed, in the sequence of the Table of Contents of these Specifications, with each item identified with the number and title of the specification section in which specified, and the name of the Product or work item.

D. Separate each warranty or bond with index tab sheets keyed to the Table of Contents listing. Provide full information, using separate typed sheets as necessary. List Subcontractor, supplier, and manufacturer, with name, address, and telephone number of responsible principal.

E. Provide dates of beginning and ending of warranty period, bond or service and maintenance contracts.

1.04 PREPARATION OF SUBMITTALS

A. Obtain warranties and bonds, executed in duplicate by responsible Subcontractors, suppliers, and manufacturers, within ten days after completion of the applicable item or work. Except for items put into use with Owner's permission, leave date of beginning of time of warranty blank until the Date of Substantial completion is determined.

B. Verify that documents are in proper form, contain full information, and are notarized.

C. Co-execute submittals when required.

D. Retain warranties and bonds until time specified for submittal.

1.05 TIME OF SUBMITTALS

A. For equipment or component parts of equipment put into service during construction with Owner's permission, submit documents within ten days after acceptance.

B. Make other submittals within ten days after Date of Substantial Completion, prior to final Application for Payment.

C. For items of Work when acceptance is delayed beyond Date of Substantial Completion, submit within ten days after acceptance, listing the date of acceptance as the beginning of the warranty period.

SECTION 02021

EXISTING UNDERGROUND/ABOVEGROUND FACILITY LOCATION/VERIFICATION

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers all work required for the field location and verification of existing underground and aboveground facilities prior to commencing work at the specific area(s) of the project site(s).

B. See CONDITIONS OF THE CONTRACT and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 00700 - General Conditions.

B. Section 01005 - General Requirements.

C. Section 01300 - Submittals.

1.03 SUBMITTALS

A. Prior to beginning work submit to the ENGINEER a proposed order of construction broken down by project site(s)/area(s) referencing proposed piping and conduit system(s) as shown on the drawings.

B. Prior to beginning work in an area, CONTRACTOR shall submit to the ENGINEER the existing underground facility verification report specified in this section detailing any conflicts discovered and the extent of the area verified. Where no conflicts are discovered, the report shall still be submitted with “NO CONFLICT” marked.

C. Reports shall be submitted in the format attached at the end of this Section.

D. Submittals shall be made in accordance with the requirements of Section 01300 - Submittals.

1.04 DEFINITIONS

A. Underground Facilities: Existing underground facilities inclusive of wires/cables, conduits, poles, guy wires, piping (water mains, reclaimed mains, force mains, sanitary sewer storm sewer), vaults, manholes, headwalls, catch basins, and the like.

Underground facilities shall be inclusive of shown or indicated facilities and not shown or indicated facilities, as defined.

B. Aboveground Facilities: Existing facilities above existing grades or finished floor, inclusive of pipes, conduits, junction boxes, structures and other locations that require CONTRACTOR to coordinate work to connect to existing feature or facility.

1.05 EXISTING UNDERGROUND FACILITIES LOCATIONS VERIFICATION

A. The CONTRACTOR shall obtain the services of a utility location service such as “Sunshine State One Call of Florida, Inc.”, where applicable, and the CONTRACTOR shall utilize the OWNER’s utility locate personnel on OWNER property.

B. After completion of utility locations but prior to beginning construction, CONTRACTOR shall walk site and check for potential conflicts with existing underground and aboveground facilities.

C. Walk-thru of site shall be completed prior to beginning construction.

D. If potential conflicts are identified, then the existing facility shall be potholed and the exact location, size, configuration, elevation(s), and material of construction shall be verified by the CONTRACTOR. Potholing shall be completed to fully ascertain the impact of underground facility. It shall be understood that a parallel facility may require potholing along the full length of the proposed installation.

   This work shall be included within the scope of this contract, all at no additional cost to the OWNER.

E. CONTRACTOR shall submit to ENGINEER an existing facility location verification report for each project area. Where no conflicts are discovered, the report shall still be submitted with “NO CONFLICT(S)” indicated.

1.06 ENGINEER’S REVIEW

A. ENGINEER shall review the CONTRACTOR’s submitted existing facility location verification reports.

B. Should a conflict be discovered, ENGINEER shall promptly provide written recommendation to address conflict in accordance with the Contract Documents.

C. Should the resolution of a conflict require a change in scope (time or cost), revision shall be addressed in accordance with the Contract documents.

1.07 PAYMENT

A. Payment for work specified herein shall be included in the lump sum base bid.

1.08 COMPLIANCE

A. Should CONTRACTOR proceed with work prior to completion of facility location verification, CONTRACTOR will be proceeding at their own risk and resolution of conflicts will not be paid for by the OWNER.

B. Should a conflict be found that could not have been discovered through existing facility location verification process specified herein, the conflict will be addressed in accordance with the Contract Documents.

1.09 ABOVEGROUND FACILITY LOCATION VERIFICATION

A. All work to confirm tie-in locations above grade or connections to existing facilities above grade shall be considered within the scope of contract. No scheduled or additional payment will be made for this work.

DEMOLITION

PART 1 GENERAL

1.01 WORK INCLUDED

A. The CONTRACTOR shall furnish all labor, materials, equipment, and incidentals required for demolition, removal and disposal Work as shown on the Contract Drawings and as specified herein.

B. Work shall include, but not limited to, the demolition and removal of existing structures, equipment, and other existing site improvements as necessary to install the new Work as shown on the Contract Drawings and as specified herein. Demolition includes structural concrete, foundations, walls, structural steel, metals, masonry, attachments, appurtenances, piping, electrical and mechanical equipment, paving, curbs, walks, and similar existing facilities.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Building Codes

1. Florida Building Code, Latest Edition.

B. Reference Standards

1. ANSI A10.6 Safety Standards for Demolition.

1.03 SUBMITTALS

A. Submittals shall be made in accordance with the requirements of Section 01300 - Submittals.

B. Submit proposed demolition procedures and schedule of Work.

C. Project record Drawings shall show limits of partial demolition as applicable.

PART 2 PRODUCTS

Not Used.

PART 3 EXECUTION

3.01 GENERAL

A. Protect existing structures and equipment which are not to be altered.

B. All materials and equipment removed from existing Work shall become the property of the CONTRACTOR except for those which the OWNER has

identified and marked for OWNER's use. All materials and equipment marked by the OWNER to remain the OWNER's shall be carefully removed by the CONTRACTOR so as not to be damaged, cleaned and stored on or adjacent to the site in a protected place specified by the ENGINEER or OWNER or loaded onto trucks provided by the OWNER.

The OWNER has preliminarily marked the following items to be salvaged:

1. As noted on drawings.

C. The CONTRACTOR shall dispose of all demolition materials, equipment, debris, and all other items not marked by the OWNER to remain as his, off the site and in conformance with all existing applicable laws and regulations.

D. Pollution Controls

1. Use water sprinkling, temporary enclosures, and other suitable methods to limit the amount of dust and dirt rising and scattering in the air to the lowest practical level. Comply with governing regulations pertaining to environmental protection.

   a. Do not use water when it may create hazardous or objectionable conditions such as flooding, pollution, and groundwater contamination.

   b. Clean adjacent structures, facilities and improvements of dust, dirt and debris caused by demolition operations.

E. Material generated from demolition shall not be used as backfill.

3.02 STRUCTURAL DEMOLITION (GENERAL)

A. The CONTRACTOR shall completely remove all structures as shown on the Contract Drawings unless otherwise directed by the ENGINEER.

B. All concrete, brick, tile, concrete block, roofing materials, reinforcement, structural or miscellaneous metals, plaster, wire mesh and other items contained in or upon the structure shall be removed and taken from the site, unless otherwise approved by the ENGINEER.

3.03 ELECTRICAL DEMOLITION

A. Electrical demolition requirements shall be as specified in Section 16001 - Electrical Demolition.

3.04 MECHANICAL AND EQUIPMENT DEMOLITION (GENERAL)

A. CONTRACTOR shall completely remove all mechanical and/or equipment items as shown on the drawings.

B. The general demolition scope shall include the following minimum requirements whether indicated on plans or not:

1. Remove exposed ancillary piping and valves.

2. Remove pipe/equipment hangers and support systems which are not needed as a result of the demolition.

3. To the fullest extent possible all required systems shall remain operational. CONTRACTOR shall replace and/or repair existing facilities to remain which may be damaged due to equipment removals.

3.05 SPECIFIC DEMOLITION REQUIREMENTS

A. Specific demolition requirements shall be as indicated on drawings.

3.06 CLEAN-UP AND DISPOSAL

A. CONTRACTOR shall remove from the site all debris resulting from the demolition operations as it accumulates. Upon completion of the Work, all materials, equipment, waste and debris of every sort shall be removed and the premises shall be left clean, neat and orderly.

B. All materials and debris resulting from demolition and removal operations shall be disposed of off-site in an authorized, permitted disposal site.

C. Dumpster and/or roll-off container service shall be provided by CONTRACTOR from local franchise.

D. Other lawful debris haul-off (dump trucks) by CONTRACTOR.

SECTION 02200

EARTHWORK

PART 1 GENERAL

1.01 WORK INCLUDED

A. The work of this Section includes all earthwork required for construction of the Project. Such earthwork shall include, but not be limited to, the loosening, removing, loading, transporting, depositing, and compacting in its final location of all materials, wet and dry, as required for the purposes of completing the work specified in the Contract Documents, which shall include, but not be limited to, the furnishing, placing, and removing of sheeting and bracing necessary to safely support the sides of all excavation; all pumping, ditching, draining, and other required measures for the removal or exclusion of water from the excavation; the supporting of structures above and below the ground; all backfilling around structures and all backfilling of trenches and pits; the disposal of excess excavated materials; borrow of materials to make up deficiencies for fills; and all other incidental earthwork, all in accordance with the requirements of the Contract Documents.

B. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01400 - Quality Control.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Commercial Standards (Latest Revision):

ASTM D 422	Method for Particle-Size Analysis of Soils.
ASTM D 698	Test Methods for Moisture-Density Relations of Soils and Soil-Aggregate Mixtures, Using 5.5-lb (2.49-kg) hammer and 12-in. (304.8-mm) Drop.
ASTM D 1140	Test Method for Density of Soil in Place by the Sand Cone Method.
ASTM D 1557	Test methods for Moisture-Density Relations of Soils and Soil-Aggregate Mixtures Using 10-lb (4.54-kg) hammer and 18-in. (457-mm) Drop.
ASTM D 1633	Test Method for Compressive Strength of Molded Soil-Cement Cylinders.
ASTM D 2419	Test Method for Sand Equivalent Value of Soils and Fine Aggregate.
ASTM D 2487	Classification of Soils for Engineering Purposes.

ASTM D 2901	Test Method for Cement Content of Freshly-Mixed Soil-Cement.
ASTM D 2922	Test Methods for Density of Soil and Soil-Aggregate in Place by Nuclear Methods (Shallow Depth).
ASTM D 4253	Test Methods for Maximum Index Density of Soils Using a Vibratory Table.
ASTM D 4254	Test Methods for Minimum Index Density of Soils and Calculation of Relative Density.

1.04 TRENCH SAFETY

A. The CONTRACTOR's attention is directed to the "Florida Trench Safety Act" which mandates the provisions of Subpart P, Section 1926.650 of the OSHA Safety and Health Standards for Construction, which require that all trenches of depth greater than 5 feet shall be shored or sloped to the angle of repose.

B. Submit information in accordance with Section 01300 - Submittals, detailing the method of trench safety to be implemented. Submittal should include geotechnical investigation results if required.

1.05 QUALITY ASSURANCE

A. General: All soils testing will be done by a testing laboratory of the OWNER's choice at the OWNER's expense except as specified in Paragraph 1.05C below.

B. Where soil material is required to be compacted to a percentage of maximum density, the maximum density at optimum moisture content will be determined in accordance with ASTM D 1557. Where cohesionless, free draining soil material is required to be compacted to a percentage of relative density, the calculation of relative density will be determined in accordance with ASTM D 4253 and D 4254. Field density in-place tests will be performed in accordance with ASTM D 1556, ASTM D 2922, or by such other means acceptable to the ENGINEER.

C. In case the tests of the fill or backfill show non-compliance with the required density, the CONTRACTOR shall accomplish such remedy as may be required to insure compliance. Subsequent testing to show compliance shall be by a testing laboratory selected by the OWNER and shall be at the CONTRACTOR's expense.

D. Particle size analysis of soils and aggregates will be performed using ASTM D 422.

E. Determination of sand equivalent value will be performed using ASTM D 2419.

F. Unified Soil Classification System: References in these specifications to soil classification types and standards set forth in ASTM D 2487 shall have the meanings and definitions indicated in the chart illustrated at the end of this Section. The chart is reproduced herein for the convenience of the CONTRACTOR only, and no

limitation, amendment, or modification is intended thereby. The CONTRACTOR shall be bound by all applicable provisions of said ASTM D 2487 in the interpretation of soil classifications.

PART 2 PRODUCTS

2.01 SUITABLE FILL AND BACKFILL MATERIAL REQUIREMENTS

A. General: Fill, backfill, and embankment materials shall be suitable selected or processed clean, fine earth, rock, or sand, free from grass, roots, brush, or other vegetation.

B. Fill and backfill materials to be placed within 6 inches of any structure or pipe shall be free of rocks or unbroken masses of earth materials having a maximum dimension larger than 3 inches.

C. Suitable Materials: Soils not classified as unsuitable as defined in Paragraph entitled, "Unsuitable Material" herein, are defined as suitable materials and may be used in fills, backfilling, and embankment construction subject to the specified limitations. In addition, when acceptable to the ENGINEER, some of the material listed as unsuitable may be used when thoroughly mixed with suitable material to form a stable composite.

D. Suitable materials may be obtained from on-site excavations, may be processed on-site materials, or may be imported. If imported materials are required to meet the requirements of this Section or to meet the quantity requirements of the project the CONTRACTOR shall provide the imported materials within the scope of the Contract, unless a unit price item is included for imported materials in the bidding schedule.

E. The following types of suitable materials are designated and defined as follows:

1. Type A: Crushed limerock or sand with 100 percent passing a 1-inch sieve and a sand equivalent value not less than 50.
2. Type B: Crushed limerock or sand with 100 percent passing a ½-inch sieve and a sand equivalent value not less than 50.
3. Type C: Sand with 100 percent passing a 3/8-inch sieve, at least 90 percent passing a Number 4 sieve, and a sand equivalent value not less than 30.
4. Type D: Crushed limerock with 100 percent passing a 1-inch sieve and not more than 10 percent passing a Number 4 sieve.
5. Type E: Crushed limerock with 100 percent passing a 3/4-inch sieve and not more than 10 percent passing a Number 4 sieve.
6. Type F: Crushed limerock meeting the following gradation requirements:

Sieve Size	Percentage Passing
2-inch	100
1-1/2-inch	90 - 100
1-inch	20 - 55
3/4-inch	0 - 15
No. 200	0 - 3

7. Type G: Crushed rock aggregate base material of such nature that it can be compacted readily by watering and rolling to form a firm, stable base for pavements. At least 97% of the material shall pass a 3-1/2 inch screen and the material shall be

uniformly graded uniformly down to the 200 sieve. The liquid limit shall not exceed 35 and the plastic index shall not exceed 10. For stabilized base, the material shall meet all of the above requirements except that 97% shall pass a 1-1/2 inch screen.

8. Type H: Drainrock shall be crushed rock or gravel, durable and free from slaking or decomposition under the action of alternate wetting or drying. The material shall be uniformly graded and shall meet the following gradation requirements:

Sieve Size	Percentage Passing
1-inch	100
3/4-inch	90 - 100
3/8-inch	40 - 100
No. 4	25 - 40
No. 8	18 - 33
No. 30	5 - 15
No. 50	0 - 7
No. 200	0 - 3

The drainrock shall have a sand equivalent value not less than 75.

9. Type I: Any other suitable material as defined in Paragraph 2.01, herein.

10. Type J: Material which consists of Type H material, or any mixture of Types B, C, G, and H materials which has been cement-treated so that the cement content of the material is not less than 5 percent by weight when tested in accordance with ASTM D 2901. The ultimate compressive strength at 28 days shall be not less than 400 psi when tested in accordance with ASTM D1633.

11. Type K: Stockpiled topsoil material which has been obtained at the site by removing soil to a depth not exceeding 2 feet. Removal of the topsoil shall be done after the area has been stripped of vegetation and debris as specified.

2.02 UNSUITABLE MATERIAL

A. Unsuitable soils for fill material shall include soils which, when classified under ASTM D 2487, fall in the classifications of Pt, OH, CH, MH, HL, or SC.

B. In addition, any soil which cannot be compacted sufficiently to achieve the percentage of maximum density specified for the intended use, shall be classed as unsuitable material.

2.03 USE OF FILL, BACKFILL, AND EMBANKMENT MATERIAL TYPES

A. Use the types of materials designated herein for all required fill, backfill, and embankment construction hereunder.

B. Where these Specifications conflict with the requirements of any local agency having jurisdiction, or with the requirements of a material manufacturer, the ENGINEER shall be immediately notified. In case of conflict therewith, the CONTRACTOR shall use the most stringent requirement, as determined by the ENGINEER.

C. Fill and backfill types shall be used in accordance with the following provisions:
   1. Embankment fills shall be constructed of Type I material, as defined in Paragraph 2.01E, herein, or any mixture of Type I and Type A through Type H materials.
   2. Pipe zone backfill, as defined under "Pipe and Utility Trench Backfill" herein, shall consist of the following materials for each pipe material listed below. Where pipelines are installed on grades exceeding 4 percent, and where backfill materials are graded such that there is less than 10 percent passing a Number 4 sieve, trench plugs of Type J material shall be provided at minimum intervals of 200 feet.
      a. Mortar coated pipe and concrete pipe, shall be provided Type A, B, C, D, or E pipe zone backfill material.
      b. Coal tar enamel coated pipe, polyethylene encased pipe, tape wrapped pipe, and other non-mortar coated pipe shall be backfilled with Type C pipe zone backfill material.
      c. Plastic pipe and PVC pipe shall be backfilled with Types B, C, or E pipe zone backfill material.
   3. Trench zone backfill for pipelines as defined under "Pipe and Utility Trench Backfill" shall be Type I backfill material or any of Types A through H backfill materials or any mixture thereof.
   4. Final backfill material for pipelines under paved areas, as defined under "Pipe and Utility Trench Backfill" shall be Type G backfill material. Final backfill under areas not paved shall be the same materials as that used for trench backfill, except that Type K material shall be used for final backfill in agricultural areas unless otherwise shown or specified.
   5. Trench backfill and final backfill for pipelines under structures shall be the same material as used in the pipe zone, except where concrete encasement is required by the Contract Documents.
   6. Aggregate base materials under pavements shall be Type G material constructed to the thicknesses shown or specified.
   7. Backfill around structures shall be Type I material, or Types A through Type H materials, or any mixture thereof.
   8. Backfill materials beneath structures shall be as follows:
      a. Drainrock materials under reservoirs or other water retaining structures with underdrain systems shall be Type H material.
      b. Under concrete reservoirs or other water retaining structures without underdrain systems, Types G or H materials shall be used.
      c. Under structures where groundwater must be removed to allow placement of concrete, Type F material shall be used.
      d. Under all other structures, Type D, E, G, or H material shall be used.
   9. Backfill used to replace pipeline trench over-excavation shall be a layer of Type F material with a 6-inch top filter layer of Type E material for wet trench conditions or the same material as used for the pipe zone backfill if the trench conditions are not wet.
   10. The top 6 inches of fill on reservoir roofs, embankment fills around reservoirs, and all other embankment fills shall consist of Type K material, topsoil.
   11. Where specified or shown, pea gravel shall be Type E material, gradations.

PART 3 EXECUTION

3.01 REMOVAL OF WATER

A. Provide and operate equipment adequate to keep all excavations and trenches free of water. Remove all water during periods when concrete is being deposited, when pipe is being laid, during the placing of backfill, and at such other times as required for efficient and safe execution of the Work. Avoid settlement or damage to adjacent property. Dispose of water in a manner that will not damage adjacent property. When dewatering open excavations, dewater from outside the structural limits and from a point below the bottom of the excavation when possible. Design dewatering system to prevent removal of fines from existing ground.

B. CONTRACTOR shall determine all requirements, make all necessary arrangements and obtain all permits which may be required for dewatering operations.

3.02 STRUCTURE, ROADWAY, AND EMBANKMENT EXCAVATION

A. General: Except where specifically provided to the contrary, excavation shall include the removal of all materials of whatever nature encountered, including all obstructions of any nature that would interfere with the proper execution and completion of the work. The removal of said materials shall conform to the lines and grades shown or ordered. Furnish, place, and maintain all supports and shoring that may be required for the sides of the excavations, and all pumping, ditching, or other measures for the removal or exclusion of water. Dispose of storm water, groundwater, and wastewater reaching the site of the Work from any source so as to prevent damage to the Work or adjoining property. Excavations shall be sloped or otherwise supported in a safe manner in accordance with applicable State safety requirements and the requirements of OSHA Safety and Health Standards for Construction (29CFR1926).

B. Excavation Beneath Structures and Embankments: Except where otherwise specified for a particular structure or ordered by the ENGINEER, excavation shall be carried to the grade of the bottom of the footing or slab. Where shown or ordered, areas beneath structures or fills shall be over-excavated. The subgrade areas beneath embankments shall be excavated to remove not less than the top 6 inches of original material and where such subgrade is sloped, the original material shall be benched. When such over-excavation is shown, both over-excavation and subsequent backfill to the required grade shall be performed by the CONTRACTOR. When such over-excavation is not shown but is ordered by the ENGINEER, such over-excavation and any resulting backfill will be paid for under a separate unit price bid item if such bid item has been established; otherwise payment will be made in accordance with a negotiated price. After the required excavation or over-excavation has been completed, the exposed surface shall be scarified to a depth of 6 inches, brought to optimum moisture content, and rolled with heavy compaction equipment to obtain 95 percent of maximum density.

C. Excavation Beneath Paved Areas: Excavation under areas to be paved shall extend to the bottom of the aggregate base, if such base is called for; otherwise it shall extend for the paving thickness. After the required excavation has been completed, the exposed

surface shall be scarified, brought to optimum moisture content, and rolled with heavy compaction equipment to obtain 95 percent of maximum density.

D. Notification of Engineer: Notify the ENGINEER at least 3 days in advance of completion of any structure excavation and allow the ENGINEER a review period of at least one day before the exposed foundation is scarified and compacted or is covered with backfill or with any construction materials.

3.03 PIPELINE AND UTILITY TRENCH EXCAVATION

A. General: Unless otherwise shown or ordered, excavation for pipelines and utilities shall be open-cut trenches. Trench widths shall be kept as narrow as is practical for the method of pipe zone densification and trench safety selected by the CONTRACTOR, but shall have a minimum width at the bottom of the trench equal to the outside diameter of the pipe plus 24 inches for mechanical compaction methods and 18 inches for water consolidation methods. The maximum width at the top of the pipe shall be equal to the outside diameter of the pipe plus 36 inches for pipe diameters 18-inches and larger and to the outside diameter of the pipe plus 24 inches for pipe diameters less than 18-inches.

B. Trench Bottom: Except when pipe bedding is required, the bottom of the trench shall be excavated uniformly to the grade of the bottom of the pipe. The trench bottom shall be given a final trim, such that each pipe section when first laid will be continually in contact with the ground along the extreme bottom of the pipe. Rounding out the trench to form a cradle for the pipe will not be required.

C. Open Trench: The maximum amount of open trench permitted in any one location shall be 500 feet, or the length necessary to accommodate the amount of pipe installed in a single day, whichever is less. All trenches shall be fully backfilled at the end of each day or, in lieu thereof, shall be covered by heavy steel plates adequately braced and capable of supporting vehicular traffic in those locations where it is impractical to backfill at the end of each day. The above requirements for backfilling or use of steel plate will be waived in cases where the trench is located further than 100 feet from any traveled roadway or occupied structure. In such cases, however, barricades and warning lights meeting OSHA requirements shall be provided and maintained.

D. Trench Over-Excavation: Where the Drawings indicate that trenches shall be over-excavated, they shall be excavated to the depth shown, and then backfilled to the grade of the bottom of the pipe.

E. Over-Excavation: When ordered by the ENGINEER, whether indicated on the Drawings or not, trenches shall be over-excavated beyond the depth shown. Such over-excavation shall be to the depth ordered. The trench shall then be backfilled to the grade of the bottom of the pipe. All work specified in this Section shall be performed within the scope of the Contract when the over-excavation ordered by the ENGINEER is less than 6 inches below the limits shown. When the over-excavation ordered by the ENGINEER is 6 inches or greater below the limits shown, additional payment will be made to the CONTRACTOR for that portion of the work which is located below said 6-inch

distance. Said additional payment will be made under separate unit price bid items for over-excavation and bedding if such bid items have been established; otherwise payment will be made in accordance with a negotiated price.

F. Where pipelines are to be installed in embankment or structure fills, the fill shall be constructed to a level at least one foot above the top of the pipe before the trench is excavated.

3.04 OVER-EXCAVATION NOT ORDERED, SPECIFIED, OR SHOWN

A. Any over-excavation carried below the grade ordered, specified, or shown, shall be backfilled to the required grade with the specified material and compaction. Such work shall be performed by the CONTRACTOR at its own expense.

3.05 EXCAVATION IN VICINITY OF TREES

A. Except where trees are shown to be removed, trees shall be protected from injury during construction operations. No tree roots over 2 inches in diameter shall be cut without express permission of the ENGINEER. Trees shall be supported during excavation by any means previously reviewed by the ENGINEER.

3.06 ROCK EXCAVATION

A. CONTRACTOR shall review existing site conditions and available geotechnical exploration reports to confirm the presence of and depth of rock that may be encountered as the result of excavation.

B. Prior to bid, an excavation contractor knowledgeable with limestone and other rock formations local to project should be retained by CONTRACTOR to independently evaluate the formation to determine the appropriate excavation equipment and methods to be used.

C. Cost of all rock excavation and disposal of unsuitable rock material shall be included in CONTRACTOR's bid.

3.07 DISPOSAL OF EXCESS EXCAVATED MATERIAL

A. Remove and dispose of all excess excavated material at a site selected by the OWNER and reviewed by the ENGINEER.

3.08 BACKFILL - GENERAL

A. Backfill shall not be dropped directly upon any structure or pipe. Backfill shall not be placed around or upon any structure until the concrete has attained sufficient strength to withstand the loads imposed. Backfill around water retaining structures shall not be placed until the structures have been tested, and the structures shall be full of water while backfill is being placed.

B. Except for drainrock materials being placed in over-excavated areas or trenches, backfill shall be placed after all water is removed from the excavation.

3.09 PLACING AND SPREADING OF BACKFILL MATERIALS

A. Backfill materials shall be placed and spread evenly in layers. When compaction is achieved using mechanical equipment the layers shall be evenly spread so that when compacted each layer shall not exceed 12- inches in thickness. When compaction is achieved using flooding and jetting methods, each layer shall not exceed 3 feet in thickness after compaction.

B. During spreading each layer shall be thoroughly mixed as necessary to promote uniformity of material in each layer. Pipe zone backfill materials shall be manually spread around and under the pipe so that when compacted the pipe zone backfill will provide uniform bearing and side support.

C. Where the backfill material moisture content is below the optimum moisture content water shall be added before or during spreading until the property moisture content is achieved.

D. Where the backfill material moisture content is too high to permit the specified degree of compaction the material shall be dried until the moisture content is satisfactory.

3.10 COMPACTION OF FILL, BACKFILL, AND EMBANKMENT MATERIALS

A. Each layer of Types A, B, C, G, H, I, and K backfill materials as defined in Paragraph 2.01E, herein, where the material is graded such that at least 10 percent passes a No. 4 sieve, shall be mechanically compacted to the specified percentage of maximum density. Equipment that is consistently capable of achieving the required degree of compaction shall be used and each layer shall be compacted over its entire area while the material is at the required moisture content.

B. Each layer of Type D, E, F, and J backfill materials shall be compacted by means of at least 2 passes from a flat plate vibratory compactor. When such materials are used for pipe zone backfill, vibratory compaction shall be used at the top of the pipe zone or at vertical intervals of 24 inches, whichever is the least distance from the subgrade.

C. Flooding, ponding, or jetting shall not be used for fill on roads, backfill around structures, backfill around reservoir walls, for final backfill materials, or aggregate base materials.

D. Pipe zone backfill materials that are granular may be compacted by a combination of flooding and vibration using concrete vibrators or by jetting, when acceptable to the ENGINEER.

E. Pipeline trench zone backfill materials, containing 5 percent or less of material passing a No. 200 sieve, may be compacted using flooding and jetting or vibration if the CONTRACTOR uses effective procedures that yield the specified compaction test results. Flooding and jetting shall not be done in such a manner that the pipe or nearby utilities are damaged, in areas of poorly draining or expansive soils, or where the use of the procedure is prohibited by any agency having jurisdiction over the street or right-of-way. Suitable jet pipes or immersible vibrators shall be used so that each backfill layer is saturated and consolidated to its full depth before the next layer is placed. Jet pipes shall be kept at least 6

inches away from the pipe where the backfill is being consolidated and 2 feet away from other pipes or utilities.

F. Equipment weighing more than 10,000 pounds shall not be used closer to walls than a horizontal distance equal to the depth of the fill at that time. Hand operated power compaction equipment shall be used where use of heavier equipment is impractical or restricted due to weight limitations.

G. Compaction Requirements: The following compaction test requirements shall be in accordance with ASTM D 1557 for Type A, B, C, G, H, I, and K materials. Where agency or utility company requirements govern, the highest compaction standards shall apply.

Location or Use of Fill	Percentage Of Maximum Density
Pipe zone backfill portion above bedding for flexible pipe.	95
Pipe zone backfill bedding and over-excavated zones under bedding/ pipe for flexible pipe.	95
Pipe zone backfill portion above bedding for rigid pipe.	95
Pipe zone backfill bedding and over-excavated zones under bedding/ pipe for rigid pipe.	95
Final backfill, beneath paved areas or structures.	98
Final backfill, not beneath paved areas or structures.	90
Trench zone backfill.	90
Embankments.	90
Embankments, beneath paved areas of structures.	98
Backfill beneath structures, reservoirs.	98
Backfill around structures, on reservoir or structure roof.	80
Topsoil (Type K material)	80
Aggregate base (Type G material)	98

H. Trench Backfill Requirements: The pipe has been structurally designed based upon the trench configuration specified in Section 3.03A, herein.

I. Maintain the indicated trench cross section up to a horizontal plane lying 6 inches above the top of the pipe.

J. If, at any location under said horizontal plane, the trench walls we sloped or exceed the maximum trench widths indicated in the Contract Documents are exceeded, the pipe zone backfill shall be "improved" or the pipe class increased as specified herein, within the scope of the Contract. "Improved" backfill shall mean sand backfill or other equivalent materials acceptable to the ENGINEER.

K. If the allowable deflection specified for the pipe is exceeded, expose and reround or replace the pipe, repair all damaged lining and coating, and reinstall the pipe zone material and trench backfill as specified within the scope of the Contract.

3.11 PIPE AND UTILITY TRENCH BACKFILL

A. Pipe Zone Backfill: The pipe zone is defined as that portion of the vertical trench cross-section lying between a plane 6 inches below the bottom surface of the pipe, i.e., the trench subgrade, and a plane at a point 6 inches above the top surface of the pipe. The bedding for flexible pipe is defined as that portion of pipe zone backfill material between the trench subgrade and the bottom of the pipe. The bedding for rigid pipe is defined as that portion of the pipe zone backfill material between the trench subgrade and a level line which varies from the bottom of the pipe to the springline as shown.

B. Bedding shall be provided for all sewers, drainage pipelines, and other gravity flow pipelines in accordance with the details shown on the Drawings and materials specified herein.

C. Where bedding is required after compaction of the bedding, perform a final trim using a stringline for establishing grade, such that each pipe section when first laid will be continually in contact with the bedding along the extreme bottom of the pipe.

D. The pipe zone shall be backfilled with the specified backfill material. Exercise care to prevent damage to the pipeline coating, cathodic bonds, or the pipe itself during the installation and backfill operations.

E. Trench Zone Backfill: After the pipe zone backfill has been placed as specified above, and after all excess water has completely drained from the trench, backfilling of the trench zone may proceed. The trench zone is defined as that portion of the vertical trench cross-section lying between a plane 6 inches above the top surface of the pipe and a plane at a point 18 inches below the finished surface grade, or if the trench is under pavement, 18 inches below the roadway subgrade. If flooding, ponding, or jetting is used the pipe shall be filled with water to prevent flotation.

F. Final Backfill: Final backfill is all backfill in the trench cross-sectional area within 10 inches of finished grade, or if the trench is under pavement, all backfill to the roadway base restoration.

3.12 EMBANKMENT CONSTRUCTION

A. The area where an embankment is to be constructed shall be cleared of all vegetation, roots and foreign material. Following this, the

surface shall be moistened, scarified to a depth of 6 inches, and rolled or otherwise mechanically compacted to 95 percent of maximum density under structures and paved areas, and 90 percent of maximum density elsewhere.

B. Where embankment or structure fills are constructed over pipelines, the first 4 feet of fill over the pipe shall be constructed using light placement and compaction equipment that does not damage the pipe.

3.13 FIELD DENSITY AND MOISTURE TESTS

A. Notify the OWNER-provided independent soil testing company to determine the in-place density and moisture content of the subgrade and compacted fill by any one or combination of the following methods: ASTM D 1556, D 3017, or D 2922. The CONTRACTOR shall cooperate with this testing work by leveling small test areas as designated by the soil testing company. These test results, certified by the soil testing company and reviewed by the ENGINEER, shall indicate that the actual soil compaction found meets these Specifications. Testing will occur as the work progresses and compliance with the Specifications is required prior to final acceptance and payment for the work.

B. A minimum of one test every 200 cubic yards of fill, one test per every 2,000 square feet of subgrade, or 4 tests per lift, whichever is larger in number of tests, shall be conducted.

C. The OWNER shall pay for the initial testing. Any retesting required to show compliance with these Specifications shall be paid by CONTRACTOR within the Scope of the Contract.

END OF SECTION

SECTION 02500

RESTORATION AND CLEANUP

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work necessary to provide and coordinate the restoration and cleanup of areas disturbed during construction.

B. All areas disturbed or damaged during construction shall be restored to conditions existing prior to the work.

C. See GENERAL CONDITIONS and Division 1, General Requirements, which contain information and requirements that apply to the work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 02630 - Concrete Sidewalks, Drives and Curbs.

1.03 SUBMITTALS

A. Documentation to confirm conformance of materials with the requirements of this specification.

B. Submittals shall be made in accordance with the GENERAL CONDITIONS.

1.04 LIMITS OF RESTORATION

A. All areas disturbed by progress of work and/or CONTRACTOR's operations shall be restored to limits disturbed unless noted otherwise on drawings.

B. Proposed new sidewalks, paving, sod, landscaping, and the like shall be completed as shown on the drawings.

PART 2 PRODUCTS

2.01 CONCRETE PAVEMENT

A. Materials for concrete driveway approaches, sidewalks and curbs shall be as specified in Section 02630 - Concrete sidewalks, Drives and Curbs.

2.02 SOD

A. Sod shall be of firm texture having a compacted growth and good root development. Sod is to contain no weeds or undesirable native grasses and be free from fungus, vermin and diseases. Sod to be not less than two (2) years old.

Provide sod capable of growth and development when planted (viable, not dormant).

B. Sod shall be selected to match the existing varieties and types encountered, as applicable. Sod shall be Bahia for non-irrigated areas and Floratam for irrigated areas.

C. Sod selection shall be approved in field by resident project representative.

2.03 LANDSCAPING

A. All existing landscaping damaged or disturbed by CONTRACTOR shall be replaced in kind by the CONTRACTOR as directed in field by the resident project representative. All such work shall be considered incidental restoration and covered under the work required by this contract.

B. Preconstruction video tape shall be used to assist in landscape restoration requirements.

C. New landscaping improvements shall be as noted on drawings.

2.04 MISCELLANEOUS LANDSCAPING MATERIALS

A. Water

1. Water shall be potable from municipal water supplies or from wastewater reuse system (where available).

B. Fertilizer

1. New ground covers: Fertilize with an approved fertilizer of fifty percent (50%) or greater organic 6-6-6 or 8-8-8 with minor elements including, but not limited to, iron, zinc and manganese.

2.05 CLEANING MATERIALS

A. Use materials which will not create hazards to health or property, and which will not damage surfaces.

B. Use only materials and methods recommended by manufacturer of material or equipment being cleaned.

PART 3 EXECUTION

3.01 CONCRETE PAVEMENT RESTORATION

A. Restore concrete drives, sidewalks and curbs as shown on the Drawings and specified in Section 02630 - Concrete Sidewalks, Driveways and Curbs.

3.02 SODDING

A. Sod shall be placed as indicated on Drawings or to the extent to achieve the conditions existing prior to the work. General sod limits are as follows:

1. All unpaved areas disturbed within the project site shall be prepared and sodded as specified herein.

2. Other areas indicated on drawings within the project site shall be prepared and sodded as specified herein.

B. Properly prepare subgrade prior to placing sod. Remove excess materials, hand rake and level as necessary to place sod evenly and at grades to match adjacent existing surfaces. Finish sod installation shall provide unimpeded sheet flow of surface water drainage.

C. Lay sod to form a solid mass with tight-fitting joints. Butt ends and sides of sod strips. Do not overlap. Stagger strips to offset joints in courses. Tamp or roll sod lightly to insure uniform contact with subgrade. Fill minor cracks between pieces of sod with sifted soil.

D. Where necessary to prevent slippage of new installed sod, peg or pin sod securely using 1" x 1" x 6" wood pegs, driven flush with top of sod.

E. Water sod thoroughly with a fine spray immediately after installation.

F. Do not install sod on Friday, Saturday or Sunday, unless provisions are made to water manually or automatically.

3.03 LANDSCAPING RESTORATION

A. All landscaping that has been disturbed or damaged shall be replaced to match existing. The restoration work shall be as per directions of the resident project representative.

3.04 IRRIGATION SYSTEM RESTORATION

A. Repair existing sprinkler heads, irrigation equipment and piping at the existing site to conditions and coverage existing prior to work. Materials shall be as specified in Section 15400 - Plumbing.

3.05 CLEANING

A. In addition to removal of debris and cleaning specified in other sections, clean interior and exterior exposed-to-view surfaces.

B. Remove temporary protection and labels not required to remain.

C. Clean finishes free of dust, stains, films and other foreign substances.

D. Clean transparent and glossy materials to a polished condition; remove foreign substances. Polish reflective surfaces to a clear shine.

E. Clean surfaces of equipment; remove excess lubrication.

F. Clean ventilating louvers of dust and debris.

G. Maintain cleaning until Final Completion.

H. Remove waste, debris, and surplus materials from site. Clean grounds; remove stains, spills, and foreign substances from paved areas and sweep clean. Rake clean other exterior surfaces.

3.06 SOD AND LANDSCAPING MAINTENANCE

A. CONTRACTOR shall be responsible for maintaining all newly sodded areas and new landscaping through final completion of the project. Maintenance shall include but not be limited to irrigation and mowing.

B. CONTRACTOR may make arrangements with the individual property owners to complete landscaping maintenance. However, CONTRACTOR shall remain responsible for landscaping maintenance through final completion.

C. All sod or other landscaping improvements found dead prior to final completion shall be replaced by CONTRACTOR at no additional cost to the OWNER.

3.07 RESTORATION REQUIREMENTS (GENERAL)

A. Remove all debris generated by work from site.

B. Restore all existing paved areas (to remain) that are impacted by work in accordance with standard details as applicable.

C. Pave all areas as indicated by the drawings.

D. Sod all lawn areas disturbed by work in accordance with these specifications.

E. Provide new landscaping improvements as noted on the drawings.

F. Where applicable, repair existing sprinkler heads, irrigation equipment and piping at the site to conditions and coverage existing prior to work. Materials shall match existing. Existing sprinkler heads shall be reused.

END OF SECTION

SECTION 02630

CONCRETE SIDEWALKS, DRIVES AND CURBS

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers work necessary to construct, replace or repair concrete sidewalks, drives/roadways and curbs as required for this project.

B. Removed or damaged sidewalks, drives and curbs shall be replaced in the same location and to the same dimensions as were the originals unless instructed differently by OWNER or ENGINEER.

C. See CONDITIONS OF THE CONTRACT and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 02200 - Earthwork.

B. Section 03300 - Concrete.

PART 2 PRODUCTS

2.01 FORMS

A. Materials for forms shall be 2-inch dressed lumber straight and free from defects or standard metal forms may be used. Where short-radius forms are required, 1-inch dressed lumber or plywood may be used. Provide stakes and bracing materials as required to hold forms securely in place.

2.02 EXPANSION JOINT FILLER

A. Expansion joint filler shall be ½-inch thick, preformed asphalt-impregnated, expansion joint material conforming to ASTM D 994.

2.03 REINFORCEMENT

A. Welded wire fabric shall conform to ASTM A185 and be sized as indicated on the Drawings.

B. Deformed reinforcing bars shall conform to ASTM A615 and be sized as indicated on the Drawings.

1. Grade: 60
2. Minimum yield strength: 60,000 psi

2.04 CONCRETE

A. Concrete for sidewalks, drive/roadways and curbs shall be a specified in Section 03300 - Concrete.

2.05 CURING COMPOUND

A. Liquid membrane-forming curing compound shall be clear or translucent, suitable for spray application and shall conform to ASTM C 309, Type 1.

PART 3 EXECUTION

3.01 PREPARATION OF SUBGRADE

A. Bring the areas on which sidewalks, drives and curbs are to be constructed to required grade and compact by sprinkling and rolling or mechanical tamping. As depressions occur, refill with suitable material and recompact until the surface is at the proper grade. The upper 12 inches of subgrade or fill shall be compacted to 98 percent of maximum density at optimum moisture content as determined by ASTM D 1557.

3.02 SETTING FORMS

A. Construct forms to the shape, lines, grades, and dimensions called for on the Drawings. Stake wood or steel forms securely in place, true to line and grade.

B. Brace forms to prevent change of shape or movement in any direction resulting from the weight of the concrete during placement. Construct short-radius curved forms to exact radius. Tops of forms shall not depart from gradeline more than 1/8 inch when checked with a 10-foot straightedge. Alignment of straight sections shall not vary more than 1/8 inch in 10 feet.

3.03 SIDEWALK CONSTRUCTION

A. Sidewalks shall be 4 inches thick except where shown otherwise on the Drawings.

B. At locations where the new sidewalk is to abut existing concrete, saw concrete for a depth of 2 inches and chip the old concrete back to sound material on a straight line, clean the surface, and apply a neat cement paste just prior to pouring the new sidewalk.

C. Place preformed asphalt expansion joints at intervals not exceeding 45 feet and around posts, poles, valve boxes, manholes or other objects protruding through the sidewalk.

D. Provide expansion and contraction joints transversely to the walks at intervals as shown on the drawings. Expansion and contraction joints shall be straight and at right angles to the surface of the walk.

E. Place, process, finish and cure concrete in conformance with the applicable requirements of ACI 614 and this Specification. Where the requirements differ, the high shall govern.

F. Broom the surface with a fine-hair broom at right angles to the length of the walk and tool at all edges, joints and markings. Mark the walks transversely at 5-foot intervals with a jointing tool. Upon completion of the finishing, apply an approved curing compound to exposed surfaces. Protect the sidewalk from damage for a period of 7 days.

3.04 DRIVE/ROADWAY CONSTRUCTION

A. Drives/roadways shall be constructed and reinforced as indicated on the Drawings.

B. Place reinforcement as required by Drawings.

C. Place pre-formed expansion joint material where new drive/roadway will abut existing drive/roadway and around valve boxes, manholes or other objects protruding through the drive/roadway.

D. Broom the surface with a fine-hair broom at right angles to the length of the drive/roadway and tool all edges and joints. Upon completion of finishing, apply an approved curing compound to exposed surfaces.

E. Provide saw cut contraction joints as per standard details.

3.05 CURB CONSTRUCTION

A. Prepare adjacent, existing curb surfaces as described herein for sidewalk construction.

B. Construct curbs to match existing type as shown on the Drawings.

END OF SECTION

SECTION 03300

CONCRETE

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers all work necessary for providing, testing and placing ready mix concrete.

B. See CONDITIONS OF THE CONTRACT and Division 1, GENERAL REQUIREMENTS, which contain information and requirements which apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 01400 - Quality Control.

1.03 REFERENCE STANDARDS, CODES AND SPECIFICATIONS (AS REFERENCED IN FLORIDA BUILDING CODE))

A. ACI 214 “Guide to Evaluation of Strength Test Results of Concrete”.

B. ACI 318 "Building Code Requirement for Reinforced Concrete".

C. ASTM C31 "Standard Method for Making and Curing Concrete Compressive and Flexure Test Specimens in the Field".

D. ASTM C33 "Standard Specification for Concrete Aggregates".

E. ASTM C94 "Standard Specification for Ready-Mix Concrete".

1.04 SUBMITTALS

A. Submittals shall be in accordance with Section 01300 - Submittals and shall include the following:

1. Concrete mix designs and trial mix laboratory reports.
2. Manufacturer's certification of admixtures.
3. Contractor's schedule and sequence of placement.
4. All Test Results.
5. Drawings showing locations of construction joints.

1.05 QUALITY ASSURANCE

A. Submit certificates of mill reports on all foreign cements for review by ENGINEER before batching concrete.

B. Secure the services of a reputable manufacturer for counseling regarding the use of any specified admixture.

C. The ENGINEER shall have access to and have the right to inspect all batch plants, cement mills, and supply facilities of suppliers, manufacturers, subcontractors, and contractors providing products included in these Specifications. Batch plants shall have current certification that all weighing scales have been tested and are within the tolerances as set forth in the National Bureau of Standards Handbook No. 44.

1.06 CERTIFICATION

A. Submit batch delivery tickets to the ENGINEER in compliance with and in accordance to ASTM C94.

1.07 TESTING

A. Performed by an acceptable Engineering Laboratory at OWNER's expense. CONTRACTOR shall assist in the collection of samples. Any retests shall be within the Scope of the Contract.

B. Criteria:

1. Each test: not less than 5 cylinders; retain one after 28 days.
2. One test for every 50 consecutive cubic yards of concrete cast.
3. Furnish ENGINEER with 4 certified copies of tests made of 2 at 7 days and 2 at 28 days.
4. Slump test, concrete temperature and entrained air test shall be completed for each set.

C. Questionable strength of in-place concrete:

1. Additional tests may be ordered by the ENGINEER.
2. Execute the core tests in accordance with ASTM C42 procedure.
3. Costs of additional tests showing strength of in-place concrete conforming to design criteria are the responsibility of the OWNER.
4. Costs of additional tests showing noncompliance with the design criteria are the responsibility of the CONTRACTOR.
5. Additional items at CONTRACTOR's expense:

    a. Provide load tests as directed by the ENGINEER.
    b. Reinforce structure as directed or remove and replace all under strength concrete structure in place.

PART 2 PRODUCTS

2.01 MATERIALS

A. Cement

1. Portland cement Type I or Type II conforming to ASTM C 150. In addition, the tricalcium aluminate content of Type I cement shall not exceed 12 percent.

2. Type I or Type II cement, at the Contractor's option, may be used for nonhydraulic structures.

3. Type II cement or Type I cement, in combination with pozzolan (fly ash) as hereinafter specified, shall be used for all hydraulic structures and sanitary sewer structures.

B. Water: potable, salt free conforming to ASTM C94.

C. Fine Aggregate (Regular): salt free and clean, conforming to ASTM C33.

Fine Aggregate (Pump): salt free and clean, conforming to FDOT 902.

D. Coarse Aggregate (Regular): salt free and clean, conforming to ASTM C33, maximum size 1 1/2-inch (3/4-inch for water retaining structures).

Coarse Aggregate (Pump): Salt free and clean, size #89, FDOT 901.

E. All aggregates: quarried/mined in fresh water only.

F. Screenings: Screenings meeting the requirements of FDOT 902-5 may be substituted for fine aggregates.

2.02 MIXES

A. Fillets, thrust blocks, sidewalks, curbs and miscellaneous non-structural slabs on grade.

1. 28 day compressive strength: 3000 p.s.i.
2. Admixture: As required below, use only specified product.
3. Slump: 5 inches, ± 1 inch.
4. Entrained air content (ASTM C 231): 0 percent.

B. Structural (walls, columns, beams, footings, floor slabs and elevated slabs) and precast concrete:
1. 28 day compressive strength: 4000 p.s.i., minimum, or as illustrated on the Drawings.
   a. Strengths noted on the Drawings take precedence over herein specified amounts.
2. Water-cement ratio: w/c ≤ 0.4.
3. Slump: 5 inches, ± 1 inch.
4. Entrained air Content (ASTM C231): 0 percent.
5. Admixture: As required below, use only specified products.

C. Pavement (Drives/Roadways):

1. 28 day compressive strength: 4000 p.s.i.
2. Water-cement ratio: w/c ≤ 0.5.
3. Slump: 5 inches, ± 1 inch.
4. Entrained air Content (ASTM C231): 0 percent
5. Admixture: As required below, use only specified products.
6. Slump: N/A (mix shall be self-leveling).

D. Excavatable Flowable Fill (For Trench Backfill)

1. Cement: 50 to 100 lbs/Cy. (Or indicated on drawings.)
2. Pozzolan (Flyash): 0 lbs/Cy.
3. Fine Aggregate: 2750 lb/Cy.
4. Water: 500 lbs/Cy. (Maximum)
5. Dye: Add per color noted on drawings.
6. 28 Day Compressive Strength: 100 psi (maximum).
7. Slump: N/A (mix shall be self-leveling).

E. Flowable Fill (Non-Excavatable)

1. 28 day compressive strength: 125 psi (minimum).
2. Slump: N/A (mix shall be self-leveling).
3. Entrained air Content (ASTM C231): 0 percent.
4. Cement: 75-150 lbs/ct
5. Pozzolan (Flyash): 150-600 lbs/cy

6. Dye: Add per color noted on drawings.
7. Admixtures: As required below, use only specified products.

F. Curbs

8. 28 day compressive strength: 3000 psi
9. Slump: 2-inches, ± 1-inch.
10. Entrained Air Content (ASTM C231): 0 percent.
11. Admixtures: As required below, use only specified products.

2.03 ADMIXTURE

A. Air-Entraining

1. Provide air-entraining admixture in all concrete. Admixture shall conform to ASTM C 260, except it shall be nontoxic after 30 days and shall contain no chlorides. Furnish manufacturer's compliance statement for these requirements.

B. Water-Reducing

1. All concrete shall contain a water-reducing admixture. The admixture shall conform to ASTM C 494, Type A or Type D, except it shall contain no chlorides, shall be nontoxic after 30 days, and shall be compatible with the air-entraining admixtures. The amount of admixture added to the concrete shall be in accordance with the manufacturer's recommendations. Furnish a compliance statement that the admixture used satisfies all requirements of this Specification.

C. Pozzolan (Fly-Ash)

1. The pozzolan to be used in combination with Type I cement, as previously specified for use in all hydraulic structures and sewers, shall be Class C or Class F fly ash conforming to ASTM C 618-78 and furnish test data confirming that the fly ash in combination with the cement to be used meets all strength requirements, is compatible with air-entraining agents and other additives, and provides increased sulfate resistance equivalent to or better than Type II cement.

2.04 CURING COMPOUNDS

A. Normal placement without special finish; approved products:
1. Master Builders Company: "Masterseal".
2. Sonneborn-Contech: "Kure-N'Seal".

2.05 DEFORMED REINFORCING BARS

A. ASTM A615: "Standard Specification for Deformed and Plain Billet-Steel Bars for concrete Reinforcement".
1. Grade: 60
2. Minimum yield strength: 60,000 p.s.i.

B. Sizes shall be as indicated on the Drawings.

2.06 WELDED WIRE FABRIC

A. Welded wire fabric shall conform to ASTM A1064.

2.07 EXPANSION JOINT FILLER

A. Expansion joint filler shall be 1/2-inch thick, preformed asphalt-impregnated, expansion joint material conforming to ASTM D994.

2.08 ACCESSORIES

A. Tie wires shall be 16-gauge, black, soft-annealed wire.

B. Bar supports shall be of proper type for us intended. Bar supports in beams and slabs exposed to view after stripping shall be galvanized or plastic coated. Use concrete supports for reinforcing in concrete placed on grade.

PART 3 EXECUTION

3.01 EXAMINATION

A. Place no concrete until all reinforcing steel, pipes, inserts, sleeves, etc., have been set in place and reviewed by the ENGINEER. Notify the ENGINEER of scheduled pours 24 hours prior to placement.

3.02 PLACING

A. Place concrete expeditiously in clean forms that are not hot to the touch; spray forms with water just prior to placing concrete. Before placing concrete directly against earth, install vapor barrier to prevent water absorption, secure reinforcement in position, inspect, and approve before placing concrete. Do not rest runways for transporting concrete on the reinforcing steel. Deposit concrete as nearly as practical in final position; and, do not allow concrete to drop freely more than 5 feet. Place all concrete during daylight, unless otherwise authorized. Where reinforcing steel above the top of the cast is coated with concrete while placing below, remove all concrete from such reinforcing steel after the placing is complete and prior to the next cast.

B. Place slabs-on-grade carefully to avoid damages to the vapor barrier.

3.03 CONSOLIDATION

A. Consolidate concrete in layers by internal vibrating equipment, supplemented by hand rodding and tamping as required. Do not use vibrators to move the concrete laterally inside the forms.

B. Maintain internal vibrators at speed of at least 5000 impulses per minute when submerged in concrete. Maintain at least 1 spare vibrator in working condition at site at all times.

C. Limit duration of vibration to time necessary to produce satisfactory consolidation without causing segregation. In no case more than 15 seconds per square foot of exposed surface. Move the vibrator constantly and place in each specific spot only once.

3.04 JOINTS

A. Construction joints:

1. Locate as illustrated on the Drawings and as reviewed by the ENGINEER for slabs.
2. Key joints.

B. Expansion Joints: Place pre-formed expansion joints as indicated on the Drawings.

3.05 CURING

A. Begin curing of concrete as soon as practicable after placing, but not more than 3 hours thereafter.

B. Begin curing of the structural elements immediately after removal of forms.

C. Apply curing compounds as specified.

3.06 FINISHES

A. Formed surfaces:

1. Patching: immediately after stripping forms, patch all defective areas with mortar similar to the concrete mix; but, without coarse aggregate. Patch minor honeycombs, bulges and other minor defects as designed by the ENGINEER, only where exposed to view. Clean, dampen, and fill all the holes with patching mortar.

   a. Major defective areas, as judged by the ENGINEER, including those resulting from the leakage of forms, excessive honeycombs, large bulges, and large offsets at form joints: chip away to a depth of at least 1/4 inch; and, the surfaces that are to be patched coat with an epoxy-polysulfide adhesive. Press patching mortar in for a complete bond and finish to match adjacent areas.
   b. Minor defective areas, as judged by the ENGINEER, including honeycombs, air bubbles, holes resulting from removal of ties and those resulting from leakage of forms: patch with grout without resorting to chipping. Minor bulges and offsets at form joints: finish as specified herein below.

2. Finishes; locations:

   a. Rough or board finish: for all concrete surfaces not exposed to public view.

3. Finishes; definitions:

   a. Rough or board finish: reasonably true to line and plane. Tie holes and defects patched, and the fins exceeding 1/4 inch rubbed down, otherwise, surfaces may be left with texture imparted by forms.

B. Unformed surfaces (flatwork):

1. Finishes:

a. General: grade and screed slab to exact elevation, as required. After screeding, tamp mixture thoroughly to drive the coarse aggregate down from surfaces and apply finish specified hereinafter.

b. Light Broom finish: slab on grade.

2. Finishes; definition:

a. Broom finish: finish with light street type broom as soon as surface water sheen has disappeared.

3.07 FIELD QUALITY CONTROL

A. Only ready mixed concrete in accordance with ASTM C94 will be accepted.

B. Place all concrete within 1-1/2 hours after introduction of water to mix.

C. Under no circumstances may additional water be added to mix.

D. Discard unused concrete older than 1-1/2 hours. Retempering is prohibited.

END OF SECTION

SECTION 03600

GROUT

PART 1 GENERAL

1.01 WORK INCLUDED

A. Furnish all materials for grout in accordance with the provisions of this Section and form, mix, place, cure, repair, finish, and do all other work as required to produce finished grout, all in accordance with the requirements of the Contract Documents.

B. The following types of grout shall be covered in this Section:

1. Non-Shrink Grout.
2. Cement Grout.
3. Epoxy Grout.

C. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the Work.

D. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

E. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, for information and requirements which apply to the Work specified in this Section and that are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 03300 - Concrete.

1.03 REFERENCE SPECIFICATIONS, CODES, AND STANDARDS

A. Specifications, codes, and standards shall be as specified in Section 03300 - Concrete and as referred to herein.

B. Additional Commercial Standards (Latest Revision):

CRD-C 621-82B Corps of Engineers Specifications for Non-shrink grout.

ASTM C 109-80 Standard test methods for compressive strength of hydraulic cement mortars (using 2-in or 50-mm cube specimens).

ASTM C 531-81 Test method for linear shrinkage and coefficient of thermal expansion of chemical-resistant mortars, grouts and monolithic surfacings.

ASTM C 579-82 Test methods for compressive strength of chemical-resistant mortars and monolithic surfacings.

ASTM C 827-82 Standard test method for early volume change of cementitious mixtures.

ASTM C 696-79 Test method for coefficient of linear thermal expansion of plastics.

1.04 SUBMITTALS

A. Submit certified test results verifying the compressive strength, shrinkage, and expansion requirements specified herein; and manufacturer's handling, placement and appropriate uses for each type of non-shrink and epoxy grout used in the Work.

PART 2 PRODUCTS

2.01 CEMENT GROUT

A. Cement Grout: Cement grout shall be composed of one part cement, three parts sand, and the minimum amount of water necessary to obtain the desired consistency. Where needed to match the color of adjacent concrete, white Portland cement shall be blended with regular cement as needed. The minimum compressive strength at 28 days shall be 4000 psi.

B. Cement grout materials shall be as specified in Section 03300 - Concrete.

2.02 PREPACKAGED GROUTS

A. Non-Shrink Grout

1. Non-shrink grout shall be a prepackaged, inorganic, non-gas liberating, non-metallic, cement-based grout requiring only the addition of water. Manufacturer's instructions shall be printed on each bag or other container in which the materials are packaged. The specific formulation for each class of non-shrink grout specified herein shall be that recommended by the manufacturer for the particular application.

2. Class A non-shrink grouts shall have a minimum 28 day compressive strength of 5000 psi; shall have no shrinkage (0.0 percent) and a maximum 4.0 percent expansion in the plastic state when tested in accordance with ASTM C-827; and shall have no shrinkage (0.0 percent) and a maximum of 0.2 percent expansion in the hardened state when tested in accordance with CRD C 621.

3. Class B non-shrink grouts shall have a minimum 28 day compressive strength of 5000 psi and shall meet the requirements of CRD C 621.

4. Application
   a. Class A non-shrink grout shall be used for the repair of all holes and defects in concrete members which are water bearing or in contact with soil or other fill material, grouting under all equipment base plates, and at all locations where grout is specified in the Contract Documents; except for those applications for Class B non-shrink grout and epoxy grout specified herein. Class A non-shrink grout may be used in place of Class B non-shrink grout for all applications.

b. Class B non-shrink grout shall be used for the repair of all holes and defects in concrete members which are not water-bearing and not in contact with soil or other fill material, grouting under all base plates for structural steel members, and grouting railing posts in place.

c. Grouting equipment installations.

5. Material shall be Bonsal F77 non-shrink, non-metallic high performance cementitious grout, or equal.

B. Epoxy Grout

1. Epoxy grout shall be a pourable, non-shrink, 100 percent solids system. The epoxy grout system shall have three components: resin, hardener, and specially blended aggregate, all premeasured and prepackaged. The resin component shall not contain any nonreactive diluents. Resins containing butyl glycidyl ether (BGE) or other highly volatile and hazardous reactive diluents are not acceptable. Variation of component ratios is not permitted unless specifically recommended by the manufacturer. Manufacturer's instructions shall be printed on each container in which the materials are packaged.

2. The chemical formulation of the epoxy grout shall be that recommended by the manufacturer for the particular application.

3. The mixed epoxy grout system shall have a minimum working life of 45 minutes at 75 degrees F.

4. The epoxy grout shall develop a compressive strength of 5000 psi in 24 hours and 10,000 psi in seven days when tested in accordance with ASTM C 579, Method B. There shall be no shrinkage (0.0 percent) and a maximum 4.0 percent expansion when tested in accordance with ASTM C 827.

5. The epoxy grout shall exhibit a minimum effective bearing area of 95 percent. This shall be determined by a test consisting of filling a 2-inch diameter by 4-inch high metal cylinder mold covered with a glass plate coated with a release agent. A weight shall be placed on the glass plate. At 24 hours after casting, the weight and plate shall be removed and the area in plan of all voids measured. The surface of the grout shall be probed with a sharp instrument to locate all voids.

6. The peak exotherm of a 2-inch diameter by 4-inch high cylinder shall not exceed 95 degrees F when tested with 75 degree F material at laboratory temperature. The epoxy grout shall exhibit a maximum thermal coefficient of 30 x 10^{-6} inches/inch/degree F when tested according to ASTM C 531 or ASTM D 696.

7. Application:

a. Epoxy grout shall be used to embed all anchor bolts and reinforcing steel required to be set in grout and for all other applications required in the Contract Documents.

b. Grouting equipment installations.

8. Material should be Escoweld 7505E/7530, Epoxy grout, or equal.

2.03 CURING MATERIALS

A. Curing materials shall be as specified in the Section entitled, 03300 - Concrete, for cement grout and as recommended by the manufacturer of prepackaged grouts.

2.04 CONSISTENCY

A. The consistency of grouts shall be that necessary to completely fill the space to be grouted for the particular application. Dry pack consistency is such that the grout is plastic and moldable but will not flow. Where "dry pack" is called for in the Contract Documents, it shall mean a grout of that consistency; the type of grout to be used shall be as specified herein for the particular application.

2.05 MEASUREMENT OF INGREDIENTS

A. Measurements for cement grout shall be made accurately by volume using containers. Shovel measurement will not be allowed.

B. Prepackaged grouts shall have ingredients measured by means recommended by the manufacturer.

PART 3 EXECUTION

3.01 GENERAL

A. All surface preparation, curing, and protection of cement grout shall be as specified in Section 03300 - Concrete. The finish of the grout surface shall match that of the adjacent concrete.

B. The manufacturer of Class A non-shrink grout and epoxy grout shall provide on-site technical assistance upon request.

C. All mixing, surface preparation, handling, placing, consolidation and other means of execution for prepackaged grouts shall be done according to the instructions and recommendations of the manufacturer.

3.02 CONSOLIDATION

A. Grout shall be placed in such a manner for the consistency necessary for each application so as to assure that the space to be grouted is completely filled.

END OF SECTION

SECTION 04100

MORTAR

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers work required to furnish and mix masonry mortar.

B. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, and replacement.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 03300 - Concrete.

B. Section 04220 - Concrete Unit Masonry.

1.03 REFERENCE STANDARDS, CODES AND SPECIFICATIONS

A. Commercial Standards (Latest Revisions):

ASTM C91 "Standard Specification for Masonry Cement".

ASTM C150 "Standard Specification for Portland Cement".

ASTM C144 "Standard Specification for Aggregate for Masonry Mortar".

ASTM C270 "Standard Specification for Mortar for Unit Masonry".

ASTM C476 "Standard Specification for Mortar and Grout for Reinforced Masonry".

B. Codes

1. Florida Building Code, latest revision.

1.04 SUBMITTALS

A. Submittals shall be in accordance with Section 01300 - Submittals and shall include the following:

1.Mortar mix components and design.
2.Admixtures.

PART 2 PRODUCTS

2.01 MATERIALS

A. Cement

1. Portland cement Type I or Type II conforming to ASTM C 150.

B. Water: Potable, salt free, conforming to ASTM C94.

C. Fine Aggregate (Sand): Salt free and clean, conforming to ASTM C144.

D. Waterproofing and shrinkage control admixtures:

1. Dry-Block II, as manufactured by W. R. Grace and Co.
2. Or equal.

Admixture provided shall not be detrimental to bonding of the mortar.

E. Hydrated Lime: Type "M" domestic manufactured, conforming to the requirements of Federal Specification SS-L-351.

F. Masonry Cement: Conforming to ASTM C91.

2.02 MORTAR MIXTURE

A. Mortar types: Type "M" or "S", as per local building code requirements and to meet specified masonry unit prism strength, f'm.

B. Thoroughly machine mix for at least 5 minutes after all materials are in mixer.

PART 3 EXECUTION

3.01 GENERAL MORTAR PREPARATION INSTRUCTIONS

A. Mortar shall be mixed by placing ½ the water and aggregate in the operating mixer. Add cement. Add the remaining aggregate and water and mix for at least 2 minutes. Add lime and continue mixing as long as needed to secure a uniform mass, but no less than 3 minutes after the addition of lime. The addition of the admixture shall be timed in strict accordance with the manufacturer's instructions and the procedure used for adding it to the mix shall provide good dispersion.

B. The mortar shall be machine mixed in approved mixers. Mixer drums shall be kept clean and free of debris and dried mortar. The mortar shall be in place before the initial setting of the cement has taken place. Retempering of mortar in which the cement has started to set will not be permitted.

END OF SECTION

SECTION 04220

CONCRETE UNIT MASONRY

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work required to furnish and install the concrete masonry work, complete, with all accessories.

B. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, and replacement.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 04100 - Mortar.

1.03 REFERENCE STANDARDS, CODES AND SPECIFICATIONS

A. Commercial Standards (Latest Revisions):

ASTM C90 Standard Specification for Load Bearing Concrete Masonry Units.

ASTM C476 Standard Specification for Mortar and Grout for Reinforced Masonry.

B. Codes

1. Florida Building Code, latest revision.

1.04 SUBMITTALS

A. Submittals shall be made in accordance with the requirements of Section 01300 - Submittals.

B. When requested by ENGINEER only, CONTRACTOR shall submit two (2) samples each of the following.

1. Concrete masonry units
2. Reinforcements
3. Ties
4. Control Joint Filler
5. Miscellaneous Accessories

1.05 QUALITY ASSURANCE

A. Submit unit masonry manufacturer's "Certificate of Compliance" issued by the Florida Concrete and Products Association for each type of unit masonry.

1.06 SHIPPING, HANDLING AND STORAGE

A. All concrete masonry units shall be stored under cover, in a dry place and in a manner to prevent damage, breakage, or staining. Blocks shall be delivered to the site dry, in conformance with the specification limitation for moisture content, and kept dry by storing off the ground and under cover. Blocks which have become wet shall be removed from the site by the CONTRACTOR.

B. All accessories shall be delivered to the site and stored in the manufacturers' original packaging. All materials shall be stored above ground and under weathertight cover.

PART 2 PRODUCTS

2.01 LIGHTWEIGHT BEARING CONCRETE MASONRY UNITS

A. Concrete masonry units shall meet all standards of ASTM-C90 load-bearing units, latest revision, for lightweight blended units. Lightweight masonry units shall meet the maximum requirement of 105 pcf density using lightweight and normal weight materials meeting ASTM C-331 and ASTM C-33.

B. Size: 8-inch x 16-inch x thickness indicated on drawings, two cell stretcher type with vertical mortar keys at each end.

C. Exposed Face: Manufacturer’s standard color and texture. Block textures may vary depending on the unit type and production requirements.

D. All masonry units shall be free of organic impurities that will cause rusting, staining or pop outs and shall contain no cinders.

E. Shapes: appropriate to suit conditions per drawings.

F. Provide special units of bond beams, jamb block, control joint units, corners and other industry standards for special conditions.

G. All concrete masonry units shall be manufactured by CEMEX, or equal.

2.02 PRECAST CONCRETE LINTEL

A. Except where other lintel types are scheduled or shown on the Drawings, reinforced precast concrete lintels as manufactured by Cast-Crete Corporation of Florida, Tampa, FL, or equal shall be used at openings in concrete masonry unit walls and partitions. Lintels shall be load-bearing type in sizes to suit wall or partition thicknesses. Lintels shall have equal bearing of minimum 8 inches at each end of lintel unless noted otherwise on Drawings.

B. Gravity, lateral, and uplift loads required at each lintel shall be noted on Drawings.

C. Lintels shall be standard U-type or recess door type lintel as scheduled on drawings.

2.03 FINE MASONRY GROUT

A. Grout shall conform to ASTM C476, except as hereinafter specified.

B. Grout for filling concrete masonry unit cores containing reinforcement. The grout shall be mixed to give the necessary consistency for placing.

C. Class F flyash for grout shall conform to the requirements of ASTM C-618.

D. Sand for grout shall conform to the requirements of ASTM C144 or C33.

E. Grout mix shall have:
   1. 28 day compressive strength: 3000 p.s.i., minimum, or as illustrated on the Drawings.
      a. Strengths noted on the Drawings take precedence over herein specified amounts.
   2. Water-cement ratio: w/c ≤ 0.7.
   3. Slump: 9.5 inches ± 1.5 inches.
   4. Entrained Air Content (ASTM C231): 0 percent.
   5. Admixture: Per below, add per manufacturer’s specifications.

F. Grout admixtures

   1. W. R. Grace WRDA60, Water-Reducing Admixture.
   2. Or equal.

   Amount of admixture and method of introduction shall be in accordance with the manufacturer's recommendations.

G. Grout mix shall not contain coarse aggregate or pea gravel.

2.04 MASONRY JOINT REINFORCEMENT

A. All masonry joint reinforcement shall be fabricated from cold-drawn steel wire, conforming to ASTM A 82.

B. Reinforcement shall consist of two parallel longitudinal deformed wires, not less than 9 gage, weld-connected with cross-wires, not less than 9 gage, in a triangular pattern.

C. Out to out spacing of the longitudinal wires shall be 2 inches less than the nominal width of the wall.

D. The distance between the welded contacts of cross wires with each longitudinal wire shall not exceed 16 inches, staggered.

E. Cross wires shall be in the same plane with the longitudinal wires.

F. Reinforcement shall be provided in minimum 10-foot sections. All corners and tees shall be provided prefabricated, of the same materials as the joint reinforcement.

G. Joint reinforcement shall be Dur-O-Wall, Dur-O-Wall Products; Block-Lok, A.A. Wire Products; Truss-Mesh Lock, Hohman Barnard; Key-Wall Truss, Keystone Steel and Wire Company; or equal.

2.05 MASONRY ANCHORS AND TIES

A. Anchors and ties shall be hot-dip galvanized ferrous metals.

B. Wire mesh ties shall be minimum 16-gage, ½-inch mesh of steel wire. Ties shall be a minimum of 12-inches in length, and 1-inch less in width than the wall in which they are placed.

C. Rigid steel anchors shall be 1-1/2-inch by 1/4-inch with ends turned up 1/4-inch at the outer end.

D. Dovetail anchors shall be minimum 16-gage, 1-inch wide, and turned up 1/4-inch at the outer end.

E. Corrugated or crimped metal ties shall be made of steel sheet not less than 7/8-inch wide, 22 gage in thickness, 6-inches in length.

2.06 MASONRY CAPS

A. Cavity caps shall be provided for all non-filled masonry cells. Metal cavity caps shall be product Code CC2 as manufactured by Hughes Manufacturing, Inc., or equal.

PART 3 EXECUTION

3.01 WEATHER CONDITIONS

A. Do not lay masonry when the ambient temperature is below 32 degrees F. on a rising temperature or below 40 degrees F on a falling temperature, or when there is a probability of such conditions occurring within 48 hours, unless approval of the ENGINEER is obtained. In such case, make special provisions for heating materials and protecting the finished work. Protect the tops of walls at all times. Cover with Visqueen when rain is imminent and work is discontinued.

B. Protect masonry construction from direct exposure to wind and sun when erected in an ambient air temperature of 99 degrees F (37 degrees C) in the shade with relative humidity less than 50 percent.

3.02 BONDING WALL UNITS

A. The foundation shall be prepared for the initial mortar placement by one of the following methods:

1. Sandblasting the foundation and reinforcing dowels after the concrete has fully cured to remove all laitance and spillage and to expose sound aggregate.

2. Water blasting the foundation and reinforcing dowels after the concrete has partially cured to remove all laitance and spillage and to expose sound aggregate.

3. Green cutting fresh concrete with high pressure water hand tools to remove all laitance and spillage from the foundation and the reinforcing dowels and to expose sound aggregate.

B. The foundation shall be cleaned of all loose material prior to the initial mortar placement.

C. Corners shall have a standard masonry bond for overlapping units and shall be grouted solid. Reinforcement shall be as shown.

D. Intersecting walls shall be bonded with reinforcement as shown. The abutting wall shall not have a masonry bond with the straight wall.

3.03 LAYING REINFORCED MASONRY UNITS

A. Masonry construction shall conform to the local Building Code as supplemented by these specifications. Do not start laying masonry units if the foundation horizontal or vertical alignment does not satisfy the Tolerance Requirement specified herein.

B. The maximum permissible variation from plumb of the wall or of a line of joints in the wall shall be 1/16-inch per foot of height, and 1/4-inch in the total height of the wall. The maximum permissible variation from a horizontal line along the base of the wall or for lines of horizontal joints shall be 1/16-inch per block, 1/4-inch per 50 feet of wall with proportionately greater tolerance for longer walls up to ½-inch in the total length of wall. Interior surfaces shall be maintained in the plane described above and the dimension tolerances of the units shall be taken up on exterior surfaces.

C. Units with chipped edges or corners within permissible ASTM limits shall be placed in the wall such that the chipped area is not exposed to view.

D. If it is necessary to move a unit after it has been once set in place, the unit shall be removed from the wall, cleaned, and set in fresh mortar.

