Village of Palm Springs

Title VI/Nondiscrimination Policy

I. Policy Statement:

The Village of Palm Springs values diversity and welcomes input from all interested parties, regardless of cultural identity, background, or income level. Moreover, the Village believes the best programs and services result from careful consideration of the needs of all its communities and when those communities are involved in the decision-making process. The Village does not tolerate discrimination in any of its programs, services, or activities. Pursuant to Title VI of the Civil Rights Act of 1964 and other federal and state authorities, the Village will not exclude from participation in, deny the benefits of, or subject to discrimination anyone on the grounds of race, color, national origin, sex, age, disability, religion, or family status.

II. Persons with Disabilities:

Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA) and related federal and state laws and regulations forbid discrimination against those who have disabilities. These laws require federal-aid recipients and other government entities to take affirmative steps to reasonably accommodate those with disabilities and ensure that their needs are equitably represented.

The Village will make every effort to ensure that its facilities, programs, services, and activities are accessible to those with disabilities. The Village will also make every effort to ensure that its advisory committees, public involvement activities and all other programs, services and activities include representation by communities with disabilities and disability service groups.

The Village encourages the public to report any facility, program, service, or activity that appears inaccessible to those who are disabled. Also, the Village will provide reasonable accommodation to individuals with disabilities who wish to participate in public involvement events or who require special assistance to access facilities, programs, services, or activities. Because providing reasonable accommodation may require outside assistance, the Village asks that requests be made at least three (3) business days prior to the need for accommodation. Questions, concerns, comments, or requests for accommodation should be made to the Village ADA Officer:

The Village has established a discrimination complaint procedure and will take prompt and reasonable action to investigate and eliminate discrimination when found. Any person who believes that he or she has been subjected to discrimination based upon race, color, national origin, sex, religion, age, disability or family status in any Village program, service or activity may file a complaint with the Village Title VI/Nondiscrimination Coordinator:

Village of Palm Springs

Executive Brief

AGENDA DATE: September 8, 2022

DEPARTMENT: Police Department

ITEM #1: Approve Vehicle Towing and Storage Services Agreement Piggyback Police Department Priority Towing Inc.

SUMMARY: The Police Department has a daily need to tow vehicles for a multitude of purposes including, but not limited to, crashes, disabled vehicles, illegally parked vehicles, and department vehicles that break down. There is also a need to tow any other Village vehicles that become disabled. The Police Department requests that the Village piggyback on an existing contract that was vetted via an Invitation for Bid (IFB 22-107) process by the City of Lake Worth Beach. Their contract went into effect on July 27, 2022, expiring on July 26, 2025, and may be extended for two additional one-year periods. The contract establishes the rates for the towing of Village vehicles (Schedule B) and the anticipated per mile fee (Schedule C). It provides for a remittance back to the Village for each tow the contractor provides for the public during the term of the contract (Exhibit A).

The Village Attorney has reviewed the contract and determined it to meet the Village's requirements for piggybacking and, as such, has provided an Agreement for Vehicle Towing and Storage Services between the contractor (Priority Towing) and the Village, limiting the term to the expiration of the City of Lake Worth Beach's term.

The Village's Purchasing Code, Section 58-9 - Accessing contracts of other government agencies, provides that the Village may award a contract by piggybacking or accessing the goods and/or services from any State of Florida contract; contracts of any Florida political subdivision; or from any other governmental entity (other than the Federal government); provided that the same or substantially similar goods and/or services were competitively solicited.

The Agreement was prepared by the Village Attorney and was reviewed by the Police Chief, the Police Support Services Manager, and the Finance Director.

FISCAL IMPACT:

The only cost to the Village would be towing services for Village-owned vehicles. This is a set fee (Schedule B and C) at a reduced rate from what the Village currently pays for towing.

As part of the Agreement, the remittance will be paid to the Village based on the number of vendor vehicle tows for the public. The Police Department's estimated number of public tows to be completed by the proposed vendor yearly is approximately five hundred (500). Based on Exhibit A, the Village could net up to \$20,875. This number will increase and/or decrease depending on the number of tows during the proposed contract period.

The Village will not expend more than the amount in the approved budget as it may be adopted/amended each year for these goods and services over the term of this contract.

The CONTRACTOR agrees to assume liability for and indemnify, hold harmless, and defend the VILLAGE, its council members, mayor, officers, employees, agents, and attorneys of, from, and against all liability and expense, including reasonable attorney's fees, in connection with any and all claims, demands, damages, actions, causes of action, and suits in equity of whatever kind or nature, including claims for personal injury, property damage, equitable relief, or loss of use, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR, its agents, officers, Contractors, subcontractors, employees, or anyone else utilized by the CONTRACTOR in the performance of this Contract. Notwithstanding anything to the contrary in this Section, the CONTRACTOR shall not assume or maintain control of the defense of any third party claim, but shall pay the fees of counsel retained by the VILLAGE and all expenses, including experts' fees, if (i) an adverse determination with respect to the third party claim would, in the good faith judgment of the VILLAGE, be detrimental in any material respect to the VILLAGE's reputation; (ii) the third party claim seeks an injunction or equitable relief against the VILLAGE; or (iii) the CONTRACTOR has failed or is failing to prosecute or defend vigorously the third party claim. Such written addenda or modification shall be part of the Bid documents and shall be binding upon each Bidder. Each Bidder is required to acknowledge receipt of any and all addenda on the bid form. No Bidder may rely upon any oral or verbal modification or interpretation in preparing its bid. No interpretation of this IFB will be made for any bidder, except by written addendum. Questions or requests for clarification directed to any other member of the City staff may be grounds for rejection of the bid as being irregular.

15. **ACCEPTANCE; REJECTION; CANCELLATION.** In accordance with the City’s procurement code, this IFB may be cancelled and may or may not be re-bid when determined to be in the best interests of the City. Any or all bids may be accepted or rejected in whole or in part, when determined to be in the best interests of the City. The City also reserves the right to reject the bid of any Bidder who has previously failed in the performance of an award or to deliver contracts of a similar nature on time or who is not in a position to perform properly under this award. The City reserves the right to investigate all bids, references and inspect all facilities of bidders. Any bid received without an authorized signature or after the submittal deadline may be rejected.

Any withdrawal or cancellation of this IFB, either before or after selection of a bidder, shall be without liability or obligation on the part of the City or its employees. Any action, selection or failure to select a successful bidder to this Invitation for Bid shall be without any liability or obligation of the part of the City or its employees.

The City reserves the right to waive any non-material irregularities and technicalities, except timeliness and signature requirements. If a bid is late or unsigned, the City reserves the right to investigate the matter further and make a determination as to the materiality of the matter. prices that are, in the opinion of the City, unbalanced either in excess or below the reasonable cost analysis values; and/or, 7) bids are in excess of the approved budget for the project.

16. **SELECTION OF BIDDER WITH WHOM TO CONTRACT.** It is the intention of the City to award this IFB to the bidder or bidders who is/are determined to be the most responsive and responsible bidders taking into consideration the highest revenue, lowest cost to the City, and the claimed preferences. If more than one bidder is to be awarded, the City will in its sole discretion determine how the award will be allocated among the selected bidders taking into consideration the difference in the awarded bids and an allocation that represents the City's best interests. For example, the allocation may be into zones, which may or may not be of equal size or equal service needs.

Points will be calculated as follows:

(1) Schedule A - Anticipated Revenue to the City: Maximum 100 Points

25% of the maximum listed towing rate x estimated annual tows for all categories = Total Schedule A
(Maximum Total = 48,925.00 = 100 points)

Bidder's points will be calculated using the following formula:

Bidders total offer for Schedule A / 48,925 X 100 = Bidders Points

(2) Schedule B - Anticipated Cost to the City: Maximum 100 Points
--

Lowest Offer for Schedule B = 100 points

Bidder's points will be calculated using the following formula:

Lowest Bidder Total for Schedule B / Bidder Total for Schedule B X 100 = Bidders Points

(3) Bidder claiming Veteran Business Enterprise Preference, Local Business Preference or Small Business Preference: Maximum 5 points

Each Bidder may be assigned maximum of 205 points
--

TOWING SERVICES

The selected Bidder(s) will be responsible for providing towing services during the contract term 365 days per year for the City or its assigned zone (in the event of multiple awards).

