General Notes:

**Contract pricing is based on a per cubic yard (CY) measure of 12" depth Engineered Wood Fiber (EWF) safety surfacing and transportation cost per truckload capacity shipping to a single destination. When ordering EWF by cubic yard, add 20% material for compaction purposes and refer to your local GameTime Representative for special freight rates when ordering less than truckload.*

**Contract pricing specifically excludes site preparation, containment borders, sub-surface materials and installation. Jobsite must be accessible for truckload delivery and staging area of materials. For standard installation pricing, refer to GameTime Contract Installation Rates and your local GameTime Representative for regional availability and scheduling. Blower truck installations may be available upon request, refer to your local GameTime Representative for pricing and availability.*

GT IMPAX - RECYCLED SHREDDED RUBBER 2024 OMNIA Contract Discount: 18%				
Region	List Price Per Truckload	Contract Price Per Truckload	List Price Per Sq. Ft.	Contract Price Per Sq. Ft.
West Virginia	$ 27,283.00	$ 22,372.00	$ 8.53	$ 6.99
Wisconsin	$ 28,022.00	$ 22,978.00	$ 8.76	$ 7.18
Wyoming	$ 31,349.00	$ 25,706.00	$ 9.80	$ 8.03

General Notes:

**Contract pricing is based on truckload delivery of 6" depth recycled loose fill shredded rubber safety surfacing, with one color per load shipping to a single destination.*

**Contract pricing specifically excludes material offloading upon delivery, site preparation, containment borders, sub-surface materials and installation. Jobsite must be accessible for truckload delivery of material at time of delivery.*

GT IMPAX - SPECIALTY PRODUCTS 2024 OMNIA Contract Discount: 18%				
Product Type	**MSRP**		**Contract Price**	
Courtscapes 3/4" Depth (price per SF)	$	26.51	$	21.74
Striping / Painting - Standard Tennis Layout (per court)	$	5,263.00	$	4,316.00
Striping / Painting - Standard Pickleball Layout (per court)	$	1,468.00	$	1,204.17
Striping / Painting - Standard Volleyball Layout (per court)	$	2,216.00	$	1,817.53
Striping / Painting - Standard Basketball Layout (per court)	$	5,934.50	$	4,866.29
Aquatic Surfacing (price per SF)	$	49.23	$	40.36
GT Court (price per SF)	$	9.87	$	8.09

General Notes:

**Contract pricing is based on a minimum qty. of 1,000 sq. ft. and standard color options, with delivery and standard wage installation included. Special quotes will be required for graphics, special colors and quantities below 1,000 sq. ft. or more than 3,000 sq. ft. Pricing assumes an accessible jobsite and does not include site preparation.*

**Courtscapes Painting/Striping orders for less than 1,000 sq. ft. applications may be subject to minimum contract price of $3,395.00.*

**Public Agencies located in Alaska and Hawaii must call for pricing and availability prior to purchase.*

OMNIAGT W172	Port Beacon™	$ 27,500.00
OMNIAGT W179	Ring O' Water™	$ 9,500.00
OMNIAGT W185	Tidal Bucket™	$ 23,500.00
OMNIAGT W186	Tidal Barrel™	$ 33,500.00
OMNIAGT W196	Ship Prow (the Fore Component of a Boat Feature)	$ 21,000.00
OMNIAGT W197	Ship Stern (Aft Component of Boat Feature)	$ 11,500.00
OMNIAGT W210	Dumble Drop™	$ 13,500.00
OMNIAGT W214	Turn-A-Round™	$ 7,000.00
OMNIAGT W218	Bug Buggle™	$ 1,500.00
OMNIAGT W226	Stream Weaver™	$ 1,000.00
OMNIAGT W237	Flamdingo™	$ 20,500.00
OMNIAGT W238	Water Rings™ (4 Coil Assembly)	$ 23,500.00
OMNIAGT W238-1	Water Rings™ (Single Coil)	$ 6,000.00
OMNIAGT W244	Buddy Bovine™	$ 13,000.00
OMNIAGT W255	Flick Flower #3™	$ 13,500.00
OMNIAGT W280	Popp Dropp™	$ 8,000.00
OMNIAGT W283	G2 Shooter™	$ 8,000.00
OMNIAGT W284	G2 Cannon™	$ 8,000.00
OMNIAGT W285	Big Sqwerts™ Dolphin	$ 8,000.00
OMNIAGT W286	Big Sqwerts™ Horse	$ 8,000.00
OMNIAGT W287	Big Sqwerts™ Cannon	$ 8,000.00
OMNIAGT W288	Big Sqwerts™ Six Shooter	$ 8,000.00
OMNIAGT W289	Big Sqwerts™ Zebra	$ 8,000.00
OMNIAGT W290	Little Sqwerts™ Fish	$ 8,000.00
OMNIAGT W291	Little Sqwerts™ Elephant	$ 8,000.00
OMNIAGT W292	Little Sqwerts™ Frog	$ 8,000.00
OMNIAGT W293	Little Sqwerts™ Duck	$ 8,000.00
OMNIAGT W294	Little Sqwerts™ Turtle	$ 8,000.00
OMNIAGT W295	Tall Sqwerts™ Giraffe	$ 12,500.00
OMNIAGT W296	Tall Sqwerts™ Ostrich	$ 12,500.00
OMNIAGT W297	Ride N' Spray™ Bull	$ 15,500.00
OMNIAGT W298	Ride N' Spray™ Horse	$ 15,500.00
OMNIAGT W299	Ride N' Spray™ Zebra	$ 15,500.00
OMNIAGT W310	Big Sqwerts™ Snake	$ 8,000.00
OMNIAGT W310C	Big Sqwerts™ Snake, water conserving version	$ 8,000.00
OMNIAGT W313	Big Sqwerts™ Lynx	$ 8,000.00
OMNIAGT W314	Little Sqwerts™ Fox	$ 8,000.00
OMNIAGT W320	Chinese Sea Dragon™ (5 Pieces)	$ 35,500.00
OMNIAGT W320(A)	Chinese Sea Dragon™, Front Riser with Head	$ 9,500.00
OMNIAGT W320C	Chinese Sea Dragon™, Water Conserving (5 Pieces)	$ 35,500.00
OMNIAGT W322	Cattail Group™, Complete 3 Unit Assembly	$ 20,500.00
OMNIAGT W326-1	Mission Hill Mister™	$ 8,000.00
OMNIAGT W326-2	Mission Hill Shower™	$ 7,500.00
OMNIAGT W326-3	Mission Hill Spill™	$ 8,000.00
OMNIAGT W327	Fish N' Spill™, 5-Arm Assembly	$ 23,000.00

OMNIAGT W009	Touch & Go™ Bollard, Wired.	$ 3,000.00
OMNIAGT W009-W	Wireless Touch & Go™ Bollard	$ 3,000.00
OMNIAGT W017	Launch Pad™, Wired Vibration Activated (Deck Mounted)	$ 2,000.00
OMNIAGT W017-W	Wireless Launch Pad™ (Surface Mounted)	$ 2,000.00
OMNIAGT CTP-100	UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Does not include a solenoiid valve or cord.	$ 5,000.00
OMNIAGT CTP-100-10	UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 1" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 5,500.00
OMNIAGT CTP-100-10-PTP	Pedestal Mounted UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 1" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 8,000.00
OMNIAGT CTP-100-15	UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 1 1/2" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 6,000.00
OMNIAGT CTP-100-15-PTP	Pedestal Mounted UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 1 1/2" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 8,500.00
OMNIAGT CTP-100-20	UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 2" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 6,500.00
OMNIAGT CTP-100-20-PTP	Pedestal Mounted UL-Listed Controller for Wired Activators, Single Timer Control. Integral, Electronic, 7 Day, 24 Hour Time Clock and Time Delay Relay. Includes (1) 2" Die Cast Bronze Solenoid Valve with Stainless Steel Hardware, 15' Cord and 12VDC UL Recognized Coil.	$ 9,000.00
OMNIAGT DSC-0-8	UL-Listed Controller w/ no wired input modules and 1 module for 8 wired 24VAC outputs.	$ 7,000.00

Water Odyssey 2024 OMNIA Contract Discount: 8%		
Part No.	**Description**	**MSRP***
OMNIAGT DSC-0-8-A	UL-Listed Controller with no hard-wired input modules, 1 module for 8 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 8,000.00
OMNIAGT DSC-0-8-PTP	UL-Listed Controller w/ no hard-wired input modules, 1 module for 8 wired outputs, in a Thermalplastic Enclosure mounted on an FRP Pedestal base.	$ 9,500.00
OMNIAGT DSC-0-8-W	UL-Listed Controller w/ no hard-wired input modules, 1 module for 8 wired outputS. Supplied with antenna/receiver and 150’ integral cable	$ 7,500.00
OMNIAGT DSC-0-8-W-PTP	UL-Listed Controller w/ no hard-wired input modules, 1 module for 8 wired outputs, in a Thermalplastic Enclosure mounted on an FRP Pedestal base and supplied with antenna/receiver and 150’ integral cable	$ 10,000.00
OMNIAGT DSC-0-16	UL-Listed Controller w/ no wired input modules and 2 modules for 16 total wired 24VAC outputs.	$ 8,000.00
OMNIAGT DSC-0-16-A	UL-Listed Controller with no hard-wired input modules, 2 modules for 16 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 9,000.00
OMNIAGT DSC-0-16-W	UL-Listed Controller w/ no hard-wired input modules, 2 modules for 16 total wired 24VAC outputs, supplied with antenna/receiver and 150’ integral cable	$ 8,500.00
OMNIAGT DSC-0-16-W-PTP	UL-Listed Controller w/ no hard-wired input modules, 1 module for 16 wired outputs, in a Thermalplastic NEMA rated Enclosure mounted on an FRP Pedestal base and supplied with antenna/receiver and 150’ integral cable	$ 11,500.00
OMNIAGT DSC-0-24	UL-Listed Controller w/ no module for hard-wired inputs, modules for 24 wired outputs, without antenna or receiver.	$ 9,000.00
OMNIAGT DSC-0-24-A	UL-Listed Controller with no hard-wired input modules, 3 modules for 24 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 10,500.00
OMNIAGT DSC-0-24-W	UL-Listed Controller w/ no module for hard-wired inputs, modules for 24 wired outputs, supplied with antenna/receiver and 150’ integral cable	$ 9,000.00
OMNIAGT DSC-0-24-W-PTP	UL-Listed Controller w/ no module for hard-wired inputs, modules for 24 wired outputs in aThermal Plastic Enclosure mounted on an FRP Pedestal base., supplied with antenna/receiver and 150’ integral cable	$ 10,000.00
OMNIAGT DSC-0-32-A	UL-Listed Controller with no hard-wired input modules, 4 modules for 32 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 13,500.00
OMNIAGT DSC-8-8	UL-Listed Controller w/ a module for 8 hard-wired inputs and a module for 8 wired outputs.	$ 7,500.00
OMNIAGT DSC-8-8-A	UL-Listed Controller with 1 module for 8 hard-wired inputs, 1 module for 8 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 8,500.00
OMNIAGT DSC-8-8-PTP	UL-Listed Controller w/ a module for 8 hard-wired inputs and a module for 8 wired outputs mounted in a Thermalplastic NEMA 4X housing.	$ 11,000.00
OMNIAGT DSC-8-8-W	UL-Listed Controller w/ a module for 8 hard-wired inputs, a module for 8 wired outputs, antennae/receiver and 150' of integral cable	$ 8,000.00
OMNIAGT DSC-8-16	UL-Listed Controller w/ a module for 8 hard-wired inputs and modules for 16 wired outputs.	$ 8,000.00
OMNIAGT DSC-8-16-A	UL-Listed Controller with 1 module for 8 hard-wired inputs, 2 modules for 16 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 9,500.00
OMNIAGT DSC-8-16-PTP	UL-Listed Controller w/ a module for 8 hard-wired inputs and modules for 16 wired outputs in a Thermalplastic Enclosure mounted on an FRP Pedestal base.	$ 12,000.00
OMNIAGT DSC-8-16-W	UL-Listed Controller one module for hard-wired inputs, modules for 16 wired outputs. Supplied with antenna/receiver and 150’ integral cable	$ 9,000.00
OMNIAGT DSC-8-24	UL-Listed Controller w/ a module for 8 hard-wired inputs and modules for 24 wired outputs mounted in a NEMA 4X housing	$ 10,000.00
OMNIAGT DSC-8-24-A	UL-Listed Controller with 1 module for 8 hard-wired inputs, 3 modules for 24 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 13,000.00
OMNIAGT DSC-8-24-W	UL-Listed Controller w/ a module for 8 hard-wired inputs and modules for 24 wired outputs mounted in a NEMA 4X housing, supplied with antenna/receiver and 150’ integral cable	$ 10,500.00
OMNIAGT DSC-8-32-A	UL-Listed Controller with 1 module for 8 hard-wired inputs, 4 modules for 32 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 15,500.00
OMNIAGT DSC-16-16	UL-Listed Controller w/ modules for 16 hard-wired inputs and modules for 16 wired outputs mounted in a NEMA 4X housing	$ 9,500.00

Water Odyssey 2024 OMNIA Contract Discount: 8%		
Part No.	**Description**	**MSRP***
OMNIAGT DSC-16-16-A	UL-Listed Controller with 2 modules for 16 hard-wired inputs, 2 modules for 16 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 10,500.00
OMNIAGT DSC-16-16-W	UL-Listed Controller w/ modules for 16 hard-wired inputs and modules for 16 wired outputs mounted in a NEMA 4X housing, supplied with antenna/receiver and 150' integral cable	$ 10,500.00
OMNIAGT DSC-16-24	UL-Listed Controller w/ modules for 16 hard-wired inputs and modules for 24 wired outputs mounted in a NEMA 4X housing	$ 11,500.00
OMNIAGT DSC-16-24-A	UL-Listed Controller with 2 modules for 16 hard-wired inputs, 3 modules for 24 wired 24VAC outputs, Factory Mounted and Prewired to manifold assembly (sold separately).	$ 15,000.00
OMNIAGT DSC-16-24-W	UL-Listed Controller w/ modules for 16 hard-wired inputs and modules for 24 wired outputs mounted in a NEMA 4X housing, supplied with antenna/receiver and 150' integral cable	$ 12,500.00
OMNIAGT VM-01	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (1) discharge assembly each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 5,500.00
OMNIAGT VM-03	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (3) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 6,500.00
OMNIAGT VM-04	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (4) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 7,500.00
OMNIAGT VM-05	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (5) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 8,500.00
OMNIAGT VM-06	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (6) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 9,500.00
OMNIAGT VM-07	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (7) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 10,500.00
OMNIAGT VM-08	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (8) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 11,500.00
OMNIAGT VM-09	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (9) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 12,500.00
OMNIAGT VM-10	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (10) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 13,500.00
OMNIAGT VM-11	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (11) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 14,500.00

Part No.	**Description**	**MSRP***
OMNIAGT VM-12	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (12) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 15,500.00
OMNIAGT VM-13	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (13) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 16,500.00
OMNIAGT VM-14	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (14) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 17,500.00
OMNIAGT VM-15	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (15) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 18,500.00
OMNIAGT VM-16	4" Stainless Steel Manifold for Valve Box Installation w/pressure gauge, drain valve, water hammer arrestor, FPT inlet connection (16) discharge assemblies each with (1) true union ball valve and (1) 24VAC bronze solenoid valve with 15' cord. NOTE: Water pressure to the manifold must not exceed 50 psi. The installer must ensure this requirement is met.	$ 19,500.00
OMNIAGT WVB-3232	In-ground FRP valve box with 32" x 32" heavy-duty FRP lid, wiring channel, 2" conduit connection, and tamper-resistant stainless steel fasteners. For use with Catalog Number VM-04 through VM-06 Manifolds.	$ 5,000.00
OMNIAGT WVB-3248	In-ground FRP valve box with 32" x 48" 2-piece heavy-duty FRP lid, wiring channel, 2" conduit connection, and tamper-resistant stainless steel fasteners. For use with Catalog Number VM-07 through VM-12 Manifolds.	$ 6,000.00
OMNIAGT WVB-3262	In-ground FRP valve box with 32" x 62" 3-piece heavy-duty FRP lid, wiring channel, 2" conduit connection, and tamper-resistant stainless steel fasteners. For use with Catalog Number VM-13 through VM-16 Manifolds.	$ 7,500.00
OMNIAGT WVB-60120-16	Above Grade 1/8" Aluminum 3R Utility / Valve Box, 60"" x 120" x 24" with 2" Base Mounting Flange, Overlapping Doors, 3/4 Stainless Steel Handle with Padlock Hasp, Corbin #2 Lock, and Screened Louvers.	$ 13,500.00
OMNIAGT WVB-60144-20	Above Grade 1/8" Aluminum 3R Utility / Valve Box, 60"" x 144" x 24" with 2" Base Mounting Flange, Overlapping Doors, 3/4 Stainless Steel Handle with Padlock Hasp, Corbin #2 Lock, and Screened Louvers.	$ 13,000.00
OMNIAGT WVB-6072-8	Above Grade 1/8" Aluminum 3R Utility / Valve Box, 60"" x 72" x 24" with 2" Base Mounting Flange, Overlapping Doors, 3/4 Stainless Steel Handle with Padlock Hasp, Corbin #2 Lock, and Screened Louvers.	$ 11,000.00
OMNIAGT WVB-6096-12	Above Grade 1/8" Aluminum 3R Utility / Valve Box, 60"" x 96" x 24" with 2" Base Mounting Flange, Overlapping Doors, 3/4 Stainless Steel Handle with Padlock Hasp, Corbin #2 Lock, and Screened Louvers.	$ 11,500.00
OMNIAGT W037(A)	Decorative Drain Cover, "Swirls" Design 'A' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(B)	Decorative Drain Cover, "Kids and Swirls" Design 'B' w/stainless steel sump	$ -
OMNIAGT W037(C)	Decorative Drain Cover, "Kids" Design 'C' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(D)	Decorative Drain Cover, "Happy Face" Design 'D' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(E)	Decorative Drain Cover, "Radial Arrows" Design 'E' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(F)	Decorative Drain Cover, "Fish Swimming In" Design 'F' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(G)	Decorative Drain Cover, "Quadrant Lines" Design 'G' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(H)	Decorative Drain Cover, "Radial Slots" Design 'H' w/stainless steel sump	$ 2,000.00
OMNIAGT W037(I)	Decorative Drain Cover, "Fish Swimming Out" Design 'I' w/stainless steel sump	$ 2,000.00
OMNIAGT W200	Plain Drain™ with 4" Slip Connection	$ 1,000.00
OMNIAGT W200-6	Plain Drain™ with 6" Slip Connection	$ 1,000.00
OMNIAGT WMM-600	Maintenance Minimizer™ Square Drain and Sediment Trap.	$ 4,500.00
OMNIAGT WMM-600R	Maintenance Minimizer™ Round Drain and Sediment Trap.	$ 4,500.00
OMNIAGT W117-11	Winterization Cover, Stainless Steel, for Cloud 9™, Daddy Long Legs™, Water Fan™, Water Wave™, Geyserino™, Water Crown™, and Water Lava™	$ 500.00