E. Toothing of masonry units will not be permitted unless approval is given by the ENGINEER.

F. All masonry work shall be protected from damage until final acceptance of the work. Damaged units will not be accepted.

G. Unless otherwise shown, walls shall be laid up in straight, uniform courses using a running bond pattern.

H. Horizontal mortar joint reinforcement shall be provided in addition to the typical wall reinforcing steel. Joint reinforcement shall be spaced not more than 16 inches apart, vertically. Ends of joint reinforcement shall lap 6 inches minimum, except at control joints where the joint reinforcement shall be discontinuous.

I. Provide and place such special units as corner block, door jamb block, lintel block fillers, and similar blocks as may be required. Use the required shapes and sizes to work to corners and openings maintaining a proper bond throughout the wall.

3.04 BUILT-IN ITEMS

A. Items required to be built in the wall shall be in position and the wall constructed around them. Standard masonry anchors shall be used to secure the items to the wall.

B. All spaces around the items shall be filled with mortar or grout.

3.05 EMBEDDED CONDUITS

A. Electrical, instrumentation, or water conduits shall not be placed in a cell containing reinforcement unless approved by the ENGINEER.

3.06 MORTAR JOINTS

A. Mortar joints shall be straight, clean, and shall have a uniform thickness of 3/8-inch.

B. The horizontal and vertical mortar joints shall have full mortar coverage on the face shells.

C. Vertical head joints shall be buttered well on each unit for a width equal to the face shell of the unit, and these joints shall be shoved tightly so that the mortar bonds well to both units. Joints shall be solidly filled from the face of the block to at least the depth of the face shell.

D. All excess mortar shall be removed from the grout space of the cells to be filled as the units are being laid.

E. Joints that will be exposed to view after final construction shall be tooled unless otherwise noted or shown. Joints shall be cut flush and, as mortar takes its initial set, shall be tooled to provide a concave joint. Tooling shall be done when the mortar is partially set but still sufficiently plastic to bond. All tooling shall be done with a tool which compacts the mortar, pressing the excess mortar out rather than dragging it out. Joints which are not tight at the time of tooling shall be raked out, pointed, and then tooled.

F. Joints at split face surfaces, interior and exterior, shall be raked and tooled.

G. Joints that are not exposed shall be struck flush with no further treatment required.

3.07 REINFORCING

A. Reinforcing bars shall be lapped 40 bar-diameters minimum where spliced and shall be wire-tied together. All bars shall have a minimum clearance of 1 bar-diameter from the masonry and from additional parallel bars in the same grout space.

B. The size, number and location of the foundation dowels shall match the vertical wall reinforcing unless otherwise noted. When a foundation dowel does not line up as intended with a vertical core, it shall not be sloped more than 1 horizontal to 6 vertical to bring it into alignment.

C. Vertical reinforcing steel shall be held in position near the ends of the bars by wire ties to dowels and/or by reinforcing positioners. The bars shall be held in position at intervals not exceeding 160 bar-diameters by reinforcing positioners.

D. All reinforced horizontal joints shall be reinforced continuously with ends lapped 8-inches, and laps staggered vertically. Horizontal reinforcing shall have a vertical spacing of 16-inches on center unless noted otherwise. Prefabricated corners and tees shall be provided at all horizontal wall intersections.

E. Reinforcing shall be provided in the bed joints immediately above and below all masonry openings.

F. Mortar joints with wire reinforcement shall be at least twice the thickness of the wire.

G. Where knock-out openings are indicated on the Drawings, no steel or joint reinforcement shall run continuously through the openings.

H. Prior to placing metal reinforcing, anchors, and ties, all loose rust, tie wires, tags and all other foreign matter that may reduce bond shall be removed.

I. Reinforcing shall be placed as indicated on the Drawings.

J. Lintels shall extend 8-inches past the openings. Lap reinforcing bars 32 diameters or 16 inches minimum at splices. All cells containing reinforcing shall be filled solid with grout.

3.08 BOND AND JOINTS

A. All load bearing masonry units shall be laid in running bond by lapping units in successive courses a distance of one-half unit.

B. All courses shall be level with joints of uniform width. Units shall have full mortar coverage of the face shells in both the horizontal and vertical joints.

C. All joints shall be painted solid with mortar on both sides and wall of block. Joints in exposed Work shall be finished concave with finishing tool, to create a dense surface. Interior and exterior joints in non-exposed or plaster covered masonry shall be flush.

3.09 CONTROL JOINTS

A. Control joints shall be installed as detailed and where shown on the Drawings or needed.

B. The maximum horizontal distance between vertical control joints shall be 20 feet, but joints shall be located only as reviewed by the ENGINEER or as shown.

C. Joints shall be equal in width to the standard mortar joints.

D. Horizontal joint reinforcing shall be discontinuous at control joints.

3.10 GROUTING

A. Grout shall be as specified hereinbefore. Transit-mixed grout shall meet the requirements of ASTM C 476.

B. Grout shall not be mixed, conveyed, or placed with equipment constructed of aluminum.

C. All vertical and horizontal reinforcement, ties, bolts, anchors, and other required embedments shall be secured in place, inspected and approved before grouting starts.

D. Grouting of beams over openings shall be done in one continuous operation.

E. Vertical cells to be filled shall have vertical alignment sufficient to maintain a clear, unobstructed, continuous vertical cell measuring not less than 2-inch by 3-inch.

F. Grout shall be poured as soon as possible after the mortar has cured to reduce shrinkage cracking of the vertical joints. Immediately after the grouting has been completed, the scum and stains on the masonry shall be washed off using clean water and fiber brushes. Grout and mortar stains shall not be allowed to dry on the face of the exposed masonry.

G. Vertical reinforcement may be placed initially and the wall built up around it providing the reinforcing steel is first wire tied to the foundation dowels. Reinforcing positioners and/or approved cross bracing must be provided to secure the top of the steel in place. The vertical steel will not be permitted to be dropped in after the block is laid unless reinforcing positioners are provided in the course above the previously grouted course.

3.11 PARTIAL GROUTING REQUIREMENTS

A. Walls which do not require solid grouting shall have all cells containing reinforcing steel and others as shown filled with grout.

B. Cells to be filled shall be constructed to confine the grout within the cell. Tops of unfilled vertical cells under a bond beam shall be covered with metal lath or masonry cap to confine the grout fill to the bond beam section.

C. Grout pours shall be limited in height to mid-depth of the course above the horizontal bond beam, except at the top course.

3.12 LOW-LIFT GROUTING REQUIREMENTS

A. Unless otherwise approved by the ENGINEER prior to the start of the masonry work, all grouting shall be low-lift grouting.

B. When grouting is stopped for 1 hour or longer, horizontal construction joints shall be formed by stopping the pour of grout ½-inch below the top of the uppermost unit. Horizontal steel shall be fully embedded by grout in an uninterrupted pour.

C. Grout pour shall be limited to a maximum height of 6 block courses. The wall shall not be constructed more than one course above the top of the grout pour prior to placing the grout.

D. The grout shall be thoroughly consolidated with an internal "pencil" type vibrator. After waiting sufficient time to permit the grout to become plastic, but before it has taken any set, the grout shall be reconsolidated. The waiting period will vary depending upon weather conditions and block absorption rates, but under "normal" weather conditions with average masonry units, the waiting period should be between 30 to 60 minutes.

3.13 CLEANING

A. Clean all surfaces of excess mortar, grout spillage, dirt and other foreign substances.

B. Walls not requiring painting or sealing shall be cleaned such that there are no visible stains. Surfaces requiring painting or sealing shall be prepared in accordance with Section 09900 - PROTECTIVE COATINGS.

3.14 TEMPORARY BRACING

A. The CONTRACTOR shall adequately brace all walls until the walls and roof are completed. Bracing shall be sufficient to protect the walls against damage from the elements, including wind and snow.

END OF SECTION

SECTION 05500

FABRICATED METALWORK AND CASTINGS

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the Work necessary to furnish and install, complete, all fabricated metalwork and castings.

B. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, and replacement.

C. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the Work.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 09900 - Protective Coatings.

1.03 SUBMITTALS

A. Submittals shall be made in accordance with Section 01300 - Submittals.

B. Submittal data shall include, but not be limited to:

1. Shop drawings, including calculations where required.
2. Test pieces and samples.
3. Certificates, test reports, etc.
4. Color samples of abrasive nosings.

PART 2 PRODUCTS

2.01 GENERAL

A. The use of a manufacturer's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired only. Products of other manufacturers will be considered in accordance with GENERAL CONDITIONS.

B. Unless otherwise indicated, all materials shall conform to the latest issue of the following ASTM Specifications:

Item	ASTM Specification
Steel Shapes and Plates	A36, A501
Zinc (Hot Galvanized) Coatings of Fabricated Steel	ASTM A 123

Item	ASTM Specification
Stainless Steel	
Bars and Shapes	A 276, Type 316
Steel Plate, Sheet, and Strip	A 167, Type 316
Bolts	A 193, Type 316
Nuts	A 194, Type 316
Aluminum, Structural Shapes	Alloy 6061-T6; conform to referenced specifications and ASTM sections found in the Aluminum Association current Construction Manual Series
Connection Bolts for Steel Members	A 325-F
Galvanized Bolts	A 307, A 153
Connection Bolts for Wood Members	A307
Connection Bolts for Aluminum	A 2024-T4, or use appropriate stainless steel
Cast Iron	A 48, Class 30

C. The miscellaneous metalwork and castings indicated on the Drawings, or required to secure the various parts together and provide a complete installation, shall be included under this section. The tabulation of items herein is not intended to be all-inclusive, and it shall be the CONTRACTOR'S responsibility to provide all metalwork and castings shown, specified, or which case reasonably be inferred as necessary to complete the project.

2.02 STEEL ANCHOR BOLTS (NONSUBMERGED USE)

A. One-half-inch minimum diameter with hex nuts, or as shown. Bolts and nuts shall be steel as specified hereinbefore.

2.03 STAINLESS STEEL ANCHOR BOLTS (SUBMERGED USE)

A. ASTM A 193, Type 316 stainless steel anchor bolt, ½-inch minimum diameter with hex nuts, or size as shown.

B. Submerged use is defined as any connection to concrete from point 1 foot 6 inches above the maximum water surface in a water-holding basin and any connection below that point.

2.04 STAINLESS STEEL FASTENERS LUBRICANT (ANTI-SEIZING)

A. Where stainless steel nuts and machined bolts, anchor bolts, concrete anchors, and all other threaded fasteners are used, CONTRACTOR shall apply an anti-seizing lubricant to the threads prior to making up the connections. The lubricant shall contain substantial amounts of molybdenum disulfide, graphite, mica, talic, or copper.

2.05 MACHINE ANCHOR BOLTS

A. For equipment with motors 3 horsepower or greater, fabricate as shown or as required. Size of fastening stud and anchor bolts as required by equipment manufacturer, stainless.

B. All machine anchor bolts, nuts and washers shall be stainless steel.

2.06 ADHESIVE ANCHORS

A. Adhesive anchors shall be Parabond capsule anchors with 316 stainless steel stud, nuts, and washers, as manufactured by Molly Division, 504 Mt. Laurel Avenue, Temple, PA 19560; heavy-duty adhesive anchor with HBP adhesive cartridge and has 316 stainless steel anchor rod assembly as manufactured by Hilti, Inc., PO Box 45400, Tulsa, OK 74145, or equal.

B. Adhesive anchors shall be used for anchoring all metal components at or below a point 1 foot 6 inches above the peak (maximum) water surface elevations in water-holding structures. For embedded anchors refer to stainless steel anchors as hereinbefore specified.

2.07 SHELL-TYPE ANCHOR

A. Shell-type anchors shall be self-drilling or non-drilling Red Head anchors as manufactured by the Phillips Drill Company, or equal.

2.08 WEDGE ANCHORS

A. Wedge anchors shall be Red Head wedge-type anchors as manufactured by the Phillips Drill Company, Parabolt anchors as manufactured by the Molly Division of Emhart Corporation, or equal.

2.09 EXPANSION ANCHORS

A. Stainless steel expansion anchors shall be a pre-assembled heavy duty sleeve style undercut anchor with an internal hex head meeting the requirements of ASTM A276 and A493. The stainless steel components shall be manufactured from Type 303 or 304 stainless steel. Anchors shall be Kwik Bolt II expansion anchors as manufactured by Hilti, Inc., or equal.

2.10 MASONRY ANCHORS

A. 3/16" or 1/4" Tapcon or Hilti Kwik-Con II anchors. Head type and embedment per installation requirements.

B. Allowed at locations approved by ENGINEER only.

2.11 PIPE SLEEVES

A. ASTM A 120 standard weight steel pipe. Where shown, fabricate seepage rings of 1/4-inch steel plate extending 2 inches from pipe and weld continuously to pipe around complete circumference. Galvanize after fabrication. Support pipe sleeves by form work to prevent contact with reinforcing steel. Do not weld reinforcing to pipe sleeves.

2.12 STRUCTURAL STEEL COMPONENTS

A. Provide all structural steel components of the sizes, materials and weights shown. All connections shall be welded, unless otherwise shown on the Drawings and as specified herein.

2.13 MACHINE BOLTS, INSERTS, AND FASTENERS

A. Machine bolts, inserts, and fasteners permanently embedded in concrete shall be Type 316 stainless steel.

B. Machine bolts, inserts, and fasteners not permanently embedded in concrete, but located outdoors in well wet floors, walls, and ceilings; chemical handling areas; equipment rooms subject to drainage, leakage, and washdown; and in galleries and trenches, shall be Type 316 stainless steel.

C. Machine bolts, inserts, and fasteners not permanently embedded in concrete, but located indoors where washdown, leakage, and drainage are not likely to occur (e.g., in personnel buildings excluding laboratories, on motor floors, in electrical equipment rooms, and in control rooms), may be galvanized steel, ASTM A 153.

2.14 GRATING (ALUMINUM)

A. Grating shall be fabricated of aluminum I-shaped bars, alloy 6063-T6, with swaged cross bars spaced on 4" centers. Bearing bars shall be spaced on 1-3/16" centers. Top surface of bearing bars shall be striated to provide a nonslip surface.

B. Grating shall support a uniform load of 200 pounds per square foot with a deflection of not more than 1/4". Maximum fiber stress shall not exceed that allowed by the Aluminum Association. Minimum depth shall be as noted on Drawings.

C. Gratings shall be provided with all frames, seat angles, fasteners, and other appropriate accessories as required. Metals to be embedded in concrete shall be Type 316 stainless steel.

D. Cutouts for all circular or square obstructions to be at least 2" larger than the obstruction. All cut openings shall be banded with bar the same depth as the bearing bars. The ends of all grating shall be banded.

E. Fasteners for anchoring grating to beam and channel flanges shall be stainless steel, Universal clip type with 1/4-inch Type 304 or 316 stainless steel bolts and nuts. Fasteners shall be furnished for a minimum spacing of four feet, or as required, for proper support to each panel, unless otherwise noted on the Drawings.

F. Standard installation clearances and tolerances shall conform to the requirements of the current Metal Bar Grating Manual published by the National Association of Architectural Metal Manufacturers.

G. Width of any single grating section shall not exceed 3 feet 1 inch, or be less than 2-foot 0-inches unless otherwise shown on reviewed shop drawings.

H. All support angles and framing shall be provided by the grating manufacturer. Support angles and framing shall be of the size and materials as indicated on the Drawings and as specified herein.

I. Aluminum Grating shall be as manufactured by Thompson Fabricating Company, Inc., Alpha Enterprises, or equal.

2.15 CAST IRON MANHOLE FRAMES AND COVERS (SANITARY MANHOLES)

A. Frames and covers shall be cast from close-grained, grey cast-iron, conforming to ASTM-A48 Class 30, gray cast iron. Castings shall be free from blow holes, shrinkages or other imperfections not true to pattern. Round frames and covers in roadway or traffic areas shall have machined wearing surfaces so that fitting parts will not rattle or rock under traffic.

B. Manhole frames and covers shall be USF 420, cover Type C with "SANITARY SEWER" inscribed thereon, as manufactured by U.S. Foundry Manufacturing Corporation, Miami, Florida, or equal.

2.16 CAST IRON MANHOLE FRAMES AND COVERS (STORM SEWER MANHOLES)

A. Frames and covers shall be cast from close-grained, grey cast-iron, conforming to ASTM-A48 Class 30, gray cast iron. Castings shall be free from blow holes, shrinkages or other imperfections not true to pattern. Round frames and covers in roadway or traffic areas shall have machined wearing surfaces so that fitting parts will not rattle or rock under traffic.

B. Manhole frames and covers shall be USF 420, cover type "C" as manufactured by U.S. Foundry Manufacturing Corporation, Miami, Florida, or equal. Cover shall have "STORM SEWER" inscribed thereon.

2.17 CAST IRON INLET FRAMES AND GRATES (STORM SEWER INLETS)

A. Frames and grates shall be cast from close-grained, grey cast-iron, conforming to ASTM-A48 Class 30, grey cast iron. Castings shall be free from blow holes, shrinkages or other imperfections not true to pattern.

D. Castings shall be as manufactured by U.S. Foundry and Manufacturing Corporation, Miami, Florida, or equal.

E. Frame and Grate Schedule:

Location	U.S. Foundry Number
Type "F" Gutter Inlet	USF 5130-6016
Valley Gutter Inlet	USF 5112-6143
Swale Inlet	USF 4139-6429

2.18 ACCESS HATCHES

A. Single and double access doors shall be sized as indicated on the Drawings. Door leaf shall be 1/4-inch aluminum floor plate. The frame shall be an extruded aluminum channel (trough frame) section with a continuous integral anchor flange. Trough frame shall drain water out through a 1-1/2-inch drainage pipe coupling. Hinges shall be all stainless steel with tamper proof stainless steel nuts and bolts.

Where noted on drawings, angle type frame shall be provided in lieu of trough frame.

B. Access doors shall be watertight and equipped with stainless steel accessories, cast aluminum drop handle, padlock staple and an automatic hold open arm with vinyl release handle grip. Slam Lock mechanisms shall be provided for all doors equipped with spring-assist opening mechanisms.

C. Parts of access door units which will be in contact with concrete shall be coated with one coat of coal tar epoxy (minimum 10 mils).

D. Loading (H20 or 300 psf) and spring assist requirements shall be as noted on drawings.

E. Access doors shall be as manufactured by U.S.F. Fabrication, Inc., Hialeah, Florida, Halliday Products, Orlando, Florida, or equal.

2.19 ACCESS HATCHES (FLOOD RESISTANT)

A. Single access doors shall be sized as indicated on the Drawings. Door leaf shall be 1/4-inch aluminum diamond plate reinforced for 625 PSF live load and capable of holding up to 10 feet head of water. The frame shall be aluminum angle section. Hinges shall be all stainless steel with tamper proof stainless steel nuts and bolts.

B. Access doors shall be flood-resistant and equipped with stainless steel accessories, cast aluminum handle, padlock staple and an automatic hold open arm with vinyl release handle grip. Slam Lock mechanisms shall be provided for all doors equipped with spring-assist opening mechanisms.

C. Parts of access door units which will be in contact with concrete shall be coated with one coat of coal tar epoxy (minimum 10 mils).

D. Loading and spring assist requirements shall be as noted on drawings.

E. Access doors shall be FPS access hatch, as manufactured by U.S.F. Fabrication, Inc., Hialeah, Florida, or equal.

2.20 NEOPRENE GASKET

A. Unless otherwise indicated, Rubatex No. R-411-N, (ASTM D 1056-RE-41-E), soft, closed-cell, neoprene gasket material, as manufactured by Rubatex Division of Great American Industries, Bedford, VA; equivalent as manufactured by Garlock Manufacturing, San Francisco, CA; or equal. The material shall be suitable for exposure to chlorine, lime and other chemicals typically used in water treatment. Thickness shall be as indicated, but in no case less than 1/4-inch. Gaskets shall be furnished without skin coat on either side.

PART 3 EXECUTION

3.01 GENERAL

A. Workmanship and finish of all metalwork specified under this section shall be the highest grade and equal to the best practice of modern shops for the respective work. Exposed surfaces shall have smooth finish and sharp, well-defined lines. Provide all necessary rabbets,

lugs, and brackets to that the work can be assembled in a neat, substantial manner. Conceal fastenings where practical. Drill metalwork and countersink holes as required for attaching hardware or other materials. Fabricate materials as specified weld connections, except where bolting is directed. Items requiring special fabrication methods are mentioned herein. Fabrication of all other items shall be of equal quality. Methods of fabrication not otherwise specified or shown shall be adequate for the stresses and as directed by the ENGINEER.

B. Grind all exposed edges of welds smooth on walkways, guardrails, handrails, stairways, channel door frames, steel column bases, and where indicated on the Drawings. All sharp edges shall be rounded to a 1/8-inch minimum radius; all burrs, jagged edges, and surface defects shall be ground smooth.

C. Welds and adjacent areas shall be prepared such that there is (1) no undercutting or reverse ridges on the weld bead, (2) no weld spatter on or adjacent to the weld or any other area to be painted, and (3) no sharp peaks or ridges along the weld bead. All embedded pieces of electrode or wire shall be ground flush with the adjacent surface of the weld bead.

D. Aluminum: Fabricate aluminum as shown, and in accordance with the Aluminum Association Standards and the manufacturer's recommendations as reviewed. Grind smooth sheared edges exposed in the finished work.

3.02 WELDING

A. The technique or welding employed, appearance, quality of welds made, and the methods of correcting defective Work shall conform to codes for Arc and Gas Welding in Building Construction of the AWS and AISC. Surfaces to be welded shall be free from loose scale, rust, grease, paint, and other foreign material, except that mill scale which will withstand vigorous wire brushing may remain. A light film of linseed oil may likewise be disregarded. No welding shall be done when the temperature of the base metal is lower than zero degrees F. Finished members shall be true to line and free from twists.

B. All welding operators shall be qualified in accordance with the requirements of current AWS Standard Qualification Procedure D1.1, Chapter 5, and welders of structural and reinforcing steel shall be certified for all positions of welding in accordance with such procedure. Qualification tests shall be run by a recognized testing laboratory at the CONTRACTOR'S expense.

C. All welding operators shall be subject to examination for requalification using the equipment, materials, and electrodes employed in the execution of the Contract Work. Such requalification, if ordered by the ENGINEER, shall be done at the expense of the CONTRACTOR.

D. Aluminum: Aluminum shall be welded with Gas Metal Arc (MIG) or Gas Tungsten Arc (TIG) processes in accordance with the manufacturer's recommendations as approved, and in accordance with the recommendations of the American Welding Society contained in the Welding Handbook, as last revised. Grind smooth all exposed aluminum welds.

3.03 INSTALLATION OF FABRICATED METALWORK

A. Install in accordance with the shop drawings, the Drawings, and these Specifications. Perform field welding and erection work by skilled mechanics. Install fabricated metalwork plumb or level as applicable. The completed installations shall, in all cases, be rigid, substantial, and neat in appearance. Erect structural steel in accordance with the applicable portions of AISC Code of Standard Practice, except as modified. Install commercially manufactured products in accordance with manufacturer's recommendations as approved.

B. Aluminum: Erection of aluminum shall be in accordance with the Aluminum Association. Mill markings shall not be removed from concealed surfaces. Exposed surfaces not otherwise coated shall have the inked or painted identification marks removed after the material has been inspected and approved by the ENGINEER.

3.04 ANCHOR BOLTS

A. All anchor bolts shall be accurately located and held in place with templates at the time the concrete is poured.

3.05 GALVANIZING AND REPAIR

A. Galvanizing of steel plates, shapes, bars (and products fabricated from these items), and strip 1/8-inch thick or thicker, shall conform to ASTM A 123. Pipe, welded or seamless steel, shall conform to ASTM A 120. Material thinner than 1/8 inch shall either be galvanized before fabrication in conformance with the requirements of ASTM A 525, Coating Designation G 1`0; after fabrication, in conformance with the requirements of ASTM A 123, except that the weight of zinc coating shall average not less than 1.2 ounces per square foot of actual surface area with no individual specimen having a weight of less than 1.0 ounce. Unless otherwise provided, galvanizing shall be done before or after fabrication, for material which is thinner than 1/8 inch, at the option of the CONTRACTOR. Galvanizing will not be required for stainless steel, monel metal, and similar corrosion-resistant parts.

B. In like manner, galvanizing of iron and steel hardware, and nuts and bolts, shall conform to ASTM A 153. Galvanizing shall be performed after fabrication. Galvanizing of tapped holes will not be required.

C. Fabrication shall include all operations such as shearing, cutting, punching, forming, drilling, milling, bending, welding, and riveting.

D. Components of bolted assemblies shall be galvanized separately before assembly.

E. The minimum pitch diameter of the threaded portion of all bolts, anchor bars, or studs shall conform to ANSI B1.1, having a Class 2A tolerance before galvanizing. After galvanizing, the pit diameter of the nuts or other internally threaded parts may be tapped over ANSI B1.1, Class 2B tolerance, by the following maximum amounts:

3/8-inch through 9/16-inch	0.016-inch oversize
5/8-inch through 1-inch	0.023-inch oversize
1-1/8-inch and larger	0.033-inch oversize

F. Galvanized surfaces which are specifically to be painted shall not be chemically treated after galvanizing, and prior to cleaning and painting.

G. Except for inlet grates not otherwise required to be welded, all edges of tightly contacting surfaces, where galvanized is required, shall be completely sealed by welding before galvanizing.

H. Galvanized surfaces that are abraded or damaged at any time after the application of the zinc coating shall be repaired by SP 1) and hand or power tool (Steel Structures Painting Council SP 1 or SP 3) the damaged areas, removing all loose and cracked coating after which the cleaned areas shall be painted with one of the following coatings:
   1. One coat of Inorganic Zinc Silicate (MIL-P-23236, Class 3).
   2. Two coats of Galvanizing Repair Paint (MIL-P-21035).
   3. Two coats of Zinc Dust Paint (MIL-E-15145, Formula 102).

I. Paint should be applied to a cleaned surface. Abrasive blasting is required for inorganic zinc silicate.

3.06 ELECTROLYTIC PROTECTION

A. Aluminum in contact with or embedded in concrete shall be provided with an electrolysis protective material. the protective material shall be applied to the aluminum surface which will be in contact with the dissimilar material. Protective system shall be System No. 27 as specified in Section 09900 - Protective Coatings.

B. Aluminum in contact with steel shall be provided with an electrolysis protective material. The protective material shall be neoprene gasket as specified herein.

3.07 PAINTING

A. Thoroughly clean all ferrous metal items not galvanized and give a shop coat of metal primer. Preparation of surfaces and application of primer shall be in accordance with the paint manufacturer's printed directions and recommendations as reviewed and in accordance with Section 09900 - Protective Coatings, utilizing the appropriate painting system.

3.08 PREPARATION FOR SHIPMENT

A. Insofar as is practical, the items provided hereunder shall be factory assembled. The parts and assemblies that are of necessity shipped unassembled, shall be packaged and clearly tagged in a manner that will protect the materials from damage, and facilitate the identification and final assembly in the field.

END OF SECTION

SECTION 07900

SEALANTS

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the work necessary to furnish all labor, materials and equipment required to provide all joint sealants as shown on the drawings and specified herein.

B. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the Work.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 09900 - Protective Coatings.

1.03 SUBMITTAL

A. Submittals shall be made in accordance with the requirements of Section 01300 - Submittals. In addition, the following specific information shall be submitted:

1. Manufacturer's product data.
2. Submit small sample of materials proposed for use showing color specified. Samples shall be accompanied by Certificate of Compliance with applicable reference standards.
3. Submit applicator's Affidavit of Qualification Compliance.

1.04 QUALITY ASSURANCE

A. Applicator shall have a minimum of 5 years experience installing sealants in projects of similar scope.

1.05 DELIVERY, STORAGE AND HANDLING

A. Deliver all sealants to jobsite in sealed containers, each bearing manufacturer's name and product description.

B. Provide for storage of sealant materials as recommended by manufacturer.

1.06 PROJECT CONDITIONS

A. The ambient temperature shall be 40˚ to 100˚F, when a sealant is applied.

B. Allow sealants a minimum curing time of one (1) week prior to total water immersion.

1.07 SEQUENCING AND SCHEDULING

A. Schedule sealant installation to coincide and expedite work specified in Section 09900 - Protective Coatings.

PART 2 PRODUCTS

2.01 GENERAL

A. Sealants shall be approved for use in contact with potable water where required by specific application.

2.02 SINGLE COMPONENT SEALANT

A. Sealant shall be one-part polyurethane conforming to Federal Specification TT-S-00230C and ASTM C-920, Type II Class A, Non-Sag Elastomeric Sealant.

B. Color shall be selected from manufacturer’s standards to match color of adjacent surfaces, where applicable.

C. Sealant shall be Sikaflex-1A as manufactured by Sika or equal.

2.03 TWO COMPONENT SEALANT

A. Sealant shall be two-component, premium grade, polyurethane-based, conforming to Federal Specification TT-S-00227E and ASTM C-920, Non-Sag (NS) or self-leveling (SL) Elastomeric Sealant.

B. Color shall be selected from manufacturer’s standards to match color of adjacent surfaces, where applicable.

C. Sealant shall be Sikaflex-2C, NS/SL as manufactured by Sika or equal.

2.04 JOINT BACKING (BACKER ROD)

A. Closed-cell polyethylene foam rod conforming to ASTM D1751 and compatible to specified sealant. Size and use shall be as recommended by manufacturer.

2.05 PRIMER

A. Material shall be as recommended by sealant manufacturer where required for adhesion of sealant to joint substrate, as applicable.

2.06 BOND BREAKER

A. Bond breaker shall be polyethylene tape or other plastic tape as recommended by sealant manufacturer for preventing bond between sealant to back (3rd) surface of joint substrate or joint backing.

PART 3 EXECUTION

3.01 PREPARATION

A. Elastomeric sealants shall be applied in accordance with ASTM C962.

B. All surfaces to be sealed shall be clean, dry, sound and free of dust, loose mortar and all other foreign material.

3.02 INSTALLATION

A. Apply sealant materials, bond breaker and primer in strict compliance with the manufacturer's printed instructions as applicable to products and indicated applications.

3.03 CLEANUP

A. Surfaces adjacent to sealed joints shall be cleaned of smears, excess sealant materials or other soiling resulting from the sealing application. At no additional cost to OWNER, replace or repair to OWNER's satisfaction any damaged surfaces resulting from sealing.

END OF SECTION

SECTION 08120

ALUMINUM DOORS AND FRAMES

PART 1 GENERAL

1.01 WORK INCLUDED

A. Furnish and install aluminum doors, frames and related items, complete and operable, including all finish hardware and all appurtenant work, all in accordance with the requirements of the Contract Documents.

B. Work of this section shall be coordinated with Section 08710- Finish Hardware.

C. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, for information and requirements which apply to the Work specified in this Section and that are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 05500 - Fabricated Metalwork and Castings.

B. Section 08710 - Finish Hardware.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Without limiting the generality of other requirements of the specifications, all work specified herein shall conform to or exceed the requirements of the Building Code and the applicable requirements of the following documents to the extent that the provisions of such documents are not in conflict with the requirements of this Section.

B. Products and their installation shall be in accordance with the following standards as applicable:
   1. American National Standards Institute (ANSI).
   2. American Society for Testing and Materials (ASTM).
   3. National Association of Architectural Metal Manufacturers (NAMM).
   4. Underwriter's Laboratories, Inc. (UL).
   5. Manufacturer's published recommendations and Specifications.

C. Building Codes

   1. Florida Building Code, latest edition.

1.04 SUBMITTALS

A. Submittals shall be in accordance with the requirements of Section 01300 - Submittals.

B. Shop drawings shall show details of the products, systems and connections to adjoining materials. Schedules showing sizes, types

and locations of louvers and glass shall be submitted along with manufacturer's installation instructions.

C. Manufacturer's literature and any engineering calculations that may be required elsewhere in this Section shall be submitted in accordance with the requirements of Section 01300 - Submittals.

D. Manufacturer's Miami-Dade NOA or Florida statewide approval documentation per building code shall be submitted with the shop drawings for exterior doors.

1.05 DESIGN REQUIREMENTS

A. Aluminum doors and frames provided for this project shall be a complete system consisting of the door(s), frame, finish hardware, threshold, anchorage and hinges.

B. Exterior Door Design Wind Pressure Criteria:
   1. In accordance with the provisions of ASCE 7-10. (Criteria per Florida Building Code Section 1609 shall be as noted on Drawings.)
   2. Design Wind Pressure: Shall be as scheduled on drawings.
   3. Wall Anchorage: Design shall meet requirements of Building Code. Minimum embed depth of 2-inches.

PART 2 PRODUCTS

2.01 GENERAL

A. All aluminum doors and frames shall be shop fabricated and shop assembled, where possible. Temporary stiffeners, spacers and other accessories necessary to facilitate handling and accurate erection shall be provided. After fabrication, all tool marks and other surface imperfections shall be filled and ground smooth.

B. All doors and frames shall be fabricated entirely of extrudable shapes of the 6063-T5 or T6 alloy of a thickness specified for the item being considered.

C. Doors and frames shall be reinforced and drilled or tapped for fully templated mortised hardware; and shall be reinforced with plates for surface-mounted hardware, meeting ANSI Series A115-82 requirements. Hardware shall be as specified in Section 08710 - Finish Hardware.

D. Aluminum doors and frames shall be as manufactured by Alutech Corporation, or equal.

2.02 ALUMINUM FRAMES

A. Extruded frames for doors and other openings shall be aluminum. Extruded sections shall be fabricated from 6063-T5 aluminum alloy with a nominal thickness of 0.125 inches.

B. Weather stripping shall be elastromer vinyl conforming to Government Specifications C3-230-60.

C. Door jamb depths, trim profile, and backbends shall be indicated on shop drawings submitted by the CONTRACTOR.

D. Finish shall be as scheduled on the Drawings.

E. Door frames shall be Alutech Corporation model FR450S, FR575, or equal. Selection shall be per manufacturer to meet installation requirements.

2.03 FRAME ANCHORS

A. Anchor types shall be as noted on Drawings and/or as specified in Section 05500 - Fabricated Metalwork and Castings.

B. Anchorages shall be as recommended by the manufacturer, and approved by ENGINEER.

C. The number of anchors provided per interior door jambs and head shall be as follows:

1. Jambs up to 7-feet 6-inches in height: minimum 3 anchors per jamb.
2. Jambs 7-feet 6-inches to 8-feet 0-inches in height: minimum 4 anchors per jamb.
3. Jambs over 8-feet 0-inches in height: minimum 1 anchor for each 2-feet 0-inches of fraction in height.
4. Head shall have a minimum of 3 anchors or 1 anchor per foot whichever is greater.

D. Number of anchors and type of anchor provided per exterior door frame and head shall be as per the approved shop drawings and product approval or calculations.

2.04 ALUMINUM DOORS

A. Aluminum doors shall be of 5-ply construction and shall be of a full flush design. Face sheets shall be 0.040-inches thick, 3105 aluminum alloy. Door frames shall be 6063-T5 or T6 extruded aluminum shapes. All doors shall have flush seamless face sheets. Doors shall be rigid and neat in appearance, and shall be free from warpage or buckle. Corner bends shall be true and straight and shall be of not less than the minimum radius for the gauge of metal used. The door top and bottom shall be internally reinforced as needed by additional aluminum members welded in place. Tops of exterior doors shall be provided with flush weather-tight tops.

B. Door cores shall be polyisocyanurate foam, 2.0 pounds per cubic foot of pre-stabilized variety to not allow air pockets.

C. Replaceable compressible neoprene or molded PVC type gaskets or replaceable wool, polypropylene, or nylon woven pile, with nylon fabric or aluminum strip backing as suitable for type of door operation.

D. Finish shall be as scheduled on Drawings.

E. Doors shall be Alutech Corporation Model 240I or equal.

2.05 FINISH HARDWARE

A. Finish hardware shall be provided for each door as scheduled on the drawings.

B. Provided under Section 08710 - Finish Hardware.

2.06 DOOR LIGHTS (GLASS)

A. Clear, polished, tempered glass shall be 1/4-inch minimum thickness, shall have a diagonal wire pattern and shall meet the requirements of fire and safety codes.

2.07 FASTENERS

A. Provide all necessary stainless steel bolts and other fasteners of suitable size and type to secure frame and doors into position. Fasteners shall match frame finish.

B. Hardware provided, such as expansion bolts, hex bolts, toggle bolts and other approved anchorages shall be coordinated with job and to each setting condition.

2.08 REMOVABLE ALUMINUM MULLIONS

A. Removable aluminum mullions shall be Model 5654 as manufactured by Von Duprin.

B. Finish shall match door and frame

C. Coordinate with door hardware requirements.

2.09 FINISH

A. Aluminum shall be factory finished with an anodized finish (Architectural Class II 0.4 mil to 0.7 mil) with integral color, as selected by OWNER/ENGINEER from the manufacturer's color chart. The surfaces shall be cleaned and properly treated with a conversion coating prior to finishing to ensure bonding of the finish to the metal.

B. Finish colors shall be as specified on drawings.

PART 3 EXECUTION

3.01 GENERAL

A. All work shall be in accordance with manufacturer's published recommendations and specifications.

3.02 CONSTRUCTION

A. All work shall be coordinated with appropriate related subcontractors work to assure a proper installation. Field conditions and dimensions shall be verified prior to fabrication.

3.03 SHIPPING AND STORAGE

A. Doors and frames shall be shipped and stored with temporary stiffeners and spacers in place to prevent distortion.

3.04 FRAME INSTALLATION

A. Frames shall be set plumb and square in a true plane. Shims shall be provided and shall be set tight and rigidly attached between frame anchors and structure. All finished aluminum frames shall be strong and rigid; neat in appearance; and square, true and free of defects, warp or buckle.

B. Molded members shall be clean cut, straight and shall be of a uniform profile throughout their lengths.

C. Corner joints shall have all contact edges tightly closed with all trim faces mitered, welded and finished smooth. The use of gussets will not be permitted.

3.05 DOOR INSTALLATION

A. Doors shall be installed plumb and square and level with the frames securely anchored to the adjoining new or existing walls. Doors shall operate freely, but not loosely. They shall be free from rattling while in a closed position.

B. The door clearances shall be plus 3/32-inch or minus 1/32-inch and shall not exceed the limits specified in the manufacturer's printed recommendations.

C. Any door that becomes warped more than 3/16 inch out-of-plane shall be replaced by CONTRACTOR within the Scope of the Contract.

3.06 FINISH HARDWARE

A. Finish hardware shall be installed in accordance with hardware manufacturer's standard templates and printed instructions. Operable parts shall be adjusted for correct function.

END OF SECTION

SECTION 08330

STEEL ROLLUP DOORS

PART 1 GENERAL

1.01 WORK INCLUDED

A. Furnish and install steel rollup service doors, complete and operable, including all finish hardware, electric operators, and all appurtenant work, all in accordance with the requirements of the Contract Documents.

B. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, for information and requirements which apply to the Work specified in this Section and that are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 05500 - Fabricated Metalwork and Castings.

B. Division 16 - Electrical.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Without limiting the generality of other requirements of the specifications, all work specified herein shall conform to or exceed the requirements of the Building Code and the applicable requirements of the following documents to the extent that the provisions of such documents are not in conflict with the requirements of this Section.

B. Products and their installation shall be in accordance with the following standards as applicable:
   1. American National Standards Institute (ANSI).
   2. American Society for Testing and Materials (ASTM).
   3. National Association of Architectural Metal Manufacturers (NAMM).
   4. Underwriter’s Laboratories, Inc. (UL).
   5. Manufacturer’s published recommendations and Specifications.

C. Building Codes

   1. Florida Building Code, latest edition.

1.04 SUBMITTALS

A. Submittals shall be in accordance with the requirements of Section 01300 - Submittals.

B. Shop drawings: Include detailed plans, elevations, details of framing members, anchoring methods, required clearances, hardware, and accessories. Include relationship with adjacent construction. Manufacturer’s installation instructions should also be submitted.

C. Manufacturer's literature and any engineering calculations that may be required elsewhere in this Section shall be submitted in accordance with the requirements of Section 01300 - Submittals. Manufacturer's data sheets on each product to be used, including:

1. Preparation instructions and recommendations.
2. Storage and handling requirements and recommendations.
3. Details of construction and fabrication.
4. Installation instructions.

D. Manufacturer's Florida statewide approval documentation per building code shall be submitted with the shop drawings.

1.05 DESIGN REQUIREMENTS

A. Products Requiring Electrical Connection: Listed and classified by Underwriters Laboratories, Inc. acceptable to authority having jurisdiction as suitable for purpose specified.

B. Exterior Door Design Wind Pressure Criteria:

1. In accordance with the provisions of ASCE 7-10. (Criteria per Florida Building Code Section 1609 shall be noted on Drawings).

2. Design Wind Pressure: Shall be a scheduled on drawings.
Wall Anchorage: Design shall meet requirements of FBC Product Approval Documents and Building Code.

3. Minimum anchorage embed depth of 2-inches.

1.06 WARRANTY

A. The door manufacturer and CONTRACTOR shall warrant the doors being supplied to the OWNER against all defects in workmanship and materials for a period of one (1) year. Warranty period shall commence on Substantial Completion date as outlined in the General Conditions. Warranties for all doors installed under this contract shall run concurrently.

B. The MANUFACTURER's warranty period shall run concurrently with the CONTRACTOR's warranty period. No exception to this provision shall be allowed. The CONTRACTOR shall be responsible for proper storage of the equipment so as to remain in an "as shipped" condition.

PART 2 PRODUCTS

2.01 GENERAL

A. Steel rollup service doors provided for this project shall be a complete system consisting of the doors, tracks, and hardware from one manufacturer for each type of door. Provide secondary components (motor operators and controls) from source acceptable to manufacturer of primary components.

2.02 STEEL ROLLUP SERVICE DOORS

A. Curtain: Interlocking roll-formed slats as specified following. End locks shall be attached to each end of alternate slats to prevent lateral movement.

1. Flat profile, slat for doors for up to 16'-0" wide openings, fabricated of:
   a. 22 gauge galvanized steel.

B. Finish

1. Galvanized Steel: Slats and hood galvanized in accordance with ASTM A653 and receive rust-inhibitive, roll coating process, including 0.2 mils thick baked-on prime paint, and 0.6 mils thick baked-on polyester top coat.

2. Non-galvanized ferrous components shall receive one coat of rust-inhibitive primer.

3. Top Coat Color finish (galvanized and non-galvanized components): Powder coating finish in color as selected by OWNER/ENGINEER from manufacturer's standard colors.

4. All ferrous metal components of door assembly and accessories shall be finish coated per above.

C. Weatherseals:

1. Vinyl bottom seal.

D. Bottom Bar:

1. Hot-dipped galvanized steel in accordance with NOA provided by manufacturer.

E. Guides:

1. Hot-dipped galvanized structural steel angles in accordance with NOA provided by manufacturer.

F. Brackets:

1. Hot-dipped galvanized steel, to support the curtain, counterbalance barrel, and hood.

G. Counterbalance:

1. Helical torsion spring type housed in a steel tube or pipe barrel, supporting the curtain with deflection limited to 0.03 inch per foot of span. Counterbalance is adjustable by means of an adjusting tension wheel.

2. Provide emergency hand crank.

H. Hood:

1. 24 gauge galvanized steel with intermediate supports as required.

I. Electric Motor Operation: Provide UL listed electric operator, size as recommended by manufacturer to move door in either direction at not less than 2/3 foot nor more than 1 foot per second.

1. Sensing Edge Protection:

   a. Electric sensing edge, extending full width of door at bottom bar, to stop and reverse door to full open position upon contact with an obstruction.

2. Operator Controls:

   a. Push-button operator control stations with open, close, and stop buttons, surface mounted in NEMA 1 enclosure.
   b. Radio controls. Provide two (2) per door of (single-button or three-button) radio transmitters, and one (1) compatible radio receiver per door.

3. Motor Voltage: 460 volt/three phase, 60 hz.

J. Locking:

1. Interior slide bolt lock for electric operation; motor operator to have internal door lock sensor.

K. Wall Mounting Condition:

1. Face-of-wall mounting in accordance with NOA provided by manufacturers.

L. Steel Rollup Service Doors shall be Series 610/620 Rolling Service Doors as manufactured by Overhead Door, or equal.

2.03 FASTENERS

A. Provide all necessary stainless steel bolts and other fasteners of suitable size and type to secure frame and doors into position. Fasteners shall match frame finish.

PART 3 EXECUTION

3.01 GENERAL

A. All work shall be in accordance with manufacturer's published recommendations and specifications. Installation to be performed by a company with a minimum of three years experience in the installation of the specified steel rollup door system.

B. Store products in manufacturer's unopened packaging until ready for installation. Protect materials form exposure to moisture. Store materials in a dry, warm, ventilated weathertight location.

C. All work shall be coordinated with appropriate related subcontractors work to assure a proper installation. Field conditions and dimensions shall be verified prior to fabrication.

3.02 STEEL ROLLUP SERVICE DOOR INSTALLATION

A. Verify opening sizes, tolerances and conditions are acceptable.

B. Examine conditions of substrates, supports, and other conditions under which this work is to be performed.

C. If substrate preparation is the responsibility of another installer, notify ENGINEER of unsatisfactory preparation before proceeding.

D. Clean surfaces thoroughly prior to installation.

E. Prepare surfaces using the methods recommended by the manufacturer for achieving the best result for the substrate under the project conditions.

F. Install in accordance with manufacturer's instructions.

G. Use anchorage devices to securely fasten assembly to wall construction and building framing without distortion or stress.

H. Securely and rigidly brace components suspended from structure. Secure guides to structural members only.

I. Fit and align assembly including hardware; level and plumb, to provide smooth operation.

J. Coordinate installation of electrical service with Division 16 - Electrical. Complete wiring from disconnect to unit components.

K. Coordinate installation of sealants and backing materials at frame perimeter as specified in Section 07900 - Sealants.

L. Instruct Owner's personnel in proper operating procedures and maintenance schedule.

M. Test for proper operation and adjust as necessary to provide proper operation without binding and distortion.

N. Adjust hardware and operating assemblies for smooth and noiseless operation.

O. Clean curtain and components using non-abrasive materials and methods recommended by manufacturer.

P. Remove labels and visible markings.

Q. Touch-up, repair or replace damaged products before Substantial Completion.

R. Protect installed products until final completion of project.

END OF SECTION

SECTION 08710

FINISH HARDWARE

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the Work necessary for furnishing and installing, complete, the finish hardware.

B. The Work hereunder shall include all fabrication and mounting templates as needed for fabricators and for control of application of metal items.

C. In addition thereto, the CONTRACTOR shall provide and install all trim, attachments, and fastenings specified or required for proper and complete installation. The work of this Section shall include all hardware that is not specified in other sections, whether or not such hardware is herein specifically scheduled.

D. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

E. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, for information and requirements which apply to the Work specified in this Section and that are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 08120 - Aluminum Doors and Frames.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Hardware products and their installation shall be in accordance with the following trade standards as applicable:

1. Hardware Institute (DHI); Recommended Procedure for Processing Hardware Schedules and Templates and Architectural Hardware Scheduling and Format.
2. Federal Specifications.
3. Manufacturer's published recommendations and Specifications.
4. Underwriters' Laboratories, Inc. (UL) requirements and approvals.

B. Numbers in the 600 series are the Builders Hardware Manufacturers Association (BHMA) industry standard for finishes.

C. Codes

1. Florida Building Code, latest edition.

1.04 SUBMITTALS

A. Submittals shall be made in accordance with Section 01300 - Submittals.

B. Submit a complete detailed hardware list and a schedule along with manufacturer's literature on each item for review. No hardware shall be delivered until the hardware schedule has been reviewed by ENGINEER.

C. Hardware schedule submitted by CONTRACTOR shall list the actual product series numbers. Manufacturer's catalog requirements for actual size of door closers, brackets and holders shall be observed. All door sizes shall be noted on the hardware schedule and all hardware shall be in strict accordance with height, width and thickness requirements.

D. The schedule shall indicate groups, type, manufacturer's name, catalog number, location and finish of each item to be provided, all in accordance with the DHI "Architectural Hardware Scheduling Sequence and Format."

E. The schedule shall also include a complete template list showing template references and data for each item requiring preparation of doors and frames.

F. Keying requirements/OWNER coordination shall also be completed by CONTRACTOR and included in the hardware schedule.

PART 2 PRODUCTS

2.01 GENERAL

A. Finish hardware shall be coordinated with all other work requiring builder's hardware or attaching to it. Copies of schedules, templates and other items shall be furnished in ample time to avoid fabrication and construction delays. Each item of hardware shall be identified according to the reviewed list and schedule. All hardware shall be made to template.

B. All hardware furnished in connection with doors bearing Underwriters' Labels or where necessary to meet special requirements shall be in strict accordance with conditions established by the authority having jurisdiction and shall be subject to approval of that authority.

C. Hand of door shall be as shown on drawings. If door hand is changed during construction, CONTRACTOR shall make necessary changes within the Scope of the Contract.

D. Exit doors shall open outward at all times from the inside without the use of key or any special knowledge or effort.

E. Finish hardware required per door shall be as scheduled on the drawings.

2.02 KEYING

A. All locks and cores shall be master keyed to the OWNER’s requirements and all cores/keys shall be same.

B. All final permanent keying and cores shall be provided and installed by OWNER following final completion.

2.03 FASTENERS

A. Provide all necessary screws, bolts and other fasteners of suitable size and type to secure hardware into position. Fasteners shall match hardware in material and finish.

B. Hardware provided, such as expansion bolts, sex bolts, toggle bolts and other approved anchorages shall be coordinated with job and to each setting condition.

C. Phillips head screws shall be used at exposed conditions. Machine screws shall be used for aluminum doors and frames.

2.04 HINGES

A. McKinney Manufacturing Company, or equal.

B. Minimum number of hinges per door leaf, based on height of door:

5'-1" to 7'-7"	3 pairs
7'-7" to 10'-0"	4 pairs

Actual number of hinges required shall be as per door manufacturer's submitted wind load calculations or product approved documentation.

C. Minimum height of hinges, based on width of doors:

Up to 3'-0"	4-1/2"
3'-1" to 4'-0"	5"

D. Exterior hinges shall have nonremovable pins.

E. Hinge leaves shall be parallel and joint tolerance shall be 0.012 inch maximum, gauged in closed position.

F. MATERIAL: ANSI A5112 Stainless Steel

Hinge Size	Material Gauge
4-1/2"	.134
5"	.134

G. FINISH: SATIN STAINLESS STEEL, No. 630.

H. HINGE TYPES:

H1: Five knuckle, standard weight, two ball races, full mortise, McKinney TA2314.

2.05 LOCKS AND LATCH SETS

A. Lock and latch sets shall be AL-Series, Saturn design, manufactured by Schlage Lock Company.

B. Strikes shall have lip dimensions to fit configuration of trim. Same finish as lock and latch set.

C. Backset: Two-and-three-fourths (2-3/4") inches, except as noted.

D. Finish: Satin Chromium Plated, No. 626.

E. Lock and Latch Types:

ID Type	Description	ANSI Function	Schlage Product
L1	Lockset, entrance lock	F109	AL53PD
L2	Lockset, storeroom lock	F86	AL80PD
L3	Lockset, entrance/office lock	F82	AL50PD
L4	Latch set, privacy lock	F76	AL40S
L5	Latch set, Passage no locking	F75	AL10S
L6	Deadlock	N/A	N/A
L7	Lock by Door Manufacturer; Provide cylinders for keying to other locks as required.	N/A	N/A
L8	Not Used	-	-
L9	Padlock Hasp and Staple (SST)	N/A	N/A

F. Cores shall be small format (Best style), interchangeable core, 6-Pin or 7-Pin. Cylinders and cores shall be provided and installed by CONTRACTOR. Match Owners existing.

2.06 CLOSERS

A. LCN Closers, or equal.

B. Size closers in accordance with manufacturer's standards. Mount closers on interior or push side of doors. On pair of doors provide closer on active leaf only, unless noted otherwise. Provide hold open option.

C. Finish: Satin chromium-plated, No. 652.

D. Closer Types:

C1	Parallel arm	LCN-1460H-TB-AL
C2	Parallel arm	LCN-1461H-TB-AL

2.07 THRESHOLDS (ALUMINUM)

A. Pemko Manufacturing Co., or equal.

B. Thresholds shall be one-piece full width of opening. Extend beyond jamb where required.

C. Thresholds shall have a minimum section width of 4".

D. Provide with machine screws in threaded expansion anchor at concrete.

E. Finish: Mill finish aluminum.
Threshold Types:
T1 No. 270A

2.08 SILENCERS

A. Provide three at single leaves and two at pairs.

B. Silencers shall be manufactured by Ives; Glynn-Johnson; or equal

2.09 EXIT DEVICES

A. Exit devices shall be Series 98, as manufactured by Von Duprin or equal.

B. Strikes shall have lip dimensions to fit configuration of trim. Finish shall be dull black.

C. Finish: Satin Chromium Plated, No. 626 (US26D).

D. Lock and Latch Types:

ID Type	Description	ANSI Function	Schlage Product
ED-1	Lockset, entrance lock	F109	9875L-06
ED-2	Latch set, no locking	F75	9875L-BE-06
ED-3	Lockset, night latch	09	9875L-NL
ED-4	Vert. Rod(s), entrance lock	F109	9827L-06
ED-5	Vert. Rod(s), no locking	F75	9827L-BE-06
ED-6	Vert. Rod(s), night latch	09	9827L-NL-06

E. Cores and Cylinders

1. Cores shall be small format (Best style), interchangeable core, 6-Pin or 7-Pin. Rim cylinders and cores shall be provided and installed by CONTRACTOR. Match Owners existing.

F. Vertical rod guard (RGO) shall be provided at each bottom rod.

G. Where "COMBO" is scheduled on drawings, the exterior portion of the exit device shall be fit with a combination access lock. Combination lock shall be Kaba Simplex LP1000 series, or equal. Device shall have Schlage key override option.

2.10 MISCELLANEOUS ACCESSORIES

A. Manual Flush Bolts (FB1)

1. 12-inch standard length, brass.
2. Finish: Satin chrome plated US26D (No. 626)
3. Provide one bolt at top and bottom as indicated by drawings.
4. Ives FB458, Rockwood 555, or equal.

B. Chain Bolt (CB1)

1. 6-inch standard length, steel.
2. Finish: Bright zinc, US2C (No. 663).
3. Ultra TA1055, Stanley 1055, or equal.

C. Surface Bolts

1. Material: Stainless steel
2. Finish: US32D (No. 630)
3. Provide one bolt at top and bottom as indicated by drawings.
4. As manufactured by Rockwood Manufacturing Company or equal.

ID Type	Description	Rockwood Product
SB-1	12-inch surface bolt	580-12
SB-2	18-inch surface bolt	580-18

D. Kick Plates

1. Material: Stainless steel
2. Finish: US32D (No. 630)
3. Standard size 8" high x door width less 2”.
4. Ives series 8400 or equal.

E. Door Stop/Holder

ID Type SH-1

1. Aluminum kick down holder with corrugated rubber shoe.
2. Rubber shoe shall be replaceable.
3. Mounting hardware: SST sheet metal screws.
4. Ives FS452-5, or equal.

ID Type SH-2

1. Solid brass, Satin chrome plated US26D (No. 626).
2. Door holder shall be automatic upon opening door and release automatically with a firm pull of the door.
3. Ives model FS40, FS41, FS42 or FS43 or equal.

F. Push/Pull Plates

1. Plates shall be 4" x 16" pre-drilled stainless steel and provided w/stainless steel mounting hardware.
2. Finish: US32D (No. 630)
3. Pull handle shall be concealed mounting through the pull plate.
4. Push plate shall be Ives 8200-US32D-4X16 or equal.
5. Pull assembly shall be Ives 8303-8-US32D-4X16-G.

G. Combination Astragal and Flush Bolt Assembly (A1)

1. Surface-mount combination Astragal & flush bolt assembly shall be Ultra WS059, or equal.

H. Crash Stops

1. Crash stops shall be as manufactured by Ives, or equal. Finish shall be US26D.

ID Type	Description	Ives Product
CS1	Heavy Duty Crash Stop	CS115
CS2	Standard Crash Stop	15 Crash Stop
CS3	Floor Stop	FS434

PART 3 EXECUTION

3.01 GENERAL

A. All required items of hardware, including cylinders for locks and all fitting, adjusting and security of each item neatly and firmly in place, shall be complete and in perfect working order.

B. All finish hardware shall be fitted and dismantled before painting work and shall be reinstalled after finish painting work.

3.02 INSTALLATION

A. Follow manufacturer's instructions for installation of finish hardware. Make all Work neat and secure, developing full strength of components and providing proper function. Prevent marring, scratching, or otherwise damaging adjacent finishes during the installation of hardware.

B. Do all fitting, dismantling and reinstalling of finish hardware required for finish painting work. Use strippable coating, removable tape and other means to protect and prevent staining of hardware during construction. Protective measures shall be removed and permanent lock cylinders installed prior to final cleaning.

C. Latch bolts shall be installed to engage in strikes automatically, whether activated by closers or manually. In no case shall additional manual pressure be required to engage latch bolt in strike.

D. Cope ends of thresholds neatly to profile of jamb. Thresholds shall be set in sealant and ends shall be sealed to jambs.

3.03 MOUNTING DIMENSIONS

A. Use standard door hardware locations as published by the National Builders' Association, except as noted or detailed otherwise.

B. Install door silencers 3 inches from top and bottom of jamb and 1 inch above strike at single doors, and 3 inches from edges of doors in head for pairs of doors.

3.04 DELIVERY, STORAGE AND HANDLING

A. The CONTRACTOR shall provide a room under lock and key to store all finish hardware until installation is made and be responsible for loss and pilferage.

B. Each item of hardware shall be marked as to description and location of installation.

C. Strippable coating or removable tape protection or other recommending means to prevent any damage or staining of hardware during construction shall be used. Such protective measures shall be removed prior to OWNER's acceptance of project.

3.05 HARDWARE SCHEDULE

A. The Hardware Schedule on the Drawings is a guide to functional requirements of each opening. Provide hardware complete.

END OF SECTION

SECTION 09201

PORTLAND CEMENT PLASTER (STUCCO)

PART 1 GENERAL

1.01 SUMMARY

A. This section covers the work necessary to furnish and install the Portland Cement Plaster (stucco) and related components, complete.

B. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this Project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 09900 - Protective Coatings

1.03 SUBMITTALS

A. Submittals shall be made in accordance with Section 01300 - Submittals.

B. Submit 12-inch by 12-inch sample panels of plaster finish coats specified herein.

PART 2 PRODUCTS

2.01 PLASTER (STUCCO) ACCESSORIES

A. General: Comply with material provisions of ANSI A42.3; coordinate depth of accessories with thicknesses and number of coats required.

B. Plastic Lathing Accessories: Small nose corner, with performed flanges, fabricated from high impact polyvinyl chloride (PVC). Provide products of the types indicated, manufactured by Plastic Components, Inc, or equal.
   1. Corner Beads: No. 2 type, min, 2-3/4" legs.
   2. Casing Beads: No. 1050 style, ½" grounds.
   3. Expansion & Control: No. 2150X, ½" ground.

C. Diamond Mesh Expanded Metal Lath: Cut from galvanized steel, weight 3.4 pounds per square yard, conforming to ANSI A 42.4.

D. Nonstructural Framing: Conform to the requirements of ASTM C 645, 25-gauge galvanized C-studs, size as noted on Drawings, and ancillary items for soffit framing as required.

E. Carrying Channels: Cold-rolls steel, 16-gauge, free of rust, coated with factory-applied rust-inhibitive paint, 1-1/2 inches deep, weighing not less than 475 pounds per 1,000 linear feet.

F. Furring Channels: Cold-rolled steel, 16-gauge, free of rust, coated with factory-applied rust-inhibitive paint, 3/4-inch deep, weighing not less than 300 pounds per 1,000 linear feet.

G. Tie Wire: Galvanized soft annealed steel, 18-gauge minimum.

2.02 PLASTER (STUCCO) MATERIALS

A. Base Coat Cements: Portland Cement, ASTM C 150, Type I or III; or masonry cement, ASTM C 91, Type N.

B. Finish Coat Cements: Portland Cement, ASTM C 150, Type I, white; or masonry cement, ASTM c 91, Type N, white.

C. Lime: Special hydrated lime for finishing purposes, ASTM C 2106, Type S, or special hydrated lime for masonry purposes, ASTM C 207, Type S.

D. Sand Aggregate for Base Coats: ASTM C 33.

E. Aggregate for Finish Coats: ASTM C 897.

F. Water for Mixing and Finishing Plaster: Potable, free of substances capable of affecting plaster set or of damaging plaster accessories.

G. Bonding Agent: Larson Products, Plasterweld; TOCH Brothers, TOK-Bond; or equal.

H. Bonding Additive: Acrylic-based emulsion for bonding Portland Cement plaster base-coat to solid substrates.

1. Products: Quick-Cure Ad-Liquid (Finestone Corp.); Acrylic Admix-101 (Larsen Products Corp.); Acryl 60, or equal.

2.03 STUCCO MIXES AND COMPOSITIONS

A. General: Comply with ASTM C 926 for Portland Cement plaster base and finish coat mixes as applicable to plaster bases, materials and other requirements indicated.

B. Base Coat Mix and Composition: Proportion materials for base coats in parts by volume for cementitious materials and in parts by volume per sum of cementitious materials for aggregate to comply with the following requirements. Adjust mix proportions below within the limits specified to attain workability.

1. Two-Coat Work Over Concrete Unit Masonry: 1 part Portland Cement, 3/4 to 1-1/2 parts lime, and 3 to 4 parts sand; or 1 part masonry cement, 3 to 4 parts sand.

2. Three-Coat Work Over Metal Lath. One of the following combinations indicated below:

a. Scratch Coat: 1 part Portland Cement, 0 to 3/4 parts lime, 2-1/2 to 4 parts sand.
b. Scratch Coat: 1 part masonry cement, 2-1/2 to 4 parts sand. Brown Coat: 1 part masonry cement, 3 to 5 parts sand.

C. Job-Mixed Finish Coats: Proportion materials for finish coats in parts by volume for cementitious materials and in parts by volume per sum of cementitious materials for aggregates to comply with one of the following requirements:

1. 1 part Portland Cement, 3/4 to 1-1/2 parts lime, 3 parts sand.
2. 1 part Portland Cement, 1 part masonry cement, 3 parts sand.

3. 1 part masonry cement, 1-1/2 parts sand.

D. Mixing: Mechanically mix cementitious and aggregate materials for plasters to comply with applicable referenced application standard and with recommendations of plaster manufacturer.

2.04 WATERPROOFING

A. Waterproofing material shall be Thoroseal Waterproof Cement-Based Coating with Acryl 60, or equal.

PART 3 EXECUTION

3.01 INSTALLATION OF PLASTER (STUCCO) ACCESSORIES

A. General: Comply with referenced installation standards and manufacturers recommendations for provision and location of plaster accessories of type indicated.

3.02 WATERPROOFING APPLICATION

A. Surface preparation per material manufacturer's written recommendations and instructions.

B. Mix material per manufacturer's written instructions.

C. Application rate per 50 pound bag: 225 square feet at 1/16" dry-film thickness, brush applied.

D. Waterproofing application shall be used as base coat at locations indicated on drawings.

3.03 PLASTER (STUCCO) APPLICATION

A. General: Prepare monolithic surfaces for bonded base coats and use bonding compound or agent to comply with requirements of referenced plaster application standards for conditioning of monolithic surfaces.

B. Plaster Application Standards: Apply Portland Cement plaster materials, compositions, and mixes to comply with ASTM C 926.

1. Spray Application: Spray apply Portland Cement plaster materials to vertical surfaces indicated to comply with requirements of referenced plaster application standards and PCA "Portland Cement Plaster Manual" for machine application.

C. Number of Coats: Apply Portland Cement plaster or composition indicated, in two-coat applications over concrete unit masonry and three-coat applications over metal lath.

D. Finish Coat Texture: Floated finish unless otherwise indicated; match ENGINEER's sample for texture and color.

E. Curing: Moist cure plaster base and finish coats to comply with ASTM C 926, including recommendations for time between coats and curing in "Annex A2 Design Considerations".

F. Total application thickness: ½-inch, minimum.

G. Stucco Accessories: Provide stucco accessories as specified below:

Corner Beads: All wall corners and at all masonry openings.
Casing Beads: Bottom of all stucco applications where noted on drawings.

Expansion/Control Joints: As noted on drawings.

END OF SECTION

SECTION 09900

PROTECTIVE COATINGS

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the work required to provide all labor, materials, equipment and incidentals to perform all of the necessary surface preparation and painting required to complete this contract in its entirety.

B. It is the intent of this specification to paint all concrete exposed miscellaneous ferrous metals, pipes, fittings, valves, equipment and all other work obviously required to be painted unless otherwise specified. Minor items omitted in the schedule of Work shall be included in the Work of this Section where they come within the general intent of the Specifications as stated herein.

C. The following surfaces or items are not required to be painted:

1. Aluminum: gratings, checkered plates, hatches, handrails, toeboards, stairways and walkways (except as required for electrolytic protection).

2. Stainless Steel, brass and bronze.

3. Piping buried in the ground or embedded in concrete.

4. Ducts, pipes and other miscellaneous items covered with insulation or plastic coated.

5. Concealed surfaces of pipe and crawl spaces.

6. Finish hardware.

7. Nonferrous architectural metals, unless specifically noted otherwise.

8. Packing glands and other adjustable parts and nameplates of mechanical equipment.

9. All manufactured painted electrical equipment (switchgear, transformers, motor control centers, control panels, etc.).

D. All items or coating systems specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the Work.

E. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

F. See CONTRACT CONDITIONS and Division 1, General Requirements, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 07900 - Sealants.

B. Section 09201 - Portland Cement Plaster (Stucco).

C. Finish Schedules on Drawings.

1.03 ABBREVIATIONS

A. The abbreviations and definitions listed below, when used in this Section shall have the following meanings:

ANSI	American National Standards Institute
ASTM	American Society of Testing Materials
AWWA	American Water Works Association
DFT	Dry Film Thickness
FRP	Fiberglass Reinforced Plastic
HCL	Hydrochloric Acid
MDFT	Minimum Dry Film Thickness
MDFTPC	Minimum Dry Film Thickness Per Coat
mil	Thousandths of an Inch
MIL-P	Military Specification - Paint
NACE	National Association of Corrosion Engineers
NSF	National Sanitary Foundation
OSHA	Occupational Safety and Health Administration
SFPG	Square Feet Per Gallon
SFPGPC	Square Feet Per Gallon Per Coat
SP	Surface Preparation
SSPC	Steel Structures Painting Council

1.04 SUBMITTALS

A. Submittals shall be made in accordance with the requirements specified in Section 01300 - Submittals.

B. Submittals will be made with the coating system data sheet included at the end of this section.

C. The following shall be submitted for each proposed coating system: manufacturer's specifications, surface preparation details, application procedures, technical data sheets and dry film thickness or coverage.

D. Schedule of Painting Operations: The CONTRACTOR shall include a complete Schedule of Painting Operations with the overall project schedule.

1.05 QUALITY ASSURANCE

A. The paint manufacturer shall provide a representative to visit the jobsite at intervals during surface preparation and painting as may be required for product application quality assurance and to determine compliance with Manufacturer's instructions and these Specifications, and as may be necessary to resolve field problems attributable to, or associated with, the manufacturer's products furnished under this Contract.

1.06 INSPECTION

A. The CONTRACTOR shall give the ENGINEER a minimum of three (3) days advance notice of the completion of any surface preparation work or start of coating application work.

B. Before application of the base (prime) coat and each succeeding coat, all surfaces to be painted shall be inspected by ENGINEER. Any and all defects or deficiencies shall be corrected by the CONTRACTOR before application of any subsequent coating.

C. Coating applications shall be checked for required MDFT as per these specifications. All coated surfaces failing to meet the MDFT requirements shall be rejected.

D. For all coatings subject to immersion, consult the coatings manufacturer's written instructions for time required after system application before immersion.

E. Inspection by the ENGINEER or the waiver of inspection of any particular portion of the Work shall not be construed to relieve the CONTRACTOR of his responsibility to perform the Work in accordance with these Specifications.

F. All equipment required for discontinuity (Holiday) testing of steel substrates and continuity verification of concrete substrates shall be furnished and operated by the painting contractor.

1.07 PAINT DELIVERY AND STORAGE

A. All materials shall be new and shall be delivered to the project site in unopened containers that plainly show, at the time of use, the designated name, date of manufacture, color, and name of manufacturer. Paints shall be stored in a suitable protected area that is heated or cooled as required to maintain temperatures within the range recommended by the paint manufacturer.

B. All paint or other such regulated substances stored on site by CONTRACTOR shall be done so in accordance with the rules and regulations of the Florida Department of Environmental Protection regarding secondary containment and the Broward County Department of Planning and Environmental Protection.

1.08 PROJECT SITE CONDITIONS

A. The location of this project requires observance and conformance with EPA Volatile Organic Compound (VOC) restrictions. EPA limits the content of VOC's in painting materials to 3.5 lbs./gallon. Information regarding the VOC content of proposed paints will be required during submittals.

1.09 WARRANTY

A. CONTRACTOR shall warrant to the OWNER and guarantee the work under this Section against defective workmanship and materials for a period of two (2) years commencing on the final contract date of final acceptance of the project.

B. Warranties shall be submitted in accordance with Section 01740-Warranties and Bonds.

PART 2 PRODUCTS

2.01 GENERAL

A. All products used in immersion service or in contact with potable water shall be ANSI/NSF certified for use in contact with potable water.

B. Products containing lead will not be allowed. Oil shall be pure boiled linseed oil.

2.02 PAINT MATERIALS

A. Products shall be manufactured by Tnemec Company, Inc., Carboline, BASF, or equal.

B. The following paint products are used for the basis of establishing the desired quality expected for the project.

PRODUCT TYPE	TNEMEC COMPANY, INC. PRODUCT NAME	CARBOLINE PRODUCT NAME
Epoxy (Non-Potable)	Series 66 Hi-Build Epoxoline	Carboguard 890
Epoxy (Potable)	Series N140 Pota-Pox Plus	CarboGuard 891HS
Polyurethane	Series 73 Endura-Shield	Carbothane 134HB
Acrylic Emulsion (Low Gloss)	Series 6 Tneme-Cryl	Sanitile 155
Water Borne Acrylic Epoxy(Semi Gloss)	Series 113 H.B. Tneme-Tufcoat	Sanitile 255
Epoxy Waterborne Cementitious Acrylic	Series 130-6602 Envirofill	Sanitile 100
Epoxy Mastic	Series 135 Chembuild	Carbomastic 615
Acrylic Polymer (Semi-Gloss)	Series 1028 Enduratone	Carbocrylic 3359
Waterborne Acrylic Bonding Primer		Carbocylic 120
Polyamine Epoxy (Primer)	Series 201 Epoxoprime	Semstone 110
Polyamidoamine Epoxy (Non-Potable)	Series N69 Hi-Build Epoxoline II	CarboGuard 890
Polyamide Epoxy Coal Tar	46H-413 Hi-Build Tneme-Tar	Bitumastic 300M

PRODUCT TYPE	TNEMEC COMPANY, INC. PRODUCT NAME	CARBOLINE PRODUCT NAME
Polyamine Novolac Epoxy	Series 282 Tneme-Glaze	Semstone 145 or 145SL (Floors)
Fiber Reinforced Epoxy	Series 270 Stranlok	Semstone 145
Waterborne Epoxy-Amine Adduct (Floor)	Series 287 Enviro-Tread	CarboGuard 655
Aliphatic Polyester Polyurethane (Floor)	Series 290 CRU	Carbothane 133HB
Glass Bead Additive	Series 211-212 Glass Beads	Contact Supplier

PRODUCT TYPE	BASF PRODUCT NAME
Cementitious Coating	Thoroseal

2.03 EXTRA PAINT

A. Furnish one (1) unopened container of each type and each color of paint used, properly marked for future use by OWNER. Minimum size of one (1) gallon.

2.04 PIPE IDENTIFICATION LABELS

A. Piping systems larger than 1" diameter

1. Stick-on pipe labels shall be durable self-adhesive vinyl, meeting ANSI A13.1 for background color and lettering height as follows:

Pipe Diameter	Letter Height
1" to 2-1/2"	3/4"
2-5/8" to 6"	1-1/4"
8" and above	2-1/2"

2. Custom flow stream identification color and text shall be provided per the flow stream requirements noted on the drawings.

3. Flow detection arrow(s) shall be incorporated with each custom label. Above 6" diameter pipe flow arrows shall be provided around pipe circumference.

4. Labels for color code painted pipe shall have a clear background with black letters and flow direction arrows.

5. Stick-on pipe labels shall be as provided by Brady, Craftmark, Seton, or equal.

B. Piping systems 1" diameter and smaller

1. Labels shall be reusable plastic snap-on markers as manufactured by Brady, Craftmark, Seton, or equal.

2. Custom flow stream identification text with flow direction arrow shall be provided per the flow stream requirements noted on the drawings.

C. Piping Systems Larger Than 3" Diameter (Alternative)

1. Black stencil painted letters, all capitals meeting the following heights:

Pipe Diameter	Letter Height
4" to 10"	1-1/4"
12" and above	2-1/2"

2. Paint for stenciling shall be black, same top coat as specified coating system.

3. Flow direction arrows shall also be included.

PART 3 EXECUTION

3.01 PROTECTION OF SURFACES NOT TO BE PAINTED

A. Mask or otherwise protect hardware, lighting fixtures, switch plates, aluminum surfaces, machined surfaces, couplings, shafts, bearings, nameplates and all other surfaces not intended to be painted which cannot be removed.

B. Provide drop cloths to prevent paint materials from falling on or marring adjacent surfaces.

C. Protect working parts of mechanical and electrical equipment from damage during surface preparation and painting processes. Openings in motors shall be masked to prevent paint and other materials from entering motors.