If the City awards to two Bidders, the City anticipates that the City will be divided into at least two zones. By way of example and not as a limitation of the City's right to award to one or more than two (2) bidders, Zone A and Zone B would conceptually be divided as follows:

Zone A. Zone A will encompass the northern portion of the City and Zone B will encompass the southern portion. The dividing line between the two zones will start at the western most border of the City on Lake Worth Rd and continuing east until the rotary where it will follow along Lucerne Ave until it reaches the bridge across the inter coastal waterway. From this point the eastern boundary of Zone A will extend north to the City border and then follow the border east until it reaches the western City border where it will extend south until it reaches Lake Worth Rd and completes the zone. To avoid confusion Lake Worth Rd and Lucerne Ave, being the dividing lines between the zones, will be considered to be in Zone A.

Zone B. The north border of Zone B will follow the same line from the western border of the City along Lake Worth Rd and down Lucerne Ave until it reaches the bridge across the inter coastal waterway and then continue over and follow the City's border around the beach property and then return back and turn south until it reaches the southern-most border of the City. From this point the southern boundary of Zone B will follow the south border of the City west until it turns north. The Western boundary of Zone B will then follow the west border of the City until it reaches Lake Worth Rd and completes the zone.

A map outlining the above mentioned potential zones is attached as an Appendix "B" to this IFB. However, the City reserves the right to award to one Bidder or more than two Bidders depending on the bids received and in comparing the bids received against the criteria set forth in this IFB.

PBSO Directed

The selected Bidder(s) shall tow vehicles incapacitated as a result of an accident and the owner cannot or will not secure the services of his/her own towing service. The selected Bidder(s) shall tow other vehicles upon request by PBSO.

The selected Bidder(s) will be given first call for all wrecker services requested by the City unless a motorist makes a specific request for another wrecker. The City reserves the right to request another wrecker

service in an emergency situation. The selected Bidder(s) shall charge for the tow and/or storage of any vehicle directly to the owner or operator thereof, and not to the City. The charges will be in accordance with the proposed rate schedule. Vehicles towed and/or stored under the provisions of this contract shall only be taken to the approved storage location or to a location approved by the owner for a non "Hold" vehicle.

City Directed

The selected Bidder(s) shall tow upon request of the City's Representative or their designee any City-owned vehicle in need of a tow. This service includes but is not limited to towing vehicles to the nearest authorized repair center in Florida, auction sites, City facilities, or from an accident scene. The City will make all efforts to only request a tow for vehicles that are not road safe or cannot be driven on the roadway.

The selected Bidder(s) is not required to provide towing or retrieval of vehicles/vessels sunken in lakes, canals, or the ocean at no charge. The City may request a quotation should this situation arise.

RESPONSE TIME

The selected Bidder(s) shall respond within thirty (30) minutes with appropriate towing equipment to handle a towing call requested by any authorized representative of the City.

In the event that the call for a wrecker is for a non-emergency towing service of a City vehicle, then the response time shall be sixty (60) minutes or when advance notice is provided, the selected Bidder(s) shall perform the tow on the scheduled date and time. The selected Bidder(s) shall be ready with appropriate towing equipment to handle the call.

When the driver is present at the scene, the selected Bidder(s)'s representative shall provide to the driver of the vehicle being towed a contact card with their company information, driver name, and location where the vehicle is being towed to.

The selected Bidder(s) assumes all liability in meeting the required response time including, but not limited to, all damages resulting from traffic accidents and motor vehicle infraction fines. The City may conduct periodic reviews of response time to verify that the selected Bidder(s) is in compliance.

The following late fees shall apply to the selected Bidder(s), for failure to respond within the required time frame during the term of the contract:

Written appeal shall be submitted to the attention of the City's Manager, within five (5) days of offense letter from the City in order to be considered. The City Manager shall consider all appeals and the City Manager's decision shall be final.

SERVICE CALL CANCELLATION

The City reserves the right to cancel a request for services of the selected Bidder(s) at any time, including up to the time of hook-up of the vehicle. The selected Bidder(s) shall agree that the mere response to a service call scene without other action does not constitute a service call for which charges are applicable.

SITE CLEAN-UP

The selected Bidder(s) when towing vehicle(s) from the scene of an accident will be responsible for removing from the street all broken glass and other non-hazardous matter that may be in the street as a result of the accident. The cost of such normal accident cleanup shall be included in the basic towing rate and no separate charge made to the City or vehicle owner. Normal accident clean up includes items such as oil dry, or other necessary chemicals to clean the site. If clean-up results in excess of thirty (30) minutes the selected Bidder(s) may bill the owner(s) of the vehicle(s) at the Palm Beach County rates.

In the event the accident creates a major oil or fuel spill, or other unusual circumstance that requires additional selected Bidder staff or equipment, the cost of such staff or equipment shall be charged to the vehicle owner. Such unusual circumstance would include the spillage of what the vehicle was hauling. The owner of the vehicle may be charged for clean-up of hazardous wastes, chemicals, construction debris and spilled loads.

ADMINISTRATIVE CHARGES

All disputes concerning the selected Bidder(s)'s ability to meet the specified requirements of the agreement will be referred to the City's Public Works Director to determine the merits of the dispute.

The City and selected Bidder(s) acknowledge and agree that it is difficult or impossible to accurately determine the amount of damages that would or might be incurred by the City due any failures in performance of this agreement. Accordingly, the selected Bidder(s) agrees to the established terms and amounts of the administrative charges set forth herein, and the selected Bidder(s) agrees that the administrative charges are reasonable under the circumstances. The selected Bidder(s) has consulted with their legal counsel and confirmed that these administrative charges are appropriate. Therefore, the following administrative assessments shall constitute liquidated damages, not penalties, for the selected Bidder(s)'s breach of the resulting contract.

Procedure for Assessing Administrative Charges

The City's Contracts Manager Representative shall conduct a preliminary evaluation of the relevant facts before the Contract Manager Representative decides whether administrative charges should be assessed against the selected Bidder(s). At a minimum, the Contract Manager Representative shall provide written notice to the selected Bidder(s), and offer to discuss the relevant facts with the selected Bidder(s) within five (5) Operating Days after the date of the notice. Following this discussion (if any) or the expiration of the five (5) Operating Day period, whichever occurs first, the Contract Manager Representative shall determine whether administrative charges should be assessed. However, the City shall not assess and the selected Bidder(s) shall not be required to pay administrative charges in those cases where the delay or failure in the selected Bidder(s)'s performance was (a) excused in advance by the Contract Manager Representative or (b) due to unforeseeable causes that were beyond the Contractor's reasonable control, and without any fault or negligence of the selected Bidder(s).

Prior to assessing administrative charges, the Contract Manager Representative shall provide written notice to the selected Bidder(s), indicating the City's intent to assess administrative charges and the basis for the City's position.

After receiving the Contract Manager Representative's letter, the selected Bidder(s) shall have ten (10) Operating Days to file a written letter of protest with the Contract Manager Representative.

If a protest is timely filed, the matter shall be referred to the City Manager for resolution. The City Manager shall review the issues in a timely manner and then provide a written decision to the selected Bidder(s). The City Manager's decision shall be final and non-applicable.

If a protest or petition is not timely filed by the selected Bidder(s), or if the City Manager concludes that administrative charges should be assessed, the selected Bidder(s) shall deliver its payment of administrative charges to the Contract Manager Representative within twenty (20) days of receiving the written decision of the Contract Manager Representative or City Manager, as applicable. Executive Brief

AGENDA DATE: September 8, 2022

DEPARTMENT: Administration

ITEM #3: Resolution No. 2022-38 - Purchasing (Food/Refreshments and/or Gift Cards and Premiums)

SUMMARY: During Village events/functions/occasions, the Village may have the need to provide food/refreshments and/or gift cards to Village officials, employees, other local officials/employees, residents and citizens at a de minimus cost to the Village.

The Village Council previously made a determination, via Resolution No. 2015-102, that the provision of occasional food/refreshments/gift cards in the provision of Village services and Village events/functions serves a valid public purpose, is beneficial to the Village, its officials, employees, its partnerships and its residents and enhances the general welfare of the Village and its residents.

Staff is recommending an expansion of the list of identified events/functions for clarification and transparency. The expanded list includes food, refreshments and premiums including:

- Premiums (such as wellness raffle prizes)
- Food/refreshments at employee engagement events, such as "brown bag" lunch discussions with the Village Manager
- Activities or programs that advance organizational values and excellence practices
- Food/refreshments at training, such as leadership or performance management training, as approved by the Village Manager

FISCAL IMPACT:

There is no direct fiscal impact on the proposed policy modification. The provision of occasional food/refreshments/premiums/gift cards is subject to budget allocations for the same.