GameTime Certified Installer Services 2024 OMNIA Contract Rates		
Sitework Services	**Price**	**Unit**
Trench drain ($/lf) with #57 stone surrounding a 4” perforated flexible pipe, all wrapped in geotextile fabric		
12” wide x 12” depth (assumes positive slope, maximum cut 12" depth)	$21.50	LF
12” wide x 12” Depth over 375 LF	$18.30	LF
12” wide x 18” Depth (assumes positive slope, maximum cut 12" depth)	$27.90	LF
12” wide x 18” Depth over 250 LF	$23.60	LF
Flexible 4” non-perforated outfall pipe ($/lf) – installed in standard trench without gravel bedding	$0.00	
and including animal barrier at outfall	$0.00	
Attached to 12” wide x 12” depth 4” perforated flexible pipe	$16.10	LF
Attached to 12” wide x 18” depth 4” perforated flexible pipe	$18.30	LF
Attached to 12” wide x 12” depth 4” perforated flexible pipe over 100 LF	$15.10	LF
Attached to 12” wide x 18” depth 4” perforated flexible pipe over 100 LF	$17.10	LF
Animal Barrier	$53.60	EA
Concrete sidewalk ($/sf) - 4” thick fiber reinforced concrete with 4” stone base	$10.80	SF
Concrete sidewalk ($/sf) - 4” thick fiber reinforced concrete with 4” stone base over 500 SF	$10.20	SF
(Sidewalks exclude earthwork cutting greater than 8” and includes spoils used as backfill (good access, no import of fill, no hauling of cut, no turned down edges, no ramping, etc.)	$0.00	
Stonedust walk ($/sf) – 6” crushed aggregate (also known as bluestone, etc.)	$6.40	SF
Stonedust walk ($/sf) – 6” crushed aggregate over 500 SF	$5.40	SF
(Walks exclude earthwork cutting greater than 8” (good access, no import of fill, no turned down edges, no ramping, etc.)	$0.00	
6”x 6” wood border ($/lf) – double stacked with chamfered edges	$14.00	LF
6”x 8” wood border ($/lf) – single layer with chamfered edges	$10.20	LF
6”x 8” wood border ($/lf) – double stacked with chamfered edges	$19.30	LF
4” wide slot drain ($/lf) – for drainage under poured-in-place rubber surfacing systems	$37 - $54 LF	
(Pricing varies depending on type of grate, quality & size of parts; excludes outfall)		
42” chain link black vinyl coated fencing ($/lf) and related components	Varies	
(pricing varies depending on the quantity of line and terminal posts; quoted per job)		
36” wide ($/ea) chain link black vinyl coated gate, and related fencing hardware	$805.00	EA
48” wide ($/ea) chain link black vinyl coated gate, and related fencing hardware	$860.00	EA

Installation Notes:	
1.0	*All equipment to be installed in accordance with specifications by GameTime factory-certified professional installers.*
2.0	*Equipment shall be installed within four (4) weeks of product delivery, unless requested by agency to be delayed.*
3.0	*Customer shall receive, unload and inspect goods upon arrival, noting any discrepancies on the Delivery Receipt, prior to written acceptance of the shipment unless other arrangements have been made.*
4.0	*Customer shall be responsible for providing a clear, level site and for coordinating the scheduling of all deliveries and installation.*
5.0	*Site should permit installation equipment access. Purchaser shall be responsible for unknown conditions such as buried utilities, tree stumps, bedrock or any concealed materials or conditions that may result in additional costs.*
6.0	*Equipment installation pricing excludes all site work and landscaping; removal of existing equipment; storage of goods prior to installation; and drainage provisions. Call for an estimate for site services.*
7.0	*Building Permits, if required, shall be charged at the provider's cost.*
8.0	*Due to size, soil conditions or code requirements, some shade structures may require the following special pricing per footing: SF1 $285.00; SF2 $390.00; SF3 $495.00; & SF4 $575.00.*
9.0	*If use of cranes and other heavy equipment is required, add $1,500.00 per day.*
10.0	*Customer shall provide and install water supply line to the Drinking Fountain.*
11.0	*For prevailing wages in New York, Los Angeles, Chicago, San Francisco, San Diego, and San Jose, add 6%.*
12.0	*Surfacing installation rates assume clear access for large trucks and storage within 50 ft. of playground.*
13.0	*Advance Bolt Template (ABT) for footer installations may be provided in advance for an additional charge of: $150.00*

PLAYGROUND GUARDIAN INSPECTION SERVICES 2024 OMNIA Contract Rates	
Service Type	**Contract Price**
Low Frequency Safety Inspection	$ 1,000.00
Playground Safety Audit	$ 1,500.00
ADA Playground Audit	$ 1,000.00
ASTM 1292 HIC/GMAX Impact Attenuation Surface Testing (TRIAX)	$ 2,500.00
Park Protector Playground Software Systems: (Inventory, Inspection, Work Orders and Maintenance Planning) Contract Pricing Based On Total Number of Jobsites:	
1 - 6 Locations	$ 1,500.00
6 - 15 Locations	$ 2,000.00
16 - 30 Locations	$ 2,500.00
30 - 50 Locations	$ 3,000.00
50 - 75 Locations	$ 3,500.00
75 - 100 Locations	$ 4,000.00
100 - 200 Locations	$ 5,000.00
200 - 299 Locations	$ 6,000.00
300 - + Locations	$ 7,000.00

General Notes:
**Inspections may have additional travel expense if less than 4 sites a day can be visited. Additional cost will be calculated using Government Service Administrations costs for travel/per diem (GSA.gov).*

CORE SERVICES 2024 OMNIA Contract Rates	
Service Type	**Contract Price**
CORE Annual Data Package 1-Analytics and custom data packages (call for package specifics)	$ 30,000.00
CORE Annual Data Package 2-Analytics and custom data packages (call for package specifics)	$ 50,000.00
CORE Annual Data Package 3-Analytics and custom data packages (call for package specifics)	$ 100,000.00
CORE Annual Data Package 4-Analytics and custom data packages (call for package specifics)	$ 150,000.00
* Services may have additional charges based on customer requests or other factors such as customer attendance headcount at trainings, travel costs and frequency, etc.

Foxtail Park - Poured Rubber Surfacing

Payment Terms: Governmental Purchase Order.
Purchases in excess of $1,000.00 to be supported by your written purchase order made out to GameTime.
Net 30 days subject to approval by GameTime Credit Manager. A completed Credit Application and Bank Reference Authorization, must be received with the order. The decision on credit is the sole discretion of GameTime/PlayCore. A 1.5% per month finance charge will be imposed on all past due accounts.
Multiple Invoices: Invoices will be generated upon services rendered. When equipment ships it will be invoiced seperately from installation and/or other services. Terms are Net 30 for each individual invoice.
This Quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless noted, and changes are subject to price adjustment.
Pricing: Firm for 60 days from date of quotation.
Shipment: F.O.B. factory, order shall ship within 120 days after GameTime's receipt and acceptance of your purchase order, color selections, approved submittals, and receipt of payment.
Taxes: State and local taxes will be added at time of invoicing, if not already included, unless a tax exempt certificate is provided at the time of order entry.
Exclusions: Unless specifically discussed, this quotation excludes all sitework and landscaping; removal of existing equipment; acceptance of equipment and off-loading; lift gate delivery; storage of goods prior to installation; security of equipment (on site and at night); equipment assembly and installation; safety surfacing; borders; drainage; signed/sealed drawings; or permits.

Installation Terms: Shall be by a Certified Installer. The installer is an indepedent installer and not part of PlayCore, GameTime, nor Dominica Recreation Products. If playground equipment, installer will be NPSI and Factory Trained and Certified. Unless otherwise noted, installation is based on a standard installation consistent with GameTime installation sheets and in suitable soil with a sub-base that will allow proper playground installation. Drainage is not part of our scope of work unless otherwise noted. Customer shall be responsible for scheduling and coordination with the installer. Site should be level and allow for unrestricted access of trucks and machinery. Customer shall also provide a staging and construction area. Installer not responsible for sod replacement or damage to access path and staging area. Customer shall be responsible for unknown conditions such as buried utilities, tree stumps, rock, or any concealed materials or conditions that may result in additional labor or material costs. Customer will be billed hourly or per job directly by the installer for any additional costs that were not previously included.

Unitary Surfacing Notes : The installer of the Unitary Surfacing (Poured, Bonded, Turf, Tiles) is not the same installer of the playground equipment. However, your certified equipment installer will coordinate the timing of the unitary surfacing installation, but more than likely they will not be on-site at the time. They will continue to be your contact should you have any questions. Security is needed to protect surfacing at night or after installation as the product set. Normally it is not needed or a concern, however in some areas additional security is needed to prevent vandalism. **Security is not included.** Vandalism will be the responsible of the owner.

Office of the Mayor

Village of Palm Springs, Florida

Proclamation

WHEREAS, emergencies can occur at any time that require police services; and when an emergency occurs, the prompt response of police officers is critical to the protection of life and preservation of property; and

WHEREAS, the safety of our police officers is dependent upon the quality and accuracy of information obtained from citizens who telephone the Palm Springs police communications center; and

WHEREAS, Public Safety Telecommunicators are the first and most critical contact our citizens have with emergency services, as well as the single vital link for our police officers by monitoring their activities by radio and providing them with information to ensure their safety; and

WHEREAS, each telecommunicator has exhibited compassion, understanding, and professionalism during the performance of their job in the past year, and the Village wishes to honor the men and women whose diligence and professionalism keep our Village and citizens safe.

NOW, THEREFORE, I, BEV SMITH, Mayor of the Village of Palm Springs, Florida, do hereby proclaim the week of April 14- - 20, 2024 as

"Public Safety Telecommunications Week in Palm Springs"

SEAL

In witness whereof I have herunto set my hand and caused the seal of this city to be affixed

Mayor Beverly Smith

Date April 11, 2024

Office of the Mayor

Village of Palm Springs, Florida

Proclamation

WHEREAS, in 1872, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees, which was called "**ARBOR DAY**"; and is now observed throughout the nation and the world; and

WHEREAS, trees reduce the erosion of our precious topsoil by wind and water, cut heating and cooling costs, moderate the temperature, clean the air, produce oxygen, and provide habitat for wildlife; and

WHEREAS, trees truly represent the cycles of life, enhance and vitalize the economics of our business areas, increase property values and, bring overall beauty to our Village; and

WHEREAS, the Village of Palm Springs has been recognized as a ***TREE CITY, U.S.A.*** through the National Arbor Day Foundation every year since 1991; and desires to continue its tree-planting practices by planting an Orange Geiger tree at the Splash Pad Area, which is located at the Village Hall Complex, 226 Cypress Lane, in honor of National Arbor Day.

NOW, THEREFORE, I, BEV SMITH, Mayor of the Village of Palm Springs, urge all our residents to plant trees and support efforts to protect our trees and woodlands for our future generations and do hereby proclaim April 26, 2024, at 11:00 AM as:

"ARBOR DAY IN PALM SPRINGS"

SEAL

In witness whereof I have herunto set my hand and caused the seal of this city to be affixed

Mayor Beverly Smith

Date April 11, 2024

Office of the Mayor

Village of Palm Springs, Florida

Proclamation

WHEREAS, The Office of the Professional Municipal Clerk, a time-honored and vital part of local government exists throughout the world, and

WHEREAS, The Office of the Professional Municipal Clerk is the oldest among public servants, and

WHEREAS, The Office of the Professional Municipal Clerk provides the professional link between the citizens, the local governing bodies, and agencies of government at other levels, and

WHEREAS, Professional Municipal Clerks have pledged to be ever mindful of their neutrality and impartiality, rendering equal service to all.

WHEREAS, The Professional Municipal Clerk serves as the information center on functions of local government and community.

WHEREAS, Professional Municipal Clerks continually strive to improve the administration of the affairs of the Office of the Professional Municipal Clerk through participation in education programs, seminars, workshops, and the annual meetings of their state, provincial, county, and international professional organizations.

WHEREAS, The Village of Palm Springs wishes to recognize and extend appreciation to our Village Clerk and her Staff, as well as all Municipal Clerks, for the vital services they perform and their exemplary dedication to the communities they represent.

NOW, THEREFORE, I, BEV SMITH, Mayor of the Village of Palm Springs, Florida, do hereby proclaim the week of May 5-11, 2024, as

"55th ANNUAL PROFESSIONAL MUNICIPAL CLERKS WEEK

May 5-11, 2024"

SEAL

In witness whereof I have herunto set my hand and caused the seal of this city to be affixed

Mayor Beverly Smith

Date April 11, 2024

Village of Palm Springs

Executive Brief

AGENDA DATE: April 11, 2024

DEPARTMENT: Police Department

ITEM #18: Purchase Agreement - Portable Radios - Police Department (FY 2024 Budget – Machinery and Equipment and Other Contractual Services - ARPA Funded)

SUMMARY: The Police Department has budgeted $58,000 to replace ten (10) radios and $42,000 to encrypt their current radio system for Fiscal Year 2024. The police department currently uses sixty-seven (67) Motorola radios, which are divided into two models: Motorola APX6000 AN (15 radios) and BN (52 radios) models. The AN model has reached its end of life, and the BN model has about five years left before reaching its end.

To replace the radios, staff recommends transitioning all police radios to the new Motorola APXN70 model instead of purchasing a few radios per year. The new model has a longer life expectancy and provides transmission redundancy, which increases officer safety. The new model can also be remotely programmed, eliminating the costly need to physically touch each radio to update it.

The radios operate on the existing Motorola system and are in line with the level of performance and consistency of the current communication equipment from this brand, as per Purchasing Authority 58-10 Village Standard Product. They are also compatible with the police department's emergency communication consoles.

FISCAL IMPACT:

The proposed purchase of 65 Motorola APXN70 radios, including encryption and all necessary accessories, would be priced at $527,775.95. The Village will receive $16,250.00 as a trade-in for the old radios, which brings the purchase cost to $511,525.95.

The FY 2024 Budget – Machinery and Equipment and Other Contractual Services has some funds available to support this purchase. The remaining funds required to purchase the newer radios will come from the allotted American Rescue Plan Act (ARPA) funds.

PALM BEACH COUNTY
BOARD OF COUNTY COMMISSIONERS
AGENDA ITEM SUMMARY

R-2020-0313

Meeting Date:	**March 17, 2020**	**[X] Consent**	**[ ] Regular**
		[ ] Ordinance	**[ ] Public Hearing**

Department: **Facilities Development & Operations**

I. EXECUTIVE BRIEF

Motion and Title: Staff recommends motion to approve: An Interlocal Agreement with the Village of Palm Springs ("Participant") for radio maintenance services from March 17, 2020 through March 16, 2025.

Summary: The Agreement provides for the provision of radio equipment maintenance services to the Participant, by Facilities Development & Operations/Electronic Services & Security Division (FDO/ESS). The Agreement terminates Interlocal Agreement R2017-0641 between the County and the Participant. The services are to be charged on an hourly basis at a cost of $65/hr/person and $97.50/hr/person for overtime work. In the event that the County must out-source the labor, a separate labor rate is provided. The rates may be adjusted annually with notification by June 1 (effective that following October 1) at the County's sole discretion, but in no event shall the Participant's fee schedule exceed the fee schedule applied to County departments. This Agreement provides for an initial term of five (5) years with two (2) renewal options, each for a period of five (5) years. The Agreement may be terminated by either party, with or without cause with a minimum of three (3) months' notice. **(ESS) Countywide (LDC)**

Background and Justification: The County has been providing radio equipment maintenance services to the Participant since May 17, 2005. The Participant has determined that is beneficial to the Participant to utilize FDO/ESS to provide radio maintenance services for its public safety radio assets. The Participant has been interoperable with the County's Public Safety Radio System since 2003. In lieu of outsourcing its maintenance needs to a private firm, the Participant has chosen FDO/ESS for these services. No additional personnel will be required within FDO/ESS to perform these services.

INTERLOCAL AGREEMENT

R2020 0313

This Interlocal Agreement ("Agreement") is made and entered into this MAR 17 2020 day of _____, _____ by and between Palm Beach County, a political subdivision of the State of Florida ("County") and the Village of Palm Springs, a municipal corporation of the State of Florida ("Participant").

W I T N E S S E T H

WHEREAS, the County and the Participant are continually identifying more effective service delivery methods which result in overall savings to the taxpayers of the County and the Participant; and

WHEREAS, the County and the Participant have determined it to be beneficial to both parties for the Participant to purchase radio repair services from the County; and

WHEREAS, Section 163.01, Florida Statutes, permits public agencies to enter into Agreements to jointly exercise any power, privilege or authority which such agencies share in common and which each might exercise separately.

NOW THEREFORE, in consideration of the mutual covenants, promises and representations contained herein, the parties hereto agree as follows:

SECTION 1: PURPOSE

The purpose of this Agreement is to provide the terms and conditions by which the County will provide comprehensive radio repair services to the Participant and the schedule and method of payment to the County for such services. Radio repair services generally include: 1) warranty and maintenance and corrective maintenance services on radio equipment, and 2) programming of radio communication equipment, and 3) installation of radio equipment to vehicles owned and operated by the Participant.

SECTION 2: RADIO MANAGEMENT FACILITY

The County operates a radio maintenance & repair facility. The facility is located at 2633 Vista Parkway, West Palm Beach, FL 33411-5610. The facility is staffed and operated 8:00 am to 5:00 pm for all repairs and administrative support, Monday through Friday, excluding County holidays. Upon execution of this Agreement, the County will provide the Participant with emergency numbers whereby County personnel can respond to emergencies.

SECTION 3: WARRANTY AND CORRECTIVE REPAIRS

3.01 Corrective Repairs. Corrective repairs will be billed according to the fee schedule identified in **Attachment 1** to this Agreement which is incorporated herein by reference.

3.02 Commercial Repairs. Commercial repairs will be billed according to **Attachment**

1 to this Agreement. Any commercial repair to be completed by a vendor outside of the Palm Beach County area and other than the original equipment manufacturer will require the authorization of the Participant prior to commencement of the work.

3.03 Approval of Emergency Services. The Participant is to provide the County with a list of person/positions which are authorized to request emergency services. No emergency work will be undertaken by the County unless approved by a person/position contained on the list. Fees for emergency repair services are identified in **Attachment 1**.

3.04 Approval of Expedited/Overtime Services. The Participant may request services be expedited by requesting that certain work be performed on an overtime basis. Such work can be requested only by authorized Participant positions pursuant to **Section 3.03** and will be performed according to the fee schedule for emergency services.

3.05 Approval of Console Inclusion in County Service Agreement. The Participant may request in writing that its radio communication console be included in the County's Legacy Radio Service Agreement. Upon approval of the costs by the Participant, the County will include in its Service Agreement the Participant's radio console and associated console interface and RF equipment. Participant will be billed for the actual costs as a separate line item on the System Access Charges that are billed by the County in November of each year.

SECTION 4: BILLING SCHEDULE

The County will prepare and transmit a quarterly invoice to the Participant itemizing the costs. The Participant will immediately review the invoice and report any discrepancies to the County within ten (10) days of receipt. Payment will be due to the County within thirty (30) days of receipt of the invoice. Payments shall be sent to:

Board of County Commissioners
Special Receivables Section - Finance
P.O. Box 3977
West Palm Beach, FL 33402-3977

SECTION 5: ANNUAL RATE INFORMATION TO BE PROVIDED BY COUNTY

5.01 Notice of Annual Increases. The County will update **Attachment 1** and transmit same to the Participant prior to June 1st of each year for the fiscal year beginning the next October. Such updates are in the County's sole discretion; but the County agrees that the Participant's fee schedules shall not exceed the fee schedule applied to County departments. The updated Attachment will automatically become a part of this Agreement on October 1st each year.

5.02 Maintenance Information. The County will provide the Participant with quarterly detailed summaries of all maintenance charges during the months that maintenance was performed. At any time, the Participant may request information which it may require to assist in making fiscal or management decisions.

SECTION 6: ASSET INFORMATION TO BE PROVIDED BY PARTICIPANT

On the initial execution of this Agreement, the Participant will provide the County with the information necessary to code all radio and/or communication equipment into the County's automated management system and provide County with encryption codes as reasonably necessary for County to perform the services set forth in this Agreement. Any changes to the Participant's inventory or encryption codes shall be provided to the County as needed.

SECTION 7: COUNTY IMPLEMENTED QUALIFICATIONS, TRAINING AND SAFETY PROGRAMS

The County represents that all repairs will be performed by technicians holding certifications commonly available in the industry. If additional certification and/or training is required to repair new radio equipment models, the County will provide the technicians with the necessary training at no additional cost to the Participant.