D. Protection of Existing Structures, Residences, or Vehicles

1. CONTRACTOR shall provide screens or other such means to prevent splatter of concrete, paint or other such substance from staining or damaging the nearby existing structures, residences or vehicles.

2. CONTRACTOR shall be responsible for cleaning and repairing all damages caused by overspray.

3.02 ENVIRONMENTAL CONDITIONS

A. Paint shall not be applied in temperatures exceeding the manufacturer's recommended maximum and minimum allowable, nor under adverse conditions such as dust, smoke-laden atmosphere, damp or humid weather.

3.03 SAFETY

A. Painting shall be performed in strict accordance with the safety recommendations of the paint manufacturer; with the safety recommendations of the National Association of Corrosion Engineers

contained in the publication, Manual for Painter Safety; Federal, State, and local agencies having jurisdiction.

B. Ultimate responsibility for safety is the CONTRACTOR's.

3.04 PREPARATION OF FERROUS METAL SURFACES

A. All surfaces to be coated shall be prepared as specified herein and shall be dry and clean before coating. Specific surface preparation shall be specified for the individual coating systems.

B. Standards for Ferrous Metal Surfaces Preparation

1. SSPC-SP-1 Chemical and/or Solvent Cleaning

Remove all grease, oil, salt, acid, alkali, dirt, dust, wax, fat, foreign matter and contaminates, etc. by one of the following methods: steam cleaning, alkaline cleaning, or volatile solvent cleaning.

2. SSPC-SP-2 Hand Tool Cleaning

Removal of loose rust, loose mill scale and loose paint to a clean sound substrate by hand chipping, scraping, sanding and wire brushing.

3. SSPC-SP-3 Power Tool Cleaning

Removal of loose rust, loose mill scale and loose paint to a clean sound substrate by power tool chipping, descaling, sanding, wire brushing and grinding.

4. SSPC-SP-4 Flame Cleaning

Dehydrating and removal of rust, loose mill scale and some light mill scale by use of flame, followed by wire brushing.

5. SSPC-SP-5 (NACE-1) White Metal Blast Cleaning

Complete removal of all mill scale, rust scale, previous coating, etc., leaving the surface a uniform gray-white color.

6. SSPC-SP-6 (NACE-3) Commercial Grade Blast Cleaning

Complete removal of all dirt, rust scale, mill scale, foreign matter and previous coating, etc., leaving only shadows and/or streaks caused by rust stain and mill scale oxides. At least 66% of each square inch of surface area is to be free of all visible residues, except slight discoloration.

7. SSPC-SP-7 (NACE-4) Brush-Off Blast Cleaning

Removal of rust scale, loose mill scale, loose rust and loose coatings, leaving tightly-bonded mill scale, rust and previous coatings. On concrete surfaces, brush-off blast cleaning shall remove all laitance, form oils and solid contaminates. Blasting should be performed sufficiently close to the surface so as to open up surface voids, bugholes, air pockets and other

subsurface irregularities, but so as not to expose underlying aggregate.

8. SSPC-SP-8 Pickling

Complete removal of rust and mill scale by acid pickling, duplex pickling or electrolytic pickling (may reduce the resistance of the surface to corrosion, if not to be primed immediately).

9. SSPC-SP-10 (NACE-2) Near-White Metal Blast Cleaning

Removal of all rust scale, mill scale, previous coating, etc., leaving only light stains from rust, mill scale and small specks of previous coating. At least 95% of each square inch of surface area is to be free of all visible residues, and the remainder shall be limited to slight discoloration.

10. SSPC-SP-11-87 Power Tool Cleaning to Bare Metal

Complete removal of rust, rust scale, mill scale, foreign matter and previous coatings, etc. to a standard as specified on a Commercial Grade Blast Cleaning (SSPC-SP-6, NACE-3) by means of power tools that will provide the proper degree of cleaning and surface profile.

C. Ferrous metal shall be blasted unless otherwise specified. Blasting shall be done with a centrifugal wheel or compressed air blasting equipment, using proper abrasives to attain an average profile depth of 1.5 mils. Do not reuse sand or flint abrasives. Shot abrasives must be thoroughly clean of contamination before reuse. Blow dust and grit from surface with clean, dry air. Coat within 8 hours or before rust contamination occurs.

D. Shop-Finished Surfaces: All shop-coated surfaces shall be protected from damage and corrosion before and after installation by treating damaged areas immediately upon detection. Abraded or corroded spots on shop-coated surfaces shall be prepared in accordance with SSPC-SP2 (Hand Tool Cleaning) and then touched up with the same materials as the shop coat. All shop coated surfaces which are faded, discolored, or which require more than minor touch-up in the opinion of the ENGINEER shall be repainted. Cut edges of galvanized sheets and exposed threads and cut ends of galvanized piping, electrical conduit, and metal pipe sleeves, not to be finished painted, shall be cleaned in accordance with SSPC-SP1 (Solvent Cleaned) and primed with zinc dust-zinc oxide metal primer.

E. Pre-Blast Cleaning Requirements

All oil, grease, welding fluxes, and other surface contaminants shall be removed prior to blast cleaning. Preblast cleaning methods shall use steam, open flame, hot water, or cold water with appropriate detergent additives followed with clean water rinsing.

Small isolated areas shall be cleaned as above or solvent cleaned with suitable solvents and clean cloths.

All sharp edges shall be rounded or chamfered and all burrs, jagged edges, and surface defects shall be ground smooth.

Welds and adjacent areas shall be prepared such that there is: (1) no undercutting or reverse ridges on the weld bead, (2) no weld spatter on or adjacent to the weld or any other area to be painted and (3) no sharp peaks or ridges along the weld bead. All embedded pieces of electrode or wire shall be ground flush with the adjacent surface of the weld bead.

3.05 PREPARATION OF CONCRETE AND MASONRY SURFACES

A. All surfaces to be coated shall be prepared as specified herein and shall be dry and clean before coating. Specific surface preparation shall be specified for the individual coating systems.

B. Standards for concrete/masonry surface preparation shall be as defined and specified by guideline No. 03732 (latest revision) as published by the International Concrete Repair Institute.

C. Concrete and masonry surfaces shall be prepared in accordance with the International Concrete Repair Institute Guideline No. 03732 to provide the specified Concrete Surface Profile CSP 2 - CSP 9, and the recommendations of the repair, coating and lining manufacturer. According to ICRI, surface preparation methods that may result in a CSP 1 - CSP 9, include acid etching, detergent scrubbing, low-pressure water blasting, abrasive (sand) blasting, and high and ultra high pressure water jetting.

Concrete and masonry surface preparation method shall be as selected by CONTRACTOR to meet the specified concrete surface profile requirement and the other specified surface preparation requirements.

D. The Concrete Surface Profile (CSP) requirements shall be as follows:
1. ICRI CSP 1 - Acid Etched.
2. ICRI CSP 2 - Grinding.
3. ICRI CSP 3 - Light Shot Blast.
4. ICRI CSP 4 - Light Scarification.
5. ICRI CSP 5 - Medium Shot Blast.
6. ICRI CSP 6 - Medium Scarification.
7. ICRI CSP 7 - Heavy Abrasive Blast.
8. ICRI CSP 8 - Scabbled.
9. ICRI CSP 9 - Heavy Scarification.

These classifications are to be used to determine depth of surface profile and are not intended to dictate surface preparation method to be employed.

3.06 PREPARATION OF EXISTING COATED SURFACES

A. Existing coated surfaces to be painted shall be detergent washed and fresh water rinsed. Loose, abraded, or damaged coatings shall be cleaned to substrate by SSPC-SP2 (Hand Tool Cleaning) or SSPC-SP3 (Power Tool Cleaning). Surrounding intact coating shall be feathered. One spot coat of the specified primer shall be applied to bare areas overlapping the prepared existing coating. One full finish coat of the specified material shall be applied overall.

B. The exact nature of the existing coatings is not known in all cases; and, while it is assumed that they have oxidized sufficiently to prevent lifting or peeling when overcoated with the paints specified,

the compatibility shall be checked by application to a small area prior to starting the painting. If lifting or other problems occur, request instructions from the ENGINEER.

3.07 SHOP PAINTING

A. All fabricated steel work and equipment shall receive at the factory at least one shop coat of prime paint compatible with the paint system required by these Specifications. Surface preparation prior to shop painting shall be as specified. Finish coats may be applied in the shop if acceptable to the ENGINEER. All shop painted items shall be properly packaged and stored until they are incorporated in the Work. Any painted surfaces that are damaged during handling, transporting, storage or installation shall be cleaned, scraped and patched before field painting begins. Work shall be equal to the original painting received at the shop. Equipment or steel work that is to be assembled on the site shall likewise receive a minimum of one shop coat of paint at the factory. Surfaces of exposed members that will be inaccessible after erection shall be prepared and painted before erection.

B. The CONTRACTOR shall specify the shop paints to be applied when ordering equipment in order to assure compatibility of shop paints with field paints. The paints and surface preparation used for shop coating shall be identified on shop drawings submitted to the ENGINEER for review.

C. Shop finish coats may be the standard finish as ordinarily applied by the manufacturer if it can be demonstrated to the ENGINEER that the paint system is equal to and compatible with the paint system specified. However, all pumps, motors, valves, pipe and other equipment shall receive at least one field applied finish coat after installation.

3.08 COATING SYSTEM INDEX

A. The following is a general index to the Coating System descriptions contained herein:

SYSTEM NUMBER	TITLE
2A	Exterior of New Precast Concrete
4E	Exposed Metal (Existing/Shop Primed) - Highly Corrosive
7	Interior Metal - Highly Corrosive
7E	Interior Metal (Existing/Shop Primed) - Highly Corrosive.
23	Chemical Resistant Wall (Concrete and Masonry)
24	Exposed FRP, PVC
24E	Exposed FRP, PVC (Existing)
25	Interior FRP, PVC
25E	Interior FRP, PVC (Existing)
27	Aluminum and Dissimilar Metal Insulation
109	Interior Concrete and Masonry
109E	Existing Interior Concrete and Masonry
111	Exterior Stucco Cementitious Coating (Flat)
111E	Existing Exterior Stucco Cementitious Coating (Flat)
154NS	Concrete Floor (Chemical Resistant) Non-Skid

3.09 COATING SYSTEMS

A. System No. 2A - Exterior of New Precast Concrete

Surface Preparation:	All curing oils, form oils, laitance, soluble salts and loose concrete must be removed per SP13. Concrete must be dry and thoroughly clean before coating.
Prime Coat:	None required.
Top Coat:	Polyamide Epoxy Coal Tar at 16.0 mils DFT per coat.
MDFT:	16 mils DFT
Color:	Black

B. System No. 4E - Exposed Metal (Existing/Shop Primed) - Highly Corrosive.

Surface Preparation: (Existing)	Remove all dirt, oil, grease, chemicals by High pressure water blasting. Remove all rust and loose damaged paint by abrasive blast cleaning per SSPC-SP7 (Brush Off Blast) or by SSPC-SP2 & 3 Hand & Power Tool Cleaning.
Surface Preparation: (Shop Primed)	Piping, fittings, and valves shall be shop primed in accordance with Specification Sections 15005 and 15100. Equipment, pumps and motors shall be shop primed per applicable Specification Sections.
Spot Prime:	Spot prime all bare metal areas with an epoxy mastic at 5.0 mils DFT.
Prime Coat:	Epoxy Mastic 5.0 Mils DFT.
Top Coat:	Polyurethane 3.0 Mils DFT.
Sealant:	Apply single component sealant as specified in Section 07900 - Sealants, at location where two pieces of steel overlap, between flanges, at bolts, etc.
MDFT:	8.0 Mils for the two (2) coat system.
Color:	Color as scheduled on drawings.

C. System No. 7 - Interior Metal - Highly Corrosive.

Surface Preparation:	Abrasive blast clean metal to an SSPC-SP10 (near-white metal blast).
Prime Coat:	Epoxy (Non-Potable) 7.0 Mils DFT.
Top Coat:	Epoxy (Non-Potable) 3.0 Mils DFT.

MDFT:	10.0 Mils for the two (2) coat system.
Color:	As scheduled on Drawings.

D. System No. 7E - Interior Metal (Existing/Shop Primed) - Highly Corrosive.

Surface Preparation: (Existing)	Remove all dirt, oil, grease, chemicals by high pressure water blasting. Remove all rust and loose damaged paint by abrasive blast cleaning per SSPC-SP7 (Brush Off Blast) or by SSPC-SP2 & 3 Hand & Power Tool Cleaning.
Surface Preparation: (Shop Primed)	Piping, fittings, and valves shall be shop primed in accordance with Specification Sections 15005 and 15100. Equipment, pumps and motors shall be shop primed per applicable Specification Sections.
Spot Prime (Existing):	Spot prime all bare metal areas with an epoxy mastic at 5.0 mils DFT.
Prime Coat:	Epoxy (Non-Potable) 7.0 Mils DFT.
Top Coat:	Epoxy (Non-Potable) 3.0 Mils DFT.
MDFT:	10.0 Mils for the two (2) coat system.
Color:	As scheduled on Drawings.

E. System No. 23 - Chemical Resistant Wall (Concrete Masonry)

Surface Preparation:	Surface shall be clean, dry, free of dust, oil, curing compounds and other foreign materials.
Prime Coat/Block Filler:	One (1) coat Epoxy waterborne cementitious acrylic at 80 SFPGPC.
Top Coat:	Two (2) coats Waterborne Acrylic Epoxy (Semi-Gloss) at 4.0 - 6.9 DFT per coat.
Color:	As scheduled on Drawings.

F. System No. 24 - Exposed FRP, PVC.

Surface Preparation:	Solvent cleaning, SSPC-SP1, to remove soluble contaminants. Remove all insuluble contaminants or foreign materials by hand, SSPC-SP2, or Power Tool Cleaning, SSPC-SP3.
Prime Coat:	Epoxy (non-potable) at 2.0 - 4.0 Mils DFT.
Top Coat:	High Build Acrylic Polyurethane at 2.0 - 4.0 Mils DFT.

MDFT: 6.0 Mils for two (2) coat system.

Color: As scheduled on Drawings.

G. System No. 24E - Exposed FRP, PVC (Existing)

Surface Preparation: Remove all dirt, oil, grease, chemicals and loose paint by high pressure water blasting (min 3500 PSI) and scraping. Feather all edges. Lightly sand or abrade to roughen and de-gloss existing surface.

Prime Coat: Epoxy (Non-Potable) 3.0 Mils DFT.

Top Coat: Polyurethane 2.0 Mils DFT.

Color: As scheduled on drawings.

H. System No. 25 - Interior FRP, PVC.

Surface Preparation: Solvent cleaning, SSPC-SP1, to remove soluble contaminants. Remove all insuluble contaminants or foreign materials by hand, SSPC-SP2, or Power Tool Cleaning, SSPC-SP3.

Prime Coat: Epoxy (Non-Potable) 3.0 Mils DFT.

Top Coat: Epoxy (Non-Potable) 3.0 Mils DFT.

MDFT: 6.0 Mils for the two (2) coat system.

Color: As scheduled on Drawings.

I. System No. 25E - Interior FRP, PVC (Existing)

Surface Preparation: Solvent cleaning, SSPC-SP1, to remove soluble contaminants. Remove all insuluble contaminants or foreign materials by hand, SSPC-SP2, or Power Tool Cleaning, SSPC-SP3. Lightly sand or abrade to roughen and de-gloss existing surface.

Prime Coat: Epoxy (Non-Potable) 3.0 Mils DFT.

Top Coat: Epoxy (Non-Potable) 3.0 Mils DFT.

MDFT: 6.0 Mils for the two (2) coat system.

Color: As scheduled on Drawings.

J. System No. 27 - Aluminum and Dissimilar Metal Insulation

Surface Preparation: Scarify surface.

Top Coat: Polyamide Epoxy Coal Tar at 10.0 mils DFT.

MDFT: 10.0 mils for one (1) coat system.

Color: Black.

K. System No. 109 - Interior Concrete and Masonry (Semi-Gloss)

Surface Preparation: Surface shall be clean, dry, free of dust, oil, curing compounds and other foreign materials.

Prime Coat: One (1) coat Epoxy Block Filler 80 SFPGPC.

Top Coats: Two (2) coats Waterborne Acrylic Epoxy (Semi-Gloss) at 254 SFPGPC.

Color: As scheduled on drawings.

L. System No. 109E - Existing Interior Concrete and Masonry (Semi-Gloss)

Surface Preparation: Remove all dirt, oil, grease, chemicals and loose paint by high pressure water blasting (3500 PSI with a turbo tip). Remove as much of the topcoats from the block filler as possible. All remaining topcoat must be tightly adhering. Feather all edges of remaining topcoat.

Surface Profile: ICRI CSP 1

Patching: Patch all existing holes in walls with non-shrink grout as specified in Section 03600 - Grout.

Caulking: Prepare and fill all surface cracks (≤ 1/4-inch) with sealant as specified in Section 07900 - Sealants. Caulk all doors, louvers, and fans.

Spot Prime: Acrylic Emulsion (low gloss) at 254 SFPGPC or Waterborne Acrylic Bonding Primer at 1.0-2.0 mils DFT.

Top Coat: Two (2) coats Acrylic Polymer (Semi-Gloss) at 254 SFPGPC.

Color: As scheduled on drawings.

M. System No. 111 - Stucco Cementitious Coating (Flat)

Surface Preparation: Allow cementitious finish a minimum of 28 days drying/curing time. Surface shall be clean, dry, free of dust, oil, curing compounds and other foreign materials.

Prime Coat: Acrylic Emulsion (Low Gloss) at 318 SFPGPC

Top Coat: Acrylic Emulsion (Low Gloss) at 318 SFPGPC

Color: As scheduled on drawings.

N. System No. 111E - Existing Stucco Cementitious Coating (Flat)

Surface Preparation:	Remove all dirt, oil, grease, chemicals and loose paint by high pressure water blasting (min. 3500 PSI).
Surface Profile:	ICRI CSP 1
Caulking:	Prepare and fill all surface cracks (≤ 1/4-inch) with sealant as specified in Section 07900 - Sealants. Caulk all doors, louvers, and fans.
Patching:	Patch all existing holes (or holes resulting from work) in walls with non- shrink grout as specified in Section 03600 - Grout.
Cementitious Repair:	Thoroseal plaster mix with sponge finish. (For damaged areas greater than 3-inch diameter)
Prime:	Acrylic Emulsion (Low Gloss) at 2.0-3.0 Mils (287 SFPGPC)
Top Coat:	Acrylic Emulsion (Low Gloss) at 2.0-3.0 Mils (287 SFPGPC).
Color:	As scheduled on drawings.

O. System No. 154NS - Concrete Floor (Chemical Resistant) Non-Skid

Surface Preparation:	Remove all dirt, oil, grease, mold, mildew, chemicals, waste and other surface contaminants by high pressure water blasting (minimum 3000 psi). After pressure washing, remove all failing, loosely adhering coatings and concrete and scarify all sound, tightly adhering coatings by abrasive blast cleaning per SSPC-SP13 (surface preparation of concrete), feather the edges of all sound, tightly adhering coatings.
Seal Coat:	One (1) coat Koester VAP I 2000 at 100 to 130 SFPG.
Top Coat:	Novolac Epoxy 6.0-10.0 mils with Glass Bead Additive.
MDFT:	6-10 mils DFT
Color:	As scheduled on Drawings.

3.10 UNIDENTIFIED SURFACES

A. Any surfaces not specifically named in the Schedule and not specifically excluded or exempted shall be prepared, primed and painted in the manner and with materials consistent with these Specifications. The ENGINEER shall select which of the manufacturer's products, whether the type is indicated herein or not, shall be used

for such unidentified surfaces. This painting shall be done within the Scope of the Contract.

3.11 WORKMANSHIP

A. On metal surfaces apply each coat of paint at the rate specified by the manufacturer to achieve the minimum dry mil thickness required. If material has thickened or must be diluted for application by spray gun, the coating shall be built up to the same film thickness achieved with undiluted material. One gallon of paint as originally furnished by the manufacturer shall not cover a greater area when applied by spray gun than when applied unthinned by the application of an additional coat(s). On masonry, application rates will vary according to surface texture, however, in no case shall the manufacturer's stated coverage rate be exceeded. On porous surfaces, it shall be the painter's responsibility to achieve a protective and decorative finish either by decreasing the coverage rate or by applying additional coats of paint.

B. All safety equipment shall be painted in accordance with OSHA Standards as approved.

C. Materials shall be mixed in proper containers of adequate capacity. All materials shall be thoroughly stirred before use and shall be kept stirred while using. No unauthorized thinners or other materials shall be added to any paint.

D. Only skilled painters shall be used on the Work and specialists shall be employed where required.

E. Steel members, metal castings, mechanical and electrical equipment and other metals which are shop primed before delivery at the site will not require a prime coat on the job. All piping and other bare metals to be painted shall receive one coat of primer before exposure to the weather, and this prime coat shall be the first coat as specified in the painting schedule.

F. Finish surfaces shall not show brush marks or other irregularities. Undercoats shall be thoroughly and uniformly sanded with No. 00 sandpaper or equal to remove defects and provide a smooth even surface. Top and bottom edges of doors shall be painted and all exterior trim shall be back-primed before installation.

G. Painting shall be continuous and shall be accomplished in an orderly manner so as to facilitate inspection. All exterior concrete and masonry painting shall be performed in one continuous manner structure by structure. Materials subject to weathering shall be prime coated as quickly as possible. Surfaces of exposed members that will by inaccessible after erection shall be cleaned and painted before erection.

H. Before final acceptance of the Work, all damaged surfaces of paint shall be cleaned and repainted as directed by the ENGINEER.

3.12 APPLICATION SCHEDULE

A. Coating systems shall be used at locations as scheduled on the drawings.

B. **System No. 27 - Aluminum and dissimilar metal insulation.** This system shall be used on all aluminum in contact with concrete. Insulate all contacting dissimilar metals with this system. Neoprene pads may be substituted to insulate aluminum from concrete or aluminum from steel.

3.13 COLOR CODING FOR PIPES AND EQUIPMENT

A. All existing piping, valves, and equipment that are repainted shall be color coded. When color coding is specified, it shall consist of color code painting and lettering identification of all exposed conduits, trough items and pipelines for the transport of gases, air, liquid and semi-liquids including all accessories such as valves, insulated pipe coverings, fittings, junction boxes, bus bars, connectors and all operating accessories which are integral to be whole function mechanical pipe and electrical conduit system.

B. All hangers and pipe support floor stands shall be painted. The system shall be painted up to but not including the flanges attached to the mechanical equipment nor the flexible conduit connected to electrical equipment. Colors shall be as noted in the Finish Schedules.

C. All systems which are an integral part of the equipment that is originating from the equipment and returning to the same piece of equipment, shall be painted between and up to but not including the fixed flanges or connections on the equipment.

D. Color coding requirements are as indicated by the Finish Schedules contained in the Drawings.

E. CONTRACTOR shall submit proposed schedule for color coding pipes and equipment for approval by ENGINEER/OWNER.

3.14 PIPE LABELING

A. All exposed piping repainted shall be labeled to indicate flow stream and direction of flow.

B. Labels shall be installed following completion of specified protective coating system application.

C. Maximum spacing between labels shall be 10'-0" on center.

D. In locations where pipes are horizontally or vertically stacked, pipe labels shall be arranged in similar.

3.15 CLEAN UP

A. It shall be the responsibility of the Contractor to collect and dispose of properly, all waste materials from the site in accordance with all requirements of the Federal, State and local Environment Protection Agencies.

B. At completion of the Work, remove all paint where spilled, splashed, splattered, sprayed or smeared on all surfaces, including glass, light fixtures, hardware, equipment, painted and unpainted surfaces.

C. After completion of all painting, the Contractor shall remove from the job site all painting equipment, surplus materials and debris resulting from this Work.

SECTION 10999

MISCELLANEOUS BUILDING SPECIALTIES

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the work necessary to furnish and install the miscellaneous building specialties specified hereinafter, complete.

B. The Section includes:
   1. Fire extinguishers.
   2. Signs.

C. Like items of equipment provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, operation and maintenance.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements which apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 08120 - Aluminum Doors and Frames.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Building Codes
   1. Florida Building Code, Latest Revision.

1.04 SUBMITTALS

A. Submittals shall be in accordance with Section 01300 - Submittals.

B. Submit manufacturer's complete descriptive literature for review by the ENGINEER for installation, color, cleaning and servicing all items proposed for use.

PART 2 PRODUCTS

2.01 GENERAL

A. The use of a manufacturer's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired. Products from other manufacturers will be considered in accordance with the General Conditions.

2.02 FIRE EXTINGUISHERS

A. Fire extinguishers, 10 pound capacity, dry chemical type, rated for A, B and C Class fires. Extinguishers shall be red enamel painted aluminum cylinders with indicating gauge and shall be model Number PRO10MP as manufactured by Kiddie Proline, or equal.

B. Brackets, as manufactured by extinguisher manufacturer, shall be furnished for all wall hung fire extinguishers.

C. Number required and installation locations shall be indicated on drawings.

2.03 SIGNS

A. Plastic building signs and door name plates shall be furnished as shown on the Drawings. The signs shall be 1/8-inch thick with 1-inch high Helvetica letters on a 2-inch high plate as long as required for sign lettering. The color shall be black with white lettering or other colors as required by OWNER.

B. Text shall be as noted on architectural drawings and in door sign schedule.

C. Attach the signs to doors with stainless steel pop rivets or stainless steel self-tapping screws.

PART 3 EXECUTION

3.01 GENERAL

A. Assemble and install all items in accordance with manufacturer's recommendations. Prevent scratching or damaging materials during storage, assembly or installation.

END OF SECTION

SECTION 11251R

MAGNETIC ION EXCHANGE (MIEX) REGENERATION SYSTEM

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers all work required to furnish all labor, materials, equipment and incidentals required to engineer, fabricate, deliver, install, commission and test for operation the new Magnetic Ion Exchange (MIEX) Regeneration System(s) and all appurtenant work, complete and operable, all in accordance with the requirements of the Contract Documents.

B. All items of equipment specified herein shall be furnished by one supplier. This supplier shall have the responsibility of providing the equipment and accessories required to provide a complete functioning Magnetic Ion Exchange (MIEX) Regeneration system.

C. Like items of equipment provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, operation, maintenance, spare parts and manufacturer's service.

D. See CONTRACT FOR CONSTRUCTION and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Appendix A – Equipment Supply Summary for MIEX Regeneration Equipment Upgrades for Main and Pratt Water Treatment Plants, FL, July 31, 2020, Revision No. 4.

B. Section 05500 - Fabricated Metalwork and Castings.

C. Section 09900 - Protective Coatings.

D. Division 16 - Electrical.

1.03 DEFINITIONS

A. MIEX System Manufacturer/Supplier or Supplier = Single manufacturer/supplier for the MIEX regeneration system and sub-systems, complete in accordance with this specification inclusive of engineering, manufacturer, factory and field testing, system startup/commissioning, operation and maintenance training and warranty.

1.04 GENERAL SYSTEM DESCRIPTION

A. General Process Description:

1. The MIEX equipment is designed to effectively remove dissolved organic carbon (DOC) as a pretreatment step to a plant’s normal treatment scheme. The MIEX treatment process utilizes a continuous flow ion exchange system allowing uninterrupted flow and a consistent water quality.

2. In the contactor vessel/basin, resin is kept in a fluidized state where it is in contact with the incoming raw water. Negatively charged Dissolved Organic Carbon (DOC) ions in the raw water replace chloride ions on active sites on the MIEX Resin bead. Periodically, resin is sent to regeneration system. Approximately 1.00 gal of resin per MG of raw water flow rate is transferred to the regeneration system.

B. Regeneration Description:

1. Loaded resin is regenerated periodically in a batch process in the regeneration skid tank(s). A sodium chloride (NaCl) solution is pumped from the recycle brine and salt saturation and storage tanks to the regeneration vessels and is used to reverse the ion exchange process. During the regeneration process, the organics attached to the resin surface are substituted for chloride ions and concentrate in the brine stream.

2. A small portion of the brine is bled to waste (i.e. sewer system) during each regeneration cycle and is replaced with an equal amount of fresh brine from the salt saturation tank. The brine is separated from the resin and sent back to the brine tank. Regenerated resin is rinsed with water, then transferred back to the contactors.

C. Virgin Resin Addition:

1. Periodically virgin resin is introduced and used to replace attrited/damaged resin that has been carried out with the MIEX process effluent. All system components must be designed and constructed to optimize exchange kinetics and minimize resin attrition.

1.05 SYSTEM DESIGN AND PERFORMANCE REQUIREMENTS

A. General Design Criteria:

1. Raw water flow rates (MGD):

Influent:	R. L. Pratt WTP	Main WTP
Minimum:	2.0	2.0
Average:	2.0	4.0
Design:	4.0	6.0
Maximum Hydraulic:	4.0	6.0

2. Raw Water Characteristics:

	R. L. Pratt and Main WTP(s)
TOC (mg/l)	10
DOC (mg/l)	10
True Color (Pt-co):	30-45 (37 avg)
Sulfates (mg/L):	7.6
Chlorides (mg/l)	64.0
Total Hardness (mg/l):	278
Calcium Hardness (mg/l)	262
Magnesium Hardness (mg/l)	16
pH:	6.7 avg
Dissolved Iron (mg/l):	0.03
Sodium (mg/l):	52
Bromide (mg/l):	0.09

B. MIEX System Design Parameters (R. L. Pratt and Main WTP(s)):

Current Contractor Resin Concentration (ml/L)	30
Minimum (Design) Contact Time (Minutes):	10
Resin Regeneration Volume:	1.0 L Resin per 1000 L Water Treated (1000 Bed Volumes)

C. System Performance Objectives (R. L. Pratt and Main WTP(s)):

For both WTP sites the MIEX System overall operational performance with the upgraded regeneration systems shall be assessed on being able to achieve documentable benchmarks (established for each site) of equal or better performance to current MIEX System operations. Water quality, salt and resin consumption will be assessed as Performance Objectives.

MIEX Effluent Water Quality: For water quality (UVA, Color, Sodium and Chloride), existing MIEX System baseline treatment performance will be determined either from recent historical MIEX water quality data or from additional sampling. If the MIEX System Supplier/ENGINEER determines historical water quality data provided is insufficient, then the OWNER/ENGINEER shall arrange for a total of 10 sample sets (1 x 500mL raw and 1 x 500mL MIEX effluent per set) from each site to be supplied over a nominal period of 2-4 weeks (prior to demolition of existing regeneration systems). These results will then serve as the baseline for assessing the MIEX Systems treatment performance post the regeneration upgrades.

Salt Consumption: For assessing salt consumption, the last 12 months of salt purchases (net tons) and net water treated (MG) will be made available by the OWNER/ENGINEER to determine a current salt usage (lb per MG water treated). Following the regeneration upgrade, salt usage volumes will be totalized daily and these will be equated into a lb per MG usage and compared with current pre-upgrade figures.

Resin Consumption: For assessing resin consumption, the last 24 months of resin purchases (net liters) and net water treated (MG) will be made available by the OWNER/ENGINEER to determine a current resin consumption (liters per MG water treated). Following the regeneration upgrade, resin consumption volumes will be totalized daily and these will be equated into a liters per MG treated and compared with current pre-upgrade figures.

In addition to these, there may be additional information required such as plant operational data, resin concentration, log sheets etc., both which should be furnished prior to the demolition of each existing MIEX regeneration system at each location.

Performance Targets: Based on the sampling results, the OWNNER and MIEX System Supplier will mutually agree on the performance targets for the below parameters. The below listed system performance targets shall be determined for each site prior to existing regeneration system demolition as specified above.

1. MIEX System Performance Targets (Main WTP):
    a. UVA Removal (%).
    b. True Filtered Color (Pt/co).
    c. Sodium and Chloride concentration in MIEX effluent (mg/L).
    d. Regeneration salt usage. Estimated 40% reduction from current usage or 500 lb/MG treated at 1,000 BV.
    e. Resin consumption. Equal to current.
2. MIEX System Performance Targets (R.L. Pratt WTP):
    a. UVA Removal (%).

b. True Filtered Color (Pt/co).
c. Sodium and Chloride concentration in MIEX effluent (mg/L).
d. Regeneration salt usage. Estimated 40% reduction from current usage or 500 lb/MG treated at 1,000 BV.
e. Resin consumption. Equal to current.

D. Structural Design Parameters (R. L. Pratt and Main WTP(s)):

1. Building Code: Florida Building Code 7th Edition (2020)
2. Seismic Zone: 0
3. Platform/Walkways/Stairs Live Load: 100 PSF
4. Maximum walkway deflection with live and dead loads applied shall not exceed L/360.

E. MIEX System supplier shall select and size all components of the system to conform with the specified design and performance requirements. Component materials of construction shall meet or exceed these specifications.

1.07 SUBMITTALS

A. Shop Drawings and product data submittals shall be in accordance with Section 01300 - Submittals, as applicable product data and shop drawings are required for all items specified in this Section.

B. Process Submittal: Includes the following:

1. Process & instrument drawings (P&ID's).
2. Equipment summary schedule.
3. Mechanical valve schedule.
4. Process instrument schedule.
5. All process equipment supplier cutsheets (for agitators, pumps, valves, instruments, package equipment).

C. Regeneration Equipment Submittal: Includes the following:

1. General arrangement drawings of the complete resin regeneration system.
2. General arrangement drawings of associated tanks:
   a. Regeneration skid(s).
   b. Resin Pumping Skid
   c. Stairs and walkways.
3. Virgin resin skid drawing(s).

D. Electrical Submittal, includes the following:

1. One line power and instrumentation drawings.
2. Electrical panel layout drawings and bill of materials.
3. Electrical panel wiring drawings showing all field wiring from panel(s) to field devices.
4. System controls narrative including alarm lists and interface I/O to SCADA.

E. Submittals for establishing specification compliance shall include but not be limited to the following items:

1. Certified shop and erection drawings showing all important details of construction and installation including dimensions, anchor bolt locations and size and location of connections to other work, weight of equipment and bill of materials.

2. Design calculations to show conformance with the performance and structural design parameters.

3. A certificate of performance stating the system design will be warranted to meet the performance requirements specified in this section.

4. Performance data curves showing head, capacity, horsepower demand, and pump efficiency over the entire operating range of all pumps, from shutoff to maximum capacity. Curves shall be submitted on 8-1/2" x 11" sheets at as large a scale as is practical. Curves shall be plotted from zero flow at shut off head to a flow at head no greater than 10 feet. Catalog sheets showing a family of curves will not be acceptable. The equipment manufacturer shall indicate separately the head, capacity, horsepower demand and overall efficiency corrected for materials of construction. Performance requirements shall be as defined in the Hydraulic Institute Standards.

   Affinity law curves showing the various speeds of operation shall also be submitted.

5. Descriptive literature, bulletins, and/or catalogs cuts of the equipment. Include complete manufacturer's specifications including materials descriptions.

6. Certified shop and erection drawings showing all important details of construction and installation including dimensions, anchor bolt locations, size and location of connections to other work.

7. Complete NEMA required motor nameplate information for all motors.

8. Electrical connection diagrams for all motors.

9. Special handling instructions and requirements for storage and protection prior to installation.

10. List of MANUFACTURER's recommended spare parts and special tools with manufacturer's part numbers and current price for each item.

11. The recommended grades of lubricants along with alternative references to equal products of other manufacturers.

12. Complete wiring diagrams and schematics of all power and control systems showing wiring requirements between all system components, motors, sensors, control panels, etc. including connections to work of other Sections.

13. Complete plumbing diagrams and schematics showing all plumbing requirements between all system units and connections to work of other sections.

14. Complete motor rating including all nameplate data; guaranteed minimum rated-load, rated-speed efficiency; speed-torque curve; list of any motor special features being provided; and information on bearing life and type of bearing lubrication recommended.

15. Area control panel (ACP) dimensional drawings; information on size and location of space for incoming and outgoing conduit.

16. Layout of ACP front showing all pushbuttons, switches, instruments, indicating lights, etc.

17. Complete system operating description.

18. Complete system schematic (elementary) wiring diagrams.

19. Complete system interconnection diagrams between power supply control panels, drive motors, and all related components or controls external to the system, including wire numbers and terminal board point identification.

20. One-line diagram of 480-volt system including component ratings.

21. Descriptive literature for all control devices such as relays, timers, etc.

22. Itemized bill of materials listing all system components.

23. Proposed factory and field test descriptions in sufficient detail to fully describe the specific tests to be conducted and quantities to be measured to demonstrate full conformance with these specifications.

24. Operating weights of all individual tankage.

25. Complete project schedule including, but not limited to, shop drawing preparation and approval, material/equipment procurement,

shop manufacturing, shop testing and final checkout, shipping, field erection, testing, and closeout.

26. Coordination drawings for general contractor's work.

F. Complete Operation and Maintenance Manuals shall be submitted in accordance with Section 01740 - Operation and Maintenance Data. O&M Manuals shall be provided prior to startup.

G. Warranty information shall be submitted in accordance with the Operation and Maintenance Manuals.

H. Provide all additional submittal information as specified in the related specifications sections, as applicable.

I. Submit current proof of enrollment in the following UL programs:

1. Industrial Control Panels (UL508/UL508A).

J. Reference information as specified herein Article 1.08 - Quality Assurance.

K. Electronic PDF files of the submittals can be issued via either web links to download or on CD/DVD's. Hard copies as required can be printed from these files by others.

1.08 QUALITY ASSURANCE

A. The MIEX system supplier assumes system responsibility for manufacturing the complete system.

B. The MIEX system supplier has the required financial capability to complete the work as specified.

C. The MIEX system supplier maintains a qualified technical staff, design office and local service center.

D. The MIEX system supplier has the physical plant and fabricating personnel to complete the work specified.

E. The manufacturer/supplier has successfully provided similar work for at least 5 years and has an installation list of at least 10 completed similar projects.

F. The names of at least five references who are users of similar systems designed, assembled and furnished by the supplier and the systems must have been in operation for at least one year.

G. To show evidence of being able to provide the quality of equipment and services described in this specification, the MIEX system supplier shall submit their quality system ISO 9001 certification. The supplier's quality procedures shall provide for a means of qualifying all sub-vendors and shall specify that the fabrication facility is a critical vendor and shall require inspection. The quality system shall be audited by a third party independent inspector. Certification shall remain in effect throughout the project startup.

1.09 DELIVERY, STORAGE AND HANDLING

A. Proper shipping, storage and handling procedures shall be followed as recommended by the MIEX system supplier and as specified herein.

B. All parts shall be properly protected so that no damage or deterioration will occur during shipment, normal unloading, storage and installation.

C. All equipment and parts must be properly protected against any damage during a prolonged storage period at the site. Proper job site storage is the responsibility of the MIEX system supplier.

1.10 WARRANTY

A. The MIEX System Supplier and CONTRACTOR shall warrant the regeneration system(s) being supplied to the OWNER against defects in workmanship (100% coverage) and materials (100% coverage) for a period of twenty-four (24) months under normal use, operation and service.

B. Warranty period shall commence on date of contract substantial completion as outlined in the General Conditions. Warranties for all equipment installed under this contract shall run concurrently.

C. The MIEX System Supplier warranty shall cover the supply of warrantable parts to the site. Work required on site for removal and replacement of parts changed out under warranty and all associated costs shall be the CONTRACTOR's responsibility. See Ixom Standard 2-year Limited Warranty located in the Equipment Supply Summary, included herein Appendix A.

PART 2 PRODUCTS

2.01 RESIN REGENERATION SYSTEM (SCOPE OF SUPPLY SUMMARY)

A. The equipment furnished by MIEX system supplier will be detailed and described in produced sets of submittal documents, which include, process and instrumentation drawings (P&ID's), schedules, equipment arrangement drawings, electrical and control panel drawings.

B. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.02 MIEX REGENERATION SYSTEM SPECIFICATIONS

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.03 WALKWAY ACCESS STAIRS

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.04 ADDITIONAL RESIN INVENTORY

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.05 VALVES

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.06 PIPING

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.07 PROCESS INSTRUMENTATION AND CONTROLS

A. General:

1. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2. The P & IDs and these Specifications are not intended to completely depict all of the functional requirements of the control systems provided under this Section. The MIEX system supplier shall provide all instrumentation and controls necessary to provide safe and operable systems. The specific control systems proposed shall be subject to the review and approval of the ENGINEER.

B. Functional Requirements

1. All process functional requirements shall be as shown on the drawings and specified herein Appendix A.

2.08 SKID SUPPORT ASSEMBLIES (Typical)

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.09 ELECTRICAL

A. All conduits, wiring and miscellaneous electrical items shall be as specified in Division 16.

B. All metal and electrical enclosures shall be effectively grounded. Provide a compression grounding connector on the skid to ground the skid(S) to the site ground system.

C. All conduit and wiring between J-boxes and skid mounted devices and equipment shall be provided in accordance with Division 16, ELECTRICAL, based on the system supplier's shop drawings.

D. Power Input to ACP

1. Power input to the MIEX Area Control Panel (ACP) shall be 480V, 3 phase, 3-wire, with ground. See electrical one-line diagram on drawings.

E. See electrical drawings for additional requirements.

F. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.10 ANCHOR BOLTS

A. Type 316 Stainless steel anchor bolts, nuts and washers shall be provided and installed by CONTRACTOR.

B. Anchor bolts shall be sized by the MIEX system supplier.

2.11 MISCELLANEOUS ITEMS

A. Lifting Lugs

1. Lifting lugs shall be provided to facilitate off-loading of the assembled skids provided per The MIEX® System scope of supply outlined in the Equipment Supply Summary, included herein Appendix A..

B. Miscellaneous

1. Other miscellaneous items required for assembly but not specifically named in this Section or in Appendix A shall be provided by CONTRACTOR in accordance with the applicable project specification(s).

C. Nuts, Bolts, Washers and Fasteners

1. All nuts, bolts, washers, fasteners and miscellaneous hardware shall be Type 316 stainless steel.

2.12 PROTECTIVE COATINGS

A. All skid-mounted equipment, including motors, shall be factory primed and finish coated by MIEX System Supplier in accordance with Section 09900 - Protective Coatings and the MIEX® System scope of supply outlined in the Equipment Supply Summary, included herein Appendix A.

B. Coating Schedule shall be as follows:

Item	System Number from Section 09900
Pumps and Motors	7E
Miscellaneous Ferrous Metals	7E
PVC Piping	24
Aluminum in Contact with Concrete	27
Galvanized or Aluminum	N/A

C. Color coding shall be as specified in Section 09900 - Protective Coatings. Color coding selections shall be as per the piping schedule.

D. All delivered equipment coating systems damaged as a result of delivery, installation or other field work shall be repaired by CONTRACTOR.

2.13 RESIN HANDLING PUMPS (General)

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.14 SPARE PARTS

A. Furnish the manufacturer's recommended spare parts including at least the following:

1. None.

B. All parts shall be furnished in containers which are clearly marked and identified as to the contents.

C. Provide spare parts bill of materials with submittals for approval.

2.15 ITEMS THAT ARE RESPONSIBILITY OF OR PROVIDED BY CONTRACTOR

A. The MIEX® System scope of supply is outlined in the Equipment Supply Summary, included herein Appendix A.

2.16 ACCEPTABLE MANUFACTURERS

A. The resin regeneration system equipment and accessories specified herein shall be manufactured and/or provided by Ixom Watercare, Inc., or equal, meeting all requirements of this specification.

PART 3 EXECUTION

3.01 SHOP ASSEMBLY AND INSPECTION

A. The equipment specified herein shall be factory assembled as far as practical. All mating parts for field assembly shall be trial fit in the shop. The OWNER/CONTRACTOR shall be given the opportunity to witness the shop assembly at their own expense.

B. Shop inspection shall be performed by IXOM personnel or nominated representative and certified by the manufacturer. The inspection shall be documented and all deficiencies noted, corrected, re-inspected and final completion formally authorized. Final shipment authorization shall be by the manufacturer to ensure completion of all fabrication, assembly, and inspection requirements. Inspection records and evidence of inspector qualification shall be submitted to the OWNER upon request.

3.02 PROJECT SCHEDULE

A. As part of the CONTRACTOR overall project schedule, it shall include deadline delivery dates for various MIEX system supplier supplied equipment items based on the order of construction activities.

B. MIEX system supplier and the CONTRACTOR shall all mutually agree on the equipment delivery dates with inputs from all parties prior to setting the final schedule.

C. At a minimum the schedule shall have listed equipment delivery dates for the following:

1. Entire resin regeneration system, includes tanks and equipment skids.
2. Virgin resin skid.
3. Electrical panels: Main control panel(s) and any field installed panels, and any remaining instruments.

3.03 EQUIPMENT SHIPMENT

A. MIEX system supplier will arrange for all delivery of equipment to the job site. The CONTRACTOR shall be responsible for the following:

1. Inspecting of all deliveries for any damage or quantity short falls (based on documentation provided). Where required note any damaged / missing items on shipping documents.

2. Taking electronic digital photos / documenting any damaged or suspected damaged to equipment items.

3. Maintain all shipping and delivery documentation from carriers.

4. Have in place a procedures to store, log, manage, check-in / out equipment items as items are fitted / installed.

5. Supply necessary equipment and personnel for off-loading all equipment.

6. Full replacement of misplaced or lost equipment items that were shipped to site (with documentation proof) due to the CONTRACTOR'S lack of handling, storage or control of supplied equipment.

7. Carry necessary insurance coverage for MIEX System Supplier equipment items from accidental breakage from handling/installation, damages from serve natural disasters/weather, acts of unforeseen vandalism etc.

B. Store equipment skids, electrical panels, field instruments, valves, pumps indoors until ready for installation.

C. Follow written storage procedures supplied in equipment supplier manuals and by MIEX System Supplier.

3.04 INSTALLATION

A. The CONTRACTOR is responsible for the installation of all components of this specification including supplied by MIEX System Supplier and for integrating all components of the regeneration system to produce a complete and functional system.

B. IXOM must be consulted on the installation methods and may elect to be present on site for portions of installation of major components. CONTRACTOR shall give MIEX System Supplier a minimum of two (2) weeks' notice prior to the installation of major equipment items.

C. MIEX system supplier shall be given full access to the site and be able to make any site visits they require at their discretion.

D. Field Service: MIEX System Supplier shall provide the service of a qualified representative to oversee and assist with equipment installation. The number of visits and durations shall be a total of two (2) trips with two (2), eight (8) hour working days. One trip dedicated to each site. No actual installation work is carried out by MIEX System Supplier representatives; services are inspection and reviews only.

3.05 SITE ACCEPTANCE TESTING

A. Prior to completion of equipment installation, MIEX system supplier will issue a Site Acceptance and Testing (SAT) document for CONTRACTOR review and concurrence. The document outlines activities that will be under taken once all construction works are complete. The typical format will be:

1. Phase 1: Final installed equipment inspections.
2. Phase 2: Power up of panels and equipment
3. Phase 3: Dry equipment checks of drives, valves, instruments etc.
4. Phase 4: Water loop testing of equipment and processes.
5. Phase 5: Load additional resin inventory.
6. Phase 6: Plant operation and performance testing / verification.

B. MIEX system supplier will assume an overall lead role in this process, but participation from both the CONTRACTOR and OWNER will be required.

How the MIEX System is operated during installation of the new regeneration equipment is responsibility of OWNER. It is not the MIEX Systems Supplier responsibility to make any operational decisions on how other MIEX System components remaining are operated during construction.

C. It is assumed, unless otherwise detailed in the MIEX system supplier equipment supply contract, the following shall apply:

1. Start-up testing and commissioning of equipment will be carried out after complete installation of all MIEX® equipment items. Staged or staggered start-up / commissioning of individual equipment items or processes will not be performed by MIEX system supplier.

2. The following minimum times for MIEX System Supplier shall be included for start-up and commissioning of the equipment at each individual site:

   a. Initial Start-up of Equipment and Testing: 5 days.
   b. Equipment Performance Testing: Total of 5 days.
   c. Operator Training: Total of 6 hours, minimum, provided in two 3-hour periods, during the Performance test period.
   d. Additional time can be provided if requested by the OWNER at additional cost.

D. As a part of the equipment start-up, MIEX System Supplier shall:

1. Verify the equipment is installed properly and in accordance with the manufacturer’s requirements and instructions, and as such, it is appropriate to apply power to the units in question.

2. Verify all manual, automatic and safety control features of the equipment function properly, including all alarm, activation and deactivation sequences.

3. Verify the equipment can operated without excessive noise, vibration, overheating, overloading, jamming, etc. during normal operating conditions.

4. Check amperage draws on all power feeds with equipment running under normal operating conditions.

3.06 PERFORMANCE TESTING

A. Following completion of calibration of all equipment and instruments, functional water testing and loading of initial resin inventory, MIEX system supplier shall conduct a performance test on the MIEX® System with the assistance from CONTRACTOR.

B. The Performance Test shall be conducted over a consecutive three (3) day period. The test shall be determined successful if the following are achieved:

1. Expected MIEX System treatment objectives are achieved, per article 1.05,A.

2. Production flow range per article 1.05,A.

3. Three (3) successive resin regenerations per tank performed without any interruption.

4. System can maintain the required design regeneration rate.

5. No major plant operational interruptions or stoppages.

C. Raw water influent and MIEX® effluent samples will be gathered for analysis during the test period. The OWNER is responsible for either having in-house laboratory equipment and staff to perform the required analysis for constituents outlined in Section 1.05.A that performance is being measured against, or arrange and pay for a suitable local laboratory to carry out the required testing.

D. The OWNER/ENGINEER will be required to be present for some periods during this timeframe to witness equipment operation and sign-off on successful operational tasks.

E. The MIEX System treatment performance targets are assessed against baseline benchmarks obtained from current plant data and/or samples testing conducted by the MIEX System Supplier prior to removal of the existing regeneration equipment. The fulfillment of the required treatment objectives (per Section 1.05.A) will signal successful commissioning.

3.07 OPERATIONAL AND MAINTENANCE MANUALS

A. Plant Operating Instruction Manuals: MIEX system supplier shall furnish three (3) electronic copies (PDF format) of the MIEX® Plant Operating Instruction manual, which shall be retained by the OWNER to assist with plant operation. The manual shall include the supplier's installation and assembly recommendations, operational instructions, and a complete list of recommended spare parts.

B. Equipment Maintenance Manuals and As Built Drawings: MIEX system supplier shall furnish three (3) electronic copies (PDF format) of equipment maintenance manuals and MIEX system supplier supplied equipment, electrical panels and wiring will be issued. The manual shall include the supplier's installation and assembly recommendations,

operational instructions, and a complete list of recommended spare parts.

3.08 PLANT HANDOVER AND ACCEPTANCE

A. Plant handover and ownership will be turned over to the OWNER upon completion of the following:

1. Successful completion of the performance test.

2. All operation and maintenance manuals have been issued.

3. All operator training has be performed and carried out.

B. The OWNER will sign a MIEX® Plant Acceptance Certificate stating acknowledgement of transfer of ownership and plant operational and maintenance responsibility. The issue date of the certificate will be the commencement of any MIEX SYSTEM SUPPLIER supplied equipment and performance warranties, as applicable.

3.09 MANUFACTURER'S CERTIFICATION

A. Provide certificate from MIEX System Supplier stating that the system has been installed in accordance with the manufacturer's stated recommendations and that the complete system meets the specified performance requirements.

B. Certification to be submitted in accordance with the requirements of Section 01300 - Submittals.

END OF SECTION

SECTION 15007

STAINLESS STEEL PIPE AND FITTINGS

PART 1 GENERAL

1.01 WORK INCLUDED

B. Furnish and install stainless steel pipe, fittings, and all appurtenant work, complete in place, all in accordance with the requirements of the Contract Documents.

C. All items specified herein this Section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this Section with the work required for proper completion of the project.

D. Like items provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, operation and maintenance.

E. See CONTRACT CONDITIONS which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 15400 - Plumbing.

1. 03 QUALIFICATIONS/RESPONSIBILITIES

A. All of the stainless steel pipe and fittings shall be furnished by a single manufacturer who is fully experienced, reputable, qualified and has been regularly engaged (for at least five (5) years) in the manufacture of the materials to be furnished.

B. The pipe and fittings shall be designed, constructed, and installed in accordance with the best practices and methods and shall comply with these Specifications as applicable.

1.04 SUBMITTALS

A. Submit shop drawings and manufacturer's material specifications of pipe and fittings in accordance with the requirements in Section 01300 - Submittals and the requirements of the referenced standards.

B. Submit complete piping layout and detail drawings showing the p1p1ng configurations and dimensions, fittings, valves, appurtenances, supports, joints and joint fabrication details and all other information required for the complete piping system.

C. Certifications: Furnish an affidavit of compliance to the ENGINEER for all pipe, fittings, and other miscellaneous pieces and accessories furnished by the pipe manufacturer. Affidavit shall certify that all materials supplied to the job site have been manufactured in accordance with these specifications and that all tests and inspections have been conducted and approved.

D. All expenses incurred in making samples for certification of tests and shall be within the Scope of the Contract.

1. 05 SHIPPING, DELIVERY, HANDLING AND STORAGE

A. Care shall be taken in loading, transporting, and unloading to prevent injury to the pipe or fittings. Pipe or fittings shall not be dropped. All pipe or fittings shall be examined before installation, and no piece shall be installed which is found to be defective.

B. If any defective pipe is discovered after it has been installed, it shall be removed and replaced with sound pipe to the satisfaction of ENGINEER. All pipe and fittings shall be thoroughly cleaned before installation and shall be kept clean until they are used in the Work.

C. In handling the pipe, wide cushioned slings shall be used or other devices and methods acceptable to ENGINEER. No uncushioned ropes, chairs, wedges, or levers shall be used in handling the pipe, fittings or couplings.

PART 2 PRODUCTS

2.01 STAINLESS STEEL PIPE AND FITTINGS

A. All stainless steel pipe two and one-half (2-1/2) inches and less in diameter shall be Type 316L fabricated in accordance with ASTM A-312 and ANSI B36.19.

B. All stainless steel pipe three (3) inches and greater in diameter shall be fabricated from stainless steel conforming to ASTM A-240, Type 316L. Pipe shall be fabricated in accordance with ASTM A-776 and ANSI B36.19. Pipe shall be die-formed or rolled true to dimensions and round within a tolerance of plus or minus 1/16 inch. The two edges of sheet shall be brought to line so as not to leave a shoulder on the inside of the pipe. Ends of pipe and fittings shall be perpendicular to the longitudinal axis. Pipes shall be straight within a maximum of 1/8- inch deviation over 10 feet. Longitudinal seams on pipe and fittings shall be welded by either the tungsten gas or the metallic-gas method. The interior welds shall be smooth, even and shall not have an internal bead higher than 1/16-inch. All pieces shall be marked with schedule and type of stainless steel.

C. Stainless steel pipe with an operating pressure greater than 250 psi shall be Schedule 40S; whereas, pipe with an operating pressure of 250 psi, or less, shall be Schedule l0S.

Stainless steel pipe with threaded fittings shall be Sch 40S.

D. Pipe fittings shall be Type 316L stainless steel of equal thickness to the pipe. All elbows shall be long radius, die formed, smooth flow type pipe fittings three (3) inches and greater shall be manufactured in accordance with ASTM-A774, pipe fittings two and one half (2-1/2) inches and less shall be manufactured in accordance with ASTM-A403.

E. Pipe joints shall be welded in accordance with ANSI B31.

F. All stainless steel pipe and fittings shall be pickled at the point of manufacture, scrubbed and washed until all discoloration is removed.

2.02 PIPING/FITTING END CONFIGURATIONS

A. All pipe and fitting connections shall be flanged, welded, or threaded per the location/installation requirements shown on the drawings.

B. Flanged pipe ends shall be drilled per ANSI B16.1.

C. Flanges shall be AWWA C207 ring-type, Class D.

2.03 FLANGE BOLT SETS AND GASKETS

A. Pipe bolt sets shall be furnished with new bolts, nuts and washers. Bolts, nuts and washers shall be either type 304 or 18-8 stainless steel and shall have sufficient strength for the maximum operating pressure of the piping they are to be installed in. Bolts shall have ANSI regular unfinished square heads. Nuts shall have ANSI regular hexagonal dimensions. Threads shall be coarse threaded Series, Class 2A or 2B fit.

B. Flanged joint gaskets shall be full faced type and the gasket material shall be rubber suitable to brackish or water use and shall conform with AWWA C111/ANSI A21.11 as applicable.

PART 3 EXECUTION

3.01 INSTALLATION - GENERAL

A. CONTRACTOR shall utilize only competent and experienced fitters for the on-site installation of the piping.

B. All pipe and fittings shall be installed true to grade and alignment and pipe anchorage and/or restraint shall be provided where required. MANUFACTURERS' INSTRUCTIONS SHALL BE STRICTLY FOLLOWED.

C. To assemble the joints in the field, CONTRACTOR shall thoroughly clean all joint surfaces and gaskets, if any, with soapy water before assembly. Bolts shall be tightened alternately, evenly and to the specified torques. Under no condition shall extension wrenches or pipe-over-handle ratchet wrenches be used to secure greater leverage.

D. Field welding or cutting of the pipe shall be kept to a minimum, and can only be done where approved by the ENGINEER. The ENGINEER may, at his sole discretion, decide not to allow any field welding or cutting of the pipe.

E. All pipe and appurtenances connected to equipment shall be supported in such a manner as to prevent any strain being imposed on the equipment. When manufacturers have indicated requirements that piping loads shall not be transmitted to their equipment, a certification shall be submitted stating that such requirements have been complied with.

3.02 WELDING

A. All welding shall be done in accordance with the latest edition of Section IX, ASME Boiler and Pressure Vessel Code. All welds shall be made with the shielded metal arc process or the tungsten arc-inert gas

process.

3.03 TESTING

A. All piping specified herein this section shall be pressure tested as specified in the pipe schedule.

3.04 CLEANING

A. Keep the pipe interior free of all debris. Completely clean the interior of the pipe of all sand, dirt, mortar splatter and any other debris following completion of pipe installation.

END OF SECTION

SECTION 15029

TESTING AND DISINFECTION
(PIPELINES, STRUCTURES AND EQUIPMENT)

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work necessary to test new pipeline systems and disinfection of new pipelines, new structures and new equipment and appurtenances which will be in contact with potable water.

B. Process piping and associated equipment and structures corresponding to the following flow stream identification shall be cleaned, tested and disinfected:

1. As scheduled on drawings.

C. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements which apply to the Work specified herein and are mandatory for this project.

1.02 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Commercial Standards (Latest Revisions):

ANSI/AWWA B300 Hypochlorites.
ANSI/AWWA B301 Liquid Chlorine.
ANSI/AWWA C651 Disinfecting Water Mains.
ANSI/AWWA C652 Disinfection of Water Storage Facilities
ANSI/AWWA C653 Disinfection of Water Treatment Plants.

B. Local Permitting Authority(s):

Florida Department of Environmental Protection (FDEP)
Palm Beach County Health Department (PBCHD)

1.03 SUBMITTALS

A. Submit a minimum 48-hour advance written notice of proposed testing schedule for review and concurrence of the ENGINEER. Proposed plans for water recirculation, control, disposal and chlorine dosage shall be submitted.

B. Submit copies of all test results to ENGINEER.

PART 2 PRODUCTS

2.01 GENERAL

A. The disinfection shall be accomplished by the use of chlorine solutions prepared from chlorine gas, sodium hypochlorite, or calcium hypochlorite.

B. Chemicals for chlorination and temporary valves, bulkheads, or other water control equipment and materials shall be determined and furnished

by CONTRACTOR subject to the ENGINEER's review. No materials shall be used which would be injurious to the construction or its future function.

2.02 DISINFECTION SOLUTIONS

A. Disinfecting solution shall be chlorine-water solution having a free chlorine residual as specified herein for the indicated disinfection procedure. The disinfecting solution shall be: 1) a liquid chlorine gas-water mixture; 2) dry chlorine gas; or 3) a calcium or sodium hypochlorite and water mixture.

B. The liquid chlorine gas-water mixture shall be applied by means of an approved solution feed chlorinating device. Dry chlorine gas shall be fed through proper devices for regulating the rate of flow and providing effective diffusion of the gas into the water within the pipe being treated. Chlorinating devices for feeding solutions of the chlorine gas or the gas itself must provide means for preventing the backflow of water into the chlorine cylinder.

C. If the calcium hypochlorite procedure is used, first mix the dry powder with water to make a thick paste, then thin to approximately a one percent solution (10,000 ppm chlorine). If the sodium hypochlorite procedure is used, dilute the liquid with water to obtain a 1 percent solution. The following proportions of hypochlorite to water will be required:

Product	Quantity	Water
Calcium Hypochlorite (1) (65-70 percent Cl)	1-pound	7.5-gallon
Sodium Hypochlorite (2) (5.25 percent Cl)	1-gallon	4.25-gallon

(1) Comparable to commercial products known as HTH, Perchloron, and Pittchlor.
(2) Known as liquid laundry bleach, Chlorox, Purex, etc.

PART 3 EXECUTION

3.01 GENERAL

A. Unless otherwise provided herein, water for testing, flushing, disinfection and other purposes shall be furnished by the OWNER and will be made available to the CONTRACTOR at the existing facilities of the OWNER in accordance with Section 01500 - Construction Facilities and Temporary Controls. CONTRACTOR shall furnish all necessary pipe, hose extensions or transportation to the point of use. The CONTRACTOR shall exercise care in the use of water.

B. All pressure pipelines shall be tested. All chlorinating and testing operations shall be performed in the presence of the ENGINEER.

C. Disinfection operations shall be scheduled as late as possible during the contract time period so as to assure the maximum degree of sterility of the facilities at the time the Work is accepted by the OWNER.

Bacteriological testing shall be performed by a certified testing laboratory acceptable to the ENGINEER within the Scope of the Contract. Results of the bacteriological testing shall be satisfactory with FDEP.

D. Release of water from pipelines and structures, after testing and disinfecting have been completed, shall be as reviewed by the ENGINEER.

3.02 TESTING OF PIPELINES

A. General

1. Conduct pressure and leakage tests on all newly installed pipelines. Furnish all necessary equipment and material and make all taps in the pipe, as required. The ENGINEER will monitor the tests. **Test pressures shall be as per the Piping Schedule on the Drawings.**

2. Testing New Pipe Which Connects to Existing Pipe: New pipelines which are to be connected to existing pipelines shall be tested by isolating the new pipe with spectacle blinds or blind flanges or plugs.

B. Hydrostatic Leak Tests

1. Equipment: Furnish the following equipment for the hydrostatic tests:

Amount	Description
2	Graduated containers
2	Pressure gauges
1	Hydraulic force pump
	Suitable hose and suction pipe as required

2. Prior to testing, all pipelines shall be flushed or blown out as appropriate. Test all pipelines either in sections or as a unit. No section of the pipeline shall be tested until all field-placed concrete or mortar has obtained an age of 7 days. The test shall be made by closing valves when available, or by placing temporary bulkheads in the pipe and filling the line slowly with water. Responsibility for ascertaining that all test bulkheads are suitably restrained to resist the thrust of the test pressure without damage to, or movement of, the adjacent pipe are the CONTRACTOR's. Care shall be taken to see that all air vents are open during filling.
3. The pipeline shall be filled at a rate which will not cause any surges or exceed the rate at which the air can be released through the air valves at a reasonable velocity and all the air within the pipeline shall be properly purged. After the pipeline or section thereof has been filled, it shall be allowed to stand under a slight pressure for a sufficient length of time to allow the concrete or mortar lining, as applicable, to absorb what water it will and to allow the escape of air from any air pockets. During this period, bulkheads, valves, and connections shall be examined for leaks. If leaks are found, corrective measures acceptable to the ENGINEER shall be taken.

4. The test shall consist of holding the test pressure on the pipeline for a period of 2 hours. The test pressure shall be as indicated on the pipe schedule measured at the lowest point of the pipeline section being tested. All visible leaks shall be repaired in an acceptable manner.

5. Maximum allowable leakage shall be determined by the following formula:

$$L = \frac{SD \quad (P)^{1/2}}{148{,}000}$$

in which L is allowable leakage in gallons per hour; S is the length of pipe tested in feet; D is nominal diameter of pipe in inches; and P is average test pressure in pounds per square inch gage. Pressure during the test shall not vary more than +5 psi. An additional amount of 0.0078 gal/hr/inch of nominal valve size will be allowed if test is run against a closed, metal-seated valve. In the case of pipelines that fail to pass the prescribed leakage test, the CONTRACTOR shall determine the cause of the excessive leakage, shall take corrective measures necessary to repair the leaks, and shall again test the pipelines, all at no additional cost to the OWNER.

C. Test Records: Records shall be made of each piping system installation during the test. These records shall include:

1. Date of test.
2. Description and identification of piping tested.
3. Test fluid.
4. Test pressure.
5. Test results.
6. Remarks, to include such items as:
   a. Leaks (type, location).
   b. Repairs made on leaks.
7. Certification by CONTRACTOR and initialed acknowledgment by ENGINEER.

3.03 DISINFECTING PIPELINES AND APPURTENANCES

A. General: All potable water pipelines and appurtenances (inclusive of equipment in contact with potable water) shall be disinfected as hereafter described.

B. Chlorination: A chlorine-water mixture shall be applied by means of a solution-feed chlorinating device. The chlorine solution shall be applied at one end of the pipeline through a tap in such manner that as the pipeline is filled with water, the dosage applied to the water entering the pipe shall be approximately 50 ppm. Care shall be taken to prevent the strong chlorine solution in the line being treated from flowing back into the line supplying the water.

C. Retention Period: Chlorinated water shall be retained in the pipeline long enough to destroy all non-spore-forming bacteria. This period shall be at least 24 hours. After the chlorine-treated water has been retained for the required time, the chlorine residual at the pipeline extremities and at other representative points shall be at least 25 ppm.

D. Chlorinating Valves: During the process of chlorinating the pipelines, all valves and other appurtenances shall be operated while the pipeline is filled with the heavily-chlorinated water.

E. Final Flushing: Following chlorination, all treated water shall be thoroughly flushed from the pipelines at their extremities. Should the initial treatment fail to produce satisfactory disinfection of the pipelines, as evidenced by the chlorine residual, the chlorination procedure shall be repeated until acceptable results are obtained, within the Scope of the Contract.

F. Residual Chlorine Tests: After disinfection outlined above has been accomplished, flushing shall continue until the residual chlorine tests at less than 0.2 mg/1. Residual chlorine tests shall be in accordance with standard methods using a standard orthotolidin test set.

G. If methods of disinfection differ materially from those outlined above, such methods shall be in accordance with the directives of the local permitting authority, and all methods employed shall have approval of that agency.

3.04 BACTERIOLOGICAL TESTING (PIPELINES AND APPURTENANCES)

A. Provide bacteriological testing after the water system has been pressure tested, disinfected and thoroughly flushed, as specified herein.

B. Provide sample points for bacteriological testing at the source end and opposite end of pipe being tested. Intermediate sample points shall be provided as required to limit the maximum distance between sample points to 1000 feet. Types and installation of sample points shall be as shown in the standard details.

C. Take samples on two (2) consecutive days from the sample points in suitable sterilized containers. Forward samples to an approved testing laboratory for bacterial examination. If tests of such samples indicate presence of coliform organisms, disinfection as outlined above shall be repeated until tests indicate absence of such pollution. Bacterial tests shall be satisfactorily completed before system is placed in operation and it shall be the CONTRACTOR's responsibility to obtain satisfactory samples.

D. Bacteriological sampling and testing shall be completed in strict accordance with local permitting authority Rules and Regulations.

3.05 STRUCTURE DISINFECTION

A. Prior to disinfection, remove any foreign material from structures. Clean using fire hoses and other tools required for adequate scrubbing and cleaning. The scrub water shall be pumped or drained from the structures before disinfection.

B. A solution of 200-mg/L available chlorine shall be applied directly to the surfaces of all parts of the structure/facility that would be in contact with water when the structure/facility is full to the overflow elevation.

C. Method of application. The chlorine solution may be applied with suitable brushes or spray equipment. The solution shall thoroughly coat all surfaces to be treated, including the inlet and outlet piping, and shall be applied to any separate drain piping such that it will have available chlorine of not less than 10 mg/L when filled with water. Overflow piping need not be disinfected.

D. Retention. The disinfected surfaces shall remain in contact with the strong chlorine solution for at least 30 min, after which potable water shall be admitted, the drain piping purged of the 10-mg/L chlorinated water, and the storage facility then filled to its overflow level. The structures shall be filled with potable water containing at least 2 ppm of free chlorine and after 24 hours of contact time 1 ppm of chlorine must remain.

3.06 BACTERIOLOGICAL TESTING (STRUCTURES)

A. Provide bacteriological testing after the water structure/facility has been cleaned and disinfected thoroughly, as specified herein.

B. Take samples on two (2) consecutive days from the sample points in suitable sterilized containers. Forward samples to an approved testing laboratory for bacterial examination. If tests of such samples indicate presence of coliform organisms, disinfection as outlined above shall be repeated until tests indicate absence of such pollution. Bacterial tests shall be satisfactorily completed before system is placed in operation and it shall be the CONTRACTOR's responsibility to obtain satisfactory samples.

C. Bacteriological sampling and testing shall be completed in strict accordance with local permitting authority Rules and Regulations.

3.07 CHLORINATION OF PERMANENT EQUIPMENT AND MATERIAL

A. Permanent equipment and materials to be installed shall be chlorinated just prior to their installation.

B. Chlorination shall be accomplished by spraying the potable water contact surfaces of such items with a solution having an available chlorine concentration of not less than 200 mg/L.

3.08 CONNECTIONS TO EXISTING SYSTEM

A. Where connections are to be made to the existing water system, HTH shall be added at the points of connection. Final connection shall be made only after the written approval of local permitting authority which requires two continuous negative bacteriological tests.

3.09 CLEANING

A. Interim Cleaning: Care shall be exercised during fabrication to prevent the accumulation of weld rod, weld spatter, pipe cuttings and filings, gravel, cleaning rags, etc. within piping sections. All piping shall be examined to assure removal of these and other foreign objects prior to assembly. Shop cleaning may employ any conventional

commercial cleaning method if it does not corrode, deform, swell, or otherwise alter the physical properties of the material being cleaned.

B. Final Cleaning: Following assembly and testing and prior to final acceptance, all pipelines installed under this section, except plant process air lines and instrument air lines, shall be flushed with water and all accumulated construction debris and other foreign matter removed. Flushing velocities shall be a minimum of 2.5 feet per second.

END OF SECTION

SECTION 15100

MANUALLY OPERATED VALVES

PART 1 GENERAL

1.01 WORK INCLUDED

A. Furnish all labor, equipment, materials and incidentals for the complete installation of the following types of manually operated valves, check valves and appurtenances shown on the Drawing and specified herein.

1. Valve Appurtenances.
2. Butterfly Valves.
3. Ball Valves
4. Plug Valves

B. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the Work.

C. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, replacement and service.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements which apply to the Work specified herein and are mandatory for this project.

1.02 SUBMITTALS

A. Submit detailed shop drawings and valve manufacturer's specifications in accordance with Section 01300 - Submittals. Clearly indicate make, model, location, type, size and pressure rating.

PART 2 PRODUCTS

2.01 GENERAL

A. All valves shall be complete with all necessary operating handwheels, chain wheels, extension stems, floor stands, worm and gear operators, operating nuts, chains, and wrenches which are required for the proper completion of the Work included under this section.

B. Renewable parts including discs, packing, and seats shall be of types recommended by valve manufacturer for intended service.

2.02 MANUFACTURERS

A. All units shall have the name of the manufacturer and the size of the valve cast on the body of bonnet or shown on a permanently attached plate in raised letters.

B. The use of a manufacturer's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired.

2.03 VALVE BOXES

A. Valve boxes shall be of the two-piece adjustable screw type, cast iron, with 5-1/4-inch shaft of appropriate length for the installation. Extension pieces, if required, shall be the manufacturer's standard type. Valve box tops shall have raised letters saying "WATER" or "SEWER", as applicable. Valve boxes shall be as manufactured by Tyler Union, or equal.

2.04 VALVE STEM EXTENSIONS

A. Where the depth of the valve is such that its centerline is more than 4 feet below grade, operating extension stems shall be provided to bring the operating nut to a point 6 inches below the surface of the ground and/or valve box cover. Extension stems shall have 2-inch standard operating nut and steel alignment washer. Extension stems shall be by the General Engineering Company, or equal.

2.05 LIMIT SWITCHES

A. Certain valves are required to be provided with limit switches. Switches and associated attachment mountings shall be factory installed and, unless otherwise indicated, limit switches shall be NEMA 6P, DPDT, adjustable plunger type, rated at 10 amps, 120 volts ac. Check the various process mechanical drawings and the instrumentation and control drawings to locate valves requiring limit switches. Limit switches shall be normally closed or normally open as indicated by the Drawings.

B. Limit switches shall make when valve is 90% open or 10% closed, as applicable.

C. Limit switches shall be Square D Class 9007, Type C, or equal.

2.06 IDENTIFICATION TAG REQUIREMENTS

A. Exposed Valves: Each valve operator shall be provided with a 1-1/2-inch minimum diameter heavy brass tag. Each tag shall bear the valve number shown on the Drawings. The tags shall be attached to the operator with soldered split key rings so that ring and tag cannot be removed. The numbers and letters shall be of block type with 3/8-inch high numbers and letters engraved thereon and filled with black enamel.

B. Buried Valves: Underground valve identification markers shall be 3-inch diameter, 1/8-inch thick, solid hard brass, with 1/4-inch tamper-proof hook-end rod anchor. Surface to be engraved with 1/4-inch to 3/8-inch capital letters, approximately 0.015-inch deep. Hand punched lettering is not acceptable surface of marker ground smooth and epoxy coated to prevent tarnishing. Markers shall be Wagco markers or equal.