Village of Palm Springs

Executive Brief

AGENDA DATE: September 8, 2022

DEPARTMENT: Planning, Zoning & Building

ITEM #5: Site Plan Amendment (SPR22-06) and Special Exception Use (PSSE22-03) - Triomphe Restaurant and Lounge - 4206-4208 Lake Worth Road (Quasi-Judicial Hearing Continued from August 18, 2022 Village Council Public Hearings)

SUMMARY: Mr. Scott Ehrenberg of Berg Design, Inc., agent for the tenant Triomphe Restaurant & Lounge, LLC, "applicant", is requesting a Site Plan Amendment (SPR22-06) and Special Exception Use (PSSE22-03) to allow the conversion of a 7,080 square feet of retail-office space into a restaurant located on a 4.25-acre parcel that is located at 4236 Lake Worth Road. The proposed tenant will be occupying two (2) tenant bays within the existing Commercial General (CG) shopping center (4206-4208 Lake Worth Road).

Note: The 4.25-acre property was annexed into the Village in 2014 as a developed parcel with a total of 40,240 square feet of building area within two (2) commercial structures.

Previously, the applicant requested a special exception to allow a restaurant to be used by a private club and also requested a relief from the Code to allow business operations to commence at 8:00 am and to be extended until 2:00 am on Sundays, rather than from 12:00 pm to 11:00 pm, as it is required for establishments that dispense alcohol beverages for on-premise consumption and the allowance to operate later than 11:00 pm on premises located within 54 feet from a residential district rather than the required 250 feet.

The Planning and Zoning Board considered the application during their March 8, 2022, meeting and recommended denial. The Board's concerns included illegal operations without proper approval, serving alcoholic beverages without proper licenses, inconsistency with residential uses surrounding the property, noise to be generated, and extended hours of operations. The applicant requested their item be postponed at the April 14, 2022, Village Council meeting to revise their application. The Applicant was not present at the August 18, 2022, Regular Meeting. Council made a motion to postpone to the date of September 8, 2022, the Village Council Regular Meeting.

The applicant revised the application to remove the special exception requested for private club use and withdrew the two requested variances on May 17, 2022. This newly revised application is for the special exception and site plan amendment required for the proposed restaurant use.

On July 12, 2022, the Planning and Zoning board voted against the project, recommending denial based on the applicant's justification statement describing that the expanded seating capacity of the restaurant will provide "a location for weddings, funerals, birthdays," and the floor plan provides for a large (33'x15') raised floor for live entertainment, thus the proposal continues to have the characteristics of a Banquet Hall. Staff and advisory board members addressed deficiencies in the

application and expressed concerns that enforcement of the restaurant use would be difficult.

The applicant revised the application to remove the large (33' x 15') raised floor for live entertainment, enlarged the kitchen area, and revised the justification statement to comply with the code for restaurant use only.

Note: There are concerns from staff considering the applicant has operated illegally without a Certificate of Occupancy issued from the Village. There are reports of alcohol being served without proper credentials, and with minors being present. Further, there are reports of construction work completed without a building permit, and the proposed restaurant being converted into a banquet hall and subject to code enforcement. Additionally, the staff is concerned about ongoing complaints that will divert Code and Police attention from the focus of eliminating blight and enhancing safety.

Despite the concerns outlined above, the Planning, Zoning, & Building Staff, as well as the Community Redevelopment Agency (CRA) Staff **do not** object to the proposed special exception use and site plan amendment and recommend conditional approval of the proposed restaurant use requested.

Resolution No. 2022-13 was advertised in the Lake Worth Herald on Thursday, August 4, 2022.

FISCAL IMPACT:

The proposed project is not expected to have a direct fiscal impact on the Village. However, if approved, this project would require various Village services that will result in increased expenditures to the Village.

Recommendation			
Planning, Zoning and Building Staff has concerns considering that the applicant has operated illegally without Village-issued Certificates of Occupancy, reports of the business serving alcohol without proper credentials and with minors present, construction work done without building permits and that the proposed restaurant will be converted into a banquet hall and will become subject to code enforcement. Additionally, staff is concerned about ongoing complaints that will divert Code and Police attention from the focus on eliminating blight and enhancing safety.			

On July 12, 2022, the Planning and Zoning Board considered the application and recommended denial based on the applicant's justification statement describing that the expanded seating capacity of the restaurant will provide "a location for weddings, funerals, birthdays," and the floor plan provides for a large (33'x15') raised floor for live entertainment, thus the proposal continued to have the characteristics of a Banquet Hall.

The applicant revised the application to remove the large (33' x 15') raised floor for live entertainment, enlarged the kitchen area and revised the justification statement to comply with the code for a restaurant use only.

Even with the concerns outlined in this staff report, Planning, Zoning & Building Staff recommends conditional approval of the proposed restaurant, as depicted on the proposed plans.

I. Site History

- **Ordinance 2014-31: Annexation**

On December 11, 2014, the property at 4236 Lake Worth Road was involuntarily annexed into the Village of Palm Springs along with thirty-two (32) other commercial and residential parcels. The parcel at 4236 lake Worth Road was annexed with a Future Land Use Designation of Commercial and a Zoning Designation of Commercial General (CG).

- **Administrative Site Plan Amendment # 202200051**

On January 26, 2022, the Land Development Director issued conditional approval of the administrative site plan amendment for the proposed exterior remodeling work proposed for 4236 Lake Worth Road. The proposed work involves minor modifications to the exterior façade of the building, including a built-up roof, new stucco, new back light decorative grill, awning and canopy additions, and architectural tile additions to the walls.

Note: The applicant previously submitted an application requesting approval of a Special Exception Use to allow a 7,080 SF restaurant, lounge, and private club with two variances to allow operation from 8 am until 2 am on Sundays instead of 12 pm to 11 pm operating time required and to allow restaurant operation later than 11:00 pm to be located 54 feet away from a residential district instead of the 200 feet required. The application was considered by The Planning and Zoning Board during their March 8, 2022 meeting and recommended denial. The Board's concerns included illegal operations without proper approval, serving alcoholic beverages without proper licenses, inconsistency with residential uses surrounding the property, noise to be generated, and extended hours of operations. The applicant requested a postponement during the April 14, 2022, Village Council meeting to revise the application.

On July 12, 2022, the Planning and Zoning board voted against the recommendation of approval. Staff and advisory board members addressed deficiencies in the application and expressed concerns that enforcement of the restaurant use would be difficult.

II. Comprehensive Plan Consistency

- The subject property's Zoning and Future Land Use designation are Commercial and Commercial General (CG), respectively. The proposed special exception use of a restaurant with a lounge, is consistent with goals, objectives and policies of the Village's Comprehensive Plan.

Staff has concerns with this project requested considering that the applicant has operated illegally without Village-issued Certificates of Occupancy, reports of the business serving alcohol without proper credentials and with minors present and construction work done without building permits.

III. Variances Requested

Not Applicable. The applicant withdrew two variances related to the hours of operation on May 17, 2022.

IV. Neighborhood Compatibility

- 1) The proposed project is located on the south side of Lake Worth Road near the southeast corner of Lake Worth Road and Military Trail, between S 42 Way and Colley Court.
- 2) Surrounding properties are a mix of residential and commercial uses. The adjacent residential uses are currently in unincorporated Palm Beach County.
- 3) A variety of restaurant, commercial retail, and professional uses are located within waling distance of the site.
- 4) The existing retail plaza has different tenants occupying the building providing different retail, professional and personal services.
- 5) Transit service is available through Palm Tran route 62 and 3.

V. Regulatory Issues:

- Palm Beach County Traffic Division has determined that the proposed development is located within the Urban Redevelopment Area (URA) Traffic Concurrency Exception Area (TCEA), thus making the project exempt from the Traffic Performance standards of Palm Beach County.
- The site is subject to site inspection to be performed by PBC Fire Department and Village of Palm Springs Building Official to confirm some construction work done without a building permit or proper approvals. Staff cannot confirm if construction done complies with Florida Building Code.

VI. Environmental Issues:

- There are no environmental (wetlands, floodplains, etc.) issues identified.

VII. Community Outreach/ Notification

- The subject property was posted on July 2, 2022.
- Public Notification letters were mailed to all property owners within 300-foot radius of subject property on July 1, 2022.
- Legal advertisement was published in the Lake Worth Herald on July 7, 2022.
- Staff has not received any inquiries or comments because of the notices.