SECTION 8: LIABILITY

The Parties to this Agreement and their respective officers and employees shall not be deemed to assume any liability for the acts, omissions and negligence of the other party. Nothing in this Agreement shall be construed as a waiver of the sovereign immunity of the County or Participant pursuant to §768.28, Florida Statutes. Each party shall be liable for its own actions and negligence and, to the extent permitted by law, the Participant shall indemnify, defend and save the County harmless from and against any and all claims, actions, damages, liability and expense in connection with: (i) loss of life, personal injury and/or damage to or destruction of property arising from or out of any use, or lack thereof, of the radio equipment maintained by County; (ii) use by Participant, or (iii) any act or omission of Participant, its agents, contractors, employees or invitees. In case the County shall be made a party to any litigation commenced against the Participant or by the Participant against a third party, then the Participant shall protect and hold harmless and pay all costs and attorney's fees incurred by the County in connection with such litigation, and any appeals thereof, subject to the monetary limitations of Section 768.28 F.S. The foregoing indemnification shall not constitute a waiver of sovereign immunity beyond the limits set forth in Section 768.28, Florida Statutes, nor shall the same be construed to constitute an agreement by either party to indemnify the other party for its own negligence, willful or intentional acts. The provisions of this section shall survive the termination or expiration of this Agreement.

SECTION 8A: INSURANCE

Without waiving the right to sovereign immunity as provided by section 768.28, Florida Statutes, (Statute), the Participant represents that it is self-insured with coverage subject to the limitations of the Statute, as may be amended.

If Participant is not self-insured, Participant shall, at its sole expense, purchase and maintain in full force and effect at all times during the life of this contract, insurance coverage at

limits not less than those contained in the Statute.

Should Participant purchase excess liability coverage, Participant agrees to include Participant as an Additional Insured.

The Participant agrees to maintain or to be self-insured for Workers' Compensation insurance in accordance with Chapter 440, Florida Statutes.

Should Participant contract with a third-party (Contractor) to perform any service related to the Agreement, Participant shall require the Contractor to provide the following minimum insurance:

- Commercial General Liability insurance with minimum limits of $1,000,000 combined single limit for property damage and bodily injury per occurrence and $2,000,000 per aggregate. Such policy shall be endorsed to include Participant and County as Additional Insureds. Participant shall also require that the Contractor include a Waiver of Subrogation against County.
- Business Automobile Liability insurance with minimum limits of $1,000,000 combined single limits for property damage and bodily injury per occurrence.
- Workers' Compensation insurance in compliance with Chapter 440, Florida Statutes, and which shall include coverage for Employer's Liability with minimum limits of $1,000,000 each accident.

When requested, the Participant shall provide an affidavit or Certificate of Insurance evidencing insurance or self-insurance.

Compliance with the foregoing requirement shall not relieve the Participant of its liability and obligations under this Agreement.

SECTION 9: TERM OF AGREEMENT

9.01 Initial Term. The initial term of this Agreement is for five (5) years and shall commence immediately upon full execution of this Agreement.

9.02 Renewals. This Agreement may be renewed for two (2) additional terms of five (5) years each. At least eight (8) months prior to the expiration of this Agreement's term, the Participant shall provide the County with a request to renew this Agreement. If agreed upon by the parties, within two (2) months of the receipt of the request, the County shall process an Amendment to this Agreement which shall be executed by both the Participant and the County.

9.03 Direct Connect Agreement. Notwithstanding the above paragraphs, this Agreement shall terminate upon the termination or expiration of the Participant's Direct Connect Agreement with the County.

9.04 Existing Interlocal Terminated. This Agreement when effective terminates the Interlocal Agreement between County and Participant R2017-0641.

SECTION 10: AMENDMENTS TO THIS AGREEMENT

This Agreement may be amended from time to time via written amendment executed by both the County and the Participant. Annual updates to the Attachment 1 will not require Board of County Commissioners or Participant Council approval, but will be incorporated automatically each year on October 1st.

SECTION 11: TERMINATION

This Agreement can be terminated by either party, with or without cause. Any termination shall be with a minimum of three (3) months notice.

SECTION 12: ANNUAL BUDGET APPROPRIATIONS

Pursuant to State law, this Agreement is subject to the annual budget appropriations of the Participant and the County.

SECTION 13: NOTICES

Any notice given pursuant to the terms of this Agreement shall be in writing and done by Certified Mail, Return Receipt Requested. The effective date of such notice shall be the date of receipt, as evidenced by the Return Receipt. All notices shall be addressed to the following:

As to the County:

Director, Facilities Development & Operations
2633 Vista Parkway
West Palm Beach, FL 33411-5603

With a copy to:

Radio System Manager
2633 Vista Parkway
West Palm Beach, FL 33411-5610

County Attorney's Office
301 North Olive Avenue
West Palm Beach, FL 33401

As to the Participant:

Village Manager
Village of Palm Springs
226 Cypress Lane
Palm Springs, FL 33461

With copies to:

Police Chief
Village of Palm Springs
230 Cypress Lane
Palm Springs, FL 33461

Brian Shutt, Esquire
Law Offices of Glen J. Torcivia, P.A.
701 Northpoint Parkway, Suite 209
West Palm Beach, FL 33407

SECTION 14: APPLICABLE LAW

This Agreement shall be governed by the laws of the State of Florida and venue shall be in Palm Beach County.

SECTION 15: FILING

A copy of this Agreement shall be filed with the Clerk of the Circuit Court in and for Palm Beach County.

SECTION 16: DELEGATION OF DUTY

Nothing contained herein shall be deemed to authorize the delegation of the Constitutional or Statutory duties of County or Participant.

SECTION 17: PALM BEACH COUNTY OFFICE OF THE INSPECTOR GENERAL AUDIT REQUIREMENTS

Palm Beach County has established the Office of the Inspector General in Palm Beach County Code, Section 2-421 - 2-440, as may be amended. The Inspector General is authorized with the power to review past, present and proposed County contracts, transactions, accounts and records. The Inspector General's authority includes, but is not limited to, the power to audit, investigate, monitor, and inspect the activities of entities contracting with the County, or anyone acting on their behalf, in order to ensure compliance with contract requirements and to detect corruption and fraud. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be a violation of Palm Beach County Code, Section 2-421 - 2-440, and punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

SECTION 18: NO THIRD PARTY BENEFICIARY

No provision of this Agreement is intended to, or shall be construed to, create any third party beneficiary or to provide any rights to any person or entity not a party to this Agreement, including, but not limited to, any citizen or employees of the County and/or the Participant.

SECTION 19: NON-DISCRIMINATION

The County is committed to assuring equal opportunity in the award of contracts and complies with all laws prohibiting discrimination. Pursuant to Palm Beach County Resolution R2017-1770, as may be amended, the Participant warrants and represents that throughout the term of the Agreement, including any renewals thereof, if applicable, all of its employees are treated equally during employment without regard to race, color, religion, disability, sex, age, national origin, ancestry, marital status, familial status, sexual orientation, gender identity or expression, or genetic information. Failure to meet this requirement shall be considered default of the Agreement.

SECTION 20: ASSIGNMENT

Participant may not assign, mortgage, pledge, or encumber this Agreement in whole or in part, without prior written consent of County, which may be granted or withheld at the County's absolute discretion. This provision shall be construed to include a prohibition against an assignment, mortgage, pledge, encumbrance or sublease, by operation of law, legal process, receivership, bankruptcy, or otherwise, whether voluntary or involuntary.

SECTION 21: SEVERABILITY

If any term of the Agreement or the application thereof to any person or circumstance shall be determined by a court of competent jurisdiction to be invalid or unenforceable, the remainder of the Agreement, or the application of such term to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and each term of the Agreement shall be valid and enforceable to the fullest extent permitted by law.

SECTION 22: COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

SECTION 23: EFFECTIVE DATE

This Agreement is expressly contingent upon the approval of the Palm Beach County Board of County Commissioners and shall become effective only when signed by all Parties and approved by the Palm Beach County Board of County Commissioners.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the day and year first above written.

Executive Brief

AGENDA DATE: April 11, 2024

DEPARTMENT: Planning, Zoning & Building

ITEM #19: Site Plan (SPR24-04), Special Exception Use (PSSE24-01) and Hours of Operation Variance (PSV24-03) - Woodsprings Suites & Everhome Suites Hotels - 2645 10th Avenue North

SUMMARY: Insite Studio, agent for 10th Avenue Partnership LTD ("Applicant"), submitted an application for a Site Plan (SPR24-04) and concurrently requested a Special Exception Use (PSSE24-01) to allow the construction of two four-story hotel buildings with a total of 236 hotel rooms for the Commercial General property located at 2645 10th Avenue North.

The 4.63-acre site is on the northwest corner of the 10th Avenue North & Florida Mango Road intersection. It retains a Future Land Use designation of Commercial and the Commercial General (CG) zoning district classification. The Applicant is proposing a Site Development Plan (within a Commercial Planned Development) and concurrently requesting a Special Exception Use approval with three Variances to allow the construction of 2 four-story hotel buildings with a total of 236 hotel rooms - Everhomes Suites 114 rooms and Woodsprings Suites 122 rooms.

The proposed site plan will be accommodated within Tract 1 as shown on the previously approved Master Commercial Planned Development Site Plan known as "Village Collection of Palm Springs" under Resolution 2023-52. The site was previously referenced as a "Future Development area" with no set use or site layout associated with it.

As part of the proposed Site Development Plan, the Applicant is requesting three variances **(PSV24-01, PSV24-02 and PSV24-03)**:

Planning & Zoning Board Consideration:

1. **PSV24-01** - The Village is requesting variance relief from Section 34-1329 (5) (q) to allow a reduction of parking spaces from the required 250 spaces to 235 parking spaces.

2. **PSV24-02** - Requesting a Variance relief from Section 34-826 (10) to allow a maximum building height of 50' rather than 45'maximum permitted. Note: During the Planning and Zoning Board meeting on March 12, 2024, the board approved Variance PSV24-02, but Variance PSV24-01 was recommended for approval pending Council consideration on evaluating a proposed mitigation plan for the deficit of parking in case any parking issues arise once the hotel is open for business.

Council Consideration:

3. PSV24-03 - Requesting variance relief from Section 34-891(1) to allow 24-hour operations.

The Planning and Zoning Board considered this application during their March 12, 2024, meeting and recommended approval.
The Planning, Zoning & Building staff do not object to the proposed Site Development Amendment and Special Exception Use and recommend conditional approval subject to thirty-eight (38) conditions.

FISCAL IMPACT:
The proposed development will enhance the village's assessed property valuation.

RESOLUTION NO. 2024-12

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, (APPROVING/DENYING) WITH CONDITIONS, AN APPLICATION SUBMITTED BYINSITE STUDIO, AGENT FOR 10TH AVENUE PARTNERSHIP, LTD ("APPLICANT"), FOR A SITE PLAN (SPR24-04), CONCURRENTLY REQUESTING A SPECIAL EXCEPTION USE (PSSE24-01), TO ALLOW THE CONSTRUCTION OF TWO FOUR-STORY HOTEL BUILDINGS WITH A TOTAL OF 236 HOTEL ROOMS FOR THE COMMERCIAL GENERAL PROPERTY LOCATED AT 2645 10TH AVENUE NORTH; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Insite Studio, agent for 10th Avenue Partnership LTD ("Applicant"), submitted an application for a Site Plan (SPR24-04) and concurrently requested a Special Exception Use (PSSE24-01) to allow the construction of two four-story hotel buildings with a total of 236 hotel rooms for the Commercial General property located at 2645 10th Avenue North; and

WHEREAS, the proposed site plan will be accommodated within Tract 1 as shown on the previously approved Master Commercial Planned Development Site Plan known as "Village Collection of Palm Springs" under Resolution 2023-52; and

WHEREAS, Planning & Zoning Board considered the application during their March 12, 2024, meeting and recommended approval with three variances (PSV24-01, PSV24-02 and PSV24-03) subject to conditions; and

WHEREAS, Planning, Zoning & Building staff do not object to the proposed Site Development Amendment and Special Exception Use and recommend conditional approval subject to thirty-eight (38) conditions.

WHEREAS, the recommendation of the Planning, Zoning, and Building Department is to approve this application, subject to staff report conditions; and

WHEREAS, the Village Council and Planning & Zoning Board have heard this matter in public session; has considered the presentation and other evidence presented by the Applicant; has received and considered the recommendations of the Village Staff, and has otherwise been fully informed regarding this matter.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA:

Section 1. The Site Plan Amendment (SPR24-04) and Special Exception Use (PSSE24-01) for the development of two four-story hotel buildings with a total of 236 hotel rooms for the Commercial General property located at 2645 10th Avenue North, as shown in the submitted application materials and subject to thirty-eight (38) conditions, is hereby approved.

_____Having been otherwise fully apprised of the premises herein, the Village Council hereby adopts the findings of the Board and approves the said application as revised, with the staff report conditions attached hereto as Exhibit “A”, and which is incorporated herein by reference.

OR

_____Having been otherwise fully apprised of the premises herein, the Village Council hereby rejects the Board findings and denies the application, finding that good cause for the waivers has NOT been shown and they have NOT been demonstrated to be in harmony with the purpose, objectives, and performance standards of this subdivision based upon the criteria set forth in Palm Springs Code Section 34-859 (7), for the following reason(s):

_____
_____
_____

Notwithstanding any exceptions, conditions, or other approvals granted herein, the applicant must conform to all other applicable codes, ordinances, and laws whether stated herein or not.

Section 2. The approval is subject to compliance with all conditions of approval as set forth in the Planning, Zoning & Building staff report and as may be amended by the City Council, and compliance with all applicable laws, rules and regulations.

Section 3. This Resolution shall become effective immediately upon its adoption.

Council Member _____ offered the foregoing resolution. Council Member _____seconded the motion, and upon being put to a vote, the vote was as follows:

Recommendation			
Planning, Zoning & Building Staff recommends conditional approval of the proposed Site Plan Amendment, Special Exception Use and the Variances requested for the construction of two four-story hotels buildings - Everhomes suites 57,971 square feet with 114 rooms and Woodsprings Suites 48,660 square feet with 122 rooms as depicted on the proposed site plan.			

I. Site History

- Ordinance 2010-02: Annexation

The property was voluntarily annexed into the Village of Palm Springs as a developed parcel on February 11, 2010 and designated with the Land Development as Commercial General zoning districts and Future Land Use Commercial.

- Resolution 2017-26: Site Plan and Special Exception Use

On August 10, 2017 the Village's Council approved a Site Plan and Concurrently a Special Exception Use to redevelop the site by demolishing the existing bank drive-through and constructing a freestanding 4,081 square feet Chase Bank Branch with two lanes drive-through ATM with by-pass lane.

- Resolution 2018-22: Plat

The Village's Council approved on July 12, 2018 under above resolution, a final plat application to subdivide the 8.6 acre property at the northwest corner of the 10th Avenue North and Florida Mango Road to create a separate lot for Chase Bank building, the boundaries of the second lot created coincided with those of the special exception/site plan approved under Resolution 2017-26.

- Resolution 2020-01: Master Site Development Plan

The Village's Council approved on January 9, 2020, under above resolution, a Master Site Development Plan to allow the demolition of the existing 4-story commercial office building and redevelop the site to accommodate 3 separate development plans on the portion of the property west of the Chase Bank Building (8.61 acres).

- Resolution 2020-02: Site Development Plan and Special Exception Use and Three Variances

The Village's Council approved on January 9, 2020, under above resolution, a Site Plan Amendment and concurrently a Special Exception Use to permit the construction of 5,411 square feet convenience store building with 8,613 square feet canopy accommodating twenty (20) fueling stations, within 1.81 acres (Tract 2 of the Commercial Planned Development), located directly west of the new Chase Bank building.

- Resolution 2020-14: Plat

The Village's Council approved on May 14, 2020 under above resolution, a final plat application to re-plat the property to be consistent with the approved commercial planned development master plan (approved under Resolution 2020-01), and subdividing the property into three (3) separate parcels to enable the properties to be conveyed to future purchasers as legal lots of records.

- Resolution 2023-53: Site Plan and Special Exception Use

On January 11, 2024 the Village's Council approved a Site Plan and Concurrently a Special Exception Use to allow the construction of a 6,111 square foot restaurant building with a double drive-thru, additionally a Variance was approved to allow business operation to commence at 6:00 am (1 hour earlier) for the property located at 2625 10th Avenue North (tract 2) associated with the Chick-Fil-A Restaurant.

- Resolution 2023-54: Site Plan and Special Exception Use

On January 11, 2024 the Village's Council approved a Site Plan and Concurrently a Special Exception Use to allow the

construction of a 2,454 square foot restaurant building with a drive-thru and an outdoor seating area located at 2665 10th Avenue North (tract 3) associated with the Chipotle Restaurant.

II. Comprehensive Plan Consistency

The subject property's Future Land Use designation and Zoning are Commercial and Commercial General (CG), respectively. The proposed site development plan for the construction of two (2) new hotels is permitted as special exception use and is generally consistent with goals, objectives, and policies of the Village's Comprehensive Plan.

III. Variances Requested

Village Council Consideration

The applicant is seeking the following variance:

- **V1: PSV24-01** Requesting a Variance relief from Section 34-1329(5)(q) to allow a reduction of parking spaces from the required 250 spaces to 235 spaces.

- **V2: PSV24-02 –** Requesting a Variance relief from Section 34-826(10) to allow a maximum building height of 50' rather than 45' maximum permitted.

- **V3: PSV24-03 –** Requesting a Variance relief from Section 34-8191(1) to allow 24 hours operations.

The applicant's full justification is hereto:

a. That special condition and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same land development district.

V1- The special conditions and circumstances that are peculiar to the buildings, which are not applicable to other buildings in the CG Commercial General, are that the hotel uses are within a planned commercial development (PCD) which allows the sites to share a common parking field. The proposed hotels within Tract 1 will share a common parking field with the Tract 2 and Tract 3 sites. The overall reduction proposed by the variance request is 15 spaces (250 required for hotel uses; 235 provided), and the overall PCD shared parking field provides 330 total spaces for the 298 required, therefore there is a surplus of 32 parking spaces. Thus, there will be enough surplus parking within the Planned Commercial Development to accommodate the parking demand for the hotels.

V2 - The special conditions and circumstances that are peculiar to the buildings, which are not applicable to other buildings in the CG Commercial General, are the hotel uses. The hotel buildings meet the requirement of 4 stories, however, the height of the Everhome Suites building exceeds 45 feet, as it is 50 feet one (1) inch at its highest point. The configuration of the site, including its size, shape, and orientation, necessitates a tailored approach to building design and development. The architectural design for the hotels necessitates a slight increase in height to accommodate the aesthetic and functional requirements of the proposed structures. The additional height will enable the applicant to incorporate essential architectural features, such as elevated ceilings and roof features, which enhance the overall appeal and character of the development. These special conditions are not applicable to other lands within the district and warrant consideration for an adjusted building height limit to ensure optimal land utilization and architectural

integrity.

V3- The special conditions and circumstances that are peculiar to the building which are not applicable to other buildings in the CG Commercial General are the hotel use. Typical hours of operation for both the Woodspring Suites and Everhome Suites hotels are 24 hours/7 days a week, and the approval of this variance request would allow the hotels to operate during typical hours of operation for hotels. Hotels are considered a Special Exception Use within the CG Commercial General district, and the proposed use and hours of operation request are appropriate within the zoning district.

b. *That the special conditions and circumstances do not result from the actions of the applicant.*

V1 - The special conditions and circumstances do not result from the actions of the applicant but rather from the inherent design of the planned development site and the purpose of planned developments to allow greater flexibility in design and development standards. The Palm Springs Land Development Code (Section 34-1065) allows the village council to waive the required parking standards within a planned commercial development (PCD), provided that a shared parking study be submitted, reviewed, and approved by the village council. The applicant has submitted a shared parking study with this application which demonstrates that the proposed parking of 330 spaces for the PCD will meet the overall parking requirement and exceed it by 32 spaces.

V2 - The special conditions and circumstances do not result from the actions of the applicant but rather from the inherent design of the hotels and the purpose of planned developments to allow greater flexibility in design and development standards. The architectural design for the hotels necessitates a slight increase in height to accommodate the aesthetic and functional requirements of the proposed structures. In addition, the façade of Everhome Suites is designed to create variation by the use of parapets, molding, and other architectural features, in order to meet the requirements of the design guidelines (Section 34-1366). As mentioned, the additional height will enable the applicant to incorporate essential architectural features, such as elevated ceilings and roof features, which enhance the overall appeal and character of the development and meet the design guidelines.