2.07 THERMOPLASTIC BUTTERFLY VALVES

A. V-27: Thermoplastic butterfly valves shall be Wafer Butterfly type constructed from PVC Type I Cell Classification 12454 or CPVC Type IV Cell Classification 23447. All valve seats and O-rings shall be EPDM. Seat shall be a non-liner type mounted to the valve disc. All valves shall have built-in Santoprene™ Thermoplastic Elastomer (TFE) flange gaskets. Wafer style valves shall be for mounting between two flanges

having bolt hole pattern that conform to ANSI/ASME B16.5 CL 150. Disc shall be centered with Type 316L Stainless Steel Stem. Stem shall be isolated from the process medium for dry operation. Valves shall be equipped with high impact polypropylene handle having 7-position stops and built-in lockout capability. Gear operated valves shall be equipped with position indicator and high impact polypropylene handwheel. Valves shall be pressure rated at 150 psi for water at 73°F, as manufactured by Asahi/America, Spears® Manufacturing Company, or equal.

Valve Installation Table		
Valve Designation	**Size Range (In)**	**Valve Description**
V-27L	3" to 8"	Thermoplastic Butterfly Valve with Fixed Hand Lever Operator
V-27G	10" to 14"	Thermoplastic Butterfly Valve with geared handwheel operator

2.08 BUTTERFLY VALVES

A. V-28: Wafer design with stainless steel body, stainless steel disc and stem with NBR seat. Valves shall have a manual geared handwheel operator. Valves shall be Bray Series 20, Keystone AR1, or equal.

2.09 BALL VALVES

A. **V-30:** Ball valves 3 inches and smaller, for general water, oil and air service, shall be all-bronze, top entry type, with screwed ends, full bore ports, Teflon seats, and hand lever operators, rated 250-pound WOG minimum 125 psi SWP. Valves shall be Crane Co. Accesso, Cat. No. 2330-TF; Lunkenheimer Figure No. 700-SB; or equal.

B. **V-31:** Thermoplastic ball valves 4 inches and smaller shall be rated 150 psi at 105 degrees F, with ASTM D1784, Type 1, Grade 1 polyvinyl chloride body, ball and stems. Valves shall be of end entry, double union design with solvent weld socket ends. Valves shall have replaceable Viton seats with an O-ring backing and double EPDM O-ring stem seals. The valve shall have a left hand threaded spacing ring on one side to adjust ball tension. Valves shall have a handle for manual operation. Valves shall be of George Fischer Plastic Systems, Type 346, Spears True Union 2000, Ipex, or equal.

Viton or Teflon backing rings, O-rings, seals, and seats shall be used for sodium hypochlorite installations.

B. **V-35:** Ball valves 2 inches and smaller for general corrosive service shall be all Type 316 stainless steel, top entry type with screwed ends, full bore ports, Teflon seats and cadmium plated carbon steel hand lever operators and stem nuts, cadmium plated alloy steel body bolts and nuts and vinyl handle sleeve. Valves shall be manufactured by Whitey Company or equal.

2.10 PLUG VALVES (V-50)

A. Eccentric plug valves 3 inches and larger shall be of the non-lubricated type with resilient faced plugs with end connections as shown on Drawings. Flanged valves shall be faced and drilled to the ANSI B16.1, latest revision, 125 pound standard. Mechanical joint ends shall be in accordance with the AWWA C111/A21.11-90, latest revision. Valve bodies shall be of ASTM A126, latest revision, Class B cast iron, 31,000 psi tensile strength minimum. All exposed nuts, bolts, springs and washers shall be zinc plated for above ground, non-submerged installations and 300 Series stainless steel for buried or submerged installations. Port areas on valves through 20 inches in size shall be at least 80% of full pipe area and valves 24 inches and larger shall have a minimum port area of 70% of the full pipe area. Resilient plug facings shall be Neoprene or Buna N material on a single piece plug. The seats shall be in the body and shall be a minimum of 90% nickel. Threaded, adjustable seats shall not be allowed. Valve shaft seals or packing shall be adjustable and replaceable without removing the valve from service or interrupting service. Valves shall have a minimum pressure rating of 175 psi (3"-12") and 150 psi (14"-24") and provide drop-tight shut-off. Valves shall be by Pratt, DeZurik, Milikin, or equal.

Valves for above ground, non-submerged, exposed installations or installation vaults, shall be equipped with fixed hand lever operators.

Valves for buried or submerged installations shall be provided with permanently lubricated, totally enclosed worm gear actuators with a 2-inch operating nut. Actuator shall be fully gasketed and capable of withstanding a minimum external groundwater pressure of 10 psi.

All interior and exterior ferrous surfaces shall be epoxy coated. Epoxy coatings shall be compatible for service fluid as applicable. Epoxy coating application shall be manufacturer's standard unless otherwise specified.

Plug Valve Installation Table	
Valve Designation	**Valve Description**
V-50Q	Quarter Turn Plug Valve
V-50L	Quarter Turn Plug Valve with fixed hand lever operator
V-50G	Plug Valve with Geared Actuator

PART 3 EXECUTION

3.01 GENERAL

A. Before installation, the valves shall be thoroughly cleaned of all foreign material and shall be inspected for proper operation, both opening and closing, and to verify that the valves seat properly. Valves shall be installed so that the stems are vertical. Jointing shall conform to AWWA C600. Valves shall be installed as depicted in the standard details. Joints shall be tested with the adjacent

pipeline. If joints leak under test, valves shall be disconnected and reconnected, and the valve and/or the pipeline retested.

B. Valves shall be installed at locations shown on the Drawings in a manner recommended by the manufacturer and acceptable to ENGINEER.

C. Bolt holes of flanged valves shall straddle the vertical centerline of the pipe run. Prior to installing flanged valves, the flange faces shall be thoroughly cleaned. After cleaning, insert gasket and bolts, and tighten the nuts progressively and uniformly. If flanges leak under pressure, loosen or remove the nuts and bolts, reseat or replace the gasket, retighten and/or reinstall the nuts and bolts, and retest the joints. Joints shall be watertight at test pressures before acceptance.

D. Thoroughly clean threads of NPT joints by wire brushing or other approved method. Apply approved joint compound to threads prior to making joints. Joints shall be watertight at test pressures before acceptance.

3.02 VALVE BOXES

A. Center the valve boxes and set plumb over the operating nuts of the valves. Set valve boxes so that they do not transmit shock or stress to the valves. Set the valve box covers flush with the surface of the finished pavement or grade as shown. Cut extensions to the proper length so that the valve box does not ride on the extension when set at grade. Valve boxes shall be installed as depicted in the Standard Details.

B. Backfill shall be the same as specified for the adjacent pipe. Place backfill around the valve boxes and thoroughly compact to a density equal to that specified for the adjacent trench and in such a manner that will not damage or displace the valve box from proper alignment or grade. Misaligned valve boxes shall be excavated, plumbed and backfilled within the Scope of the Contract.

C. Install brass identification marker in concrete valve box pad as shown in the standard details.

3.03 PROTECTIVE COATING

A. Exposed ferrous valves shall be shop primed with a catalyzed rust inhibitive epoxy primer. Minimum dry film thickness shall be 2-3 mils. Surface preparation shall be commercial blast cleaning in accordance with Steel Structures Painting Council No. 6 (SSPC-SP6).

B. Color coding of valves/piping shall be as specified by the Piping Schedule.

3.04 TESTING

A. Valves shall be tested at the same time that the adjacent pipeline is tested. Joints shall show no visible leakage under test. Repair joints that show signs of leakage prior to final acceptance. If there are any special parts of control systems or operators that might be damaged by the pipeline test, they shall be properly protected. The CONTRACTOR will be held responsible for any damage caused by the testing.

B. If requested by the ENGINEER, the valve manufacturer shall furnish an affidavit stating the materials options furnished and/or that it has complied with these and other referenced specifications.

END OF SECTION

SECTION 15400

PLUMBING

PART 1 GENERAL

1.01 WORK INCLUDED

A. This Section covers the Work necessary to furnish and install, complete, miscellaneous plumbing and piping systems.

B. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the work.

C. Like items of materials provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, maintenance, and replacement.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 11251 – Magnetic Ion Exchange (MIEX) System.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Building Codes

1. Florida Building Code, Latest Edition.

B. Commercial Standards:

1. The latest revision of the particular ASA, ASTM, NBS or AWWA standard in effect at the time of advertisement for bids shall be the minimum acceptable.

1.04 SUBMITTALS

A. Submittals during construction shall be made in accordance with Section 01300 - Submittals.

1.05 EQUIPMENT ACCESSIBILITY

A. The CONTRACTOR shall be fully aware of the peculiarities and limitations of the space available for the installation of all materials in this Contract.

B. In addition, the contractor shall insure that all equipment, such as valves, traps, clean-outs, and other such apparatus shall be readily accessible. Provide access panels where required. The foregoing shall also apply in general to any part of the system which may be necessary to be reached from time to time for maintenance and operation of the system.

PART 2 PRODUCTS

2.01 MATERIALS

A. Unless otherwise specified, all materials shall conform to the requirements of the local Building Code.

B. Dielectric couplings shall be provided between ferrous and nonferrous materials.

C. If instructed by the ENGINEER, furnish certified statements from the manufacturer that the material conforms to the requirements specified above.

2.02 POLYVINYL CHLORIDE (PVC), DRAIN, WASTE AND VENT (DWV)

A. PVC Pipe: Schedule 40, Type II, ASTM D1785, dual marked DWV, ASTM 2665.

B. PVC Fittings: Schedule 40, Type II, ASTM D2665, DWV.

C. Joints: Solvent Weld.

2.03 POLYVINYL CHLORIDE (PVC) PIPING

A. Pipe: Schedule 40 or Schedule 80, Type I, Grade 1, ASTM D1784 and ASTM D1785 as required by Piping Schedule.

B. Fittings: Socket type, same schedule as pipe, ASTM D2467. Threaded type, Schedule 80, ASTM D2464. Flanged, Schedule 80, 150-pound.

C. PVC Cement: Conforming to ASTM D2564.

D. Thread Lubricant: Teflon tape.

E. Joints: Solvent Weld or flanged.

2.04 COPPER PIPING, ABOVE GRADE

A. Copper Tubing: Seamless, ASTM B88, Type L, hard drawn.

B. Fittings: Commercially pure wrought copper, socket joint ANSI/ASME B16.29.

C. Joints: ANSI/ASTM B32, solder, Grade 95TA.

2.05 COPPER PIPING, BURIED

A. Copper Tubing: Seamless, ASTM B88, Type K, hard temper.

B. Fittings: Commercially pure wrought copper, socket joint ANSI/ASME B16.29.

C. Joints: ANSI/ASTM B32, solder, Grade 95TA.

2.06 FLEXIBLE PVC TUBING

A. Flexible PVC tubing material shall be compounded from non-toxic PVC ingredients in compliance with applicable FDA requirements. Tubing

shall be reinforced to reduce elongation under pressure.

B. Tubing shall be continuous from pump discharge to point of application. Lengths provided shall be as measured in field to serve any treatment unit from any lime slurry pump.

C. Flexible PVC tubing shall be KB15D Series "RF" as manufactured by Kuri Tec, or equal.

2.07 SERVICE SADDLES FOR FERROUS METAL PIPING

A. Pipe service saddles for all ferrous metal piping except stainless steel shall be as manufactured by Rockwell, Dresser, or equal, as required for the installation. Service saddles shall be capable of withstanding 300 psi internal pressure without leakage or over stressing. The run diameter shall be compatible with the outside diameter of the pipe on which the saddle is installed. Taps shall have iron pipe threads or ANSI 150-pound standard flanges. Saddles shall have epoxy coated malleable or ductile iron bodies and stainless steel straps and hex nuts with washers, and neoprene seals. Service saddles shall be of double-strap design.

2.08 SERVICE SADDLES FOR PLASTIC PIPE

A. Service saddles for PVC pipe shall have solid polypropylene bodies with Buna-N seals and stainless steel worm drive clamps, or polypropylene threaded inserts with vinyl coated steel saddle bodies and type 316 stainless steel bolts. Saddles shall be Rockwell Style 342 or 352, Dresser Style 194, or equal.

2.09 PIPING SUPPORTS

A. Framing channels for wall mounting pipe shall be minimum 1-5/8-inch width series stainless steel channels as manufactured by Unistrut.

B. Pipe clamps, nuts, bolts, washers and other miscellaneous installation hardware shall be Type 304 or 316 stainless steel.

C. Piping supports for corrosive environments or chemical handling areas shall be Aickinstrut 2000 Series Heavy Duty, Vinylester, grey or beige as selected by OWNER. Provide Aickinstrut universal pipe clamps and other miscellaneous accessories for piping installation.

2.10 UNIONS

A. Unions on ferrous pipe 2 inches in diameter and smaller shall be 150 pounds malleable iron, zinc-coated. Unions on water piping 2-1/2 inches in diameter and larger shall be flange pattern, 125-pound class, zinc-coated. Gaskets for flanged unions shall be of the best quality fiber, plastic, or leather. Unions shall not be concealed in walls, ceilings, or partitions.

2.11 INSULATING FLANGES, COUPLINGS, AND UNIONS

A. Materials and rating shall be in accordance with the applicable Pipe Specification. Dielectric flanges and unions shall be as distributed by Epco Sales, Inc. of Cleveland, OH; Capitol Insulation Unions; or equal. Insulating couplings shall be Dresser STAB-39; R. R. Baker Series 216; or equal.

2.12 DRAINS

A. HD-1: HUB DRAIN. Jay R. Smith Figure 3812 Duco coated cast iron drip funnel with dome bottom strainer. Top shall be set 3-3/4-inches above concrete. (Above equipment pad, where applicable.)

B. AD-1: AREA DRAIN. Jay R. Smith Figure 2130, Josam 32110 or equal, Duco coated cast iron body, cast hinged square grate, removable sediment bucket, with outlet same size as the connecting line as shown on Drawings.

C. AD-2: AREA DRAIN. Jay R. Smith Figure 2110, Josam 32110 or equal, Duco coated cast iron body, cast hinged square grate, removable sediment bucket, with outlet same as the connecting line as shown on Drawings.

D. FA-1: FUNNEL ASSEMBLY. Jay R. Smith Figure 3581 Duco coated cast iron drip funnel or equal. (Attached to area drains at locations shown on Drawings.

E. Trench Drain: Jay R. Smith 6" wide 9814 channel slope precast polymer concrete drain system. Bottom outlet shall be 6-inch. Grating shall be vinylester fiberglass bar grate, light duty, Class A - 3500 lbs. Slope shall be 0.6%, minimum.

Submit manufacturer's shop drawings showing a schematic plan and profile of the total length of each drainage system installation listing all parts to be provided with exact centerline dimensions suitable for installation. Also submit manufacturer's method of installation, assembly, and anchorage.

2.13 CLEANOUTS

A. Floor Cleanout: Jay R. Smith Figure 4043, Josam 5B350 Series, or equal, with cast iron body and frame, and square, adjustable, nickel bronze top.

2.14 EMERGENCY SHOWER WITH EYEWASH

A. S19-310AC EYEWASH DRENCH HAND OR FOOT Bradley Combination Shower/Eye and Face Wash Combination shower/Eye and Face Wash with 10" yellow impact resistant shower head, activated by 1" stay-open valve and pull rod. Corrosion resistant stainless steel eyewash bowl, activated by ½" stay-open valve and push handle or foot treadle. Water supply and waste is 1-1/4" IPS female. Meets ANSI 7358.1 Standards.

B. Shower system shall have flow switch alarm system Bradley Model S19-320.

C. Shower shall also have a flashing strobe light that is activated by the unit flow switch.

2.15 PIPE WALL PENETRATION CLOSURES (MECHANICAL TYPE SEALS)

A. Mechanical type seals shall consist of an adjustable modular bolts, synthetic rubber and plastic sealing element. The sealing element shall be Link-Seal as manufactured by Thunderline Corp., or equal.

B. Mechanical type seals are not required at locations where wall pipes are shown on the Drawings.

2.16 MISCELLANEOUS HOSE CONNECTIONS

A. Miscellaneous cam and groove type hose fittings, caps and adaptors shall be of all aluminum construction and shall be provided and sized as indicated on the drawings. Miscellaneous fasteners and hose clamps shall be stainless steel.

B. Miscellaneous cam and groove type hose fittings shall be as manufactured by Dixon Valve and Coupling Company, or equal.

2.17 HOSE BIBBS (HB)

A. **HB**: ¾" brass quarter turn hose bibb, 125 lb. GWP to 100°F. NiBCO QT56X.

2.18 SHOP PRIMING

A. All ferrous metal accessories including, but not limited to, flange adapters and pipe supports shall be shop primed with a catalyzed rust inhibitive epoxy primer. Minimum dry film thickness shall be 2-3 mils. Surface preparation shall be white metal blast in accordance with Steel Structures Painting Council No. 5 (SSPC-SP5). Coating shall be compatible with coating systems 4E (Exterior) or 7E (Interior) as specified in Section 09900 - Protective Coatings.

PART 3 EXECUTION

3.01 GENERAL

A. Install all piping, fixtures, equipment, and accessories in strict accordance with the plumbing laws, rules, and regulations of the State, County and City, whichever represents the higher standard. All work shall be approved by the Plumbing Inspector.

B. Drawings do not attempt to show exact details of all piping, and no extra payment will be allowed for obstruction by work of other trades or local obstructions to the Work under this Contract which require offsets. Where diagrams have been made to show piping connections, the CONTRACTOR is cautioned that these diagrams must not be used for obtaining material quantities. Changes in location of equipment or piping, advisable in the opinion of the CONTRACTOR, shall be submitted to the ENGINEER for review before proceeding with the Work. All measurements and dimensions shall be verified at the site. All equipment shall be adjusted and left in a condition satisfactory to the ENGINEER.

C. The Work shall be carefully laid out in advance, and no excessive cutting of construction will be permitted. Damage to buildings, piping, wiring, or equipment as a result of cutting for installation shall be repaired by mechanics skilled in the trade involved, at no additional cost.

D. Any preparation of the structural components of the building required for equipment and material regarding this specification of the Contract shall be done by the particular affected trade and shall be

done to the satisfaction of the ENGINEER. All workmanship shall be done to the satisfaction of the ENGINEER and work which is deemed unsatisfactory shall be removed and reinstalled until the acceptance of the ENGINEER is obtained. The Work carried out under this portion of the Contract shall be done in a neat and orderly fashion.

E. Required materials not covered by the detailed Specifications shall meet the requirements of applicable State and local Ordinances and Codes, and shall conform to accepted plumbing practice.

3.02 INSTALLATION OF INSULATING FLANGES, COUPLINGS AND UNIONS

A. Install insulating flanges, couplings and unions wherever copper and galvanized steel piping are connected.

3.03 PLUMBING FIXTURES AND DRAINS

A. Each plumbing fixture shall be trapped and vented as required by Code. Fixtures and drains shall be installed true and plumb with separate stops for each fixture supply. Galvanized nipples shall not be used between copper water supply and angle stops. Install chrome-plated canopy flanges at each fixture drain where P-trap arm enters wall.

B. All floor drains shall have protective covers during construction to prevent damage to drain strainers and keep foreign material from entering drainage system.

C. At end of construction, clean all plumbing fixtures, faucet aerators and drains. Replace any fixture and/or accessories damaged during shipment or construction,. Test all fixtures for proper operation.

3.04 WATER HAMMER ARRESTERS

A. Furnish and install water hammer arresters in piping systems where shown on Drawings and/or adjacent to all pieces of equipment where quick closing valves are installed.

B. Water hammer arresters shall be sized and installed in conformance with the Plumbing and Drainage Institute Standard PDI-WH201.

3.05 WATER PIPING

A. Water piping systems shall be flushed clean of all internal debris, faucet aerators cleaned and all plumbing fixture valves adjusted for manufacturer’s recommended flow.

B. No water piping shall be run through electrical rooms or immediately over or within a 3-foot plan view clearance of any electrical panel or motor starter, or mechanical mounting panel.

C. Exterior water piping shall have a minimum of 2.5 feet of cover.

3.06 DRAIN AND VENT PIPING

A. Set waste and vent piping occurring above the floor slab true and plumb. Set exposed risers as close to walls as possible. Where vent stacks pass through the roof slab, fit with the specified flashing sleeve to secure the roofing. Flashing and roof connection shall be

watertight. Extend vents at least 1 foot above roof. Provide cleanouts where shown and where required by code.

3.07 COPPER TUBING

A. Cut tubing square and remove burrs. Clean both inside of fittings and outside of tubings with steel wool and muriatic acid before sweating. Prevent annealing of fittings and hard-drawn tubing when making connections. Mitering of joints for elbows and notching of straight runs of pipe for tees will not be permitted.

B. Copper tubing shall not come in contact with concrete. Protect tubing by wrapping with polyethylene backed, butyl rubber, adhesive tape or with a shop-applied, extruded, polyethylene coating.

3.08 PLASTIC PIPE

A. All rigid PVC or CPVC pipe shall be cut, made up, and installed in accordance with the pipe manufacturer's recommendations. Plastic pipe shall be laid by snaking the pipe from one side of the trench to the other. Offset shall be as recommended by the manufacturer for the maximum temperature variation between time of solvent welding and final use.

B. Only strap wrenches shall be used for tightening threaded plastic joints and care shall be taken not to overtighten these fittings. Pipe shall not be laid when the temperature is below 40 degrees F, nor above 90 degrees F when exposed to direct sunlight. Ends to be jointed shall be shielded from direct sunlight prior to and during the laying operation.

3.09 PIPE TESTING, DISINFECTION AND CLEANING

A. All testing, disinfection and cleaning shall be done in accordance with Section 15029 - Testing and Disinfection (Pipelines, Structures and Equipment).

END OF SECTION

SECTION 15830

ROOF AND WALL VENTILATORS

PART 1 GENERAL

1.01 WORK INCLUDED

A. Furnish all labor, materials, equipment and incidentals required and install roof and wall ventilators, complete, as shown on the Drawings and as specified herein.

B. All items specified herein this section may not be specifically required for this project. CONTRACTOR shall coordinate the requirements of this section with the drawings for proper completion of the work.

C. Like items of equipment provided hereunder shall be the end products of one MANUFACTURER in order to achieve standardization for appearance, operation, maintenance, spare parts, and MANUFACTURER's service.

D. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this Project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 04220 - Concrete Unit Masonry.

B. Division 16 - Electrical.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. Requirements or Regulatory Agencies: Conform to the requirements of the State of Florida and other local regulatory authorization as applicable.

B. Source Quality Control: AMCA labels (Air Moving and Conditioning Association).

1.04 SUBMITTALS

A. Submittals shall be in accordance with the requirements of Section 01300 - Submittals and shall include the following additional information:

1. Dimensions of units and installation requirements.
2. Curb mounting details, height, inside and outside dimensions, methods of attachment to structure.
3. Electrical connection diagrams.
4. AMCA approved fan curves or tables for each model.
5. Complete total bill of materials for each model.
6. List of MANUFACTURER's recommended spare parts.

B. Submit complete MANUFACTURER's installation instructions.

1.05 DELIVERY, STORAGE AND HANDLING

A. Proper shipping, storage and handling procedures shall be followed as recommended by the equipment MANUFACTURER and as specified herein.

B. All parts shall be properly protected so that no damage or deterioration will occur during shipment, normal unloading, storage and installation.

C. All equipment and parts must be properly protected against any damage during a prolonged storage period at the site. Proper job site storage is the responsibility of the CONTRACTOR.

D. Factory assembled parts and components shall not be dismantled for shipment unless permission is received in writing from the ENGINEER. This provision shall not apply if the items are too large to be shipped in a completely assembled condition.

E. Finished iron or steel surfaces not painted shall be properly protected to prevent rust and corrosion.

F. Each box or package shall be properly marked to show its net weight in addition to its contents.

1.06 WARRANTY

A. The MANUFACTURER and CONTRACTOR shall warrant the equipment being supplied to the OWNER against all defects in workmanship and materials for a period of one (1) year. Warranty period shall commence on final acceptance date as outlined in the General Conditions. Warranties for all equipment installed under this contract shall run concurrently.

B. The MANUFACTURER's warranty period shall run concurrently with the CONTRACTOR's warranty period. No exception to this provision shall be allowed. The CONTRACTOR shall be responsible for proper storage of the equipment so as to remain in an "as shipped" condition. If the equipment remains in storage at the jobsite for longer than six (6) months, before installation, the CONTRACTOR shall provide factory service personnel for a complete inspection of the equipment. Any work necessary to restore the equipment to an "as shipped" condition will be the responsibility of the CONTRACTOR.

PART 2 PRODUCTS

2.01 GENERAL

A. The use of a MANUFACTURER's name and model or catalog number is for the purpose of establishing the standard of quality and general configuration desired only. Products of other MANUFACTURERS will be considered in accordance with the GENERAL CONDITIONS.

B. All equipment furnished under this Section shall meet all applicable OSHA requirements.

C. Stainless steel nameplates giving the name of the MANUFACTURER, the model number and the serial number of the item, the rated capacity, and any other pertinent data shall be properly and rigidly attached to each item of equipment.

D. All electrical materials and equipment shall be Underwriters Laboratories, Inc. listed and shall be as specified under Division 16.

E. All bolts, washers, clamps, nuts, etc. used to interconnect system components shall be of Type 316 stainless steel.

2.02 POWER ROOF VENTILATORS

A. Centrifugal fan suitable for roof curb mounting, rated and tested in accordance with AMCA Standards for sound and air flow performance, statically and dynamically balanced backward-inclined aluminum fan wheel with direct-drive motor, integral self-resetting overload protection, quick disconnect switch, gravity back draft damper, aluminum bird screen, aluminum wire mesh protective screen on fan inlet, and aluminum weatherproof cover.

B. Fan and all ferrous metal accessories including galvanized items shall be coated with Hi-Pro Polyester, or equal. Color shall be selected by OWNER/ENGINEER from manufacturer's standard color pallets.

C. Exhaust fans shall be as scheduled on Drawings.

D. Exhaust fans shall be as manufactured by Greenheck Fan Corporation, or equal.

2.03 POWER WALL VENTILATORS

A. Centrifugal fan suitable for wall mounting, rated and tested in accordance with AMCA Standards, statically and dynamically balanced backward-inclined aluminum fan wheel with direct-drive motor, integral self-resetting overload protection, quick disconnect switch, gravity back draft damper, aluminum insect screen, aluminum wire mesh protective screen on fan inlet, and aluminum weatherproof cover.

B. Fan and all ferrous metal accessories including galvanized items shall be coated with baked enamel coating. Color shall be selected by OWNER/ENGINEER from manufacturer's standard color pallets.

C. Exhaust fans shall be as scheduled on Drawings.

D. Exhaust fans shall be as manufactured by Greenheck Fan Corporation, or equal.

2.04 ACCESSORIES (POWER WALL AND ROOF VENTILATORS)

A. Backdraft Dampers

1. Gravity operated:
   a. Multiple blade.
   b. Interlocked and gasketed aluminum blades.
   c. Nylon or other type rust proof bearings.
   d. Adjustable spring attached to tie rods or counter weights.
   e. Tie rod connecting each blade.
   f. Located at inlet to unit.
   g. Furnished by fan MANUFACTURER.

B. Curb Gasket: Sponge rubber gaskets cemented to inner edge of curb cap to provide air and water seal between curb and curb gap.

C. Ventilator to Curb Fasteners: Stainless steel lag screws or bolts.

2.05 PREFABRICATED ROOF MOUNTING CURBS

A. Fabricated of aluminum and lined with fiberglass thermal and sound insulation by MANUFACTURER.

B. Curb Height: 10 inches.

C. Curb Extension: 10 inches above roof deck.

D. Flashed by means of self-flashing collars.

E. Fabricated with horizontal surface for mounting roof ventilator or fan.

F. Prefabricated roof mounting curbs shall be furnished by fan MANUFACTURER.

2.06 SIDEWALL PROPELLER FANS

A. Sidewall propeller fan suitable for wall mounting, rated and tested in accordance with AMCA Standa4rds, statically and dynamically balanced propeller with direct-drive motor, integral self-resetting overload protection and quick disconnect switch.

B. Fan and accessories shall be coated with air or baked enamel coating. Color shall be selected by OWNER from manufacturer’s standard color pallets.

C. Sidewall propeller fans shall be Model SE1 as manufactured by Greenheck Fan Corporation, or equal.

D. Sidewall propeller fans required shall be as scheduled on the drawings.

E. CONTRACTOR shall verify size of rough wall opening prior to installation.

2.07 ACCESSORIES (SIDEWALL PROPELLER FANS)

A. Gravity operated backdraft dampers shall be gravity operated. Multiple blades shall be interlocked, gasketed aluminum blades with nylon or other type of rustproof bearings. An adjustable spring shall be attached to the tie rods or counter weights. Each blade shall be connected by a tie rod. The backdraft dampers shall be located at the fan outlet.

B. CONTRACTOR shall also provide and install a galvanized steel wall housing with protective welded steel wire guards on the fan inlet, a galvanized steel weatherproof cover, and a galvanized steel wall collar with heavy gauge mounting flange.

C. All accessories shall be furnished by fan MANUFACTURER.

PART 3 EXECUTION

3.01 INSTALLATION

A. Installation shall be in strict accordance with the MANUFACTURER's instructions and recommendations in the location shown on the Drawings.

B. All material and equipment shall be installed as shown and described herein and as may be required by the applicable local codes. Changes in location of equipment, advisable in the opinion of the CONTRACTOR, shall be submitted to the ENGINEER for approval before proceeding with the Work. All measurements and dimensions shall be verified at the site. All equipment shall be adjusted and left in a condition satisfactory to the ENGINEER.

C. Any preparation of the structural components of the building required for equipment and material regarding this unit of the Contract shall be done by the particular affected trade and shall be done to the satisfaction of the ENGINEER. All workmanship shall be done to the satisfaction of the ENGINEER, and work which is deemed unsatisfactory shall be removed and reinstalled until the approval of ENGINEER is obtained. The work carried out under this portion of the Contract shall be done in a neat and orderly fashion, and, all surplus material shall be removed and disposed of.

3.02 TESTING AND ADJUSTING

A. After installation, test each ventilator to demonstrate proper operation of unit at performance requirements specified, including running balance and noise considerations and proper direction of rotation of blade.

3.03 CLEANING

A. Clean all debris from interior and exterior of ventilator housing.

B. Remove debris and waste materials resulting from installation.

C. Final cleanup shall be as per the requirements of Section 02500 - Restoration and Cleanup.

END OF SECTION

SECTION 16000

ELECTRICAL GENERAL REQUIREMENTS

PART 1 GENERAL

1.01 RELATED DOCUMENTS

A. The general provisions of the Contract, including CONTRACT CONDITIONS, apply to all the Work specified in the Electrical 16000 Sections.

1.02 LAWS, PERMITS, FEES AND NOTICES

A. Secure and pay all permits, fees and licenses necessary for the proper execution of the Work per the requirements OF Section 01010 - Summary of Work.

B. Submit all notices and comply with all laws, ordinances, rules and regulations of any public agency bearing on the Work.

C. Electrical subcontractor shall be a licensed Electrical Contractor in project location jurisdiction.

1.03 DEPARTURES

A. If any departures from the Contract Drawings or Specifications are deemed necessary, details of such departures and the reasons therefore shall be submitted to the ENGINEER for advance written approval, prior to departure.

1.04 AS-BUILT INFORMATION

A. A set of "record drawing" electrical drawings shall be carefully maintained at the job site. Actual conditions are to be put on the drawings in red on a daily basis so the drawings will continuously show locations and routes of cable trays, conduits, pull-boxes, circuit numbers, and other information required by the ENGINEER.

1.05 JOB SITE VISIT

A. Visit the project site before submitting a bid. Verify all dimensions shown and determine the characteristics of existing facilities which will affect performance of the Work, but which may not be shown on drawings or described within these Specifications.

1.06 CUTTING AND PATCHING

A. Cut and prepare all openings, chases and trenches required for the installation of equipment and materials. Repair, remodel and finish in strict conformance with the quality of workmanship and materials in the surroundings. Obtain written permission from the ENGINEER for any alterations to structural members before proceeding.

1.07 MAINTENANCE

A. Render all necessary measures to ensure complete protection and maintenance of all systems, materials, and equipment prior to final acceptance. Any materials or equipment not properly maintained or

protected to assure a factory new condition at the time of final acceptance shall be replaced immediately at no additional cost to the OWNER.

1.08 WATERPROOFING

A. Whenever any Work penetrates any waterproofing, seal and render the Work waterproof. All Work shall be accomplished so as not to void or diminish any waterproofing bond or guarantee.

1.09 TESTS

A. Conduct an operating test of equipment prior to the ENGINEER's approval. The equipment shall be demonstrated to operate in accordance with the requirements of these Specifications. The tests shall be performed in the presence of the ENGINEER or an authorized representative. The Electrical Contractor shall furnish all instruments, electricity and personnel required for the tests.

1.10 SUMMARY OF ELECTRICAL WORK

A. Provide all labor, materials, took, supplies, equipment, and temporary utilities to complete the work shown on the drawings and specified herein. All systems are to be completely installed and fully operational. Specifically the work includes, but is not necessarily limited to:

1. Power, instrumentation, and control raceway and wire as indicated on drawings.

2. Temporary and permanent power and telephone service as required.

3. Power distribution equipment (per drawings).

4. New control panels and field instruments.

5. Grounding.

6. Site and building lighting improvements.

7. Start-up testing and documentation.

1.11 CODES AND STANDARDS

A. General Applicable provisions of the following codes and standards and other codes and standards required by the State of Florida and local jurisdictions are hereby imposed on a general basis for electrical Work (in addition to specific applications specified by individual Work sections of these specifications):

1. U.L.: Electrical materials shall be approved by the Underwriters' Laboratories, Inc. This applies to materials which are covered by U.L. standards. Factory applied labels are required.

2. National Electrical Code.

3. OSHA: Standards of the Occupational Safety and Health Administration are to be complied with.

4. NEMA: National Electrical Manufacturers Association Standards are to be met wherever standards have been established by that agency, and proof is specifically required with material submittals for switchboards, motor control centers, panelboards, cable trays, motors, switches, circuit breakers and fuses.

5. ANSI: American National Standards Institute

6. NESC: National Electrical Safety Code

7. NFPA 820, fire protection in wastewater treatment and collection facilities.

8. Florida Building Code, Latest Edition.

1.12 ELECTRICAL TEMPORARY FACILITIES

A. The CONTRACTOR shall include in the bid the cost of furnishing, installing, maintaining, and removing all materials and equipment required to provide temporary light and power to perform CONTRACTOR's Work during construction and until Work is completed.

B. Safety

1. All reasonable safety requirements shall be observed to protect workers and the public from shock and fire hazards. Ground fault interrupters shall be employed in accordance with codes.

2. Ground wires are required in all circuits. Ground poles are required on all outlets. All metallic cases shall be grounded.

3. Raintight cabinets shall be used for all equipment employed in wet areas.

1.13 EXCAVATING FOR ELECTRICAL WORK

A. General

1. Excavation or drilling, backfill and repair of paving and grassing is to be in the bid of the CONTRACTOR. The actual Work need not be performed by electrical trades. However, the CONTRACTOR is responsible for all excavation, drilling, dewatering, backfilling, tamping, and repair of pavements and grassing required in support of electrical Work. All areas disturbed by electrical Work shall be repaired to their original condition, or as indicated on the drawings.

B. Coordination

1. The CONTRACTOR must check for existing utilities before commencing any excavation or drilling.

2. Contract drawings and other trades are to be consulted to avoid interferences with other utilities on this project.

3. In the event of damage to existing utilities, the ENGINEER shall be immediately notified, and damage shall be immediately repaired.

4. The OWNER is to be consulted to ascertain locations of existing interferences by referring to "As Built" drawings and OWNER's experience. The excavations are to be scheduled at the OWNER's convenience.

C. Precautions

1. The Electrical Contractor must take every reasonable precaution to avoid interferences. In the vicinity of a suspected interference, excavations shall be dug by hand.

1.14 ELECTRICAL PRODUCTS

A. Standards Products

1. Unless otherwise indicated in writing by the ENGINEER, the products to be furnished under this Specification shall be the manufacturer's latest design. Units of equipment and components of the same purpose and rating shall be interchangeable throughout the project. All products shall be newly manufactured. Defective equipment or equipment damaged in the course of installation or test, shall be replaced or repaired in a manner meeting with the approval of the ENGINEER at no additional expense to the OWNER.

B. Delivery, Storage and Handling

1. Deliver products to project properly identified with names, model numbers, types, grades, compliance labels and similar information needed for distinct identification; adequately packaged or protected to prevent deterioration during shipment, storage and handling. Store in a dry, well ventilated, indoor space, except where prepared and protected by the manufacturer specifically for exterior instructions for storage locations.

1.15 ELECTRICAL IDENTIFICATION

A. Color Coding Conductor colors shall be in accordance with the N.E.C. and NFPA requirements.

B. Nameplates

1. The following items shall be equipped with nameplates: All motors, motor starters, junction boxes, motor control centers, pushbutton stations, control panels, time switches, disconnect or relays in separate enclosures, receptacles, wall switches, high voltage boxes and cabinets. All light switches and outlets shall carry a phenolic plate with the supply identified. Special Electrical systems shall be identified at junction and pullboxes, terminal cabinets and equipment racks.

2. Nameplates shall adequately describe the function of the particular equipment involved. Nameplates for panelboards and

switchboards shall include the panel designation, voltage and phase of the supply. For example, "Panel A, 277/480V, 3-phase, 4-wire". The name of the machine on the motor nameplates for a particular machine shall be the same as the one used on all motor starters, disconnect and P.B. station nameplates for that machine. Normal power nameplates shall be laminated phenolic plastic, white front and back with black core, with lettering etched through the outer covering; black engraved letters on white background. Lettering shall be 3/16 inch high at pushbutton stations, thermal overload switches, receptacles, wall switches and similar devices, where the nameplate is attached to the device plate. At all other locations, lettering shall be 1/4 inch high, unless otherwise detailed on the Drawings. Nameplates shall be securely fastened to the equipment with stainless steel pop rivets. Motor nameplates may be non-ferrous metal not less than 0.003 inch thick, die stamped. In lieu of separate plastic nameplates, engraving directly on device plates is acceptable. Engraved lettering shall be filled with contrasting enamel. Equipment nameplate schedule for all equipment shall be submitted with shop drawing submittal for ENGINEER's approval.

3. All junction and splice boxes shall be labeled using permanent shipping tags attached to boxes; not covers.

C. Wire and Cable Identification

1. All wire and cable shall be identified at each termination point and at each pull box, splice box, junction box, or manhole. Provide permanent, waterproof, non-metallic (paper unacceptable) tags indicating the circuit number in 3/16 inch letters.

2. Individual wires within equipment enclosures shall be identified using the equipment manufacturer's shop drawing wire numbers. Panel wire numbers and terminal numbers shall agree. Wire markers shall be as called out on the drawings.

D. Signs

1. Warning signs shall comply with OSHA requirements and reasonable safety precautions.

1.16 SKILLED ELECTRICAL CRAFTSMEN

A. Contractor shall employ and staff the project with skilled Craftsmen experienced in the project requirements.

B. As a minimum, a Licensed Journeyman Electrician shall be present on the project at all times.

C. Other skilled persons shall be present as the project requirements dictate including manufacturer’s representatives, start-up technicians, Engineers, etc.

END OF SECTION

SECTION 16001

ELECTRICAL DEMOLITION

PART 1 GENERAL

1.01 WORK INCLUDED

A. This section covers the work required to complete the electrical demolition required to facilitate the planned improvements.

B. CONTRACTOR shall take precautionary and safety measures to assure the safety of his personnel. All wires shall be identified and disconnected from power sources before removal.

C. CONTRACTOR shall coordinate with the OWNER and ENGINEER.

D. The general demolition scope shall also include the following minimum requirements whether indicated on plans or not.

1. Before demolition, CONTRACTOR shall verify that the equipment is no longer needed or that the demolition will not adversely effect plant operation.

2. Removal of all exposed unused conduit. Removal of all abandoned wire within raceways, cabinets, outlet boxes, trenches and the like associated with equipment shown to be removed on plans.

3. Removal of all hangers and support systems which are not needed as a result of the demolition.

4. CONTRACTOR shall cover all openings as a result of demolition and removals including but not limited to the following:

   a. Cabinets and enclosures

   b. Wall and masonry openings.

   c. Cut conduit, instrumentation line, etc. flush with slab, fill with concrete.

E. Operational Systems

1. To the fullest extent possible, all required systems shall remain operational. CONTRACTOR shall replace and/or repair existing facilities which may be damaged due to equipment removals.

2. Where required wiring passes through or uses enclosures or raceways shown for demolition. CONTRACTOR shall provide raceways and wire as required to keep those systems operational.

3. CONTRACTOR shall remove existing equipment in an orderly, planned and coordinated fashion. All replacement equipment shall be on site and ready to install immediately after the removal of existing equipment.

4. Where demolition interrupts the normal automatic control of the station, CONTRACTOR shall provide full time manual control until

automatic control is restored. CONTRACTOR shall obtain permission of the Owner before removing automatic control.

F. Detailed field investigation shall be provided by the I&C Integrator and the Electrical Subcontractor to identify and establish all circuits which must be modified or replaced.

G. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RECOMMENDED SEQUENCE OF CONSTRUCTION

A. CONTRACTOR shall have the freedom to conduct the construction and modification of the facility in any manner CONTRACTOR sees fit, except that the following minimum requirements shall be adhered to.

1. Drawing No. G-11, Sequence of Construction and Coordination.

1.03 SPECIFIC EQUIPMENT DEMOLITION

A. The following description(s) include but do not limit the specific pieces of equipment for the removal and disposition:

1. Demolish all electrical and control systems, panels, motors, motor control center, disconnect, light fixtures, conduit/wire, field instruments and related components and systems as indicated on drawings.

1.04 DISPOSITION OF EQUIPMENT

A. Except as otherwise indicated, all removed or demolished electrical equipment shall become the property of the CONTRACTOR. All rubble shall be lawfully disposed of by the CONTRACTOR.

B. OWNER shall reserve the Right of Ownership of any OWNER-selected equipment.

C. CONTRACTOR shall load, transport, and lawfully dispose of all or demolished equipment including all enclosed gear, cabinets, raceways, wire and cable, supports, control panels, starters, circuit breakers, buckets, panel covers, light fixtures, rigid galvanized steel conduit and the like.

END OF SECTION

SECTION 16050

BASIC MATERIALS AND METHODS

PART 1 GENERAL

1.01 WORK INCLUDED

A. The work covered by this section of the Specifications consists of furnishing all plant, labor, material and equipment, and in performing all operations necessary for the construction of the electrical work, complete and ready for use. The work shall include, but shall not be limited to the furnishing and installing of materials and equipment to provide a complete electrical system in strict accordance with the specifications, as shown on the drawings, and as is necessary and incidental to the proper operation of the electrical equipment described for the project. Omission of a special electrical item obviously necessary for the proper functioning of equipment shall not relieve the Contractor of the responsibility of furnishing the item as a part of the work.

B. The Work shall include complete testing of all equipment and wiring at the completion of the Work and making any minor connection changes or adjustments necessary for the proper functioning of the systems and equipment. All workmanship shall be of the highest quality; sub-standard work will be rejected.

C. It is the intent of these Specifications that the electrical system shall be suitable in every way for the service required. All material and all work which may be reasonably implied as being incidental to the Work of this Section shall be furnished within the Scope of the Contract.

D. All items specified herein may not be specifically required for this project. CONTRACTOR and/or electrical subcontractor shall coordinate the requirements of this Section with the drawings for proper completion of the work.

E. Like items provided hereunder shall be the end products of one manufacturer in order to achieve standardization for appearance, operation and maintenance.

F. See CONTRACT CONDITIONS and Division 1, GENERAL REQUIREMENTS, which contain information and requirements that apply to the Work specified herein and are mandatory for this project.

1.02 RELATED WORK SPECIFIED ELSEWHERE

A. Section 16000 - Electrical General Requirements.

1.03 REFERENCE SPECIFICATIONS, CODES AND STANDARDS

A. All work shall be in accordance with the latest edition of the National Electrical Code and all applicable national, local and state codes as adopted at bid time.

B. All materials and installations shall comply with the applicable standards of the National Electrical Manufacturers Association (NEMA) and Underwriters' Laboratories (UL).

C. It shall be the responsibility of the Contractor to install all work in conformance with all applicable codes to requirements of all authorities having jurisdiction and to the regulations of related utility companies.

D. Any changes to the design to comply with these codes shall be included in the Bid.

E. When a change is required, the CONTRACTOR shall send a copy of the change to the ENGINEER/OWNER and indicate the reasons. In no case shall any change be made if the design exceeds the minimum requirements of these codes.

1.04 INTERPRETATION OF DRAWINGS

A. The Drawings are not intended to show exact locations of conduit runs. Conduit runs are schematic. All known obstructions are indicated. CONTRACTOR shall locate unknown obstructions and avoid them. CONTRACTOR shall install raceways for a complete and functional system.

B. Unless otherwise directed by the ENGINEER, conduit shown exposed shall be installed exposed; conduit shown concealed shall be installed concealed.

C. Where circuits are shown as "home-runs" all necessary fittings and boxes shall be provided for a complete raceway installation.

D. Harmonize the Work of the different trades so that interferences between conduits, piping, equipment and structural work will be avoided. All necessary offsets shall be furnished so as to take up a minimum space and all such offsets and fittings, required to accomplish this shall be furnished and installed within the Scope of the Contract. In case conflict develops, the ENGINEER's and/or OWNER's authorized representative will decide which equipment or piping, must be relocated, regardless of which was installed first.

E. The locations of electrical equipment and similar devices shown on the Drawings are approximate only. Exact locations shall be as accepted by the ENGINEER during construction. Vendor's approved shop drawings shall be used for dimensions of equipment. Obtain in the field all information relevant to the placing of electrical work and in case of any interferences with other work, proceed as directed by the ENGINEER and furnish all labor and materials necessary to complete the Work in a workmanlike manner.

F. Circuit layouts shown are not intended to show the number of fittings, or other installation details. Furnish all labor and materials necessary to install and place in satisfactory operation all power and other electrical systems shown. Additional circuits shall be installed wherever needed to conform to the specific requirements of the equipment.

G. All connections to equipment shall be made in accordance with the approved shop and setting drawings.

H. CONTRACTOR shall install all power, grounding, control, and instrumentation conduits concealed within walls, slabs, etc. whenever possible unless noted or shown otherwise on drawings.

1.05 SUBMITTALS

A. Submittals shall be made in accordance with Section 01300 - Submittals.

B. Submittals shall be made for all specified equipment and materials. Submittal data shall include but not be limited to catalog data, cut sheets, manufacturer's name and model number.

C. No material or equipment shall be ordered or shop work started until the ENGINEER's review of submittals has been completed.

1.06 QUALITY ASSURANCE

A. Work under this Section shall be accomplished by persons skilled in performance of the required work. All work shall be done in a first class manner in keeping with conventions of the trade. Work under this Section shall be closely coordinated with work of other trades to avoid conflict and interference.

B. The electrical subcontractor shall have experience in similar projects and shall employ a qualified supervisor with responsible experience in similar work who shall be in direct charge at all times.

1.07 DELIVERY, STORAGE AND HANDLING

A. The Contractor shall use all means necessary to protect the materials and equipment of this Section before, during and after installation and to protect the installed work and material of all other trades. In the event of damage, immediately make all repairs and replacements necessary for the approval of the ENGINEER/OWNER at no additional cost to the OWNER.

B. Electrical equipment shall at all times during construction be adequately protected against mechanical injury or damage by water. Electrical equipment shall not be stored out-of-doors. Electrical equipment shall be stored in dry permanent shelters. If any apparatus has been damaged, such damage shall be repaired by the CONTRACTOR at his own cost and expense. If any apparatus has been subject to possible injury by water, it shall be thoroughly dried out and put through such special tests as directed by the ENGINEER, at the cost and expense of the CONTRACTOR, or shall be replaced by the CONTRACTOR within the Scope of the Contract.

1.08 WARRANTY

A. The manufacturer and CONTRACTOR shall warrant the equipment being supplied to the OWNER against all defects in workmanship and materials for a period of one (1) year(s). Warranty period shall commence on Substantial Completion date as outlined in the GENERAL CONDITIONS. Warranties for all equipment installed under this contract shall run concurrently.

B. The MANUFACTURER's warranty period shall run concurrently with the CONTRACTOR's warranty period. No exception to this provision shall be allowed. The CONTRACTOR shall be responsible for proper storage of the equipment so as to remain in an "as shipped" condition.

PART 2 PRODUCTS

2.01 MATERIALS

A. The materials used in all systems shall be new, unused and as hereinafter specified. All materials where not specified shall be of the very best of their respective kinds. Samples of materials or manufacturer's specifications shall be submitted for review as required by the ENGINEER.

B. Materials and equipment used shall be labeled and listed by UL or FM wherever standards have been established and label service is regularly furnished. All products shall conform with the applicable standards of NEMA and ANSI.

2.02 GROUNDING MATERIALS

A. All ground rods shall be 10 or 20 foot 5/8" copperclad sections, unless otherwise indicated.

B. Ground wires shall be soft drawn copper sized per National Electrical Code, unless otherwise indicated.

C. CONTRACTOR shall provide equipment grounding conductors, minimally sized per the N.E.C. unless otherwise indicated.

D. Grounding shall be provided per Article 250 of the N.E.C.

E. Provide exothermic welded connection to the building steel and to ground rods.

F. Test ground resistance in dry conditions, 3 days after rain. Submit test results.

G. Ground resistance shall not exceed 25 ohms per Article 250.56 of the N.E.C. Provide additional ground rods, if required within scope of contract.

2.03 CONDUIT

A. Galvanized Rigid Conduit (ANSI C80.1)

1. Rigid galvanized steel conduit "RGS" shall be U.L. approved, Schedule 40, mild steel pipe, zinc-coated on the inside and outside. Fittings shall be zinc-coated, U.L. approved. Comply with ANSI Spec C80.1 and Federal Spec WW-C-581.

B. PVC Conduit

1. PVC conduit shall be Schedule 80 or 40 as scheduled on drawings and shall be U.L. approved. Comply with Federal Spec WC-1094 and NEMA TC-1.

C. Flexible Conduit

1. All flexible conduits shall be liquidtight, made of corrosion resistant plated steel with extruded polyvinyl covering and watertight connectors.

D. Conduit End (Strain Relief)

1. Shall be nonmetallic, liquidtight, strain relief connectors - straight, as manufactured by Thomas & Betts (T&B) or equal.

E. PVC Coated RGS

1. PVC coated rigid galvanized steel conduit system shall be coated interior (minimum 2 mils) and exterior (minimum 40 mils) provided by Pearmacoat, Robroy, or equal.

F. Rigid Aluminum conduit

1. Rigid aluminum conduit shall be manufactured in accordance with ANSI® C80.5, UL-6A and Federal specifications WW-C581.

2. Provide UL listed rigid aluminum conduit couplings and fittings.

3. Rigid aluminum conduit shall be as manufactured by Wheatland Tube, or equal.

2.04 CABLE, WIRE AND CONNECTORS

A. 600 Volt Power Wiring

1. Cable shall be rated for 600 volts and shall meet the requirements below:

a. Conductors shall be stranded.

b. All wire shall be brought to the job in unbroken packages and shall bear the date of manufacturing; not older than 12 months.

a. Type of wire shall be THHN/THWN except where required otherwise by the contract drawings.

d. No wire smaller than No. 12 gauge shall be used unless specifically indicated.

e. Conductor metal shall be copper.

f. All conductors shall be meggered after installation and insulation must be in compliance with the National Electrical Code.

B. Instrumentation and Control Cable

1. Single and multiple pair, process instrumentation wire shall be 16 gauge twisted pair, stranded copper, 600 V., cross-linked polyethylene insulated, aluminum tape shielded, polyvinyl chloride jacketed. Wire shall be Houston Wire and Cable Product HW106, or equal.

2. Multi-conductor control cable shall be stranded 14 gauge, copper, 600V. THWN insulated overall shielded with PVC jacket. Cable shall be Houston Wire and Cable Product HW151, or equal.

C. Ground Wire

1. Bare, stranded copper conductors.

2. Provide tin plated copper at locations where grounding conductors are in direct contact with concrete.

D. Tray Cable

1. Power and control wiring installed in cable try system shall be 600V rated, shielded, tray cable, stranded copper with XHHW/CPE rated insulation, UL 1277 and UL 1685.

2. Tray cable shall be manufactured by Southwire, or equal.

2.05 BOXES (INTERIOR)

A. Outlets, junction boxes, conduits and pull boxes shall be of adequate size for the number of wires run into them. Pull boxes shall be installed where necessary and shall be placed in accessible location. All junction boxes and conduit fittings shall be cast of cadmium finished malleable iron.

B. PVC and F.R.P. fiberglass reinforced plastic shall be permitted in protected location.

2.06 BOXES (EXTERIOR AND PROCESS AREAS)

A. Boxes for wiring devices (switches and receptacles) installed outdoors or in process areas shall be weatherproof stainless steel with stainless steel cover plates. Junction boxes shall be stainless steel with gasketed covers. All boxes shall be securely mounted plumb and level in readily accessible locations. Boxes shall have stainless steel cover plates.

B. Unless otherwise indicated, all outdoor or process area junction boxes and pull boxes shall be NEMA 4X stainless steel.

2.07 SAFETY DISCONNECT SWITCHES AND ENCLOSED CIRCUIT BREAKERS

A. Safety Disconnect Switches

1. Fusible and non-fusible disconnect switches shall be heavy-duty, NEMA type H, quick-make, quick-break, visible blades, 600 volt, 3 pole with full cover interlock. Switches shall have copper Lugs.

2. Where disconnects are installed outside, provide a NEMA 4X, stainless steel enclosure.

3. Switches shall be horsepower rated and as manufactured by the Square D Co., or equal.

4. Auxiliary contacts shall be provided where required on plans.

5. Where indicated on drawings, provide auxiliary wire lugs for the surge capacitor (SC) and transient voltage surge suppressor (TVSS). These auxiliary lugs shall be on the load side of the switch. Lug sizes shall be coordinated with wire sizes required for these devices.

B. Enclosed Circuit Breakers

1. Provide a thermal magnetic circuit breaker, 480 volt (where applicable) or 240 volt, 3 pole molded case, per UL 489. All breakers shall have copper lugs.

2. Unless otherwise indicated, breakers shall be enclosed in a NEMA 4X, stainless steel enclosure.

3. Minimum breaker AIC shall be 65 KAIC unless otherwise indicated.

4. Units provided as main service disconnects shall be service entrance rated.

2.08 TERMINATIONS AND SPLICES (600 VOLTS AND LESS)

A. Terminations of power cable shall be by means of U.L. approved connectors. All connectors shall meet U.L. 486B and shall be compatible with the conductor material.

B. Terminate all control and instrumentation cable with fork type compression lugs or similar.

C. Splicing of power, control, or instrumentation wiring will not be allowed except by written approval of the ENGINEER. Where splicing is allowed, splices shall be made with approved compression connectors, and splices shall be made waterproof at outdoor locations.

D. Unless otherwise indicated, power splices shall be made using polaris taps.

E. Unless otherwise indicated control circuits and power circuits less than #10 shall be made using compression butt splice with heat shrink.

F. Signal splices shall be made using compression butt splices with heat shrink.

G. Submit splice system for review and approval.

2.09 AUXILIARY GUTTERS

A. Gutters shall be provided per NEC article 374.

B. Interior Gutters

1. Minimum gauge steel shall be 12. Gutters shall be painted with one prime coat and two finish coats. Final coats shall match other electrical enclosures.

C. Exterior and Process Area Gutters

1. Minimum metal gauge shall be 12. Exterior gutters shall be NEMA 4X, Type 316 SST.

D. Submit shop drawings for all gutters.

2.10 MOUNTING AND SUPPORTING ELECTRICAL EQUIPMENT

A. Furnish and install all supports, hangers, and inserts required to mount fixtures, conduits, cables, pullboxes, and other equipment furnished under this section or furnished for installation under this section.

B. Perforated straps and wire are not permitted for supporting electrical devices. Anchors shall be of approved types.

C. Framing channels for mounting disconnect switch, field panels, electrical equipment and the like, shall be minimum 1-5/8-inch width type 316 stainless steel channels as manufactured by Unistrut, or equal.

D. Pipe clamps, nuts, bolts, washers and other miscellaneous installation hardware shall be type 316 stainless steel.

2.11 TRANSIENT VOLTAGE SURGE SUPPRESSION (TVSS)

A. Furnish a UL listed TVSS, IT Protector, PTX400 Series, NEMA 4X with fused disconnect, no equal.

2.12 LIGHTING AND CONVENIENCE ITEMS

A. Lighting and convenience items shall be as specified and scheduled on the drawings.

2.13 LIGHTING CONTACTORS

A. Units installed indoors in clean dry rooms shall be NEMA 1; all others shall be NEMA 4X.

B. Eaton/Cutler-Hammer, UL Listed, electrically held contactor, with hand-off-auto selector, 30mm.

C. Provide and install photocell.

2.14 TIME CLOCKS

A. Units shall be UL Listed, 24/hour/7 day, electromechanical time clocks with mechanically held contactor, 30 amp rated, NEMA 3R enclosure.

B. Time clocks shall be as manufactured by Intermatic, or equal.

PART 3 EXECUTION

3.01 GENERAL

A. Prior to all work of Section, carefully inspect the installed work of all other trades and verify that all such work is complete to the

point where this installation may properly commence. Install all electrical work to conform with job site conditions and all Drawings and Specifications.

B. All "tight" conditions shall be worked out in advance by the Contractor with all involved trades. In the event of any discrepancy, immediately notify the ENGINEER/OWNER. Do not proceed with any installation in the area of the discrepancy until it has been fully resolved. No additional cost will be considered for work which must be relocated due to the conflicts with the work of other trades.

C. Install all equipment, systems and materials in strict accordance with manufacturers' recommendations and NEMA standards for installation. If this in any way causes conflicts, immediately notify the ENGINEER/OWNER.

D. Provide all mounting supports and accessories as required to install all equipment and all system components. Correlate the Shop Drawings as applicable.

E. Coordinate with precast concrete supplier for locations of conduit blockouts. Blockouts shall be twice the nominal diameter of intended conduit.

3.02 EXCAVATION FOR ELECTRICAL WORK

A. The work of this article is defined to include whatever excavating and backfilling is necessary to install the electrical work. Coordinate the work with other excavating and backfilling in the same area, including dewatering, flood protection provisions and other temporary facilities. Coordinate the work with other work in the same area, including other underground services (existing and new), landscape development, paving and floor slabs on grade. Coordinate with weather conditions and provide temporary facilities needed for protection and proper performance of excavation and backfilling.

3.03 CONCRETE FOR ELECTRICAL WORK

A. The work of this article is defined to include whatever concrete work is necessary or shown specifically to install the electrical work.

B. Concrete shall be as specified in Section 03300 - Concrete.

3.04 WATERPROOFING

A. Use watertight fittings on panel or other equipment to keep out water. Seal conduits coming from wetwell with duct seal to keep out moisture.

B. Where support holes are drilled in panel or boxes, seal with butyl rubber or other approved sealing compound inside and out.

3.05 GROUNDING

A. Provide ground system as indicated on the drawings and as required by the National Electrical Code.

B. All raceways require grounding conductors. Metallic raceways are not adequate grounding paths. Bonding conductors through the raceway systems shall be continuous from main switch ground buses to panel ground bars of panelboards, and from panel grounding bars of panelboards, and motor control centers to branch circuit outlets, motors, lights, etc. THESE GROUND CONDUCTORS ARE REQUIRED THROUGHOUT THE PROJECT REGARDLESS OF WHETHER CONDUIT RUNS SHOW GROUND CONDUCTORS ON THE DRAWINGS.

C. All connections made below grade shall be of the exothermic type.

3.06 CONDUIT

A. Locations

1. Conduit materials shall be used as scheduled on Drawings.

B. Installation

1. Conduits subjected to rough handling or usage shall be removed from the premises.
2. Conduits must be kept dry and free of water or debris with approved pipe plugs or caps. Care shall be given that plugs or caps be installed before pouring of concrete.
3. Where conduits pass through exterior concrete walls or fittings below grade, the entrances shall be made watertight. This shall be done by providing pipe sleeves in the concrete with one half inch minimum clearance around the conduits and caulking with sealant, or by means of conduit entrance seals.
4. Conduits entering panelboards, pull boxes, or outlet boxes shall be secured in place by galvanized locknuts (grounding type with lugs) and bushings, one (1) locknut outside and one (1) locknut inside of box with bushing on conduit end. The locknuts shall be tightened against the box without deforming the box. Bushings shall be of the insulating type.
5. Field conduit bends shall be made with standard tools and equipment manufactured especially for conduit bending.
6. Where embedded conduits cross expansion joints, furnish and install offset expansion joints or sliding expansion joints. Sliding expansion joints shall be made with straps and clamps.
7. Exposed runs of conduits shall be installed with runs parallel or perpendicular to walls, structural members or intersections of vertical planes and ceilings, with right angle turns consisting of symmetrical bends or pull boxes as indicated on the drawings. Bends and offsets shall be avoided where possible.
8. Conduits in structural slabs shall be placed between the upper and the lower layers of reinforcing steel, requiring careful bending of conduits. Conduits embedded in concrete slabs shall be spaced not less than eight (8) inches on centers or as widely spaced as possible where they converge at panels or junction boxes. Conduits running parallel to slab supports, such as beams, columns and structural walls shall be installed

not less than 12 inches from such supporting elements. To prevent displacement during concrete pour, saddle supports for conduit, outlet boxes, junction boxes, inserts, etc., shall be secured.

9. Conduit runs shall always be concealed except where indicated on plans.
10. Pull wires shall be installed in all empty conduits. Pull wires shall be No. 12 gauge copper. All pull wires shall be identified with conduit number at each end.
11. The use of running threads is prohibited and where some such device is necessary, split couplings, Erickson couplings, or equal shall be used. Where watertight conduit installations are required, watertight conduit unions shall be used.
12. Where conduits are run individually, they shall be supported by approved pipe straps secured by means of toggle bolts on hollow masonry; expansion shields and machine screws or standard preset inserts on concrete or solid masonry; machine screws or bolts on metal surfaces, and wood screws on wood construction. The use of perforated straps or wires will not be permitted.
13. Concrete inserts and pipe straps shall be Type 316 stainless steel.
14. Wire shall not be installed until all Work of any nature that may cause damage is completed, including pouring of concrete. Mechanical means shall not be used in pulling in wires No. 8 or smaller.
15. Underground conduits not under concrete slabs, are to be buried at least two (2) feet below finished grade for circuits rated 600 volts or less, except under traffic areas where motor vehicles may cross. Under traffic areas, conduits are to be buried at least three (3) feet below finished grade.
16. All conduits shall be cleaned by pulling a brush swab through before installing cables.
17. All conduits shall be sealed at each end with electrical putty. Special care shall be taken at all equipment where entrance of moisture could be detrimental to equipment.
18. Where rigid conduit penetrates ground or concrete, the conduit shall be painted with two (2) coats of asphaltic base paint one (1) foot on each side of penetration.
19. A maximum of two (2) feet of flexible conduit shall be used at connections of all motors, transformers, motor operated valve and gates, instruments, and other items of equipment where vibration is present.

3.07 WIRES, CABLES AND CONNECTIONS

A. Cables pulled into conduits shall be pulled using pulling eyes attached to conductors.

B. Shields shall be grounded at only one termination point.

C. A loop of each conductor shall be provided in each manhole to facilitate the addition of future tee splices.

3.08 BOXES

A. Installation of boxes shall be in accordance with the National Electrical Code requirements.

B. Boxes shall be mounted plumb and level in accessible locations and mounting shall be secure, vibration resistant, and galvanically compatible. Hardware shall be used that is specifically intended for the purpose. When mounted in corrosive, damp or wet locations, stainless steel hardware shall be utilized.

3.09 WIRING DEVICES

A. Wiring devices shall be installed in device boxes approved for the application. All connections shall be made with screw terminals.

3.10 MOUNTING AND SUPPORTING ELECTRICAL EQUIPMENT

A. Furnish and install all supports, hangers, and inserts required to mount fixtures, conduits, cables, pull boxes, and other equipment furnished under this section or furnished for installation under this section.

B. Perforated straps and wire are not permitted for supporting electrical devices. Anchors shall be of approved types.

C. All floor mounted devices (switchboards, motor control centers, transformers, etc.) shall be securely anchored to the floors. Where recommendations are made by manufacturer, these recommendation shall be followed.

D. Pipe stands shall be constructed for supporting electrical and I&C equipment. Unless otherwise indicated, all materials shall be 316 stainless steel including all hardware. Pipe stands shall be set a minimum of 36" in the ground with 36" x 12" diameter concrete encasement. Encased pipe shall be coated with bitumastic coating. Unless otherwise indicated, top of equipment mounting height shall be approximately 60" above final grade but shall be increased as required to maintain a minimum of 12" from bottom of equipment enclosure to the final grade.

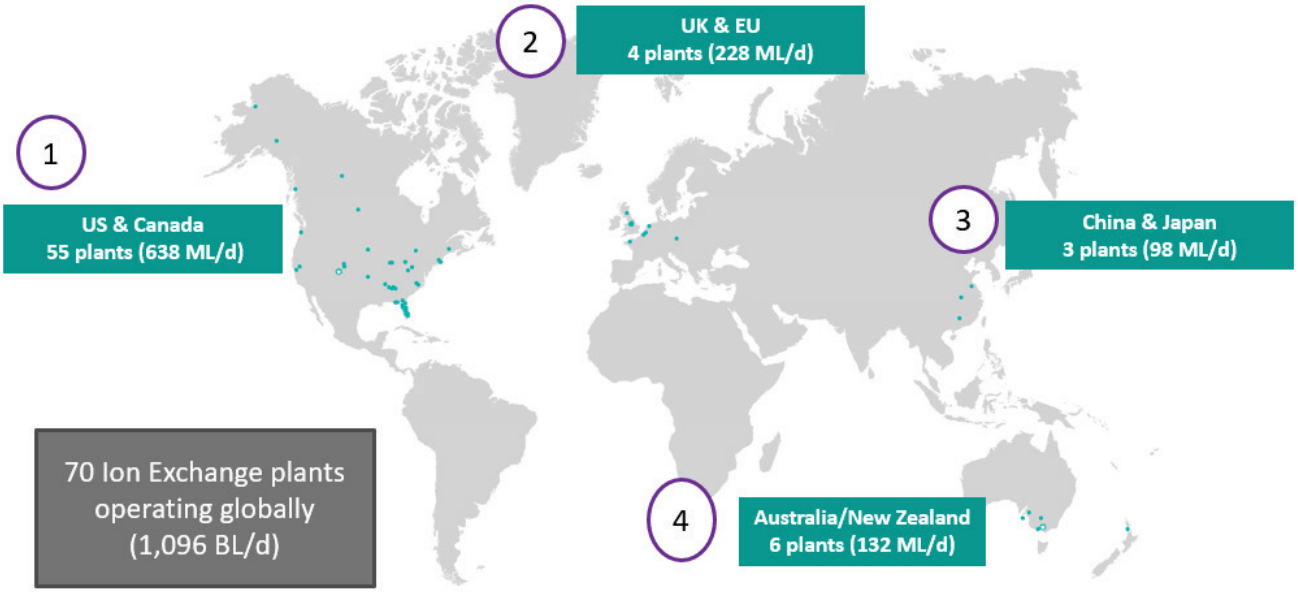
SECTION 1: OVERVIEW

1.1 General

The Village of Palms Springs (VPS) MIEX Systems at the Main WTP (6 MGD) and Pratt WTP (4 MGD) have been operating since 2005. VPS is currently working through engineering design and details with Eckler Engineering in upgrading some equipment of the MIEX System, mainly around the regeneration equipment, electrical system and controls

The contents of this Equipment Supply Proposal document cover the following main items, which are further detailed within:

1. Necessary process design for MIEX system components being replaced
2. Generation of design documents, drawings, specifications for the MIEX System
3. Procurement and fabrication of MIEX Treatment System equipment components
4. Delivery of equipment to site only
5. Onsite professional services to review related MIEX site works, provide guidance with overall equipment installation
6. Onsite professional services for start-up and commissioning of the MIEX System
7. Onsite professional services for operator training, overview of initial operation and performance verification
8. Provide project documentation, OM Manuals, as built equipment drawings etc.



1.2 About Ixom

Ixom Watercare Inc. (Ixom) is an operating unit of Ixom Australia Pty doing business throughout the USA, Australasia, Asia and the United Kingdom. Ixom is a market leader in water treatment and chemical distribution in Australia and New Zealand, with an expanding presence in Europe/UK, Asia, Latin America and North America. We supply a wide range of products across a diverse range of industries including Water Treatment, Pulp & Paper, Mining, Energy, Industrial, Building & Construction, Plastics, Food & Beverage, Personal Care, Health, Hygiene and Agriculture.

We provide our customers with end-to-end solutions, supported by unique industry and technical expertise, across our full portfolio of products and services. With a focus on growth and innovation, Ixom will ensure we are providing the best possible products and services to our customers, in a bold, decisive and results-focused manner. We will work every day to help your business succeed by providing end-to-end solutions to solve your challenges.

Ixom has supplied equipment and systems for over 70+ Ion Exchange systems worldwide ranging in capacity from 0.3 MLD up 124 MLD capacity, treating ~1.1 billion liters per day. Another 10 plants are currently in design / construction for 2019/2020.

Systems have been operating for 20 years treating targeting containments such as:

- Dissolved organic carbon
- Colour (reduction)
- Hydrogen sulphide
- Softening
- Nitrate
- Bromide
- Taste and odour
- Other targeted containments

SECTION 2: TECHNICAL SUMMARY

2.1 Scope Summary

The equipment scope of supply for both the Main and Pratt Plants are similar, for each:

- 1 x New Regeneration Equipment Skid(s)
- 1 x New Virgin Resin Skid
- 1 x New MCC/PLC Electrical Panel
- 1 x Additional Volume of Make-up Resin (as required to fill new regen vessels)
- 1 x New Control System with HMI Screens / PLC Program
- 1 x Lot of Engineering, design, submittals, documentation
- 1 x Lot of Site Services for Equipment Installation, Start-up and Commissioning Support

Each of these are further detailed below.

2.2 Capacity

The regeneration systems are designed based on the following capacity parameters. From this, other design and sizing of equipment are determined as a result. The regeneration system will have a treatment rate of 1000 BV (bed volumes) at the maximum plant capacity.

Table 1 – Regeneration Design Capacity Summary

Parameter	Units	Main WTP	Pratt WTP
Total MIEX Capacity	MGD	6.0	4.0
Average Treatment Capacity	MGD	3.5	2.0
Design Regen Rate for New Equipment	BV	1,000	1,000
Daily Resin Regeneration Capacity	gal/day	6,000	4,000
Current Resin Recycle Concentrations [1]	mL/L	>200	>200

NOTE:

1. The current system is assumed to be operating with a settler recycle concentration of >200mL/L. This is for others to confirm.

2.2.1 Regeneration System

(a) Equipment Configuration

The tanks are supplied with an underdrain system to separate liquid (water, brine) from the resin bed. The discharges from the underdrain allow carrier water to be returned back to the contactor or diverted to waste (operator configurable), brine sent to waste, and brine sent back to the recycle tank.

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

The regeneration tanks are connected via common inlet and outlet manifolds. This allows the tanks to function independently to maximize the resin-processing rate and minimize the size of equipment required. The regeneration system is equipped with multiple regeneration tanks. This provides sufficient regeneration capacity for the plants raw water flow at 1,000 BV treatment rate. The tank regenerates ~330 gal of resin with each cycle. Each regeneration tank / equipment skid system is fitted with agitator, necessary pumps, valves and instruments.

(b) Equipment Components

The regeneration system is designed to remove DOC from the resin by exchanging it with chloride ions utilizing a salt brine solution (NaCl). The main regeneration components are:

A. Regeneration Tanks: Resin is loaded into the tank, and the overall regeneration process takes place. At the end of the cycle, the regenerated or fresh resin is then transferred out of the tank back to the contactor vessel(s). All of the tanks act independently of each other, and at any one time all tanks could be in use. The tanks are typically a circular fiberglass construction.

B. Equipment Skid Modules: Each tank has an equipment skid module that has various control valves, piping, pumps, instruments and electrical panel. The skid modules are fully shop fabricated and are stacked end on end based on the number required to achieve the required treatment rate.

C. Additional Make-up Resin Inventory: Some additional make-up resin inventory is supplied for each site in IBC's / totes.

   Note: This resin inventory provided for in this contract is only enough to fill the likes of the additional tankage provided for in this regeneration upgrade and is not replacing re relishing the initial resin inventory (if low) required to maintain treatment at each site.

(c) Configuration and Capacity

The regeneration system would be sized to treat the below daily quantities of resin. The daily quantities are based on the maximum regeneration rate of 1,000 BV. Based on the daily (maximum) demand, a required number of regeneration tanks are needed to treat the necessary total daily volume.

Table 2 – Regeneration System Equipment

Parameter	Units	Main Plant	Pratt Plant
Regeneration Rate (max)	BV	1,000	1,000
Resin Volume Regenerated	gal/day	6,000	4,000
Regeneration Tank	Qty	3	2
Regeneration Tank – Size	ft x ft	5.0 ID x 9.9 H	5.0 ID x 9.9 H
Regeneration Tank – Vol Resin	gal/regen	330	330
No. of Fresh Resin Pumps	Qty	1 (duty only)	

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

NOTE:

1. The design assumes the current plant operates with a settler recycle concentration of >200 mL/L. This is for others to confirm. With no loaded resin tank (which is normal, and VPS did not want this), operating at lower recycle concentrations than 200 mL/L requires more de-watering at the start of regeneration cycles, which impacts its daily capacity (i.e. more de-water means cycles take longer).