VIII. Proposed Development Plan Details

The petitioner's development plans depict the following:

1. Application for Special Exception Use.
2. Justification Statement of Proposed Use received on February 15, 2022. The latest revised version was received on August 1, 2022.
3. Site Plan and Floor plan dated August 2017 received January 28, 2022. Latest revision received on August 1, 2022.

IX. Recommendation

The Village received an application submitted by Scott Ehrenberg, agent for Triomphe Restaurant and Lounge. The applicant is requesting approval of a Special Exception Use to allow a 7,080 SF restaurant, with lounge within two tenant spaces in the commercial plaza located at 4236 Lake Worth Road.

The 4.25-acre property was annexed into the Village in 2014 as a developed parcel with a total of 40,240 square feet building area within two (2) commercial structures.

Previously, the applicant requested a special exception use to allow a restaurant use with a private club and additionally, requested two variances from Section 14-61, to allow business operations to commence at 8:00 am and to be extended until 2:00 am. The Planning and Zoning Board considered this application during their March 8, 2022 meeting and recommended denial. The Board's concerns included illegal operations without proper approval, serving alcoholic beverages without proper

licenses, inconsistency with residential uses surrounding the property, and extended hours of operations. The applicant requested postponement during the April 14, 2022 Village Council meeting.

The applicant has revised the application to remove the special exception request for the private club and to withdraw the two requested variances. This new revised application is for the special exception and site plan amendment to allow a restaurant use within the commercial general property.

On July 12, 2022, the Planning and Zoning Board voted against the project based on the applicant's justification statement describing that the expanded seating capacity of the restaurant will provide "a location for weddings, funerals, birthdays," and the floor plan provides for a large (33'x15') raised floor for live entertainment, thus the proposal continued to have the characteristics of a Banquet Hall.

Staff and advisory board members addressed deficiencies in the application and expressed concerns that enforcement of the restaurant use would be difficult.

The applicant revised the application to remove the large (33' x 15') raised floor for live entertainment, enlarged the kitchen area and revised the justification statement to comply with the code for a restaurant use only.

Staff have conducted a review of the application and have concerns with this project considering that the applicant has operated illegally without Village-issued Certificates of Occupancy, reports of the business serving alcohol without proper credentials and with minors present and construction work done without building permits. Additionally, Staff is concerned about ongoing complaints that will divert Code and Police attention from the focus on eliminating blight and enhancing safety.

Even with the concerns outlined in this staff report, Planning, Zoning & Building Staff recommends conditional approval of the proposed restaurant use, as depicted on the proposed plans, and recommends that said motion include the following thirteen (13) conditions below:

1. The special exception approval shall be implemented within 18 months of Council approval.
2. Deliveries shall occur through the rear of the building and delivery vans shall utilize existing parking spaces and not obstruct traffic circulation.
3. If a police detail is required, as determined by the Police Chief, shall be provided, and coordinated with the Village Public Safety Department **prior to any special events**.
4. Deliveries shall not occur prior to 8:00 a.m. or not later than 9:00 p.m.
5. A Business License must be obtained with the Village and PBC Tax Collector office **prior to the commencement of any business operations**.
6. Any special event not covered by the regular business license, including live entertainment, shall be subject to special event code regulations specifically Section 34-896. The Village code allows a maximum of four special events per calendar year and is subject to special event permitting.
7. Any construction activity shall obtain permits from the Village of Palm Springs **prior to any construction commence**.
8. All unpermitted work done on the premises shall be properly permitted and inspected **prior to the issuance of the business license**.
9. Any sign shall be in accordance with the Village regulations and a permit must be obtained prior to any sign installation.
10. The Applicant will be required to undertake additional security measures, based on the number of complaints, or calls for service for incidents at the premises, as determined by the Police Chief. Such additional security measures, as approved by the Police Chief, may include

provisions of on-site security at the operator's sole expense.

11. Any sidewalk broken or damaged during construction shall be replaced by the contractor prior to CO.
12. At the time of CO, the petitioner shall provide the Land Development Department with electronic copies of as-builts.

Application Section 4

Description of Project:

This Project is for the location of a Restaurant with Lounge in an Existing Shopping Center. This shopping Center is in a Commercial General Zone. The Commercial General Zone allows for the use of Restaurants with Lounges with a Special Exception.

We are hereby requesting a Special Exception to allow the use of this property for a Restaurant with Lounge.

The purpose of postponing the case to a further meeting and revising this application is to bring the application into closer alignment with the Village of Palm Springs regulations.

Plan Review Questions:

- Why there are two separate dining areas?

The space was already developed with bathrooms between two areas that are going to be used for Dining.

- What is the purpose of the raised floor area?

The raised floor has been removed.

- Regarding the definition of "special event" in Sections 1-2,
 - Special events include any event not covered under the regular business tax receipt and registration for the restaurant business. Holding private parties and functions may not be covered under the regular business tax receipt and registration, so special event permits may be required for private parties and functions.
 - None of the restaurant or lounge definitions in Sections 1-2 include holding private parties and functions in their definitions.
 - Justification needs to explain how private parties and functions will not be open to the public.

Any parties and/or events will be conducted within the Village regulations. Most of the business will be from regular restaurant customers. The restaurant will not need to be closed to the public for gatherings by some of its customers.

Application Section 9
Special Exception Only

- (1) The proposed special exception use is consistent with goals, objectives, and policies of the village's comprehensive plan.

This use should not have a major impact on the village comprehensive plan.

- (2) The proposed special exception is consistent with the land development and zoning regulations and all other portions of this code.

This use should not have a major impact on the land development and zoning regulations.

- (3) The proposed special exception use is compatible with the character and use (existing and future) of the surrounding properties in its function; hours of operation, type, and amount of traffic to be generated; building location, mass, height and setback; and other relevant factors peculiar to the proposed special exception use and the surrounding property.

This tenant does not have any input to the general property since it has already been developed. The traffic study shows that this use will have minimal impact and reduce the traffic during normal peak traffic hours.

- (4) The establishment of the proposed special exception use in the identified location does not create a concentration or proliferation of the same or similar type of special exception use, which may be deemed detrimental to the redevelopment of the area in which the special exception use is proposed to be developed.

I am not aware of any similar uses in the area.

- (5) The proposed special exception use does not have a detrimental impact on surrounding properties based on:
 - a. The number of persons anticipated to be using, residing, or working on the property as a result of the special exception use;
 - b. The degree of noise, odor, visual, or other potential nuisance factors generated by the special exception use; and
 - c. The effect on the amount and flow of traffic within the vicinity of the proposed special exception use.

The Number of people, using and working at the property is consistent with the use of a Shopping Center in regard to noise, odor, visual and other potential nuisance factors. The effect of Traffic for this use does not conflict with the general area because the Traffic for this use should not occur at the same time as the general "Rush Hour" traffic for this area.

- (6) That the proposed special exception use:
 - a. Does not significantly reduce light and air to adjacent properties.
 - b. Does not adversely affect property values in adjacent areas.
 - c. Would not be deterrent to the improvement, development or redevelopment of surrounding properties in accord with existing regulations.

- d. Does not negatively impact adjacent natural systems or public facilities, including parks and open spaces.
- e. Provides pedestrian amenities, including, but not limited to, benches, trash receptacles, and/or bicycle parking.

This tenant does not have any input to the general property since it has already been developed. This property was developed as a Shopping Center which is consistent with property values and development in the immediate area. There is no significant effect on the Light and/or Air quality to the adjacent properties. There is no effect to Parks, Recreation, Open Space or other Pedestrian activities. The effects of these issues and amenities are not in the control of this tenant.

- (7) The proposed use would enhance and/or promote redevelopment of the village, fulfill redevelopment objectives, and/or have a positive economic impact on the Village, including creating new jobs, economic growth and provide needed community-serving (neighborhood retail and commercial) uses and businesses.

This use should not have a major impact on the village redevelopment objectives. This proposed use will provide a valuable service to the neighborhood, create good quality Jobs, and provide a reasonable use for the existing Structure.