V3 - The special conditions and circumstances do not result from the actions of the applicant. The typical hours of operation for the hotels are typical across all locations and necessary for operations, and the approval of the variance request would allow the hotels to operate during their typical hours.

c. *That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the same Planning, Building & Zoning district.*

V1 - Granting the variance will not confer upon the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the CG commercial general district. The Palm Springs Land Development Code (Section 34-1065) allows the village council to waive the required parking standards, provided that the applicant provides a shared parking study that is submitted, reviewed, and approved by the village council. The applicant's request to reduce the parking requirement by 15 spaces is justified by the fact that the overall parking requirement is met within the common parking field for the planned commercial development. Allowing for a reduction in parking spaces is a reasonable accommodation based on the unique circumstances of the property, utilization of a common parking field is a shared benefit

enjoyed by all properties within a planned commercial development, and it does not create an unfair advantage or exemption from applicable regulations.

V2- Granting the variance to allow an increase in maximum building height on Tract 1 does not confer any special privilege to the applicant that is denied to other properties within the CG commercial general district. The variance is sought to address site-specific conditions and ensure the reasonable use of the land, without imposing undue burdens or restrictions on neighboring properties. Thus, the variance maintains parity with the regulations applicable to other developments in the district.

V3- Granting a variance for 24-hour operation for the hotel use will not confer any special privilege that is denied by this chapter to other lands, buildings or structures in the CG commercial general district. The applicant's request is motivated by the specific operational requirements of a hotel, and by accommodating this variance, the hotels would contribute to the overall adaptability and vitality of the business landscape within the CG Commercial General District.

d. That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same Planning, Building & Zoning district under the terms of this chapter and would work unnecessary and undue hardship on the applicant.

V1 - Literal interpretation and enforcement of the terms and provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the CG commercial general district. The strict interpretation would also impose unnecessary and undue hardship. The shared parking study demonstrates that the overall parking demand is met by utilizing a shared parking field which provides a total of 330 spaces (298 required) for the PCD. Requiring additional on-site parking spaces beyond what is necessary to meet the overall demand would not only be financially burdensome but also inefficient and contrary to the principles of the ordinance and sustainable land use.

V2 - Literal interpretation and enforcement of the terms and provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the CG commercial general district. The previously existing building on the site exceeded 60 feet in height. Restricting the building height to the current limit of 45 feet would impose unnecessary and undue hardship on the applicant by limiting the development potential and economic viability of Tract 1. Granting the variance is essential to mitigate this hardship and enable the reasonable use of land in accordance with the objectives of the planned development district, including a commercial development that contributes to the village's character and economic vitality.

V3 – Literal interpretation and enforcement of the terms and provisions of this chapter would deprive the applicant, Woodspring Suites and Everhome Suites, of rights commonly enjoyed by other properties in the CG commercial general district, the hotels would not be able to operate without a variance. The strict interpretation would also impose unnecessary and undue hardship.
Hotels, as a unique type of establishment within the CG Commercial General District, inherently requires flexible operating hours to meet the needs of guests arriving at various times. A rigid adherence to the current operating hour restrictions would place an undue burden on our business, by interfering with the ability to meet the needs of the hospitality industry.

e. *That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.*

V1 - The requested variance for a reduction in parking spaces represents the minimum variance necessary to effectively utilize the common parking field and meet the parking demand of the planned development site. Any further reduction would compromise the ability of the development to function optimally and would undermine the intent of consolidating parking resources for mutual benefit and sustainable land development practices.

V2 - The requested variance for an increase in the allowed maximum height represents the minimum deviation necessary to facilitate the reasonable use of Tract 1 while ensuring compliance with zoning regulations. A slight increase in building height from four (4) stories or 45 feet to 4 stories or 50 feet and one (1) inch is essential to accommodate architectural design requirements and maximize the functionality of the proposed structures. This variance is indispensable to achieve a balanced and efficient utilization of the land without compromising the intent of the zoning ordinance.

V3 – The variance is the minimum that will make possible the reasonable use of the land. Without granting of the variance, the hotels would be closed for 8 hours from 11:00 PM to 7:00 AM and would not be able to operate during standard operating hours for the Woodspring Suites and Everhome Suites businesses.

f. *That the granting of the variance will be in harmony with the general intent and purpose of this chapter.*

V1 - Granting the variance will be in harmony with the general intent and purpose of the zoning ordinance. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).

The proposed project is a component of a commercial planned development. Commercial planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in

harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. The Land Development Code (Section 34-1065) allows for flexibility in parking standards provided a shared parking study is submitted, reviewed, and approved by the village council. The proposed hotel use and parking reduction for Tract 1 due to the utilization of a shared parking field for the PCD which promotes efficient land use will be in harmony with the intent and purpose of the Commercial General district and Commercial Planned Development district.

V2 – Granting the variance will be in harmony with the general intent and purpose of the zoning ordinance. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).

The proposed project is a component of a commercial planned development. Commercial planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. By allowing for a slight increase in building height to 50 feet and one (1) inch, the variance supports the creation of architecturally appealing and functionally efficient structures that contribute positively to the built environment. It reflects a conscientious effort to balance development goals with environmental and community considerations, thus fostering harmony with the overarching objectives of the ordinance.

V3 - Granting the variance will be in harmony with the general intent and purpose of this chapter. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the

intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).

The proposed project is a component of a commercial planned development. Commercial planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. The proposed hotel use and hours of operation will be in harmony with the intent and purpose of the Commercial General district and Commercial Planned Development district.

g. *That such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.*

V1 - The proposed variance for a reduction of parking by 15 spaces will not be injurious to the area or detrimental to the public welfare. A shared parking study has been submitted to assess the capacity of the common parking field to accommodate the parking demand generated by the specific uses within the planned development site, and it has been determined that sufficient capacity exists (330 spaces provided; 298 spaces required) to meet the demand without causing undue congestion or safety concerns. If the variance is approved to allow the parking reduction, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. Security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

V2 - Granting the proposed variance to increase the maximum building height on Tract 1 will not be injurious to the surrounding area or detrimental to the public welfare. The proposed height increase by five (5) feet and one (1) inch will not result in adverse impacts on neighboring properties, traffic patterns, environmental resources, or community amenities. The proposed height increase will not obstruct scenic views or compromise the privacy of adjacent residents. The hotels site is surrounded by a fifteen (15) feet wide landscape buffer as well as a six (6) feet tall privacy wall to mitigate views or noise generated by the hotels. The variance is compatible with the existing built environment and contributes to the enhancement of the overall neighborhood character.

If the variance is approved to allow the height increase, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at

the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. Security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

V3- The proposed variance for 24/7-hours of operation will not be injurious to the area or detrimental to the public welfare. If the variance is approved to allow the hours of operation, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. As stated, the request for hours of operation is motivated by the specific operational requirements of a hotel, which operate for 24 hours a day to accommodate travelers arriving at varying times. In addition, security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

Staff does not object to the applicant's request, based on the general intent of the applicant to provide a safe and convenient lodging option for visitors and regional residents. Staff found the variances to be in harmony with the general intent of the Village Code and will no create conflicts to accommodate the aesthetic and functional requirements of the proposed structures. Granting the building height variance will enable the applicant to incorporate essential architectural features which enhance the overall appeal and character of the development. These special conditions are not applicable to other lands within the district and warrant consideration for an adjusted building height limit to ensure optimal land utilization and architectural integrity.

IV. Neighborhood Compatibility

1) The proposed project is located on the northwest corner of 10th Avenue North and South Florida Mango Road.
2) An existing shopping center is located on the east side of the property with several different retails, offices and restaurants establishments occupying the suites.
3) Surrounding properties are generally residential use.
4) The proposed hotels are permitted as special exception use within the Commercial General zoning district.
5) The proposed project is on one of the most important corridors within the Village limits, 10th Avenue North, that connects East and West portions of the surrounding cities.

V. Regulatory Issues

- The site plan generally conforms to the property development standards of the CG district.
  1) Proposed project plan generally meets required site development regulations.
  2) Proposed project is within the 10th Ave North Traffic Concurrency Exception Area (TCEA); therefore, it is exempt from the TPS of Palm Beach County.
  3) An 11' wide right-of-way shall be dedicated to Palm Beach County along 10th Avenue North.

4) A right-of way construction permit is required to be obtained with PBC.
5) Existing eastern egress driveway on 10th Ave North shall be eliminated during the site improvement permit.
6) A westbound right-turn lane at the project driveway on 10th Avenue shall be constructed by the PBC standards.
7) Permits from all applicable permitting agencies, including but not limited to Lake Worth Beach Electric Utilities, PBC Fire Rescue and Village of Palm Springs are required prior to construction.
8) Civil/Utility plans shall be approved by the Village's Engineer.

VI. Environmental Issues:

There are no environmental (wetlands, floodplains, etc.) issues identified.

VII. Community Outreach/ Notification

- The subject property was posted on March 5, 2024.
- Public Notification letters were mailed to all property owners within 300 feet radius of subject property on March 5, 2024.
- Legal advertisement was published in the paper on March 7, 2024.
- Staff has not received any inquiries or comments as a result of the notices.

VIII. Proposed Development Plan Details

The petitioner's development plans dated received on October 4, 2024 depicts the following:

- An application submitted for a Site Plan Amendment and concurrently requesting Special Exception Use with three Variances to allow the construction of 2 four-story hotels building with a total of 236 hotel rooms - Everhomes Suites and Woodsprings Suites.
    1. Site Plan dated received September 29, 2023 revised and resubmitted on February 27, 2024.
    2. Landscape plans dated received September 29, 2023 revised and resubmitted on February 20, 2024.
    3. Engineering plans dated received September 29, 2023 revised and resubmitted on February 20, 2024.
    4. Architectural plans dated received September 29, 2023 revised and resubmitted on February 20, 2024.
    5. Photometric plan.
    6. Boundary survey.
    7. Project narrative and justification statements.
    8. Traffic study.

IX Recommendation

The 4.63 acres property is located on the north side of 10th Avenue North and west of Florida Mango Road. The applicant is proposing a Site Development Plan (within a Commercial Planned Development) and concurrently requesting a Special Exception Use with three Variances to allow the construction of 2 four-story hotel buildings with a total of 236 hotel rooms - Everhomes Suites 114 rooms and Woodsprings Suites 122 rooms.

Staff has found the proposed Special Exception use to be generally consistent with goals, objectives and policies of the Village's Comprehensive Plan. The proposed use is generally consistent with the Land Development and zoning regulations and all other portions of the code. The proposed special exception use does not significantly reduce light and air to adjacent properties and would not be deterrent to surrounding properties. The new project does not negatively impact natural systems.

Planning, Zoning and Building Staff recommends conditional approval of the Site Plan, Special Exception Use and 3 Variance subject to the following thirty-eight (38) conditions below, **which conditions shall remain active on the Site at all times for the current owner, its successors, and assigns:**

1. Build- out date is December 31, 2028.
2. The special exception approval shall be implemented within 18 months of Council approval.
3. The site plan approval is valid within 24 months of Council approval.
4. EverHome Suites / Wood Springs Suites' including all successor and assigned hotels at the site (collectively the "Hotel" hereafter) Outdoor patio / Pool area must be monitored and secured 24 hours. All outdoor patio and pool areas shall limit the hours of use from 8:00 am to 9:00 pm. For security, any solid outside doors must have window or security peep hole. Security cameras and keyless card access system for the facility is required to be provided. Plans shall be provided to Village of Palm Springs Public Safety for review and approval **at time of permitting**.
5. The Hotel shall only use the property for hotel use and expressly prohibit uses that include but are not limited to the following:
   (a) are unlawful, unethical, or immoral
   (b) could reasonably be determined to have a material negative impact on the Hotel, its owner, its operator and any of the foregoing trademarks or business reputation
   (c) do not meet or exceed the generally accepted standards of operation of leading hotel operators in the industry
   (d) involve accommodations provided by any government social services or housing agency or
   (e) involve gambling, gaming, or adult entertainment.
6. Each Hotel shall provide an attendant at the front desk of the hotels, twenty-four hours a day all year round.
7. The Hotel shall develop rules for its operation and enforce the same at all times. The rules shall include but not be limited to:

   (a) Parking at the Hotel site shall be limited to the registered hotel guests and employees of the Hotel. All Hotel registered guests and employees must have a parking pass clearly displayed in their vehicle when parked at the Hotel site. Once the Hotel has issued parking passes for 94% of Hotel site parking spaces (221 spaces), Hotel employees shall be prohibited from parking at the Hotel site. Once 100% of parking passes have been issued, all Hotel registered guests and employees will be required to park off-site and no additional room sales shall occur until parking spaces and parking passes are available at the Hotel site. The Hotel shall include in all advertising and websites that, "Parking is limited at the hotel to hotel registered guests and employees only. All others are prohibited from parking at the hotel. Parking passes will be issued and must clearly be displayed to avoid towing." The Hotel shall conduct multiple daily walkthroughs of the Hotel site to ensure parking is sufficient at all times.

   (b) The Hotel shall post the Hotel site with tow-away signs for any vehicle that does not display a parking pass.

   (c) Parking is not permitted at the Hotel site for oversized vehicles or trailers. Oversized vehicles or trailers are those that do not fit in the typical parking space dimensions as set forth in the Hotel site's approved site plan. Registered guests with oversized vehicles or trailers are exempt from this subsection when responding to a natural disaster or state of emergency, which has been declared by the Florida Governor pursuant to state law or the President of the United State pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act. In such case, the Hotel must provide sufficient parking passes to accommodate all parking spaces required for the oversized vehicles or trailers. All vehicles and trailers must be parked in parking spaces at all times. No inoperative vehicles shall be parked at the Hotel Site at any time unless due to an emergency repair being needed and not lasting more than 24 hours.

   (d) No cash shall be accepted at the Hotel at any time.

(e) Rooms at the Hotel shall be limited to the following occupancy:

At least one registered guest, who is 18 years of age or older, is required per room.
One-bed suite or one-bed suite with sofa or couch is limited to two (2) guests.
One-bed suite with sleeper sofa is limited to three (3) guests.
Two-bed suite is limited to four (4) guests.

(f) In addition to the Hotel maintaining their AIMSafe safety program, inclusive of all safety checklists and safety requirements, or similar safety program ensuring for the Hotel that each hotel is operated in safe condition, the Hotel shall provide the following:

(1) The Hotel shall install and maintain, in proper operating order, surveillance cameras in the interior areas of the lobby/lounge and at each exterior door. The cameras shall be placed in order to provide visibility to the building access points and public gathering areas (e.g., pool area). Monitors shall be provided for security and other hotel personnel so that on-site activities may be viewed at all times. Surveillance cameras shall be in operation 24 hours a day and records of images and videos recorded shall be kept a minimum of sixty (60) days.

(2) The owner, operator, keeper, proprietor, or manager of the Hotel shall immediately report all violations of law to the Village of Palm Springs Police Department that were either witnessed or made known to them by an employee, patron, guest, visitor, or other person on the premises.

(g) The Hotel shall all at times remain compliant with the Village of Palm Springs requirements for dwelling units' safety and occupancy regulations set forth in Chapter 10 of the Village of Palm Springs code of ordinances (2024).

(h) GUEST POLICIES: The Hotel will not disclose the identity, room number or presence of a guest to anyone other than appropriate law enforcement. This includes the taking of or delivery of messages or indirect forwarding of phone calls. It is the responsibility of guests to communicate their presence and room number to any person they wish to receive calls or visits from. Further, Guests will be immediately ejected from the Hotel for the following actions:

- Being involved in any police matter unless the matter arises through no fault of your own or due to circumstances beyond your control
- Possessing or using any illegal substances, including drugs
- Possessing an unauthorized weapon or firearm including any concealed or open carry weapons regardless of license[1]
- Violating the hotel's Service Animal and/or Pet Policy[2]
- Tampering with or removing window stops, smoke detectors and other safety measures
- Leaving room or common area windows or doors unlocked or open
- Failing to bring guests in through the lobby entrance or welcoming guests who fail to follow these Rules and Policies. An invitee's violation of these Guest Rules may result in both the invitee and guest being asked to leave the property
- Soliciting or loitering of any kind, anywhere on the property
- Consuming alcoholic beverages anywhere on the property outside of your room
- Parking utility trailers, oversized vehicles and inoperative vehicles on the property without specific authorization and parking pass
- Parking in unauthorized areas or without a clearly displayed parking pass
- Washing, repairing, modifying, advertising the sale of or storing vehicles on the property (said vehicles will be towed at owner's expense)
- Being outside your room without being fully clothed, including shirt and shoes
- Grilling, barbecuing or creating fire hazards on-premises

- Displaying items including signage, lighting, clothing, etc., outside your room
- Leaving minors unattended anywhere on property, including in your room
- Causing disruptions, including the use of car horns, in the parking lot
- Damaging or destroying hotel property and facilities anywhere on the property
- Disrupting other guests with loud noise, TV, music, disorderly conduct or large groups
- Feeding stray animals on the property or keeping animals inside parked vehicles
- Leaving trash or personal items in common spaces or unauthorized areas
- Using skates, skateboards, bikes or other recreational devices in common areas including hallways, sidewalks and parking lots
- Creating or staying in unsanitary conditions (trash, odors, dirty dishes, filth, etc.)
- Using the Hotel name and/or contact information for any personal or commercial purpose including ongoing mail service, including social media, Craigslist or other internet posts
- Engaging in any activity, including social media, Craigslist, or other internet posts that might jeopardize the safety and relative privacy of any Hotel guest or employee

[1] Exempted from this policy are law enforcement officers and designated military personnel who are on duty and required to carry firearms in the performance of their duties. Civilians, even those who are licensed and permitted to carry a firearm openly under local, state, or federal law, are not exempt from this policy

**[2] Service animals and guide animals under the ADA, as amended, are accepted at the Hotel but must be disclosed and "registered" upon entering the property to eliminate confusion with staff and other guests, and a separate document must be acknowledged.

8. Failure of the Hotel to enforce provisions herein may result in code enforcement action against the property owner for the violation(s).
9. A cross-parking agreements (if any) and cross-access agreements between all the parcels within the Commercial Planned Development shall be recorded **prior to the issuance of the Certificate of Occupancy**.
10. Palm Beach County "Digital Inclusion infrastructure" (broadband antenna and related facilities) shall be accommodated on the property (if location is determined to be desirable for broadband coverage by Palm Beach County or School District of Palm Beach County), prior to **Certificate of Completion**, and property owner shall voluntarily serve as a program partner (easement/agreement, electric) through the life of the program.
11. The property is located beyond the Airport Land Use Noise Zone (ALUNZ) for Palm Beach International Airport (PBIA) and Lantana (Park) Airport. However, it is located in the Airport Regulated Area Zone 1 for PBIA and Lantana Airport. In accordance with Article 16, Chapter B, Section 1, C.1. Any penetration of Zone 1 must fill out the Notice Criteria form located on the FAA website. The Notice Criteria Tool analysis will determine if the proposed development requires the applicant to submit for FAA review. If the applicant is not required to submit for FAA review, provide a copy of the results to Department of Airports. Any project with height concerns must comply with FAA regulations. This also includes the height of signs, cranes, or any other structure whether temporary or permanent. If it is required per Notice Criteria Tool analysis, the applicant must fill out Form 7460, Notice of Actual Construction or Alteration. Separate applications may be required for each structure, permanent and temporary. FAA will perform an aeronautical study to determine if the proposed development will be a hazard to air navigation. Once FAA has provided a decision, the applicant must provide DOA a copy of their results with their application. The notice determination letter and/or the FAA determination letter shall be provided **prior to the issuance of the building permit for any of the hotel's buildings**.
12. No loitering on the grounds will be permitted by Hotel guests or any other persons at the Hotel site.
13. All signs shall be in accordance with the master sign plan approved by the Village Council.
14. Utility easements shall not overlap more than 5' any landscape buffers.