2.3 Virgin Resin Addition System

Periodically make-up resin is added to the MIEX System (automatically controlled by the PLC/HMI). On-going resin will be supplied in IBC's and the small skid is used to unload. For a plant of this capacity, could unload half or the complete tote at the one time, and each addition might be once every several weeks.

Operations staff would simply need to bring a new tote over and hook it to the manifold prior to the required addition of a new tote. To operate the skid requires a service water supply of minimum 50-55 psig (from a supply that has back flow prevention).

2.4 Electrical

2.4.1 MCC / PLC Electrical Panel

For each site, one (1) MCC / PLC panel will be supplied. The panel will be a free-standing type (NEMA 12 rated), painted steel enclosure. Enclosure will have side by side compartment doors for accessing internal equipment. As some equipment is existing, the horse-power (HP) of what Ixom believes the drive sizes to be are summarized below, and new drives for replacement equipment being supplied. Equipment brands will be:

- VFD Drives: Allen Bradley, PowerFlex
- DOL Starter: Allen Bradley
- HMI: Phoenix Valueline, 15" touchscreen
- PLC: Allen Bradley, CompactLogix (1769-L33ER)

Drives Sizes		Main Plant	Pratt Plant
Contactor Vessel Mixers [1, 2]	(existing)	2 x 2 HP	1 x 2 HP
Resin Recycle Pumps [1, 2]	(existing)	4 x 5 HP	4 x 5 HP
Regeneration Tank Mixers [2]	(new)	3 x 1 HP	2 x 1 HP
Regeneration Underdrain Pump [2]	(new)	3 x 2 HP	2 x 2 HP
Regeneration Fresh Resin Pump [2]	(new)	1 x 5 HP	1 x 5 HP
Recycle Brine Pump [1, 3]	(existing)	1 x 10 HP	1 x 10 HP
Saturated Brine Pump [1, 3]	(existing)	1 x 1 HP	1 x 1 HP

NOTE:

It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

1. Existing drive HP sizes to be confirmed by others. Costs are based on these sizes. If different may alter equipment price.
2. Assumed to be a variable frequency drive.
3. Assumed to be a DOL starter (not soft-start).

2.4.2 Remote I/O Panels

For each regeneration tank there will be a remote I/O panel for skid devices. Panels require a single 120VAC power supply and an ethernet communication cable from the MCC/PLC panel.

Existing equipment and associated I/O will be terminated at I/O cards in the new MCC/PLC panel. Assumed there is only I/O associated with the MIEX System and will not be used for other site equipment outside of direct MIEX equipment.

It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

SECTION 3: SCOPE OF SUPPLY

3.1 Resin Regeneration Systems

The following equipment will be part of the packaged regeneration systems supplied by Ixom. Site setting and installation of skid modules BY OTHERS.

A. Tank Module Sets

- Main WTP: Total of three (3) tank module sets.
- Pratt WTP: Total of two (2) tank module sets.

Each individual regeneration tank module consists of the following:

1. Resin Regeneration Vessel: Vessels of approximate dimensions 5.0 ft (ID) x 9.9 ft (H) constructed from FRP.
2. Vessel Agitator: One (1) regeneration vessel agitator units (with standard TEFC motor, gearbox, 316 stainless steel shaft and impeller).
3. Underdrain Pump: One (1) electric-operated, non-metallic diaphragm underdrain pump used for separating resin / liquid, constructed from plastic.
4. Level Transmitter: One (1) vessel radar level transmitter.
5. Conductivity Probe: One (1) conductivity probes and transmitters for the vessel underdrain system.
6. Actuated Process Valves: A set of electric operated actuated valves for each resin vessel; valves constructed from PVC / EPDM.
7. Manual Process Valves: A set of manual operated valves; valves constructed from PVC / EPDM.
8. Skid Frame: One (1) aluminum constructed skid frame for mounting vessels, mixers, instruments, valves, pumps, associated piping and controls. Regeneration system supplied with access stairs and platform with handrails, kick plates, etc. for viewing into regeneration tanks.
9. Resin Process Piping: One (1) set of piping for resin duties on the regeneration skid to distribute resin to and from the regeneration vessels. Piping and fittings constructed from PVC Sch 80.
10. Brine Process Piping: One (1) set of piping for brine duties on the regeneration skid to distribute brine to and from the regeneration vessels. Piping and fittings constructed from PVC Sch 80.
11. Service Water Piping: One (1) set of piping for service water duties on the regeneration skid to distribute service water to and from the regeneration vessels. (NOTE: Service water connection supplied BY OTHERS).

B. Fresh Resin Pump Skids

For both Main and Pratt WTP's, each regeneration system systems are supplied with one (1) fresh resin pump skid consisting of:

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

1. Fresh Resin Pumps: One (1) low shear pumps for transferring fresh resin from the regeneration vessels to the contractor inlet (NOTE: This is a common pump skid for all tanks).
2. Pump Pressure: One (1) pump discharge pressure transmitters.
3. Discharge Conductivity: One (1) common pump discharge conductivity probe and transmitter.
4. Actuated Process Valves: A set of electric operated actuated valves for each resin vessel; valves constructed from PVC / EPDM.
5. Manual Process Valves: A set of manual operated valves; valves constructed from PVC / EPDM.
6. Skid Frame: One (1) aluminum constructed skid frame for mounting pump, valves, instrument and associated piping.

C. Access and Walkway Platform

For both Main and Pratt WTP's, each regeneration set one (1) common access stairs and walkway platform:

1. One (1) fabricated set of access stairs constructed from structural aluminum members, handrail components and FRP grid stair treads.
2. One (1) common tank walkway / access platform constructed from structural aluminum handrail components and FRP grid walkway grating.

3.2 Virgin Resin Addition System

For both Main and Pratt WTP's, one (1) MIEX virgin resin handling system each. MIEX resin eductor and associated piping/valves will be supplied on aluminum support frame:

1. One (1) resin container interface device with slurry attachment.
2. One (1) virgin resin eductor for transferring from the tank to the resin regeneration module.
3. One (1) set of manual valves; valves constructed from PVC / EPDM.

3.3 Electrical Panels

A. Motor Control / Programmable Logic Control Panels

For both Main and Pratt WTP's, one (1) Motor controls center (MCC) for supplied drives, with ICA/ PLC section supplied by Ixom. These would be free-standing type MCC panels. Panels supplied with:

- Motor drives, VFD's and controls
- VFD keypads with some HOA type features
- Power (240/120 VAC) supply / circuits
- One (1) PLC processor, power supply and necessary communication cards
- Necessary relays, terminals and other wiring devices
- Ethernet switch for communications to motors/drives
- One (1) HMI interface (door mounted)

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

Panel supplied as a loose item for site setting BY OTHERS. Site wiring and communications to remote I/O panels, drive VSD, and other plant connections all BY OTHERS.

B. Remote I/O Panels

For Main WTP, supply of three (3) remote I/O panels for regeneration tank skids.

For Pratt WTP, supply of two (2) remote I/O panels for regeneration tank skids.

Panels contain:

- Power (120V VAC) supply / circuits for associated field equipment devices.
- I/O cards (analog, discrete) for necessary field equipment devices control signals.
- Necessary relays, terminals and other wiring devices.
- controls for field electric actuated valves.
- Ethernet switch for communications.

The regeneration I/O panels are skid mounted with shop installed skid wiring.

NOTE: For existing MIEX equipment remaining that requires I/O, these will be terminate to I/O cards in the new MCC/PLC panel (located in existing electrical room).

3.4 MIEX HMI / PLC Controls

For both Main and Pratt WTP's, systems will be supplied with one (1) standalone touchscreen human machine interface (HMI) with process and graphical screens, and programmable logical controls (PLC) controls of the MIEX System for operation. The MIEX HMI (panel mounted) and PLC will be installed with an ICA section of the MCC. HMI programming in VT SCADA, includes one (1) Graphical Terminal License for VT SCADA.

3.5 Additional Resin

Additional resin to supplement the existing resin inventory:

- Main WTP: Six (6) resin totes / IBC's
- Pratt WTP: Four (4) totes / IBC's

NOTE: Current resin inventories levels are unknown, it's assumed the levels are adequate. The above supplied volumes don't account for any deficit in resin if the current system inventory is low.

3.6 Professional Services

In order to ensure peak efficiency and performance of the MIEX system, professional services (system inspection by a qualified representative from the manufacturer – Ixom) have been included in this scope of work. The same duration has been allocated for both Main and Pratt WTP's as outlined below.

A. Project Scoping / Plant Design

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

To assist with the overall MIEX System design, a total of one (1) two day (2) visit during the design / development phase of the project, for likes of:

1. Design reviews / meetings with Engineer and/or Client
2. Review of Engineers documents / drawings used for overall bidding to general contractors

B. MIEX Equipment Installation Support

To review equipment installation, one (1) three (3) day visit for each site during construction and equipment installation phases, in order to:

1. Review overall installation requirements with site general contractor(s).
2. Answer any general questions on requirements, scope of works etc.
3. NOTE: No actual site works are performed by Ixom.

C. MIEX Equipment Start-up and Commissioning

A total of (10) days over two (2) visits for commissioning and start-up to carry of out the following works with project & site operations staff for the likes of (assumed to be 5 days per site):

1. Assistance with initial dry testing and water testing of MIEX plant components including component QC testing, as applicable.
2. Assistance with loading of any top-up MIEX Resin from IBC's into the process.
3. MIEX equipment commissioning.
    a. Checks and testing of supplied equipment and HMI/PLC controls
    b. Start-up and initial operation of the new regeneration system.
4. Onsite training of plant staff on the operation and maintenance requirements of the new supplied equipment.

3.7 Design / Documentation

A. Design / Submittals

For both Main and Pratt WTP's, as part of the MIEX System process design, the following types of standard design documentation will be provided in Ixom standard supply formats:

Specification Documents:

- Specification – Control System Functional Description & Sample HMI Screens
- Specification – Start-up / Process Commissioning Outline

Schedule Documents:

- Schedule – Equipment Summary
- Schedule – Valve Summary
- Schedule – Instrument Summary
- Schedule – Electrical/Drive Load Summary
- Schedule – PLC I/O List

Drawings:

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

- Process & Instrumentation Drawings (w/ scope breaks)
- Equipment skids arrangement views, details, dimensions, weights
- Electrical panels layout and wiring

B. Documentation

System will be delivered with a full Operations and Maintenance Manual including P&ID's, Plant arrangement drawings, electrical schematics and panel layouts, process equipment cut-sheets and operation/maintenance manuals, and other system information.

3.8 General Equipment Comments / Clarifications

Skid/Frame Structure: Equipment skids are constructed from aluminum unless otherwise specified. Some equipment and pipe supports on equipment skids may be constructed from 304 stainless steel.

Process Piping: All process piping and fittings that is pre-fabricated on equipment skids shall be constructed from Sch 80 PVC (resin, water and brine duties). PVC piping supplied is not painted. Where compressed air maybe used, piping shall be stainless steel 304 sch 10 pipe/fittings for compressed air (for main header line); and nylon or PP tubing for individual lines to equipment items (e.g. from electric solenoid valve to user).

Coatings: Scope of supply is based on standard coatings/finishes provided by equipment suppliers (pumps, motors, instruments, etc.).

Anchors: All equipment skids and tanks are designed with footing pads and hold-down features. All anchors/hold down bolts, washers, nuts and grout for leveling equipment shall be BY OTHERS unless otherwise noted.

Electrical Assembly of Equipment Skids: Any equipment skids will be pre-wired in the shop as much as practical. Field wiring to equipment skids will be terminated in junction boxes / panels installed on the equipment skids.

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

SECTION 4: EXCLUSIONS AND SCOPE BY OTHERS

4.1 General

Ixom are not involved for defining any work or scope for:

- Defining and demolition / removal of existing equipment
- Ensuring there is minimal disruption or change-over of equipment (i.e. regeneration system)
- Decommissioning of any existing equipment

The items listed below are a summary of scope required by a CONTRACTOR for the new equipment being supplied. These don't include any associated interactions about other work need to install equipment around existing plant that may / may not be there.

4.2 Equipment Unloading / Site Setting

Equipment will be delivered to site by IXOM. The CONTRACTOR is responsible for:

1. Inspection equipment as delivered and noting / reporting any issues of damages.
2. Offloading equipment, providing any lifting equipment (i.e. cranes, rigging) and labor for off-loading.
3. Site storage of equipment. Equipment cannot be stored outdoors.
4. All labor, materials, consumables, construction facilities, site setting and installation of process equipment items supplied.

4.3 Resin Regeneration Equipment

The CONTRACTOR is responsible for:

1. The design and construction of concrete foundations or structures.
2. Setting and levelling of equipment skids and walkway; anchoring and all anchoring hardware.
3. Re-installation of some pipe skid spools and skid electrical wiring that had to be disconnected for shipping.
4. Installation of interconnecting piping to/from regeneration skid headers for:
    a. Loaded and fresh resin
    b. Service water
    c. Carrier water
    d. Recycle brine
    e. Saturated brine
    f. Waste brine
    g. Any pipe labelling
5. Installation of 460V power wiring / conduits for motors from MCC panel
6. Installation of 120V power and communication cables to RIO skid panels from MCC panel (ICA section)

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

4.4 Virgin Resin Equipment

The CONTRACTOR is responsible for:

1. The design and construction of concrete foundations or structures.
2. Setting and levelling of equipment skids; anchoring and all anchoring hardware.
3. Installation of interconnecting piping to/from regeneration skid headers for:
    a. Virgin resin discharge
    b. Service water supply

4.5 MCC / PLC Enclosure

The CONTRACTOR is responsible for:

1. Setting of MCC enclosure in existing electrical room; anchoring and all anchoring hardware
2. Installation of main 460V power feed
3. Installation of 460V wiring / conduit to all drives (some new and existing)
4. Installation of 120V to other panels, devices, instruments (some new and existing)
5. Installation of I/O control signals other panels, devices, instruments (some new and existing)

4.6 MIEX HMI/PLC Controls

The CONTRACTOR is responsible for:

1. Any integration of the MIEX HMI/PLC system with the site control system. A base HMI/PLC program is provided by Ixom, but any other hardware / routers / cables etc. to integrate are not included.

4.7 Loading Addition Resin / Commissioning Support

The CONTRACTOR is responsible for:

1. Assisting IXOM in loading the additional top-up MIEX Resin.
2. Presence onsite (mechanical / electrical) for commissioning support for entire duration, help trouble shoot any problems.

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

SECTION 5: PROJECT DELIVERY

5.1 Ixom Project Team

Design, manufacture and delivery of equipment will be managed by a dedicated in-house team specializing in the use of water treatment applications. Overall there is of over 40+ years of combined experience related to the design and implementation of MIEX Systems. Where required, a network of specialized supporting design engineers / contractors are used.

Scott Mitchell	Engineering Director (BE Chem.)
Sasa Golubovic	Principal Process Engineer (M.S Che.E)
David Gorlow	Project Manager (BE Mech.)
Michelle Larson	Project Engineer (BE Chem.)
Clint Bottorff	Controls and Instrumentation Specialist
Scott Padias	Mechanical Designer

5.2 Key Suppliers

Equipment procurement and fabrication will be provided through long-term pre contracted Ixom suppliers. Ixom has selected these suppliers based on their ability to deliver high quality cost efficient products on time and to Ixom's requirements and standards.

5.3 Design Process, Project Management & Quality Assurance

The equipment will be delivered through Ixom's Project Management System. The project management system covers all aspects of the project, including project management, design, procurement and construction. System procedures have been specifically designed for water treatment projects.

5.4 Equipment Procurement and Manufacture

Manufacture of equipment items shall be conducted in accordance with all applicable engineering requirements and safe work methods. In order to ensure these standards are met, the following tools are used where required:

- Job Safety and Environmental Risk Analysis (JSERA)
- Work method procedures
- Shop inspection and test plans

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

5.5 Factory Acceptance Testing (FAT)

For fabricated equipment skids, where possible these are shop inspected and tested as much as practically possible to ensure less time onsite for testing and quicker implementation. Types of work and testing performed:

- Inspections and verifications with design documents
- Piping hydrostatic testing
- Water testing and operation (close to as normal conditions)
- Electrical: Power up and point to point testing of panels / wiring
- Instruments: Power up and check instruments, perform initial set-up/calibration
- Document FAT on standard forms to be included in overall OM Manual

A client representative is welcome to witness final inspections (at their own expense), perform any further inspections or tests.

5.6 Installation

Ixom's scope excludes any site works related to equipment off-loading, setting, mechanical and electrical installation.

5.7 Commissioning

Process commissioning of the new equipment will be performed by Ixom (with Owner/Contractor involvement). Overall process commissioning supported by Ixom onsite propose for MIEX System has the main following activity groups:

1. Verification of equipment operation.
2. Final water testing of system, stop/starting and resin regenerations.
3. Assist with loading any additional resin inventory.
4. Start-up and testing of system, operational testing of equipment.

5.8 Training

Ixom employees will perform required training for operation and maintenance of the new equipment. Typical training involves both class room type sessions and hands on operation. Ixom's standard training follows the below format:

Part 1 –Introduction:

- Overall explanation of the new equipment
- How the MIEX Process works, plant monitoring, testing
- Supplied equipment overview

Part 2 – Equipment Operation:

- Actual plant operation (hands on)
- Pre-start up inspections and checks
- Start-up / shutdown sequences of processes (regeneration)

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

- Normal day to day monitoring
- Process alarms, actions to take

Part 3 – Equipment Maintenance:

- Explanation of equipment maintenance requirements (demonstrations not performed)
- Overview of OM Manual information, where to find manuals, part numbers etc.

5.9 System Documentation

Complete plant documentation are provided by Ixom which the likes include:

- Equipment Installation guidelines (supplied prior to equipment shipments).
- Operation and maintenance manual - incorporating technical specifications, principles of operation, operating instructions, maintenance, repair and overhaul, equipment schedules, equipment manuals, and emergency management
- Detailed "as-built" drawings of various equipment items supplied, which include: P&ID's, equipment arrangement drawings, skid drawings
- Mechanical and electrical equipment summary schedules
- Site testing and commissioning documents / copies.

5.10 Health and Safety

It is the responsibility of the Supplier to provide a safe working environment for all Ixom employees visiting or supplying equipment or services described herein at the Employers site, as required or defined by local governing Regulations.

ALL Ixom employees must at all times adhere to Ixom's corporate Safety, Health and Environment Procedures, whether it be on an Ixom Site or a customer's contractor's, agent's etc. site. Often the requirements of some of Ixom's SH&E Procedures in specific areas exceed that of State or National requirements, that can prevent or restrict Ixom Employees (or contractors acting under the direction of an Ixom Employee) performing a specific duty or task, or may require additional safety reviews or safety equipment etc. before Ixom employees or their contractors undertake duty or task in question.

Additionally, Ixom employees working onsite shall comply with the requirements identified in the Contractors Health and Safety Policy and Site Health / Safety Plan.

This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

SECTION 6: ATTACHMENTS

1. Attachment 1: Ixom Watercare General Terms and Conditions
2. Attachment 2: Ixom Limited 24-Month Equipment Warranty

END OF DOCUMENT

© Ixom 2020. All Rights Reserved. This document contains information confidential and proprietary to Ixom. It is submitted in confidence and is to be used solely for the purpose for which it is furnished and returned upon request. This document and such information is not to be reproduced, transmitted, disclosed or used otherwise in whole or in part without the written authorization of Ixom.

These terms and conditions (collectively, "Terms and Conditions") govern all sales of products, equipment and services (collectively, "Goods") agreed to be supplied by IXOM Watercare Inc ("Seller") to any person to whom any quotation is made or who is offering to contract with the Seller ("Buyer"). The Terms and Conditions are incorporated into any order, offer, arrangement or understanding between the Seller and the Buyer (including pursuant to a quotation or letter of offer accepted by the Buyer) as well as any quotation or invoice or any other document to which they are attached (individually and collectively "Order"). All purchases by Buyer are expressly limited and conditioned upon acceptance of the Terms and Conditions and without limiting any other mode of acceptance, Buyer's acceptance of the Goods manifests Buyer's assent to the Terms and Conditions and the credit terms offered by Seller. Seller objects to and rejects any provision additional to or different from the Terms and Conditions that may appear in Buyer's purchase order, acknowledgement, confirmation, writing or in any prior or later communication from Buyer to Seller, unless Seller expressly agrees to such provision in a written amendment signed by Seller. An Order together with these Terms and Conditions are herein referred to as "Contract".

1. PRICES; TAXES; PAYMENT TERMS; DEFAULT.

(a) Prices for Goods and any adjustments to such prices shall be determined in accordance with Seller's final pricing letter or offer forming part of the Contract which has been accepted by Buyer ("Price").

(b) Prices do not include any sales, use, excise, privilege, or other taxes or assessments imposed on the Goods sold hereunder and unless Buyer provides proof of exemption satisfactory to Seller, such may be added to the price of the Goods.

(c) Subject to Section 1(e) and unless otherwise agreed in writing, payment terms are net 30 days from date of invoice. Payments not received when due shall incur service charges at the rate of 1½% per month (18% per annum) until paid, compounded on a daily basis.

(d) If any of the events set out in this Section 1(d)(i) through (v) below occur, Seller reserves the right, among other remedies, to delay or suspend further shipments or require full or partial cash payment in advance until all sums due have been paid. Buyer shall be liable for all costs and expenses incurred by Seller in collecting any overdue amounts, including without limitation reasonable attorneys' fees..

(i) Buyer defaults in any payments or is unable or states that it is unable to pay its debts as and when they fall due.

(ii) Buyer commits an act of bankruptcy, files a voluntary petition in bankruptcy or has filed against it an involuntary petition in bankruptcy or has a trustee, receiver, liquidator, custodian, conservator, manager, controller or voluntary administrator appointed in respect of Buyer's estate or any part of Buyer's property or assets.

(iii) Buyer passes a resolution for its winding up or enters into liquidation or has an application for winding up filed against it.

(iv) Buyer makes an assignment for the benefit of its creditors.

(v) Buyer experiences any analogous event having substantially similar effect to any of the events listed above.

(e) Notwithstanding Section 1(a), Seller may at any time in its sole and unfettered discretion and without being under any duty or obligation to assign reasons, review, alter or terminate Buyer's credit limit or payment terms without notice. Without limiting the generality of the foregoing, the decision of Seller shall be final and Seller accepts no liability or responsibility for any loss, howsoever arising, incurred by Buyer due to the operation of this condition.

2. SHIPMENT; DELIVERY AND RESPONSIBILITY TO PURCHASE.

(a) Unless agreed otherwise in writing, all shipments are F.C.A. Seller's or its sub-contractor's warehouse. Shipping dates are estimates only and are subject to Seller's lead time policy. Seller shall make all reasonable efforts to have Goods delivered to Buyer on or about the date or within the time frame of the Order but Seller shall not be liable for any failure or delay in delivery for any reason. Buyer is responsible for disposing of all non-returnable containers and shipping materials

(b) Purchase orders issued by Buyer and placed with Seller are irrevocable and Buyer is contractually obliged to take delivery and pay for all Goods ordered and supplied or made available by Seller pursuant to such purchase order. If Seller does not receive forwarding instructions sufficient to enable it to dispatch Goods within fourteen (14) days after notice to Buyer that such Goods are ready, Buyer shall be deemed to have taken delivery from such date and shall be obliged to pay reasonable storage charges payable on demand. Unless otherwise agreed upon by the parties in writing, if Buyer does not accept delivery or collect Goods from Seller when made available at the agreed delivery point in accordance with the Contract, Buyer also will pay Seller for SLC-7548174-2 storage costs and reimburse Seller for any demurrage, transport or futile delivery costs incurred by Seller.

3. TITLE; RISK OF LOSS OR DAMAGE.

Title to and risk of loss of the Goods shall pass to Buyer upon delivery to the carrier at point of shipment.

4. INSPECTION; ACCEPTANCE.

Buyer shall promptly examine the Goods for any damage or shortage or failure of the Goods to comply with the Seller's standard sales specifications or the specifications contained in or referenced in the Contract. All claims for damage or shortage of Goods shall be deemed waived unless made in writing and received by Seller within 30 days of delivery of the Goods. If Buyer finds that any of the Goods do not comply with the specifications, Buyer may, at its option, reject that portion of the Goods that fail to comply by providing Seller with a notice made in writing and received by the Seller within 30 days of delivery of the Goods. Failure to timely deliver written notice of any such claim or rejection of the Goods within the warranty period specified in this clause 4 shall be deemed an absolute and unconditional waiver of such claim for damage or shortage or a right to reject such Goods and all claims related thereto and shall constitute an unqualified acceptance of such Goods, irrespective of whether the facts giving rise to such claim shall have then been discovered or of whether use or application of the Goods shall have then taken place.

5. **RETURNS**.

Returned Goods shall not be accepted unless Buyer obtains prior written approval and transportation instructions from Seller. All Goods returned to Seller must be in full containers or cases, unopened and in the same condition as when delivered. If a return is approved by Seller, Goods may be returned for exchange or credit only. Seller shall give no cash refunds for returned Goods. Approved returned Goods are subject to a restocking charge of 15% of the invoiced value of such Goods and Buyer shall pay all transportation charges.

6. LIMITED WARRANTY.

(a) Subject to Section 6(e) and Section 7 below, Seller warrants title and that the Goods shall conform to Seller's standard sales specifications in effect at the time of manufacture or the specifications agreed by the parties in writing and contained or referenced in the Order. Equipment components not manufactured by Seller which are incorporated in the Goods may, if specified elsewhere in the Contract, be subject only to warranties of Seller's vendors and Seller hereby assigns to Buyer all such rights in such vendor's warranties and will provide reasonable assistance in enforcing such rights.

(b) Buyer is solely responsible for determining that the Goods and their specification and scope are appropriate for Buyer's intended use. Any advice or recommendations by Seller with respect to the Goods or the use of the Goods are provided in good faith based on tests or experience believed to be reliable but such advice or recommendations are not warranted. Buyer agrees that it is responsible for ensuring that Goods that comply with the warranties in Section 6(a) are fit and suitable for its purposes, requirements, processes, plant and equipment.

(c) To the maximum extent permitted by law, Seller makes no other representation or warranty of any kind, and hereby expressly disclaims all other representations or warranties, express, implied, statutory or arising from a course of dealing, usage of the trade or otherwise, including without limitation any representation or warranty as to merchantability, fitness for a particular purpose, or any other matter with respect to the goods, whether used alone or in combination with any other goods, substances processes or materials or services.

(d) In the event the exclusion of some or all of such warranties under section 6(c) for certain goods subject to this contract would be illegal, any additional warranty would be limited to the warranty required by applicable law and to the extent permitted by such law, would be subject to section 6(e) and section 7, and is conditioned upon use in accordance with label directions under normal conditions reasonably foreseeable to seller with buyer assuming the risk of any use contrary to label directions, under abnormal conditions or under conditions not reasonably foreseeable to seller.

(e) Seller's sole liability and Buyer's sole remedy for breach of warranty are specifically limited to the repair of the goods (or re-performance of services when applicable) or the cost thereof where Seller fails to perform such repair necessitate by a breach of warranty, and such liability and remedy re exclusive of all other liabilities and remedies. Should these remedies be found inadequate or to have failed of their essential purpose for any reason whatsoever, Buyer agrees that the return of the amount paid by buyer to seller for the purchase of the goods which fail to conform with the warranties set forth in section 7 shall be considered a fair and adequate remedy and prevent the remedies from failing of their essential purpose.

7. LIMITATION OF LIABILITY.

(a) The liability of Seller and its affiliates to Buyer under and in connection with the Contract is limited to the price allocable to the Goods giving rise to the claim and in no event shall the cumulative liability of Seller howsoever arising,

whether under warranty, contract, tort, negligence, strict liability, indemnification, defense or any other cause or combination of causes whatsoever, exceed the total payments received from Buyer under the Contract in connection with the Goods.
(b) To the extent permitted by law and not withstanding any provision to the contrary in the contract, Seller shall not be liable for special, indirect, incidental or consequential damages, including without limitation, and loss of profits. Loss of business revenues, loss of capital, failure to realize expected profits or savings, overhead costs, loss by reason of service interruption or increased expense of operation, loss of goodwill, loss of reputation, loss of value in any intellectual property, damages or liquidated sums payable pursuant to other agreements or to other third parties, other economic losses, whether arising under warranty, contract; negligence (including negligent misrepresentation) or other tort, strict liability, breach of statute, indemnification, or any other cause or combination of causes, including any theories of concurrent liability arising from a duty of care by operation of law or otherwise.

8. SAFE STORAGE HANDLING AND USE; ASSUMPTION OF RISK; INDEMNIFICATION.

Buyer acknowledges that it is familiar with the risks associated with the storage, handling and use of Goods and any waste resulting therefrom. Accordingly and notwithstanding anything to the contrary set forth in the Contract, Buyer covenants and warrants and shall ensure that (i) that it and its employees, agents, carriers and customers are familiar with and adhere to all necessary and appropriate precautions and safety measures to safely store, handle or use the Goods; (ii) it and its employees, agents, carriers and customers shall comply with all applicable Laws, including without limitation, environmental laws and regulations pertaining to the storage, handling and use of Goods; (iiI) shall obtain and comply with all required permits and licenses. Seller takes no responsibility for, and Buyer assumes all risks associated with waste characterization, regulatory status and chemical composition of any product, process, material, waste or substance into which the Goods are incorporated or applied. Without limiting the foregoing, Buyer shall further ensure that all storage tanks, vessels, and pipes, hoses and valves and other components used by Buyer or its employees, agents, carriers and customers to store, handle and transfer Goods which are bulk chemicals are properly installed and maintained to prevent injury, death or loss of containment during storage, handling and transfer of such Goods. If Buyer resells or distributes Goods to third parties, Buyer assumes responsibility for ensuring that it provides detailed instructions to such third parties regarding safe storage, handling and use of those Goods and any Storage Items or packaging in which such Goods are stored. To the maximum extent allowed by law, Buyer assumes all risks and liability whatsoever for all injuries, losses and damages to persons or property or otherwise and shall indemnify, defend and hold harmless Seller and Seller's employees and agents against all claims, damages, losses, costs, liabilities, and other expenses (including investigation and attorneys' fees) that Seller incurs or may be obligated to pay as a result of (i) Buyer's, its employees', agents', carriers' or customers' handling, possession, further processing, storage, use treatment, transportation, disposal, sale or other use or disposition of the Goods, whether used alone or in combination with other products, materials, substances or wastes, (ii) Buyer's, its employees', agents', carriers' or customers' violation or alleged violation of any Law, or (iii) Buyer's breach of any of its obligations set forth herein.

9. FORCE MAJEURE. Shipments or deliveries may be totally or partially suspended or delayed by Seller during any period in which the Seller may be prevented or hindered from manufacture, delivery or supply through any circumstances outside Seller's reasonable control or where such manufacture, delivery or supply is rendered materially more expensive by such circumstances. Circumstances beyond Seller's reasonable control shall include, without limitation, strikes, lockouts or other labor difficulty; acts of carriers; acts of God; acts of civil or military authorities; acts or omissions of Buyer; war; riot; fire; explosion; acts of terrorism; flood; any inability to obtain or lack of any necessary or adequate materials, inputs, fuel, power, labor, equipment, containers, facilities or services on usual terms; power or water shortage; accidents or breakdowns or failures of plant or machinery or apparatus; delays, congestions or blockages at sea ports or transport depots or software, hardware or communication network; changes in applicable Laws; or any other event, whether or not enumerated herein, beyond the reasonable control of Seller that makes impractical the manufacture, transportation or shipment of the Goods or of a material or other resource upon which the manufacture, transportation or shipment of the Goods depends. Seller shall not incur any liability to Buyer in respect of such suspension.

10. INTELLECTUAL PROPERTY.

Seller is the sole and exclusive owner of the Intellectual Property in the Goods and processes incorporated in such Goods, and the rights attached to that Intellectual Property. Nothing herein grants to Buyer any right, title or interest in or to any of the Intellectual Property in the Goods. Buyer shall not claim to have acquired any right, title or interest to the Intellectual Property in the Goods by virtue of purchasing Goods sold hereunder. Buyer shall not deconstruct, reverse compile or reverse engineer the Goods in any way for the purpose of deciphering or replicating the chemical composition of the Goods. As used herein, "Intellectual Property" means any intellectual or industrial property right anywhere in the world including, without limitation, any patent, patent application, utility model, copyright (including copyright in manuals, databases, and promotional materials), registered design and other design rights, unpatented secrets and innovations, confidential information, and any other rights that may subsist anywhere in the world in improvements, inventions and other manufacturing processes or technical and other information of Seller. Buyer shall not resell, distribute or supply the Goods to any third party for any reason without Seller's prior written consent

11. CONFIDENTIALITY; ENTIRE AGREEMENT; AMENDMENTS; CHANGES TO TERMS AND CONDITIONS.

(a) All information that Buyer acquires from Seller hereunder, directly or indirectly, and all information that arises out of the sale of the Goods hereunder, concerning such Goods and/or proprietary processes involved, including information concerning Seller's current and future business plans, information relating to Seller's operations, know-how, and other

Seller-furnished information shall be deemed Seller's "Proprietary Information". Buyer shall (a) hold Seller's Proprietary Information in strictest confidence, (b) not disclose it to others, (c) use it solely for purposes of this Agreement and (d) upon Seller's request, either promptly deliver to Seller all such Proprietary Information that is in written, electronic or other form, including copies and summaries, or, at Seller's option, destroy such Proprietary Information and provide Buyer certification of such destruction. The obligations under this Section shall survive the expiration or termination of the Contract.
(b) The Contract constitutes the entire agreement of the parties with respect to the purchase and sale of Goods and supersedes and excludes all prior and other discussions, representations (contractual or otherwise) and arrangements relating to the supply of Goods, including but not limited to, those relating to the performance of Goods or results that ought to be expected from using the Goods. Nothing in the Terms and Conditions is

12. GOVERNING LAW.

The rights and duties of the parties and any dispute regarding the sale of Goods covered hereby shall be resolved according to the laws of the state of Colorado, without regard to its conflicts of law provisions. Buyer hereby agrees to submit to the non-exclusive jurisdiction of the courts in the state of Colorado. Any controversy or claim arising out of or relating to the sale of Goods or the dealings between the parties shall be settled exclusively by arbitration in Denver, Colorado by a single arbitrator pursuant to the American Arbitration Association's Commercial Arbitration rules then in effect, and judgment upon the award shall be entered in any court having jurisdiction thereof. The prevailing party in any arbitration proceeding shall be entitled to recover its reasonable attorneys' fees and costs, in addition to any other relief obtained.

13. WAIVER.

No failure to exercise nor any delay or omission in exercising any right, power or remedy by Seller operates as or constitutes a waiver. A single or partial exercise by Seller of any right, power or remedy does not preclude any other or further exercise by it of that or any other right, power or remedy. A waiver is not valid or binding on Seller unless made in writing. No failure by Seller to exercise, nor any delay or omission by Seller in exercising any right, power or remedy nor any representation made or conduct carried out by Seller under the Contract or in connection with the supply of Goods or any of them shall constitute or provide grounds for a common law or equitable estoppel.

14. SEVERANCE.

If any provision of the Terms and Conditions or its application to any person or circumstances is or becomes invalid, illegal or unenforceable, the provision shall so far as possible be read down to such extent as may be necessary to ensure that it is not invalid, illegal or unenforceable. If any provision or part of it cannot be so read down, the provision or part of it shall be deemed void and severable and the remaining provisions of the Terms and Conditions shall not in any way be affected or impaired.

8150 S Akron St, Suite 401, Centennial, CO 80112

LIMITED WARRANTY

Ixom Watercare Inc. (IXOM) warrants all new equipment manufactured by IXOM against defects in material and workmanship, and will repair or replace at IXOM's expense, F.C.A. shipping point, any part(s) returned to IXOM which upon IXOM's examination are shown to have failed under normal use and service within twenty-four (24) months from date of equipment start-up, or thirty (30) months from shipment to the purchaser, whichever occurs first. The warranty for repaired or replacement equipment shall continue for the remainder of the original warranty period, or for a period of six (6) months, whichever is longer. IXOM shall not be responsible for providing working access to the defective equipment, including disassembly and reassembly of the equipment, or for providing transportation to and from the repair facility, all of which shall be at purchaser's expense.

When the nature of the warranty item is such that it is appropriate in the judgment of IXOM to make such repairs or modifications at the site of operation, purchaser agrees to provide site access to IXOM or its sub-contractors, during normal working hours 8:00 a.m. to 5:00 p.m., Monday through Friday, exclusive of holidays. Labor performed at other times at the request of purchaser will be billed at the applicable rate then prevailing for services provided.

THE FOREGOING WARRANTY SHALL CONSTITUTE THE SOLE AND EXCLUSIVE REMEDY OF PURCHASER AND IS IN LIEU OF ALL OTHER WARRANTIES, REPRESENTATIONS, CONDITIONS, RIGHTS AND REMEDIES WITH RESPECT TO THE QUALITY, CONDITION OR PERFORMANCE OF THE EQUIPMENT, WHETHER EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE AND WHETHER WRITTEN OR ORAL. ALL OTHER WARRANTIES, REPRESENTATIONS, CONDITIONS, RIGHTS AND REMEDIES, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY, DURABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY EXPRESSLY DISCLAIMED AND EXCLUDED TO THE FULLEST EXTENT PERMITTED BY LAW. IXOM SHALL NOT BE LIABLE FOR ANY CONTINGENT, SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGE OR LOSS OF ANY KIND, INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, DUE TO PARITAL OR COMPLETE INOPERABILITY OF IXOM'S EQUIPMENT FOR ANY REASON WHATSOEVER.

IXOM only warrants equipment that has been paid for in full and which was put into service for its intended purpose. The warranty contained herein shall not apply to normal wear and tear, defects in materials provided by purchaser, or those items such as media, resin, and the like that are normally replaced or consumed as part of routine operation or maintenance of the equipment.

The warranty contained herein shall terminate if the equipment failure giving rise to a claim under warranty results from (a) unauthorized modification, repair or alteration, (b) improper or abnormal operation, application, maintenance or installation, (c) damage during shipment, or (d) operation, handling or other dealings with the equipment in a negligent manner.

CAPITAL IMPROVEMENT PROJECT DETAIL

Task # 268
PROJECT # 20-UTL-563-04

Project Name: Main WTP MIEX System Improvements
Department: Public Service
Location: Utilities - Main WTP
Project Manager: P Ward
Original Plan Date: FY20

DESCRIPTION / JUSTIFICATION:

The MIEX system at the Main WTP removes dissolved organic carbon (DOC) from the raw water through a magnetic ion-exchange process where positively charged magnetic resin combines with negatively charged DOC, which is then settled out of the water and removed. To remain effective, the MIEX resin must be recharged through a regeneration process. The existing regeneration system at the Main WTP is approximately fourteen (14) years old and requires the replacement of several major components that are exposed to the sun. As a result, the regeneration process is proposed to be replaced with a new, more efficient system that has a smaller footprint - allowing it to be housed inside the existing MIEX building, extending the life of the equipment.

EXPIRES: September 18, 2021

Legal Notice No. 38640

ITB NO. 2021B-010
MIEX REGENERATION SYSTEM
UPGRADE MAIN AND R.L. PRATT
WATER TREATMENT PLANTS

ADVERTISEMENT FOR BIDS

Sealed Bids for the construction of the **MIEX Regeneration System Upgrade – Main and R. L. Pratt Water Treatment Plants** will be received, by the **Village of Palm Springs**, at the office of the **Palm Springs Village Clerk**, until **2:00 P.M.** local time on **July 14th, 2021**, at which time the Bid Package received will be reviewed for document completeness. Following a determination of which bidders were responsible and responsive, the **Village of Palm Springs** will hold a bid opening of compliant bidders on **August 4th, 2021 at 2:00 P.M.** local time to determine the acceptable low bidder. The Project consists of furnishing all labor, equipment, and material for the Upgrade of the Existing MIEX Regeneration Systems as described by the Drawings and Specifications. Generally, the work includes demolition, construction of replacement regeneration system equipment, piping relocation, electrical, site restoration, and all other incidentals as indicated by the drawings and specifications or as required to properly complete the project as planned. Late proposals will not be accepted, whether by mail or otherwise. Proposals will be returned unopened. It is the responsibility of the Proposer to ensure all pages are included in the submission. ***All Bidders are advised to closely examine the Bid documents.***

Invitation to Bid documents are available beginning **May 27th, 2021**. The Village of Palm Springs utilizes electronic online services for notification, distribution, and submittal of its Solicitation documents. The Village's Solicitation information can be obtained from: (a) Demandstar website – www.Demandstar.com ; (b) by contacting the Village Clerk, Kimberly Wynn, at kwynn@vpsfl.org; (c) or calling the Village Clerk's office at (561) 965-4010.

Proposers may submit their responses electronically via DemandStar. Proposers also have the option to submit one (1) unbound original to the Village Clerk at the time and date specified. Sealed Proposals must be marked "**ITB #2021B-010, MIEX REGENERATION SYSTEM UPGRADE MAIN AND R.L. PRATT WATER TREATMENT PLANTS**".

Hardcopies of bidding documents may also be obtained from Eckler Engineering, Inc., 4700 Riverside Drive, Suite 110, Coral Springs, Florida, 33067 on Mondays through Fridays between the hours of 8:00 AM to 5:00 P.M. Bidding Documents are available on your preferred media device as a Compact Disc or USB Drive (as portable document format (PDF) files) for a non-refundable charge of $40.00, including shipping via overnight express service. Alternatively, printed Bidding Documents may be obtained from Eckler Engineering, Inc. either via in-person pick-up or via mail, upon receipt of payment for the Bidding Documents. The non-refundable cost of printed Bidding Documents is $250.00 per full size drawing set and specification book or $250.00 per half size drawing set and specification book, payable to Eckler Engineering, Inc.

A virtual **Pre-Bid Conference** will be held for this solicitation on **June 23, 2021 at 2:00 PM**. Attendance at the pre-bid conference ***is not*** mandatory.

The Village of Palm Springs will provide for public participation using Gotowebinar.com, a communication media technology (teleconference) for the non-mandatory Pre-bid conference and Bid Opening.

Non-Mandatory Pre-Bid Conference - June 23, 2021
Participants can use their telephone or computer mic & speakers (VoIP).

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Public Service

ITEM 6.5: Approve Submersible Pumps, Accessories, and Service - Public Service Department - 1st Addendum (Renewal) - Xylem Water Solutions USA, Inc.

SUMMARY:

The Public Service Department has a need throughout the year to purchase replacement submersible pumps and various accessories for Village lift stations and water treatment plants, stormwater infrastructure, etc. Currently, the Village utilizes Xylem Water Solutions USA to these types of submersible pumps; however, the existing contract (Village ITB) expired on July 11, 2021.

To ensure the lowest possible price, staff is recommending the Village renew/amend our existing agreement with Xylem Water Solutions USA by accepting an option to extend our ITB contract award for one (1) additional year. This selection by the Village of Palm Springs was originally completed through a competitive bid process - Submersible Pumps, Accessories, and Service (ITB #2018-005 - June 7, 2018)

Note: The selection by the Village of Palm Springs was originally completed through a competitive bid process - Submersible Pumps, Accessories, and Service (RFP #2018-005 - June 7, 2018). The bid was awarded to Xylem Water Solutions USA, Inc. for a period of three (3) years with an option for two (2), one (1) year renewals. {All original bid documents provided during the July 12, 2018 meeting authorizing the original agreement with Xylem Water Solutions USA, Inc. [Village of Palm Springs - Submersible Pumps, Accessories, and Service (RFP #2018-005 - June 7, 2018)] are available in the Clerk's Office}.

The proposed extended contract amendment (renewal) would provide the same pricing that the Village is currently receiving:

Vendor	% Off MSRP	Pumps % Off MSRP	Repairs % Off MSRP
Xylem	5%	5%	$95

If approved, the Village would accept/renew Xylem Water Solutions USA's pricing by amending (renewing) our existing agreement including all terms, conditions and pricing therein. The term of the proposed agreement, if approved, would expire on July 12, 2022, and may be renewed for one (1) additional one (1) year period. The Village will not expend more than the amount within the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The proposed 1st amendment/renewal to the existing agreement was prepared by the Village Attorney and reviewed by the Assistant Village Manager, the Interim Public Service Administrator and the Finance Director.

The Village has worked with the proposed vendor and has received excellent service and a quality product.

FISCAL IMPACT:

Funding to support purchases under this proposed agreement is available with the FY 2021 Budget - Water & Sewer Enterprise Fund.

Allocated/Estimated Purchase Funding:	***Amount***
FY 2021 Approved Budget - Water & Sewer Enterprise Fund	$125,000.00
FY 2022 Proposed Budget - Water & Sewer Enterprise Fund	$125,000.00

Acutal Purchase Costs:	***Amount***
FY 2021 Actual Purchase Cost - Water & Sewer Enterprise Fund	$123,379.36
FY 2022 Expected Purchase Cost - Water & Sewer Enterprise Fund	$125,000.00

The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

ATTACHMENTS:

Proposed 1st Addendum to Agreement - Xylem Water Solutions USA
Village of Palm Springs - Xylem Water Solutions USA - Original Executed Agreement

FIRST AMENDMENT TO AGREEMENT FOR
SUBMERSIBLE WASTEWATER PUMPS, ACCESSORIES, AND SERVICE

This First Amendment to Agreement for ("First Amendment") is made as of the _____ day of _____, 2021, by and between the Village of Palm Springs, a Florida Municipal Corporation ("VILLAGE") and Xylem Water Solutions USA, Inc. a corporation authorized to do business in the State of Florida("CONTRACTOR").

On July 26, 2018, the parties entered into an agreement for the purchase and sale of submersible wastewater pumps, accessories, and service (the "Agreement") pursuant to CONTRACTOR's proposal submitted in response to Invitation to Bid No. 2018B-005. The initial term for the Agreement was for a period of three (3) years, expiring July 25, 2021, with two one-year renewal options.

The purpose of this First Amendment is to reinstate and renew the term of the Agreement for a period of one (1) year effective July 26, 2021 and to add a provision concerning E-Verify compliance that became a requirement under Florida law as of January 1, 2021.

In consideration of the mutual promises contained in the Agreement, incorporated herein by reference, as amended by this First Amendment, the VILLAGE and CONTRACTOR agree as follows:

EXTENSION OF CONTRACT TERM

Pursuant to Paragraph 3.3 of the Agreement, the term of the Agreement is hereby reinstated effective July 26, 2021 and extended for an additional one (1) year period through July 25, 2022.

E-VERIFY

Pursuant to Section 448.095(2), Florida Statutes, beginning on January 1, 2021, the CONTRACTOR shall:

(a) Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractors' newly hired employees;
(b) Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an "unauthorized alien" as defined in Section 448.095(1)(k), Florida Statutes;
(c) Maintain copies of all subcontractor affidavits for the duration of this Agreement and provide the same to the Owner upon request;
(d) Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes;

(e) Be aware that a violation of Section 448.09, Florida Statutes (Unauthorized aliens; employment prohibited) shall be grounds for termination of this Agreement; and,

(f) Be aware that if the VILLAGE terminates this Agreement under Section 448.095(2)(c), Florida Statutes, the CONTRACTOR may not be awarded a contract for at least one (1) year after the date on which the Agreement is terminated and will be liable for any additional costs incurred by the VILLAGE as a result of the termination of the Agreement.

All other terms and conditions set forth in the 2018 Agreement remain in full force and effect except to the extent modified hereinabove.

IN WITNESS WHEREOF, the parties hereto have caused this Addendum to be executed as of the day and year set forth above.

AGREEMENT

THIS AGREEMENT is made this 26th day of July, 2018 between the **Village of Palm Springs**, Florida, a municipal corporation, hereinafter the "VILLAGE", with its office located at 226 Cypress Lane, Palm Springs, Florida 33461, and **Xylem Water Solutions USA, Inc.** a corporation authorized to do business in the State of Florida, hereinafter the "CONTRACTOR", with its office located at 15132 Park of Commerce Blvd., Jupiter, FL 33478.

RECITALS

WHEREAS, the VILLAGE is a municipal corporation organized and existing pursuant to the Charter and the Constitution of the State of Florida;

WHEREAS, the VILLAGE wishes to purchase submersible wastewater pumps, accessories and service;

WHEREAS, CONTRACTOR submitted a proposal for submersible wastewater pumps, accessories and service in response to Invitation to Bid (ITB) No. 2018B-005;

WHEREAS, the VILLAGE desires to accept the CONTRACTOR's proposal in order for CONTRACTOR to render the goods and services to the VILLAGE as provided herein;

WHEREAS, the CONTRACTOR further warrants that it is experienced and capable of performing the tasks hereunder in a professional and competent manner;

WHEREAS, the VILLAGE finds awarding the contract to the CONTRACTOR as described herein serves a valid public purpose.

NOW THEREFORE, the VILLAGE hereby engages the services of the CONTRACTOR, and in consideration of the mutual promises herein contained, the sufficiency of which is hereby acknowledged by both parties, the parties agree as follows:

1. SCOPE OF WORK

1.1 The scope of work is the providing of submersible wastewater pumps, accessories and service for the VILLAGE'S utility system. CONTRACTOR shall provide the pumps, accessories and service as requested by the VILLAGE and as requested in the bid documents.

1.2 The CONTRACTOR represents to the VILLAGE that the services and materials provided under this Agreement shall be in accordance with accepted and established trade practices and procedures recognized in the CONTRACTOR's trade in general and

that the materials shall conform to the highest standards and in accordance with this Agreement.

1.3 The CONTRACTOR represents that it is licensed to do business in the State of Florida and holds and will maintain all applicable licenses required for the work to be completed under this Agreement. The CONTRACTOR further warrants its capability and experience to perform the work provided for herein in a professional and competent manner.

2. USE OF AGENTS OR ASSISTANTS

2.1 To the extent reasonably necessary to enable the CONTRACTOR to perform its work hereunder, the CONTRACTOR shall be authorized to engage the services of any agents or assistants which it may deem proper, and may further employ, engage, or retain the services of such other persons or corporations to aid or assist in the proper performance of its duties. All costs of the services of, or expenses incurred by, such agents or assistants shall be paid by the CONTRACTOR.

3. FEE AND TERM

3.1 For the parts/services to be provided under this Agreement, the CONTRACTOR shall be entitled to payment as set forth in CONTRACTOR's bid proposal, as set forth in Exhibit "A" and incorporated herein.

3.2 Should the VILLAGE require additional services or materials, not included in this Agreement, fees and payment for such work will be set forth in a separate Addendum, as authorized in accordance with the VILLAGE's procurement code prior to any such additional goods being provided by the CONTRACTOR.

3.3 This Agreement shall become effective upon approval of both parties, provided that it has been executed by both parties and shall continue for an initial term of three (3) years and may be renewed, upon approval of both parties in accordance with the ITB, up to an additional 2 years.

4. MAXIMUM COSTS

4.1 The CONTRACTOR expressly acknowledges and agrees that the total cost to provide the goods and services shall be specified in the CONTRACTOR's proposal and no additional costs shall be authorized without prior written approval from the appropriate authority. The VILLAGE shall not expend funds in excess of the budgeted amount on an annual basis.

5. INVOICE

5.1 The CONTRACTOR shall submit an itemized invoice to the VILLAGE for approval prior to receiving compensation. The CONTRACTOR shall be paid within thirty (30) days of receipt of an approved invoice for work.

6. COPIES OF DATA/DOCUMENTS

6.1 Copies or original documents prepared by the CONTRACTOR in relation to work associated with this Agreement shall be provided to the VILLAGE. Data collected, stored, and/or provided shall be in a form acceptable to the VILLAGE and agreed upon by the VILLAGE.

7. OWNERSHIP

7.1 Each and every report, draft, work product, map, record, and other document reproduced, prepared, or caused to be prepared by the CONTRACTOR pursuant to or in connection with this Agreement shall be the exclusive property of the VILLAGE.

8. DEFAULTS, TERMINATION OF AGREEMENT

8.1 If the CONTRACTOR fails to satisfactorily perform the work specified in this Agreement; or, is in material breach of a term or condition of this Agreement, the Public Services Director may give written notice to the CONTRACTOR specifying defaults to be remedied. Such notice shall set forth the basis for any dissatisfaction and suggest corrective measures. If the CONTRACTOR does not remedy defaults within the allotted time or commence good faith steps to remedy the default to the reasonable satisfaction of the Public Services Director, the VILLAGE may take such action to remedy the default and all expenses related thereto shall be borne by the CONTRACTOR including, without limitation, utilization of another contractor to provide for such work; and/or, the VILLAGE may withhold any money due or which may become due to the CONTRACTOR for such expense and/or work related to the claimed default. Alternatively, or in addition to the foregoing, if after three (3) days the CONTRACTOR has not remedied defaults or commenced good faith steps to remedy defaults to the satisfaction of the Public Services Director, the VILLAGE may elect to terminate this Agreement. No compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.1.

8.2 Notwithstanding paragraph 8.1, the VILLAGE reserves the right and may elect to terminate this Agreement at any time, with or without cause. At such time, the CONTRACTOR would be compensated only for the parts provided to the date of termination. In the event material has been ordered or is in the process of being manufactured, the VILLAGE must pay for all material ordered or manufactured. No

compensation shall be paid for de-mobilization, take-down, disengagement wind-down, lost profits or other costs incurred due to termination of this Agreement under this paragraph 8.2.

9. INSURANCE

9.1 The CONTRACTOR shall, at its own expense, procure and maintain throughout the term of this Agreement, with insurers acceptable to the VILLAGE, the types and amounts of insurance conforming to the minimum requirements set forth in the Invitation to Bid. The CONTRACTOR shall not commence services until the required insurance is in force and evidence of insurance acceptable to the VILLAGE has been provided to, and approved by, the VILLAGE. An appropriate Certification of Insurance shall be satisfactory evidence of insurance. Until such insurance is no longer required by this Contract, the CONTRACTOR shall provide the VILLAGE with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

All insurance, other than Worker's Compensation, to be maintained by the CONTRACTOR shall specifically include the VILLAGE as an "Additional Insured".

9.2 The insurance provided by the CONTRACTOR shall apply on a primary basis. Any insurance, or self-insurance, maintained by the VILLAGE Council shall be excess of, and shall not contribute with, the insurance provided by the CONTRACTOR. Except as otherwise specified, no deductible or self-insured retention is permitted.

9.3 Compliance with these insurance requirements shall not limit the liability of the CONTRACTOR. Any remedy provided to the VILLAGE by the insurance provided by the VILLAGE shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of the CONTRACTOR) available to the VILLAGE under this Agreement or otherwise.

9.4 Neither approval nor failure to disapprove insurance furnished by the CONTRACTOR shall relieve the CONTRACTOR from responsibility to provide insurance as required by this Agreement.

9.5 The CONTRACTOR's failure to obtain, pay for, or maintain any required insurance shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Agreement. In the event of any termination or suspension, the VILLAGE may use the services of another contractor without the VILLAGE incurring any liability to the CONTRACTOR.

9.6 At its sole discretion, the VILLAGE may obtain or renew the CONTRACTOR's insurance, and the VILLAGE may pay all or part of the premiums. Upon demand, the CONTRACTOR shall repay the VILLAGE all monies paid to obtain or renew the insurance. The VILLAGE may offset the cost of the premium against any monies due the CONTRACTOR from the VILLAGE.

10. WAIVER OF BREACH

10.1 The waiver by either party of any breach of any provision of this Agreement shall not operate or be construed as a waiver of any subsequent breach of that same or any other provision.

11. INDEMNITY

11.1 The CONTRACTOR shall indemnify, defend and hold harmless, to the maximum extent permitted by law, the VILLAGE and its officers, agents, employees and representatives, from and against any and all liability, suit, actions, proceedings, judgments, claims, losses, liens, damages, injuries (whether in contract or in tort, including personal injury, accidental death, patent infringement or property damage, and regardless, of whether the allegations are false, fraudulent or groundless), costs and expenses (including attorney's fees, litigation, arbitration, mediation, appeal expenses) to the extent arising out of or alleged to have arisen out of the acts or neglect of its agents, employees, subcontractors or by anyone the CONTRACTOR directly or indirectly employed.

11.2 The CONTRACTOR's obligation to indemnify, defend and hold harmless shall remain in effect and shall be binding upon the CONTRACTOR whether such injury or damage shall accrue, or may be discovered, before or after termination of this Agreement.

11.3 The CONTRACTOR's failure to comply with this section's provisions shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Agreement.

12. ENTIRE AGREEMENT AND ORDER OF PRECEDENCE

12.1 This Agreement consists of the terms and conditions provided herein; and, the CONTRACTOR's proposal. To the extent that there exists a conflict between this Agreement and the remaining documents, the terms, conditions, covenants, and/or provisions of this Agreement shall prevail and then the ITB. Wherever possible, the provisions of such documents shall be construed in such a manner as to avoid conflicts between provisions of the various documents.

12.2 This Agreement supersedes any and all other Agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereof, and no other Agreement, statement, or promise relating to the subject matter of this Agreement which is not contained herein shall be valid or binding.

13. ASSIGNMENT

13.1 Nothing under this Agreement shall be construed to give any rights or benefits to any party other than the VILLAGE and the CONTRACTOR. All duties and responsibilities under this Agreement shall be for the sole and exclusive benefit of the VILLAGE and the CONTRACTOR and not for the benefit or any other party. The CONTRACTOR shall not assign any right or interest in this Agreement, and shall not delegate any duty owned, without the VILLAGE's prior written consent. Any attempted assignment or delegation shall be void and totally ineffective for all purposes, and shall constitute a material breach upon which the VILLAGE may immediately terminate or suspend this Agreement.

13.2 In the event the VILLAGE consents to an assignment or delegation, the assignee, delegate, or its legal representative shall agree in writing to personally assume, perform, and be bound by this Agreement's covenants, conditions, obligations and provisions.

14. SUCCESSORS AND ASSIGNS

14.1 Subject to the provision regarding assignment, this Agreement shall be binding on the heirs, executors, administrators, successors, and assigns of the respective parties.

15. WAIVER OF TRIAL BY JURY

15.1 TO ENCOURAGE PROMPT AND EQUITABLE RESOLUTION OF ANY LITIGATION, EACH PARTY HEREBY WAIVES ITS RIGHTS TO A TRIAL BY JURY IN ANY LITIGATION RELATED TO THIS AGREEMENT.

16. GOVERNING LAW AND REMEDIES

16.1 The validity of this Agreement and of any of its terms or provisions, as well as the rights and duties of the parties hereunder, shall be governed by the laws of the State of Florida and venue shall be in Palm Beach County, Florida.

16.2 No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof.

17. TIME IS OF THE ESSENCE

17.1 Time is of the essence in the delivery of the goods as specified herein.

18. NOTICES

18.1 All notices hereunder must be in writing and, unless otherwise provided herein, shall be deemed validly given on the date when personally delivered to the address indicated below; or on the third (3rd) business day following deposit, postage prepaid,

using certified mail, return receipt requested, in any U.S. postal mailbox or at any U.S. Post Office; or when sent via nationally recognized overnight courier to the address indicated below. Should the VILLAGE or the CONTRACTOR have a change of address, the other party shall immediately be notified in writing of such change, provided, however, that each address for notice must include a street address and not merely a post office box. All notices, demands or requests from the CONTRACTOR to the VILLAGE shall be given to the VILLAGE address as follows:

Public Services Director
Village of Palm Springs
226 Cypress Lane
Palm Springs, Florida 33461

All notices, demands or requests from the VILLAGE to the CONTRACTOR shall be given to the CONTRACTOR address as follows:

Xylem Water Solutions USA, Inc.
15132 Park o Commerce Blvd., Suite 102
Jupiter, FL 33478.

19. SEVERABILITY

19.1 Should any part, term or provision of this Agreement or any document required herein to be executed be declared invalid, void or unenforceable, all remaining parts, terms and provisions hereof shall remain in full force and effect and shall in no way be invalidated, impaired or affected thereby.

20. DELAYS AND FORCES OF NATURE

20.1 The CONTRACTOR shall not be considered in default by reason of a delay in timely performance if such delay and failure arises out of causes reasonably beyond the control of the CONTRACTOR or its subcontractors and without their fault or negligence. Upon the CONTRACTOR's request, the VILLAGE shall consider the facts and extent of any such delay and failure to timely perform the work for reason beyond the control of the CONTRACTOR and, if the CONTRACTOR'S delay and failure to timely perform was without it or its subcontractors' fault or negligence, as determined by the VILLAGE in its sole discretion, the time of completion shall be extended for any reasonable time that the VILLAGE, in its sole discretion, may decide; subject to the VILLAGE'S rights to change, terminate, or stop any or all of the work at any time. If the CONTRACTOR is delayed at any time in the progress of the work by any act or neglect of the VILLAGE or its employees, or by any other contractor employed by the VILLAGE, or by changes ordered by the VILLAGE, unavoidable casualties, or any causes beyond the CONTRACTOR'S

control, or by delay authorized by the VILLAGE pending negotiation or by any cause which the VILLAGE, in its sole discretion, shall decide justifies the delay, then the time of completion shall be extended for any reasonable time the VILLAGE, in its sole discretion, may decide. No extension of time shall be made for any delay occurring more than five (5) days before a claim therefore is made in writing to the VILLAGE. In the case of continuing cause of delay, only one (1) claim is necessary. The CONTRACTOR's sole remedy for a delay in completion of the work for any reason will be an extension of time to complete the work and CONTRACTOR specifically waives any right to seek any monetary damages or losses for a delay in completion of the work, including, but not limited to, waiving any right to seek monetary amounts for lost profits, additional overhead, salaries, lost productivity, efficiency losses, or any other alleged monetary losses which may be allegedly suffered by CONTRACTOR due to a delay in completion of the work.

20.2 Neither party shall be considered in default in the performance of its obligations hereunder or any of them, if such obligations were prevented or delayed by any cause, existing or future beyond the reasonable control of such party which include but are not limited to acts of God, labor disputes or civil unrest.

21. COUNTERPARTS

21.1 This Agreement may be executed in counterparts, each of which shall be an original, but all of which shall constitute one and the same document. Each of the parties shall sign a sufficient number of counterparts, so that each party will receive a fully executed original of this Agreement.

22. LIMITATIONS OF LIABILITY

22.1 Under no circumstances shall either party be liable to the other for any consequential, incidental, special, punitive, or any other form of indirect or non-compensatory damages.

23. PUBLIC ENTITY CRIMES

23.1 CONTRACTOR acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier or sub-contractor under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statues, for CATEGORY TWO for a period of 36

months following the date of being placed on the convicted vendor list. CONTRACTOR will advise the VILLAGE immediately if it becomes aware of any violation of this statute.

24. PREPARATION

24.1 This Agreement shall not be construed more strongly against either party regardless of who was more responsible for its preparation.

25. PALM BEACH COUNTY INSPECTOR GENERAL

25.1 In accordance with Palm Beach County ordinance number 2011-009, the CONTRACTOR acknowledges that this Agreement may be subject to investigation and/or audit by the Palm Beach County Inspector General. The CONTRACTOR has reviewed Palm Beach County ordinance number 2011-009 and is aware of its rights and/or obligations under such ordinance.

26. ENFORCEMENT COSTS

26.1 All parties shall be responsible for their own attorneys' fees, court costs and expenses if any legal action or other proceeding is brought for any dispute, disagreement, or issue of construction or interpretation arising hereunder whether relating to the Contract's execution, validity, the obligations provided therein, or performance of this Contract, or because of an alleged breach, default or misrepresentation in connection with any provisions of this Contract.

27. PUBLIC RECORDS

Public Records: CONTRACTOR shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the VILLAGE as provided under section 119.011(2), Florida Statutes, specifically agrees to:

(a) Keep and maintain public records required by the VILLAGE to perform the service.

(b) Upon request from the VILLAGE's custodian of public records or designee, provide the VILLAGE with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Contract and following completion of this Contract if the CONTRACTOR does not transfer the records to the VILLAGE.

(d) Upon completion of this Contract, transfer, at no cost, to the VILLAGE all public records in possession of the CONTRACTOR or keep and maintain public records

required by the VILLAGE to perform the service. If the CONTRACTOR transfers all public records to the VILLAGE upon completion of the Contract, the CONTRACTOR shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the CONTRACTOR keeps and maintains public records upon completion of the Contract, the CONTRACTOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the VILLAGE, upon request from the VILLAGE's custodian of public records or designee, in a format that is compatible with the information technology systems of the VILLAGE.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT 561-434-5084, kwynn@vpsfl.org, OR BY MAIL AT VILLAGE OF PALM SPRINGS, 226 CYPRESS LANE, PALM SPRINGS, FL 33461.

28. COPYRIGHTS AND/OR PATENT RIGHTS

28.1 CONTRACTOR warrants that there has been no violation of copyrights and/or patent rights in the manufacturing, producing of selling the goods, shipped or ordered, as a result of this proposal and the CONTRACTOR agrees to hold the VILLAGE harmless from any and all liability, loss, or expense occasioned by any such violation.

29. COMPLIANCE WITH OCCUPATIONAL SAFETY AND HEALTH

29.1 CONTRACTOR certifies that all services, material, equipment, etc., provided in this bid meets all OSHA requirements. CONTRACTOR further certifies that, if the services, material, equipment, etc., provided, is subsequently found to be deficient in any OSHA requirements in effect on date of delivery or performance, all costs necessary to bring the services, material, equipment, etc. into compliance with the aforementioned requirements shall be borne by the CONTRACTOR.

30. FEDERAL AND STATE TAX

30.1 The VILLAGE of Palm Springs is exempt from Federal Tax and State Tax for Tangible Personal Property. The Procurement Official will sign an exemption certificate submitted by the successful Proposer. Vendors or contractors doing business with the VILLAGE of Palm Springs shall not be exempted from paying sales tax to their suppliers for materials to fulfill contractual obligations with the VILLAGE, nor shall any Vendor/Contractor be authorized to use the VILLAGE's Tax Exemption Number in securing such materials.

31. PROTECTION OF PROPERTY

31.1 The CONTRACTOR shall at all times guard against damage or loss to the property of the VILLAGE or of other vendors or contractors and shall be held responsible for replacing or repairing any such loss or damage. The VILLAGE may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the successful CONTRACTOR or its agents. The CONTRACTOR shall be responsible to safeguard all of their property such as tools and equipment while on site. The VILLAGE will not be held responsible for any loss of CONTRACTOR property due to theft or vandalism.

32. DAMAGE TO PERSONS OR PROPERTY

32.1 The responsibility for all damage to person or property arising out of or on account of work done under this Contract shall rest upon the CONTRACTOR, and he/she shall save the VILLAGE, its employees, officials and agents thereof harmless from all claims made on account of such damages.

33. WARRANTY

33.1 CONTRACTOR shall provide a warranty as required by the ITB.

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Public Service

ITEM 6.6: Acceptance of Utility Easement Agreement - Springdale Circle - Springdale Homeowners Association (HOA)

SUMMARY:

The Public Service Department is requesting the acceptance of a Utility Easement Agreement to provide for the installation of a new drinking water supply well at the northwestern corner of the Springdale community. The agreement, if approved, would dedicate a fifty-eight foot (58') by eighteen foot (18') utility easement located southwest of the Village's existing utility easement for the current Well No.10, which is slated for replacement.

Acceptance of the proposed Utility Easement Agreement would enable the Village to enter and utilize the easement property at any time, which would include the installation, construction, reconstruction, operation, inspection, maintenance, service, tie-in#, removal#, relocation#, repairing#, replacement and improvement to the proposed utilities. The proposed easement will be maintained by the Village staff in the same manner that the Village is maintaining the existing utility easement for Well No. 10.

The proposed Utility Easement Agreement was prepared by the Village Attorney and reviewed by the Assistant Village Manager and the Interim Public Service Administrator.

FISCAL IMPACT:

The proposed utility easement agreement does not have a direct fiscal impact to the Village.

Palm Springs, FL 33461-1699

UTILITY EASEMENT AGREEMENT

THIS GRANT OF A UTILITY EASEMENT ("Easement") is made and entered into this 18th day of October 2019, by and between Springdale HOA with a mailing address of 590 Springdale Circle, hereinafter referred to as the "GRANTOR", and the **VILLAGE OF PALM SPRINGS**, a municipal corporation, in Palm Beach County, Florida, hereinafter referred to as the "GRANTEE," with a mailing address of 226 Cypress Lane, Palm Springs, FL 33461-1699.

W I T N E S S E T H:

THAT, the GRANTOR, for and in consideration of the sum of Ten Dollars ($10.00) in hand paid by the GRANTEE and other good and valuable consideration, the receipt of which is hereby acknowledged, does hereby grant to the GRANTEE, its agents, successors and assigns, a perpetual utility easement over, under and across that certain real property owned by the GRANTOR which is described in **Exhibit "A"** attached hereto ("Easement Property") and incorporated herein.

The GRANTOR represents and warrants to the GRANTEE that GRANTOR is in exclusive possession of the Easement Property and owns fee simple title to the Easement Property and that it has good and lawful right to grant this Easement. The GRANTOR hereby grants this Easement subject only to comprehensive land use plans, zoning, restrictions, prohibitions and other requirements imposed by governmental authority.

This Easement shall permit the GRANTEE, its employees, agents, contractors, subcontractors, consultants and licensees and each of the aforementioned party's successors and assigns, to enter upon and use the Easement Property at any time and from time to time to install, construct, reconstruct, operate, inspect, maintain, service, tie-in, remove, relocate, repair, replace and improve the utilities, water wells and improvements therein. The GRANTOR, or its successors or assigns, shall not construct any structure or other improvement upon the Easement Property or engage in any use of the surface of the Easement Property which is inconsistent or interferes with the rights of the GRANTEE under this Easement.

The GRANTEE shall have the right, but not the obligation, to clear the Easement Property and keep it cleared of all trees, undergrowth or other obstructions and the right to trim, cut or remove all trees located within or outside the Easement Property which might interfere with the GRANTEE's use of the Easement Property as permitted hereby. The GRANTEE shall use the Easement Property in accordance with all applicable laws, rules and regulations of governmental authorities having jurisdiction over the Easement Property or use thereof as herein provided.

This Easement shall continue unless or until GRANTEE terminates its rights herein provided by written notice to the GRANTOR, its successors or assigns. Neither the failure to use the Easement Property nor the abandonment of the Easement Property shall constitute or be construed as a termination of this Easement. This Easement grants to the GRANTEE, its successors and assigns the exclusive right to use the Easement Property above, on and below its surface.

This Easement shall run with the land and shall be binding upon the GRANTOR, all parties entitled to use or possession of the Easement Property by or through the GRANTOR, including lessees, and the successors and assigns of each of the aforementioned parties unless or until this easement is terminated as hereinabove provided. This Easement shall be binding upon the parties hereto and their respective successors and assigns.

[SIGNATURES ON FOLLOWING PAGES]

IN WITNESS WHEREOF, the parties have executed this utility easement on the day and year first above written.

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Planning, Zoning & Building

ITEM 6.7: Termination of Cross Access and Parking Easement Agreement - 3108 South Congress Avenue (Brave Little Star Academy) and 3060 South Congress Avenue (Dunkin Donuts)

SUMMARY:

The Planning, Zoning & Building Department is requesting approval of the proposed Termination of Cross Access and Parking Easement agreement between the two (2) properties located at 3108 South Congress Avenue (Brave Little Star Academy) and 3060 South Congress Avenue (Dunkin Donuts).

On October 18, 2005, the previous owners of the properties entered into a cross Access and Parking Easement Agreement, approved by the Village Council, to utilize additional parking spaces located on the 3060 South Congress Avenue property (Dunkin Donuts) as a requirement for 3108 South Congress Avenue (former Tappers Oarhouse) property to operate as a restaurant, considering that the restaurant operation on both properties had different peak-hour parking demands.

Note: In 2012 the property located at 3108 South Congress Avenue was sold to the same owner of 3060 South Congress Avenue, and at the time of the sale, the restaurant was no longer operating at 3108 South Congress Avenue.

Recently, the Village Council approved a site plan and special exception use (Resolution No. 2021-14) to allow the use of the property located at 3108 South Congress Avenue as a child daycare facility. Pursuant to a condition of approval, a unilateral access easement has been executed and recorded in the public records of Palm Beach County, Florida (Official Book 32820, Page 0678).

Note: In the future, if the property located at 3060 South Congress Avenue requests a site

plan amendment, it will be required to record an access easement on their side of the property line.

The proposed Termination of Cross Access and Parking Easement Agreement was prepared by the Applicant's Attorney, Dean L. Willbur Jr., P.A., and reviewed by the Planning, Zoning & Building Director and the Village Attorney.

FISCAL IMPACT:

The proposed termination of an existing cross access and parking easement agreement does not have a direct fiscal impact to the Village.

ATTACHMENTS:

Proposed Termination Cross Access and Parking Easement Agreement - 3108 South Congress Avenue (Brave Little Star Academy) and 3060 South Congress Avenue (Dunkin Donuts)
Applicant Request Letter - 3108 South Congress Avenue (Brave Little Star Academy) and 3060 South Congress Avenue (Dunkin Donuts)
Existing Recorded Cross Access and Parking Easement Agreement 3108 South Congress Avenue and 3060 South Congress Avenue

(561) 775-7577

NOTICE OF TERMINATION OF
CROSS ACCESS AND PARKING EASEMENT AGREEMENT

On June 23, 2020, **VICTORIA CONGRESS REALTY LLC**, a Florida Limited Liability Company, which is the fee simple owner of the real property located at 3108 South Congress Avenue, Palm Springs, Florida and more particularly described as:

Please see attached Exhibit "A"

joined with **CONGRESS REALTY COMPANY LLC,** a Florida Limited Liability Company which is the fee simple owner of the real property described located at 3060 South Congress Avenue, Palm Springs, Florida and more particularly described as:

Please see attached Exhibit "B"

to jointly Terminate the **CROSS ACCESS AND PARKING EASEMENT AGREEMENT** which had been recorded in Official Record Book 19518, Page 0677, et. seq., in the Public Records of Palm Beach County, Florida on 11/10/2005, by filing a **NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT AGREEMENT** which was recorded in Official Record Book 31517, Page 1533, et.seq., in the Public Records of Palm Beach County, Florida on June 23, 2020. The Notice of Termination applied to all of the real property which was the subject of the **CROSS ACCESS AND PARKING EASEMENT AGREEMENT.**

The original CROSS ACCESS AND PARKING EASEMENT AGREEMENT had three (3) signatories which included the Village of Palm Springs, Florida. The original **NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT AGREEMENT** failed to include in the agreement the execution by the Village of Palm Springs, Florida. After a review of the **NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT AGREEMENT,** and being aware that the property owners at the time the original **NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT AGREEMENT** was executed had no objection to the Termination of the Cross Access and Parking Agreement, and with the requested Termination not violating the Village of Palm Springs zoning or Development Plan, the Village of Palm Springs agrees and does join in the previously filed **NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT**

AGREEMENT as indicated herein above. The Termination of the Cross Access and Parking Easement Agreement will be terminated immediately upon the execution of this **AMENDED NOTICE OF TERMINATION OF CROSS ACCESS AND PARKING EASEMENT AGREEMENT** by the below designated representative of the Village of Palm Springs, Florida.