Executive Brief

AGENDA DATE: September 8, 2022

DEPARTMENT: Finance

ITEM #6: Ordinance No. 2022-10 - Establish FY 2022-23 Millage Rates - Operating & Debt Service (FIRST READING)

SUMMARY: The Village Council is requested to establish the final operating and debt service millage (property tax) rates for the Village of Palm Springs for the upcoming Fiscal Year (FY23) beginning October 1, 2022, and ending September 30, 2023. Additionally, the Council is requested to consider certifying the Village's taxable value to the PBC Property Appraiser as well as other related financial information:

- The gross taxable value for all properties within the Village for FY 2023 is \$1,678,378,924 - an increase of \$194,386,542 over FY 2022.
- The rolled-back rate is calculated at 3.1707 per 1,000 of taxable value.
- The Village's proposed FY 2023 operating millage for the General Fund is \$3.50 per \$1,000 of the taxable value or an increase of 10.39% over the rolled-back rate (At 100% collection, the operating millage is expected to generate \$5,874,326 in ad-valorem tax revenue; however, the Village budgets at a 96% collection ratio; thus, the proposed budgeted revenue is expected to be \$5,639,353).
- The total taxable value within the Village to calculate the debt service millage rate is \$1,682,010,606; thus, the proposed millage rate required to pay the Village's general obligation debt for FY 2023 is \$0.2639 per \$1,000 of taxable value. That is a decrease of 0.0355 from FY 2022.
- The gross taxable increment value (TIF) for the Palm Springs Community Redevelopment Agency (CRA) for FY 2023 is \$64,175,858. The Palm Springs CRA will receive TIF funding from the Village of Palm Springs and Palm Beach County at the Village's approved millage rate - a proposed \$3.50 per \$1,000 taxable value. At 100% collection, the total increment/revenue expected to generate is \$224,615; however, the Village budgets at a 95% collection ratio; thus, the proposed budgeted increment/revenue expected is \$213,385). This is the third year the Village has had the Palm Springs CRA.
- The combined proposed millage rates for FY 2022 (3.5000 operating + 0.2639 debt = 3.7639 total mills) is 0.0355 mills lower than the combined approved millage rates for FY 2022 (3.5000 operating + 0.2994 debt = 3.7994 total mills).

Ordinance No. 2022-10 establishes the final millage rates for the Fiscal Year 2023.

If approved on the 1st reading, the proposed FY 2023 millage rate ordinance will be presented to the Village Council for consideration on the 2nd and final reading on Thursday, September 22, 2022, Council meeting.

Note: Following final approval, staff will submit the required Form DR-420 - Certification of Taxable Value and the Form DR- 420Debt - Certification of Voted Debt Millage to the PBC Property Appraiser, PBC Tax Collector, and the State of Florida.

FISCAL IMPACT:

Establishes the final operating millage rate and debt service millage rate for the proposed budget for the fiscal year 2022-2023.

ATTACHMENTS:

1. Ordinance No. 2022-10 Establish Millage Rates for FY 22-23

CERTIFICATION OF TAXABLE VALUE INSTRUCTIONS

“Principal Authority” is a county, municipality, or independent special district (including water management districts).

“Taxing Authority” is the entity levying the millage. This includes the principal authority, any special district dependent to the principal authority, any county municipal service taxing unit (MSTU), and water management district basins.

Each taxing authority must submit to their property appraiser a DR-420 and the following forms, as applicable:

- DR-420TIF, Tax Increment Adjustment Worksheet
- DR-420DEBT, Certification of Voted Debt Millage
- DR-420MM-P, Maximum Millage Levy Calculation - Preliminary Disclosure

Section I: Property Appraiser

Use this DR-420 form for all taxing authorities except school districts. Complete Section I, Lines 1 through 9, for each county, municipality, independent special district, dependent special district, MSTU, and multicounty taxing authority. Enter only taxable values that apply to the taxing authority indicated. Use a separate form for the principal authority and each dependent district, MSTU and water management district basin.

Line 8

Complete a DR-420TIF for each taxing authority making payments to a redevelopment trust fund under Section 163.387 (2)(a), Florida Statutes or by an ordinance, resolution or agreement to fund a project or to finance essential infrastructure.

Check “Yes” if the taxing authority makes payments to a redevelopment trust fund. Enter the number of DR-420TIF forms attached for the taxing authority on Line 8. Enter 0 if none.

Line 9

Complete a DR-420DEBT for each taxing authority levying either a voted debt service millage (s.12, Article VII, State Constitution) or a levy voted for two years or less (s. 9(b), Article VII, State Constitution).

Check “Yes” if the taxing authority levies either a voted debt service millage or a levy voted for 2 years or less (s. 9(b), Article VII, State Constitution). These levies do not include levies approved by a voter referendum not required by the State Constitution. Complete and attach DR-420DEBT. Do not complete a separate DR-420 for these levies.

Send a copy to each taxing authority and keep a copy. When the taxing authority returns the DR-420 and the accompanying forms, immediately send the original to:

Florida Department of Revenue
Property Tax Oversight - TRIM Section
P. O. Box 3000
Tallahassee, Florida 32315-3000

Section II: Taxing Authority

Complete Section II. Keep one copy, return the original and one copy to your property appraiser with the applicable DR-420TIF, DR-420DEBT, and DR-420MM-P within 35 days of certification. Send one copy to the tax collector. “Dependent special district” (ss. 200.001(8)(d) and 189.403(2), F.S.) means a special district that meets at least one of the following criteria:

- The membership of its governing body is identical to that of the governing body of a single county or a single municipality.
- All members of its governing body are appointed by the governing body of a single county or a single municipality.
- During their unexpired terms, members of the special district's governing body are subject to removal at will by the governing body of a single county or a single municipality.
- The district has a budget that requires approval through an affirmative vote or can be vetoed by the governing body of a single county or a single municipality.

“Independent special district” (ss. 200.001(8)(e) and 189.403 (3), F.S.) means a special district that is not a dependent special district as defined above. A district that includes more than one county is an independent special district unless the district lies wholly within the boundaries of a single municipality.

“Non-voted millage” is any millage not defined as a “voted millage” in s. 200.001(8)(f), F.S.

Lines 12 and 14

Adjust the calculation of the rolled-back rate for tax increment values and payment amounts. See the instructions for DR-420TIF. On Lines 12 and 14, carry forward values from the DR-420TIF forms.

General Instructions

Each of the following taxing authorities must complete a DR-420MM.

- County
- Municipality
- Special district dependent to a county or municipality
- County MSTU
- Independent special district, including water management districts
- Water management district basin

Voting requirements for millages adopted by a two-thirds or a unanimous vote are based on the full membership of the governing body, not on the number of members present at the time of the vote.

This form calculates the maximum tax levy for 2022 allowed under s. 200.065(5), F.S. Counties and municipalities, including dependent special districts and MSTUs, which adopt a tax levy at the final hearing higher than allowed under s. 200.065, F.S., may be subject to the loss of their half-cent sales tax distribution.

DR-420MM shows the maximum millages and taxes levied based on your adoption vote. Each taxing authority must complete, sign, and submit this form to the Department of Revenue with their completed DR-487, *Certification of Compliance*, within 30 days of their final hearing.

Taxing authorities must also submit DR-487V, *Vote Record for Final Adoption of Millage Levy*. This form certifies to the Department of Revenue the vote on the resolution or ordinance stating the millage rate adopted at the final hearing.

Specific tax year references in this form are updated each year by the Department.

Line Instructions

Lines 5-10

Only taxing authorities that levied a 2021 millage rate less than their maximum majority vote rate must complete these lines. The adjusted rolled-back rate on Line 10 is the rate that would have been levied if the maximum vote rate for 2021 had been adopted. If these lines are completed, enter the adjusted rate on Line 11.

Line 12

This line is entered by the Department of Revenue. The same adjustment factor is used statewide by all taxing authorities. It is based on the change in per capita Florida personal income (s. 200.001(8)(i), F.S.), which Florida Law requires the Office of Economic and Demographic Research to report each year.

Lines 13 and 14

Millage rates are the maximum that could be levied with a majority or two-thirds vote of the full membership of the governing body. With a unanimous vote of the full membership (three-fourths vote of the full membership if the governing body has nine or more members) or a referendum, the maximum millage rate that can be levied is the taxing authority's statutory or constitutional cap.

Line 16

Check the box for the minimum vote necessary at the final hearing to levy your adopted millage rate.

Line 17

Enter the millage rate indicated by the box checked in Line 16. If the adopted millage rate is equal to or less than the majority vote maximum millage rate, enter the majority vote maximum. If a two-thirds vote, a unanimous vote, or a referendum is required, enter the adopted millage rate. For a millage requiring more than a majority vote, the adopted millage rate must be entered on Line 17, rather than the maximum rate, so that the comparisons on Lines 21 through 25 are accurate.