15. A Utility/Civil plan shall be approved by the Village's Engineer **at time of permitting**.
16. Deliveries shall be coordinated to not create traffic conflicts.
17. Any utility or mechanical equipment shall be screened from view. Staff recommends wrapping the equipment with a vinyl wrap of appropriate design for the proposed locations.
18. The additional 11' wide right of way dedication to Palm Beach County along the 10th Avenue North shall be executed and recorded **prior to issuance of the Certificate of Occupancy**.
19. A ROW permit shall be obtained with the PBC **at time of permitting**.
20. A root barrier shall be provided on trees that are within 12' of utility lines.
21. The construction dumpster shall be only provided by Waste Pro USA who is under franchise Agreement with the Village.
22. Photometric plans shall be approved by the Planning, Zoning and Building Department **at time of permitting**.
23. Landscaped areas shall be irrigated including but not limited to buffer, islands, planter boxes, etc.
24. Irrigation plans shall be provided **at the time of permitting**. Non-potable water shall be used for the irrigation system per Village code.
25. Provide permits from all applicable permitting agencies, including but not limited to Lake Worth Beach Electric Utilities, PBC Fire Rescue and Village of Palm Springs **at the time of permitting**.
26. The property owner shall register an Agent of Record, prior to issuance of a permit, to establish a contact person responsible for compliance with this Development Order, including site plan/landscape plan details and conditions of approval.
27. The Applicant may be required to undertake additional security measures, based on the number of complaints or calls for service for incidents at the premises, as determined by the Police Chief. Such additional security measures, as approved by the Police Chief, may include increased on-site security at the operator's sole expense.
28. Verify utility and easement locations to ensure that there are no conflicts with landscaping, revise **at time of permitting** as needed.
29. All new electric utilities shall be underground.
30. A pre-construction meeting shall be scheduled with the Village Planning, Zoning & Building Development Department prior to commencement of any construction activity. Permits are required from the Planning, Zoning & Building Department prior to commencing any construction or renovation. The project shall be constructed in accordance with the FBC edition in effect **at the time of permitting**.
31. A silt barrier shall be installed around the perimeter of the property (within the affected area for the site improvements and new building construction) prior to commencement of any site work or construction activity, and a track pad shall be installed at the construction entrance(s), both of which shall remain through substantial completion.
32. Any sidewalk broken or damaged during construction shall be replaced by the contractor **prior to CO**.
33. The Landscaping shall be certified by the Landscape Architect upon completion and **prior to Certificate of Occupancy/Certificate of Completion** of each improvement area.
34. Absolutely no occupancy, other than construction personnel, is permitted **prior to TCO/CO**.
35. The civil engineer of record shall certify the site construction **prior to Certificate of Occupancy**.
36. The applicant may be required to provide a resident inspector for structural elements such as concrete pours in accordance with Section 109.1.3 FBC 2010 and F.S. 553.791. Determination shall be made at time of pre-construction conference with Planning Zoning and Building Director.
37. The General Contractor shall be on site during any and all construction activity in accordance with FS 489.1195.
38. **At the time of CO**, the petitioner shall provide the Planning, Zoning and Building Department with electronic copies of as-builts.

DESCRIPTION OF PROJECT

Village Collection of Palm Springs

Initial Submittal: September 22, 2023

Resubmittal: January 19, 2024 | February 20, 2024 | February 27, 2024

Request

On behalf of the Applicant, 10th Avenue Partnership LTD, we respectfully request approval of:

1) **Site Plan Modification and Special Exception Use** for a Hotel on Tract 1 of the Village Collection of Palm Springs PCD (Woodspring Suites and Everhome Suites).
2) **Variance** (Hours of Operation) for Tract 1 of the Village Collection of Palm Springs PCD to allow 24-hour hours of operation.
3) **Variance** (Standard, Section 34-1065) for Tract 1 of the Village Collection of Palm Springs PCD to allow a reduction in the required parking spaces from 250 (required) to 235 (proposed).
4) **Variance** (Standard, Section 34-1065) for Tract 1 of the Village Collection of Palm Springs PCD to allow an increase from four (4) stories or 45 feet to four (4) stories or 50 feet and one (1) inch.

Site Background

The 7.74-acre site is located approximately 0 miles west of the intersection of 10th Ave North & Florida Mango Rd intersection on the north side of 10th Avenue North. The project address is 2645 10th Avenue North, Palm Springs, FL 33461. The vacant property is identified by Parcel Control Number (PCN): 70434420400010000, and currently retains a Future Land Use designation of Commercial (COM) and the Commercial General (CG) zoning district classification. The subject site is located within Flood Zone X and primary access to the site is from Florida Mango Road.

Surrounding Uses

The subject site is situated along 10th Avenue North and Florida Mango Road, which are county-maintained public roads. The surrounding area is comprised of a mix of residential and commercial uses, land use, and zoning district classifications which are summarized below:

	Land Use | Zoning | Use(s)
North:	Low Density Residential | RM Residential Multifamily | Single-Family Residential
South:	10th Avenue North HR-12 High Density Residential | RH Multifamily (High Density) | Multifamily Residential Medium Density Residential | RM – Residential Multifamily | Vacant MR-5 Medium Density Residential | RH Multifamily (High Density) | Single-family Residential
East:	Florida Mango Road UC Urban Center | UC Urban Center | Shopping Center Community
West:	High Density Residential | RM Residential Multifamily | Mobile Home Park

Approval History

1) *Resolution 2020-01*
   - Commercial Plan Development with Master Site Plan approval to allow the demolition of the existing 4-story commercial office building and redevelopment of the site to accommodate 3 separate development plans on the portion of the property west of the Chase Bank Building (8.61 acres), located at 2601 10th Avenue N & Florida Mango Rd. Approved with forty (40) conditions (listed in the Staff Report) on January 9, 2020.

2) *Resolution 2020-02*
   - Site Development Plan and concurrent approval for a Special Exception Use to permit the construction of 5,411 square feet convenience store along with 8,613 square feet gas canopy with twenty (20) fueling positions within 1.81 acres (Lot #3 of the Commercial Planned Development), a waiver from Sec 34-164, and three (3) variances, PSV19-22 to allow 24-hour operations, PSV19-23 to allow an increase of primary frontage signage by 490 square feet to allow striping with logo on the south side of the fuel canopy and two wall signs on the building; and PSV19-24 to allow 1,068 square feet sign area wrap around the gas canopy sides not facing a public right of way. Approved with forty-one (41) Conditions (listed in Staff Report) on 1-9-2020.

3) *Resolution 2020-03*
   - Site Development plan and concurrent approval for a Special Exception use to permit the construction of a 5,682 square feet automotive service building with seven (7) service bays within 1.3 acres (Lot 4 of the Commercial Planned development).

Development Program

The Applicant, the 10th Avenue Partnership LTD, is requesting a Site Plan Modification to the previously approved Village Collection of Palm Springs development to modify uses, as well as reconfigure the site layout. The site was previously referenced in the site approvals as a "Future Development area" with no set use or site layout associated with it. Presently, the Application proposes to amend the previously approved overall site plan to accommodate Hotel uses in Tract 1.

To move forward with the development, the following applications are being requested:

- **Site plan modification** of Tract 1 includes two hotels, Woodspring Suites (48,660 SF) & Everhome Suites (57,971 SF) with equipment building (350 SF), a concurrent approval for a **Special Exception Use** for hotel/motel use with a **Variance** for 24-hours of operation, a **Variance** for the reduction of parking from 250 to 235 parking spaces, and a **Variance** to allow an increase from four (4) stories or 45 feet to four (4) stories or 50 feet and one (1) inch.

Shared Parking

A parking analysis was performed based on the Village's parking rates and the Village's recommended parking rates for hotel use. On December 14, 2024, the Village Council approved Ordinance No. 2023-11 which included modifications to Division 8 "Off-street Parking and Loading" of the Code of Ordinances. The revision to the code set forth parking requirements for hotel/motel uses, not previously expressed in the Village's regulations; and now states that hotel/motel uses in the Village are required one (1) parking space per room, plus one (1) parking space per employee during the shift of greatest employment.

Therefore, the required parking for the Tract 1 site is 122 spaces (one (1) per room) plus six (6) spaces (one per employee) for Woodspring Suites and 114 spaces (one (1) per room) plus 8 spaces (one (1) per

employee) for Everhome Suites, which is 250 spaces for hotel uses. There are 48 spaces required for the Fast Food restaurant uses (at a rate of .33 per seat). Therefore, the total required parking spaces for the site is 298 spaces and the parking provided as shown on the site plan is 330 parking spaces. Therefore, adequate parking is available to meet the requirements of Division 8 of the Code of Ordinances.

Loading Areas
The proposed Hotel site has one loading zone located in front of Everhome suites, as per the requirements of Section 34-1330.

EV Parking
Per Ordinance No. 2023-11 approved by Village Council on December 14, 2024, the total parking spaces required for the hotel is 250 spaces, therefore 5 EV charging spaces are required. There are 6 electric vehicle charging stations shown on the site plan.

Open Space & Landscape
The Village Collection of Palm Springs is a commercial PUD, which requires 20% open space throughout the entire site. The proposed design for the three tracts allows each parcel to meet and exceed the open space requirements.

	Open Space Required	Open Space Provided
Tract 1	**40,315 SF**	**56,607 SF**
Tract 2	**15,731 SF**	**19,316 SF**
Tract 3	**11,344 SF**	**23,873 SF**
Total Open Space	**66,943 SF (1.54 AC)**	**99,796 SF (2.23 AC)**

As for landscaping, the site was designed to overhaul the plant materials on the perimeter landscape buffers and within the interior landscaping of the site. The buffers will be supplemented with additional canopy trees, palms, and a hedge. The internal roadway that runs through the site will be enhanced with meandering hedges and shrub beds. Each tract within the development has its own respective code-compliant landscape plans, which all meet and exceed the landscape requirements of the Palm Springs code. The landscape features a good mix of native and Florida-friendly plant materials to create a vibrant and resilient environment around the development. Each tract features a unique blend of plants and comes together to create a central theme familiar to South Florida.

COMPLIANCE WITH CRITERIA

DISTRICT REGULATIONS

Purpose (Code 1994, § 30-561)

It is the purpose of the CG commercial general land development district to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. Such areas shall be located convenient to major roads and automotive traffic. However, it is not the intent of this land development district to necessarily create or promote an extension of strip commercial areas.

The proposed Village Collection of Palm Springs Commercial Planned Development Master Plan project is permitted within the CG Commercial general land development district. The commercial uses are consistent with the purpose of the CG commercial general district in that they provide commercial services including food and lodging options that are accessible to residents of Palm Springs and surrounding municipalities and are within a mile from Interstate 95. The project is compatible with commercial development in the 10th Avenue North corridor, including commercial shopping centers, medical and professional offices, and gas stations.

Commercial General

Property Development Regulation	Required	Proposed Tract 1 Woodspring Suites & Everhome Suites
Minimum lot width	100 feet	495.49’
Minimum frontage	100 feet	199.03’
Minimum lot depth	200 feet	219.50’
Maximum lot coverage	No Requirement	13.7%
Minimum front yard	50 feet	N/A
Minimum side yard (interior)	15 feet	92’ side setback
Minimum side yard (corner)	25 feet	N/A
Minimum yards adjacent to residential land development districts	30 feet, excluding the front yard which shall remain at 50 feet.	66’ setback minimum
Maximum building heights	Four stories or 45 feet.	4 stories or 45’4” (Woodspring) 4 stories or 50’1” (Everhome)
Maximum Gross Floor Area	(11) *Maximum gross floor area:* 50 percent of total lot area.	.34 FAR (based on total development area of tracts 1,2, and 3)
Parking	Required / provided	250/238 (10 ADA)

See the site plan for additional data.

Sec. 34-1063 Planned Developments Performance Standards (Code 1994, § 30-731; Ord. No. 2014-06, § 2, 5-8-2014)

- The proposed site plan shows sidewalks on the portions of the site facing primary streets which are interconnected and provide pedestrian access to each building.
- The buildings on the site plan are situated to create a cohesive site plan and unified commercial development.
- Curb cuts and secondary streets are designed to optimize traffic circulation in and out of and within the site.
- Sufficient off-street parking is provided per each use.
- Lighting has been designed per the luminosity criteria and requirements of the Village.
- The landscaping has been designed to enhance the streetscape by creating sidewalks for pedestrian connectivity, trees for shade, and native plantings.
- There is a 15' landscape buffer on the northern and western perimeter of the site to provide appropriate screening between the surrounding residential areas.

Minimum Acreage

The development site for the Village Collection of Palm Springs PCD is a total of 7.74 acres, which exceeds the minimum acreage requirement of two (2) acres. The total area of Tract 1 (Woodspring Suites and Everhome Suites) is 4.63 acres.

Intensity

The intensity requirement for non-residential land use intensities for commercial is .50 floor area ratio (FAR). The FAR for the site (.35 FAR) is below the requirement of .5 FAR.

Permitted Uses

The proposed hotel use for the planned development is permitted by special exception in the CG Commercial General district.

Layout, Design

The layout and design of the proposed development accounts for adequate light and air, traffic circulation, drainage patterns, pedestrian safety, emergency vehicle access, and all other provisions of the CG Commercial General district.

Maximum Building Height

The building heights in the Village Collection of Palm Springs's planned development are compatible with the proposed uses and the bulk, mass, and context of adjacent structures (45 feet or four stories in the Commercial General District). The building height of the hotels on Tract 1 is a maximum of four stories or 50'-1". The applicant is requesting a variance for height to allow 50'1"; an increase of five (5) feet and one (1) inch.

Setbacks

- Building setbacks are at least 30' with appropriate buffers where the adjacent uses are residential, to the north and west. The buildings are setback from adjacent property lines to purposefully exceed the 30' minimum setback requirement, especially along the north and west property boundaries.
- The Woodspring Suites and Everhome Suites are setback 66' from the rear property line, 92' from the side (west) property boundary, and 96' from the side (east) property boundary.

Required Open Space

The overall open space is 96,796 square feet (30%) which meets the minimum open space requirement for commercial uses which is 20% of the gross land area. The hotel site will provide 56,607 SF (28.1%) of open space which meets the minimum requirement of 20% (40,315 SF).

Shared Parking

A parking analysis was performed based on the Village's parking rates and the Village's recommended parking rates for hotel use. On December 14, 2024, the Village Council approved Ordinance No. 2023-11 which included modifications to Division 8 "Off-street Parking and Loading" of the Code of Ordinances. The revision to the code set forth parking requirements for hotel/motel uses, not previously expressed in the Village's regulations; and now states that hotel/motel uses in the Village are required one (1) parking space per room, plus one (1) parking space per employee during the shift of greatest employment. Therefore, the required parking for the Tract 1 site is 122 spaces (one per room) plus six (6) spaces (one (1) per employee) for Woodspring Suites and 114 spaces (one (1) per room) plus eight (8) spaces (one (1) per employee) for Everhome Suites, which is 250 spaces for hotel uses. There are 48 spaces required for the Fast Food restaurant uses (at a rate of .33 per seat). Therefore, the total required parking for the site is 298 spaces and the parking provided as shown on the site plan is 330 parking spaces. Therefore, adequate parking is available to meet the requirements of Division 8 of the Code of Ordinances.

Unified Control

- The land within the commercial planned development will remain under the control of the applicant.
- A program for maintenance of common areas, open space, parking areas, utility sites, etc will be submitted to the Village prior to the issuance of the certificate of occupancy.

SITE PLAN

Required Landscaping (Code 1994, § 30-106)

- Landscaping and buffering are designed to maximize native vegetation and to leave the existing areas of native vegetation undisturbed as much as possible.
- Off-street parking areas include 20 square feet of landscaping for each parking space.
- Every twelfth parking space is separated by a landscaped island at least five (5) feet in width and the same depth as the parking spaces.
- Islands are surrounded by a continuous raised curb.
- The perimeters of the parking areas are landscaped to create buffers between adjoining land uses.
- With a total site area of 336,950 SF, the code requires one tree to be provided for each 2,500 square feet of landscaped area, which comes out to 135 required trees. This requirement has been met and exceeded with a proposed planting plan of 179 trees throughout the site.

Required Buffers (Code 1994, § 30-107; Ord. No. 2013-02, § 2, 2-14-2013; Ord. No. 2015-42, § 3, 12-10-2015)

- Buffers are provided around the site that meet the requirements of the ordinance. The retail use category requires Category three (15-foot wide buffer with a wall or fence and hedge not less than six (6) feet in height, supplemented by trees spaced not more than 20 feet apart) buffers on the East and North edges of the site and Category five (15-foot wide buffer with a hedge not less than three (3) feet in height, supplemented by trees spaced not more than 20 feet apart, required

hedges shall maintain a minimum of two (2) different maintained levels or tiers) and Category six (ten (10) foot wide buffers with a hedge not less than three feet in height, supplemented by trees spaced not more than 20 feet apart) buffers on the South and West edges of the site. There is a 15' landscape buffer on the rear, west, and along the portion of the east property boundary that is abutting a residential zoning district.

- While a number of existing mature canopy trees will remain in the buffers, additional planting material is being proposed to enhance the buffer and provide more screening. The buffer enhancements to the North and East include a new Clusia hedge and new oak trees and palms to fill out the gaps in the existing buffers.
- The buffers along the ROWs feature similar enhancements. While all existing oaks will remain, smaller accent palms and Ficus beds will occupy the spaces in between each existing mature oak in the buffer. Additionally, a meandering cocoplum hedge will span the ROW buffers and tie into the Clusia hedge that wraps the West and North property boundaries.

Miscellaneous Requirements (Code 1994, § 30-463; Ord. No. 2013-01, § 3, 2-14-2013)

Surface Water Management (Sec. 34-1354)

The site plan design emphasizes responsible and effective surface water management, in full compliance with the requirements outlined in Section 34-1354 of the ordinance. The plan is designed to manage surface water to prevent flooding, erosion, and environmental degradation.

Traffic Circulation (Sec.34-1359)

- The development is designed to maximize the flow of on-site traffic circulation and to prevent traffic from stacking up on the adjacent public streets.
- The vehicular ingress and egress to the site are designed to prevent conflicts on adjacent streets. There are two entrances to the site, an ingress and egress on 10th Avenue N. and another on Florida Mango. The curb cut on 10th Avenue North is a 16' ROW with one lane for ingress and one lane for egress. The curb cut on Florida Mango Road is a 38' ROW with one lane for ingress and two lanes for egress.
- Required bicycle parking is one per 1,500 gross square feet. The Hotel provides ten bicycle parking spaces, the Chick-fil-A provides five bicycle parking spaces and the Chipotle provides five bicycle parking spaces.

Public Utilities, Easements, Covenants

The site plan complies with all necessary public utilities including water, sewer, and electrical services.

Concurrent Permitting Requirements

The development team is actively coordinating with appropriate permitting agencies to secure all concurrent permits and will continue to work with village officials throughout the review process to confirm compliance with all requirements.

Signage (Article IV, Section 34-261 – Section 34-275)

Each tract within the development has its own monument signs proposed, which follow the signage requirements presented in the Palm Springs code. A breakdown of the signage regulations can be seen in the table below:

	Proposed Sign Setback	Maximum Sign Height	Maximum Sign Area
Tract 1	175’	10’	100 SF
Tract 2	18’	8’	120 SF
Tract 3	18’	8’	103 SF

The Master Sign Program provided in the application depicts the location, number, size, font, color, type, and style of signs, landscaping, and illumination of proposed signs. The signs comply with the Community Design Standards (Section 34-273) as follows:

(a) The signs are compatible with the architectural elements and repeating features that are used on buildings throughout the development. The signs are in harmony with surrounding buildings and the adjacent commercial development.
(b) The sign colors are consistent with the typical branding and design of the restaurants and are complementary to the colors of the development.
(c) The sign lettering size is clear and easy to read and in scale with the buildings in which they are located.

Hours of Operation

Typical hours of operation in the Village of Palm Springs for commercial activities are 7:00 A.M. to 11:00 P.M. See variance requests below for Tract 1 for 24-hours of operation. The proposed hours of operation align with typical industry standards for similar businesses and are intended to provide convenience to customers while respecting the character of the neighborhood and surrounding uses.