DONE and AGREED to this _____ day of August, 2021, by the following parties:

Exhibit "A"

PARCEL 1

The North 1/2 of all that part of Tract 15 of MODEL LAND CO. SUBDIVISION of Section 20, T. 44 S, R. 43 E, as per plat recorded in Plat Book 5, Page 79, in the Office of the Clerk of the Circuit Court of Palm Beach County, Florida, described as follows:

Beginning at a point in the East line of Congress Avenue (which said East line of Congress Avenue is parallel to and 18 feet East of the West line of said Tract 15), 756.9 feet North of the Point where the East line of Congress Avenue intersects the North line of Tenth Avenue (which said North line of Tenth Avenue is parallel to and 10 feet North of the South line of Tract 16 of said MODEL LAND CO. SUBDIVISION of Section 20, T. 44 S, R. 43 E), and running thence North along the East line of Congress Avenue, a distance of 110 feet; thence running parallel to the said North line of Tenth Avenue, a distance of 312 feet; thence South along the East line of said Tract 15, a distance of 110 feet; thence West a distance of 312 feet to a Point of Beginning, less so much thereof as lies within 50 feet of, measured at right angles to, the West line of said Section 20, Township 44 South, Range 43 East, less the right of way of Congress Avenue.

AND PARCEL 2

Being a parcel lying within the North 170 feet of the South 390 feet of Tract 15, of MODEL LAND CO. SUBDIVISION of Section 20, T. 44 S, R. 43 E, Palm Beach County, Florida, Public Records as recorded in Plat Book 5, Page 79, Palm Beach County Public Records, said parcel being more particularly described as follows:

Commence at the Northwest corner of said Section 20, thence S 01°36'11" W (bearing assumed and all other bearings are relative thereto) along the West line of said Section 20 a distance of 287.07 feet to the intersection with the Westerly extension of the Northerly line of the North 170 feet of the South 390 feet of said Tract 15; thence S 88°09'15" E along the westerly extension of the Northerly line of the North 170 feet of the South 390 feet of said Tract 15 a distance of 50.00 feet to the Easterly right-of-way of Congress Avenue, as now laid out and in use, thence S 01°36'11" W along said Easterly right of way line of Congress Avenue, a distance of 120 feet to the point of beginning; thence S 88°09'15" E parallel with the North line of the South 390 feet of Tract 15, a distance of 295.35 feet; thence S 01°36'11" W parallel with and 295.35 feet East of the East right of way line of Congress Avenue, a distance of 50.00 feet to a point on the South line of the North 170' of the South 390 feet of Tract 15; thence N 88°09'15" W, along the said South line of the North 170 feet of the South 390 feet of Tract 15 a distance of 295.35 feet to a point on the Easterly right of way of Congress Avenue, thence N 01°36'11" E, a distance of 50 feet to the point of beginning.

Exhibit "B"

The North 170 feet of the South 390 feet of Tract 15 MODEL LAND COMPANY'S SUBDIVISION of Section 20, Township 44 South, Range 43 East, according to the Plat thereof as recorded in Plat Book 5, page 79, Palm Beach County, Florida, Public Records, less the West 35 feet for right of way for Congress Avenue.

ALSO LESS AND EXCEPT THE FOLLOWING:

Being a parcel lying within the North 170 feet of the South 390 feet of Tract 15 of Model Land Company's Subdivision of Section 20, Township 44 South, Range 43 East Palm Beach County, Florida Public Records as recorded in Plat Book 5, Page 79, Palm Beach County Public Records, said parcel being more particularly described a follows: Commence at the Northwest corner of said Section 20, thence S 01°36' 11" W (bearing assumed and all other bearings are relative thereto) along the West line of said Section 20 a distance of 287.07 feet to the intersection with the Westerly extension of the Northerly line of the North 170 feet of the South 390 feet of said Tract 15; thence S 88° 09'15" E along the westerly extension of the Northerly line of the North 170 feet of the South 390 feet of said Tract 15 a distance of 50.00 feet to the Easterly right-of-way of Congress Avenue, as now laid out and in use, thence S 01 ° 36'11" W along said Easterly right of way line of Congress Avenue, a distance of 120 feet to the point of beginning; thence S 88°09' 15" E parallel with the North line of the South 390 feet of Tract 15, a distance of 295.35 feet; thence S 01°36'11" W parallel with and 295.35 feet East of the East right of way line of Congress Avenue, a distance of 50.00 feet to a point on the South line of the North 170 feet of the South 390 feet of Tract 15; thence N88° 09' 15" W, along the said South line of the North 170 feet of the South 390 feet of Tract 15 a distance of 295.35 feet to a point on the Easterly right of way of Congress Avenue, thence N01°36'11" E a distance of 50 feet to the point of beginning.

Palm Springs, Florida 33461

RE: **Termination of Cross Access and Parking Easement Agreement**
(3108 and 3060 South Congress Avenue, Palm Springs, Florida)

Dear Ms. Cabrera,

My office has the pleasure of representing Patricia Nardone who is the principal of both Victoria Congress Realty, LLC, and Congress Realty Company, LLC. The two (2) Limited Liability Companies owned the real property located at both 3060 and 3108 S. Congress Avenue in Palm Springs until a recent sale of the 3108 property to Southeast Corporations Services LLC on June 12, 2020.

Prior to the sale the Seller, Victoria Congress Realty, LLC (owner of 3108) joined with Congress Realty Company, LLC (owner of 3060) and terminated the Cross Access and Parking Easement Agreement. The Village was an original signatory to the Agreement and my client would like to request that the Village join in and consent to the termination of the Cross Access and Parking Easement Agreement.

If I may I will provide a short chronology for the Cross Access and Parking Easement Agreement as it relates to my clients request for the termination of same by the Village of Palm Springs:

October 18, 2005 - the former owners of the 3108 and 3060 South Congress Avenue properties entered into a Cross Access and Parking Easement Agreement along with the Village of Palm Springs which allowed the 3108 South Congress Avenue property to utilize additional parking spaces located on the 3060 South Congress Avenue property, a requirement for the 3108 property being allowed to operate a restaurant, considering that the restaurant operations on both properties had different peak hour parking demands;

April 19, 2012 - the 3060 South Congress Avenue property was transferred via a Warranty Deed to Congress Realty Company, LLC, owned by Patricia Nardone;

October 24, 2012 - the owner of the 3108 South Congress Avenue property sold the property to Patricia Nardone. At the time of the sale, the restaurant located on the 3108 South Congress Avenue property was no longer operating;

May 16, 2014 - Patricia Nardone transferred by Quit Claim Deed the 3108 South Congress Avenue property to Victoria Congress Realty LLC, which she controlled;

May 15, 2020 - a Contract for Sale and Purchased was entered into between Victoria Congress Realty, LLC as Seller and Southeast Corporation Services, LLC, as Purchaser for 3108 South Congress Avenue. No restaurant had been operated on the premises since 2012;

June 12, 2020 - the Purchaser was notified by Seller's office of the Cross Access and Parking Easement Agreement and that same should be terminated;

June 12, 2020 - Purchaser's counsel's reviewed the Cross Access and Parking Easement Agreement and agreed to the termination;

June 12, 2020 - Notice of Termination of Cross Access and Parking Easement Agreement was executed by Victoria Congress Realty, LLC (owner of Parcel "A" 3108 South Congress Avenue) and Congress Realty Company, LLC (owner of Parcel "B" 3060 South Congress Avenue). The Termination was recorded on June 23, 2020;

July 7, 2020 - Mortgagee Policy issued by Purchaser's counsel (for Southeast Corporations Services LLC) without exception for the Cross Access and Parking Easement Agreement.

May - June, 2021 - Southeast Corporation Services, LLC obtained site plan approval from the Village to allow the development of a day care facility on the 3108 South Congress Property. The approved site plan for the day care provides for all parking required by the Village Code for the day care to use the 3108 property. A future cross access to the 3060 South Congress Property is reflected on the approved site plan.

Respectfully, there are no material reasons or interest the Village may have which support the continuation of the Cross Access and Parking Easement Agreement, and substantive reasons exist indicating why the Cross Access and Parking Easement Agreement should be terminated, as follows:

1. For the sale of the 3108 South Congress Avenue property the Seller did not prepare the closing documents, conduct the closing, or prepare the Mortgagee Title Insurance Policy. As pursuant to the Contract the Purchaser bore these costs and selected their own closing agent who was their counsel. Having prepared the closing documents (other than the Termination), removed the Easement as an exception to title, and specifically agreed to the Termination, the Purchaser, Southeast Corporations Services LLC, knowingly accepted the 3108 property with a full understanding that the Cross Access and Parking Easement Agreement was being terminated and that any benefit they could have derived from the Agreement was not a part of the Sale;

2. The 3108 and 3060 properties actually never had cross access and no vehicles ever traveled from either property to the other except by exiting onto Congress Avenue and entering the other property again from Congress Avenue. The 3108 property has now been approved as a day care facility. All parking required for the day care must be contained on the 3108 property as indicated by the approved site plan. Any use for the 3108 property currently or in the future which required use of the 3060 parking spaces would necessitate use during the high volume pickup and drop off times for children and require actual cross access between the properties which does not exist;

3. The cross parking agreement may have been utilized by the restaurant located on the 3108 property (prior to 2012), but the dual use of the 3060 parking area by both properties was during different usage times as the Dunkin Donuts store (3060) was highly trafficked in the morning hours, while the restaurant (3108) was highly trafficked in the evening hours. The usage was complementary in nature. If a day care or similar business seeks the use of the Cross Access and Parking Easement Agreement, such utilization of the parking areas will be by both businesses at the same high volume morning use time necessary for the drop off of children (3108) and the sale of coffee and breakfast items (3060);

4. The actual Cross Access and Parking Easement Agreement recorded in the public records and to which none of the interested owners were a party does not have the legal descriptions or a depiction of the easement area attached. Additionally, no known copy either recorded or unrecorded is known to exist. Neither property owner can be required to honor an easement that does not specify the actual requirements of the easement;

5. Any use of the 3108 property as a restaurant would have been deemed abandoned by no later than 2015, and the requirements necessitating the Cross Access and Parking Easement Agreement rendered a nullity;

6. The newly approved use of the 3108 property as a day care facility does not require the use of parking on the 3060 property cross parking agreement as pursuant to the site plan approved by the Village's, all parking for the day care facility must be self contained within the limits of the 3108 property; and

7. The Termination of the Cross Access and Parking Easement Agreement would not violate the building and zoning laws or regulations currently in place and used by the Village of Palm Springs. However, the owner of the 3060 property understands that future development of the Dunkin Donut site may require cross access to the 3108 site similar to the cross access currently contemplated by the existing agreement which has been terminated by the owners of 3108 and 3060 properties, but not the Village of Palm Springs.

At the Village's earliest possible convenience, we would greatly appreciate the appropriate representative of the Village execute a Termination of the Cross Access and Parking Easement Agreement between 3108 South Congress Avenue and 3060 South Congress Avenue and provide same to the undersigned counsel for recording in the Public Records. We will be happy to provide the Village the appropriate documentation for review and execution.

Please feel free to contact me if you have any questions or concerns or if you need any more information prior to making any decision concerning the Cross Access and Parking Agreement. We greatly appreciate your assistance and thank you in advance for the help we know you will provide.

Sincerely,

Dean L. Willbur, Jr.

CROSS ACCESS AND PARKING EASEMENT AGREEMENT

THIS CROSS EASEMENT AGREEMENT is made this 18 day of October, 2005 by and between Hugh W. Bayless, whose address is 319 Bunker Ranch Road, West Palm Beach, FL 33405 ("Owner A") and Janet L. Truesdell, Trustee, whose address is 807 SW Pebble Lane, Palm City, FL 34990 ("Owner B"); and the Village of Palm Springs, Florida ("Village").

WHEREAS, Owner A is seized in fee simple of a developed parcel of land with a street address of 3108 South Congress Avenue, Palm Springs, Florida described on Exhibit "A" attached hereto ("Parcel I")

WHEREAS, Owner B is seized in fee simple of undeveloped parcel of land with a street address of 3060 South Congress Avenue, Palm Springs, Florida described on Exhibit "B" (hereinafter "Parcel II");

WHEREAS, in the future, Parcel II may need to utilize portions of Parcels I for access;

WHEREAS, in the future, Parcel I may need to utilize portions of Parcels II for access;

NOW, THEREFORE, in consideration of the foregoing and terms and conditions of this Agreement, the Owner hereby encumbers Parcels I and II with the following cross access easements:

1. Owner A hereby declares, grants and imposes, for the benefit of Parcel II as described above, and for Owner B thereof and such owner's successors, mortgagees and tenants, and their respective employees, agents and invitees, the following described non-exclusive, access easements for pedestrian and vehicular ingress and egress and parking purposes over, across, upon and through those certain paved driveways, roadways, accessways, and pedestrian and vehicular passageways attached hereto as Exhibit A and B, with full right to use and enjoy the benefits of said roadways and passageways, subject to any requirements set forth herein, within the physical boundaries of any pavement and curbing, whether existing now or in the future within Parcel I. The easement created

hereby shall be reciprocal and shall benefit and burden each of the Parcels.

2. Owner B hereby declares, grants and imposes, for the benefit of Parcel I as described above, and for Owner A thereof and such owner's successors, mortgagees and tenants, and their respective employees, agents and invitees, the following described non-exclusive, access easements for pedestrian and vehicular ingress and parking purposes over, across, upon and through those certain paved driveways, roadways, accessways, and pedestrian and vehicular passageways attached hereto as Exhibits A and B, with full right to use and enjoy the benefits of said roadways and passageways, subject to any requirements set forth herein, within the physical boundaries of any pavement and curbing, whether existing now or in the future within Parcel II. The easement created hereby shall be reciprocal and shall benefit and burden each of the Parcels.

3. Each owner of a Parcel shall be responsible for maintaining the roadways and passageways within that owner's Parcel. All maintenance and repairs shall be performed in a timely, good and workmanlike manner, in accordance with applicable governmental requirements and sound business practices. In the event an owner (the "Obligated Owner") fails to properly maintain the roadways and passageways within the Obligated Owner's Parcel and such failure adversely impacts on the use of such roadways and passageways by the owner of another Parcel (the "Adversely Affected Owner"), the Adversely Affected Owner shall be entitled to deliver written notice thereof to the Obligated Owner specifying the necessary maintenance or repair work and demanding completion of same. In the event that the Obligated Owner shall fail, within thirty (30) days after such notice, to either commence such maintenance or repair work or provide reasonable justification in writing to the Adversely Affected Owner specifying why such maintenance or repair is not necessary, then the Adversely Affected Owner shall be entitled to commence such maintenance or repair work. Any Adversely Affected Owner who performs maintenance or repair work in accordance with this provision shall be entitled to recover the cost thereof from the Obligated Owner plus interest at the rate of eighteen percent per annum. In the event of litigation, the prevailing party shall be entitled to recover its attorneys fees and costs from the non-prevailing party.

4. This Agreement shall not be terminated, altered, limited, changed or modified unless in writing and signed by all of the parties hereto. This Agreement shall be binding upon, and run to the benefit of, each party, its successors, assigns, or heirs, as the case may be. This Agreement may be enforced by any of the parties thereto, including but not limited to the Village.

Unofficial Document

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Parks & Recreation

ITEM 6.8:

Resolution No 2021-29 - Approve Community Development Block Grant (CDBG) Project Funding Agreement with Palm Beach County - Park Connector Pathway Project (Sub-Phase IIA - Davis Road [Alemeda Drive to Greenbrier Drive] and Park Lane [Davis Road to Kirk Road - Foxtail Palm Park] - Construction)

SUMMARY:

The Parks and Recreation Department is requesting the Village Council to consider entering into an Interlocal Agreement with Palm Beach County to provide Community Development Block Grant (CDBG) funding to continue the development of the Village's proposed Park Connector Pathway Project in the amount of $130,515.

On March 8, 2018, the Village Council selected the development /construction of the Park Connector Pathway project through the Village (Resolution No. 2018-07) as the Village's Annual Community Development Block Grant (CDBG) project. This proposed project is expected to include five (5) total phases. Currently, the Village Council has authorized engineering and design to be completed for four (4) of the five (5) Phases (Task Order #255) with the remaining Phase after the Village completes the purchase of property to construct a new park on the east side of the Village. The proposed Village-wide pathway system project is expected to connect nine (9) of the Village's parks with a wide sidewalk (where possible) enhanced with pedestrian amenities, such as benches, water fountains, distance markers, trail information boards, etc.

The Park Connector Pathway project consists of two (2) primary components:

Phase I is the professional engineering and design [Village's FY 2019 CDBG Project - Resolution No. 2018-07, (March 8, 2018)]

Note: The Village Council (on November 7, 2019) provided input and direction on the proposed engineering and design plans that have been developed by the Village's consulting engineer before proceeding with additional Sub-Phases of the engineering and design portion of this project, which will include wide concrete sidewalk, paver brick separators, concrete illuminated feature, stamped pavement options, landscaping improvements, proposed signage and information boards, etc.

Phase II is the construction phase for the new trail system [Village's FY 2020 CDBG Project - Resolution No. 2019-07 (March 14, 2019) and Village's FY 2021 CDBG Project - Resolution No. 2020-09 (March 12, 2020) and Village's FY 2022 CDBG Project - Resolution No. 2021-03 (March 11, 2021)].

Within each of these Phases, the project has been broken into five (5) "Sub- Phases" and, thus, the work authorizations are (will be) referenced as such.

Sub-Phase I - Southside of Alemeda Drive (Davis Road east to the intersecting Pathway Park sidewalk that is located behind the Village Center Complex Ballfields) for a total of approximately 1,400 feet. **UPDATE** - This Sub-Phase was completed in February 2021 and is now open to the public and serves as a showcase for the remainder of the project serving as an understanding/expectation for this community park project that will be built over the next few years.

Sub-Phase II - Davis Road, from Alemeda Drive south to approximately 300 feet north of Lakewood Road (to include Royal Palm Park), approximately 2,600 feet of Greenbriar Drive that turns into Park Lane and west to Kirk Road to include the future Foxtail Palm Park for a total of approximately 1.4 miles.

Note: Sub-Phase II is being proposed to be broken into two (2) separate projects (Sub-Phase IIA & Sub-Phase IIB) to better fund this very large project over a period of years rather than at a single time. **UPDATE** - A contract for Sub-Phase IIB was awarded by the Village Council (December 10, 2020) and construction began on June 7, 2021, for this sub-phase. **NOTE -** Sub-Phase IIA will begin at Alemeda Drive and will consist of an eight (8) foot concrete sidewalk (where space allows) running along the east side of Davis Road until reaching Canal 9. The pathway will then cross over to the west side of Davis Road at the Cypress Lane crosswalk and will then continue on the west side of Davis Road to Greenbrier Drive/Park Lane before moving west to connect to Kirk Road and Foxtail Palm Park.

Sub-Phase III - Lakewood Road (Davis Road west to Kirk Road), Canal Road (Davis Road west to Kirk Road) and, Kirk Road (Lakewood Road north to Canal Road) for a total of approximately 1.26 miles.

Sub-Phase IV - Kirk Road (between Canal Road and Park Lane), 10th Avenue North (from Davis Road to Sago Park Road - Sago Palm Park - and then to Summer Street) and Summer Street (700 feet north to Sabal Palm Park) for a total of approximately 1.42 miles.

Sub-Phase V - At this time, the location for the final connection of the proposed Pathway

(Sub-Phase V) has not been determined but is expected to connect to a potential new park (that is expected to be located east of Congress Avenue).

Note: The proposed Park Connector Pathway System Project, upon completion, is expected to be located both inside and outside of the Village's CDBG Target Area, to serve the residents of the target area by providing approximately 6.7 miles of an interconnected, pedestrian-friendly pathway between most of the Village's parks. The proposed pathway would be ADA compliant/accessible to serve those in the Village with unique abilities as well as our senior population.

As a result, the Parks and Recreation Department is recommending that this project proceed forward and to continue the construction process - Phase II - Sub-Phase IIA - Davis Road (Alemeda Drive to Greenbrier Drive) and Park Lane (Davis Road to Kirk Road - Foxtail Palm Park). The proposed Sub-Phase IIA project has been designed to be located along the east side of Davis Road, between Alemeda Drive and the L-9 canal, and then along the west side of Davis Road from Cypress Lane to Greenbrier Drive/Park Lane. It will then proceed west on Park Lane to Kirk Road - Foxtail Palm Park.

The proposed Park Connector Pathway Project - Sub-Phase IIA, if approved within the Village's FY 2022 Budget and Capital Improvement Plan (CIP), includes $854,550 to support the continued Pathway's design and construction costs. This proposed cost estimate for FY 2022 is expected to be funded utilizing the Village's FY 2022 CDBG allocation, which is estimated at $130,515, as well as $678,327.23 of the Village's Infrastructure Surtax (Sales Tax). **Update -** The Village has since received a revised estimate of the probable construction cost for Phase 2A of $808,842.23 due to a revision to the proposed location of the pathway park, thus resulting in a decrease in Surtax contribution ($45,711.21). The Park Connector Pathway project is also being considered for funding by two additional funding sources: a Member Designated Project thru the Transportation and Infrastructure Committee as part of the surface transportation reauthorization bill ($854,000) and the United States Department of Transportation's Federal Highway Administration Recreation Trails Program ($250,000). A final decision for both of these potential funding sources is expected in November 2021.

Note: This project is expected to extend into the next few fiscal years and is included within the proposed FY 2022 Budget - General Fund. As a result, additional Project Phases for construction have been included within the proposed FY 2022 CIP for future fiscal years and would include additional design and construction costs. Various sources of reimbursement funding [i.e., Village CDBG and Infrastructure Surtax (Sales Tax)] are proposed to be committed to this project to support the total project cost. Additionally, staff is also continuing to investigate all grant opportunities, including pending submittals for the Recreation Trails Program (RTP), the Florida Department of Environmental Protection (FDEP), Florida Department of Transportation Planning Agency (TPA), and Florida Department of Economic Opportunity (FDOE) General Infrastructure Grant funding, to support the cost of this significant community project.

Following the previously approved Interlocal Agreement with Palm Beach County that enables

the Village to serve as a CDBG sub-recipient city (Resolution No. 2015-112), the Village (with County oversight) is responsible for all aspects of this project (i.e. establish general project timeframe, up-front funding of all associated project costs and outline county and federal requirements - compliance with Palm Beach County Purchasing Code and Davis-Bacon Act minimum wages).

Note: A contract for the construction services is expected to be awarded by January 2022 and construction of the initial phase of this project is planned to be completed by November 30, 2022. Additionally, this proposed capital project, if approved, has been included in the Village's 5-Year Capital Budget with construction starting in FY 2022 and expected completion in FY 2023. The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The proposed Agreement confirms that the proposed project meets the HUD and CDBG funding criteria and establishes a general timeframe for when the services are to be completed.

The Infrastructure Surtax Citizen Oversight Committee is scheduled to review and ensure that this proposed project (Sub-Phase IIA - Davis Road (Alemeda Drive to Greenbrier Drive) and Park Lane (Davis Road to Kirk Road - Foxtail Palm Park) is eligible to utilize the new Infrastructure Surtax funding during their November/December 2021 meeting. Phase I - Engineering and Design has been previously approved by the Oversight Committee (project meets the requirements of the Village's Resolution, PBC's Sales Tax Ordinance and, State law) during their November 1, 2018, Meeting.

The proposed Interlocal Agreement was prepared by Palm Beach County Department of Housing and Economic Sustainability staff and reviewed by the Village Attorney, the Parks & Recreation Director, and the Finance Director.

If approved by the Village Council, the Palm Beach County Director of Housing and Economic Sustainability will route the Agreement thru the County Attorney for final approval.

FISCAL IMPACT:

Funding to support the proposed new Park Connector Pathway project is available within the FY 2021 and proposed FY 2022 Budget - General Fund utilizing CDBG grant funding and Infrastructure Surtax (Sales Tax) funds:

Allocated/Estimated Project Funding:	***Amount***
FY 2019 Actual Funding - General Fund - Various Sources	$ 156,742.16
FY 2020 Actual Funding - General Fund - Various Sources	$ 300,488.39
FY 2021 Approved Budget - General Fund - Various Sources	$ 837,186.73
FY 2022 Proposed Budget - General Fund - Various Sources	$1,179,069.00
FY 2023 Capital Improvement Plan - Various Sources	$ 494,034.00
FY 2024 Capital Improvement Plan - Various Sources	$ 603,175.00
Total Expected Project Contribution:	**$3,570,695.28**

Available Funding/Revenues (Sources):	***Amount***
FY 2019 Project Reimbursement - Village CDBG	$ 133,263.00
FY 2019 Project Contribution - Village General Fund (Surtax)	$ 23,479.16
FY 2020 Project Reimbursement - Village CDBG	$ 300,488.39
FY 2021 Project Reimbursement - Village CDBG	$ 322,495.61
FY 2021 Project Contribution - Village General Fund (Surtax)	$ 392,623.12
FY 2021 Project Reimbursement - PBC SWA Blighted & Distressed Property Grant	$ 122,068.00
FY 2022 Project Reimbursement - Village CDBG	$ 130,515.00
FY 2022 Project Contribution - Village General Fund (Surtax)	$1,048,554.00
FY 2023 Project Reimbursement - Village CDBG	$ 130,515.00
FY 2023 Project Contribution - Village General Fund (Surtax)	$ 363,519.00
Total Available Funding/Revenues:	**$2,967,520.28**

Expected/Actual Projected Costs:	***Amount***
FY 2019 Project Cost - Phase I - Actual Engineering & Design Cost	$ 156,742.16
FY 2020 Project Cost - Phase I - Actual Engineering & Design Cost	$ 136,327.00
FY 2021 Project Cost - Phase I - Estimated Engineering & Design Costs	$ 100,000.00
FY 2022 Project Cost - Phase I - Estimated Engineering & Design Costs	$ 18,168.00
FY 2023 Project Cost - Phase I - Estimated Engineering & Design Costs	$ 15,000.00

FY 2020 Project Cost - Phase II - Actual Construction Costs	$ 164,161.39
FY 2021 Project Cost - Phase II - Estimated Construction Costs	$ 368,593.37
FY 2022 Project Cost - Phase II - Estimated Construction Costs	$1,179,069.00
FY 2023 Project Cost - Phase II - Estimated Construction Costs	$ 494,034.00
Total Project Costs:	**$2,632,094.92**

Expected Project Costs (Breakdown by Sub-Phase):	***Amount***
Project Cost - Phase I - Engineering and Design Cost (by Sub-Phase):	
Sub-Phase I - Alemeda Drive	$ 55,116.00
Sub-Phase I - Alemeda Drive (Approved Change Order No 1)	$ 5,380.00
Sub-Phase I - Alemeda Drive (Approved Change Order No. 2)	$ 1,500.00
Sub-Phase II - Davis Road	$ 98,980.00
Sub-Phase II - Davis Road (Approved Change Order No. 1)	$ 30,280.00
Sub-Phase III - Canal Road, Kirk Road & Lakewood Road	$ 77,923.16
Sub-Phase IV - Sago Park & Summer Street	$ 72,310.00
Sub-Phase V - TBD - East Side of Village	TBD
Total Projected and Actual Engineering & Design Costs	**$ 341,489.16**

Expected Engineer Opinion of Cost Project Costs (Breakdown by Sub-Phase):	***Amount***
Project Cost - Phase II - Construction Cost (by Sub-Phase)	
Sub-Phase I - Alemeda Drive (Actual)	$ 490,410.00
Sub-Phase II - Davis Road*	$ 808,842.23 $ 505,065.50
Sub-Phase III - Canal Road, Kirk Road & Lakewood*	$ 100,000.00 $ 381,865.82
Sub-Phase IV - Sago Park & Summer Street	$ 596,905.05
Sub-Phase V - TBD - East Side of Village	TBD
Total Project Expected/Engineering Opinion of Cost - Phase II - Construction:	**$2,883,088.60**

Note: Funding noted in the FY 2021 CIP Budget for FY 2022 and FY 2023 was based on a previous cost estimate for construction for the remaining project sub-phases. Upon completion of the final design plans and development of the engineer's opinion of the cost estimate, the construction prices to complete the remaining sub-phases are expected to increase above the original project cost estimate.

Note: Village staff is continuously looking for potential grant funding opportunities to offset the increased cost of this project. In addition to annual Community Development Block Grant (CDBG) funding and Village Infrastructure Surtax (Sales Tax) dollars, staff will continue to apply for PBC Solid Waste Authority Blighted and Distressed Property Grant(s), the Florida General Infrastructure Grant [and other opportunities with the Florida Department of Economic Opportunity (DEO)] and the Florida Department of Environmental Protection's Florida Recreation Development Assistance Program (FRDAP) and the Recreation Trails (Grant) Program (RTP).

The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

RESOLUTION NO. 2021-29

A RESOLUTION OF THE VILLAGE OF PALM SPRINGS, FLORIDA, AUTHORIZING THE MAYOR TO EXECUTE AN INTERLOCAL AGREEMENT WITH PALM BEACH COUNTY TO PROVIDE COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO CONTINUE THE DEVELOPMENT OF THE VILLAGE'S PROPOSED PARK CONNECTOR PATHWAY PROJECT IN THE AMOUNT OF $130,515; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Village of Palm Springs ("Village") is a municipal corporation of the State of Florida with such power and authority as has been conferred upon it by the Florida Constitution and Chapter 166, Florida Statutes; and

WHEREAS, the Village has determined that it is in the best interest of the community to undertake the Park Connector Pathway System ("Project") for the construction and install improvements to existing sidewalk network to create an interconnected pathway system enhanced with pedestrian amenities that link nine (9) of the Village's ten (10) parks; and

WHEREAS, the Project falls within two of the three categories of eligible activities as defied by HUD, in as much as the Project:

(1) will benefit low- and moderate-income persons; and

(2) it is a public access in need of repair, including ADA and accessibility improvements; and proposed.

WHEREAS, the Project lies entirely within a public area that is used by and available to the entire community and the general public for direct access to Village recreational facilities.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, as follows:

Section 1. The "Whereas" clauses are incorporated herein are true and correct and

are hereby made a specific part of this Resolution.

Section 2. The Village Council hereby authorizes and directs the Village Manager to submit a grant application to the Palm Beach County Housing and Community Development in the amount $154,405 for the Fiscal Year 2021-2022 Community Development Block Grant (CDBG) to undertake the Project.

Section 3. All funds derived from this Grant will be used toward completion of the Park Connector Pathway System.

Section 4. This Resolution shall take effect immediately upon adoption.

Council Member _____ offered the foregoing resolution. Council Member_____ seconded the motion, and upon being put to a vote, the vote was as follows:

KIMBERLY M. WYNN, VILLAGE CLERK

REVIEWED FOR FORM AND LEGAL SUFFICIENCY

BY: _____
GLEN J. TORCIVIA, VILLAGE ATTORNEY

AGREEMENT BETWEEN PALM BEACH COUNTY

AND

VILLAGE OF PALM SPRINGS

THIS AGREEMENT, with an effective date of **October 1, 2021**, by and between Palm Beach County, a political subdivision of the State of Florida, for the use and benefit of its Community Development Block Grant Program, and the **Village of Palm Springs**, a Municipality duly organized and existing by virtue of the laws of the State of Florida, having its principal office at 226 Cypress Lane, Palm Springs, FL 33461.

WHEREAS, Palm Beach County has entered into an agreement with the United States Department of Housing and Urban Development for a grant for the execution and implementation of a Community Development Block Grant Program in certain areas of Palm Beach County, pursuant to Title I of the Housing and Community Development Act of 1974 (as amended); and

WHEREAS, Palm Beach County, in accord with the annual Action Plan, and the **Village of Palm Springs**, desire to provide the activities specified by this Agreement; and

WHEREAS, Palm Beach County desires to engage the **Village of Palm Springs** to implement such undertakings of the Community Development Block Grant Program, as a Subrecipient.

NOW, THEREFORE, in consideration of the mutual promises and covenants herein contained, it is agreed as follows:

1. DEFINITIONS

(A) "County" means Palm Beach County.
(B) "CDBG" means the Community Development Block Grant Program of Palm Beach County.
(C) "DHED" means Palm Beach County Department of Housing & Economic Development
(D) "Subrecipient" means the **Village of Palm Springs**, a Subrecipient as defined in 2 CFR 200
(E) "DHED Approval" means the written approval of the DHED Director or his designee.
(F) "U.S. HUD" means the Secretary of Housing and Urban Development or a person authorized to act on its behalf.
(G) "Low and Moderate Income Persons" means the definition set by U.S. HUD.

2. PURPOSE

The purpose of this Agreement is to state the covenants and conditions under which the Subrecipient will implement the Scope of Services set forth in this Agreement.

3. CDBG ELIGIBLE ACTIVITIES AND NATIONAL OBJECTIVE

The Subrecipient shall implement the herein described sidewalk improvements which activities have been determined to be **Public Facilities and Improvements,** under 24 Code of Federal Regulations (CFR) 570.201(c). Both Parties acknowledge that the eligible activities carried out under this Agreement, as described in the scope of work in Exhibit "A", will benefit **Low and Moderate Income Persons on an Area-Wide Basis** and meet the National Objective as defined in 24 CFR 570.208(a)(1)(i).

4. GENERAL COMPLIANCE

The Subrecipient shall comply with the requirements of Title 24 of the Code of Federal Regulations, Part 570 (the U.S. Housing and Urban Development regulations concerning Community Development Block Grants (CDBG)), including subpart K of these regulations, except that (1) the Subrecipient does not assume the County's environmental responsibilities described in 24 CFR 570.604 and (2) the Subrecipient does not assume the County's responsibility for initiating the review process under the provisions of 24 CFR Part 52. The Subrecipient also agrees to comply with all other Federal, state and local laws, regulations, and policies governing the funds provided under this contract.

The Subrecipient further agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available. Any legal action necessary to enforce this Agreement will be held in a state court of competent jurisdiction located in Palm Beach County, Florida.

5. SCOPE OF SERVICES

The Subrecipient shall, in a satisfactory and proper manner as determined by DHED, perform the tasks necessary to conduct the program outlined in Exhibit "A" as attached hereto and made a part hereof.

6. MAXIMUM COMPENSATION

The Subrecipient agrees to accept as full payment for services rendered pursuant to this Agreement the actual amount of budgeted, eligible, and DHED Director or designee-approved expenditures and encumbrances made by the Subrecipient under this Agreement, which shall not be unreasonably withheld. These services shall be performed in a manner satisfactory to DHED and U.S. HUD. In no event shall the total compensation or reimbursement to be paid hereunder exceed the maximum and total authorized sum of **$130,515** for the period of **October 1, 2021**, through and including **December 31, 2022.** Any funds not expended by the expiration date of this Agreement shall automatically revert to the County.

7. TIME OF PERFORMANCE

The effective date of this Agreement and all rights and duties designated hereunder are contingent upon the timely release of funds for this project by U. S. HUD. The effective date shall be the date of execution of this Agreement, and the services of the Subrecipient shall be undertaken and completed in light of the purposes of this Agreement. In any event, services required herein shall be completed by the Subrecipient prior to **December 31, 2022.**

8. METHOD OF PAYMENT

The County agrees to make payments and to reimburse the Subrecipient for all budgeted costs permitted by Federal, State, and County guidelines. The Subrecipient shall not request reimbursement for work performed and/or payments made by the Subrecipient, before the effective date of this Agreement, nor shall it request reimbursement for payments made after the expiration date of this Agreement, and in no event shall the County provide advance funding to the Subrecipient or any subcontractors hereunder. The

Subrecipient shall request payments or reimbursements from the County by submitting to DHED proper documentation of expenditures consisting of originals of invoices, receipts, or other evidence of indebtedness, and when original documents cannot be presented, the Subrecipient may furnish copies if deemed acceptable by DHED. Each request for payment or reimbursement submitted by the Subrecipient shall be accompanied by a letter from the Subrecipient, provided on the Subrecipient's letterhead, referencing the name of the project funded herein, the date of this Agreement and/or its document number, and containing a statement requesting the payment or reimbursement and its amount, as well as the name and signature of the person making the request. Payment shall be made by the Palm Beach County Finance Department upon presentation of the aforesaid proper documentation of expenditures as approved by DHED. The Subrecipient may at any time after the expiration of this agreement request from the County reimbursement for payments made by the Subrecipient during the term of this Agreement by submitting to DHED the aforesaid proper documentation of expenditures, and the Palm Beach County Finance Department shall make payment as stated above, provided that DHED has determined that the funds allocated to the Subrecipient through this agreement are still available for payment, and provided that DHED approves such payment.

9. CONDITIONS FOR PROJECT IMPLEMENTATION

(A) IMPLEMENTATION OF PROJECT ACCORDING TO REQUIRED PROCEDURES

The Subrecipient shall implement this Agreement in accordance with applicable Federal, State, County, and local laws, ordinances and codes. The Federal, State, and County laws, ordinances and codes are minimal regulations supplemented by more restrictive guidelines set forth by DHED. The Subrecipient shall prepare a cost allocation plan for all project funding and submit such plan to the DHED Director or designee. Should a project receive additional funding after the commencement of this Agreement, the Subrecipient shall notify DHED in writing within thirty (30) days of receiving notification from the funding source and submit a revised cost allocation plan to the DHED Director or designee within forty-five (45) days of said official notification.

(B) FINANCIAL ACCOUNTABILITY

The County may have a financial systems analysis and/or an audit of the Subrecipient or of any of its subcontractors, performed by an independent auditing firm employed by the County or by the County Internal Audit Department at any time the County deems necessary to determine if the project is being managed in accordance with the requirements of this Agreement.

(C) SUBCONTRACTS

Any work or services subcontracted hereunder shall be specifically by written contract, written agreement, or purchase order. All subcontracts shall be subject to the requirements of this Agreement. This includes Subrecipient ensuring that all consultant contracts and fee schedules meet the minimum standards as established by Palm Beach County and HUD. Contracts for architecture, engineering, survey, and planning shall be fixed fee contracts. All additional services shall have prior written approval with support documentation detailing categories of persons

performing work plus hourly rates including benefits, number of drawings required, and all items that justify the "Fixed Fee Contract." Reimbursable items will be at cost.

(D) PURCHASING

All purchasing of services and goods, including capital equipment, shall be made by purchase order or by a written contract and in conformity with the procedures prescribed Subrecipient's purchasing code and 2 CFR Part 200, which is incorporated herein by reference.

(E) REPORTS, AUDITS, AND EVALUATIONS

Payment will be contingent on the timely receipt of complete and accurate reports required by this Agreement, and on the resolution of monitoring or audit findings identified pursuant to this Agreement.

(F) ADDITIONAL DHED, COUNTY, AND U.S. HUD REQUIREMENTS

DHED shall have the right via this Agreement to suspend/terminate payments if after fifteen (15) days written notice the Subrecipient has not complied with any additional conditions that may be imposed, at any time, by DHED, the County, or U.S. HUD.

(G) PROGRAM - GENERATED INCOME

All income earned by the Subrecipient from activities financed, in whole or in part, by funds provided hereunder must be reported and returned annually to DHED. Such income shall only be used to undertake the activities authorized by this Agreement. DHED must verify and approve the eligibility and reasonableness of all expenses which the Subrecipient requests to be deducted. Accounting and disbursement of such income shall comply with 2 CFR 200 and other applicable regulations incorporated herein by reference.

The Subrecipient may request that said program income be used to fund other eligible uses, subject to DHED approval, and provided that the Subrecipient is in compliance with its obligations as contained within this Agreement (including the attached Exhibits herein). The Subrecipient shall only use such program income to fund "basic eligible activities" as defined by Federal Community Development Block Grant Regulations (24 CFR Part 570). The Subrecipient hereby agrees that the provisions of this Agreement shall also apply to these "basic eligible activities" as funded with the Subrecipient's program income.

The requirements of this section shall survive the expiration or early termination of this Agreement.

10. CIVIL RIGHTS COMPLIANCE AND NON-DISCRIMINATION POLICY

The County is committed to assuring equal opportunity in the award of Agreements and complies with all laws prohibiting discrimination. Pursuant to Palm Beach County Resolution R2017-1770, as may be amended, the Subrecipient warrants and represents that throughout the term of the Agreement, including any renewals thereof, if applicable,

all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, familial status, sexual orientation, gender identity or expression, or genetic information. Failure to meet this requirement shall be considered default of the Agreement.

As a condition of entering into this Agreement, the Subrecipient represents and warrants that it will comply with the County's Commercial Nondiscrimination Policy as described in Resolution 2017-1770, as amended. As part of such compliance, the Subrecipient shall not discriminate on the basis of race, color, national origin, religion, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity or expression, disability, or genetic information in the solicitation, selection, hiring or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall the Subrecipient retaliate against any person for reporting instances of such discrimination. The Subrecipient shall provide equal opportunity for subcontractors, vendors and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that nothing contained in this clause shall prohibit or limit otherwise lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the County's relevant marketplace in Palm Beach County. The Subrecipient understands and agrees that a material violation of this clause shall be considered a material breach of this Agreement and may result in termination of this Agreement, disqualification or debarment of the company from participating in County contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party. Subrecipient shall include this language in its subcontracts.

11. OPPORTUNITIES FOR RESIDENTS AND SMALL/MINORITY/WOMEN-OWNED BUSINESS ENTERPRISES

To the greatest extent feasible, lower-income residents of the project areas shall be given opportunities for training and employment; and to the greatest feasible extent eligible business concerns located in or owned in substantial part by persons residing in the project areas shall be awarded contracts in connection with the project. The Subrecipient shall comply with the Section 3 Clause of the Housing and Community Development Act of 1968.

In the procurement of supplies, equipment, construction, or services to implement this Agreement, the Subrecipient shall make a positive effort to utilize small business and minority/women-owned business enterprises for supplies and services, and provide these sources the maximum feasible opportunity to compete for contracts to be performed pursuant to this Agreement. To the maximum extent feasible these small business and minority/women- owned business enterprises shall be located in or owned by residents of the CDBG areas designated by Palm Beach County in the CDBG Annual Consolidated Plan approved by U.S. HUD.

12. PROGRAM BENEFICIARIES

At least fifty-one percent (51%) of the beneficiaries of a project funded through this Agreement must be Low- and Moderate- Income Persons. If the project is located in an entitlement city, as defined by U.S. HUD, or serves beneficiaries countywide, at least fifty-one percent (51%) of the beneficiaries directly assisted through the use of funds under this

Agreement must reside in unincorporated Palm Beach County or in municipalities participating in the County's Urban County Qualification Program. The project funded under this Agreement shall assist beneficiaries as defined above for the time period designated in this Agreement. Upon request from DHED, the Subrecipient shall provide written verification of compliance.

13. EVALUATION AND MONITORING

The Subrecipient agrees that DHED will carry out periodic monitoring and evaluation activities as determined necessary by DHED and that payment, reimbursement, or the continuation of this Agreement is dependent upon satisfactory evaluation conclusions based on the terms of this Agreement. The Subrecipient agrees to furnish upon request to DHED, or the County's designees copies of transcriptions of such records and information as is determined necessary by DHED. The Subrecipient shall submit status reports required under this Agreement on forms approved by DHED to enable DHED to evaluate progress. The Subrecipient shall provide information as requested by DHED to enable DHED to complete reports required by the County or HUD. The Subrecipient shall allow DHED, or HUD to monitor the Subrecipient on site. Such visits may be scheduled or unscheduled as determined by DHED or HUD.

14. AUDITS AND INSPECTIONS

At any time during normal business hours and as often as DHED, the County, U.S. HUD, or the Comptroller General of the United States may deem necessary, Subrecipient shall make available to DHED, HUD, or the Comptroller General for examination all its records with respect to all matters covered by this Agreement.

15. REPAYMENT PROVISIONS

In the event the Subrecipient fails to comply in whole or in part with the terms and conditions of this Agreement and/or the referenced regulations pertaining to the use of CDBG funds, and where DHED, the County, or U. S. HUD as determined that the County or Subrecipient has a repayment obligation required due to the Subrecipient's performance or lack thereof, the Subrecipient shall be responsible to reimburse the County in the amount requested by the County within 60 days of the date of written notification from the County to the Subrecipient.

The requirements of this Section shall survive the early termination or expiration of the Agreement.

16. UNIFORM ADMINISTRATIVE REQUIREMENTS

The Subrecipient agrees to comply with the applicable uniform administrative requirements as described in Federal Regulations 2 CFR Part 200.

17. REVERSION OF ASSETS

Upon expiration of this Agreement, the Subrecipient shall transfer to the County any CDBG funds on hand at the time of expiration and any accounts receivable attributable to the use of CDBG funds. Any real property under the Subrecipient's control upon expiration of this Agreement which was acquired or improved in whole or part with CDBG funds must either

be used to meet one of the national objectives in Federal Community Development Block Grant Regulations 24 CFR 570.208 for a period of five years after expiration of this Agreement (unless a longer period is specified elsewhere in this Agreement), or, the Subrecipient shall pay the County an amount equal to the current market value of the property less any portion of the value attributable to expenditures of non-CDBG funds for the acquisition of, or improvements to, the property. This provision shall survive the expiration or termination of this Agreement.

18. DATA BECOMES COUNTY PROPERTY

All reports, plans, surveys, information, documents, maps, and other data prepared, assembled, or completed by the Subrecipient for the purpose of this Agreement shall be made available to the County at any time upon request by the County, DHED, or the Palm Beach County Inspector General's office, as indicated herein. Upon completion of all work contemplated under this Agreement copies of all documents and records relating to this Agreement shall be surrendered to DHED if requested. In any event, the Subrecipient shall keep all documents and records for five (5) years after expiration of this Agreement.

19. INDEMNIFICATION

Each party to this Agreement shall be liable for its own actions and negligence and, to the extent permitted by law, the County shall indemnify, defend, and hold harmless the Subrecipient against any actions, claims, or damages arising out of the County's negligent or intentional acts in connection with this Agreement, and the Subrecipient shall indemnify, defend, and hold harmless the County against any actions, claims, or damages arising out of the Subrecipient's negligent or intentional acts in connection with this Agreement. The foregoing indemnification shall not constitute a waiver of sovereign immunity beyond the limits set forth in Florida Statute, section 768.28, nor shall the same be construed to constitute agreement by either party to indemnify the other party for such other party's negligent, willful or intentional acts or omissions. The Subrecipient shall hold the County harmless and shall indemnify the County for funds which the County is obligated to refund the Federal Government arising out of the conduct of activities and administration of the Subrecipient.

The provisions of this indemnification clause shall survive the expiration and/or early termination of this Agreement.

20. INSURANCE BY SUBRECIPIENT (MUNICIPALITY):

Without waiving the right to sovereign immunity as provided by section 768.28, Florida Statutes, (Statute), the Municipality represents that it is self-insured with coverage subject to the limitations of the Statute, as may be amended.
If Municipality is not self-insured, Municipality shall, at its sole expense, purchase and maintain in full force and effect at all times during the life of this contract, insurance coverage at limits not less than those contained in the Statute.

Should Municipality purchase excess liability coverage, Municipality agrees to include County as an Additional Insured.

The Municipality agrees to maintain or to be self-insured for Workers' Compensation insurance in accordance with Chapter 440, Florida Statutes.

Should Municipality contract with a third-party (Contractor) to perform any service related to the Agreement, Municipality shall require the Contractor to provide the following minimum insurance:

- **Commercial General Liability**: Municipality shall maintain limit of liability insurance with minimum limits of $500,000 combined single limit for property damage and bodily injury per occurrence. Such policy shall be endorsed to include Municipality and County as Additional Insureds. Municipality shall also require that the Contractor include a Waiver of Subrogation against County.

- **Additional Insured Endorsement**: The Commercial General Liability policy shall be endorsed to include, "Palm Beach County Board of County Commissioners, a Political Subdivision of the State of Florida, its Officers, Employees, and Agents" as an Additional Insured. A copy of the endorsement shall be provided to County upon request.

- **Business Automobile Liability**: Municipality shall maintain insurance with minimum limits of $500,000 combined single limits for property damage and bodily injury per occurrence.

- **Workers' Compensation:** Municipality shall maintain Workers' Compensation & Employer's Liability in accordance with Chapter 440 of the Florida Statutes.

- **Waiver of Subrogation**: Except where prohibited by law, Municipality hereby waives any and all rights of Subrogation against the County, its officers, employees and agents for each required policy except Professional Liability. When required by the insurer, or should a policy condition not permit an insured to enter into a pre-loss agreement to waive subrogation without an endorsement, then Municipality shall notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy that includes a condition to the policy specifically prohibiting such an endorsement or voids coverage should Municipality enter into such an agreement on a pre-loss basis.

When requested, the Municipality shall provide an affidavit or Certificate of Insurance evidencing insurance or self-insurance.

Compliance with the foregoing requirement shall not relieve the Municipality of its liability and obligations under this Agreement.

21. MAINTENANCE OF EFFORT

The intent and purpose of this Agreement is to increase the availability of the Subrecipient's services. This Agreement is not to substitute for or replace existing or planned projects

or activities of the Subrecipient. The Subrecipient agrees to maintain a level of activities and expenditures, planned or existing, for projects similar to those being assisted under this Agreement which is not less than that level existing prior to this Agreement.

22. CONFLICT OF INTEREST

The Subrecipient covenants that no person who presently exercises any functions or responsibilities in connection with the Project, has any personal financial interest, direct or indirect, in the target area or any parcel therein, which would conflict in any manner or degree with the performance of this Agreement and that no person having any conflict of interest shall be employed by or subcontracted by the Subrecipient. Any possible conflict of interest on the part of the Subrecipient or its employees shall be disclosed in writing to DHED provided, however, that this paragraph shall be interpreted in such a manner so as not to unreasonably impede the statutory requirement that maximum opportunity be provided for employment of and participation of low and moderate-income residents of the project area.

23. CITIZEN PARTICIPATION

The Subrecipient shall cooperate with DHED in the implementation of the Citizen Participation Plan by establishing a citizen participation process to keep residents informed of the activities the Subrecipient is undertaking in carrying out the provisions of this Agreement. Representatives of the Subrecipient shall attend meetings and assist DHED in the implementation of the Citizen Participation Plan, as requested by DHED.

24. RECOGNITION

The Subrecipient shall include a reference to the financial support herein provided by the County in all publications, publicity events, and provide the County copies of all such publications. The Subrecipient shall also notify the County prior to any ceremonies or events relating to facilities or items funded by this agreement to allow for participation of Mayor, County Commissioners, County Administration, Department Staff or other County Official. In addition, the Subrecipient will make good faith efforts to recognize the County's support for all activities made possible with funds made available under this Agreement.

25. AGREEMENT DOCUMENTS

The following documents are herein incorporated by reference and made a part hereof, and shall constitute and be referred to as the Agreement; and all of said documents taken as a whole constitute the Agreement between the parties hereto and are as fully a part of the Agreement as if they were set forth verbatim and at length herein:

(A) This Agreement, including its Exhibits, which the County may revise from time to time, as required, and to be provided for use by the Subrecipient;
(B) 2 CFR Part 200: Uniform Administrative Requirements, Cost Principals and Audit Requirements for Federal Awards;
(C) Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975, and Title II of the Americans with Disabilities Act of 1990;
(D) Executive Orders 11246, 11478, 11625, 12432, the Davis Bacon Act, and Section 3 of the Housing and Community Development Act of 1968, and the Uniform

Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended;

(E) Executive Orders 11063, 12259, 12892, the Fair Housing Act of 1988, and Section 109 of the Housing and Community Development Act of 1974, as amended;

(F) Florida Statutes, Chapter 112;

(G) Palm Beach County Purchasing Code;

(H) Federal Community Development Block Grant Regulations (24 CFR Part 570), and Federal Consolidated Plan Regulations (24 CFR Part 91), as amended;

(I) The Subrecipient's personnel policies and job descriptions; and

(J) The Subrecipient's Certificate of Insurance.

(K) Section 448.095, Florida Statutes (F.S.) (E-Verify): https://www.e-verify.gov/

The Subrecipient shall keep an original of this Agreement, including its Exhibits, and all Amendments thereto, on file at its principal office.

26. TERMINATION AND SUSPENSION

In the event of early termination, the Subrecipient shall not be relieved of liability to the County for damages sustained by the County by virtue of any breach of the Agreement by the Subrecipient, and the County may withhold any payment to the Subrecipient until such time as the exact amount of damages due to the County from the Subrecipient is determined.

(A) TERMINATION FOR CAUSE

If, through any cause, either party shall fail to fulfill in a timely and proper manner its obligations under this Agreement, or if either party shall violate any of the covenants, agreements, or stipulations of this Agreement, either party shall thereupon have the right to terminate this Agreement or suspend payments, in whole or part, by giving written notice to the other party of such termination or suspension and specifying the effective date of termination or suspension. Upon early termination, the County, at its sole discretion, may reimburse the Subrecipient for eligible costs incurred that are in compliance with this Agreement up to and including the date of termination.

(B) TERMINATION FOR CONVENIENCE

At any time during the term of this Agreement, either party may, at its option and for any reason, terminate this Agreement upon ten (10) working days written notice to the other party. Upon early termination, the County, at its sole discretion, may reimburse the Subrecipient for eligible costs incurred that are in compliance with this Agreement up to and including the date of termination.

(C) TERMINATION DUE TO CESSATION

In the event the Grant to the County under Title I of the Housing and Community Development Act of 1974 (as amended) is suspended or terminated, this Agreement shall be suspended or terminated effective on the date U.S. HUD specifies.

In the event the Subrecipient ceases to exist, or ceases or suspends its operation for any reason, this Agreement shall be suspended or terminated on the date the

County specifies. The determination that the Subrecipient has ceased or suspended its operation shall be made solely by the County, and the Subrecipient, its successors or assigns in interest agrees to be bound by the County's determination. Upon early termination, the County, at its sole discretion, may reimburse the Subrecipient for eligible costs incurred that are in compliance with this Agreement up to and including the date of termination.

27. SEVERABILITY OF PROVISIONS

If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to conform to the terms and requirements of applicable law.

28. AMENDMENTS

The County may, at its discretion, amend this Agreement to conform with changes required by Federal, State, County, or U.S. HUD guidelines, directives, and objectives. Such amendments shall be incorporated by written amendment as a part of this Agreement and shall be subject to approval of the Palm Beach County Board of County Commissioners. Except as otherwise provided herein, no amendment to this Agreement shall be binding on either party unless in writing, approved by the Board of County Commissioners and the governing body of the Subrecipient, and signed by both parties.

29. NOTICES

All notices required to be given under this Agreement shall be sufficient when delivered to DHED at its office at 100 Australian Avenue, Suite 500, West Palm Beach, Florida 33406, and to the Subrecipient when delivered to its address on page one (1) of this Agreement.

30. INDEPENDENT AGENT AND EMPLOYEES

The Subrecipient agrees that, in all matters relating to this Agreement, it will be acting as an independent agent and that its employees are not Palm Beach County employees and are not subject to the County provisions of the law applicable to County employees relative to employment, hours of work, rates of compensation, leave, unemployment compensation and employee benefits.

31. NO FORFEITURE

The rights of the County under this Agreement shall be cumulative and failure on the part of the County to exercise promptly any rights given hereunder shall not operate to forfeit or waive any such rights.

32. PUBLIC ENTITY CRIMES

As provided in F.S. 287.133 by entering into this Agreement or performing any work in furtherance hereof, the Subrecipient certifies that it, its affiliates, suppliers, subcontractors and consultants who will perform hereunder, have not been placed on the convicted vendor list maintained by the State of Florida Department of Management Services within the thirty six (36) months immediately preceding the date hereof. This notice is required by F.S. 287.133 (3)(a).

33. PALM BEACH COUNTY OFFICE OF THE INSPECTOR GENERAL

Palm Beach County has established the Office of Inspector General in Palm Beach County Code, Chapter 2 – Article XII, as may be amended. The Inspector General's authority includes, but is not limited to, the power to review past, present and proposed County contracts, transactions, accounts and records, to require the production of records, and to audit, investigate, monitor, and inspect the activities of the Subrecipient, its officers, agents, employees, and lobbyists in order to ensure compliance with contract requirements and detect corruption and fraud. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be in violation of Palm Beach County Code, Chapter 2 – Article XII, and punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

34. EXCLUSION OF THIRD PARTY BENEFICIARIES

No provision of this Agreement is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this Agreement, including but not limited to any citizen or employees of the County and/or the Subrecipient.

35. SOURCE OF FUNDING

This Agreement and all obligations of County hereunder are subject to and contingent upon receipt of funding from U.S. HUD. Nothing in this Agreement shall obligate the Palm Beach County Board of County Commissioners to provide funding from the County's annual budget and appropriations.

36. INCORPORATION BY REFERENCE

Exhibits attached hereto and referenced herein or in Exhibit "A" shall be deemed to be incorporated into this Agreement by reference.

37. PUBLIC RECORDS

Notwithstanding anything contained herein, as provided under Section 119.0701, F.S., if the Subrecipient: (i) provides a service; and (ii) acts on behalf of the County as provided under Section 119.011(2) F.S., the Subrecipient shall comply with the requirements of Section 119.0701, Florida Statutes, as it may be amended from time to time The Subrecipient is specifically required to:

A. Keep and maintain public records required by the County to perform services as provided under this Agreement.

B. Upon request from the County's Custodian of Public Records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119 or as otherwise provided by law. The Subrecipient further agrees that all fees, charges and expenses shall be determined in accordance with Palm Beach County PPM CW-F-002, Fees Associated with Public Records Requests, as it may be amended or replaced from time to time.

C. Ensure that public records that are exempt, or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement, if the Subrecipient does not transfer the records to the County.

D. Upon completion of the Agreement the Subrecipient shall transfer, at no cost to the County, all public records in possession of the Subrecipient unless notified by County's representative/liaison, on behalf of the County's Custodian of Public Records, to keep and maintain public records required by the County to perform the service. If the Subrecipient transfers all public records to the County upon completion of the Agreement, the Subrecipient shall destroy any duplicate public records that are exempt, or confidential and exempt from public records disclosure requirements. If the Subrecipient keeps and maintains public records upon completion of the Agreement, the Subrecipient shall meet all applicable requirements for retaining public records.

All records stored electronically by the Subrecipient must be provided to County, upon request of the County's Custodian of Public Records, in a format that is compatible with the information technology systems of County, at no cost to County.

Failure of the Subrecipient to comply with the requirements of this article shall be a material breach of this Agreement. County shall have the right to exercise any and all remedies available to it, including but not limited to, the right to terminate for cause. Subrecipient acknowledges that it has familiarized itself with the requirements of Chapter 119, F.S., and other requirements of state law applicable to public records not specifically set forth herein.

IF THE SUBRECIPIENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE SUBRECIPIENT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, PLEASE CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT RECORDS REQUEST, PALM BEACH COUNTY PUBLIC AFFAIRS DEPARTMENT, 301 N. OLIVE AVENUE, WEST PALM BEACH, FL 33401, BY E-MAIL AT RECORDSREQUEST@PBCGOV.ORG OR BY TELEPHONE AT 561-355-6680.

38. COUNTERPARTS OF THE AGREEMENT

This Agreement, which includes the Exhibits referenced herein, may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts will constitute one and the same instrument. A copy of this Agreement shall be filed with the Clerk of the Circuit Court in and for Palm Beach County.

39. ENTIRE UNDERSTANDING

This Agreement and its provisions merge any prior agreements, if any, between the parties hereto and constitutes the entire understanding. The parties hereby acknowledge that there have been and are no representations, warranties, covenants, or undertakings other than those expressly set forth herein.

WITNESS our Hands and Seals on this _____ day of _____, 2021.

EXHIBIT "A"
WORK PROGRAM NARRATIVE

1. SUBRECIPIENT OBLIGATIONS:

A. **PROFESSIONAL SERVICES:** The Subrecipient shall retain an engineering consultant (a Florida Professional Engineer) to provide design services to create plans and specifications for the construction improvements to existing sidewalks that will create an interconnected pathway system between nine (9) of the Village parks. Additionally, the Subrecipient and consultant shall prepare, obtain and review bids, prepare contract documents, inspect work in progress, recommend payment to contractors, and provide other professional services customarily provided by similar professionals for this type of project. The consultant shall also coordinate the design and construction work with the asbestos abatement contractor, should abatement become necessary.

Alternatively, the Subrecipient shall have the option of performing any portion of the consultant's services described above by its own staff provided such staff possesses the necessary competency to do so. All costs associated with the above services shall be paid for by the Subrecipient.

B. **PROJECT SCOPE:** The scope of the Park Pathway System improvements may include, but not be limited to construction of new sidewalk improvements (new and/or repair) to create an interconnected pathway to link (9) parks within the Village Park system of the project area, along with ADA accessibility to enhance pedestrian travel. Other typical amenities for these types of projects, including pedestrian lighting, benches, water fountains, and decorative pavers along with restoration of any areas disturbed by the construction activities.

Project Area: The proposed location of the improvements noted herein is as follows:

- Davis Road between Alemeda Drive and Greenbrier Drive, Davis Rd to Kirk Rd along Greenbrier Drive and Park Lane (Foxtail Palm Park)

The exact geographic limits of the pathway installations may be more or less than the area noted above depending on the availability of CDBG and local funds and the bid pricing.

(1) Should the Subrecipient use a brand name or multiple brand names in its bid package/drawings/ specifications for this project, then these documents shall:

(a) Clearly note that specified brand name(s) are used for descriptive purposes only,
(b) State that "equal" equipment or materials will be accepted, and
(c) Identify the minimum requirements to establish equality.

(2) The Subrecipient shall prepare a bid package complete with drawings, specifications, and any items required for a competitive bid of the project. The bid process shall not allow

for any local procurement preferences with regard to contract award.
The Subrecipient's advertisement for bid shall contain language noting that the project is federally funded through funds provided by Palm Beach County via of the US Department of HUD, and that Davis-Bacon and Related Acts and wage rates apply. The advertisement shall also encourage participation by MBE/WBE and Section 3 businesses.

Following the bid process, the Subrecipient shall submit to DHED a copy of the bid document package including any addendums, a notice of contract award, a copy of the executed construction contract, and documentation regarding any protests filed regarding the bids.

Prior to the Subrecipient's first reimbursement, DHED shall review the Subrecipient's procurement process and contract award to determine compliance with 2 CFR 200 and all procurement regulations applicable to CDBG funding and this Agreement.

(3) The Subrecipient shall prioritize the work in the project, and shall bid such work in a manner that requires the receipt of itemized costs from bidders. This would then allow the award of items that can be funded by the budget provided s that the extent of work awarded will result in a functioning facility in the opinion of DHED.

(4) The Subrecipient shall not award the construction contract for the project until sufficient funding is available to complete the established scope of work. All construction work shall be included in one contract.

(5) Should the amount of eligible costs exceed the amount to be funded by the County through this Agreement, then the Subrecipient shall fund all amounts in excess of the amount to be funded by the County.

(6) The Subrecipient shall inform DHED of any environmental findings or conditions discovered during project implementation. Applicable mitigation measures must be incorporated into the project by the Subrecipient in order to proceed with the project. Such mitigation measures may affect the total project cost. Where funds are not available from the CDBG allocation contained herein, the Subrecipient shall be responsible for all costs of mitigation.

(7) The Subrecipient shall recognize Palm Beach County as a funding participant in the project's implementation and shall affix the County's logo to any project sign on the project site during the construction process. The Subrecipient shall also acknowledge the County's participation whenever the situation presents itself.

The Subrecipient further agrees that DHED, in consultation with any parties it deems necessary, shall be the final arbiter on the Subrecipient's compliance with this Agreement's requirements and shall make the final determination of the Subrecipient's compliance with applicable regulations governing the CDBG funding of this project.

C. **ASBESTOS REQUIREMENTS:** The Subrecipient shall comply with all applicable requirements contained in Exhibit "C", attached hereto, for construction work in connection with the project funded through this Agreement.

D. **DAVIS-BACON AND RELATED ACTS (DBRA):**

The Subrecipient shall request from the County a copy of the Requirements for Federally Funded Projects and the applicable DBRA Wage Decision for the project PRIOR to advertising the construction work. The Subrecipient shall incorporate a copy of the DBRA Wage Decision and the Requirements for Federally Funded Projects in its bid documents and shall include these documents as part of the construction contract. The Subrecipient shall require the contractor to include these in all subcontracts for the work performed under the construction contract.

The Subrecipient shall perform all tasks required for DBRA compliance, including, but not limited to the following:

- Contractor and sub-contractor debarment clearance
- Obtaining contractor and subcontractor certified payrolls
- Review of certified payrolls and documentation related thereto
- Compliance actions for payroll related issues
- Employee/worker interviews and follow-up review of certified payrolls
- Ensure restitution due underpaid workers has been paid prior to project completion

The Subrecipient shall certify, at the time they request a reimbursement from DHED that payrolls from the contractor and sub-contractors are current, have been reviewed and approved by Subrecipient staff, and that any DBRA compliance issues have been or are in the process of being resolved.

The Subrecipient shall review and approve payrolls through the Labor Compliance Reporting System prior to submitting each reimbursement request to DHED.

The Subrecipient shall certify, at the time they request final reimbursement from DHED that payrolls from the contractor and sub-contractors are current, have been reviewed and approved by Subrecipient staff, and shall certify to DHED that the project meets DBRA compliance and all workers have been paid in accordance with DBRA requirements.

DHED may monitor the Subrecipient, its contractors, and subcontractors for DBRA compliance at any time per Section 13 of this Agreement.

Required Use of the Labor Compliance Reporting System (LCRS)

As part of the County's commitment to assist the Subrecipient and its contractors/subcontractors to comply with legal and contractual requirements including Davis Bacon and Related Acts (DBRA), the Department of Housing & Economic Development has established a Labor Compliance Reporting System ("LCRS") for this project. The Subrecipients contractors/subs will no longer be required to submit paper copies of fringe benefits statements, weekly-certified payroll reports and/or work performance reports, and shall instead use the LCRS for all DBRA reporting and tracking.

The LCRS is available for use 24-hours a day, 7 days a week, at no cost for reporting weekly certified payrolls and labor compliance related documents. Utilization of this system should also prove helpful in expediting the process of reviewing payrolls, approving progress payments to contractors and reimbursement payments to subrecipients/developers.

User Responsibilities

1. Subrecipients, and its contractors/subs shall NOT create internet links to the Service or Frame or mirror any content on any other server or wireless or internet-based device.
2. Subrecipient and its contractors/subs are responsible for all activity occurring under User account and shall abide by all applicable local, state, national laws, treaties and regulations in connection with the use of the service, including those related to data privacy, international communications and the transmission of technical data. The LCRS Web Address for contractors/subs use will be provided by DHED, along with Federal Requirements and Wage Decision(s).
3. Subrecipient shall require its contractor and subs to register through the Labor Compliance Reporting System. This language shall be contained in the Subrecipient's Bid and Construction documents.
4. Subrecipient shall require All fringe benefits statements, weekly-certified payroll reports to be submitted through the LCRS and this language shall be contained in the Subrecipient's Bid and Construction documents.

Disclaimer of Warranties for LCRS

County makes no representation, warranty, or guaranty as to the reliability, timeliness, quality, suitability, truth, availability, accuracy or completeness of the service or any content. County does not represent or warrant that:

A. The use of the service will be secure, timely, uninterrupted or error-free or operate in combination with any other hardware, software, system or data.
B. The service will meet Subrecipient's Requirements or expectations.
C. Any stored data will be accurate or reliable.
D. The quality of any products, services, information or other material purchased or obtained by Subrecipient through the service will meet Subrecipient's requirements or expectations.
E. Errors or defects will be corrected.
F. The service or the servers that make the service available are free of viruses or other harmful components.

All content is provided to Subrecipient strictly on an "AS IS" basis. All conditions, representations and warranties, whether expressed or implied, statutory or otherwise, including, without limitation, any implied warranty of merchantability or fitness for a particular purpose are hereby disclaimed to the maximum extent permitted by applicable law by County.

E. **BONDING REQUIREMENTS:** The Subrecipient shall comply with the requirements of 2 CFR 200 in regard to bid guarantees, performance bonds, and payment bonds. For contracts exceeding the current Simplified Acquisition Threshold, the Subrecipient shall require a bid guarantee from each bidder equivalent to five percent (5%) of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified. In addition, for contracts exceeding the current Simplified Acquisition Threshold, the Subrecipient shall also require a performance bond on the part of the contractor for 100 percent (100%) of the contract price and a payment bond on the part of the contractor for 100 percent (100%) of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract. All bonds shall be executed by a corporate surety company of recognized standing, authorized to do business in the State of Florida. The Subrecipient may follow its own requirements relating to bid guarantees, performance bonds, and payment bonds for contracts for less than the current Simplified Acquisition Threshold.

F. **CONSTRUCTION PAYMENT RETAINAGE:** Throughout the term of this Agreement, the Subrecipient shall withhold retainage upon each progress draw at the maximum percentage allowed by Florida law as specified in the construction contract. The Subrecipient shall abide by Florida law and this Agreement regarding the payment of retainage funds and project closeout procedures. The Subrecipient shall certify to DHED that the contractor and subcontractors have complied with the requirements of DBRA, that all wages and restitution due to workers has been paid, and that satisfactory project closeout documentation has been reviewed and approved by the Subrecipient prior to releasing retainage/final payment.

G. **PERFORMANCE REQUIREMENTS:** The time-frame for completion of the outlined activities shall be as follows:

Request 50% Reimbursement of CDBG Funds by:	July 15, 2022
Complete Construction by:	November 2022
Request 100% Reimbursement of CDBG Funds by:	December 31, 2022

If unforeseen circumstances occur that impact the accuracy of the performance dates and require revisions thereto, the Subrecipient shall request, in writing that the dates used as performance requirements listed above be revised/amended. The County Administrator, or DHED Director, may, at his/her sole discretion, revise/amend the performance dates via written notification to the Subrecipient. The Completion Date for all activities may be revised only by an Amendment to this Agreement.

The Subrecipient may be subject to decrease and/or recapture of funds by the County if the Performance Requirements are not met. Failure by the Subrecipient to comply with these requirements may negatively impact Subrecipient's ability to receive future grant awards.

H. **REPORTS:** The Subrecipient shall submit to DHED a detailed Monthly Report in the form provided as Exhibit "B" to this Agreement, or other form as may be required by DHED. Each Monthly Report must account for the total activity for which the Subrecipient is funded under this Agreement, and a Subrecipient representative must certify to the accuracy of the Report. These Monthly Reports shall be submitted to DHED beginning the month of the effective date of the Agreement. They shall be used by DHED to assess the Subrecipient's progress in implementing the project.

I. **USE OF THE PROJECT FACILITY/PROPERTY:** The Subrecipient agrees in regard to the use of the facility/property whose acquisition or improvements are being funded in part or in whole by CDBG funds as provided by this Agreement, that for a period of five (5) years after the expiration date of this Agreement (as may be amended from time to time):

(1) The Subrecipient shall properly maintain the facility/project, and may not change the use or planned use, or discontinue use, of the facility/property (including the beneficiaries of such use) from that for which the acquisition or improvements are made, unless the Subrecipient provides affected citizens with reasonable notice of, and opportunity to comment on, any such proposed change and either:

a. The new use of the facility/property qualifies as meeting one of the national objectives defined in the regulations governing the CDBG program, and is not a building for the general conduct of government; or

b. The requirements of paragraph (2) of this section are met.

(2) If the Subrecipient determines, after consultation with affected citizens, that it is appropriate to change the use of the property to a use which does not qualify under paragraph (1) (a) of this section or discontinue the use of the facility/property, it may retain or dispose of the facility for such use if the County is reimbursed in the amount of the current fair market value of the facility/property less any portion thereof attributable to expenditures of non-CDBG funds for acquisition of, or improvements to the facility/property. The final determination of the amount of any such reimbursement to the County under this paragraph shall be made by the County.

(3) Following the reimbursement of CDBG funds by the Subrecipient to the County pursuant to paragraph (2) above, the facility/property will then no longer be subject to any CDBG requirements.

The provisions of this clause shall survive the expiration or early termination of this Agreement.

J. **SECTION 3 REQUIREMENTS:** The Subrecipient agrees to comply with all Section 3 requirements applicable to contracts funded through this Agreement. Information on Section 3 is available at DHED upon request. The Subrecipient shall include the following, referred to as the Section 3 Clause, in every solicitation and every contract.

Section 3 Clause

(1) The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 170 1u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3 shall, to the greatest extent feasible, be directed to low-and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

(2) The parties to this contract agree to comply with HUD's requirements in 24 CFR Part 135, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the Part 135 regulations.

(3) The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers representative of the contractor's commitment under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

(4) The contractor agrees to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR Part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR Part 135. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR 135.

(5) The contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR Part 135 require employment opportunities to be directed, were not filled to circumvent the contractor's obligations under 24 CFR Part 135.