General Instructions

Each of the following taxing authorities must complete a DR-420MM-P.

- County
- Municipality
- Special district dependent to a county or municipality
- County MSTU
- Independent special district, including water management districts
- Water management district basin

Voting requirements for millages adopted by a two-thirds or a unanimous vote are based on the full membership of the governing body, not on the number of members present at the time of the vote.

This form calculates the maximum tax levy for 2022 allowed under s. 200.065(5), F.S. Counties and municipalities, including dependent special districts and MSTUs, which adopt a tax levy at the final hearing higher than allowed under s. 200.065, F.S., may be subject to the loss of their half-cent sales tax distribution.

DR-420MM-P shows the preliminary maximum millages and taxes levied based on your proposed adoption vote. Each taxing authority must complete, sign, and submit this form to their property appraiser with their completed DR-420, Certification of Taxable Value.

The vote at the final hearing and the resulting maximum may change. After the final hearing, each taxing authority will file a final Form DR-420MM, Maximum Millage Levy Calculation Final Disclosure, with Form DR-487, Certification of Compliance, with the Department of Revenue.

Specific tax year references in this form are updated each year by the Department.

Line Instructions

Lines 5-10

Only taxing authorities that levied a 2021 millage rate less than their maximum majority vote rate must complete these lines. The adjusted rolled-back rate on Line 10 is the rate that would have been levied if the maximum vote rate for 2021 had been adopted. If these lines are completed, enter the adjusted rate on Line 11.

Line 12

This line is entered by the Department of Revenue. The same adjustment factor is used statewide by all taxing authorities. It is based on the change in per capita Florida personal income (s. 200.001(8)(i), F.S.), which Florida Law requires the Office of Economic and Demographic Research to report each year.

Lines 13 and 14

Millage rates are the maximum that could be levied with a majority or two-thirds vote of the full membership of the governing body. With a unanimous vote of the full membership (three-fourths vote of the full membership if the governing body has nine or more members) or a referendum, the maximum millage rate that can be levied is the taxing authority's statutory or constitutional cap.

Line 16

Check the box for the minimum vote necessary at the final hearing to levy your adopted millage rate.

Line 17

Enter the millage rate indicated by the box checked in Line 16. If the proposed millage rate is equal to or less than the majority vote maximum millage rate, enter the majority vote maximum. If a two-thirds vote, a unanimous vote, or a referendum is required, enter the proposed millage rate. For a millage requiring more than a majority vote, the proposed millage rate must be entered on Line 17, rather than the maximum rate, so that the comparisons on Lines 21 through 25 are accurate.

TAX INCREMENT ADJUSTMENT WORKSHEET INSTRUCTIONS

Property appraisers must complete and sign Section I of this worksheet and provide it with form DR-420, *Certification of Taxable Value*, to all taxing authorities who make payments to a redevelopment trust fund under:

- s. 163.387(2)(a), Florida Statutes, or
- An ordinance, resolution, or agreement to fund a project or to finance essential infrastructure.

“Tax increment value” is the cumulative increase in taxable value from the base year to the current year within the defined geographic area. It is used to determine the payment to a redevelopment trust fund under:

- s. 163.387(1), F.S. or
- An ordinance, resolution, or agreement to fund a project or finance essential infrastructure. In this case, the taxing authority must certify the boundaries and beginning date to the property appraiser.

“Dedicated increment value” is the portion of the tax increment value used to determine the payment to the redevelopment trust fund. (See s. 200.001(8)(h), F.S.) Calculate the dedicated increment value on this form and enter on either Line 6b or Line 7e.

“Specific proportion,” used to determine whether to complete Line 6 or Line 7, refers to the calculation of the tax increment payment. Examples:

- Example 1.
Section 163.387(1), F.S., states the payment made by the taxing authority should equal 95% of the millage levied times the tax increment value. The specific proportion in this case is 95%. The ordinance providing for the payment may set a percentage lower than 95%. In these cases, the lower percentage would be the specific proportion.
- Example 2.
Some required tax increment payments are not directly related to the tax increment value. A constant dollar payment is a payment not based on a specific proportion of the tax increment value. Line 7 converts these payments into a proportion based on the prior year's payment and tax increment value to reach the current year's dedicated increment value.

Section I: Property Appraiser

A. Complete Section I of this form for each county, municipality, independent special district, dependent special district, and MSTU that:

- Has a tax increment value and
- Is not exempted from making payments to a community redevelopment trust fund based on tax increments (s. 163.387(2)(c), F.S.).

If a taxing authority has more than one tax increment value, they must complete a separate form for each tax increment value. Send a copy to each taxing authority with the DR-420 and keep a copy. When the taxing authority returns the completed forms, immediately send the original to:

Florida Department of Revenue
Property Tax Oversight Program - TRIM Section
P. O. Box 3000
Tallahassee, Florida 32315-3000

B. Enter only tax increment values that apply to the value located within the taxing authority indicated.

Section II: Taxing Authority

Complete Section II of the form, keep one copy, and return the original and one copy to your property appraiser with DR-420 within 35 days of certification. Send one copy to your tax collector.

Additional Instructions for Lines 6 and 7

Complete Line 6 if the payment into the redevelopment trust fund is a specific proportion of the tax increment value.

Complete Line 7 if the payment is based on a calculation other than a specific proportion. Do not complete both Lines 6 and 7.

ITEM #8: (*SECOND READING*) Ordinance No. 2022-09 - Village Code Amendment - Chapter 78 - Year-Round Landscape Irrigation Conservation Measures

SUMMARY: South Florida Water Management District (SFWMD) has requested all cities to amend existing water and irrigation conservation program restrictions and exemptions provided within municipal codes to give greater consistency with the rules adopted by the SFWMD.

The proposed ordinance (based on a model ordinance provided by SFWMD) establishes specific restrictions and exemptions to set guidance on the prudent use of water and landscape irrigation as established within SFWMD's rules promulgated in Florida Administrative Code Chapter 40E-24.

In summary, the proposed amendments:

1. Specify the allowable hours for landscape irrigation from 4:00 p.m. – 10:00 a.m.
2. Define the three (3) days per week permitted for landscape irrigation, determined by the oddor even-numbering of the property address.
3. In the event that SFMWD declares a water shortage emergency, water use shall be further restricted. Village Code Chapter 78, Article III sets forth that such a declaration shall also become enforceable within the Village.
4. Provide exemptions from restrictions for new lawns and landscaping.

Village staff recommends approval of Ordinance No. 2022-09, consistent with the rules adopted by the South Florida Water Management District.

Sec. 78-260. - Intent and purpose

It is the intent and purpose of this Code to implement procedures to protect the water resources of the Village of Palm Springs and to promote water conservation through the efficient use of landscape irrigation and consistency with the South Florida Water Management District's (District) mandatory year-round landscape irrigation conservation measures under Chapter 40E-24, Florida Administrative Code, (F.A.C.). This Code will increase water use efficiency; prevent and curtail wasteful irrigation practices by providing mandatory landscape irrigation conservation measures; and prohibit the operation of irrigation systems in a manner causing water to be wasted.

Sec. 78.261. - Definitions

For the purpose of this Article, the following terms, phrases, words and their derivatives shall have the meaning listed below. When not inconsistent with the context, words used in the present tense also include the future, and words used in the singular also include the plural. The word "shall" is always mandatory and not merely directory.

- (1) "Address" means the "house number" (a numeric or alphanumeric designation) that, together with the street name, describes the physical location of a specific property. This includes "rural route" numbers, but excludes post office box numbers. If a lot number in a mobile home park or similar community is used by the U.S. Postal Service to determine a delivery location, the lot number shall be the property's address. If a lot number in a mobile home park or similar residential community is not used by the U.S. Postal Service (e.g., the park manager sorts incoming mail delivered to the community's address), then the community's main address shall be the property's address. If a property has no address, it shall be considered "even-numbered."
- (2) "Athletic Play Area" means all golf course fairways, tees, roughs, greens, and other athletic play surfaces; including, football, baseball, soccer, polo, tennis, lawn bowling fields, and rodeo, equestrian and livestock arenas.
- (3) "Consumptive Use Permit" (CUP) means a permit issued pursuant to Chapter 40E-2, F.A.C., authorizing the consumptive use of water.

- (4) "District" means the South Florida Water Management District, a government entity created under Chapter 373, Florida Statutes.