Security & Life Safety Plan

Security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

Landscaping Standards and Requirements (Code 1994, § 30-106)

The landscape plan complies with the landscaping standards and requirements outlined in Code 1994 § 30-106. The design of the landscape enhances the surrounding streetscape and contributes positively to the surrounding area. The plan includes native and drought-resistant plant species, irrigation systems, and compliance with any tree preservation requirements specified in the code. The development team is committed to maintaining the landscaping to the highest standards to ensure long-term quality, vitality, and attractiveness.

Special Exceptions (Code 1994, § 30-564; Ord. No. 2007-08, § 6, 4-26-2007; Ord. No. 2008-29, § 3, 12-11-2008; Ord. No. 2010-05, § 6, 4-8-2010; Ord. No. 2011-27, § 3, 12-8-2011; Ord. No. 2013-01, § 4, 2-14-2013; Ord. No. 2014-26, § 2, 11-13-2014; Ord. No. 2017-06, § 3, 5-11-2017; Ord. No. 2017-17, § 3, 7-27-2017; Ord. No. 2019-12, § 2, 9-12-2019)

The Woodspring Suites and Everhome Suites (Tract 1) hotels are permitted as special exception uses within the CG commercial general land development district.

Consistency with Sec. 34-1366 Building Design Guidelines (Chick-fil-A, Chipotle, Woodspring Suites & Everhome Suites)

Currently, the site consists of a newly constructed 4,081 SF Chase Bank which was approved by Resolution 2017-26. The applicant has requested an Overall Site Plan Amendment to the Village Collection of Palm Springs Planned Commercial Development (PCD) (Resolution No. 2020-01) to modify uses and square footage for Tracts 1, 2, and 3 (Tenth Avenue Replat, PB 130, Pgs 136-137). Concurrently, the applicant has requested a Site Plan Modification and Special Exception Use for a restaurant with a drive-through on Tract 2, Site Plan Modification and Special Exception Use for a restaurant with a drive-through on Tract 3, and a Site Plan Modification and Special Exception Use for hotels on Tract 1 with three (3) variances. Upon approval, these requests will allow the construction of a 6,111 square foot Chick-fil-A building on Tract 2, a 2,454 square foot Chipotle building on Tract 3, and two (2) hotel buildings consisting of a 48,660 square foot Woodspring Suites and a 57,971 square foot Everhome Suites on Tract 3.

In order to maintain architectural consistency, cohesion, and compatibility within the development, the application has proposed similar architectural elements and design patterns between all parcels. The proposed plans reflect features that complement the existing Chase bank on the property. The Woodspring Suites design will provide the following architectural design elements:

- Earth tones and a neutral color palette on the building facades, compatible with surrounding buildings
- Window awnings
- Stucco trim
- Covered entrance awnings
- Accent colors to create depth and variation in the façade
- Parapet molding
- Building base accent
- Mechanical equipment screening

The Everhome Suites design will provide the following architectural design elements:

- Earth tones and a neutral color palette on the building facades, compatible with surrounding buildings
- Window awnings
- Stucco trim
- Wood accents
- Covered entrance awnings
- Accent colors to create depth and variation in the façade
- Parapet molding
- Building base accent
- Mechanical equipment screening

The proposed plan will create a balance of land uses, which complements the surrounding area. The petitioner has provided Landscape Enhancements, illustrated in the Landscape Plan provided. The proposed landscape improvements, architectural enhancements, and internal walkways shall promote cohesivity and interconnectedness between the existing and proposed uses.

Special Exception for Woodspring Suites and Everhome Suites (Tract 1) for Hotel Use

Chapter 34, Section 34-607 Special Exception

Chapter 34, Section 34-607 of the Code of Ordinances, Village of Palm Springs, requires a statement of special reasons or basis for the special exception request. This statement should be predicated on the seven (7) criteria and factors as set forth in Section 34-607(b) of the Code. The statement must include comments on each of the following individually:

(1) The proposed special exception use is consistent with goals, objectives, and policies of the village's comprehensive plan.

The special exception use for a hotel use is consistent with the goals, objectives, and policies of the Village's comprehensive plan especially as it pertains to future commercial development. Specifically, Objective B, Policy B.1 – B.4, and Objective G, Policy G.3 in that it is consistent with the uses established on the Future Land Use and serves the needs of residents while maintaining the integrity of natural areas. The hotel uses are compatible with other types of development in the CG Commercial General district (B.1). The proposed Village Collection of Palm Springs commercial development has frontage along arterial and collector streets (B2). The mix of commercial uses is consistent with the Future Land Use Map and utilizes setbacks and landscape buffers that meet and exceed code requirements to provide proper screening and separation of uses where adjacent to residential areas on the north and west property boundaries (B.3, B.4). The intensity of uses (.34 FAR) is consistent with the land development intensities defined in the Comprehensive Plan and is below the .5 floor area ratio for commercial uses (G.3).

(2) The proposed special exception is consistent with the Planning, Building& Zoning and zoning regulations and all other portions of this Code.

The special exception is consistent with the Planning, Building & Zoning and zoning regulations and all other portions of the code. The hotels comply with all relevant zoning regulations and codes, including requirements for the commercial general zoning district and commercial planned developments, traffic, parking, setbacks, and signage.

(3) The proposed special exception use is compatible with the character and use (existing and future) of the surrounding properties in its function; hours of operation, type and amount of traffic to be generated; building location, mass, height and setback; and other relevant factors peculiar to the proposed special exception use and surrounding property.

The proposed special exception is designed to be architecturally compatible with the character of the existing neighborhood and the uses of the surrounding properties. The landscape buffers and setbacks are designed to provide screening from the surrounding uses. The hotel's hours of operation are in line with typical hotel operations and will not adversely affect neighboring properties. The structures were designed to comply with setback, mass, and height. The traffic impact analysis demonstrates that the impacts from the proposed development are minimal and that the surrounding intersections and roadways are expected to meet the projected level of demand with background improvements.

(4) The establishment of the proposed special exception use in the identified location does not create a concentration or proliferation of the same or similar type of special exception use,

which may be deemed detrimental to the development or redevelopment of the area in which the special exception use is proposed to be developed.

The hotels will not lead to a concentration of similar uses. There are no other hotels or limited-service hotels within the Village of Palm Springs. If the Special Exception for a hotel might be approved, the hotel would be the only limited-service hotel within the Village of Palm Springs. Its development will not hinder the development of the area, and it will contribute positively to the area's economic vitality. The hotel will provide stable job opportunities to local residents in the hospitality sector, including positions in housekeeping, front desk services, and maintenance.

(5) The proposed special exception use does not have a detrimental impact on surrounding properties based on:

- **a. The number of persons anticipated to be using, residing, or working on the property as a result of the special exception use;**
- **b. The degree of noise, odor, visual, or other potential nuisance factors generated by the special exception use; and**
- **c. The effect on the amount and flow of traffic within the vicinity of the proposed special exception use.**

The anticipated guests and employees will not strain local resources or negatively impact surrounding properties. Noise and other potential nuisances will be mitigated through sensible design and proper operational methods. A traffic impact study has been conducted to address any potential traffic concerns, and appropriate traffic management will be implemented to minimize impacts on the flow of traffic in the vicinity.

(6) That the proposed special exception use:

- **a. Does not significantly reduce light and air to adjacent properties.**
- **b. Does not adversely affect property values in adjacent areas.**
- **c. Would not be deterrent to the improvement, development or redevelopment of surrounding properties in accord with existing regulations.**
- **d. Does not negatively impact adjacent natural systems or public facilities, including parks and open spaces.**
- **e. Provides pedestrian amenities, including, but not limited to, benches, trash receptacles, and/or bicycle parking.**

The design ensures that neighboring properties will continue to receive adequate light and air, and property values will not be adversely affected. The hotels will not deter the improvement or development of surrounding properties but will complement and enhance the existing character of the neighborhood. The development does not negatively impact adjacent natural systems or public facilities. Pedestrian amenities including sidewalks, bicycle parking, and other landscaping features will be provided to enhance the walkability of the area.

(7) The proposed use would enhance and/or promote redevelopment of the Village, fulfill redevelopment objectives, and/or have a positive economic impact on the Village, including creating new jobs, economic growth and provide needed community-serving (neighborhood retail and commercial) uses and businesses.

The proposed hotels will significantly impact the Village by promoting economic growth and

meeting the growing demand for tourism in the region. It will create new job opportunities for local residents in the hospitality sector, including housekeeping, front-desk staff, and maintenance. Limited-service hotels can also create growth for local businesses in various services, such as catering or laundry. If the Special Exception is approved, the proposed development would stimulate economic development by attracting visitors and tourists who spend on food, entertainment, and other local attractions while staying in the area. The presence of hotels can help stimulate further development in the area, strengthening the community. It can help to encourage and promote tourism by providing accommodations for visitors. This aligns with the Village's redevelopment objectives and contributes to the community by providing a valuable neighborhood-serving amenity in the commercial general district that is compatible with the surrounding area.

Variance Request Hotels – 24/7 hours of operation

Related Applications:
Code Section: Sec 34-891
Required: 7 AM-11 PM
Request: 24 hours
Details of Variance Request or Appeal: Extend hours of operation to allow the hotels 24 hours of operation.

Chapter 34, Section 34-602 Variance Request

Chapter 34, Section 34-602 of the Code of Ordinances, Village of Palm Springs, requires a statement of special reasons or basis for the variance request. This statement should be predicated on the objectives presented in Section 34-603(b)(1) of the Code. The statement must include comments on each of the following individually:

a. **That special condition and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same Planning, Building & Zoning district.**

   The special conditions and circumstances that are peculiar to the building which are not applicable to other buildings in the CG Commercial General are the hotel use. Typical hours of operation for both the Woodspring Suites and Everhome Suites hotels are 24 hours/7 days a week, and the approval of this variance request would allow the hotels to operate during typical hours of operation for hotels. Hotels are considered a Special Exception Use within the CG Commercial General district, and the proposed use and hours of operation request are appropriate within the zoning district.

b. **That the special conditions and circumstances do not result from the actions of the applicant.**

   The special conditions and circumstances do not result from the actions of the applicant. The typical hours of operation for the hotels are typical across all locations and necessary for operations, and the approval of the variance request would allow the hotels to operate during their typical hours.

c. **That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the same Planning, Building & Zoning district.**

   Granting a variance for 24-hour operation for the hotel use will not confer any special privilege that is denied by this chapter to other lands, buildings or structures in the CG commercial general district. The applicant's request is motivated by the specific operational requirements of a hotel, and by accommodating this variance, the hotels would contribute to the overall adaptability and vitality of the business landscape within the CG Commercial General District.

d. **That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same Planning, Building & Zoning district under the terms of this chapter and would work unnecessary and undue hardship on the applicant.**

   Literal interpretation and enforcement of the terms and provisions of this chapter would deprive

the applicant, Woodspring Suites and Everhome Suites, of rights commonly enjoyed by other properties in the CG commercial general district, the hotels would not be able to operate without a variance. The strict interpretation would also impose unnecessary and undue hardship.

Hotels, as a unique type of establishment within the CG Commercial General District, inherently requires flexible operating hours to meet the needs of guests arriving at various times. A rigid adherence to the current operating hour restrictions would place an undue burden on our business, by interfering with the ability to meet the needs of the hospitality industry.

e. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.

The variance is the minimum that will make possible the reasonable use of the land. Without granting of the variance, the hotels would be closed for 8 hours from 11:00 PM to 7:00 AM and would not be able to operate during standard operating hours for the Woodspring Suites and Everhome Suites businesses.

f. That the granting of the variance will be in harmony with the general intent and purpose of this chapter.

Granting the variance will be in harmony with the general intent and purpose of this chapter. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).

The proposed project is a component of a commercial planned development. Commercial planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. The proposed hotel use and hours of operation will be in harmony with the intent and

purpose of the Commercial General district and Commercial Planned Development district.

g. That such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

The proposed variance for 24/7-hours of operation will not be injurious to the area or detrimental to the public welfare. If the variance is approved to allow the hours of operation, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. As stated, the request for hours of operation is motivated by the specific operational requirements of a hotel, which operate for 24 hours a day to accommodate travelers arriving at varying times. In addition, security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

Variance Request Hotels – Parking Standards

Related Applications:
Code Section: Sec 34-1065
Required: 250 parking spaces; shared parking allowed
Request: To allow a reduction to 235 parking spaces
Details of Variance Request or Appeal: Allow a reduction in the required parking spaces from 250 to 235; a reduction of 15 parking spaces.

Chapter 34, Section 34-602 Variance Request

Chapter 34, Section 34-602 of the Code of Ordinances, Village of Palm Springs, requires a statement of special reasons or basis for the variance request. This statement should be predicated on the objectives presented in Section 34-603(b)(1) of the Code. The statement must include comments on each of the following individually:

a. **That special condition and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same Planning, Building & Zoning district.**

   The special conditions and circumstances that are peculiar to the buildings, which are not applicable to other buildings in the CG Commercial General, are that the hotel uses are within a planned commercial development (PCD) which allows the sites to share a common parking field. The proposed hotels within Tract 1 will share a common parking field with the Tract 2 and Tract 3 sites. The overall reduction proposed by the variance request is 15 spaces (250 required for hotel uses; 235 provided), and the overall PCD shared parking field provides 330 total spaces for the 298 required, therefore there is a surplus of 32 parking spaces. Thus, there will be enough surplus parking within the Planned Commercial Development to accommodate the parking demand for the hotels.

b. **That the special conditions and circumstances do not result from the actions of the applicant.**

   The special conditions and circumstances do not result from the actions of the applicant but rather from the inherent design of the planned development site and the purpose of planned developments to allow greater flexibility in design and development standards. The Palm Springs Land Development Code (Section 34-1065) allows the village council to waive the required parking standards within a planned commercial development (PCD), provided that a shared parking study be submitted, reviewed, and approved by the village council. The applicant has submitted a shared parking study with this application which demonstrates that the proposed parking of 330 spaces for the PCD will meet the overall parking requirement and exceed it by 32 spaces.

c. **That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the same Planning, Building & Zoning district.**

   Granting the variance will not confer upon the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the CG commercial general district. The Palm Springs Land Development Code (Section 34-1065) allows the village council to waive the required parking standards, provided that the applicant provides a shared parking study that is submitted, reviewed, and approved by the village council. The applicant's request to reduce the parking

requirement by 15 spaces is justified by the fact that the overall parking requirement is met within the common parking field for the planned commercial development. Allowing for a reduction in parking spaces is a reasonable accommodation based on the unique circumstances of the property, utilization of a common parking field is a shared benefit enjoyed by all properties within a planned commercial development, and it does not create an unfair advantage or exemption from applicable regulations.

d. That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same Planning, Building & Zoning district under the terms of this chapter and would work unnecessary and undue hardship on the applicant.

Literal interpretation and enforcement of the terms and provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the CG commercial general district. The strict interpretation would also impose unnecessary and undue hardship. The shared parking study demonstrates that the overall parking demand is met by utilizing a shared parking field which provides a total of 330 spaces (298 required) for the PCD. Requiring additional on-site parking spaces beyond what is necessary to meet the overall demand would not only be financially burdensome but also inefficient and contrary to the principles of the ordinance and sustainable land use.

e. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.

The requested variance for a reduction in parking spaces represents the minimum variance necessary to effectively utilize the common parking field and meet the parking demand of the planned development site. Any further reduction would compromise the ability of the development to function optimally and would undermine the intent of consolidating parking resources for mutual benefit and sustainable land development practices.

f. That the granting of the variance will be in harmony with the general intent and purpose of this chapter.

Granting the variance will be in harmony with the general intent and purpose of the zoning ordinance. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).

The proposed project is a component of a commercial planned development. Commercial planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of

projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. The Land Development Code (Section 34-1065) allows for flexibility in parking standards provided a shared parking study is submitted, reviewed, and approved by the village council. The proposed hotel use and parking reduction for Tract 1 due to the utilization of a shared parking field for the PCD which promotes efficient land use will be in harmony with the intent and purpose of the Commercial General district and Commercial Planned Development district.

g. That such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

The proposed variance for a reduction of parking by 15 spaces will not be injurious to the area or detrimental to the public welfare. A shared parking study has been submitted to assess the capacity of the common parking field to accommodate the parking demand generated by the specific uses within the planned development site, and it has been determined that sufficient capacity exists (330 spaces provided; 298 spaces required) to meet the demand without causing undue congestion or safety concerns. If the variance is approved to allow the parking reduction, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. Security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

Variance Request Hotels – Height Standards

Related Applications:
Code Section: Sec 34-1065
Required: *Maximum building height:* Four (4) stories or 45 feet.
Request: To allow the height of four (4) stories at 50'1"
Details of Variance Request or Appeal: Allow an increase in the maximum building height allowed on Tract 1 of the Village Collection of Palm Springs PCD from four (4) stories or 45 feet to four (4) stories or 50 feet and one (1) inch; an increase of five (5) feet and one (1) inch.

Chapter 34, Section 34-602 Variance Request

Chapter 34, Section 34-602 of the Code of Ordinances, Village of Palm Springs, requires a statement of special reasons or basis for the variance request. This statement should be predicated on the objectives presented in Section 34-603(b)(1) of the Code. The statement must include comments on each of the following individually:

a. **That special condition and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same Planning, Building & Zoning district.**

   The special conditions and circumstances that are peculiar to the buildings, which are not applicable to other buildings in the CG Commercial General, are the hotel uses. The hotel buildings meet the requirement of 4 stories, however, the height of the Everhome Suites building exceeds 45 feet, as it is 50 feet one (1) inch at its highest point. The configuration of the site, including its size, shape, and orientation, necessitates a tailored approach to building design and development. The architectural design for the hotels necessitates a slight increase in height to accommodate the aesthetic and functional requirements of the proposed structures. The additional height will enable the applicant to incorporate essential architectural features, such as elevated ceilings and roof features, which enhance the overall appeal and character of the development. These special conditions are not applicable to other lands within the district and warrant consideration for an adjusted building height limit to ensure optimal land utilization and architectural integrity.

b. **That the special conditions and circumstances do not result from the actions of the applicant.**

   The special conditions and circumstances do not result from the actions of the applicant but rather from the inherent design of the hotels and the purpose of planned developments to allow greater flexibility in design and development standards. The architectural design for the hotels necessitates a slight increase in height to accommodate the aesthetic and functional requirements of the proposed structures. In addition, the façade of Everhome Suites is designed to create variation by the use of parapets, molding, and other architectural features, in order to meet the requirements of the design guidelines (Section 34-1366). As mentioned, the additional height will enable the applicant to incorporate essential architectural features, such as elevated ceilings and roof features, which enhance the overall appeal and character of the development and meet the design guidelines.

c. **That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, buildings, or structures in the same Planning, Building & Zoning district.**

Granting the variance to allow an increase in maximum building height on Tract 1 does not confer any special privilege to the applicant that is denied to other properties within the CG commercial general district. The variance is sought to address site-specific conditions and ensure the reasonable use of the land, without imposing undue burdens or restrictions on neighboring properties. Thus, the variance maintains parity with the regulations applicable to other developments in the district.