(6) Noncompliance with HUD's regulations in 24 CFR Part 135 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

K. **ENVIRONMENTAL CONDITIONS:** The County shall perform an Environmental Review (ER) of the project to assess existing conditions and identify all potential environmental impacts, whether beneficial or adverse, and any required conditions or mitigation measures that the Subrecipient must consider in the design and implementation of the project. The Subrecipient acknowledges that construction may not start until DHED notifies the Subrecipient of the results of the ER and the Release of Funds from HUD. Where applicable, the Subrecipient shall submit to DHED a plan of action and an implementation schedule for complying with any identified conditions requiring mitigation. Where applicable, the mitigation measures shall be included in the bid documents. The Subrecipient shall comply with all requirements established by the County eminating from the completion of the ER.

ER costs incurred by the County may be charged to the project identified above. In addition, the Subrecipient shall immediately inform DHED of any environmental findings or conditions discovered during activity implementation, and agrees that applicable mitigation measures, subject to DHED approval, shall be incorporated in order to proceed with the project. The Subrecipient acknowledges that such mitigation measures may affect the total project cost and that Subrecipient may be responsible for implementation of corrective actions and the costs associated therewith.

2. **COUNTY OBLIGATIONS:**

A. Provide funding for the above-specified improvements as described above in "Project Scope", during the term of this Agreement, in the amount of **$130,515**. However, the County shall not provide any funding for the construction work until the Subrecipient provides documentation showing that sufficient funds are available to complete the project.

B. County shall not provide any funding for the construction work until the Subrecipient provides documentation showing that Subrecipient's procurement of the construction contract has been made in compliance with applicable requirements for the CDBG funds provided under this Agreement.

C. Provide technical assistance to the Subrecipient when requested.

D. Monitor the Subrecipient at any time during the term of this Agreement. Visits may be announced or unannounced, as determined by DHED, and will serve to ensure compliance with HUD regulations that planned activities are conducted in a timely manner, and to verify the accuracy of reporting to DHED on program activities.

E. Allowable costs that may be paid by the County under this Agreement in addition to those stated in 2.A above:

(1) Costs of asbestos surveys, asbestos abatement, and abatement monitoring.

(2) Costs of any other services customarily associated with projects of the nature of the project contemplated by this Agreement.

The County shall review requests by the Subrecipient for expenditures on the above items prior to undertaking the services associated with them, and approve any such expenditure it deems appropriate for this project.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

RESOLUTION NO. 2021-04

A RESOLUTION OF THE VILLAGE OF PALM SPRINGS, FLORIDA, AUTHORIZING FUNDS ALLOCATED BY THE PALM BEACH COUNTY HOUSING AND COMMUNITY DEVELOPMENT TO THE VILLAGE OF PALM SPRINGS FOR FISCAL YEAR 2021-2022 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) BE USED TOWARD THE PARK CONNECTOR PATHWAY PROJECT, A VILLAGE-WIDE TRAIL SYSTEM THAT IS PLANNED TO CONNECT NINE OF THE VILLAGE'S PARKS WITH A WIDE SIDEWALK ENHANCED WITH PEDESTRIAN AMENITIES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Village of Palm Springs ("Village") is a municipal corporation of the State of Florida with such power and authority as has been conferred upon it by the Florida Constitution and Chapter 166, Florida Statutes;

WHEREAS, the Village has determined that it is in the best interest of the community to undertake the Park Connector Pathway ("Project") is expected to continue to include construction and installation of the proposed improvements; and

WHEREAS, the Project falls within two of the three categories of eligible activities as defied by HUD, in as much as the Project:

(1) will benefit low and moderate income persons; and

(2) it is a public access in need of repair, including ADA and accessibility improvements; and proposed

WHEREAS, the Project lies entirely within a public area that is used by and available to the entire community and the general public for direct access to Village recreational facilities.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, as follows:

Section 1. The "Whereas" clauses are incorporated herein are true and correct and

are hereby made a specific part of this Resolution.

Section 2. The Village Council hereby authorizes and directs the Village Manager to submit a grant application to the Palm Beach County Housing and Community Development in the amount $154,205 for the Fiscal Year 2021-2022 Community Development Block Grant to undertake the Project.

Section 3. All funds derived from this Grant will be used toward completion of the Park Connector Pathway

Section 4. This Resolution shall take effect immediately upon adoption.

Council Member Doug Gunther offered the foregoing resolution. Council Member Joni Brinkman seconded the motion, and upon being put to a vote, the vote was as follows:

	Aye	Nay	Absent
BEV SMITH, MAYOR	✓		
DOUG GUNTHER, Mayor Pro Tem	✓		
JONI BRINKMAN, Council Member	✓		
PATTI WALLER, Council Member	✓		
GARY READY, Vice Mayor	✓		

The Mayor thereupon declared the Resolution duly passed and adopted this 11th day of March 2021.

RE: Fiscal Year (FY) 2021-2022 Community Development Block Grant (CDBG) Program

Dear Mr. Reade:

The Department of Housing and Economic Sustainability (DHES) has commenced preparation of the FY 2021-2022 Action Plan and anticipates providing continued CDBG support to the Village of Palm Springs. Accordingly, please complete and return the attached funding application to DHES no later than **March 26, 2021**, via email to hes-submit@pbcgov.org, or hard copy to DHES, 100 Australian Avenue, Suite 500, West Palm Beach, FL 33406.

The County allocates CDBG funds to municipalities on a formula basis. The U.S. Department of Housing and Urban Development has not yet advised of the amount of the County's FY 2021-2022 CDBG grant. Therefore, for purposes of your application, the amount of CDBG funds requested should be the same as allocated during FY 2020-2021 ($154,205). If your application is approved for funding, the award will be based on your FY 2021-2022 CDBG formula amount.

The Board of County Commissioners (BCC) will discuss CDBG funding strategies at a public workshop tentatively scheduled for April 27, 2021. Contingent on BCC direction, proposed CDBG allocations will be included in the FY 2021-2022 Action Plan and presented to the BCC for approval in July 2021.

If you have any questions, please contact Carlos Serrano, Director of Strategic Planning and Operations at (561) 233-3608 or cserrano@pbcgov.org.

Sincerely,

Jonathan B. Brown, Director
Department of Housing and Economic Sustainability

FUNDING APPLICATION FY 2021-2022

To request technical assistance call (561) 233-3623 or email msklar@pbcgov.org.

I. APPLICANT INFORMATION

Municipality:	**Village of Palm Springs**
Contact Person:	**Justin Lucas**
Title:	**Parks and Recreation Director**
Address:	**226 Cypress Lane**
City; State; Zip Code:	**Palm Springs, Florida, 33461**
Phone Number:	**561-964-8820**
E-mail Address:	**jlucas@vpsfl.org**
Name of Person Signing:	**Richard J. Reade**
Title of Person Signing:	**Village Manager**

Municipal applications must be signed by the City Manager or designee.

Signature:_____ **Date:**_____

II. PROJECT INFORMATION

a. Project Description

1. Name of Project:
   Park Connector Pathway System

2. Project Description:

a) Provide a detailed description of the work to be undertaken, including the current status of planning and design:

Davis Road from Alemeda Drive south to Greenbrier Drive and west to Foxtail Palm Park. Construct and install improvements to existing sidewalk network to create an interconnected pathway system, enhanced with pedestrian amenities that link nine (9) of the Village's parks. Design has been completed by Wantman Group, Inc. See Attachment 3 Preliminary Design

b) For projects serving all persons in a geographic area, identify the general bounds of the project service area:

The proposed Park Connector Pathway System will serve all Residents, however, will be immediately accessible to those on Davis Road between Alemeda Drive and Greenbrier Drive and those from Davis Road to Kirk Road along Greenbrier and Park Lane (Foxtail Palm Park)

c) For projects serving a certain group(s) of users or a specific limited population(s), identify the user group(s)/population(s) and the unduplicated number of persons to be served:

The proposed project will serve all Village Residents, as well as Residents of the unincorporated area living in proximity to Village parks

3. Project Location

a) Project Address:

Public rights of way. See Attachment 1 for location map and project description

b) Property Control Number(s):

N/A

Attach street map and plat map

4. Project Specific Information (N/A for code enforcement)

a) Identify owner of property. If applicant is not owner, explain:

Village of Palm Springs public rights of way

b) Identify zoning and land use designations of project site.

Public rights of way (No zoning/land use)

c) Describe status of project design, and if available, **attach preliminary design**.

The proposed project includes construction and installation of improvements to expand the existing sidewalk network. The existing system consists of 4' to 5' concrete and asphalt sidewalks that are disconnected throughout the Village. The proposed improvements would include a wider 6' to 8' pathway (as can be accommodated by existing rights of way) completing the entire pathway network as well as enhancements such as pedestrian lighting, benches, water fountains, and decorative pavers at key intersections

III. PROJECT JUSTIFICATION

Describe the need for proposed project and how the project will address the identified need(s):

An interconnected pedestrian facility that links nine (9) of the Village parks to provide residents with a designated route to walk or bike between recreation facilities and passive open spaces. This designated route will provide a safe, convenient, ADA accessible pathway that receives high levels of pedestrian travel and activity. As such, the enhanced pathway system will provide a comfortable means for pedestrian travel that serves as a leisure facility itself with a circuit or series of loops with varying lengths.

The existing sidewalk network is comprised of aging 4' to 5' wide sidewalks. The proposed project will expand the width of sidewalks along Davis Road west side and along the north side of Greenbrier and install sidewalks that currently do not exist along Park Lane leading to Foxtail Palm Park. Installment and replacement will eliminate deficiencies in the sidewalk system and serve the entire population, including those with disabilities.

IV. PROJECT IMPLEMENTATION

a. Project Implementation

1. Explain in detail how the agency (and who specifically) will implement the project:

   The Village of Palm Springs will issue an invitation to bid (ITB) under the direction of the Parks and Recreation Director with oversight from Public Services.

2. **Attach an implementation schedule** that lists the following:

- Tasks to be undertaken;
- Dates for initiation and completion of each task; and
- Dates for start and completion of expenditure of CDBG funds.

Include any pertinent comments/information to support feasibility of the proposed schedule.

V. PROJECT BUDGET

CDBG funds shall not supplant non-federal funds budgeted for the project.

a. Budget

1. Total Project Cost: **$854,553 (estimated cost for all phases of constructing the pathway system is $2,250,000)**

2. CDBG Funds Requested: **$154, 405**

3. **Attach an itemized project budget** that includes all sources and uses of funds and identifies proposed uses of CDBG funds.

4. Provide details as to non-CDBG source funding timing and availability and **attach supporting documentation**, if available:

The Village has estimated and budgeted in its Capital Improvement Plan (CIP) $2,250,000 for the construction and installation of the entire Park Connector Pathway system. The Village anticipates this project being completed over the next 2 to 5 fiscal years.

The Village will be responsible for project costs exceeding the annual CDBG allocation. See draft capital budget and attachment #8.

5. **Attach a construction cost estimate** for the project from an engineer, registered architect, licensed contractor, or other qualified party. (N/A for code enforcement)

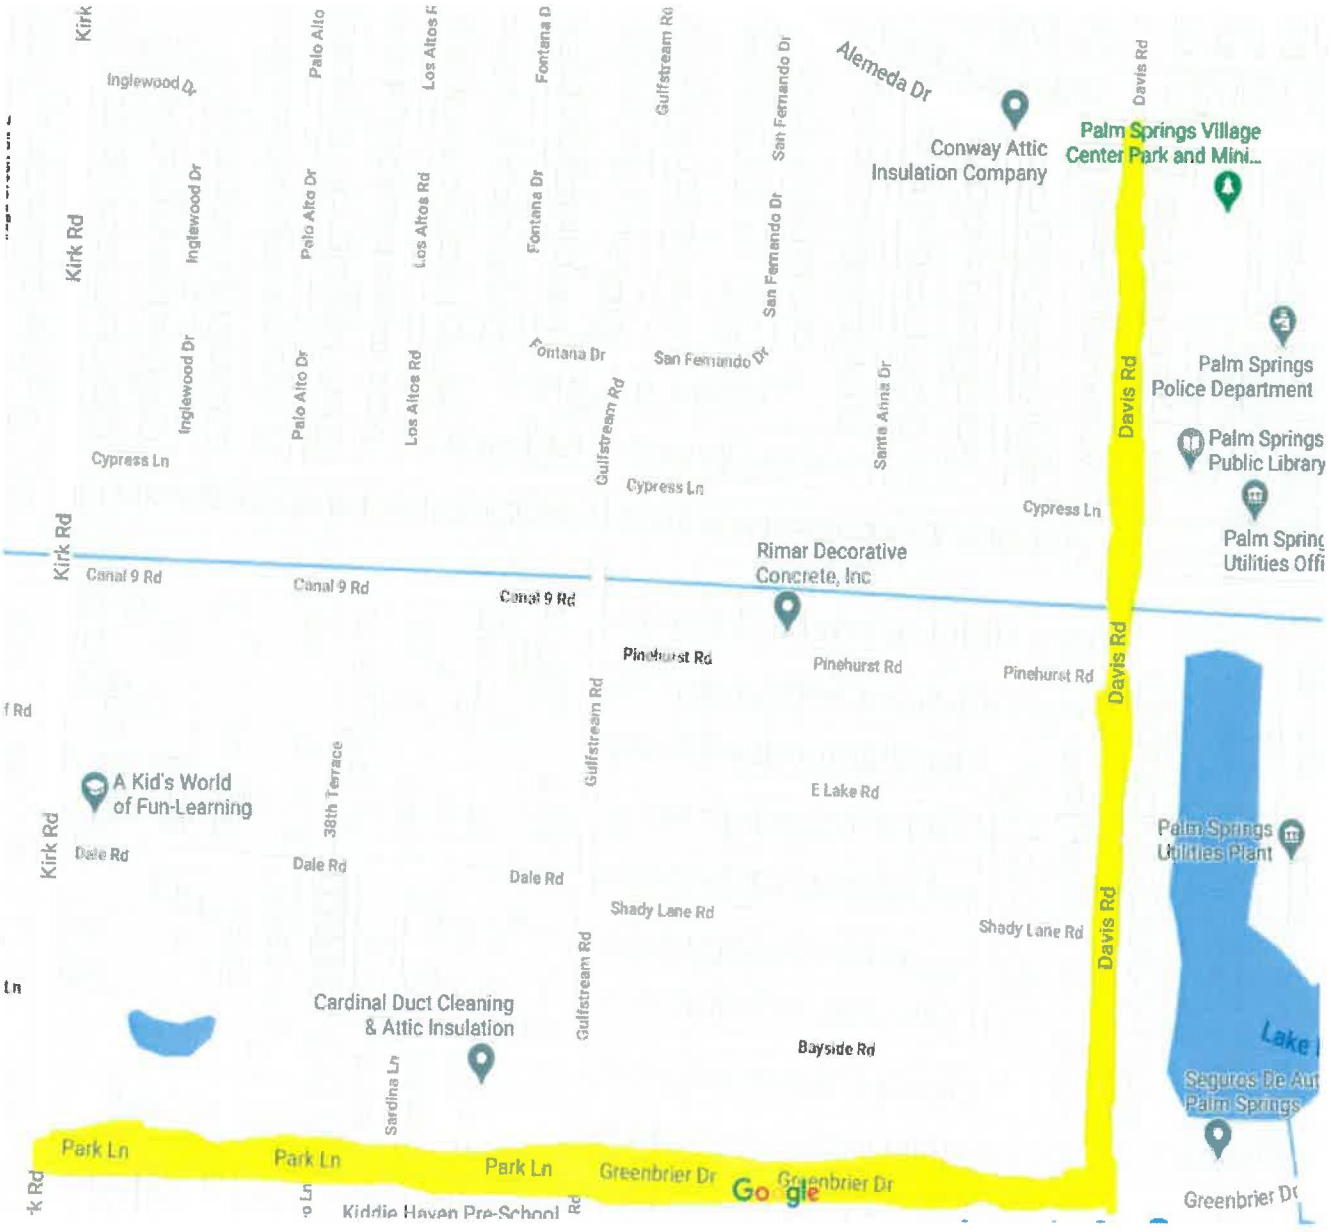
6. Will fees be charged for the use of the facility? (N/A for code enforcement) If yes, provide details on the nature and amount of the fees:

No

7. Is the facility leased, or anticipated to be leased, by users other than the applicant? (N/A for code enforcement) If yes, identify users and lease arrangements:

No

8. Will assessments be levied on real property to recover project capital costs? (N/A for code enforcement) If yes, explain:



No

VII. REQUIRED ATTACHMENTS

	Document	Attached
1.	Street map showing location of project	**Attachment 1**
2.	Plat Map of project site	**Attachment 2**
3.	Project preliminary design	**Attachment 3**
4.	Project Schedule	**Attachment 4**
5.	Project Budget	**Attachment 5**
6.	Documentation of availability of non-CDBG funds	**Attachment 6**
7.	Construction cost estimate	**Attachment 7**
8.	Photos of proposed area	**Attachment 8**

THE STRATEGIC PLANNING SECTION WILL PROVIDE TECHNICAL ASSISTANCE, IF NEEDED. IF YOU HAVE ANY QUESTIONS REGARDING THIS APPLICATION, PLEASE CONTACT THE SECTION AT (561) 233-3623 OR EMAIL msklar@pbcgov.org.

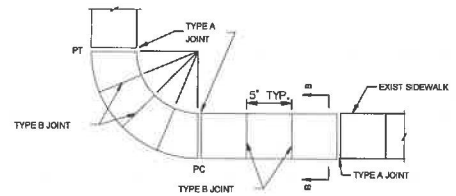
BID SET



VILLAGE OF PALM SPRINGS
PARK CONNECTOR PATHWAYS PHASE 2A

SHEET:
LC-100

UTILITY POLE IN SIDEWALK DETAIL

SCALE: NONE

NOTES:

1. SIDEWALKS TO BE PORTLAND CEMENT CONCRETE, MIN 3000 PSI @ 28 DAYS.
2. BASE TO BE 8" COMPACTED SOIL (NO VAPOR BARRIER)
3. SIDEWALKS TO BE BROOMED FINISHED WITH EVEN DUSTLESS SURFACE.
4. SIDEWALKS SHALL CONFORM TO F.D.O.T. STANDARD INDEX NO. 310, LATEST REVISION

TABLE OF SIDEWALK JOINTS	
TYPE	LOCATION
TYPE A	P.C. & P.T. OF CURVES, JUNCTION OF EXIST. & NEW SIDEWALK
TYPE B	5'-0" CENTER TO CENTER ON SIDEWALKS
TYPE C	WHERE SIDEWALK ABUTS CONCRETE CURB, DRIVEWAYS, & SIMILAR STRUCTURES

SIDEWALK CONSTRUCTION

SCALE: NONE

LEGEND

- RIGHT-OF-WAY LINE
- PROPOSED CONCRETE
- EXISTING SIDEWALK (TO BE REMOVED)
- EXISTING DRAINAGE PIPE — D —
- PROPOSED GROUND ELEVATION
- EXISTING GROUND ELEVATION
- FLOW DIRECTION
- EXISTING STREET SIGN

GENERAL NOTES

1. REGULATIONS - ALL CONSTRUCTION SHALL BE DONE IN A WORKMAN LIKE MANNER AND SHALL CONFORM TO ALL VILLAGE OF PALM SPRINGS, STATE AND FEDERAL REGULATIONS AND OR CODES INCLUDING BUT NOT LIMITED TO THE CURRENT PALM BEACH COUNTY AND FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) LATEST REGULATIONS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL PERMITS AND LICENSES TO BEGIN WORK AND PAY ALL REQUIRED FEES ASSOCIATED WITH SAME.
2. STANDARD DETAILS AND SPECIFICATIONS - STATE, COUNTY AND VILLAGE OF PALM SPRINGS CONSTRUCTION DETAILS AND SPECIFICATIONS SHALL BE APPLIED TO THE APPROPRIATE AREAS OF THE PLANS, GENERALLY DIFFERENTIATED BY PROPERTY OWNERSHIP LINES OR INTENT OF THE DESIGN. ANY CONFLICTS BETWEEN GOVERNING STANDARDS SHALL BE BROUGHT TO THE ATTENTION OF THE ENGINEER.
3. DATUM - UNLESS OTHERWISE NOTED, ELEVATIONS SHOWN HEREON REFER TO NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD 88). HORIZONTAL DATA SHOWN HEREON REFERS TO N.A.D. 83 FLORIDA STATE PLANE EAST ZONE. ANY DISCREPANCY SHALL BE BROUGHT TO THE ATTENTION OF THE ENGINEER BEFORE CONSTRUCTION BEGINS OR RESUMES.
4. CHANGES - ALL CHANGES SHALL BE SUBMITTED IN WRITING AND APPROVED PRIOR TO CONSTRUCTION.
5. GUARANTEE - THE CONTRACTOR SHALL GUARANTEE ALL WORK AND MATERIAL FOR A PERIOD OF ONE YEAR FROM THE DATE OF PROJECT ACCEPTANCE, DURING WHICH ALL FAULTY CONSTRUCTION AND/OR MATERIAL SHALL BE REPLACED AT THE CONTRACTORS EXPENSE.
6. SHOP DRAWING - CONTRACTOR TO SUBMIT SHOP DRAWINGS TO ENGINEER FOR APPROVAL BEFORE CONSTRUCTION.
7. RESPONSIBILITY - THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL EXISTING UTILITIES WHETHER SHOWN ON THE PLANS OR NOT. THE CONTRACTOR SHALL VERIFY THE LOCATION, SIZE AND MATERIAL OF ALL UTILITIES PRIOR TO THE COMMENCEMENT OF CONSTRUCTION. ANY DISCREPANCIES SHALL BE BROUGHT TO THE ATTENTION OF THE ENGINEER. THE APPROPRIATE UTILITY COMPANY SHALL BE NOTIFIED PRIOR TO ANY CONSTRUCTION IN OR AROUND THAT UTILITY. CALL "SUNSHINE STATE ONE CALL" AT 1-800-432-4770 PRIOR TO ANY EXCAVATION. THE ENGINEER AND OWNER SHALL BE HELD HARMLESS AGAINST ALL CLAIMS OR DAMAGES.
8. RESTORATION - THE CONTRACTOR SHALL IMMEDIATELY REPAIR AND RESTORE EXISTING SITE FEATURES INCLUDING PAVEMENT, DRIVEWAYS, FENCES, IRRIGATION, TRAFFIC CONTROL DEVICES, MAILBOXES AND PROPERTY CORNERS DAMAGED AS A RESULT OF CONSTRUCTION ACTIVITIES. THE REPAIR AND RESTORATION SHALL CONFORM TO APPLICABLE STANDARDS AS GOVERNED.

CLEARING AND GRUBBING NOTES

1. CONTRACTOR SHALL REMOVE/RELOCATE TREES INDICATED ON TREE DISPOSITION PLAN, REFER TO LANDSCAPE PLAN FOR ADDITIONAL INFORMATION.
2. GRUBBING - ALL STUMPS, ROOTS, BURIED LOGS OR OTHER UNSUITABLE MATERIAL WITHIN THE LIMITS OF SIDEWALK CONSTRUCTION SHALL BE REMOVED TO A DEPTH OF 30" BELOW FINISHED PAVEMENT ELEVATION AND REPLACED WITH CLEAN FILL.
3. PROTECTION - THE CONTRACTOR SHALL BE RESPONSIBLE TO PROTECT ALL EXISTING BUILDINGS, UTILITIES, STRUCTURES THAT ARE ABOVE OR BELOW GROUND AND SHALL HOLD THE ENGINEER AND OWNER HARMLESS AGAINST ALL CLAIMS OR DAMAGES.

DEMOLITION NOTES

1. CLEARING - CLEARING SHALL BE LIMITED TO THE CONSTRUCTION AREA AND/OR AS DIRECTED BY THE ENGINEER OR VILLAGE OF PALM SPRINGS
2. DEBRIS REMOVAL - ALL DEBRIS SHALL BE REMOVED FROM THE SITE AND LEGALLY DISPOSED. ANY MATERIAL RETAINED ON-SITE FOR MORE THAN 30 DAYS SHALL BE STORED IN CONTAINERS APPROVED BY THE ENGINEER.

SIDEWALK NOTES

1. GRADING - SIDEWALK CROSS SLOPE NOT TO EXCEED 2%.
2. ELEVATIONS SHOWN AN PLAN ARE PROPOSED FINISH GRADE.
3. ADA DETECTABLE SURFACE SHELL WARNINGS TO BE INSTALLED PER THE ADA STANDARDS OF ACCESSIBLE DESIGN.
4. ADA DETECTABLE WARNING SURFACE SHALL BE DARK GRAY ARMOR-TILE OR APPROVED EQUAL.
5. REFERENCE HARDSCAPE PLANS FOR CROSSWALK AND SIDEWALK DESIGN DETAILS.
6. SIDEWALK THICKNESS SHALL BE 6" DEPTH CONCRETE AT DRIVEWAYS AND ROADWAY CROSSINGS AND 4" DEPTH IN LANDSCAPE AREAS.

HYDRANT RELOCATION NOTES:

1. CONTRACTOR SHALL UTILIZE EXISTING GATE VALVETO SHUT OFF WATER FOR FIRE HYDRANTRELOCATION

LANDSCAPE NOTES:

1. STRUCTURAL ELEMENTS AND HARDSCAPE FEATURES INDICATED ON LANDSCAPE PLANS ARE FOR INFORMATIONAL PURPOSES ONLY. LANDSCAPE PLANS ARE TO BE UTILIZED FOR LOCATION OF LIVING PLANT MATERIAL ONLY. LANDSCAPE PLANS SHOULD NOT BE UTILIZED FOR STAKING AND LAYOUT OR LOCATION OF ANY STRUCTURAL SITE FEATURES INCLUDING BUT NOT LIMITED TO: BUILDINGS, SIGNAGE, PATHWAYS, EASEMENTS, BERMS, WALL FENCES, UTILITIES OR ROADWAYS.
2. CONTRACTOR SHALL ACQUIRE ALL APPLICABLE FEDERAL, STATE, LOCAL, JURISDICTIONAL OR UTILITY COMPANY PERMITS REQUIRED PRIOR TO REMOVAL, RELOCATION, AND/OR INSTALLATION OF LANDSCAPE MATERIALS INDICATED WITHIN PLAN DOCUMENTS. THE CONTRACTOR SHALL HAVE PERMITS *IN HAND* PRIOR TO STARTING WORK. LANDSCAPE ARCHITECT SHALL BEAR NO RESPONSIBILITY FOR WORK PERFORMED WITHOUT PERMITTED DRAWINGS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL CHANGES TO THE WORK, AT NO ADDITIONAL COST TO THE OWNER, AS A RESULT OF UNAUTHORIZED WORK PRIOR TO RECEIPT OF PERMIT.
3. TREES SHOWN ON THIS PLAN ARE FOR GRAPHIC REPRESENTATION ONLY. TREE SPACING IS BASED ON DESIGN REQUIREMENTS AND THE TREES SHOWN ON THESE PLANS ATTEMPT TO ACCOMPLISH THAT SPACING WHILE MAINTAINING THE REQUIRED SETBACKS FROM UTILITIES. IN THE EVENT OF A CONFLICT, AFFECTED PLANT MATERIAL SHALL BE FIELD ADJUSTED WITH THE APPROVAL OF THE LANDSCAPE ARCHITECT TO AVOID CONFLICTS WITH THE WITH EXISTING AND PROPOSED UTILITIES, LIGHT POLES, DRAINAGE STRUCTURES OR LINES, LAKE MAINTENANCE EASEMENTS OR OTHER AFFECTED SITE FEATURES.
4. ANY PLANTING WITHIN THE SIGHT TRIANGLES SHALL PROVIDE UNOBSTRUCTED VIEWS AT A LEVEL BETWEEN 30" AND 8' ABOVE THE PAVEMENT.
5. ALL UTILITY BOXES/ STRUCTURES TO BE SCREENED ON 3 SIDES W/ APPROVED PLANTING MATERIAL.
6. IRRIGATION IS REQUIRED PROVIDING 100% COVERAGE WITH A MAXIMUM OF 50% OVERLAP, AN AUTOMATIC RAIN SENSOR MUST BE INCLUDED.
7. ALL PLANT MATERIAL TO BE INSTALLED SHALL CONFORM TO FLORIDA POWER AND LIGHT'S (FPL'S) RIGHT TREE RIGHT PLACE GUIDELINES.
8. IN CASE OF DISCREPANCIES PLANS TAKE PRECEDENCE OVER PLANT LIST.
9. LANDSCAPE CONTRACTOR RESPONSIBLE FOR VERIFICATION OF ALL QUANTITIES PRIOR TO BIDDING.
10. REMOVAL OF EXISTING VEGETATION IS RESPONSIBILITY OF LANDSCAPE CONTRACTOR.
11. RELOCATION OF EXISTING VEGETATION IS RESPONSIBILITY OF LANDSCAPE CONTRACTOR, REFER TO SPECIFICATIONS FOR RELOCATION INSTRUCTIONS.
12. ALL PLANT MATERIAL TO BE FLORIDA GRADE #1 AT TIME OF INSTALLATION UNLESS OTHERWISE NOTED.

811 Know what's BELOW. CALL before you dig. Call 811 two business days before digging.

LANDSCAPE DETAILS

SHEET:
LP-500

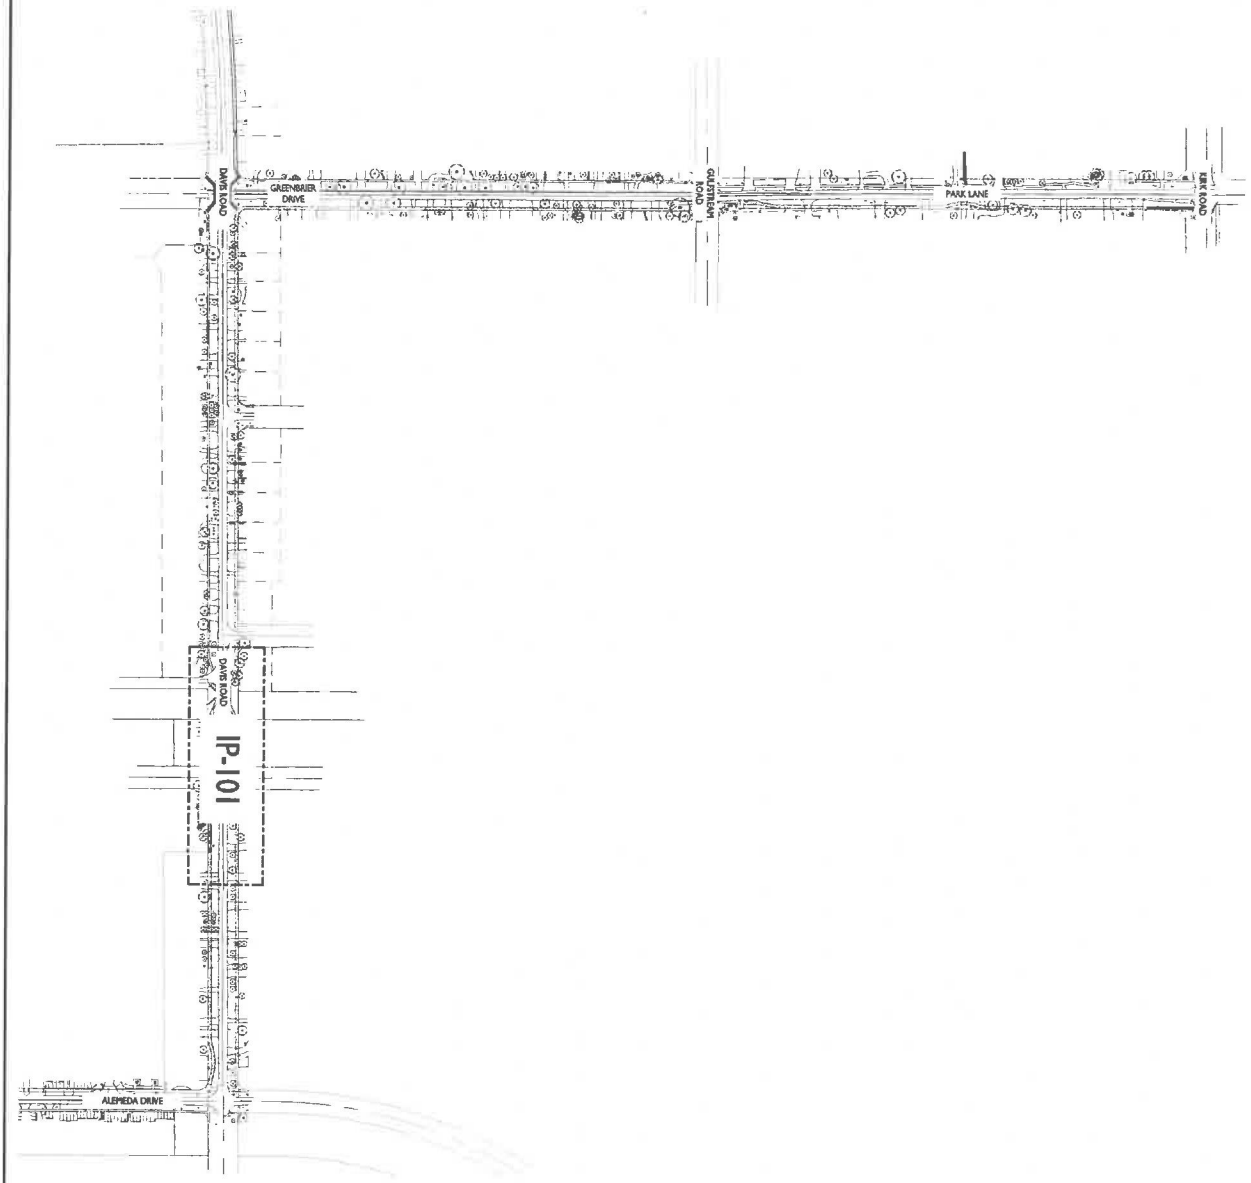
Landscape Planting - Part I, General

I. Description of Work
A. Provide all water for planting as shown on the drawings or hereafter heretofore specified in accordance with the requirements of the Contract Documents. Landscape Contractor shall be responsible for the complete and proper maintenance of the entire landscape installation as specified herein including replacement and restoration of plant materials and other items as directed by the Owner until acceptance and for the time agreed to in writing by the Owner. Landscape plants are not to be installed for sodding and beyond no dusk of planting hours. Landscape Contractor shall be responsible for the complete and proper maintenance of the entire landscape installation as specified herein including replacement and restoration of plant materials and other items as directed by the Owner until acceptance and for the time agreed to in writing by the Owner.
B. Three (3) sets of detailed shop drawings for sod installation on the excavation and completion of planting as indicated on the proposed drawings and specifications herein, shall be submitted to the Landscape Architect for review prior to the start of any planting operations.
C. All applicable federal, state and local permits shall be obtained prior to the removal, relocation, or installation of plant materials indicated on the plans.
D. All applicable federal, state and local permits shall be obtained prior to the removal, relocation, or installation of plant materials indicated on the plans.
E. Related Work: Work includes the direct additions and improvements of the date of substantial completion.
II. Qualifications
A. Landscape Contractor shall have a minimum of five years experience specializing in the type of work. All corrections and their
B. Landscape Contractor shall be licensed and shall carry any necessary insurance and shall protect the Landscape Architect and Owner against all liabilities, claims or
Compensation insurance.
IV. Requirements of Regulatory Agencies
A. Landscape Contractor shall comply with all requirements of the governing agencies. Landscape Contractor shall be responsible for the installation of all plant materials
B. Landscape Contractor shall be responsible for the installation of all plant materials
V. Submittals
A. Prior to acceptance of the material, inspection by owner's Representative or Landscape Architect, Landscape Contractor shall submit to the Landscape Architect
B. Submit the Owner's Representative a list of all sources for all materials specified, including soils, and amendments and fertilizer materials. Comply
C. Nursery Certificates: Submit copies of the nursery's certificate of inspection as required by authorities having jurisdiction.
D. Soil Analysis: Submit soil analysis, including the following:
1. Provide a particle size analysis, including the following percentages of materials:

ASTM D422	
Very Coarse Sand	1-2 mm
Coarse Sand	0.5-1 mm
Medium Sand	0.25-0.5 mm
Fine Sand	0.13-0.25 mm
Very fine sand	0.05-0.1 mm
Silt	0.002-0.05 mm
Clay	smaller than 0.002

2. Provide soil analysis, including the following:
a. pH and acidity/alkalinity
b. Percentage of organic content by oven-dried weight
c. Recommendations for soil preparation, including the application rates of nitrogen, phosphorous, magnesium, iron, zinc and calcium. Nutrient base shall include the blending taxonomy
d. Sodium salt by electrical conductivity in d.s./L and water, sample measured in millimho per cm.
E. Attached Hardscape: Submit the manufacturer's data sheets for each of the following:
F. Attached for treatment: To the Owner for maintenance and control of undesirable plants through out the landscape maintenance instructions to the Landscape
G. Utility Verification
A. Prior to excavation, verify and locate all underground utility lines in the area of the work. The contractor shall be responsible for all damage resulting from neglect or failure to comply with this requirement.

Part 2 Materials



I. Plants
A. Plants shall be true to species and variety specified and normally grown in accordance with good horticultural practices under climatic conditions similar to those in the locality of the project for at least two years. They shall have been freshly dug
1. All plants shall be grown and harvested in accordance with the American Standard for Nursery Stock and Florida Department of Agriculture Grades and Standards for
2. All plants shall be grown and harvested in accordance with the American Standard for Nursery Stock and Florida Department of Agriculture Grades and Standards for
3. Unless approved by the landscape architect, plants shall have been grown at a latitude not more than 200 feet (60 meters) north or south of the latitude of the project
a. The provenance of the plant is to be documented by the corresponding with the latitude and cold hardiness zone of the planting location.
B. Landscape Contractor shall furnish container grown or balled and burlapped or fabric bag grown stock in quantities sufficient to complete all planting as shown and
1. Trees with multiple tandem, unless specified, will be rejected. Trees with a damaged or crooked leader, bark abrasions, sunscald, disfiguring knots, insect damage, or
C. Container Grown: Grown in containers long enough for roots to have developed sufficient strength to hold their soil together firmly and remain in the container while
1. Container measurements shall be taken on the trunk 150 mm (6 in) above the natural ground line for trees up to and including 100 mm (4 in) in caliber, and 300 mm (12
2. Balled and burlapped (B&B) trees shall be furnished with firm, natural balls of soil measuring not less than the diameter and depth recommended in the latest
3. Bare Root: Deciduous trees and shrubs may be furnished bare root during the dormant season if the method is approved by the landscape architect before
D. Substitutions: Contractor will not be allowed to substitute plants other than those specified in the plant list without written approval of the Landscape Architect.
E. Plant Quality: Trees and shrubs shall conform to the measurements specified in the plant list. They shall be sound, healthy, vigorous, well-branched and free of
1. Trees with multiple leaders, unless specified, will be rejected. Trees with a damaged or crooked leader, bark abrasions, sunscald, disfiguring knots, insect damage, or
F. Container Grown: Grown in containers long enough for roots to have developed sufficient strength to hold their soil together firmly and remain in the container while being handled in connection with planting operations, but not restricted to the following:
1. Container measurements shall be taken on the trunk 150 mm (6 in) above the natural ground line for trees up to and including 100 mm (4 in) in caliber, and 300 mm (12 in) above the natural ground line for trees over 100 mm (4 in) in caliber.
2. Balled and burlapped (B&B) trees shall be furnished with firm, natural balls of soil measuring not less than the diameter and depth recommended in the latest edition of the Florida Department of Agriculture Grades and Standards for Nursery Stock.
3. Bare Root: Deciduous trees and shrubs may be furnished bare root during the dormant season if the method is approved by the landscape architect before planting operations begin.
G. Container Plants: In containers shall be of appropriate size for the container in accordance with the latest edition of the Florida Department of Agriculture Grades and Standards for Nursery Stock.
1. Trees designated to be trained or contained plants shall conform to the American Standard for Nursery Stock.
2. Balled and burlapped shall not be dug or heeled-in for sale unless a soil ball consist of at least 4.5 smaller than nursery grown plants. When
3. Container grown shall be established in containers for not less than six months nor more than two years. The root system shall be sufficiently developed to hold its soil together firmly and remain in the container while being handled in connection with planting operations, but not restricted to the following:
H. Substitutions: If specified, are to be supplied to plants in full but immediately before digging or as required by the landscape architect. Anti-desiccants are to be
I. Balled and burlapped (B&B) shall be properly dug with firm, natural balls of soil measuring not less than the diameter and depth recommended in the latest edition of the Florida Department of Agriculture Grades and Standards for Nursery Plants. Balls shall be firmly wrapped with synthetic, natural, or treated burlap, a nylon web. All synthetic
1. Trees designated B&B shall be properly dug with firm, natural balls of soil measuring not less than the diameter and depth recommended in the latest edition of the Florida Department of Agriculture Grades and Standards for Nursery Plants. Balls shall be firmly wrapped with synthetic, natural, or treated burlap, a nylon web. All synthetic
J. Container Plants
1. Container plants shall have been grown in the container long enough to have established roots throughout the growing medium.
K. Palms
1. Palms designated to be moved or contained plants shall conform to the American Standard for Nursery Stock.
2. Balled and burlapped shall not be dug or heeled-in for sale unless a soil ball consist of at least 4.5 smaller than nursery grown plants. When specified or approved, shall be burlapped at the discretion of the Landscape Architect before the Owner and shall be provided at no additional cost.
L. Specimen Trees: Specimen trees are those trees designated as specimens on the drawings, these plants shall be Florida Fancy.
M. Palms
1. Field Collected Palms shall be given their a certified weed.
2. All palm specimen except those palmetto shall have roots adequately wrapped before transporting.
3. Beach Sand or other sandy soils: All B&B plants shall be Florida Fancy.
4. Pot bound trunk palms, metal shall have clean trunks firmly attached to the pot's trunk. For palms trunk palms, trunk shall be clean and free from defect and scars.
N. Sod: The Contractor shall test all pallets as indicated to prevent infestation by the palmetto weevil.
1. Sod area to be grubbed of or other. Sod shall be born or mixed, grown with a firm, full texture and good root development. Sod shall be thick, healthy and free from
2. Sod shall be sufficiently thick to insure a dense stand of living grass. Sod shall be two, mesh, and strong net at the time of planting. Pieces shall be uniform in
3. Sodding shall be at once not otherwise identified and shall include the area beyond the property line to the edge of pavement and/or curb.
4. Immediately after harvesting plants, protect from drying and damage and shall not be stored or transported in a manner that will damage the plant.
O. Timing: Sodding shall be at once not otherwise identified and shall include the area beyond the property line to the edge of pavement and/or curb.
P. Transportation and Storage of Plant Materials
1. Protect plant material from dry out and damage and shall not be stored or transported in a manner that will damage the plant.
2. Protect material shall not be dug or heeled-in for sale unless a soil ball consist of at least 4.5 smaller than nursery grown plants. When
3. Immediately after harvesting plants, protect from drying and damage and shall not be stored or transported in a manner that will damage the plant.
4. Plants must be protected at all times from sun or drying winds. Those that cannot be planted immediately upon delivery must be heeled in and shall be well protected with soil, with mulch or rope at any time as to damage the bark or break branches. Plants shall in the field and handled with suitable support of the soil ball to avoid damaging it.

Q. Mechanized Tree Spade Requirements
Trees may be moved and planted with an approved mechanized tree spade. The tree spade shall move trees limited by the maximum size allowed for a similar B&B tree as listed in Florida Grades and Standards for Nursery Stock or the manufacturer's maximum size limitations according to the tree spade being used.
1. Tree spade shall be operated by a crew trained and experienced in the use of the tree spade being used.
2. Trees shall be moved and planted with an approved mechanical tree spade. The tree spade shall move trees limited by the maximum size allowed for a similar B&B tree as listed in Florida Grades and Standards for Nursery Stock or the manufacturer's maximum size limitations according to the tree spade being used.
3. Tree spade shall be operated by a crew trained and experienced in the use of the tree spade being used.
4. Trees shall be moved and planted with an approved mechanical tree spade. The tree spade shall move trees limited by the maximum size allowed for a similar B&B tree as listed in Florida Grades and Standards for Nursery Stock or the manufacturer's maximum size limitations according to the tree spade being used.
5. Tree spade shall be operated by a crew trained and experienced in the use of the tree spade being used.
R. Materials for Planting
A. Topsoil: Topsoil shall be natural, fertile, friable soil, typical of productive soils in the vicinity, obtained from well-drained arable areas, free from subsoil, clay lumps, brush, weeds and other litter and foreign substances. Topsoil shall not contain stones or other foreign material larger than 25 mm (1 inch) in diameter, and 1½" in length, width or thickness. Topsoil shall not be obtained from bogs or marshes.
B. Planting Soil: Planting soil shall be a mixture of topsoil, sand and soil conditioners as specified herein. Planting soil shall be free of subsoil, clay lumps, brush, weeds, and other litter and foreign substances. Planting soil shall not contain stones or other foreign material larger than 25 mm (1 inch) in diameter and 1½" in length, width or thickness. Planting soil shall not be obtained from bogs or marshes.
C. Gravel Mulch: Use only where specifically indicated on the plans of the size and type shown. Unless otherwise specified it shall be washed river gravel, free of dirt and organic matter, and shall be compliant with building or other approved
D. Root Barrier: Root barrier shall be installed where indicated on the plans. Root barrier shall be a polyethylene material, 0.5 mm (20 mil) thick, 610 mm (24 inches) deep, and shall be compliant with all applicable regulations. Root barrier shall be Deep Root 600-2 or approved equal.
E. Fertilizer: Agricultural fertilizer of a formula indicated by the soil test. Fertilizers shall be organic, slow-release compositions wherever applicable. Submit manufacturer
F. Planting Mix
A. Planting Mix
1. Planting Mix for Trees, Shrubs, Groundcovers and Vines: Consist with landscape architect for appropriate mixture.
Components by Volume
Percent by Volume
Peat 25%
Coarse Sand 25%
Planting Soil 50%
B. Place planting soil mixture in accordance with the planting notes and details on the drawings.
C. Prior to beginning the mixing process, submit a 1-kg (2-lb) sample of the proposed mix with soil test results that indicate the pH, nutrients and mineral
D. During the mixing process but prior to installing the mix, submit a 1-kg (2-lb) sample for each 200 cubic meters (250 cubic yards) of planting mix. Each sample from
E. Mixing: Mix planting soil components off site. Mix soil test results for approval. In the event that the soil reports do not meet the required particle size distribution, revise and resubmit a revised
F. Add any other soil amendments or fertilizer indicated by the soil test results at the time of mixing.
G. Protect the planting mix from erosion prior to installation.

Part 3 Execution

I. Excavation of Planted Areas
A. Locations for planting shall be clearly staked and flagged prior to excavation. Layout and mark all subsurface utility lines. Approval of the stakeout by the
B. Trees, shrubs, and groundcover beds are to be excavated to the depth and widths indicated on the landscape plan detail drawings. If the planting area is not
1. The sides of the excavation of all planting holes shall be sloped at a 45 degrees. The bottom of all hole shall slope parallel to the proposed grades or sloped any
2. Remove all rock, subsoil, rubble, and debris from excavation to the depth and width as shown on the drawings. Do not excavate compacted subgrade of adjacent pavement or
3. Where trees are specified in individual holes in areas of good soil that is to remain in place and/or to receive a transplant and the top 152mm (6 in.) layer, excavate
C. For trees and shrubs planted in individual holes in areas of good soil that is to remain in place and/or to receive a transplant and the top 152mm (6 in.) layer, excavate
1. Dig the hole to the depth of the root ball and to widths shown on the drawing. Slope the sides of the excavation at a 45 degree angle up and away from the bottom of the
2. Scarify the bottom of the hole to a depth of 4 inches.
3. Do not proceed with the installation of planting mix until all utility work in the area has been completed.
D. Obstructions Encountered: Should rock, underground construction work, utilities, tree roots, or other obstructions are encountered in the excavation of planting beds, alternate locations for
E. Water soil amendments or fertilizer indicated by the soil test results at the time of mixing.
F. Protect the planting mix from erosion prior to installation

II. Installation of Plants
A. Prior to the installation of the planting mix, install water-conservation irrigation such as drip, bubbler irrigation, or moisture sensors as shown on the drawings.
B. The landscape architect shall monitor the preparation of subgrade prior to the installation of planting mix.
C. Do not proceed with the installation of planting mix until all utility work in the area has been completed.
D. Obstructions Encountered: Should rock, underground construction work, utilities, tree roots, or other obstructions are encountered in the excavation of planting beds, alternate locations for
E. Water soil amendments or fertilizer indicated by the soil test results at the time of mixing.
F. Install the remaining planting soil components in accordance with the following specifications. Protect the base from traffic, DO NOT allow the filled
1. Subgrade to become compacted.
a. Scarify the subgrade to a depth of 50 to 75 mm (2 to 3 in.) with a shredder or other suitable device.
2. Immediately install the remaining topsoil or planting mix in accordance with the following specifications. Protect the base from traffic, DO NOT allow the filled
3. Compact each lift sufficiently to reduce settling but not enough to prevent the movement of water and to aerate roots through the soil. The soil mix should feel
a. Fill the hole with water and let drain completely. Repeat the hole with water and let drain a little of fail in the water level.
b. If in the event that the water does not drain within 24 hours, fill the soil to a depth required to break up the compaction.
c. Fill the hole with water and let drain completely. Repeat the hole with water and let drain a little of fail in the water level.
d. The landscape architect shall determine the exact for, and the number and location of percolation tests based on observed field conditions of the soil.
4. Provide adequate equipment to achieve consistent and uniform compaction of the soils. Use the smallest equipment that can reasonably perform the task of
5. Add trees, shrubs, fertilizer, and other items as shown on the drawings and in accordance with the following specifications.
a. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
b. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
c. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
d. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
e. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
f. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
g. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
h. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
i. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
j. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
k. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
l. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
m. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
n. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
o. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.
p. Place amendments in the amounts specified in the planting mix. Incorporate and distribute uniformly throughout the planting mix.

IRRIGATION NOTES

SYSTEM DESCRIPTION

TIE INTO EXISTING SYSTEM AT VILLAGE CENTER.

WORK

THE IRRIGATION CONTRACTOR SHALL BE CERTIFIED AS A CERTIFIED IRRIGATION CONTRACTOR BY THE IRRIGATION ASSOCIATION. SUBMIT CERTIFICATION TO THE OWNER'S REPRESENTATIVE PRIOR TO PRE-CONSTRUCTION MEETING.

FOLLOW THESE NOTES IN ADDITION TO CITY AND COUNTY REQUIREMENTS AND DESIGN STANDARDS. IMMEDIATELY NOTIFY THE OWNER'S REPRESENTATIVE OF ANY CONFLICTS BETWEEN THE PLANS AND CITY/COUNTY REQUIREMENTS.

VERIFY SITE CONDITIONS BEFORE BIDDING. INSTALLATIONS MAY REQUIRE ADDITIONAL EQUIPMENT FOR SPECIFIC SITE CONDITIONS. INCLUDE ALL COSTS TO COMPLETE THE SCOPE OF WORK IN BID.

INCLUDE ALL REQUIRED PERMIT FEES IN BID. OBTAIN ALL REQUIRED PERMITS AT NO ADDITIONAL CHARGE.

IMMEDIATELY REPAIR AND/OR REPLACE ANY ITEM DAMAGED BY CONSTRUCTION OF THE IRRIGATION SYSTEM AT NO CHARGE.

GUARANTEE MATERIALS AND WORKMANSHIP FOR ONE-YEAR FROM FINAL ACCEPTANCE. CORRECT DEFICIENCIES AT NO CHARGE.

INSTALLATIONS

PROVIDE MANUFACTURER CUT SHEETS FOR EVERY ITEM TO BE INSTALLED FOR APPROVAL.

PROVIDE ONLY NEW EQUIPMENT AND AS SPECIFIED WITHIN THE PLANS.

ELECTRICAL SERVICE CONNECTIONS AND REQUIREMENTS INDICATED WITHIN THE PLANS ARE PRIOR TO ELECTRICAL PROVIDERS DESIGN. COORDINATE FINAL ELECTRICAL DESIGN REQUIREMENTS WITH THE ELECTRICAL PROVIDER PRIOR TO BID. PROVIDE ANY ADDITIONAL REQUIRED EQUIPMENT AT NO ADDITIONAL COST.

ELECTRICAL SERVICE CONNECTIONS AND ALL OTHER ELECTRICAL WORK IS TO COMPLY WITH THE NATIONAL ELECTRICAL CODE AND ANY OTHER APPLICABLE ELECTRICAL CODES, LAWS AND REGULATIONS. COORDINATE ELECTRICAL SERVICE CONNECTION WITH THE ELECTRICAL PROVIDER. PERFORM ELECTRICAL SERVICE CONNECTIONS BY A LICENSED ELECTRICIAN.

CONTROLLER AND PUMP STATION GROUNDING: 10 OHMS RESISTANCE MAXIMUM. PROVIDE CERTIFICATION FROM THE ELECTRICIAN SHOWING THE DATE OF TEST, CONTROLLER LOCATION/IDENTIFICATION AND TEST RESULTS.

COORDINATE WATER METER INSTALLATION WITH THE WATER PROVIDER. PROVIDE WATER METER, TAP AND INSTALLATION PER WATER PROVIDERS REQUIREMENTS.

PLAN ADJUSTMENTS:

PLAN LAYOUT IS SCHEMATIC FOR GRAPHIC CLARITY. INSTALL IN PERVIOUS AREAS, EXCEPT WHERE SLEEVING IS SHOWN.

AS-BUILT PLANS:

PREPARE AS-BUILT PLANS AS THE WORK PROGRESSES, INDICATING THE ACTUAL LOCATION OF EQUIPMENT. KEEP THE AS-BUILT PLAN SET ON SITE DURING CONSTRUCTION. SUBMIT FINAL AS-BUILT TO THE OWNER'S REPRESENTATIVE.

TRENCHING AND PIPE INSTALLATION:

INSTALL PIPE ON A STABLE FOUNDATION. IF NECESSARY, REMOVE UNSTABLE SOIL OR MUCK FROM THE TRENCH BOTTOM AND INSTALL A 6 INCH FOUNDATION OF COMPACTED CLASS 1 BEDDING MATERIAL. REMOVE WATER FROM THE TRENCH BEFORE BACKFILLING. EXCAVATE 6 INCHES BELOW THE PIPE BOTTOM WHEN TRENCHING THROUGH ROCK AND INSTALL CLASS 1 BEDDING MATERIAL. BACKFILL TRENCHES AND COMPACT TO FINISHED GRADE WITH LIGHTING ROLLERS OF DEBRIS, ROOTS, ROCKS OR OBJECTS THAT COULD DAMAGE THE PIPE. TUNNEL UNDER TREE ROOTS.

MAKE PVC SOLVENT WELD CONNECTIONS IN ACCORDANCE WITH ASTM D2855. APPLY PURPLE COLORED PVC PRIMER IN ACCORDANCE WITH ASTM F656 APPLY PVC CEMENT IN ACCORDANCE WITH ASTM D2564.

FLUSHING:

PRIOR TO INSTALLATION OF THE VALVES, FLUSH MAINLINES FOR A MINIMUM OF 10 MINUTES OR UNTIL LINES ARE CLEAR OF DEBRIS, WHICHEVER IS LONGER.

PRIOR TO INSTALLATION OF THE HEADS, FLUSH LATERAL LINES FOR A MINIMUM OF 10 MINUTES OR UNTIL LINES ARE CLEAR OF DEBRIS, WHICHEVER IS LONGER.

MAINLINE LEAK TEST:

- PERFORM MAINLINE LEAK TEST AT 100 PSI FOR 2 HOURS.
- PROVIDE AND OPERATE TEST EQUIPMENT.
- BEFORE TESTING, THE MAINLINE MUST BE COMPLETE. NO CUTTING OR MODIFICATIONS ALLOWED AFTER SUCCESSFUL COMPLETION OF THE LEAK TEST.
- BEFORE TESTING, ISOLATE THE MAINLINE, FILL WITH WATER, AND PRESSURIZE TO THE TEST PRESSURE FOR 24 HOURS TO REMOVE AIR FROM THE MAINLINE AND CORRECT LEAKS.

DETERMINE THE MAXIMUM ALLOWABLE LEAKAGE FOR GASKETTED PVC BY THE FOLLOWING FORMULA:

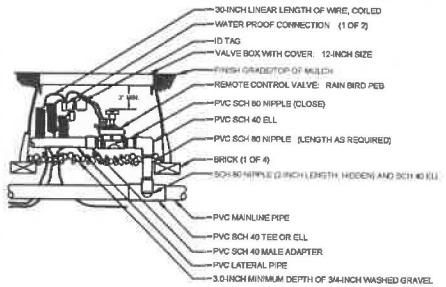
$L = (ND)(P)/7400$

L = ALLOWABLE LEAKAGE IN GALLONS PER HOUR, THE MAXIMUM QUANTITY OF WATER ALLOWED TO BE PUMPED INTO THE MAINLINE TO MAINTAIN THE TEST PRESSURE.
N = NUMBER OF JOINTS
D = NOMINAL PIPE DIAMETER IN INCHES.
P = SQUARE ROOT OF THE TEST PRESSURE IN PSI.

THERE IS NO ALLOWABLE LEAKAGE IN SOLVENT WELDED PVC MAINLINE.

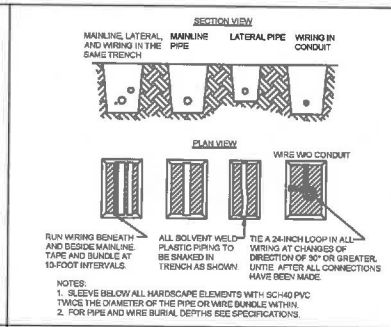
IF LEAKAGE EXCEEDS THIS LIMIT, CORRECT THE PROBLEM AND REPEAT LEAK TEST UNTIL SUCCESSFUL COMPLETION.

SUBMIT LEAK TEST RESULTS TO OWNER'S REPRESENTATIVE.



SPRINKLER HEAD PRESSURE TEST:

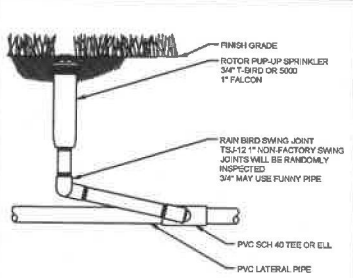
PERFORM PRESSURE TEST ON EACH ZONE AT THE FIRST AND LAST IRRIGATION HEADS.
THE MAXIMUM ALLOWABLE PRESSURE DEVIATION IS 10 PERCENT.



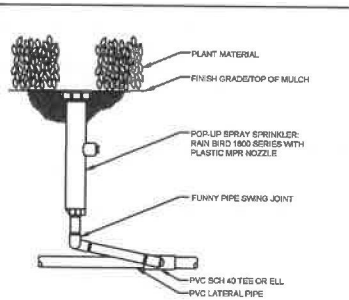
FINAL ACCEPTANCE

FINAL ACCEPTANCE OF THE IRRIGATION SYSTEM WILL BE GIVEN ONLY AFTER THE FOLLOWING HAS BEEN COMPLETED AND APPROVED:

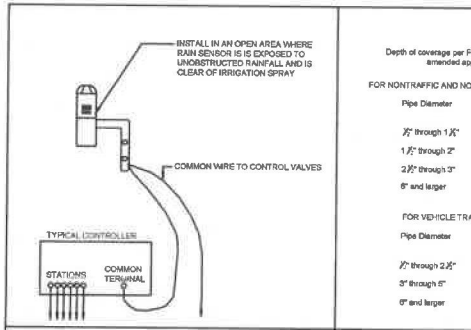
1. FINAL WALK THROUGH WITH THE OWNER'S REPRESENTATIVE AND CREATION OF FINAL PUNCH LIST
2. FINAL PUNCH LIST ITEMS HAVE BEEN CORRECTED AND ACCEPTED
3. COMPLETION AND ACCEPTANCE OF THE 'AS-BUILT' DRAWINGS
4. SUBMITTAL AND ACCEPTANCE OF THE GROUNDING TEST RESULTS.
5. SUBMITTAL AND ACCEPTANCE OF THE MAINLINE TEST



(1) REMOTE CONTROL VALVE



NOTES:
1. SLEEVE BELOW ALL HARDSCAPE ELEMENTS WITH SCH40 PVC TWICE THE DIAMETER OF THE PIPE OR WIRE BUNDLE WITHIN.
2. FOR PIPE AND WIRE BURIAL DEPTHS SEE SPECIFICATIONS.



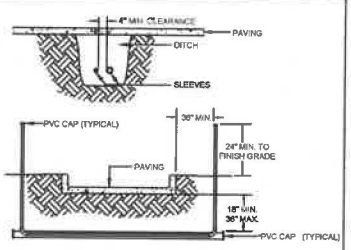
(2) PIPE & WIRE TRENCHING

(3) ROTOR POP-UP SPRINKLER

(4) POP-UP SPRAY SPRINKLER

(5) AUTOMATIC RAIN SENSOR

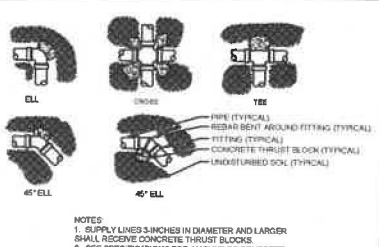
Depth of coverage per Florida Building Code amended appendix F



FOR NONTRAFFIC AND NONCULTIVATED AREAS:

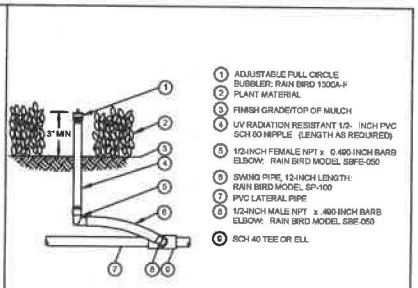
Pipe Diameter	Minimum depth of Cover
½" through 1 ¼"	6" - 12"
1 ½" through 2"	12" - 18"
2 ½" through 3"	18" - 24"
6" and larger	24" - 36"

FOR VEHICLE TRAFFIC AREAS:



Pipe Diameter	Minimum depth of Cover
½" through 2 ½"	18" - 24"
3" through 5"	24" - 30"
6" and larger	30" - 36"

(6) DEPTH OF COVERAGE



NOTES:
1. ALL PVC IRRIGATION SLEEVES TO BE SCH40 PIPE.
2. ALL JOINTS TO BE SOLVENT WELDED AND WATERTIGHT.
3. WHERE THERE IS MORE THAN ONE SLEEVE, EXTEND THE SMALLER SLEEVE TO 24-INCHES MINIMUM ABOVE FINISH GRADE.
4. MECHANICALLY TAMP TO 95% PROCTOR.

(7) SLEEVING

NOTES:
1. SUPPLY LINES 3-INCHES IN DIAMETER AND LARGER SHALL RECEIVE CONCRETE THRUST BLOCKS.
2. SEE SPECIFICATIONS FOR AMOUNT OF CONCRETE TO BE USED FOR THRUST BLOCK.

(8) THRUST BLOCKS

(9) FULL CIRCLE BUBBLERS

			Total	$37,859.00	
Construction Subtotal				**$824,553.44**	
CONTINGENCY				**$30,000.00**	
PROJECT TOTAL				**$854,553.44**	

Notes:

1. The above estimate was prepared by a Registered Landscape Architect licensed to practice in the State of Florida and is hereby certified as our professional opinion of probable costs.

2. The opinion of probable construction costs provided are made based on experience and represent our best judgement as Landscape Architects familiar with the construction industry. The firm cannot and does not guarantee that proposals, bids, or the construction cost will not vary from our opinions of probable costs. If the Owner wishes greater assurances of the construction cost, we recommend employment of an independent cost estimator.

RESOLUTION NO. 2019-07

A RESOLUTION OF THE VILLAGE OF PALM SPRINGS, FLORIDA, TO APPROVE PHASE II – WHICH INCLUDES CONSTRUCTION AND INSTALLATION OF THE IMPROVEMENTS SELECTION OF THE COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) PROJECT FOR FISCAL YEAR 2018-2019 BY PALM BEACH COUNTY HOUSING AND TO THE VILLAGE OF PALM SPRINGS TO BE USED TOWARDS THE PARK CONNECTOR PATHWAY SYSTEM WHICH INCLUDES 6.7 MILES OF INTERCONNECTED, ENHANCED SIDEWALKS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Village of Palm Springs ("Village") is a municipal corporation of the State of Florida with such power and authority as has been conferred upon it by the Florida Constitution and Chapter 166, Florida Statutes; and

WHEREAS, the Village has determined that it is in the best interest of the community to be used towards the Park Connector Pathway System Project ("Project"), which includes 6.7 miles of interconnected enhanced sidewalks in Village-wide pathway system that connects all eights (8) of the Village parks with a wide sidewalk enhanced with pedestrian amenities such as benches and water fountains; and

WHEREAS, Phase II has been approved within the Village's FY 2020 Capital Improvement Program (CIP) at an estimated cost of $750,000. It is estimated that the construction phase will take three (3) budget years and be completed in FY 2022. Phase II of this project would include construction and installation of the improvements with $300,000 Seeds of Hope funds (PBC has confirmed verbally that the Village will be the recipient of the Seeds of Hope funds next year), the Village's annual CDBG allocation (approximately $114,000 - dependent on approved federal funding) and either General Fund or Infrastructure Surtax dollars. The Village has also submitted a 2019 Recreational Trails Program grant application thru the Florida Department of Environmental Protection; and

WHEREAS, the Village is an eligible entitlement community for the Community Development Block Grant, pursuant to a signed Interlocal Agreement with Palm Beach County; and

WHEREAS, the Project falls within two of the three categories of eligible activities as defined by HUD, in as much as the Project:

(1) will benefit low and moderate income persons; and

(2) it is a public access in need of repair, including ADA and accessibility improvements; and

WHEREAS, the Project lies entirely within a public area that is used by and available to the entire community and the general public for direct access to Village recreational facilities.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF PALM SPRINGS, FLORIDA, AS FOLLOWS:

Section 1. The "Whereas" clauses are incorporated herein as true and correct and are hereby made a specific part of this Resolution.

Section 2. The Village would be responsible for any project costs for the design services in excess of the $114,000 from the CDBG reimbursement grant.

Section 3. This Resolution shall take effect immediately upon its passage.

Council Member Gunther offered the foregoing resolution. Council Member Ready seconded the motion, and upon being put to a vote, the vote was as follows:

	Aye	Nay	Absent
BEV SMITH, MAYOR	☑	☐	☐
DOUG GUNTHER, VICE MAYOR	☑	☐	☐
JONI BRINKMAN, MAYOR PRO TEM	☐	☐	☑
PATTI WALLER, COUNCIL MEMBER	☑	☐	☐
GARY M. READY, COUNCIL MEMBER	☑	☐	☐

The Mayor thereupon declared the Resolution duly passed and adopted this 14th day of March, 2019.

Notes:

1.The above estimate was prepared by a Registered Landscape Architect licensed to practice in the State of Florida and is hereby certified as our professional opinion of probable costs.

2.The opinion of probable construction costs provided are made based on experience and represent our best judgement as Landscape Architects familiar with the construction industry. The firm cannot and does not guarantee that proposals, bids, or the construction cost will not vary from our opinions of probable costs. If the Owner wishes greater assurances of the construction cost, we recommend employment of an independent cost estimator.

Office of the Mayor

Village of Palm Springs, Florida

Proclamation

WHEREAS, each year Americans observe National Hispanic Heritage Month from September 15th to October 15th, by celebrating the contributions of American citizens whose ancestors came from Spain, Mexico, the Caribbean, Central America, and South America. A tradition that originally started as a week in 1968 under President Lyndon Johnson and was expanded to a month in 1988 under President Ronald Reagan; and

WHEREAS, as we honor and celebrate the contributions of Hispanics to our Nation, we also reaffirm our commitment to extending the hand of friendship to Latin America and strengthening democracy in the region; and

WHEREAS, the Hispanic Community has had a profound and positive influence on our country through their strong commitment to family, faith, and hard work. Hispanic Americans lift our communities and our economy as entrepreneurs, executives, and small business owners, contribute and influence in areas such as science, art, music, politics, academia, government, and sports; and

WHEREAS, while we celebrate the many ways Hispanic Americans have contributed to building a strong and prosperous America, we also recognize that they face challenges in accessing educational and economic opportunities; and

WHEREAS, forging partnerships with local Hispanic organizations has enhanced our Library programs and offerings the past five years; and

WHEREAS, the Village of Palm Springs recognizes the importance of paying tribute to the countless generations of Hispanic & Latino Americans who have enriched our community with their contributions; and

WHEREAS, we invite all members of our community to experience and learn a little about some of the cultures of Latin America and celebrate with us this Hispanic Heritage Month season virtually through Village of Palm Springs social media and access educational resources available through the Village Library.

NOW THEREFORE, I, BEV SMITH, MAYOR OF THE VILLAGE OF PALM SPRINGS, FLORIDA on behalf of the Council and residents of Palm Springs, do hereby, proclaim September 15th to October 15th as:

HISPANIC HERITAGE MONTH

In witness whereof I have hereunto set my hand and caused the seal of this city to be affixed

Mayor Bev Smith

Date September 23, 2021

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Planning, Zoning & Building

ITEM 9.1: Ordinance No. 2021-07 - Comprehensive Plan Amendment - Property Rights Element (*Second Reading*)

SUMMARY:

The Planning, Zoning & Building Department is proposing a text amendment to the Future Land Use Element to establish a new Element in an accordance with new legislation that recently became law.

Note: During the most recent 2021 Florida Legislative Session, Committee Substitute/Senate Bill 496, which was signed into law on June 29, 2021, and became effective on July 1, 2021, adds Section 163.3177(6)(i), Florida Statutes, related to comprehensive plans and now requires each local government to adopt a property rights element within their existing comprehensive plan.

It is expected that the new Property Rights Element will protect private property rights and ensure that these rights are considered during the local decision-making process. This new element is required to be incorporated into the Village's Comprehensive Plan before initiating any new comprehensive plan amendments, including small-scale land use changes, after July 1st, 2021.

Note: The Florida Department of Economic Opportunity (DEO) staff has interpreted the new law to read that any new comprehensive plan amendment that the Local Planning Agency (LPA) has not held a public hearing and considered before July 1, 2021, is stayed (not able to proceed forward and submitted to the state for review) until the property rights provisions are adopted into the comprehensive plan.

The Local Planning Agency (LPA) considered the proposed Comprehensive Plan Text Amendment during their meeting on July 29, 2021, and recommended approval.

The Planning and Zoning Board considered the proposed amendment during their regular meeting on August 10, 2021, and recommended approval.

The proposed ordinance was approved by the Village Council on July 29, 2021, and is being presented for consideration on the 2nd and final reading.

The proposed comprehensive plan text amendment was forwarded for state and regional agency review, including the Florida Department of Economic Opportunity (DEO) and the South Florida Water Management District (SFWMD). An objection letter was received requesting the Village to revise the proposed amendment to include the statement of rights as "its own, separate Property Rights Element to the Comprehensive Plan" rather than as a sub-element (which was considered on 1st reading). Thus, the proposed ordinance was revised accordingly with the Florida Department of Economic Opportunity (DEO) request and was shared with the agency before being presented to the Village Council for consideration on 2nd and final reading.

The proposed ordinance was prepared by the Planning, Zoning & Building Director and reviewed by the Assistant Village Manager and the Village Attorney.

FISCAL IMPACT:

Amending the Comprehensive Plan to create a new Element (which is required due to new, approved legislation during the 2021 Florida Legislative Session) does not have a fiscal impact.

ORDINANCE NO. 2021-07

AN ORDINANCE OF THE VILLAGE OF PALM SPRINGS, FLORIDA, AMENDING THE COMPREHENSIVE PLAN OF THE VILLAGE OF PALM SPRINGS, IN ACCORDANCE WITH THE LOCAL GOVERNMENT COMPREHENSIVE PLANNING AND LAND DEVELOPMENT REGULATION ACT, AS AMENDED, BEING SECTIONS 163.3177, ET. SEQ., FLORIDA STATUTES, PROVIDING FOR THE AMENDMENT TO THE TEXT OF THE VILLAGE'S COMPREHENSIVE PLAN TO CREATE THE "PROPERTY RIGHTS" ELEMENT, WHICH AMENDMENT IS MORE FULLY DESCRIBED IN EXHIBIT "A" ATTACHED HERETO; PROVIDING FOR DIRECTIONS TO THE VILLAGE CLERK; PROVIDING FOR REPEAL OF ALL ORDINANCES IN CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING FOR AN EFFECTIVE DATE; AND PROVIDING FOR OTHER PURPOSES.

WHEREAS, the Village Council ("Council") of the Village of Palm Springs, Florida ("Village") has adopted a Comprehensive Plan ("Plan") pursuant to the "Local Government Comprehensive Planning and Land Development Regulation Act"; and

WHEREAS, The Village's Plan has been determined to be "in compliance" with the provisions of the Act and the Florida Administrative Code; and

WHEREAS, the Council wishes to create a "Property Rights" Element in the Comprehensive Plan in order to ensure that private property rights are considered in decision making; and

WHEREAS, Pursuant to Chapter 163, Florida Statutes, and Florida Administrative Code, all subsequent amendments to the Plan must be adopted in accordance with detailed statutory procedures; and

WHEREAS, the Village's LPA has considered the proposed amendments at a duly advertised meeting and has recommended that the Council adopt the Plan Amendments as set forth in the attached Exhibit "A"; and

WHEREAS, the Village Council of the Village of Palm Springs has held all required public hearings; both prior to transmittal and submission of the proposed amendments to the Plan to the Florida Department of Economic Opportunity, and after the proposed amendments to the Plan were returned to the Village of Palm Springs, in accordance with Chapter 163, Florida Statutes; and

NOW THEREFORE, BE IT ORDAINED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA:

Section 1. The Village Council of the Village of Palm Springs, Florida hereby amends the current

Comprehensive Plan dated November 9, 1989, as amended, to create the "Property Rights" Element in the Comprehensive Plan, which amendment consists of the pages attached hereto as Exhibit "A" and made a part hereof, and which will be incorporated into the current Comprehensive Plan. A copy of the Comprehensive Plan, as amended, is on file in the office of the Village Clerk.