- (6) "Existing Landscaping" means any landscaping which has been planted in the ground for more than ninety (90) days.
- (7) "Landscaping" means shrubbery, trees, lawns, sod, grass, ground covers, plants, vines, ornamental gardens, and such other flora not intended for resale, which are situated in such diverse locations as residential landscapes, recreation areas, cemeteries, public, commercial, and industrial establishments, public medians, and rights-of-way, except athletic play areas.
- (8) "Landscape Irrigation" means the outside watering of shrubbery, trees, lawns, sod, grass, ground covers, plants, vines, ornamental gardens, and such other flora not intended for resale, which are planted and are situated in such diverse locations as residential landscapes, recreation areas, cemeteries, public, commercial, and industrial establishments, public medians, and rights-of-way, except athletic play areas.
- (9) "Low Volume Hand Watering" means the watering of landscape by one (1) person, with one (1) hose, fitted with a self-canceling or automatic shutoff nozzle.
- (10) "Low Volume Irrigation" means the use of equipment and devices specifically designed to allow the volume of water delivered to be limited to a level consistent with the water requirement of the plant being irrigated, and to allow that water to be placed with a high degree of efficiency in the root zone of the plant. The term also includes water used in mist houses and similar establishments for plant propagation. Overhead irrigation and flood irrigation are not included.
- (11) "Micro-irrigation" means the application of small quantities of water on or below the soil surface as drops or tiny streams of spray through emitter or applicators placed along a water delivery line. - (15) "User" means any person, individual, firm, association, organization, partnership, business trust, corporation, company, agent, employee or other legal entity, whether natural or artificial, the United States of America, and the State and all political subdivisions, regions, districts, municipalities, and public agencies thereof, which directly or indirectly takes water from the water resource, including uses from private or public utility systems, uses under water use permits issued pursuant to Chapter 40E-2, F.A.C., or uses from individual wells or pumps.
- (16) "Wasteful and unnecessary" means allowing water to be dispersed without any practical purpose to the water use; for example, excessive landscape irrigation, leaving an unattended hose on a driveway with water flowing, allowing water to be dispersed in a grossly inefficient manner, regardless of the type of water use; for example, allowing landscape irrigation water to unnecessarily fall onto pavement, sidewalks and other impervious surfaces; or allowing water flow through a broken or malfunctioning water delivery or landscape irrigation system.
- (17) "Water Resource" means any and all water on or beneath the surface of the ground, including natural or artificial watercourses, lakes, ponds, or diffused surface water, and water percolating, standing, or flowing beneath the surface of the ground.

- (19) "Water Shortage Emergency" means when the District determines the provisions listed in Part II of Chapter 40E-21, F.A.C., are not sufficient to protect the public health, safety, or welfare; the health of animals, fish, or aquatic life; a public water supply; or commercial, industrial, agricultural, recreational, or other reasonable-beneficial uses.

Sec. 78-262. - Application

- (1) The provisions of this Article shall apply to each user providing landscape irrigation from all water resources within the boundaries of the Village of Palm Springs and/or its utility service area. The provisions of this Article shall not apply to athletic play areas or agricultural operations (including nurseries), and irrigation accomplished using reclaimed water.

- (2) Declaration of a water shortage condition and/or water shortage emergency within all or parts of the Village by the District's Governing Board or Executive Director shall supersede this Code for the duration of the applicable declaration, in accordance with Article III of this Chapter. A water shortage usually occurs due to drought.
- (3) Such a declaration would apply to all users using the water resource within the geographical areas subject to a water shortage or water shortage emergency, as determined by the District, whether from public or privately-owned water utility systems, private wells or private connections with surface water bodies, but shall not apply to users using reclaimed water or saltwater.

Sec. 78-263. - Year-Round Permanent Landscape Irrigation Measures

The following requirements or exceptions shall apply to all users, unless otherwise specified.

- (1) Landscape irrigation shall be prohibited daily between the hours of 10:00 a.m. and 4:00 p.m., except as provided below.
- (2) Irrigation of existing landscaping shall comply with the following provisions:
 - a. Even-Numbered Addresses and rights-of-way, or other locations without an address, may accomplish necessary landscape irrigation only on Tuesdays, Thursdays, and/or Sundays.
 - b. Odd-Numbered Addresses may accomplish necessary landscape irrigation only on Mondays, Wednesdays, and/or Saturdays.
- (3) Irrigation of new landscaping shall comply with the following provisions:
 - a. New Landscaping may be irrigated once on the day it is installed without regard to the listed watering days and times. Irrigation of the soil immediately prior to the installation of the new landscaping is allowed without regard to the listed watering days and times.
 - b. A ninety (90) day establishment period begins on the day new landscaping is installed. The new landscaping shall be installed within a reasonable time from the date of purchase, which may be demonstrated with a dated receipt or invoice.
 - c. Irrigation of new landscaping which has been in place for thirty (30) days or less may be accomplished on Monday, Tuesday, Wednesday, Thursday, Saturday, and/or Sunday.

- d. Irrigation of new landscaping which has been in place for thirty-one (31) to ninety (90) days may be accomplished on Monday, Wednesday, Thursday, and/or Saturday.
 - e. Irrigation of the new landscaping is limited to areas containing only the new landscaping. An entire zone of an irrigation system shall only be utilized for landscape irrigation under this Code if the zone in question is for an area that contains at least fifty percent (50%) new landscaping. If a zone contains less than fifty percent (50%) new landscaping, or if the new landscaping is in an area that will not typically be irrigated by an irrigation system, only the individual new plantings are eligible for additional irrigation. Targeted watering may be accomplished by low volume hand watering, or any appropriate method which isolates and waters only the new landscaping.
- (4) Irrigation systems may be operated outside restricted days and/or times for cleaning, maintenance, and repair with an attendant on-site in the area being tested. Landscape irrigation systems may routinely be operated for such purposes no more than once per week, and the run time for any one (1) test should not exceed ten (10) minutes per zone.
 - (5) Landscape irrigation for the purpose of watering-in fertilizers, insecticides, pesticides, fungicides, and herbicides, where such watering-in is required by the manufacturer, or by federal, state or local law, shall be allowed under the following conditions:
 - a. Such watering-in shall be limited to one (1) application in the absence of specific alternative instructions from the manufacturer; and
 - b. Such watering-in shall be accomplished during normal watering days and times listed above unless a professional licensed applicator has posted a temporary sign containing the date of application and the date(s) of needed watering-in activity.
 - (6) Any plant material may be watered using low volume irrigation, micro-irrigation, low volume hand watering methods, rain barrels, cisterns, or other similar rain-harvesting devices without regard to the listed watering days or times.
 - (7) In addition to the specific listed measures, all wasteful and unnecessary water use is prohibited.
 - (8) In the event the District imposes restrictions on landscape irrigation for new and existing installations which are more restrictive than those imposed by this Code, such as under the declaration of a water shortage or water shortage emergency, the more restrictive regulations shall apply for the applicable duration of the more restrictive regulations.

- (9) It shall be the duty of each user to keep informed as to the landscape irrigation conservation measures within this Code, which affect each particular water use.

Sec. 78-264. - Additional Measures

Any user who purchases and installs an automatic landscape irrigation system shall properly install, maintain, and operate technology that inhibits or interrupts operation of the system during periods of sufficient moisture in accordance with Section 373.62, Florida Statutes.

Sec. 78-265. - Variance Relief

- (1) Any user affected by this Article may apply for a variance to the Village Manager, or their designee. A variance from specific day or days identified in this Article may be granted if strict application of the restrictions would lead to unreasonable or unfair result, provided the applicant demonstrates with particularity that compliance with the schedule will result in substantial economic, health, or other hardship on the applicant, or those the applicant serves. Relief may be granted only upon a demonstration that such hardship exists, is peculiar to the person or the affected property, is not self-imposed, and further demonstrates that granting the variance would be consistent with the general intent and purpose of this Code.
- (2) Examples of circumstances for a variance include, but are not limited to:
- a. Two (2) or more properties which share a common source of water;
 - b. A public or private water system experiencing or anticipating distribution problems;
 - c. A user maintains an irrigation system that uses soil moisture sensors or weather-based irrigation controllers; or
 - d. Where a contiguous property is divided into different zones, a variance may be granted so that each zone may be irrigated on days different than other zones of the property.
 - e. Where a user maintains, manages, or owns a non-residential property, such as a house of worship or weekly market (farmer/flea), where the primary day of use, operation, or attendance for the property coincides with the prescribed watering day for the address.
 - f. However, no single zone may be irrigated more than three (3) days per week unless a user maintains an irrigation system that uses soil moisture sensors or weather-based irrigation controllers.