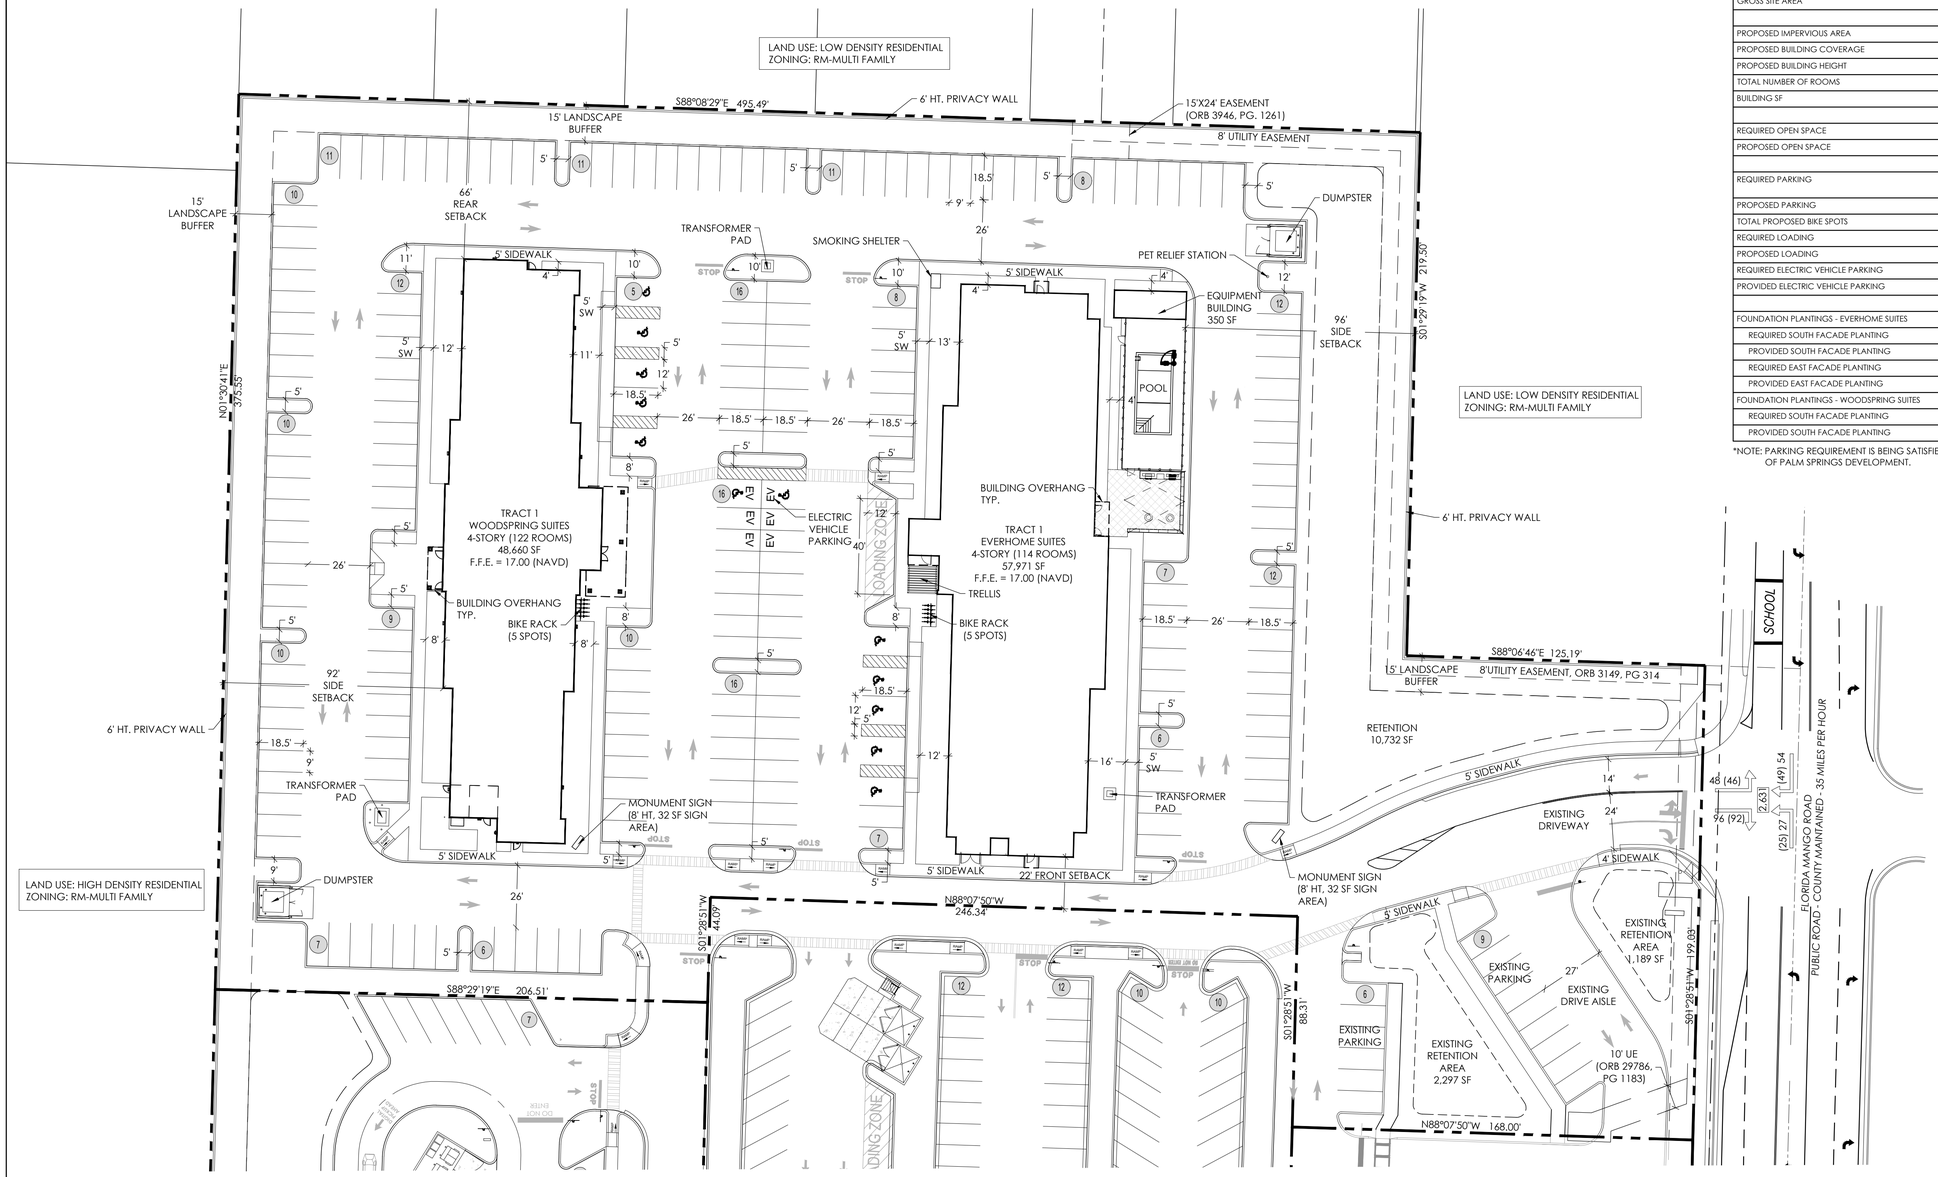
d. That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same Planning, Building & Zoning district under the terms of this chapter and would work unnecessary and undue hardship on the applicant.

Literal interpretation and enforcement of the terms and provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the CG commercial general district. The previously existing building on the site exceeded 60 feet in height. Restricting the building height to the current limit of 45 feet would impose unnecessary and undue hardship on the applicant by limiting the development potential and economic viability of Tract 1. Granting the variance is essential to mitigate this hardship and enable the reasonable use of land in accordance with the objectives of the planned development district, including a commercial development that contributes to the village's character and economic vitality.

e. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.

The requested variance for an increase in the allowed maximum height represents the minimum deviation necessary to facilitate the reasonable use of Tract 1 while ensuring compliance with zoning regulations. A slight increase in building height from four (4) stories or 45 feet to 4 stories or 50 feet and one (1) inch is essential to accommodate architectural design requirements and maximize the functionality of the proposed structures. This variance is indispensable to achieve a balanced and efficient utilization of the land without compromising the intent of the zoning ordinance.

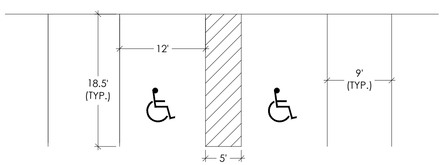
f. That the granting of the variance will be in harmony with the general intent and purpose of this chapter.



Granting the variance will be in harmony with the general intent and purpose of the zoning ordinance. The intent and purpose of the CG commercial general district is to provide lands within the village for a wide range of goods and commercial services that serve a consumer market that may extend beyond municipal limits. The commercial general areas should also be located convenient to major roads and automotive traffic. The Hotels would provide a safe and convenient lodging option for visitors, locals, and regional residents, that does not currently exist in the community in Palm Springs. There are no other limited-service hotels in Palm Springs at the time of this application. Limited-service hotels generate economic activity by attracting visitors who spend on food, entertainment, and other local attractions. The hotels would provide a safe and accessible option for the neighborhood and surrounding areas. The site is conveniently located at the intersection of Florida Mango Road and 10th Avenue N, which are classified as Urban Principal Arterials and Urban Minor Arterial roads, respectively (PBC Comprehensive Plan Map TE3.1 Functional Classification of Roads).
The proposed project is a component of a commercial planned development. Commercial

planned developments are allowed as a permitted use within the Commercial General District. The intent and purpose of commercial planned development is to permit the development of projects consisting of residential, commercial, or industrial, or any combination of residential, industrial, and commercial uses, within a single development under a unified development plan. As a permitted use in any zoning district, the intent of providing for planned development is to allow greater flexibility in design and development standards relative to specific dimensional regulations, encourage ingenuity and originality in subdivision and site design while preserving open space to serve recreational, scenic, and other public service purposes, ensure compatibility of new development with the surrounding area, and facilitate the provision of mixed uses including housing types and housing cost levels within the same project. The Commercial Planned Development district allows compatible commercial uses within the same development, that are in harmony with the character and development patterns of 10th Avenue N and Florida Mango Road. By allowing for a slight increase in building height to 50 feet and one (1) inch, the variance supports the creation of architecturally appealing and functionally efficient structures that contribute positively to the built environment. It reflects a conscientious effort to balance development goals with environmental and community considerations, thus fostering harmony with the overarching objectives of the ordinance.

g. That such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.



Granting the proposed variance to increase the maximum building height on Tract 1 will not be injurious to the surrounding area or detrimental to the public welfare. The proposed height increase by five (5) feet and one (1) inch will not result in adverse impacts on neighboring properties, traffic patterns, environmental resources, or community amenities. The proposed height increase will not obstruct scenic views or compromise the privacy of adjacent residents. The hotels site is surrounded by a fifteen (15) feet wide landscape buffer as well as a six (6) feet tall privacy wall to mitigate views or noise generated by the hotels. The variance is compatible with the existing built environment and contributes to the enhancement of the overall neighborhood character.

If the variance is approved to allow the height increase, the hotels will provide a safe and convenient lodging option that will benefit surrounding businesses and the community. The proposed hotels will be located at the intersection of an Urban Principal Arterial and Urban Minor Arterial roads and will have minimal impact on the traffic patterns in the surrounding area. Security and life safety are important to the design and layout of the site. The security and life safety plan is comprehensive and incorporates the latest industry best practices and adheres to local safety regulations. This plan includes measures such as surveillance systems, emergency response protocols, and fire safety measures to ensure the safety of customers and staff. The development team and operators are committed to maintaining a safe and secure environment for all stakeholders.

- Product Specifications page 4
- Energy and Performance Data page 4
- Control Options page 6

Quick Facts

- Available in 14W - 123W (1,800 - 17,000 lumens) models
- Full cutoff and refractive lens models available
- Energy and maintenance savings up to 95% compared to HID
- Energy efficient illumination results in up to 144 LPW
- Replaces 70W up to 450W HID equivalents

Dimensional Details

Full Cutoff · **Refractive Lens** · **Deep Back Housing**

Dimensional Data

	AXCS Small	AXCL Large
A	8" [202mm]	11-1/2" [292mm]
B	7-1/2" [190mm]	10-3/4" [273mm]
C	3-5/8" [94mm]	4-7/8" [124mm]
D	6-1/8" [155mm]	7-1/8" [181mm]

Connected Systems

- WaveLinx Lite
- Enlighted

NOTES:
1. DesignLights Consortium® Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
2. Transformer used only when ordered with motion sensor or AXCS1 through AXCS5 or AXCL8 fixture wattages.
3. Not available in 347 or 480 VAC.
4. Button photocontrol and any motion sensor (MSP, ZW, or LWR) not offered together.
5. Only available on AXCL6-AXCL12 models.
6. Used with 277, 347, and 480 VAC options.
7. Only available on AXCS1-AXCS5 models.
8. This configuration may contain materials that are not RoHS compliant. Contact your lighting representative for more information.
9. Uses deep back housing.
10. Sensor passive infrared (PIR) may be overly sensitive when operating below -20°C (-4°F). For the device to be field-configurable, requires WAC Gateway components WAC-PoE and WPOE-120 in appropriate quantities. Only compatible with WaveLinx system and software and requires system components to be installed for operation. See website for more WaveLinx application information.
11. Replace XX with sensor color (WH, BZ, or BK).
12. Enlighted wireless sensors are factory installed and require network components LWP-EM-1, LWP-GW-1, and LWP-PoE8 in appropriate quantities. See website for application information.
13. The ISMH-01 accessory is required to adjust parameters.
14. Ambient operating temperature -20°C to 25°C for AXCL6 through AXCL10. Ambient operating temperature -20°C to 30°C on AXCS4 models. Ambient operating temperature -20°C to 40°C on AXCS1 through AXCS3 models.
15. Not available with AXCS5 or AXCL12 models.
16. Uses deep back housing for AXCS1, AXCLS2, AXCS3, and AXCS4 models.
17. Not to be mounted in upwards / inverted orientation. Downlight wall mount only for AXCS1 through AXCS4.
18. CBP cannot be used with PC and motion sensor (MSP, ZW, or LWR). CBP can be used with PC or motion sensor (MSP, ZW, or LWR).
19. Can not be ordered with CBP or PC options.
20. Use dedicated IES files on product website for lumen values and distributions.
21. Requires the use of PC1 or PC2 button photocontrol. See After Hours Dim supplemental guide for additional information.
22. Replace XX with color designation.
23. For use with full cutoff lens configurations only.
24. Lumen Select functionality not available in conjunction with any motion sensor option (MSP, ZW, or LWR). Photocontrol back box not available with any photocontrol or motion sensor options (PC, MSP, ZW, or LWR).
25. Photocell only operates at 120-277V input voltages. Not for use with 347 or 480V systems.
26. This tool enables adjustment to parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative for more information.
27. Requires 4-PIN twistlock receptacle (ZW) option.
28. Only product configurations with these designated prefixes are built to be compliant with the Buy American Act of 1933 (BAA) or Trade Agreements Act of 1979 (TAA), respectively. Please refer to DOMESTIC PREFERENCES website for more information. Components shipped separately may be separately analyzed under domestic preference requirements.
29. Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.

COOPER Lighting Solutions

FIXTURE "FA"

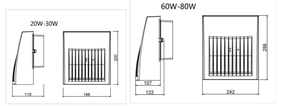
GENESIS Lighting Solutions

LED Slim Wall Pack

FEATURES:
- Heavy Duty die-cast aluminum housing with anti-corrosion texture architectural baked polyester powder coating
- Tempered and impact resistant clear prismatic borosilicate glass
- No UV or IR radiation

ENERGY DATA
- Input Voltage: 120 - 277
- Power Factor: >0.90
- Power: 20W / 30W / 60W / 80W
- System Efficacy: (120Lm/W)
- Color Temperature: 5000K
- Lifetime Hours: 50000
- Operating Temperature: -13°F~ 131°F
- Color Rendering Index (CRI) : ≥80
- IP Rating: IP65

WARRANTY
5 - year limited warranty.



Note: Actual performance may differ as a result of end user environment and application. All values are design or typical values measure under laboratory conditions.

NOTES:
1. DesignLights Consortium® Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
2. Customer is responsible for engineering analysis to confirm pole and fixture compatibility for applications. Refer to installation instructions and pole white paper WP510001EN for additional guidance.
3. Only product configurations with these designated prefixes are built to be compliant with the Buy American Act of 1933 (BAA) or Trade Agreements Act of 1979 (TAA), respectively. Please refer to DOMESTIC PREFERENCES website for more information. Components shipped separately may be separately analyzed under domestic preference requirements.
4. Not available with PA2 light engine in Petite housing (PRV-P). See Performance and Lumen tables.
5. 4000 K not to be used with unpainted or impedance grounded systems.
6. DuraVolt drivers feature added protection from power quality issues such as loss of neutral, transients and voltage fluctuations. Visit www.eaton.com/duravolt for more information.
7. Hose Side Shield not for use with SWQ distribution.
8. Not available with PA32 light engine in Petite housing (PRV-P).
9. Coastal construction finish salt spray tested to exceed 5,000 hours per ASTM B117, with a scribe rating of 9 per ASTM D1654.
10. Shorting cap included. Requires a 3-wire circuit from a photocontrol that matches the input voltage used.
11. Controls system is not available in combination with a photocontrol receptacle (PR or PR7) or another controls system (MS, SPB, ZD, or ZW).
12. Option not available with High Voltage (H) or DuraVolt (DV). Must specify Universal (U), 347V (9), or 480V (8) voltage.
13. Utilizes the Wattstopper sensor FSP-211. Sensor color white unless specified otherwise via PDR. To field-configure, order FSIR-100 accessory separately.
14. Utilizes the Wattstopper sensor FSP-311 series. Sensor color determined by product finish. See Sensor Color Reference Table. To field-configure, order FSIR-100 accessory separately. See control section for details.
15. Sensor passive infrared (PIR) may be overly sensitive when operating below -20°C (-4°F).
16. In order for the device to be field-configurable, requires WAC Gateway components WAC-PoE and WPOE-120 in appropriate quantities. Only compatible with WaveLinx system and software and requires system components to be installed for operation. See website for more WaveLinx application information.
17. Replace XX with sensor color (WH, BZ or BK).
18. Only available in PRV-XL configurations.
19. Not available with High Voltage (H, DV, 8 or 9) or HA options. Consult LumenSafe system product pages for additional ordering and configuration information.
20. Replace XX with paint color.
21. For BAA or TAA requirements, Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.
22. Not for use with PRV XL or PRV-M configurations.
23. Only for use with PRV. Not applicable to PRV-M, PRV-XL, or PRV-P.
24. Must order one per optic/LED when ordering as a field-installable accessory (1, 2, 3, 4, or 6). Refer to Hose Side Shield Accessory Ordering Info.
25. This tool enables adjustment to Motion Sensor (MS) parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative for more information.
26. Requires 4-PIN twistlock receptacle option (ZD or ZW) option.
27. Requires 7-PIN NEMA twistlock photocontrol receptacle (PR7) option. The WDLC-7 cannot be used in conjunction with other controls systems (MS, ZD, ZW or LWR). Only for use at 120-347V.
28.Only available for PRV-M configurations.
29. Not for use with PRV-XL.
30. Fixed for PRV-M

FIXTURE "W"

COMMERCIAL E26

E26 Medium Base Light String

Commercial E26 Medium base stringers are perfect for any outdoor patio or lighting display. Commercial grade stringers are weather resistant and designed for long term usage. Includes guy-wire loop for additional support for large spans or spaces. E26 base sockets are perfect for any standard LED or incandescent bulbs giving you the creative freedom for your lighting display.

FEATURES
- Great decorative lighting product for patios, gazebos, building outlines, event tents, and retail walkways
- Factory-molded, formulated PVC sockets on heavy-duty wire form a tight weather resistant seal around bulbs
- Suitable for indoor and outdoor commercial applications
- E26 Medium base decorative bulbs sold separately
- cTUVus Listed (LS2 only)

LIGHT STRING · STRINGERS & REELS · DECORATIVE BULBS · ACCESSORIES · LINEAR LIGHTING · SPECIALTY LIGHTING · ARCHITECTURAL

Shown for visual reference only - socket size or spacing may not depict actual product (Bulbs sold separately)

LowPro 3", 4" & 5/6" COLOR PREFERENCE® Downlights Low Profile Design

FIXTURE "OB" - CHICK FILA

LowPro Recessed Downlight

Available in 3", 4", and 5/6" sizes

ETi ADVANTAGE

- ✓ Unmatched slim 1.3" profile
- ✓ IC insulation rating
- ✓ UL wet rating
- ✓ Meets NECA 410.16 requirement
- ✓ Mounting guide plate available for each size
- ✓ 12'/20" power cable extenders available
- ✓ TRIAC dimmable

4 Color Selectable
COLOR PREFERENCE®

Tight Ceiling Clearance? No Problem!