Section 2. This Ordinance shall be effective within the corporate limits of the Village of Palm Springs, Florida.

Section 3. The Village Clerk is hereby directed to transmit the comprehensive plan amendment documents to the Department of Economic Opportunity and other agencies within ten (10) working days, in accordance with Section 163.3184, Florida Statutes.

Section 4. Repeal of Conflicting Ordinances. All Ordinances, Resolutions or parts of Ordinances and Resolutions in conflict herewith are hereby repealed.

Section 5. Severability. If any word, clause, sentence, paragraph, section or part thereof contained in this Ordinance is declared to be unconstitutional, unenforceable, void or inoperative by a court of competent jurisdiction, such declaration shall not affect the validity of the remainder of this ordinance.

Section 6. Effective Date. The effective date of this Plan Amendment shall be in accordance with Section 163.3184, Florida Statutes; however, no later than thirty-one (31) days after the State Land Planning Agency has received the completed Amendment package. No development order, development permits, or land uses dependent on this Amendment may be issued or commence before the Amendment has become effective.

Council Member _____, offered the foregoing Ordinance, and moved its adoption. The motion was seconded by Council Member _____, and upon being put to a vote, the vote was as follows:

Property Rights Element ……IX

Chapter IX
Property Rights Element
Goals, Objectives and Policies

Goal: "Ensure that private property rights are considered in local decision making"

Objective A: **Property Rights Element**. The Village as a governmental entity, shall respect judicially acknowledged and constitutionally protected private property rights. The Village shall ensure that private property rights are considered in local decision making.

The following Property Rights – Statement of Rights shall be considered in local decision making:

Policy A.1 The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.

Policy A.2 The right of a property owner to use, maintain, develop, and improve his or her property for personal use or the use of any other person, subject to state law and local ordinances.

Policy A.3: The right of a property owner to privacy and to exclude others from the property to protect the owner's possessions and property.

Policy A.4: The right of a property owner to dispose of his or her property through sale or gift.

By the Committees on Rules; Judiciary; and Community Affairs; and Senator Perry

595-03395-21 2021496c3

A bill to be entitled

An act relating to growth management; amending s. 163.3167, F.S.; specifying requirements for certain comprehensive plans effective, rather than adopted, after a specified date and for associated land development regulations; amending s. 163.3177, F.S.; requiring local governments to include a property rights element in their comprehensive plans; providing a statement of rights which a local government may use; requiring a local government to adopt a property rights element by the earlier of its adoption of its next proposed plan amendment initiated after a certain date or the next scheduled evaluation and appraisal of its comprehensive plan; prohibiting a local government's property rights element from conflicting with the statement of rights contained in the act; amending s. 163.3237, F.S.; providing that the consent of certain property owners is not required for development agreement changes under certain circumstances; providing an exception; amending s. 337.25, F.S.; requiring the Department of Transportation to afford a right of first refusal to certain individuals under specified circumstances; providing requirements and procedures relating to the right of first refusal; amending s. 380.06, F.S.; authorizing certain developments of regional impact agreements to be amended under certain circumstances; providing retroactive applicability; providing a declaration of important state interest; providing an

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 163.3167, Florida Statutes, is amended to read:

163.3167 Scope of act.—

(3) A municipality established after the effective date of this act shall, within 1 year after incorporation, establish a local planning agency, pursuant to s. 163.3174, and prepare and adopt a comprehensive plan of the type and in the manner set out in this act within 3 years after the date of such incorporation. A county comprehensive plan is controlling until the municipality adopts a comprehensive plan in accordance with this act. A comprehensive plan for a newly incorporated municipality which becomes effective ~~adopted~~ after January 1, 2016 ~~2019~~, and all land development regulations adopted to implement the comprehensive plan must incorporate each development order existing before the comprehensive plan's effective date, may not impair the completion of a development in accordance with such existing development order, and must vest the density and intensity approved by such development order existing on the effective date of the comprehensive plan without limitation or modification.

Section 2. Paragraph (i) is added to subsection (6) of section 163.3177, Florida Statutes, to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(6) In addition to the requirements of subsections (1)-(5),

the comprehensive plan shall include the following elements:

(i)1. In accordance with the legislative intent expressed in ss. 163.3161(10) and 187.101(3) that governmental entities respect judicially acknowledged and constitutionally protected private property rights, each local government shall include in its comprehensive plan a property rights element to ensure that private property rights are considered in local decisionmaking. A local government may adopt its own property rights element or use the following statement of rights:

The following rights shall be considered in local decisionmaking:

1. The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.

2. The right of a property owner to use, maintain, develop, and improve his or her property for personal use or the use of any other person, subject to state law and local ordinances.

3. The right of a property owner to privacy and to exclude others from the property to protect the owner's possessions and property.

4. The right of a property owner to dispose of his or her property through sale or gift.

2. Each local government must adopt a property rights element in its comprehensive plan by the earlier of its adoption of its next proposed plan amendment that is initiated after July 1, 2021, or the next scheduled evaluation and appraisal of its comprehensive plan pursuant to s. 163.3191. If a local government adopts its own property rights element, the element may not conflict with the statement of rights provided in subparagraph 1.

Section 3. Section 163.3237, Florida Statutes, is amended to read:

163.3237 Amendment or cancellation of a development agreement.—A development agreement may be amended or canceled by mutual consent of the parties to the agreement or by their successors in interest. A party or its designated successor in interest to a development agreement and a local government may amend or cancel a development agreement without securing the consent of other parcel owners whose property was originally subject to the development agreement, unless the amendment or cancellation directly modifies the allowable uses or entitlements of such owners' property.

Section 4. Subsection (4) of section 337.25, Florida Statutes, is amended to read:

337.25 Acquisition, lease, and disposal of real and personal property.—

(4) The department may convey, in the name of the state, any land, building, or other property, real or personal, which was acquired under subsection (1) and which the department has determined is not needed for the construction, operation, and maintenance of a transportation facility. When such a

determination has been made, property may be disposed of through negotiations, sealed competitive bids, auctions, or any other means the department deems to be in its best interest, with due advertisement for property valued by the department at greater than $10,000. A sale may not occur at a price less than the department's current estimate of value, except as provided in paragraphs (a)-(d). The department may afford a right of first refusal to the local government or other political subdivision in the jurisdiction in which the parcel is situated, except in a conveyance transacted under paragraph (a), paragraph (c), or paragraph (e). Notwithstanding any provision of this section to the contrary, before any conveyance under this subsection is made, except a conveyance under paragraph (a) or paragraph (c), the department shall first afford a right of first refusal to the previous property owner for the department's current estimate of value of the property. The right of first refusal must be in writing and sent to the previous owner via certified mail or hand delivery, which is effective upon receipt. The right of first refusal must provide the previous owner with a minimum of 30 days to exercise the right in writing and must be sent to the originator of the offer by certified mail or hand delivery, which is effective upon dispatch. If the previous owner exercises his or her right of first refusal, the previous owner has a minimum of 90 days to close on the property. The right of first refusal set forth in this subsection may not be required for the disposal of property acquired more than 10 years before the date of disposition by the department.

(a) If the property has been donated to the state for transportation purposes and a transportation facility has not

been constructed for at least 5 years, plans have not been prepared for the construction of such facility, and the property is not located in a transportation corridor, the governmental entity may authorize reconveyance of the donated property for no consideration to the original donor or the donor's heirs, successors, assigns, or representatives.

(b) If the property is to be used for a public purpose, the property may be conveyed without consideration to a governmental entity.

(c) If the property was originally acquired specifically to provide replacement housing for persons displaced by transportation projects, the department may negotiate for the sale of such property as replacement housing. As compensation, the state shall receive at least its investment in such property or the department's current estimate of value, whichever is lower. It is expressly intended that this benefit be extended only to persons actually displaced by the project. Dispositions to any other person must be for at least the department's current estimate of value.

(d) If the department determines that the property requires significant costs to be incurred or that continued ownership of the property exposes the department to significant liability risks, the department may use the projected maintenance costs over the next 10 years to offset the property's value in establishing a value for disposal of the property, even if that value is zero.

(e) If, at the discretion of the department, a sale to a person other than an abutting property owner would be inequitable, the property may be sold to the abutting owner for

the department's current estimate of value.

Section 5. Paragraph (d) of subsection (4) of section 380.06, Florida Statutes, is amended to read:

380.06 Developments of regional impact.—

(4) LOCAL GOVERNMENT DEVELOPMENT ORDER.—

(d) Any agreement entered into by the state land planning agency, the developer, and the local government with respect to an approved development of regional impact previously classified as essentially built out, or any other official determination that an approved development of regional impact is essentially built out, remains valid unless it expired on or before April 6, 2018, and may be amended pursuant to the processes adopted by the local government for amending development orders. Any such agreement or amendment may authorize the developer to exchange approved land uses, subject to demonstrating that the exchange will not increase impacts to public facilities. This paragraph applies to all such agreements and amendments effective on or after April 6, 2018.

Section 6. The Legislature finds and declares that this act fulfills an important state interest.

Section 7. This act shall take effect July 1, 2021.

Ron DeSantis
GOVERNOR

FLORIDA DEPARTMENT of ECONOMIC OPPORTUNITY

Dane Eagle
SECRETARY

August 27, 2021

The Honorable Bev Smith
Mayor, Village of Palm Springs
Village Hall
226 Cypress Lane
Palm Springs, Florida 33461

Dear Mayor Smith:

The Department of Economic Opportunity ("Department") has reviewed the the Village of Palm Springs proposed comprehensive plan amendment (Amendment No. 21-02ESR), received on August 6, 2021, pursuant to the expedited state review process in Section 163.3184(2) - (3), Florida Statutes (F.S.). We have identified a comment related to adverse impacts to important state resources and facilities within the Department's authorized scope of review. The Agency's comment regarding these amendments are attached to this letter.

The Village should act by choosing to adopt, adopt with changes, or not adopt the proposed amendment. For your assistance, we have enclosed the procedures for adoption and transmittal of the comprehensive plan amendment. In addition, the Village is reminded that:

- Section 163.3184(3)(b), F.S., authorizes other reviewing agencies to provide comments directly to the Village. **If the Village receives reviewing agency comments and they are not resolved, these comments could form the basis for a challenge to the amendment after adoption.**

- **The second public hearing,** which shall be a hearing on whether to adopt one or more comprehensive plan amendments, **must be held within 180 days** of your receipt of agency comments or the amendment shall be **deemed withdrawn** unless extended by agreement with notice to the Department and any affected party that provided comment on the amendment pursuant to Section 163.3184(3)(c)1., F.S.

- **The adopted amendment must be rendered to the Department.** Under Section 163.3184(3)(c)2. and 4., F.S., the **amendment effective date** is 31 days after the Department notifies the Village that the amendment package is complete or, if

An equal opportunity employer/program. Auxiliary aids and service are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TTD equipment via the Florida Relay Service at 711.

challenged, until it is found to be in compliance by the Department or the Administration Commission.

If you have any questions concerning this review, please contact Matthew Preston, Planning Analyst, by telephone at (850) 717-8490 or by email at matt.preston@deo.myflorida.com.

Sincerely,

James D. Stansbury, Chief
Bureau of Community Planning and Growth

JDS/mp

Enclosure(s): Procedures for Adoption

cc: Iramis Cabrera, Planning, Zoning, and Building Director, Village of Palm Springs
Thomas Lanahan, Executive Director, Treasure Coast Regional Planning Council

Agency's Comment: Section 163.3177(6)(i)1., F.S. (Ch. 2021-195, Laws of Fla.), requires each local government to include a property rights element in its comprehensive plan. The text amendment proposes to include the statement of rights as a sub-element within the existing Future Land Use Element of the Village of Palm Spring's Comprehensive Plan rather than as its own property rights element.

Prior to adoption, the proposed amendment must be revised to include the statement of rights as its own, separate Property Rights Element to the Comprehensive Plan.

Please be advised the property rights element adopted by the local government may not conflict with the statement of rights provided under Section 163.3177(6)(i)1., F.S. To ensure adopted language does not conflict, the Department recommends that the local government consult with its legal department.

SUBMITTAL OF ADOPTED COMPREHENSIVE PLAN AMENDMENTS

FOR EXPEDITED STATE REVIEW

Section 163.3184(3), Florida Statutes

NUMBER OF COPIES TO BE SUBMITTED: Please submit electronically using the Department's electronic amendment submittal portal "**Comprehensive Plan and Amendment Upload**" (***https://floridajobs.secure.force.com/cp/***) **or** submit three complete copies of all comprehensive plan materials, of which one complete paper copy and two complete electronic copies on CD ROM in Portable Document Format (PDF) to the State Land Planning Agency and one copy to each entity below that provided timely comments to the local government: the appropriate Regional Planning Council; Water Management District; Department of Transportation; Department of Environmental Protection; Department of State; the appropriate county (municipal amendments only); the Florida Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services (county plan amendments only); and the Department of Education (amendments relating to public schools); and for certain local governments, the appropriate military installation and any other local government or governmental agency that has filed a written request.

SUBMITTAL LETTER: Please include the following information in the cover letter transmitting the adopted amendment:

_____ State Land Planning Agency identification number for adopted amendment package;

_____ Summary description of the adoption package, including any amendments proposed but not adopted;

_____ Identify if concurrency has been rescinded and indicate for which public facilities. (Transportation, schools, recreation and open space).

_____ Ordinance number and adoption date;

_____ Certification that the adopted amendment(s) has been submitted to all parties that provided timely comments to the local government;

_____ Name, title, address, telephone, FAX number and e-mail address of local government contact;

_____ Letter signed by the chief elected official or the person designated by the local government.

ADOPTION AMENDMENT PACKAGE: Please include the following information in the amendment package:

_____ In the case of text amendments, changes should be shown in strike-through/underline format.

_____ In the case of future land use map amendments, an adopted future land use map, **in color format,** clearly depicting the parcel, its future land use designation, and its adopted designation.

_____ A copy of any data and analyses the local government deems appropriate.

Note: If the local government is relying on previously submitted data and analysis, no additional data and analysis is required;

_____ Copy of the executed ordinance adopting the comprehensive plan amendment(s);

Suggested effective date language for the adoption ordinance for expedited review:

> "The effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the state land planning agency notifies the local government that the plan amendment package is complete. If the amendment is timely challenged, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance."

_____ List of additional changes made in the adopted amendment that the State Land Planning Agency did not previously review;

_____ List of findings of the local governing body, if any, that were not included in the ordinance and which provided the basis of the adoption or determination not to adopt the proposed amendment;

_____ Statement indicating the relationship of the additional changes not previously reviewed by the State Land Planning Agency in response to the comment letter from the State Land Planning Agency.

Village of Palm Springs

Executive Brief

AGENDA DATE: September 23, 2021

DEPARTMENT: Administration

ITEM 9.2: Resolution No. 2021-32 - Consideration and Approval of Palm Springs CRA Community Redevelopment Plan Modification

SUMMARY:

The Village and CRA retained the firm BusinessFlare to assist staff with modifications to the initial Community Redevelopment Plan for the Palm Springs Community Redevelopment Agency (CRA) by including economic and market analyses and developing objectives for the economic development strategic plan.

The 2019 Community Redevelopment Plan established the CRA and focused on the intergovernmental coordination needed to carry out identified capital projects. The proposed 2021 Community Redevelopment Plan seeks to leverage these projects to create unique spaces, targeted economic development sites, and establish stand-alone CRA programs. Through policies, programs, and initiatives, the CRA can positively impact future development.

The proposed (modified) Community Redevelopment Plan for the Palm Springs CRA has been prepared according to Chapter 163.360(4), Florida Statutes. The proposed Community Redevelopment Plan, if approved by the Village Council, will serve as the blueprint for all activities undertaken by the CRA. Thus, it is desirable to have a comprehensive redevelopment strategy that includes all projects and programs that the CRA desires.

Note: The proposed Community Redevelopment Plan is not a "cost feasible" plan rather it is a "desires" plan. If a project and/or activity is not contained in the plan, it cannot be undertaken by the CRA.

The proposed Community Redevelopment Plan relates only to the Village properties within the CRA area (the Congress Avenue and Lake Worth Road districts) and therefore should include only programs or projects that are located within a district. Capital projects scheduled on a

governmental capital improvement plan cannot be undertaken by a CRA.

At a minimum (per state law), a Community Redevelopment Plan must include the following:

- The legal description of CRA boundaries
- Summary of land uses within the CRA, including the number of dwelling units and amount of open space
- Graphics depicting the street network and land use Neighborhood impact element
- Identification of any capital projects to be undertaken by the CRA (including projected costs)
- Activities to be undertaken by the CRA (i.e., land acquisition, demolition and removal of structures, redevelopment or rehabilitation, comprehensive plan or zoning changes - including density changes or building requirements, etc.)
- Provision for affordable housing in the area
- Safeguards for carrying out the plan (i.e., a work plan)
- If the property is to be acquired, provide for governmental covenants or restrictions on property sold or leased

The proposed Community Redevelopment Plan must be consistent with the Village's Comprehensive Plan and it may specify comprehensive plan amendments to be undertaken to promote redevelopment.

The proposed modifications to the Palm Springs CRA Community Redevelopment Plan were undertaken to incorporate economic and market analyses to include additional stakeholders' input and to refine strategies to promote reinvestment and revitalization within the CRA.

If approved, the Palm Springs CRA Community Redevelopment Plan may be further modified at any time, following the same procedures as required statutorily for the adoption of the original plan. However, it is recommended that the Plan be evaluated and updated at least every 7 years (1-year after the adoption of the Evaluation and Appraisal Report of the Village Comprehensive Plan).

The Village's Local Planning Agency considered the draft Community Redevelopment Plan during their September 8, 2021 meeting and made a finding of consistency with the Village Comprehensive Plan.

The Village's Planning & Zoning Board considered the draft Community Redevelopment Plan during their regular meeting on September 14, 2021, and recommended approval. The Board commented that: 1) concentrated code enforcement is needed on Belle Vue Avenue to clean up the blighting conditions and 2) the CRA should be proactive in trying to attract desired businesses (i.e., Panera, Chick-Fil-A, and Texas Roadhouse).

The Palm Springs CRA Board considered the proposed Community Redevelopment Plan during their September 8, 2021 meeting and recommended approval (and transmitted

the proposed plan to all taxing authorities, including the Village Council and Palm Beach County).

The proposed Palm Springs CRA Community Redevelopment Plan was prepared by BusinessFlare and reviewed by the Assistant Village Manager/Assistant CRA Executive Director, Planning, Zoning & Building Director, and the Village Attorney.

The proposed Resolution was prepared by the Village Clerk and reviewed by the Village Attorney and Assistant Village Manager/Assistant CRA Executive Director.

FISCAL IMPACT:

Expenditures within each of the CRA Trust Funds must be consistent with/contained within the CRA Redevelopment Plan and provided for in the CRA Budget.

The CRA will not expend more than the amount within the approved budget as it may be adopted/amended each year for goods and/or services.

Proposed Draft Palm Springs CRA Community Redevelopment Plan (Modification)
Local Planning Agency Finding of Consistency
Notification of Public Hearing for CRA Community Redevelopment Plan Adoption

RESOLUTION NO. 2021-32

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, APPROVING AND ADOPTING MODIFICATION OF THE COMMUNITY REDEVELOPMENT PLAN; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the modified 2021 Community Redevelopment Plan seeks to leverage projects identified and focused on intergovernmental coordination needed to carry capital projects identified in the 2019 Community Redevelopment Plan, to create unique spaces, targeted economic development sites, and establish stand-alone CRA programs. By means of policies, programs, and initiatives, the CRA can positively impact future development; and

WHEREAS, pursuant to Resolution 2019-09, adopted on March 28, 2019, the Village Council of the Village of Palm Springs, Florida, made a finding of necessity for the creation and establishment of a community redevelopment agency; and

WHEREAS, Part III, Chapter 163, Florida Statutes (the "Redevelopment Act") sets forth the procedure for the creation of a Community Redevelopment Agency; and

WHEREAS, as provided in §163.360 of the Redevelopment Act, the Village Council has directed the preparation of a community redevelopment plan; and

WHEREAS, on November 21, 2019, the Village Council approved the Community Redevelopment Plan, after the Community Redevelopment Agency Board and Local Planning Agency board reviewed the proposed plan as required by Florida Statutes; and

WHEREAS, the Palm Springs CRA Community Redevelopment Plan may be further modified at any time, following the same procedures as required statutorily for the adoption of the original plan. However, it is recommended that the Plan be evaluated and updated at least every 7 years (1-year after the adoption of the Evaluation and Appraisal Report of the Village Comprehensive Plan); and

WHEREAS, on September 8, 2021, the CRA Board and the Local Planning Agency Board reviewed the proposed modifications and directed the modifications sent to Village Council; meeting of the Village Local Planning Agency Board, the Community

Redevelopment Agency Board met on the same day and reviewed the plan as returned by the Village Local Planning Agency and directed it be sent to the Village Council; and

WHEREAS, the Village Council, having reviewed the proposed modified Community Redevelopment plan, desires to approve and adopt the plan.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, **AS FOLLOWS:**

Section 1. The recitals set forth in the Whereas clauses above are hereby adopted and approved by the Village Council and incorporated into this resolution.

Section 2. The Community Redevelopment Plan relates only to the Village properties within the CRA area (the Congress Avenue and Lake Worth Road districts):

- Community Redevelopment Plan is not a "cost feasible" plan rather it is a "desires" plan. If a project and/or activity is not contained in the plan, it cannot be undertaken by the CRA

Therefore, the Village Council hereby approves and adopts the community redevelopment plan as attached hereto as Exhibit “A”.

Section 3. This Resolution shall take effect immediately upon adoption.

Council Member _____ offered the foregoing resolution. Council Member_____ seconded the motion, and upon being put to a vote, the vote was as follows:

Executive Summary

The Palm Springs CRA Community Redevelopment Plan Update (2021) and Economic Development Strategic Plan are structured around the five (5) key investment drivers:

1. Land
2. Labor
3. Markets
4. Capital
5. Regulations

Based on current market data, community input, and the existing adopted Community Redevelopment Plan, the Plan provides analysis and recommendations for the continued redevelopment and removal of blighted conditions within the Village of Palm Springs Community Redevelopment Agency (CRA) Districts.

While the 2019 Community Redevelopment Plan established the CRA and focused on intergovernmental coordination due to identified planned capital projects by external agencies, the 2021 Community Redevelopment Plan seeks to leverage these projects to create unique spaces, targeted economic development sites, and establish stand-alone CRA programs. Through policies, programs, and initiatives, the CRA has the ability to positively impact future development.

The five (5) key goals established in the 2019 CRA Plan serve as the backbone of the 2021 update and are expanded upon throughout this document.

I. Improving Utilities and Infrastructure
II. Expanding Job Development and Economic Growth
III. Enhancing Public Safety
IV. Increasing and Maintaining Workforce Housing
V. Advancing the Partnership with Palm Beach County

The Economic Development Strategic Plan for the Palm Springs Community Redevelopment Agency is built upon key economic development drivers which contribute to encouraging economic growth, improving quality of life, and building wealth.

The Palm Springs Community Redevelopment Agency is comprised of two sub-districts: Lake Worth Road and Congress Avenue. These corridors serve as commercial spines of the Village. Centrally located in Palm Beach County, the corridors accommodate a large amount of commuter traffic. The functionality of the corridors does not align with the Village's identification as "A Great Place to Call Home". The corridors lack an identity and additional non-gentrifying residential uses that will create a customer base.

Executive Summary (2)

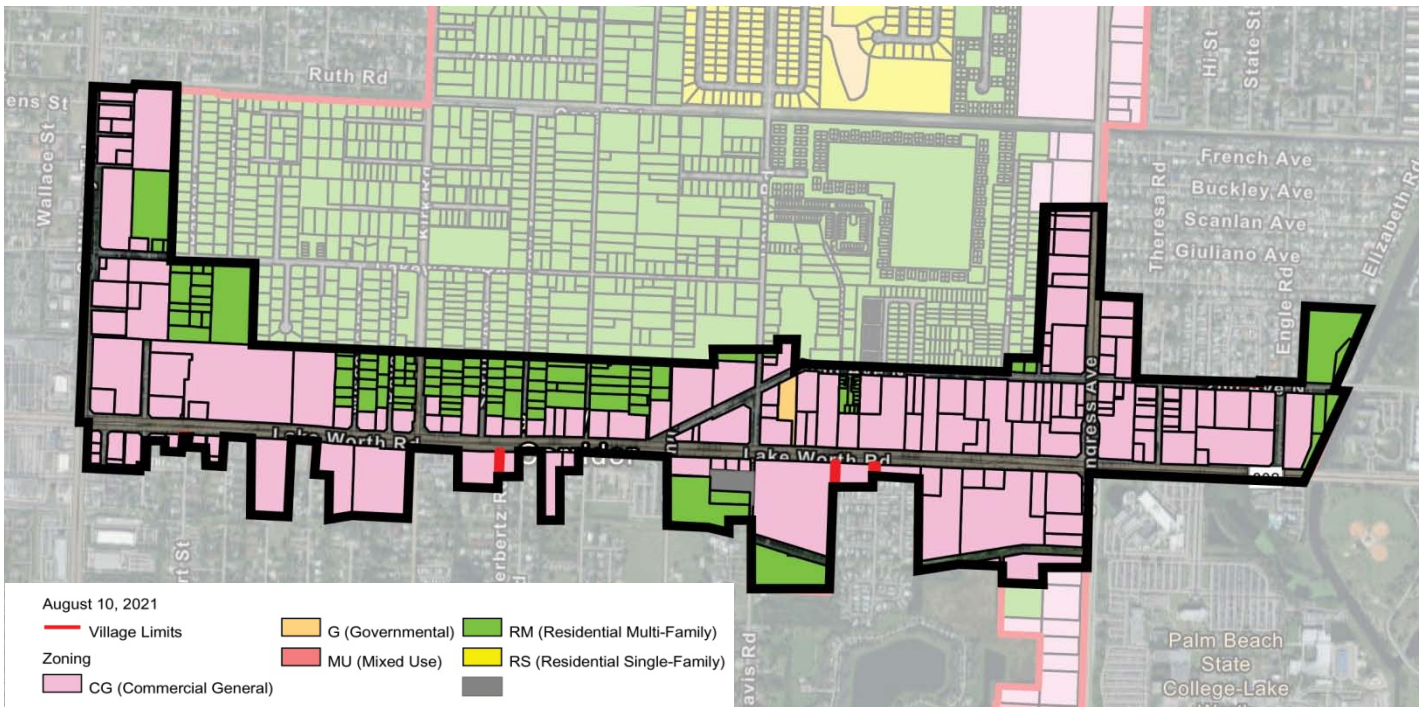
The final work plan includes many programming recommendations, ranging from short-term to long-term and low-cost to high-cost. Immediate and near-term strategies include the CRA focusing on establishing a brand and corresponding Placemaking strategies. Much of this work will require internal coordination between the Finance, Engineering, and Legal departments.

The Village staff will utilize the plan to direct the use of TIF funds for capital projects which should focus on unique experiences that are not potentially funded through external agencies. Existing and proposed Capital projects include the extension on the Congress Avenue force main, the exploration of the creation of a canal pedestrian network, installation of street trees and street furniture, and the purchase of key redevelopment sites for public/private partnerships.

Opportunities along the corridors have been identified along with constraints. This plan builds on the strengths while seeking to correct the constraints. Additional SWOT analysis is provided in the companion Economic Development Strategic Plan.

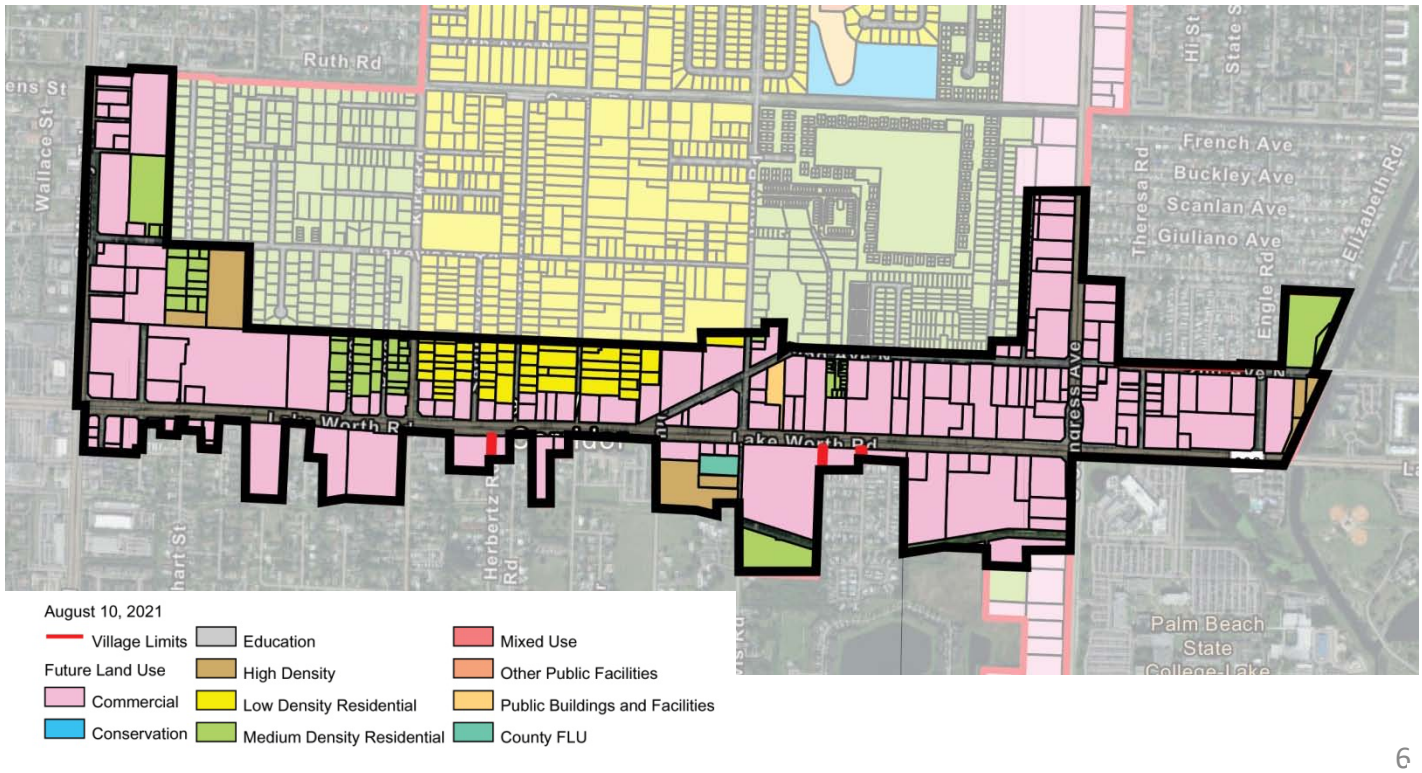
Opportunities:

Location



- Proximity to PBI
- Proximity to 1-95
- CSX
- Congress Avenue 6 plus 2 lanes of travel
- Lake Worth Road 6 plus 2 lanes of travel
- Proximity to Boca Raton, West Palm Beach, Palm Beach Gardens
- Depth of Lots/ availability for lot assemblage
- Existing commercial corridors surrounded by stable residential areas
- Well established medical, research, and educational uses within CRA and immediately adjacent
- Existing Transit Routes
- Palm Beach State College

Constraints:



- Walkable but nowhere to walk to
- Lack of jobs
- Land Development Regulations (LDR) includes an extensive list of Special Exceptions.
- Previous Palm Springs CRA Plan focused on business / neighborhood uses whereas data indicates additional persons through housing is needed to support those uses.

Palm Springs CRA
Goals, Mission, and Goals

Vision

Vibrant and safe corridors that meet the needs of residents and visitors while maintaining the unique small-town atmosphere of the Village of Palm Springs.

Mission

The Palm Springs CRA endeavors to create economically stable business corridors that support redevelopment opportunities through the creation of jobs, incentive programs, the development of sustainable infrastructure, and the coordination of a safe transportation network and bicycle/pedestrian connections while protecting and enhancing the surrounding residential neighborhoods.

Goals

- Retain and promote the CRA and Village's "small town" feel.
- Creation of jobs.
- Identify key parcels for community-serving businesses.
- Protect the residential uses adjacent to Lake Worth Road and Congress Avenue corridors.
- Increase traffic safety on Lake Worth Road and Congress Avenue.
- Increase redevelopment activity on Lake Worth Road and Congress Avenue through incentives and the encouragement of parcel assemblage for quality redevelopment.
- Leverage proposed transportation projects.
- Provide infrastructure to allow for sustainable business growth.

Stakeholder Feedback

The Palm Springs CRA Community Redevelopment Plan Update reflects feedback from community members. Efforts included an online survey, engagements at a Village event and local commercial center, a stakeholder meeting, and direct contact to key stakeholders. Due to on-going COVID-19 concerns and limitations, responses were minimal.

The March 18, 2021, Stakeholder Meeting was offered simultaneously as an in-person and virtual format. In addition, Community Feedback Surveys were distributed in-person and broadcast via email during a three-week period with 136 responses received. Through this direct engagement, very valuable information was garnered as summarized below.

OPPORTUNITIES:

Overall
- Talent attraction
- Central Palm Beach Chamber of Commerce
- Palm Beach Hispanic Chamber
- Gateway features & signage to stimulate a "sense of place" (brand identity)
- Connect parks and outdoor activities

--

Lake Worth District
- Vacant land redevelopment
- Infill mixed-use development along 2nd Ave
- Connect 2nd Ave (walk and bicycle friendly street)
- Create a destination: "Pueblito" street
- Education and health clusters
- Waterfront property (potential Blueway connection)
- Complete streets initiative along Lake Worth Road (coordinate with DOT)

--

Congress Avenue District
- Potential for a unique district
- YMCA retrofitting
- Connection to G-Star Academy
- Direct connection to Palm Beach International Airport, Zoo, and Croquet Club
- Complete streets initiative along Congress Avenue (coordinate with DOT)
- Possible hotel development- proximity to PBIA

WEAKNESSES:

Overall
- Lack of "pedestrian-oriented" town center destination
- Wide roadway commercial corridor
- Suburban shopping center typologies (building frontage separated from public-right-of-way by parking lots)

--

Lake Worth District
- Lack of consistent character in the built environment
- Underutilized parking lots detrimental to corridor aesthetics

--

Congress Avenue District
- Lack of consistent character in the built environment
- Underutilized parking lots detrimental to corridor aesthetics
- Lack of pedestrian-oriented destination
- Lack of residential units that will support workforce and make a unique district
- Septic tank system

STRENGTHS:

Overall
- G-Star Academy ("the only one of its kind in the country" equals TALENT)
- Palm Springs Village operates police department and code enforcement
- Beautiful bedroom community
- Parks and recreation
- Expedited permitting

--

Lake Worth District
- High volume commercial corridor
- Proximity to Palm Beach State College (EDUCATION)
- Proximity to JFK Hospital (HEALTH)
- New townhome and multifamily developments (100 units +/-)
- New walking/bike trail will connect 9-10 parks

--

Congress Avenue District
- Large employer (cosmetic manufacturing and automobile dealership)
- YMCA redevelopment
- Connection I-95
- Recreation center (Defy)
- Proximity to G-Star Academy

Stakeholder Feedback (2)

Following the meeting, key stakeholders were contacted directly and asked to identify the obstacles that are preventing developing their properties fully. Below are the responses received:

- Finding a tenant
- Cost to run utilities to the site
- Visibility of business along Lake Worth Road due to speed limit
- Sign ordinance restrictions (specifically an electronic sign)
- Need for a clear vision
- Homeless
- Lack of canal bank maintenance

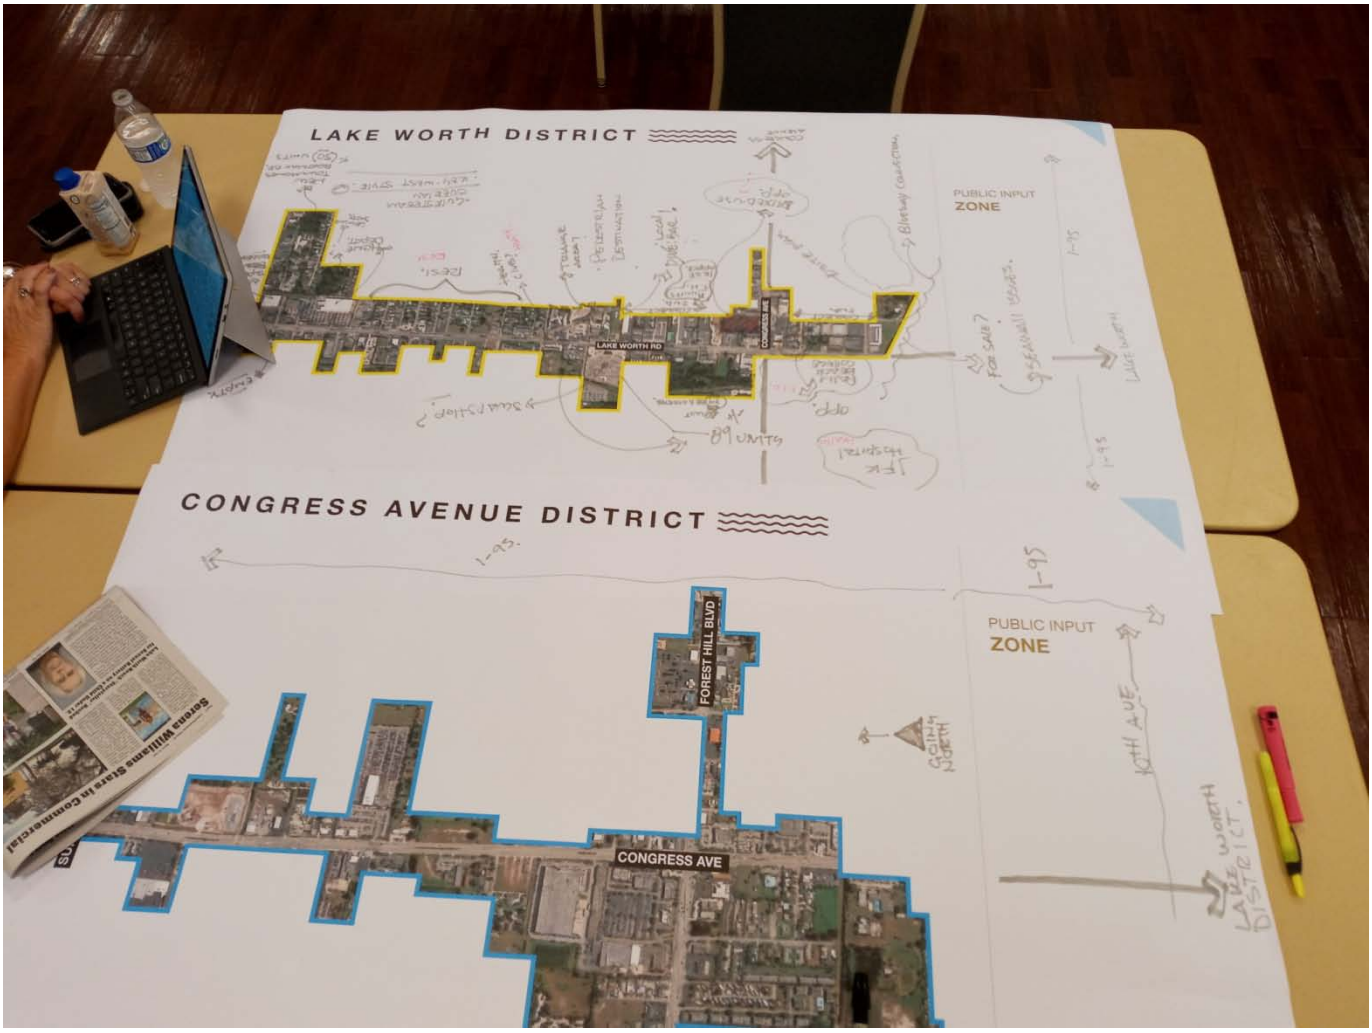

Photo from public workshop on March 18 2021

Available Land

The vacancy, availability and development of existing parcels play important roles in the elimination of blighted conditions, redevelopment of underutilized properties, and business attraction. The Congress Avenue subdistrict is comprised of 291 acres and the Lake Worth Road subdistrict is comprised of 221 acres. Within the subdistricts, 76.2 acres of potential redevelopment sites have been identified.

--

Vacant and Underutilized Parcels

Lake Worth Road District

The Lake Worth Road Subdistrict is located on a nearly built-out suburban commercial corridor. The Lake Worth Road Subdistrict is anchored by a Home Depot on the west boundary and adjacent to Palm Beach State College on the east boundary. Within the subdistrict are many local uses including food markets, a car wash, offices, restaurants, and personal services.

Two large areas of vacant land exist towards the eastern area of the subdistrict. These vacant sites are comprised of multiple parcels. These sites should be considered for uses that align with the college and hospital uses just outside the CRA boundaries. The Village's Land Development Regulations allow for site specific mixed-use overlay. The CRA, in conjunction with the Village should consider by-right incentive based mixed-use regulations.

A few, but not many, underutilized parcels were identified. These underutilized parcels include vacant freestanding stores and shopping centers that have a high rate of vacancy and outdated layouts. Future redevelopment of these sites should incorporate urban design principals that include buildings closer to the road that allow for pedestrian access and more contemporary site design.

Underutilized parcels and occupied parcels in the vicinity of Lake Worth Road, Davis Road and 2nd Avenue present an opportunity for lot assemblage and a large-scale commercial development. Consideration should also be given for residential uses transitioning to the rear of the site to provide a buffering to the existing residential uses along Davis Road.

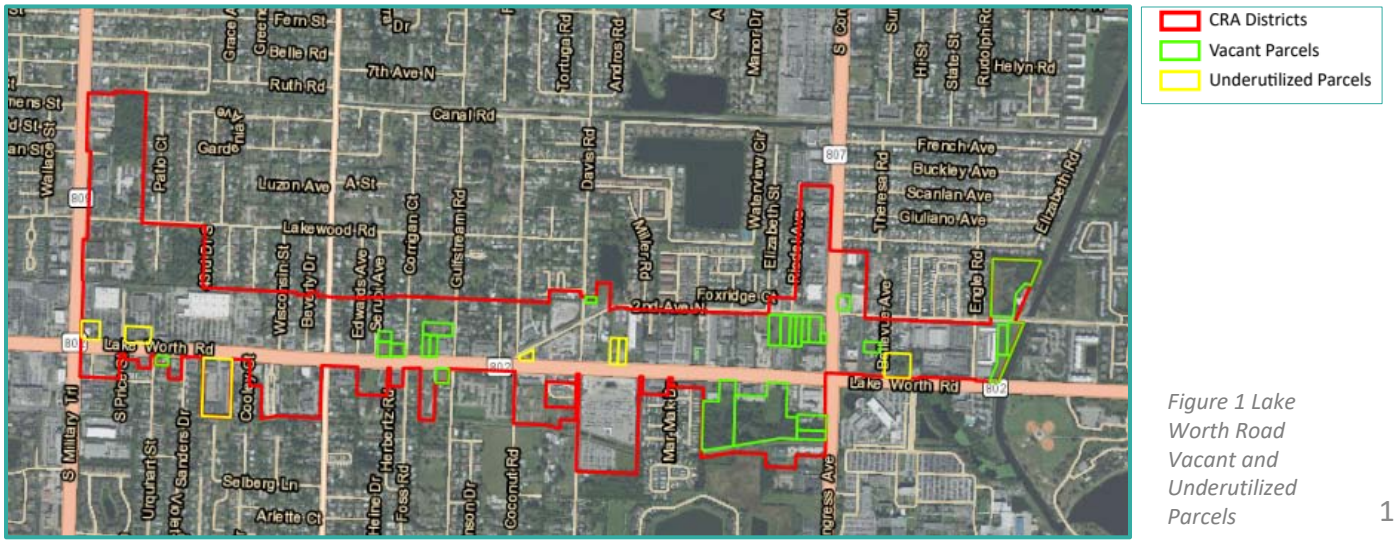

Figure 1 Lake Worth Road Vacant and Underutilized Parcels

Available Land (2)

Vacant and Underutilized Parcels
Congress Avenue

The Congress Avenue Subdistrict is a highly traveled north/south corridor. The corridor includes a small portion of Forest Hill Boulevard which leads to a major I-95 exit. The north end of the corridor leads to Palm Beach International Airport (Southern Boulevard), Trump International Golf Club West Palm Beach, and Palm Beach County Main Detention Center (Gun Club Road). These three major sites are not located in the CRA but have influence on the corridor, including uses such as bail bonds businesses. For purposes of this study, the bail bonds businesses have been identified on the following map.

Prior to the business restrictions of COVID-19 a large indoor recreation use opened at the north end of the corridor. Adjacent to this site are two larger vacant parcels with site plan approval for restaurant and commercial retail buildings. These uses align with the golf course and/or airport which are located within one and three miles respectively of the parcels.

There are 35.0 acres of undeveloped commercial properties, 31.89 acres of vacant residential parcels, and 3.0 acres of vacant mixed-use parcel along Congress Avenue.

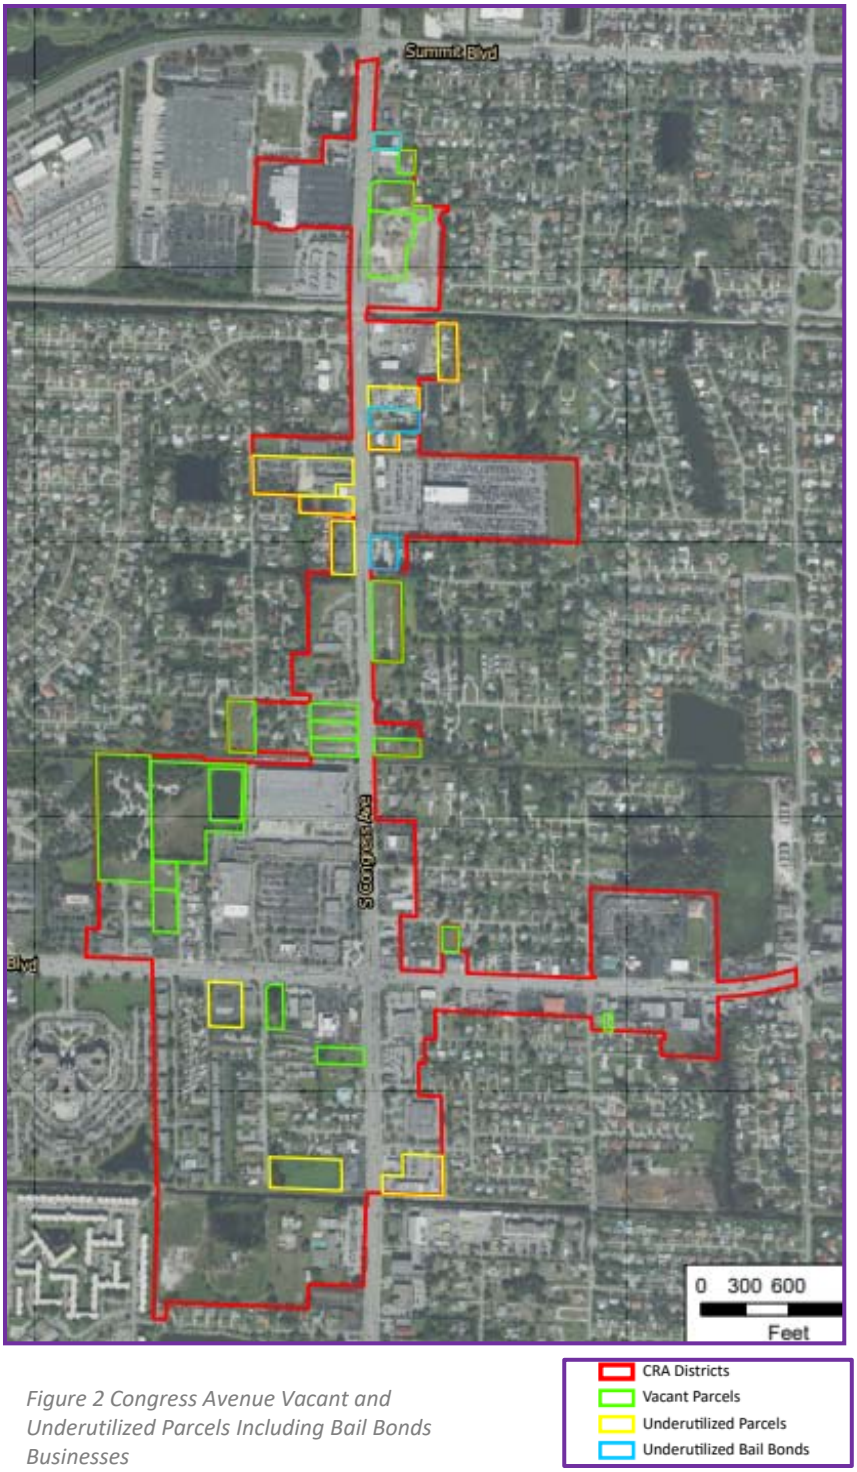

Figure 2 Congress Avenue Vacant and Underutilized Parcels Including Bail Bonds Businesses

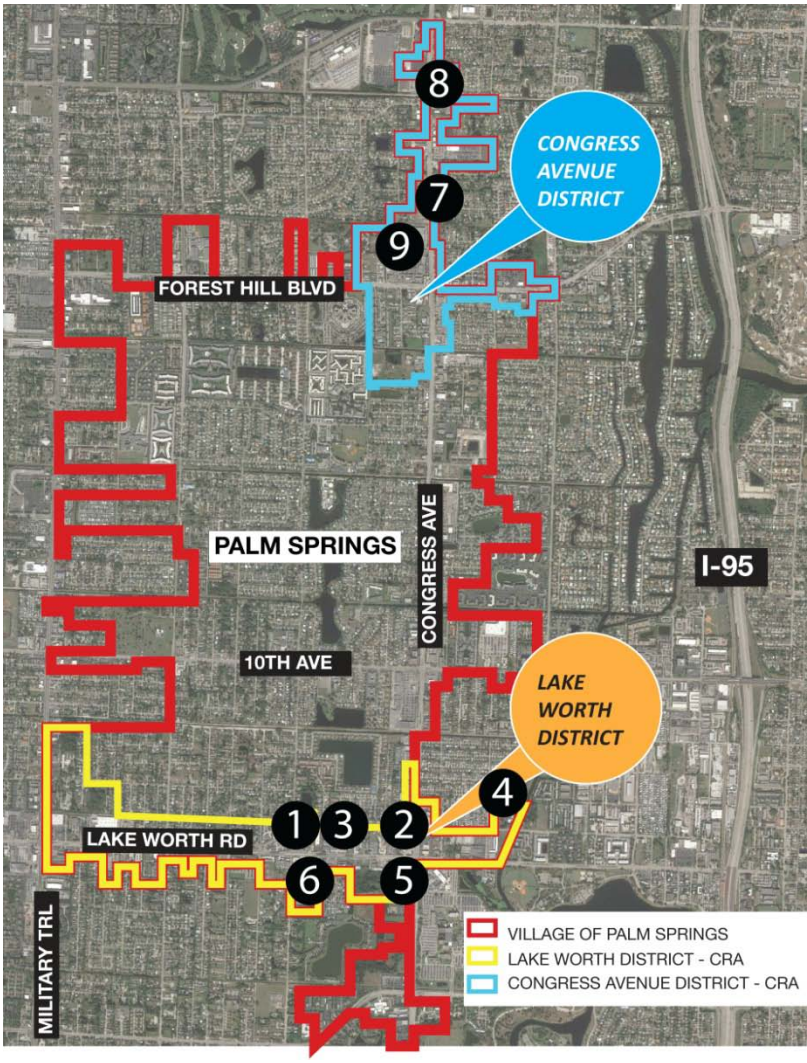

Available Land (3)

Availability/Listings

There is 53,000 square feet of available commercial spaces for the recruitment or expansion of businesses in the two districts. Additionally, as of April 2021, there are 131 residential properties available for purchase or rent for the recruitment of future residents in the Village of Palm Springs.

Private sites for potential redevelopment cover roughly 76.2 acres and include the following projects/parcels:

1. Triangle Area – 2nd Avenue and Lake Worth Road
2. 2nd Avenue and Congress Avenue
3. 2nd Avenue and Davis Road
4. 2nd Avenue and E-4 Canal
5. Lake Worth Road and Congress Avenue vacant land
6. Flea Market property and adjacent overflow parking
7. Congress Avenue (Mixed-Use Vacant Land)
8. Congress Avenue and Holly Road
9. Congress Avenue and Forest Hill (around the Oxygen Site)

As with most undeveloped and under-developed sites, the absence of development feeds into the negative aesthetics and/or perception of blight due to overgrown landscaping, inadequate fencing, broken pavement, litter, boarded up windows, etc. The CRA's authority to collaborate with private developers and landowners to contribute to the look and feel of future development is important in addressing the needs and desires of residents, employers, commuters, and tourists.

External Agency Projects

The previous CRA plan identified several capital improvement projects. Projects included infrastructure, transportation, and transit improvements. These projects remain important to the redevelopment of the corridors but should not be dependent on full CRA funding. The below projects fall under the jurisdiction of external agencies.

The CRA should pivot from this list of capital projects, and instead focus on new projects and programs. The allocation of CRA funds for the sewer force main extension within the Congress Avenue subdistrict and aesthetic improvements to transit stops should remain a funding priority.

Project	Subdistrict	Agency
Sewer Force Main Extension	Congress Avenue	Palm Beach County
Pedestrian Access Improvements	Congress Avenue	Village of Palm Springs/FDOT/TPA
Traffic Improvements	Lake Worth Road	FDOT
Drainage Improvements	Lake Worth Road	Village of Palm Springs
Pedestrian Access Improvements	Lake Worth Road	FDOT
Mid-Block Crosswalks	Lake Worth Road	FDOT
Relocation of Aerial Utility Lines Underground	Congress Avenue and Lake Worth Road	FPL
Transit Improvements (Shelters, Benches)	Congress Avenue and Lake Worth Road	Palm Beach County

Proposed Update to Comprehensive Plan Goals, Objectives, & Policies

The following Goals, Objectives and Policies should be used as guiding principles for the CRA. The Village's Comprehensive Plan should be updated to further strengthen the relationship between the Village and the CRA. Additionally, the Village's Land Development Regulations should be reviewed to ensure that they support the goals of the CRA.

Goal I: Retain and promote the CRA and Village's "small town" feel.

Objective I.I: Establish criteria that encourages infill development that enhances the Village.

Policy I.I: The Village and the CRA shall encourage development that provides neighborhood uses and appropriate destination businesses.

Goal II: Creation of Jobs.

Objective II.I: The CRA shall require new business that receive financial and in-kind support from the CRA to provide a local-hire goal.

Policy II.I: The CRA shall identify opportunities for increased economic development and employment opportunities within the Lake Worth Road subdistrict and the Congress Avenue subdistrict.

Goal III: Identify key parcels for community-serving businesses.

Objective III.I: The CRA shall identify and promote vacant storefronts and sites that will provide missing neighborhood uses.

Policy III.I: The CRA shall create a list of desired community-serving businesses.

Policy III.II: The CRA shall actively seek out desired community-serving businesses through partner organizations.

Goal IV: Protect the residential uses adjacent to the Lake Worth Road and Congress Avenue corridors.

Objective IV.I: Attract and support neighborhood-oriented businesses that contribute to the adjacent stable residential neighborhoods.

Policy IV.I: Types of uses and their environmental impact, such as noise, traffic, and hours of operation, shall be regulated through the Village's Land Development Regulations.

Objective IV.II: Create design standards for infill development that appropriately buffer the existing residential uses.

Goal V: Increase traffic safety on Lake Worth Road and Congress Avenue.

Objective V.I: Following the 2021 multi-modal study, the CRA should support the installation of bicycle lanes, speed controls and increased pedestrian comfort amenities along the CRA major corridors.

Policy V.I: Based on available funding, the CRA should enhance partner agency multi-modal improvements through the installation of street trees, transit stops, and street furniture.

Objective V.II: The CRA should design and construct an internal walkable street network that incorporates existing canals that connect into the corridors.

Proposed Update to Comprehensive Plan Goals, Objectives, & Policies (2)

Goal VI: Increase redevelopment activity on Lake Worth Road and Congress Avenue through incentives and the encouragement of parcel assemblage for quality redevelopment.

Objective VI.I: The CRA will work with the Village to encourage and incentivize lot assemblage through changes to the Land Development Regulations and streamlining the process.

Objective VI.II: The Village shall conduct a study to determine if impact fee abatement is a viable incentive program.

Policy VI.I: The CRA shall provide financial incentives and programming support for desired redevelopments.

Goal VII: Leverage proposed transportation projects.

Objective VII.I: The CRA shall promote transportation projects to potential developers.

Policy VII.I: The CRA should identify partner agency transportation projects and use them to attract quality redevelopment.

Goal VIII: Provide infrastructure to allow for sustainable business growth.

Objective VIII.I: Design, construction, and maintenance of sanitary sewer on Congress Avenue will allow for a growth and diversification of businesses.

Policy VIII.I: The CRA shall enter into an interlocal agreement with the Village and Palm Beach County to extend the sanitary sewer on the Congress Avenue.

Objective VIII.II: The funding of the design and construction of sanitary sewer on Congress Avenue by the CRA will lead to increased TIF revenues due to private redevelopment and highest and best uses.

Policy VIII.II: The future sanitary sewer shall be designed to support a growth in uses along the corridor.

TIF Projections

The following Tax Increment Financing (TIF) charts show the 30-year projection for each CRA sub-district based on no changes to the Village's millage rate and a 3% TIF growth rate. The final chart is the full CRA and includes the financing capacity for the CRA at each annual interval.

Lake Worth Road District

	Lake Worth Road District	LWR Increment	LWR TIF
2019 PBC Baseline	$ 161,860,986		
2020 Final Value	$ 171,184,347	$ 9,323,361	$ 62,000
2021 Preliminary Value	$ 174,245,865	$ 12,384,879	$ 86,694
2022	$ 179,473,241	$ 17,612,255	$ 123,286
2023	$ 184,857,438	$ 22,996,452	$ 160,975
2024	$ 190,403,161	$ 28,542,175	$ 199,795
2025	$ 196,115,256	$ 34,254,270	$ 239,780
2026	$ 201,998,714	$ 40,137,728	$ 280,964

2048	$ 378,629,741	$ 251,337,072	$ 1,759,360

TIF Projections (3)

For the CRA to accomplish its capital improvement projects, it must consider two courses of action. The first option includes using TIF funds early on smaller, but impactful projects that support creating a destination and placemaking. The second option is to seek financing through municipal bonds or even traditional banking.

	CRA Total Value	CRA Increment	CRA TIR	New Construction	Debt Service Capacity	Debt Capacity*
2019 PBC Baseline	$ 289,153,655					
2020 Final Value	$ 306,779,589	$ 17,625,934	$ 117,212			$ -

Economic Development Strategic Plan: Key Strategies and Work Plan

These strategies are based on the companion Market Analysis to promote investment and revitalization. The following strategies create the framework for the Work Plan.

Check the box as items are implemented.

CRA Governance

- Based on CRA goals and strategies, design and create an operational structure within the Village of Palm Springs for existing staff to undertake and implement programs and initiatives. These individuals will have specific skill sets that will carry out the mission, vision, and role of the CRA in compliance with state statutes. ☐
- Invest in professional CRA Board development including training, certifications, and conferences. ☐
- Negotiate the role of the CRA in an interlocal Agreement for the Congress Avenue force main extension project. ☐

Business Attraction and Recruitment

- Local Investment ☐
    - Partner with existing property owners to remove blight through facade improvements, uniform signage, landscaping, etc.
    - Partner with property owners to recruit complementary businesses and uses.
- Incentives and Grants ☐
    - Create guidelines and incentives to recruit and retain desired authentic retail and restaurant uses for vacant storefront spaces.
    - Create incentives to encourage desired authentic uses for vacant parking lots.

Safety, Code Enforcement, and Policy Guidelines

- Implement concentrated community policing efforts and enhanced code enforcement to address disproportionate number of police calls for service within the CRA. ☐
- Examine code violations as a basis for initial steps to blight removal and prevention of future blight. ☐
- Create design guidelines for each respective district to include facade and fencing preferences. ☐

Governmental Advocacy and Lobbying

- Collaborate with County staff and elected officials on the allocation and implementation of American Rescue Plan Act funding for eligible projects such as Lake Worth Road infrastructure for stormwater improvements. ☐
- Identify and advocate for grants to leverage tax increment revenue. ☐

Create an Identity

- Capitalize on the opportunity to create an identity authentic to the Lake Worth Road District. ☐
- Capitalize on existing employers to create an identity authentic to the Congress Avenue District. ☐
- While investing in sewer infrastructure on Congress Avenue, also incorporate and upgrade streetscaping by partnering with Complete Streets and the Department of Transportation. ☐
    - Improve resident, tourist, and employee pedestrian safety.
    - Improve corridor aesthetics.
    - Incorporate wayfinding signage to create a sense of place.
    - Incorporate sidewalk seating and trash receptacles.

CRA Work Plan

The CRA Work Plan is an action-based program, supported by a 2021 Market Analysis, that will lead the CRA towards programmatic growth and success. Based on the five economic drivers of Land, Labor, Markets, Regulation, and Capital the Work Plan provides an opportunity for the CRA to shift from just a capital improvement-based program to a holistic approach to redevelopment.

LAND

Aesthetics and Beautification

Aesthetics are one of the most important elements of attracting investment and this plan identifies aesthetic and safety improvements which must be implemented to maximize the potential to attract new commercial and residential investment. The strategies range from short-term to long-term, keeping in mind some are low-cost and others high-cost items. The following strategies are recommended to impact the aesthetics and beautification of the CRAs.

- Review code violation hot spots and/or areas for initial steps to blight removal and prevention of future blight.
- Create and implement "Community Clean-Up Program" or "Decode Day" campaigns to provide a system for community participation and business partnerships in neighborhood cleanup and maintenance.
- Increase funding for existing housing rehabilitation programs to address aging housing stock.
- Create design guidelines for each respective district to include facade and fencing preferences.
- Partner with public and private property owners for public art installations to include murals, utility boxes, bus shelters, and outdoor sculptures.
- Follow-through on the Lake Worth Road and Congress Avenue streetscaping projects by partnering with relevant external agencies.

CRA Work Plan (2)

Branding, Marketing, and Promotion Identity

Creating a brand sets the foundation for how residents, commuters, and visitors feel and think about a place. By utilizing and capitalizing on community input and recent asset mapping, the CRA will be in a position to implement branding and placemaking for the distinct Congress Avenue and Lake Worth Road subdistricts, which stretch roughly 1.85 miles and 1.47 miles respectively.

- Create an identity for each district to cover design guidelines, desired commercial and residential uses, signature community events, and logos.
- Incorporate wayfinding signage to create a sense of place.
- Create an online map with list of authentic local businesses.
- Highlight the area's healthcare, medical, and cosmetic assets, including nearby assets that positively impact the area's economic development but which may not be in the CRA boundaries (i.e. Palm Beach State College).
- Install proper shelter bus stations with wayfinding maps.
- Develop a multi-lingual communication program for CRA initiatives, destinations, and events with a focus on Creole and Spanish languages.
- Capitalize on existing employers in the Congress Avenue District by building meaningful relationships with the goal of improving quality of life for employers, employees, and existing residents.
- Capitalize on G-Star High School of the Arts for Film, Animation and Performing Arts by building a collaborative relationship with this key destination partner that has international and domestic name recognition.

Placemaking

Utilizing strategic locations and properties to increase connections between people and places fosters new development, while also supporting previous development.

- Create an authentic downtown-type destination events for residents and visitors.
- Incorporate and enhance thriving multicultural businesses.
- Identify strategic visible locations for pop-up events to include street closures, food trucks, string lights, mobile vendors, artists, etc.
- Connect with and engage residents on social media.
- Identify key commercial property owners to partner with to improve aesthetics, sense of place, and to create community gathering spots.
- Partner with existing Drive-In theatre to diversify events for the community and attract new visitors to the CRA.
- Capitalize on the consistent local and regional foot traffic of Saturday visitors to create new gathering places.

CRA Work Plan (3)

Transportation, Traffic and Parking

Both CRA districts have the potential for increased multi-modal transportation initiatives given the Lake Worth District spans 1.85 miles and the Congress Avenue District 1.47 miles.

- Pursue partnerships for Canal-Oriented Development including destination Blueway and Tri-Rail Connections.
- Improve canal paths to Congress Avenue and canal path to shopping center.
- Improve resident, tourist, and employee pedestrian safety with the implementation of a Lake Worth Road Complete Streets project in collaboration with FDOT and Palm Beach County.
- Improve corridor aesthetics.
- Provide shade trees along promenade and/or other shading devices.
- Incorporate sidewalk seating, benches, and trash receptacles.
- Increase east-west sidewalks for neighborhood connections.
- Restrict vehicular access and convert select roadways to pedestrian promenade or multi-use path.
- Create an internal walkable street network starting with gateway intersections.
- Consider 2nd Avenue North from Lake Worth Road to the canal with improvements at 2nd Avenue and Congress Avenue, along with improvements at Lake Worth Road and 2nd Avenue North.
- Consider future signalized intersection at Davis Road and Lake Worth Road to enhance north-south connectivity, address safety issues at the unprotected intersection, and create better gateway into the heart of Village.
- Incorporate and upgrade streetscaping by partnering with Complete Streets and the Department of Transportation as part of the Congress Avenue sewer project.
- Provide site–specific “festival street” modifications to include removal of select curbs to encourage pedestrian-friendly outdoor dining and destination events.

Business Attraction and Recruitment

Given the amount of vacant and underutilized land, significant opportunities exist for the recruitment of commercial retail and job creating businesses. Because much of the land is privately held, the CRA will need to partner with developers or acquire land for public-private partnerships. The following attraction-related strategies are recommended to impact desired development.

- Partner with existing property owners to remove blight through facade improvements, uniform signage, landscaping, fence replacements, etc.
- Partner with property owners and economic development partners to recruit complementary businesses and uses for visitors and inbound employees.
- Acquire land for RFP strategic partnerships.
- Identify partners for the creation of a business incubator or shared workspace for entrepreneurs and creatives.

CRA Work Plan (4)

- Conduct a broker/banker/developer event to introduce the private sector to city decision makers and present the opportunities and plans to them.
- Develop relationship with commercial real estate brokers, including brokers that do not currently work in Palm Springs but who can be recruited to bring a fresh, honest, updated understanding of the market.
- Reach out to religious institutions to determine future development plans and applicable development programs.
- Create and maintain an inventory of key opportunity sites within the CRA boundaries.
- Reach out to property owners of large vacant parcels or surface lots in the burgeoning cosmetics district.
- Reach out to property owners of the Congress Avenue and Lake Worth Road property, a key site for destination development.
- Partner with developers on housing and hotel projects

LABOR

The Labor and Employment analysis contains current data related to existing residents, area employment centers, commuters, drive-through traffic counts, and tourists visiting the area for destination retail or attractions. The top workforce industries for Palm Springs residents are in Construction, Health Care & Social Assistance, and Retail Trade. The area's largest employer, a cosmetics manufacturer accounts for most of the inbound worker traffic with relatively few of those employees living in Palm Springs. Unemployment in the Village of Palm Springs is slightly higher percentage-wise than nearby Palm Beach County, with roughly 1,188 unemployed residents as of March 2020. Opportunities exist related to workforce training, along with the development of a creative industry cluster utilizing the following strategies.

- Partner with workforce providers and workforce training partners.
- Promote and/or incentivize training programs related to Retail Trade, Educational Services, and Accommodation & Food Services, where there are job surpluses and not enough workers to fill the open positions.
- Partner with educational institutions and partners to assist non-English speaking immigrants access workforce training programs and job opportunities.
- Partner with nearby healthcare institutions to grow health care related industries.
- Participate in workforce housing and housing rehabilitation initiatives to increase housing stock for inbound commuting employees.
- Partner with the County's economic development partnership and the Florida Film Office to create a film and entertainment cluster around G-Star Academy.

CRA Work Plan (5)

MARKETS

A more detailed description of the opportunities for the Markets can be found in Appendix 1 (Palm Springs CRA Opportunities Sites Report) and Appendix 2 (Market Assessment). The CRA contains a fairly stable residential community. Income challenges exist but given the housing density, CRA purchasing power is significant. Median Household income is $40,630, while the Average Household Income is $55,392 providing evidence of neighborhood stability without the outside pressures of higher-wage earners moving into the community. Where there has been an increase in new residents, the majority have language barriers impacting access to employment. Included in the Labor strategies are targeted recommendations for newcomers.

Strong consumer spending exists outside of the CRA, within a 15-mile drive-time. The key is partnering with existing retail developers and providers to create products and offerings for destination retail within the CRA. Select Business Attraction and Recruitment and Placemaking strategies are provided to address retail needs, given positive foot traffic and commuters with disposable income frequently coming into and driving-through the CRA boundaries. Much of the traffic counts and foot traffic are driven by the area's key assets.

Key Area Assets:

- Fulton-Holland Educational Services
- G-Star School of the Arts
- JKF Medical Center
- Lake Worth Swap Shop and Drive In
- Off-Lease Only
- Oxygen Development
- Palm Beach State College

CRA Work Plan (6)

CAPITAL

Access to capital strongly influences the type of development and development deadlines. Financial institutions frequently partner with the public sector on projects with community impact and/or a community benefit component including the incorporation of public spaces, recreational amenities, or income-restricted housing. As developers and private property owners design projects and seek financing, the CRA is well-positioned to provide gap financing to influence development for the benefit of residents and visitors. Strategies related to capital and tax increment revenue include the following items.

- Capitalize on current intergovernmental capital projects through private partnerships to encourage redevelopment adjacent to or in close proximity to the Congress Avenue Sanitary Sewer Force Main project; Lake Worth Road Multimodal Corridor Improvements; Lake Worth Road Drainage Improvements; and the proposed Complete Streets and Multi-Modal Improvements.
- Direct and assist project owners to other funding sources to leverage potential CRA investments.
- Partner with the County on the implementation of Department of Transportation grants, recruitment of Opportunity Zone Funds, identification of New Markets Tax Credit allocations, and programming of American Rescue Act dollars.

CRA Work Plan (7)

REGULATIONS

Regulations in the world of economic development are often tied to whether a community is business-friendly. The ease in doing business in a particular area or with a particular government department or entity is critical to the recruitment of private investment to the CRA. A review of land use and zoning designations found regulations compatible with community input on desired development. As a result, strategies and recommendations are primarily tied to intergovernmental collaboration and required CRA staffing.

- The Village's Land Development Regulations have an extensive list of Special Exceptions. These Special Exceptions should be reviewed to determine if they align with the goals of the CRA.
- The Village should consider a CRA zoning overlay that streamlines the process and provides procedural and intensity/density incentives for targeted industries.
    - It is recommended that the Village develops a built-out master plan scenario(s) for the CRA areas in which the community vision is graphically represented. Then attract investment that will develop parts of the master plan in a cohesive manner.
    - Having a predictable notion on what the regulations ask for in specific sites, will give the Village an edge and flexibility to achieve the tangible results desired by the community.
- Based on CRA goals and strategies, long-term the Village should create an operational staffing structure and accompanying operating budget to include a dedicated director and support staff for implementation of programs and initiatives.
- Identify and collaborate with governmental partners involved in the development process, including the Lake Worth Drainage District and the South Florida Water Management District.
- Identify governmental stakeholders and roles for an interlocal Agreement and coordination for the Congress Avenue force main extension project.
- Promote the College-Hospital Overlay (CHO) to encourage retention and recruitment of medical technology uses and higher education research and commercialization grants.
- Promote College-Hospital Overlay (CHO) to encourage retention and recruitment of medical technology uses and higher education research and commercialization grants.

CRA Work Plan (8)

IMPLEMENTATION PLAN

The following implementation plan presents a timeline and sequence by which the projects and programs identified within the Redevelopment Plan may be implemented. Several of the projects are sequential, multi-stage projects and require consecutive year schedules and funding. Other projects may be listed later on the implementation timeline in order to utilize anticipated TIF revenues. All redevelopment financed by TIF revenues will be completed by the end of the 2049-2050 fiscal year.

The implementation plan presents a three-year Action Plan addressing immediate cost-effective actions that may be initiated by the CRA and baseline activities that will enable the implementation of projects and programs identified in the Long-Term Implementation Plan.

Three-Year Action Plan

The three-year Action Plan presents proposed activities and tasks that lay the groundwork for implementation of long-term development programs and encourage long term private investment within the CRA. The first three years' tasks rely heavily on Village staff (assistance with work in-house) as the primary resource to minimize immediate impact upon the TIF revenues. Subsequent years' activities, years 3-10, are preliminary tasks and actions that require refinement of the CRA's redevelopment strategy to prioritize utilization of TIF revenue and alternate funding sources.

Long Term Implementation Plan

The Long-Term Implementation Plan presents activities and tasks that build upon the tasks identified in the Three-Year Action Plan and begins to implement the programs identified during compilation of the Finding of Necessity Reports. The list of proposed activities and projects identified is not complete or exhaustive and should be utilized by the Village as resources and opportunities present themselves.

Palm Springs CRA
10-Year Work Program

The CRA Work Plan is an action-based program that will lead the CRA towards programmatic growth and success. Based on the five economic drivers of Land, Labor, Markets, Regulation, and Capital the Work Plan provides an opportunity for the CRA to shift from just a capital improvement-based program to a holistic approach to redevelopment.

Green: These items generate and/or creates tax increment revenue.
Red: These items spend and/or do not contribute directly to tax increment revenue.
Yellow: These items could either create or spend tax increment.