- (3) Upon receipt of an application for variance from the requirements of this Article, the Village Manager or designee shall render a decision on the variance within 30 days. Denials of variance relief may be appealed to the Village Council within 15 days of the user's receipt of the notice of denial. Any notice of denial or subsequent appeal shall be sent by certified mail, return receipt requested.
- (4) A variance application and/or granting a variance under provisions of this Article shall operate prospectively, shall not stay or abate the enforcement of the provisions of this Article, and shall not affect any prior or pending enforcement actions against the affected person that have been initiated pursuant to the provisions of this Article.
- (5) If a variance is granted, the user shall be required to post a notice at each parcel to which the variance pertains.
- (6) A variance is invalid if it has expired or if the user or its agent violates the terms of the variance.

Sec. 78-267. - Penalties

Any user who violates any provision of this Article shall also be subject to the Village remedies as authorized the Village of Palm Springs Code of Ordinances, or as otherwise then allowed by law. The applicable penalties shall be determined by the forum selected to enforce the violation.

- (1) Wasteful and unnecessary water use violations that are irreparable or irreversible in nature which shall include without limitations, a broken irrigation system and/or water pipe that allows water to flow from a broken sprinkler head, outdoor faucet, or other malfunctioning plumbing or irrigation system component, or other water system malfunction that continuously disperses a high quantity of water, shall be subject to the following provisions:

- a. First violation can be a written warning. No more than one (1) written warning shall be issued.
 - b. Second violations, fine as established by Village Council resolution.
 - c. Third violations, fine as established by Village Council resolution.
 - d. Fourth and subsequent violations, fine as established by Village Council resolution.
- (2) Each day a violation occurs is a separate offense. The Village, in addition to the criminal sanctions, may take any other appropriate legal action, including, emergency injunctive action to enforce Code provisions.
- (3) Notice of alleged violations shall be provided to the alleged violator by a local law enforcement official(s), code inspector or any other person designated by the Village Manager, or by certified mail, return receipt requested, to the owner of the property in question at the address listed with the tax collector's office for tax notices, or property appraiser's records, and at any other address provided to the Village. DEPARTMENT: Planning, Zoning & Building

ITEM #9: Ordinance No. 2022-07 - Comprehensive Plan Amendment - Tenth Avenue Incubator Overlay

SUMMARY: The Planning, Zoning & Building Department (PZ&B) is proposing text amendments to the Future Land-Use Element to establish a Tenth Avenue Incubator Overlay (TAIO) in an effort to encourage innovative development/redevelopment along 10th Avenue North with uses that are commercial and/or light industrial in nature, designated in a manner that is sensitive to adjacent residential neighborhoods, and create an aesthetic corridor identity.

The allowances of the TAIO shall only be applicable to Commercial General (CG) zoned properties fronting Tenth (10th) Avenue, generally located north of 10th Avenue North, between Palm Drive and South Florida Mango Road. The objective of the TAIO would be to promote the redevelopment of the properties by creating a distinct character and identity.

Development in the TAIO shall utilize a harmonious and compatible architectural style. All uses permitted within the CG zoning district are permissible in the TAIO, considering the design elements and development standards outlined in the Village Land Development Regulations for the TAIO.

Projects that comply with the requirements of the TAIO may be approved in accordance with the Land Development Regulations so long as such Incubator Uses do not generate dust or create a noise nuisance, are not obnoxious in nature, and are compatible with adjacent residential uses.

Rather than consider land-use changes on a parcel-by-parcel basis, which leads to concerns about compatibility and "spot zoning", an overlay approach is proposed to permit innovative designs in exchange for design and uses considerations.

The proposed TAIO (land development regulations and design requirements) was initially drafted by the property owner and was discussed with the PZ&B Director, the Assistant Village Manager, and the Village Manager. Staff has proposed various revisions to the property owner's suggested land development regulations and is moving forward as a staff-initiated effort.

The proposed Tenth Avenue Incubator Overlay provides the following:

- The buildings shall be designed in a manner with a harmonious architectural style with allowances for variations in color and design, to establish an identity for the unified planned development.
- The building façade(s) facing 10th Avenue North should be designed in a manner to resemble an office, retail or showroom building.

- Bay doors shall be screened from adjacent residential uses and bay doors shall not face adjacent streets.
- Manufacturing and assembly portions of the design shall be conducted inside the principal structure(s), and activities shall be conducted within a climate-controlled environment, to the greatest extent practicable, to prevent external noise, vibrations, dust, odor and other conditions.

The proposed TAIO encompasses 4 parcels and a total of 8.6075 acres. The area is designated in the Commercial Land Use category.

The proposed comprehensive plan amendment was submitted through the PBC Intergovernmental Plan Amendment Committee (IPARC) for intergovernmental review and no comments were received.

Note: Notifications were mailed to all property owners abutting the TAIO on July 19, 2022.

The Planning and Zoning Board considered this application during their August 9, 2022 meeting and recommended approval. The Local Planning Agency (LPA) will consider the proposed Comprehensive Plan Text Amendment during their meeting on September, 2022.

The proposed ordinance was prepared by the Planning, Zoning & Building Director and reviewed by the Assistant Village Manager and by the Village Attorney.

If approved on the 1st reading, the proposed ordinance will be considered for the 2nd and final reading by the Village Council in October/November, 2022 following a state and regional review.

FISCAL IMPACT:

Amending the Comprehensive Plan to create a new overlay does not have a fiscal impact; however, redevelopment utilizing allowances under this new overlay district is expected to increase the Village's property tax revenue.

Projects that comply with the requirements of the TAIO may be approved under the Land Development Regulations so long as such Incubator Uses do not generate dust, or create a noise nuisance, and is not obnoxious, and is compatible with adjacent residential uses.

Rather than consider land-use changes on a parcel-by-parcel basis, which leads to concerns about compatibility and "spot zoning", an overlay approach is proposed to be utilized to permit innovative designs in exchange for design and uses considerations.

The proposed TAIO (land development regulations and design requirements) was initially drafted by the property owner and was discussed with the Planning, Zoning, and Building Director, the Assistant Village Manager, and the Village Manager. The staff has proposed various revisions to the property owner's suggested land development regulations and is moving forward as a staff-initiated effort.

The proposed Tenth Avenue Incubator Overlay provides the following:

- The buildings shall be designed in a manner with a harmonious architectural style with allowances for variations in color and design, to establish an identity for the unified planned development.

- The building façade(s) facing 10th Avenue North should be designed in a manner to resemble an office, retail, or showroom building.
- Bay doors shall be screened from adjacent residential uses and bay doors shall not face adjacent streets.
- Manufacturing and assembly portions of the design shall be conducted inside the principal structure(s), and activities shall be conducted within a climate-controlled environment, to the greatest extent practicable, to prevent external noise, vibrations, dust, odor, and other conditions.

The proposed TAIO encompasses four (4) parcels and a total of 8.6075 acres. The area is designated in the Commercial Land-Use category.

Note: Notifications were mailed to all property owners abutting the TAIO on July 19, 2022.

The proposed ordinance was prepared by the Planning, Zoning & Building Director and reviewed by the Assistant Village Manager and by the Village Attorney.

The Planning & Zoning Board considered the requested land development regulations amendment during their August 9, 2022 meeting. If approved on the 1st reading, the proposed ordinance will be considered for the 2nd and final reading by the Village Council in October/November 2022 following a State and Regional review of the proposed comprehensive plan amendment.

FISCAL IMPACT:

Amending the Land Development Regulations to create a new overlay does not have a fiscal impact; however, redevelopment utilizing allowances under this new overlay district is expected to increase the Village's property tax revenue.

Comprehensive Plan (Text) Amendment and Land Development Regulations Amendment

Village-initiated amendments to establish a Tenth Avenue Incubator Overlay. The intent of the Tenth Avenue Incubator Overlay ("TAIO") is to encourage innovative development/redevelopment along 10th Avenue North with uses that are commercial and/or light industrial in nature, designed in a manner that is sensitive to adjacent residential neighborhoods, and create an aesthetic corridor identity.

The allowances of the TAIO shall only be applicable to Commercial General (CG) zoned properties fronting Tenth (10th) Avenue, generally located north of 10th Avenue North, between Palm Drive and South Florida Mango Road.