ETi's LowPro downlights are designed for difficult low clearance installations TRIAC dimmable and suitable for wet environments

Design
- 1.3" profile great for tight of enclosures

Control
- Dimmable with TRIAC dimmer

Technology
- 4 CCT COLOR PREFERENCE® technology delivers total choice of CCT: 2700K, 3000K, 4000K, or 5000K

Features & Specifications
- 120V
- 90CRI
- UL Wet Rating
- Temp rating -4°F - 104 °F
- 12" and 20" cord extenders available

FIXTURE "L" - EVERHOME SUITES

NLCB2-652
6" Cobalt Dedicated High Lumen Round Baffle
Source: 22W to 30W LED
1500lm or 2000lm

Type
Project
Catalog No.
Notes

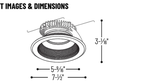
PRODUCT DESCRIPTION
6" Cobalt dedicated series is cULus listed for use in with Cobalt high lumens housings. 6" luminaires deliver over 2000 lumens in a various color temperatures. Cobalt High Lumen Series intergrates a Cree® COB family of LED arrays, giving bright spectacular light output and low power consumption.

FEATURES
- 1500lm or 2000lm LED packages
- 2700K, 3000K, 3500K or 4000K @ 90+ CRI
- Cree® COB LED Technology
- 5-year limited warranty
- ENERGY STAR certified
- cULus listed for wet locations

SPECIFICATION
Trim: Aluminum spun baffle with deep grooves to reduce aperture glare while providing high lumen output.

Mounting: Two torsion springs allow for easy and secure mounting in housing. Refer to housing for ceiling thickness.

ELECTRICAL
Lumens / Wattage:
15 = 1500lm / wattage varies by housing
20 = 2000lm+ / wattage varies by housing
(Delivered lumens will vary depending on CCT and finish)
Color Temperature: 2700K, 3000K, 3500K or 4000K
Color Rendering Index: 90+CRI
Operating Temperature: 0°C to 25°C
Lifetime: 50,000 hours @ L70
Dimming: Refer to housing for dimming



COMPATIBLE HOUSINGS
Trims are compatible with Cobalt High Lumen housings manufactured by Nora Lighting.

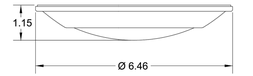
Juno SlimBasics JSBT Tapered LED Surface Mount Disk Light
4" and 6" Round Disk Lights for JBox Installation

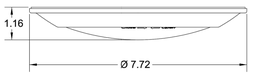
JSBT 4IN/6IN Series

Project:
Fixture Type:
Location:
Contact/Phone:

JSBT 4IN



JSBT 6IN



Product Features
The SlimBasics™ JSBT Slim Tapered LED Disk Lights are low-profile and the perfect economic solution for any junction box installation. Available in 4in and 6in sizes, the JSBT mounts directly over standard junction boxes allowing the fixture to be installed below the ceiling resulting in a budget friendly install. Additionally, these surface mount disk lights bring an aesthetically pleasing design element that blends with any décor.

Applications
- Suitable for wet locations (indoor covered ceilings): perfect for closet, showers, bathrooms, and outdoor soffits and ceiling covering applications
- Residential and Light Commercial applications including multi-family and hospitality
- Ideal for use in corridors, foyers, living spaces, closets, hallways, pantries, stairways and much more
- Installs directly into industry standard junction boxes
- Suitable for use in closets, compliant when installed to NFPA® 70 NEC® Section 410.16 (A)(1) and (C)(1)

Invue

DESCRIPTION

The Invue Arbor post top brings architectural style to area/site and pedestrian scale applications. Its dayform appearance brings a desired organic look into the urban environment. WaveStream LED Optics provide a uniform pixelation free image, managing glare while providing high levels of visibility.

Catalog #		Type
Project		
Comments		Date
Prepared by		

SPECIFICATION FEATURES

Construction
Two-piece IP66 rated housing is cast from low copper content corrosion resistant aluminum, maintaining strength and precision to sustain long term dayform appearance. ANSI C136.31 testing compliance prevents damage from installation generated vibration. External hardware and casting seams are minimized to enhance appearance.

Optics
Specifically designed for pedestrian applications, WaveStream LED optical waveguide technology produces both symmetric NEMA type V and asymmetric NEMA II, III, IV distributions. The waveguide is manufactured from precision injection molded acrylic resulting in a pixelation free optical image for improved glare control and visual comfort. Luminaire efficacy's measure up to 100 lm/w for 4000K (+/- 275K) CCT at 70 CRI (min), optional 3000K CCT at 80 CRI is also available.

Electrical
LED driver(s) are directly mounted to upper housing thermal pad for optimal thermal performance. Standard 0-10V dimming drivers and Cooper Lighting Solutions' proprietary surge protection module are designed to withstand 10kV of transient line surge. Drivers operate at 120-277V 50/60Hz with 347V/60Hz or 480V/60Hz operation optional. Suitable for ambient temperature applications as low as -40°C (40°F) to 40°C (104°F). Limited high ambient options allow for 50°C operation.

Controls
The Arbor LED luminaire control options are designed to be simple and cost-effective ASHRAE and California Title 24 compliant solutions. The ANSI C136.41 compliant NEMA 7-PIN receptacle enables wireless dimming when used with compatible photocontrol. See control options page for more details.

Mounting
Fitter assembly mounts over 2-3/8" O.D. tenon and is secured via six concealed stainless steel set screws. Design of fitter provides seamless translation to 3" O.D. round pole top. Additional mounting accessories include a single fixture arm mount, twin fixture arm mount and wall mount arm. Additional pole mount accessories mount to a 3" x 4" long tenon for 4" - 5" O.D. poles tops. For existing 2-3/8" tenons an adapter is shipped standard.

Finish
Cooper Lighting Solutions ("CLS") utilizes premium ultra-weatherable TGIC based polyester powder coatings that are specifically formulated to withstand extended outdoor exposure. The powders are formulated exclusively for CLS to serve functionally as well as decorative. Good film appearance combinded with excellent mechanical an exterior exposure qualities display greater than twice as much gloss retention. RAL and custom color matches available. Finish is compliant with ASTM B117 3000hr salt spray standard. Options to meet Buy American Act requirements.

Warranty
Five-year warranty.

NOTES:
1. Customer is responsible for engineering analysis to confirm pole and fixture compatibility for all applications. Refer to our white paper WP513001EN for additional information.
2. Fixture slipfits over standard 2-3/8" tenon. 3" O.D. tenon when used with a ARPA4-XX 4" O.D. pole adapter.
3. Standard 4000K CCT, nominal 70CRI.
4. B4 only available with Type V distribution.
5. Requires the use of a step down transformer.
6. Only for use with 2 Wire Phase Systems Per NEC, not for use with ungrounded systems, impedance grounded systems or corner grounded systems (commonly known as Three Phase Three Wire Delta, Three Phase Three Wire Corner Grounded Delta systems).
7. Custom and RAL color matching available upon request. Consult your lighting representative for more information.
8. Extended lead times apply. Use dedicated IES files when performing layouts.
9. Not available with B3 lumen package in Type II, III, or IV distributions.
10. Controls system is not available with photocontrol (PC), photocontrol receptacle (PER or PER7), or controls systems MS, LWR, DIM or SPBx.
11. Not available with HA option.
12. Sensor pass-thru (PER) may be overly sensitive below -20°C (-4°F).
13. Not field upgradable/configurable, requires WAC Gateway components WAC-POE and WPOE-120 in appropriate quantities. Only compatible with WaveLinx system and software and requires system components to be installed for operation. See website for more WaveLinx application information.
14. Not available on B1 or B4 lumen packages.
15. Requires 4-PIN twistlock receptacle (ZD or ZW) option.
16. Enlighted wireless sensors are factory installed and require network components LWP-EM-1, LWP-GW-1, and LWP-PoE8 in appropriate quantities. See website for application information.
17. Not available in B4 lumen package.
18. Low voltage option leads brought 18" outside fixture.
19. Use with 7" photocontrol only.
20. Fits on 2" O.D. x 4" long tenon for nominal 4-1/2" O.D. pole top.
21. This tool enables adjustment to Motion Sensor (MS) parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative for more information.
22. Requires 7-PIN NEMA twistlock photocontrol receptacle (PER7) option. The WOLC-7 cannot be used in conjunction with other controls systems (MS, ZW, ZD or LWR). Operates on 120-347V input voltages.
23. Smart device with mobile application required to change system defaults. See controls section for details.
24. Not available with fusing option. Not available with Buy American Act of 1933 (BAA). Not available with fusing of B or AST# ASTM D1654.
25. Only product configurations with this designated prefix are built to be compliant with the Buy American Act of 1933 (BAA). Please refer to DOMESTIC PREFERENCES website for more information. Components shipped separately may be separately analyzed under domestic preference requirements.
26. Accessories sold separately will be separately analyzed under domestic preference requirements. Consult factory for further information.
27. Narrow-band 590nm +/- 5nm for wildlife and observatory use. Choose Lumen Package B1. See IES files for photometric performance.
28. Must specify voltage (120V, 277V, or 347V) to fuse the single hot leg.
29. Not available with SLTD option.
30. If ZD or ZW only, shorting cap will be installed on 4-pin receptacle.

Re: Parking – Village Collection of Palm Springs

MacKenzie Engineering and Planning, Inc. (MEP) is submitting this Parking Analysis for the proposed Village Collection at Palm Springs (NW corner of 10th Avenue North and Florida Mango Road). There are three parcels that are going to share a common parking field. The proposed uses are shown in Table 1.

Table 1. Summary of Proposed Uses

Tract	Use-Tenant	Parking Use	Rooms/Employees Seats/SF	Unit
1	Woodspring Suites	Hotel	122 6	Rooms Employees
	Everhome Suites		114 8	Rooms Employees
2	Chick-Fil-A	Fast Food Restaurant	90 6,111	Seats SF
3	Chipotle	Fast Food Restaurant	54 2,454	Seats SF

Parking Ratios

The Village's Code requires one (1) parking space per three seats for fast food restaurants. Parking requirements for hotel uses are 1 space per room plus 1 space per employee (maximum shift) (Ordinance 2023-11).

Required Parking

A parking analysis was performed based on the City's parking rates. The required parking for the site is 298 spaces as shown in Table 2. The property will provide 330 parking spaces. Therefore adequate parking is available.

Table 2. Parking Analysis Result

Land Use	Total Intensity	Unit	Parking Rate	Base (# of spaces)
Hotel - Rooms	236	*room*	1	236
Hotel - Employees	14	*Employee*	1	14
Fast Food Restaurant w/ Drive Through	144	*Seats*	0.33	48

Total Required Parking	**298**
PARKING PROVIDED	**330**
Excess Parking Provided	**32**

RE: Village Collection of Palm Springs
Project #: 231102
Traffic Performance Standards (TPS) Review

Dear Mr. MacKenzie:

The Palm Beach County Traffic Division has reviewed the above referenced project Traffic Impact Study, revised December 13, 2023, pursuant to the Traffic Performance Standards in Article 12 of the Palm Beach County (PBC) Unified Land Development Code (ULDC). The project is summarized as follows:

Municipality:	Palm Springs
Location:	NWC of 10th Avenue and Florida Mango Road
PCN:	70-43-44-20-40-001-0000 and others on file
Access:	One full access driveway connection onto Florida Mango Road and one full access driveway connection onto 10th Avenue (As used in the study and is NOT necessarily an approval by the County through this TPS letter)
Existing Uses:	Drive-In Bank = 4,081 SF
Proposed Uses:	Adding: Hotel = 236 Rooms Fast Food Restaurant w/ DT = 8,595 SF
New Daily Trips:	3,484
New Peak Hour Trips:	279 (146/133) AM; 248 (128/120) PM
Build-out:	December 31, 2028

Based on our review, the Traffic Division has determined the proposed development is within the 10th Ave North Traffic Concurrency Exception Area (TCEA); therefore, it is exempt from the TPS of Palm Beach County.

The following conditions should be added to the Development Order of this project:

1) No Building Permits for the site may be issued after December 31, 2028.

2) The Property Owner/Developer shall eliminate the existing egress driveway on 10th Avenue.

3) The Property Owner/Developer shall construct right turn lane east approach at the project driveway on 10th Avenue to the County minimum standards, or as approved by the County Engineer.

"An Equal Opportunity Affirmative Action Employer"

printed on sustainable and recycled paper

Please note the receipt of a TPS approval letter does not constitute the review and issuance of a Palm Beach County Right-of-Way (R/W) Construction Permit nor does it eliminate any requirements that may be deemed as site related. For work within Palm Beach County R/W, a detailed review of the project will be provided upon submittal for a R/W permit application. The project is required to comply with all Palm Beach County standards and may include R/W dedication.

The County traffic concurrency approval is subject to the Project Aggregation Rules set forth in the Traffic Performance Standards Ordinance.

The approval letter shall be valid no longer than one year from date of issuance, unless an application for a Site Specific Development Order has been approved, an application for a Site Specific Development Order has been submitted, or the approval letter has been superseded by another approval letter for the same property.

If you have any questions regarding this determination, please contact me at 561-684-4030 or email HAkif@pbcgov.org.

Sincerely,

Hanane Akif, P.E.
Professional Engineer
Traffic Division

Subject: RE: Woodspring Rules & Regulations

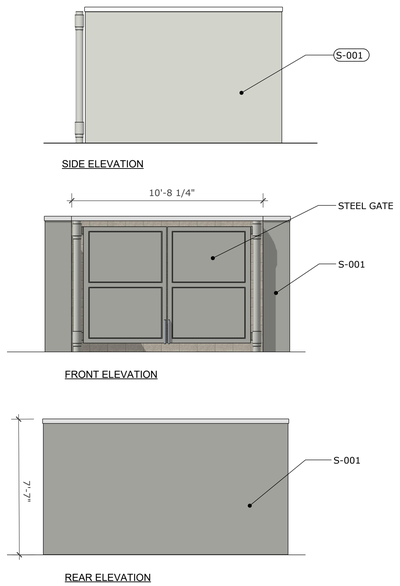
Tom:

Consider something like this for the letter to Palm Springs:

RE: 2645 10th Avenue N, Palm Springs, FL 33461

Dear Mr. [Mayor]:

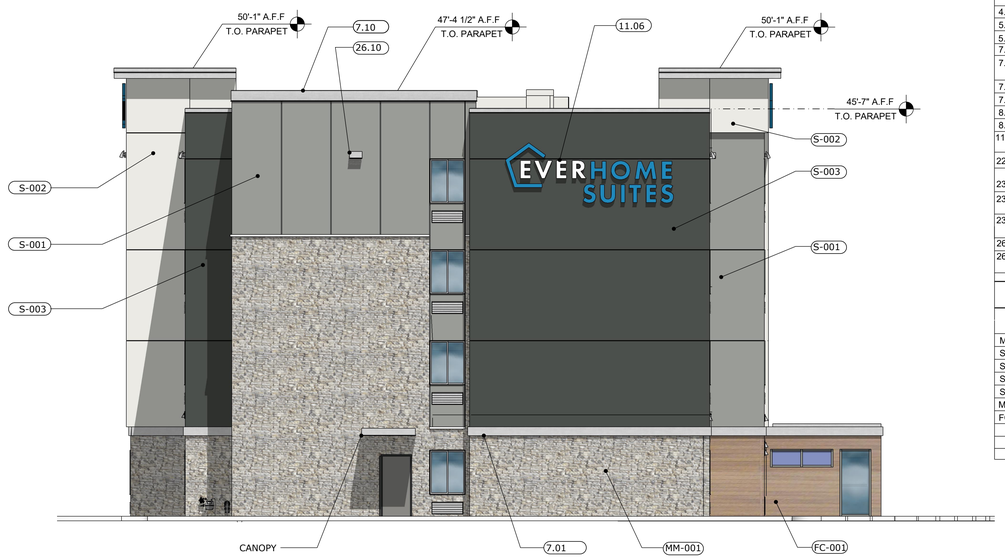
This letter is written as a follow-up to our discussions about the development of the above referenced property. As discussed, our development plans provide for a Woodspring Suites hotel (a Choice Hotel brand) at this site. Woodspring Suites prohibits any usage that would be detrimental to the Village of Palm Springs. The brand standards require that we use the property only for hotel use and expressly prohibit, for example, uses that: (a) are unlawful, unethical or immoral; (b) could reasonably be determined to have a material negative impact on Choice, its trademarks, or its business reputation; (c) do not meet or exceed the generally accepted standards of operation of leading hotel operators in the industry; (d) involve accommodations provided by any government social services or housing agency; or (e) involve gambling, gaming or adult entertainment.



We are long-term operators and franchisees of the Woodspring Suites brand and adhere to the brand standards and requirements. In doing so, the Village is assured that the site will operate in a first-class condition without guests that would violate brand standards or reflect negatively on us, the hotel or the Village.

We look forward to working with the Village on this project and a successful relationship over the years.

Sincerely



Sincerely,

Keith H. Stolzenberg, Esq.

Executive Brief

AGENDA DATE: April 11, 2024

DEPARTMENT: Administration

ITEM #20: Resolution No. 2024-11 Ratification of Inventory of Municipal Property for Affordable Housing (Senate Bill 102, 2023 Session - Live Local Act)

SUMMARY: The Live Local Act was passed by the Florida Legislature on October 1, 2023. This legislation requires municipalities to make an inventory list of all real property owned by them or any dependent special district that is appropriate for affordable housing. The list must be approved by resolution, discussed at a public hearing, and posted on the municipality's website.

The Village staff evaluated the properties owned by the Village and found that they all have current viable uses or are reserved for future planned uses. Please note that the Palm Springs CRA does not own any property, and no village-owned property has been identified as appropriate for affordable housing.

This hearing is solely to meet the legislative requirements and ensure that village-owned parcels are appropriate for affordable housing. To guarantee this, the staff will review the inventory regularly, at least every three years.

FISCAL IMPACT:
The discussion of available or surplus Village land does not generate a fiscal impact.

ATTACHMENTS:
1. Resolution No. 2024-11 Inventory of Surplus Village Property Appropriate for Affordable Housing
2. Village Owned Parcels

RESOLUTION NO. 2024-11

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA, ADOPTING AN INVENTORY LIST OF VILLAGE-OWNED REAL PROPERTY AND DETERMINING THAT ALL SUCH REAL PROPERTY ON THE INVENTORY LIST IS NOT APPROPRIATE FOR AFFORABLE HOUSING AT THIS TIME; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Live Local Act is new legislation that was passed on October 1, 2023; and

WHEREAS, pursuant to section 16.0451, Florida Statutes, the Village is required to prepare an inventory list of all real property that is village-owned, or that any dependent special district within its boundaries holds fee simple title, which is appropriate for use as affordable housing; and

WHEREAS, the Village has prepared an inventory list in accordance with the requirements of legislation and determined that all of the properties on the list have current viable uses or are reserved for future planned uses; and

WHEREAS, the inventory list must be presented at a public hearing and may be revised at the conclusion of the public hearing; and,

WHEREAS, the Village has determined that all of the properties on its inventory list are **NOT** appropriate for affordable housing at this time and such finding serves a valid public purpose.

NOW THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF PALM SPRINGS, FLORIDA;

Section 1. The Village of Palm Springs hereby adopts the inventory list of real property attached hereto as Exhibit “A”.

Section 2. The properties identified on Exhibit “A” are not appropriate at this time for affordable housing.

Section 3. This Resolution shall take effect immediately upon adoption.

Council Member _____ offered the foregoing resolution. Council Member _____ seconded the motion, and upon being put to a vote, the vote was as follows:

	Aye	Nay	Absent
BEV SMITH, MAYOR	☐	☐	☐
JONI BRINKMAN, _____	☐	☐	☐
PATTI WALLER, _____	☐	☐	☐
KIM SCHMITZ, _____	☐	☐	☐
GARY READY, _____	☐	☐	☐

The Mayor thereupon declared the Resolution duly passed and adopted this **11th** day of **April 2024**.
